

Mighty Sk 1521

Chapter 1521

Whoosh!

The mountain climbing seal is as fast as streamer, and the instant crazy shooting is like lightning.

Dan Tai Ming is very disdainful, empty step, a palm wave!

The surging and incomparable aura is rolled up, and a huge handprint is formed in an instant, which is madly attacked to the Fanshan seal.

The strong man on the second floor of Tianjing in dantai Mingtang, even if he is injured, what? He still didn't pay attention to Wang Fan.

The huge palmprint raised the roaring wind and collided with the mountain climbing seal.

Boom!

A terrible sound like thunder suddenly changed the color of heaven and earth.

The fury of Qi was torn apart, and the fury was rampant in all directions.

The huge stones were broken, and every inch of soil was lifted up. As for the hard gate of the blue stone city, it was crushed in an instant.

Wang Fan's blood gushed and retreated in an instant, but he did not choose to escape.

Because he knows that he can't escape. What's more, Han Qingyi is still in Jijian city. How can he escape?

Dan Taiming is also not easy, blood gushing in his mouth, and directly flew out.

In his eyes, there was an incomparable shock.

Wang Fan, a mole ant with only five levels of territory and less than six levels of territory, hurt him with his fierce martial arts.

How is that possible?

You know, he is a strong man in the second level of Tianjing, which is quite different from Wang Fan's peak in the fifth level of Tianjing.

Let alone the top of the five levels of the earth, even the top of the nine levels of the earth, it's hard to

hurt him if you show your martial arts skills in front of him.

"Elder martial sister, do it!" Not far away, the young man in the light blue robe looked at Dan Taiming, who had vomited blood and turned upside down. With a crazy roar, he jumped out in an instant.

He waved his two palms, and presented the horse chains like angry dragons, which set off an unparalleled spirit of terror and roared madly to Dan Taiming.

At the same time, the woman in white also resisted the pain and flew up in the air. With a shake of her right hand, a piece of silvery feather appeared, and in a moment, she bombarded Dan Taiming.

Feel carefully, this woman, unexpectedly also has the ground condition peak's strong strength, is simply startled to hear.

Dan Taiming felt the fierce attack of the youth and the women, especially the silver feathers that the women blew out. His face finally changed for the first time.

He felt the threat.

If it was normal, he would not pay attention to these two people at all.

But now, he was first bombed by the explosive soul bead, and then by Wang Fan's attack. He was already seriously injured, and his strength was not one in ten.

Therefore, the attack of young people and women in white naturally threatened him.

"You're all going to die, you're all going to die!" Dan Taiming roared angrily, and the aura in his body was more surging. His fists were roaring, and he bombarded them madly.

Boom boom!

A series of loud noises, which were like angry dragon chains, were broken one after another under Dan Taiming's crazy attack. They turned into stars and disappeared into nothingness.

However, Dan Taiming was also not feeling well. His dark face was even whiter, and the blood was pouring out from the corner of his mouth. The injury was more serious.

At this time, that piece of silver feather has already madly attacked the front of Dan Tai Ming, the woman in white suddenly drank, "bound!"

That piece of feather, even in an instant scattered, turned into several pieces, between each piece of feather, there is even a silk winding, crazy winding to Dan Taiming.

"Get out of here!" Dan Taiming is very angry, he is a crazy hand, but he didn't get much effect.

That piece of feather in his bombardment, just a little stagnation, and then continue to crazy winding in the past.

He has a sense of crisis.

If you don't leave, I'm afraid you'll die.

Dan Taiming was angry and unwilling. He never thought that one day he would be forced to such a degree by the three younger generation.

This is definitely the first time in recent decades!

"Ah Dan Taiming's aura surged up. The sharp aura, like a sharp knife, cut the silver feather on his body.

Under this kind of crazy cutting, the Silver Feather actually had the sign of being cut.

The woman in white looks pale and controls the Silver Feather crazily.

Can Dan Tai Ming is really too terrible, his power of burning blood essence crazily, how can we underestimate it?

"Wang Fan, let's fight together and kill him. We can't let him get rid of the shackles, otherwise we'll never have another chance!"

Looking at this scene, the young man roared wildly. With a wave of his right hand, a huge bronze tripod appeared in his hand.

He clenched his teeth crazily and threw it forward hard!

Whoosh!

The bronze tripod suddenly penetrated the air, set off a powerful force, crazy toward the dantaiming bombardment in the past. It's like a meteorite, falling like crazy!

Wang fan is also a crazy clench teeth, no hesitation, once again crazy cohesion from the mountain.

The five marks are condensed and formed in an instant, and then fused, and they also burst out madly towards tantaiming.

At this time, Wang Fan did not dare to be a bit clumsy, because if Dan Taiming did not die, it would be Wang Fan who died next.

So he tried his best, without reservation!

In a short period of time, Wang Fan displayed two mountain climbing seals one after another. He also reached the limit. He only felt that his whole body was aching and weak, and he was extremely weak.

At the end of the storm.

He wanted to avoid it, but he was bound by the feathers, so he couldn't escape.

But under, he can only crazy cut those feather silk line, at the same time in the body surface formed a gang Qi to protect the body.

Click!

Under Dan Taiming's madness, soon, the feather thread cracked with a click and fell completely.

The woman in white also hissed, and several mouthfuls of blood came out of her mouth again.

Her whole body is tottering and weak to the limit.

Dan Taiming, a strong man in the second tier of Tianjing, is too strong to be offended. It is not a false name.

However, after breaking free from the shackles, Dan Taiming had no time to be happy. The huge bronze tripod had been severely bombed on his body.

Boom!

Click!

Just for a moment, the vigorous Qi on his body had been torn, and his blood was gushing while his body was flying upside down.

"Drink!" Dan Taiming let out a loud drink and kicked the bronze tripod to the youth. Just at this time, Wang Fan's seal had already arrived.

Boom!

There was another loud noise, and the whole man of Dan Tai Ming was completely blown up, knocked over countless people and fell to the ground.

Looking at this scene, all those who survived were shocked.

It's so terrible that the three Tianjiao of the earth hurt Dan Taiming seriously and even killed him.

You know, the difference between the earth and the sky is just like the difference between the heaven and the earth. I don't know how much difference there is in strength.

Don't say it's three di Jing. Even if it's ten Di Jing, it's hard to hurt a strong one.

But now, the three of Wang Fan have done it.

How can they not be shocked?

Wang Fan did not have time to pay attention to the shock of those people around him, but at the same time, he stared at the location of Dan Taiming.

They don't know what happened to Dan Taiming and whether he died or not.

Chapter 1522

Wang Fan's mental power swept past crazily, but it seemed to be blocked by a layer of fog, and Wang Fan's mental power couldn't penetrate at all.

He wanted to get close, but now he didn't dare to.

Dantai Ming is really terrible. If dantai Ming still has fighting power, he will die now.

The young man and the woman in white also stayed in the other two directions, staring at the location of Dan Taiming, and did not dare to move.

Their hearts were even more shocked.

Dan Taiming, powerful beyond their imagination.

Explosive soul bead, together with the three people's hard work, they were all in such a mess. Those who are strong in heaven are really extraordinary.

Click, click.

At a certain moment, the ground in that place began to ring, and the stones and debris rolled towards both sides. Then, a bloody arm that had no skin was stretched out.

Looking at this scene, not only Wang Fan, the young man and the woman in white, but also the people around, their pupils could not help choking violently.

It's not dead?

Isn't that tough?

Wang Fan's heart is even more nervous to the extreme, and the fragmentary aura in his body starts to surge madly again.

His hand, too, had already pinched the shadow knife for the first time.

Click, click.

The rocks and debris rolled faster. Soon, Dan Taiming climbed out of the ground.

At this time, his whole body had no human form, and his whole body was bloodstained, just like a demon from the abyss.

"Ouch!" A roar just like from the abyss, Dan Taiming's bloody eyes suddenly fixed on Wang Fan, and then rushed towards Wang Fan crazily.

His whole person, just like a wild beast, ferocious and fierce terrible!

Wang Fan's face changed in an instant, and his mental strength condensed into a line. While he was madly pounding to Dan Taiming's mind, he held the shadow knife in both hands, and fought with all his remaining strength, frantically chopped it out.

Mental impact on the mind -

"ah!" With a scream, Dan Taiming's steps were slightly stifled. But soon, he returned to normal and rushed to Wang Fan crazily again.

Now Dan Taiming is at the end of his life. He has torn most of his bones and channels, and his internal organs have been severely damaged. He knows he can't live.

However, before he died, he wanted to kill Wang Fan and avenge himself for dantai heaven!

The shadow knife cuts out dozens of Zhang long awns, sets off the wind of hunting, rolls up endless killing power, and frantically cuts towards the dantaiming.

The astonishing killing power, not to mention the onlookers around, even the young man in pale blue robes and the woman in white felt palpitations.

But Tan Taiming didn't care at all. He waved out one arm, which instantly expanded and burst.

That arm burst after overflowing out of the terrible gas force, crazy tear to Wang Fan split to the knife awn, will it smash blow scattered.

And his whole person, is continue to crazy toward Wang Fan.

Wang Fan looked at this scene, his face suddenly changed!

This Dan Tai Ming wants to kill himself even if he explodes his arms. What a strong determination!

He can only continue to crazy retreat, constantly waving shadow knife, to buy time for himself.

It's just that he is too weak. The current attack will not affect Dan Taiming at all.

Dan Taiming's speed is really too fast, just a few breaths, has approached Wang Fan.

"Die Dantaiming's bloody eyes sweep towards Wang Fan coldly. His eyes are bloodthirsty. His ferocious roar, the other arm whew out, directly and ruthlessly toward Wang Fan patted in the past.

Wang Fan's face changed wildly. He was afraid of trembling!

"No!" At this time, a sharp voice suddenly came, followed by a figure crazy hit Wang Fan, Wang Fan's whole person instantly inverted fly out.

Boom!

At the same time, Dan Taiming's sharp slap has been blasted on the figure.

Cluster!

The blood floated away, and the man flew out in an instant!

"Cold green clothes!" Wang Fan looked at this scene, it is simply a desire to crack!

Hanqingyi, it's hanqingyi!

Looking at the blood stained clothes of hanqingyi, looking at the sad face of hanqingyi, Wang fan is completely crazy.

"Die! Die!! Die

His eyes were red in an instant, his anger rose in an instant, and his whole person became violent in an instant.

A crazy aura grew out of himself. He grabbed the shadow knife and killed Dan Taiming regardless of everything.

Boom boom!

With several loud noises, Dan Taiming was blown away and fell to the ground in a panic, with a pale

face.

Seriously injured, dying.

He also did not expect that, at the critical moment, cold green clothes unexpectedly came out, for Wang Fan blocked that blow.

You know, his strike, has made the last effort, so in the face of Wang Fan's next crazy attack, there is no resistance. He is not willing!

He did not expect that even if he was dead, he could not kill Wang Fan!

Wang Fan didn't pay attention to Dan Taiming, but ran to the cold green clothes side, crazy hugged her body.

"Tsing Yi, Tsing Yi." Looking at the pale face of the cold green clothes, Wang Fan only felt the pain of his heart.

He didn't expect that, at the critical moment, cold green clothes even blocked that fatal blow for him.

"Wang, Wang Fan, I'm sorry. I'm the one who bothered you. I, I, I'm dying. You must live well. "

Cold green clothes looking at Wang Fan, weak said, eyes rolled down tears.

"No, you won't die. You won't die." Wang Fan screamed in pain.

Hanqingyi came from outside with him, so he had a special feeling for hanqingyi.

He will not feel lonely when he is with hanqingyi, but now, hanqingyi is dying

Wang Fan holds hanqingyi with one hand, and points towards hanqingyi with one hand madly.

He tried to save hanqingyi's life with his consummate medical skill.

However, Tan Taiming's hand was really terrible. The violent force almost tore up the tendons and veins of Han Qingyi, and even hurt his inner organs.

In this case, even Wang fan is not sure that he can save hanqingyi.

"Wang Fan, you don't want to be like this. I'm very satisfied to die for you and in your arms"

"you know, during this period, I really envy younger martial sister Xiaowu, because she can get your favor .."

"I don't expect too much, I just hope to be with you and look at you from a distance... .."

" now I'm going to die, can you, can you, kiss me ... "

Han Qingyi looked at Wang Fan and said difficultly. In the end, a faint red appeared on his pale cheek.

"You're not going to die. You're not going to die." Wang Fan murmured and quickly lowered his head to kiss him.

But at this time, a voice came, "Wang Fan, Dan Taiming is dead. I think there will be a strong man of the extreme sword gate coming here soon. You'd better leave quickly."

"Don't worry, she won't die. I have a pill here. If you give it to her first, it can stabilize her injury."

"Then you go to the dark cloud city thousands of miles away to find master Kuye. Master Kuye is an expert in the apricot forest. He can help you save hanqingyi."

The young man in the light blue robe quickly walked up to Wang Fan, handed him a pill and said quickly.

Beside him was the woman in white who was also seriously injured.

Chapter 1523

"Can you help me?" Wang Fan's eyes lit up instantly when he listened to this.

"Thank you, thank you." He quickly thanks, grabbed the pill, directly into the cold green clothes mouth.

He had already remembered the words "dark cloud city" and "withered leaf master" in his heart. Even if he did everything, he would try to save hanqingyi.

"Well, let's leave now. This is what Dan Taiming found. Here you are. My elder martial sister and I left first. We'll see you later. "

The young man didn't talk much. He quickly finished and threw a storage bag to Wang Fan. Then he helped the woman in white to leave here quickly.

Jijiancheng is the territory of jijianmen. Dan Taiming is the head of the guard elder of jijianmen. If he dies, the situation will be very serious.

Even if the top management of jijianmen is dissatisfied with dantai Ming, they will never let dantai Ming be killed without revenge.

"Go, go at once." Wang Fan also a spirit back to God, but he did not immediately leave, but mental crazy swept out.

Soon, he found the elder who was covered by stone and soil.

Wang Fan dug out the body of the elder and carried it on his back. Then he picked up Han Qingyi and left here quickly.

The elder died because of him. No matter what he did, he had to bury the elder.

Although dantaiming died, Wang Fan didn't want to go back to jijianmen.

Because from the fact that dantai Ming can kill the elder without scruple and hang the elder's body on the gate, we can see that dantai Ming has a very important position in jijianmen.

Otherwise, the elder would not have been humiliated like this, and the high level of jijianmen would have ignored it.

Although Dan Taiming died, his power and influence are still there. If Wang Fan goes back, he is likely to fall into the trap.

Moreover, after Tan Taiming and the elder, Wang Fan didn't have much affection for jijianmen.

Wang Fan, who left Jijian City, didn't know that the current Jijian gate was in complete turmoil because of the fact that Dan Taiming killed the elder.

The elder headed by the patriarch and the elder headed by Dan Taiming had a crazy war.

The war was very fierce, and innumerable clerks, outer disciples and even inner disciples were affected.

The whole extreme sword gate is full of blood and countless casualties.

Wang fan doesn't know these things, and doesn't care about them. He has come to a mountain forest a hundred miles away from jijianmen and buried the elder.

"Elder, I'm sorry, but it's Wang Fan who bothered you. I've killed that Dan Taiming. I've avenged you. You can rest in peace under the nine springs. "

"If I have time, I'll come back and see you more. Now I'm leaving. Goodbye."

After burying the elder, Wang Fan mumbled and then left here with cold green clothes in his arms.

At this time, the cold green clothes, after taking the pill, have been in a coma in the past.

But Wang fan can feel that her vitality has become stronger and stronger, the injury has been contained, and began to heal slowly.

It's just that the healing speed is too slow, almost negligible.

Wang Fan of Wuyun city knows that it is more than 1000 li away from jijianmen.

Just from jijianmen to Wuyun City, we need to cross a mountain range, which is very dangerous. There are not only demons and beasts, but also many powerful robbers.

Even mercenary squads and bounty hunters are likely to pose a threat. Because they will rob other people's property and cultivation resources, it can be said that there is a lot of crisis.

Generally, no one dares to cross the mountain except those powerful experts and experienced disciples. Even those businessmen usually choose detours.

Wang Fan did not choose a detour. He planned to cross the mountains directly.

Although hanqingyi's injury has been contained, it is still more dangerous for every delay. It is better to treat it as soon as possible.

Wang Fan carried cold green clothes on his back and soon entered the mountains. While he was cultivating and recovering, he was on his way. When he met monsters or people, he would avoid them ahead of time and didn't want to make trouble.

Two days later, Wang Fan was deep in the mountains.

That huge towering ancient wood, straight into the sky, block out the sun.

The dense branches and leaves together, has completely blocked the light, resulting in the whole world, are gray.

It's hard to tell whether it's day or night.

Wang Fan was walking on the mountain road with cold green clothes on his back. His feet rubbed the ground and made a "rustle" sound.

He has a steady gait and firm eyes. He never stops on his way.

In the past two days, he has killed many powerful monsters and obtained many animal nuclei.

Those monsters were all unavoidable to Wang Fan, so he had no choice but to kill them.

"Whoosh" At a certain moment, a slight voice came, Wang Fan suddenly stopped and directly grabbed the shadow knife.

His mental power has been swept, and eight huge green wolves surround him.

The strength of the eight green wolves is very strong compared with the strong ones in the five or six levels of the earth.

Soon, the eight green wolves appeared completely and surrounded Wang Fan in a circle.

Each of these green wolves is more than three meters high and six meters wide. Their sharp tusks and bloodthirsty eyes are enough to make people scared.

Green Wolf, the speed is too fast, for this kind of fast monster, Wang Fan has no way to detect and avoid in advance.

"There are so many green wolves. It's good. I'll try my cloud splitting Sabre with you." Wang Fan looked at the eight green wolves, but he couldn't help laughing.

He has also begun to practice the Xuan level medium martial art, cloud splitting Sabre technique, which was given to him by the youth. Now he can just test his power.

Whoosh!

With a sharp sound, I saw a green Wolf trampling on the ground. His body turned into a hurricane in an instant, and he went crazy to kill Wang Fan.

At the same time, the other seven wind wolves, regardless of the order, rushed madly to Wang Fan.

Their speed, fast to the extreme, fast to incredible.

Their bloody mouth is even more open, giving people endless fear.

But Wang Fan's face didn't change much. The shadow knife split out in an instant. A little bit of sword like a star was torn out and directly formed an arc. Taking Wang Fan as the center of the circle, he swept to eight wind wolves crazily.

Hiss, hiss, hiss.

Several loud noises came out, one face to face, eight green wolves fell back in an instant, with blood stains on their bodies and many more injuries.

"Ouch!" They couldn't help howling, and their eyes were more fierce.

They didn't expect that they were all injured when they met each other.

The tingling all over, as well as the strong smell of blood, completely stimulated their ferocity.

"This cloud splitting Sabre technique is worthy of being a Xuan level medium skill. It's really powerful." Wang Fan's eyes were bright, and he took the initiative to attack. The shadow knife continued to wave and cleaved to the eight green wolves.

The boundless killing force attacked and rolled, and the sword Mu rose against the wind, as if it had turned into a huge cloud, and then torn. The torn clouds are like starlight, covering the eight wolves crazily.

This time, the eight green wolves, who had not rushed to Wang Fan's side at all, had been completely smashed by the torn clouds and become fragments.

One hit, eight green wolves, all dead!

The cloud splitting Sabre technique is a medium level martial art. It's so terrible!

Chapter 1524

About ten kilometers away from Wang Fan, six people in black are running frantically towards Wang Fan.

These six people are all wearing black robes and holding a purple dagger. Their breath is terrible.

Their eyes are deep and cold, and their bodies are full of rich blood. Obviously, they are all people who have experienced bloody fighting.

This is a Powerful Mercenary team. It lives by hunting monsters and robbing other people's belongings. I don't know how much blood has been stained in the mountains.

They are aware of Wang Fan's fighting over there, and then frantically rush to the past.

They haven't met anyone for three days. Now they realize that there may be someone there. Naturally, they won't miss it.

The head of the man in black has purple hair, handsome and weird, but his eyes are as cold as a poisonous snake, which is not commensurate with his handsome face.

Soon, they were close to Wang Fan's position, and then the handsome man waved his right hand, and the other five stopped immediately.

"You wait here. I'll see the situation first." After a line of six people stopped, the handsome man whispered to the five people behind him, and then immediately approached Wang Fan cautiously.

After all, even if he does it, he has to find out the enemy's strength and whether he can eat it. Once he finds that the other side is stronger than his own, he will naturally give up.

The handsome man soon got to the place less than 100 meters away from Wang Fan. His cold eyes swept through the cracks of the leaves, and immediately saw Wang Fan who had just taken the green Wolf's core and was going to leave.

"There is only one person on the other side, with an injured woman on her back. You can do it." When the handsome man saw Wang Fan and Han Qingyi, he immediately made a decision.

At the same time -

"eh?" Wang Fan's face also changed, suddenly turned his head and looked at the location of the handsome young man.

His mental power has always been in a state of openness. As soon as the six handsome young people approached, they naturally noticed it.

"Found out?" Handsome man see Wang Fan line of sight sweep, is also a look shock, immediately called to the other five companions.

Whoosh!

With his wave, the other five people flashed out from the dense forest in the distance. Xing was like a hurricane and surrounded Wang Fan directly.

Handsome man is also a step out, sealed Wang Fan's last retreat.

Wang Fan looked at six handsome men, frowned and asked coldly, "what are you doing?"

At the same time of speaking, the aura in his body has roared, ready to take action at any time.

The strength of each of these six people has reached the sixth floor of the terrain, which is terrible.

Moreover, from the strong smell of blood on them, we can see that they have definitely experienced the existence of real killing, far from ordinary people.

"Don't do anything, hand over your belongings and get out!" The handsome man said coldly, but he couldn't help but wonder, "why, you don't have a package on your body, do you have a storage bag?"

With his voice, the eyes of the five companions behind him became hot in an instant.

Storage bags, though not so precious, are not what ordinary people can have.

At least, among the six of them, only the first handsome man had a storage bag.

Wang Fan listened to this, sneer even more, "so, you are going to rob me of things?"

He had long heard that there were people in the mountains who lived by robbery, but he never met them.

He did not expect that this time, he should have met.

"That's a lot of crap!" Handsome man some impatient, cold drink, is going to let people start, behind a burly man is suddenly opened.

He pointed to Han Qingyi and said, "brother, look at the girl behind him. My brothers haven't been driving in the mountains for a long time."

"Although this girl doesn't grow very well and is half dead, she has a good figure. Why don't you take it down and let the brothers have fun?"

The burly man said with a smile, and the other four couldn't help getting excited.

Originally, the burly men didn't say it, but they didn't notice Han Qingyi and didn't think about it in that way. Now, as soon as the burly men say it, they all feel itchy.

Because of the fact that hanqingyi is very common, the burly man said that hanqingyi is not very long.

"You want to die!" Wang Fan's face is changed, become thoroughly furious!

This guy, even if he robbed him, even wanted to beat the attention of green clothes. He was looking for death!

Dragon has scale, touch it is angry!

And now, Wang Fan's inverse scale is undoubtedly cold green clothes.

His anger erupted like a crazy flame. Wang Fan didn't say a word of nonsense at all. He grabbed the shadow knife directly, and suddenly stepped on the ground with his right leg. With a roar, the whole person was like a wild leopard fighting against the burly man. Looking at this scene, six handsome men were surprised. They didn't expect that before they started, Wang Fan took the lead.

"Ha ha!" The burly man gave a grim smile and stepped on the ground with his right leg. While the earth burst, he held a purple dagger and went crazy to kill Wang Fan.

The purple dagger in his hand is full of the length of an adult's forearm, and it emits a faint cold light.

The handsome man and the other four people watched the scene, not immediately, but chose to watch it coldly.

This burly man ranks second among the six, and his strength has reached the sixth floor.

He believes that as long as the burly men are not killed by one blow, they will have a chance to help, and they also want to see Wang Fan's strength first.

"If you don't take the initiative to hand over the storage bag and the woman, you should die."

The burly man grinned grimly, and the sharp dagger stabbed out suddenly. The bright light flashed, and directly stabbed Wang Fan.

Wang Fan's eyes were calm, and the shadow knife suddenly waved. With a local sound, he directly lowered the dagger of the burly man, and then clapped it with his backhand.

Pop!

In an instant, the chest of the burly man had been hit by the back of the knife, and blood gushed out of his mouth, flying upside down!

"Death Wang Fan did not give up, a word out, shadow knife flash again, like lightning.

The big man's eyes suddenly turned round. The dagger fell to the ground in his hands. His hands tried to cover his neck, but they couldn't gather strength at all.

Boom!

Wang Fan rushed forward and kicked out again!

The burly man was kicked to fly directly, the person in the mid air, between the throat already spurted out the bright blood sword.

This scene, which is slow to say, only happens between breathing.

The five handsome men looked at the burly man who was almost killed by Wang Fan in an instant, and their faces changed in an instant.

At the moment when Wang Fan started, they clearly felt that Wang Fan's strength was only six levels, which was equivalent to that of a burly man.

According to the normal situation, Wang fan can't be a burly man who has been fighting for a long time.

But now, the fact is just the opposite, the burly man was killed, and was killed so thoroughly, almost no resistance.

"Second!"

"Second brother!"

Short dull, handsome man five people all became extremely angry, eyes in the moment red!

Chapter 1525

"You, you killed the second one?"

"I want you to die!"

"Take your life!"

They all roared angrily, and their whole body's killing intention swelled. They were crazy to fight Wang Fan.

There were six mercenaries, who lived and died together. Although they were not brothers, they were better than brothers.

Now, Wang Fan has killed the second of them. How can they not be angry?

But they didn't think about it. If they didn't plan to rob Wang Fan, if the burly man didn't insult Han Qingyi, would Wang Fan kill him?

Six strong men in the six levels of the territory, frantically slaughtered Wang Fan, with a strong momentum and amazing momentum!

"It's just a beast. If you kill it, you'll kill it. What can you do to me?" Wang Fan chuckled, his figure suddenly flickered, and he directly jumped at the handsome man.

He can feel that the strength of this handsome man is the strongest, of course, it is necessary to start with that handsome man.

Wang Fan a knife split out, bright knife awn twinkle, directly toward the handsome man to kill in the past.

When the handsome man saw Wang Fan sweeping, he felt the violent killing power and his face changed greatly.

He waved the purple dagger in his hand and started to retreat while resisting Wang Fan.

Wang Fan's knife is too terrible. He plans to avoid it first.

However, when he retreated, he let the other four out.

Wang Fan didn't hesitate at all. The shadow knife suddenly turned to the left man.

The man on the left was not as fast as the handsome man. His eyes were frightened and he wanted to retreat, but he had no time at all. He could only hastily raise the purple dagger to resist.

When!

With a loud noise, the shadow knife frantically cleaved on the purple dagger. The man only felt a fierce force coming, and the dagger in his hand had been picked up.

"Gang Lei Quan!" At this time, Wang Fan suddenly roared, clenched his left fist, and hit his chest as fast as lightning.

Boom!

It was like a mountain collision, and the force of wild beast blew into his body. With a click, his muscles and bones broke instantly, and the whole person flew out.

In the middle of the sky, his face was pale and bloodless in an instant.

Completely abandoned!

At this time, the other three people have attacked, one holding a purple dagger, crazy stab to Wang Fan's head. The rest of the two, is the fist leg attack, crazy to Wang Fan waist rib and chest.

Cooperate tacit understanding!

Wang Fan felt this scene, his head suddenly deviated.

Whoosh!

The sharp dagger flew past Wang Fan's earlobe and raised a thread of blood.

At the same time, Wang Fan's body turns inconceivably, and the shadow knife suddenly cuts the right leg that kicks his chest.

Whoa!

There was another loud noise. The man's right leg had not been kicked on Wang Fan, and he had not had time to take it back. He had already been split in an instant.

His right leg was cut to the ground, and his mouth also gave out a shrill howl.

Bang!

There was another sound. The other man's fist, which roared to Wang Fan's waist, also fell on Wang Fan's chest because of Wang Fan's twisting.

Whoa!

A mouthful of blood rushed out, and Wang Fan flew back with the same spurt of blood.

Whoosh!

At this time, the handsome man who just started to retreat had rushed forward. The purple dagger rose in the wind and stabbed Wang Fan's heart.

He was like a snake lurking in the dark, leaping out in an instant, as fast as lightning, issued a fatal blow.

Wang Fan felt this scene and his face became ugly for the first time. He wiped the floor with the soles of his feet, retreated wildly, and raised the shadow knife horizontally.

With a local sound, the sharp dagger stabbed at the shadow knife. The huge force directly drove Wang Fanzhen away.

The sole of his foot rubbed against the ground and stepped back more than ten meters before he could stabilize himself.

The five earth realm and six layers of experts besieged, even Wang Fan, all seemed very choking.

After all, these five six levels of the earth are all the six levels of the earth that have experienced countless battles in Yuanmen. It is needless to say that they are powerful.

If it is single to single, Wang fan can easily win, but one to five, plus the other side with such a tacit understanding, he appears a bit embarrassed.

When the handsome man saw that Wang Fan had not been killed, there was a flash of surprise in his eyes, but he soon recovered.

"Death He a low roar, again crazy toward Wang Fan attack.

The purple dagger in his hand increased by more than one meter strangely. The faint light flashed and set off all kinds of purple cold awns. He went crazy to kill Wang Fan.

Wang Fan's face suddenly changed and roared. The cloud splitting sword technique was used again, and the white awn of the sword was surging up.

Boom!

The loud noise came out, the bright purple awn was torn, and the violent spirit was agitated on the handsome man, and he was immediately picked out. Just at this time, the other two injured young people have arrived, Li dagger surging, stabbing Wang Fan hard.

As soon as Wang Fan's face coagulated, his right leg suddenly turned, and he kicked one of them severely, which made him vomit blood.

However, the other man's dagger was put into Wang Fan's chest with a hissing sound.

Blood gushed.

Feel the pain, Wang Fan angry, completely angry!

"Death He roared wildly, and directly rushed to the man who hurt him.

With the shadow knife waving, the air was split and sniffed, and the trees around them were torn and swayed by the fury, and the branches and leaves were falling like withering.

The man felt Wang Fan's violent killing intention, his face changed wildly, and he retreated again and again.

However, his speed is not as fast as Wang Fan.

Moreover, the handsome man and another companion had no time to save him.

Hiss, hiss, hiss.

Several sounds came out. Soon, dozens of wounds were cut out of his body. Finally, his throat was cut off and he fell to the ground!

"Ah Handsome man's eyes have been more scarlet, a line of six people, two dead two seriously injured, this price is too big!

He madly urged the aura in his body, desperate to fight Wang Fan.

Only this time, he did not attack Wang Fan, but madly attacked the cold green clothes behind Wang Fan.

He tried to use hanqingyi to contain Wang Fan, and then found a chance to kill him with one blow. His scheming was vicious and cruel.

Wang Fan looked at this scene, furious!

He directly put away the shadow knife, and his hands turned into magic. The seal of climbing over the

mountain condensed out, and then exploded out in an instant.

Boom!

A loud noise, in the handsome man's startled expression, the mountain seal slammed on him.

In a flash, he was bombed into nothingness.

Looking at this scene, the face of the man who was seriously injured at the beginning, the man who had his leg cut off, and the last man who was not seriously injured changed.

It's amazing!

They did not expect that the strength of Wang Fan, who was on the sixth floor of the territory, would be so amazing. With one against five, he had achieved such a strong record.

The most important thing is to kill their boss.

Terror!

It's terrible!

You know, with their strength, even the general seven or even eight levels of the territory, they can only escape.

For a moment, they could not help but tremble and sweat.

Chapter 1526

"I have nothing to do with you, but you want to rob me. Now you are killed. You are to blame. No wonder I am."

Wang Fan looked coldly at the three men and killed them without any nonsense.

He didn't have the slightest softness, let alone any pity.

In this world of the jungle, you have no strength, that is fish, to be slaughtered.

Wang Fan believes that if he fails, these six people will never let him go.

"Elder martial brother, spare my life." When the three saw Wang Fan coming, they were frightened and begged for mercy.

Unfortunately, Wang Fan didn't give them a chance at all. The shadow knife waved out. Just in an instant, the three had been killed completely.

Wang Fan took no time to put away their packages and storage bags, and then quickly left here.

At this time, Wang Fan, who was walking through the mountains, did not know that his reputation had spread in Tianyun kingdom.

Dan Taiming, the first Guardian elder of jijianmen, was killed, and jijianmen was weak due to civil strife. What a sensational event, and how could it hide from those big families and the royal family?

Once the news came out, the whole Tianyun kingdom was a complete sensation.

After all, jijianmen is the top ten gate of Tianyun Kingdom, and dantaiming is the super power of Tianjing.

How can such a thing not be a sensation?

After investigation, they found out that it was because of a young man named Wang Fan.

It is said that Wang Fan, less than two months after entering the gate of Yuan Dynasty, went from the eighth level to the fifth level.

It is said that Wang Fan, when he first entered jijianmen, defeated Yuan Hong and ascended the throne of the first man.

It is said that Wang Fan, as a disciple of the miscellaneous service, fought hard against two of the top 50 disciples of the inner gate, and finally achieved a remarkable achievement of one death and one abolition.

It is said that Wang Fan, on the battlefield, killed Tianjiao and dantaitian of jijianmen.

In short, Wang Fan's various deeds have been dug out, causing the attention and attention of the major departments.

Of course, these are nothing. The most important thing is that Wang Fan, together with two mysterious people, killed Dan Taiming on the second floor of Tianjing!

You know, Wang Fan only has five levels of strength. How did he do it?

It's the pride of heaven, but that's all.

For a time, Wang Fan's reputation was greatly improved.

The major families also sent out elders and excellent children to find Wang Fan and try to recruit him.

You know, any genius is highly valued. Every major branch, family, even royal family, of course, also needs genius.

Wang Fan has already been called a peerless genius. They believe that if he is trained, Wang Fan will not be inferior to the young Tianjiao at the top of the Empire.

However, after several days of investigation and search, the major departments found that Wang Fan was missing. As if it had evaporated from the world, it had disappeared without a trace.

They only know that the last place where Wang Fan appeared was Jijian City, but after that, no one knows where Wang Fan went.

Maybe it was hiding, or maybe it was caught and imprisoned by the strong men of the extreme sword gate. In a word, there was no one left.

The imperial capital, the towering palace.

A man in a hurry, ran to the depths of a hall.

Facing this man, the imperial guards didn't mean to intercept him. They didn't even ask more questions and let him go directly.

From this we can see the position of this man in the palace.

The man soon came to a magnificent courtyard and knocked on the door.

"Come in." A slightly cold voice came out, and the man pushed the door in.

Just at the moment of pushing the door, his expression became extremely respectful.

In the courtyard, there was a man in a golden robe.

The man is in his thirties. His eyebrows are erect and his face is like a knife. His body is full of domineering and cold air, which is frightening.

He just sat there, motionless, but dignified. No one dared to underestimate him.

The gold robed man slowly raised his head, looked at the man who entered, and asked, "Nie Zhong, why are you so anxious to come here?"

Nie Zhong bowed slightly and said respectfully, "Your Highness, there is a gifted disciple named Wang Fan in the extreme sword gate."

"It is said that this man came from the outside world. He entered Yuanmen in less than two months, but

his strength broke through from the eighth floor to the fifth floor of Dijing."

"In particular, a few days ago, he even combined with two mysterious people to design and kill Dan Taiming."

Nie Zhong is concise and to the point. He directly chooses the most important one.

On the one hand, he pointed out Wang Fan's cultivation speed; on the other hand, he pointed out Wang Fan's terrible achievements. As for other things, he did not mention a word.

"From the outside?" The man's face, known as his highness, immediately changed, and a cold light flashed in his eyes. "Is it Ye Nantian's person?" As soon as Ye Nantian's three words came out, Nie Zhong's face changed in an instant, and he looked very scared.

He bowed his head and said, "this subordinate is not clear. It's just that the subordinate has investigated Wang Fan's background and is very innocent. It seems that it has nothing to do with him."

Hearing this, the man in the golden robe sneered, "is it irrelevant? Is it possible? Who is Ye Nantian? With his ability, do something, you can find out? "

With a big wave of his hand, he directly ordered, "no matter whether this Wang fan is a person of Ye Nantian or not, he must not be allowed to come to the imperial city alive."

It's killing!

"Yes Nie Zhong didn't dare to say more, respectfully agreed, and then withdrew.

His original intention is to see if he can attract Wang Fan, but he didn't expect it to be such a result.

On the day the man in the golden robe gave the order, countless masters left the palace quietly in groups and rushed to the location of the extreme sword gate.

.....

Wang Fan didn't know that he was missed, and the royal family sent out countless people.

At this time, he is still running in the mountains.

After killing six beautiful men, Wang Fan gained a lot. On the six men alone, there are more than 200000 high-quality spirit stones and hundreds of Pearl grass.

You know, more than 200000 high-quality spirit stones are a huge fortune.

Think about it. At the beginning, Dan Taiming threw out 100000 high-quality spirit stones, which already

made countless people envious. We can imagine what a huge fortune these 200000 high-quality spirit stones are.

If he had not been in a hurry to cure hanqingyi, Wang Fan would have been unable to stop for a long time.

Two days later, Wang Fan has gone through the deep mountains to the periphery. As long as he passes through three more cities, he can reach his destination, dark cloud city.

In these two days, Wang Fan's understanding of cloud splitting Sabre technique has been deepened, and his mastery of ganglei fist and Fanshan seal has become more skillful.

As for monsters, he killed more than a hundred.

At this time, his clothes had been completely cut, his whole body was bloodstained, and the fierce and bloody smell was diffused out, which made people dare not underestimate.

"Drive, drive... Drive"

the sound of a horse suddenly came. Wang Fan looked up and immediately saw two carriages running out of a mountain road from afar.

One of the two carriages was obviously manned, while the other was obviously carrying goods and materials.

Around the carriage, there were more than 30 guards. These guards, with high strength, have reached four or five levels of the territory, while those with low strength have only one level of the territory.

Looking at the decoration of the carriage, the owner of the carriage was obviously not too rich, but it was pretty good.

Chapter 1527

When Wang fan saw the carriage, his eyes lit up and he ran quickly.

Although he didn't feel anything after walking through the mountains for such a long time, hanqingyi was still very tired.

If you can take a ride in these people's carriages, not only can he calm down to practice, but even Han Qingyi will be less tired.

"What are you going to do?" Those carriage guards saw that Wang Fan ran quickly, and immediately stopped moving forward. One of the guards said to Wang Fan with alert face.

Although he didn't realize Wang Fan's strength, he could feel that Wang Fan was very unusual.

What's more, Wang Fan's ability to cross the mountains with his bare hands in cold green clothes is enough to attract his attention.

You know, without strong strength or self-confidence in your own strength, you dare not cross the mountains at all.

"Brother, we have no malice, but my friend is injured and wants to take a ride in your carriage."

"Don't worry, we just need to make room for two people in the carriage behind to store materials. I can pay for your spirit stone."

Wang Fan said as friendly and kind as he could, and took out a thousand Chinese spirit stones directly from the storage bag.

Zhongpin Lingshi is the general Lingshi of the strong men in Yuan Dynasty. Generally speaking, whether you buy cultivation resources or other things, you pay with Zhongpin Lingshi.

Of course, for ordinary people, their common currency is gold, silver, copper and coins, because even if they buy things, they also buy ordinary things.

The guard immediately became embarrassed when he heard Wang Fan's words.

Because of this, he can't be the master.

"You wait. I'll ask for instructions." He said with a calm face, and then immediately walked towards the carriage ahead.

If he didn't realize that Wang Fan was not simple, he didn't care about Wang Fan at all, so he just went away.

Only when he realized that Wang Fan was not easy to be provoked, and that Wang Fan did not show hostility, he did not want to make trouble.

In front of the carriage, there was a man and a woman. The woman was in her thirties. She looked very kind, but she had a touch of aristocratic atmosphere.

The man, however, was only seventeen or eighteen years old. He seemed to be honest and upright, without any domineering or arrogance at all.

"Sister, that woman is unconscious. It looks like she has been seriously injured. Let's give them a ride on the way. I don't think it's so coincidental that they are arranged by that vicious woman, are they

The 17-year-old man opened the curtain, took a look at Wang Fan, and then said to the 30-year-old

woman seriously.

"Well." The woman also looked at Wang Fan and nodded, "take them by the way."

She looked at the guard, "but don't let down your guard and watch out for them. If they are really the people she sent, they will be in trouble. "

"Yes, young master and young lady." The guard answered respectfully, and then immediately returned to Wang Fan.

"Our young lady has promised to give you a ride, but you should be honest and don't make any noise."

"Although we have reached the periphery of the mountains, there are still many dangers. If we are not careful, we will attract powerful monsters and robbers."

The guard said to Wang Fan.

"Don't worry, I won't cause you any trouble." Wang Fan said, he handed over the stone and asked, "by the way, brother, where are you going? I'll go to the dark cloud city in front of you."

The guard glanced at Wang Fan faintly, "we don't go to dark cloud city, we only go to saile city in front of us, so we can only take you to saile city at most."

"Oh, well, sailor city is OK. Thank you all the same." Wang Fan said, carrying cold green clothes on the carriage.

The carriage was full of sealed boxes, but the boxes were sealed, and nothing could be seen inside.

Although Wang Fan could see the contents of these boxes with his mental strength, he did not.

He didn't want to think about these things. Why should he check what's in other people's boxes?

After Wang Fan sat down, he took a long breath, and then put the cold green clothes beside him.

Han Qingyi was still in a coma, his breath was weak, but his face was much better than before, which made Wang Fan feel relieved.

He didn't talk nonsense either. He took out some spirit stones and began to practice under the condition of not causing strong movement as far as possible.

The guards were greatly relieved to see that there was no movement after Wang Fan entered the carriage.

Of course, they still haven't completely relaxed their vigilance.

Another two days passed quickly. Since then, it has been calm and nothing happened.

Wang Fan also stayed in the carriage to practice, and didn't come out at all. Countless Linghua powder, his strength is also slowly improving.

On this day, Wang Fan was practicing, and suddenly -

boom! Boom! Boom!

A violent sound came out, and the earth seemed to tremble, and the harsh roar sounded in everyone's earlobes.

Looking up, I saw that at least no less than 100 cavalry, arrogantly stepping on the horse, the sound of horse hooves rolling, sounded countless dust, smoke filled.

Each of these riders was dressed in ordinary equine clothes, but their momentum was fierce and fierce, and they were full of strong hostility.

Obviously, they are all the people who have experienced bloodbath. They are powerful and domineering!

"No, it's a horse thief!"

"Brothers, be on guard, protect young master and young lady!"

The guards looked at the nearly one hundred steeds, their faces changed in an instant, and a line of guards closely protected the carriage in front of them behind them, and they were on guard.

The smoke and dust billowed, and the Centaur soon stopped five or six meters ahead, and dispersed, fanning out a line of guards and two carriages.

The head of the cavalry is a flat headed man in his thirties. His upper body is almost naked, and his explosive muscles are just like iron juice. Those two strong arms are like King Kong, indestructible.

Under him, he was wearing a pair of Capris. He was dressed like a wild man. He looked as fierce as a wild animal, giving people a kind of unspeakable heavy oppression.

He slightly probes his head, glances at the escorts, and says arrogantly, "ha ha, I finally meet the fat fish. If you don't want to die, roll down!"

His voice is rolling like thunder, exploding in this space, full of momentum!

Listening to the leader's voice, the guard's face became ugly in an instant. He bit his teeth and said, "big

brother, harmony makes money, harmony makes money."

"Don't you just want money? As long as we can afford it, we will never frown."

He can feel the strength of these cavalries. If they fight, their 20 or 30 bodyguards will never be able to win.

It's just that he couldn't figure out when such a large-scale horse bandit would appear in such a place and outside the mountain range?

"Peace makes money? Ha ha The leader of the cavalry laughed, "well, it's a buy it now price. How about ten thousand top grade spirit stones?"

Chapter 1528

Ten thousand top quality stone?

Listening to this, not only the guard leader's face changed, but also Wang Fan's face became shocked.

You know, ten thousand high-quality spirit stones are already a huge fortune. Even the elders of jijianmen don't necessarily have ten thousand high-quality spirit stones.

This group of cavalry is obviously in the lion's mouth!

"Big brother, are there too many ten thousand high-quality spirit stones. If you like, we can take out ten thousand pieces of stone. "

The head of the guard's face changed for a while, and then said, biting his teeth.

As a matter of fact, there are many ten thousand pieces of soul stones for the younger brothers and sisters on the carriage.

If it wasn't for the strength of these iron cavalry in front of them, and the number of them was too large, they were not willing to take them out at all.

"Ten thousand medium grade stone?" The cavalry leader laughed, his eyes suddenly cold, "you send the beggar? You don't want to ask. Is Stuart the one who is short of the ten thousand medium quality stone? "

Then, without waiting for the leader of the guard to speak, he could not help frowning. "By the way, I just asked the people on the carriage to come down. Why haven't they come down yet? Is it difficult for me, Stuart, to speak well? "

In front of the carriage, the sister and brother were a little pale.

They didn't expect that they would meet such a domineering one hundred person cavalry here.

"Sister, what shall we do? Shall we go down?" The seventeen or eighteen year old boy turned pale.

He is just a young master of a small town in the countryside. He grew up in a small town and has never experienced such a situation.

But his sister, though pale, was generally calm. "Dill, you're in the car. Don't go down. I'll go down and see what's going on."

Sister said, directly opened the curtain, walked out of the carriage.

The head of the cavalry could not help but brighten his eyes when he saw the woman, but he soon returned to normal.

"Haha, I didn't expect that there was a nice woman who could take back to be my aunt."

He grinned, and suddenly his eyes glared, "what about the other kid, why doesn't he come down? And those two guys in the carriage behind, are you waiting for me, Stuart, to ask you to come down

Wang Fan listened to this, his eyes couldn't help squinting.

How did the cavalry leader know that there were two people in his carriage, and how did he know that in the carriage in front of him, besides the woman in her thirties, there was a boy of seventeen or eighteen?

Is it difficult for this person to use his mental energy to investigate?

Wang Fan was shocked.

It's been a while since he came to Yuanmen, but he clearly knows that it's not the ordinary people who can do it by using mental power.

It's as strong as the elder of jijianmen. Even though he can't use his mental strength to investigate, how can this iron cavalry leader have that ability?

However, if the head of the iron cavalry didn't find it with his mental strength, how did he know?

You know, Wang Fan's breath is completely reserved. He believes that the strength of the leader of the cavalry is not enough to detect his existence.

If Wang Fan thinks about it.

"This leader, I think you are intercepting us just for the sake of money. Otherwise, I'll give you 20000

Zhongpin Lingshi. How about letting us go?"

"Although we don't have as many people as you, we are not your opponent. But I believe that if we really fight, you will at least kill some people. "

"I think you don't want to see your subordinates suffer casualties. In that case, why don't you step back?"

That sensitive more than 30 years old woman stiff scalp walked to front, looking at that iron horse chief to say.

Although she has been forced to calm down, but Wang Fan still found that her forehead, neck, has exuded a subtle sweat.

"Ha ha!" But the leader of the cavalry laughed, "it's really a toast! It seems that you really take my Stuart's words for granted! "

Stuart laughs wildly, jumps down from the horse suddenly, then grabs Luo Yan with a big hand!

"Miss protection!"

"Kill

Looking at this scene, the head of the guard's face suddenly changed. He grabbed a wide knife, jumped forward, and chopped at the head of the cavalry!

Wide knife tears the air, whistling wind resounds, obviously he has done his best!

"To die!" The leader of the cavalry sneered, and his huge body suddenly turned around. He directly avoided the wide knife split by the leader of the guard, and kicked out with one foot!

The powerful and heavy foot, like a steel whip, lifted infinite force, and immediately threw it on the bodyguard leader's waist.

Boom!

With a loud noise, the guard leader's face suddenly turned white and spewed out a few mouthfuls of blood. He immediately flew out madly. He was not the enemy of the iron cavalry leader!WOW!

The leader of the guard who was kicked away knocked over three guards in a row, and then hit the carriage where the woman was.

The carriage had been smashed apart in an instant, revealing the gaping Lodi.

The head of the cavalry saw Lodi with a flash in his eyes, and immediately said, "kill me! Except for that woman, none of them

He roared, nearly a hundred cavalry instant action, iron hooves on the ground, set off a roaring sound, crazy toward those guards rushed in the past.

The earth trembles, the space roars, and the nearly one hundred steeds are like a torrent, surging and unstoppable!

"Brother, be careful!" Luo Yan looks at this scene, the facial expression completely changed, exhausted hisses in the end toward younger brother Luo Di shrieked.

The faces of the guards were equally ugly.

"Miss, young master, you go quickly!"

"Fight with these dog days!"

They all roared crazily, pulled out their swords, and rushed forward to fight with the cavalry.

But at this time, the change happened in vain!

Whoosh!

Just listening to a slight sound, a sharp blade with a length of nearly 100 Zhang suddenly appeared out of thin air, and set off a violent killing power, and cut down toward the hundred iron cavalry.

This sudden scene made everyone's face crazy.

The nearly one hundred riders turned pale in an instant!

They want to back off, but the horses are rushing forward too fast. Where can they be in time?

Hiss, hiss, hiss!

Guanghua flash, nearly 100 Zhang long blade crazy split in the body of those cavalry, in an instant, the horse fell to the ground, people turned upside down!

Countless horses were torn, and the people on the horse's back were also not spared. The blood gushed wildly.

One knife, more than half of the cavalry has been killed.

The head of the cavalry, with his quick reaction, jumped up from the horse's back at the first time and

dodged, so that he could avoid the knife.

He looked at more than half of the fallen subordinates, and his face became gloomy in an instant.
"Unexpectedly, there are still experts among you."

"But, isn't it shameless to use such mean means? Why don't you come out and see what it's like to hide your head and show your tail? "

His eyes fixed on Wang Fan's carriage, and there was a dignified flash in his eyes.

With a single knife, he can defeat so many of his subordinates. The opponent's strength is at least six levels or even higher.

Others may not have found out where the awn came from, but he was very clear that the violent sword was sent out from the carriage behind which the materials were stored.

Listening to the words of the leader of the cavalry, the faces of the guards and the brothers and sisters all changed.

They all looked at the carriage where Wang Fan was.

Wang Fan, the one they brought along, is so terrible and powerful?

Shock!

Incredible!

Chapter 1529

"Ah, I just want to practice for a period of time and catch up with the road. Why is it so difficult?"

Wang Fan sighed and came down from the carriage with cold green clothes on his back. He looked at the leader of the iron horse and waved impatiently,

"go away, I don't want to kill you and I don't want to embarrass you. You'd better disappear before I change my mind."

Wang Fan also has some helplessness.

He felt that there was something fishy in it. It seemed that these iron knights were specially for the brothers and sisters.

To tell the truth, Wang Fan didn't want to meddle.

It's just that he took someone else's carriage, but now he encounters this kind of thing again. It's really

impossible for him to stand idly by.

Moreover, he can see clearly the strength of these cavalry.

The cavalry leader has the strength of the five levels of the earth. Most of the others are in the third level of the earth. Only five people have the strength of the fourth level of the earth.

This kind of strength has no threat to Wang Fan at all. He doesn't even have the interest to do it.

Compared with the six handsome men he met deep in the mountains, these horses were far from perfect.

The head of the cavalry immediately changed his face when he listened to Wang Fan's words, and endless anger appeared in his eyes, but he soon suppressed it.

He waved to Wang Fan, "brother, can you take a step to talk?"

Obviously, he wants to talk to Wang Fan about some conditions.

The brothers and sisters and the guards changed their faces immediately when they heard what the leader said.

What's the meaning of the head of the cavalry? Why do you want to talk to Wang Fan? What can he say that they can't hear?

However, Wang fan is not one of them, and they are not familiar with Wang Fan, so they can only worry, but they can't stop it.

But Wang Fan's face changed, "why, didn't you understand what I said? I told you to go away, didn't you hear me? "

Wang Fan was a little impatient, and said, with a bang, his momentum suddenly erupted, "I'll say one last word, get out of here and disappear immediately, otherwise don't blame me for being impolite!"

His voice is overbearing and cold, there is no room for negotiation!

Joke!

Wang fan is not interested in talking with the leader of the iron cavalry.

The head of the cavalry felt Wang Fan's momentum, and his face suddenly changed, "do you really want to be our enemy? You will regret it

"Noisy!" Wang Fan's eyes were cold, and he cut it directly. The bright light flashed, and he directly

shrouded the leader of the cavalry.

The head of the cavalry's face changed greatly and suddenly retreated, but it was still slow. The sharp blade cut his chest directly and made a deep scar.

Blood fog flying!

This is because of Wang Fan's mercy. Otherwise, his knife will be enough to kill the leader of the cavalry.

"Let's go!" The head of the cavalry feels the stabbing pain in his chest. He looks at Luo Yan's sister and brother reluctantly, and finally has no choice but to leave.

He has no way, because before Wang Fan's knife, he has realized that even if they are together, they will not be Wang Fan's opponent.

So, they can only retreat!

Soon, those lucky to save the life of the cavalry will leave quickly, disappeared without a trace.

Looking at this scene, whether it is Luo Yan sister or brother, or those guards, can not help but completely relieved.

Their eyes to Wang Fan were filled with gratitude and awe.

If not for Wang Fan, they would all die.

It was because of Wang fan that they were able to survive without any casualties.

Luo Yan sister and brother looked at Wang Fan, and then came over with a stiff head. Luo Yan lowered her head and said seriously, "thank you, thank you."

Wang Fan waved his hand, "don't be polite. It's just a matter of hand lifting."

Roddy's eyes glowed. "Brother, are you a disciple of those big schools? I think you must be a core disciple, and only those core disciples of the big sect can have your strength. "

Originally, Luodi did not dare to talk to Wang fan like this. Only when he saw that Wang Fan had no airs and was very polite, did he have courage.

In Lodi's rebellious age of seventeen or eighteen, which man doesn't worship the strong?

Hot blooded man, you should stand up!

"The core disciple of Da Da sect?" Wang Fan listened to these words, can't help but smile, but there is no

words.

He is just a casual practitioner now. What about the core disciple?

The leader of the guard who had been attacked came over and said gratefully, "thank you very much. If it wasn't for you, I'm afraid we would all be finished. I'm afraid the young master and the young lady would not be spared."

He showed more respect for Wang Fan, because he knew that in Yuanmen, the rank was very strict. The weak dare not disrespect the strong. The strong can kill you for no reason. "You're welcome." Wang Fan smiles and shakes his head. He looked at the destroyed carriage and was about to leave, but Luo Yan couldn't help saying,

"brother, can you escort us for a while? Don't worry, just escort us to the city of sailor in front of us. I can pay your commission. "

Luo Yan said, summoning courage, looked up to Wang Fan, that watery eyes full of expectations and careful.

Wang Fan originally wanted to refuse, but looking at Luo Yan's expectant eyes, he didn't give up, so he could only nod, "OK."

He couldn't help laughing. Before, he asked the other party to give him a lift, and then said that he could pay for it.

Now it's a good thing that the identities of both sides are reversed. The other side even wants him to protect him and pay him a commission.

"Thank you so much for that town, tahong. Take 20000 pieces of Zhongpin Lingshi." Luo Yan was greatly relieved, and then quickly said to the leader of the guard.

Although she is very kind, she is not a fool. She has already sensed that something is wrong with those iron riders before, and at the same time, she has realized the real danger.

Although twenty thousand Zhongpin Lingshi is a bone breaking stone for her, she doesn't care about it in order to protect her life.

Tahong was the leader of the guard. Without a word of nonsense, he took out twenty thousand spirit stones.

Wang Fan shook his head, "Lingshi is not needed. I should take your carriage and protect you. Well, it's getting late. Let's go

"How can I do that?" Luo Yan is a little unwilling, but was interrupted by Wang Fan, "I said no, no, if you

insist on me, then I'll go by myself."

Luo Yan listens to this words, immediately dare not say again what.

The guards cleaned up the materials on the carriage to make enough space, and then the four of Wang Fan got on the carriage.

As they walked, they chatted.

Through chatting, Wang fancai knows that these Luoyan brothers and sisters are all from the Luo family of saile City, and their father Luomeng is the Lord of saile city.

Just because their mother was born poor and had no background, a few years ago, the family was driven out of sailor city by the domineering and powerful big lady, and then they shrank into a small town.

Originally, they thought that they would never have a chance to go back to sailor city in their life, but they did not expect that some time ago, Lomon's other son suddenly offended a cruel man and was killed.

This time, Lomon had only one son, Roddy. So he sent Lodi to sailor city and planned to train him.

Chapter 1530

As for Lomon's order, the Lodi brothers and sisters naturally did not dare to disobey it. Moreover, their mother was driven out of the family by the eldest lady, and they could not swallow it until she died, so they went to sailor city.

Although they are simple, they are not stupid. They also think that there will be a crisis on the way. Maybe the eldest lady will send someone to attack them.

Only when they were more comfortable and didn't encounter much danger along the way, they relaxed their vigilance.

If they met the cavalry in the depth of the mountains, they might not doubt it. But when they met the cavalry of nearly 100 people outside the mountains, they all doubted it. I suspect the other party is sent by the first lady.

Wang Fan listened to this sister and brother's story and sighed slightly in his heart.

Family fighting has always been bloody and cruel. It's the same outside, but Yuanmen is still the same.

"Elder brother, I'm worried that those iron cavalry are sent by the eldest lady. I'm worried that she will send follow-up men and horses, so please help me."

"But you can rest assured that if you encounter an enemy stronger than you, you don't have to worry

about us any more, just leave."

Luo Yan toward Wang Fan slightly with supplication said.

Wang fan can promise to escort them, she has been very grateful, she naturally will not force Wang Fan desperately.

"Since I have promised to protect you, I will try my best to protect you. But for the sake of safety, I suggest we change the route

Wang Fan said to Luo Yan.

"Well." Luo Yan nodded, and then summoned the guard leader to arrange.

Wang fan is closed his eyes, mental power swept to everyone present, he wants to see who has a problem.

But soon, Wang Fan was disappointed because everyone's performance was normal and he didn't find any problems.

"Is my guess wrong? There are no spies among these people?" Wang Fan muttered to himself, but he didn't think much about it.

Of course, it is impossible for him to relax his vigilance. His mental strength is still checking everyone on the scene.

After all, whether someone attacked him or not is also related to Wang Fan's security.

"By the way, brother, a big event happened in Tianyun recently, do you know?" At one moment, Luo Di suddenly asked Wang Fan.

Wang Fan was stunned for a moment and immediately shook his head. "I've been training in the mountains recently. I really don't know what's going on. Please tell me."

Luo Di listened to Wang Fan's words, immediately appeared a little excited, very excited, "you must have heard of jijianmen? Extremely sword door, unexpectedly produced a peerless evil genius

"It's said that this genius not only killed Dan Taitian, the super genius of jijianmen, but also killed Dan Taiming, the powerful man of Tianjing, with two mysterious men."

"This matter has caused a sensation recently. It is said that many large schools have sent elder disciples to look for this peerless genius."

While talking, Roddy's face turned red and his eyes were full of admiration. He seemed to envy the

genius.

Wang Fan listens to this words, in the heart suddenly clap Deng for a while, but the surface is silent, "Oh, yes, I really haven't heard of this."

"By the way, who is this genius? Why is he so powerful? I think his own background must not be low."

Wang Fan felt numb on his scalp.

It's not a good thing that he became famous in Tianyun kingdom.

"I don't know his name, but I've heard that he doesn't seem to be from Yuanmen. He comes from the mysterious outside world."

Said Roddy, frowning.

"Oh." Wang Fan nodded and asked no more questions.

But he felt a sense of crisis in his heart. Many sects sent their elders and disciples to look for themselves. This is not a good thing.

What's the attitude of the Royal Nie family? They have heard about their deeds. Has anyone sent experts to find and deal with them?

Wang Fan thought, more efforts to cultivate up.

In this man eating yuan gate, there is no strong strength. He really has no sense of security.

Just, Wang Fan practiced not long, suddenly opened his eyes.

Because of his mental power, the old man driving the carriage suddenly appeared a strange stone in his right hand hidden in his sleeve.

His palm just moved gently on the stone twice, and a faint strange smell floated out quietly.

This breath is so weak that most people can't notice it. Even if Wang Fan didn't find the old man's action, he probably won't notice it.

Looking at this scene, Wang Fan immediately became alert. He was sure that the old man was mostly the person of the big lady.

But he didn't understand how this faint breath could inform the eldest lady.

But soon, Wang Fan understood.

Because the breath spread out not long ago, there was a very common bird call in the sky, a bird about the size of a palm circled twice over their heads, and then flew to the distance quickly. Of course, there are birds in the air. Naturally, the guards won't care, so they didn't pay attention at all.

In an open place dozens of miles away from Wang Fan and his party, there are 70 or 80 people.

More than 50 of these 70 or 80 were the leader of the cavalry who had been spared his life by Wang Fan.

At this time, the cavalry leader and his party were respectfully looking at the other twenty people, looking very awed.

The more than 20 people, also dressed in ordinary clothes, looked no different from the leader of the cavalry. But their breath was much stronger than that of the leader of the cavalry.

Especially the red headed man, the breath is more powerful, can not be underestimated.

"You say, there is a strong master among them? A knife will kill more than 50 of you? "

At this time, the man with red hair was asking the leader of the cavalry.

"Yes, I don't know where the brothers and sisters found such an expert guard. According to the previous information, we were able to finish the task and kill the brothers and sisters. "

"But the appearance of that mysterious master directly broke our plan."

The cavalry leader said slightly.

"Since the intelligence didn't show it, it means that the man should have been with them later."

"If you can kill more than 50 people with one knife, I'm afraid you should have seven or even eight levels of territory."

The red haired man had just said that, when a sharp bird call came, a bird circled over their heads, and then immediately flew to the distance.

"We've got them. We're moving. At that time, I will find a way to stop the mysterious master. You should seize the opportunity to fight together and kill the brothers and sisters! "

The red haired man's face changed and said quickly.

"Good." The leader of the cavalry nodded, and then the party ran to the distance with the bird.

This red haired man, however, is a strong presence in the eighth floor of the earth. He can also easily kill 50 of them. So with this red haired man, he is confident.

.....

after Wang Fan found out the old man's action, he was already on guard, and his mental power swept out crazily and spread in all directions.

Although the guards were also very vigilant, they were not as vigilant as Wang Fan. While they were on their way, they were still chatting from time to time, and they were not aware of the crisis.
