

## **Mighty Sk 1301**

### **Chapter 1301**

Wang Fan also coldly staring at the name of tuofan three layers, without saying a word.

However, his mental power has been completely swept on this guy. As long as this guy has any action, he will detect it at the first time and react.

The scene fell into silence for a moment, and everyone felt depressed.

Next to him, Jin Youcai and the people of the Jin family, their whole heart was raised in their throat, and they didn't even dare to breathe.

Although they are not ancient warriors, they are not fools. How can they not see that Wang fan is the key now?

Only if Wang fan can kill the three-tier tuofan can they survive. Otherwise, all of them will die.

And Wang Fan and that tuofan three layers now no one started, which means that they are not sure of each other, after all, if they are sure, it is impossible to deadlock like now.

That took off any three full to see Wang Fan for a few minutes, did not find any chance, finally helplessly sighed, turned and left.

Although he also knew that Wang Fan didn't fight because he was not sure to kill him. But he is also not sure to kill Wang Fan, so he chose to leave.

He doesn't want to do things that are not sure. If one can't be killed by Wang Fan, he will lose a lot.

Of course, the most important thing is that he has found Teng Lingzhi, so there is no need to take such a risk.

With his position in the Wang family, even if Teng Lingzhi doesn't belong to him completely, he will definitely have his share. Maybe he can go further.

"Do you want to leave after robbing? It's OK for you to go. Leave something before you go Only after he took two steps, Wang Fan stepped out and stood in front of him.

Wang Fan has mental power, and naturally knows that Teng Lingzhi has arrived at this guy. How can he allow this guy to leave?

What's more, he came here for Teng Lingzhi. If Teng Lingzhi is taken away, what's the point of his coming here?

The reason why he didn't open his mouth before was that he wanted to make use of pills to recover his strength. Now this guy has to go. Where can Wang Fan stay?

Duan Qinghong saw Wang Fan blocking in front of him, and his steps stopped in a moment. There was a dim light in his eyes, "do you want to stop me?"

He said so, but his heart was shocked.

Teng Lingzhi has been taken into the package by him. He doesn't understand how Wang fan knows Teng Lingzhi is on him.

And Wang Fan didn't do it for such a long time before, which means that Wang fan is really not sure to deal with him. But now that he is going to leave, Wang fan stops him. Is it difficult that Wang fan is sure to deal with him?

"Nonsense, can't I stop you?" Wang Fan sneered. As soon as the word "Ma" fell, he suddenly grabbed the shadow knife and split it out.

There is no sign of his hand, and it's as fast as lightning!

Wang fan used 80% of his strength to kill or hurt Duan Qinghong, who was three-tier out of the ordinary.

As soon as the knife came out, it stirred up endless killing power. A piece of horse chain with a length of several Zhang was torn out, as if it had split the air, and it cut hard at Duan Qinghong.

"You Duan Qinghong looked at this scene, his face changed greatly! How did he not expect that Wang Fan would be so cunning and would start when he spoke.

He crazily drew his sword to yingdao, and then began to retreat.

With a local noise, the sword collided with each other and made a loud noise. Duan Qinghong only felt the numbness of the tiger's mouth, and the sword in his hand was picked out. The next second, the chain lifted by the shadow sword had already swept his chest.

With a hissing sound, a mist of blood spurts up, and Duan Qinghong directly retreats more than ten steps.

"You are so mean Duan Qinghong, who is steady in shape, can't help cursing out four words, but his face has changed again as soon as he speaks.

Because Wang Fan has rushed over like a tiger.

Duan Qinghong roared. He didn't dare to neglect him any more. He stirred up his energy in his body and fought up.

After several loud noises, Duan Qinghong is forced to retreat, and there are countless bloody wounds on his body.

He felt the burning pain on his body. It was like a crack!

Wang Fan was also in a bit of a mess. He also hit Duan Qinghong with a few punches, and the corners of his mouth overflowed with blood. However, the whole situation was much better than Duan Qinghong.

Duan Qinghong no matter how dishes, but also off all three layers, rather than what soy sauce.

With Wang Fan's strength, if there is no loss, it will not be so troublesome to kill this section of Qinghong.

But he had already killed one tuofan four layer and one tuofan three layer, and also used a mountain climbing seal. The loss was really big.

Wang Fan stares at Duan Qinghong coldly and attacks him crazily.

He must work hard to kill this guy. Otherwise, once this guy calms down, he won't kill him, but at least Teng Lingzhi will have nothing to do with Wang Fan.

Duan Qinghong feels Wang Fan's crazy attack, and his scalp is numb. If he had a sword, he would not be so passive even if he lost the chance.

But now without weapons, he is like a tiger without teeth. He can't resist Wang Fan's crazy attacks.

At a certain moment, Wang Fan finally seized an opportunity to cut Duan Qinghong's right leg with a knife. With a sneer, Duan Qinghong's whole right leg was cut down in an instant.

The pain of his right leg fracture made Duan Qinghong open his mouth wide. While his forehead was sweating, his reaction was also slow.

Wang fan is to take advantage of this opportunity, a backhand across his throat.

Whoa!

A column of blood shot, Duan Qinghong fell to the ground, consciousness gradually fell into the dark.

His eyes suddenly widened and his hands covered his neck. It seemed that he wanted to block the blood line, but it was a pity that he couldn't block it at all.

Wang Fan looked at Duan Qinghong, who fell to the ground and died miserably. He took a few deep breaths and went to pick up his backpack and grabbed it in his hand.

"I'm sorry, I've implicated you in this matter. I'll call Wang Fan group to make up for some of your losses."

"I suggest you leave Mucheng first, go out for a while, and come back in three or five months."

"If someone finds you in this way, you can directly say that Teng Lingzhi was robbed by Wang Fan, and let them come to me."

Wang Fan took Teng lingzhi and said to Jin Youcai. At the same time, he gave Jin Youcai some treatment.

Wang Fan recognized that the three masters were all from the Wang family, which means that this matter is not over.

If Teng Lingzhi fell into the hands of the Wang family, it would be nothing. But now it falls into the hands of Wang Fan, it would be different.

The hatred of Yiwang Gujin towards Wang fan is bound to leak the news, even to the ancient martial world.

Once this news is spread to the ancient martial arts world, it is bound to attract many ancient martial arts people. If those ancient martial arts people can't find Wang Fan, they will not vent their anger on the Jin family.

That's why Wang Fan suggested that they go out to avoid it. He even said that Wang Fan robbed Teng Lingzhi. Only in this way can Jin Youcai's family be safer.

"Good, good." Jin Youcai naturally knows Wang Fan's meaning and nods quickly.

## **Chapter 1302**

Wang family.

Almost as soon as taipingyan was killed, Wang Gujin got the news.

When he got the news, he was shocked and angry.

What shocked him was that how could Wang Fan be so powerful, and how could he kill one of the four and two of the three? Could it be that Wang Fan's strength has reached the fifth or even higher level?

But how is that possible? How old is Wang Fan? Even if he started to practice from his mother's womb, he can't be so fast, can he?

What's more, Wang fan is just a person in the secular world. Without the support of the ancient martial school and the sect, where did his cultivation resources come from?

Even if Wang Fan got a lot of spirit grass in the ruins, he couldn't be so strong all of a sudden, could he?

He was angry that he was a four-tier and two three-tier tuofan masters. There were few of them even in their Wang family, but now they were all killed by Wang Fan.

It can be said that since this period of time, Wang Fan has killed nearly 80% of the masters of his family. How can he not be angry?

Even if Wang Gujin is shocked and angry, he knows that this is not the time for shock and anger. He must send out the news as soon as possible to let everyone know about it.

If Teng Lingzhi is not available to his family, Wang Fan will not be able to get it safely. If he wants to attract more and more powerful enemies to Wang Fan, he'd better be killed directly.

Under the operation of the Wang family, in less than half an hour, Wang Fan got the news from Teng Lingzhi in Mucheng and sent it out.

As soon as the news was spread, it caused a sensation, especially in the ancient martial arts.

Teng Lingzhi is something that the strong can't get, let alone those born and acquired.

For a moment, almost all the sanxiu, guwu family, guwu sect, all went out one after another and rushed to Mucheng crazily.

Teng Lingzhi can't be expected. Even those who are not strong enough to escape from the world know that Wang fan is powerful, have heard of Wang Fan's prestige, and even know that they don't have many opportunities, they still rush to Mucheng.

They don't do it for anything else, just for a fluke in their heart. What if they get lucky?

In a word, 80% of those who knew the news went to Mucheng, and no one wanted to miss the chance.

Although Wang Fan knew that Teng Lingzhi's news would inevitably attract countless ancient warriors, he still didn't expect that he would be so crazy.

Almost as soon as he arrived at the airport, he saw eleven ancient warriors coming towards him.

Wang Fan looked at the eleven ancient warriors, his eyelids jumped, and he turned his head and went back.

Among the eleven ancient martial arts, two of them are at the second level, one is at the first level, and the rest are at the top.

Although their strength is not enough to bring deterrence to Wang Fan, Wang Fan has realized that it is not simple.

Less than an hour after he got Teng Lingzhi, more than ten ancient warriors came out of the airport, which shows the seriousness of the matter.

He must leave the airport as soon as possible, or he will be dead if he is surrounded by more ancient warriors.

The eleven ancient warriors saw that Wang Fan turned away without any hesitation and immediately followed him.

They didn't stop Wang Fan and didn't speak. Obviously, they knew that the airport was not a place to stay for a long time.

After all, they are just lucky. They are the first wave of ancient warriors to appear in Mucheng. Once more powerful people come, even if Wang fan is killed, Teng Lingzhi will not have their share.

Ten minutes later, Wang Fan was far away from the airport and entered a remote alley.

As soon as he got in, the eleven ancient warriors couldn't help themselves. A few flashes surrounded Wang Fan in the alley.

Of course, this is also the reason why Wang fan intentionally let them surround him. Otherwise, with only 11 people, he would not be able to surround him.

Wang Fan coldly looked at the eleven people, "I have no grievances or enmities with you. I don't know what you mean?"

Of course, he knew that these eleven people came for Teng Lingzhi, but he didn't point it out on purpose. He wanted to leave it to these people to say it by himself.

As long as they dare to say it's for Teng lingzhi and try to fight, Wang Fan will no longer have psychological pressure to kill them.

The tall tuofan second floor listened to Wang Fan's words, sneered and said lightly, "Wang Fan, I've heard of you, and I know you're not easy to provoke, so I don't want to be your enemy."

"We are all smart people, so I know people don't talk in secret. As long as you hand over Teng Lingzhi, we will never embarrass you and let you leave."

This guy obviously has a good abacus. He wants Teng Linzhi in Wang Fan, but he doesn't want to pay the price. Even after the event, he can still use Wang Fan to attract fire. It can be said that he can kill three birds with one arrow.

Wang fan can't help sneering at this, "you know I'm not easy to provoke. You don't want to be my enemy. You want to rob my Teng Lingzhi. You're really shameless." He directly pulled out the shadow knife, "yes, Teng Lingzhi is really on me, but it's impossible for me to take the initiative to hand it over. If you have the ability, you can take it by yourself."

When the second floor of tuofan heard that Wang Fan dared to scold him for being shameless, his face changed instantly. He choked and pulled out the soft whip at his waist, and directly pulled it towards Wang Fan. He also yelled,

"since you don't want to drink, don't blame us for being impolite. Let's go together, kill him and make a quick decision!"

Wang fan is too lazy to talk nonsense. He dodges the whip of the second layer of tuofan and cleaves towards the eight congenital peaks and the first layer of tuofan.

Wang Fan's strength has stepped into the second level of Defan, even if he is now losing more, those congenital peaks are still not enough to see.

The boundless awn of the sword suddenly cuts down. All the congenital peaks swept by the awn of the sword are turned out in an instant and turned into blood fog.

With one knife, seven congenital peaks were killed, and even the one who took off was cut in half.

The only one left, though not dead, was seriously injured and fell to the ground, dying.

Those two tuofan second floor did not expect that Wang Fan would be so powerful and cruel.

They looked at the tragic death of more than a dozen subordinates, and their movements were momentarily dull.

Wang fan is through their dull moment, a knife into the throat of the short man who took off the second floor.

With a thump, the second floor of tuofan died in a flash, bleeding.

"You, you." The tall man took off from the second floor and watched the scene, shivering with anger and sweating.

He did not expect that only one of them could not breathe, and he was the only one who was killed.

Wang Fan's strength is not only to take off any one layer, when to become so powerful, how can he not know?

He hasn't heard about Wang Fan's killing several elders of Nuquan sect, so he is shocked.

But Wang Fan didn't give him time to think at all, and he had already killed him again with the shadow knife.

This takes off any two layers of cold sweat straight to come up, quickly grasped the whip to fight up, but his heart was already timid. Once he has the timidity, it is doomed to his defeat.

Jingling sound spread out, just less than ten moves, Wang Fan's shadow knife has cut off his whip, cut his heart.

Wang Fan killed these eleven people, and even had no time to breathe, so he put away his shadow knife and left.

His mental strength has been swept up. Not far away, there are more than 20 ancient warriors coming. The strength of those 20 ancient warriors is several grades higher than that of these 11.

### **Chapter 1303**

Wang Fan has been fleeing in Mucheng for more than two hours. In these two hours, he has been to the railway station and the wharf, but without exception, he has been stopped by many ancient warriors.

If it wasn't for the existence of spiritual power, which made him avoid wave after wave of powerful ancient warriors, I'm afraid he would have been completely wrapped dumplings.

But even so, in these two hours, he still inevitably ran into several waves of ancient warriors, and killed dozens of people.

It was precisely because of this kind of fighting that other ancient warriors were attracted to him, which made him unable to completely get rid of the other party's pursuit for more than two hours.

At this time, Wang Fan was a little anxious. There were too many ancient warriors coming to Mucheng, and many of them were beyond his imagination.

The most important thing is that he doesn't have time to breathe at all. If he goes on like this, even with the help of pills, I'm afraid he won't last long.

At the moment of Wang Fan's anxiety, his mental power suddenly swept, and eight ancient warriors appeared at the other end of the corner in front of him.

As soon as his eyes were cold, he grabbed the shadow knife and flashed over.

At the moment when the eight ancient warriors had just appeared and had not seen him, the shadow knife in his hand had already crossed an arc and split out crazily.

Almost as soon as he got down, his mental power swept to the sight of several ancient warriors, but there was doubt in their eyes, because they could not find Wang Fan.

At this time, the coquettish woman had returned with a bag. She didn't notice Wang Fan at all. She started the car and left here.

Five or six minutes after the car left, Wang Fan was finally relieved, and finally had a breathing time.

As long as he can escape the lock of those ancient warriors, he can change his face, and then try to change his clothes and leave Mucheng.

After driving for more than half an hour, Wang Fan planned to jump when the coquettish girl didn't pay attention to the door.

But he found that the woman was driving away from Mucheng, which made him immediately give up the idea of jumping.

If this woman can really take him out of Mucheng, it will be a big deal without him.

Ten minutes later, the coquettish girl had driven the car to a remote location and stopped it.

When Wang Fan was wondering what the woman was going to do, the woman grabbed a bag of sanitary napkins from the bag, and then got out of the car and walked towards the back.

Wang Fan almost vomited blood, subconsciously quickly opened the door on the other side, and then jumped down.

Just as he had just finished all this, he immediately froze.

What's the use of him jumping down now? Can't people see that woman's action of opening the car door so close to him?

Sure enough, the coquettish girl who hasn't had time to get on the bus, looking at Wang Fan who jumped off the car from the other side, was stunned.

With a slap, the sanitary napkin in my hand fell to the ground, shaking my pretty face.

But soon she responded, directly grabbed the phone, quickly stepped back two steps, coldly asked, "who are you, how are you in my car, what do you want to do?" She asked three questions in a row and seemed very alert.

Wang Fan was just trying to run for his life and didn't notice. Now he was questioned by a woman. It was only then that he found that the woman was pretty.

About 1.7 meters tall, slender and straight. Slim waist, straight legs, picturesque, all release a surprising charm.

Her shoulders were still empty, showing two delicate white shoulders, which made her mouth dry.

Wang Fan just took a look at the coquettish girl, and then quickly took back his sight. He thought that recently there were always reports of beautiful women being killed on the Internet. He quickly made a harmless smile and said,

"I'm sorry, because I don't have the money to take a car, I want to take a ride in your car secretly. It doesn't mean anything else. If you don't want to, I'll leave at once. "

Wang Fan said, while standing up, and also to the distance.

Of course, he knows his reason, which is full of flaws, and as long as it is an individual, he will not believe it.

But he also has no way, can only go to dispel women's vigilance in this way, let it have a sense of security.

At the same time, he was also a little depressed. It seemed that his idea of taking the BMW to another city was in vain.

I'm afraid he'll suffer tonight because he's not in the village before and not in the shop behind.

Just thinking of being chased in Mucheng made him feel better. Anyway, it's thousands of times better than being chased in Mucheng.

The coquettish girl gave Wang Fan a cold look and didn't speak. Until Wang Fan disappeared in her sight, she couldn't help feeling relieved. At the same time, she grabbed a new sanitary napkin and entered the back seat.

She has some doubts in her heart. Is this guy really harmless to herself?

After all, if Wang Fan wants to be unfaithful to her, this is a good place. There is no need to be lustful.

She didn't think much. She put on the sanitary napkin and waited on the car for nearly 20 minutes before starting the car slowly.

She has confirmed that Wang Fan has no evil intention. If Wang Fan has evil intention, it is impossible for him not to appear for such a long time.

**Chapter 1304**

The coquettish girl looked at the dark sky, and then looked at the deserted street. She felt guilty.

Is it too much to leave Wang Fan in such a place where there is no village before and no shop behind.

Although Wang Fan sneaked into her car without her permission, he didn't show any evil intention to her after all.

When she was in the car, she felt that the dark and uninhabited street was full of panic. Wang Fan would be even more scared if he walked alone.

If anything happened to Wang Fan, wouldn't he have hurt him?

It has to be said that the coquettish girl is still very kind-hearted, and she is a little uneasy.

At this time, she suddenly saw a lonely figure on the road ahead. Just at a glance, she recognized that the guy was Wang Fan.

She struggled and finally bit her teeth. She drove over and stopped the car in front of Wang Fan. "Get on the bus. I'll go to the camp 200 kilometers away and put you down there."

She said to Wang Fan.

Wang fan is a little strange. This woman was afraid of herself just now. Why did she agree to carry herself now?

But he soon understood that the woman was mostly afraid that she was not safe on the street alone.

A touch of warmth appeared in his heart, but he didn't get on the bus immediately. "Is this really convenient?"

When the coquettish girl saw Wang Fan saying this, she was even more relieved, "it's not inconvenient. Everyone will inevitably have difficulties when they go out. Helping others means helping themselves."

"Thank you." When Wang Fan heard that, he stopped talking nonsense. After a thank you, he sat up. This time, he sat in the co pilot's seat.

When the coquettish girl saw Wang Fan getting on the bus, her whole heart couldn't help jumping, but it soon returned to normal.

She started the car again and drove fast.

Wang Fan closed his eyes and began to rest.

There is no way, he is really tired.

When the coquettish girl saw Wang Fan's action, her only uneasiness completely dissipated. She was really afraid that Wang Fan would secretly look at her, so she would really help the wrong person.

As the car sped along, no one spoke. At a certain moment, the coquettish girl suddenly caught a glimpse of blood on Wang Fan's body. Her eyelids couldn't help jumping and asked in a low voice,

"are you from Mucheng? Why don't you have money to take a car? What are you going to do when you get to Yingcheng?"

Her heart again emerged out of fear, a good person how can there be blood?

She didn't notice it before, but now after she noticed the blood on Wang Fan's body, she found that there was more than one blood on Wang Fan's body.

Although Wang Fan has been closed his eyes, but did not fall asleep, coquettish woman's look changes were all detected by him.

He opened his eyes and replied awkwardly, "I'm sorry. I lied to you just to dispel your vigilance and prove that I really didn't mean anything."

"In fact, I had offended people in Mucheng, and I couldn't get along with them, so I left Mucheng secretly. As long as I leave Mucheng, it should be safe. "

"At the same time, you can rest assured that no one saw me when I got into your car, so my enemies won't find you."

At this time, if he still took out the previous set of words, it would certainly arouse the woman's suspicion, so he told the truth.

Anyway, he has escaped the siege of those ancient warriors, and he has no fear.

What's more, he was sure that when he got on the BMW, no one saw it, so he would not be involved in the coquettish girl at all.

"Those people?" Coquettish girl carefully captured the key of Wang Fan's words, but she didn't continue to ask more.

At this time, a toll station appeared in front of him, hundreds of meters away. Wang Fan's mental power swept to the toll station, and there was Gu wuzhe beside it.

He couldn't help changing his face, and immediately said, "there seems to be my enemy at the toll gate. I'll jump now. Just keep this speed."

"Don't worry, as long as they don't see me in your car, they won't embarrass you."

Wang Fanfei quickly said, immediately opened the door and jumped down.

His heart is almost set off a storm, he never thought, these guys should be so crazy, even someone in advance to guard the toll station.

Are these people planning for a rainy day, or do they know that he has left Mucheng, so they block him at all toll stations?

The coquettish girl was about to speak when Wang Fan opened the car and jumped down, then quickly closed the door.

Looking at this scene, her heart can't help a sudden, Wang fan so jump down, should not have what thing?

But soon she was relieved, because after she saw Wang Fan jump out of the car, she just flashed to the shadow.

Her car was stopped after driving several hundred meters forward. Those people searched her car carefully. As soon as they were about to let her go, a tall and thin man suddenly came over. This tall and thin man is an ancient warrior, and his strength is still on the first level.

Relative to the strength, his nose is more abnormal, because he is five or six meters away from the car, and he can smell the bloody smell on the car.

"How can your car smell of blood? Has anyone ever been in your car?" The thin tall man coldly looked at the coquettish girl, and immediately asked in a cold voice.

The coquettish girl looked at the tall and thin man with a cold face, and then listened to the other side's question. She was almost ready to jump out of her heart.

This man is a dog, isn't he?

However, she shook her head and said, "no, no, I, my one is coming."

Perhaps this kind of thing is very difficult to say in front of a strange man, she said three "I" words, just said it completely.

"Is that coming?" Thin tall man cold swept coquettish woman one eye, instantly called a woman to come over, "you go to check."

Then he turned his head and looked away.

Although many ancient martial arts people don't take ordinary people seriously, there are still some ancient martial arts people who disdain to bully ordinary people, such as this tall and thin man who is three stories away from ordinary people.

If Teng Lingzhi was not too important, he would not even come to question the coquettish girl.

The woman quickly got on the car, closed the door, closed the window, and then began to check. A minute later, she got off the car and walked respectfully to the tall skinny man. "What she said is true, she didn't lie."

The tall and thin man didn't embarrass the coquettish woman either. He waved his hand and immediately left the BMW.

Seeing this scene, the coquettish girl was completely relieved. After closing the window, she started the car again.

Soon her car has been far away from the toll station, but just at this time, the thin man's face suddenly changed.

"No, she lied and chased me!" There seems to be concave marks in the co driver's seat of BMW, but just now he just ignored the bloody smell.

With the roar of the thin tall man, the five ancient warriors who were guarding here immediately chased the BMW crazily.

With their strength, the speed of running is much faster than the car, but there is no way to keep it for a long time.

### **Chapter 1305**

"Are you looking for me? If so, there's no need to chase. I'm here. " The thin and tall man and his party chased for several kilometers, and a light voice suddenly came out.

"Who?" As soon as their faces changed, they stopped and looked in the direction of the sound.

But they just turned to see, and even did not see each other's appearance clearly, a sharp knife light has cut over.

The light of the sword is rolling up the power of hunting wildly, and the killing intention is surging!

"Back up!" The tall and thin man felt the sharp killing intention, roared and began to retreat without hesitation. The other four did not dare to be slighted, and then flew back.

But even so, the sharp knife light still cut on two of them. With a hiss, the two fell down with blood.

Not dead, but seriously injured.

Wang Fan looked at the two seriously injured people and couldn't help sighing.

This is really weak enough. In the case of sneak attack, he only killed two tuofan. He is not satisfied with his knife.

In fact, Wang Fan originally intended to leave secretly, and was not willing to provoke five tall and thin men.

After all, he is not in a good state at this time. Although the five thin men are not so powerful, they are still a threat to him.

Can see thin tall male five people unexpectedly chased Coquettish female, he had no way, can only harden the scalp to jump out.

The coquettish girl helped him a lot, and even if she didn't get any reward, if she was still involved in this matter, Wang Fan would feel guilty all his life.

And Wang Fan also knew that he not only wanted to stop the five tall and thin men, so that they could not catch the charming woman's BMW, but also had to kill them.

Otherwise, once these five people don't die, they will be able to find out the identity of the coquettish girl. At that time, the coquettish girl will still be in trouble.

"Wang Fan?" The tall and thin man finally saw Wang Fan clearly. He was just about to crack. "You've come up to kill our people. You're really a cruel means!"

Wang Fan didn't want to talk at all. He grabbed the shadow knife with one hand and took out Teng Lingzhi with the other.

"Teng Lingzhi?" The three thin men looked at Teng Lingzhi in Wang Fan's hands. Their face changed violently, and they were almost staring out of their eyes.

They just feel their heart "bang bang" jump very fast, are about to jump out of the heart, breathing began to become short.

Wang Fan looked at the three people who were obsessed with it. With a cold smile, he immediately put away Teng Lingzhi, and then chopped them down again.

He used 80% of the strength of this knife. The light of the knife was sharp, the killing intention was sharp, and the momentum was also amazing!

These three guys want to take Teng Lingzhi from themselves. They even say that they are cruel. They are

just shameless.

He knew that it was difficult for him to kill the three guys in the face-to-face battle, so he took out Teng Lingzhi directly to attract the attention of the other side.

Sure enough, these three guys didn't let him down. When they saw Teng Linzhi, they lost their mind and gave him a chance.

The sharp light of the knife came in a flash, and the three thin men saw that Wang Fan was attacking while they didn't pay attention, and their faces suddenly changed.

This time, they did not escape, but frantically seized the weapon and blasted Wang Fan's shadow knife.

When the sound of several, in a series of blood mist spray, one person was killed directly by Wang Fan, one person chest stained with blood was shock back a few steps, only the tall and thin man was safe.

Wang Fan also stepped back three steps by the tall and thin man, his face turned pale instantly, at the same time, a wisp of blood overflowed from the corner of his mouth.

There was a surprise in his eyes. He didn't expect that these three guys would not retreat this time. They were all talking to him. He grabbed the shadow knife and killed the tall and thin men again.

"Wang Fan, you killed so many of my younger martial brothers. If I don't kill you today, I will swear not to be a human being!"

Tall and thin man, that is Wu gouqi, did not retreat at all. He also grabbed the weapon and killed Wang Fan crazily.

In addition, the slightly injured man was not idle and killed Wang Fan from the other side.

At this time, even if he was afraid of Wang Fan, he had to do it. Otherwise, once elder martial brother Wu gouqi was defeated, he would not be far away from death.

The roaring sound sounded, just a few breaths, this area has been the crack spread, beyond recognition.

Fortunately, there are no ancient warriors around here. Even in the dark of the day, there is no constant stream of ancient warriors coming. This makes Wang Fan feel relieved.

Hiss a, some moment, thin tall man a sword split in Wang fan body, when even Wang Fan split out. There was a long sword in his left abdomen, and the blood gushed out in an instant.

But Wang fan is not idle, in the moment of being injured, kicks another person's weapon away, and then the shadow knife goes crazy toward him.

The guy didn't expect that Wang Fan had been ripped, and he still had the spare power to open his weapon and split it again.

This makes him the whole person can't help but Leng for a moment. At this time, with a sneer, Wang Fan's shadow knife had already scratched his neck and lifted his head.

Come on!

Whoa!

A head flew up into the sky, followed by a cloud of blood.

Another boom, Wang Fan also fell heavily on the ground, the whole face has no blood.

Are you really going to be planted here?

Wang Fan's heart sank to the bottom of the valley, but his hands were busy. After one hand grabbed the pill and threw it into his mouth, the other hand grabbed the silver needle and quickly tied it to the wound.

Wu gouqi looked at the younger martial brother who was killed again. He was really going crazy. Even his hair had been put up. "Wang Fan, you killed my younger martial brother again. You pay for your life!"

The next second, he flashed directly in front of Wang Fan and stabbed him with his sword!

### **Chapter 1306**

As soon as Wang Fan's face changed, he clapped his hands on the ground and immediately began to retreat.

With a choking sound, the tall and thin man's sword fell on the ground, and a crack several feet long was cut immediately.

A sword failed, he turned his head ferocious look to Wang Fan, "hide? I'd like to see where you can hide. If I don't kill you today, I'll swear not to be human! "

Wang Fan looked at the fierce Wu gouqi, and his scalp became numb. He couldn't care so much any more. He stirred up his aura crazily, and his hands began to seal.

Now in this situation, fanshanyin is his only turning point. If he doesn't use fanshanyin, he will die.

Although he also knows that it's hard for him to use the mountain climbing seal in his current state. If he can't do it well, his foundation will be damaged and his strength will not be able to advance in the future.

But now he is dying. Where can he care so much?

At the thought of a mere two-tier escape, Wang fan forced himself to such a state. At the same time, Wang Fan was angry, and his heart was full of strength.

It's impossible to want Teng Lingzhi of Wang Fan and Wang Fan's life. Even if his foundation is damaged, he will take Wu gouqi's life.

Under Wang Fan's seal, just a few breaths, the mountain climbing seal has been condensed, and Wang Fan's face is as pale as paper.

The next second, he grinned and pushed out the big seal.

"Martial arts?" Wu gouqi is not an insightful person. His face changed at first, but he soon became disdainful. "A small skill of carving insects, I'll blow you with a sword."

If Wang fan is in a state of total victory, maybe he will really fear Wang Fan's mountain climbing seal, but Wang fan is now at the end of a strong bullet. Where can the mountain climbing seal be used in this case?

Wu gouqi disdained to say, the whole body breath crazy surging, the next second in the hand of the sword has rolled up countless sword flowers, crazy to the fanshanyin.

Boom, in an instant, as if the sound of mountain collapse sounded, the mountain print was smashed in an instant, but the remaining print was still smashed on Wu gouqi.

He spewed out a mouthful of blood directly and was immediately blasted out. After he fell to the ground, his body was also full of blood.

Wang Fan also felt bad. He was injured by the sword flower of Wu gouqi, and there were countless wounds on his body again.

Wang Fan looked at the seriously injured Wu gouqi, and wanted to rush to get a knife. As a result, this guy was helpless, but he couldn't even stand up.

Wu gouqi is also shocking. What kind of martial arts is it? Is it too abnormal?

After a short shock, his heart emerged endless fire.

He didn't expect that there were so many good things in Wang Fan. Besides Teng Lingzhi, he even had martial arts skills.

No matter what, he has to get this skill. Once he has learned this skill, let alone the same level, he will not be afraid even if he is out of the ordinary.

Just make Wu gouqi depressed is, now he also can't get up.

He wanted to ask the two seriously injured younger martial brothers to clean up Wang Fan's, but then he found that the two younger martial brothers had been completely out of breath because of their previous fighting.

In desperation, Wu gouqi can only start to recover crazily, racing against the clock,

no way, now he can only compare with Wang Fan who recovers faster, because who is faster is the winner, and the other one is only dead.

Coquettish girl's heart is very nervous, because she just left the toll station three or four kilometers, found someone to catch up.

Those people are also very fast, one by one like Superman on TV.

She recognized at a glance that rushed in the front, it is smell her car has the smell of blood thin tall man.

This time, she was almost scared to death. She even could not hold the steering wheel firmly, and almost fell into the ditch.

But soon her face changed again, because she found that the tall men suddenly stopped.

When she was thinking about why the thin and tall men stopped, she saw a white light cutting at the thin and tall men. Then she found that Wang Fan came out of the shadow on the other side.

The coquettish girl was a little nervous and scared. She pulled over the car and started to watch from a distance.

She did not understand why she would do so. Was she worried about Wang Fan?

There is no answer.

In the roaring sound, the coquettish girl felt as if she was watching a sci-fi blockbuster. At last, she only felt a shining white seal collided with a sharp sword light. Then Wang Fan and the tall man fell down.

When she saw them fall down, her whole heart suddenly pulled, but she didn't move immediately. Instead, she waited for a few minutes. Then she carefully dropped the car and drove back.

Fortunately, there is no car on the road, otherwise it is not easy for her to turn around.

Soon the coquettish girl came to Wang Fan, who was not far away from her. When she saw the scene

clearly, she almost vomited out, feeling a nausea. Previously, she was too far away. Although she saw the fight between the two sides, she didn't see it so clearly.

Now clearly looking at the bloody ground, and the four people who fell on the ground and died miserably, where can she bear it?

Fortunately, although she was a little hard to bear, she was not so scared that she fainted directly.

In fact, no matter Wang fan or Wu gouqi, they knew that the coquettish girl was not far away, but no one cared.

In Wang Fan's view, if she killed Wu gouqi five people, even if the coquettish girl is not far away, there will be no danger.

Similarly, if he can't kill Wu gouqi five people, even if the coquettish girl runs away, it is estimated that he will be in big trouble.

Wu gouqi naturally doesn't pay much attention to coquettish women. He is just an ordinary person and a woman. In his eyes, Wu gouqi is not much better than ants. He can crush to death with a little finger.

Of course, this is just before, because now in this situation, the coquettish girl is not a mole ant in Wu gouqi's eyes, not to mention the coquettish girl is still driving a car.

Although Wu gouqi couldn't stand up, he could still speak. He gave a cold look at the coquettish girl and said, "get out of here and shake in front of me again. I'll kill you directly! I will not only kill you, but also your clan and your whole family! "

Wu gouqi was afraid that the coquettish girl would help Wang Fan deal with him, so she threatened him directly.

If his threat is aimed at the ancient warrior, even if the ancient warrior has only acquired accomplishments, it will not have any effect. To threaten an ordinary woman, he felt that it was enough.

After all, the bloody scene has proved that they really dare to kill. He doesn't believe that the coquettish girl dares to help Wang Fan after hearing his threat.

Although the coquettish girl doesn't know why Wu gouqi said clan, it doesn't mean she didn't understand Wu gouqi.

Her pretty face turned white in an instant, and her delicate body began to shake.

This person is also too cruel, he just came to have a look, did not say a word, even so cruel threat to himself?

At this time, Wang Fan cold mouth, "you are really shameless, even an ordinary woman are threatening."

He looked at the coquettish girl again, "if you believe me, you'll run into him immediately. I promise you won't do anything."

"If you don't dare to kill him, help me over and let me do it myself. He and I can't move now. For the time being, no one can do anything. "

"But once one of us recovers first, the other will have to wait to die."

Although Wang Fan said some wordy, but not very straightforward, coquettish girl still understand Wang Fan's meaning.

Wang Fan's meaning is very obvious. If Wu gouqi recovers first, Wang Fan will die. If Wang Fan dies, how can she have a good end?

### **Chapter 1307**

"Little bitch, if you dare to touch me or help him, you will die. I swear to destroy your family!"

Wu gouqi listens to Wang Fan's words, his face changes greatly, and immediately looks at the coquettish girl Han Qingyu, who threatens madly again.

His face had been completely distorted, and his eyes were even more ferocious, looking extremely terrible.

If he didn't suffer such a heavy injury, or even if he could move, he could easily kill Han Qingyu.

It's a pity that he was injured too much, and now he has no strength at all. Han Qingyu is really a threat to him.

Originally Wu gouqi did not make a threat, but Han Qingyu really hesitated, but she was angry when she heard that Wu gouqi threatened to destroy her family again.

A wave of anger rose from her heart. Without saying a word, she directly got into the car again, then gritted her teeth, stepped on the accelerator and ran over Wu gouqi.

"You dare!" Wu gouqi's face changed wildly! The next second, a creak, his whole person has been severely pressed under the wheel, bone fragmentation, flesh and blood.

"You Wu gouqi muttered a word out of his mouth, then his head tilted and he lost his breath.

He was not willing. He never thought that he would die in this way.

After running over Wu gouqi in her car, Han Qingyu suddenly regained her mind. Her pretty face was pale and she was in a cold sweat.

She killed. She killed.

"You don't have to be afraid. It's like killing an ant. Don't worry. If someone asks, just say that I killed this person. It won't affect you."

Wang Fan's heart rises to appreciate, can't help but toward cold green jade say.

"Me, what shall we do now, escape?" The cold green jade gets out of the car and vomits wildly, six gods have no master, the whole body is shaking.

"You don't have to run. Help me to the car. Let's get out of here first." Wang Fan said.

"Good, good." Han Qingyu nodded quickly, and then ran to Wang Fan.

Han Qingyu panted and supported Wang Fan. They were close to each other, but no matter Wang fan or Han Qingyu, they didn't have the heart to think about those messy things.

Cold green jade spent nine cattle two tiger's strength to help Wang Fan on the car, and then start the car shivering.

Wang Fan looked at Han Qingyu's pale face and sighed, but he didn't speak. He didn't know how to comfort such things.

More than two hours later, they had already arrived at the camp.

Wang Fan originally planned to separate from Han Qingyu in Yingcheng, but when this happened, he had no way to go.

He had to follow Han Qingyu to her residence first.

Han Qingyu has her own apartment in Yingcheng. The conditions are pretty good. After entering the apartment, she starts to spit again.

"I'm sorry to frighten you. You can rest assured that this matter will not involve you. You don't have to worry about the threat of that guy."

Wang Fan looked at the big spit of the cold jade, can only comfort again.

"Well." Han Qingyu nodded pale, and then entered the bathroom.

Wang Fan didn't talk much, so he went into the small bedroom to take care of himself.

Although there is no problem with his action now, his strength has not recovered at all, let alone the strong. Even if he comes the day after tomorrow, he will be killed.

Han Qingyu washed for an hour before she came out of the bathroom. She had already put on a nightgown. Her crystal skin glowed like milk under the light.

Although the nightdress is loose, it is still hard to cover her proud figure. The whole person is like a boiled egg to be peeled, rippling with endless charm.

The only drawback is that her pretty face is still pale and her bright eyes are full of panic.

Wang Fan walked up to her and quickly pointed several acupoints on her body, calmed her mood, and then said, "go to sleep. After a sleep, there will be nothing."

With that, Wang Fan entered the bathroom.

Han Qingyu looks at Wang Fan's back in the bathroom. She doesn't speak. She enters the master bedroom and then lies down.

After taking a bath for ten minutes, Wang Fan entered the small bedroom again and began to heal.

He wants to recover some strength as soon as possible, and then refine Teng Lingzhi into pills to take.

Now although he has been temporarily safe, he is not absolutely safe.

Last night, he killed Wu gouqi and his party. They didn't have time to destroy their bodies. Those ancient warriors should soon trace back to Yingcheng.

In the final analysis, these things are caused by Teng Lingzhi. As long as he takes Teng Lingzhi, the danger will be reduced by more than half.

Teng Linzhi is on Wang Fan. Those ancient martial arts people still have reasons to die. But once they know that he took Teng Linzhi, it is estimated that few people dare to die with him.

What's more, if Wang fan can go further with Teng Lingzhi, he will no longer be afraid of those ancient warriors who come to challenge. He wants to tell those people that if they want to rob Wang Fan, they have to pay a price, and Wang fan is not so easy to chase.

After Wang Fan treated his injury for a long time, he entered a state of recuperation.

In the other bedroom, Han Qingyu couldn't sleep any more. As soon as she closed her eyes, the bloody scene would appear in her mind, especially Wu gouqi's ferocious face.

The night was so quiet and terrifying that even with the light on in her bedroom, she felt fear.

The more she thought about it, the more she was afraid. Finally, she couldn't help coming out of her bedroom and entering Wang Fan's bedroom.

"What's the matter, can't you sleep?" As soon as Han Qingyu entered Wang Fan's bedroom, Wang Fan already felt it. He opened his eyes and couldn't help asking.

"I, I'm afraid." Cold green jade some embarrassed of say, while speaking, her that pale pretty face has already faintly suffused with red.

This evening, she even told a man that she was afraid, which is too reserved. But she has no way, because she is really afraid.

Anyway, she has already brought Wang Fan to the apartment. All the lonely men and women are under the same roof. It's nothing to stay in the same room. I just hope Wang fan doesn't have a big animal.

Cold green jade thinks, think far, unexpectedly thought of these disorderly things.

"Then you can sleep here." Wang Fan said, sat on the side, gave up a large position.

Han Qingyu is just an ordinary woman. It's her first time to experience this kind of thing. It's normal to be afraid.

"Well." The cold green jade nodded, then slightly twisted and lay down on the side.

She also put one hand on the collar and the other on the skirt in a provocative gesture.

Wang Fan looked at the scene and felt speechless.

Even if you press the skirt, he can't see it anyway, but is it necessary to press the collar? If you press it again, he can see it clearly.

What's more, if he wants to see it, he still needs to use his eyes. With a sweep of his mental power, Han Qingyu becomes transparent. I don't know whether this woman's fear is true or false.

Han Qingyu's heart is also pounding. Although she is not a young girl, she is still nervous at the thought of a big man sitting next to her.

Of course, perhaps because of being distracted, her fear dissipated a lot.

"Don't move. I'll give you a few massages to make you sleep well. As soon as you wake up, nothing will happen."

Wang Fan says, two hands pressed to cold green jade head.

### **Chapter 1308**

When Han Qingyu saw Wang Fan's hand reaching to her head, her whole heart couldn't help beating, but she closed her eyes soon.

She believed that Wang Fan would not do anything to her, and even if Wang Fan really wanted to do something to her, she could not resist.

Wang Fan didn't know the messy idea of Han Qingyu, so he pressed his hands on her head quickly.

Under Wang Fan's massage, Han Qingyu first felt a touch of comfort, and then felt a sense of sleepiness. She didn't know when, so she couldn't help sleeping.

Wang Fan looked at the sleeping cold sapphire, pulled the quilt to cover her body, and then continued to start the recovery.

Han Qingyu, a woman, was dishonest in her sleep. In a few minutes, she pushed the quilt aside and even rolled up her nightgown.

Wang fan is a little thirsty, so he quickly covers her.

I don't know if his strength has fallen, which leads to his weak willpower. Looking at the fiery body of Han Qingyu, his heart is hot.

But it's OK. Soon he came down.

Just a few minutes later, Han Qingyu pushed the quilt away again, and the whole person turned over, half lying down like a lazy pig.

Wang Fan's heart is more depressed, this also let people take good care of ah, he quickly took the quilt to cover that almost let him commit a crime.

In less than two hours, Wang Fan covered Han Qingyu no less than 20 times, and he was about to collapse.

At a certain moment, the cold jade is more excessive, directly a turn over, hugged his leg, ha La Zi also flow in his leg, dead refused to let go.

Wang Fan silently read a few times Ami's hair, quickly closed his eyes, and no longer bothered to pay attention to this woman.

He was afraid that he would lose control.

Wang Fan, who forced himself to calm down and no longer went to see the cold jade, soon entered the state of recuperation again.

In one night, Wang Fan's strength recovered more than half, at least he had the ability to protect himself.

He subconsciously stretched and moved his legs.

"Eh" ground a Jiao Yin, cold green jade immediately woke up.

This woman looks charming and charming, and her sleeping posture is not flattering. Her skirt is up to her thigh, and her collar is pulled down. I don't know where she is.

This morning, Wang Fan looked at the cold jade, almost have a kind of impulse. Fortunately, he finally put up with it, and the beast was not as good as once.

"Ah." When Han Qingyu saw her image clearly, she was also very ashamed. With a loud cry, her pretty face turned red instantly.

Oh, my God. How could that be? Is that too shameful?

She quickly lapped her collar and skirt and sat up.

Just looking at the big wet mark on Wang Fan's leg, she was still a little embarrassed.

"You wake up. Let's go out and have breakfast. Today I'll borrow your room for a day. You can stay here or go out for a walk, just remember not to disturb me. "

Wang Fan looked at the cold sapphire, rubbed the right leg, got out of bed and stood up, slowly said.

"Good." The cold green jade ordered to nod, hurriedly went to wash to clean up.

After she finished washing, they went out for breakfast and then went back to the apartment.

Han Qingyu doesn't know if she is still afraid of what happened last night and doesn't go out.

Wang Fan did not care to manage so much. After entering the room and closing the door, he took out Teng lingzhi and began to refine the pills.

Mucheng.

One night later, Wang Fan had not been found. Those ancient warriors immediately realized that Wang Fan must have left Mucheng.

If it was something else, even if Wang Fan left Mucheng, they would certainly find a way to inquire about Wang Fan's whereabouts, and then continue to catch up.

But Teng Lingzhi can be taken at any time, so there is no need for them to continue looking for Wang Fan. Because one night is enough for Wang Fan to take Teng Lingzhi.

Most of the ancient warriors are reluctant to leave Mucheng and return to their family or clan. Only a few of them are still asking about Wang Fan all over the world to see if they still have a chance.

"Isn't that Wang Fan a secular man? Let's go to his secular territory now and control his relatives. I don't believe he won't show up. "

In a broad hall, an old man with dark breath said to the six people in front of him.

This old man is called Hu Shouyi. He is not only a strong man, but also a casual practitioner. The six people in front of him are all his old friends.

They got together after they met in Mucheng.

Hu Shouyi's strength has been stuck in the fourth floor of tuofan for more than ten years, but he has never been able to step into the fifth floor of tuofan, so this time he is determined to win Teng Lingzhi.

He believes that as long as he gets Teng Lingzhi, his strength can definitely go further and smoothly stride into the fifth floor.

The strength of those six people is different from that of Hu Shouyi. Although they are not as powerful as Hu Shouyi, they are all old people who have been closed all the year round, and the news is a bit blocked. They had never heard of Wang Fan's prestige, so five of them immediately nodded and agreed,

"I think Mr. Hu is right. Since Wang fan doesn't appear, we will force him to appear. Teng Lingzhi is very important to us. We must not let that Wang Fan use it. "

"That is to say, just a little guy who wants to eat Teng Lingzhi alone. He is not afraid of having too much appetite to support himself. Let's do as Mr. Hu said."

"I heard that Wang Fan's base camp seems to be in Jinzhou. Let's go to Jinzhou to control his relatives, and then let the news out to force him to appear.

If he shows up, we'll kill him until he shows up. "

"I also agree with Mr. Hu's approach. We should not delay. I think we'd better start right away."

Five of them responded one after another. They all thought Hu Shouyi's method was feasible, and they

were about to start.

Things should be done sooner rather than later. Teng Lingzhi is likely to be used by Wang Fan every extra minute, so they dare not be careless.

However, in the end, the man could not help shaking his head, "I think we still need to consider."

"We all know that Wang fan is a member of the secular world, but why does no one threaten his relatives? Is there any reason for that?"

"I think we'd better investigate first, just in case."

However, as soon as this person's words came out, they were immediately refuted by others.

"Brother Yao, you are worried too much. It's just two or three floors away from the ordinary. What can I do for you? Kill us, and who can do what to us? "

"That is, if there are people behind him, they will be hunted down and run away in confusion. Why don't the people behind him come out?"

"Brother Yao, if you don't dare to go, we won't force you, but if Teng Lingzhi gets it, you won't be able to do it."

The guy, who was called brother Yao, clenched his teeth. "I hope I'm worried too much. You're not afraid. I have nothing to be afraid of. I'll go."

Without a moment's delay, the party immediately rushed to the airport and bought a ticket to Jinzhou.

## **Chapter 1309**

Wang fan doesn't know that someone has killed Jinzhou. He has taken Teng Lingzhi out and started alchemy.

More than an hour later, Teng Lingzhi has become six crystal clear pills.

Wang Fan looked at the six pills. He felt a little excited and didn't hesitate. He grabbed one of them and swallowed it in his mouth.

Boom a, Dan medicine entrance namely melt, soon then turned into surging spirit power toward Wang Fan whole body everywhere turbulent past.

Wang Fan felt the surging spiritual power, almost trembling with excitement. He didn't hesitate, and quickly began to absorb it crazily.

Under the scour of the great spiritual power, Wang Fan's strength has been restored to its original peak

in less than ten minutes. Ten minutes later, he had recovered to the first level.

Only half an hour later, his lost aura has been completely replenished, and his strength has been restored to the peak, which is beyond the ordinary level.

But even so, the aura in the body is still surging, shuttling around crazily.

Wang Fan sighed to himself that Teng Lingzhi was against the sky and did not dare to neglect him. He began to rush towards the third floor of tuofan.

There seemed to be a roaring sound in his body, but he couldn't get rid of the three layers.

Although those auras are still very surging, they are obviously not enough compared with the three levels.

Wang Fan didn't even think about it. He grabbed another pill and quickly threw it into his mouth.

He had intended to use Teng Lingzhi promotion, now naturally will not save.

After another pill was put into his mouth, his spiritual power was full again. Unfortunately, he still felt that he could not reach the third level of Defan.

Wang Fan was aware of this scene. He gritted his teeth and swallowed all the other four pills in his mouth.

Boom, in an instant, he felt countless spiritual power rushing towards his whole body, almost bursting his meridians.

Wang Fan's face changed greatly. He kept his mind madly and concentrated on controlling those auras.

Boom

boom

boom

I don't know how long the sprint lasted. His face has completely turned red, his clothes have completely broken, and even his pores have oozed endless blood. He looks very ferocious.

But Wang Fan did not dare to relax at all and continued to sprint with his teeth clenched.

At a certain moment, he seemed to hear a click, and then the barrier on the fourth floor of tuofan was split.

He only felt a surge of power full of the whole body, as he wished to enter the third level of detachment.

After Wang Fan's strength entered the third level of Defan, he didn't relax at all. He was still absorbed in his crazy cultivation.

Because he can clearly perceive that the aura in his body has not been consumed, it is likely that he can go further.

Half an hour later, his strength is completely stable in the mid-term of the third level, only one step away from the peak of the third level. It's a pity that he can't rush through that step any more.

Wang Fan knew that it was meaningless to continue the impact, so he directly withdrew from the cultivation state and opened his eyes.

His eyes were full of surprise, because he was satisfied with his breakthrough.

Teng Lingzhi, it's really a treasure that many ancient martial arts people want to snatch. It's just against the heaven.

Just a Teng Lingzhi made him a big step forward in strength. From this, we can imagine how rebellious the Tianyun flower of guwu Dabi would be.

Cold green jade stays outside the door, has been a little uneasy, because she heard the movement of Wang Fan's room.

She wanted to go in and see what happened to Wang Fan, but she didn't dare to go in after thinking of Wang Fan's advice.

At a certain moment, she heard the sound of footsteps coming from Wang Fan's room. Without hesitation, she pushed the door open and went in.

Just as she just walked in, she saw Wang Fan with broken clothes and blood all over her body.

"Ah She couldn't help but scream in fright, and then quickly asked, "what's the matter with you? Is it OK?"

"I'm fine." Wang Fan was also a little embarrassed, and then he rushed into the bathroom.

Jinzhou.

When Hu Shouyi boarded the plane to Jinzhou, heiluocha already got the news.

Although she did not participate in Wang Fan's affairs due to her poor strength, it does not mean that she does not know what happened.

Hu Shouyi suddenly flew to Jinzhou from Mucheng. She didn't have to think about it. She knew that she must have come to trouble them.

Without any hesitation, heiluocha immediately gave the employees of wangfan group a holiday, and then called all the senior managers to wangfan manor.

She didn't inform Wang Fan by phone, because she knew that even if she informed Wang Fan, the effect was not very big.

Wang fan is seriously injured and can't help them at all.

Two hours later, heiluocha has laid off all the employees of the company and gathered all the senior managers to wangfan manor. Pei Qingcheng, a Biao, Xie Hu, Liao Feng and others all arrived.

All of them had serious faces and were aware of the seriousness of the matter.

With the security measures of wangfan manor, there is no problem to deal with the congenital experts. Even if the congenital peak comes, it is estimated that it is difficult to break into the manor.

But Hu Shouyi and his party are masters of breaking away from the ordinary, so there is not much assurance for the black Luo cha.

In their eyes, it was the existence of adversity.

"Sister Luo cha, how is Wang Shao now? Is he OK? Don't we really have to tell him about it? "

"It's not that I'm afraid of death. When those dog days come, I'm sure Xie Hu will be the first to rush up."

"I mean Wang Fan group is Wang Shao's hard work. If something happens here, we don't tell him. Isn't it bad?"

Xie Hu grabs the gun in his hand and says to heiluocha.

What he said is not unreasonable. After all, the people who came here are powerful, and there is more than one. If not, the Wang Fan group is really likely to be destroyed.

If other things are OK, but Wang Fan group is destroyed, this is not a small matter, how can they hide from Wang Fan?

Black Luo Cha shook his head, "I feel or don't tell Wang Shao good, because even if we told Wang Shao, also can't change anything."

"What's more, although the matter is serious this time, I don't think it can reach the point where Wang

Fan group was destroyed."

"Wang Shao said that ye Lao would protect us, and he should not see those ancient warriors hurt us."

The voice of black Luo Cha just falls, accompany with Jie Jie a strange smile, a voice already spread to come in, "Oh, is it, then I see if I hurt you."

With the sound, Hu Shouyi and his group of seven suddenly appeared, and then Hu Shouyi slapped toward the black LuoCha.

The strength of heiluocha is only innate. How can it avoid Hu Shouyi's four-tier slap?

She can only watch Hu Shouyi slap.

With a slap, Hu Shouyi slapped black LuoCha's face heavily. Her mouth spat out a mouthful of blood, and the whole person flew out directly.

After falling to the ground, he had broken several ribs and bled all over the floor.

The whole scene was dead and everyone felt numb.

### **Chapter 1310**

"Sister Rocha!" After a short period of stupidity, a man with a round face and small eyes took the lead in responding. With a loud roar, he immediately grabbed the gun in the gun bag.

His name is Li Jiu. He is the elite of Wang fananbao. He is a new senior member of the group. His position is second only to Xie hubai and others.

"To die!" Hu Shouyi saw that Li Jiu was going to grab the gun. His eyes were cold and he cut it with a knife.

Hu Shouyi is seven or eight meters away from Li Jiu, but he has appeared in front of Li Jiu at the time of chopping.

With a sneer, Li Jiu's hand had just been shot, and the whole person was split in two. The red blood splashed everywhere, and dyed the whole hall red.

Xie Hu and his party watched the scene, but they could not help clenching their fists, and their pupils began to choke.

This man was so powerful and cruel that he killed people all the time, which made them feel powerless and angry at the same time.

"Even this time, next time someone dares to take out a gun, I will let him live or die!"

Hu Shouyi coldly took a look at Xie Hu and his party, "I know you are Wang Fan's friends. Now you call Wang Fan immediately and ask him to bring Teng Lingzhi."

"If he doesn't arrive before dark, I'll kill ten people. If he doesn't arrive tomorrow morning, I'll wash your manor with blood. My name is Hu Shouyi. I do what I say! "

Hu Shouyi's face and expression directly expressed his purpose.

The main purpose of his coming here is Teng Lingzhi. Of course, he wants to get it as soon as possible, so he has no time to talk nonsense with Xie Hu and his party.

"Master, there's a saying in the world that it's not as good as your family. Wang Shao has a grudge with you. That's between you. You can go to Wang Shao."

"But now you come here to kill us, to kill us innocent people, and to threaten Wang Shao with us, isn't that a bit too much?"

Pei Qingcheng couldn't help but stand up and said to Hu Shouyi.

"Too much?" Hu Shouyi smile indifferently, the next second, a direct cut in the past.

Sharp knife light is coming in a flash, Rao is Pei Qingcheng strength has reached the congenital medium-term, are still unable to respond.

She didn't even feel the pain. She saw her legs cut off on the ground while the blood was spraying.

A few seconds later, her body landed heavily. The pain came and she couldn't help humming.

The scene was dead again.

Hu Shouyi is really cruel. He doesn't have any soft feelings towards Pei Qingcheng. Everyone feels chilly and numb.

"Don't tell me about the rules of the river and lake. Hu Shouyi is not a person of the river and lake, and he won't abide by the rules of the river and lake."

"Call me right away to inform Wang fan that if you don't fight for one minute, I'll break your leg. If you don't fight for two minutes, I'll break your arm."

"Don't worry, Hu Shouyi has plenty of means to deal with you!"

Hu Shouyi didn't even look at Pei Qingcheng, and once again made a cold voice.

"Gourd baby, gourd baby, seven flowers on a vine"

at the moment when the scene fell into silence, a harsh mobile phone ring rang.

a face of old tiger, red, quickly grabbed the mobile phone, connected the phone.

More than ten seconds later, he looked at Hu Shouyi holding his cell phone in embarrassment, "Wang Shao, he asked you to answer the phone."

He didn't know how Wang Fan knew about things here, and he also called him.

Hu Shouyi also has no nonsense, a hand, a Biao only feel a suction, the hands of the mobile phone flew into Hu Shouyi hands.

"I'm wang fan. Teng Lingzhi is on me. I'm going to Jinzhou now. You'd better not touch my people, otherwise as long as my people lose a hair, even if I destroy Teng Lingzhi, I won't give it to you. "

A cold voice came, and without waiting for Hu Shouyi to respond, he hung up the phone with a slap.

"Bastard, dare to threaten me!" Hu Shouyi's face was cold. In the sound of a click, the mobile phone was crushed in an instant, and his eyes were extremely cold.

Just a Wang Fan, dare to threaten him Hu Shouyi, is simply live impatient.

When Teng Lingzhi gets it, Hu Shouyi must destroy Wang Fan, and then wash the whole manor with blood.

Hu Shouyi swore maliciously, but he didn't touch the others. Instead, he said to Xie Hu and others,

"wash the body and the serum on the ground right away. When Wang Fan arrives, if anyone dares to tell me about my killing, don't blame Hu Shouyi for being impolite."

Hu Shouyi said, immediately ran to Pei Qingcheng side, quickly picked up the legs for Pei Qingcheng.

He also has no way, because he is too eager for Teng Lingzhi, so before he gets Teng Lingzhi, he is really afraid that Wang Fan will destroy Teng Lingzhi.

Xie Hu and his party gnawed their teeth. They could only get Li Jiu's body and deal with the blood on the ground. The hero doesn't suffer from immediate losses. Anyway, Wang Fan already knew about it and went back. Whether Wang fan is Hu Shouyi's opponent or not, when Wang Fan comes, they will definitely tell Wang Fan about it.

On a plane to Jinzhou, Wang Fan's face was gloomy and terrible.

He did not expect that someone killed Jinzhou and Wang Fan group.

The news is that ye Nantian told him, because ye Nantian didn't expect that Gu wuzhe would dare to ignore his words and attack the people of Wang Fan group, so Hu Shouyi took advantage of it.

When ye Nantian called him, ye Nantian's people had already arrived in Jinzhou, but Wang Fan said that he had to deal with it by himself, but ye Nantian didn't let his people do it.

Wang Fan's eyes are gloomy and his heart is murderous.

If he doesn't frustrate those who dare to invade Wang Fan's group, Wang Fan will be regarded as a white cultivator for such a long time.

More than two hours later, the plane successfully landed at Jinzhou airport. After Wang Fan got out of the airport, he rushed to Wang Fan group.

Wang Fan manor.

Three hours have passed, and the blood on the ground has long been cleaned up. There is no blood left.

Pei Qingcheng's legs have been connected, but his face is still a little pale.

Black Luo Cha's face also used Hu Shouyi's medicine, much better, but her eyes are full of hate.

Hu Shouyi's seven people, Ma Jindao, sat on the chair, while heiluocha and his party were biting their teeth and standing on one side. The atmosphere was very depressing.

At a certain moment, Hu Shouyi had no patience to wait. He slapped the table and stood up.

He pointed to Xie Hu and said, "now call Wang Fan and ask him where he is? Three hours from Mucheng to here should be enough? "

"Tell him, if you dare to play with me, Hu Shouyi, I will not only destroy you, but also pursue and kill him for the rest of my life! If he does not destroy Wang Fan in this life, I Hu Shouyi will swear not to be a man! "

Xie Hu was threatened by Hu Shouyi. He could not help clenching his fist in a moment, but he soon relaxed again.

He gritted his teeth and grabbed out his mobile phone, but before he could get through to Wang Fan, a cold voice with a sense of killing came in,

"no need to call, I've come! I will never die in this life. Wang Fan has vowed not to be a human being. You really have a big voice. I want to see how you can destroy me! "
