

## **Mighty Sk 1531**

### **Chapter 1531**

At a certain moment, Wang Fan's face suddenly changed.

He clearly noticed that from 2000 meters away, countless people surrounded him.

Wang Fan felt this scene, suddenly opened his eyes, eyes flashing a touch of cold light.

"What's the matter? Is something wrong?" Luo Yan aware of Wang Fan's face change, immediately became alert, can't help asking.

"There's an enemy coming." Wang Fan said quickly, and ran directly out of the carriage. At the same time, he said to the guards, "stop, everyone be on guard, there is an enemy coming."

"What, an enemy is coming?"

"Where are they?"

When the guards listened to Wang Fan's words, their faces immediately changed. They all stopped their pace, set up their posture, looked dignified and prepared for the attack.

Although they didn't notice the abnormality, they still believed in Wang Fan's words.

After all, Wang Fan has shown great strength before.

The old driver listened to Wang Fan's words, but he couldn't help frowning, but he didn't say anything.

But in the eyes that he looked at Wang Fan's back, there was a sharp kill.

Wang Fan's mental power clearly captures the murderous opportunity in the old man's eyes, sneers in his heart, but he doesn't say much for the time being.

Whoosh.

With the people on guard, soon, they will be clearly aware that 70 or 80 people rushed to this side.

Forty or fifty of the seventy or eighty were the leaders of the cavalry who had been spared by Wang Fan before.

The red haired man at the head saw that Wang Fan and his party had started to be on guard, and his eyes couldn't help flashing a surprise.

What a quick reaction! He noticed their arrival ahead of time. He didn't understand how Wang Fan did

it.

"That's the boy who killed nearly 50 of my subordinates." The cavalry leader followed the red haired man, pointed to Wang Fan and said in a low voice.

"I'll take some people to stop him. You must kill the brothers and sisters as soon as possible." The red haired man nodded, then without half a word of nonsense, he killed Wang Fan and his party crazily.

"Kill

"Kill

Crazy voice resounded, for a time, murderous.

Seventy or eighty people splashed dust under their feet and killed Wang Fan and his party crazily.

In an instant, the breath of their body will be the extreme, the killing rate soared, no half a sentence of nonsense, no half a sentence of procrastination.

Feeling this scene, no matter the Lodi brothers and sisters or the guards, their faces turned pale in an instant, and they were a little scared.

However, thinking of the Lodi brothers and sisters, thinking of their own tasks, they did not shrink back, but crazy drum up momentum, grab weapons to kill the enemy in the past.

"Kill, kill one is enough, kill two is enough!"

"It's you dog days again. I knew you didn't have a good heart. Go to hell with me!"

The roar of anger resounded. For a moment, the light of the sword filled the air, and the two sides soon fought together.

Short soldiers intersect, both sides have been falling, blood.

Just a few breaths, at least no less than ten people fell into the pool of blood.

Wang Fan's face was gloomy and ugly. He wanted to help the guards, but he was stopped by the three men led by the red haired man.

"Your opponent is us!" Red haired man said, boom, breath suddenly burst, red spear in hand a shake, directly toward Wang Fan crazy stab in the past.

The fury of his spirit stirred him up. He was a strong man at the top of the seven levels of the earth!

At the same time, the other two are also a left and a right, holding the sword, crazy attack to Wang Fan, without the slightest softness.

Fierce and decisive!

"Go away!" Wang Fan roared and his body flashed. When he dodged the red haired man's spear, the shadow knife swung out and chopped directly at the other two men.

The cloud splitting Sabre technique is used in an instant. The dazzling shadow of the sabre is diffuse, and the killing power is powerful!

Feeling the fierce killing power, their faces changed in an instant!

But they didn't have time to dodge at all. With two noises, the shadow knife had been slashed on their weapons.

Click, click.

Their weapons were torn in an instant, and the spilled blades were like a hurricane, bombarding them violently.

Whoa!

The bright blood fog shot, they were immediately thrown out, fell to the ground, and died in a flash.

Looking at this scene, the red haired man's face became ugly in an instant.

He didn't expect that Wang Fan would be so powerful. With one knife, he killed his two strongest subordinates.

Aware of the power of Wang Fan, he no longer has the mind to kill Wang Fan, just want to drag Wang Fan.

At this time, the situation of those guards has become more and more severe, nearly 30 people, at least 20 people have fallen down, leaving less than 10 people to support. Of course, those enemies are not so good. They have also fallen 20 or 30 people, but the other side has more people than the other side, so the advantage is obvious.

Luodi brothers and sisters are scared to hide not far away, some shocked looking at this scene, their faces are very pale.

The leader of the guard with two people, just like the iron tower in front of them, is fighting with the enemy.

Wang Fan looked at the cavalry who wantonly slaughtered the guards. His face became cold in an instant, and his figure flashed. He wanted to kill those people.

But at this time, the red haired man is again stopped in front of Wang Fan, "I said, your opponent is me, with me, I will not allow you to participate in their fight."

He stares at Wang Fan with gloomy eyes.

Although he has no absolute assurance to kill Wang Fan, he can stop Wang Fan and prevent Wang Fan from saving the brothers and sisters.

After the red haired man finished speaking to Wang Fan, he roared madly to the leader of the cavalry, "what are you still doing? Don't you kill the brothers and sisters in a hurry?"

Hearing this, the leader of the cavalry was even more crazy. With a sneer, he killed another guard, and then he rushed to the Luodi brothers and sisters.

"You're the big lady's people? You're going to die! "

Luodi brothers and sisters looked at the crazy killing to their own cavalry leader, their faces turned pale in an instant. Roddy couldn't help roaring wildly. He was exhausted!

"How can I die?" The leader of the cavalry grinned ferociously. He took a big step and rushed madly to the Lodi brothers and sisters.

The three guards who guarded the Lodi brothers and sisters all turned ugly.

They are now at the end of a strong crossbow. They are only supported by their will. They are not the opponents of the cavalry leader at all.

All the people on their own side, except the three of them, the Lodi brothers and sisters, the old driver and Wang Fan, have died.

And the most powerful Wang Fan, who was stopped by the red haired man, had no time to stop him.

"Are you really going to die here, young master and young lady?" Their hearts were filled with reluctance.

There, Wang Fan's face is also very gloomy, he coldly looked at the red haired man, "get out of here!"

The red haired man did not move. "You are not related to them. Why do you have to be involved?"

"My goal is to kill their brothers and sisters, and I have no intention of making enemies with you. I promise that as long as we kill them, we will leave immediately, and we will not embarrass you."

## Chapter 1532

At this time, the cavalry leader was less than ten meters away from the Lodi brothers and sisters, and the situation was critical.

"To die!" Wang Fan roared, his right foot suddenly stepped on the ground, and the fierce wind roared. He directly and madly slaughtered the leader of the cavalry.

"Hum!" When the red haired man saw that Wang Fan wanted to kill the leader of the cavalry, he grinned and his figure moved in an instant.

He rushed directly to Wang Fan, whizzing, spear through the air, viciously stabbed at Wang Fan.

"I said that you are not allowed to interfere in their fight with me!" His voice is extremely cold.

Wang Fan gave a grim smile. He didn't want to talk nonsense at all. The shadow knife came out of the scabbard, the bright light flashed, and the violent murderous spirit burst out, and he cut the red haired man hard.

Boom!

A violent sound, red hair man was hit back.

Wang Fan didn't stop at all. His left fist was suddenly raised, and a gang Lei fist followed him.

The roaring sound of thunder and lightning resounded. The red haired man never thought that Wang Fan's attack would come so fast and so crazy.

There was a flicker of fear in his heart, and he could not help retreating.

Just as he retreated, he immediately distanced himself from Wang Fan.

Wang Fan's gang thunder fist roared in the air. The roaring sound came out. The air cracked and the strength of Qi overflowed.

But Wang Fan didn't pay attention to the red haired man any more. He took advantage of the distance between them and killed the leader of the cavalry.

"I've given you a chance before. Since you don't cherish it, go to die." Wang Fan's indifferent voice came out, and the shadow knife had been wielded again.

As soon as the leader of the cavalry killed the three guards, he was planning to kill the Luodi brothers and sisters. Wang Fan's shadow knife had already split over.

His face changed in an instant, and became extremely pale.

If he is not afraid of death, maybe he can fight against the danger of being killed by Wang Fan and continue to kill Luodi.

Unfortunately, he is afraid of death. He doesn't want to die.

So, there was no hesitation at all, he gave up to continue to kill the Lodi brothers and sisters close at hand, and began to escape crazily.

Hoo .....

but even so, one of his arms was still rolled by the shadow knife and directly cut down.

Blood rain flying!

"I spared your lives last time. I didn't expect that you would dare to come. Did you think I didn't dare to kill you?"

Wang Fan sneers and pours forward, kicking out again.

Bang!

His right leg, like a meteorite, hit the head of the cavalry on his chest. With a click, the head of the cavalry burst into blood and flew out with a scream.

People in the air, the fury of the gas has been tearing out his vitality.

Wang Fan didn't stop. He turned around and chopped out again. The frenzied killing power swept away. With a series of blood shooting, a large area of the enemy fell down.

Those who were under the three levels of the earth could not resist Wang Fan's arbitrary knife and fell down and died miserably.

Even those guys on the fourth floor of the territory were still hit hard and flew out.

Only those who have reached the fifth floor of the terrain can get away with minor injuries.

Wang Fan killed dozens of people with just one knife, and his strength is terrifying.

Now, there are less than 20 red haired men standing.

Those 20 people, all Lengleng Leng looking at this scene, no longer dare to start.

Wang Fan's strength has penetrated into their bone marrow, making them dare not act rashly at all.

Red hair man's face is also gloomy and terrible, he could not stop Wang Fan, let Wang Fan save Luodi sister and brother?

He only felt his face burning, extremely stinging.

He looked up at Wang Fan, "do you really want to intervene in this matter? Do you know who we are? If you offend us, are you sure you can afford the consequences? "

"Threaten me?" Wang Fan sneered, he did not continue to speak, but with action, to show his position.

It was another knife. The light flashed, and a nearly 100 Zhang long sword awn was torn out, just like a waterfall, and blasted to less than 20 enemies.

The twenty people's faces changed as they watched the scene.

"Run away!"

I don't know who yelled, they immediately rose up, crazy towards the distance to escape.

However, although they are extremely fast, there are still seven or eight people in the volume, which are directly torn into nothingness.

The red haired man's face was very ugly. He gave Wang Fan a hard look, then suddenly flashed and rushed to the Lodi brothers and sisters.

He came with a task. If he can't finish the task, he can't explain it when he goes back.

Whether he succeeds or not, he has to have a try. Luodi brothers and sisters saw that the red haired man killed them, and their faces turned pale in an instant.

"Brother, help While Luo Yan protects Luo Di behind him, she can't help frantically asking for help from Wang Fan.

"You can't kill them with me." With a roar, Wang Fan's figure suddenly flickered, and directly flashed in front of Luodi's sister and brother. The shadow knife split out at the speed of lightning.

When!

The red haired man's spear, which stabbed Lodi's brother and sister, was blocked by the shadow knife.

"Ah, just a little bit, just a little bit!" When the red haired man saw Wang Fan blocking his spear, he was not reconciled to it.

He looked at Wang Fan crazily, "how can you not stop me from killing them? I'll give you a thousand high-quality spirit stones. Don't get involved in this, OK? "

Red hair man eyes scarlet, crazy toward Wang Fan said.

A thousand top quality spirit stones?

Lodi's face changed in an instant when they heard this.

One top-grade stone is equal to 100 middle-grade stone, and one thousand top-grade stone is equivalent to one hundred thousand middle-grade stone, which is a huge sum of money.

Their hearts are not from the uneasy up, do not know if Wang Fan will heart.

After all, Wang Fan only met them on the way, not the loyal guard of their family.

"A thousand top quality spirit stones?" Wang Fan was slightly stunned and seemed to be moved.

The red haired man was overjoyed, "yes, as long as you don't interfere and leave immediately, I'll give you a thousand top grade spirit stones!"

He seemed to see the hope, the hope of killing the Lodi brothers and sisters.

But soon, his face changed.

Whoosh!

I saw that Wang Fan, who seemed to move, suddenly chopped at him with a knife.

The red haired man was shocked and quickly stepped back to avoid. Even so, he didn't expect that Wang Fan would suddenly start. He was still scratched with a bloodstain.

"What do you mean?" He stares at Wang Fan, and his eyes are splitting.

"What do you mean? Damn, a thousand top-quality spirit stones, do you think I'm a beggar? " Wang Fan eyebrow jump, disdain of roar a, raise a knife then cut.

The red haired man was shocked, resisted twice, and then ran away from here crazily with reluctance.

"You'll regret it, you'll regret it!" However, his crazy voice came back.

Wang Fan sneered, but he didn't care.

Looking at this scene, Lodi's brothers and sisters were relieved. Lodi couldn't help falling to the ground,

pale.

Luo Yan slightly better, came forward and said, "thank you so much, you saved our lives. It's just a pity that they are all dead. "

Her voice is a little sad.

But at this time, an old man who had fallen on the ground and didn't move suddenly got up.

### **Chapter 1533**

"Shi Bo? What are you doing Looking at the old man who suddenly got up, Roddy's sister and brother were all shocked, but soon recovered and ran over in surprise.

They didn't expect that Shi Bo didn't die, which was a big surprise.

Shi Bo is the old housekeeper of their family. It can be said that he watched their sister and brother grow up, just like an elder.

"Young master, young lady, it's very kind of you to be all right. God has eyes. I played dead, too, to escape Shi Bo's old eyes also showed a touch of water mist and said excitedly.

When he finished, he looked at Wang Fan and said, "old man, I'm here to thank you, young Xia. If it wasn't for you, I'm afraid young master and young lady would be..."

Shi Bo's nose is just like a tear. He looks very sad.

Wang Fan looked at Shi Bo's expression with a sneer in his heart and ignored him. Instead, he looked at Luo Yan's sister and brother,

"Luo Yan and Luo Di, you heard what the red haired man said just now. They were not robbers at all, but directly aimed at your sister and brother. Their target is your sister and brother. "

Luo Yan listened to this and nodded with approval, "I know, they must be the people sent by the big lady, because in addition to the doctors, I can't think of anyone who will kill us."

"Our sister and brother have been living in a small town in the countryside. They have never offended anyone."

Roddy also followed, his eyes a little ferocious, two fists clenched tightly, "yes, it must be the person sent by the big lady."

"I didn't expect that the eldest lady would be so vicious and determined to kill our sister and brother."

When Lodi was talking, he couldn't help but think of the moment when the iron horse leader and the

red haired man were desperate to kill them.

If it wasn't for Wang Fan, their sister and brother would have died.

Even Shi Bo followed suit and said, "why did the eldest lady do this? Did she not do enough then?"

"Isn't he afraid to arouse the anger of the Lord of the city? She's so cruel. "

Wang Fan didn't pay attention to Shi Bo at all, but looked at the Luodi brothers and sisters and said again, "have you ever thought that we have been constantly changing the line?"

"It's almost a temporary decision which way to take. Even we can't know in advance."

"But even so, the red haired man and his party found us easily. Don't you think there's something wrong with it? How do they know where we are? "

Listening to Wang Fan's words, Luodi's brothers and sisters were stunned at first, and then began to think deeply.

They are not stupid, after all, this is really too strange.

Shi Bo's heart thumped for a while, but on the surface he was forced to calm down. "I guess they must have sent someone to follow us secretly. We haven't noticed it yet. Otherwise, how can we know our whereabouts?"

He also pointed to the dead guards, "these guards are the most loyal guards in our family. They can't have any problems."

"What's more, they are all dead. If one of them belongs to the eldest lady, how can they die?"

Lodi brothers and sisters can't help but follow, "yes, they sent someone to follow us, but we didn't notice?"

Although they also think of spies, they are not willing to believe that there are spies among their own people emotionally.

Of course, the most important point is that all the guards are dead. It is most disrespectful to regard the guards who died fighting for their brothers and sisters as spies.

"No way." Wang Fan shook his head, "along the way, I have been carefully checking around the trend, I can guarantee that no one will follow us, unless the other side is stronger than me."

"But in that case, we'll all be dead, and there's no way we can survive."

Roddy's face changed when he heard this. "Brother, do you mean there must be spies among us?"

"That's right." Wang Fan nodded, very sure.

"Who is the spy?" Roddy's face couldn't help changing.

No matter the guards or Shi Bo, he is not willing to accept that the other party is a spy.

Wang Fan slowly raised his hand and pointed directly at Shi Bo, "the spy is Shi Bo in your mouth."

As soon as the words came out, the faces of Lodi's brothers and sisters changed.

"Brother, is that impossible?"

"Although Shi Bo is the housekeeper of our family, he is watching us grow up, just like an elder. How can he be a spy?"

Shi Bo's face turned red and glared at Wang Fan, "young Xia, you saved us. We are grateful, but don't spit out blood!"

He roared and looked at the Lodi brothers and sisters, "young master, I, Shi Qingtai, have been working hard for the Luo family for more than 30 years."

"I think my young master and young lady are all clear. But this guy, he said I was a spy, I, speaking of the back, he seems to have been almost speechless, the eyes, only anger, only humiliation!

As if, he was said to be a spy by Wang Fan, is how much humiliation.

"Brother, you must be mistaken. How could Shibo be a spy? He has worked for our family for more than 30 years. He treats us like an elder. He can't be a spy. "

Luo Yan also looks at Wang Fan, some unbelievable says.

Wang Fan listened to this, eyes can't help a squint, "so, you don't believe me?"

"We're not." The Lodi brothers and sisters were speechless for a moment.

If they say they don't believe in Wang Fan, they will certainly offend Wang Fan, and Wang Fan will give up protecting their sister and brother. After all, they don't have such a deep friendship with Wang Fan.

What's more, you don't believe in others. How can they protect you?

But if you believe in Wang Fan, doesn't it mean that you agree with Wang fan that Shi Bo is a spy?

Shi Bo is their elder. In their heart, they really don't believe that Shi Bo is a spy.

Shi Bo listened to Wang Fan's words, but he became more furious. "Young Xia, what do you mean? Do you want to force me to die?"

"You don't want to protect young master and young lady, just go straight away. Why do you wrongly me? Do you think that if we are strong, we can be bloody. We can't live without you? "

"I tell you, it's wrong for you to think like this. Young master and young lady are brave people. Even if they don't need your protection, they won't do me wrong!"

He also snorted angrily, "he said that I am a spy. I think you are a spy. Whether they are the dead guards or the old man, they are all the people of the Luo family. Only you and the woman are on the way

"Before you came, we were calm all the way and there was no danger, but when you came, the danger came. If you are a spy, I think you are a spy! "

Shi Bo is almost exhausted. While he is roaring, he is roaring in his heart: let's go, let's go. It's all because of you that I can't finish my task.

And in Shi Bo's opinion, Wang fan can't accept such a rebuke and accusation and wants to leave.

#### **Chapter 1534**

Luo Yan sister and brother listen to Shi Bo's words, face immediately changed, face is Shua, become completely pale.

Wang Fan, that's a strong man!

Shi Bo so infuriated Wang Fan, forced Wang Fan to leave, no longer protect their brothers and sisters, but it is still a small matter. But if Wang Fan gets angry and starts directly at them, that's a big deal.

Wang Fan's strength is obvious to all, let alone the three of them. Even if all the guards are safe, they can't stop Wang Fan.

But Wang Fan couldn't help laughing, it was a sneer, "you say I'm a spy, you say I'm the man of the big lady? How ridiculous

He looked coldly at Shi Bo, "if I'm really a spy, if I'm really a lady's person, do I still call so many of my own people to die?"

"With my strength, I'm afraid it's not a problem to destroy all of you? Is there something wrong with the big lady's mind, and if she doesn't add to the story, she will let her own people die? "

He looked at Shibo coldly, "it seems that you really don't get into the coffin and don't shed tears. Well, if

you say you are not a spy, dare you let me search you? "

"As long as you don't have anything special to signal, I believe you're not a spy, OK?"

Wang fan knows clearly that there is such a strange stone on Shi Bo's body.

It is the smell of the strange stone that makes the enemy lock their whereabouts.

"Search?" Shi Bo was furious. "Why do you search me? Do you think that if you are strong, you can humiliate others wantonly? "

He said angrily, "Peng" and knelt down in front of Luo Yan's sister and brother, "young master, young lady, you should be the master for me!"

"I've been open and aboveboard all my life. Even if I die, I don't want to be insulted!"

He said, even shed tears again, then angrily looked at Wang Fan, "you kill me, even if I die, I won't be insulted by you, let you search!"

Luo Yan sister and brother originally thought, search your body, as long as nothing can be found, then the matter is over.

But unexpectedly, Shi Bo was so determined that he would rather die than be searched, and he knelt down to them.

"Shibo, get up quickly." As soon as Luo Yan's face changed, she went to help Uncle Shi and cried to Wang Fan, saying, "big brother... Wang fan is also a little angry. What a cunning old fox!

He had seen thick skinned people, but he had never seen Shi Bo so thick skinned.

It's really speechless to meet such people.

If it wasn't for the sake of taking care of Luo Yan's emotion, he would have cut it off. How could there be so much nonsense?

"Since you don't want me to search, I'll search myself!" Wang fan is also a little impatient, said, a direct step toward Shi Bo across the past.

But at this time, Shi Bo quickly grabbed a sharp dagger and stuck it in his throat.

"I said that I would rather die than be humiliated by you, and let you search yourself! If you dare to go one step further, I'll make my own decision! "

He said, wrist suddenly a force, hiss, the flesh was cut a trace, red blood immediately penetrated out.

"Shibo, don't do it." Looking at this scene, Luo Yan sister and brother are face big change, quickly panic stop.

Shi Bo is a snot, a tear, "young master, miss, I'm sorry, I can't take care of you in the future."

"In my life, although I have not made any great achievements, I can be regarded as upright and upright. Even if I die, I will not be insulted! "

He also murmured and laughed wildly, "the strong are respected, and the weak are the law of the jungle. I only hate that I am not the strong!"

Wang Fan looked at Shi Bo's ugly face. He was really angry. He was about to die. He felt that he had killed the old man with one knife, which was not enough to relieve his hatred.

Why is this guy so shameless and cheeky?

How can he say such words?

Wang fan is really too lazy to pay attention to the suicidal Shi Bo, "commit suicide? Well, you can kill yourself. I'd like to see if people like you are really willing to commit suicide. "

He said, as if he hadn't seen Shi Bo's action at all, and strode directly in the past.

"Big brother." Luo Yan's face changed.

They did not expect that Shi Bo was like this, and Wang Fan still insisted on body searching.

Shi Bo's face became ugly in an instant, with tears rolling, "young master, young lady"

Wang Fan sneered, "you don't have to embarrass your young master and young lady any more. I want to search your body, but they can't stop you."

"Don't say I'm sure you're a spy. Even if I'm not sure you're a spy, I just want to search your body and humiliate you with my strength. What can you do?"

"You are right. The strong are respected and the weak are the law of the jungle. Now, I am the strong. You can appoint me!" Shi Bo listened to Wang Fan's words, then looked at Wang Fan, whose face changed completely.

Luo Yan sister and brother are not sure that he is a spy, but he himself is not sure?

His face became ferocious in an instant. Originally, he was still thinking about forcing Wang Fan away, and then killing Luo Yan's sister and brother by himself.

After all, if you kill Luo Yan in front of Wang Fan, no matter whether he succeeds or not, he will be killed by Wang Fan. Although he has lived for a long time, he doesn't want to die.

But now, he has no way, because he was forced by Wang Fan to a dead end.

The red light in Shi Bo's eyes twinkled, and the fury in his body suddenly burst out. Then the sharp dagger across his throat suddenly shook and stabbed him fiercely.

Fierce and resolute, straight to the heart!

Roddy didn't think that Shibo would kill him, and the distance between them was very close, so he didn't react at all!

Roddy didn't respond, and Luo Yan naturally didn't respond.

After all, it's all too sudden, and the distance between the two sides is too close.

"Die, die, he forced me. If you want to blame him, blame him. You can live a little longer without him

Shi Bo thought maliciously in his heart, and his eyes were full of crazy light.

However, at the moment when Nali dagger was about to be inserted into Roddy's heart, he felt the figure flash in front of him, and then a big foot kicked him.

With a spurt, he couldn't even breathe. The big foot had been kicked on him, and he was kicked out directly. When he looked up again, he saw Wang Fan standing in front of Luo Yan's younger sister and brother.

"Don't kill in front of me. I have already begun to doubt you. If I let you hurt them again, do I still want to do it? "

Wang Fan looks at Shi Bo with a sneer, and looks very disdainful.

At this moment, Luoyan's sister and brother also recovered.

"Shibo, why, why do you do this?" Roddy's eyes are full of incredible, crazy asked.

Almost, just almost, he's going to be killed!

At the thought of the previous scene, his body was full of cold sweat, and he still has some lingering fear.

Luo Yan's eyes are also full of mist, "Shi Bo, why do you want to do this? Why? "

Their hearts are very painful!

### **Chapter 1535**

They have been reluctant to believe that Shi Bo is a spy, even if Wang fan forced them several times, they still believe in Shi Bo. But just now, Shi Bo wanted to kill Roddy, which made them almost unacceptable.

"Why?" Shi Bo grinned grimly, "no, just because you should die!"

He looks like crazy, exhausted hiss in the bottom, and before it is very different.

At this point, he doesn't need to disguise any more. Anyway, disguise is meaningless.

He looked at Wang Fan ferociously, "I hate so much. I didn't stop taking you before. I didn't expect that you became the biggest obstacle for us to kill their sister and brother!"

Whoa!

Luo Yan looks at Shi Bo's crazy expression and listens to Shi Bo's hoarse voice. She only feels a pain in her heart and a mouthful of blood can't help coming out.

"Sister." Looking at this scene, Luo Di screams and goes to help Luo Yan.

Shi Bo is ferocious looking at Wang Fan, "how are you sure I have a problem, I think I didn't show any horseshoe all the way."

"Is it difficult for you to change the route and be found by them? Just as I'm not dead, I'm sure I have a problem?"

He still had some doubts in his heart. After all, everything he did was very hidden and could not be found.

What's more, Wang Fan was almost in the car and never came down. How could he be sure that he had a problem?

Shi Bo never thought that Wang Fan could use his mental power to investigate. After all, it was only a strong man who could reach the realm of heaven.

"Ha ha." Wang Fan sneered, "you use that stone to release the smell and attract the enemy. Do you think I don't know?"

"If you don't want people to know, unless you don't do it yourself, since you've done something, you'll certainly show your feet."

Wang Fan said, looking at Luo Yan sister and brother, "now it has been confirmed that he is a spy, how do you want to deal with him, do you want to kill him?"

"Kill, you must Roddy looked up ferociously, "he almost killed me and killed so many guards of my family. He should die!"

Luo Yan also looked up at Shi Bo, "Shi Bo, although you are only my Luo family servant, but my Luo family, who has really treated you as a servant? Which is not to respect you as your elder

"We Luo family treat you like this, but you want to kill us. Do you have any conscience? How much did the eldest lady give you? "

"How I don't believe you will betray us, but you really let us down."

Luo Yan's tears are constantly falling, obviously, Shi Bo's betrayal is a big blow to her.

"Ha ha!" Shi Bo burst into laughter. He suddenly took out a pill and swallowed it into his stomach. Then his body suddenly trembled and rushed to the distance.

Obviously, he's going to run!

"Run, did you run?" Wang Fan sneered, followed by Teng Shen, the shadow knife came out, and directly chopped Shi Bo.

Hundreds of Zhang's sword awn appeared, whistling in an instant, but Shi Bo's body suddenly shook, and a touch of yellowish light appeared on his body.

Boom, knife awn split in the yellow light body, unexpectedly burst overflow.

And Shi Bo, just spitting out a few mouthfuls of blood, rushed to the distance crazily again.

Wang Fan was shocked.

What is that earthy yellow light that can resist his knife?

At the moment when Wang Fan was stunned, Shi Bo had already flashed to the distance and disappeared in his sight. He wanted to pursue, but he was afraid that he would be lured away from the mountain, so he had to give up in the end.

"Let's go. Without spies, the next danger should be a little more." Wang Fan toward Luo Yan sister and brother said a, then again began to drive.

In the city of saile, the Lord's mansion, a beautiful woman in a pale gold robe, with a cool and noble

temperament, is sitting on the throne with a gloomy face.

This beautiful woman looks more than 30 years old, elegant, sitting there, she exudes a sense of dignity, which makes several people below shudder.

Her skin is white and greasy and well maintained, but her eyes are a little cold and her lips are thin and upturned, which makes her feel like a ruthless person.

"What do you say, even Shi Bo failed and escaped from the wounded?" At a certain moment, the beautiful woman opened her mouth coldly and looked at a red haired man kneeling in front of her with a cold look like a poisonous snake.

If Wang fan is here, he will be able to recognize that the man with red hair is the one who escaped from Wang Fan.

The red haired man knelt on the ground and didn't dare to look up at all. He shivered and said, "yes, I just sent back the news. Shibo failed."

This beautiful woman is Ouyang yunrou, the first lady of the city leader and the so-called big lady.

Ouyang yunrou is ruthless and ruthless. He is as overbearing as a snake and scorpion.

Even in the aristocratic circle of the whole city of sailor, she is famous for her viciousness, and few people dare to provoke her.

Although the red haired man's strength is good, he is afraid of Ouyang yunrou. Because as long as Ouyang yunrou is upset, he can kill him regardless. His death is in vain.

"Damn it Ouyang yunrou slapped the table and was furious. "When did the two brothers and sisters have such a master? Who is that man and what is his strength? "

The red haired man didn't dare to hide at all. He quickly replied, "I don't know who he is, but his strength should be on the ninth floor of the earth."

"This man is less than 30 years old and has a coma woman on his back. I've never seen him before. His Sabre is very powerful. It's terrible. I'm not his opponent at all. "

The red haired man didn't dare to say that Wang Fan's strength only had seven or eight levels of territory. He directly said that Wang Fan's strength had nine levels of territory.

After all, if he says that Wang Fan's strength is only seven or eight levels, doesn't it mean that he has no ability?

In that case, maybe the eldest lady will kill him now.

"The ninth floor? With a woman? " Ouyang yunrou's face changed in an instant,

"it's said that there's a peerless evil genius in the extreme sword gate. After killing Dan Taiming, he betrayed the extreme sword gate. Is that the man?"

"It's just that, according to the rumor, the evil genius only has the strength of the fifth floor of the earth. How can he get to the ninth floor of the earth so quickly? Is it not him, but someone else? "

She murmured to herself, "the ninth floor of the earth is really lucky for the brothers and sisters."

Ouyang yunrou is very unwilling and annoyed.

If the opponent's strength is on the seventh floor, even the eighth floor, she can find a way to solve the problem at a heavy price.

But the ninth floor of the earth realm is already a tough person at the top of the earth realm. She has no ability to deal with it.

"No, you can't just give up killing that bastard. If he really comes to this city Lord's mansion, if he really becomes the city Lord in the future, will Ouyang yunrou still have a way to live? "

"You have to kill them while Lomon is away, otherwise once Lomon comes back, there will be no chance."

Ouyang yunrou gritted her teeth and said, her eyes were very cold.

She is also taking advantage of the city Lord Lomon just something left the city, only dare to send someone to attack Luoyan sister and brother. Otherwise, even if she was given a hundred courage, she would not dare to do so.

Although she is powerful and fierce, she is not good enough in front of Lord Lomon.

"It seems that we can only ask Monta to do it, just ask that guy to do it..." Ouyang yunrou murmured, having made a decision in her heart.

## **Chapter 1536**

Saile city is a big city in the whole Tianyun kingdom.

Towering city gate, full of ancient majesty, even if isolated far away, you can also feel the city's spectacular.

On the city gate, the eldest lady and a man with black hair like an iron tower were standing there, looking into the distance.

This man with black hair is 2.5 meters tall, just like a small giant.

The explosive muscles are like grasshoppers, vigorous and powerful, and the root lines are like iron juice pouring, full of explosive power.

His inch long short hair was even more upright, as hard as a steel needle, his eyes as sharp as an eagle, his cheeks as sharp as a knife, and his outline was clear.

He stood there like an iron tower, giving people a heavy and oppressive sense of danger.

On his back, he also carries a red heavy machete. Just look at the huge size, you can see that the weight is not light.

At this time, the man was kneading the big lady with one hand, and his eyes were staring at the distance, full of rebellious.

Monta, a super strong presence in sailor City, has reached the peak of the eighth floor of the terrain.

Most importantly, he's from the castle of Montgomery. The castle of Montgomery is a super power in the city. It's very powerful. Even the Lord of Montgomery doesn't want to be easily provoked.

Moreover, this city Lord's house also has a grudge against the Meng family, and the water and fire are not compatible.

If the first lady is not eager to kill the Lodi brothers and sisters, even if it is to give her great courage, also dare not collude with this Monta.

The eldest lady was kneaded by Monta. Her charming face was a little red, but she wore a black towel on her face, even Monta couldn't see it.

"Monta, as long as you're willing to help me kill those bastards, I'll be your man. It can not only satisfy all your conditions, but also help you deal with the Lord's mansion. "

The big lady slightly some Jiao gasps, murmur of say.

Monta looked down at the big lady's sexy body, breathing a little faster, even eyes became hot.

He suddenly picked up the black scarf with one hand, bowed his head, and gave a big kiss on the fragrant red lips, then said wildly, "don't worry, just a few wastes, I haven't paid attention to Monta."

"For the sake of you, don't say to kill a few people. Even if you kill hundreds of people, Monta won't frown."

"Don't worry, I'm Montessori. I'll let you be the Lord of the city very soon."

Monta's eyes were blazing.

In his position, he doesn't look up to ordinary women at all.

Only a lady with noble temperament can arouse his interest.

In fact, it's not only Monta, I don't know how many people want to conquer the great lady completely.

However, most people just dare to think about it in their minds, but they dare not put it into action at all.

Although Monta also wanted to conquer the great lady, he did not dare to mess around. Although Monta was not inferior to the city Lord's house, he was also unwilling to offend easily.

This time, it was because the eldest lady asked for Monta that she gave Monta a chance.

Because of the majesty of Lord Lomon, the eldest lady dare not use all the power of the Lord's house, or even kill the Lodi brothers and sisters too openly. But Monta, who is not bound by the Lord, has less scruples.

"It's all up to you. It's up to you." The big lady's delicate body twists lightly and says in a flattering voice.

"Don't worry! Go back and wait for me, Monta. "

Monta leaned down and patted her heavily on her waist. Then her right leg suddenly stepped on the ground. With a roar, the whole person was like a javelin and jumped straight down from the gate.

Some people who saw this scene couldn't help changing color one after another.

You know, the wall is more than 20 meters high. Without certain strength, who dares to jump like this?

With another bang, Monta's figure soon fell to the ground, but he didn't stay at all. His figure flickered a few times, and then he ran to the distance.

He had already got the news and knew the position of Wang Fan, and now he went to kill them.

The first lady looked at Montana's disappearing figure. The flattery in her eyes dissipated in an instant. Instead, it was a very insidious cold light.

"I hope Monta can succeed. I don't believe it. This time, they won't die!"

.....

"It's almost sailor city. As long as we get to sailor City, I don't think the eldest lady will dare to send someone to kill us again."

Wang Fan and his party are walking on the road. Luo Di looks at the map and says a little excited.

After such a long journey, they are less than 50 kilometers away from the city of sailor. It only takes a few hours to get there.

In the eyes of the Lodi brothers and sisters, there should be no danger when they arrive at sailor city. After all, they were summoned by the order of Lord Lomon. Even if the eldest lady was vicious, she did not dare to fight in sailor city."I'm afraid it's not that simple. I think the eldest lady will continue to send people to work. After this journey, it is the most dangerous time. "

Wang Fan shook his head and said.

He is not as optimistic as Luodi's brothers and sisters. Through Luoyan's description, Wang Fan has a certain understanding of the big lady.

In his opinion, it was absolutely impossible for the old lady to give up so easily.

"How could it be that we were summoned by the order of her father? Isn't she afraid of her father's detection?" Luo Yan Luo Di listens to Wang Fan this words, the facial expression is all one Zheng, can't help but ask a way.

"I'm not sure about that, but I guess something must have happened in sailor that we don't know. Maybe your father is under control, or maybe he's not in sailor anymore. "

Wang Fan said.

"It's impossible. How can the eldest lady control her father?" Luo Yan is incredible.

Wang Fan was about to open his mouth. Suddenly, his face changed.

He stopped suddenly and looked up ahead.

See, at the end of the road, a height of 2.5 meters tower man appeared, crazy toward this side ran over.

He was like a wild animal, running with his legs, but strangely, every time his feet landed, he didn't make any sound.

Only the soil in the continuous splash, smoke filled.

His speed is extremely fast, just a few flashes, it has been less than 100 meters away from Wang Fan and

others.

"This, this... Looking at the man of the iron tower, the faces of Lodi's sister and brother all changed and became extremely pale.

Although the man is still 100 meters away from them, they feel the strong oppression.

That feeling, like a mountain, hard pressure on them, so that their hearts shudder, legs soften.

Powerful. It's too powerful.

The feeling that this man gives them is stronger than Wang Fan.

Wang Fan's face suddenly became dignified. In a moment, the aura in his body surged like an angry dragon, and his strength roared like an avalanche. He was ready to fight for the first time.

He was also aware of the iron tower man's arrogance. He was definitely a strong man in the eighth floor or even the ninth floor of the earth. He could not help being dignified.

### **Chapter 1537**

Boom!

A sound like an explosion, in the smoke, Monta suddenly stopped 50 meters in front of Wang Fan.

His eyes seemed to twinkle with electric light. He gazed at Wang fan like a wild animal, and his voice came out like a bell. "You are the master who protects that pair of cheap species?"

You mean?

Listen to this ha, the face of brother and sister Lodi is very blue in an instant!

It's a great shame that they should be insulted!

However, feeling the terrible pressure from Monta, none of them dared to speak.

Wang Fan's eyes could not help but squint, "cheap seed? How ridiculous! If they are cheap, what are you

He pointed to Monta without fear. "You're right. I'm the one who protects them."

"If I guess correctly, you must be the dog sent by the big lady. Why, do you want to kill them?"

The dog sent by the first lady?

Monta's face suddenly changed!

Boom!

His fury was just like the roar of a wild animal. His inch long black hair was more sharp on his handstand, and his killing intention was enormous.

"Well, well, you're the first to call me Monta a dog! Originally, my purpose of Monta was to kill their sister and brother, but I didn't want to kill you. "

"However, you have succeeded in irritating me. In that case, you should die!"

Monta growled, trampling heavily on his right leg.

Boom!

With a loud sound like the impact of mountains, his whole person was like a small hill, crazy towards Wang Fan.

On the ground, cracks in the thighs spread like cobwebs. In the air, the strong wind roared, and the whole space seemed to be crushed by him.

Monta just in an instant, has rushed to Wang Fan in front of, without the slightest fancy, a blow out!

At this moment, the whole space has been stirred up, killing potential spread, rock breaking!

Wang Fan didn't speak. The aura in his body gushed out from his right arm crazily, and his muscles tightened in an instant.

He took a step back, his right arm pulled back like a bow, and then shot out instantly.

Whew!

The fist wind roared through the air, just like a sharp arrow, frantically pounded against Monta's iron fist like a casserole.

The sound of thunder resounded in this moment, deafening.

Looking at this scene, Luodi brothers and sisters can't help but close their eyes in horror, and their body shape begins to retreat.

Terrifying. It's terrifying.

The violent energy, oppressed them, could not breathe at all, for fear of being affected.

Monta laughed, but grimly.

In his opinion, Wang Fan's competition with him in physical strength is purely seeking death!

Pure physical strength, under heaven, he is not afraid of anyone!

Boom!

There was a loud deafening noise, and their fists collided fiercely.

A road just like a wave of gas force raging, directly roaring in all directions.

Chuckling.

Under the fury of the spirit, the trees are broken, the stones are damaged, and the smoke and dust are constantly diffused and in a mess.

Dada dada!

Under the impact of the great force, Monta could not help but take a few steps back, with a startled look on his face.

Wang Fan, on the other hand, was blown upside down directly, flying more than ten meters straight to stabilize his figure.

His heart is more shocked!

What a terrible power!

"You've got some skills if you can take my fist. Try to take my fist again!" Monta's eyes were blazing and his fighting spirit was high.

He roared wildly and continued to fight Wang Fan.

What he likes most is Wang Fan, an opponent with the same physical strength. This kind of battle will make him excited.

Although the previous blow, Wang Fan fell into the downwind, but it has been quite good.

"Ridiculous! Give me a punch, too Wang Fan sneered, he did not retreat, but also follow the crazy save, and then store strength, another punch followed the blast out.

Previously, although he seemed to have the disadvantage, in fact, he did not have much disadvantage.

Because Monta is active attack, but also with the help of forward momentum, Wang fan is passive counterattack in place, in this case, of course, he can't do well.

Two people just like two fierce beasts, crazy meet, and then punch.

Boom!

The roar of this time was more severe and harsh than that of the last time. More terrible energy fluctuations broke out, and the two flew out at the same time.

"What a wild man!" Wang Fan grinned and sighed. After stabilizing his figure, without hesitation, he rushed to Monta again.

"Gang Lei Quan!" A low roar, gang thunder fist instantly gushes out, and violently smashes toward Monta. Monta grinned, "ha ha, happy. I haven't met anyone whose physical strength is more powerful than me for a long time. Today I'll see how good you are."

"Break the fist!" He grinned grimly, and the iron fist, like a casserole, also followed him.

With a heavy tearing sound, they fell back again.

Just in the moment of inverted flight, Wang Fan's right leg suddenly swept on the ground, whistling, countless gravel was stirred up, and directly and madly bombarded toward Monta.

Monta gave a grim smile, and in the face of the gravel, he didn't care at all. He directly protected his head with his arms, instead of retreating.

Bang bang!

The stone hit him as if it were on the hard diamond. It just broke, and didn't hurt him at all.

His body is as hard as iron, so terrible!

"Come again!" Monta grinned grimly, his anger rising.

Just at the moment when Wang Fan thought he was going to blow out another blow, he suddenly pulled out the heavy machete behind him and directly attacked Wang Fan fiercely.

The air is torn by the machete, and the space is just like a fragile paper, which is torn out of a white mark. Air waves like a tsunami rolling, crazy over Wang Fan.

"Mean!"

"Shameless!"

Looking at this scene, the distant Lodi brothers and sisters are finally angry, can not help but angry scold up.

This guy said that he wanted to compete with the physical strength, but he suddenly drew his sword. It was insidious and mean to the extreme.

Wang Fan didn't speak. He stepped back quickly and swept out with one leg.

His right leg, as fierce as a thunderbolt, directly tore up the strength and kicked the back of the knife.

When!

Monta immediately began to slide toward the side, even the machete almost flew out.

Wang Fan, on the other hand, immediately burst out with a mouthful of blood.

The strength of Monta is too strong, especially the machete, which is also extremely heavy. He estimated that it would be no less than 500 Jin.

With the foot to the knife, he completely fell into the disadvantage!

"To be a king and defeat the enemy is not mean. Die!" Monta's fighting spirit was even higher, and continued to fight Wang Fan with a grim smile.

"It's not sure who will die. Do you think you are the only one with weapons?" Wang Fan couldn't help laughing.

He crazily retreated, directly took out the shadow knife, and crazily went up.

The shadow of the sword flickers, and every blade is like a python dragon, crisscrossing in this space. The roaring sound is endless, which is terrible.

They collided with each other. For a moment, none of them had the upper hand.

Looking at this scene, the distant Lodi brothers and sisters were shocked.

Terror, it's terrible!

This is the first time in their life that they have seen such a terrible fight!

**Chapter 1538**

Monta was more and more shocked by the Vietnam War, and he was in a terrible mood.

He can clearly feel that Wang Fan's strength is only six levels of the terrain.

But just a guy on the sixth floor of the territory, he fought so hard with him. What's the combat effectiveness?

You know, he is a strong man on the eighth floor of the earth, and he is also a genius who can cross the level to challenge.

Not to mention the sixth floor, even the ninth floor is not his opponent at all.

At this time, Wang Fan didn't know Monta's panic at all. He had fallen into a wonderful state.

He waved the shadow knife constantly, and the momentum became more and more fierce, and the speed became faster and faster, which made Monta gradually unable to resist.

His Sabre technique does not have the slightest organization, but every knife can accurately find the flaw of Monta, as if it were made by nature.

Moreover, every time he splits out, he even sets off his intention. One knife is fiercer than the other, and one knife is more domineering than the other.

"How can it be? How can his speed become faster and faster, and his power become more and more domineering?" Monta's face changed and he was absolutely shocked.

Because under normal circumstances, along with fighting, the power should be smaller and smaller, and the speed should be slower and slower.

After all, every sword will consume the aura in the body, resulting in the lack of strength.

But Wang fan is good, the aura in his body seems to be endless. The more he goes to the back, the more sharp and domineering he is.

Gradually, he could not resist at all.

Whoa!

At a certain moment, a sound came out, and Wang Fan's shadow knife directly scratched on Monta's body, leaving a bloodstain on his body.

"No, this man is weird. He has to go! If I go on fighting, I'm afraid my life will be in danger." Monta was so scared that he was ready to retreat.

Just for a moment, Wang Fan's shadow knife struck him again and raised several blood mists.

He was stabbed in the left arm and in the waist, bloody.

Monta felt the pain, cold sweat straight up, no longer dare to continue to fight, suddenly drank, directly quickly back away.

Originally, if Monta was fighting to death, Wang Fan might not have killed him so quickly, but as soon as he retreated, Wang Fan's chance came.

"Cloud splitting sword technique!" A low voice came from his throat, and Wang Fanying broke through the air with his knife and went straight out.

The hundred Zhang long sword awn was torn out and flashed. In an instant, it was transformed into steel cones with arm thickness, and it was surging towards Monta.

Montana's Scarlet eyes suddenly became the size of an egg, and her whole body muscles contracted madly. The vigorous Qi of protecting her body immediately shrouded around her body.

Hiss, hiss, hiss.

The overwhelming steel cone stabbed at Monta. Just for a moment, the vigorous Qi on his body surface had been torn.

Then there was another bang, and his body burst out several red blood, and the whole person was blasted out.

That huge body, like a meteorite hit heavily on the ground, shaking the earth.

"It's over." Wang Fan's cold eyes were staring at Monta. Without any expression, he continued to step out.

Monta's face suddenly changed, "you can't kill me. I'm from the castle of Montgomery. If you kill me, there will be no place for you in this city. Even Lomon can't protect you!"

He started the threat of exhausting hiss. He never thought that one day, he would be defeated by a mole ant in the sixth floor of the earth, and his life was in danger.

Although the eldest lady said that Wang Fan was with Lodi on the way, Monta didn't think so.

He has regarded Wang Fan as the master of Luomeng's arrangement around Luodi's sister and brother.

So in his opinion, Wang Fan must know the castle, and since Wang Fan knew the castle, he would never dare to kill him.

"The castle of Montgomery?" Wang Fan frowned slightly. He had never heard of this force.

"Yes, I'm from the castle of Montgomery. The third Castle master is my father. You're just a dog of Lomond's men. If you kill me, Lomond can't keep you."

Monta thought that Wang Fan was afraid, more exhausted his bottom of the way.

"Is it?" Wang Fan laughed, he didn't hesitate, right leg heavily swept out.

"Oh, no! No Monta's face went crazy and he cried out. He didn't expect that Wang Fan would dare to fight even after he knew his identity.

But it's too late.

Bang!

A loud noise, his huge body was kicked up, followed by a flash of white light, Wang Fan's shadow knife directly across his throat.

"The castle of Montgomery, something I haven't heard of." Wang Fan sneered scornfully and put away the shadow knife.

"Let's go." After Wang Fan said something to Luodi's sister and brother, he started on his way again.……

at an inn in sailor City, the eldest lady sits at the head of the bed and looks carefully, waiting for Monta's triumphant return.

She came by the time. In her opinion, Monta should be back soon.

If Monta comes out, Wang Fan and his party will surely die. There is no possibility of survival.

However, an hour later, Monta did not come back, which made her have a bad feeling.

"Is it hard, Monta failed?" This thought flashed in the big lady's mind, but it was soon extinguished by her. "How can it be? How can Monta fail?"

"He's a strong man in the eighth floor of the earth. Even in the ninth floor, it's hard to kill him. How can he lose?"

"No way! It's absolutely impossible

The big lady tried to comfort herself.

Monta, there must be no accident, because Monta is the only son of the three masters of Monta's castle.

Once he has an accident, heaven can imagine what the crazy Three Castle Lord will do.

Maybe her eldest wife will be buried with her.

However, another hour passed, but Monta still did not come back.

The big lady's heart has been more and more uneasy, she no longer dare to hesitate, quickly put on the silk scarf, left the inn.

More than half an hour later, she had quietly returned to the city Lord's mansion, but just as she had just returned to the city Lord's mansion, a message came.

Roddy's brother and sister are in town.

The eldest lady listened to this, and her mind exploded.

It's self-evident that the Luodi brothers and sisters went to the city safely, but Monta disappeared.

"I hope, I hope that Monta didn't tell the third Castle master that I asked him to kill those bastards."

Looking forward to it, the eldest lady beckoned for another confidant.

"You immediately send a team of people to stare at the Lodi brothers and sisters and kill them for me at all costs."

"I don't believe that the master around them will protect them 24 hours a day and never leave."

Said the eldest lady, biting her teeth.

"Yes Without hesitation, the confidant immediately went to do so.

After the confidant left, the eldest lady thought about it carefully, took out a pen and paper, wrote some words with her left hand, put them in an envelope, sealed them, and attracted another subordinate.

"You take this letter to the gate of the castle. Remember, it must be hidden, and no one can see it, you know? Otherwise, not only you, but also your family will be buried with you. "

"Yes." The subordinate's heart thumped for a while, also did not dare to neglect, his hands trembled, and left the city Lord's house quickly.

**Chapter 1539**

Montmorillonite castle is located in the east of saile city. This area is the site of montmorillonite castle. Even the powerful city Lord's mansion is afraid of it.

There are three Castle owners in Mengshi castle. The mysterious castle owner is unpredictable. It is said that his strength has reached the realm of heaven, but he doesn't show up easily. Most people don't know his identity at all.

The second and third Castle masters are all strong men at the top of the ninth floor of the earth. Under the heaven, they are almost invincible. They are all very strong men.

The reason why the castle is so powerful is that the people in the castle are very united, and they are a group of madmen.

No matter who dares to offend the people of Monteggia castle, they will rush on like madmen and launch a crazy and bloody revenge.

Even if the other party's strength is strong, they will still be crazy revenge, do not tear a piece of meat from the other party, it is never give up.

It is because of this that ordinary people or forces dare not offend the castle easily.

At this time, in a luxurious room in the castle, a burly bald man is working hard on an enchanting beauty.

But at this moment, suddenly -

Dong Dong!

There was a quick knock on the door.

"Well?" When the man heard the knock, his thick eyebrows turned, and a sense of evil appeared in his eyes.

"Who the hell is bothering me? If you dare to disturb me at this time, you'd better have a better reason, or I'll skin him! "

He was very angry with the roar, directly turned out of bed, put on a coat and walked toward the door.

As for the woman lying on the bed, just like a lamb, curling up, she didn't dare to say much.

Creak.

When the door opened, a strong man ran in quickly. He was holding an envelope in his hand, and his voice was very scared. "Three Castle master, it's bad, young master, young master, he... He"

his voice was a little trembling, but he couldn't speak completely for a moment.

Pop!

A slap, Meng Chong mercilessly slapped on the face of the strong man, discontented with the way, "Damn it, Monta, what's the matter with him, you give me a damn clear?"

The strong man was slapped on the ground, most of his teeth were lost, but he didn't dare to talk at all. He just raised the envelope tremblingly.

"What a waste!" Meng Chong drank out discontentedly, grabbed the envelope, took out the letter and read it.

But soon, his expression froze.

His eyebrows suddenly condensed into a knot in one's heart, his eyes suddenly became scarlet, his anger surged up, and his killing intention burst to the extreme.

"Where did the letter come from?" Meng Chong's voice was extremely cold, as if it came from Jiuyou abyss.

Monta, that's his only son, and it's also his hope and pride.

At the age of 31, his strength has reached the eighth level of the earth. Even in the ten major fields, his talent is good.

We can imagine how powerful Monta will be when he reaches his age.

But now, the letter says, Monta is dead!

How is that possible?

This is a bolt from the blue for Meng Chong!

Who on earth is so brave that even the people of Mengshi castle and his Mengchong son dare to kill?

"I don't know. This letter was sent by the guard of the ancient castle. He said that he didn't know when someone had quietly put it at the gate of the ancient castle. "

The strong man was covered in cold sweat and stammered.

As a confidant of Mengchong, the leader of the three fortresses, he certainly knew the seriousness of this matter.

"I don't know? Rubbish Meng Chong was so angry that he kicked the strong man out of the door. Then he put on his clothes and left the room.

"Son of a bitch, it's better not to be true. Otherwise, no matter who you are, I will break you up!"

There was a roar of fury over the castle.

.....

in saile City, Wang Fan and his party have entered the city.

They walked on the street paved with bluestone, looked at the endless stream of traffic, and listened to the cries of the surrounding vendors. They could not help but relax a lot.

Lodi, who entered the big city for the first time, was just like granny Liu visiting Grand View Garden. She looked around from time to time and felt strange about everything.

Those nobles around looked at the left and right looking Lodi, most of them showed disdain and aloofness, with a cold hum, and their eyes were full of disdain.

They could see at a glance that Roddy was a bumpkin from the countryside, otherwise it would not have been like that.

Luodi is a local bumpkin. Wang Fan, who walks with Luodi, is not much better.

"The dog's eyes look down on people. When I go to the Lord's mansion and become the master of the Lord's mansion, I'll see if they dare to look down on me." Roddy couldn't help squeezing his fists when he saw the faces of those people, and anger came into his eyes.

He is only a 17-year-old boy, naturally can not stand this kind of contempt.

"Brother Wang Fan, do you think we should go directly to the Lord's mansion or stay in an inn in saile city for one night and go there tomorrow?"

Luo Yan light smile, ignore brother Luo Di, but side head toward Wang Fan asked.

"Stay here for one night, then tomorrow." Wang Fan pondered for a moment and said slowly.

If he doesn't have the cold green clothes, he can go to the city Lord's mansion directly with the Lodi brothers and sisters. If he is there, he is not afraid of the city Lord's wife's playing tricks.

But now he was wearing cold green clothes, so he had to think more about it. It's night, not day.

"Well, we'll listen to you." Luo Yan nodded and said.

Wang Fan took them to eat casually, then walked into an inn and opened two adjacent rooms to live in.

Outside the inn, a humble little man saw this behind the scenes, went in to inquire about Wang Fan's room, and then immediately left here.

Before long, a dozen men appeared outside the inn. After they entered, they opened several opposite rooms on the same floor as Wang Fan.

This dozen men, led by a man with long hair.

He took a cold look at the opposite two rooms, and pointed directly to six of them, "now it's confirmed that the master and Luo Yan are not in the same room."

"The six of you, wait until late at night, and then go to the door of their room to kill them. Do you hear me clearly?"

"Listen up!" The six responded neatly.

The man with long hair nodded with satisfaction and looked at the others. "If they can succeed, it's the best."

"But if they fail, tomorrow morning, you're going to dress up as hotel attendants and do it while pretending that the delivery is close to them."

"Luo Yan must die, or you all know the consequences. If we fail, I'm afraid our whole family will be buried with us. "

Those subordinates immediately changed their faces when they listened to the long hair man's words.

Their eyes first flickered with fear, then became firm, "yes, we will succeed!"

## **Chapter 1540**

As time went by, it was very late at night.

No matter where the Lodi brothers and sisters are, or where Wang fan is, they are very quiet, and there is no sound at all.

At a certain moment, the long hair man's closed eyes suddenly opened, spitting out two words in his mouth, "hands on!"

With his voice, a group of six people ran out of the room in an instant and crept toward the room where Lodi's brother and sister were.

Soon, they were in front of Lodi's room.

See this time, Wang Fan's room is still not heard any movement, their eyes are emerging out of the ecstasy.

Now Wang fan is not aware of it, which means that Wang fan can't save Luodi at all.

Without any hesitation, one of them suddenly gathered his strength and banged his shoulders on the door.

Click!

With a heavy sound, the heavy door was suddenly knocked open, and six people immediately rushed in crazily.

After entering the room, they ran directly to the bedside without hesitation. Without looking carefully, they raised the steel knife with cold light and began to chop fiercely.

Their eyes were filled with ecstasy, because the task was about to succeed,

but their faces soon changed with the sound of clicking.

Because the sound was wrong, they didn't hear the sound of the knife cutting into the bone, and they didn't feel the blood splashing.

All they heard was the sound of a knife cutting into the wood.

"No, the brothers and sisters are not in the room. Hurry up!" One of them suddenly changed his face, screamed suddenly, and tried to retreat.

But at this moment -

creak.

The door, which they had knocked open, suddenly closed. At the same time, a joking voice came out.

"It's not good for you to break into my house in the middle of the night and smash it up, but now you have to leave quietly? If you leave, who will pay for the damage? "

Listening to this voice, the six men's faces changed greatly!

Looking back, they saw a shadow.

The shadow stood in front of the door. After a closer look, they recognized that this person was Wang

Fan, the mysterious expert who protected Luodi's sister and brother.

"Kill

When they saw Wang Fan, they were all creepy, but they still insisted on killing Wang Fan with the steel knife in their hands.

If Wang fan does not die, they will die. They have no choice.

"Ah, the old lady is not willing to give up. She has already arrived at sailor City, but she still refuses to give up. But she sent you these cannon fodder, is it to let you die? "

Wang Fan said, even the shadow knife are too lazy to sacrifice, body shape a flash, instantly toward the six people shot in the past.

His whole body seemed to turn into a hurricane, as fast as lightning, his body quickly flashed out, his hands extremely waved.

Pa Pa Pa!

Six sound, the six people even Wang Fan's shadow did not split, has been Wang Fan shot, one after another fell to the ground.

Destroy the withered and decadent!

No way, the strength of both sides is not at the same level.

In the opposite room, the man with long hair and others naturally heard the movement in the room, and his face suddenly changed.

That room lives, shouldn't it be Luodi sister and brother? How did it become Wang Fan?

It's just that it's meaningless for them to think about it now, because the six men's task of assassinating the Lodi brothers and sisters has failed.

"It seems that we can only carry out the next plan. Tomorrow morning, you will approach them as waiters. Let's find a chance to do it." Long hair man Yin voice says.

However, his voice just fell, a voice that made his whole body cold suddenly came over.

"Oh, do it as a waiter? But unfortunately, you don't have a chance. " Light voice spread out, Wang Fan pushed open the door, suddenly came in.

"You, you..." the long haired man's eyes were frightened, which was almost unbelievable.

How did Wang Fan know they were in this room?

You know, they wrapped up all the rooms on this side, and at the moment of the six men's action, they specially changed another room for the sake of safety.

In other words, even the six who failed should not know their current position.

"Why, surprised?" Wang Fan sneered, "don't take out your means. It's useless."

He said, approaching the man with long hair step by step.

The man with long hair looked at Wang Fan, who was approaching step by step. His right hand suddenly waved, "together, fight with him!"

With his voice, the rest of the seven or eight people, then crazy toward Wang Fan in the past. And he, is fast began to retreat, crazy rushed to the direction of the window.

Wang Fan's strength he is clear, even Monta is not the opponent, they these people, naturally more not enough to see. Run, you have to run!

It's just that soon he was horrified.

Because he had not run to the window, he was shocked to find that all his subordinates had fallen down.

Wang Fan's body flickered like a streamer. All his subordinates fell to the ground, seriously injured!

The next second, a hand quickly toward his neck, he did not have time to respond, the neck has been pinched by that hand, and then lifted up.

"Want to run? Did you run? You don't have to be afraid. I won't kill you. "

Wang Fan's soft voice came out. He cut his hand on the back of the long hair man's head. The long hair man's eyes were black and he was in a coma.

The next day, it was just dawn.

"Ah

Inside the Lord's mansion, there was a sharp scream.

I saw more than a dozen people lying in the open space of the outer courtyard of the Lord's mansion.

The dozen or so people, each with blood all over his body and eyes closed, didn't know whether they

were dead or alive.

No one knows when these dozen people appeared, and no one knows who put them in the outer courtyard.

The one who screamed was a servant of the city master's mansion. She had planned to get up to work, but unexpectedly, she saw such a scene that frightened her.

The piercing scream soon alerted other servants, guards, and even some high-level officials of the city Lord's mansion.

Even the first lady is here.

Looking at the dozen people who fell on the ground, the eldest lady turned pale in an instant.

These people were not sent out by her to kill the Lodi brothers and sisters. Now it seems that they have obviously failed, and they have been sent back.

You know, the eldest lady came secretly to kill Lodi's brothers and sisters, and no one knew about it except her cronies.

But now, these people appear in the inner courtyard of the city Lord's mansion, which will certainly attract the attention and even attention of Lomon's cronies.

"Asshole, son of a bitch!" The eldest lady roared angrily in her heart. She didn't expect that after these people failed, Wang fan not only didn't kill them, but sent them back to the Lord's mansion.

This move is so vicious, it's killing people in the invisible!

"What a vicious boy, he played with me. If you want me to die, I won't let you live! "

The eldest lady gnawed her teeth and asked people to carry the dozen people away. Then she left the Lord's mansion immediately.

She did not dare to stay in the Lord's house, because she could not bear the anger of Lord Lomon.

She's going to take refuge in Mengshi castle and kill Wang Fan with the help of Mengshi castle!
