

## **Mighty Sk 1311**

### **Chapter 1311**

Shua Shua!

The sudden voice made Hu Shouyi and his party stand up while their faces changed greatly.

unexpectedly, someone entered the manor. They didn't know it. They felt a chill at this time.

It seems that Wang fan is not as simple as he imagined!

He looked at Wang Fan who was walking slowly and asked coldly, "are you wang fan?"

Wang Fan simply nodded, "yes, I am!"

"Wang Shao."

"Wang Shao."

At the same time, a Biao and his party also saw Wang Fan, and they all cried out excitedly.

Xie Hu also took the lead and said, "Wang Shao, these bastards are so rampant! They killed Li Jiu and forced us to clean up Li Jiu's body and the blood on the ground. I don't want you to know. "

"They also broke sister LuoCha's face and cut off sister Qingcheng's legs. If it wasn't for your call, they would have given simple treatment again. I'm afraid sister Qingcheng would have lost too much blood and died now. "

Xie Hu didn't hesitate at all, and immediately said what Hu Shouyi did here.

Hu Shouyi was furious, "you want to die!"

At the same time, he roared, his body had flashed towards Xie Hu, and he cut a knife madly.

He didn't expect that Xie Hu would dare to ignore his threat. Wang Fan just came in and took the initiative to say these things without asking.

Since Xie Hu didn't put his words in his heart, Hu Shouyi hesitated and killed him directly!

"I think it's you who are looking for death! Who gives you the courage to kill in front of Wang Fan

Wang Fan burst out laughing and jumped out, chopping out the shadow knife.

At the same time, Wang Fan followed closely and kicked out.

Hu Shouyi's face changed greatly. He didn't expect that Wang Fan's strength was so terrible. He understated it and blocked his sword.

Even if Wang Fan blocked his knife, he still had the strength to get out of his leg, and he could find the gap between his knife waves accurately.

Hu Shouyi's face changed greatly, and immediately realized that Wang Fan was much more powerful than him.

But now, even if he knew these things, he didn't have any effect, because he couldn't avoid Wang Fan.

With a bang, Wang Fan focused on Hu Shouyi's chest. A crack of bone came. Hu Shouyi spat out a mouthful of blood and was kicked out in an instant.

After he fell to the ground, he was seriously injured and couldn't get up again.

His face was dead!

The other six people's faces also changed, and they all became extremely ugly.

Although they had realized that Wang Fan was not simple when Wang Fan came in, they never thought that Wang Fan was not so simple.

If I had known that Wang Fan had the strength of seckill, how could they dare to challenge here?

Compared with the six people's ugly faces, Xie Hu and his party were a little excited.

Wang Shao is really the omnipotent Wang Shao. Hu Shouyi, who is extremely fierce in their eyes, can't do two moves in Wang Shao's hands. He just can't imagine.

Wang Fan ignored the seriously injured Hu Shouyi and the six people. Instead, he looked at Xie Hu and his party and asked, "who killed Li Jiu, who beat LuoCha elder sister, and who cut off Qingcheng elder sister's legs?"

Although Hu Shouyi and Wang Fan all wanted to kill, he naturally wanted to take care of those who dared to do it.

Without any hesitation, Xie Hu and his party pointed directly to Hu Shouyi, "he did it all!"

Wang Fan no longer talks nonsense, straight to Hu Shouyi in front of a foot on his face, "you can not small ah, even my people dare to move?"

He said, directly with the sole in Hu Shouyi's face to grind up.

Hu Shouyi is four stories away, but now he is trampled and ravaged by Wang Fangou. He finally realizes what humiliation is, and his whole face is red.

It's just that soon the red was covered by the oozing blood and could not be seen any more. Then everyone heard the clatter on Hu Shouyi's face.

Wang Fan just stepped on Hu Shouyi, until his old face was so bloody that he could no longer recognize his face, and his strength was wasted.

He said to Xie Hu and his party, "find two people to tie him up like a dog, throw him into the garbage outside, and then send a few people to stare at me. Don't let him die."

"Isn't he arrogant? Isn't he capable? Doesn't he like to bully people? I want to see how he can bully people when he becomes a dog!"

Xie Hu didn't hesitate and executed immediately.

When Hu Shouyi was lifted up like Xie Hu's chicken, he couldn't bear it any more. He turned his eyes and went into a coma. The other six people looked at the scene, and their faces were even worse.

Cruel, it's too cruel!

Wang Fan is more cruel than killing or torturing Hu Shouyi!

What a shame that Hu Shouyi was treated like a dog and didn't let him die?

"Wang Shao, we were all bewitched by Hu Shouyi, and we didn't do it. Please give us a chance."

"Wang Shao, originally we didn't want to do this. We all blame that son of a bitch Hu Shouyi. We have no choice but to force us to come."

"Wang Shao, as long as you are willing to stop, we are willing to make compensation."

"Wang Shao, it's better to get rid of the enemy than to get married. Although you are very powerful, we are not vegetarians. If we fight, let's not say whether you can kill us. Even if you can kill us, I'm afraid your friends will suffer as well. "

The other six people's faces became very fast and began to speak soft words in an instant.

Although they feel that even if they fight, they may not be able to kill Wang Fan, but they don't want to fight any more.

The first reason is that they have been intimidated by Wang Fan's means,

the second reason is that even if they can really kill Wang Fan, they are bound to be killed several people, and no one wants to be the one killed.

"Oh, really?" Wang Fan looked at the guy who threatened, "then I really want to see if we fight, my friends will suffer."

He said, step a move, the moment toward the man flashed past.

The man's face changed greatly, and immediately began to retreat madly, but he only took off the second level. How could he escape in front of Wang Fan, who was able to challenge the third level?

Just in an instant, Wang Fan got close to him and made a blow.

With a bang, the man's congenital vigorous Qi was torn in an instant. With a click, his bones were broken and he flew out in an instant.

His mouth spit out countless blood mist, people in the air, the meridians have been inch by inch tear, after falling to the ground is dying, completely become a waste.

The other five people watched the scene and all of them gasped for air.

It's terrible. It's terrible!

The scene was dead!

They feel as if they have underestimated Wang Fan's strength.

Because this time, even if they have been alert to Wang Fan, but when Wang Fan started, they still found that they had no time to stop him.

## **Chapter 1312**

"Wang Fan, you forced us. It seems that we can't leave here without killing you today. Together, kill him

"Kill

The five people who had returned to God did not hesitate any more, agitated their breath crazily and killed Wang Fan.

As soon as they saw Wang Fan's situation, they knew that they could not leave here safely without killing Wang Fan. Instead of being slaughtered one by one by Wang Fan, it's better to take the initiative.

The frenzied killing power swept over Wang Fan in an instant. Even before killing Wang Fan, one of them had a vicious sword to Pei Qingcheng and others.

Obviously, he wanted to disturb Wang Fan's mind.

"I'm afraid you can't kill me. Since you've come to my wangfan manor, I think you'll all stay."

With a sneer, Wang Fan smashes the sword wave that cuts Pei Qingcheng and others, and then flashes to kill five people.

The five people with the highest strength only have two levels of freedom, and even two people only have one level of freedom, which is not enough to see in front of Wang Fan.

With a simple blow, he broke one of them's long sword, and then his style fell on him.

With a bang, the man only felt a violent force coming, and the whole person was blown out directly.

When he was in the air, he had been strangled by the fist, and he had no life after landing.

In front of Wang Fan at this time, he was like a local chicken and a tile dog.

After Wang Fan killed the man, his figure flashed, and the other four people's attack failed. Then he raised his leg and kicked out again.

Simple foot, but it is like lightning, thunder.

In addition, the terrified and wide eyed tuofan had no time to escape, so he had already been kicked, and was also overturned to death!

The other three tuofan two-tier saw Wang Fan kill two people with a simple punch and a foot, and they all felt numb.

Even if Wang Fan's strength has reached five and six levels, killing one level should not be so simple, right?

But Wang Fan didn't talk nonsense with them at all. After killing them with one punch and one foot, he directly grabbed the shadow knife and split it out.

A sword of several Zhang long appeared. With a local sound, a long sword that broke into several sections immediately. The next second, the shadow sword fell on him.

Whoa!

The blood mist sprayed all over the sky, and his whole body was directly split in two.

The other two people looked at this scene, had already been broken gall, directly dropped their

weapons on their knees on the ground, shivering.

"Forgive me, master!"

"Master, please be merciful!"

Their voices were filled with fear, and their eyes were filled with endless fear and regret.

It's terrible. It's terrible.

They have lived for such a long time, and have never met such a tough young man as Xiang Wang Fan. It's like killing a chicken to kill the one, two, three and four strong people.

At this time, they have no chance, no courage to work hard.

Because that's death.

"Spare my life?" Wang Fan did not immediately kill them, but sneered, "you want to rob my Teng Lingzhi, even if you dare to move my friends, do you think I will spare you?"

The two men listened to this, their hearts thumped, and their faces turned pale.

Without waiting for them to speak, Wang Fan continued, "tell me, who are you and which sect?"

"Even if you dare to attack Teng Lingzhi, you dare to touch Wang Fan. I'm going to level your clan."

The two people listened to Wang Fan's words, and their faces became more ugly immediately.

This guy is too cruel. Even if we kill them, we still want to eradicate their clan.

Fortunately, they are all free practitioners, and there is no clan. Otherwise, they will really become sect sinners.

"Master, calm down. We are all monks. We don't have a clan. We just know each other before and get together for a while."

"Master, I promise he didn't cheat you. Every word he said is true. We are all casual practitioners, and Hu Shouyi gathered us temporarily.

However, I know one thing. Although Hu Shouyi is a casual practitioner, he has some relations with the Hu family in Licheng. It is precisely because of Hu Shouyi that the Hu family in Licheng became the first family in Licheng.

If you don't get rid of your anger, you can go to the Hu's home in Licheng to find trouble for them. I'm

willing to be your pioneer! "

These two people dare not even wipe cold sweat, hasten to say.

"The Hu family in Licheng?" Wang Fan frowned. He had never heard of this family. He couldn't help looking at heiluocha, and heiluocha quickly said, "Wang Shao, the Hu family in Licheng is just the first family in Licheng, and it's not a big family in China."

"And the Hu family in Licheng is very low-key. They never take the initiative to stir up trouble. I have never heard of any ancient martial arts in this family."

"Since there was no conflict or intersection between us, I did not investigate the Hu family carefully." Wang Fan listened to heiluocha's words, and immediately couldn't help sneering. He looked at the guy who said it,

"you're really vicious. In order to survive, you should take the initiative to kill those ordinary people. It seems that you must have done this kind of thing before. In that case, you can die. "

Wang Fan said, has no mercy a knife cut, the result of the guy's life.

Although Wang Fan was decisive in killing and destroying his family, there was a reason for that. It was the families who provoked him.

If the Hu family is a guwu family, Wang fan may go there for the sake of forever dying, but the Hu family is just an ordinary family, so Wang fan is too lazy to do it.

He also disdains to take pride in an ordinary family because of this, otherwise, what's the difference between him and Hu Shouyi?

Of course, if the Hu family took the initiative to provoke him later because of Hu Shouyi's affairs, it would be another matter.

At the same time, Wang Fan's heart is also a little shocked. The Hu family is just an ordinary family, and there is such a character as Hu Shouyi behind it. If they are really masters, they are all among the people. We can't underestimate any family.

If it wasn't for the guy who just said that, who would dare to believe that there would be such a character as Hu Shouyi behind a humble Hu family?

In other words, there are people like Hu Shouyi behind the scenes. How low-key should the Hu family be?

Wang Fan secretly reminds himself to be careful, and never underestimate any family in the future. Otherwise, once he leads out stronger people than Hu Shouyi, he may be about to capsize in the sewer.

The other guy saw that Wang Fan killed his companion, and the cold sweat immediately came out.

There were seven of them, except Hu Shouyi, who was not as good as death. Will Wang Fan let him go?

As soon as he thought of it, he felt a frenzy of killing. The next second, his consciousness had fallen into the darkness, and his life had disappeared.

Pu'er, Africa.

Although it is only a small town, it covers no less area than a city.

In addition to Pu'er Town, it also has a name called safe city.

The so-called safe city, the meaning is very simple, is here is very safe, no matter who comes here, will be protected. Of course, the premise is that you have to pay the corresponding protection fee.

Therefore, countless ruthless people who have committed major crimes in various countries, as well as desperate murderers who have been pursued and killed, have gathered here.

So far, it has derived another name: the city of sin.

On this day, the city of sin ushered in a woman covered with blood. The woman was pale and weak in breath. She was obviously seriously injured and chased.

### **Chapter 1313**

After entering the city of sin, without a moment's hesitation, the woman ran directly to the most central Fort wes.

Weiss castle is said to be a castle, but it is actually a hotel. The person behind it is the owner of the city of sin.

As long as someone stays in this hotel, they will be protected by the owner of the evil city, which means they are completely safe.

When people escape to the city of sin, they will first live in Weiss castle, and then find time to buy land and courtyards to settle down in the city of sin.

Because in places like sin city, Weiss castle can't afford to live at all. Even the most ordinary rooms are extremely expensive. If you live for a long time, no matter how rich you are, you can't afford it.

The woman quickly entered the castle and said in fluent English, "open a room for me."

There is no front desk in Weiss castle. There are only burly black thugs. The leading black man is not

surprised by the image of women at all. He directly asks, "what kind of room do you want?"

"Ordinary or medium." The woman said quickly.

Without hesitation, the black man immediately held out five fingers, "medium room, 50 million dollars a month."

Women listen to this, can not help but take a breath of air conditioning, 50 million dollars a month, equivalent to less than 400 million Chinese dollars, this is simply expensive, some too far.

However, the people who want to come to the city of sin are desperate to seek shelter. Thinking about their current situation, the woman quickly grabs a card and says, "OK, that's it."

The two parties soon went through the formalities, and then the woman was taken in.

A room of 50 million US dollars a month is equivalent to the standard room of a three-star hotel in Huaxia at best. It's not so luxurious.

But the woman didn't care. After entering the room, she immediately closed the door and lay on the bed.

The surprise in her eyes finally dissipated, and her heart was also relieved.

Fortunately, she arrived at the city of sin in time. Otherwise, she would have lost her life.

In any case, now she has a month's buffer time, and after a month, she will try again.

This woman is no other than song Rumei, who left China for training.

After such a long time of experience, she was not the weak iceberg president at the beginning, but transformed into an absolute ruthless.

Her eyes have not the original weakness, but become extremely fierce, the whole person is like a dormant cheetah, as if at any time may burst up to kill, people dare not underestimate.

Her body is also full of a wild ferocity, which indicates that she has killed many people in her training.

Her strength also from the original congenital medium, to the congenital peak.

Of course, her congenital peak is not an ordinary congenital peak, but a congenital peak that has really experienced the tempering of blood and fire.

If Wang fan is here, he will be shocked by song Rumei's change. Time and experience are really the best medicine to change a person. How long has song Rumei changed so much?

Song Rumei fled to the city of sin because she killed a young man three days ago.

Originally, she planned to rest for a few days in Wulan city of the new country, and then continue to go out for training, but she was teased by a young man.

Similar to this kind of molestation, song Rumei encountered too many in this year.

So she didn't pay attention to it at all. She put the young man down and began to rest.

But she did not expect that that night, the young man with dozens of people surrounded her hotel, and also launched a siege to her.

And the dozens of people are not soy sauce role, the strength of all innate peak level.

Song Rumei was aware of the enemy's strength, and immediately realized that this young man was not small.

She tried her best to get out of the siege, but she didn't expect to be shot by the young man.

Song Rumei was so angry that she immediately killed the young man and began to escape.

She thought that if she escaped into the mountains and forests, she could get rid of the enemy's pursuit and become safe with the help of her familiarity with the terrain.

But she didn't expect that she was only safe for one day, and then there were more fierce people surrounding her.

Song Rumei realized that she was in big trouble. She didn't dare to hesitate any more and fled to the city of sin.

these days, she was also fleeing to find out the identity of the murdered youth.

It's the Nash family.

NASS family, even in the whole world, is a very famous ancient family, which is said to have a history of nearly a thousand years.

It is said that it still manipulates many small countries behind its back, so even some medium-sized countries dare not easily provoke.

If the NASS family is really angry and crazy, I'm afraid they can set off some turbulence in the world.

When song Rumei learned about the youth's important identity, she set off a storm in her heart. She

really didn't understand what the NASS family was doing in such a chaotic place as Wulan city. Fortunately, although the naslie she killed was a direct member of the nassian family, it was not the real core. Otherwise, it would be the city of sin and would not be able to protect her.

Song Rumei thinks about these things, and suddenly feels very tired. She wants to go back to China, but she is afraid that she will bring the trouble back.

She didn't even dare to tell Wang Fan about it. She only wanted to use more than a month to recover her strength and then deal with the enemy.

Weiss castle, top floor, luxury loft.

A tall foreign man is sitting on a wide leather sofa. On both sides of him, there are two enchanting women.

This man looks more than 40 years old. He is very handsome and has a strong breath. At first sight, he is the ruthless among the ruthless.

Of course, these are just his appearances. In fact, his strength is equivalent to the five levels of the ancient martial arts. He is very strong.

He is also the master behind the city of sin, Jamie. Over the years, with the help of the city of sin, he has accumulated a lot of wealth.

Just as Jameson was embracing the two women and enjoying himself, a black man quickly entered and knelt down respectfully before and after reaching Jameson's face. Then he reported, "Lord, a woman came to the city of sin just now. According to the investigation, she is the Chinese woman who killed naslie in Ulan, the new country."

If you are an ordinary person, this person will never report to Jameson. After all, the city of sin relies on this to make money. If everyone has to report to Jameson, Jameson will not be tired to death?

But helpless is, this time to song Rumei is too unusual, she even killed the NASS family.

That's the NASS family. Even if it's a huge thing that can be ranked in the world, how can he not be careful?

"Oh?" After listening to the report from his subordinates, Jamie immediately stood up. At first, his eyelids couldn't help jumping, and then he said,

"don't worry about her, wait for the NASS family, and see their attitude."

"If the nasses are willing to give me money, I don't mind giving that woman to them, but if the nasses are not willing to give it, don't blame me, Jamie, for following the rules."

It has to be said that Jamie is really shameless. He even has the idea of handing song Rumei over.

Similarly, I have to say that James is crazy. For money, he is not afraid to offend the NASS family.

### **Chapter 1314**

NASS family, golden conference room, more than a dozen senior leaders are meeting, the atmosphere is very dignified.

The man in his fifties, with a square face and thick eyebrows, was a man of great status.

The most conspicuous part of his whole body is a scar in the middle of his eyebrows, which is like his third eye, very penetrating.

This man is no one else. He is the core of the second generation of Nasser family and nassler's father.

Nasgler did not expect that his son naslie was killed, and still died in the new country of Ulan city.

This makes him extremely angry!

Although naslie is not the core of the nassian family, he is a real lineage.

In addition, there is his father behind naslie. Even those large gangs in the world dare not kill naslie easily.

But now, naslie was really killed, and he was killed thoroughly.

Nasgler's fists were clenched, his teeth were clenched, and his expression was so gloomy that he could almost drip water. The killing intention in his eyes seemed to turn into substance.

No matter who dares to kill his son, it means that he does not pay attention to his nassler family and nassler. He will never swallow this breath.

He would not be called nasgler if he did not tear to pieces the man who dared to kill his son.

"Did the woman catch it? There's no news yet. Tell the people below, don't kill her. I want to see who dares to kill my son, whether he has three heads and six arms. "

At one moment, nasgler could not help but hit the huge gold table with a fist and said in a low voice.

"There's no news yet, but you can rest assured that our people have gone after the woman. Even at the ends of the earth, she can't run away."

"Just a woman, even if it's just a one night love, young master NASS can't cultivate her for a hundred

years. Even if she dares to resist, even if she dares to kill master NASS, we will never let her go. "

"That is, how dare you kill young master NASS and so many elite members of our NASS family? This woman simply doesn't pay attention to our NASS family. This woman must not be let go. "

The rest of the high-level is also filled with righteous indignation, have said angrily.

For many years, no one dares to scratch the tiger whiskers of his NASS family, but this time, it's a good thing that someone killed his legitimate naslie, and none of them can accept it.

Nasgler frowned and was obviously dissatisfied with the fact that song Rumei had not been caught. He breathed deeply and asked again,

"is the background investigation of that woman clear? Who is she and who is behind her?"

"She killed my son. She can't just catch her. Even her family can't let it go."

Nasgler's eyes were full of crazy murders. "My son has one life. I want her family to pay for it!"

Drop by drop.

As soon as nasgler finished, one of them's cell phones suddenly rang.

They took out their cell phones and looked at them for a few minutes, and their faces immediately turned ugly.

Nasgler looked at his face, frowned, and couldn't help asking, "what's the matter? What's the matter? Did the woman run away and completely escape our lock? "

Nasgler's anger was almost bursting out.

He sent so many good men to pursue and kill song Rumei. If song Rumei escapes smoothly and gets out of the lock, where is the face of his NASS family?

You know, many people or forces already know about this. If they know that the NASS family can't catch a woman, where is the dignity of the NASS family?

In the future, don't everyone dare to challenge the NASS family?

Listening to nasgler's question, the high-level official quickly shook his head and said, "that woman fled to the city of sin, and now she has been sheltered by the city of sin."

"Our people are afraid that going in and catching someone rashly will cause Jamie's dissatisfaction, so they didn't go in. Now they are waiting for your next instructions."

"The city of sin?" Nasgler's face suddenly changed. "How could she escape to the city of sin when we sent so many people?"

Nasgrad said angrily, and soon he was not entangled with these, "let them go in and negotiate with Jamie, and say that song Rumei is our enemy and must be killed."

"If Jamie is willing to give song Rumei over, our NASS family is willing to give him some benefits. But if you dare to protect song Rumei, don't blame our NASS family for being rude. "

Nasgler said, and snorted heavily, "just because other people can't make him Jamie, it doesn't mean our nasgler family can't make him. If we dare to make enemies with our nasgler family, we nasgler won't mind killing him."

"And song Rumei, is he safe when he hides in the city of sin? If you dare to kill my nasgler's son, let alone hide in the city of sin, even if she hides in the British palace, my nasgler family will find her out and destroy her. "The high-level listen to nasgler's words, quickly nodded, "yes, I will do it."

Said, he pinched out the mobile phone arrangement.

Drop.

At the same time, another high-level mobile phone rang. The high-level also took the mobile phone to watch for a few minutes, and then began to report respectfully,

"the background investigation of song Rumei was clear, but the Song family in the capital of China was abandoned since childhood, and hardly came and went with the Song family."

"She has some friends in Huaxia. Her friends are responsible for the wangfan group in Huaxia, and it is said that many senior members of the wangfan group have close relations with her."

"Wang Fan, the chairman of Wang Fan group, is her blue confidant."

Nasgler listened to this, his eyes immediately lit up, "Wang Fan group? Wang Fan

Without any nonsense, he immediately gave an order, "send someone to Huaxia immediately and bring that Wang Fan to me."

"He song Rumei didn't kill my son, so I'll kill her blue confidant in front of her."

"Remember to let those who go to China be careful. There are still many experts in this country."

"Especially in the capital, there is an old but not rigid hundred legged insect. We should be very careful."

"Yes That high-level also no nonsense, immediately began to arrange.

At the same time, the city of sin, the elite of nasgler family, came to Weiss Castle after getting the instructions from nasgler.

They came in a total of six people, all of them in the congenital peak strength, led by a man called naskev, is a strong general under nasgler.

However, no matter naskov or the other five people, they are very respectful after entering Weiss castle.

They all know that Jamie, the master behind the city of sin, is a powerful man, at least not what they are born with.

"Naskov of nasgrad, naskov of nasgrad, has something important to see jamesome. Please let me know."

Nascoff's six men soon came to the black thugs at wigsburg and said respectfully.

Although these black thugs were the strongest in the middle of their lives, naskov didn't dare to put on airs in such an environment.

### **Chapter 1315**

"The NASS family? Naskov The black man at the head gave nascoff a cold look and said mercilessly, "you are not qualified to meet Jameson."

"Go back and tell the people behind you that if you want to see our city Lord, you should change a person with a higher status to come, otherwise our city Lord will not see you."

Naskov's face turned red in an instant as he listened to this, and his killing intention almost burst out.

Fortunately, he knew where it was, and there was a trace of reason, so he repressed it.

The other five people's faces were also not very good-looking, they all clenched their fists, looked subdued and angry to the extreme.

Once upon a time, the people of NASS family dare to be ignored?

Where do they go not to be respected and respected by each other?

Although they know that Jamie is very powerful and hard to be provoked, they can't accept being humiliated by the people under Jamie. This is a shame on them!

Although naskov's murder was only fleeting, the black man at the head noticed it. He sneered, "why, do

you want to do it here?"

He stabbed and grabbed a long knife. "If you have the ability, you can try it here. The city of sin is not the place where you can go wild!"

Just in the middle of the congenital period, I dare to speak to the six congenital peaks, naskov, and take the lead in drawing the sword. I'm afraid no one will believe it if I say it.

But now, this scene really happened. The most ridiculous thing is that the six of naskov did not dare to attack.

"No, how dare we do it in the city of sin. In this case, let's go first. You can rest assured that I will report it back. "

Naskov gritted his teeth and refused to stay here for a moment. He turned his head and left the castle, followed by the other five.

"Ha ha, people of NASS family, that's all."

"Look at his angry expression. It's ridiculous."

"Just six running dogs of NASS family want to see our city Lord. They don't pay attention to our city Lord."

"It's also because they are the dogs of NASS family. If the dogs of other families dare to show their murderous attitude towards me, I will make him kneel down and make amends."

A group of black people can't help laughing sarcastically when they look at the six nascoff who are leaving in ashes.

Although there are only a few of them, they are similar to the people under the NASS family. They really haven't beaten face before, so they all feel very comfortable.

Of course, the reason why they dare to hit naskov six in the face is also agreed by Jameson.

If Jamie didn't agree, they wouldn't dare to challenge and humiliate the NASS family.

The voices of these black thugs were not small, but they were enough for the six of naskov to hear. They were even more angry, but they still did not dare to get angry.

The attic.

Jamie's mood is also very uncomfortable, he did not expect that the NASS family even sent six dogs to talk with him.

Just six dogs, even if it can give him benefits, where can it be more? So Jamie didn't even bother to see him, so he was sent.

He didn't believe that the NASS family would fight Jamie for just six dogs. If so, Jamie would have to accompany him.

Jamie waved for a subordinate and asked, "have you found out what I asked you to investigate? Who is this Chinese woman, and is there any powerful person behind it? "

"Sam has made a clear inquiry, but he hasn't bothered since he saw you busy. He is waiting outside now, and I'll let him in now."

The subordinate said respectfully and immediately went out. In a few seconds, a thin man came in.

After kneeling respectfully, he began to report, "Lord of the city, that Chinese woman's name is song Rumei. There is a powerful person behind her."

"The powerful man is called Wang Fan. He is a strong and decisive master."

"Many people and families who have provoked him will be mercilessly destroyed by him. It is said that he has also killed a lot of tuofan elders of nuquan sect." When this person is talking, he looks very shocked.

"Oh?" Jamie couldn't help standing up again. "Is that Wang fan so strong? How old is he this year? "

He had just casually asked the people below to inquire. In fact, he didn't think song Rumei had any powerful people behind him. But he did not expect that the results of the investigation really surprised him.

"Yes, I guarantee that the results of the investigation are absolutely true, without any adulteration or moisture. That Wang fan is only in his twenties. Two days ago, it seems that he even killed dozens of strong people who provoked him. "

Speaking of this, the subordinate seems to have thought of something again,

"by the way, Teng Lingzhi, who was making a stir in China a few days ago, was obtained by Wang Fan. It is precisely because of Teng Lingzhi that he has even killed so many strong people who are out of the ordinary. "Obviously, this guy's investigation is very detailed.

Jamie is different from the NASS family. He is a gangster, and he is engaged in such offensive business, so his intelligence network is also very strong.

Because Jameson should always know who he sheltered and who he offended, so as to make

preparations early.

Because once he felt that he could not protect those people, he would not hesitate to drive them out of the city of sin or hand them over directly, which is why he has been safe all these years.

Of course, even if it is necessary to hand people over, Jameson is also secretly handed over, because once this kind of thing is known, the reputation of sin city will be destroyed.

Although the NASS family is powerful, it is not as good as Jameson in intelligence. Moreover, the NASS family are so arrogant that Wang Fan, who is only in his twenties and a director of the company, did not seriously investigate.

So these things, the NASS family did not know.

"In his twenties, he has killed countless masters who are free from worldly affairs?" Jamie was immediately shocked by this.

He couldn't imagine how a young man in his twenties could be so powerful?

Can he really only protect song Rumei, or not offend him, and drive song Rumei out of the city of sin?

Just as Jameson was thinking about these things, his subordinate's report came again,

"I also got a message that John jack of NASS family had boarded the plane to China, so he should go to catch Wang Fan."

"John Jack?" Jamie's eyelids leaped at the name and said, "OK, I see. You can go down."

My subordinates didn't dare to talk nonsense, so they quickly backed out.

Jamie's eyes lit up. "John Jack? Good. I'll wait and see if that John jack can deal with Wang Fan. "

John jack is one of the masters of NASS family. His strength has reached the fourth level. Although he is not as good as Jameson, he is also very strong.

He wants to see if John jack can deal with Wang Fan, and then make plans.

## **Chapter 1316**

Wang Fan manor.

After killing Hu Shouyi and his party, Wang Fan had a talk with them and then went into the room to have a rest.

If there is nothing else, he doesn't plan to leave Jinzhou in the past three months. He has to consolidate

his state here to deal with the guwu Dabi three months later.

But Wang Fan just practiced for a few hours, accompanied by a rush of footsteps, the black LuoCha had already hurried in.

Wang Fan took a look at the black LuoCha and asked, "sister LuoCha, why are you in such a hurry? What happened?"

He feels a little incredible. Is it hard for him to be killed by an ancient warrior again, but how can his mental power not be swept?

Black Luo Cha nodded, "Wang Shao, just got the news, sister song met something in Africa."

"Sister song? Which sister song? " Wang Fan's head was not enough. He didn't turn around for a moment.

"It's song Rumei, sister song." HeiluoCha couldn't help rolling his eyes, and then without waiting for Wang Fan to continue to ask, he quickly said,

"sister song was teased by naslie of naslie family in Wulan city of the new country, so she couldn't help but teach naslie a lesson."

"But who knows, that night naslie took countless experts to surround the hotel where sister song lived. During the war, sister song killed naslie and fled to the city of sin."

"Now the NASS family is very angry. They are sending experts to the city of sin to arrest sister song."

Pop!

When Wang Fan heard this, he could not help clapping the table and stood up, "what, is there such a thing?"

"That naslie is really brave. He even dares to tease Mr. Song. Even if Mr. Song doesn't kill him, I will kill him."

When Wang Fan said this, he could not help frowning, "isn't the city of sin the safest place in the world? How can the NASS family dare to kill there?"

Although Wang Fan has never been to the city of sin, he has heard of it.

It's known as the world's Crime Center, and it's extremely safe.

It is said that no matter who is in the city of sin, no matter what they have done or what forces they have offended, there will be no problem in terms of security.

Although Wang Fan of the NASS family had heard of it, he did not understand the power of the family at all. Although he was also the king of soldiers at the beginning, his level was still a little lower and he could not reach that level.

Heiluocha's face became dignified. "Yes, the NASS family is one of the top 20 ancient families in the world. It is said that it has nearly a thousand years of strength and has a deep foundation in all aspects."

"If sister song offends ordinary people, maybe it's OK for her to escape to the city of sin, but what she killed is a direct member of the NASS family."

"Although naslie was the least successful in his lineage, he was not trained by naslie family. But his father, nasgrad, is very unusual. He plays an important role in the nasgrad family. "

"Therefore, Jamie behind the city of sin is likely to be afraid of the authority of the NASS family and betray sister song."

Black Luo Cha has done detailed investigation apparently, say slowly.

Wang Fan listened to this, immediately realized that the matter is not simple.

Even the people behind the city of sin dare not easily offend the NASS family. It seems that this time things are really big.

Without hesitation, he said immediately, "now you book a ticket for me. I'm going to the city of sin. No matter how powerful the NASS family is, I can't allow song always to be in trouble. "

Wang fan is really worried. He is afraid that the people behind the evil city can't bear the pressure of the NASS family and betrays song Rumei. In any case, he would never allow song Rumei to have an accident.

"Well, I'll go now." Black Luo Cha also dare not talk nonsense, quickly ran out of the room to prepare.

"Mr. Song, you must stand up to it. Don't do anything. NASS family, city of sin, if you dare to hurt president Song, Wang Fan will not mind uprooting you! "

Wang fan made a gnashing voice.

Soon, the black LuoCha booking tickets, Wang Fan quickly toward the airport in the past.

Just as he arrived at the airport, he saw a strong foreign man come out.

Wang Fan looks at this man, his eyes can't help but squint. This man has four levels of strength, which seems to be unusual.

The foreign man seems to have noticed Wang Fan's sight, and he looks at Wang Fan the next second.

When he saw Wang Fan's face clearly, his eyes flashed and he immediately went straight to Wang Fan.

Wang Fan looked at this scene, can't help a Leng, instant already realized, this guy knew himself.

Although he didn't know why this guy knew himself, it was obviously not good, because he was clearly aware of the flash in the other person's eyes.

Wang Fan looked at the time. There was still an hour and a half before the plane took off. Instead of rushing into the airport, he turned around and went outside.

The foreign man appeared a touch of banter in the corner of his mouth, but he was not in a hurry to catch up with him. Soon, Wang fan stopped in a place with few pedestrians, looked back at the foreign man coldly, "who are you, what are you doing with me?"

He uses standard English, because he is afraid that he will speak Chinese, which foreigners will not understand.

Just to Wang Fan's surprise, this guy said in fluent Chinese, "you are Wang Fan. My husband wants to see you. Come with me."

He is talking at the same time, a big hand has already grasped to Wang Fan.

In his opinion, Wang Fan, a young man in his twenties, is also a chairman of the board of directors. In front of him, he is not as good as a mole ant. He can catch it easily.

Just to his surprise, Wang Fan just slightly twisted down, even escaped his big hand, and also asked him, "are you a member of NASS family?"

The foreign man's face changed instantly. When he directly turned his palm into a fist and hit Wang Fan, he also answered Wang Fan's question, "yes, I'm from NASS family. My name is John Jack."

Wang Fan listened to John Jack's words and looked at his opponent's blow. Without hesitation, he hit him right away.

This foreigner is so hateful that he didn't wait for himself to finish asking questions, so he dealt with himself twice.

Boom!

The two fists collided and made a terrible noise.

John jack, who only used 20% of his strength, did not expect that Wang Fan would be a master at all,

and he suffered a big loss in an instant.

Although his arm was not broken, it was twisted in an instant, and the huge force made him spew out a mouthful of blood.

Wang Fan did not stop, and quickly stepped forward two steps. First, he slapped him in the face, making him unable to gather strength. The next second, his knee hit his Dantian.

There was another bang, and John Jack couldn't help his blood. Although he was not abandoned, he was seriously injured and could no longer gather strength.

His face turned pale, and there was a storm in his heart.

How can such a young guy be an expert who is not inferior to himself?

What makes him even more aggrieved is that he took off from the ordinary four levels, but he was beaten by Wang Fan's hooligans because he despised the enemy. He had no fighting back power. He would vomit blood when he thought about it.

But without waiting for John Jack to recover, Wang Fan had slapped him over again, and then stepped on his face with his right foot.

"tell me, how many people you NASS family sent to China are all strength."

### **Chapter 1317**

When Wang Fan spoke, his eyes had already sparkled with a sense of killing, and he was even more angry at the NASS family.

Fortunately, he met John Jack at the airport. Otherwise, once John Jack was killed at Wangfan manor, the consequences would be unimaginable.

Although something happened to Hu Shouyi and his party, ye Nantian has sent a master there, but what if the master can't catch up?

John Jack felt very humiliated when he was trampled on his face by Wang Fan. He couldn't help roaring wildly,

"Wang Fan, I'm a British aristocrat. If you treat me like this, you will be punished by law and condemned by public opinion!"

Wang Fan couldn't help sneering when he heard this. He picked up John Jack and slapped him in the face.

"don't tell me that, answer my question honestly, otherwise, I will abolish your cultivation."

He was very upset with this John Jack, it was clear that this guy wanted to catch himself, but also moved his hand first. Now he is abused by himself, but he threatens himself in turn. Is he really a clay pincher?

With a slap, John Jack's teeth were fanned out.

He is a four level master who is respected by countless people. He was so abused by Wang fan that he even wanted to die.

Just aware of Wang Fan's fierce eyes, as well as the clenched right fist, he no longer dare to doubt Wang Fan's words.

He has a kind of intuition, as long as he dares not to say, Wang fan is really likely to hit his elixir field with one punch, and discard his cultivation.

"I said, I said, I'm the only one sent by the NASS family. I've been ordered to take you back." John Jack didn't dare to get away with it any more, he said quickly.

"Oh, really? How can I get information that there are many experts in the NASS family, but is there something wrong with my information? John Jack, if you think clearly, if you dare to cheat me, I will kill you directly. "

Wang Fan gave John Jack a cold look and said without expression.

Of course, he didn't get any information. What he said was just a bluff to John Jack.

Although Wang Fan felt that John Jack didn't lie, he was not afraid of ten thousand just in case, so he said so.

John Jack listened to Wang Fan's words and knelt down in fright. He raised his hands and said,

"who said that? I, John Jack, swear in the name of God that I never lied, or I would go out and be killed by a car. "

John Jack's face was exaggerated and full of fear.

He is the kind of person who is most afraid of death. After discovering that Wang fan is really likely to kill him, he has no backbone any more.

Wang Fan sneered, "if you take off four floors, will you be killed by a car? It seems that you still haven't told the truth. Well, I'll take you on the road now. "

Wang Fan said, his momentum suddenly condensed, and raised his right fist.

John Jack was shocked. "I swear, what I said is true. I'm the only one here. If I lie to you, I'll hit five thunders, five thunders."

He was almost desperate, and his voice began to stutter.

What the hell is Wang Fan's intelligence network? Is the authenticity of the information too bad? The NASS family clearly came to him alone. How did Wang Fan's intelligence network get the news of many people coming?

"Well, I'll trust you for a while. Behave yourself and come with me. If you dare, I will kill you directly. "

Wang Fan said, raised his foot on John Jack, and then quickly picked him up.

John Jack's face is oppressive, but he doesn't dare to talk nonsense at all. He can only follow Wang Fan honestly.

Wang Fan's feet have completely collected and distributed his few strength, so that he no longer has the capital to resist.

Soon, Wang Fan got another ticket for John Jack. He took John Jack to the washroom, cleared the blood on his body, and then entered the airport.

An hour later, the plane took off and flew to the old golden city, the nearest to the city of sin.

When Wang Fan rushed to the city of sin, nasgrad almost got up at the same time and rushed to the city of sin.

His heart is very angry!

He didn't expect that his subordinate nascoff was blown out without even seeing Jameson. Jameson also threatened to let someone from a higher position come to talk to him.

Nasgrad did not hesitate, immediately with a number of expert guards, angrily rushed to the city of sin.

He wanted to see what Jameson was up to? How much courage did he have to face the NASS family.

A few hours later, nasgrad had already arrived at the city of sin, and directly took people to rush in.

Different from naskov's treatment, nasgrad and his party had just arrived at the gate of the city when an enchanting woman in a green robe had already met them.

"Mr. nasgler, my Lord, please follow me." When the woman finished, she did not wait for nasgler to reply, but took the road in front of her respectfully. However, although the green women's tone was respectful, but also specially guarded the city gate to meet, nasgrad was still angry.

It's such a big shelf. He's all here. Jamie didn't come out to meet him personally. He just sent out a woman. Is that disrespectful of him?

In nasgler's eyes, this kind of greeting is better than not greeting. It's just ignoring and slapping nasgler.

But nasgrad didn't get angry with the woman in the green robe, but followed her with a gloomy face.

Now the top priority is to catch Song Rumei who dares to kill his son. Everything else can be put back.

A few minutes later, the woman in Green took nasgler and his party into a huge manor.

Jamie has been informed that John Jack and Wang Fan boarded the plane to the old golden city, so in his opinion, Wang Fan has been subdued by John Jack.

He felt that he overestimated Wang Fan, and he felt that his caution was not worth it. So he has decided that if nasgrad can give enough benefits, he will hand over Song Rumei immediately.

Now that he has the idea to hand over Song Rumei, it's impossible for him to receive nasgrad in Weiss castle.

After all, this kind of thing, once spread, has a great influence on the reputation of his city of sin.

A few minutes later, nasgler and his party were led to a magnificent hall. The green robed woman respectfully made a gesture of invitation, and then quickly stepped back.

Nasgrad was not afraid and hesitated, and directly stepped into the hall.

He didn't believe that Jamie would dare to kill him in the city of sin, nasgrad.

"Ha ha, I'm sorry to meet you when you're here. It's Jamie who's not very hospitable. Mr. nasgler, please take a seat."

A passionate voice came, and nasgler saw Jameson sitting on the throne in a moment. It's just that Jamie didn't get up at all, despite his warm tone.

Although Jamie has decided to hand over Song Rumei, he wants to squeeze some profits from nasgrad.

If he kowtows as soon as he meets, doesn't it mean that he is inferior to nasgrad, how can he negotiate?

What's more, although the NASS family is strong, Jameson is not afraid. If it comes up, at least he still has the assurance to run for his life.

And he didn't believe nasgrad would fight Jamie for such a trifle.

## Chapter 1318

As the core of nasgler's family, nasgler has also become an elite figure. How can he not understand what Jameson's calculation is?

He sneered. "Mr. James is such a big shelf. Since you know me, nasgrad, you must know what I'm here for."

"I don't talk nonsense with you, I want to take that song Rumei, say, what conditions do you need here?"

At this point, nasgrad's voice suddenly became low. "Although nasgrad is not a big man, he is not a dog and cat. I hope Mr. James will not bully me with a lion's mouth."

He stressed the word "bully", and the threat is self-evident.

Jamie listened to nasgler's words with a sneer in his heart, but on the surface, he was silent.

"Mr. nasgler, I'm sorry, because I didn't know that song Rumei offended your nasgler family, so I've accepted her Commission."

"As you know, reputation is the most important thing in our business, and I, Jameson, live on it, so I can't break the rules and ruin my reputation."

"But I can tell you that her Commission period is one month, and I can promise that as soon as the period comes, I will not accept her Commission and drive her out of the city of sin. What you want then has nothing to do with Jamie, OK?"

Jamie's face was embarrassed, his tone was sincere, and he seemed really afraid of breaking the rules.

But nasgler was not a fool. As soon as he heard Jameson's words, he knew that Jameson wanted him to make an offer first to see if it was suitable.

This Jameson is a real old fuckin 'fox.

Nasgler looked at Jameson, and his anger erupted again. He almost could not help letting his subordinates destroy Jameson.

But he also knew that it would be difficult for his subordinates to kill Jamie.

And even if he killed Jamie, it would be hard for him to want or leave in the city of sin.

Nasgrad suppressed his anger and held out a finger. "How about a hundred million dollars?"

Jamie didn't even look at nasgler's outstretched finger. He was still embarrassed. "It's not a matter of

money. The rules really can't be broken."

His heart is in sneer, a hundred million dollars, send beggars? Song Rumei's monthly commission is already 50 million US dollars.

As soon as nasgler's face changed, he held out five fingers, bit his teeth and said, "five hundred million dollars, that's my bottom line. If you still don't want to, nasgler will leave immediately, and you will think I haven't been here."

Jamie looked even more embarrassed. "Mr. nasgler, it's not really about money, but since you say so, I'll make an exception for you."

"But this matter must be kept secret. I can't say it. Otherwise, my reputation as the city of sin will be destroyed."

Nasgrad gritted his teeth angrily, but still nodded, "don't worry, I won't say it." With that, he began to call for Jameson to remit money.

Of course, he knew that Jameson was acting. Would nasgrad tell such a shame?

Although the reputation of sin city is important, it is not as important as the face of his family.

"Then I'm relieved." Jamie pretended to be relieved, and he was silent.

He did not ask people to bring song Rumei over, nor did he continue to talk, obviously waiting for the funds to arrive.

In less than half an hour, five hundred million dollars had already been paid to Jameson's account. Jameson seemed to come back to himself and roared at his subordinates outside,

"what are you still doing? Why don't you hurry to bring that song Rumei?"

Subordinates should be a panic, quickly leave, ran to song Rumei residence.

Weiss castle.

Song Rumei is recuperating in her room, but her mobile phone rings suddenly.

The phone call was from a sister she knew in her experience. After she escaped to the city of sin, she told her about it and asked her to pay attention to the news of the NASS family for her.

Looking at the caller ID, song Rumei suddenly has a bad premonition, but still quickly connected the phone.

"Sister Mei, it's not good. I just got the news that Nasgrad himself took people to the city of sin. It's estimated that he has arrived now. You are not safe in the city of sin. You should be careful. "

As soon as the phone was put through, an eager and charming female voice came from inside. Her voice was very urgent.

"I see. Thank you, Rooney." Song Rumei did not say much, quickly thanks a, immediately hang up the phone.

Nasgler came to the city of sin herself. It seems that this matter is more serious than she imagined.

Song Rumei did not dare to stay in the city of sin, but where could she go if she left here? Come on, one step is one step.

Song Rumei thinks so, just about to leave, but suddenly he hears faint footsteps outside the door. As soon as her face changed, she crept to the door of the room and looked out through the cat's eye.

Five men appeared at the door of her room, then quickly separated and stood on both sides of the wall. One of them rang the doorbell of her room.

As soon as Song Ru Nei's heart sank, he immediately realized that it was mostly because Nasgrad had arrived at the city of sin and had reached some agreement with Jameson.

She didn't hesitate. She restrained her breath. She crept back a few steps to the bed. Then she pretended that she had just heard and asked, "who?"

"Miss Song, there is something wrong with the air conditioning in your room, so I want to repair it. Please open the door." The man at the door said respectfully.

If you don't get a call from Luna, or if you don't see five people coming, maybe Song Rumei will really believe her, because there is something wrong with the air conditioning in her room.

But now, Song Rumei can't believe each other's words.

At first, Song Rumei didn't understand why there was such a low-level problem when Sin City was so rich and Weiss Castle was so expensive.

But now she has vaguely understood that this is the problem of deliberately leaving.

It is estimated that not only the room she is in has problems, but all rooms will have all kinds of problems.

Only in this way, once something unexpected happens, people in the city of sin can find a reason to let the guests open the door.

"Oh, well, I'm a little inconvenient now. Why don't you come back later? Or I don't have to repair it, and I don't turn on the air conditioner. "

Song Rumei still didn't open the door immediately, but tried again in a lazy voice.

"Miss Song, we have people check it every day. If it is found that I haven't repaired it in time, I will be punished. Would you please don't embarrass me?"

The man outside the door can't help but frown. What does song Rumei find?

If it wasn't for the noise of breaking into the house, which would attract the attention of other guests, he would like to break into the house directly.

Song Rumei listen to each other insist to come in, immediately confirm, this is really not good.

Her heart sank to the bottom.

### **Chapter 1319**

"OK, just a moment." Song Rumei knew that this stalemate was not the way to go on, so she could only answer it and walked towards the door.

She is in other people's territory. There are many ways that people want to move her. Even if she doesn't open the door, there will be other ways.

Creak.

The door was soon opened. Almost at the moment when the door was opened, the man at the door had stepped in and grabbed song Rumei.

At the same time, the four people hiding outside the door also quickly entered and attacked song Rumei from other directions.

Their speed is very fast, and the hand is also very sharp, obviously want to play song Rumei a surprise, won song Rumei.

If song Rumei is not alert, maybe she will be restrained by four people in an instant, but she is not so easily subdued.

Almost at the moment when the other party started, she quickly stepped back a few steps, then her right hand shook, and a series of small hair needles shot out.

Those five people didn't expect that song Rumei had such a skill at all. Subconsciously, they began to escape.

Although there were three people hiding in the past, there were still two people who were pierced by cattle hair, and then their heads tilted and fell down.

The first man was shocked. He quickly stepped back and closed the door. Then he looked at Song Rumei seriously.

He did not expect that song Rumei had such alertness, such reaction and such skill.

Song Rumei breathed a few breaths and looked at the enemy in front of her. "You're not here to repair the air conditioner. Why do you want to do it to me? What do you mean?"

Her eyes were full of coldness. "I paid 50 million protection fees here, and now I should be protected by the city of sin, but now you are doing it to me. Why, is that how sin city works? "

The first man did not answer song Rumei's question, but roared, "catch her!"

Then he rushed towards song Rumei crazily again.

The other two men who didn't fall down didn't say a word of nonsense, and they followed up crazily.

Their breath has risen to the extreme, but there is vigilance in their eyes.

Song Rumei's face is more ugly. Instead of fighting with the three men, she turns around and rushes to the window crazily.

Boom, she hit the whole person on the window, but the fence was not knocked open, on the contrary, she spurted out a mouthful of blood.

Obviously, the guard bar of the window is specially made, but it is not much different from the ordinary guard bar on the surface.

The three men were overjoyed and rushed to song Rumei in an instant.

Song Rumei raises a grim smile at the corner of her mouth and rolls on the spot to avoid the attack of two of them, but she is still kicked by a big foot.

Her mouth again could not help but spurt a mouthful of blood, was overturned out.

Just at the moment of being overturned, three throwing knives were shot out of her sleeve.

Three throwing knives set off a sharp sonic boom, all attacking one of the enemies.

The man's face changed greatly and his body twisted a few times, trying to avoid the three throwing

knives.

It's just that the speed of the throwing knife is too fast. Even if he dodges one and sweeps one, there is still one inserted into his chest accurately.

Whoa!

The bloodstain seeped out from his chest, and his whole body fell to the ground in an instant. Within a few breaths, his whole face turned green, and then there was no breath.

"What a cruel woman, you have to thank you for offending the NASS family, otherwise, even if the NASS family does not come, I will kill you!"

Looking at the dead subordinate, the first man was almost mad.

He didn't expect to catch a woman and pay the price of three lives.

Song Rumei wiped the blood from the corner of her mouth, but she didn't say anything. She just sneered in her eyes. "The city of sin is really a good means."

"Song Rumei is really blind. She believes that this is the safest place. It's ridiculous that I paid a commission of 50 million dollars."

She struggled to stand up, "you don't have to talk anymore, I'll go with you. If you dare to humiliate me here, I will commit suicide in front of you immediately. "

Song Rumei's heart has already risen to despair. She has tried her best before, but she still hasn't dealt with these people. Now she has no choice but to accept her life.

Wang Fan's face appeared in her mind. It would be nice if she could see him again before she died.

if she had known that she would die so soon, she would rather not go out for training and spend all her time with Wang Fan.

the man really wanted to humiliate song Rumei, but after hearing song Rumei's words, she immediately put up with it.

Song Rumei was named by the NASS family to be arrested, and the NASS family also paid the money. If song Rumei was forced to die by him at this time, he would not be able to make a job at all. A few minutes later, song Rumei followed the three men out of the room.

Although it seems that song Rumei is willing on the surface, her hands have been fixed on her legs with black handcuffs. And her mouth was sealed with tape and she was wearing a mask.

Obviously, people in sin city are afraid of what will happen to her when she goes outside, which will affect the reputation of sin city. Moreover, from the perspective of the other party's means, this kind of thing is obviously not the first time.

The group soon walked out of Weiss castle without danger, but they were stopped by two people just as they went out.

One of them has an oriental face and is in his twenties. One is British, more than 50 years old, with a trace of aristocracy.

But the Easterner in his twenties was obviously angry, and his killing intention was even more intense to the extreme.

"Who are you? If you want to seek shelter in the city of sin, you should pay for it and go through the formalities. If you don't need to seek shelter, you should leave immediately. Don't block our way."

The first man who escorted song Rumei didn't notice the excitement in Song Rumei's eyes. He gave Wang Fan a cold look and said coldly.

That's right. These two people are Wang Fan and John jack, who are constantly coming.

At this time, Wang Fan looked at Song Rumei's familiar and pale face. He was so angry that he almost couldn't suppress his killing intention.

Although everything is normal on the surface, song Rumei has mental strength. How can he not realize that song Rumei has been taken hostage?

He could even see that song Rumei had just experienced a battle and was seriously injured.

Wang Fan's anger can't be vented, and his killing machine can't stop pounding tianlinggai. He's almost crazy.

Especially looking at Song Rumei's pale face, which may be due to excitement and become watery eyes, he can not accept, only feel a pain.

Son of a bitch, how dare you treat song Rumei like this? If Wang fan doesn't kill all these people, he won't be Wang Fan!

## **Chapter 1320**

"Get out of here!" When the first man saw that Wang Fan didn't get out of the way, he even dared to show his intention to kill. He was furious immediately.

Just he just roared out two words, and without waiting to start, a sharp knife light had been frantically split over.

Hissing, accompanied by a spray of blood mist, he didn't even react, so he had been knocked down by the owl leader.

The bright red blood flowed out, and instantly dyed the ground red. Under the contrast of the sun, it refracted the dazzling light, and the scene was speechless.

No matter the other two men who were escorting Song Rumei, Song Rumei, or the other criminals who saw this scene, they all gaped and fell into a dull state.

It's crazy and courageous for someone to kill people in the city of sin, and it's still the people in the city of sin, isn't it?

You know, the city of crime is known as the world's concentration of criminals, the safest place in the world, and its reputation is above everything else.

But now, there are people who dare to kill people in sin city. This is the biggest provocation to sin city.

They don't have to think about it at all. They also know what kind of terrible anger Wang Fan will face!

It is not only Wang Fan who offends Jamie, but also the people behind him.

"You, how dare you kill our people here?" The other two soon returned to their senses, and their faces changed in an instant!

Their eyes were full of disbelief, as if they saw something impossible.

"Oh? Yes? Can't your people be killed?" Wang Fan said indifferently, waving a knife.

The man who opened his mouth didn't have time to respond, so he fell to the ground and didn't live any more.

Finally, the man looked at the scene, his pupils couldn't help choking. Without half a word of nonsense, he immediately raised his wrist and pressed one of the buttons.

He just put his finger on the button, but before he could press it, he found that he couldn't press it any more.

Because he clearly saw that his two arms had been cut off on the ground, and the red blood flowed down the fracture.

Soon, a heartrending pain came, and he could no longer help crying.

Looking at this scene, the murderers in the distance could not help falling into stagnation again.

Fierce!

It's so cruel!

Crazy!

It's crazy!

If they didn't still have the feeling and could clearly see the bodies and blood on the ground, they would have doubted whether they were dreaming.

"You don't want to call someone. Take me to see your city master right away. I want to see what this guy who has collected money but doesn't do anything is."

Wang Fan went to Song Rumei's body to untie the shackles, and quickly in her body a few points, this just coldly toward the broken arm youth said.

The man looked at Wang Fan in horror, no longer dare to talk nonsense, even the wound did not dare to deal with, directly bite teeth in front of the road up.

But before they took a few steps, there were more than a dozen black thugs carrying submachine guns in Weiss castle.

"I wish I could, if you dare to move the people in our evil city, you're going to die!"

"Son of a bitch, be reckless in our evil city. Go to hell."

"Kill him!"

After the dozen black thugs rushed out, while drinking crazily, they directly pointed their guns at Wang Fan.

Their eyes are ferocious, and their bodies are only crazy.

Looking at this scene, not only John Jack, but also the murderers in the distance turned pale.

I'm afraid they will inevitably be involved if they shoot.

Only Song Rumei didn't have the slightest fear, but tightly nestled up to Wang Fan.

With Wang Fan's company, what's the fear of death?

The only thing she feels guilty about is that she implicated Wang Fan.

To tell the truth, she didn't think Wang Fan would come, and she didn't want Wang Fan to take risks.

But now that Wang Fan has come, she can only face it.

Wang Fan looked at the black man who was carrying the charge. With a cold smile, he directly held Song Rumei and jumped up. Then he grabbed the shadow knife and chopped it off.

With a cry, several Zhang long knives sprang up and rolled down to the group of black thugs.

Those black thugs with the highest strength are just congenital peaks, and even a few of them have only congenital early days. How can they resist Wang Fan's knife?

In a whirring sound, they were chopped in half without even pulling the trigger.

Blood shot, broken arms flying, bloody scene disgusting.

Looking at this scene, Rao Shi, the murderers in the distance have seen many big scenes, and they can't accept them. They even feel nauseous.

There is nothing wrong with killing and setting fire. They have not seen the scene of killing more than a dozen or even hundreds of people.

But like Wang Fan, he killed more than a dozen people with one knife, and it was the first time they saw him.

It's not killing people. It's killing chickens and dogs.

The broken arm man who led the way also couldn't help lying on the ground and began to vomit. It took a long time to breathe.

He didn't dare to talk nonsense any more and took the road in front of him trembling.

Those murderers are far behind, they also feel that Wang Fan is not simple, it seems that the city of sin is really offending the cruel people.

I just don't know why Wang Fan is so angry with the city of sin.

The main hall.

No matter Jamie or Nasgler, they have been waiting impatiently.

Just go to catch a woman, or an injured woman. As for taking such a long time?

His staff were so bad, which made Jamie feel very shameless. He felt that he had lost face in front of nasgrad.

Although nasgler didn't say a word, his eyes were getting colder and colder, and he was still staring at Jamie from time to time,

it was obvious that if Jamie dared to play with him after taking his money, nasgler would not give up.

The atmosphere of the hall was quiet and depressing, and the air seemed to be full of gunpowder.

Ten minutes later, song Rumei still hasn't been brought here. Jamie can't sit any more. He stands up and yells at his subordinates at the door,

"what's the matter? Why haven't you brought it? You're going to have a look at it right away and make them move faster! "

"Yes The subordinate answered, did not dare to hesitate, immediately backed out.

Only he had just turned a corner and disappeared in the sight of Jameson and his party. There was a loud bang, and then he came back with blood in his mouth.

Jamie looked at the man who fell to the ground with blood. His pupils couldn't help shrinking. He was just about to ask what was going on. Wang Fan had already brought song Rumei and John Jack in.

"There's no need to send someone to see it. We're here already."

The voice of indifference spread out, and the whole hall fell into silence again!
