

Mighty Sk 1601

Chapter 1601

Under the accumulation of countless spirit grasses, Wang Fan quickly made a grade of pills. At first, the pills he made were inferior, but soon became medium, superior and special.

After refining the first grade elixir, Wang Fan didn't stop, but grabbed the second level spirit grass and started refining.

After continuous refining, Wang Fan soon became a second grade elixir, but he was still immersed in it and could not extricate himself.

At the moment, Wang Fan has completely fallen into the vast sea of knowledge about alchemy. He not only has a unique understanding of the composition and characteristics of lingcao, but also has more and more skillful alchemy techniques.

The most important thing is that Wang Fan was pleasantly surprised to find that although his strength did not rise, his mental strength was obviously enhanced.

With this discovery, Wang fan is very happy. You know, spiritual power can't be cultivated, but it can only be enhanced with the enhancement of strength.

Now, his alchemy can also enhance his mental strength. How can he not like it.

After all, the mental power becomes stronger, which not only means that the scope of his investigation can be wider, but even if he attacks with mental power, his power will be greatly increased.

Wang Fan forgot to eat and sleep, as if he had forgotten everything and was completely immersed in alchemy. He didn't stop until he succeeded in refining the top three pills.

At this time, Wang Fan was already disheveled and his clothes were also shabby. He looked like a beggar.

However, he did not care about his own image, but stood up.

Now that he is satisfied with his alchemy speed, it's time for him to go out and look for cultivation resources.

After all, lingcao was on his body, and he could take it out to refine pills at any time, trying to break through.

But the chance to enter Zongyuan's secret place is not always there. Once it's time to send it out, it will be very difficult for him to find lingcao again.

Wang Fan soon left the cave, but not long after he left, a fight came.

Wang Fan turned around and found that two monks were chasing a nun. At this time, the nun's clothes had been torn, revealing a large area of snow-white skin.

That white skin, there are even some small wounds, Mi Mi blood penetration out, looks very sad.

At this time, there was only endless anger in the nun's eyes. It seemed that she had never thought that this kind of thing would happen to her.

Wang Fan's mental power swept through, and then he found that he had seen, or even knew, this nun or the two men who pursued him.

But he is a little strange, these people are not together, how now it is fighting?

Because the nun was stunned to be Tianjiao of Tianyun Kingdom, that is, Su Yueyi, a purple woman who wanted him to follow but was rejected by him.

As for the two men who pursued Su Yueyi, although Wang Fan could not name them, he knew that they had participated in the encirclement and killing of themselves before.

One of them was Meng Ji, the third floor of Tianjing that Wang Fan wanted to kill when he ran away, but he couldn't.

"Yueyi fairy, you can't escape. You'd better stop. I promise that as long as you follow me, I will treat you well."

At this time, Meng Ji's face is full of evil smile. His eyes are staring at Su Yueyi in front of him. His eyes are full of fire.

Su Yue Yi listens to this words, simply is the spirit of shiver, the head also don't return of roar a way, "Meng Ji, you really don't want a face!"

"How could su Yueyi be blind? He even knew you! I tell you, my Su Yue Yi is not so active. You'd better think about the consequences. "

Su Yue Yi is extremely angry. She didn't expect that Meng Ji, who had been polite in front of her, would even give her hand.

If Meng Ji is the only one, she is not afraid of Su Yueyi, but Meng Ji is mixed up with Zhu Yun. That's not what she can deal with.

Zhuyun is also one of the pride of Tianyun kingdom. Its fame is second only to that of shigongzi and Su Yueyi. It also has three levels of strength of Tianjing.

"The consequences? What are the consequences? " Meng Ji couldn't help but grin, "Hey, Su Yueyi, I asked myself that I've got you right."

"But what did you do to me? Don't say you don't give me a good face at ordinary times. When you were killing Wang Fan, you didn't even do it. "

"Even if Wang Fan almost killed me in the end, you didn't mean to do it. You're such a bitch, you have a heart of stone."

He licked his lips, eyes full of evil smile, "don't worry, I will be gentle to you, I will let you have a good experience of the human bliss."

"Even if I kill you in the end, no one will know that I killed you, because it was Wang Fan who killed you."

Meng Ji laughed straight and cut it with a sword again. The sharp light of the sword stirred up and instantly tore it on Su Yueyi's few remaining clothes.

Whoa!With a sound, her clothes had been split in half again, and a piece of snow-white and greasy was exposed.

Looking at this scene, not only Mengji, but also all the Yun's eyes were filled with incomparable fanaticism, and their breath became short.

Su Yueyi, the goddess of Tianyun Kingdom, is the object that countless Tianjiao dream of.

But Su Yue Yi is very arrogant and cold to anyone.

Plus her background and strength are very strong, outside, no one dares to use malicious means against her.

But the secret place of Zongyuan is not the same. No matter how big the background of Su Yueyi is, it's not as big as here. What's more, there is a King fan who killed God.

At that time, as long as they put everything on Wang Fan's head, everything will be OK.

After all, Wang Fan had too many enemies in Tianyun Kingdom, and he killed so many Tianjiao in this secret place of Zongyuan. At that time, even if they put the matter on Wang Fan, no one will not believe it.

"Shameless!" Su Yueyi was so angry that her pretty face was so white that she said, "Mengji, Zhuyun, even if Su Yueyi is dead, you won't succeed. I'll feel sick if I just look at you! "

Su Yue Yi screamed. There was despair and sadness in her eyes.

Are you going to die here?

Although she thought that she would die when she entered Zongyuan, she never thought that she would die in such a way.

"Dead? Ha ha, even if you are dead, we will not let you go. Just accept your life. " Meng Ji's shameless laughter and crazy expression made people tremble.

Su Yue Yi listens to this words, more despairing, her that beautiful cheek slides down two lines of clear tears, immediately after then urged the spirit in the body, plan to explode.

But at this time, a voice suddenly came over, "I've seen shameless, and I really haven't seen you so shameless. It's insulting to say you're scum. "

And listening to this sudden voice, Meng Ji, Zhu Yun, and even Su Yueyi's face changed greatly!

Chapter 1602

"Who?" Meng Ji couldn't help but ask, but his heart was filled with horror.

You know, his mental power has been scanning all around, and no one has been found. But now, a fourth voice suddenly appeared. How could he not be afraid?

The most important thing is that Su Yueyi's identity is sensitive. If people see him humiliating Su Yueyi, how can he bear the anger of the Su family?

Zhu Yun's face was also ugly. His eyes swept around like a knife and began to investigate carefully.

Only, but also nothing.

Compared with their shock and uneasiness, Su Yueyi was very happy. She quickly stopped her body and cried out, "please help me. Su Yueyi will repay you in the future."

There was ecstasy in her heart, and it was the end of the world.

After all, she doesn't want to die if she can't.

"Well, I really don't want to meddle in your business. How nice it is to watch your dog bite your dog? But you are so shameless that you want to set me up. I really don't care. "

Wang Fan sighed and came out slowly from a distance.

Looking at Wang Fan, Meng Ji and Zhu Yun's eyes were dazed.

The reason why they are in a daze is not that they recognize Wang Fan, but that this person's image is really bad.

His hair is messy, his clothes are broken, and even his face is dirty. Except that his eyes are bright, the rest are useless. If he puts it outside, he is a beggar.

But they know that this man can't be a beggar.

Because those who enter Zongyuan's secret place are all geniuses among geniuses. How can beggars come in?

Because Wang Fan's image is really not good, Meng Ji three people, for a time unexpectedly can't recognize Wang Fan.

"My brother, I like to make friends in mengjiamengji. If you don't mind your own business, after we taste the woman, you can also taste it. "

"You know, it's Su Yue Yi, the pride of the Su family. Even if you look at the whole Tianyun Kingdom, it's also one of the most beautiful flowers."

"As the saying goes, if you die under the peony, you will be a romantic ghost. If you can have a taste of this woman, why don't you do it? "

Meng Ji didn't immediately fight against Wang Fan, but arched his hand and said with a smile.

Wang fan can appear without his awareness, which is obviously very unusual. He is not willing to offend such a person.

What's more, if you let this guy taste Su Yue's clothes, he won't have to worry about Wang Fan's snitching.

Moreover, in his opinion, the beauty temptation of Su Yueyi in the wilderness, as long as it's a man, can't bear it.

Wang Fanna will certainly agree.

Zhuyun also said, "yes, it's a pity to miss such a beauty? You know, such a beautiful woman, even if you look at the whole Tianyun Kingdom, you can't find a few. "

"You are shameless!" Su Yue Yi trembles with anger and looks at Wang Fan nervously.

As a woman, she has strong self-confidence in her appearance and beauty. Most men can't stand her temptation.

If Wang fan is really excited and intends to join hands with Na Meng and Zhu Yun, then she really has no room to resist.

"Oh, and such good things?" Wang fanxie laughed.

Looking at Wang Fan's evil smile, Su Yueyi's heart suddenly sank, and Meng Ji and her two were greatly relieved.

They are afraid that Wang Fan will not move. As long as Wang fan moves, everything will be easy to discuss.

"Yes, we must do what we say. After subduing this woman, three people will taste it together. When Zongyuan's secret place is closed, we will kill her directly."

Meng Ji said with a straight smile, "there are still several months left in this secret place of Zongyuan. How lonely is it without a woman? And this Su Yue dress is absolutely the most beautiful among all the nuns. "

Su Yueyi looked at Meng Ji's disgusting expression, almost didn't spit it out directly. Her heart was sinking, and she was ready to explode.

But Wang Fan couldn't help laughing, "Hey, I want to, just in case someone else knows about it, what should I do?"

He pointed to Su Yueyi, "she's the pride of the Su family. You know the power of the Su family. Once you're investigated, you don't care. If there's a family, I'm finished!"

"Don't worry about that." Meng Ji laughed, "he Su Yue Yi was killed by Wang Fan. What does it have to do with us?"

"At that time, even if the Su family wants revenge, it's Wang Fan, not us. And we don't have to worry that the Su family doesn't believe it. "

"After all, Wang Fan killed so many monks and talents, and he is also wanted by the royal family. We say that he insulted and killed Su Yueyi, and no one would not believe it."

Wang Fan listens to this words, in the heart sneer, but the surface can't help but frown, "it seems that you have already thought of a good way back, but this is not very good?" "Why not? It's certainly no problem to push the matter away from Wang Fan, and it's the most convincing. "

As soon as Meng Ji said this, he couldn't go on any more, because he had seen Wang Fan's appearance clearly.

Not only Mengji, but also all Yun and Su Yueyi can see Wang Fan's appearance clearly.

A few days ago, they also killed Wang Fan together. Naturally, it is impossible to forget Wang fan so soon.

"You, you!" Meng Ji pointed at Wang Fan, his face changed in an instant and became pale. Even the Yun, the body can't help but start shaking.

Su Yue Yi's expression is not there.

Although she didn't participate in the original encirclement and killing, she has no friendship with Wang Fan. Who knows what Wang Fan thinks of her? Moreover, her green maid has offended Wang Fan several times.

"Hey, hey, what's wrong with me?" Wang fan is very evil and strange, still staring at Meng Ji and asked, "you say, you take you all out, but you pour dirty water on me, can I promise?"

"I didn't expect that we would meet again so soon? At the beginning, I said that the next time I see you again, you will die. It seems that even God will let you die. "

Wang Fan said here, his face suddenly turned cold, "I said you are really shameless, you say you on her on her, and I have a fart relationship, I was too lazy to care."

"But it's very nice of you to try to pour dirty water on me. I don't even want to let go of other people's bodies. It's an insult to animals to say you're a beast. "

Wang Fan says, had pulled out shadow knife directly.

Meng Ji looked at the scene, then his eyelids jumped, and then without hesitation, he turned and ran.

In the face of Wang Fan, he has no chance of winning at all. Even if yu Zhuyun joins hands, he will surely die.

Compared with the fact that he humiliated Su Yueyi, it's important to protect his life now.

At the moment of Mengji's escape, Zhuyun also moved, but he fled in another direction.

Wang Fan looked at this scene, but his face didn't change much. He said with a smile, "it's just two days and three layers of ants. If I let you run away, I don't have to mix!"

Chapter 1603

Wang Fan's words fell down, and he directly turned to Mengji and pursued the past.

He turned into a streamer. In an instant, he was close to Mengji, waving the shadow knife and splitting it directly.

Whoosh!

All over the sky, the sword gas swept away, and set off a very violent killing power, and swept away towards the Mengji.

Meng Ji's face changed greatly, and he growled, "my life is over!"

Unfortunately, his voice did not play a role.

In front of Wang Fan on the sixth floor of Tianjing, he had no resistance at all.

I saw the sword air all over the sky, and the blood mist sprayed in the air. Mengji had been killed immediately, and there was no life left.

A generation of arrogance has fallen.

Su Yueyi looked at this scene, it was a tremendous shock.

Although she has seen the power of Wang Fan for a long time, she can't help but feel the crazy shock when she saw this scene with her own eyes.

It's terrible. It's terrible.

That day, Mengji, who chased and humiliated her for such a long time, was killed so easily.

Wang Fan, it's terrible.

"I said that I will kill you next time I see you. I, Wang Fan, do what I say." Wang Fan didn't look at Meng Ji's corpse. With a cold hum, he immediately ran after all the Yun.

"Wang Fan, spare my life. I am willing to be loyal to you and follow you to the death." Zhu Yun's face also changed wildly, and a thick fear appeared on his face.

Mengji is not the enemy of Wang Fan. How can he be Wang Fan's opponent?

Looking at Wang Fan who came after him, a wave of fear spread from the bottom of his heart. He only felt that his heart was trembling with fear.

"Be loyal to me and follow me to the death? I'm sorry, you're too weak to be qualified. " Wang Fan, with a cold smile and no mercy, waved the shadow knife and directly killed all Yun.

What he said is right. That Zhuyun really doesn't have the qualification to be a dog for him. It's just three layers of heaven. It's too weak for Wang Fan.

After Wang Fan killed them, he returned directly to Su Yueyi.

Su Yueyi looked at Wang Fan, who was covered with blood. She couldn't help stepping back and asked nervously, "what do you want?"

She is really a little nervous. After all, she can't even deal with Mengji and Zhuyun, let alone Wang Fanyun.

If Wang Fan wants to do something to her, she really can't resist. Even she doubted whether she had a chance to blow herself up.

Wang Fan looks at Su Yueyi with an evil smile, and his eyes linger on her until she is hairy, and then he slowly opens his mouth,

"don't worry, I'm not as animal as they are. I just want to ask you, aren't you with them, why do they want to treat you like this?"

Su Yueyi listened to this, first can't help but relax, and then gnash her teeth and said, "that Meng Ji pig and dog is better than, when he first killed you, he saw that I and snow fairy didn't start, he had already moved the evil idea to us."

"After I left with snow fairy, he and a group of people secretly followed me and snow fairy and attacked us when we were unprepared."

"I'm lucky. I escaped and was saved by you. However, snow fairy may be a little miserable. Maybe it has fallen into the hands of Meng Ji's subordinates."

Su Yueyi's eyes are very resentful.

"Oh?" Wang Fan listened to this, eyes can't help but slightly squint, "where did they attack you, take me to have a look?"

Wang fan does not want to meddle, but he does not want to carry this inexplicable black pot. What's more, he has nothing to do now. It's better to go and have a look.

Su Yueyi listened to this, but she was a little surprised to see Wang Fan. It seemed that she didn't expect that Wang Fan, a fierce and decisive man, had such a just side.

However, she is no nonsense, quickly found a hidden place, changed clothes, and led the way in front of her.

More than an hour later, they came to Su Yueyi, where they were attacked.

This is an open area, but when they arrived at this position, there was no half figure at all.

Yes, just five bodies.

The five corpses all died in the same way. They were all killed by a single blow. It seemed that there was no room for resistance at all.

Moreover, even if they die, their eyes are full of horror and fear, as if they saw something they shouldn't see.

"Ah, aren't they the subordinates of Mengji? Why are they all dead, snow fairy? Who on earth has such terrible strength to kill them with one sword, and make them have no fighting power? "

Looking at the five corpses, before Wang Fan spoke, Su Yueyi could not help but scream, as if she saw something unimaginable.

She couldn't help looking at Wang Fan, but she soon shook her head. If Wang Fan was not with her, she even doubted whether these people were killed by Wang Fan.

After all, looking at all the Tianjiao who entered Zongyuan's secret place, she couldn't think of anyone else except Wang Fan who could kill these five people.

However, Wang Fan has been with her all the time, it is impossible to kill these five people. In this case, who killed these five people? Who on earth has such terrible strength?

Wang Fan also can't help but frown, "they are the subordinates of Meng Ji, who are sent out to deal with snow fairy? What are their strengths? "

"Yes, they are the subordinates of Mengji, who were sent out by Mengji to deal with snow fairy. One of them is on the second floor of Tianjing, three on the first floor of Tianjing, and one on the ninth floor of Dijing. "

Su Yue Yi said slowly, and added, "if you can kill five of them, you can't even kill them. If you look at all the people who enter Zongyuan's secret place, I can't think of anyone else except you."

"It's just that you've been with me all this time. It's obvious that you didn't kill these people. Is it difficult for someone to be as powerful as you, just hiding their strength? I don't know? But who is that man? "

Wang fan can't help but feel depressed.

Even Su Yueyi, who was with him, suspected that these people were killed by him. Wouldn't others be more suspicious?

He is really a little depressed, this kind of feeling that he will always carry the black pot on his back is

really uncomfortable.

At the same time, his face became dignified.

Su Yueyi can't see it, but he can see it. The strong man who killed these five people will never be worse than Wang Fan. He may even be stronger than him.

Because it's not difficult to kill these five people, but one sword can kill one person, five swords can kill five people, and it can make all people have no resistance, and even have no chance to seize weapons, which is difficult.

"It seems that there are still masters hidden in the secret place of Zongyuan. You have to be careful in the future." Wang Fan couldn't help murmuring.

Chapter 1604

Whew - whew -

just at the moment when Wang Fan murmured in a low voice, suddenly, countless rays suddenly rose in the distance.

The brilliant glow is like a spark, soaring into the sky, even if it is hundreds of miles away, you can see it.

Wang Fan looked at this scene, heart a shock, instantly realized what big things happened.

But at this time, Su Yueyi's face changed. "It's a signal bomb to summon people. All the major forces are summoning people there. What happened?"

She said, without any hesitation, she ran towards the direction.

Countless clan forces gathered their hands in that direction. It was obvious that something big had happened. Su Yueyi naturally wanted to rush to have a look.

At this time, the anxious face is that it is Wang Fan who has forgotten his side.

Wang Fan didn't talk nonsense either. He just flashed and followed him, but he had a heart.

Because he didn't know what really happened to the signal bomb before it was activated, or that the major forces were set up to specifically target Wang Fan.

After all, Wang fan is now the public enemy of Zongyuan's secret place. Even if he is targeted, it is not impossible.

Think of here, Wang Fan's run on the way, it has quickly changed the appearance, and changed a suit of clothes.

He did not surpass and throw away Su Yueyi, but closely followed Su Yueyi.

Because if he went alone, it would certainly arouse other people's suspicion. But if he went with Su Yueyi, it would be different.

Su Yueyi is the pride of Tianyun kingdom. In this secret place of Zongyuan, almost everyone knows him. He can reduce unnecessary trouble by following Su Yueyi.

After running for a while, Su Yue Yi suddenly wakes up, and there is Wang Fan around him. She left without saying such a word. What should she do if she angers Wang Fan?

Thinking of this, she couldn't help looking back at Wang Fan. Only, this only one eye, her face changed.

Because she found out that Wang Fan had changed face and became a man she had never seen.

If it wasn't for Wang Fan's hair, which was still so messy and didn't change much, I'm afraid she would have suspected that it was not Wang Fan at all, but another person.

What a terrible technique.

Su Yueyi's heart set off a storm. No wonder Tianyun Kingdom failed to find Wang Fan after two years.

It's a strange thing that people in Tianyun kingdom can catch Wang Fan with his skill of changing face.

Unless the real power of Tianyun Kingdom comes out and remembers Wang Fan's breath, then Wang Fan's disguise method will be invalid.

Otherwise, in front of Wang Fan's face changing skill, it is impossible for anyone to recognize Wang Fan.

"Su Yueyi, I saved your life. I hope you don't bite the hand that feeds you and expose my identity. Otherwise, don't blame me for being impolite."

Wang Fan sees Su Yue Yi's line of sight sweep, light a smile, indifferent say.

Su Yue Yi listens to this words, the facial expression is a change at first, then clenched teeth, say, "you are at ease, I Su Yue Yi is not that kind of person who avenges kindness."

"However, I advise you not to use your shadow knife and giant golden axe when you start, otherwise, not only can I not help you, but also I will be implicated by you."

Su Yueyi is talented and intelligent. Naturally, she is not a dull person. Of course, she has understood what Wang fan means. Wang Fan obviously wants to use her.

But she did not have the slightest way, because Wang Fan, after all, saved her life, it is worth more than just saving her life.

It can be said that if there is no Wang Fan, even if she is dead, I'm afraid she can't die at ease.

Wang Fan nodded with satisfaction and stopped talking.

More than an hour later, they came to a huge canyon.

When they came, the canyon was at least surrounded by more than 200 people. At this time, the more than 200 people were divided into several camps, looking at the front with hot eyes.

In front of them, there are seven huge round platforms, each of which is surrounded by Guanghua. They are actually seven transmission arrays.

In each round platform transmission array, there are only seven square stone pier seats. Obviously, each transmission array can only accommodate seven people.

Wang Fan looked at the seven transmission arrays and was puzzled because he didn't know what they were and where they were transmitted.

But from the eyes of more than 200 people, he could see that the transmission array was not simple.

"The seven seven teleportation array is actually the seven seven teleportation array. It's said that the cave of master seven treasures is here?"

Su Yueyi looked at the seven teleportation arrays, her face changed, her pretty face became ruddy, her breath became shortness, and her proud chest also began to fluctuate violently.

"Master Qibao, who is this?" Wang Fan hears speech, cannot help but approach Su Yue Yi, low voice asks a way.

Su Yueyi listened to Wang Fan's question and answered in a low voice, "the seven treasures master is a legendary existence, and his strength has reached heaven." "Nearly a thousand years ago, Tianyun kingdom was not called Tianyun Kingdom, but Tianzhou. At that time, Tianzhou was not dominated by the Nie family, and there were not so many sects and family forces."

"There was only one school in Tianzhou at that time, Tianmen. At the beginning, Tianmen was extremely strong, and it was the real master of Tianzhou. It was countless times stronger than the Nie family now."
"

"Besides, Tianmen is extremely hegemonic. No one is allowed to practice except Tianmen people. Unless they join Tianmen, they will be killed mercilessly by Tianmen. It can be said that Tianmen is extremely hegemonic."

"The seven treasures master is a martial arts practitioner who didn't join Tianmen but practiced secretly. When he was discovered by Tianmen, he was directly chased by Tianmen. "

"It's just that this man is very skillful. He escaped from Tianmen's heavy encirclement and then disappeared."

"Ten years later, master Qibao reappeared and directly killed Tianmen. With one man's power, he destroyed countless Tianmen masters, nearly overturned Tianmen, then ran away and disappeared."

"It was also at that time that the Nie family and the representatives of the major sects took advantage of the situation to wipe out the nearly destroyed Tianmen and divide up Tianzhou, which gradually developed into today's situation."

"After the first World War, master Qibao had disappeared completely and never appeared again. Later, I don't know how to spread the news, saying that his remains are probably in Zongyuan secret place. "

"Therefore, for countless years, all the monks who entered the secret place of Zongyuan have been looking for the remains of his cave, but they have never found anything."

"Over time, we all think that this is a rumor, which is just nonsense. But I didn't expect it. Now it's happening. "

Su Yue Yi said slowly.

What Wang Fan listens to is the shock of a face simply, that seven treasures superior person, unexpectedly so good? With the power of one person, almost destroyed the powerful and domineering Tianmen?

His heart is also becoming hot up, if the seven treasures master really so good, here is the seven treasures master cave relics, then there will be good things.

In this case, he must go in and seize the opportunity.

"Yueyi, I didn't expect you to come too. Come here quickly." At this moment, suddenly, an old voice came.

Wang Fan turned his head and his face suddenly changed.

This man is actually a white haired old man, and he has seen him. He is one of the old strong men who opened the entrance to Zongyuan's secret place in the Zongyuan mountains.

Chapter 1605

Isn't it true that only those who are under the age of 30 can enter the secret place of Zongyuan. How can this old monster come in?

Wang Fan heart secretly scolds, isn't this playing him, this kind of old monster all came in, that seven treasures superior's resources where still have his share?

Wang Fan thought in his heart, his eyes swept over again, and his face became more and more heavy.

Because he found that in the front of the position, not only such an old monster, there are six old monsters.

In other words, there are already seven old monsters here.

In this way, the seven teleportation arrays are occupied by the seven old monsters. What should he do?

Not only that, Wang Fan also saw that the snow fairy was standing behind one of the old monsters. It was obvious that the five Meng Ji subordinates who had been killed before were killed by this old monster.

Wang Fan felt it carefully, and found that the strength of the seven old monsters seemed to be suppressed, and the breath reflected was only nine layers of heaven.

But even if it's the ninth floor of Tianjing, it's not what Wang fan can deal with now. If his identity is exposed again, he will be besieged by the seven old monsters in the ninth floor of heaven. It will be a near death.

"Grandfather six, why are you here?" Not only Wang Fan, but also su Yueyi was shocked. It seemed that he did not expect that the old man would come to the secret place of Zongyuan.

Wang fan doesn't know the price these old strong men need to pay to enter Zongyuan's secret place, but she does.

However, she soon understood that these old monsters were fighting to enter Zongyuan's secret place for the sake of Wang Fan.

After all, Wang Fan's killing in this secret place is too heavy.

"Yueyi, you are OK. By the way, who is this little friend?" In Su Yue Yi shocked moment, the old monster has flashed to Su Yue Yi in front of Wang Fan asked.

His heart is also relieved, before snow fairy said to him, Mengji with Zhu Yun to kill Su Yue Yi, this let his heart has been very worried. Now seeing that Su Yueyi is OK, he is naturally relieved.

"He saved my life before." Su Yue Yi replied succinctly.

Her character is indifferent, not happy to say more, the more you say, the more suspicious you will be, so the more concise her words are, the better.

"Well, on behalf of the Su family, I would like to thank this little friend." Su Yueyi's sixth grandfather said that he was going to continue to speak. Suddenly, an angry voice came.

"Boy, did you kill my Mengji With the spread of this voice, a powerful pressure suddenly emerged, and then an old monster directly flashed in front of Wang Fan.

This old monster is the elder of Mengji's family. He naturally knows what Mengji has done.

Although he resented Mengji's animal behavior, Mengji was the pride of his family.

If Meng Ji was killed by the Su family, he has nothing to say and can only swallow this tone. Can hear unexpectedly is a young man to save Su Yue Yi, where can he still bear to live?

When Wang Fan was able to save Su Yueyi, it was obvious that he had a conflict with Meng Ji. Naturally, he wanted to ask Meng Ji where he is now, whether he is alive or dead.

Wang Fan felt the mountain like pressure. His heart sank and his nerves tightened.

Although his strength alone is not enough to bring him deterrence, he does not dare to show it.

Because in this secret place of Zongyuan, even the three levels of Tianjing would not be able to bear such pressure. Naturally, Wang Fan did not dare to show his astonishment.

Otherwise, once his identity is revealed, let alone the resources here have nothing to do with him, even his life may be lost.

Hiss.

Thought of here, Wang Fan immediately a mouthful of blood, pale at the same time, directly fell on the ground.

But he did not speak, but looked at the six grandfather of Su Yue Yi.

This matter is more obvious, he is to save Su Yueyi offended Meng family, it depends on whether Su Yueyi's sixth grandfather will protect him.

If Su Yueyi's sixth grandfather protects him, he may have a chance to enter the relics of the seven treasures. But if Su Yueyi's sixth grandfather doesn't protect him, he can only fight back and escape.

"What do you want to do? It's better to be a pig than a dog. If you want to plot against me, I haven't

investigated the responsibility of your Meng family. Now you are planning to deal with my life-saving benefactor. What a prestige! "

Su Yueyi's sixth grandfather didn't speak yet. Su Yueyi's face changed and immediately stood in front of Wang Fan. He pointed to Meng Ji and drank angrily.

As soon as she thought of what happened before, she was very angry. Now the elder Meng Ji wanted to oppress Wang Fan in front of her. How could she bear it?

Seeing that Su Yueyi was standing in front of Wang Fan, Meng Ji's elder immediately took back his breath and turned pale.

He dares to put pressure on Wang Fan, but he doesn't dare to put pressure on Su Yueyi. After all, Su Yueyi's sixth grandfather is not inferior to him, even better than him."Hum!" Su Yueyi's sixth grandfather also gave a cold hum to the dissatisfied elder Meng Ji. Then he looked at the other five old monsters and said,

"well, time is almost up. I don't think we need to wait any longer. Let's go first."

To tell you the truth, if it had not been for this place, he would have killed the elder Meng Ji. It's just like a nephew of the Meng family. He dares to give his daughter Su Yue a black hand. He's looking for death.

"You two, come up with me." Su Yueyi's sixth grandfather said to the five old monsters, then said to Wang Fan and Su Yueyi, and then went straight to one of the transmission arrays.

Wang Fan listened to this words, didn't hesitate, quickly stood up, and Su Yue Yi a take-off fast flash up.

"Well." The other five old monsters also nodded, also flashed on several other teleportation arrays, and then began to summon their family descendants, or people with good relations.

So did Su Yueyi's sixth grandfather and namongji's elders.

Soon, seven teleportation arrays and 49 positions were filled with people.

Those who were taken to the array were OK, and they were very excited. But those who have not been taken to the array are envious.

Especially the way they looked at Wang Fan, they were gnashing their teeth with hatred. I don't know where this guy came from, but they climbed up Su Yue Yi and had such bad luck.

Some young people who had a good relationship with the Su family and were likely to be taken with them even hated Wang Fan because Wang Fan squeezed them out.

But because of the strength and dignity of Su Yueyi's sixth grandfather, no one dares to say anything at

all.

Wang Fan's heart is also a burst of joy, he also did not expect that Su Yueyi's sixth grandfather would take him, even his identity did not ask.

It seems that the rescue of Su Yueyi is not in vain. We should do more good things in the future.

When the 49 people were ready, the seven old monsters threw out several spirit stones and inlaid them into the groove at the same time. At the same time, the spirit was surging and converging in the air, forming a unique cycle.

Then, with a flash of white light, the 49 people on the transmission array disappeared.

Chapter 1606

When Wang Fan and his party reappeared, they had come to an open area.

In front of them, there was a huge and magnificent palace, but the palace had 49 entrances, not just one entrance.

The 49 people who came in happened to have one for each of them. Obviously, master Qibao had already planned it.

The location of the forty-nine entrances was so dark that they couldn't get in at all.

Even if Wang fan used his mental power, he couldn't get a glimpse of it. His mental power at the entrance seemed to be blocked by a layer of fog and could not be penetrated.

Not only Wang Fan, but also the seven old monsters were unable to scan their mental power, and their faces became slightly ugly.

None of the 49 people in the party acted rashly, because although there were 49 entrances in front of them, no one knew whether there was any danger in the passageway.

Wang Fan also did not move, let alone here his strength is not the strongest, there is no right to take the initiative to speak. Even if his strength is the strongest, he will not take risks.

"There are seventy-seven and forty-nine passages here. It seems that master Qibao had planned them for a long time. But we don't know whether it is chance or danger behind that passage. Therefore, someone must explore the way. "

The elder of Mengji opened his mouth. At the same time, he first glanced at Wang Fan, and then looked at the seven people he had brought.

"You, go and see that passage." He pointed to one of them quickly, and could not refuse.

Listening to the old man's words, the man cried in his heart that it was bad, but he didn't dare to disobey it at all. He was not Mongolian, and it was lucky to be brought in.

If he dares not listen to the elder Meng Ji at this time, even if he is killed here, he will die in vain.

"Yes." He bit his teeth hard and nodded, then ran carefully to the channel pointed by Meng Ji's elder.

At this time, the eyes of the other 48 people were focused on him in an instant, and their breath became thick without blinking.

The young man did not dare to look back. He soon approached the entrance of the passage, and then walked in carefully.

But the moment he entered the channel, he disappeared, disappeared without a trace, people can no longer see him, also can not feel his breath.

It's just that there's a faint and exciting voice coming from the young people inside. It's obvious that they see something precious..

Listening to the excited voice of the youth, everyone's face was stunned, and his heart became excited.

At this time, the elder namongji said again, "this passage is ours. You choose other entrances."

He said, without a moment's neglect, he went in quickly.

Looking at the elder Meng Ji, who disappeared immediately into the passage, the other six old monsters became anxious.

They are naturally very keen on the relics of master Qibao. Now that the relics of Meng Ji's elders begin to plunder the treasures, are they willing to fall behind?

They have instructed their own people to test the other six channels. Perhaps thanks to Wang Fan for saving Su Yueyi, Su Yueyi's sixth grandfather did not choose Wang Fan as a pathfinder, but chose another person.

Although the man was displeased, there was nothing he could do.

Soon, most of the people disappeared, leaving only a group of young people.

Wang Fan was greatly relieved when he saw that all the seven old monsters had disappeared.

He didn't choose the channel that Su Yueyi and his grandson entered. Instead, he chose another channel that no one entered and flashed in quickly.

After testing seven channels, there was no problem. Obviously, there was no problem with the channels here. Wang Fan didn't believe his luck would be so bad.

Those who did not move to see Wang Fan's move, first a Leng, then also quickly into the other no one into the channel.

"Ah, ah, ah!"

However, in addition to the success of a few people, more than a dozen other people actually made a heartrending scream.

I saw a very sharp red awn suddenly gushing from the entrance of those passageways, and it rolled up on them in an instant.

The red awn was like the scythe of death. Under the sharp red awn, they were hanged directly.

And looking at this scene, other people who want to enter the channel, but have not yet entered, can not help but take a breath of cold air.

Fortunately, they didn't enter rashly, otherwise they might be among the hanged people.

Looking at the ten or so young people who died miserably, all of them were in cold sweat and felt hairy.

They no longer dare to choose those no one to enter the channel, but will look at Wang Fan and other young people to enter the channel alone.

Because those old monsters are in the channel, they do not dare to go, even if they go, there is nothing good for them, so they naturally choose the channel that Wang Fan and other young people enter alone. Soon, in this open area, there was no more half a figure, only a dozen bloody bodies left.

No one found that after everyone disappeared, the 49 entrances of the passageways were glowing red at the same time.

Red light interweaved, extremely exuberant, will be all the openings are covered away, after the red light dispersed, the 49 channels, it is completely disappeared.

Wang Fan didn't know what happened outside, let alone the strange change of the passage. After entering, the first thing that came into sight was a long corridor.

Although from the outside, the entrance of this passage is dark, and the mental power can't be swept in at all.

But when he got inside, he found that it was as white as day, because at the top of the corridor, it was

inlaid with luminous objects the size of eggs.

The luminous object is like an egg, not an egg, like a pearl, not a pearl. I don't know what it is. It's very beautiful.

Of course, this is not what attracts Wang Fan's attention most. What attracts Wang Fan most is that there are countless rooms on both sides of the corridor.

The room is like a hotel room in the secular world, opposite, but different from the hotel room, the door is made of gold and iron, and on the gold and iron, there is a layer of boundary beam.

Wang Fan didn't stay much. He went straight to a room to gather his strength and bombard him with one punch.

With a roar, the iron gate trembled and the earth shook. To Wang Fan's horror, the boundary was not broken. As for the gold and iron gate, it was not broken.

Wang Fan was so surprised that his mental power permeated and directly enveloped the boundary.

Soon his eyes brightened.

This is because the border is actually an array. Although the array level is not high, it is extremely complicated and profound.

If there is no mental power, or the mental power is not strong enough, Wang Fan wants to crack this array, it is absolutely a fool's dream. But now he has a feeling that he can break the boundary array.

He did not continue to bombard the border, but began to carefully deduce and crack it.

A few minutes later, Wang Fan opened his eyes, only to see a point out, point in one of the positions of the border.

With a bang, the border that Wang Fan couldn't open before was broken by this understatement.

Almost at the moment when the border was broken, the door of gold and iron in it seemed to have a sense, and it opened automatically.

Chapter 1607

Wang Fan stepped into the room and his eyes lit up in a moment.

Because in that room, there was a shelf, and on the shelf, there were all top quality spirit stones. At least there are millions of them.

Wang Fan looked at this scene, it is crazy heart.

Although he has seen millions of top-grade spirit stones, it's not enough to make him excited.

But you know, this is the first room that just entered the passageway. There are millions of spirit stones in the first room. You can imagine how adverse the resources in the room are?

He is worthy of the title of master Qibao. He is really rich.

Wang Fan was shocked to think that he was going to put away his spirit stone, but his eyebrows suddenly wrinkled tightly.

Because he even noticed that at least dozens of people entered the passage and ran towards the room.

"Ah, Lingshi, they are all top grade Lingshi, millions of them?" An excited scream soon rang out, and the three youths instantly appeared at the door of the room.

One of them pointed to the spirit stone in the room and screamed. Then he looked at the other monks who came in with them. "The things in this room belong to our three brothers. Go to other rooms."

Those people took a look at the three young people, sighed a little regretfully, and immediately rushed to other rooms without saying much.

Soon, the roar came out, and it was obvious that those people were attacking the boundary of other rooms.

The three young people who rushed to Wang Fan's room were looking at the millions of top-quality spirit stones in the room. Their eyes were shining, their faces were slightly red, and their breath became short.

These three men are all martial arts practitioners in the second level of Tianjing. Even before they entered Zongyuan's Secret realm, their strength was only in the Ninth level of Tianjing. No matter how noble their status and powerful their background were, they could not have the wealth of millions of spirit stones.

You know, at the beginning of Pengyun childe and snow fairy two big Tianjiao, all the belongings are only one million per person, not to mention other people.

If Wang Fan hadn't killed hundreds of monks who besieged him and robbed his space ring, he would not have been able to take out millions of spirit stones.

Wang Fan coldly looked at the three people, ignored, and directly began to put away the spirit stone on the shelf.

But it didn't matter what he got. The three youths in Tianjing were all angry.

"Stop it!"

"Who the hell asked you to move these spirit stones?"

"We need these spirit stones. Get out of here now, or don't blame us for being rude!"

The three youths all pointed to Wang Fan's nose and yelled angrily. It was as if Wang Fan had robbed their daughter-in-law.

It's a top-grade spirit stone, and there are millions of them. How can they let Wang Fan put it away?

What's more, they have long been unhappy with Wang Fan, because in their view, if Wang Fan had not saved Su Yueyi, he would not even have the qualification to enter here.

In their eyes, Wang fan is a mole ant who has gone through bad luck. They didn't pay attention at all.

If Wang fan is still with Su Yueyi, maybe they have to be afraid, but now Wang fan is not with Su Yueyi, what are they afraid of?

"I opened the boundary of the room, and the things in it should be mine. Why can't I put it away? "

Wang Fan Light swept those three youth one eye, sneer mouth, "want me to roll out, I see should roll out of is you?"

"There are so many rooms, so many cultivation resources here. You don't want to take them, but you have to come to me to rob them. Is that too much?"

Wang Fan said slowly, and continued to collect the spirit stone on the shelf.

Here, if you can not do it, Wang fan is not willing to do it, because once he does it, he is likely to expose his identity, which will be very harmful to him.

At that time, even Su Yueyi's sixth grandfather will not dare to protect Wang Fan.

The three young people saw that Wang fan not only did not stop collecting Lingshi, but also accelerated the speed, and immediately became more angry.

"Too much? What is excessive? Resources are available to those who are able to enjoy them. You are just a waste who depends on women. What qualifications do you have to take the resources here? "

"How dare you tell us to get out of here? I think you've eaten bear heart and leopard gall! Damn, you dare to be so arrogant without Su Yueyi's protection. I think you are looking for death! "

One of the young men roared angrily, his body suddenly flashed and flashed in front of Wang Fan. Then he raised his right fist and set off a very violent force. He directly attacked Wang Fan's head.

This blow, he did not have any left hand, that eyes are still full of grimace and murder, obviously, is to kill Wang Fan's mind.

"Well, I didn't want to move you. Why do you have to force me to do it? Since I have reason with you and you don't listen to me, I can't blame you for being rude." Wang Fan looked at this scene, could not help but sigh.

In the face of the young man's violent blow, his face didn't even move.

It was not until the young man's fist was close to his body that he made a sudden move. First, he grasped the young man's fist and then twisted it hard!

Click!

The young man's fist had been broken in an instant, and the red blood shot out, accompanied by his heartrending scream.

Wang Fan sneered at him and pointed out again.

Bang to a, his Dantian burst, scream suddenly stopped at the same time, the moment is inverted fly out. After falling to the ground, there is no breath.

Looking at this scene, the other two faces all changed.

They never thought that the young man would be killed by Wang Fan in such a short time.

After a short period of dullness, they became very angry.

"Boy, if you dare to kill my brother, you will die!"

"Take your life!"

They roared wildly, and their breath surged out. They had weapons in their hands, and their martial arts skills intertwined. In an instant, they roared wildly towards Wang Fan.

The light in the air flickered, and the waves were rolled up, which set off layers of fierce killing power.

The crazy air waves rolled like waves, and the whole room was buzzing.

It's obvious that their martial arts are all mysterious. It can be said that they are crazy to kill.

Wang Fan looked at this scene, did not say much, but did not sacrifice the shadow knife and golden axe that could expose his identity.

He looked at the two people who were killed crazily. He just pointed them out at random. In an instant, he roared like an angry dragon and killed them.

The two breath collided in the mid air, making a loud noise. The air waves they raised were smashed in an instant, but the wind was still beating them hard.

There is a big gap between the sixth level and the second level of Tianjing. Even if they use their martial arts skills, they can't stop Wang Fan's random attack.

The two men looked at the scene, their faces turned pale in an instant, and their hearts raised endless fear.

How did they not expect that Wang Fan, who looked like a mole ant in their eyes, would be so terrible.

Just very soon, they couldn't think about it any more. With two roars, they were already swept away by the wind and sprayed with blood all over the sky. They closed their eyes reluctantly and had no breath at all.

Chapter 1608

"Who is this man? How can he be so powerful?"

"Three moves to kill three Tianjing second floor, this person is terrible!"

"Is he, he is that Wang Fan?"

"How could it be that he came with the Moon Fairy? How could it be that Wang Fan?"

The fighting on this side has attracted a lot of people's attention. Except for a few people who are still bombarding the rest of the houses, the rest of them have surrounded.

They looked at the dead three people, and then looked at Wang Fan. They were shocked and frightened.

You know, they all thought that Wang Fan was a waste, and it was su Yueyi who was lucky to come here.

If they had not been robbed by the three young people, even they might have been envious of the stone in Wang Fan's room, and then they would have robbed it.

Now it seems that fortunately, those three people took the lead. Otherwise, I'm afraid it would not be the three people who died now, but probably they.

Wang Fan did not pay attention to these people, but after putting away the spirit stone, he left the room

unhurriedly.

When those people saw Wang Fan walking out, they immediately gave way and did not dare to stop him.

The strong is respected. The strong is respected. Wang fan is the strong here. Who dares to offend Wang Fan?

Wang Fan did not pay attention to them, but looked at the person who was bombarding the border, or had already smashed the border, and was planning to enter the room, and could not help frowning.

Those people also stopped the action for the first time, and looked at Wang Fan with alert face.

Those who didn't open the border are OK, and their fear is not so strong, but the young people who are planning to enter the border are a little nervous.

Wang fan is so powerful. If he wants to forcibly seize their resources, what should he do?

"You don't have to worry. I won't rob you. My principle is that if people don't offend me, I won't do it. So I don't provoke you, and I hope you don't provoke me. "

Wang Fan looked at the nervous youth and said with a smile.

Listening to Wang Fan's words, those young people were completely relieved. They quickly nodded and responded, "elder martial brother, don't worry, we won't provoke you."

When they say this, they are thinking, you are so powerful, you are so cruel, you will be provoked if you want to die.

Listening to this, Wang Fan nodded with satisfaction, but he didn't leave. Instead, he asked again,

"I want to know that there are 49 channels outside. Why don't you choose others, but you just want to come here to fight with me?"

Although Wang Fan didn't want to kill these people, he was still upset.

After all, there are 49 people coming in through the 49 channels. Isn't it good to have one channel for each person? These people just want to compete with Wang Fan for resources. It's strange that he can be happy.

Listening to Wang Fan's words, the young people couldn't help getting nervous again, but they still said, "elder martial brother, it's not that we want to fight with you, but that not all channels are safe."

"After you entered this passage, others chose other passages, but most of them were hanged."

At the same time, the young man had some fear on his face. Obviously, he was still afraid of the previous scene.

"Oh?" Wang Fan couldn't help squinting, "what's the matter? Let's hear it?"

He was also a little frightened. There was an unsafe passage. Someone was hanged?

Fortunately, he was lucky. Otherwise, if he chose those channels, it would not mean that he was already dead?

Thinking of this, Wang Fan couldn't help being afraid.

The young man did not hesitate, quickly said the previous thing again.

Wang Fan listened, did not continue to say anything, directly flashed to an empty room entrance.

Seeing that Wang Fan really didn't mean to compete with them, they were finally relieved.

Those who smash the border go into the room and collect the cultivation resources, while those who don't smash the border continue to roar.

For a moment, in this passage, the roaring sound is one after another, continuous.

Although the boundary of the passage is hard, it is hard to open at one time, but after all, the level is too low, and the time is too long, so it can't stand the bombardment for a long time.

Soon, one after another, the border was smashed, and the young people who smashed the border were all in high spirits.

Wang Fan looked at this scene, some helplessly sighed, but did not like them together, but continued to study the boundary of the formation.

Through research, Wang Fan found that the boundary array in this room is more profound than the previous one. Although the level is not much different, it becomes more complicated.

But Wang Fan didn't lose heart, and he didn't lose patience. Instead, he began to study.

A few minutes later, he pointed out again and directly broke the boundary.

Sure enough, the resources in this room are much more abundant than those in the previous room. They are actually some high-level spirit grass. The spirit grass was packed in a jade box. It was well preserved and the spirit was still there.

Wang Fanfei quickly put away the spirit grass and ran to the next room.

Soon, ten rooms in this passage have been raided. Wang Fan monopolized four rooms.

He not only got the spirit stone and spirit grass, but also got the refining materials, and even tens of thousands of spirit beads.

Wang Fan's heart is just jumping wildly. I'm afraid these cultivation resources are enough for him to reach the peak of heaven.

After ten rooms had been plundered, they came to the end. Here, they saw a stone step leading to the top.

It's just like the entrance of the passageway outside. The naked eye can't see how long the stone steps are. It can't see the top. Even the spirit can't penetrate.

Looking at the stone steps, everyone stopped and couldn't help looking at Wang Fan.

Obviously, they are all worried about danger. They all want Wang Fan to explore the way, but they are forced by Wang Fan's strength, but no one dares to say it.

Wang Fan looked at this scene and sneered in his heart. Naturally, he knew what these people were thinking.

In fact, if Wang fan is really cruel, he can threaten one of them to explore the way, but he has his own principles. These people have not provoked him, and he is not willing to intimidate others.

Wang Fan looked at the channel and gazed for a long time. His mental power penetrated into it crazily.

At a certain moment, his eyes lit up, because under his crazy perception, he felt a touch of familiar breath, which was the breath of border.

There is a boundary at the entrance of the stone steps, but if you don't check it carefully, you can't find it at all.

Wang Fan looked at this scene, in the heart is very happy, both hands dance at the same time, directly flashed in.

Almost at the moment when he just flashed in, he felt a very powerful suppression, which was the suppression of the border.

Under that pressure, he felt that his blood flow began to slow down, and his whole body was almost crushed.

Wang Fan felt this scene, did not dare to neglect, hands fast dance, began to crack the border.

Chapter 1609

In just a few minutes, with a buzz, the layer of boundary suppression was cracked by Wang Fan, and the pressure of the whole body was instantly swept away. Wang Fan also stood firmly on the stone steps.

His back exuded a cold sweat. Fortunately, he studied the formation of boundary outside. Otherwise, he could not break the boundary suppression on the stone steps.

Although his accomplishments, if forced to go up, can also go up, but it is too much effort.

After Wang Fan cracked the suppression, his body flashed up, and he flashed up to the second level in an instant.

Almost at the moment when he entered the second layer, a more powerful pressure came again. Wang Fan didn't dare to neglect him. He sat on the ground and quickly studied to break the boundary.

Now he suddenly felt that it was not the relic of treasure hunting, but the relic of refining other people's array.

Because he can clearly feel that the border here is more profound than the previous border.

At the entrance of the passage, after Wang Fan went up the stone steps, the dozen monks would never see Wang Fan again.

When they saw that Wang Fan didn't seem to be in danger, they were pleasantly surprised.

"It seems that there is no danger here. Let's go up." One of the young people couldn't help but drink. He tried his best to run the aura and rushed in in an instant.

But almost as soon as he got in, a strong pressure came on his face. Suddenly, his whole body was blown out directly, and several mouthfuls of blood mist were ejected from his mouth.

He fell to the ground and looked at the entrance of the black stone steps. His face changed greatly.

"What's the matter? Why did that guy go in and have nothing to do? I was blown out when I went in? It's impossible

He is not willing to roar a, then again crazy gather surge aura, crazy impact up.

This time, under the pressure, he spewed out more blood mist. Just because he had been prepared for a long time, he was not bombarded. Instead, he rushed to the second layer at a very heavy price.

But he had just entered the second layer, and before his whole body had time to go up, the more

powerful pressure had already poured in, which made his face miserable.

This time, he just resisted, just a few breaths. With a bang, his whole upper body had been completely crushed and turned into a pool of blood.

The same is true for the rest of the young people. They were lucky only to be injured by the blast, and then they didn't dare to attack again.

But those who want to rush up to the second floor in a hurry, but there is no accident, they are all crushed to pieces.

Wang fan doesn't know the tragedy of those young people. He has been thoroughly immersed in the mysterious border formation and started to study and solve it.

With his cracking, the pressure is getting smaller and smaller, until it completely disappeared, Wang Fan opened his eyes.

His black eyes sparkled with a touch of pure light, and his eyes were very happy. "This is really a good place. If I go on at this speed, I'm afraid I will soon become a master of array."

Wang Fan's heart was filled with joy. He felt that the biggest harvest of his coming here was not the spirit grass and spirit stone, but the boundary array.

Now he no longer looks forward to those cultivation resources, but looks forward to these boundary suppression.

You know, the master of array is a very rare character with a transcendent status. Almost every array master has a high status, and few people dare to offend him.

After all, the array is silent and mysterious. Once this kind of character is provoked, the complicated array can make the enemy headache.

After offsetting the border suppression, Wang Fan wandered around the second level, looking for the entrance to the third level and taking the second level cultivation resources.

But to Wang Fan's dismay, this second level of cultivation resources was actually advanced.

Because he found that the three stone chambers had been opened, and the resources inside had been plundered, and it was obviously not long ago.

Wang Fan looked at this scene, instantly understood that someone must have come to the second floor first.

As for who came to the second floor first, he hardly needed to think about it. He knew that it must be

the seven old monsters.

After all, in his passage, he is the only one who enters the second floor. No one can be faster than him.

Thinking of this, Wang Fan's heart sank instantly.

It seems that the 49 passageways are interlinked. Otherwise, how can people who enter other passageways enter the second floor?

Wang Fan just thought of here, his eyes just couldn't help but coagulate, and suddenly looked to a certain direction.

In that direction, he saw the entrance to the third floor.

Originally, he should be happy to see the entrance. After all, there must be border suppression at that entrance, which can improve his array ability.

But now, he is not happy at all.

Because at the entrance of the passage leading to the third floor, there was a man, who Wang Fan didn't want to see. Meng Ji's elder, whose strength is on the ninth floor of Tianjing, actually doesn't know how strong the old monster is.

At this time, the old monster was staring at Wang Fan with his ferocious eyes. The corners of his mouth were full of bloodthirsty sneers, and it was obvious that he had been waiting here for a long time.

Wang Fan looked at the old monster, his face immediately sank, and he couldn't help stopping.

He cried in his heart that it was bad. He was blocked by the old monster here. It was a big trouble.

There are nine levels of Tianjing and five levels of Tianjing, which are four different levels. Even if Wang Fan goes against the sky again, it is hard to compete.

What's more, the old man's real cultivation is probably more than the Ninth level of Tianjing, so even if he can only show his strength, he is far more terrible than those who are really strong in the Ninth level of Tianjing.

"Ha ha, boy, you are here at last. No one is waiting for me. There was that Su Mu old bastard protecting you before. I can't do anything with you. Now, I want to see who can save you. "

The old monster stared at Wang Fan with a grin. At the same time, the strong breath came to his face, and immediately pressed Wang Fan, and his murderous spirit overflowed.

He pointed to Wang Fan and growled, "what happened to Mengji? Did you and Su Yueyi kill him? You'd

better be honest, otherwise, don't blame me, I'll beat you up! "

Wang Fan looked at the ferocious expression of the old monster, and immediately knew that Mengji had a heavy weight in his heart, and today's things were hard to be good.

Since this battle is inevitable, he simply does not hide it. Instead, he laughs, points to the nose of the old monster and says in a cold voice,

"you need to join hands with others to kill that little trash? You think too much of him

"You're right. Mengji was killed by me, and he died miserably. What can you do with me?"

Wang Fan's tone was arrogant and disdainful, "save me? Do you think I need to be saved? "

"You're an old man. You want to kill me. It's just a fool's dream. If you have any means, just take it out and see if I'm afraid of you!"

Wang Fan says, swish ground for a while, then grasped the shadow knife directly, the blade points to the old monster, the imposing manner is arrogant.

Chapter 1610

"Good, good, good." The old monster listened to Wang Fan's words, it was trembling with anger, even his voice was about to smoke.

He had seen many arrogant friars, but he had never seen such arrogant friars as Wang fan when he was young.

How dare you scold him for being an old man? How dare you provoke him? It's a great provocation. If he did not let Wang Fan pay a heavy price, he would not have to continue to practice.

"Little beast, you have courage. I want to see if your strength is as sharp as your mouth!"

The old monster said ferociously, the breath on his body suddenly flows, and the surging breath just like the waves surges, which immediately surges in the whole space.

His breath is very powerful, which is Wang Fan. If he were any other young monk, I'm afraid that just this breath would be enough to suppress them to be injured or killed.

"Look at the knife, old man." Wang Fan in that breath is not moved at all, right hand a swing, shadow knife is toward the old monster crazy chop down.

Although he is not easy to deal with, if he just wants to suppress him with his breath, then don't dream.

The shadow knife splits out, the murderous spirit of the sword sweeps all over the sky, and the violent

killing momentum surges out, directly rolling towards the old monster crazily.

Under this knife, the air is buzzing, the void seems to be broken, extremely sharp!

Wang Fan didn't have the slightest carelessness at all. He started with the cloud splitting Sabre technique.

"I'm not even affected by my breath. The little beast really has some skills. It seems that you have a good chance in this secret place."

Looking at this scene, the old monster's face changed slightly. He did not expect that Wang Fan was not affected by his breath.

You know, even if he can only reflect the aura of the ninth floor of heaven, it's not what these younger generations can bear.

After all, the strongest one among the younger generation is only three-tier Tianjing and four tier Tianjing. How can they bear his authority?

However, the old monster just changed his face slightly, but he was not afraid. His right hand shook and he attacked Wang Fan in an instant.

Whoosh!

Under the shaking of his right hand, all over the sky Qi force was torn apart, and condensed into milky white chains in the air. The chains were like roaring Python after python, bombarding Wang Fan's sword madly.

Boom boom!

The explosion spread all over the sky. In an instant, the whole second floor was shaking wildly, as if it was going to collapse.

Wang Fan's refined Dao mu, in an instant, had been devoured by the huge Python and dissipated.

Wang Fan also couldn't help being blown away for tens of meters, and his face became ugly.

"Well, little beast, is that all you have to do? If you have any ability, just use it to see if you can hurt me. If you only have this means, don't blame me for pulling your skin and cramping you. "

After the old monster disintegrated Wang Fan's Dao Mang, he didn't rush forward to kill Wang Fan in a hurry, but cheered with disdain.

He is a very small hearted man. Wang Fan humiliated him before, which made him very angry. So now

he is sending back Wang Fan's rave directly.

And in his opinion, although Wang fan is very good among the younger generation, he is still just the fish on the board, so he is not in a hurry to kill Wang Fan.

Wang Fan coldly looked at the old monster, his face also became completely dignified.

The ninth floor of heaven is really powerful. When he shows his mysterious martial arts, the other side collapses with a single blow. It's really terrible.

But Wang fan is not much lost, after all, for this scene, he is also early psychological preparation.

In the face of the old monster's provocation, he didn't say a word, just put away the shadow knife in an instant and took out the golden axe.

The huge axe broke through the air and made a stroke towards the old monster, which was a vicious blow.

Prefecture Level martial arts, annihilating axe!

At this moment, the crazy killing power was torn out, and hundreds of dense golden axe awns appeared in the air.

The golden axe awn, intertwined circulation, seems to tear the whole space, the momentum is terrible.

"Prefecture level martial arts?" Looking at this scene, the old monster's face suddenly changed. "Six layers of heaven, axe and prefecture level martial arts, you, are you wang fan?"

He finally recognized Wang Fan's identity!

In fact, as early as Wang Fan was not affected by his breath, and he used the cloud splitting sword technique, he should have recognized Wang Fan.

Just because Wang Fan was with Su Yueyi and was sheltered by Su mu, a strong Su family member, he didn't think that way.

After all, the Su family is a big family in Tianyun kingdom. Strictly speaking, they are the vassals of the Royal Nie family. But Wang Fan and the royal family Nie family feud deep like sea, how can su Jiajiao female and Wang Fan walk together? Looking at the golden axe awn all over the sky, he immediately confirmed Wang Fan's identity. After all, looking at the younger generation of Tianyun Kingdom, Wang fan is probably the only one who can possess the axe level martial arts and is still so powerful.

"I said that the royal family has searched you for two years, but they haven't found any trace of you. It turns out that the Su family is helping you. I see how the Su family will explain to the royal family after

going out. "

The old monster roared ferociously. This time, he didn't hold it as big as before. Instead, he grabbed it with his right hand. In an instant, the aura swept all over the sky and directly condensed into a long gun in the air.

The spear is completely condensed by aura. Although it is not substance, it is crystal clear, just like substance. After the long gun condensed, the surrounding space became illusory and powerful.

"Go The old monster grasped the handle of the long gun, pointed at Wang Fan and threw it hard.

Whoosh!

In a flash, the illusory spear condensed by aura was crazy to bomb Wang Fan.

Boom boom!

Again, the sky was full of light, the air was like waves, and the earth was buzzing.

However, although the long gun was terrible, it still could not stop the golden axe awn. The long gun was broken in the entanglement of the two sides, and it turned into aura. The light spot dissipated, and the axe awn shot at the old monster again.

Wang Fan looked at this scene, but did not like to be surprised.

He knew that those axe awns could not do much damage to the old monster.

Because the spear is not so powerful after being offset by the axe.

Sure enough, after the axe awns bombarded the old monster, they just smashed his body protecting spirit, and he spat out a few blood, which didn't hurt the foundation at all.

Is it really impossible to compete with the nine levels of heaven?

Wang Fan murmured, crazy face, directly put away the golden axe, hands dancing, crazy played the mountain seal knot.

If the bottom card is out, he can't kill or seriously hurt the elder Meng Ji, then he has to escape.

"Prefecture level martial arts are really extraordinary. It's a pity that your cultivation is too poor to give full play to its real power."

Although the old monster's tone was calm after stabilizing his figure, his eyes were full of crazy killing intention.

He Meng PI was hurt by a mole ant on the sixth floor of Tianjing. It's a shame.

Even if he can only play the strength of the Ninth level of Tianjing now, and can be injured by only the sixth level of Tianjing, it is still a shame. It is a shame that he can't bear!

He's angry!

Completely angry!

It's raging!
