

Mighty Sk 1331

Chapter 1331

Song Rumei and LUNI soon came to the billiards room after they finished eating.

When they entered, there were already a lot of people playing in the billiards room.

Those people who smoke and play with the ball make the whole billiard room a mess.

Song Rumei frowned and didn't like the atmosphere. However, seeing the excited and eager Luna, she finally followed in helplessly.

They paid a lot of money and were soon brought to a vacant seat by the waitress.

But they haven't decided who will kick off first. A fierce man with a height of 1.9 meters, five big and three thick, and strong breath came with them.

The fierce man also opened his chest collar, revealing his thick chest hair. He didn't know whether he was deliberately showing off his developed muscles or hot.

"Hi, two beautiful ladies, are you interested in two games?" He stared at Song Rumei and her two daughters, whistling frivolously at first, and then asked carelessly.

His look at Song Rumei was a little bit normal, but his look at Luna was a little fiery, and even his breath became heavy, just like a wild animal.

He could not help sighing in his heart: this woman is really tasteful, but it's a pity that he was taken in by the head of Pakistan, otherwise he would not let it go.

Song Rumei frowned and was about to refuse. However, LUNI was already quite open-minded and said, "well, what's the point of just playing two games, or we'll have some more color?"

Song Rumei listens to this words, the facial expression immediately changed, can't help but pull Lu Ni for a while, Jiao chide, "Lu Ni."

Although she was able to detect that the three men did not pose any threat to them, she did not want to make a fuss at this point.

Lu Ni is to smile to smile, in Song Ru Mei ear whispered say, "Mei elder sister, it's OK, anyway idle boring, looking for some fun is also good."

"What's more, as you can see, these three guys can't threaten us at all, and I'm confident that I can win him. You have to believe me."

Obviously, Rooney is not really big chested and brainless.

The reason why she readily agreed was that she also realized that these three people did not threaten her.

At this time, the man has laughed, "colorful head? Good! If I win, I don't need you to do anything. Just have a snack with me. If I lose, you can handle it at will. How about that? "

He was originally ordered by baguhe to come here. Originally, he was still thinking about how to induce song Rumei's second daughter to play with him, and then he tried to get some color.

But he didn't expect that, before he mentioned the color head, Luna mentioned the color head first. How could he miss this opportunity?

"If I lose, it's OK to have a snack with you, but if you lose, I want you to climb out with your eyes closed." LUNI said fiercely.

She was not happy with this guy's unbridled eyes, so naturally she had to humiliate him.

"Well, that's settled. You first or me first?" The man didn't think about it, so he agreed immediately.

He's a professional at billiards, otherwise baguhe would not have sent him, so he never thought he would lose.

"I don't want to bully you, you first." LUNI said scornfully with a titter.

The man listened to the scornful tone of Rooney, almost angry, but did not say more, and soon began to kick off.

At this time, the contest here has attracted everyone's attention, and people around can't help watching.

After all, where beauty goes is the focus of attention, not to mention the object of the competition there is a beauty, these boring guys naturally will not miss the opportunity to see a play.

But after they saw the man's technique and action, they immediately didn't think much of Rooney. In their opinion, Rooney was determined to lose.

It's really because this man is so strong that he has a professional standard.

Men one after another swing, the ball seems to have been magic, obedient one after another into the hole.

Soon, the man played only the last ball, as long as the ball goes in again, he will finish a clean shot

perfectly.

Those people around looked at the scene, but also can not help cheering up, let the man is more elated.

He couldn't help looking up at LUNI. He wanted to have a look at her nervous expression. However, he almost jumped without being angry.

I saw that Luna was sitting on the sofa in the distance, with her legs up, and the old God was still smoking. It seemed that she didn't care about his situation at all.

When his eyes came, LUNI seemed to be aware of it. Then she turned her head and exclaimed, "are you finished, hurry up, it's not a man who is grinding and chirping? If you can't do it, you'll give up immediately. Maybe I can lower the condition so that you can climb a few meters less. "

The man almost didn't spit out a mouthful of blood. NIMA, is there such a forced woman? He breathed deeply, calmed down and began to play the last ball.

But even if he tried to calm down, his heart was still affected, and the last goal didn't go in.

Then, with a sigh, Rooney came over like a proud queen. She glanced at the table carelessly, then pointed to the man's nose and sneered,

"I thought you could clean it all at once. Emotion is just a waste of time."

With that, Rooney had already grabbed the club and started to adjust.

In a flash, her whole temperament seems to have become different. Her aura is amazing, giving people a deep feeling.

At a certain moment, with her stroke after stroke, one ball after another fell into the hole accurately, until the last ball entered.

A clean shot!

It's a dead silence!

And then there's cheers!

Those people around can't help but give a thumbs up to Rooney and praise him one after another. At the same time, they start to abuse the man.

Rubbish, fool, silly fork and other vulgar words are all buckled on the man's head, which makes him almost want to find a hole to get in.

In this case, the man's heart naturally had pressure, the next two innings, there is no accident to the complete defeat to Rooney.

"If you're a man with a handlebar, you have to keep your word. If you're willing to accept defeat, hurry up and climb. I can't wait to see you climb out."

LUNI looked at the man with pride and said defiantly.

Those people around are also noisy, let the man quickly climb out.

The man's face turned blue and red. At a certain moment, he could not help shouting, "shut the hell up!"

Don't mention it. When he roared out, the people around him really shut up.

There's no reason for that. It's just that he has a gun in his hand. Not only him, but also his two followers, with guns in their hands.

Guns. Only Bingsen's subordinates have guns on this cruise ship. It's impossible for other people to come up with guns.

Obviously, these three guys are all from Bingsen.

Song Rumei and LUNI look at the gun in the hands of the three men. Their eyelids also jump slightly, and their faces become slightly dignified.

The next second, the man pointed the gun directly at Rooney, and roared, "bitch, you dare to cheat, I'll shoot you!"

Chapter 1332

"Don't mess around, Crewe. They are the friends of commander ed. if you treat them like this, commander ED will be angry. "

A few breath of fierce men in a hurry, people have not rushed to three people in front of Crewe, has been crazy roar.

Crewe's voice to the men was unheard of. "I don't care whose friends they are. If they dare to cheat and humiliate me, I will make them pay the price."

Crewe's tone was very rough. He pointed a gun at Rooney with his face full of anger. "Son of a bitch, if you don't humiliate me and affect my mood, I will lose?"

"I tell you, if you don't apologize to me today and don't serve me well, I will kill you immediately."

He roared wildly, trying to catch Rooney with one hand, "go, go with me!"

The men who rushed to see Crewe so crazy immediately stood aside and pretended to dial the phone.

They were supposed to stop it symbolically, and they didn't really intend to get involved. After all, they expected Wang Fan to kill baguhe.

LUNI's face didn't change much in the face of the black muzzle and the big hand that Crewe had captured.

She quickly stepped back to avoid each other's paws, and then asked, "are you really unreasonable? Do you want to make trouble on your own initiative? "

Crewe laughs, "unreasonable, where can I be unreasonable? You ask other people if you insulted Laozi with words before Laozi lost to you? "

"Damn, you want me to climb out even if you attack me and influence me. Dare to humiliate me like this? Do you want me to let you go? "

Crewe is very crazy, "what's more, I just don't reason, what's the matter? What else can you do to me? Go with me, or my gun won't have eyes. "

When things get to this point, not to mention Song Rumei and Luna, even those around them have seen that Crewe is specially aiming at Song Rumei's second daughter.

No matter win or lose, Crewe will finally find a way to take away the second daughter.

It's just that if he wins, Crewe will have a reason to take her. But now that he's lost, he can only make such a fuss.

Most people are still unhappy with Crewe's behavior, but this is someone else's territory. No matter how unhappy they are, they can't do anything about it.

They sigh to themselves that it's not a good thing to be too beautiful. Don't Song Rumei and Luna suffer?

"It seems that you are really unreasonable." Rooney gave a sneer, jumped up, grabbed his club and hit him on the wrist.

Krugen did not expect that Rooney would dare to take the lead. With a slap, he was immediately hit in the wrist, and the gun fell to the ground in pain.

LUNI didn't wait for Crewe to react. The next second, she suddenly raised her round leg, raised it more than 100 degrees, and scraped her sole on Crewe's face.

It was a slap again, the bone of Crewe's nose was scraped to pieces, and the blood of his teeth splashed out. At the same time, the whole person fell down in a scream.

Those people around look at this scene, all a Leng Leng, it seems that how did not expect, this sexy woman even shot so hot.

After a short period of dull, the two followers of Crewe came back to their senses and were about to bite their teeth and shoot with guns. Whoosh, the two billiards had already come over.

They only felt a pain in the corner of their mouth, and the blood of their teeth flew out. At the same time, they fell on the ground, and even their guns fell to one side.

LUNI clapped his hands disdainfully, swaggered to Crewe's side, stepped on his flat face, and hummed, "cheat with my mother, don't you see what you are?"

"Say you are rubbish, you are rubbish. No matter who you are, I will climb out for you today."

Rooney disdained to say, two feet kicked Crewe turned over, and then rough kicked in his ass.

With a scream, Crewe quickly got up and ran to the distance.

He doesn't feel sexy anymore. This woman is more than a snake. Especially the last foot. It's so fuckin 'painful.

People around looked at the scene, could not help a burst of laughter, and then quickly shut up.

Even those who peeked at Rooney's thighs didn't dare to continue.

This girl is so terrible.

Ed's subordinates were also a little stunned. They had been waiting for Luna song Rumei to suffer, and then waiting for Wang Fan to come and show great power.

But it never occurred to me that Luna was so fierce that she got rid of the three Crewe.

In this way, what's the matter with Wang Fan?

If Luna song Rumei returns to the room before baguhe comes, ED can't let baguhe find it.

After all, when things happened in a short time, ed didn't have time to intervene. That's the past. But when things happened in a long time, Ed still pretended to be dead and didn't know. That's the end of the story. Lu Ni kicked Crewe a few feet, still feel not too relaxed, is going to vent once again in the past, but song Rumei was a pull, "Lu Ni, don't make, we'd better hurry back."

Although some unwilling, but finally nodded, "well, then we'll go back, really cheap that son of a bitch."

She also pointed to the embarrassed Crewe shouting, "son of a bitch, don't let me see you next time, or I'll see you and beat you again."

Crewe was so humiliated that he was about to die.

He was a big man with two younger brothers and a gun in his hand, but he was beaten like this by a woman in Luna. He was really shameless in the future.

Ed's subordinates were more anxious when they saw that song Rumei really wanted to leave, but they didn't dare to stop him.

"What's the matter? Who's making trouble here? Crewe, how did you get on the ground and who hit you in the face? "

An angry roar came at this time, and then baguhe came in with more than a dozen men with guns.

Seeing baguhe and his party, not only Ed's subordinates were relieved, but also Crewe.

Nima, at last.

In fact, baguhe originally planned to wait for song Rumei to come to the door in his room, but he was suffocating in his room, so he planned to come and have a look.

He didn't expect that it didn't matter when he came here. He saw this kind of thing.

"It's that bitch, commander ba. You have to make decisions for me. That smelly bitch cheated and won me, humiliated me, and openly fought here. Obviously, she didn't pay attention to you. "

Crewe pointed sharply at Rooney and gave baguhe a good reason for his trouble.

"Oh? Is there such a thing Baguhe was angry in an instant, but he was happy in his heart. This time, song Rumei and Luna could not escape from him.

He coldly looked at Song Rumei and said, "don't you know that fighting is not allowed on the cruise ship? Who gave you the courage to do it? "

"Do you think that by being Ed's friend, you can ignore our rules?"

"Come with me, I don't want to fight with you. If you don't give me a satisfactory account of this matter today, even ED can't save you. "

Chapter 1333

As soon as Song Rumei saw Ba Guhe's expression, she knew that it was premeditated, but she explained patiently, "Chief Ba, we didn't ignore the rules by knowing ed

"The course of the matter is like this: this man lost the bet, became angry, played tricks, and tried to shoot us. We have to fight back because we want to protect ourselves. "

"Of course, I know it's wrong for us to start. We apologize and are willing to make compensation. Do you think we can accommodate this matter?"

Although Song Rumei didn't pay attention to Baguhe, she didn't want to make trouble on the cruise ship. Now they are in a state of being chased and killed. Naturally, if there is one thing less, there will be one thing less.

"Accommodation? How to accommodate? " Baguhe grinned. "Do you mean that if you beat my man, you'll make an apology and pay for it?"

"If everyone fights like you, regardless of the rules, apologizes and compensates afterwards, isn't it going to be a mess here?"

His brow Congcheng a knot in one's heart, impatient roar a way, "I Ba Gu he no matter so many, also no matter you have what reason, in short hit my person, is bad rules, must seriously deal with."

"What's more, even if my people point guns at you, can't you wait for me to come over and say that you have to fight and humiliate my people?"

"Stop talking nonsense. Are you going with me or not? If you don't come with me, don't blame me for being rude. "

Song Rumei listens to Ba Guhe's words, her eyes can't help being cold.

It's really the law of the jungle. It doesn't make sense to reason with these people. We have to speak with our fists.

This Baguhe obviously felt that they were determined, so he was so unreasonable and unscrupulous.

"It's a big tone and a big prestige. You're welcome. I'd like to see how you're not polite. If you have the guts, just move them and let me have a look."

Song Rumei is about to move, a cold voice suddenly came, and then she saw Wang Fan come in.

Although Song Rumei didn't take Baguhe and his party seriously, she was relieved to see Wang Fan appear.

Although she can solve the problem of Baguhe and others, if there is Wang Fan, it will be safe.

"What are you doing here?" LUNI is looking at Wang fan can't help a strange cry, and then quickly like a good baby embarrassed lowered his head.

She started it, so she was a little embarrassed.

Around to see Wang Fan appear, and see the little woman's expression like the good baby, immediately changed his face, eyes can't help flashing envy.

Who is this guy? It's amazing that he can make the tough Luna make such a shy expression, isn't it?

At the thought of such beautiful women being conquered by Wang Fan, their hearts are still a little uncomfortable.

Baguhe's face was a little ugly. He turned his head and looked at Wang Fan. There was a sharp kill in his eyes. "Boy, dare to talk to me like this? Are you impatient?"

He didn't treat Wang Fan as well as song Rumei.

Just a guy in his twenties dare to challenge his authority and hit him in the face in front of so many people. This is unbearable humiliation.

"Oh, why, can't I talk to you like this? Then I'll talk to you in a different tone. "

Wang Fan, fearless, walked up to baguhe, then pointed to his nose and said, "what are you and dare to threaten my woman? Do you think that if you have a few younger brothers and a few guns, you will be great and arrogant?"

When people around listen to this, they turn pale.

It's really a change of tone, but it's too crazy, isn't it?

Someone else has a gun. It must be amazing. It must be arrogant? If you dare not be arrogant, how can you be arrogant?

But before their shocked expression solidified, Wang Fan's voice came out again,

"you're right. I'm really impatient. Do you kill me? Believe it or not, I can kill all of you before you shoot?"

When Wang Fan was talking, his powerful breath came out. Baguhe, who was going to be angry, immediately became dignified.

"Who are you?" He asked with difficulty, biting his teeth.

He has been wandering on the edge of life and death for many years, and has felt a very dangerous breath from Wang Fan. He has an intuition that Wang fan is really likely to kill him before he shoots.

"Who am I? My name is Wang Fan. I've just killed nasgler, Jamie and Bingsen, your commander. Why, do you have a problem? Are you going to avenge him? "

"God, Wang Fan, is he Wang Fan?"

"Is he the Wang Fan who made the city of sin become an empty city and made the NASS family chase and kill all over the world?" "Wow, what I said was so bold and loud. It turned out to be Wang Fan."

"No wonder people are so arrogant. They don't pay attention to baguhe at all."

"Nonsense, people can kill Jamie, and even the NASS family can't catch him. A baguhe is a fart. Didn't they say that Bingsen was killed?"

"No wonder I didn't see Bingsen. He was already killed."

Wang Fan's words are just like heavy bombs, which have been blasted into the crowd and set off a storm.

Recently, Wang Fan's affairs have been making a lot of noise in the whole world. As long as they are underground, there is nothing unknown.

So those people immediately fell into shock when they heard that the person in front of them was Wang Fan.

Baguhe was also in a cold sweat, almost unable to stand.

As for those subordinates behind him, the gun in his hand was even lower, and he no longer had the courage to face Wang Fan.

It's a bull man who can't be provoked by the legendary experts. The guns in their hands can scare ordinary people, but they are useless to people like Wang Fan.

What's more, they are so close to Wang Fan. Wang fan can easily kill them before they shoot at any time.

"I see. I see. That son of a bitch, ED, dares to count me." Baguhe's ferocious murmured, and looked at Ed's subordinates darkly.

Only now did he know that Bingsen had been killed.

Ed didn't even tell Bingsen that he was killed. What's more, ed didn't show up after what happened here for so long. He obviously wanted to use a knife to kill him.

"Do you really understand? It's just a pity that you understand it too late. " Wang Fan said and directly kicked baguhe.

With a bang, baguhe spat out a mouthful of blood, and the whole person was kicked away in an instant. After crashing through the window, he fell into the vast sea.

Wang Fan turned his head and looked coldly at Ed's subordinates, "go back and tell ed that baguhe I've killed him. Let him stop playing tricks on me in the future."

"Even this time, if you dare to have another time, I don't mind sending him to accompany baguhe."

Wang Fan said, directly with song Rumei left here.

Although he knew that ED wanted to kill baguhe by his hand, he didn't mind being used to avoid trouble.

Because there are no two tigers in one mountain, it's not good for him that ED and baguhe compete. If Bingsen's power was completely in ED's hands, he would have less trouble.

Of course, this time Wang fan is willing to be used, but it doesn't mean he is willing to be a fool, so he warned ed.

If ed dares to do this next time, he will be really rude.

Those aide subordinates listened to Wang Fan's warning, and their faces became ugly. They were scared to the ground and broke into a cold sweat.

when Wang Fan took song Rumei and her two daughters back to their room, about 100 nautical miles away from them, a huge cruise ship had been running after them.

There is also a purple flag on the cruise ship, which has two words on it: NASS!

Chapter 1334

Wang Fan didn't know what the masters of NASS family were chasing. When he returned to the room, he locked himself in the room again and began to practice.

LUNI was surprised to see that Wang Fan had locked himself in the room again.

This young man is too hard. It's hard for her to imagine how a young man in his twenties can endure such dullness.

But she was relieved to think of Wang Fan's strong strength. If Wang Fan didn't work so hard, how could

he be so powerful.

After baguhe's death, ed soon took control of baguhe's subordinates and became the real boss of Bingsen team.

But before he could breathe a sigh of relief, a report came, "commander ed, it's not good. The NASS family are chasing us."

"What?" Ed's face changed and he stood up. "How far are they from us? Which dock are we closest to now? "

He's really scared, NASS. It's not for fun. He didn't want to be killed by the NASS family as soon as he became the boss.

"They are about 80 nautical miles away from us, and we are the closest to the new country's dock."

"If there is no accident, they should be able to dock at the new country's dock before they catch up."

My subordinates return respectfully.

As ed listened, he gritted his teeth and said, "speed up now, and make sure to stop at the dock before the NASS family catch up."

"The NASS family is so powerful that we can't get into trouble at sea. Let's get ashore first."

"Yes Subordinates did not hesitate, nodded should be a, quickly back out.

Drop by drop.

At this time, a satellite phone call came in. Just as ed got through, there was a hoarse voice,

"ed, I know that Wang fan is on your cruise ship. If you don't want your people to be destroyed, stop right away."

"Our goal is just Wang Fan and song Rumei, who don't care about you. But if you're not smart, don't blame our NASS family for being rude. "

"You know the strength of my NASS family. Dare to shield Wang Fan, I guarantee that all of you, including your relatives, will die without a burial place."

This voice is very gloomy, in the gloomy also flows kills the intention, moreover opens the mouth is the threat, the tone is beyond doubt.

Ed's face turned ugly as he listened to the threat. He hung up without saying a word.

"Damn, how can the NASS family know that Wang fan is on my cruise ship? I'd like to hand over Wang Fan, but do I dare? "

"What's really his grandmother is that there are wolves before and tigers after. No one can afford to offend him."

Ed scolded angrily, then cleaned up immediately and left the room in a hurry.

He wants to tell Wang Fan about it first, otherwise if the NASS family comes after him, but Wang fan doesn't know, he may take it out on him.

Compared with the NASS family, Ed was more afraid of Wang Fan. After all, Wang Fan was on his cruise ship and could kill him at any time.

When Ed rushed to Wang Fan's room, Wang Fan was aware of it.

He didn't wait for ed to get close to the room, so he walked out of the room ahead of time and opened the door.

After Ed arrived, he found that Wang Fan was waiting for him in his room. He seemed to have known that he was coming for a long time. He broke out in a cold sweat and was even more afraid of Wang Fan.

"Come in and sit down, Mr. ade." Wang Fan said casually to ed.

"I don't have the heart to sit." Ed went into the room, but he didn't sit down. He looked bitter. "I just got the news that the NASS family are catching up. Now it's only 80 nautical miles away from us."

"At sea, we can't be their rivals at all, so I plan to dock at the port around the new country."

"With all our efforts, we should be able to dock at the port before they catch up."

"What do you think, Mr. Wang Fan?"

Wang Fan couldn't help frowning. He didn't expect that the NASS family would be so powerful. He came after them in such a short time.

He thought for a moment and nodded, "OK, I'll trouble you. By the way, do you have any small spare yachts on this cruise ship? Let me borrow them

"What do you want to do?" Ed listened to this and immediately asked in a startled voice, "do you want to take the initiative?"

"Oh, my God, this is crazy. You're going to die without a place to live."

Although ED is not a big man, he still knows the story of the NASS family's sending out a hundred people.

No matter how powerful Wang fan is, he can kill one or two tuofan masters in front of him. In the face of a hundred tuofan masters, isn't he looking for death?

Wang Fan said with a smile, "you don't have to worry about this. You ask your people to speed up and drive to the port around the new country, and then prepare a yacht for me. I'll come to you later." "Well, well." When Ed heard Wang Fan say so, he didn't say any more. He nodded and left the room quickly.

Wang fan is looking at Song Rumei and LUNI, "I'll meet the masters of NASS family later, you don't worry about me."

"Remember, as soon as the cruise ship gets close to the dock of the new country, you will go ashore and flee to China as soon as possible."

Wang Fan's face was very serious and even dignified.

Although ED can't say the accident, when their cruise ship landed, the NASS family should not catch up, but Wang fan is not so optimistic.

The NASS family are all masters of escape. It's only 80 nautical miles. They don't need a cruise ship at all. They just need to run on the sea for an hour to catch up.

Most of the reason why they didn't catch up was that they didn't dare to leave the cruise ship because it was on the sea and the weather was unpredictable. But once it is shortened to a safe distance, people will not have so many scruples.

As for whether the two cruise ships could shorten to a safe distance, Wang Fan didn't have to think about it at all.

If the cruise ships of NASS family are not as advanced as ED, how can they catch up so quickly?

"It's on the sea. Can you do it by yourself?" Song Rumei looks at Wang Fan's dignified expression and can't help worrying.

Her heart is also more remorseful. If she had known to kill a naslie, she would have provoked a series of events. She said that she would never kill naslie.

"Don't worry, I won't make fun of my little life, and I have only one person. Even if I can't beat them, there should be no problem in saving my life."

"On the contrary, if they kill here, it will be very difficult for us to get away. Facing so many experts, I

have no energy to protect you."

Wang Fan said.

"Then you must be careful." Song Rumei's eyes are red. She knows that Wang Fan wants to attract fire to ensure their safety.

"Don't worry, wait for me in China."

Wang Fan stroked Song Rumei's hair, gave her a reassuring look, said goodbye to Luna, and then resolutely turned away from the room.

Chapter 1335

Wang Fan quickly boarded the yacht and ran to the direction of the NASS family cruise ship.

The sky was dim, and the sea was very dark. It looked like an endless mouth that devoured people. It was terrible.

The whirring sea breeze, coupled with the occasional waves, makes people feel creepy.

If the distance between the two sides is too far, even if Wang Fan has stepped into the fourth floor of Tuofan, I'm afraid he doesn't dare to take a yacht alone on the sea.

However, the distance between the two sides was only 80 nautical miles. He believed that there was nothing wrong with this distance.

On the cruise ship of NASS family, sixty old people with strong breath gathered in a huge room, and their faces looked very gloomy.

These 60 people are all masters of the NASS family. They are between 60 and 80 years old.

Among them, 40 of them are on the fifth floor, 15 on the sixth floor, four on the seventh floor, and one on the eighth floor. It's terrible.

If these people were placed in China, they could destroy almost any of the Guwu families except one clan.

Moreover, there are still nearly 40 experts who have not arrived in time, otherwise their experts will only be more.

From this, we can see the deep foundation of NASS family.

The man who has reached the eighth level is an old man in his eighties.

Although the old man is more than eighty years old, he has bright eyes and high spirits.

Sitting there, he was like a fierce beast from ancient times. Even if there was no breath, it still gave people a heavy pressure.

He made the call just now, but he didn't expect that ED hung up his phone, which made him a little angry.

"Elder SAIN, since that ED doesn't know what to do, let's kill him directly."

"No matter how strong Wang Fan's strength is, he can only get rid of five or six levels. He can't resist our attack."

"And now we are only 60 nautical miles away from them. There should be no problem at this distance."

One of them took a look at SAIN from the seventh floor and said respectfully.

Although he is only 68 years old, and his strength has reached seven levels, he dare not underestimate SAIN.

Only their generation can know the horror of SAIN. It is absolutely powerful and decisive.

If it wasn't for the NASS family that the origin of SAIN's martial arts was, and the NASS family helped him to restrain a lot of cultivation resources, SAIN would not have worked for the NASS family.

You know, even the rest of the world's ancient families don't necessarily have eight level masters.

There is only one level difference between the seven and eight levels, but it is just like a natural chasm. The difference in strength is unknown.

Hearing this, SAIN's withered eyelids moved, and his hoarse voice came back. "Don't worry. The distance is shortened to 20 nautical miles, and then we'll go."

SAIN just said a word, then shut up again and fell into silence.

The tuofan seven layer nuzui, want to say something, but finally did not say the export.

As for the others, although they were also masters of the NASS family, no one spoke. The NASS family is so hierarchical that they are not yet qualified to talk to SAIN.

On the cruise ship of the NASS family, there are 200 elite and 500 servants in addition to 60 masters like SAIN.

Those elite strength are all in the early days, they are responsible for the normal operation of the cruise

ship and some trivial matters.

As for the five hundred servants, they were responsible for the clothing, food, daily life and life affairs of those masters and elite. After all, the journey is lonely, the master also needs to relax and have fun.

There are more than ten servants in a messy warehouse at the bottom of the cruise ship.

The older servants were in their forties, while the younger ones were only in their twenties.

But whether they are old or young, they have one thing in common, that is, they are not beautiful, and their bodies are not very good.

Moreover, their eyes were rather dim, without much color, as if numb in general.

At this time, they are picking and cleaning leaves, preparing for the next meal of the NASS family experts.

In a corner, there is a woman in her twenties.

This woman's figure is quite good, only slightly emaciated.

Under normal circumstances, she should not be here, but should be a tool to serve those members of the NASS family.

It's just the countless ferocious scars on her face that affected her image and made her appear here.

The scars on her face were scratched out one by one with a knife. They wriggled like small earthworms. They were very ferocious.

If you are a timid person, as long as you see her face, I'm afraid you will be scared into a coma. It's really hard to imagine who started so hard and even scratched so many lines on her face.

You know, even if it's disfigurement, it doesn't need to be so cruel, does it?

Creak

at one moment, the woman was cleaning the vegetable leaves when she heard a strange sound coming from the side.

Her face could not help changing and she looked at it immediately.

She knew that there was a secret door over there. Only those who came up from the sea could be there.

However, it is impossible for anyone to come up on the sea. Even if someone comes up, it is impossible

to get close to here.

There are 200 masters of the NASS family on the cruise ship. Once someone comes near, they will be found and killed immediately. How can anyone appear outside the door?

Moreover, it is impossible for mice and other things to appear on the cruise ship. Even if they do, it is impossible to make such a big noise.

In that case, what's going on outside?

If this were her home, she would have yelled in fright.

But now she is just a servant and slave who has been captured. It's better to live than to die, so she doesn't have so much fear.

She couldn't help slowing down the action in her hands and listening carefully again.

if there is someone out there, it means that this person is not simple, otherwise it will not be possible to avoid the Nath family master's eye liner and appear here.

If that's the case, 80% of the other party may be the enemy of the NASS family, and she, delis, is also likely to use this person to escape.

Creak, creak.

After a few minutes, delis heard the creaking again. This time, she was sure that someone was outside.

Without hesitation, she leaned over, pretending to be careless.

But when she leaned over, there was no more movement outside.

She lowered her head, through the messy wooden tables and chairs, looked out at the iron door which was locked by the iron chain, but got nothing.

She is not reconciled, again carefully look, a moment, finally is a face change, found abnormal.

I saw a nail deep knife mark on the thick chain lock, which was obviously just cut out. But if you don't pay attention, you won't notice.

Chapter 1336

Wang Fan was a little depressed. He didn't expect that he was not found by the experts of NASS family. Instead, he was found by a servant like woman.

He has a mental existence, as long as a sweep of the woman's expression, you know that the other party

has found the abnormal.

This is really speechless. He is afraid of being found by the people in the bottom warehouse, so the noise has been as small as possible, but who would have thought that he would be found in this way?

Wang Fan now has thought about what to do next, is to rush in directly regardless of everything, or leave here first.

After all, he has only four levels of strength. There are 60 people on the cruise ship who are not inferior to him. Once he is surrounded, even if he has several lives, I'm afraid he will be lost here.

But if you leave here now, Wang fan is not reconciled.

Previously, he had used his mental energy to sweep around the corners of the whole cruise ship. Only here is the best place to enter. If he does not enter from here, it will be more difficult for him to enter the cruise ship unconsciously.

Wang fan is in some trouble. He doesn't know what to do for a moment.

At this time, Wang Fan suddenly surprised to find that the woman not only did not yell, but also pretended to see nothing, and went to the distance.

After walking far away, she specially changed the position for cleaning the leaves, which just blocked the sight of other servants.

Wang fan is very happy. How can he not realize that this woman is trying to help him?

However, he still did not relax his vigilance. While sweeping the woman with mental strength and paying attention to her every move, he grabbed the shadow knife again and cut it on the thick iron chain.

This time, the woman clearly saw his shadow knife, her eyes brightened, but she didn't speak, let alone make a sound.

Wang Fan looked at the scene, more bold, try not to disturb others at the same time, speed up the speed.

At the time of cutting, his heart was speechless.

This NASS family is really shameless. I don't know what to do with such a thick chain.

Even if the iron chain was thick, it was obviously special and hard. He couldn't cut it for a while.

You know, Wang Fan's shadow knife is invincible. I'm afraid that the ordinary iron chain can't withstand several cuts.

More than half an hour later, with a click, the iron chain was finally cut off. Wang Fan was also greatly relieved.

However, he did not go in immediately, but waited here.

He would wait for the servants to leave before he went in. Otherwise, it will certainly disturb these servants and attract the attention of the masters of NASS family.

Wang Fan did not wait for long, a congenial early NASS family guard came in.

He yelled at the servants, who immediately went out in panic.

There was no exception for delis, who left the bottom warehouse with her face unchanged.

But when she left, she tapped her desk three times and pretended to look at Wang Fan's direction unintentionally.

Wang Fan immediately realized that delis had something to do with him.

Although he didn't want to pay attention to this delith, he thought that the other party hadn't disclosed him just now, so he swept the table with his mental strength.

I saw a line of small words gently scratched on the table with my fingernails. It said: if you don't want to expose yourself, just wait for me here. I promise you can't finish your own work without my help.

Wang Fan looked at this line of small words, it's just a servant, it's really a big tone.

He regained his mental strength, and when he realized that delis and her party had gone far away, he immediately opened the door and got into the bottom bin.

He had already scanned the bottom of the warehouse and there was a camera on it, so when he entered, he flashed to the dead corner as fast as he could.

No matter how fast he is, he can still find out if there is a strong man standing by the monitor. But he didn't believe that the master would go to the monitoring room.

What's more, even if there is a real master guarding the monitor, it's impossible for him to keep his eyes on the monitor all the time, and he doesn't blink.

If Wang Fan's luck is so bad, he will have to admit his bad luck.

Wang Fan flashed to the corner, and did not immediately get up, but with mental force swept to the outside.

He needs to see where the elite of the NASS family are outside, where the surveillance is, and then draw up the route.

It doesn't matter. Wang Fan's face changed immediately. There were cameras everywhere outside. He couldn't get out at all.

In other words, as long as he dares to go out, no matter how fast, he will be found.

Wang Fan's face was a little ugly immediately. He really couldn't understand why the NASS family had so many cameras in such an unimportant place.

In desperation, Wang fan can only stop here and wait for dilis. He now realized that he was really hard to move without the help of delis.

Wang Fan has been waiting for more than an hour. Just when he doubts whether dilis is cheating him, his mental strength finally sweeps. Dilis comes with a man.

The man's strength was in the early days of his birth, and his breath was cold. He followed delis this way, and frowned, his eyes full of impatience.

"You'd better not lie to me, delis, or you'll blame me for being rude."

"I know that your status is unusual. It's not allowed to kill you, but you know, even if I dare not kill you, I want to torture you, but there are many means."

The man's cold voice came and followed delis to the bottom of the warehouse.

Delis listen to the man's threat, but not much panic, but calmly said, "how dare I cheat you, I really have something important."

She pointed to the door Wang Fan cut open, "I just heard there seems to be movement, but I don't know if it's an illusion."

"I didn't dare to say it because the grown-up was not very good tempered just now, so I secretly told you to come and have a look."

The man listened to the words of delis, his face changed immediately, and he ran towards the door quickly.

If it was normal, he would not believe what she said, but now he did not dare to be careless.

Wang fan is a master who can escape from the world. In case Wang Fan kills him and finds him there, it's really possible.

If a man wants to go to the door, he must go through the hiding place of Wang Fan.

At the moment when he ran to Wang Fan and disappeared in the monitoring range, Wang Fan had already made a sudden move.

He put his right hand out quickly and patted the man on the neck.

Men's strength is only in the early days, so it's not enough for Wang Fan.

He only felt a strong pressure coming, and he didn't even have a chance to roar, so he was shot by Wang Fan, his eyes were black and he was in a coma.

Wang Fan stunned the man. Before he had time to talk to delis, her cold voice had already come over,

"you really didn't disappoint me. If you can't even beat him, even if you get on the cruise ship successfully, you will die, let alone help me."

Chapter 1337

Wang Fan looks at delis and is on guard.

Is it difficult for this woman to know that she will hide here and know that she can solve the problem of that early congenital, so she specially brought that early congenital with her?

Also, if so, doesn't it mean that this woman knows that if she wants to check the abnormality of the iron gate in the early days of her birth, she will pass by his hiding place?

What a terrible thought!

How could such a woman be caught here?

It seemed that delis knew what Wang Fan was thinking. Without waiting for Wang Fan to ask, she had already said, "you guessed well. I really know where you are hiding."

"Because I've been here for some time, and I know that position is the only dead angle for monitoring. I also know that if this guy wants to check the iron gate, he will surely pass by you. "

She also moved forward two steps, went to the place where the monitoring couldn't see, pointed to the outside, "fortunately, you listened to me, didn't act rashly, and also hid in a dead corner, otherwise even I can't help you."

"You can't imagine that there are cameras all over the place. I can guarantee that as long as you go out, no matter how fast and powerful you are, you will be found. And once you're discovered, there's absolutely no possibility of slowing down. "

Wang Fan listened to this with a sneer in his heart.

If he didn't have mental power, he really couldn't find the dense cameras outside, but there was mental power, which would be different.

But instead of arguing with delis, he asked, "Why are there so many cameras out there, and how do you want me to help you?"

Speaking of this, Wang Fan seems to think of something, "by the way, if my guess is good, the reason why you took him so long is that you didn't find a chance or something delayed?"

"Do you want to wait and see if I will go out rashly. If I go out rashly, I will be exposed, and you don't need to bring him here again. "

"You just saw that I didn't go out rashly, so you brought him here. Am I right?"

Wang Fan said these at the same time, the heart has once again set off a storm.

This woman's mind is just like a demon. She has got to the right place every step of the way.

He really did not expect that such a humble and servant like woman would be so evil and rebellious.

Delice nodded. "That's right. The reason I took so long to bring him here is to wait."

"Because once you're exposed, it won't make any sense for me to bring him here. On the contrary, it's likely to involve me."

After that, she waved her hand, "well, let's not talk about this. You put on his clothes first. Let's leave here."

"In half an hour at most, people will come here. We don't have much time to waste."

Wang Fan listened to this, also did not ask, quickly put the congenital early clothes on the body, and then opened the iron door to throw him out.

After all this, he simply changed his face for a while, trying to make himself close to the congenital early appearance, and then took delis out of the bottom warehouse.

Although there are many cameras outside, they are not so dense everywhere. Only in the 100 meter corridor where the bottom warehouse comes out first, there are the most cameras.

After this 100 meter corridor, the cameras behind are not so dense.

Delis is obviously familiar with the location of those cameras. She bowed her head respectfully and followed Wang Fan, and constantly pointed to the road in a low voice.

And she also refers to the dead corner of some cameras, which is not easy to be found.

But soon, delis was a little surprised, because she found that sometimes she didn't need her guidance at all, and Wang Fan could find the dead corner, just as Wang Fan had known the location of those cameras in advance.

This is even if, a few times in front of the people, but also by Wang Fan breathtaking with her to hide in the past, which makes her very shocked.

But she didn't ask much. They went around and soon came to a spacious room.

After entering the room, delis couldn't help but feel relieved. "This is the bedroom of the NASS family expert just now. We'll stay here for the time being. There shouldn't be any problem."

"To introduce myself, my name is delischer, and I was captured by the NASS family with despicable means. The reason why I help you is very simple, that is, I want you to take me out of life. "

" you can rest assured that as long as you can take me out, I will certainly give you enough reward, and I can also help you revenge. "

The wise eyes of delis stare at Wang Fan, "if I guess well, you must have a big feud with the NASS family?"

"It's not me who strikes you. It's impossible for you to get revenge alone. Only by saving me can your goal be realized."

Her voice has a strong self-confidence, and that self-confidence is not pretended, obviously she is really strong. Wang Fan was a little shocked in an instant. What he was shocked about was not the confidence of delis, but the name of delis.

"Dirichlet? Are you from the Craig family? "

Wang fan is really shocked. He is no longer a rookie who knows nothing about the world's ancient families.

After offending the NASS family, he has learned about the existence of the twenty ancient families from the heiluochakou. This family is one of them.

Moreover, the ranking of the kre family is far higher than that of the NASS family, that is to say, the kre family is much stronger than the NASS family.

Of course, this is not the most important thing. The most important thing is that the people of the kre family are all militant, and they are not as low-key as the NASS family.

According to the introduction of heiluocha, the Kere family is domineering and arrogant. Even if others don't offend them, they may take the initiative to make trouble.

If you offend them, they will stick to you like a dog skin plaster. No matter who you are, you will never die.

Heiluocha also sighed at the beginning. Fortunately, he offended the NASS family. If he offended the Kere family, it would be a real headache.

"Yes, I'm a member of the kre family, and I'm the favorite granddaughter of the current head of the kre family."

There was a faint twinkle in her eyes. "When the NASS family arrested me, they didn't know my identity, but I was afraid of being insulted, so I took the initiative to report my identity."

"I thought they would let me go. But I didn't expect that after they knew my identity, they not only didn't let me go, but also destroyed my face, and locked up and treated me like a slave. "

"I don't know why they didn't kill me, but I'm really fed up with these days."

"I tried to escape countless times, but I failed. I was already desperate, but you appeared, so I want you to help me escape."

As she spoke, she touched her scarred face, with two lines of tears in her eyes.

Wang fan saw at a glance that the words of delis didn't seem to be true. He sighed to himself that it's not easy for a rich family to get rich.

He sighed and said, "I can promise you that as long as I can get out alive, I will take you out. It's just that I can't go out yet because I have something to do

Chapter 1338

Wang Fan really has something to do. He has to make a big fight on the cruise ship to contain the masters of the NASS family.

After all, now the cruise ship of NASS family is chasing Ed's cruise ship. If it wasn't for him, song Rumei would have been caught.

Therefore, only by restraining the masters of the NASS family and making the NASS family unable to separate their energy, can song Rumei and Luna really escape from the heaven.

Delis is a smart woman. As soon as she sees Wang fan like this, she knows that it's useless to persuade Wang Fan again, so she won't persuade him any more.

"Be careful yourself. I'm going back now. Just take me with you when you leave." With that, delis quickly left the room, very decisive.

Although she wanted to follow Wang Fan, she knew it was unrealistic.

Although her mind is like a demon, she is an unarmed girl after all. Following Wang Fan will only make Wang Fan expose faster.

Wang Fan looked at the figure of delis leaving, sighed, and then flashed out of the room.

The cruise ship of NASS family is still driving on the boundless sea. After two hours of chasing, it is only 30 nautical miles away from Ed's cruise ship.

The 60 masters, once again gathered in the huge conference room, began to wait and prepare.

SAIN said that as long as the distance is reduced to 20 nautical miles, they will be allowed to leave the cruise ship to pursue, so they can't wait.

After all, the days on the cruise ship are too boring. Even with women and lots of entertainment, they still feel depressed after a long time.

"What about the old boy Yelv? Why didn't he come? There are ten more times. Why didn't he come?" After a group of experts got together, someone soon asked.

Because they found that only 58 of the 60 strong people came, and two of them didn't come.

You know, this is elder SAIN's call. How dare they not come?

"Don't those two old guys vent too much on women and oversleep?" A six story old man couldn't help muttering.

Although they are all masters, they are superior in front of outsiders, but they still make jokes in front of each other.

"I think so. Those two old guys are most disrespectful." There's a follow-up.

It's just that as soon as SAIN coughs, all the sounds are gone.

They all looked respectfully at SAIN.

"Go and have a look at someone and let them come." SAIN raised his eyelids and said slowly.

"Yes." One of them immediately stood up on the fifth floor and left the conference room.

Ten minutes passed quickly, but the man didn't come back. Twenty minutes passed quickly, but the man still didn't come back.

In an instant, those masters, including SAIN, looked a little ugly.

It's just two people. Ten minutes at the most, right?

But now, twenty minutes have passed, and none of them has come. Can we say that they have all had an accident?

SAIN thought of this, immediately stood up, "come on, let's go and have a look."

Then he left the meeting room with a group of people.

Two minutes later, they came to the room of Jerushita, but it was empty and there was no one at all.

SAIN's eyelids jumped, and immediately beckoned for a congenial guard. "Did you see elder Yelv and elder Cishi today? Where did they go?"

The inborn elite shook his head blankly, "back to elder SAIN, I didn't see it."

SAIN's face immediately changed. "Call all the people to the second floor hall right now, quick!"

As he spoke crazily, he took people to the second floor.

At the same time, he also carefully sensed the movement of the whole cruise ship. But he didn't feel any abnormality after feeling for a long time.

In less than ten minutes, everyone on the cruise ship came to the hall on the second floor.

SAIN looked at those people, and his face became more ugly.

The servants were normal, but there were only 33 of them.

In addition to the three missing escape masters, it means that they are missing 170 people.

One hundred and seventy people are missing out of thin air. They haven't noticed it yet. How can it be?

Don't say it's SAIN. Even the other 56 old people's faces became gloomy in an instant.

"No, it must be Wang Fan. Now spread it to me and search it. Don't let go of every corner. If something

goes wrong, sound the alarm immediately. "

Said SAIN, biting his teeth.

"Yes The elite of NASS family listened to this, did not hesitate, moved quickly, and the atmosphere was unprecedentedly dignified.

They started a careful search on the whole cruise ship, and did not miss every corner. Soon, there was news that an iron door at the bottom of the warehouse had been opened.

SAIN didn't hesitate, but rushed over immediately.

He looked at the deep knife mark on the chain, and his face became more ugly.

He is now able to confirm that Wang Fan really came up.

Because he knew that Wang Fan's weapon was a shadow knife.

"Turn on the monitor right away and see what's going on. What's more, who is guarding the monitoring room? How come there are people here, and no one knows? "

SAIN roared angrily, but his subordinates were all shivering and bowed their heads. They didn't dare to say a word.

Soon, Sean saw the surveillance video.

When he saw that after all the servants left, delis even brought one of them, and after ten minutes, he took them out again. His old face immediately became ferocious.

With his eyesight, one can see that when he went out in the early days, he had been switched.

"Who is this woman? Bring her to me at once!" SAIN pointed to the monitoring of the delis, the ferocious roar.

Subordinates did not dare to neglect, immediately went out to find delis, but ten minutes later, that subordinates is a person uneasy back.

SAIN looked at each other's expression, immediately realized that it was not good, "what's the matter, is it difficult that the woman is missing?"

The subordinate nodded in horror. "Yes, yes, delis disappeared. I don't know where she went."

SAIN listen to this, almost crazy, directly kicked in the past, "waste, waste!"

"That Wang fan is a strong man who can't get out of the ordinary world. If she can't find out, she's just a servant. Can she run away?"

How far was the subordinate kicked, but he didn't dare to say a word, and his face was full of fear.

Didi

didi

just then, a crazy alarm came, and SAIN flashed away.

Just when he flashed past, he had seen three companions who had fallen to the ground pale, obviously seriously injured.

Chapter 1339

"What's the matter?" SAIN looked at the three injured elders and asked with a frown.

"Wang Fan, it's that Wang Fan." One of them gritted his teeth, "we just appeared here, we were attacked by Wang Fan."

"That despicable guy not only kicked enshbury into the sea, but also seriously injured the three of us. If the alarm didn't ring fast, we would have been dead."

When he was talking, he was a face full of frustration.

They are strong people. Now they are forced by a young man to be so embarrassed. It's a shame.

SAIN listened to this, it is a face of shock, "what do you say, he alone, can beat you five?"

He is really shocked. How old is Wang Fan? How can he be so strong?

If so, doesn't it mean that only Thain can live in Wang Fan on the cruise ship one-on-one?

You know, there are three of these five people who have five levels of freedom and two of them who have six levels of freedom. It's impossible to beat them in a short time, even if it's the seventh floor?

"Yes, yes. Although he attacked us secretly, he was really powerful. " Although the old man was very upset with Wang Fan, he was still honest.

SAIN did not continue to talk nonsense, asked Wang Fan to leave the direction, dropped a few pills, and then left here.

He already had a kind of uneasy feeling, must catch Wang Fan as soon as possible, otherwise they here people are likely to be killed.

What makes SAIN angry is that half an hour later, he didn't even see the shadow of Wang Fan. On the contrary, he saw a lot of his own people who were injured by Wang Fan.

Those who are injured by Wang fan are all seriously injured, not to mention that it is impossible to recover in a short time. Even if they can recover, their strength will drop sharply.

Sean gritted his teeth, but he was helpless.

Wang fan is too slippery, and it seems to be able to detect his arrival in advance. This made him feel angry, but he had no place to vent.

At a certain moment, he finally couldn't help but roar, "Wang Fan, I know you are on the cruise ship. If you have seed, you will come out to fight with me."

"I promise that as long as you can take my three moves, I will never embarrass you again, and the NASS family will never trouble you again."

His voice was rolling like thunder, which spread all over the cruise ship in an instant. His voice was rolling and reverberating.

Just as his voice had just dropped, he suddenly heard a loud bang, followed by a voice of extreme anger.

"Little brute, if you dare to fight against the NASS family and attack me secretly, you can leave your life behind!"

With the sound, there was a loud bang.

As soon as SAIN heard it, he knew that the voice belonged to Rudd, the elder of the seventh level.

Obviously, Rudd has met Wang Fan now, and has also been attacked by Wang Fan.

SAIN's eyes were cold. Without a moment's hesitation, he ran directly to the direction of the voice.

In any case, he can't let Wang Fan go this time.

At a place on the top floor of the cruise ship, Wang fan is standing in opposition to an old man in his seventies. Under the sea breeze, their clothes have been puffed up and they are hunting in the wind.

At this time, both of them were very short of breath. It was obvious that they had just had a big fight, but no one had the upper hand.

The old man in his seventies was Rudd, one of the four elders on the cruise ship.

At this time, Lu De's eyes were gloomy and he was staring at Wang Fan. His face was gloomy, his old face was twisted, his hair was erect, and he seemed to be angry.

He didn't expect that Wang fan should be so strong, and he didn't fall into much disadvantage.

This is so perverse!

Wang Fan's eyes fixed on Rudd, which was also a little shocked.

He didn't expect that he didn't get rid of Rudd in a short time.

This made him deeply aware of the gap between the four and seven levels of tuofan.

He can't compete with just one person who takes off the ordinary seven levels. Isn't he even more vulnerable to the old man who takes off the ordinary eight levels?

Wang Fan has already realized that the strongest one on the cruise ship is not Rudd, but the old man SAIN.

He can't even clean up Rudd, and he's no match for Sean.

Fortunately, Wang Fan only thought about it in his heart, otherwise Rudd would definitely vomit blood.

Nima, are you not satisfied that the fourth floor of tuofan and the seventh floor of Laozi are fighting like this? Is this still alive?

At this time, Wang Fan's mental strength has been swept to the point where SAIN is rushing here. His heart can't help sinking, but on the surface, he laughs,

"old man, if you want to leave me, I'm afraid you don't have that ability. Is the NASS family great? What I provoked is the NASS family. What about you? Let's eat my seal first." Wang Fan said, that back in the back of the hands have suddenly out, and crazy toward Rudd pushed in the past.

The mountain climbing seal, which had already been brewed, flashed out in an instant, raised the wind, and rushed to Rudd in an instant.

Wang fan is to take advantage of this opportunity, a flash of body shape, directly grabbed not far from the delis, jump to the vast sea.

He has been making a lot of noise on this cruise ship. Now he has to leave. If he doesn't leave, I'm afraid he will really stay here.

"Where to go?" Rudd roared. He was about to stop him, but the seal had already come.

"Martial arts?" Aware of the terrible power raised by the mountain seal, Rudd's face changed greatly, directly and crazily urged the vitality in his body, and his fists blew at the same time.

Bang!

A terrible sound, the heat wave exploded, the mountain mark was blown directly into a little bit of starlight, dissipated in four places.

Under that force, Rudd could not help stepping back a few steps, and a mouthful of blood came out of the corner of his mouth.

His old face has been completely pale up, the heart is set off a storm.

Martial arts!

It turned out to be martial arts!

No, he must not let Wang Fan run away. He must get this skill!

Rudd calmed down for a while, and was planning to follow Wang Fan by jumping into the sea. SAIN had already flashed over.

"You are injured. What about Wang Fan?" SAIN's face is hard to see the extreme, he even lost the trace of Wang Fan.

At the same time, his heart is also shocked, just a few breaths, Rudd was injured, that Wang Fan really so terrible?

Rudd's eyelids jumped. "He jumped into the sea and ran away. I suffered a bit."

He didn't say that Wang Fan hurt him with his martial arts skills, because once this kind of thing was told to SAIN, there would be nothing wrong with him.

The reason why he is suppressed by SAIN is that his strength is not as good as SAIN, but if he controls Wang Fan's martial arts, he will not be afraid of SAIN any more.

Everyone has everyone's careful thinking, even the same family is no exception.

Lu De has taken Wang Fan's martial arts skills as his own, so naturally he has concealed them.

"Which way?" SAIN asked coldly.

Rudd didn't hesitate. He pointed out the direction casually. SAIN immediately chased him out.

But only ten minutes later, he came back with a gloomy face, and obviously did not catch up with Wang Fan.

Ruth could not help sighing a sigh of relief when he saw Thain returning empty handed.

Half an hour later, SAIN called everyone together again.

However, this time, only 20 of the 60 strong ones left, and 10 of them were seriously injured.

Of the thirty-three, only nine were left, and the other twenty-four were completely missing.

It was the servants who came most completely, except that there was only one person missing.

Looking at this scene, SAIN really just wants to vomit blood.

What a loss!

Chapter 1340

As Wang fan made such a fuss, even the captain and many sailors disappeared, the speed of the NASS family cruise ship naturally slowed down.

When their cruise ship docked at the dock around the harbor, Ed's cruise ship was already empty, and no one could be seen.

Not to mention the two women song Rumei and Luna, even ed and his party, as well as the original passengers on the cruise ship, have already disappeared.

SAIN gas jump feet, in order to quickly go ashore full search at the same time, report this matter back to the NASS family.

For the first time in the history of the NASS family, he had to report such a big loss.

The NASS family.

"What? Forty elders are missing, and ten others are seriously injured? "

When Nasser heard the news, he couldn't help jumping up from his seat and slapping the table in front of him to pieces.

Furious!

For those born elite, he did not care too much.

What he cares about is those masters who are out of the ordinary!

How could he not be angry that 40 people were missing and 10 of the remaining 20 were seriously injured?

This is the most disastrous loss of his family in recent decades!

But soon, Nash sHouse shivered and came back to his mind, "by the way, you just said that a servant was taken away by Wang Fan. What's the name of that servant?"

He's only now noticing the words after Thain.

Although SAIN just casually said that Wang Fan had taken a servant with him, he didn't seem to pay much attention to it, but he had to pay attention to it.

Now he remembered that delis seemed to be locked up on the cruise ship that Sean and others took.

Only nassauser and the person in charge of the cruise ship knew about delis, and the rest didn't.

Even the 200 elite just knew that delis was not ordinary and couldn't be killed, and the rest didn't know.

After all, the identity of delis is extraordinary. The more people know about her identity, the easier it is for information to leak.

As an ancient family stronger than the NASS family, the Kere family is also extremely belligerent.

If the kre family knew that the NASS family had dared to bind the little princess delis, the favorite of the patriarch, they would not be mad?

What if the NASS family had no intention? After all, tie is tie, which is an iron fact.

That's why Nasser didn't dare to lock up delis on land. Instead, she was locked up on the erratic cruise ship, trying to avoid the leakage of information.

As for why nassauser didn't kill delis, only he knew.

Although SAIN's status is aloof, he only used the cruise ship to catch up with Wang Fan for a short time, so nasshouse didn't tell him about it at all, or didn't remember to tell him about it.

As for the person in charge of the cruise ship, as he disappeared earlier, he didn't have time to tell SAIN about it.

Nash sHouse inquired about SAIN on the other end of the phone. He was already worried, and even his palms were sweating.

Compared with the Kere family, Wang Fan's loss, even this time, is nothing at all.

He is praying that the missing servant is not delis, otherwise, his family will face the blood revenge of the krers.

"Her name seems to be delis. Why, is there something wrong with this person?" Unfortunately, Thain's next sentence shattered Nasser's fantasy. He could not help but sit down again.

He seemed to be several decades old in a moment, and said powerlessly, "no problem, you let the rest of the people continue to pursue Wang Fan and song Rumei, you go back to the family first."

Now that things have happened, he has to prepare in advance, and SAIN, a super master, naturally needs to be summoned back soon.

Otherwise, once the Kere family is killed, it will be impossible to resist without SAIN.

"Well, I'll go back." Sean's eyelids jumped and he felt unusual, but he didn't ask much. He nodded and hung up.

On the sea.

Wang Fan's face is very gloomy, he found that he lost his way.

He has been running with delis on the sea for dozens of hours, and it is reasonable to say that he should have already arrived at the dock around the harbor.

But now, let alone the quay, he didn't even see a reef or an island.

Wang Fan's face has become pale, breathing has become shortness of breath, so long run, but also with delis, he has been almost unbearable..

If he didn't have the elixir, I'm afraid he would not have been able to hold on until now.

Delis lay on Wang Fan's back, her face became pale, even her breath became weak. She felt numb and weak, almost fainting from hunger.

"Either, or you put me down. If it goes on like this, we all have to die. Although you didn't really take me out of the sky, I'm still very grateful to you. ""If it wasn't for you, I couldn't have escaped from the clutches of the NASS family and died here. It's better than being imprisoned by them all my life."

"You know, the year I was imprisoned by them was a nightmare for me. I couldn't even commit suicide."

"Now that I can breathe the air outside and get more than 20 hours of freedom, I am satisfied."

Delis looked up at the gray sea and sky, breathed out, and said intermittently.

Although her face looks very ferocious, her eyes looking at Wang fan are very soft.

In the past 20 hours, Wang Fan could completely throw away her own escape, but Wang Fan never abandoned her. Even though Wang Fan was panting and extremely weak, he never abandoned her.

"Don't talk, don't waste your energy. I said, as long as I can go out, I will take you out. I do what I say. "

"Well, what's more, I can only stick to it for a few hours at most. If we still can't get to the shore or find any reefs or islands for a few hours, then we really have to die here."

"I hope we all have good luck."

Wang Fan's heart is also a little bitter. He never thought that he would die at sea.

It seems that he is too small after all. He is still not worth mentioning in front of nature.

All of a sudden, the sound of clattering came, and the sea in front of him suddenly rolled up, and the waves were turbulent. Then Wang Fan was shocked to find that at least a dozen sharks came frantically.

The dozen sharks opened their mouths, and their tusks were like sharp cones. They were very terrible, as if they wanted to swallow them into the endless darkness immediately.

When she saw the shark, she screamed and quickly closed her eyes.

She felt fear, she felt shivering.

Although she didn't care about death, she still couldn't accept it if she died in the shark's mouth.

This is the first time that the two met a shark in more than 20 hours, because before, Wang Fan's mental power was always outside. As long as they noticed the arrival of the shark, they would avoid it ahead of time.

Now, he was really tired, so he took back his mental strength, but he didn't expect to encounter a shark.
