Chapter 1611

Wang Fan still did not speak, just fast with a seal.

Soon, the Fanshan seal, which is the fusion of eight seals, has been formed. At this moment, the whole space becomes illusory, as if it can't bear the pressure.

A very strong pressure spread out, as if it could destroy the world.

"This, this is, heaven level martial arts?" Meng Ji's face turned pale in an instant when he noticed the terrible smell.

He didn't expect that Wang Fan still had such a bottom card and such an unfavourable skill.

This kind of pressure, this kind of power, is absolutely heaven level martial arts.

There is no heaven level martial arts in the whole Tianyun kingdom. Wang fan is just a little boy who enters Yuanmen from outside. Where did he get it?

At this moment, his scalp became numb and his heart became scared.

That monstrous murderous gas and anger, also under the strong pressure of that fanshanyin, completely dissipated.

"Old man, aren't you very arrogant? Didn't you say that I had any means to use it? I'll see if you can take my attack. "

Wang Fan said with a sneer, the whole face was pale and bloodless, and even the body could not stand.

Eight seal fusion, this is his limit, has almost exhausted his power.

If this blow can't help this old monster any more, he may even escape into extravagance.

But at this time, he has no choice but to fight with all his strength.

"Well! Even if you can show your sky level martial arts, you can't show me even if you can show your sky level martial arts with your strength of only six levels of sky realm! "

The old monster laughs wildly. He laughs wildly. The aura in his body has poured out madly again, forming armor protection on his body surface.

At the same time, his hand is also flashing out of a black hammer, right hand shaking, hammer broken empty, crazy toward Wang Fan.

The huge hammer broke through the air, and a few black awns were surging, just like black thunder and lightning. The fury of the wind was crackling towards Wang Fan.

That powerful power is obviously a kind of prefecture level martial arts.

It's terrifying that the nine level strongmen in heaven exert their prefecture level martial arts!

But, he is some regret, regret oneself entrust big, didn't kill Wang Fan in the first time.

After all, if he doesn't give Wang Fan time to make his mountain print, Wang fan can't make it.

But now it's too late to regret, and he also knows that in the face of Wang Fan's martial arts, he can't hide, he can only shake!

Hard shake, perhaps there is a chance of life, escape, that only a dead end!

"Well, I'd like to see if I can hurt you!"

Wang Fan felt the old monster's violent attack and sneered. He did not dare to neglect it. He suddenly pushed his hands and directly pushed the mountain seal out.

With a whoosh, the mountain mark broke through the air and raised milky white marks in the air. In the blink of an eye, they were bombarded with the black lightning of the old monster.

Boom!

A loud noise came out, it is shaking, at this moment, the whole second layer, are crazy shaking up, it is really began to collapse.

Wang Fan and the old monster were under the shock force. Their faces changed and they flew out with blood in their mouths.

That overflows the black thunder and lightning which scatters out, has torn innumerable to the bloodstain on Wang Fan's body, the clothes are broken, the blood rain flies everywhere, extremely embarrassed.

Relatively speaking, the old man is much better, just a few mouthfuls of blood.

And in the air, the mountain climbing seal and black lightning are still intertwined, the crazy air waves are spreading like waves, still pounding the second layer, and the collapse is even more fierce.

Countless pieces of gravel fell down, like meteorites, making them crazy to escape everywhere.

Soon, the mountain climbing seal was completely offset by the black lightning, and both sides disappeared.

Wang Fan tried his best to avoid the falling stones, and his face turned pale to the extreme. In this way, we still can't kill this old guy. It seems that he can only escape.

Thinking of this, Wang Fan clenched his teeth, while avoiding the stone, he rushed to the entrance of the stone steps leading to the third floor.

It's just that Wang fan is faster than that old monster.

"Little beast, where can I escape? Today, I will kill you! " With a roar, the old monster jumped up and chased Wang Fan crazily.

Wang Fan, must die, otherwise, he will sleep and eat uneasily!

Wang Fan looked at the old monster crazy chase, his face is even more ugly.

Is he really going to die here?

After all, the old monster's injury is far less serious than that of him. In addition, his own strength is stronger than that of him. Now his speed is much faster than that of him. If he is really caught up with the old monster, it will really be no way to heaven, no way to escape, no doubt he will die.

"Self explosion, do you want to force me to self explosion?" Wang Fan feels that the killing machine is more and more thick, and the old monster is getting closer and closer to him. As soon as he bites his teeth, madness emerges in his eyes.

Even if he died, he couldn't die in vain. He had to pull the old monster on his back!

However, just as Wang Fan was about to bite his teeth and explode, he suddenly heard a loud noise, followed by a buzzing sound, and a powerful force of border was oppressing him.

Obviously, the two men's fighting was too fierce, which broke some kind of prohibition here.

Wang Fan felt this scene, first in a daze, then in great joy.

His mental power stabbed out in an instant, his hands flashed, and he began to try his best to break the barrier.

And the elder Meng Ji was a little embarrassed.

Although he was also aware of the pressure of the border in advance, he had no ability to crack it and could only resist by strength.

With a hiss, under the strong pressure of the border, he knelt down on the ground and spat out a mouthful of old blood.

If he is not injured, this kind of border suppression, he can resist at will.

But now, he was seriously injured, so it would be difficult to resist the border suppression.

At this time, he no longer had the idea of killing Wang Fan, but crazily grabbed out the spirit stone, absorbed and recovered, and gathered spirit to resist the suppression.

Moreover, he was very careful and did not dare to show his strength and cultivation beyond the Ninth level of heaven.

After all, once he goes beyond that limit, he will be suppressed by the rules of heaven and earth and directly turn into powder.

Old monster in crazy recovery strength, and resist the border suppression at the same time, also coldly looked at Wang Fan, kill more.

This Wang fan is still a master of array, which makes him even more afraid. If he doesn't get rid of it, it will be a disaster!

Wang Fan's hands danced fast. It didn't take long for him to have a barrier on his body. And that layer of boundary diaphragm just offset the boundary suppression outside.

Although not able to resist all, but for Wang Fan, it is enough.

He dare not neglect, quickly flash to the old monster in front of, raise shadow knife is crazy split down.

After all, the second floor is still collapsing. I'm afraid it will collapse completely in a short time. He has no time to waste. We have to kill this thing as soon as possible and get out of here.

"Ha ha, even God is helping me, old man. This time, I want to see if you are dead or not!"

Wang Fan grins grimly, and the shadow knife is frantically chopping down.

This time, he didn't use any martial arts, not that he didn't want to use them, but that he didn't have enough aura to use.

However, even so, the old monster's face changed in an instant!

Chapter 1612

Now it's hard for him to resist the power of the border. Even if Wang fan doesn't use his martial arts, he can't resist it at all.

"Little beast, you want to die!" Under the threat of life, the old monster became completely furious.

At this time, he didn't care to suppress cultivation. The aura in his body surged out like a tsunami. The tyrannical breath went directly beyond the nine levels of heaven.

Almost at the moment when his breath exceeded the nine levels of heaven, Wang Fan felt a very strong pressure.

Under that pressure, the shadow knife in his hand was instantly stiff in the air, and he was no longer able to chop.

Not only that, he even realized in horror that he had no ability to act.

"It's terrible to be a strong man in xuanjing. Is that the power and strength of a strong man in xuanjing?" Wang Fan's heart was shocked and his face turned pale.

Xuanjing, which is the cultivation above Tianjing, is just xuanjing.

It can be said that xuanjing has already stood at the peak of Tianyun Kingdom, and is the top power. Those people, regardless of status or strength, are detached.

Just at this moment, suddenly, there was a buzzing sound and an invisible wave, but it suddenly came from the top of the head. In an instant, it had already wrapped the old monster.

"Ah, no, no!" The old monster noticed this scene, his face changed, and he couldn't help crying out in horror.

Just as his cry had just fallen, his body was spattered with blood, just like an explosion from his body. Within a breath, the whole person had become a pool of blood.

Even the space ring was crushed, and the cultivation resources in it turned into fly ash.

"The rules of heaven and earth, is this the suppression of the rules of heaven and earth?" Wang Fan looked at this scene, his heart was even more shocked.

The rules of heaven and earth are so terrible that they can't be stopped!

"Fortunately, the old monster is dead at last. No, it's suffering forever!" Wang Fan murmured. He didn't dare stay here any longer. He quickly got up and ran to the entrance of the third floor.

At the moment of the old monster's death, the strong breath on his body had dissipated, and Wang Fan

naturally recovered his action ability.

After Wang Fan broke the border, he quickly went to the third level.

He thought that because of the collapse of the second floor, the third floor must have been unsafe, and the soles of his feet had collapsed. But after entering the third layer, he found that it was not the case.

The third floor was not affected at all. There was no sign of collapse on the ground.

"Curious." Wang Fan murmured, then directly sat on the ground with his knees crossed. After breaking the third layer of boundary suppression, he began to recover his crazy cultivation.

He was seriously injured. He had to recover. Otherwise, if he met the other old monsters, he would be dead.

With the help of countless elixirs and spirit stones, Wang Fan began to resume his cultivation. I don't know how long it took. After all the elixirs were used up, he finally recovered to the peak, and went a step further, stepping into the seventh level of heaven.

A strong feeling surged in, and Wang Fan couldn't help taking a long breath.

The seventh floor of Tianjing is already the later stage of Tianjing. Now he meets those old monsters, one-on-one, and has some assurance.

There are six and seven levels of Tianjing. Although they are only one level apart, one is in the middle and the other is in the later stage of Tianjing. I don't know how much difference there is in strength. It's not comparable.

Wang Fan wandered around in the third layer, but he also did not find any cultivation resources. Obviously, cultivation resources were once again taken by others.

Wang fan is not discouraged, but quickly toward the fourth layer ran up.

Just as he had just entered the fourth floor, he saw five people, four men and one woman, all sitting on the ground with their knees crossed, resisting and breaking the boundary.

Obviously, Wang Fan was not the only one in the world who was clever and saw the mystery of the border formation. At least these five people also know that the border formation can enhance one's strength.

"It's you?"

"You even entered the fourth floor?"

"How is that possible?"

Five people see Wang Fan, in addition to the woman, the rest are greatly surprised, eyes flashing obvious surprise.

Obviously, they did not expect that Wang Fan would appear here. In other words, in their consciousness, Wang fan is not qualified or able to appear here.

The woman who didn't show surprise was su Yueyi. Su Yueyi knew Wang Fan's identity, so she was not surprised that Wang Fan could appear here.

In her heart, Wang fan can not appear here, that is an accident.

Wang Fan ignored the four men, just nodded at Su Yueyi, then sat on the ground with his knees crossed, cracking the fourth layer of border suppression. And he just began to crack, a sharp scream came out suddenly, "how can you appear in the fourth floor, my Mongolian elder?"

The one who opened his mouth was a tall man. The cultivation of the third floor of Tianjing was also one of the four men.

He was wearing a white robe, but the white robe was stained with blood and looked very dazzling.

He fixed his eyes on Wang Fan, and his eyes were full of incredible.

After all, he knew that he was waiting for Wang Fan at the entrance to the third floor.

Now, Wang Fan appears in the fourth floor, which is a big joke.

His voice was very sharp. If he hadn't broken the border suppression, I'm afraid he would have started to fight against Wang Fan.

"Are you the Mongolian family?" Wang Fan's eyes narrowed slightly when he listened to this. At this time, he remembered that when he stepped on the transmission array, this guy seemed to be following the elder Meng Ji.

"You're right. I'm the Mongolian family. Now I ask you, where's the elder of the Mongolian family? Didn't you see him?"

The voice of the young man with the surname of Meng is extremely sharp, and his eyes are also full of undisguised murders.

"Joke!" Wang Fan said with a smile, "where are the elders of the Meng family? How can I know? Can I help you watch him? He's not my son! "

Wang Fan said, ignoring the youth, but quickly cracked the border suppression.

Coax.

While listening to these words, the other three young people couldn't help laughing. There was surprise in the eyes of Wang Fan. Even Su Yue's clothes, the corners of his mouth also can't help widening a tiny radian.

Only the young man with the surname of Meng was completely furious. His eyes were ferocious and his body was full of anger.

He is also not talking, but suppressing anger, frantically cracked the border suppression, as long as he broke the border suppression, he will kill Wang Fan at the first time.

Naturally, Wang Fan also knew the mind of the young man with the surname of Meng, and his mental power turned to the extreme, which also accelerated the speed of cracking.

Race against the clock!

Now, the one who breaks the border suppression first will take the lead.

After all, the fourth level of border suppression is too big. If they don't crack it, let alone kill people, they won't last long.

Chapter 1613

Meng's face is full of gloomy smile. In his opinion, Wang fan is already a dead man.

After all, he has been here for some time in the morning than Wang Fan. Now he has some ideas about how to crack the fourth level of the border formation. Unlike Wang Fan, he just came up.

The other three young people felt the gunpowder between Wang Fan and the young men of the Meng family. They were all silent, and soon continued to immerse themselves in the solution of the border formation.

For them, it's none of their business. Naturally, there's no need to worry about it. Just watch the two fight. No matter who dies or who lives, it doesn't have much to do with them.

Only Su Yueyi is slightly worried about Wang Fan, although she knows that with Wang Fan's strength, the young man with the surname of Meng can never be Wang Fan's opponent.

But it's not outside. It's the fourth floor of the ancient hall, and there's the pressure of the border. If Wang fan can't crack the border suppression, he can't exert much strength at all.

Although she was worried, she had no other way. She could only immerse herself in the solution of the

border formation. She only wanted to be faster than the young man of the name of Meng, so that she could help Wang Fan.

After all, Wang Fan killed the animal Meng Ji and offended Meng's family because she killed and saved her. She still can't ignore it.

Wang Fan ignored the young man of the Mongolian family name. His mental power emerged crazily, and he was completely immersed in the mysterious border formation.

The formation boundary of the fourth layer is obviously more mysterious and complicated than that of the third layer, so he obviously felt some difficulty when he cracked it.

However, Wang Fan was not very nervous. He believed that he felt the strain, and the young man of the Mongolian family would also feel the strain.

Even if the speed of the young man with the surname of Meng is faster than that of him, it is definitely not much faster.

It's not that Wang fan is arrogant, but that he can break the border array, which is inseparable from the strength of his mental power.

Wang Fan's strength has now reached the seventh level of Tianjing, and his mental strength is even comparable to that of the Ninth level of Tianjing. Let alone the young man of Meng family, the old monster of Meng family who was killed by him before, his mental strength alone may not be stronger than him.

The reason why Wang fan is not absolutely sure that he is faster than the young man with the surname of Meng is that the young man with the surname of Meng arrived at the fourth floor first, and he suffered a loss of time.

Soon, the fourth layer fell into silence, and the six people all seriously cracked the boundary array and thoroughly immersed in it.

Wang Fan, along with the cracking, not only didn't feel boring, but also had a strong interest in the boundary array.

He was completely immersed in the vast ocean of the mysterious array.

I don't know how long, at a certain moment, accompanied by a hum, Wang Fan finally completely broke the fourth layer of the array boundary.

However, he did not immediately get up to kill the young man of the Mongolian family name. Instead, he began to set up the border formation with his hands dancing.

All the way, he has been cracking the array and has never arranged it. Now he wants to see if he can arrange this kind of boundary array.

However, with the arrangement, Wang Fan's eyebrows wrinkled tightly, because he found that the arrangement of the border array is much more difficult than the crack of the border array.

It's like it's easy to destroy something, but it's hard to make it.

But Wang fan is still not discouraged, but thoroughly sink in, began the rapid layout.

In this way, with the passage of time, at a certain moment, accompanied by a very excited laughter, the young man of Meng family name suddenly stood up.

His eyes cold sweep to Wang Fan, the body emerged a tyrannical murderer, "ha ha, son of a bitch, dare to be arrogant in front of me Mengchong, you are blind."

"You are so arrogant. I thought you were so talented and rebellious. Now it seems that you are just a waste. For such a long time, you haven't even broken the border formation. "

"I want to see how arrogant you can be next. I want to see if you have the previous prestige."

Meng Chong grinned coldly, got up and strode toward Wang Fan.

Every time he took a step, there would be a roaring sound. The ground trembled and the momentum was amazing.

At this moment, Su Yueyi and other four people were awakened and looked at Meng Chong with shocked faces.

They didn't expect that Meng Chong could break the boundary array so quickly.

You know, Su Yueyi's five people are all the pride of their own family or clan. Their strength is not weaker than each other, so naturally they are not willing to lose to others in solving the boundary array.

Now, they haven't completely cracked the array, but Meng Chong has. Naturally, they are not comfortable.

But soon they became Schadenfreude, because Meng Chong was going to kill Wang Fan. Naturally, they would not miss such a good play.

What surprised them was that Wang Fan didn't seem to be affected by Meng Chong at all. He still closed his eyes and danced his hands, as if he was still immersed in the array."Ah, this guy is going to be unlucky. Who should be offended? He provoked Meng Chong. Does he want to die in this way without humiliation? "

"If he thinks so, I'm afraid he's very wrong. It is impossible for him to die in silence because of his extreme character. "

One of the youths could not help sighing.

Meng Chong, the first member of the young generation of the Meng family, is more talented than Meng Ji. Moreover, his character is extremely evil, and his means are extremely vicious.

No one is willing to provoke such people, even they are generally reluctant to provoke.

Su Yueyi looked at Wang Fan who was still immersed in it, but she couldn't help but get anxious and yelled out, "wake up, Mengchong is going to kill you."

Looking at Meng Chong, who is full of killing intention and closer to Wang Fan, she is very worried and worried about Wang Fan.

If possible, she will go to help Wang Fan, but she hasn't broken the array barrier, so she is also powerless.

"Wake up?" And listen to Su Yue Yi's remind, Meng Chong suddenly stops, the cold eyes sweep to Su Yue Yi.

"Do you think that when he wakes up, he can fight against me? Don't say he hasn't cracked the border array yet. Even if he has cracked it, I will be the only one who will be killed by me! "

Meng Chong's tone is full of strong confidence. At the moment of speaking, the evil eyes are still dripping on Su Yue Yi's concave convex body, even licking his lips.

Because he knew that Meng Ji had a bad heart for Su Yueyi and was killed by Wang Fan, so he didn't like Su Yueyi at all.

"Meng Chong, what do you want to do? I tell you, don't look at me like that. I'm disgusted! "

Su Yue Yi noticed Meng Chong's eyes. She only felt that she had countless goose bumps all over her body. Her eyebrows stood up and she felt sick.

If there were only her and Mengchong, maybe she would be afraid of Mengchong, but there were not only them. She believed that Mengchong didn't dare to do anything to her Su Yueyi.

Su Yueyi guessed right. Meng Chong didn't dare to do anything to Su Yueyi in front of the other three young people. He just hummed and went to Wang Fan again, and said, "wake up for me!"

He roared, his right fist danced, and directly bombarded Wang Fan with his eyes closed.

Chapter 1614

Looking at this scene, the other three couldn't help but look forward to it.

Can that Su Yue Yi, the facial expression already suddenly changed, can't help but loudly scold to get up, "Meng Chong, what do you want to do?"

You know, any practice is the most taboo of violence, because if disturbed by violence, it is likely to backfire on the practitioners.

Light is injured, heavy is killed.

Wang Fan was immersed in the border formation, and he didn't even open his eyes. In this case, Meng Chong made a fist directly.

And look at the power of his fist, it's obvious that he hasn't left any hands. Wang Fan's ending can be expected.

However, Meng Chong didn't pay attention to Su Yue Yi's scream at all, and his fist was already bombarded out madly.

Crazy spirit has been stirred up, whistling in the wind, directly to Wang Fan.

At this moment, Su Yueyi's four people had fully anticipated Wang Fan's fate. Even Su Yueyi's eyes had been closed and he couldn't bear to see it.

She didn't expect that Wang Fan, the evil who moved Tianyun Kingdom, the ruthless Wang Fan who shocked the whole Tianyun Kingdom and made the seven powerful people have to pay a high price to enter the secret place of Zongyuan, would finally fall in this way.

And it fell into the hands of Meng Chong, the younger generation of the Meng family.

This is ridiculous.

Meng Chong's eyes were full of grimace, and he had expected Wang Fan's miserable end. But before the grimace in his eyes spread completely, he was completely stiff.

I saw that when his fist was about to hit Wang Fan, Wang Fan's eyes suddenly opened, and his inner essence flashed, and then his right hand swayed in the direction of the blow at a very fast speed.

With a buzzing sound, accompanied by the stroke of his right hand, an invisible force suddenly dispersed, as if forming a border in front of him. That is at this time, Meng Chong's fist blew on the border.

Boom!

With a loud noise, Wang Fan's silk did not move. It seemed that he was not affected at all.

On the other hand, Meng Chong felt a sudden surge of energy, and the whole person flew out with a bloody nose and mouth.

Looking at this scene, in addition to the Su Yue Yi who closed her eyes, the other three young people were all dull.

They felt as if their mind had been hit by a bomb, and their whole brain was blank.

So, what's going on?

They're incredible.

"The border formation is actually the border formation. This man not only cracked the border formation, but even arranged it?"

One of the young people couldn't help shaking his voice.

They are not fools, as long as you think about it, you will know what happened before.

Just because they know what happened, they are more and more shocked.

You know, the layout is far more difficult than cracking. Wang Fan came in later than them.

Now, they haven't completely broken the formation barrier, but Wang Fan has not only broken it, but also been able to arrange it. What talent is this?

Su Yueyi also noticed something was wrong and opened her eyes.

When she saw Wang Fan who had already stood up, and Meng Chong who had vomited blood, she could not help but be stunned. Countless question marks appeared in her mind.

So, what's going on here?

"You, you have been able to set up the border array. How is that possible?" Meng Chong fell to the ground, but his face changed dramatically.

Who is he? He is Meng Chong!

He is the pride of the Meng family, the first of the younger generation of the Meng family!

Originally, he was the first one to break the fourth barrier. He thought he was the most powerful. Now,

he finds that Wang fan is even more powerful than him. How can he accept this?

The most important thing is that Wang fan is still his enemy!

"Why not? Even you can crack the fourth level of the boundary array. I can arrange it. What's so strange?"

Wang Fan stares at Meng Chong coldly and approaches slowly. "You are really mean. You dare to sneak on me. How dare you!"

"I didn't kill you after I cracked the border formation. It's already a chance for you. But since you're not sure, don't blame me for being rude. "

In fact, when Meng Chong broke the border array and walked towards him, he already knew. Only at that time, his border arrangement was at the most critical moment, so he ignored it.

For Meng Chong, Wang Fan did not pay attention at all. It's just three layers of heaven. In his eyes, it's no different from an ant.

"You're welcome? Why not? Son of a bitch, can't you just arrange the border formation? What's so proud of? "

"It doesn't mean you are strong to be able to arrange the border formation. And the border formation can only defend, not attack. "

"Before I was unprepared, I would be hurt by the earthquake. Now I'm ready. You can't hurt me at all." "I'd like to see how many times you can resist my attacks with your border formation!"

Meng Chong soon got up again and grinned. He roared, the aura in his body was rolling, the breath was more and more powerful, and the killing intention was even more fierce!

What he said is right. The border formation arranged by Wang fan can only defend, not attack. Unless Wang fan can wrap it up with the border formation and make it feel the pressure.

After all, even if Wang fan is a gifted demon, it's not easy to arrange this kind of border formation.

Naturally, the enchantment array he arranged can't really exert pressure on all the people on the fourth floor just like the enchantment array on the fourth floor.

The other three youths also nodded to themselves after hearing Meng Chong's words.

Meng Chong is right. Wang Fan's border formation can only defend, not attack. It can't pose a threat to Meng Chong who is ready.

Unless the border array arranged by Wang fan can completely resist all the attacks of Mengchong, then Wang fan can still save his life, otherwise, Wang Fan will still die.

Only Su Yueyi's eyes were full of disdain. He just wanted to compete with Wang Fan. He was looking for death.

She has seen Wang Fan's strength with her own eyes, not to mention one Mengchong. Even if ten Mengchong go up together, it is estimated that they will only be killed.

"Oh, really?" Wang Fan listened to this, but couldn't help laughing, "you can have a try."

Wang Fan's disdain is like the expression of treating mole ants, which makes Meng Chong feel as if he has been insulted by heaven, and he suddenly becomes angry.

His palms were dancing fast, and the flowing light was flashing. The surging palm wind surged out, pierced the air, and directly attacked Wang Fan crazily.

Xuan level martial arts, split mountain palm, he wants to split Wang Fan into meat cake!

Wang fan is disdainful to look at this scene, as if watching a child playing juggling, until those hands close, just slow hand.

I saw his right hand waving, index finger momentarily moving, the strong wind breaking the air, accompanied by a road hissing voice, that all over the sky palm wind, is completely defeated, dissipated.

The next second, Wang Fan has a flash, came to the eyes full of surprise Meng Chong in front of a slap light fluttering down.

Looking at this scene, Su Yueyi's four people are all dull, completely shocked, with a dead silence on their face.

Meng Chong's face turned pale in an instant.

Chapter 1615

Meng Chong didn't expect that Wang Fan had cracked the mysterious martial arts that he had exerted with all his strength, which was just unacceptable to him.

You know, Meng Chong is the first young man of the Meng family. What a talent? Even if we look at the younger generation of Tianyun Kingdom, we can be regarded as the best.

But now, his attack was easily defeated by Wang Fan, which was beyond his expectation.

At this time, in the face of Wang Fan's quick slap, the boss of his pupil stare has forgotten to avoid.

Of course, in fact, even if he wants to avoid it, he can't avoid it at all. After all, the difference in strength is too big.

With a slap, Wang Fan's slap was immediately on Meng Chong's head. With a splash of blood, Meng Chong's head broke like a watermelon and fell straight down.

Meng Chong, the first young man of the Meng family, dead!

Su Yueyi four people looking at this scene, are a face of shock, for a long time can't talk to themselves.

Su Yue Yi is OK. After all, she has seen Wang Fan's strength, and Wang fan can't deal with her when she wants to come.

But the three young people's faces were a little ugly. Wang Fan was so powerful that if he killed them on the fourth floor, wouldn't they have only one way to die?

After all, this is the remains of the seven treasures. Strictly speaking, they are all competitors. It's not impossible for Wang Fan to kill them.

Of course, they don't understand Wang Fan.

Wang Fan's principle is that people don't offend me and I don't offend. Unless these people provoke him, he won't attack these people.

After Wang Fan killed Meng Chong, he took a look at Su Yueyi, laughed, and then flashed forward to the fifth floor.

He met Su Yueyi five people here, but he didn't see the six old monsters. Needless to ask, he knew that the six old monsters had already climbed the fifth floor.

Moreover, the fourth level resources must have been plundered by those old monsters, so Wang Fan didn't even have the idea of looking for the fourth level cultivation resources.

Now, he must speed up and catch up early, otherwise, when those old monsters divide up the resources here, he can't even drink soup.

Level five, level six, level seven.

Wang Fan went up all the way and soon came to the seventh floor.

On the seventh floor, he finally saw the six old monsters. At this time, the six old monsters are frantically resisting the pressure and breaking the border array.

Wang fan can clearly see that they are very hard, because the old face has become pale.

Seeing that Wang Fan appeared on the seventh floor, the faces of the six old monsters also changed obviously. There was a strange color in their eyes, even Su mu, the sixth grandfather of Su Yueyi, was no exception.

"Who are you, the pride of which sect, and why did you get to the seventh level?" One of the old men with a moustache, looking at Wang Fan, immediately asked.

This person is the elder of the Royal Nie family, named Nie Dao. At this time, he has doubts about the identity of Wang Fan.

You know, they all come up from the bottom. Naturally, they know the horror of the border formation.

In fact, let alone the seventh floor, even the sixth floor, it's not easy for the younger generation to get on.

Because if you want to break the boundary array, you not only need to dabble in the array, but also have extremely strict requirements on Cultivation and spiritual power.

It can be said that without the cultivation of the sixth level of Tianjing, it is impossible to reach the fifth level under normal circumstances. And Wang Fan, as a young generation, even ascended the seventh level. How could he not be surprised?

When Nie Dao inquires about Wang Fan, he can't help glancing at Su mu, because Wang Fan was with Su Yueyi before, and he was also taken by Su mu.

Su mu in the face of Nie Dao's eyes, but can only smile bitterly, in the heart also already had a touch of uneasiness.

In fact, he has already begun to doubt Wang Fan's identity. After all, all the young monks who have entered Zongyuan's secret place, except Wang Fan, can hardly reach the seventh level.

Wang Fan, this is harming his Su mu, harming his Su family.

Wang Fan didn't pay attention to that Nie way, but immediately sat on the ground with his knees crossed, and began to crack the seventh level of the border array quickly.

Of course, he knows that his identity has been exposed, but there is no way. First of all, the xuanao array has a great attraction for him. Let's say that the cultivation resources here are also what he must strive for.

Now what he has to do is not to talk nonsense, but to seize the time to crack the array. If he can crack it first, he can plunder the cultivation resources of the seventh level, then enter the eighth level and get rid of these people.

If the other side cracked it first, he would have to grit his teeth to return to the sixth floor and leave the remains of the seven treasures.

"Wang Fan, do you think if you don't speak, I can't guess your identity? You're so brave. You dare to come here on your own initiative. "Nie Dao saw that Wang Fan didn't speak, but quickly cracked the array. He immediately determined Wang Fan's identity, and could not help but start a ferocious roar.

At the same time, in addition to Su mu, the other four people's faces suddenly became ferocious.

"Wang Fan, you killed Zhao Tianjiao. Today, I'm going to skin you!"

"Little beast, because you want to compete with us for the cultivation resources, you are dreaming. Today, this is the place where your bones are buried!"

There is even a person glaring at Su Mu directly, shouting, "Su mu, you are really good, dare to shield Wang Fan!"

"And Su Yueyi, the little slut of your Su family, pretends to be pure and lofty. Unexpectedly, she colludes with Wang Fan. It's ridiculous."

"I think they killed Mengji because Mengji broke their good deeds, not because Mengji humiliated the little bitch."

The other four were shocked by this remark.

Another man looked at Su Mu ferociously and said, "I remember that before entering Zongyuan's secret place, Wang Fan changed his name to Ning Cheng. Su Yueyi invited Wang Fan, but he was rejected."

"Su Yueyi that little bitch, so many people she did not invite, but just invited that Wang Fan, now think about it, it is really a good play."

"In my opinion, I'm afraid your Su family has already recruited Wang Fan and hid him. No wonder the royal family has been looking for Wang Fan for two years, but they haven't found it. It turns out that it's your Su family who's doing it. "

For a time, the other five old monsters were all against each other, pointing at Su Mu and Su's family.

These people, originally belonging to different family forces, naturally have more or less contradictions. Now there is a chance to fall into the well. Naturally, we will not miss it.

Nie family Nie road's facial expression is also thoroughly gloomy to come down, obviously, also believed these people's words.

Su Mu's face was ugly, and he could hardly argue. He looked coldly at the old man who was the first to speak, and said, "Honghai, don't stir up the relationship between the Su family and the royal family, don't spit out blood!"

"Bloody talk?" The old man, who was called Honghai, sneered, "do you know if it's bloody or not. Don't worry. I'll report the matter to the royal family after going out. The royal family has its own conclusion! "

Chapter 1616

Su Mu listens to Hong Hai's words, the facial expression spirit is very white, almost don't have a mouthful of old blood to spurt out. However, at this time, even if he said anything, it is pale and powerless.

He knew that after the end of Zongyuan's secret place, most of the Su family would be finished. With the domineering style of the Royal Nie family, he will definitely set an example and uproot his Su family.

Wang Fan didn't pay attention to the quarrel of these old monsters. Instead, he was immersed in the mysterious formation of the seventh layer, leaving only a trace of mental strength to guard against those old monsters.

What he says now is pale, just to show off his power. Only by breaking the boundary as soon as possible can he live.

Otherwise, once those old monsters break the barrier of this array first, it will really be him who will die.

The five old monsters pointed to Su Mu and scolded him angrily. They took a gloomy look at Wang Fan. Then they stopped talking nonsense and cracked the boundary crazily.

If this is the sixth level, they can still fight the pressure of the border and kill Wang Fan first, but the seventh level is not.

Because the pressure of the seventh layer is too great. If they can't resist it, they can't even hold on to a few breaths.

With the passage of time, the seventh layer soon quiets down, and everyone is immersed in the mysterious array boundary, constantly deducing and cracking.

It's just that the formation boundary of the seventh level is too mysterious. It's not so easy to crack. Even though everyone is serious, three days later, no one can succeed.

Soon, time came to the fourth day. On this day, Wang Fan, who closed his eyes tightly, suddenly opened his eyes.

I saw his hands dancing fast and his body surface was full of brilliance. In an instant, the pressure of the seventh layer of boundary dissipated, and then he suddenly stood up.

Feeling this scene, the six old monsters all woke up in an instant, and their eyes flashed with horror.

They didn't expect that Wang Fan's array talent was so rebellious that he was the first one to break the boundary of this array.

You know, whether it's mental power or the time when we enter the seventh level, they have to have an advantage.

But now, they have not been able to break the seventh layer of the border, Wang Fan actually broke it first, which makes them some unacceptable.

After Wang Fan got up, he directly looked at the old monster except Su mu, with a chill in his eyes.

These six old monsters, except Su mu, the other five people all want to kill him, so he naturally plans to start first.

If it's outside, he wants to kill these five old monsters at the same time, but it's different here.

There is the suppression of the border array, and the five old monsters have not been able to crack it. This is a good chance.

If Wang fan can't grasp this opportunity, he will be in vain for so many years. It's better to find a piece of tofu to kill him.

Wang fan is the first one to go to the old monster named Honghai, who is the most fierce and aggressive to Su mu. Naturally, Wang Fan wants to kill him first.

"Wang Fan, what do you want to do? I tell you, although I haven't been able to break the boundary yet, you know, I can only use the strength of the nine layers of Tianjing. "

"If you are in a hurry, I will use my real power directly. Even if I am attacked by the rules of heaven and earth, I will kill you."

"Although the rules of heaven and earth are terrible, they will tear me to pieces, but you have to believe that I still have the time to kill you. I can kill you before I am torn by the rules of heaven and earth!"

Honghai looked at Wang Fan, who was walking up, and his eyelids jumped. He couldn't help shouting ferociously.

He didn't expect that Wang Fan could break the array so quickly, and even after breaking it, he didn't want to run away, but wanted to kill them instead.

What's more, Wang Fan's first choice to kill is Honghai!

"Oh, really? Then show your own strength. I want to see if you can kill me or not. "

With a cold smile, Wang Fan didn't hesitate. The golden axe came out in an instant, raised the golden axe awn all over the sky, and directly cleaved to the sea.

All over the sky, the force of Qi was torn apart, forming a torrent, just like the waves on the shore, and the violent killing force was just like the turbulent waves, which completely shrouded the sea in an instant.

"What a terrible situation And feel Wang Fan golden axe raised that terrible killing potential, Su Mu five people is the face big change, eyes flashing out obvious horror.

This kind of killing power, even compared with them, is better than others. It's not something the younger generation can tear apart.

Hong Hai's face changed greatly. He didn't expect that Wang Fan took his words as fart. He didn't even hesitate to threaten him. He directly launched an attack and showed his prefecture level martial arts skills.

Hong Hai felt the killing power all over the sky, and his eyes were splitting!"You want to die!" He roared wildly, and could not care about anything else. His breath soared wildly. He directly broke through the limit of the ninth floor of the heaven, and flew straight up.

His old face was full of ferocity, and there was a strong killing opportunity in his eyes. This was forced by Wang Fan. This was forced by Wang Fan. He must kill Wang Fan before the rules of heaven and earth tear him apart!

But what made him vomit blood was that almost when his breath broke through the shackles of the nine layers of heaven, Wang Fan had taken back the golden axe in an instant and began to retreat sharply.

Moreover, Wang Fan's eyes are full of banter, and the expression of looking at Honghai is like looking at an idiot.

When Hong Hai noticed this scene, he was even more angry. He danced his hands crazily. With a flash of body shape, he rushed toward Wang Fan.

Just at this moment, hum, a flash of light, an irresistible pressure has been shrouded in him, not waiting for him to respond, accompanied by a spray of blood mist, Honghai whole person, has been torn into a pool of blood.

At this point, the old generation of the Hong family, even if you look at the famous xuanjing strongman in the whole Tianyun Kingdom, Honghai, die!

Su Mu and other five people look at this scene, their eyes are all dull. Their old faces were full of shock.

What a terrible power of the rules of heaven and earth. It's really against the heaven. It's not human power.

Looking at the sea turned into a pool of blood, they were numb with cold sweat.

At this time, no one dares to underestimate Wang Fan any more. Their eyes that look at Wang fan are full of fear.

Yes, it's fear.

"There's so much nonsense. Do you really think I'm scared, idiot! It's just a pity that another space ring is gone. "

Wang Fan sighed a little depressed, then turned to look at the old monster of the Royal Nie family, Nie Dao.

Nie Dao saw Wang Fan's eyes sweeping, his eyelids immediately jumped, and his heart became cold.

The rest of the old monsters did not dare to say anything more. They quickly closed their eyes and continued to crack the border prohibition.

Now they understand that if they can't break the boundary prohibition, whoever Wang Fan kills will die. Even if they try their best to practice their true cultivation, they will be directly torn apart by the rules of heaven and earth, and there is no chance at all.

Chapter 1617

Nie Dao's old face was gray, and a thick fear flashed in his heart.

He did not expect that Wang Fan's second choice to kill would be him.

In the past, Wang Fan was a mole ant in his eyes, but now he can't.

He didn't wait for Wang Fan's hand. He immediately said, "Wang Fan, calm down! As long as you are willing to let me go, I am willing to make peace with the royal family for you and cancel your wanted. "

"In addition, my royal family is willing to take you as the guest of honor and make every effort to cultivate you, so that you will be prosperous and prosperous all your life."

Nie Dao's words were almost roared out, and the old man's face also showed a kind smile, and his tone was full of sincerity.

No one wants to die, and his Nie Dao is no exception.

"Oh? Do you honor me as your guest of honor and honor for the rest of my life? " Wang Fan listened to this, eyelids can not help but smile, eyes become flashing up, as if moved in general.

Nie Dao saw that Wang Fan seemed to be moved and quickly nodded, "yes, I promise, as long as you don't kill me, you will definitely keep your word."

Just as his words had just come to an end, his eyes were covered with a dense golden light. Wang Fan had already made a move, and the golden axe cut down directly.

"You." Nie Dao looked at this scene, it is fear of trembling, almost vomit blood.

He didn't expect that Wang Fan would be so insidious. He pretended to be excited on the surface, but he took advantage of his time to speak mercilessly.

All over the sky, the golden mang is killing fiercely. This time, Nie Dao doesn't even have the chance to show his real cultivation. He just has time to lift his hand slightly, and then he has fallen down completely in a burst of blood spray. He is dead at once.

Looking at this scene, the other three old monsters, except Su mu, all changed their faces.

While they split their mind to crack the array, they looked at Su mu.

"Su mu, don't you persuade Wang Fan, do you want to watch him kill him?"

"Su mu, I tell you, there is no airtight wall. If you watch him kill us like this, the royal family will never let you go."

"Su mu, as long as you are willing to plead for us, as long as you let Wang fan not kill us, we swear that we can do nothing."

The three seem to know that no matter how much they say in Wang Fan, it's useless. Instead, they yell at Su Mu one after another.

Su Mu looked at the hateful faces of the three old guys and couldn't help sneering.

Just now, these three old men were clamoring to tell the royal family that the Su family had protected Wang Fan, but now they have asked for him again. It's disgusting.

He really didn't want to look at the hateful faces of the three people. He turned his head to one side and pretended that he didn't hear or see anything.

"Su mu, you!" The three old guys could not help but get angry when they looked at the scene. They almost vomited out their blood.

"Well, you old Su, you wait. As long as we don't die, your Su family will be destroyed."

They stare at Su Mu to finish maliciously, then then looked at Wang Fan.

At this time, Wang Fan has been satisfied with the collection of Nie Dao's space ring, eyes in the three of them began to scan back and forth, as if thinking about who to kill next.

Looking at Wang Fan's expression, the three men were almost angry.

They are big people, but they are famous in Tianyun country. If you stamp your foot, it will cause an earthquake in Tianyun country, which is enough to make countless people worship and respect their existence.

Once upon a time, a mere descendant dared to despise them so much? It's humiliation. It's humiliation.

But now they really have nothing to do with Wang Fan, because Wang Fan seems to have become the master here.

"Wang Fan, space ring for you, I only ask you to spare your life. The one who wanted you was the Nie family, and the one who offended you was also the Nie family. I and my family haven't offended you. Why kill them all? "

One of the elders is determined, and directly grabs the space ring to throw it to Wang Fan.

In his heart, he became anxious, his mental power was surging wildly, and he secretly cracked the boundary array.

Fast, fast, as long as you give him a few more breaths, he will be able to completely break the boundary array.

At that time, the situation will be reversed, and the strong Wang Fan will turn into fish and ants.

The other two people saw this scene, followed suit one after another, without hesitation also lost the space ring in their hands in the past, and said soft words.

They were servile, friendly and sincere, but they were filled with crazy anger.

They vowed that as long as they left the remains of the seven treasures, they would kill Wang Fan first and frustrate him at all costs.

Wang Fan impolitely put away the three people's space ring, but the corner of his mouth is flashing a play abuse.

As he was about to speak, his face couldn't help changing and he suddenly turned to the old man who was the first to throw the space ring to him."Ha ha." The old man suddenly stood up with a wild smile. The eyes looking at Wang Fan were full of endless killing intention.

"Boy, I didn't expect that. I also broke the boundary of that array. In a word, I really want to thank you for giving me time to crack the border formation. "

He grinned grimly, his tone suddenly changed, and cheered coldly, "don't you return the space ring, do you want me to do it myself?"

The other two elders, looking at the scene, couldn't help but feel ecstatic.

"Brother Wen, good job."

"Ha ha, it's a turn for the better. Brother Wen, kill that little son of a bitch! Oh, no, I can't kill him yet. First I'll abolish his cultivation, then I'll scratch my skin and cramp, and then I'll be late when I leave this secret place of Zongyuan! "

One of the old guys looked maliciously at Wang Fan, and his eyes were full of crazy murders.

Look at his vicious expression, as if the person who kowtowed to Wang Fan before was not him.

"The ring?" But Wang Fan couldn't help laughing, "didn't you take the initiative to give me the ring? Why, now I'm back? "

"You also said just now that it was the Nie family who had made a grudge with me. There was no need to kill them all. Why, now you're going to have a grudge with me? "

"I Pooh!" The old man, who was called brother Wen, listened to Wang Fan's words and spat, "what are you, dare you take my space ring?"

"Feud? You're just a mole ant. Even if I have a grudge with you, how can I be afraid of you? "

"Don't bullshit, hand in the space ring quickly, otherwise, don't blame me for killing you directly!"

The old man's tone was domineering. He changed his servile attitude and threatened angrily.

If he didn't break the boundary of this array, he was really afraid of Wang Fan, but he had already broken the boundary of this array, and he was afraid of fart.

Wang Fan, in his eyes, is a mole ant. You can kill it at will!

"What a shameless old thing. You gave me the space ring. If you hadn't given me the space ring, you would have been dead, you know? "

"If I don't kill you, you're not grateful, but you want to kill me. It's really shameless and mean of NIMA!"

Chapter 1618

"Boy, you want to die!" The old man, surnamed Wen, was angry at Wang Fan's words.

It's a shame for a young Mole ant to dare to call him a shameless old man and to call him shameless and mean. How can he bear it?

He drank furiously, and his breath began to soar wildly. He was about to start. But at this time, a burst of laughter came out, and another old man suddenly stood up.

Obviously, this person also broke the barrier of that array.

Wang Fan looked at this scene, his face could not help changing again. He did not dare to hesitate any more. He directly took out the golden axe, and frantically cleaved to another old man who had not broken the border array.

He didn't dare to wait any longer. Two old monsters on the ninth floor of heaven would be enough for him to drink. If that old monster could break the boundary of the array, wouldn't he have to wait for death?

"Boy, you dare!"

"Stop it

The old man surnamed Wen and the old man who had just broken the boundary of the array suddenly changed his face.

They did not expect that Wang fan should be so crazy and bold, even dare to kill the old man directly in front of them.

This is simply not to pay attention to them, it is contempt for them.

The old man, who was trying his best to break the border array, also changed his face in an instant and became extremely crazy.

Give him a few more breaths, and he will be able to break the enchantment array. Unfortunately, even a few breaths have become extravagant expectations for him now.

He is unwilling, he is angry, he can't accept it, but it can't change the reality at all.

Because Wang Fan's hand was too fast and there was no sign in advance, the sharp golden axe awn had covered his whole body in a moment.

The way the blood fog spurts out, just blink of an eye, his whole person, is thoroughly turned into a piece of meat.

Wang Fan killed the old man, then looked at the other two people, said with disdain, "joke, I dare not."

"You can all be so mean and rebellious. Can I wait for him to break the array and join hands with you two to deal with me?"

Wang Fan said, the body's breath also began to soar, the sharp killing idea from the whole body surging out.

"Good, very good. I've seen a lot of arrogant young people, but it's really the first time I've seen such arrogant people like you."

"You can rest assured that I will take good care of you and never let you die so easily."

The old man with the surname Wen gnashed his teeth, and his tone was full of Senran.

Wang Fan didn't pay attention to him, but suddenly turned his head and looked at Su mu, who was still kneeling on the ground. "Su Lao, please help me block that old miscellaneous hair."

"Now they have begun to hate your Su family and intend to slander your Su family. Do you want to see them leave this secret place alive?"

"If they don't die, you will die, and your Su family will die. Don't worry. I don't need you to help me kill them. I just need you to help me stop one of them. When I kill one of them, I will help you. "

As soon as Wang Fan said this, Su Mu's face changed.

Su Mu is a little strange. How does Wang Fan know that he has broken the border array?

The face of the old man Wen is incredible.

Su Mu has already broken the border array? But why didn't he show it?

Their faces were gloomy, and they became extremely ugly.

The old man with the surname Wen pointed at Su Mu and growled, "Su mu, you old bastard, you have already broken the boundary array."

"You broke the boundary array, but you didn't stop it. Instead, you watched Wang Fan kill us. It seems that your Su family really has a lot to do with Wang Fan."

In addition, the old man also roared, "Mr. Su mu, I remember this matter. When I leave this secret place, I will report it to the royal family truthfully. I'll see what your Su family will do."

Wang Fan listen to this, heart secretly scold an idiot, can't help but secretly happy.

He is not afraid of these two people threatening Su mu, just afraid of these two people saying good words to be soft hearted. Now the attitude of these two people is obviously forcing Su Mu to help Wang Fan.

Su mu can't help frowning. He takes a meaningful look at Wang Fan, and then stands up. He looks at the old man named Wen and sighs,

"ah, I didn't want to help Wang Fan deal with you. But you have to force me and aim at my su family. Since you are unkind, don't blame me for being unjust. "

"Su mu, you!" The old man, surnamed Wen, was furious when he saw that Wang Fan was not affected by the array.

In addition, the old man was even more angry, "Su mu, don't get into your head!"

He pointed to Su Mu and couldn't help grinning, "do you really think that Wang fan can kill us?" "No matter how evil he is, he is no more than seven levels of heaven. Facing us, there is only one way to die. That's digging your own grave. You will push you and your Su family into the abyss. "

"Ha ha." Su mu can't help laughing, "I don't help Wang Fan, you go out to frame my su family, I help Wang Fan, you still want to frame my su family."

"Anyway, you are trying to frame my su family. Why don't I help Wang Fan? Only when you die, my su family will be safe. "

"Hum!" And listen to this, Wen surnamed old man can't help but cold hum a, then looked at another old man, "I stop that Su mu, you depose that Wang Fan as soon as possible, and then come to help me."

Between the words, he has already directly dodged a body, toward Su Mu to attack past.

"Good!" In addition, the old man also answered, and then his whole body was full of breath. He rushed directly to Wang Fan.

"Ha ha, good come." Wang Fan looked at the scene, not surprised but happy. With a laugh, he flashed forward.

When he was at the sixth level of Tianjing, he could compete with the old monster of the Meng family. Now he has reached the seventh level of Tianjing, so he is not afraid of the old guy.

In particular, he knew that these old guys could only show the strength of the ninth floor of Tianjing at most, so he was even more confident.

The sharp light twinkled and the violent killing stirred. In a clanging sound, Wang Fan fought with the old monster.

He opened and closed his hand, and his attack was sharp and cunning. He was absolutely furious.

Gang thunder fist, cloud splitting sabre, silence axe and other martial arts are continuously used, which makes the whole space full of violent killing power.

Under Wang Fan's crazy attack, the old monster who fought against Wang Fan was forced to retreat. It was a look of horror.

Let alone kill Wang Fan, even if he shows Xuanji martial arts, he still can't stop Wang Fan.

Not far away, the old man surnamed Wen and Su Mu Yi watched the scene, and their faces could not help changing wildly.

The old man's eyes were full of shock, obviously did not expect that Wang Fan would be so powerful and terrible.

You know, Wang Fan's cultivation is only seven levels of heaven.

Although the old man can only perform the cultivation of the Ninth level of Tianjing, he is a powerful man in the metaphysical realm. Even if his strength is suppressed in the Ninth level of Tianjing, his combat effectiveness is far from the real ninth level of Tianjing.

Wang Fan was able to beat the old man. His fighting power was abnormal. He had never heard of it, let alone seen it.

Compared with the gloomy face of the strong man surnamed Wen, Su Mu is very happy. He is now tied to Wang Fan on a rope. The stronger Wang fan is, the better it is for him.

Whoosh!

At this time, Wang Fan had already seized the opportunity, and his aura was surging in his body, and he chopped down madly.

At this moment, the face of the old man who fought against Wang Fan changed completely and became extremely pale!

Chapter 1619

Aware of this scene, the old man, surnamed Wen, suddenly changed his face. With a roar and a flash of body shape, he planned to rush to attack Wang Fan from behind and force Wang Fan to withdraw his attack.

But his figure just flashed, Su Mu's figure had been blocked in front of him, and said with a smile,

"old man Wen, your opponent is me, so there's no need to participate in the battle there."

"You The old man with the surname of Wen looked at Su Mu standing in front of him. His eyes almost split, and his attack became more crazy.

Su Mu face Wen surname old man that crazy attack, but leisurely, one by one resist down.

Look at Wang Fan there again. With a hiss, the golden axe has been cut on the old man's chest in an instant.

Clusters.

With a jet of blood, the old man didn't know how many bones were broken even if he was blown upside down.

When he looked at Wang Fan, his eyes almost split.

Originally, he intended to get rid of Wang Fan in an instant, but he never thought that Wang Fan was the first to hurt him.

Unbearable, absolutely unbearable!

"Why not? You old trash, you are really useless! "

"Those who are strong in xuanjing can't beat me seven times. Have you practiced on dogs all these years? If I were you, I would be absolutely ashamed. I would abandon my cultivation directly, and then hit the wall and die. "

Wang Fan looked at the old man, his eyes were full of sarcasm and disdain.

He insulted each other in his mouth, but he was merciless in his hand. Holding the golden axe, he bombarded the past crazily again.

"Ah The old man was humiliated and provoked by Wang Fan, and he couldn't help crying out in a frenzy. He wanted to tear Wang Fan to pieces.

How he thought, how he wanted to use his real strength to crush Wang Fan and crush him to death.

But now, he does not dare to use his real strength at all.

Hong Hai's body is still there, and the blood is not completely dry.

The old man roared madly and resisted madly, trying to force Wang Fan back and then seize the opportunity to kill him.

However, if he was not injured, he could not help Wang Fan. Now that he was injured, he could not help Wang Fan.

In addition, he was humiliated by Wang Fan, his heart was very manic, and he couldn't exert much fighting power. He just took a few breaths, and there were several more bloody wounds on his body.

Feeling the tingling of his whole body, he was almost splitting his eyes and heart like a knife! The eyes were red and bloodthirsty, which was frightening.

"Is it useful to shout? Come out with real strength? It seems that you're really useless. You've trained on dogs. You haven't learned how to bite people. You've learned how to bark. "

Wang fan is still severely humiliating the old man, the attack is more and more tricky, more and more fierce.

At a certain moment, with a hiss, the whole right arm of the old man was directly cut down.

Blood gushed like a column, and the old man's scream became more and more shrill.

If one arm is abandoned, the old man's fighting capacity will be greatly reduced. In addition, he is furious and unable to calm down. He has suffered many injuries before, so his fighting capacity will be greatly reduced.

At a certain moment, Wang Fan kicked out again and trampled on the old man's chest. With a bang, the old man's ribs were smashed and the whole person was shot out.

But before he fell to the ground, Wang Fan had suddenly stepped forward, grabbed his legs with both hands and threw him up.

Whoosh!

Flying in the middle of the sky, the head hit the wall and died instantly.

He didn't even think that he would die in such a humiliating way.

He did not expect that he would die in the hands of Wang Fan.

Hate!

No!

Unfortunately, everything is meaningless.

Wang Fan killed the old man, then turned his head and looked at the battle of Su mu.

Su Mu there, Wen surnamed old man has been completely crazy, fierce attack.

Although Su Mu is also very tough, he is obviously not as good as the old man with the surname of Wen. Although he has not been injured, he just shows his defeat.

After they realized that Wang Fan had killed the old man, Su Mu was overjoyed and immediately couldn't help crying, "come and help me!"

The old man with Wen's surname changed his face. "What a waste!"

He bites a tooth low scold a, body shape a flash, direct flash Su Mu's attack, then madly toward that sixth floor of entrance ran past.

Although he is fierce, he can beat Su mu, but in the face of Su Mu and Wang Fan, there is no chance of winning.

Now the only chance to survive is to return to the sixth floor and leave the ruins palace of the seven treasures.

Otherwise, if he dares to stay here or climb the eighth floor, he will be dead.

He was also very unwilling. After entering the secret place for such a long time, he gave all the cultivation resources to Wang Fan. If he goes out like this, it means he has nothing.

But now, he has no way.

Wang fan is so powerful that even he has to be afraid.

He swore that as long as he left this secret place, he would definitely kill Wang Fan!

"Want to go? Can you go? Oh, by the way, don't you want your space ring back? Why, don't you want it now? "

Wang Fan, with a smile and a flash of mist and shadow, ran directly to the entrance to the sixth floor before the old man with the surname Wen.

He holds the golden axe in his right hand and the old man's space ring in his left. His eyes are full of abuse.

"I admit defeat, I admit my mistake, I promise, after going out, I will not aim at you, Wang Fan, nor the Su family. Today's event, I will take it as if it didn't happen, I swear!"

The old man, surnamed Wen, repressed his anger and softened again, but his breath became more and more violent.

Wang Fan listened to this, but he couldn't help laughing. He was very happy. "Yes, well, I'll believe you again. I'll kneel down and swear."

The old man, surnamed Wen, was stunned at first, and then was furious, "what do you say? You want me to kneel down, you are humiliating me?"

Wang Fan's innocent face, "how can it be? In our hometown, swearing is to kneel down, that will be sincere, will show

"I tell you, I've given you the chance, but if you don't grasp it, don't blame me for being rude."

Wang Fan said, the breath in his body is surging. On the golden axe, there is also a sharp golden light. It seems that as long as the old man doesn't agree, he will do it immediately.

At the same time, Su Mu also flashed to the old man with the surname of Wen and sealed his back. Although he was a little depressed, Wang Fan didn't ask why he didn't do it directly.

The old man with the surname of Wen felt the killing intention of Wang Fan and Su mu. He bit his teeth and plopped down on his knees.

"I, Wen Changshan, swear that what happened today will never happen. After leaving this secret place of Zongyuan, I will never target the Su family and Wang Fan. If I violate this oath, heaven will destroy the earth!"

He swore with gnashing teeth, but he was screaming in his heart. Even if I didn't target you, Wang Fan and Su family, I would let others target you. You wait. As long as I don't die, you will all die!

Just don't wait for the thought in his heart to fall, Wang Fan's voice is again spread out, "well, the oath has been made, next give me a hundred ring head."

"Remember, it must be loud enough, it must see blood, otherwise, this oath is meaningless."

Listening to this, the old man with the surname of Wen suddenly raised his head and stared at Wang Fan. The anger in his heart erupted again, "you, are you playing with me?"

Chapter 1620

"Ha ha." Wang Fan couldn't help laughing. "I didn't expect that you old guy was not stupid. He even knew that I was playing with you."

Wang Fan said, the golden axe in his hand had been sacrificed, and the golden awn was flashing all over the sky. He went straight to the old man with the surname Wen.

"You The old man with the surname Wen's face changed greatly, and his aura appeared in his body. In an instant, he wanted to retreat.

But at this time, that has been guarding behind him, the Su Mu who has not opened his mouth has suddenly shot.

See Su Mu to come forward directly, right fist confluence gush aura, a fist blast.

The violent killing spread, and immediately blocked the old man's retreat. He was already unavoidable.

"Su Mu!" The old man, surnamed Wen, was shocked, but at this moment, Su Mu's fist had fallen on him.

Under the huge force of bombing, the old man with the surname Wen flew out directly to Wang Fan's golden axe.

It's a series of blood shot again. Just for a moment, the old man with the surname Wen has been turned into blood mist by the golden axe.

"Little friend Wang Fan, we all rely on our own abilities in this hall. I'll go first." Su Mu took a deep look at Wang Fan. After leaving a sentence, she flashed to the eighth floor.

In fact, he also thought about whether to kill Wang Fan. After all, he and Wang Fan jointly killed five old men with the surname Wen. If Wang Fan spread the story, it would still have a great impact on his Su family.

Just after thinking of Wang Fan's terrible fighting power, he finally gave up his mind. Because he's not sure.

Wang Fan also deeply looked at Su Mu one eye, did not speak.

He knew that Su Mu and he were not real friends, just for a variety of reasons, just a short time together.

After all, Wang Fan offended the Royal Nie family. As a vassal of the Nie family, how dare the Su family get too close to Wang Fan?

But Wang Fan didn't care. Instead, he searched for the seventh level. Because the seventh level of cultivation resources had not been taken away, he would not let it go.

A few minutes later, Wang Fan came to a simple room, after entering the room, he suddenly became surprised.

Because in that room, there was a one square pool, and at this time, the pool was filled with beads.

God, how many beads are there in such a pool? At least it should be over ten thousand?

Wang Fan looked at the beads and was so excited.

You know, he just got more than 100 beads in the lingtan before. Now, I saw more than ten thousand beads. I can imagine my inner excitement.

"I'm rich. I'm really rich. This trip is really worthwhile. I didn't come to Zongyuan's secret place in vain."

"With these beads, I must have broken through to the top of heaven. Is there no problem? Maybe, I can step into the mysterious realm with these cultivation resources. "

Wang fan is really excited. He has found so many miracles in the seventh level. You can imagine how rich the cultivation resources in the eighth level will be.

He has some expectations.

Just think of Su Mu to have already taken the lead to step into that eighth layer, he can't help of some anxieties.

He didn't hesitate. He flashed quickly and ran to the eighth floor.

Tianyun Kingdom, royal family, a hall somewhere.

Nie Tianlang sat on the throne in a golden robe, and his face was very gloomy.

Below him stood six middle-aged men.

These middle-aged men, each of them, are extraordinary and full of dignity.

They are all great figures in Tianyun kingdom. They are either the head of a family or the head of a clan. Their status is very prominent.

But now, their faces are also very ugly, eyes mixed with puzzled, heartache, and anger.

Because just before, the elder of their family who was sent to Zongyuan's secret place, his soul jade plate was broken.

The broken jade card of the soul means that the elders have already died, and have met with misfortune.

And for this scene, they are very incredible.

You know, those who are sent to Zongyuan's secret place can display the strength of the Ninth level of Tianjing.

What happened in the secret place of Zongyuan, the six top strong men who died in a row?

If one person died, it would be enough. Now six people have died in a row. It can be said that except Su mu of the Su family, the whole army has been destroyed. How can they accept that?

You know, it's the powerful in xuanjing, but it's the top fighting power in their strength. How can they accept this kind of loss?

Nie Tianlang's face was also very gloomy. It was extremely gloomy.

Because the Nie Dao he sent also died.

The Royal Nie family is directed by Nie Tianlang to deal with Wang Fan. The hunter who is sent out to chase Wang fan is also the direct line of Nie Tianlang. Although it seems from the outside that the Royal Nie family is chasing Wang Fan, in fact, it is only Nie Sirius who is chasing Wang Fan.

As for those in charge of the Nie family, the emperor of the royal family, they would not care about such trifles at all.

After all, Nie Tianlang is not only the prince, but also a gifted evil, potential and highly valued prince. He is also a strong competitor for the next Royal Lord, so he has great power.

Originally, if Nie Tianlang really succeeded in killing Wang Fan, it would be nothing, but he has not been able to kill Wang Fan, but also made himself lose his troops, it would be different.

This matter will certainly attract the attention of other princes. Once those princes attach importance to Wang Fan, they are likely to win over Wang Fan. At that time, it will be more difficult for him to kill Wang Fan.

After all, although Nie Tianlang is powerful, there are still three princes in the royal family who can compete with him. He can't cover up the sky at all.

At this time, Nie Tianlang's face was very gloomy, and his eyes were full of anger.

He intuitively believed that the death of the six strong men had something to do with Wang Fan, but he couldn't believe it.

After all, if Wang Fan goes against heaven again, he can't enter the secret place of Zongyuan until he reaches the ninth floor of the earth. How long has it been before he has the ability to kill the six old monsters in the ninth floor of the heaven?

"Please don't be impatient. I've sent someone to invite the master of the Su family. I think the master of the Su family will come soon. We'll ask Su Mu about it then."

"As for what happened in Zongyuan secret place, I also want to know. When Zongyuan secret place is closed, everything will be known."

At a certain moment, Nie Tianlang suppressed his anger and said.

The six patriarchs listened to Nie Tianlang's words with a bitter smile and nodded.

"The Su family is here." Not long after, accompanied by a report, a middle-aged man came in quickly.

Although he was middle-aged, he was handsome, dignified and powerful. If you look closely, you will find that he and Su Yueyi are somewhat similar. Obviously, he is the father of Su Yueyi.

"Su Lin has seen his second highness. I don't know what his highness called me for?" Su Lin quickly went to Nie Tianlang and asked respectfully.

"Master Su is polite, but there is no big deal. I just want to ask elder Su mu, how are you now?" Nie Tianlang asked with a smile.

Although he treats his subordinates domineering, he does not have much airs in dealing with the heads of these families.

Because these people are members of his faction, and they are the forces he has won over. If they offend him, it will do him no good.
