

## **MIGHTY SK 1091**

### **Chapter 1091**

When he came to the hump bedroom, Wang Fan knew what wealth was. He was blinded by this scene.

There are five huge boxes in the bedroom of the hump, each of which is full of spirit grass.

At a glance, it's dense, and it's hard to help the heart beat faster.

Strong aura came to his face. Even if he didn't use the spirit grass to practice, Wang Fan felt a very comfortable feeling, as if his injuries had begun to heal independently.

"Ah, so much spirit grass?" Jiao Sanniang can't help but scream out. Rao Shi, who has seen the world, is still shocked by this scene.

She was born to be the best. Originally, she was quite satisfied with the spirit grass she was assigned, but now compared with the spirit grass in the hump, it's not comparable.

Let alone her. Even if the four of them got the spirit grass together, I'm afraid they didn't have as much as the spirit grass in one of the boxes.

Not to mention, the spirit grass in these five boxes is still the remains of hump cultivation.

Wang Fan ignored Jiao Sanniang's fuss, even he looked at the five boxes of lingcao, let alone Jiao Sanniang.

He did not immediately move the five boxes of spirit grass, but went to the hump bed.

He felt that the aura under the bed was stronger, so he wanted to see if there was something hidden below.

With a creak, Wang Fan pulled up the bed board. Suddenly, two jade boxes appeared in front of Wang Fan.

In one jade box lay a clover, and in the other two milky white stones of palm size.

"Ah, clover, spirit stone?" Before Wang Fan spoke, Jiao Sanniang could not help crying out again.

She couldn't help covering her mouth with her hand. Because of excitement, the arrogance of the upper circle began to jump.

Let alone Jiao Sanniang, even Wang Fan couldn't help his eyelids jumping wildly.

Clover, this is higher than the original withered yellow grass. I'm afraid this one is worth the five boxes of

lower level grass.

In addition, the spirit stone is a good thing for cultivation. Wang Fan photographed the spirit stone last time and practiced it with it. Naturally, he knew that the spirit stone was against heaven.

Rich, really rich.

Wang Fan did not expect that his harvest here in the hump would be so great.

If he had known that there were so many good things in the hump, he was not sure whether he would have avenged himself first or come here first.

"Don't get excited or yell. Don't worry. These things belong to us. As long as you do well, I won't treat you badly. " Wang Fan said to Jiao Sanniang.

Jiao Sanniang nodded quickly, but soon she asked, "how can we take away so many spirit grass?"

Jiao Sanniang is really worried about this problem. Clover and spirit stone are easy to say, but the five boxes of spirit grass are not so easy to take away.

Can't she go out with Wang Fan carrying two or three boxes? Let's not say whether it's good to carry it. If someone sees it, it's probably a lot of trouble.

"You don't have to worry about these. You help me guard them. I'll deal with them." Wang Fan had thought about this problem for a long time and said without hesitation.

If he hasn't seen baicaoji, if he can't alchemy, in the face of so many spirit grasses, he really has no good way. He can only practice on the spot or carry them with a box.

But now, Wang Fan, who can alchemy, is not worried about this problem at all. He just needs to turn these spirit herbs into pills.

Although it takes a little time, pills are better than lingcao, and the effect of cultivation is much better.

Wang Fan's only worry is whether there will be any moth in Jinghan.

If he was in the process of alchemy, Jing Han went to Zhulan and brought Zhulan over, he would be in great danger.

Thinking of this, Wang Fan quickly said, "now go and call Jing Han over, and you will stay outside together. Remember, don't let him in, and don't disturb me before I go out. "

"Good." Jiao Sanniang nodded and ran out without hesitation.

After Jing Han returned to his room, he didn't sleep much.

Originally, with the support of hump, his life is relatively moist.

But now that the hump is dead, he can only find a way to join the other four forces. Otherwise, he would not be able to gain a foothold in the ruins city.

Among the other four forces, the Zhulan force is definitely the most powerful. If there is no threat from Wang Fan, he will go to Zhulan.

But now Wang Fan threatened him. He didn't know whether he wanted to go to Zhulan.

Just as Jing Han was thinking about these, she was a little depressed. Jiao Sanniang came to the door.

Jing Han looked at Jiao Sanniang and sat up, "Sanniang?"

He suddenly had a bad feeling in his heart. Is it difficult for Wang Fan to repent and kill him again? But if Wang Fan wants to kill him, why don't he come here in person?

Jiao Sanniang saw through Jing Han's mind and said directly, "brother Jing, Master Wang asked me to invite you to come over. Don't worry, he won't kill you, or he won't let me come here. "

"Do you know what he wants from me? Sanniang, at least we've been together. I don't think Jinghan has any place to apologize to you. Can you give me a clue? "

Jing Han is still a little uneasy. He puts on his clothes and asks.

Jiao Sanniang sighed, "I don't know. Wang Shao just asked me to take you to the outside of the hump bedroom for a while, and didn't say anything else."

"For a while? He wants to practice? Or to test you and me? " Jing Han thought of these in an instant.

"I don't know." Jiao Sanniang shook her head.

She still did not tell Jing Han about the discovery of lingcao Lingshi in the hump bedroom. Not to mention that this kind of thing is too important, she is not sure whether Jing Han will have any idea after knowing.

Moreover, although they were all under the command of hump before, they had different ideas and didn't really get along as well as they seemed.

Of course, there is also the most crucial point, that is, Jiao Sanniang feels that Wang Fan has done something wrong with herself.

She and Wang fan are already grasshoppers on the same rope. Once Wang Fan has something to do, most of her charming three niangs will not get better.

On the contrary, Jing Han has no such worries. If he knew about Lingshi lingcao, he would be greedy and hurt Wang Fan secretly. Wouldn't her Jiao Sanniang also suffer?

Although Jing Han didn't find anything from Jiao Sanniang, he still didn't dare disobey Wang Fan. He soon followed Jiao Sanniang to the room outside the hump bedroom.

After Wang Fan came out and said hello to them, he immediately went back to his bedroom and began to refine the medicine.

Because Wang Fan's refining medicine is not really refining medicine, he just compresses lingcao into Dan medicine by specific means, so it is not so complicated.

In his action, soon, a plant of spirit grass turned into a pill, which was collected by Wang Fan into the two jade boxes containing clover and spirit stone.

As for clover and spirit stone, clover has been first put away by Wang Fan as a pill, and spirit stone has been put into his trouser pocket in advance.

The time of the night passed quickly, the spirit grass of the two boxes had disappeared, completely turned into a grape sized elixir.

Although Wang fan is very tired, he is very excited.

Perhaps it was because refining pills required concentration, and he felt that his mental strength had increased a lot.

He even has the illusion that sometimes he doesn't need to open it at all, he can clearly detect what the spirit grass in the box looks like and the pills that have been successfully refined.

That feeling is more real than seeing it with my own eyes.

## **Chapter 1092**

"The aura in the bedroom is so strong. What is Wang Shao doing in it?" Jing Han had already felt the rich aura in the bedroom.

Especially during the night, the rich aura didn't break, and it would come out from time to time. He didn't dare to ask before, but now he can't help asking.

Jing Han was born to be a strong man. He spent a night outside. Although he was not tired, he was suffering.

After all, Wang fan is in the bedroom. He doesn't know what attitude Wang Fan has towards him.

Jiao Sanniang didn't speak, but there was doubt in her eyes.

She also did not understand what Wang Fan was doing in the bedroom, but she did not dare to go in to see without Wang Fan's consent.

As soon as Jing Han saw Jiao Sanniang's expression, he knew that Jiao Sanniang didn't know what Wang Fan was doing, so he simply stopped asking more questions and continued to suffer.

Naturally, he did not dare to rush in to disturb Wang Fan, otherwise Wang Fan would not be more difficult than killing a chicken.

Jing hanjiao Sanniang is so dreary outside. Although she is a lonely man and a few girls, she seems to be very emotional.

But in fact, there was no ambiguous atmosphere between them at all, and Jing Han didn't dare to have any wrong ideas about Jiao Sanniang.

He didn't dislike that Jiao Sanniang had too many men, but because Jiao Sanniang was not weaker than him, but also had a heart like snakes and scorpions, and didn't know how many men she had killed.

As long as one is not happy and the other is not satisfied, there will be violent killing.

This kind of woman, he Jinghan did not dare to touch, he was afraid that he did not know how to die.

Let alone Jing Han, even the original hump did not dare to go to bed with Jiao Sanniang. This shows Jiao Sanniang's dangerous position in their hearts.

Wang fan doesn't know Jinghan's messy thoughts outside. He is still refining pills.

He felt that his mental strength had become stronger and stronger. When he closed his eyes, he could see not only the spirit grass and pills in front of him, but also the whole room.

Every table, every chair, every wood, even the cracks in the ground, are so clear.

With the passing of another hour, another box of spirit grass was refined by Wang Fan, and there were only two boxes of spirit grass left in front of him.

And at this time, his mental power has been able to penetrate the room, aware of the situation outside Jing Han and Jiao Sanniang.

Wang Fan clearly saw that Jiao Sanniang was sitting on a chair, with her right hand holding her gills, her legs slightly wrong, and her eyes twinkled with doubts, anxiety, and even worry.

Jing Han is in constant pace, as if some uneasy, even his face is still hanging beads of sweat.

These are not the most important. The most important thing is that Wang Fan's spiritual power falls on them, and they all seem to have no perception.

Wang fan is aware of this scene and is very happy. He knows that he has another means.

This means is against heaven!

He did not pay attention to Jiao Sanniang and Jing Han. Instead, he concentrated his mental power on the spirit grass and continued to refine it quickly.

In the northernmost direction of the ruins city, there is a huge mansion, which is no worse than the one on the hump, and even more magnificent.

At the moment, nine people were sitting in one of the conference halls in the central wing of the mansion.

Of the nine, eight are at the top of their ability, which is very powerful. In the middle of the first person, the strength is beyond the congenital peak, reached the out of the ordinary situation.

This man is no other than Zhu LAN of nuquan.

At this time, Zhu LAN has a bald head, triangular eyes, eyes, lunar calendar, fierce face, sitting there like a lion, not angry from power.

He's a person's momentum, on the pressure of the next eight congenital peaks are breathless, it's terrible.

Zhu LAN is in a bad mood now. Since he learned that Wang Fan came to the ruins city, he couldn't eat every day and couldn't sleep at night. He wanted to tear Wang Fan to pieces.

Wang Fan killed several of his disciples, even killed several Tianjiao of his Nu Quan sect, and destroyed his vassal force, the ouyan family.

This to Zhu LAN, simply is ruthless, can't again ruthless slap a face.

He had planned to come to the spring city to investigate the relics of the master, and then he went to find a way to kill Wang Fan, but unexpectedly, he fell into the relics City.

He thought that there was not much hope to kill Wang Fan in this life, but he didn't expect that not long after this, Wang Fan came to the relic city.

For this reason, he did not hesitate to take the risk of feuding with Ye Nantian, and was even willing to take out the night and the hump to replace him.

You know, he didn't save the night for the beauty of the night. But because he knows that night is Ye Nantian's dry daughter and chief apprentice.

He saved the night, there is a lot of ingredients is to make ye Nantian.

After all, just because he can't get out of the relic city now doesn't mean he won't go out in the future. If you get away with it and make friends with Ye Nantian, it's only good but not bad.

Now, he is willing to exchange the night for Wang Fan, which shows his anger to Wang Fan. It's not that Zhu LAN didn't want to kill the hump and catch Wang Fan.

But first, even if the strength of the hump is weaker than him, it is not so easy to be killed.

Second, Wang fan is too alert and cunning. In case Wang Fan gets the news and sneaks away, he will get nothing.

Third, the other three forces will never stand by and watch him destroy the hump force.

Although it is not a big problem to wipe out the hump force with the influence of tazhulan, it is not enough to see if the other three forces join hands.

"There's no news from the hump. Didn't he say that Wang Fan could be sent by this morning at the latest? Why hasn't he come yet?"

At a certain moment, Zhu LAN finally could not help but open her mouth and asked with a gloomy face.

The next eight people have no one to speak, they also do not know what the reason is, now speaking is tantamount to touching the moldy head of Zhulan.

When Zhu LAN saw that no one spoke, she could not help frowning. Then she pointed to two of them and said coldly,

"Luo Yan, Feng Hu, you two go to the hump to see what's going on? Let's see if it's the boy named Wang who runs away, or the hump who goes back on his word. "

Zhu LAN didn't know what happened to the hump forces.

Relic city is not outside. There are only a few people, and all of them are new people.

Moreover, no matter Zhu LAN or other forces' minds, they have just come to the relic city for a short time, and there is no infiltration of forces at all.

Although Zhu LAN wanted to go there in person, he couldn't go there in person.

The five forces all have scruples about each other. Once he goes there in person, he will definitely attract the attention and suspicion of the other three forces.

What's more, for the sake of the night before, he had a battle with the hump outside the city.

"Yes

"Yes

With Zhu Lan's order, the two middle-aged men stood up, responded respectfully, and immediately exited the conference room.

Luo Yan and Feng Hu are the two most powerful congenital peaks of Zhu Lan's power. Even if we look at the congenital peaks of the whole relic City, their strength can be ranked in the top five, which is very strong.

"Wang Fan, you have to die. If you don't die, I'm upset."

Zhu LAN saw that Luo Yan and Feng Hu went out. There was a flash of extreme cold light in her eyes, and her mouth made a gnashing sound.

Wang fan is still refining medicine, but Jiao Sanniang Jing Han is a little anxious.

It's been a night, it's been a day. Why hasn't Wang Fan come out yet? What is he doing in his bedroom?

If they could not hear the occasional slight sound in the bedroom, or still feel the rich aura in the bedroom, they could not help rushing in to have a look.

"Master hump, Luoyan Fenghu has come to visit us. Please see me."

At the moment when Jing hanjiao Sanniang was restless, with a strong voice, Luo Yanfeng and Hu appeared in their sight.

"Luo Yan, Feng Hu, isn't this the man under Zhu LAN?" Jing hanjiao Sanniang looks at Luo Yan and Feng Hu. Her face can't help but change in an instant!

### **Chapter 1093**

Although they don't have much to do with each other, Jiao Sanniang Jing Han still knows Luo Yanfeng and Hu.

After all, the relic city is so big, and there are only 30 strong people at the top. It's not surprising that

they know each other.

The most important thing is that Jiao Sanniang Jing Han also knows that there is a big hatred between Wang Fan and Zhu LAN.

Now Zhu Lan's generals have come here, obviously for Wang Fan's sake.

"What to do, what to do?" Jiao three Niang two people all some anxious get up.

Let's not say whether Wang fan can be disturbed now, and they also know themselves very well. I'm afraid they are not the opponents of Luo Yan.

"Master hump, Luoyan Fenghu has come to see you. Please see me again."

Luoyan Fenghu is also a little strange. They have already appeared here. Why not only did the hump not appear, but also Xie Zhengwu Heng and others, who were born with the highest peak, did not appear?

You know, this was impossible before.

After all, they are not people from the hump, but now they are swaggering around in the hump mansion. It doesn't make sense that people don't come out to warn them.

But now, in fact, there is really no one, even if Luo Yan has made a sound, there is still no one.

Luo Yan and Feng Hu immediately realized that something was wrong. I'm afraid there might be something wrong with hump forces. But as for what's wrong, they haven't thought about it yet.

"Luo Yan, Feng Hu, the hump master is closing. There is no time to see guests. Please go back. When master hump leaves the customs, I will report you to him about your visit. "

Jiao Sanniang soon recovered her mind and said immediately.

She knew that Luo Yan was absolutely not allowed to disturb Wang Fan at this time. Otherwise, once something happened, the consequences would be bad.

Now that Luoyan Fenghu doesn't know the news that the hump was killed, she doesn't mind taking out the hump skin to scare them.

Although Jiao Sanniang really believes that Wang Fan killed the hump now, it's useless for her to believe it.

In the eyes of Luo Yan Feng Hu, Wang Fan's fame is certainly not as famous as hump. If she carries Wang Fan's name out, it will only be self defeating. It's better to move out of the hump.

However, even though Jiao Sanniang's tone was as calm as possible, she was still a little nervous.

Although the tension can be ignored, it is still clearly perceived by Luoyan Fenghu.

"Is the hump seriously injured and healing?" Falling speech sealed tiger to look at one eye, in the heart soon had the idea.

Also, if the hump is not injured, why does it not appear until now? If the hump is just closed, why is Jiao Sanniang Jing Han nervous?

Luo Yan did not immediately retreat, but stepped forward two steps, "we have important things to find the hump master, we can wait here for the hump master to pass."

When he said these words, his eyes were always tightly fixed on Jiao Sanniang's face, paying close attention to Jiao Sanniang's reaction.

And after that, he added, "by the way, brother Xie and brother Wu, why didn't you see that? Anyway, we don't meet old friends we don't know. Should we always show our face and say hello?"

Sure enough, Jiao Sanniang Jing Han listened to Luo Yan's words and watched them approach the room step by step. His face was a little ugly.

Luo Yan Feng Hu looks at Jiao Sanniang Jing Han's face and confirms his guess. The pace of progress has become more powerful and full of confidence.

In their opinion, most of the humps were seriously injured, otherwise Jiao Sanniang and her husband could not be so nervous.

If they can take this opportunity to kill the hump, they will not only get Zhu Lan's appreciation, but also get the spirit grass from the hump.

In places like relic City, lingcao represents strength, strength represents status and how long you can live.

Zhu LAN didn't dare to kill the hump easily. He was worried that if he couldn't kill the hump, he would be besieged by the leaders of the other three forces.

But if the hump died, even if the other three forces would be dissatisfied, I'm afraid they would not fight with Zhu LAN for the sake of a dead man in the hump.

Luoyan Fenghu soon approached the house, less than three meters away.

Looking at the two people approaching step by step, Jiao Sanniang Jing Han can't help but become more nervous.

Especially Jiao Sanniang, her eyelids are jumping wildly.

Wang Fan's accident means that she has an accident. How can she tolerate these two people threatening Wang Fan?

Seeing that they were getting closer and closer to the house, Jiao Sanniang bit her teeth, picked her eyebrows, and suddenly walked out of the house, took a step forward and said, "the hump master is closing the door. Don't disturb me."

"If you know what's good for you, you'll step back. I'll report it to you when you get out of the hump. Otherwise, if you dare to step forward, don't blame me for being impolite. "

Jiao Sanniang's eyes were cold, and she threatened coldly, "this is our territory. If you irritate the hump master, I'm afraid Zhu LAN can't save you. You'd better think about the consequences!"fulminate!

When Luo Yan Feng Hu heard Jiao Sanniang's threat, he was not afraid. On the contrary, his pace was more steady and powerful.

Luo Yan pointed to Jiao Sanniang and said with a smile, "Sanniang sister, you are wrong."

"We're just looking for the hump master. There's something important. When did we say we'd disturb the hump master?"

He laughed, but also made a promise, "don't worry, we'll be waiting for the hump master to go out of the pass, we won't disturb you."

Feng Hu also intentionally or unintentionally inserted a sentence, "look at you so nervous, is something wrong with the hump elder?"

Rao Shijiao Sanniang was ready, but she was suddenly pierced by Fenghu. Her face changed and her heart beat faster.

However, she soon resisted the fluctuation of her heart and cheered coldly, "master hump, can you speculate wantonly? If you dare to be presumptuous again, I will report to you truthfully. "

Although she wanted to slap Luo Yan to death, she still had the self-knowledge to resist the impulse and had to make concessions,

"well, since you don't go, you will wait outside. You can't enter without the permission of the hump master! "

Jiao Sanniang can't get rid of Luoyan Fenghu, so she can only do her best to delay time. As long as she delays until Wang Fan comes out, then Luoyan Fenghu will die.

"Sanniang, wait outside. It's not a way to treat guests. Why don't we go into the room and talk about our hearts, and talk about the romance? "

"To tell you the truth, I have admired you for a long time."

Luo Yan stares at Jiao Sanniang with a smile, and his eyes sweep the delicate body of Jiao Sanniang without fear, especially staying for a few seconds on that pair of arrogance.

Although Jiao Sanniang is a bit dissolute, she always teases others. When was she teased by others? Anger sprang up in her heart!

Just she just planned to speak, fall speech already suddenly hand, hold Jiao three niangs to pull to the side for a while.

If Luo Yan is with the intention of killing, even if Jiao Sanniang is not as strong as Luo Yan, she can react in an instant and fight back.

Can fall on the speech body but don't have the slightest murderer, just so casual to pull her, she some didn't react to come over.

Almost Jiao Sanniang had just been pulled apart, and the tiger beside Luo Yan had already swept into the room like lightning, knocked Jing Han away and rushed towards the hump bedroom.

"Son of a bitch, what do you want to do?"

"Stop!"

Jiao Sanniang Jing Han looks at this scene, his face is even more changed!

They did not expect that Luoyan Fenghu should be so bold, even the hump dare to offend.

Is it difficult for Luoyan Fenghu to know that the man inside is not hump, but Wang Fan? Otherwise, even if it is hump training, seriously injured, how dare they offend?

Jiao Sanniang Jing Han's heart is like falling into an ice cellar, sweating.

It happened so fast that they couldn't stop it.

#### **Chapter 1094**

Fenghu is really like a fierce tiger, which has rushed to the bedroom door in a flash.

He didn't mean to stop and knock at all. There was a grim light in his eyes and he ran into it in the most violent way.

What's the most taboo, whether it's cultivation or healing? It must have been interrupted in the process of cultivation or healing.

If it's not a critical moment, it's better, but if it's a critical moment and interrupted by such sudden violence, it will definitely be backfired.

If it's light, it's serious. If it's heavy, it's fatal!

With a bang, the bedroom door cracked. Feng Hu's eyes brightened. He was planning to scan the hump and hit it hard.

Can "whew" ground a, the knife light of a sharp edge already head-on split to come over.

Feng Hu's face changed wildly, and he felt the extreme chill.

In his eyes, the light of the sword was everywhere, the awn of the sword was everywhere, and the awn of the sword was also rolling up the violent killing power.

In an instant, he realized that he was finished.

This kind of sabre force, let alone caught him off guard, even if he had made a good defense ahead of time, he might not be able to stop it.

Feng Hu wanted to retreat, but the inertia of forward rushing didn't allow him to retreat at all. He just barely stopped his body shape, and the awn of the sword had already rolled to kill him.

Hiss.

There was a numbing sound, and a blood mist burst out from Feng Hu's body, then the whole person flew out.

He's faster to get in and faster to get out. It gives people the feeling that he sent it up specially to chop it.

With a bang, Feng Hu fell to the ground, stained with blood, and could not get up again.

There was only fear, horror and disbelief in his eyes.

Jiao Sanniang, Jing Han, Luo Yan, the eyelids of the three people are also hard to shake, the heart set off a storm.

None of them thought that it would end like this.

Feng Hu had already taken half of his life in a twinkling of an eye. Even if he was not dead now, it would be more or less dangerous.

"Who are you? Why do you want to break into my house and disturb my cultivation? Have they not told you, Jiao Sanniang, that no one can disturb me? "

With a faint voice, Wang Fan slowly came out of the bedroom.

After a night of alchemy, he looked a little tired, and there was no momentum on his body, but no one dared to underestimate.

"Wang Fan?" Feng Hu Luo Yan saw Wang Fan, his face changed in an instant. Although they have not seen the real person Wang Fan, they have seen the portrait of Wang Fan.

They didn't expect that Wang Fan had occupied the hump's residence, and Jiao Sanniang and Jing Han were still respectfully guarding outside.

Has hump been solved by Wang Fan? Otherwise, why does Wang Fan dare to occupy the hump, and why does Jiao Sanniang Jing Han willingly guard Wang Fan?

"Oh, you know me?" Wang Fan's eyelids jumped for a while, and soon came back, "it seems that you are from Zhulan."

"Why, the old man can't wait to see if I was caught by the camel? It seems that the old man really wants me to die at once

Wang Fan has only been in the ruins city for a few days. It is reasonable to say that few people know him at all, let alone the peak.

Now the two men, who had never met before, recognized his identity at a glance. It was obvious that they had seen his portrait.

Wang Fan didn't have to think about it. He knew that they must be from Zhulan.

Feng Hu listened to Wang Fan's words, but it was better. After all, he had already been taken away half of his life and had no hope of living.

But Luo Yan's scalp is numb.

How did he not expect that Wang Fan could guess their identity just by two words, and his mind was too keen, right?

The most important thing is that Wang fan knows his identity. Can he still live today?

Before he saw Wang Fan's knife, even if he really met Wang Fan, Luo Yan would never be afraid of Wang Fan.

It can be seen that Luo Yan already knows the gap between himself and Wang Fan after knowing Wang Fan's knife.

He and Wang Fan fight, there is no chance of victory. Let alone next to Jiao Sanniang and Jing Han.

"Wang Fan, I just work under Zhu LAN. He asked me to come here, but I can only come here."

Luo Yan did not dare to think of anything else. He said quickly, "it's Zhu LAN who has a grudge against you, not me."

"I promise that I will never take part in the affairs between you. Please give me a way to live."

Falling speech while speaking, can't help but slightly moved two steps.

If he had known that Wang Fan had occupied the hump residence, and his strength was still so strong, he would never dare to come.

Unfortunately, the world did not know.

"How to survive?" Wang Fan sneered, "I give you a way to live, then who gives me a way to live? If I didn't have the strength, if I didn't have a knife just now to waste that waste, would you give me a way to live? "Wang Fan points to Luo Yan, "has Jiao Sanniang ever told you that she is not allowed to come in and disturb the people inside?"

"You not only don't listen, but also pull away Jiao Sanniang and break into Jing Han. You say, you are so arrogant, can I let you go? "

Luo Yan listened to Wang Fan's words, and his face changed again.

Wang fan is clearly in the bedroom. How does he know what happened outside?

Isn't that weird?

Luo Yan didn't dare to think about it any more. A ferocious flash appeared on his face, and his toes suddenly touched the ground. Then he rushed to Jiao Sanniang like a wolf tiger.

At this time, if he blindly runs away, it is meaningless, and he has no confidence to escape.

His only hope is to see if he can win the weakest Jiao Sanniang and then threaten Wang Fan.

"What are you doing?" Jiao three years aware of falling speech action, face crazy change, crazy back up.

But her hasty retreat did not have the speed to rush out. What's more, there is still a certain gap between them.

Jiao three Niang just stepped back two steps, fall speech has already bullied near her body, slapped toward her to clap past.

Jiao Sanniang gritted her teeth and resisted with her arm.

PA ground a, fall the palm of speech falls on Jiao three Niang's arm, immediately press her arm to blow in her chest.

Jiao Sanniang spat out a mouthful of blood, and a touch of madness flashed in her eyes.

Just did not wait for her to give a crazy counterattack, Luo Yan had clasped her shoulder and pulled forward, while pulling her into her arms, her right hand was also stuck in her throat.

"Don't move!" Luo Yan's cold voice came out, Jiao Sanniang's body was instantly stiff.

This scene, not to mention Jiao Sanniang some can not accept, even Wang Fan did not expect.

Wang Fan did not expect that the gap between Jiao Sanniang and Luoyan would be so big.

Luo Yan's shot just now was decisive and sharp, without any fancy. He was so fierce that he was in a mess. At first sight, he was a master with rich experience in actual combat.

Jing Han had no recollection. He thought that his innate peak was good, even if he could not arouse Wang Fan's abnormal, at least it was not bad.

Can see the hand of fall speech, he just knows, he is still far away.

Luo Yan's strength, let alone killing him, is not too difficult even if he kills two.

Luo Yan controlled Jiao Sanniang, licked her lips, and glanced at Wang fan through the lunar calendar.  
"Wang Fan, can I give you a way to live?"

## **Chapter 1095**

Luo Yan one hand is holding Jiao Sanniang's white neck, one finger is pointing at Wang Fan's cold mouth,  
"Jiao Sanniang is also your person now?"

"It's a pity to die, not to mention that she's so beautiful. Only she is willing to guard at the door for you, and she does not hesitate to offend us. She is loyal to you. Are you willing to watch her die? "

"If you really don't care about her life or death, I can only say that you are so chilling. I'm afraid no one

will be loyal to you any more."

This guy is not only tough, but also good at attacking.

He attacked not only Wang Fan's heart, but also Jiao Sanniang's.

It can be imagined that if Wang Fan really does not care about Jiao Sanniang's life and death, Jiao Sanniang will be really cold hearted.

In that way, even if Jiao Sanniang didn't die, she would disobey Wang fanyin.

Wang Fan's heart is also a burst of fire.

Luo Yan actually controlled Jiao Sanniang in front of him, which is really a slap in the face.

Although he could kill Luo Yan regardless of Jiao Sanniang's life and death, he couldn't do that.

Let's not say that it's against his heart. The most important thing is that he hasn't thought of killing Luoyan.

Otherwise, he could not talk nonsense with Luo Yan before, and Luo Yan would not have the chance to hijack Jiao Sanniang later.

"I can let you live, but how can you guarantee Jiao Sanniang's safety? If I put you on the front foot and you hurt her on the back foot, don't I lose my wife and lose my soldiers? "

Wang Fan's heart soon calmed down, but he still made an angry appearance on the surface.

"Wang Shao." Jiao Sanniang listened to Wang Fan's words and was moved in an instant. Her eyes turned red.

To tell you the truth, she is not a good bird. There are 800 innocent people who have died in her hands.

Jiao Sanniang, who is used to the rules of the jungle and the supremacy of interests, never thought that Wang Fan would give up the chance to kill Luoyan for her sake.

You know, Luo Yan is Zhu Lan's man. If Luo Yan goes back like this, it is estimated that the next second, Zhu LAN will personally bring people to kill him.

In this case, if she was in Wang Fan's position, she could not guarantee whether she would take care of her own life or death.

However, for her safety, Wang Fan did not hesitate or even consider it, so he agreed to let Luoyan live.

How can Jiao Sanniang not be moved?

Not to mention Jiao Sanniang, even Luo Yan was shocked.

He used to treat the dead horse as a living horse doctor, but he held one in ten thousand hopes, but he didn't expect that Wang Fan actually agreed.

After reaction, Luo Yan was ecstatic, "you, are you really willing to let me live?"

He has ignored the question of "how to ensure the safety of Jiao Sanniang" behind Wang Fan. Now he just wants to confirm whether he has heard wrong.

Wang Fan frowned, "don't talk nonsense. I, Wang Fan, said that if I let you go, I will let you go."

"I can let Jiao Sanniang escort you to leave this house, but after you leave the house, you will release her immediately, and you can't touch her half a hair."

"Otherwise, I'm sure you won't have a chance to escape back to Zhulan. I'm sure I can kill you before you run back. Believe me, I'm wang fan

Luo Yan didn't need to think about it at all. He nodded immediately, "OK, OK, that's it. Don't worry. As long as you let me step out of the house safely, I'll let her go right away."

Then he took Jiao Sanniang and went out.

For him, this is the best way.

In this house, he is really afraid of Wang Fan, because in it, even if he yells, no one will take care of him. After all, it belongs to the hump.

But once out of the gate, it's different. As long as Wang Fan dares to pursue and kill him, he can not only run, but also call for help in an instant, attracting the attention of other forces.

As for Feng Hu, who fell to the ground, he was too busy to take care of himself. Where else could he have time to take care of him?

Wang Fan didn't follow Luo Yan to leave the house. After he signaled Jing Han to follow him, he kicked Feng Hu and said, "you could have lived, but unfortunately, your companion abandoned you."

"I can give you a way to live now, but it depends on whether you will cherish it."

Feng Hu saw that Luo Yan left completely regardless of his life and death. He was already completely desperate. Now after hearing Wang Fan's words, he became excited immediately.

"I will cherish, I will cherish, what do you want me to do? What's more, I'm injured like this now. Can you really save me

Who wants to die if he can live? Only living can have hope.

No matter what Wang Fan said is true or false, it is life-saving straw and the only hope for Feng Hu.

Wang Fan no nonsense, took out a silver needle in his body a few times.

Feng Hu immediately felt that his injury was contained.get instant results.

There was a surprise in his eyes. It seems that Wang fan is not talking nonsense. People really have the ability to save his life.

"I'm going to ask you a few questions. You have to answer me honestly."

Wang Fan simply dealt with the trauma of the next seal tiger, and then he asked, "first, how many congenital peaks are there in Zhu LAN? How is the strength compared with you and Luo Yan?"

"Second, Zhu Lan's strength is several levels in the tuofan area. Compared with the hump, there is not a big gap."

"Third, is there a dark night with you? How is she now? Where is she locked up?"

These things are what Wang Fan urgently wants to know. Only when he knows himself and his enemy can he win a hundred battles.

Even if he wants to go to the door to save people and seek revenge, it will be beneficial and harmless for him to understand the influence of Zhu LAN.

Feng Hu heard Wang Fan's question, did not hesitate, quickly answered.

In this case, he did not dare to lie at all. After all, Xiao Ming is in Wang Fan's hands. As long as people find something wrong, they will kill him.

As for whether he would offend Zhu LAN by answering Wang Fan's question, Feng Hu can't care so much.

Let's not talk about whether Zhu LAN could know that he told Wang Fan these things. Even if he knew, what would he do?

He didn't tell Wang fan that he was going to die now. He told Wang fan that even if he died, he would die later and not necessarily. This kind of multiple-choice question didn't need to be considered at all.

"Wang Shao, Wang Shao."

When Jing Han comes back with Jiao Sanniang, Wang Fan already knows what he wants to know.

Seeing that Jiao Sanniang came back safe and sound, he was also relieved.

No matter how vicious this woman was and how many people she killed, she has performed well from last night to now.

"It's good that you're all right. If I guess well, Zhu LAN will bring people to kill you later."

"He's a strong man in the world. I may not be able to cope with him. It's uncomfortable for you to follow me."

"I have some pills here. I'll give them to you first. You can find a place to hide or go to other forces."

"I just hope that in the future, if possible, you can help me when I need help."

Wang Fan said, grabbing out two bags and handing them to Jiao Sanniang and Jing Han respectively.

Of course, he gave more pills to Jiao Sanniang than to Jing Han. After all, Jiao Sanniang worked harder.

With that, Wang Fan took out the silver needle again and pricked Jiao Sanniang several times. After thinking about it, he threw five or six pills to Feng Hu. Then he said, "let's run for our lives. We'll see you later."

With that, Wang Fan quickly left the house.

Originally, he intended to use Jiao Sanniang to find a way to get close to Zhu Lan's forces, and then act on the occasion to save others. But now Luoyan's appearance gives him a new plan.

"Wang Shao." Jiao Sanniang was numb, but after she recovered, there was no trace of Wang Fan.

## **Chapter 1096**

"What did you say? Hump dead? Jiao Sanniang, Jinghan, Fanshui? Wang Fan occupied the hump residence, but also a knife abandoned the seal tiger

When Zhu LAN heard the news that Luo Yan had brought back, she immediately stood up and was shocked in her eyes.

Hump is a strong man who can escape from the world. Although it is a little worse than his Zhulan, it is also limited. How can it be killed by Wang Fan?

He couldn't believe it at all.

In addition, although Wang fan is powerful, he is not so powerful that he can abolish Feng Hu with one knife, right?

Although Zhu LAN had never met Wang Fan, he had heard of Wang Fan's achievements. What's more, he knows the strength of Fenghu very well.

In his opinion, Wang fan can't have the strength to abolish Fenghu. If Wang fan can really get rid of Feng Hu, then his growth speed is too terrible, right?

"Yes, it should be. Although I didn't see Wang Fan kill the hump with my own eyes, if he didn't kill the hump, how dare he occupy the hump residence? "

Luo Yan answered with fear, "but Jiao Sanniang Jing Han is against the water. I dare to be 100% sure about that. What's more, Wang Fan abolished the seal with one knife, which I saw with my own eyes. "

"If I hadn't been clever enough to hijack Jiao Sanniang at the critical moment, then Wang Fan really cared about Jiao Sanniang. I'm afraid I would not have come back."

Luo Yan also asked the doubts in his heart, "but I don't understand. How can Wang Fan release me for the sake of a charming third lady? Is there any conspiracy?"

Luo Yan really can't understand why Wang Fan let him go for Jiao Sanniang.

You know, Jiao Sanniang is just a dog under Wang Fan.

Even if Jiao Sanniang is a woman, she is still Wang Fan's dog.

But Wang Fan let him go for the next dog. It doesn't make sense.

"It's nothing strange. Wang fan is not a member of the yuan clan. He is not so cold-blooded and merciless. It's normal to attach importance to friendship."

"What's more, I heard that Wang fan is lustful, and Jiao Sanniang is so licentious and coquettish. He can understand that he let you back for Jiao Sanniang."

After answering Luo Yan's question, Zhu LAN immediately stood up again and said, "follow me to hump mansion again."

"I'd like to see what opportunities Wang Fan has gained and why he has grown so fast."

"I don't believe it. In such a short time, he grew up to be able to compete with me."

He said, also pointed to the other six peaks, "you give me a good guard of the door, especially the night

side, give me close attention."

"Wang fan is insidious and insidious. He is as cunning as a fox. I'm afraid that if I fall into his plan of luring the tiger out of the mountain."

"As long as Wang Fan really dares to come, you will try to hold him down. As long as I don't find Wang Fan in the hump, I will go back immediately. "

Zhu Lan's mind is very active, others don't know the friendship between Wang Fan and the night, but he still knows, he is afraid of Wang Fan's plan.

I have to say that this guy didn't live to a dog at such an old age. He was very considerate.

However, he knew that Wang Fan's plan was very likely, so he had to go to hump house.

If Wang fan does not die, he will have trouble sleeping and eating. What's more, Wang Fan's growth has already caused him to fear. If he doesn't, he's afraid he won't be able to.

"Yes."

"Yes."

There was no hesitation at all, and he quickly nodded his head and agreed.

In their opinion, it's enough to kill Wang Fan, let alone hold him down.

As for what Luo Yan said about Wang Fan's power, they still didn't believe it.

In their view, Luo Yan must be for face, just said Wang Fan a knife to scrap the seal of tiger.

As for the hump, let's not say that Luo Yan didn't see Wang Fan kill the hump himself. Is the hump dead or not. Even if the hump is dead, it may be Wang Fan's conspiracy.

After Zhu LAN arranges, does not have the slightest nonsense, immediately then took falls the speech to rush to the hump mansion.

His heart to kill Wang Fan was so strong that he couldn't wait for half a moment.

Zhu LAN just took Luo Yan to leave, Wang Fan already knew.

He came after Luo Yan. Yesterday, Wang fan made a move on Jiao Sanniang. Luo Yan touched Jiao Sanniang again. It's not difficult for Wang Fan to track him.

Even if Wang Fan didn't see Zhu LAN, the moment he saw Zhu LAN, he still knew that this person was

Zhu LAN.

No why, it's just an intuition.

What's more, coming out of Zhulan's house, the breath is out of the ordinary, and Luoyan respectfully follows. Who is Zhulan?

Wang fan can clearly feel Zhu Lan's killing intention and anger. He doesn't have to think about it at all. He also knows that the killing intention and anger are aimed at himself.

Wang Fan felt that after Zhu Lan's falling words had gone away, he didn't hesitate to flash to Zhu Lan's house. The two men at the door had just found Wang Fan, but before they had time to respond, Wang Fan was close to their bodies and cut them down.

The two of them fell in response to the two sounds, which was very crisp.

After Wang Fan knocked out the two men, he found a corner to hide them, and then directly flashed into Zhulan's house.

If it's night, Wang fan doesn't need to stun them at all. He just uses the cover of night to get in when they don't pay attention.

But now it's day time and the vision is wide. If Wang fan doesn't stun them, he will be found no matter where he flashes in.

After Wang Fanshan went in, he ran straight to the courtyard where the night was.

Feng Hu said that although the night was not tied up, nor was it used as a slave, it was put under house arrest in disguise.

It's not safe to call Zhulan relic city. It's protection.

Moreover, in order to minimize the hate of the night for her being under house arrest, Zhu Lan also locked up the night with the ten people she brought.

Wang Fan blinked a few times and soon came to the courtyard under house arrest at night.

At the gate of the small courtyard, there are two congenial metaphase guards. Of course, it is impossible for these two congenial metaphase guards to really house arrest eleven people in the night.

They are just decorations to prevent eleven people from leaving the courtyard in the dark.

The real threat to the eleven people in the manor was the eight congenial peaks and Zhu LAN himself.

Wang Fan looked at the two congenial middle, is going to put it down in the past, the face is suddenly changed.

He noticed that there were six people coming this way, and their strength seemed to be at the top.

Six congenial peaks, although with Wang Fan's strength, it is not impossible to kill them head-on.

But in that case, the price would be too high. Maybe he would get hurt. At that time, in case of Zhu Lan's return, let alone saving the night, it will be a problem whether he can leave.

Wang Fan's face was slightly ugly. Although he learned from Feng Hu that there were eight congenial peaks in Zhu Lan's house, there were six of them, except that the injured were Feng Hu and Luo Yan who left.

But he did not expect that these six people would appear together, and they would also appear together in the place of house arrest at night.

That old tortoise of Zhulan is so cunning and careful.

Obviously, the old man guessed Wang Fan's mind and specially arranged this.

"What to do?" Wang Fan was a little anxious.

Leave like this? He is not willing to help others, but how can he help others?

He didn't have much time. He had to save the night or choose to leave before Zhu LAN came back. Otherwise, he didn't come here today to save people, but to deliver vegetables.

## **Chapter 1097**

"Master."

"Master."

Six people soon came to the front of the courtyard, the two saw six people, quickly bowed his head to say hello.

Six people coldly looked at two people one eye, the head is lazy, the first one said, "Pang Lian, you and Li Teng first stare outside, we go in to have a look."

The one who opened his mouth was a middle-aged man with no white beard. His eyebrows were wide and his forehead was high. His breath was the strongest of the six people, and he also walked in the front. Obviously, he had the highest position.

Pang Li, who had been pointed out, was dissatisfied with each other's arrangement, but he didn't say

anything at this juncture. He could only nod his head unhappily.

Soon, the other four entered the yard, and the two of them, just like the other two, stayed outside.

"Damn, I don't know what we're doing. We're supposed to stay outside and treat us like a watchdog? That surname NIE is really too bullying people. "

After feeling that the four congenial peaks had gone away, Pang Lian breathed out a breath, repressed his voice and said unhappily.

"Brother Pang, you'd better keep your voice down. Who makes us the worst. That surname NIE is more powerful than us by strength, and has a good friendship with Master Zhu. There's no way to bully us. "

Li Teng quickly stopped Pang Lian's voice, "he let us stay here, we stay here."

"Even if they can get in, how dare they touch the night? The most they can do is to look greedy. "

"There are senior Zhu LAN pressing on it. Even if you give them a hundred courage, they will never dare to touch that night."

Pang Lian's face softened a little when he heard this. "Well, after all, that chick is really good. It's delicious and spicy. I'm afraid there's no better woman than her in the whole relic city."

"I just don't know why Master Zhu would protect her so much. Not only would he not touch her, but no one would touch her."

Pang Lian said to himself, and without waiting for Li Teng to answer, he changed the topic again, "do you think that Wang Fan dares to come? Is Master Zhu too careful? "

Li Teng grinned. "I don't know if he dares to come, but to tell you the truth, I really hope he will come."

"In that way, as long as we can subdue Wang Fan before Master Zhu comes back, we will have a higher look at him when he comes back, and our distribution will be more in the future."

Li Teng thought far away, and there was still a faint light in his eyes, "and I don't believe that Wang fan can kill the hump and abolish the seal tiger."

"Unless his strength has also reached the state of escape, otherwise, where is the congenial peak so powerful?"

Pang Lian's face changed when he heard this. He is not as optimistic as Li Teng, but can't help but ask nervously,

"do you think Wang fan is really out of the ordinary? The reason why he pretends to be the pinnacle of

nature is to confuse people and play the role of pig and eat tiger? "

"No way!" Li Teng shook his head. "How old is he? How can he be out of the ordinary? Don't say it's outside, even if it's Yuanmen. Have you ever seen such a young man's escape? "

"If he's really out of the ordinary, isn't that abnormal? What's more, if he is really out of the ordinary, will Luo Yan have a life to come back? "

"Pa pa"

Pang Lian listened to Li Teng's analysis. As soon as he was about to nod his head, a clapping voice suddenly rang, followed by a slightly sarcastic voice,

"yes, you're very good. I didn't expect that you had a little brain to analyze that I was not out of the ordinary."

Pang Lian Li Teng listened to the sudden voice, his face changed in an instant.

"Who is it?" They couldn't help but burst out, and while they turned to look over, they grasped the hilt of the sword.

They have set off a storm in their hearts. They have been guarding here all the time. How come they didn't even notice the appearance of people? Isn't it incredible?

"Don't you want me to come here? I was still talking about my strength just now. Why do you ask who I am now?"

Wang Fan Light says, have already flashed to two people's bodies in front of, holding the shadow knife not to hesitate to chop down.

The overwhelming sword awn rolled out, the two congenial middle had no resistance at all, and they had been killed.

Red blood splashed everywhere, bright red and dazzling.

"Wang Fan?" Pang Lian and Li Teng's eyes shrunk and their faces changed wildly.

They burst to drink, quickly grabbed out the sword, struggling to resist the whole body strength at the same time, madly retreated into the courtyard.

Wang Fan's strength was beyond their expectation, and his knife made them even more scared. They didn't want to resist at all.

They want to enter the yard and join hands with the other four to deal with Wang Fan.

Wang Fan looked at the retreating two people, with a flash of abuse in his eyes. As soon as he turned the blade, he set off a thunderbolt and cut it off again.

Dangdang two, Pang Lian Li Teng two people just hold the sword to block once, the sword was picked to fly out. There was a deep shock in their eyes.

At this time, they knew that Luoyan was not exaggerating.

Wang fan is really powerful.

Hiss two sound, shadow knife along their chest and abdomen split, lift out a bloody knife mark.

The red blood flowed out, and they fell to the ground in pain. Although they were not dead, they had no fighting power.

"What's the matter?"

"What happened?"

"Wang Fan?"

"How dare you come?"

Whoosh, whoosh.

Almost when Pang Li and Wang Fan fell to the ground, with the sound of four voices, the other four congenital peaks appeared in front of Wang Fan.

While they surrounded Wang Fan in a semi arc, their eyes were shocked.

They also did not expect that Wang Fan would really dare to come. This also calculate, still in a twinkling of an eye, second fell Pang Li two people.

"Joke, it's not a tiger's den. Why don't I dare to come here?"

Wang Fan sneered, didn't give each other time to talk nonsense, directly grabbed the knife to kill the nearest congenital peak.

As fast as a dragon, as powerful as a tiger.

There's no way to disturb these four people. No matter how weak they are, Pang Li and Pang Li are at the top of their nature. They are not dogs and cats.

It's impossible for Wang Fan to kill them quietly without attracting the attention of the four. Not to mention that Pang Li and his wife had two children around them at that time.

"To die!"

The other three people became angry when they saw that Wang Fan dared to take the lead.

Without any hesitation, they almost immediately rushed out to Wang Fan, waving their swords and swords, setting off a violent killing situation and madly rolling to Wang Fan.

Wang Fan's behavior is the greatest irony and humiliation to them. How can they tolerate Wang Fan's recklessness?

The endless killing power emerged, but it was not Wang Fan who changed his face first, but the innate peak of Wang Fan's attack.

Because he obviously realized that in order to kill Wang Fan, even he was in the range of attack.

Seeing the attack, Wang Fan raised a grim smile at the corner of his mouth. As soon as he moved, the floor tiles cracked, and then the whole person turned back to the middle-aged Nie.

Let's not say that Wang Fan's series of actions are as fast as lightning, which almost makes people unable to react. Just Wang Fan's crazy behavior makes everyone not think of it.

Wang Fan's idea is very simple, that is to kill this Nie first, because he is the most powerful of these people. As long as you can get rid of this sex Nie, it will be much easier for others.

Hiss.

Blood fog shot, killing all over the sky, strangling the congenital peak, strangling it to pieces on the spot.

The four words of ruthlessness are incisively and vividly reflected at this moment.

He didn't even think that he didn't die in Wang Fan's hands, but he became the victim of his three companions.

Although Wang Fan has already flashed out at a very fast speed, and attacked the middle-aged Nie, what he is facing is the strong attack of the three congenital peaks.

Rao Shi's reaction was fast enough, and he completely avoided the attack of Nie's middle age, but the attack of the other two inevitably swept on his back, which immediately set off a blood fog.

**Chapter 1098**

"There seems to be a fight outside."

"I seem to have heard Wang Fan."

"What's the matter?"

"Let's go and have a look."

Inside the courtyard, the night and the big tiger and the two tigers were together, looking a little depressed. They didn't expect that they would fall into the ruins city and be put under house arrest.

During this period of time, they were in this courtyard, in addition to practicing, their days were more monotonous and boring than when they were in nantianfu.

In particular, when they think of places like relic City, where there are many experts, and all of them kill people without blinking an eye, and they don't know when they can go out, they feel even worse.

At a certain moment, their faces suddenly changed and they suddenly stood up.

Because they heard the sound of fighting outside, but also vaguely heard the word Wang Fan.

Without hesitation, they flashed out quickly.

Night is the leader.

When they appeared at the gate of the courtyard, they happened to see that while Wang Fan raised a cloud of blood mist behind him, the shadow knife in his hand also frantically cleaved Nie Xing's chest.

With a series of blood spray, Wang Fan and Nie Xing both fell to the ground.

What's different is that Wang Fan was only seriously injured and soon got up again after he fell to the ground.

Nie Xing was dying, and his eyes were filled with shock, reluctance and anger.

It seems that I didn't expect Wang Fan to kill him.

"Wang Fan?"

"Wang Shao?"

"Brother fan?"

In the dark night, Wang Fan's eyes sparkled with surprise and excitement.

But the next second, the night will be the first to return to God, "are you OK, how are you?"

"Son of a bitch, you killed brother Nie?"

"What a cruel boy! I've killed you today!"

The other two congenial peaks also recovered in an instant. At the same time, they were shocked and angry.

Six congenial peak, just a few breath, even two dead and two injured, leaving only two of them, Wang fan is too abnormal.

Fortunately, Wang Fan also seems to be seriously injured, which makes them feel a little bit balanced.

"Break into our house and kill our people. If we don't kill you today, it's a shame!" One of them pointed to Wang Fan and roared angrily. He flashed to Wang Fan and killed him.

In addition, the congenial peak was not willing to be outdone. He also raised his sword to kill Wang Fan.

Wang fan is so powerful that they have to work together. Otherwise, if Wang Fan kills another person, the other person will never be Wang Fan's opponent.

"Dog day, you want to kill Wang Fan, have we agreed?"

"That is, dare to move in front of us, brother fan, you want to die!"

"Brothers, let's fight with these bastards!"

Before Wang Fan spoke, Dahu erhu and others roared angrily. At the same time, they killed them madly.

During this period of time, they have been under house arrest here and have already had enough of bird air.

Originally, they were not strong enough to resist. They had to endure.

But now, Wang Fan has already killed four of them. Why should they bear it any longer?

The most important thing is, let's not talk about the friendship between Wang Fan and them, let's say that Wang Fan has the imperial card sent by Ye Nantian, and they will never allow Wang Fan to be killed in front of them.

Night did not speak, but her action is to show the position, rushed in the front.

Eleven people besieged two people, the scene was spectacular, but the ending was very sad.

The two congenial peaks just shook and turned with their swords, and a series of sounds made. Except for the two tigers and three people in the night, the other eight people had all been overturned.

Strength is not a level at all. Naturally, there is no way to resist.

"We don't need you to dig mountains, search for treasure, and protect you wholeheartedly."

"But you're good. I'm not grateful. I turned around and bit us. If it wasn't for the face of senior Zhu LAN, would you believe that I would kill you directly?"

One of them, who hated the iron but didn't make it into steel, swore and took the knife back directly. His right leg had swept out crazily.

Bang Bang two, his right leg hard step on the tiger two tigers, two people in an instant spurt a mouthful of blood, directly overturned out.

The other congenial peak was also very angry, his body shape was only slightly wrong, then he went around behind the night, and hit her back with his right palm.

If it was not for fear of killing these people in the night, it would cause Zhu Lan's dissatisfaction. They would have killed a lot. Where would they have left their hands?

Although the strength of the night is very good, but in the face of congenial peak, she is still weak. She just twisted her body in time, and her back has been photographed.

With a light sound, she spat out a mouthful of blood and fell to the ground, pale. Wang Fan looked at this scene, anger in his eyes, he breathed deeply, his right leg bowed, a little bit, the whole person like an eagle rushed toward the night.

In his left arm to embrace the night Jiao body at the same time, the right hand has grasped the shadow knife, toward the congenial peak to chop down.

Fierce and sharp!

The man's face changed wildly. He suddenly gave a loud drink, and his momentum broke out in vain. He grabbed a long knife to resist.

The knives collided.

When!

With a loud noise, even the air seemed to become stagnant at this moment.

Boom!

The next second, the congenital peak of the long knife was severely pressed down, the handle of the knife fiercely hit back in his chest.

Whoa!

With a puff of blood mist, the man retreated four or five steps.

"I've seen shameless people, but I've never seen such shameless people as you. When you say that, don't you feel blushed? "

"I'll keep you in captivity like a dog. I'll give you food and drink, but I won't let you leave the fixed range. Can you accept it?"

"What's more, you don't know what Zhu LAN is thinking? If he is really good for night, he will be ready to exchange night and hump for Wang Fan? "

Wang Fan stares at the congenital peak coldly, saying sarcastically, raising the shadow knife and chopping eight times at a time.

Wang Fan these eight, although not at first that will be sharp, but for this congenital peak, still can't stop.

He just blocked six times, but he couldn't stop it any more. He was cut in half by Wang Fan.

It's not that Wang Fan has to wait for the dark night to be overturned. It's the previous attack that makes him feel uncomfortable and needs time to buffer.

He also has no way.

At last, the congenial peak looked at the companion who was beheaded by Wang Fan, and panic finally appeared in his eyes.

He had the idea of escaping.

Six congenial peaks, ah, now only he is dead and injured. Even if Wang Fan looks seriously injured, he has no confidence to fight against Wang Fan again.

Wang Fan put down the night, looked at the congenital peak, suddenly grinned, "you."

He just said a word, the whole person rushed towards each other in an instant.

Looking at the scene, the girl's eyelids trembled and her face turned crazy.

Nima, is that shameless?

Don't you want to talk? Why did you start all of a sudden?

Just as he just thought of it, Wang Fan's shadow knife had been inserted into his chest.

Come on.

White knife in, red knife out.

The last one fell to the ground and died.

"Come on, let's go. Get out of here now." Wang Fan killed the last one and quickly gave a simple treatment to the night group. He said quickly.

In his current state, meeting Zhu LAN is a dead end. He must leave here as soon as possible.

As soon as Zhu LAN arrived at the hump house, he knew that he had been cheated. He was sure to win Wang Fan's plan to divert the tiger from the mountain.

"What a cunning boy, let's go back!" He quickly to drop a speech to drink out, and then also don't wait to drop a speech, directly with the fastest speed to Zhulan house.

Running in the middle of Zhu LAN, the whole body killing machine has almost become the essence, even the air seems to be stagnant, dare not flow.

His clothes bulged like balloons, hunting loud, it seems that he did not dare to close to his body.

It's killing!

## **Chapter 1099**

When Zhu LAN returned to the mansion, Wang Fan and his party had no trace. What he saw was chicken feathers all over the ground.

Of the six congenital peaks, three died and the remaining three were seriously injured. Don't say that you can't recover for a while. Even if you can recover, your strength will be greatly reduced.

In just half a day, the eight congenital peaks under Zhu Lan's command left only Luo Yan with complete combat effectiveness, which can be described as a heavy loss.

"Son of a bitch, son of a bitch, I swear by Zhu Lan that I will not kill you or be human!" Zhu Lan was furious, but there was no place to vent her anger. She could only roar by herself.

He also looked at the three congenial peaks who did not die and scolded, "you are also rubbish. Six people can't stop Wang Fan. Are you all the congenial peaks given for nothing?"

"Have you practiced in vain for so many years, or have you practiced on dogs? Have I ever said that you don't need to stop him? "

"But you are so good that you can't even delay 20 minutes. You deserve to be killed and abandoned!"

The three people listen to the voice of Zhu LAN, although angry, but dare not talk.

They just asked Zhu LAN not to kill them and leave quickly after scolding, otherwise, they would bleed to death.

The relic city is not big, and it can't be concealed no matter how it happened.

What's more, Zhu LAN didn't want to hide it.

He made a direct appointment with the leaders of the other three forces and asked for the formation of a team to search Wang Fan for the whole relic city.

In his deliberate propaganda, Wang fan is a murderer without blinking an eye.

First, it destroyed the hump forces and occupied the cultivation resources of the hump. After that, he destroyed his Zhulan mansion and robbed the beauty of his Zhulan mansion.

In short, Wang fan is not a good thing.

He was a murderer, a lecher, and a powerful man. He did whatever he wanted, regardless of the consequences.

Not very clear about Zhu LAN Wang Fan's gratitude and resentment, as well as Zhu Lan's other three forces in Hump trading, naturally believed Zhu Lan's words.

Without hesitation, they set up a team to search for Wang Fan.

Originally, the five forces in the ruins city were a kind of balance, and no one was willing to break it. Now Wang Fan's appearance has obviously broken this balance, and of course they are not satisfied.

Because they are afraid, the next target of Wang Fan's power will be them.

For a time, Wang Fan was pushed to the top of the storm and became famous.

Wang Fan didn't know what happened outside. After he left with the dark night, he fled to the nearest

mountain.

Relic city has five peaks, so it has five forces.

Each force is responsible for reclaiming a mountain peak and maintaining a balance.

From a distance, these five peaks soar into the sky, just like Wuzhi Mountain, forming a huge palm, which intersects with each other.

"Where are we going now, hiding in the mountains?" At the foot of the mountain, looking at Wang Fan in the dark, I couldn't help asking.

Wang Fan wry smile, "can go where, also can hide on the mountain. If I guess well, then Zhulan must be chasing me all over the world. "

He sighed, "in places like relic City, if I was blocked by him, I would never have a chance to escape. It's only in this deep forest that he can do nothing about me. "

"But this forest is not safe. There are many poisonous animals in it. We must be more careful."

Wang Fan also said his plan, "we first find a hidden place to dig a hole, there is a place to live, and then dig mountains to find grass."

"Although it's not safe on this mountain, there are many spiritual grasses, and danger and opportunity coexist. Moreover, since this relic city is the site of the relic of an expert, there must be treasures. "

"We've all come. If we don't strive for this chance, we'll be in vain. And we have to wait for our strength to find a way out. "

The night group listened to Wang Fan's words, only nodded.

Although they have been here longer than Wang Fan, they have always been under house arrest in Zhulan mansion. They have never gone out at all. Their understanding of relic city is far less than Wang Fan. They can only listen to Wang Fan.

More than half an hour later, Wang Fan had already found a place that felt pretty good, and the party started digging.

Twelve people dug for three or four hours, and finally dug a cave that could hold twelve people.

Wang Fan gave them some pills. After a night's rest, he began to dig up the spirit grass the next day.

More than a week passed quickly, Wang Fan and his party also gained a lot, and his strength recovered to the peak level again.

For more than a week, they killed many monsters. Everyone was full of fierce and cold breath, overbearing and powerful.

Wang Fan also killed many teams to search for his congenital peak. During that time, he also met a tuofan capable man, but he was deliberately led to another mountain. Not only that, Wang Fanxian's all right, but also specially went to other mountains to hunt and kill some congenital peaks that led people to reclaim the mountains.

After more than a week of recovery, Wang fan is no longer a prey, but a hunter.

Zhu LAN and the other four powerful people were in a state of panic, so they didn't dare to send people to dig mountains and look for grass.

Unless they lead the team in person, it is not enough for Wang Fan to send them to the top of the guard.

Relic city.

Zhulan house.

There are four people sitting in a reception hall. These four people are the leaders of the four major forces in the relic City, the four most powerful people.

They are Zhu LAN, Xing Gou, Qian Yan and Mo Ding.

At this time, their faces were not very good-looking.

Because under Wang Fan's sniping, their congenital peak has changed from more than 30 people to 12 people now.

It can be said that the loss is heavy.

"This is not the way to go on. Sooner or later, our people will be killed one by one by Wang Fan. That Wang fan is too cunning. He will run when he meets us and kill when he meets the congenital peak. "

"It's a pity that we can't catch up with that bastard. That bastard can always use the jungle or wild animals to escape. Now there are chicken feathers all over the place, and we don't even dare to send someone to dig the mountain."

Xing Gou took the lead in speaking, his tone was full of anger, but he was helpless.

It was the last time that Wang Fan deliberately led him to another mountain, so he deeply understood Wang Fan's cunning.

Even if he is more powerful than Wang Fan, he can't catch up with others even if they fight him at all. It can be said that there is no way to take Wang Fan.

Zhu LAN and other people's faces are also not good-looking, especially Zhu LAN. He did not expect that a mere Wang Fan could make him fall into such a passive situation.

If there is regret medicine, he would have ignored Ye Nantian's warning, instead of going to Chuncheng to find the ruins, he would have killed Wang Fan in the city.

It's a pity that there is no regret medicine, and now his regret has no effect at all.

Qianyan sighed, just about to speak, but suddenly stood up and looked in one of the directions. Not only he but also Zhu LAN stood up at the same time.

Just in the middle of the mountain, there was a glow.

The sky is shining.

Accompanied by the appearance of the rays, there is a strong aura.

That aura, even if separated so far, Zhu LAN four people all felt a kind of extremely comfortable feeling.

"Yibao comes out!"

"Go

Four people looking at this scene, where can also take care to think about Wang Fan's things, without half hesitation, directly flash, crazy to the position of Xianguang rushed past.

Not only them, but also the whole city of ruins.

Up to the congenital peak, down to the postnatal realm, they all ran towards the direction of Xianguang.

In this case, all the people are just looking to run in the direction of Xianguang, there is no one to manage those ants.

The whole relic city was crazy in an instant.

## **Chapter 1100**

As soon as Wang Fan slaughtered a monster, he saw a glow not far away, and then he felt the overwhelming aura.

He looked at this scene, face suddenly changed, quickly toward the direction of the rising sun swept past.

Wang Fan was not surprised by the appearance of any strange treasure, but the rising direction of the glow, which was exactly the direction of the night group digging the mountain. He was afraid that the night group would be in danger.

Just a few breath, Wang Fan appeared in the rising position of Xianguang.

On the ground, there is a white vortex about one meter in diameter. Just look at it, you will feel dizzy.

This is nothing. What scares Wang Fan most is that he is still more than ten meters away from the vortex. He can feel the terrible suction brought by the vortex.

More than ten meters away from the vortex, there were six people, including Dahu erhu, who were full of panic.

"What's the matter? Why are you alone, the others?" Wang Fan looked at the big tiger two tiger six people, in the heart secret way is not good, still can't help but ask.

"They, they're all involved." Big tiger listen to Wang Fan question, seem to have some palpitation.

"We don't know what's going on. Originally, we dug well, but we noticed that there was a glow there. When we recovered, they were already involved."

"What?" Wang Fan was very anxious. He was really afraid of what he was afraid of. In the dark, they really had an accident.

As he was about to speak, he suddenly looked down the mountain. "Let's hide and see what's going on. Someone's coming."

Wang Fan's mouth says, already quickly flash into one of the grass.

Dahu erhu and others also dare not neglect, quickly find a place to hide in.

Not long after Wang Fan and his party hid, Zhu Lan was the first to appear here.

However, he did not go in immediately, but looked at the vortex with some shock, and obviously felt the terrible suction inside.

Not long after Zhulan station was established, Xing Gou, Qian Yan and Mo Ding had appeared one after another.

"Ha ha, I didn't expect that there was a teleportation array hidden here. It seems that this is the real place leading to the ruins."

Xing Gou looked at the huge whirlpool, first shocked, then overjoyed.

He laughed and swept past the whirlpool without hesitation.

As soon as his whole talent was close to the vortex, a force of suction came out, and then he was swept away by the white light.

"Brother Xing, wait for me."

"Ha ha, there's a treasure. How can I lose Qianyan? I'm here, too."

Qianyan moding is obviously a man of insight. He knows it's a teleportation array, but his movement is one beat slower than Xing Gou's.

See Xing Gou go in, where will hesitate, respectively, regardless of the sequence into the vortex, completely disappeared without a trace.

Zhu LAN looked at the three guys who didn't fight with themselves and led them to go first. Their faces were also hot and ugly.

He is the first one to come. It's reasonable that he should be the first one to go in. But in fact, Xing Gou's three people have all gone in, and he hasn't gone in yet.

However, he also knows that Xing gousan can't be blamed for his ignorance?

People recognize that this is a teleportation array. There is no harm. Only he doesn't know, so he just stands here.

Zhu Lan thought of this, no longer hesitated, flashed toward the vortex rushed past.

"Old Zhulan dog, die!"

Just as he just swept up, a cold voice came to the extreme. What follows is a sharp and extreme Dao Qi.

"Wang Fan, you!" Zhu Lan's face changed wildly! He never thought that Wang Fan would attack himself at this time.

He madly urged the energy in his body. He was just about to fight back, but his body had already swept into the whirlpool for five meters. Crazy suction came, and his movement slowed down several beats in an instant.

Zhu LAN felt this scene, his heart trembled!

There was endless regret in his heart. How could he forget that the enemy Wang Fan was hidden in the

dark?

If he is not attracted by this vortex, how can he not be aware of Wang Fan's ambush?

Unfortunately, it's too late now.

Wang Fan raised the knife awn in an instant split in his body, raised a blood fog, and then, Zhu LAN has been rolled up by the white light, disappeared without a trace.

"Big tiger and two tigers, I'll go first. You'll be right behind." Wang Fan quickly put away the shadow knife, just in time to say such a few words, was also white mang rolled up, disappeared without a trace.

Dahu erhu looked at Wang Fan who had disappeared, bit his teeth, and then quickly followed him in.

Wang Fan appeared in a hall.

The grand hall is resplendent and resplendent. We can see that its owner is rich and powerful.

He is now at the edge of the main hall. At his feet is a road paved with white jade, which leads directly to the inner hall.

Wang Fan did not see Zhu LAN, also did not see blood, it can be seen that Zhu LAN did not appear here. Wang Fan also did not care to think so much, along the foot of the road toward the inner hall went in.

Creak!

Whoosh!

As soon as he took two steps, he didn't know if he had stepped on any mechanism. The walls on both sides of the hall suddenly turned over, and then ten crossbows and arrows suddenly shot out.

Come on!

Fast as lightning!

The crossbow is swarthy, and I don't know what material it is made of. It sets off a fierce wind, whistling and sharp. Each one has at least a thousand pounds of strength.

If it's shot, it's dead.

Wang Fan's heart leaps wildly, grabs the shadow knife and splits it out madly.

Dangdang.

Several crossbows and arrows were swept away by him, raising a harsh voice. The violent degree of violence brought by the crossbows and arrows made him numb.

Wang Fan didn't dare to slack off at all. He gritted his teeth and whirled back with the shadow knife.

Several more sounds, three crossbows were swept down by Wang Fan, but there was still a crossbow flying through his shoulder, with a blood mist.

Wang Fan's body faltered and almost cursed his mother.

He stretched out his finger and quickly pointed at the wound. He was about to return, but he was shocked to find that he could not see the way back.

Only forward, not backward.

"Maomao, first it's the relic city where birds don't shit, and then it's the dangerous hall. Can you stop playing?"

Wang Fan couldn't help but burst out his dissatisfaction, so he could only go on cautiously.

Squeak.

Another sound, Wang Fan pupil can't help but shrink, subconsciously some scalp numbness.

Turning his head, I saw countless knives and forks gushing out from both sides, towards him, frantically inserted.

Wang Fan eyelid straight jump, can only struggle to wave shadow knife, while confrontation, while dodging, while moving forward.

At a distance of five or six meters, he walked for more than 20 minutes. When all the knives and forks were swept or dodged, his whole body was dripping with blood.

Wang Fan no longer dare to walk, but carefully looked to the ground.

But when he looked down carefully, he found that he did not see the truth. The ground seemed to be covered with a layer of fog.

If you scan with a thick eye, you can see clearly that the road under your feet is made of white jade, but if you look carefully, you can't see anything clearly.

Weird.

Wang Fan's scalp felt numb in an instant.

What kind of trouble is this? It's killing me, okay?

If there are more waves of this kind of mechanism, he can't guarantee his life.

A dilemma!
