Chapter 1991

With the fury of the nine level monsters in the king's realm, for a moment, the whole black mulberry cliff was a complete riot.

Several monsters on the ninth floor of the king's realm came out of the cave, summoned their monsters, and began to wreak havoc on the whole heisang cliff.

Many of those experienced students have suffered from reckless disasters.

The lucky student, at the moment of dying, crushes the transmission jade amulet and picks up a life.

But those students who were not lucky were miserable. Many students died in the mouth of the monster. Even some students were directly bitten to death by several monsters.

"Well, what happened? How could the monster of heisang cliff suddenly revolt? What did Wang Fan do?"

Outside the black mulberry cliff, the tutor, who was responsible for protecting the students, also looked ugly.

His face was a little pale, and there were several claw marks on his body.

Around him, there are more than 60 students sitting or lying down, all of whom have the same look of palpitation.

It's terrible. It's really terrible. They just shudder at the thought of the madness of those monsters when they see them.

Wang fan does not know all this, he is still running towards the destination.

Along the way, he met a lot of monsters, but he didn't talk any more. He directly killed those monsters and collected their cores.

Under Wang Fan's killing, the monsters in heisang cliff became more furious and rioted completely.

Almost all the monsters are out of the nest, led by the six headed Wang Jing nine level monsters are personally led, desperate crazy to find Wang Fan.

Unfortunately, their luck is very bad, and every time they pass by Wang Fan.

Roar ·

roar ·

roar ·

in heisang cliff, the roars of animals came one after another, and they were almost endless.

With Wang Fan's mind, Rao's face turned pale when he heard the incessant roar of anger.

"Well, isn't it too much? Isn't this the place of experience? It's not good to kill some monsters, is it

He could not help muttering, the speed is faster and faster, at the same time, also began to try to avoid those monsters.

However, there are too many monsters in heisang cliff. Under the action of all monsters, even if Wang Fan has deliberately avoided them, he can't avoid them all.

He still met several waves of monsters, and even met monsters with strength equivalent to the eight strong ones in the kingdom.

However, the fate of those monsters is still very miserable. Even those monsters who are equivalent to the eight strong ones in the kingdom can't resist Wang Fan's knife.

After seeing this scene, the six headed monsters at the ninth floor of the king's Kingdom finally knew that a terrible strong man came into heisang cliff.

They don't let those low-level monsters act in groups, but form a group of 100 monsters.

With this kind of lineup, Wang Fan was found in the whole heisang cliff.

Rao is Wang Fan. He doesn't dare to fight hard, but as long as he sees it, he will stay away from it.

Although it is more than enough for him to kill a hundred monsters if he stands up, it also takes time.

In the process of killing a hundred monsters, he will surely attract more monsters. Once he is completely surrounded, he will be really dangerous.

As for the killing shotgun, it was used to deal with the seriously injured Zunjing strongman. Naturally, Wang Fan could not use it under such circumstances, unless his life was really threatened.

Wang fan is not like before, no scruples of crazy forward, but convergence from the breath, slowly forward.

At the same time, his mental power is also crazy spread out, as long as it is encountered monster, it will immediately escape.

In his heart, he was quite speechless.

These monsters really have brains. They have come up with this method.

Those monsters searched hard, but they couldn't find Wang Fan. They became more angry and rioted.

They are crazy roar, crazy roar, it is shaking.

In the center of heisang cliff is a huge cave.

A man in black is sitting with his knees crossed, breathing.

The man in black was a big man with a ferocious face and a deep scar on his forehead. He looked very infiltrating.

His eyes were triangular in shape when they were opened and closed occasionally, and there was a cold light in them.

However, his face was slightly pale, and there was a deep wound in his abdomen. Obviously, he was seriously injured.

He listened to the incessant roar outside. For a moment, he finally stopped his practice of breathing and suddenly opened his eyes.

"There are also strong students from Wangdu Shengyuan who come to my black mulberry cliff to kill wantonly. Mo Yi, you have sent students to kill me in heisang cliff many times. Do you really think I dare not kill those students alone?" The man in black, that is, the solitary prisoner, muttered to himself, with a cold look in his eyes.

He slowly closed his eyes, the spirit of terror in the moment of crazy diffusion out, the moment has covered the whole black mulberry cliff.

A moment later, his mental power locked one of the positions, and his mouth roared like a monster, which spread wildly.

At the moment when his roar spread out, all the monsters in heisang cliff couldn't help for a while, and a crazy frenzy appeared in their pupils, and then they all ran towards one of them.

Black mulberry cliff, Wang fan is converging the whole body breath, carefully forward, a moment, the face is can't help but suddenly changed, suddenly looked to the distance.

He was clearly aware that countless monsters, crazy towards his direction ran over.

That monster, dense, countless, just appear in his mental range, has no less than a thousand.

"Found out? How is that possible? How could the beast on the ninth floor of Wang Jing find me? " Wang Fan's face was ugly and he could not help muttering to himself.

"Now that I've been found, I don't have to hide any more. I'll go as fast as I can."

"If you can finish the task, that's the best, but if you can't, there's no way."

Wang Fan once again murmured, a touch of cold light appeared in his eyes, and then he grew up and rushed out towards the distance crazily.

He just ran out of dozens of miles, and two or three hundred monsters appeared in front of him several miles away.

Those monster crazy roar, four hooves move, set off the earth shaking pressure, crazy towards him quickly.

At the same time, there are many monsters around, approaching him in a crazy direction.

Wang Fan felt this scene, his face became cold, and his heart began to kill, "a group of animals, do you really think Wang fan can't kill you? I want to see how many monsters I can kill

He sneered and murmured, his figure flashed, and he was crazy to kill the two or three hundred monsters in front of him.

A terrible and bloody war starts again!

Chapter 1992

Whoosh, whoosh!

Sharp knife flicker, set off a frenzied killing potential, crazy toward the hundreds of monsters cut.

In a burst of red blood splashing, there were dozens of monsters falling in the pool of blood in an instant.

Wang Fan's shadow knife has great lethality in the face of such mass killing.

Those monsters whose strength is equal to or even more than the fifth level of the kingdom can still resist one or two when facing Wang Fan's group of killers.

However, those monsters who are not strong enough in the fifth level of the Kingdom have no chance to escape and resist at all.

As long as they are hit by a knife, they will die or die.

The pungent smell of blood filled the air at this moment, and the thick smell was disgusting.

Those lucky survival of the monster, see Wang Fan between the number of interest unexpectedly killed so many companions, immediately more crazy.

Wang Fan's behavior not only failed to make them fear, but also stimulated their fierce nature.

Roar, roar, roar!!!

The roar of the monsters in the sky is coming out madly. All the monsters get out of the way one after another, just like a fan-shaped array.

At the same time, two monsters, which are equivalent to the eight strong ones in the Kingdom, suddenly came forward.

These two monsters are both four or five meters high, and they are strong, just like hills.

They stare at Wang Fan, snorting, two heat waves gush out, rolled on the earth, immediately dyed the earth black.

Obviously, there is poison in their breath.

Burst incomparable killing intention from their body swept away, they a roar, is in a burst of roaring sound of stepping on the ground, toward Wang Fan burst in the past.

The rest of the monsters followed closely, fan-shaped and closing in on Wang Fan.

Wang Fan looked at the scene, his face slightly dignified.

It's not difficult to kill these monsters, but once they delay enough time and attract more monsters, it's really dangerous.

No matter how powerful he is, no matter how much he can kill, he will only be able to escape in the face of thousands of fierce monsters.

In that case, it would be a dream for him to complete the task of vice president.

Roar!

In a twinkling, the two headed monsters had rushed to Wang Fan. One of them only saw Zhang's front paws, with his huge and heavy body shape, pressing hard at Wang Fan.

The other beast, with its claws like a blade, directly pierced the air and rolled up its terrifying force to grab Wang Fan.

"Get out of here, beast!" Wang Fan looked at this scene, his eyes are also the emergence of a towering cold.

With a loud drink, the shadow knife suddenly waved and chopped at the monster's paw. At the same time, his body shape suddenly rose to the sky and rushed to the other monster who was pressed by his body.

Dangdang.

The sword claws intersect and make a sound like the sound of Jinge jiaoming. The monster is in pain and can't help retreating.

At the same time, Wang Fan had already rushed to the other monster. His left fist was suddenly clenched, and endless aura and golden energy were surging up. He pounded out.

Wang Fan, he wants to shake the beast with his own strength!

Looking at this scene, those monsters around can't help but feel a little stunned.

They, who already have the wisdom, really don't understand what Wang Fan's move means.

As human beings, they dare to compete with monsters for pure physical strength, or shake monsters with their fists. Is that crazy?

That monster, also can't help but Leng for a while, immediately appeared in the eyes of a touch of humanized irony.

It's momentum in an instant, crazy toward Wang Fan a pressure and down. For Wang Fan's weak fist, it didn't pay attention at all.

In its view, this time's impact, it is enough to smash Wang Fan into a meat cake.

In a flash, Wang Fan's left fist was a fierce collision with the monster's hard body.

Bang!

A terrible sound like a mountain collision. At this moment, Wang Fan's fist is sharp and golden!

The monster only felt a terrible to unimaginable fury, crazy attack, huge body suddenly, even if it is like a meteor shot backward, directly flew out.

At this moment, it's pupil staring boss, eyes in the emergence of a deep shock.

It never thought that this tiny human being had such terrible strength.

But, soon, his face was even worse.

Because it was horrified to find that the violent energy flowing into its body, even rippling out of the extremely terrible high temperature.

It felt as if there was a flame raging in its own body. Without waiting for it to suppress, the meridians and blood vessels had been completely burned.

Bang bang!

The dull sound came out one after another, and soon it was startled to find that its body began to explode. In this self explosion, its consciousness also began to blur.

Just a few breaths, the monster on the eighth floor of the kingdom was completely transformed into a pool of flesh and blood in the sound of explosion.

Those monsters were a little scared when they looked at this scene.

They look at Wang Fan as if they have an illusion that they are not monsters, but Wang fan is monsters.

In addition, the monster on the eighth floor of the kingdom had deep fear and fear in his eyes. At the moment, it already knows that it is not Wang Fan's opponent at all.

It, unable to resist, began to retreat.

"Don't you think it's too late to step back now? I didn't mean to provoke you, and I've already let you go. But since you don't know what to do, don't blame me for killing you. "

Only, it just stepped back a few steps, a plain voice came out, Wang fan is already flash in front of it.

Hand up knife down, dazzling knife awn flash, directly cut off its life.

If it resists with all its strength, it may be able to hold on to a breath, but it already has the intention to retreat, and it can't hold on to a breath at all.

As soon as the monster, the leader of the eighth floor of the Kingdom at two ends, died, the rest of the demons trembled.

With a cry, they dare not stand in the way any more and begin to retreat one after another.

Wang Fan didn't go after them either. He just rummaged for a while in the eight layers of the two ends of the Kingdom, found out the two animal nuclei, and then quickly left.

Almost as soon as he left, a large number of monsters came. Among these monsters, two of the nine level monsters in the king's Kingdom, second only to the king's, were among them.

These two monsters, looking at the miserable situation here, looking at the corpses everywhere, especially looking at the monsters on the eighth floor of the kingdom whose heads were all dug out of shape, were even more furious.

Wang Fan's behavior is the biggest provocation to them!

At the same time, in the cave, the eyes of the black haired man suddenly became cold.

"Good, very good, dare to be so unscrupulous in my site, I must let you become the food of mouth!"

The black haired man murmured and roared several times again. Then he disappeared in the cave.

At heisang cliff, Wang Fan's body is flashing fast, but he finds that he seems to have been installed with positioning. No matter which direction he goes, those monsters can detect his position.

A few miles behind him, six powerful monsters in the Ninth level of the king's situation pursued him crazily.

Behind the six powerful monsters, there were countless monsters.

They are all roaring, a pair of don't kill Wang Fan will never give up appearance, scene, can be called shock terror!

Chapter 1993

Outside heisang cliff, only the tutor was left.

Standing here, he could clearly hear the roar of beasts coming from heisang cliff.

Listening to the continuous roar of the beast, Rao's face turned white with his strength.

He has reported the accident in heisang cliff to the vice president, and told Wang fan that he has not come out yet.

After all, this kind of thing is too important.

If the monster in heisang cliff really revolts and kills Wang Dusheng courtyard, the consequences are unimaginable.

"Damn, what happened and how could it be? What did Wang Fan, the new student, do? "

"I knew that with his strength, it would be no good to enter the black mulberry cliff. I guessed it right."

The tutor leaned against a huge ancient tree and could not help stamping his feet and talking to himself.

For a moment, his face suddenly changed and he looked up at the void not far away.

I see, there, the space began to creep strangely, and with the creep of space, a graceful figure also appeared here.

This person is the vice president.

"Vice president." When the tutor saw the vice president appear, he stood up straight and said hello respectfully.

The vice president said softly, but he didn't speak. He just looked at the black mulberry cliff.

Moreover, her whole body's breath also completely converged, did not dare to have the slightest leakage at all. If we only use our mental energy, we can't find her at all.

When the tutor saw the vice president like this, he did not dare to speak any more. He only lowered his head and kept silent.

The atmosphere was spent in silence and depression. After a long time, the vice president spoke slowly, "let's go."

After that, she turned her head and left heisang cliff.

"Ah?" The tutor could not help but open his mouth, but he didn't dare to say anything in the end, so he could only follow.

He didn't understand what the vice president was doing. Didn't he go in and save Wang Fan?

If not, what is she doing here, just to let him leave?

There are many questions in my mind, but none of them dare to ask.

"Damn it, I just want you to kill someone. What are you doing in there? Well, I hope you're lucky. "

The vice president was calm on the surface, but he could not help murmuring and was quite angry.

As early as before Wang Fan entered heisang cliff, she had already warned Wang fan not to kill in heisang cliff. Just quietly approach the guy's residence and kill him with a short killing gun.

But now, Wang Fan obviously didn't listen to her.

But now, she has no way. Because of some reasons, she had no way to step into the black mulberry cliff.

...

in heisang cliff, Wang fan doesn't know what the vice president thinks.

At this time, he was quite angry.

"These animals are really endless. It seems that they are trying to kill those monsters in the Ninth level of the king's kingdom as a deterrent."

He could not help murmuring, blood thirsty cold light appeared in his eyes again.

Behind him, the six monsters in the ninth floor of the king's kingdom were also killed and pursued.

At a certain moment, they obviously felt that Wang Fan's speed had decreased, and they became excited.

Half an hour later, the six monsters were finally less than 3000 meters away from Wang Fan.

But at this time, Wang Fan's body shape is already rickety, more and more slowly, the breath is also more and more weak.

In that way, it's as if the consumption of Reiki in the body is too much to support.

"Damn human, look how you run this time!" Six monsters looking at this scene, is excited, speed surge!

In a twinkling, they have once again drawn close to Wang Fan.

The distance between the two sides is less than 1000 meters.

"Animals are indeed animals. Even if they have intelligence, they are still animals! I didn't want to fight with you, but since you are in a hurry to die, don't blame me, Wang Fan

In front of Wang Fan, clearly feel this scene, the corner of his mouth is set off a smile.

Roar, roar!

At a certain moment, accompanied by several low roars, the six monsters' breath suddenly soared. They stepped on the ground with their hind hooves, raised billows of smoke and rushed to Wang Fan.

Six monsters, just like six hills, the heavy oppression and terrible!

In their eyes, there are bloodthirsty cold awns, bloody mouths constantly open and close, sharp tusks, as if they want to swallow Wang Fan.

Five hundred meters!

Three hundred meters!

One hundred meters!

With their explosion, the distance between the two sides is getting closer and closer. Their eyes are more and more excited. However, just when they were only 100 meters away from Wang Fan, Wang Fan's face suddenly changed, and it also moved with him!

Bang!

With a loud noise, Wang Fan stepped on the ground with his feet, and his body, which had been rushing forward, suddenly fell back!

At the same time, he waved the shadow knife in his hand and chopped the six monsters.

"Seven kill Liuyun Dao, first kill, second kill, third kill!"

The deep roar came from Wang Fan's mouth, and three terrible knives suddenly appeared in the air.

The three swords were not so huge, but the pressure they raised was extremely terrifying.

Space, at this moment began to prick the unreal, it seems to be split and open in general.

Qi force, just like the roar of angry dragon, hissing. Kill potential, is crazy swept, rolling spread around.

Seven kill Liuyun Dao, three kill together, its power, simply terrible to unimaginable.

The six monsters looked at Wang Fan, who suddenly fell back, and felt the terrible power. In an instant, their hair stood upright!

The eyes of the three monsters are ferocious, and their breath is more burst. They rush to fight against Wang Fan's attack.

The other two monsters, without hesitation, suddenly stopped and then began to retreat.

Whoa, whoa, whoa!

Three harsh sound, knife awn ruthlessly cut in the three heads of the impact of the monster body.

Their hard hair, skin and bones, under the power of the seven kill Liuyun sword, are like weak tofu, burst and split.

Between the blood spraying, a monster was directly split in two and fell to the ground miserably. A monster is cut off the head, blood spray dance.

The last monster was even more miserable. The edge of the knife extended from the head to the back of the waist. Not only that, the rampant awn of the knife also tore its flesh.

Miserable death!

Under one blow, all three monsters died miserably!

That two ends burst back of the monster looking at this scene, the pupil is to emerge out of the incomparable astonishment.

This kind of strength is almost comparable to their king beast.

Roar!

When they roared, they didn't dare to kill Wang Fan any more. Instead, they turned around and ran away.

Although they are animals, they have intelligence and know the law of the jungle.

They know that if they rush up at this time, they are just looking for death.

They can only escape, can only request the king beast to come out to solve Wang Fan.

Wang Fan looked at the monster who turned around and fled, grinning, "now I know how to escape, don't you think it's too late?"

He said with a sneer, directly put away the shadow knife, body shape forward, right fist clenched, a blow out!

Punch!

Crazy fist is intended to sweep out at this moment, pierce the air, toward the two monsters.

However, just when the fist was about to hit the two monsters, a dry black palm suddenly emerged from the void.

Chapter 1994

After the dry palm appeared, the fingers stuck out, just a little bit towards the terrible fist.

All of a sudden, the terrible meaning of boxing is to crash.

Wang Fan looks at this scene, the pupil suddenly shrinks, the complexion in the instantaneous big change!

Without any hesitation, he started to retreat madly in an instant. After a full withdrawal of 1000 meters, he stopped.

Wang Fan stares at the void in front of him, and his whole body is covered with sweat. He can't help but stand up.

Terror, it's terrible!

This man's cultivation has absolutely reached the state of respect!

Under Wang Fan's gaze, the void suddenly opened a gap, as if a door had appeared. A man with black hair stepped out of the gap.

The man had black hair, black clothes, wild and uninhibited face, full of rebellious state.

After he appeared, the two monsters in the Ninth level of the king's situation showed a touch of fanaticism and respect in their eyes, and then they crawled down cleverly.

Their pious attitude seems to be kneeling down to their own king.

King beast?

Wang Fan looks at this scene, pupil cannot help tightening again.

This man with black hair is the king beast. He has human form?

He was quite shocked.

"Boy, in my black mulberry cliff, so wantonly killing my children and grandchildren, you don't take my king seriously, do you?"

The man with black hair stares at Wang Fan coldly. His words are like grinding teeth, which makes his scalp numb.

In his eyes, he released his bloodthirsty cold light. Looking at Wang Fan, it was like looking at a dead man.

Wang Fan stares at the man with black hair, but he doesn't speak at all.

His aura was surging wildly in his body. At a certain moment, his toes suddenly hit the ground, and then he quickly burst back.

Run!

This is the only thought in his heart at this time!

This king beast appears, Wang Fan wants to look for that injured Zunjing again, as if it is already impossible, he can only escape.

"Now that you are here, why hurry to go? What's more, if you can escape in front of my king, I don't need to practice any more. "

The performance of the black haired man to Wang fan is not half of an accident. He reaches out his dry and pale right hand and gives Wang Fan a firm grip!

Suddenly, with a twist of space, Wang Fan felt as if he had been caught by an invisible hand. His speed dropped sharply, just like tortoise speed.

"Come back to me!" Black hair man again a burst drink, at Wang Fan mercilessly pull!

Wang Fan immediately felt as if he was involved by an invisible rope, and was directly pulled to the black haired man.

"This..." Wang Fan's face was even more startled. Such means were even more terrifying than vice president!

He was shocked, but on the surface he was extremely calm. When he was pulled towards the black haired man, he was already frantically grasping the killing shotgun.

Animals are animals, even if they have been transformed into human beings, they are still animals.

Wang Fan didn't have the idea to explain to the black haired man at all, let alone the intention to beg for mercy!

At the moment when he grabbed the killing shotgun, a touch of madness appeared in his eyes. "Beast, since you don't let me go, you go to die!"

He tore the roar, has madly urged the killing shotgun, right arm suddenly waved, hard toward the black haired man, stabbed in the past.

At the moment when the killing shotgun was activated, the killing intention was so terrible that it was

unimaginable that it spread out crazily.

In bursts of horror gun pattern, crazy toward the black haired man bombarded in the past.

The man with black hair felt this scene, his face changed in an instant!

"Just a monk in Wangjing, how could he activate such a terrible magic weapon and release such a terrible killing intention?"

He murmured, but the movement was non-stop. He kept retreating, and at the same time, he stretched out his palms and waved them repeatedly.

When he waved his palms, the space was really distorted, and there were waves. Those waves impacted on the gun pattern, and the gun pattern collapsed immediately.

However, with the collapse of the gun pattern, the black haired man is obviously not very comfortable.

His face, which was already pale, became even more pale. At a glance, it looked like a corpse.

His figure can't help retreating. Every step of retreating will make a deep footprint on the ground.

The black haired man waved dozens of times before he completely defeated the terrible gun pattern.

Just after crushing the gun pattern, he couldn't help but hiss, and his blood gushed out.

Wang Fan looked at this scene, his eyes were even more shocked.

For the first time, he met a strong man who could block the killing intention of the short gun.

Those who respect the strong are really terrible!

"Withdraw, we must withdraw. If we do not withdraw, my life will be in danger." Wang Fan couldn't help murmuring. He didn't dare to stay here any longer. He directly sacrificed the anti sky spaceship at the first time. He burned his blood essence and rushed to the distance crazily.

"You can't go away!" The man with black hair looked at the scene with a smile. His right hand leaned forward again and grabbed hard.

Bang!

The space where Wang Fan's spaceship used to be collapsed suddenly.

Wang Fan on the spaceship looked at the scene and couldn't help taking a breath.

Fortunately, the speed of the spaceship is fast enough. Otherwise, if it slows down a little bit, I'm afraid I'll really be here today.

He is more crazy to urge the spaceship, the spaceship just like streamer, instantly disappeared here.

The man with black hair couldn't help but let out a light cry, his face more gloomy.

He didn't expect that the speed of the spaceship would be so fast.

However, he still did not intend to let Wang Fan go, but with a cold smile, "if you want to go, where is it so easy? Space blockade!"

He a roar, this whole black mulberry cliff, immediately is set off a roaring sound.

If you look down from a high place, you will be shocked to see that a huge blockade array has covered the whole heisang cliff, completely covering the heisang cliff.

After finishing these, the man with black hair looks even paler. He stares at the direction of Wang Fan's departure coldly. With one step, he completely disappears here.

Wang Du Sheng Yuan, in an exquisite Pavilion, the vice president, who was meditating with his knees crossed, suddenly changed his face and suddenly stood up.

"Space blockade? Did that guy finally show up? It's amazing that all of them have used the space blockade array. That little guy really didn't disappoint me. "

"After using the space blockade array, the guy must have become more weak. In addition, the little guy attracts his attention. If I go in at this time, he will not notice."

The bright eyes of the vice president showed the light, murmured, and disappeared here.

Inside the black mulberry cliff, Wang Fan was almost mad.

Because he has just crushed the transmission of jade Fu, only found that it could not be transmitted at all.

Soon, he already knew that the whole black mulberry cliff had been arranged with a space blockade array.

This discovery made his face gloomy.

"Space blockade array, it's space blockade array. It's over. That vice president, I'm really hurt. "

Wang Fan's depressed clenched teeth and murmured, only with the aid of the terrible speed of the spaceship, constantly changing the direction to escape.

Chapter 1995

The black haired man constantly shuttles through the void, chasing Wang Fan crazily.

What annoys him is that the speed of Wang Fan's spaceship is even faster than his, which makes him unable to catch up.

In the period of total victory, there would be no problem for him to catch up with Wang Fan, but now he was just a mole ant that could be crushed to death, but now he can't catch up with Wang Fan. This kind of anger can be imagined.

Wang Fan constantly controlled the spacecraft, changing the direction, getting rid of the black haired man's tracking.

Under this high intensity of control, he is also getting weaker and weaker.

Although Wang fan knows that this is not the way to go on, sooner or later, he will be consumed alive, but at present, there is no better way.

"Those who respect the environment and are strong are really terrible. They don't even have a chance to get rid of them." Wang Fan gritted his teeth and whispered his hatred.

He constantly grabbed out the pills and threw them into the entrance, digesting the power of the pills and restoring the aura in his body.

But even so, it is also drinking poison to quench thirst.

If the man with black hair gives him time to breathe, he can grasp the best spirit stone to absorb and recover.

But the man with black hair bit him so tightly that he didn't have time at all.

Wang Fan and the man with black hair run after each other and play hide and seek on the black mulberry cliff.

Wang fan can't get rid of it, and the man with black hair can't catch up with it, so they are deadlocked.

If the black haired man knew that Wang Fan was in a weak state at this time, he could take any one of his demons, and he would certainly make his demons encircle him.

It's just that he doesn't know that at all.

In his opinion, the thin camel is bigger than the horse. Even though Wang fan may be weak now, it is far from what his monsters can deal with.

Those monsters to intercept Wang Fan, just to die. Therefore, in order to avoid casualties, he not only did not order his subordinates to encircle, but also ordered them to retreat.

"Boy, you can't run away. With your strength, I'm afraid you're one of the best students in the royal palace. "

"Today, I will catch you and leave you at the gate of the holy courtyard of the capital of the king. At that time, I want to see the face of that slut. "

The man with black hair was murmuring with a gloomy face. He was pushing the aura in his body regardless of everything. The speed of pursuit was also faster and faster.

Wang Fan felt the acceleration of the speed of the black haired man and his face was even more ugly.

He while crazy urged the spaceship, while crazy absorption of the elixir aura.

"Son of a bitch, you can chase me. If you are in a hurry, I will give you another killing short gun."

He was biting his teeth and scolding angrily, but he knew that in his current state, it was impossible to stimulate the killing shotgun again.

If he is really inspired, I'm afraid that he will be sucked to dry in an instant.

"Run north, little one." Just when Wang Fan had a headache, a weak voice came into his ear.

Wang Fan listens to this voice, complexion is first cannot help a change, immediately after the vision is big bright, "Vice President?"

Without hesitation, he rushed to the North crazily.

"Turn right 50 Li to the left, go straight and turn left 100 li." Vice president's voice is still constantly echoing in his mind, giving him guidance.

Wang Fan didn't speak, just frantically urged the spaceship to advance along the direction of the vice president.

It's terrible to respect the strong. He can't deal with it at this time. In the face of the man with black hair, Wang Fan had no power to fight.

The appearance of the vice president is like a life-saving straw, which gives Wang Fan hope.

As Wang Fan has been constantly changing the direction of escape, so the black haired man did not notice Wang Fan's abnormal behavior.

He is still crazy pursuit of Wang Fan, constantly approaching.

After more than an hour of pursuit, his intention to kill Wang Fan has reached an unimaginable level.

This is the first time in his life that makes him so angry. He must kill this mole ant cruelly.

"Run, run, space blockade, close!" At a certain moment, the man with black hair couldn't bear it. He suddenly drank and began to dance with his hands.

With the dancing of his hands, the space blocked by him shrank wildly.

The array is constantly shrinking, shrinking Wang Fan's activity space.

Wang Fan seems to have become a trapped animal.

As long as the array is reduced to the extreme, Wang Fan will be completely imprisoned, and there will be no chance to escape.

However, this kind of consumption is too big for the black haired man. With the continuous reduction of the space blockade array, his face is becoming paler and his breath is becoming weaker and weaker.

He didn't want to do this, after all, the consumption is too big, just so long chase, let him completely lost patience. According to the guidance of the vice president, Wang Fan, who is frantically fleeing, naturally is clearly aware of this scene.

He looked at the shrinking space blocking the array, and his face became more ugly.

"The battle of the trapped beast?" He murmured, but also crazy burning blood essence, toward the direction of the vice president to guide the rapid and go.

He must arrive at the position of the vice president before this big battle completely traps him, otherwise, he will be in a very dangerous situation.

Da Zhen's crazy contraction, Wang Fan's crazy advance, and the black haired man and Wang fan are fighting against time.

But the only difference is that the black haired man does not know the existence of the vice president, let alone that she has voiced to Wang Fan.

A hundred miles away from Wang Fan, the vice president also noticed the contraction of the array, but she had no way.

Because the man with black hair is coming here, and her mental power has been shrouded here, she dare not move at all, and dare not release any breath. Even, she has cut off the transmission with Wang Fan.

Her purpose is to kill the man with black hair. If she is found by the man with black hair and arouses the other party's vigilance, the other party will definitely choose to escape.

In that case, her calculations would fall short, which she did not want to see.

"Come on, come on." Vice president's heart anxiously urges Wang Fan, in palm is exuded fragrant sweat.

She really wants to kill the man with black hair. For this day, she has endured it for countless years.

This is a once-in-a-lifetime opportunity. She really doesn't want to fall short.

Of course, she did not want Wang Fan to be trapped or killed. If Wang fan is really in danger, she will have to show up ahead of time.

with the continuous contraction and shrinking of the space array, Wang Fan's heart is becoming more and more dignified.

This space array is shrinking too fast. If it goes on like this, he can't wait to get close to the vice president. He will be completely trapped.

"Son of a bitch!" Wang Fan's heart became very anxious, and his face was also ferocious.

"Boy, don't struggle. Today, you will die!" The man with black hair looked at the scene, and a grim smile appeared in his eyes.

Da Zhen, still shrinking, finally, completely blocked Wang Fan within a radius of 1000 meters.

Chapter 1996

Wang Fan flashed out of the spaceship, looking very ugly.

In the end, he was trapped by the battle.

But he is a little confused, vice president before to his voice, obviously also in the black mulberry cliff.

But why is it that with the shrinking of the space array, the vice president has not been forced to show his origin?

Did vice president use secret method to leave this space to block the array? Just in that case, why did the man with black hair notice?

Wang Fan couldn't figure it out, and in the end, it could only be attributed to the black haired man's carelessness.

Actually, it's not the black haired man's carelessness.

It was because he had not recovered from his original serious injury, and because he had resisted the killing short gun and contracted the space, he became weaker, so he didn't notice it.

While Wang Fan was thinking about this, outside the space array, with a twist of space, a whirlpool appeared, and the man with black hair stepped out.

At this time, his face has been more pale, also more ferocious.

He stares at Wang Fan, who is trapped in the space blockade array. His mouth turns up, and his eyes only have a bloody and ferocious sneer.

"Run, you keep running! I want to see where you can go!" He said, sticking out his tongue and licking his lips,

"little beast, with your qualifications, you should be regarded as the pride of heaven in wangdushengyuan."

"If I kill you, and then send your body to the gate of Wangdu holy courtyard, I don't know what kind of expression Moyi would have."

Wang Fan coldly looked at the man with black hair. His heart was dignified, but his face didn't change. He disdained to say, "animal these two words, should be my address you just right?"

"As the king beast of heisangya, as a strong man of Zunjing level, bullying a student of my college, do you have a great sense of achievement? You don't want to talk nonsense. If you want to kill me, I will never frown. "

Wang Fan disdained to say, the rare aura in the Dantian has been crazy again. At the same time, he has once again communicated with the killing shotgun in the ring.

Waiting to die is not Wang Fan's character. Even if he has a chance of survival, he will not give up.

Instead of waiting here to die, it's better to fight. Even if he was sucked into human action, at least he

tried.

"Yes? Good. I like young people with courage and backbone like you. Don't worry, I won't kill you so soon. I will make you satisfied and unforgettable. "

The word "animal" was denounced by Wang Fan, and the black haired man was not angry at all.

He stared at Wang Fan and said coldly. He stepped out again, and he had already entered the big formation.

At this time, he was less than 1000 meters away from Wang Fan.

At the moment when the black haired man entered the battle, Wang Fan immediately felt a very heavy pressure.

It's like a heavy unimaginable mountain, pressing on his heart, making his breathing become slow.

However, his expression is always calm, eyes staring at the black haired man, ready to do anything.

Seeing that Wang Fan was always calm on the surface, the man with black hair couldn't help looking surprised.

But he did not continue to talk nonsense, but a grasp of the right hand, it has been empty grasp to Wang Fan.

With his grasp, the space suddenly appeared waves, began to crazy distortion. An unimaginable pressure of terror surged towards Wang Fan.

However, at the moment when the great power was about to cover Wang Fan's whole body, Wang Fan's calm face suddenly became extremely ferocious. His eyes, but also the emergence of an unprecedented Mania!

"Want to catch me? It's not that easy. You can die for me! "

Wang Fan's right hand suddenly shakes with a loud drink, and the killing short gun appears instantly. Then he has rolled up countless gun patterns and fierce killing power, and rolled toward the black haired man.

In the crazy whistling of the gun pattern, the distorted space is more severe.

The crazy whistling of the gun pattern collided with the grasping power of the black haired man, setting off a terrible storm.

Boom boom!

Several loud noises, the earth shaking.

Under the terrible storm, the big space that locked here was smashed with a bang.

The black haired man's face changed greatly, and he was extremely shocked.

He never thought that the space blockade would collapse in this situation.

You know, it was arranged by him. Even if he was extremely weak, the array should not collapse like this.

He could not care to think so much, his body began to retreat wildly, at the same time, he waved his palms wildly again to resist the terrible killing power and gun pattern.

However, at this time, it was obviously not as easy for him to resist the terrible killing power and gun pattern as last time. With the resistance, his face, more pale up, and even the whole body, are cut out of a scar.

Wang fan is also very uncomfortable, he has been unable to fall on the ground, no longer a little strength.

Don't say it is to sacrifice the spaceship to escape, even if it is to move the strength of the finger, it is not.

It's the first time that Wang Fan has been so weak since he entered Yuanmen.

He tried to resist the impulse to faint, and looked up at the terrible storm in front of him.

He wants to see what happens to the black haired man.

Even if the black haired man does not die, he also wants to see the black haired man injured, see the scene of the black haired man in a mess.

Crazy explosion sound is still in the continuous spread, almost covering the whole black mulberry cliff.

Black mulberry cliff, all the monsters, at this moment are showing unprecedented fear expression, weak limbs crawling on the ground, shivering.

I don't know how long after that, the storm stopped slowly, and the black haired man came out step by step.

At this time, he had been blown up without human form, with blood stains all over his body and wounds everywhere.

Especially the abdominal wound almost penetrated his whole waist rib, and the blood was still flowing down at this time.

At this moment, the black haired man is really angry, angry to the extreme, angry to madness, angry to want to immediately crazy torture Wang Fan.

This is the first time that he has been made so miserable by just a mole ant in Wangjing.

"Little beast, I'm sure you'll live worse than death, I'm sure!" He stares at Wang Fan, eyes a blood red, ferocious roar.

Wang Fan didn't speak, just looked at the man with black hair with disdain, and then slowly closed his eyes.

Now that he has no strength to resist, his only hope is that the vice president will appear at this critical juncture.

If the vice president fails to show up, he will surely die.

"Die At a certain moment, the black haired man couldn't help roaring wildly again, and then he flashed directly to Wang Fan.

However, at the moment when he flashed to Wang Fan, a plain voice came out abruptly.

"Those who want to kill me, I'm afraid you don't have the chance. You will be the one who died today

With the sound, a graceful figure suddenly appeared in front of the black haired man.

"Moy!" The black haired man's pupil suddenly shrinks, and his face suddenly changes!

Chapter 1997

Black hair man's eyes in the emergence of unprecedented madness and resentment, "it's you, it's you!"

"I should have thought of it, I should have thought of it, it's all your cunt's conspiracy!"

The black haired man's eyes were splitting and his hair was raging, "Moyi, you are..."

the black haired man's crazy roar, but his words had just been interrupted by the vice president.

"Shut up

With a roar, the vice president rushed to the black haired man as fast as a rainbow.

Her pink fists dance, rolled up the terrible incomparable gas force, directly so crazy smashed down.

The black haired man's face changed greatly, and he quickly dodged. But at this time, he was too weak to resist the stormy attack of the vice president.

Boom boom!

In the blink of an eye, the vice president bombarded the black haired man with dozens of fists.

The man with black hair spewed blood from his mouth and nose and flew straight out.

Wang Fan looked at the scene stupidly, and was almost stunned.

It was hard for him to imagine that a woman would fight in such a savage way. Especially the strength contained in the vice president's double fists is too terrible.

The black haired man was defeated by the bombardment, and he had no fighting power at all.

His look is more and more ferocious.

"If you don't let me say it, I'll say it! Moyi, as a monster, you fell in love with human beings and slaughtered your own people. Are you right about your conscience? "

The black haired man forced himself to fight against the vice president's stormy attack, and cried recklessly.

"Damn you!" Vice President listen to this, is more angry, pretty face instantly become iron blue up.

The aura in her body rose wildly, the breath was more and more burst, and the attack was more and more violent.

"Monster, fall in love with human?" Wang Fan listen to this words, the mouth skin is can't help but ruthlessly a draw, immediately eyes a close, pretended to be in a coma in the past.

This kind of thing is absolutely a big secret. He knows that it is absolutely not good for him.

In his heart, there was a storm. Obviously, he didn't expect that the vice president of Wangdu holy courtyard would be a monster.

If this kind of thing is spread out, I'm afraid it will stir up the eighteen empires?

Almost the moment Wang Fan just closed his eyes, he clearly felt that the spirit of the vice president suddenly swept over.

The mental power, carefully scanned him for a long time, then slowly dispersed.

Wang Fan felt this scene, almost out of a cold sweat, secretly sigh that he saw the opportunity early enough. Otherwise, once the vice president wants to kill people, he will be finished.

Vice president Wang fan is really aware of the coma, it is completely relieved.

But she is still not at ease, in the crazy attack of the black haired man at the same time, the right index finger hit a finger wind, directly hit Wang Fan.

Although the wind can't hurt Wang Fan, it can make Wang Fan fall into a heavy sleep.

Of course, this is only for ordinary people, but it has little effect in front of Wang Fan.

"Solitary prisoner, you hurt my husband, and my husband's whereabouts are still unknown. Damn you! Do you know how long I have been waiting for this day? "

"Today, I finally got the chance. If you are alone, you will die!"

Mo Yi to Wang Fan played a finger wind, finally is no longer forbearance, all emotions, burst out at this moment.

Her pretty face was ferocious, and her eyes were full of resentment.

"Ha ha, that's ridiculous! Moyi, I, heisangya and Wangdu Shengyuan, are in opposition. What's wrong with me hurting Moxiong? "

"You shameless bitch, originally, if you join hands with me, we will be able to level the holy court of the king's capital with our two great respects."

"But don't you think it's ridiculous that you fell in love with that damned human being and became the vice president?"

"It's you, Moyi, who betrayed us and heisangya. Damn it, it should be you!"

Black hair man's ferocious roar, seems to be more angry than Moyi.

Mo Yi's face is a twist, she is no longer with black hair man nonsense, attack more sharp up.

However, although the black haired man was injured, he was still hard to be killed for a while.

At a certain moment, maybe I can't bear it. The black haired man's body suddenly moves. With the emergence of a black fog, the whole person directly turns into a huge black bear.

This black bear is his true master!

He is ten meters tall and extremely huge. His arms and thighs are just like giant pillars.

"Moyi, you forced me. If you want to kill me, you are ready to pay a heavy price."The black bear uttered his words and grabbed a huge black stick with his right hand.

Black stick waving, set off a fierce wind, is directly toward Mo Yi crazy attack in the past.

Mo Yi's face remained unchanged, and his figure flashed. The black stick hit the ground and set off a roar like an earthquake.

Then, Mo Yi stepped on the ground with the sole of his foot. Suddenly, the whole person rushed forward and hit the black bear with another blow.

Boom!

With a loud noise, the black bear couldn't help bursting out a mouthful of blood and retreated a few steps.

Every step of his retreat is like an earthquake.

"Moy, you still refuse to admit that you are a beast? I think you'd better show the prototype, otherwise, you can't kill me! "

The black bear roared, waving the black stick in his hand, and roared at the tiny Moyi.

It's a pity that Mo Yi avoided them all.

Mo Yi sighed, and a little unwilling and struggling appeared in his eyes.

She didn't want to show herself. She didn't want to admit that she was an animal.

However, if he wanted to kill the prisoner, he would not be able to show his true self.

Once again crazy attack several times fruitless, Moyi finally is not hesitant, showing the noumenon.

With the twist of her body, a huge white tiger appeared in the air.

This Moyi is a white tiger!

Shock, it is too shock!

If the tutors of the royal palace or the people of the 18th Empire knew about this, they would be shocked and couldn't accept it, would they?

The white tiger is extremely powerful and ferocious. Its single size is no less than that of the black bear.

On the top of the white tiger's head, there are several strands of brown hair. If its body is infinitely smaller, it will sprout extremely.

"Ha ha, don't you refuse to admit that you are an animal? Don't you hate your noumenon? I'll show you what you really look like."

Black Bear looked at this scene and laughed wildly. With a wave of the bear's paw, a huge mirror appeared and stood in front of the white tiger.

"You, damn it!" Mo Yi looks at his noumenon and is even more angry. With a step on his hind hoof, he rushes towards the black bear crazily.

Two beasts, very soon is crazy fight together, momentum abnormal terror.

Wang Fan looked at this scene, his mind is a blank.

He only prayed that the war between the two men would not affect him, otherwise anyone would die.

Chapter 1998

After the appearance of the vice president, the power of the attack is even more terrifying. Any attack is no less than the king level martial arts.

Under her crazy attack, the black bear was beaten and retreated, and had no fighting power at all.

If at the peak, he may be able to compete with the vice president, but now, he is too weak. In less than ten minutes, it was completely unstoppable.

At a certain moment, the vice president finally seized the opportunity, and the white tiger's sharp forepaw pierced the black bear's head directly.

With a bang, the black bear fell to the ground, and the red blood gushed out like a column of water. After a few splashes, there was no breath.

After killing the black bear, the huge size of the white tiger began to change, and it soon returned to human form.

She will each other's space ring has been taken out of the animal core, grab Wang fan is to leave here.

After today, black mulberry cliff, there will be no king beast.

Wang Fan was caught in the hands of the vice president, did not dare to move, and even tried his best to

keep breathing stable.

He was deeply afraid that the vice president would realize that he was sober and kill people.

Soon, the vice president took Wang Fan back to the palace and brought her home.

After putting Wang Fan down, she took out several pills and threw them into Wang Fan's mouth. Then she began to meditate and adjust her breath.

Wang Fan realized this scene and was relieved at last. Now, there should be no worry about life, right?

With his relaxation, soon a sense of fatigue surge, he really coma in the past.

Wang Fan's coma lasted seven days.

Seven days later, he woke up, the body's injury consumption, also in the vice president's pills, complete recovery.

"Are you awake?" Vice president saw Wang Fan wake up, eyes closely fixed on Wang Fan, coldly asked.

She wanted to see if Wang Fan knew that she was a beast.

If you don't know, it's OK, but if you know, she will have to consider whether to kill.

With Wang Fan's mind, naturally, there will be no clue.

"Where am I?" First, he looked around blankly. Then he seemed to think of something. He bowed to the vice president and said, "thank you for helping me."

Wang Fan said, seems to be somewhat ashamed, "I'm sorry, I didn't find the injured Zunjing, failed to live up to the vice president."

The vice president looked at Wang Fan's expression and was relieved again. There was a smile on his face. "You didn't let me down. You've done a good job."

Then she grabbed a space ring and threw it to Wang Fan. "This is a reward for you. Go back to the cave to practice."

Words fall, vice president slightly hesitated, and seized a token, "this is my vice president token, with this token, Wangdu Shengyuan whether tutor or student, see you as see me."

"However, you must remember not to act in the holy court of Wangdu with a token. Otherwise, I will take back the token and punish you."

Wang fan is a Leng at first, then quickly and excitedly grabbed the token and nodded quickly, "thank you, vice president. Don't worry, I will never act recklessly with the token."

In his heart, there was unprecedented ecstasy.

This token is a talisman. With this token, who dares to challenge him in the holy courtyard of the king's capital?

Similar to last time in the life and death stage, Yang Wu's use of force to suppress others will never happen again.

After thanking the vice president, Wang Fan poured his mental energy into the space again. At this moment, he almost jumped up with excitement.

There are two hundred million elixir stones in the space ring, which can help the king to improve his strength. There are also several elixirs.

With these resources, Wang fan is absolutely sure that he will be promoted to the sixth level or even higher in a short time.

But Wang Fan also had some regrets in his heart. He didn't have Wang level martial arts skills. However, when he thought that there were so many spirit stones and pills, he was no longer entangled.

Thanks to the vice president once again, Wang Fan rushed back to his cave.

With these resources, the next time, he will be completely closed, waiting for the arrival of Tianjiao Dabi in three months.

At that time, he will defeat Wen Ruyu on the platform to fulfill his promise to Miaoshi.

However, after leaving the vice president's residence, Wang Fan's face suddenly changed.

He found that the armor he was wearing, which was given by the vice president, had many cracks.

"Damn, when did this crack appear? Why didn't I notice it at all?"

Wang Fan's face is rather ugly, and his heart is also quite painful. This is the armor that can resist the three attacks of the powerful. It's so broken.

In fact, the armor was shattered by the terrible energy storm during the war between the vice president and the black haired man.

Without this armor, Wang Fan, even if he didn't die, would have become a useless person. After all, the battle of those who respect the territory is too terrible. The power has gone far beyond the range of

Wang Fan at this time.

Wang Fan murmured bitterly, but he didn't think much about it. He quickly went to cave 35.

A few minutes later, Wang Fan has come to his cave. However, his face also changed in an instant.

At the gate of his cave, there were six people sitting cross legged.

The six people, facing the entrance of the cave, formed a semicircle and sealed the way in and out.

Not only that, on the ground in front of them, there were ten big characters.

"Garbage Wang Fan, dare not come out!"

"A coward is only worthy of being a turtle with a shrunken head!"

"Wang fan is a rubbish, a rubbish!"

Wang Fan looked at these words, Rao is with his calm, are not from the anger up.

What master Miao said is true. Even if he killed Lian Kui, someone would still come to him.

But he did not understand why there were six.

At the moment when Wang Fan appeared, the six people were aware of it. They suddenly opened their eyes and turned to Wang Fan.

Just to see clearly, the person who appeared behind them was Wang Fan, their faces suddenly became wonderful.

"You, why are you out there?"

"Why aren't you in the cave?"

Two of them couldn't help blurting out.

You know, since this period of time, they have always thought that Wang Fan was in the cave, so they kept abusing and insulting, in order to force Wang fan out.

But now, they find that Wang fan is not in the cave at all. They have only been self directing and self acting clowns for a period of time. That kind of feeling can be imagined.

Wang Fan listened to the two people's questions, can't help but smile, "how, I'm not in the cave, you are very surprised?"

His tone, full of sarcasm, "you are really dedicated ah, even give me free to do such a long time watchdog, say, I should also thank you."

"What did you say?"

"Do you have the guts to say it again?"

"You want to die!"

Six people listen to Wang Fan this words, complexion instant big change, full face iron green stand up!

Chapter 2000

"Wang Fan, do you think that if you break our sword net, you will win? If you think so, you are stupid

"The new students who are not ashamed, today, we will make you pay the price!"

Five people looked at the approaching Wang Fan, his face could not help changing, and then struggled to get up.

It's not that they boasted that the six of them could become the pride of the holy court of Wangdu. It's just that they used the wrong tactics and underestimated Wang Fan.

Although one of the six of them has been seriously injured and lost combat effectiveness, the five of them have little influence.

"Oh, yeah, just show me your means, so that I can see your strength."

Wang Fan words fall, body shape has been flashing, fast toward five people killed in the past.

This is not a formal contest, not to mention a duel. We need to hold our fists and wait for the other party to be ready.

He just wanted to clean up these guys as soon as possible, so as to practice in the closed door.

Five people see Wang Fan rush to, the corner of the mouth is also ruthless a draw, immediately in the body aura suddenly surging, toward Wang Fan burst rushed in the past.

In this kind of battle, it is very important for them to have the first chance. They don't want to lose the first chance and fall into passivity.

Wang Fan's performance of the five people, no half of the accident, the moment has rushed to the front of the five people.

He dodged one of them's swords, twisted his waist and kicked out his right leg like a steel whip.

Bang!

A loud noise, Wang Fan's right leg kick in one of the waist, that person miserable hum, when even out of control inverted fly out.

His eyes, the emergence of a strong shock, obviously did not expect, Wang Fan's attack speed will be so fast.

"It's just waste. Even if you use your means, it's just waste."

Wang Fan's voice has no emotion, mercilessly humiliates five people, the injured movement is non-stop, the right fist swings suddenly, and another person's fist fiercely hit together.

Bang!

The fists collided and made a terrible noise.

Click!

There was a sharp sound of bone fracture. Even if the man was blown upside down, his heart was also severely injured and seriously injured.

In a short time, Wang Fan has injured two people again, and the faces of the other three have all changed.

Without any hesitation, they applied their body method to the extreme and began to retreat.

They have realized that they are not Wang Fan's adversaries in close combat. In the current situation, they can only use their martial arts to confront each other.

It's just that it's too hard to control if you use your martial arts skills. If you kill Wang Fan, it will be against the rules.

That's why they haven't used their martial arts so far.

"Want to go back?" Wang Fan looked at the three people who retreated suddenly, and he could not help laughing.

Without any hesitation, he directly grabbed the shadow knife, waved it forward and chopped at the slowest of the three.

With the wave of Wang Fan's shadow knife, the wave of dozens of Zhang long sword suddenly

appeared, set off a violent momentum, and chopped the man down.

The man looked at the dozens of Zhang long sword wave, felt the power contained in it, and his face changed greatly at this moment.

In his eyes, for the first time, panic appeared.

"Help me!" He grabbed the sword madly to resist and gathered defense on the surface of his body. At the same time, he asked for help from the other two people.

However, those two people are too busy to save themselves. How can they save him?

Whoa!

Sharp knife awn, instant is already across his body, raised a red blood fog.

He screamed and flew out. He fell to the ground and couldn't get up.

It's still that Wang fan is subject to the rules of the holy court of Wangdu. He didn't dare to be cruel. Otherwise, this person would not be seriously injured.

"If you see clearly, this is called brotherhood. Your brotherhood is really strong."

Wang Fan looked at the guy who was seriously injured by a knife and couldn't help laughing.

The guy's face was ugly when he heard this.

Although he knew that Wang Fan's words were intended to alienate the relationship between him and the two people, he still felt a little uncomfortable when he remembered the scene of the two people dying before.

"Wang Fan, you don't want to alienate our relationship. Can you easily alienate the feelings of our six brothers?"

"Unexpectedly, we really underestimated you. Next, you can die!"

The two youths who successfully retreated stopped thousands of meters away from Wang Fan and said with a grim smile. Then they started to gather Wang's martial arts skills by dancing their swords.

With their dancing, in the air, two illusory aura sword shadows condense out and begin to solidify gradually.

With the solidity of the shadow of the sword, a terrible storm of oppression was brewing slowly in the air. Under the shadow of the sword, the dark clouds in the sky seemed to be affected and began to

spread towards the distance.

They stare at Wang Fan dead and dead, although the face is pale, but in the eyes, it is only ferocious and killing intention.

Their six brothers, this is the first time, so embarrassed.

At this time, they have forgotten the rules of the college and they just came to teach Wang Fan a lesson.

Now they just want to kill Wang Fan.

"King level martial arts?" Wang Fan felt the pressure of those two swords, but he couldn't help laughing when he listened to them again,

"it seems that only you can master King level martial arts. How many people in Wangdu Shengyuan don't control King level martial arts?"

Wang Fan disdains of say, the shadow knife in the hand has already danced.

With the dance of shadow knife, the first kill of seven kill Liuyun knife has been condensed by him.

"Slow, it's too slow. The brewing time of your king level martial arts skills is enough for me to kill you dozens of times."

Wang Fan disdains of say, shadow knife a wave, "go!"

That was condensed out of the terrible sword wave, is already crazy toward the air is still condensation of sword Qi virtual shadow cut in the past.

Two people looked at this scene, the facial expression instantly became ugly.

They no longer care to continue to solidify, but crazy with a sword shake, will two sword shadow blast out.

Boom!

The sword wave sword wolf collided and made a terrible noise.

As their king level martial arts have not been thoroughly refined, they have already been used. Naturally, the sword shadow is invincible.

The two sides only had a short contact. The shadow of the two swords collapsed one after another and disappeared as stars.

After the collapse of sword shadow, Dao Lang cut through the air and tore them.

With the spatter of blood mist, they immediately flew out and fell to the ground like a dead dog, seriously injured.

At this time, the six lost!

...

No.10 cave is almost Wang Fan's seven kill Liuyun sword. Wen Ruyu, sitting on her knees, has already noticed it.

"Why is this wave so familiar?" he could not help frowning and murmuring. Immediately, his face suddenly changed, and a cold light appeared in his eyes.

"It's him!" Wen Ruyu murmured. Without hesitation, she flashed out of the No. 10 cave.

When he flashed out of No. 10 cave, he just saw the terrible sword wave in mid air. Looking at the familiar sword wave, his repressed killing intention suddenly broke out uncontrollably.

"It's you, it's really you!"
