

Mighty Sk 1551

Chapter 1551

Those surnamed Hu and Ning didn't know that there was a mole ant on the sixth floor of the territory not far away. They were still fighting crazily, and the fighting was becoming more and more fierce.

The roaring sound resounds. The whole area is in a state of devastation. The sand flies away and the ground collapses. Both of them are scarred.

Wang Fan nervously watched the two men's battle, and cautiously approached the two volumes of prefecture level skills.

His breath has converged to the extreme, and his breath is almost weak.

His speed is very slow. He doesn't dare to speed up at all.

At this time, once he speeds up, it will definitely arouse the vigilance of these two terrorist strongmen.

Three meters, two meters, one meter ...

with Wang Fan getting closer and closer to those two volumes, his mood has been extremely nervous.

After all, those two men are super strong at Tianjing level. Once you find that he is only a mole ant on the sixth floor of the earth, I'm afraid you can kill him with a light hand.

Although Wang Fan had killed Dan Taiming at Tianjing level at the beginning, he had other people's help at that time, and he was totally different from what he is doing now.

That surname Hu and surname Ning are still fighting madly, both of them are angry, the color on the body is also more and more.

Gradually, they have reached a distance of about 1000 meters from Wang Fan.

At this moment, Wang Fan suddenly moved -

whoosh!

Like a cheetah, he sprang up and grabbed the two volumes of prefecture level martial arts. Without even looking at them, he put them in the storage bag.

Then, without looking back, Wang Fan directly urged the aura to run away.

His eyes were blazing, and his speed had reached his limit.

Although the fighting men surnamed Hu and Ning are fighting madly, their mental strength is closely watching the two volumes of prefecture level martial arts.

Almost at the moment when Wang Fan grabbed those two volumes of martial arts to escape, they had already noticed it.

Two people suddenly stopped fighting, some were stunned to see Wang Fan's escape position, it is some incredible.

They didn't expect that there was a mole ant of territory level hidden around them. In particular, the mole ant of territory level dared to rob them.

Is this living impatience?

How dare the mole ants in the region snatch food from them?

I don't know how to write dead words!

They're all laughing!

After returning to God, the man surnamed Hu couldn't help laughing angrily, "ha ha, Ning, you're not so good. You didn't even notice that there was a place hidden here."

The man surnamed Hu sneered, his figure flashed, and he planned to chase Wang Fan crazily.

Just his body shape just flashed, that Ning surname man already suddenly stopped in front of him.

Ning man also pointed to Hu man and laughed, "ha ha, I didn't find the mole ant in that place, don't you also don't find it?"

"Why, do you want to kill him and capture those two volumes of martial arts? Don't dream. I won't let you succeed. "

Ning surnamed man's heart is also extremely angry.

He also does not know, Wang fan that land boundary mole ant exactly how appears, unexpectedly also concealed his perception.

Just like a mole ant, he dares to snatch food in his hand. It's just hitting him in the face. It's just living impatiently.

However, the priority now is not to pursue Wang Fan, but to solve the problem of Hu.

The man surnamed Hu was stopped by the man surnamed Ning and immediately became angry. His

eyes almost split. "What do you mean, things have been robbed by others, and you still fart with me, don't you hurry to catch the mole ants in the land?"

Ning man sneered, "ha ha, I won't be fooled by you. Do you think I don't know your careful thinking?"

"The volume of Diji martial arts you got is the lightness skill body method. If you want to pursue it, will it be my share?"

The man surnamed Ning didn't give way at all.

Although he and the man surnamed Hu both got the prefecture level martial arts, the one surnamed Hu got the lightness skill, while the one surnamed Hu got the attack skill.

If they go after Wang Fan at the same time, it must be the man surnamed Hu who has the advantage. When Wang fan is killed and his martial arts skills are taken away, it will be difficult for him to take it from the man surnamed Hu.

Instead of this, he might as well hold back the Hu and try to take advantage of his attack skills to seriously injure him or even kill him. Then he can go after Wang Fan and capture his martial arts skills.

For him, the prefecture level martial arts in the hands of Wang fan is much better than that in the hands of men surnamed Hu.

As for whether he can catch up with Wang Fan and regain his martial arts skills, he never thought about it at all.

Wang Fan, a mole ant on the sixth floor, is a joke if he can escape."Ning, you are unreasonable. Your martial arts skills have been robbed by others. You still have the heart to pester me here. In this case, I'll appreciate the power of your prefecture level martial arts."

The man surnamed Hu was very angry and madly stimulated his aura. He once again started a crazy war with the man surnamed Ning.

Of course, although they are fighting, they all choose the direction of Wang Fan's escape. At the same time, their spiritual power is also locked in Wang Fan.

They can let Wang Fan escape with his martial arts, but they will never allow Wang Fan to take out their mental power with his martial arts.

.....

after Wang Fan rolled up those two volumes of prefecture level martial arts, he immediately began to run wildly.

At first, he was still thinking that if these two guys catch up, they will blow out a mountain mark.

But he did not expect that the two did not catch up, but also more crazy fight.

Wang Fan looked at the scene, first in a daze, and then in great joy.

These two guys are really proud of themselves. They robbed everything by themselves, but they didn't come to kill themselves. On the contrary, they are still fighting.

Obviously, his strength is low, and he is not paid attention to at all.

Wang Fan did not know whether it was his own luck or misfortune.

Aware of the two people are not in a hurry to catch up, Wang fan is finally relieved, can not help but slow down the speed, but also pretended to be a panic tired look, forehead sweat, panting.

The man surnamed Hu and the man surnamed Ning noticed Wang Fan's appearance and even more disdained that this kind of mole ant also dares to snatch their things. They really want to die.

They are not in a hurry to kill Wang Fan. Instead, they all attack each other.

Obviously, they all know that the other side is the biggest resistance. As long as the other side doesn't solve the problem, they can't get the two volumes of prefecture level martial arts.

Wang Fan realized that the crazier the Vietnam War was, the happier they were.

He was dying of the two men.

At the same time, his speed is getting slower and slower.

As his speed slows down, the distance between men surnamed Hu and Ning will naturally get closer and closer.

At a certain moment, when they were only about 1000 meters away from Wang Fan, Wang Fan suddenly turned his head back. At the same time, his eyes showed madness. His hands in his sleeve robe came out, and a mountain climbing seal pushed them hard.

"What an arrogant mole ant!"

"You are looking for death!"

But Hu surnamed man and Ning surnamed man realized this scene, then was thoroughly angry, was simply the fury is towering!

It's a shame for a mole ant to attack them even if he dares to snatch food from them!

Chapter 1552

Whoosh!

The mountain climbing seal swept through the air, raised a ripple of white marks, and exploded madly towards them.

They both looked disdainful.

No matter how powerful their martial arts are, how powerful can they be?

They didn't pay attention at all.

But soon, their faces changed.

"No, it's an extraordinary skill."

"Hide

They were surprised, roared and swept back in an instant. Even so, they were still attacked by the mountain climbing seal.

Boom.

In a flash, there was a earth shaking explosion.

The ground was blasted out terrible ravines, cracks spread, even the dry branches around, were burned up by the terrible high temperature.

The fire was blazing.

Wang Fan knew that although his mountain climbing seal was powerful, it was impossible to kill these two Heaven level masters.

So at the moment when he blasted out of the mountain print, he had once again exerted his speed to the extreme, changed the direction and started a crazy escape.

Wang Fan madly urged the aura in his body, and even began to burn the blood essence.

He must rush out of their mental power in the shortest time, otherwise, once he is locked by their mental power again, he will have no way to heaven and no way to land.

Previously, those two guys thought he was just a tiny mole ant, and they didn't want to rush him. But now they have a dull loss on him. If they don't kill him again, it's really a ghost.

Wang Fan's crazy escape, between a few suction, has already run out more than ten miles, but still dare not stop.

At a certain moment, when he felt the faint sense of crisis disappeared, it was a heavy relief.

However, he still did not dare to stop, but continued to run frantically, while checking what good hiding place nearby.

.....

after the waves subsided, the positions of the explosion showed Hu Ning's figure again.

At this time, they all looked very embarrassed. Most of their clothes were broken. Even their hair was scorched.

That face, is scorched black, can't bear to look directly at.

They looked at each other, but no one laughed at each other. On the contrary, they set off endless killing intention in their hearts.

They never thought that one day they would be hurt by a mole ant on the sixth floor of the land. This is a shame. There is nothing more humiliating than this.

If it gets out, they'll be the butt of a joke.

"Well, well, well, what a brave mole ant, I Hu Wuzhi. If I don't frustrate you, I Hu Wuzhi will never practice martial arts again!"

Hu Wuzhi grinned and murmured, and his body was full of murderous intent.

Ning Badou is no exception, gnashing his teeth in the same way, "little beast, if I don't break you up today, I'll give you my last name!"

Two people crazy murmur, the mental strength is like a big net, crazy spread out. But soon, their faces changed, because they had no trace of Wang Fan.

They don't need to ask each other at all. They just look at each other and know that they have lost Wang Fan.

"Well, it's all you. If you hadn't stopped me, I would have caught that boy. How could he have escaped? Ning, please remember. If that boy really escapes, I'll be the first one to forgive you! "

Wang Fan disappeared. Naturally, they had no idea of fighting any more. Hu Wuzhi gave a cold drink to Ning Badou, and then flashed over and chased him in a direction.

Ning Badou looks at Hu Wuzhi's back and hums coldly. He was going to chase him in another direction.

But when he thought of Hu Wuzhi's treachery, and the volume of prefecture level martial arts that Hu Wuzhi got was lightness skill, he immediately followed Hu Wuzhi.

He was afraid that Hu Wuzhi would play with him, and he was even more afraid that Wang Fan would fall into Hu Wuzhi's hands.

They have been chasing in the same direction for more than half an hour, but they have got nothing. They already understand that Wang Fan has really escaped. This half an hour is enough for Wang Fan to find a place to hide.

But they are not reconciled, and changed several positions to pursue, at the same time, the spirit of inch by inch of the spread of search, but make them frustrated is, still did not notice the shadow of Wang Fan.

More than half a day later, they were furious.

They did not expect that the two Tianjing strongmen were fooled by a mole ant on the sixth floor.

They not only robbed their prefecture level martial arts skills and hurt them, but also escaped from their palms.

It's really anger and frustration!

"Well, I don't believe you can escape." Two people crazy roar, then hate each other look at each other, unwilling to leave here.

They have remembered Wang Fan's appearance and know that Wang fan is carrying a woman on his back. Even if they cast a net, they all want to find the hateful mole ants in the land. They don't believe that the mole ants in the land can really escape.....

Wang Fan practiced in a hidden cave for a day, and didn't dare to come out until his strength recovered to the peak.

After he came out, he was still very careful, afraid of being caught by the two cunning guys.

Wang Fan side carefully explored around, while toward the dark cloud city rushed back.

He didn't dare to go to the city during the day. After all, the two strong men knew about his cold green

clothes.

in case he comes to town on the back of his cold clothes, he will be perceived by the eyes of the two people. Then he will be in danger.

In fact, if he didn't need to go to master Kuye to cure hanqingyi, he would not dare to go back to Wuyun city.

Because as long as those two guys inquire in Wuyun City, they will find out the purpose of his coming to Wuyun city. Maybe they will go directly to master Kuye and wait for him.

But Wang Fan has no way, because of the injury of cold green clothes, only the dead leaf master can save, so he has no choice.

Wang Fan took advantage of the dark, carrying the cold green clothes secretly into the dark cloud city, and then without stopping, directly ran to the dead leaf master's residence.

It's better to treat hanqingyi as soon as possible than later. He can leave as soon as possible.

But what Wang fan doesn't know is that Hu Wuzhi and Ning Badou haven't noticed that he entered the dark cloud city, but Linghu mountain has noticed it.

In fact, it's not linghushan himself, but the spies linghushan hired.

Sima Yunyi, the master of Linghu mountain, left the dark cloud city the night before and went back to the cave.

Linghu mountain is not reconciled, still waiting in the dark cloud city, he does not believe that Wang Fan will easily die.

This is also Wang Fan's luck. Otherwise, if Sima Yunyi is still there, he will fall into Sima Yunyi's hands as soon as he enters the city.

In a room, linghushan listened to the spy's report. He could not help clenching his fist, and his eyes flashed with crazy light. "I knew you wouldn't die, I knew you wouldn't die!"

"Son of a bitch, you wait for me. If you dare to abolish my cultivation in Linghu mountain, I will make you die without a place to bury you!"

"And the nun, don't worry, I'll help you take good care of her!"

Linghushan's eyes are full of venomous light, and he whispers wildly. Then he grabs a communication bead and directly sends the news to his master Sima Yunyi.

Although Linghushan hated Wang Fan to the bone, he was not dazzled by the hatred. He knew that if he wanted to kill Wang Fan, he couldn't do it by himself. He had to ask his master to do it.

Chapter 1553

Wang Fan didn't know Linghu Mountain had been staring at him. At this time, he had come to the residence of Master Kuye.

However, he did not immediately rush to Master Kuye's residence, but carefully searched around.

Be careful. If those two strong men send their experts to hide nearby, they will die.

Don't mention it. Wang Fan found three sneaky figures after such an investigation.

However, to his surprise, the three figures were hidden in three different places, and they didn't seem to be together.

Wang Fan is a little puzzled. How can there be three people here? Are they all here for themselves?

Wang Fan thought in his heart that his figure flashed directly to one of them.

At this time, the man was staring at the door of Master Kuye's residence, and he didn't notice the arrival of Wang Fan.

Wang Fan looked at this scene, not from some funny, if this guy is really sent to stare at their own words, it can be some funny. Who are you looking down on when you send such a rookie to stare at yourself?

"Brother, what are you doing? Aren't you tired staring at people's door like this?" Wang Fan reached out and patted the guy on the shoulder and asked with a smile.

That guy is staring at Master Kuye seriously. He never thought that there would be more people behind him.

He was Wang Fan so a pat, body shape a shiver, the moment he looked back, he was going to scream.

Just at this time, Wang Fan quickly covered his mouth and said with a smile, "don't cry, or I'll let your head move, believe it?"

The guy took a look at Wang Fan, and then at the cold green clothes on Wang Fan's back. He quickly nodded in fear, and even his forehead exuded cold sweat.

Wang Fan looked at his performance and immediately knew that this guy was coming for himself.

He slowly released the guy's mouth and asked softly, "come on, who sent you? If you dare to tell a lie,

you know the consequences. "

Wang Fan says, right hand already pressed to his Dan Tian.

The guy was almost scared to death. He quickly replied, "I was sent by Hu Xianshi. He said that if he saw a man with a woman on his back, he would report it immediately."

"Master Hu Xian?" As soon as Wang Fan frowned, he immediately knew that this guy was the skinny Hu.

His heart immediately became nervous, no longer in the mood of ridicule, slapped it dizzy, and then flashed to the other two.

Two minutes later, Wang Fan has made it clear that the other two are sent by Ning Pang and Linghu mountain. The purpose is really his own.

He couldn't help sneering. He wanted to catch himself, but he didn't come here himself. It was ridiculous.

Linghu mountain, in particular, has been abandoned by himself. I don't know where he has the courage to send someone to stare at him.

Is it difficult that the so-called master behind him also came to Wuyun city?

However, Wang Fan also knows that no matter linghushan or Hu Shouzi or Ning pangzi, they don't know that they have spiritual power. So they don't think they can find their people at all.

Otherwise, they would never have sent so many rookies to stare at themselves.

Wang Fan no longer mind nonsense, fast flash to the dead leaf master residence, gently knocked on the door.

He could have jumped in directly, but he was afraid of offending master Kuye, so he just knocked on the door.

"Come in." The same is the voice of the vicissitudes, Wang Fan opened the door and went in.

Master Kuye walked out of the room slowly. His face was still smiling. When he saw that it was Wang Fan, he immediately became cold.

"how are you? Have you ever told me that I would not rescue your friend without wuzhencao. Why, do you think I'm joking with you? "

His tone is very bad, obviously did not think that Wang Fan in such a short period of time, has been Wu Zhen grass.

Master Kuye, with a cold face, stared at Wang Fan and waved impatiently, "go away. I won't do it without Wuzhen grass. If you don't go away, don't blame me."

"Polite" that two words have not yet said, he has been like a rooster by the neck of the general, voice suddenly stopped, that expression is becoming extremely wonderful.

His eyes fixed on Wang Fan's hand, flashing hot, and incredible.

Because in Wang Fan's hands, there has been a Wuzhen grass.

On the crystal clear Wuzhen grass, the fog is winding, constantly changing the shape, and the fog light is winding, which is very beautiful.

"Master Kuye, I've got wuzhencao. I hope you don't break your promise and help my friend."

Wang Fan said that he had already thrown away the garbage and generally threw away the Wuzhen grass.

Master Kuye was so excited that he rushed out and carefully caught Wuzhen grass in his hands.

He looked like he was holding his own child. His eyes were burning, staring at the Wuzhen grass and looking at it again and again. After a few minutes, he slowly raised his head and couldn't help laughing madly, "ha ha, ha ha, I finally got it, I finally got it."

He roared as if he had lost his heart, and then looked at Wang Fan, "you are very good, you can rest assured, I will cure your friend."

Then he entered the room.

Wang fan is also very excited, quickly followed behind to go in, carefully put the cold green clothes on the bed.

Master Kuye took a look at hanqingyi and made a move with his right hand. In an instant, several bottles of liquid medicine on the ground flew over from the air.

He opened the bottle stopper and poured all the liquid into hanqingyi's mouth.

Wang Fan looked at this scene, his heart thumped for a while, and he wanted to stop it, but he finally put up with it.

After pouring the liquid into hanqingyi's mouth, master Kuye clapped his hands on hanqingyi quickly.

With his clapping, Wang Fan was shocked to find that even if he had spiritual power, he could not keep

up with the clapping speed of master Kuye's hands.

He was shocked and immediately realized that master Kuye was not only a master of Xinglin, but also a master of super strength.

You know, even if it's the ninth floor, I'm afraid I can't shoot him at this speed.

This speed alone is enough to prove the strength of master Kuye.

Wang Fan was shocked, because he didn't find out that master Kuye was still an expert. He thought master Kuye was just an ordinary old man.

Because there is no breath flowing on master Kuye, he can't be aware of his strength, at least Wang fan can't.

Withered leaf master ignored Wang Fan, still in crazy clapping, full more than half an hour later, slowly stop.

Wang Fan looked at this scene, no longer have the mind to shock the strength of the dead leaf master, but some nervous asked, "is she OK?"

The withered leaf master rolled his eyes, "you can see it."

"Cough." With the voice of the dead leaf master, the cold green clothes lying on the bed coughed, and then slowly opened his eyes.

"Green clothes." Wang Fan looked at this scene, it is a burst of excitement, wake up, really wake up!

"Wang Fan!" Cold green dress is to sit up directly, then one head pours into Wang Fan's bosom.

During this period of time, although she has been unconscious, her consciousness is clear. She knows what Wang Fan has done for her, and she is very moved.

"It's all right, it's all right." Wang Fan holding the cold green clothes whispered up, just at this time, dry leaf master some shocked looked at the cold green clothes, and then suddenly turned to look at the direction of the door.

Over there, two extremely strong breath, crazy oppression.

Wang Fan felt the two familiar breath, his face also changed in an instant.

Thin Hu, fat Ning!

Chapter 1554

Wang Fan was shocked. He didn't expect that the speed of the two guys was so fast. He killed himself in such a short time.

He hardly hesitated. He picked up hanqingyi and planned to run away. Just at this moment, a shocking scene happened.

"Hum!"

With a cold hum, master Kuye threw his right hand. In an instant, countless liquid medicines soared up in the air and went out in a frenzy. In an instant, they exploded on Hu Wuzhi and Ning Badou.

The liquid medicine exploded on Hu Ning and his wife, just like a bomb. With a bang, the sound of thunder came out. Hu Wuzhi and his wife were blown out in an instant, and a few mouthfuls of blood mist came out of their mouths.

They looked at the withered leaf in horror. Obviously, they didn't expect that master withered leaf would be so strong.

Isn't this an ordinary pharmacist? When did he have such terrible strength?

You know, although master Kuye is well-known, his fame lies in his medical skills. I have no idea that his strength is so terrible.

Withered leaf master cold sweep to Hu Ning two people, unhappy mouth, "you are really big courage, dare to break into my withered leaf residence, difficult not to think I withered leaf old, can wantonly bully?"

While master Kuye was talking, his killing machine spread out, giving people a heavy pressure.

Hu Wuzhi and Ning Badou felt the strong killing power of master Kuye, and their faces changed greatly.

Their hearts are stifling. When did they humiliate master Kuye? It's clear that master Kuye humiliated them. But now, they dare not refute.

Hu Wuzhi clenched his teeth, got up and said, "master, I don't mean to offend you. Please forgive me. Hu is only here for this reason. Please don't interfere. "

Ning Badou also gritted his teeth and said, "this son robbed the treasures of both of us. He also played tricks on both of us. He had a bitter hatred with both of us."

"I know that he has no intimate relationship with master Kuye. He just came to ask for your help, so please don't interfere in our affairs."

Although they are afraid of the strength of master Kuye, they are not willing to let Wang Fan go.

Wang fan not only robbed them of their prefecture level martial arts skills, but also secretly attacked and injured them. This is a shame. How could they say that.

Wang Fan looked at the scene and said it was not good.

Although he also shocked the strength of master Kuye, he knew that he had no friendship with master Kuye at all, and others might really ignore him.

Once master Kuye doesn't care about him, he and hanqingyi will be in danger.

Don't look at the two guys. They seem to be seriously injured now, but it won't take much to kill Wang Fan. After all, there is a big difference between them.

Thinking of this, Wang Fan quickly said, "master Kuye, the reason why I have a feud with them is that I have robbed them of their prefecture level martial arts. If you are willing to help me, I am willing to offer them."

Although Wang Fan didn't want to hand over his prefecture level skills, he had no choice now.

No matter how important the prefecture level martial arts are, it's not as important as his small life. Now his small life is about to die. What more prefecture level martial arts do you want?

When they heard Wang Fan's words, their faces immediately changed.

They didn't expect that Wang Fan even said something about prefecture level martial arts.

It's a prefecture level martial art. Even if it's a treasure that the strong in heaven dream of, will master Kuye not be moved?

They already have a bad feeling.

When master Kuye heard the four words of prefecture level martial arts, he just looked at Wang Fan inexplicably, and then coldly looked at Hu Ning and Hu Ning,

"do you want me not to interfere? How shameless is that old man? "

"What do you want to do, how do you want to do it, and when is it your turn to tell you what to do? What are you? "

He waved his sleeve, his tone became cold in vain, "go away, give you ten breath time, disappear immediately, otherwise don't blame me for killing you!"

Hu Ning two people listen to this words, the facial expression suddenly changes greatly, it is one face of

suppress bend.

They thought it was just a matter of hands to win Wang Fan, but they never thought that a strong master of withered leaves appeared on the way.

At the thought, the mole ant Wang Fan who provoked them was right in front of their eyes, but they couldn't move. That kind of taste was not to mention.

"Yes, we're going now." They hate to see Wang Fan one eye, unwilling to gnash their teeth, said, turned to the outside.

However, just as they got to the door, suddenly -

with a bang, their toes were crazy, their powerful momentum spread, and then they suddenly turned back towards the rear.

Hu Wuzhi directly sacrificed a big tripod. The tripod roared and roared to the dead leaf master.

Ning Badou took out a flying sword, which broke through the air and set off a fierce attack. He swept directly to master Kuye. For a moment, the tripod and flying sword occupied the whole space, and everywhere was full of crazy killing power.

"Die

"Die

Their eyes are emerging out of the crazy light, momentum killing are urged to the extreme.

It's a prefecture level martial arts skill. If you want them to give up, they will not be reconciled. Even if they die, they will fight back madly.

Wang Fan's face became ugly, almost without hesitation, he began to retreat with cold green clothes in his arms.

At the same time, the aura in the body roars, forming one vigorous Qi after another on the body surface.

Hu Ning two people, is not now he can compete, so he can only hope with the dead leaf master.

Master Kuye looked at this scene, but his expression was that there was no wave at all, as if he had expected.

He flashed a touch of sarcasm in his eyes, flew up in the air in an instant, and a huge black stick appeared in his hand. He grabbed it with both hands and blasted it down.

The sharp air awn was torn out, and the huge black stick rolled up the boundless killing power, and immediately hit the tripod.

With a bang, the huge tripod, just like scrap metal, had been smashed and dropped to one side.

After the big tripod was hit by the huge black stick, he continued to go crazy to Ning Badou's flying sword.

When!

There was another crisp sound. In the sparks, the flying sword was smashed in two and flew out of the courtyard.

Hu Wuzhi and Ning Badou looked at this scene, their faces changed, and they became extremely frightened, and they were extremely scared.

What strength is this?

They can't even imagine it!

However, they have already understood that the strength of master Kuye is far beyond them, and they can't match him at all.

"Hum, you are really thick skinned to attack my old man. In that case, I'll give you a ride."

But the withered leaf master is sneer, once again volley to jump up, both hands holding that huge black stick, crazy to Hu Ning two people.

"No!"

"No!"

Looking at the scene, Hu Ning and his wife screamed in horror, but it was too late.

With two roars, their bodies, like broken kites, flew upside down, bleeding all over.

Chapter 1555

"Hum, I dare to attack my old man." After killing them, master Kuye snorted with disdain and directly took out a handful of powder and sprinkled it on them.

A burst of disgusting hiss came, two people instantly became a pool of blood evaporation, disappeared a clean.

Wang Fan looked at this scene, it is a cold sweat straight out.

He was afraid. Fortunately, he got Wuzhen grass. Thanks to master Kuye, he really rescued hanqingyi.

Otherwise, he still wants to use the strong, now think about it, it is simply ignorant fearless.

If he had been strong enough to master Kuye, he might have been dead by now.

Thinking of this, Wang Fan was in a cold sweat. He quickly took out the two volumes of prefecture level martial arts, went to master Kuye and said, "elder, this is the prefecture level martial arts I got."

When he said this, he felt some pain in his heart. It was a prefecture level martial art, but even if he felt pain again, he had to hand it in. Otherwise, master Kuye would not be able to leave any residue.

"Hum, what kind of person do you think my old man is? He's just a prefecture level martial art. Do you think my old man can see it?"

But to Wang Fan's surprise, master Kuye didn't even look at the prefecture level martial arts. He waved his hand impatiently, "let's go, my old man is going to have a rest. Remember that you owe me a favor."

Wang Fan was stunned when he heard this.

Is there such a person who even despises the martial arts at the prefecture level?

But he didn't talk nonsense. He said respectfully, "don't worry, master. If you have an assignment in the future, as long as I can do it, I'm absolutely duty bound."

Wang Fan's words came from his heart. Anyway, master Kuye saved his life and Han Qingyi's life. If he could repay him, he would.

Finish saying, in withered leaf master's impatient wave hand, Wang Fan took cold green clothes to leave that broken courtyard.

Until he walked out of the distance, his heart was still a little shocked.

If you didn't see it with your own eyes, who would have thought that there were two Heaven level masters in this broken courtyard?

"Where are we going next?" After they leave the residence of master Kuye, Han Qingyi asks Wang Fan.

"Let's leave the dark cloud city first." Wang Fan replied.

If he doesn't know that Linghu mountain has a powerful master, maybe he will stay in Wuyun city for one night, and then leave tomorrow.

Can know Linghu mountain has a powerful master, Wang fan is a moment dare not stay in the dark cloud city.

Sima Yunyi is a strong man in the ninth floor of the earth. Although he is far worse than Hu Ning, he is still not so easy to deal with.

"Yes." Cold green clothes cleverly nodded, also did not say much.

Wake up to her, as if completely changed a person, no longer the past high cold, some, just gentle.

Her face was already red, delicate and ruddy. She didn't look like a person who had just awakened from a serious illness.

They ran towards the outside of the dark cloud city quickly, but before they reached the gate of the city, Wang Fan's face changed, and his brows wrinkled tightly.

His mental power is clear to sweep, an old man about sixty years old with Linghu mountain, suddenly ran out from a restaurant, followed by him.

Linghushan that look at his eyes full of venom, the old man's body also bloomed a strong murderer.

Wang Fan cried in his heart that it was bad. He didn't expect that his luck was so bad. First, he was almost killed by the two bastards of Hu Ning, and now he was discovered by Linghu mountain.

But he didn't stop, and he didn't look back. Instead, he sped up.

Sima Yunyi is not in a hurry to stop him, but with Linghu mountain closely behind.

His eyes only kill and banter, as if Wang Fan has been taken as a prey, not afraid of Wang Fan escape.

Wang fan is not happy in his heart. He has no power. He has no status. He has been taken as a prey. Is it hard for him to bully Wang Fan?

"What's the matter, is something happening?" Cold green clothes see Wang Fan's face change, can't help but in the heart a sudden, ask a way.

Wang Fan nodded, "yes, there are two guys who don't have long eyes catching up. We'll get out of town first, and then we'll find a way to get rid of them. "

Cold green dress listens to this words, immediately no longer talk, just in the heart worried.

Later, linghushan and Sima Yunyi are also talking.

Linghushan looked at Sima Yunyi and asked, "master, why don't you kill him earlier?"

Linghu mountain in the moment of speaking, the eyes are blazing staring at cold green clothes, he did not expect, wake up cold green clothes even have this kind of beauty, he can't wait to trample cold green clothes.

Sima Yunyi shook his head slowly, "don't worry, I see their direction, seems to be to go out of the city, in this case, I will go outside the city to start again, also save the trouble." "Well, let them live a little longer." Although linghushan can't wait to kill Wang Fan for revenge, he can only nod his head after listening to the master's words.

Wang fan saw that Sima Yunyi was not in a hurry. He immediately guessed that this guy mostly wanted to wait for himself to get out of the city.

Wang Fan sneered in his heart and immediately gave up the idea of going out of the city. Instead, he went straight into a restaurant.

When Sima Yunyi saw that Wang Fan had entered the restaurant, his face immediately changed. He couldn't understand what Wang Fan was doing when he entered the restaurant.

But he is no nonsense, but directly with Linghu mountain with the past.

Just as they entered the restaurant, they saw that Han Qingyi went up to the second floor. Without hesitation, they immediately followed him.

Just then, Sima Yunyi's face suddenly changed.

A strong killing machine itself came back, and then a strong wind penetrated the air, directly towards his head.

Sima Yunyi's face changed greatly, and his whole body's aura was surging wildly. In an instant, he started shooting with Linghu mountain.

But it's still a little late.

Hiss a, that sharp knife awn, directly rolled his right arm, split on the body of Linghu mountain.

Accompanied by a spray of blood fog, Linghu mountain was split in two in an instant and died on the spot.

Looking at this scene, the faces of the few people in the restaurant changed.

They did not expect that all of a sudden, such a bloody scene would happen.

Sima Yunyi is more to crack, he looked at the moment of death Linghu mountain, a heart like a knife.

Although Linghushan is his apprentice, he treats him as his son. But now, Linghu Mountain was killed under his protection.

How can he bear such humiliation?

Sima Yunyi looks crazy and looks at Wang Fan who sneaks on him with cold eyes. His body is full of murders. "You want to die!"

He didn't expect that Wang Fan would use the cold green clothes to attract their attention and sneak attack behind his back.

This is really unexpected.

Just in response to Sima Yunyi, but still a knife!

Chapter 1556

"To die? You Sima dare to follow me. I see you are the one who is looking for death!" Wang Fan said with a sneer -

whew!

The sharp sound of breaking the air comes, the bright light flashes, and a hundred Zhang long sword emerges. It directly cuts to Sima Yunyi.

When the huge awn was split, it split into two parts, two parts and three parts, and soon split into countless pieces.

For a moment, the whole space was full of flashing, hissing and killing.

"Good boy, no wonder you are so arrogant. It's because you have a set of mysterious martial arts skills!" Sima Yunyi looked at the scene and couldn't help sneering.

As a strong man at the top of the nine levels of the earth, his eyesight is naturally extraordinary. At a glance, he can see that Wang Fan's cloud splitting Sabre technique is a mysterious martial art.

He didn't have the slightest fear. There was a whisk in his hand. The whisk waved and the light flashed. It also split countless paths in an instant, and set off a series of killing intentions, rolling towards the sword awn.

Hiss, hiss, hiss!

The two collided, making a deep sound.

In that frenzied spirit, the tables and chairs around had been stirred into countless pieces in an instant. And those guests who are closer to each other have already been far away.

But even so, there are still a few people who can't dodge. They are directly strangled by the light from Sima Yunyi's whisk. The red blood is sprayed out and the whole ground is dyed red.

"Sima Yunyi, this is the strong man hidden in the dark cloud city, Sima Yunyi!"

"It is said that Sima Yunyi is already a strong man at the top of the ninth floor of the earth. He is only one step away from entering the mysterious heaven."

"Who is the young man who confronts with Sima Yunyi? He is so bold and courageous that he dare to attack Sima Yunyi secretly."

The faces of those lucky enough to escape all changed when they saw the scene.

Although most of the people here have never met Sima Yunyi, they have heard of his prestige.

Sima Yunyi is a strong man who has been famous in Wuyun city for a long time, but he has not been born in recent years.

Rumor has it that Sima Yunyi's weapon is to brush the dust, and his famous stunt is to brush the dust.

At that time, Sima Yunyi, with his unique skill of becoming famous, didn't know how many Tianjiao and good players he killed.

Wang fan saw that Sima Yunyi held off his attack with a brush. His face didn't change much. Instead, he continued to wave his sword and cut it madly.

The waves of swords followed one another, and the admiration of swords followed one another. They were intermittently thick.

It seems that his aura is inexhaustible and inexhaustible, and does not give Sima Yunyi a chance to breathe.

Sima Yunyi sneers repeatedly, waving the same fury of attack, only disdain and sneer in his eyes.

It's ridiculous that a mole ant on the sixth floor should compete with his Sima Yunyi for the richness of his aura.

The roaring sound continued to resound. Soon, the whole floor of the restaurant had been destroyed into a mess, but no one dared to say anything.

Those around them were even more surprised. None of them thought that Wang Fan could fight with

Sima Yunyi to such a degree.

Some moment -

boom!

Another blast came out, and Sima Yunyi's brush directly rolled Wang Fan's shadow knife out and put it on the wall.

Wang Fan as a whole, also can't help but spew out a mouthful of blood, was kicked back a few steps.

Looking at this scene, everyone can't help but feel sorry for Wang Fan. They know that Wang fan is no longer available. Even the weapons have been sold, and Wang fan is doomed.

Sima Yunyi looked at this scene, but he was a little stunned. Obviously, he didn't expect that Wang Fan's weapon would be sold, and he also spurted blood.

You know, before his strength did not increase much ah, Wang Fan's shadow knife is no reason to be picked out.

But soon, Sima Yunyi stopped thinking about it. Instead, he couldn't help laughing, "little boy, I want to see how arrogant you can be without weapons!"

"Dare to kill my disciple lingshan, dare to humiliate my Sima Yunyi, today if I don't let you die of torture, I will be a teacher in vain!"

Sima Yunyi grins grimly, puts away the dust and strides towards Wang Fan.

At the moment of stepping on Wang Fan, his dry right hand had already come out, suddenly became a claw, and directly grasped Wang Fan's neck.

Wang Fan killed Linghu mountain and called him Sima Laoer. It's a shame!

If he killed Wang fan so easily, how could he get angry?

"Oh, really? Mr. Sima, I want to see how you made me suffer and die today. " But to Sima Yunyi's surprise, Wang Fan also laughed.

Facing his right claw, Wang fan not only didn't avoid it, but also waved his hands and pushed it forward.

Whoosh! A light seal broke the air, rolled up a burst of air, and bombed him crazily.

At this moment, Sima Yunyi's face changed, and he became extremely shocked.

Without any hesitation, he immediately began to retreat.

In the burst back at the same time, his heart is also can't help but start exclamation.

God, this man is Wang Fan. He is the evil genius who killed Dan Taiming and betrayed jijianmen. Wang Fan!

Wang Fan's prestige has already spread throughout the whole Tianyun Kingdom, and his Sima Yunyi certainly knows it.

And Wang Fan's unique skill of becoming famous is a mountain climbing seal.

Sima Yunyi was frightened. If he had known that this man was Wang Fan, he would not have come to kill Wang Fan.

Although Wang Fan's strength is only six levels, he has killed Dan Tai. How can he not be afraid?

Not only Sima Yunyi, but also the people around him recognized Wang Fan at this moment. They couldn't help but marvel.

"Wang Fan, he turned out to be Wang Fan, the Tianjiao who killed Dan Taiming and betrayed jijianmen, Wang Fan!"

"My God, how can Wang Fan be here? I heard that countless sects have sent their elders and disciples to look for Wang Fan, and even the royal family has sent out experts. "

"It turns out that he is Wang Fan. What a proud young man!"

Boom!

Among the public's comments, there was an explosion. The mountain climbing seal had been bombed madly on Sima Yunyi.

Sima Yunyi only felt a violent force coming, and his whole body was spewing blood, and he was immediately blasted out.

Only at this time, his heart is the emergence of endless regret.

Wang Fan was not as powerful as he had been rumored to be, and he was not as terrible as he had imagined.

He is so hateful. If he had dealt with it earlier and resisted it crazily, he might not have been able to resist it!

But now, it's too late to say anything.

His previous surprise, directly lost the chance to resist.

Sima Yunyi knocked over the table and fell heavily on the ground, leaving the whole scene in a dead silence.

He's crazy with his spirit power, and wants to fight back for the last time.

But Wang Fan didn't give him a chance at all. He suddenly took out the shadow knife nailed into the wall, rushed forward again and chopped it down.

"I hate it, I'm not willing to!" Sima Yunyi is not willing to roar, but with the roar of the bright sword, his body splattered with countless blood mist, completely unconscious.

Sima Yunyi, die!

Chapter 1557

Looking at the dead Sima Yunyi, there were bursts of air-conditioning.

No one thought that he was as strong as Sima Yunyi and died in the hands of Wang Fan.

You know, Sima Yunyi is a strong man at the top of the ninth floor of the earth. He is only one step away from entering the heaven. But even so, he was still killed.

At this time, hanqingyi had already come down from the second floor.

Previously, she had been watching the battle between Wang Fan and Sima Yunyi upstairs, and she held her breath for Wang Fan. Now when she saw that Sima Yunyi was killed, she finally relaxed completely.

"Let's go." Wang Fan didn't talk much. He pulled up the cold green clothes and left the restaurant quickly.

He has learned from the voices of those around him that countless sect experts are looking for him, and even the royal family has sent out experts.

It's not good for him. He has to get out of here as soon as possible.

The Royal Nie family is one of the most powerful forces in Tianyun kingdom. Once he's caught by the royal family, it's hard to predict the outcome.

Wang Fan with cold green clothes all the way gallop, more than ten days later, came to a small city called beizhou.

This city is not big or small. It's a medium-sized city. Although there are martial arts practitioners in the city, most of them are not very strong.

Wang Fan directly bought a small courtyard in Beizhou City, and then lived with Han Qingyi.

He needs to practice here for a period of time to settle down in Hanqingyi, and then he can find ways to find cultivation resources and improve his strength.

The Royal Nie's family is like a big mountain, pressing on his heart. With his strength at this time, he has no strength to set foot in the Imperial City, and even less to seek revenge from Nie Sirius.

Wang Fan didn't know that on the second day after he left the city, countless masters of the clan forces rushed to the city to find his trace.

It's just a pity that those people are all in the air, and Wang Fan has disappeared again without a trace.

Most of the clan forces gave up the search for Wang Fan.

After all, they are all martial arts practitioners, and they still need to practice. They don't have time to devote all their energy to looking for Wang Fan.

What's more, even if they can find Wang Fan, Wang Fan may not agree to join their clan.

Only the royal family are still searching for Wang Fan. They are all ordered to kill Wang Fan. If Wang Fan does not die, their task is not over.

Beizhou City, a humble courtyard, one of the rooms.

Wang Fan has carefully taken out the two volumes of prefecture level martial arts.

It's a prefecture level martial arts skill. It's something that countless powerful forces dream of. Now it's in his hands.

Naturally, he was also very excited. Even when he opened his martial arts skills, he was a little careful, for fear of being damaged.

These two volumes of prefecture level martial arts, the lightness skill is called "fog, shadow and streamer". When you practice to the extreme, you can turn into shadow and fog, disappear instantly, and fly hundreds of miles faster than the speed of light.

Of course, this is the case of theory, in fact, if their own strength is not strong enough, it is impossible to practice to the extreme. And even if the cultivation is to the extreme, the speed can not be so fast.

After all, if you are just a strong man who can get out of the ordinary world, even if you practice to the

extreme, you can't be thousands of miles away. Let alone a hundred miles, even if you can blink ten miles, it is very adverse.

And it's very difficult to practice to the extreme. Although fog, shadow and streamer are prefecture level martial arts skills, they are very adverse to heaven, but they are also very strict with the requirements of cultivation, and it is also very difficult to cultivate.

Another volume of prefecture level martial arts is called "Ji Mie axe", which is a kind of explosive attack martial arts with extremely strong power. It can cut mountains and rivers with extreme cultivation, which is also very terrifying.

Wang Fan looked at these two volumes of martial arts, but he frowned.

Because in his memory, when Hu Wuzhi and Ning Badou were fighting, neither of them used these two volumes of martial arts.

Wang Fan didn't know that Hu Wuzhi didn't use fog, shadow and streamer because he was not afraid of Ning Badou and didn't need to use lightness skills to escape.

Ning Badou, in fact, used the annihilation axe, but instead of an axe, he used a sword instead.

If you can use the sword instead of the axe, his power will be greatly reduced. In addition, he didn't practice well, so he didn't exert much power at all. That's why Wang Fan didn't see it.

Wang Fan looked at these two volumes of martial arts, no nonsense, directly take out the fog shadow streamer, first practice up.

Now for him, body method and martial arts are the most important. After all, he can't escape.

As for the offensive skills, he already has the skills of mountain climbing seal, cloud splitting sword and gang Lei Quan. Although they are monotonous, they are at least the means of attack.

It's not too late for him to practice the silence axe after he has practiced the fog shadow streamer.

In this way, Wang Fan practiced fog shadow and streamer in his room. As for Han Qingyi, he also consolidated his cultivation. As time goes by, half a year passes in the blink of an eye. In the quiet courtyard, Han Qingyi, dressed in white, sits on a stone stool, just like a fairy out of the dust.

Her beautiful eyes were full of brilliance, looking at the flashing lights and shadows in the courtyard, and her cheeks were full of happiness.

After half a year's recuperation, her injury has not only completely recovered, but also her strength has broken through to the ground level, and her progress is rapid.

And perhaps because of cultivation, her whole body is also more beautiful. Her breath is flowing and charming. If you go out, it will definitely cause the madness of countless men.

In half a year, Han Qingyi has been used to this kind of quiet life. He has no worries, no words and no struggle with the world.

There is no intrigue, there is no killing, there is only comfort and tranquility.

Every day in addition to practice, she sits in the courtyard and looks at Wang Fan quietly. She only feels extremely rich and happy.

The light and shadow in the courtyard keep flashing back and forth, just like lightning. Sometimes, the light and shadow will even disappear directly, and there is no trace at all.

Of course, in fact, the light and shadow did not disappear, but because the speed was too fast, the naked eye could not catch it.

At a certain moment, with a whoosh, the light and shadow stopped suddenly, and Wang Fan's figure flashed out.

After half a year's cultivation, the fog and shadow streamed. He had achieved a little in his cultivation, and he was completely in the door.

He believes that if he meets a strong man like Hu Wuzhi and Ning Badou again, he will have enough confidence to escape from the other side when the other side does not have the body method and martial arts.

Moreover, after six months of cultivation, Wang Fan's strength has reached the eighth level of the earth's realm, only one step short of entering the Ninth level of the earth's realm.

Now that he meets a strong man like Sima Yunyi, who is at the top of the ninth floor, he doesn't need to use the mountain climbing seal at all.

He doesn't even need martial arts. He just needs to rely on his body method and general attack to kill his opponent.

"Take a break. I've already cooked the meal." Cold green clothes see Wang Fan stop, while saying, while grabbing a white towel went to Wang Fan in front of, gently wipe the sweat on the forehead for Wang Fan.

Wang Fan looked at the gentle cold green clothes. His eyes were also soft. He gradually got used to this kind of quiet days, and even had the idea of seclusion for several times.

However, he knew that it was impossible. He had to do some things.

And outside, he still has many people who care about him. He can't spend his whole life with Han Qingyi.

Chapter 1558

On this day, outside beizhou City, countless cold men in black riding on reddish brown horses rushed into beizhou city.

Where we have passed, the sand flies away and the dust billows.

There are 20 of them, with machetes on their backs and cold light. The breath of each of them is very strong.

The breath of iron and blood came to our face, giving us a heavy sense of oppression. At first glance, the characters who were honed out of the blood fire did not know how many people's blood they were talking about.

The roadside people look at this line of cavalry, feel their blood like breath, all panic to avoid, deeply afraid of causing disaster.

This group of people, at a glance, know that they are not ordinary people, ordinary people simply can not be provoked.

And they also have a special flavor of soldiers, obviously not the Royal Army, or the private army of big family forces.

A group of 20 men didn't go to see the passers-by at all. The cavalry set off a dust wind and soon went deep into beizhou city.

More than ten minutes later, they came to a huge house.

"My Lord." As soon as they got off the horse, a middle-aged man in luxurious clothes met them.

The middle-aged man was in his forties or so. He was well-dressed and had a lot of status at first sight. However, when he faced these 20 people, his face was full of flattery and respect, and he was extremely humble.

"Well." The man in black nodded coldly and then said, "are you sure that Wang fan is in beizhou city? Do you know the cost of cheating us?"

The voice of the man in black is very cold. With his mouth, there is a violent anger on his body. Under the oppression of that anger, the middle-aged man's face turns pale.

"How dare I cheat adults? I'm sure they're in beizhou City, absolutely right." The middle-aged man

shivered and spoke quickly.

But he knew that these people were all elite cultivated by the royal family. They all grew up on the basis of numerous corpses, with countless blood in their hands. They were decisive and cold.

Although he had a little connection with the royal family, he even knew a member of the royal family with a high status. But if these people want to kill him, he will still die in vain. There is no reason at all.

"Well, take us now." The man in black listened to the middle-aged man's words. His face softened and he spoke coldly again.

His eyes were cold and he looked very excited.

They have been chasing and killing Wang Fan for nearly a year.

In this year's time, they are almost constantly on their way, constantly looking for the trace of Wang Fan.

But what depressed them was that they either didn't hear from Wang Fan at all, or they got the news from Wang Fan, but they didn't know.

This makes them very depressed and depressed. They feel as if they are holding a fire, but they have nowhere to vent.

Now it's not easy to get Wang Fan's news again. They can't wait to kill Wang Fan, finish the task, and then go back to the imperial city.

After all, after nearly a year of hunting Wang Fan, they are very tired.

For the first time in so many years, they have been pursuing and killing so hard and so oppressive.

"Good, good." The middle-aged man didn't dare to neglect him. He quickly wiped a cold sweat on his forehead and ran to Wang Fan's residence with the twenty iron cavalry.

In their eyes, there is a chance of killing.

This scene, of course, once again attracted the attention of countless people.

Although most of the passers-by are local residents of northern state, there are some insightful people.

At a glance, they recognized that these 20 people were the elite of the royal family, and they were the hunters who specialized in hunting down the enemy.

God, the Royal hunters have come to beizhou City, and they are still murderous. What are they going to

do?

The passers-by who recognized his identity was very shocked. He grabbed the communication bead to pass the message to his friends and followed behind.

One spread ten, ten spread 100, for a time, the whole city of beizhou was a complete sensation.

Almost everyone knows that royal hunters have come to beizhou City, but they don't know who these hunters are.

Is it hard to be a big man in beizhou?

For a moment, most of the people in beizhou city lost what they were doing and ran towards the hunter crazily.

Although the 20 hunters were aware of the following passers-by, they didn't care.

They also need to show their authority. As long as those people don't interfere with their actions, they won't do it.

When the passers-by saw that the Royal hunter came to Wang Fan's residence, they were immediately shocked.

Is it difficult for these hunters to deal with the couple living in the courtyard? It's a little unlikely, isn't it? The couple are so young that they don't seem to be the most vicious.

But the 20 hunters did not allow them to think about it at all. They kicked the door of the courtyard open and strode into the courtyard where Wang Fan lived.....

in the quiet courtyard, Wang fan is holding a rusty axe and studying the silence axe.

Cold green clothes is in the side quietly looking at, the picture is very peaceful.

Suddenly, at a certain moment, Wang fan made a sudden move and turned to the East.

From that position, he felt a touch of evil spirit.

The evil spirit is so strong that it can only appear on people who have killed hundreds of people.

Wang Fan felt uneasy. His mental power swept out crazily. He immediately found that there were more than 20 people rushing towards his residence.

Although the strength of Han Qingyi is not as good as Wang Fan, he can also feel the breath of blood evil, and the pretty face also becomes dignified.

"Qingyi, you go back to the room first. I'll see who this person is." Wang Fan said to Han Qingyi, and then stood there with a huge axe, waiting for the arrival of the other party.

Because at this time, he wanted to go, and it was too late. The most important thing is that although these 20 people have a strong spirit and strength, Wang fan is not afraid.

As long as there is no strong one in heaven, he will be qualified for the first World War. Even if the other side has 20 people, he is not afraid at all.

Boom!

With a loud noise, the door of the courtyard was kicked open, and the twenty people instantly appeared in Wang Fan's courtyard.

After they appeared, they directly dispersed and surrounded Wang Fan. Their strong breath surged out and locked Wang Fan firmly.

However, when the first man saw the rusty axe in Wang Fan's hand, he couldn't help frowning.

He stared at Wang Fan and asked coldly, "are you wang fan? The fugitive Wang Fan who killed Dan Taiming and betrayed jijianmen? "

He looks a little puzzled. It's said that Wang Fan didn't use a sword. When did he start to use an axe?

This made him suspect Wang Fan's identity for a while.

After all, although he has seen the portrait of Wang Fan, there is still a gap between the portrait and himself.

Fugitive?

Wang Fan listens to this words, bang ground for a while, instantly angry.

He doesn't have to ask, he already knows the identity of these people, the royal family!

Chapter 1559

"Fugitive?" Wang Fan sneered, "it's really ridiculous. Which eye of you saw that I escaped, and which eye saw that I was a prisoner?"

"It's just a group of Nie's dogs. Do you really think you're great? How dare you say that someone else is a fugitive

"I'd like to ask, are you criminals who break into my house for no reason?"

Boom!

Listen to Wang Fan's words, the scene instantly completely exploded.

The 20 Royal hunters became even more angry. They didn't expect that Wang Fan was so rampant and dared to challenge them and the authority of the Nie family.

It's really, really bold.

Those who followed, however, could not help but gasped.

How dare Wang Fan fight with the Royal hunters? Is this the rhythm of seeking death?

You know, in this cloud country, the Nie family is the heaven, and the Nie family is the master.

It can be said that whoever the Nie family wants to die will die. No one can compare the hegemony of the Nie family. No one dares to challenge the authority of the Nie family!

No one or force has ever dared to challenge the Nie family. Even the ten major sects dare not so openly challenge.

But now, Wang fan is doing so, how can they not shock?

At the same time, they also know the identity of Wang Fan.

God, this man is Wang Fan. He is the demon Tianjiao who killed Tianjing strongman Dan Taiming and betrayed jijianmen. Wang Fan?

Everyone was shocked.

They didn't expect that Tianjiao Wang Fan, the evil who made a stir in Tianyun country half a year ago, actually lived in seclusion in such a small city in beizhou.

No wonder the royal family has sent 20 hunters directly.

But when did Wang Fan offend the royal family? The royal family didn't want to recruit Wang Fan for their own use, and even wanted to chase Wang Fan. What's the matter?

Everyone is puzzled.

The hunter leader listened to Wang Fan's words, his eyes became cold, and he became angry instantly. He couldn't help but hiss wildly, "dare to challenge my royal authority, you are so brave!"

Boom!

However, as soon as his words came to an end, Wang Fan chopped them directly.

Wang Fan's axe blows out, and the sound of buzzing between heaven and earth resounds, and the aura of the surrounding heaven and earth is stirred up in an instant.

Golden glow flow, a terrible power spread out, the whole space, all in a flash become violent.

It's killing!

The head of the hunter felt the scene, his face became more ugly, and his eyes also flickered with fear.

He never thought that Wang Fan would dare to take the lead.

He did not expect that Wang Fan's axe, even stirred up such a terrible killing power, which is really amazing.

But he didn't have time to think so much. With a clang sound, the machete behind him had already been pulled out, rolled up and killed Mang, and roared towards Wang Fan crazily.

Boom boom!

The deafening roar resounded, Wang Fan's axe awn instantly smashed the hunter leader's knife awn, and continued to split toward his body.

Unstoppable!

After all, annihilation axe is a prefecture level martial art. Even if Wang fan doesn't master it well, the power is not what ordinary people can resist.

The leader of the hunter felt this scene, and his eyes suddenly became shocked. Obviously, he didn't expect that he could not even take Wang Fan's axe.

He is a strong man in the eight levels of the earth. He is also a strong man in the eight levels of the earth. He is not comparable to other people in the same level.

And Wang Fan, it's said, is only in the fifth floor of the earth. When did he become so powerful?

As soon as he thought of it, Wang Fan's axe was frantically cleaved on his left shoulder.

With a burst of blood, his whole shoulder was split down and fell to the ground.

Looking at the hunter who was almost cut off by Wang Fan in an instant, the whole scene became silent

and the needle could be heard.

No one thought that Wang Fan was so powerful and terrible that he defeated the powerful Hunter leader with one move.

The faces of the other 19 hunters changed in an instant.

They also did not expect that in less than a year, Wang Fan had grown to such a stage.

You know, when they left the Imperial City, Wang Fan only had five levels of strength.

It's just the fifth floor of the earth. No matter how fierce it is, it can't be the opponent of their leader.

As for Wang Fan's killing of Dan Taiming, a powerful man in heaven, although most people don't know the truth, they are only confused by exaggerated rumors.

But as members of the royal family, how can they not know?

If there is no one else to help, with just Wang Fan, can you kill Dan Taiming? It's a dream!"Say I'm a fugitive, arrest me? I'd like to ask, what have I done? Why do you arrest me? "

Wang Fan swept coldly to the leader of the hunter, "I have no grievance with the Nie family, but the Nie family sent you to kill me. What do you mean? Is the Nie family so overbearing and unreasonable? "

Truth?

Listen to this, everyone's face changes again.

In this world, strength is the truth. Without strength, where is the truth?

Of course, no one dares to say that.

The leader of the hunter is also very angry. He originally wanted to show his prestige in front of so many people and raise the prestige of the Nie family.

But never thought, he not only did not raise the prestige, but also was defeated by Wang Fan in a flash, was cut off an arm.

This is his disgrace. He is also a member of the family.

If this story is spread out, where is the dignity of the Nie family and their hunters?

"Go up together and take him down!" He didn't talk nonsense any more. He raised his hand and gave the order crazily.

Wang fan can even beat him. If they want to win Wang Fan, they can only go up together. Otherwise, it will only be broken by Wang Fan and his face will be even worse.

With his voice, clang clang, the other 19 hunters all moved.

The machetes behind them flashed and set off a series of extremely sharp knives, frantically cutting Wang Fan from all directions.

Countless knives are tearing the air, hunting, and the air is full of low explosive sound.

Under the fury of the knife spirit, the walls of the courtyard were broken and the stones rolled. The onlookers also hid in the distance in horror.

"You are really unreasonable. Since you want to kill me, don't blame me for being rude!"

"It's just right. I've been practicing martial arts for such a long time, but I haven't had time to use it in actual combat. I'll take you to practice today."

Wang Fan said indifferently, the light and shadow flashed, the whole person directly disappeared in place.

Fog shadow streamer, disappear invisible!

The 19 people's faces have all changed. They attack crazily, but now they have lost the trace of Wang Fan. How can they not be surprised?

Boom boom!

Their attack fell to the ground, split the whole ground in an instant, huge pits emerged, cracks extended, as if they had been dug three feet.

Watching the scene from a distance, people were shocked again. These hunters really wanted Wang Fan's life!

At this time, Wang Fan, who had disappeared, appeared again, flashing, and rushed towards the leader of the hunter who had broken his arm.

The streamer flashed, and in a twinkling of an eye, he had rushed to the leader of the hunter, raised the axe and blasted it down!

Chapter 1560

Wang Fan's use of fog, shadow and streamer, combined with the silence axe, is extremely fierce and can't be prevented.

The leader of the hunter didn't expect that Wang Fan's speed would be so fast, and he didn't expect that Wang Fan even killed him.

Sharp axe flash, when he reacted, it was too late.

With a hiss, the brilliance flashed, and the golden axe ran directly through his body. The blood mist sprayed out all over the sky. He let out an unwilling low roar, and fell to the ground in a panic. His life was annihilated.

Looking at this scene, everyone was shocked.

This is really terrible. The terrible lightness skill combined with this martial art is absolutely invincible.

No one thought that Wang Fan, faced with the encirclement and killing of 19 people, had successfully retreated, and even killed the leader of the hunter.

"He's dead. It's your turn. Even if you say I'm a fugitive and want to kill me, let's see who killed who. "

Wang Fan's cold eyes swept the 19 people whose faces were also shocked and ugly. The voice of indifference came out, and then flashed towards them in an instant.

The nineteen people looked at the scene, their faces changed in an instant!

"Set up One of them had a drink, and a line of nineteen people's faces flashed and flashed in an instant.

Soon, they formed two encirclement circles and surrounded Wang Fan in the middle.

At the same time, the big sword in their hands danced, and the sharp sword awn emerged in the air, and then connected to form a huge optical network, directly rolling towards Wang Fan and covering the past.

"What a terrible array!"

"This, this is the lock dragon array of the Nie family?"

"It's said that this dragon lock formation is extremely powerful. It can even live in the ancient imperial dragon. I didn't expect that these hunters used it to chain up the Dragon formation."

All the people around looked at the scene, and they were shocked, even pale.

In the middle of Wang Fan, also aware of a breath of terror.

The big net, which was condensed by the awn of the knife, almost covered the whole void above his

head. The silk thread was interwoven layer by layer and airtight, just like a huge eggshell, twisted towards him.

"Bug carving, break it for me!" With a roar, Wang Fan stepped on the ground with the sole of his foot, and his body soared into the air. He frantically urged the aura in his body, and with an axe he went out.

At this moment, the aura in his body roared like an angry dragon, and the annihilation axe was used to the limit that he could!

In this case, Wang Fan must not be careless, otherwise he will probably die on the spot, he must do his best to fight!

All over the sky, axe light flickers, condenses into a point, crazy split in one of the positions.

The roar of the sound resounded, as if two huge mountains collided with each other, it was shaking.

That huge knife net, under that impact, immediately and madly trembled, vaguely had the posture of being smashed, but it was not smashed.

The 19 people also had a terrible change in their faces. Five of them couldn't bear it directly. When even a mouthful of blood gushed out, they couldn't help flying out.

The other 14 people, though they didn't vomit blood, were also shaking and pale.

They were very frightened. The power of this axe was so terrible that it was absolutely beyond the level of Xuanji martial arts.

Fortunately, they have formed an array, and the attack power is multiplied. Otherwise, if this axe goes down, they will definitely be killed half of the people.

Because of the falling of five people and the unsteady breath of fourteen people, the big net was dim and its power was greatly reduced. But compared with Wang Fan, the power is still terrible.

At the same time, after a short tremor, the big net, which was about to split, began to condense and heal again.

Wang Fan looked at this scene, his face changed wildly. He didn't even think about it. He didn't even have time to breathe. His left fist had been pounding out madly again.

"Gang Lei Quan!" Angry roar, in an instant, thunder rolling, Wang Fan a heavy blow on the giant net.

With a bang, the huge net trembled madly again.

Some of the 14 people couldn't bear it, and they were thrown away by hematemesis again.

They have been completely shocked, Wang Fan's strength is really only the land? Isn't that horrible?

You know, the huge net formed by their formation, let alone the earth, can't even shake the strong in the early days of heaven.

"Break it! Broken! Broken At this time, Wang Fan has roared madly again, madly urging the only aura left in his body, holding a huge axe and bombarding madly one after another.

His eyes were ferocious, and his eyes were about to crack, and there was a fierce force that was close to madness in his eyes.

He doesn't believe it. He can't break the shell!

Wang Fan didn't dare to stop at all. One axe after another, he bombarded the net crazily. The roaring sound rang out, as if there had been an earthquake. This mysterious big net is so terrible that it can heal itself. How dare Wang Fan delay time to let it heal?

Under this kind of crazy bombardment, only the remaining 12 people who controlled the array changed their faces.

Originally they were bombed seven people, it was already very hard, now by Wang Fan such bombardment, where can bear to live?

Two hisses, another two people can't bear, spit blood to fall to fly, at the same time, with a click, that big net finally can't bear the heavy load, broke open.

Hiss, hiss, hiss.

As soon as the big net cracked, the other ten people couldn't bear it any more. They were directly attacked, and one by one they were blasted out.

One by one, they all became horrified, with extreme fear in their eyes.

Terror!

It's terrible!

What they didn't expect was that the 19 of them, using the Dragon lock array, didn't trap Wang Fan.

When is there such a strong master in the earth? What a monster!

Not only them, but also the onlookers were totally shocked. They couldn't believe this scene.

Lock dragon array, unexpectedly all can't trap of live Wang Fan, how is this possible?

Wang Fan didn't pay any attention to them at all. Instead, he stood aloof in the local area, just like a God, standing aloof in the world.

He hastily restored the spirit of the loss, while staring at the nineteen people, indifferent mouth, "smashed your shell, I want to see, you still have what to rely on!"

He said indifferently, his figure flashed, and suddenly rushed toward the nineteen people.

"Run away!" The nineteen people looked at this scene, their faces changed, they no longer had the courage to fight, and they began to run away crazily.

As hunters, they have never been seen to flee, and they have never escaped.

But now, they are not Wang Fan's opponents at all. If they stay here, they will be killed one by one and have no choice.

"Run away? Have you escaped? " Wang Fan only had a cold smile in his eyes. In an instant, he rushed to the front of them and swept out crazily with his right leg like a whip.

Boom!

With two loud noises, the two men's ribs cracked and were kicked to the ground. They had no ability to get up.

Wang Fan's eyes are like a knife. He continues to run to the other 17 people!

These seventeen people have been injured, they are lambs to be slaughtered!
