Chapter 1941

"Shut up

However, just when Zhao Hengzheng was staring at Wang Fan and thinking about how to retaliate in the future, one of the dwarf friars suddenly drank impatiently.

With the angry, he also directly forward two steps, the whole body jumped up, suddenly kicked in Zhao Heng's face.

With a thump, Zhao Heng's left face was immediately depressed by the kick. When his face bone was broken, he vomited a mouthful of broken meat in his mouth.

He stared at the dwarf who kicked him, and there was doubt in his eyes. He obviously didn't understand why the man kicked him.

"What are you looking at? Shut up to Master Zhu. If you dare to talk nonsense, Master Zhu will kill you!" The dwarf monk snorted scornfully, and then looked at Wang Fan.

He pointed to Yunling and said, "girl, don't you come here for me? Are you waiting for me to do it myself? "

Yunling did not speak, just subconsciously back two steps, hiding behind Wang Fan.

I can't help it. This dwarf is really disgusting. She just looks at it and feels numb.

The dwarf saw cloud spirit's action, his brow couldn't help wrinkling and looked coldly at Wang Fan.

But he is too short. Wang Fan still needs to raise his head, which makes him very uncomfortable.

"Boy, you make Mr. Zhu very uncomfortable. Kneel down for him. Maybe if I'm in a good mood, I can give you a way to live."

Listen to this, Wang Fan has not said anything, that Zhao Heng is a little anxious, "Zhu ye, can't spare him."

However, half of his face was broken and he had some difficulty in speaking. It was painful to say just a few words.

"Pa!" There was another sound. The dwarf suddenly put out his fist and hit his right face.

This time, Zhao Heng's right face bone also followed the depression down, spewing out a mouthful of blood at the same time, could not help but issued a miserable hum.

"What kind of thing do you have the right to order Mr. Zhu?" The dwarf looked very unhappy.

Zhao Heng's head full of anger, mouth full of bitterness, but this time, he is really speechless.

Wang Fan looked at this scene, but he couldn't help laughing.

It's true that evil men need evil men's mill. Zhao Heng originally intended to use these dwarfs to deal with him and Yunling. As a result, before the dwarf started to fight them, he cleaned up Zhao Heng first.

Looking at Zhao Heng's tragic situation, Wang Fan couldn't help but come up with two words: deserve it.

"What are you laughing at?" When the dwarf saw that Wang Fan was laughing, he suddenly got angry. He suddenly jumped in place, pointed to Wang Fan and said,

"didn't you hear what Master Zhu said? Mr. Zhu, I want you to kneel down. It's uncomfortable for him to stand like this! "

The dwarf was really angry. Because of his physical defects, he hated those who were handsome and tall.

Every time he met this kind of person, he would first let him kneel down like a dog, and then torture him cruelly.

So he was very angry to see that Wang Fan didn't kneel all the time.

Wang Fan listened to the dwarf's words, and finally couldn't help it. "It's none of my business whether you are comfortable or not. Why should I kneel for you?"

He also made a disgusting appearance, and couldn't help spitting, "what's more, you're so ugly, I just want to look at you and feel sick. If I kneel down for you, I'm afraid I won't be able to sleep any more. "

"You want to die!" Listening to Wang Fan's words, the dwarf suddenly became angry. His face was even more ferocious and terrible.

He hated people saying he was short and ugly!

When he was a child, he was bullied because he was short and ugly!

This is his inverse scale, is the untouchable bottom line!

But now, Wang Fan has touched his bottom line.

"Master Zhu, I will kill you!" In his anger, the dwarf jumped up directly, and his body was like an ape. He

The shrill scream came out. At this moment, the whole audience was silent.

No matter Zhao Heng or the other six dwarfs, they were all staring at the scene with a blank mind.

"Since you want to waste my leg, I'll waste yours first. Isn't that too much?" Wang Fan's insipid voice came out slowly, but the corners of the six Dwarfs' mouths could not help choking slightly.

After a while, they became furious!

"How can you abolish my seventh brother?"

"I'll kill you!"

"Son of a bitch, take your life!"

They can't help the ferocious roar up, at the same time, together with TENGSHEN, crazy kill to Wang Fan.

However, Wang fan is not on the body at all. In his eyes, the strength of these people is still too weak.

Just a crack the sky stick cast out, six people are smashed to fly one after another, all fell to the ground in a mess.

Wang Fan did not go to see them, but came to Zhao Heng.

Zhao Heng eyes dew despair, can't help but beg to see to cloud spirit, but it is can't say half a word.

Wang Fan didn't give him any chance at all. He waved the Wuji stick again.

Stick down, Zhao Heng, die!

"Let's go." Wang fan puts away Zhao Heng's space ring, takes the space rings of the seven dwarfs, and then leaves with Yun Ling.

He didn't kill the seven dwarfs because he was no longer interested.

Three days later, Wang Fan and Wang Fan had gone more than 6000 miles into the chaos mountains.

This is already the heart of the chaos mountains.

There are many strong people in this area. The strength of the murderers who can occupy this area has reached at least the sixth level of the kingdom.

Wang Fan's face is also becoming slightly dignified, in the careful way at the same time, the heart is also looking forward to.

The murderer here, his cultivation resources, should not let him down.

Chapter 1942

The Yin wind blows, giving people a feeling of Yin cold.

Wang Fan two feet on the ground, issued a rustling sound.

Here, is still a gray gas, no sunshine, no stars.

Eyes, still only towering trees, as well as the bones on the ground.

Cloud spirit closely with Wang Fan side, only feel in the heart of the panic, Jiao body all some shiver.

It's so quiet here. It's a bit scary. And the wind here is obviously several times colder than the outside.

She did not dare to speak with Wang Fan, and Wang Fan did not speak. Neither of them broke the strange silence.

Whoosh!

At a certain moment, a burst of wind suddenly came. In the gray air, a dark shadow suddenly appeared. The dark shadow rushed towards them with the speed of lightning.

The shadow is the size of a wolf dog. It's yellow and looks terrible.

Its yellow fur is like a steel needle, and it looks like a thorn from a distance, which is very frightening.

At this time, it, with its claws open and tusks exposed, has already approached Wang Fan.

Wang Fan looked at the beast and frowned slightly.

Without any hesitation, he grabbed the cloud spirit to hide, and then let the monster pounce on the air.

The sharp claws hit a huge tree behind them, and the tree was smashed, but there was a strange gray air inside.

The cloud spirit is dead to stare at that monster, the facial expression is a very white.

In this monster body, she unexpectedly felt, extremely strong dangerous breath.

It was the first time in her life that she met such a terrible monster.

Wang Fan's face is also slightly dignified.

Before his mental power has been spread around, but did not find this monster, obviously, this monster is not simple.

The most important thing is that at this time, his mental power was shrouded in the monster, but he found that there was a layer of gray gas around the monster, which blocked his investigation, so that he could not detect the strength of the beast at all.

"Stand back, I'll deal with him!" Wang Fan said to Yun Ling, and then grabbed the Wuji stick with his right hand. His aura was surging and he was ready to fight.

Yun Ling nodded gratefully and retreated to one side.

"Huhu ."

when the monster saw Wang Fan's posture, he suddenly became furious. His eyes were humanized, staring at Wang Fan and snoring.

"Ow ."

at a certain moment, with a sharp howl, it suddenly stepped on the ground and attacked Wang Fan crazily.

At this moment, its body suddenly burst out a strong and violent atmosphere, which was no less powerful than the monks at the top of the five levels of the kingdom.

"That's interesting!" Wang Fan had a strange look in his eyes. He suddenly stepped on the ground with his right foot. Instead of retreating, he rushed out with the whole person.

At the same time, his whole body muscles contracted in an instant, and the golden energy in his blood burst out, directly wrapped around the Wuji stick, and pounded at the monster.

Dangdang.

It's like the sound of steel strike, one man and one beast in the crisscross, the stick and claw collide fiercely.

In that terrible gas force collision, the monster could not help but roar again and fell to the ground.

It is not injured, but the right claw is crazy shaking up, one of its skin has been burnt black.

It stares at Wang Fan, who also retreats a few steps, and then stabilizes his figure. His eyes are more

violent and scarlet.

Cloud spirit looking at this scene, eyes show the color of horror.

It's the first time she's seen Wang Fan since she met him. Wang Fan didn't kill his opponent.

What makes her feel strange is that Wang fan is not a monk, but a monster.

Wang fan is also a little surprised. The hardness of the monster's body is terrible.

Wuji cudgel and golden energy can't hurt each other.

His eyes were filled with enthusiasm for war, and he suddenly drew back the Wuji stick and yelled, "come again!"

Then the whole person took the initiative to attack the past crazily. Before those battles, Wang Fan's fight was really not enjoyable.

This time, he will have a good fight with the monster.

The monster saw that Wang Fan took the initiative to attack, and did not retreat at all. After stepping on the ground, he rushed to Wang Fan crazily.

It is just like a human being, and its two forepaws are dancing in the air, which actually arouses the aura of heaven and earth.

That aura crazy rolling, in a flash, it has been condensed into two huge claws of countless times.

This huge claw, just like the claws of ancient beasts, exudes a terrible pressure, extremely terrible.

The claw in its wave, crazy toward Wang Fan bombardment and go.

"Be careful." Cloud work properly looking at this scene, is simply the mind drama trembles, can't help but crazy shout. Wang Fan, however, was unmoved. His body was twinkling and spinning fast. At the same time, he palmed his right hand and beat it hard!

"Empty palm!"

A low roar came from his mouth, and the huge palm print was soon formed in the air, which set off a terrible pressure and patted toward the giant claw.

The roaring sound is as crazy as electricity. At the moment when they collide, a terrible storm suddenly set off between heaven and earth.

Those towering trees in the fury of the energy, in a click sound, all broken.

However, after the giant trees were broken, there was a strange gray air in them, just like a living monk.

The strange color in Wang Fan's eyes is even stronger, and the monster has turned into a martial art comparable to that of the king level, which ·

he has never heard of!

In the middle of the sky, the giant palm and the giant claw are still madly intertwined. I don't know how long it took before they both broke up.

Wang Fan's face didn't change much, not even a little pale.

It's as if what he just performed was not the king level martial arts, but just a casual hand.

It made him very excited.

In the past, he always felt weak when he used to perform King level martial arts. Now, that feeling is gone.

Doesn't this mean that he can perform King level martial arts without limitation?

On the other hand, the monster's body was slightly trembling, but the look in Wang Fan's eyes was more fierce.

"Beast, come again!" Wang Fan didn't give him much chance to breathe at all. With a loud drink, his hands began to dance wildly, which directly condensed two empty palms.

The monster looked at this scene, and the surprise of humanity appeared in his eyes. Obviously, I didn't expect that Wang Fan would be able to perform King level martial arts continuously.

It is not willing to roar, without the slightest hesitation, turned and fled.

Unfortunately, it's still too late.

The two empty palms fell down one after another, slamming hard on him, setting off a series of blood mist, but it didn't hurt his root.

Wang Fan looked at this scene, without hesitation, and directly grabbed the shadow knife with his right hand, which was another seven kill Liuyun knife.

The seven kill Liuyun sword swept out madly, rolled up the violent killing power, and chopped down toward the monster.

At this moment, the monster's expression is finally changed!

It's eyes, the emergence of a deep panic!

However, just when the fierce killing was about to fall on the monster, a white palm suddenly appeared in the air.

I saw that the fierce killing power, gently pinch, bang, all the killing power, is suddenly collapsed, dissipated.

At the same time, a slightly cold voice followed, "who gave you the courage to kill my pet?"

At this moment, Wang Fan's face changed greatly!

Chapter 1943

Under a pinch, the king level seven kill Liuyun sword's killing power collapses. What strength is this?

Wang Fan's body was permeated with an unprecedented cold sweat. He only felt numbness in his scalp for a while!

It was the first time in his life that he met such a terrible strong man. It was also the first time in his life that he was so afraid.

Even if I met the huanmi king in the sea of magic abyss last time, Wang Fan didn't feel like this.

Wang fan is so scared, let alone Yunling.

Her delicate body, has been completely rigid, even breathing, has been stopped.

Void a burst of peristalsis, accompanied by peristalsis, a woman wearing a white dress, slowly appeared in front of Wang Fan.

This girl has a unique appearance and elegant demeanor. She wears a white dress on her body, as if she were the nine day fairy.

Three thousand green silks are scattered like waterfalls, and there is still a chance to hang in the ear, giving people a sense of the peerless city.

But her face was cold. Especially that pair of cool eyes, it's even colder without any emotion.

The coldness in her body was like the nine Xuan cold iron, which seemed to dilute the gray air around her.

Her skin, even more snow-white incomparable, even white without blood, white strange.

As if she were a fairy, she came slowly, only three steps before the monster.

Wang Fan, who had been treated fiercely before, was like a docile cat. With a whimper, he crawled under his feet and bit up his trouser legs intimately.

Zunjing?

Wang Fan looked at the girl, but her scalp was numb.

He couldn't see the nun's accomplishments clearly, but he had a vague feeling that she had absolutely reached the state of respect.

In the mountains of chaos, there are those who respect the environment? What's more, this powerful man is also the kind of ferocious man?

Wang fan is almost incredible. It's hard for him to associate the woman in front of him with those murderers he met before.

"Master, I didn't know it was your monster before. I was reckless. I know I'm wrong now, but I won't in the future. Goodbye. "

Wang Fan's scalp is numb. He quickly bows and says something. He flashes to Yunling, grabs Yunling and plans to leave.

Just, he hasn't had time to leave, pupil just can't help but suddenly shrink, see that white dress woman, unexpectedly already is silent stop in front of him.

"You hurt my monster. Is it over with a rash sentence?" The woman's cold voice came out slowly, and her eyes looked at Wang Fan.

A glance, just a glance.

Wang Fan had a feeling of being seen through in an instant.

He felt as if he was standing naked in front of this woman, and he had no secrets.

However, this kind of feeling just appeared, and the golden energy in his mind seemed to be aware of it. Suddenly, it rolled up, and the feeling disappeared.

"Master, I really don't know it's your monster. It attacks me. I can't let it kill me, can I?"

"You are a senior, I'm just a small person, since your monster is OK, why do you embarrass me?"

Wang Fan's scalp is numb, but he has already communicated with the anti sky spaceship and the killing short gun.

Can walk best, if really cannot walk, that can only desperately.

Just kill short gun can deal with the white woman, Wang Fan's heart is not sure.

There is a strong man in the chaos mountains who seems to respect the territory. He almost wants to curse his mother.

Who can pass the examination safely with the strong? Isn't that playing with people?

Moreover, even if it's the 18th Empire, even if it's the Imperial Palace, I'm afraid there are not many people who respect the territory, right?

"You are right. My monster can kill you, but you can't touch my monster. Since some things have been done, they have to pay a price. "

"It's not easy for you to practice when you are young. As long as you don't die, I'll spare you."

The woman looked at Wang Fan, said slowly, had raised the white right fist.

When Wang Fan listened to this, his eyelids couldn't help jumping and his anger couldn't be suppressed any more, so he immediately began to scold him,

"I said you're brain sick, right? Your monster can attack me. Why can't I fight back? "

"You look like a dog. I didn't expect that your heart is so black. I'm really blind."

"I'm just going to take your fist. I'll take it. Do you really think I'm afraid of you?"

Wang Fan said with a shake of his right hand that he had already seized the killing pistol.

The woman listens to Wang Fan this words, that always has no wave of old well's facial expression, finally is can't help violent sob a few times.

When did a little guy dare to talk to her like this?

However, without waiting for her to think about it, her pupils suddenly shrank and fixed on the killing short gun in Wang Fan's hand. In that killing short gun, she actually felt a dangerous breath.

Although the breath is very light, it is real.

"Girl, since you don't do it, I'll do it first." But Wang Fan didn't give the woman any time to react.

After a short breath, it has suddenly urged the killing intention in the killing short gun, crazy toward the woman.

With the rapid evacuation of the aura in his body, the breath released from the killing rifle was several times stronger than before.

That crazy killing idea, as if it had been condensed into the essence, crazy towards the white woman swept, powerful.

"Interesting." The woman's cold eyes twinkled with a touch of splendor, spit out two words in her mouth, and her white right hand condensed into a fist, which blew out.

"What are you looking at? Let's go." Wang Fan has no mind to check the results, has grabbed the cloud spirit with dull eyes, flashed on the ship, and fled to the distance crazily.

The roaring sound resounded behind him, and the storm rushed into the sky. Under the terrible storm, even if Wang Fan had pushed the speed of the spaceship to the extreme, the spaceship was affected by some waves and began to shake violently.

"This power is more than ten times as terrible as before, isn't it? Unfortunately, I'm afraid I can't help that woman. "

"I didn't expect that there would be a strong man in this chaotic mountain range. Didn't the king's palace know about this?"

"They even want the students to pass the chaotic mountain by themselves. Don't they want the students to die?"

Wang Fan was indignant and took out several pills and swallowed them directly.

Now he only prayed that the woman would not catch up with him, otherwise he would be dead.

Where the previous war was, the storm stopped gradually, revealing the figures of the women and monsters in it.

Although the woman didn't get much hurt, she looked embarrassed.

Most of the white dress was torn and covered with dust.

"On the first floor of the king's realm, the fighting capacity is so terrible. It seems that the holy court of the king's capital will be lively again. However, this guy dare to call me a chick. I'm sure it can't be done

She murmured, and as soon as her figure flashed, she was gone.

Chapter 1944

Wang fan controlled the spaceship and galloped all the way. After more than an hour, his heart was relaxed.

The woman in white was so terrible before, even he was still a little scared when he thought about it now.

I don't know how there can be such a terrible strongman in this chaotic mountain range.

If this woman is also the murderer of this chaotic mountain range, I really don't know how many of those Tianjiao who took part in the assessment can successfully walk through this chaotic mountain range.

After all, those who respect the realm and are strong can't fight against it, no matter how many they are.

On the spaceship, Yunling also trembled. She was very confident. After entering the chaotic mountains, her confidence had been shattered.

Had it not been for the chance to meet Wang Fan, I'm afraid she would have been dead and become a pile of dead bones.

"I'm going to find a place to recover my strength first. Are you going to go with me or go to the palace alone?" Wang Fan deep spit out a few breath, looking at cloud spirit to ask a way.

He is not in a good state now, so he must find a place to recover, otherwise, in his present state, he will not be able to pass the chaotic mountains safely.

"I'll join you, elder martial brother." Cloud spirit didn't hesitate, said quickly.

Seeing the cruel cloud spirit of chaotic mountains, I dare not leave Wang Fan now. If she left Wang Fan, she would be dead.

Wang Fan hears cloud spirit to agree, nodded, also did not speak.

His mental power spread wildly and began to search for your safe place.

At a certain moment, he controlled the spacecraft to turn directly and gallop toward a certain direction.

In a position close to the mountain, the spaceship stops and Wang Fan and Yunling come out.

"Here it is." Wang Fan said to the cloud spirit, then directly grabbed the shadow knife, and quickly opened up the cave.

After the cave was opened up, they didn't hesitate and went in.

Entering the cave, Wang Fan did not immediately practice, but began to set up a hidden barrier.

It took him more than half an hour to arrange the boundary.

There is no way. The chaotic mountains are too dangerous. There are many cruel people, and they are all murderers.

He doesn't want to be found on the way to recovery. That's not good.

Yun Ling stares at Wang Fan, who arranges the border. Originally, she wants to help. After all, she knows some skills of array border.

But when she found that she could not see through the boundary arranged by Wang Fan, she was blushing and had no idea of helping any more.

In front of Wang Fan's mysterious array, her attainments were just like a teacher.

"I'll go to recover first. You can practice for a while. If anything happens outside, please let me know in time. "

After arranging the array border, Wang Fan said to Yunling, then arranged a simple border again and got in.

He was not related to Yunling, and his relationship was not so good, so he did not dare to practice and recover directly in front of Yunling.

After all, it's necessary to be defensive. In case he's on the way to recovery, Yunling suddenly starts, it's not good.

Wang Fan grabs out the space rings he grabs. After breaking the inner boundary prohibition one by one, he puts all the best spirit stones into an empty space ring.

Before long, the top-quality spirit stone in the space ring has reached more than one million.

Wang Fan was in a good mood when he looked at the more than one million top-quality spirit stones.

He just killed more than 20 evil practitioners and got more than one million top-quality spirit stones.

It seems that it's a good way to collect money to kill people and grab treasure here.

Wang Fan thought so in his heart, but he didn't waste any time. He quickly took out the best spirit stones and began to practice.

With his cultivation, his whole person seems to become a big mouth in an instant, crazy began to devour the aura in the best spirit stone.

Under his phagocytosis, his whole body has been covered with a layer of thick fog, accompanied by the transformation of countless top-quality spirit stones into fly ash.

This thick fog is all made of aura, and there is even a faint sign of condensation into water drops.

The golden energy in his body, without any control, began to run automatically.

Under the filtration of the golden energy, the already solid aura was compressed again, turned into gold and flowed into his elixir field.

Wang Fan's heart was also shocked. The speed of swallowing aura was 100 times faster than that before his cultivation fell.

You know, before his cultivation fell, the speed of absorbing and swallowing aura was abnormal. Now it's hundreds of times faster than at that time. What's the concept?

Wang Fan was very surprised. He restrained his mind and began to practice with all his heart.

Outside, Yunling only practiced for a short time, and then he didn't want to practice.

What she is thinking about now is whether she can walk through the chaotic mountains and pass the examination. In addition, for everything else, has no mind. What's more, with her cultivation, the cultivation in a short time has no effect at all.

Time goes by. In a twinkling of an eye, three days have passed. But Wang Fan has no sign of coming out.

Although Yun Ling is bored, he doesn't dare to disturb Wang Fan.

"Three days later, I don't know how long it will take him to recover." The cloud work properly stares at Wang fan that layer boundary, murmur to oneself.

However, her words just fell, but suddenly her face changed and she looked out.

She clearly noticed that several powerful breath suddenly appeared, like a rainbow jumping across the cave and running to the distance.

"There was no one here two days ago. How could there be so many people passing by all of a sudden?"

Yun Ling frowned and muttered to himself. But she did not go out, still sitting quietly.

It's already in the depths of the chaotic mountains. It can be said that she can't deal with anyone.

But soon, Yunling was not calm. She felt again that several breath passed here and ran to the distance.

"So many people, what's going on out there?" Cloud spirit murmurs, the mental power subconsciously diffuses out, and soon falls on those people who rush to the distance.

Just her mental strength just fell on those people, her face suddenly changed.

"Who is it?" Just listen to a roar from the outside, those figures suddenly turn back, in a twinkling of an eye, they have already landed not far in front of the cave.

These are four young people who don't look very old.

They are all in their thirties. They are handsome in appearance, but they are full of blood.

Cloud work properly complexion a white, in the heart secretly cry bad, she takes back mental strength, immediately then dare not speak, even even even dare not move.

She secretly scolded her curiosity for killing the cat. Knowing that the other party was so sensitive, she would not use her mental energy to investigate.

Outside, four young people frowned and looked around. At a certain moment, one of them's eyes suddenly fell on the array boundary outside the cave.

His eyes twinkled with a touch of essence, and he said with a smile, "it's really interesting. I didn't expect that there were still people here, but also arranged the array to form a boundary. Even I was almost cheated."

Chapter 1945

"Oh, really? Brother Gong's array attainments are outstanding even in our whole Wu empire. In front of this array, even brother Gong didn't see it. It's really unusual. "

With this person's smile, another blue shirt youth couldn't help laughing.

The great Wu Empire, one of the three special empires, is by no means comparable to the Long'ao empire in terms of overall strength and inside information.

It can even be said that if the Dawu Empire wanted to destroy the lung'ao Empire, it would not take much effort.

Listen to the words of the blue shirt youth, they obviously belong to the pride of the great Wu empire.

Hearing this, the young man, surnamed Gong, gave a smile. Instead of talking with him, he suddenly looked at the cave and said, "come out, my friends. If you don't come out, I'll go in."

His tone is very flat, even with a smile on his face, just like chatting with friends at will. But in that word, it reveals pride and domineering.

Yun Ling's face was even more ugly, and he was even at a loss.

Although she also heard each other's words, it seems that she belongs to the Wu Empire, not chaos mountain evil cultivation. But in her heart, she was not relieved.

After all, she and these four people have never met, who knows each other's character?

Yunling gritted his teeth, and finally could not help walking to the border where Wang Fan was. He said in a low voice, "elder martial brother."

"It seems that you are not going to take the initiative to come out. In that case, don't blame me for being rude."

At this time, the man surnamed Gong had spoken again. With the sound, his hands have begun to condense and seal, directly falling on Wang Fan's array border.

With his seal breaking, the formation boundary set up by Wang Fan immediately showed signs of trembling, as if it would be broken at any time.

The other three looked at the scene, their faces did not change at all, just as if they were looking at an interesting thing.

The face of the young man surnamed Gong was a little ugly.

The so-called expert sees the door, the layman sees the excitement.

Although there was a sign of trembling in the formation boundary of the cave under his crack, he knew that it was very difficult, or even almost impossible, for him to really crack it.

You know, what he is most proud of is the skill of enchantment. Now he can't break the enchantment of such an array, which makes him very annoyed.

He began to gather all his mind and began to crack.

However, although the array border trembles more forcefully, there is still no sign of being broken.

At this time, even the other three people saw something wrong.

With the method of this man surnamed Gong, it used to be just a matter of several breaths to break the boundary of the array. It was as simple as eating and drinking water. How could it take so much effort?

But now, he has cracked it for more than ten minutes, and his forehead is still covered with cold sweat, but he still hasn't broken the boundary of that array. This is ·

"brother Gong, you must have consumed too much in the previous war. Why don't we work together and break it with brute force?"

One of the youths gave the man surnamed Gong a step and said suddenly.

"Not bad." The man surnamed Gong nodded and immediately stopped cracking. However, there was a very obscure killing opportunity in his eyes.

Obviously, this guy is a small hearted man, just because he didn't break the boundary of this array, he had already killed the man who set up the boundary.

"Friend, if you still don't come out, we will offend you." The young man drank again towards the cave and slowly clenched his right fist.

With the clenching of his right fist, the surging aura in his body has surged up in an instant.

At a certain moment, he opened his mouth and let out a big drink, and then suddenly a blow came out!

In a flash, a violent wave suddenly emerged, set off a terrible momentum, directly towards the formation of the border.

And at this moment, the breath of the youth is also shown without reservation.

The sixth floor of Wangjing!

He is the pride of the sixth floor of the kingdom!

Bang!

A loud noise, that terrible fist power, set off the sound of thunder, mercilessly printed on the array border.

The boundary of the array suddenly begins to vibrate, but after a long period of time, it returns to normal.

Looking at the scene, the young man's face became hot.

Shame, shame!

He felt a touch of humiliation!

At this time, his mood was the same as that of the young man surnamed Gong. He could not vent his anger and even killed himself.

"It's interesting. I'll try it, too." Another young man looked at the scene with a strange look in his eyes.

He suddenly gave a big drink, and with a shake of his right hand, he directly grabbed out a golden Zen stick. The golden Zen stick rolled up its powerful power and blasted down towards the formation. The fierce waves were stirred up, and the shadow of sticks appeared crazily, like an angry dragon, toward the border.

Boom!

There was a terrible noise. This time, the shaking of the array border was more violent than the previous two times.

The whole border, just like a rubber band, has been infinitely enlarged, as if the gravel is about to collapse and tear.

But, in the end, it still didn't break. After shaking for a long time, the formation boundary returned to normal again.

The trembling appearance before returning to normal seemed to be mocking the young man. The young man only felt that he had been slapped one after another.

In the cave, Yunling looked at this scene, since he felt afraid, he also felt funny.

This scene is so funny.

"I'll do it!" Another shout came out, and the only young man who didn't move suddenly stood up.

The other three looked at the young man standing up, and none of them said anything or wanted to help.

They have all lost people. Naturally, they have to make this young man lose his face. Only in this way can they feel balanced.

After the young man stood up, he didn't start immediately, but his aura was surging wildly and his breath was spreading wildly.

When his breath reached the peak, his right foot suddenly touched the ground. With a roar, the whole

person was like an arrow away from the string and rushed to the hole crazily.

"Open it for me!" When he was close to the cave, his palms whirled quickly, rolled up the terrible power, and beat hard!

Boom!

A loud noise, the formation of the border, once again began to quickly vibrate up, accompanied by tremor, an illusory ripple, as if it is the essence of the general, toward the four dispersion. However, it is still not collapsed.

Looking at this scene, the young man's eyelids could not help jumping. He raised his right palm again and blasted out, "I don't believe it. I can't break the boundary!"

However, this time, his hand has not yet fallen on the border, the border will suddenly automatically dissipate.

The young man's palm fell on the rock. In a roaring sound, the rock broke and immediately smashed the cave.

At the same time, two figures suddenly burst out, appeared in the air, a cold voice, followed by, "we have no injustice and no hatred, why do we want to disturb my cultivation?"

Chapter 1946

Hearing this, the four young men, surnamed Gong, suddenly looked up at the void and saw a man and a woman appear in front of them.

These two people, although the woman's appearance is good, but the strength is only four levels of Wang Jing, they haven't paid attention to it.

That man, they can't see through.

They only felt that there seemed to be a ray of light on the man, which blocked their spiritual exploration and made them unable to see through his cultivation.

"I'm sorry, I don't know where your cave is. Please don't mind if you offend me." Among the four, the young man in blue shirt took the lead in reviving and said to Wang Fan.

Unable to see through Wang Fan Xiuwei, he was afraid of Wang Fan and did not dare to act rashly.

He continued, "I'm Lan Yu of the great Wu empire. I'm the student who went to Wangdu Shengyuan to take part in the examination. Don't you know who you are?"

This is obviously a bottoming out.

Because Wang Fan and Yunling are not like the ruthless people in the chaotic mountains.

Since it's not the ruthless person of chaos mountain range, it must be the students who take part in the assessment.

Wang Fan took a look at Lan Yu and said with a sneer, "why, you people of the great Wu empire can destroy other people's caves at will?"

Wang Fan pointed at Lan Yu and other four people one by one, "before you four people, one by one, broke the boundary outside my cave, which is also called recklessness?"

Wang Fan's mood is really upset. It's really upset.

In Yuanmen, if you are disturbed by others during your cultivation, it's a great revenge.

If it had not been for Yunling to wake him up in advance, maybe he would have been attacked.

Lan Yu listened to Wang Fan's words and frowned slightly.

As one of the three special empires, the pride of the Wu Empire, when did his peers dare to speak to him like this?

However, before Lan Yu had time to speak, the young man who made the last move could not help but said, "what do you want?"

Wang Fan sneered, "not so good, everyone left a million top-quality spirit stone, and then roll!"

Offending, of course, will have the price of offending, Wang fan can't cheap these four people.

One million for one? And get out of here?

Four people listen to this words, first is can't help but slightly a Leng, then angry extremely counter smile!

When did someone dare to blackmail them and tell them to go away?

This is unacceptable to them!

"It's really a big tone. No one dares to blackmail me, let alone tell me to get out of here, since I grew up in Wuxiao mountain."

"Hum, originally, you were the same student in this year's examination. We didn't want to make a fuss, but you made an inch. You are looking for death!"

"I have a million top-quality spirit stones, but I won't give them to you. If you have seeds, you can take them by yourself!"

"How dare you tell us to get out of here? We'd like to see if you have that ability!"

Four people crazy drink, the momentum on the body is suddenly blooming, instantly filled the whole space.

Wang Fan looked at this scene, there was no nonsense at all, his right hand suddenly became a fist, his body shape flashed, and he had rushed to the nearest young man.

Since these four people don't want to take the initiative to hand in Lingshi, don't blame him for being impolite!

"Well done!" The young man was not surprised to see Wang Fan rushing in! All of a sudden, he let out a loud drink. As soon as the sole of his foot stepped on the ground, he let out a bang. The whole person had already rushed to Wang Fan.

"Heaven level martial arts, breaking Nirvana fist!"

With a roar, his right hand suddenly became a fist, rolled up the endless storm, swallowed and spat, and roared toward Wang Fan's fist.

Wang Fan felt the fury, but he looked calm and could not make any waves!

When the two fists were about to collide, the aura in his body suddenly surged out. At the same time, the golden energy curled around the tip of the fist and collided with it fiercely!

Bang!

There was a loud noise like a mountain collision. In an instant, the fury was like a wave of water.

At this moment, the aura in Wang Fan's body surged out like the torrent of breaking the dyke, and in an instant, it came into the young man's body.

Bang!

Click!

With two sounds, the young man's arm broke in an instant, and blood burst out of his mouth. At the same time, the whole person fell out like a falling meteorite.

His body, ruthlessly hit on the rocks not far away, in an instant, the rocks crumbled.

He stares at Wang Fan, and there is a deep fear in his eyes.

As the supreme pride of the great Wu Empire, he was injured by Wang fan when he used his heaven level martial arts.

Does this not mean that Wang Fan's power of this fist is comparable to that of Wang's martial arts?

The other three, the same eyelid straight jump, face shock!

The young people who are equal to their strength have already been injured. Is this the evil of that empire? However, although they were shocked, they did not shrink back. After a short silence, the three of them killed Wang Fan at the same time.

"King level martial arts, scorching sun sword!"

"King level martial arts, virtual hell chop!"

"King level martial arts, magic spear!"

Three low roaring sounds came out from the three people. At the first time, they showed their king level martial arts regardless of everything.

It's unimaginable that the three special empires are extremely arrogant and display King level martial arts at the same time.

If the friars of the great Wu Empire knew that these three people were so crazy against each other, they would be shocked and stunned, or even would not believe it at all.

Under the fury of the three King level martial arts, the sound of terror rolled out like thunder, and the air waves in the sky rolled and crossed, as if to destroy everything.

Even the strong gray air was scattered by the terrible power, a scene of the coming of the end.

"Die

"Give face, you don't want face. You asked for it!"

"If you dare to ask for the spirit stone from us, if you dare to tell us to go away, you will surely die!"

At this moment, three people's eyes, only endless ferocious and killing.

They feel humiliated. They are going to kill Wang Fan!

Wang Fan felt the frenzied and turbulent killing power, his expression was still calm, and there was not much change.

However, on his body surface, a brilliant golden light emerged. The crazy spread of the golden light, soon, has completely wrapped his whole person.

From a distance, his body seemed to be covered with a layer of gold armor, strange and terrible.

"Three kinds of King level martial arts?" Wang Fan murmured, then suddenly raised his head, holding the shadow knife in his right hand, and cut it three times in a crazy way!

At this moment, with the crazy release of his aura, his low roar also spread out, "seven kill Liuyun sword, the first kill, the second kill, the third kill, kill for me! Out!! "Out of control!"

Seven kill Liuyun Dao, there are seven kill, Wang Fan up to now, but also just understand the three kill.

Now the three killers are used at the same time. Their power is against the sky!

Chapter 1947

Seven kill Liuyun Dao, three kill together, in an instant, it is set off a very terrible storm.

Under the shocked eyes of the three young men surnamed Gong, three terrible waves of swords rolled up their violent killing power, and blasted out one after another, madly blowing up their king level martial arts skills.

Boom! Boom! Boom!

With three loud and enlightening noises, their offensive, which is condensed from the king level martial arts, is like a local chicken and a local dog, completely collapsing.

The crazy spread of Qi force, in the terrible destruction of Qi force, the surrounding mountains, all collapsed, trees and rocks, but also completely turned into fly ash.

However, this is far from the end.

The three waves of swords, after breaking up the attack of the three, continued to sweep and cut the three in a frenzy.

Although the power of the three waves has been greatly reduced after offsetting, it has not dissipated and collapsed.

Looking at the scene, the three men, surnamed Gong, turned pale and pale!

This, how is this possible?

Their eyes were full of disbelief, but at this time, they didn't have time to think so much.

Looking at the three crazy chopping waves, they tried their best to stimulate the aura in their body. While forming a defense on their body surface, they began to retreat sharply.

However, no matter how fast they are, they are not as fast as those three waves.

Peng!

Peng!

Peng!

There were three deep blasts again, and a large amount of blood splashed from the three people, all of them were blasted out.

After they fell to the ground, their faces were dead ashes.

They didn't die, but they were seriously injured and defeated!

How high is the pride of the three empires?

But now, under the joint efforts, it was defeated by Wang Fan with such a strong attitude. This is unacceptable to them.

They stare at Wang Fan standing in the middle of the sky, with mixed expressions.

Wang Fan coldly looking at these three people, although the surface is calm, but the heart is also shocked.

He did not expect that the three murders of Liuyun Dao would have such a terrible power.

The third killing is so terrible. If he controls the fourth, the fifth, the sixth and the seventh killing, wouldn't he be even more rebellious?

Wang Fan thought of this, his eyes could not help flashing a touch of light, can not help but subconsciously step forward.

However, as soon as he took a step, their faces suddenly changed!

"Don't kill us, we are willing to give you a million rare stone!"

"We admit defeat and are willing to hand over the spirit stone. I hope you don't kill us all!"

At the same time, their voices were trembling and their faces were aching, but they couldn't help it.

They don't want to die. They are young. They are all arrogant. How can they be killed like this?

The skill is inferior to the person, can only be like this!

Three people said, without any nonsense, directly grab a space ring, put a million top-quality spirit stone in it, then throw it to Wang Fan.

Wang Fan did not speak, a took, and then coldly looked at the first hand of the youth.

Under Wang Fan's cold eyes, the young man's face also changed slightly. He bit his teeth hard and handed over a million excellent spirit stones rather reluctantly.

"I was going to raise the price. I wanted two million pieces of the best spirit stone per person, but since you offered it, I won't raise the price."

"Remember, today's event is that you destroy the boundary of my cave first, and you are responsible for it. No wonder I am."

"You'd better not think about revenge in the holy court of Wangdu in the future, otherwise, next time, I won't give you another chance to live."

After Wang Fan put away the spirit stone, he said to the three people coldly, and with cloud spirit, he disappeared here.

Four people listen to Wang Fan's words, and then look at Wang Fan two people that disappear voice, the corner of the mouth chokes, but don't dare to say a word.

They really can't figure out which country's pride Wang fan is. How can he be so strong?

You know, even if they don't know each other, they all have information about each other. However, there was no Wang Fan in the information they got.

"Ah, it seems that the treasure ahead is out of our way."

"It's impossible to steal a chicken. If we had known that we would offend such a cruel man, we shouldn't have gone back."

"We'd better take a long-term view. It's important to find a place to heal now. What's more, we don't have a chance to get it even if it's a real treasure. "

"That's all. That's all we can do now."

After Wang Fan and Wang Fan disappeared for a long time, they sighed bitterly, and then found a place nearby to shut up and began to heal.

Wang Fan with cloud spirit fast running, the mood is quite happy. Four million top quality spirit stones are enough for him to practice for a period of time. Cloud spirit is close to Wang Fan, eyes in the brilliant.

Wang Fan's strength has exceeded her expectation again and again, and she is very glad to meet Wang Fan.

At a certain moment, Yunling suddenly changed his face and whispered to Wang Fan, "elder martial brother, I feel that there seems to be a treasure there."

"Treasure?" Wang Fan frowned slightly, and his mental strength spread to the direction pointed by Yunling. After a moment, he got nothing.

He couldn't help asking, "you can't be wrong. Why don't I feel anything?"

In Wang Fan's opinion, since there are treasures, there must be aura fluctuations. He didn't feel the aura fluctuation. How could Yunling feel the Tao?

When Yunling heard Wang Fan's words, he summoned up courage and said, "there are treasures there. My feeling has become stronger and stronger."

"I don't know why. I've been very sensitive to treasures since I was a child. I have a strange perception, and I will never make mistakes."

"Elder martial brother, you have to believe me. There must be treasures there."

Wang Fan listened to these words, but could not help but be surprised.

However, he did not doubt that, after all, the world is so big that it is not impossible for Yunling to have such a perception.

He took a strange look at Yunling. Without any hesitation, he turned directly and ran towards the direction of Yunling's induction.

Seeing that Wang Fan believed it, Yunling was also relieved, and his pretty face was filled with a smile.

After such a long time, she finally felt for the first time that she was not useless.

Under the guidance of Yunling, they galloped all the way, and soon they were hundreds of miles away.

One moment, they came to a mountain.

At this time, Wang Fan's eyebrows have been tightly wrinkled, and even his face has become dignified.

Because on that mountain peak, he felt the existence of countless monks, and the strength of some monks was extremely terrible.

Cloud spirit is also careful with Wang Fan's side, convergence of the whole body breath, appears extremely nervous.

"Don't be afraid. Let's go up and have a look. If we can get the treasure, we'd better, but if we can't, we'll leave immediately. "

Wang Fan comforted the cloud spirit, the mental force completely wrapped it, and then the crazy flash on the mountain.

The reason why he enveloped Yunling with his mental power was to help Yunling hide his breath and shield other people's mental power.

After all, Yunling's cultivation is too low, even if he tries to restrain his breath, he will be noticed.

Chapter 1948

Wang Fan with cloud spirit gallop all the way, half an hour later, it has come to a larger canyon.

Instead of going in, he carefully hid himself in a corner outside the canyon.

There are hundreds of monks in the huge canyon.

The hundreds of friars were divided into two groups. One group looked extremely fierce, and the breath on them was also extremely violent. It was obvious that they were the murderers here.

On the other hand, they seem to be much kinder. They all look very young, and they don't have much killing spirit.

Dozens of people in front of the platoon were still wearing a uniform brown robe. On the chest of the robe, a large "Saint" character was drawn with gold pattern.

Obviously, these people are either the students of Wangdu holy college or the students who are going to take part in the examination.

At the moment, the two men were in opposition from afar. In the eye contact, they were all twinkling with cold, but they didn't move.

Their attention was focused on a prohibition in the canyon.

On the prohibition, there was a twinkling light, but the light was getting weaker and weaker, and it was obvious that it would disappear completely soon.

"You students of Wangdu holy college are really annoying. Every time you come to this chaotic mountain range to compete with us for resources. Don't you think you are students of Wangdu holy college, so we don't dare to kill

At a certain moment, among the murderers, the first man spoke slowly.

The man was thin, but his appearance was fierce, especially his triangular eyes, which seemed like a poisonous snake, giving people a strong sense of danger.

In the middle of his speech, the momentum of his body also exudes faintly. It turns out that he has nine levels of terrible cultivation of Wang Jing.

With his mouth, the cruel people behind him, with a flash of ferocious color, followed his mouth.

"The shameless Wang Du Sheng Yuan has come to compete with us for resources every time. If we were not afraid of the old witch, would we be afraid of these young people? "

"Damn it, the one named Lin Chaoran last time was said to be some arrogant son of a bitch who robbed me of bingzhulian. If he hadn't run fast, I would have killed him long ago."

"These kids are really hateful. They have forced us to leave the chaotic mountains after killing them."

All the murderers were staring at Wang Du Sheng Yuan and others. They were very angry.

However, they didn't show any sign that they wanted to take action.

And listening to this kind of abuse, and then feeling the other party's fierce breath, those students in front of the Wang Du Sheng Yuan were OK, their faces didn't change much, just a little gloomy.

But those who are behind, obviously the students who take part in the assessment, can't bear it.

In addition to a few people who were able to keep calm, others were pale one after another and even showed signs of instability.

The student of Wangdu holy college, who was the leader, was a young man in his thirties.

This person looks very handsome, even can not be used to describe the handsome, but monstrous.

He has a picturesque face and fair skin. Even if he is a real woman, he must be ashamed of himself.

This person listens to those ferocious person's call and scold, smile slightly, the front step of silent color,

it is already those breath dispersed most.

He looked at the thin and small man who was the ninth floor of Wang Jing, and said gently, "we have been neighbors for so many years. Why is that so?"

"What's more, if you have a chance to get the treasure, how can we say that we robbed your resources?"

"We'd better be calm and not angry. When the prohibition dissipates, we'll search for our own resources."

This strange young man's voice is very kind, giving people a sense of spring breeze, combined with his elegant appearance, it is difficult to have a bad feeling.

With his words, behind him, some female students' eyes are full of obsession, even some male students' eyes are full of fanaticism.

Wen Ruyu, one of the top ten Tianjiao of Wangdu Shengyuan, is an absolute man of the moment and a respected object worshipped by countless people.

You know, wangdushengyuan is the place where Tianjiao gathers, and among so many Tianjiao, it can still enter the top ten, which shows its talent and strength.

It can be said that everyone in the top ten is a powerful and unimaginable existence, respected by all the students.

Wang Jingjiu, the leader of the murderers, gave Wen Ruyu a cold look and snorted, but he didn't speak.

Although Wen Ruyu was gentle and elegant, he was as soft and weak as a woman, but he felt a touch of danger in him.

Obviously, this Wen Ruyu is not easy to provoke.

Outside the canyon, Wang Fan, who has been looking at this scene with his mental strength, has become extremely dignified.

Whether it was the thin man or the Wen Ruyu, his strength was in the ninth floor of Wang Jing, which gave him a very dangerous feeling. Besides these two, there were dozens of monks on the eighth and seventh floors of the kingdom.

This kind of terrible lineup, if he wants to grab the baby, it's just like grabbing the tiger.

As for Yunling, his face didn't change much.

Because Wang Fan has told her not to use mental force to investigate, so she doesn't know the lineup and strength inside.

"Wang Du Sheng Yuan, there are even students from the ninth floor of Wang Jing. It seems that Wang Du Sheng Yuan is really unusual."

Wang Fan murmured in a low voice, shocked. He really did not expect that there were such terrible students in Wangdu holy courtyard.

You know, even if you look at the whole empire, there are not many monks in the ninth floor of Wang Jing.

Now, there are nine levels of Wang Jing students in just one Wang Du Sheng Yuan. How can he not be shocked?

Although Wang Fan was shocked, his breath didn't fluctuate at all, just like a pool of stagnant water.

He is also quietly waiting for the disappearance of the prohibition.

Since so many cruel people are attracted here, it shows that the treasures here are certainly unusual.

This kind of thing, if Wang fan does not know, or did not encounter, it is just.

But now that he has met him, he can't miss it.

Time flows away slowly. With the passage of time, monks come here one after another.

Among those friars, there were students from Wangdu holy college, students who took part in the examination, and ruthless people from chaotic mountains.

After their arrival, they all stood in their respective camps, waiting for the ban to dissipate.

At a certain moment, the light outside the prohibition finally dissipated completely. At the same time, a dark and bottomless hole appeared slowly in front of the crowd.

Looking at this scene, the eyes of both sides suddenly brightened, and the excitement flashed inside. However, none of them moved. Instead, they all looked at their respective leaders.

That Wang Jing nine layers of thin man's eyes also twinkle a light, a big hand waved and said, "do it!"

After that, the whole person turned into a streamer and went into the cave crazily.

At the same time, Wen Ruyu's gentle voice also came out, "let's act, remember to be careful, each by chance."

With that, he also flashed to the hole at the same speed as the thin man.

After they entered the cave one by one, the rest of them were completely crazy.

"Go

"Go

Chapter 1949

Wang Fan also did not hesitate, after the thin man and Wen Ruyu entered, he rushed out with Yunling madly.

In this case, only those who enter the cave first will have meat to eat, and he will not be stupid to wait until everyone goes in and go in by himself.

Wang Fan was so fast that he rushed to the entrance of the cave in a flash.

The monk, who was about to enter, was very angry when he saw that Wang Fan suddenly appeared in front of him

Just listen to its suddenly burst to drink a, right fist suddenly grasp, direct is to fiercely toward Wang Fan to blow out.

As a strong man at the top of the eight levels of Wang Jing, he is infinitely close to the existence of the nine levels of Wang Jing, so he should think that he should be the third one to enter.

Now see Wang Fan grab first, how can not anger, and how can there be a little left hand?

Wang Fan felt his opponent's crazy iron fist, and gave a cold snort of disdain. He saw his right fist suddenly clench. When the golden light was around the tip of the fist, he suddenly turned back and punched out.

Since he had already rushed out, he had already expected this scene and was ready to take action at any time.

Bang, the two fists collide and make a terrible noise!

Wang Fan only felt a strong attack, and he could not help gushing out a mouthful of blood. At the same time, he also fell directly into the cave.

On the other hand, the monk could not help pulling his mouth and pedaling back three steps.

His right arm, can't help but start a crazy shaking, the whole right, is a scorched black.

In his crazy relief and quell the pain, there have been several people, crazy rushed into the cave.

After all, there are too many monks here, and everyone knows the first come first served principle, but no one is stupid to wait for him to enter.

"Damn it The friar looked at this scene, but also could not help roaring angrily, and then no longer hesitated, frantically rushed in.

After Wang Fan and Wang Fan entered the cave, they were faced with countless bottomless passages.

This channel is dense, just like a spider web, numerous.

Wang Fan looked at this scene, eyebrows can't help but slightly wrinkle, is going to ask cloud spirit which way to go, cloud spirit is already pointing to one of the excited mouth, "go this way."

Wang Fan smell speech, without the slightest hesitation, directly crazy flash in. After flashing in, he directly sacrificed the spaceship, which can be described as a race against the clock.

The spaceship is like a streamer. It's going crazy at an incredible speed. After dozens of breaths, it finally comes to an end.

In front of them is a relatively wide hall. There is a stone gate outside the hall, but there is no prohibition outside the stone gate.

Wang Fan just pushed it away.

After they entered, Wang Fan was shocked by everything in front of him.

In the eye, it is full of top-quality spirit stones. The top-quality spirit stones are piled tens of feet high, just like a hill. At a glance, they are not less than 100 million.

After the best spirit stone, there is a tall stone platform with two light masks.

In one of the hoods, there is a purple soft sword. The soft sword emits bright light, but it is blocked by the hoods. It is extraordinary at first sight.

In the other light shield, there is a scroll, which obviously belongs to martial arts. It's just that Wang fan doesn't know what kind of martial arts it is.

However, since these two things can be placed in this position, it will not be easy.

Wang Fan looked at these things, forced to endure the inner excitement, said to Yunling, "we quickly put these things away, and then go to other channels."

When he said this, he felt his heart beating.

I'm afraid the whole empire of dragon and Austria can't come up with a hundred million high-quality spirit stone, can't it?

"Well." Cloud spirit blankly nodded, there is no nonsense, quickly began to collect.

At this time, she was also a little silly. After all, it was the first time for her to see so many excellent spirit stones. The shock and excitement can't be imagined without personal experience.

It took them more than ten minutes to collect all the best spirit stones.

After collecting the best spirit stone, they quickly went to the light mask.

The cloud work properly stupidly looks at that long sword, in the eyes twinkled the desire, but actually did not speak.

She knew that although she had the innate sense ability, she could not have entered here without Wang Fan.

The most important thing is that Wang Fan has saved her many times, and she still expects Wang Fan to take her through the chaotic mountains, so no matter how eager she is, she will not or dare not say it.

As soon as Wang fan saw Yun Ling's expression, he knew what she was thinking. He said without hesitation, "since you like this sword, it's yours."With that, Wang Fan grabbed the mask.

However, when he grasped the mask in his palm, his face suddenly changed. He only felt that a powerful force rebounded, which shocked him back a few steps.

Wang Fan's eyes were startled, and he took a deep look at the mask.

He took a deep breath, and his aura suddenly surged, and the golden energy instantly gushed out, wrapped the whole palm, and then grasped the mask again.

"Open it for me!"

A low roar, Wang Fan's palm mercilessly grasps on that light shield, the powerful rebound strength spreads again, but this time, Wang Fan has already had the preparation.

His body aura began to vent madly, and the rebound force began to fight madly.

At a certain moment, with a bang, the light shield immediately collapsed.

At the moment when the light shield collapsed, there was a buzzing sound, a vast breath, suddenly came out from the sword, and the bright rays rushed directly to the sky.

"Noble weapon?" Wang Fan looked at this scene, face can not help a change, quickly toward cloud Ling said, "don't be in a daze, quickly put away!"

"Oh." The cloud work properly stupidly Oh, then quickly put the long sword away. When she put the sword away, the light and breath disappeared.

However, at this time, she completely recovered and said, "elder martial brother, do you really want to give me this sword?"

It's a noble weapon. Even if it's the supreme of a special Empire, it's something she should care about. She can't imagine that Wang Fan gave it to her.

Wang Fan did not speak, but quickly grabbed another light shield.

The previous fluctuation was too strong to attract people's attention. If someone came, it would be troublesome.

However, what made Wang Fan speechless was that the intensity of the other light shield was more fierce than the previous one.

Wang Fan tried three times, but they all failed.

Just as he was about to try for the fourth time, his face suddenly changed and he looked out coldly. He clearly felt, three strong breath, crazy toward this side rushed over.

"Zun weapons, absolutely Zun weapons, I will never be wrong!"

"Damn, I didn't expect to meet the legendary martial arts here. I'm going to make a fortune this time!"

"Let's go in quickly, take the noble weapons and leave. We don't want any other treasures. We will kill whoever dares to rob us! "

Outside, three monks with strong breath and lunar look rushed towards this side crazily.

Chapter 1950

In the main hall, Wang Fan noticed that the three people who were getting closer and closer to here were also very gloomy. But he didn't give up, still attacking the mask.

The sound of BAM BAM BAM BAM BAM BAM BAM BAM is constantly ringing. The light shield seems to be riveted with Wang Fan, but it can't be opened.

At this time, cloud spirit is also become extremely nervous, and even have a nervous.

In this case, if the three people really came in and found that everything in the hall had been looted, they would never let them go.

She wanted to help Wang Fan block the three people, but she didn't have the strength.

"Ha ha, here we are, here we are at last." A burst of uncontrollable laughter rang out from outside the hall, and the three people instantly entered the hall.

But at the moment of entering the hall, their expression was solidified at the same time.

Someone, there are people here!

Their expressions are full of incredible!

Because their spiritual power couldn't penetrate into the hall before, they didn't find the existence of Wang Fan at all. They didn't find it until now.

They all looked very strange, and it was obvious that they didn't think of this scene.

Looking at the three people who suddenly flashed in, Yunling's face was even more ugly, and even his heart began to accelerate uncontrollably.

Strong, absolutely strong!

Although she could not feel the cultivation of the three, she felt a sense of extreme danger from them. In particular, the breath of the other party's body makes her soul tremble.

Cloud spirit can't help but back a step, subconsciously looked at Wang Fan one eye. But Wang Fan just as if did not see that three people completely, is still ruthlessly bombarding that mask.

"Damn, the things here, the noble weapons, have you collected them and handed them over to me right away!"

After a short period of dullness, the three of them have come back to their senses. One of them looks ferocious and stares at Wang Fan. The two of them shout.

When he spoke, his face was crazy and twisted, and his eyes were scarlet.

It's impossible for him to bear the fact that other people should take the lead to win the first place.

The other two's faces also became ugly. They stared at Wang Fan fiercely, just like a wolf staring at two sheep.

Wang Fan still did not speak, still in the fierce attack on the mask, at the moment he even began to burn aura.

The light shield is so strong that the scroll inside it must be extraordinary, even more precious than the noble weapons.

This kind of thing, he has to get.

Yun Ling's face was pale in an instant. She bit her red lips tightly with her teeth. She could not help but retreated a few steps, but she didn't say a word.

Now everything is pale. She can't hand over the noble weapons at all. What's more, even if she does hand it over, the other party will not let her go.

Three people see Wang Fan two people unexpectedly ignore them, even Wang Fan from the beginning to the end unexpectedly has been bombarding the light shield, even didn't even look at them, in a flash is more furious.

"Dare to ignore Laozi and seek death!"

One of them suddenly gave a big drink, his aura was surging wildly, and the strong breath spread out. In an instant, it had covered the whole hall.

Under the breath of terror, Yunling could not help but feel a shock. He felt as if there was a huge hammer in his heart. Even when he burst out a mouthful of blood uncontrollably, he was seriously injured.

Just the breath of pressure, is to let her seriously injured, this shows the strength of the other party.

The man was about to start after he released his breath, but at this moment, suddenly, with a bang, the light shield that Wang Fan bombarded burst open.

At the moment when the light shield burst, a breath of vicissitudes and simplicity suddenly came out, but the breath just came out. The scroll had been seized by Wang Fan and received the space ring.

Baby!

Absolutely baby!

Three people looking at this scene, eyes more fiery at the same time, the corner of the mouth is also can't help but choke a few times.

"Dare to rob Lao Tzu's things, seek death!" The person who hurt Yunling badly with his power before

was a roar. He suddenly stepped on the ground with his right foot, and rushed towards Wang Fan crazily.

The ground in his step, boom began to collapse, momentum such as thunder!

Wang Fan looked at the guy, his face was dignified.

His aura swept wildly in his body. At the same time, his right palm became empty, which directly condensed an empty palm.

The huge palmprint condensed in the air, raised a heavy pressure, and patted the man hard. But the man was not afraid at all. Instead, he waved his fists and made a fist.

The terrible fist power followed and collided with the palmprint.

Boom!

There was a loud noise, and the fury was suddenly diffused and rampant around.

In a clattering sound, just in an instant, the whole hall has been completely destroyed. Dust filled, Wang Fan without the slightest hesitation, a grasp of cloud spirit, directly sacrifice the spaceship, is crazy general rushed outside.

These three people are all on the eighth floor of the kingdom. If Wang fan doesn't use the killing shotgun, it's hard to compete with them. So he did not hesitate, directly chose to sacrifice the spaceship to escape.

At the first time when Wang Fan fled from the spaceship, the three of them realized that their faces were even more ugly.

"Run away? Did you escape? Stay with me! "

"Just a mole ant, also deserve the respected weapons, as well as the scroll of unknown level? It's a dream

"Chase

They roared wildly, and at the same time, they launched a crazy attack.

However, the speed of the spacecraft was so fast that their attacks fell into the air.

This makes their faces even more ugly, and even shows signs of going crazy!

That's a respectable weapon. It's a mysterious scroll that's even worse than a respectable weapon. How

could they be willing to be taken away by Wang Fan?

Three crazy pursuit, but unfortunately, with the pursuit, the face is more and more iron blue.

The speed of the spaceship, they can't compare, even if they have been crazy burning spirit essence blood, the distance is more and more far.

On the spaceship, Wang Fan's face was a little excited.

I finally got the scroll.

Although he hasn't had time to see what it is, it's not hard to guess from the previous breath. It's absolutely not simple.

With tens of millions of top-quality spirit stones and the scroll, today's trip is enough for Wang Fan.

Yunling is also very excited, but she is more nervous. Because they haven't left here yet, it's not absolutely safe.

The spaceship sped all the way. Soon, it rushed out of the passage, out of the cave, and appeared in the canyon outside.

However, when the spaceship appeared in the canyon outside, Wang Fan's face suddenly changed.

In front of the canyon, dozens of figures stand quietly, and the breath has firmly locked his spaceship.

In the front of the dozens of figures, Wen Ruyu and Wang Jingjiu's chaotic mountain range were ruthlessly repaired, and his eyes were cold, staring at them in the spaceship.
