

## **Mighty Sk 2041**

### **Chapter 2041**

A moment later, Wang fan spirit shock, can not help but tremble with excitement.

He found it. He found it at last.

After a wide jade table, Han Qingyi is sitting quietly. She lowers her head slightly, her eyes are blank, and she doesn't know what she is thinking.

A snow-white dress to wear on the body, just like the blooming snow lotus on the top of the mountain, clear and clean, not stained with dust.

The beautiful appearance, the unique demeanor and the unique beauty attract the attention of countless young talents.

Beside hanqingyi, there were five people sitting. Two elders, three young men and women.

Among the three young men and women, two of them were the women who looked disgusted at Wang Fan and even drew their swords.

Not seen for several years, the strength of hanqingyi has reached the fifth level, which can be said to be very fast.

However, at this time, she did not notice Wang Fan, still thinking about her own mind.

"Big, sir, what's the matter with you? Your position is over there." Just when Wang Fan was about to rush past, the light voice of the maid suddenly woke him up.

Wang Fan shuddered and realized that he had lost his manners.

"Let's go." He pressed his excitement, nodded, and followed the maid to the place he had been assigned.

Wang fan knows that at this time, he must not rush past rashly enough.

Taking the virtues of those people in Yunxi as an example, if he rushes over directly, it will only backfire.

Whether it was on the outskirts of Yunxi mountains that day or outside huangtianxi building a few days ago, the attitude of the disciples of Yunxi sect gave Wang Fan a very bad impression.

Under the guidance of the maid, Wang Fan soon came to a jade table and sat down.

His position was a bit remote, and he was also very humble in the whole scene. It can be seen that the

Hu RI Empire did not pay much attention to him.

Wang Fan didn't mind this either. Instead, he put down his excitement and quietly waited for the start of the banquet.

He plans to show his skills in this banquet, to win the attention of the royal family, so as to increase his chips, so as to take away hanqingyi safely.

After all, if he doesn't show the power to make yunxizong and even the imperial family of huri fear, it's no doubt a fool's dream that he wants to take away hanqingyi.

The maid did not leave, but just stood behind Wang Fan, and introduced all the arrogant dignitaries to Wang Fan one by one.

Wang Fan listened to the maid's introduction, nodded repeatedly, at the same time, he also had a certain understanding of those powerful people.

"Your Majesty is here!"

Time goes by slowly. At a certain moment, with a sharp voice like the voice of a duck, the monarch of the huri Empire, surrounded by a group of ministers, slowly comes in.

The monarch of the huri Empire looks more than 50 years old, wearing a royal robe, walking with a dragon and a tiger, quite dignified.

He was surrounded by people in the center, full of prestige.

Behind him were five youths whose clothes were obviously different from those of other ministers.

The five young people's heads were high, their breath was sharp, and their eyes were full of pride, as if they didn't pay attention to anyone.

Needless to say, these five people are the envoys from the surrounding empires.

After the entrance of the monarch of the Hu RI Empire, all the people present stood up, congratulated him on his good luck and bowed to say hello.

The monarch of the Hu RI Empire also laughed and waved his hand, indicating that you should not be polite.

Soon, the monarch of the huri Empire and the five envoys were seated together.

Of course, the monarch sits on the throne, while the five envoys sit under it.

After they were seated, it was announced that the banquet was a real start.

All kinds of good food and wine were on the table, and all the ministers and the experts of the major departments began to drink to each other.

After a while, the delicious food and wine spread all over the square.

In the center of the square, there have been graceful dancers arranged in advance for a long time.

They are just like elves, dancing in the square, swaying and blooming.

Under their charming demeanor, the ministers and the patriarchs of the clan are better, and they can keep their heart intact.

However, those young people's arrogance, some eyes hot, they seem to be completely intoxicated in general, unable to extricate themselves for a long time.

Wang Fan didn't go to appreciate the dancing posture of those dancers. While tasting the wine, he was also secretly paying attention to Han Qingyi.

However, Han Qingyi was as usual, except that when the emperor of the Hu RI Empire arrived, she got up for a while, and then she was back to the original again.

It was as if she was in another world and didn't care about everything.

During this period, a young talented man with extraordinary beauty also went to hanqingyi with a wine cup in his hand, trying to talk with a beautiful woman and enjoy the wine. However, the cold green clothes are simply ignored.

Those people hit a soft target, and finally left bitterly.

Wang Fan looked at this scene, his heart secretly sighed, a few years have not seen, cold green clothes changed a lot.

It seems that she did not live well in yunxizong as Tianjiao Chuhong of Wangdu Shengyuan said.

Wang Fan paid attention to Han Qingyi for a while, then turned his eyes to the five messengers.

Although the five messengers were also drinking and talking with others, they were obviously absent-minded.

Most of the time, their eyes are focused on those arrogant people at the scene, in which there is a strong sense of war.

Wang Fan looked at this scene, the surface is calm, but the heart can not help urging.

Since you want to fight, please come forward to challenge. If you don't challenge, the banquet will be over.

Perhaps I heard his voice. At a certain moment, one of the young messengers finally stood up slowly.

He threw a fist at the monarch of the huri Empire and said respectfully, "Your Majesty, we have heard for a long time that the huri empire is a country full of arrogance and numerous experts. It is a country with strong martial arts."

"Today, we want to take advantage of this banquet to appreciate the strength of your heavenly pride. I hope your majesty can help us."

As the young man spoke, his breath burst out suddenly, and a crazy sense of war appeared in his eyes.

At this moment, the fox tail of the five messengers was finally completely exposed.

Hearing this, before the monarch of the huri Empire said anything, the ministers and the patriarchs could not help but take the lead.

"Presumptuous, what are you, dare to provoke us again?"

"Just around the imperial descendants, dare to be arrogant in our Hu RI Empire, do you live impatiently?"

"Challenge the Tianjiao masters of the Hu RI Empire, and you deserve it?"

All the ministers and the senior members of the major departments could not help shouting.

Although they knew for a long time that these five messengers didn't come with any good intentions, their purpose was to challenge Hu RI's arrogance and beat Hu RI in the face.

But when the other side really challenges, their anger is still hard to contain.

In the face of many scolding and abusing, one of them still looked at the Hu RI monarch and said faintly,

"Your Majesty, is it the arrogance of your hu RI empire that dare not accept our challenge?"

"Is it true that there is no successor to your famous Empire?"

## **Chapter 2042**

Those ministers and sect masters, listening to this, immediately more angry.

The emissary's words are simply forcing the monarch of the huri Empire to go to war.

After all, under such pressure, if the Hu Japanese Empire did not dare to fight, would it not become a joke?

What kind of prestige does this special Empire have?

"Bold, you are just around the Empire, is it possible that you want to fight against the Hu RI Empire?"

"Who gave you the courage to speak to your majesty like this?"

"I'm really looking for death. That's how the Lords of the empires around you civilize your envoys?"

People in the huri Empire were furious, and even some of them were angry.

If they were not afraid of the strength of the five messengers, I'm afraid they would have been unable to help.

The five envoys turned a blind eye to the indignation of the ministers and dignitaries of the huri empire. Their eyes were just staring at the monarch of the huri empire.

Under this kind of persecution, the monarch of the huri empire was always calm and could not see his happiness and anger.

At a certain moment, he waved his hand to all his ministers to calm down. Then he laughed and said, "since five of you want to understand the arrogant power of the Hu RI Empire, the emperor can't let you down."

As he said this, he suddenly brought in enough internal power and yelled, "is anyone willing to fight these five messengers?"

With a shout from the monarch of the huri Empire, in addition to Wang Fan, four other young Tianjiao, who had already been arranged, strode out at the same time.

They went to the center of the square and said, "Your Majesty, your subordinates are willing to fight!"

The monarch of Hu RI Empire looked at these four people and could not help frowning slightly. How could there be only four people and one more?

At this time, the maid standing behind Wang Fan could not help pushing up Wang Fan anxiously, "your honor, it's your turn."

The maid was so anxious that she was already sweating.

Wang Fan nodded slightly to the maid, stood out and said, "I'm willing to fight."

The reason why Wang Fan chose to lag behind is to attract the attention of Han Qingyi and even attract everyone's attention.

What he wants is attention.

The monarch of the Hu RI Empire looked at Wang Fan and frowned slightly, but soon nodded with a smile, "good, good."

As for the other four Tianjiao, they all looked at Wang Fan with disdain.

They all know that Wang Fan won the place through the selection competition, so they look down on Wang Fan at all.

That originally the cold green clothes of the eyes have no spirit, in hear Wang Fan's voice of the moment, Jiao body can't help but violently light tremble for a while, then suddenly looked up in the past.

At the moment of seeing Wang Fan's face clearly, she couldn't help trembling excitedly. Even in her eyes, she couldn't help shed scalding tears.

"It's him. It's him. How could that be?" She rubbed her eyes hard and couldn't believe it.

"Younger martial sister, what's the matter with you?" Cold green dress of dissimilarity, immediately caused the side that two women's attention.

The second daughter asked the cold green clothes unidentifiedly, and took a look along the eyes of the cold green clothes.

When they saw Wang Fanzhi in the center of the square, they were stunned at first, and then suddenly lost their voice, "isn't this the apprentice? How can he be here?"

In the center of the square, Wang Fan also noticed the abnormality of hanqingyi. He turned to hanqingyi and gave him a smile. Then he looked at the five envoys and the other four Tianjiao.

The four great arrogants are all men with excellent accomplishments. One of them, who was sitting at the same table with Han Qingyi, was obviously a disciple of yunxizong.

"What do you want to do, one on one, five games?" At this time, the monarch of the huri empire could not help but speak again.

Although these five messengers have good strength, he is confident of the other four Tianjiao besides Wang Fan. He didn't think the huri Empire would lose.

"Yes, it's one-on-one, five games, but not everyone has to do it."

"For example, if you beat the five men of the Hu RI empire in five battles in the next company, you won't have to fight, will you?"

One of them said haughtily.

"What do you say, you can beat the five of us alone?"

"What an arrogant fellow!"

"It's arrogant. You wait for your grandfather. I can beat you five by myself!"

As soon as the young people said this, whether they were the powerful ministers of the Hu RI Empire, or the other four chosen Tianjiao, they were all very angry.

In particular, the four Tianjiao were so angry that they all wanted to tear the messengers into countless pieces.

This is just too arrogant, too did not pay attention to them. How can they endure such humiliation as the pride of all the major schools?"Ha ha, if you have the ability, you can let it go." That emissary listens to four big day arrogant's angry clamor, but is a bland smile, disdain of say.

This kind of performance of the other side makes the four arrogants angry.

The whole scene, only Wang fan is the most calm.

He had been looking at the scene coldly, without opening his mouth or showing anger, as if he were an outsider.

In the moment when both sides talk, the huge square has been vacated, and the array master has arranged the array boundary.

With the announcement of the monarch of the huri Empire, the five Wang Fan and the five envoys walked towards the empty space at the same time.

After they went outside the border, one of the messengers sneered and flashed into the border.

Then, he pointed out his finger to Wang Fan five people, shouting, "in the next Huomu, challenge and wait, who comes up first to die?"

His voice was extremely ferocious, and his eyes even burst out a raging fire.

"What a wild boy!"

"To die!"

"Grandpa, come and get your dog's head on your neck!"

Listening to this, the powerful people in the Huri Empire were even more angry.

It's too arrogant. Did they dare to be so arrogant in their Hu Ri Empire? They just didn't pay attention to the whole Hu Ri empire.

The four heavenly pride are also very angry. After shouting and scolding angrily, one of the young men's figure is vertical, and he has already entered the border.

At the moment of entering the border, he had already grasped a broad broadsword in his hand.

Broadsword pointed at the messenger, sending out the cold and quiet, and the momentum was fierce!

"Arrogant guy, come on and see how I can take your dog's head!" That day arrogant clamour, on the body Wang Jing nine levels of momentum, similarly crazy burst out.

The emissary felt each other's momentum, but his expression was not moved at all. In his eyes, he only disdained, "waste, how can I defeat your so-called Hu Ri Tianjiao!"

With that, the emissary's toes had suddenly touched the ground and raised a low explosive sound, which was like lightning towards Tianjiao.

Looking at this scene, all the people on the scene became short of breath.

### **Chapter 2043**

The impact of the emissary set off gusts of strong wind, and the roaring sound in the air became a piece of momentum.

Tianjiao of the Huri Empire looked at the messenger, grinning ferociously, flashing, and rushing towards the messenger.

His pride does not allow him to retreat, he wants to fight violence with violence!

When he rushed to the emissary, he suddenly waved his broad sword in his hand. The sharp wind tore out the sword Qi, penetrated the air, and frantically chopped down the emissary.

In this scene, those people outside can't help but gasp for air.

This kind of open and close fighting is really too powerful.

"The light of firefly, dare to compete with the bright moon?" The emissary felt the fierce wind, but he was not afraid.

He disdained a smile, the body aura crazy surging, suddenly clenched his fists, even the crazy bombardment out.

The piercing sound burst resounded wildly, and instantly spread in everyone's ears.

The strong wind raised by the messenger's fists had bombarded the storm raised by the broadsword before a moment.

Boom!

There was a loud bang like an explosion, and the fury was raging. In the blink of an eye, it rushed all around.

Those waves of air lashed on the border, which made the border wobble. People outside could not help but tremble and gasped for air.

Under the ravages of this kind of storm, both of them could not help madly retreating. They retreated dozens of steps before they could stop.

Although on the surface, the two are equal, but the discerning people can see at a glance that the pride of the Hu RI Empire has fallen behind.

After all, the pride of the Hu RI Empire used weapons and occupied a certain advantage. On the other hand, the envoys of the Empire around them are red fists.

"Come again!" This kind of equal share of autumn, make that Hu Tianjiao, the heart can't help a burst of anger.

He opened his mouth and gave a big drink. His body flashed quickly, and he rushed towards the messenger crazily again.

Others in mid air, is already crazy split out more than ten knives.

More than ten swords came out one after another, and a fierce wave of swords rose in the air. The wave of swords was like a giant dragon, roaring angrily and rushing to the Imperial Envoys around.

"Waste is waste. You are vulnerable in my eyes." The Imperial Envoys around looked at him with disdain.

He laughed, then suddenly roared, "drink!"

Immediately, the double fists are like the wind and fire wheel again, crazy bombardment out.

Boom boom!

The deep sound of bombing came out one after another. Under the terrible fist of the emissary, the sword wave from the Tianjiao bombardment of the Hu RI empire was smashed.

If it had not been for the resistance of the border, I'm afraid it would have affected the public.

When all the sword waves were defeated, Tianjiao of the Hu RI empire was finally accidentally hit by a boxing style.

In a flash, his whole body was like a broken kite flying backwards out, and his mouth was full of blood mist.

"Ah, that's a failure?"

"How is that possible?"

"How did you lose so fast?"

Looking at this scene, those powerful people in the Hu RI empire could not help but start a shocking discussion.

It was hard for them to accept the scene. They just felt their faces burning.

The pride of the Hu RI empire was defeated so quickly in the contest with the envoys of the surrounding empires.

How can these hosts endure this?

On the contrary, the other four envoys of the Empire around them were a little proud.

"Waste, what a waste!"

"It seems that there is no successor in the Hu RI empire. It is not worthy of being a special empire."

"The arrogant strength of the Hu RI Empire really let us down."

"If the others have only such skills, then we don't have to play at all."

They could not help muttering to themselves, but the voice was very loud, and it was clearly introduced into the ears of every powerful person in the huri empire.

Those Hu RI Empire dignitaries listen to this, the face is more ugly, as if they were slapped a few times, hot uncomfortable.

Bang!

Huri Empire Tianjiao fell to the ground, splashed the dust, embarrassed like a dog.

In full view of the public, he fell to the ground in such a mess. Tianjiao of the huri Empire also turned red, clenched his fists, and the flames of hatred burst out in his eyes.

It's a shame. It's a great shame!

He went to war on behalf of the Hu Japanese Empire, originally for fame and prestige, but now he can't bear it!

"I'm going to kill you!" Low roar from his mouth, he can no longer help, crazy rushed out, eyes scarlet, crazy toward the messenger killed in the past.

Wang Fan looked at the scene and couldn't help shaking his head. This is the pride of the Hu RI empire. He has lost his mind. It can be said that he has no chance to turn over the game.

If he can keep calm, use his powerful skills, and use his best moves, he may have a chance, but now ·

"kill me? Ha ha, soon you will know who killed who The emissary looked at the nearly irrational Tianjiao of the huri Empire, and once again laughed with disdain.

His fists were suddenly clenched, and the sharp point of his fist suddenly burst out a bright aura. Immediately he was in the shape of a cave, and he also killed his opponent.

Boom boom!

With three fists, the emissary had completely blocked the attack of Tianjiao of Hu RI empire. With the fourth fist, his fist hit the opponent's chest.

Bang!

Click!

A deep explosion, accompanied by a series of crisp sound of bone fracture.

In this kind of fury, Tianjiao of the huri empire could no longer bear it. He spewed out several mouthfuls of blood and was blown out directly.

"Die However, before his body fell to the ground, the emissary had rushed up again, raised his right fist,

and hit the other side's brain fiercely.

Hissing ·

looking at this scene, all the people in the audience couldn't help but gasp and sweat.

If this blow goes on, the pride of the huri empire will surely die!

Some timid people, some weak people, are pale, have been afraid to see, closed his eyes.

Another bang, the messenger's fist finally fell on the proud head of that day.

Red and white things splashed out, the messenger's head, even if it had been smashed to pieces.

Boom, he fell heavily to the ground, is dead, can't die again.

It's a moment of silence.

There was no sound at all.

A Tianjiao of the Hu RI Empire died like this?

After a short silence, the faces of those powerful people in the Hu RI Empire were even more ugly, and there seemed to be a surge of heat in their chest.

Even the monarch of the huri Empire, at this moment, his face became extremely gloomy, and he no longer had the same style as before.

The death of Tianjiao in the Hu RI empire was like a loud slap in the face, which made him unable to accept.

At this time, the envoys who violently killed Tianjiao of the huri Empire had already looked at the four of Wang Fan.

He pointed to the four and said with disdain, "next, who will come up to die?"

Arrogance!

Scorn!

Shame!

**Chapter 2044**

Looking at the despotic emissary, all the people of the huri Empire were angry!

The other side didn't pay attention to the arrogance of the Hu RI empire.

However, even if they are angry, they have to bear it now.

If you want to wash away this shame, you have to defeat the opponent with strength, otherwise, everything is meaningless.

Wang Fan looked at the domineering emissary, his brow was also slightly wrinkled.

He was going to teach the domineering emissary a lesson, but he was suddenly stopped by one of the other three arrogants of the Hu RI empire.

"What are you going to do?" That day arrogant eye eye cold stare at Wang Fan, very angry ask a way.

"Of course, I'm going to fight." Wang Fan very honest answer.

He was one of the five people who went to war on behalf of the huri empire. Naturally, he could not stay at this time.

"Go to war? I think you're going to die! What are you, who dare to go to war? Don't you think that our huri empire is not disgraceful enough? "

That Tianjiao listened to Wang Fan's words, and was even more angry. He pointed to Wang Fan and yelled, "get out of the way for me, and don't disgrace our Empire again!"

"You come up, it's just a walk, gather a quota, here, it's not your turn."

That day arrogant angry scolded Wang Fan, and then step a step, is already into the border.

Wang Fan listened to the young man's domineering words, and his heart could not help a burst of anger.

This son of a bitch, is it really too hateful?

He gave a deep breath, did not speak, but looked coldly at the young man who entered the border.

"Did anyone come to die so soon? In fact, you really should let that boy die first. "

"You have saved his life, but your life is gone."

Within the border, the emissary looked at the previous scene. After seeing the young man enter the border, he picked on the corner of his mouth and said sarcastically.

As the pride of the clan, the young man was pushed out by the Huri Empire to meet these envoys. How proud was he? How could he tolerate such insults?

Listening to the messenger's words, the young man immediately became angry. He pointed to the messenger and said, "don't be rampant! You are just a barbarian. You dare to be presumptuous in our Hu RI empire. Today, Grandpa, I will take your head! "

"Well! Since you are in a hurry to die, I'll give you a ride! " When the messenger listened to this, he became angry.

He didn't want to talk nonsense any more. As soon as his figure flashed, he rushed towards the youth.

Young people are still not afraid, the body aura crazy drum, the same explosion rushed to the messenger.

A crazy roar of momentum, a chain of energy in the center of the battlefield.

The two men's fierce attack soon came together and made a huge noise, just like a raging sea.

Wang Fan looked at the scene and shook his head secretly.

The pride of the Hu RI empire was so spoiled that he didn't show his martial arts at the beginning.

You know, the emissary had shown his physical strength before. He was insulting himself to fight with his opponent in physical form.

However, the arrogant attitude towards Wang fan that day was so bad that Wang Fan naturally didn't care about his life.

"What more do you shake your head?" In Wang Fan's heart, another cold voice came from Wang Fan's side.

Wang Fan turned around and saw that they were the other two Tianjiao elected by the Hu RI empire. He felt very uncomfortable, light said, "can't I even shake my head, you are too wide?"

He was very upset with the other side's attitude of being superior and not paying attention to anyone.

"Hum, now that the Empire of Hu RI is defeated, everyone is in a bad mood. But you still have the heart to shake your head. Aren't you the spy sent by the Empire around you?"

Another person looked at Wang Fan's indifferent attitude, and directly scolded him. He was about to have a big fight.

Wang Fan was even more upset, "did I let them fail? What's the matter with me if they don't have

enough strength? What's more, I just shook my head and didn't laugh. How could I become a spy? "

"You have the skill of internal strife. Why don't you think about how to defeat those envoys."

"At such a juncture, you don't want to defeat them later and frustrate them, but you still have the leisure to quarrel with me. You are really proud."

Wang Fan with a gun, a few words to the two people choking is red face, for a long time can not speak.

On the battlefield, the battle between the emissary and the young man has become white hot.

In the air, the silver white chains are just like the roaring python, whistling and colliding madly in the mid air, arousing the storm.

The violent roar of the sound continues to resound, so that the whole ground, are constantly shaking.

The emissary and the young man were both red eyed. With one punch and one foot, they bombarded each other crazily. It seemed that they would never die. Their bodies, also have been hung color, look very embarrassed.

Boom!

At a certain moment, accompanied by another crazy collision, the messenger was finally careless and was blown out.

Like a sandbag, he fell down on the ground, which made the whole ground shake wildly.

"Good, good fight!"

"Finally beat this arrogant guy, kill him!"

"The barbarians of the Empire around us dare to be reckless in our Hu RI empire. It's like looking for death!"

"Tear him up!"

Looking at the fallen emissary, those powerful ministers of the huri Empire also relaxed their nervous hearts and began to roar excitedly.

Previously, when they saw that the pride of their country was blasted by the other party, their hearts were like a huge stone, which was very uncomfortable.

Now, seeing that the arrogant and domineering emissary was finally knocked down, their suppressed clarity finally broke out uncontrollably.

At this moment, the audience cheered.

"Well done, tit for tat, blow his head with a punch!"

"We must kill him and let him know that the majesty of our empire can not be provoked!"

Wang Fan side, the two Tianjiao also can't help blushing, neck thick roar up.

At the same time, they could not help but glare at Wang Fan with pride and indignation, just as Wang Fan was not in the same camp with them, but also the emissary of the surrounding empire.

Wang Fan listened to the cheers of the whole audience, and then looked at the young man in the border. Although he was bathed in blood, he also became excited, but he could not help shaking his head again.

Although the emissary had been blown away before, his eyes were still calm. The most important thing is that Wang Fan noticed a faint sneer from the corner of his mouth.

Obviously, this is a situation deliberately set up by the other party because of their strong feeling. The purpose is to lure the young man to belittle the enemy and win with one blow.

However, this kind of words, Wang fan can not say, otherwise it will only offend all the dignitaries present.

"Ha ha, aren't you arrogant? Aren't you arrogant? Do you have the ability to stand up? "

"Previously, you dare to blow our head with such a arrogant blow. Next, my grandfather will blow your head with a blow for a tooth."

In the cheers of the whole audience, the young man seemed to be a general who had come back from a great victory. With a smile, he slowly approached the messenger who fell to the ground.

Wang Fan looked at this scene, once again can't help but secretly scold brain damage, this guy can't long-range attack?

Stupid, stupid!

"Die At this moment, the young man came up to the emissary. With a ferocious roar, he raised his right fist, immediately set off a violent wave, and hit the emissary hard on the head.

However, his fist has not yet fallen on the messenger's head, but the change has happened in vain!

**Chapter 2045**

Just as the young man's fist was about to blow down, the messenger who fell to the ground suddenly moved.

I saw his body suddenly a move, the moment is already evaded the youth that domineering punch.

With a bang, the fierce fighting style surged on the ground, directly smashing a huge pit.

The young man's expression was slightly stunned, as if he had never thought that the messenger who was seriously injured and fell to the ground could escape his attack.

After escaping his fist, the emissary, in his consternation, rushed like a creeping cheetah.

At the same time, in his originally empty right hand, there was also a cold bayonet.

This scene happened so fast that everyone didn't react.

Just in the blink of an eye, with a hiss, the bayonet in the messenger's hand had been stabbed into the young man's chest.

The scarlet blood suddenly splashed on the messenger's face, which made him look even more ferocious.

"You want me to die? You are the one who died

"Die! Die

The emissary roared ferociously, and the bayonet in his hand suddenly pulled out, and then stabbed in again.

Come on, come on, come on!

He stabbed the young Tianjiao five knives in a row. The knife saw the blood, and the knife went into the flesh.

After five sabres, the youth's vitality has been rapidly disappearing, and no longer has the ability to resist.

Finally, with a plop, he fell to the ground, in a pool of blood.

Another pride of Hu RI Empire, meteorite!

At this moment, the whole audience was silent, and all of them didn't come back.

It never occurred to anyone that Tianjiao of the Hu RI Empire, whose victory had been decided, was

killed at the last moment.

The oppressive and dreary atmosphere is in everyone's heart. They all feel the oppressive anger.

"Mean, mean!"

"Shameless guy, you are shameless!"

"Kill a thousand things, you die ten thousand times!"

The short silence, the roar of anger just like a mountain torrent and tsunami, all the people of huri empire are angry.

In a short period of time, their empire of Hu RI had fallen into two big arrogances, which they could not bear at all.

The most important thing is that the envoys of the surrounding empires have only one person in their position up to now, and there are still four people who have not played.

"Since ancient times, we have been defeated by the enemy. How can we be mean? In the course of fighting, we should be reckless, but how can we be shameless? "

"What's more, Tianjiao, who is the emperor of Hu RI, can't even see this weakness strategy. How can he be regarded as Tianjiao? Is it just a vase growing in a greenhouse?"

The emissary didn't care about the public's abuse at all. After getting up hard, he wiped the blood on the corner of his mouth and said out loud with disdain.

Even cut two people, at this time he is also extremely weak, it is impossible to fight the third game.

The powerful ministers of the huri Empire were more angry when they heard this, but they didn't know how to refute it.

The monarch of the huri Empire, this moment is also as heavy as water, gloomy and terrible.

Obviously, the successive defeats of Tianjiao in Hu RI Empire have already made him angry!

Whoosh!

When the crowd was speechless, one of the other two Tianjiao had suddenly flashed into the field.

After he entered the field, he directly pulled out a long knife, pointed at the seriously injured messenger and said angrily, "arrogant guy, let me take your life."

However, his words just came to an end, and he didn't wait for his hand. With the sound of two breaking winds, the two messengers had already quickly flashed into the battle field.

"Our younger martial brother has been injured and is not suitable for the third battle. I'll take the third fight."

One of the messengers said, and then looked at the seriously injured companion, "younger martial brother, you step down."

"Well, I'll give it to elder martial brother next. Today, we must let this group of waste see what is the real pride. All of these five wastes are going to die, and none of them can live. "

The seriously injured messenger nodded, said a ferocious word, and then left the battle field.

At this time, there were only two envoys left in the battle field, as well as Tianjiao.

"Do you two want to go together? If we go together, we can. I'll let you know who's the waste. "

Huri Empire Tianjiao said angrily that the tip of the long sword had pointed to them.

"We don't have to work together to deal with you rubbish. Elder martial brother, go down and give me this man. " The dark emissary listened to this and said with disdain.

However, the emissary, who was called elder martial brother, did not step down. Instead, he said, "younger martial brother, go down. Just give this man to elder martial brother."

The dark emissary was a little reluctant. "Elder martial brother, how can you be qualified to let you do it? Let younger martial brother do it." "Younger martial brother's dagger is hungry and thirsty. I can't wait to drink this man's blood."

The emperor Tianjiao of the Hu RI empire was so angry when he heard this. It was a burst of Qi and blood.

These two bastards are so hateful that they don't treat him as a human being!

Those powerful officials and ministers of the huri Empire were also furious.

The two people's action is obviously a contempt for the entire Hu RI empire!

The monarch of Hu RI Empire had already clenched his fist, and his eyes were filled with coldness.

If he didn't want to leave someone to talk about, I'm afraid he would have ordered the army to encircle and suppress this arrogant guy.

"Younger martial brother, be careful and remember not to leave a living." The two messengers pushed away from each other, and finally the younger martial brother, who was darker in color, stayed in the battle field.

He also took out a two meter long broadsword, pointed at Tianjiao of the Hu RI Empire, and laughed wildly and said, "grandson, hurry up to die. Grandfather's broadsword is already hungry and thirsty."

"To die!" Tianjiao of the huri empire was even more angry. He was already furious. He couldn't suppress his anger any more. He held a long knife in his hand and killed the messenger crazily.

Bright knife awn raised the roaring wind, in the mid air crazy collision, surging out a fierce waves.

The two men's fighting started and ended in a big way. They both took a strong offensive and hegemonic route, making the whole fighting field full of sword Qi.

They fought for more than 100 rounds. Finally, Tianjiao of the huri empire was careless. The emissary seized the opportunity and cut off his head with a knife.

The head of Tianjiao of the huri Empire rose like a ball in the sky, then fell to the ground, and the red blood spurted up several meters high, which made everyone tremble.

Bloody, it's too bloody!

brutality, it's too brutality!

all the people in the Hu RI Empire were angry and powerless.

These messengers are so strong that they are invincible.

Now, only two people have been sent out, and three of them have been killed on their own side.

The situation is not optimistic!

"Waste is waste. Is there only such waste in the Tang Hu RI Empire? At least it's a special empire. What's the real pride of your empire? "

After killing Tianjiao of the huri Empire, the emissary held a long knife and laughed wildly, which made the atmosphere of the scene even more depressed.

## **Chapter 2046**

At the moment, Tianjiao, who has not played in the Hu RI Empire, has left only Wang Fan and another person.

The other young man, whose strength has reached the Ninth level of Wang Jing, is the Tianjiao disciple

of Yunxi sect.

Originally, this man was used to suppress the battle, but now, it seems that it is difficult to turn the war around just by him.

After all, the other side has four people with combat effectiveness, three people have never appeared.

No matter how powerful the Tianjiao of Yunxizong is, he alone will not be able to return to heaven.

As for Wang Fan, has been automatically ignored by all.

After all, Wang Fan only came up through the trials. In the eyes of the public, there is no way to compare with the other four Tianjiao.

Whoosh!

When everyone was depressed, the emissary who was called elder martial brother had already flashed to the battle field.

He said to the messenger of victory, "younger martial brother, you go down, and I'll take the next fight."

This time, the dark emissary didn't say much. Instead, he sneered at Wang Fan and Yunxi Zong Tianjiao, and then he simply flashed out of the battle field.

"Who will come up first to die, you two?" After the dark emissary left the battle field, the emissary pointed to Wang Fan and cheered arrogantly.

That facial expression, as if two people no matter be who go up, also just send to death general.

Wang Fan frowned, but did not move.

Tianjiao of Yunxi sect saw that Wang Fan didn't move. There was a touch of anger in his eyes. He said, "cowardly waste, I really don't know how you got this quota."

After that, he just flashed into the battle field.

Wang Fan, listening to this, was not happy.

This is NIMA's. It's really irritating.

These so-called arrogant people in the Hu RI Empire have no ability at all, but they are more arrogant and full of snout.

Previously, he wanted to play and was scolded by the other side as a disgrace. Now he didn't play and

was scolded as a coward.

If it is possible, Wang Fan really wants to teach these arrogants a lesson.

"I dare not even go up. What a waste!"

"Before they came out, they were scared by those messengers. They really lost our empire."

"This kind of waste should not be here."

At the same time, the powerful ministers of the huri Empire also couldn't help yelling at Wang Fan.

Looking at their appearance, it is obvious that they completely vent their anger on Wang Fan.

"Hum, that guy, you can see it's rubbish."

"I should have killed him that day if I knew he would be disgraced here."

"Elder martial brother chuyang is finally coming out. With the strength of elder martial brother chuyang, it should not be a problem to lose three people in a row. It's a pity that there are still four people on the other side who have combat power."

"Damn it, even if you change into a person, even if it's to consume the fighting power of the other party, elder martial brother chuyang will be very relaxed. It's all because of that trash. He didn't even dare to fight. "

Cold green clothes side, those two proud and mean women, also can't help but resentful scold.

But they scolded at the same time, but did not find, beside the cold green clothes, can not help but clench their fists, eyes in the emergence of a touch of anger.

At this time, the messenger looked at chuyang and said, "ha ha, the ninth floor of Wang Jing is good, good."

"Finally, I'm a decent opponent, but I hope you don't look inferior to the previous three wastes."

Chuyang listen to this words, eyes cold, cheered, "don't talk nonsense, hand it!"

"Since you are in a hurry to die, I will help you!" Messenger said, no longer lazy nonsense, flash toward chuyang killed in the past.

The strength of the emissary was the same as that of chuyang, but his breath was not as powerful as that of chuyang.

If it is normal, it is difficult for him to defeat chuyang, unless he has some trump card and unique skill.

Chuyang originally disdained the emissary, but with the battle, his face became more and more dignified.

He has realized that even if he defeats this person, he will fall into weakness, unable to fight a second person. This makes him to win three people's good wishes, directly is lost.

The two men fought fiercely, and they were in full swing.

In the air, the sword is whistling, the air of the sword is roaring, just like a raging wave.

Every energy chain is like a scythe of death. It is violent. If one is careless, it will be completely torn.

After nearly a hundred rounds of fighting, they were both impatient and showed their powerful king level skills.

In a burst of booming explosion, the whole ground was overturned, and the cracks were like cobwebs, spreading out madly.It's terrifying.

Under the terrible collision of martial arts, both of them were overturned. Chuyang was half kneeling on the ground, his mouth was bleeding, his breath was weak, and he was obviously hurt.

The messenger was even worse than him. He had fallen to the ground and was in a complete coma.

Chuyang, with a small advantage, narrowly won.

The powerful people of Zhonghu RI Empire watched this scene, but no one was happy.

Chuyang, who was regarded as a trump card by them, almost lost his fighting power when he only narrowly defeated one person.

Today's war seems to have become a foregone conclusion.

No one can be happy at the thought that Tianjiao of Tangtang Hu RI empire was defeated by the envoys of the surrounding empires.

The monarch of the huri empire was so pale that he couldn't even sit down.

If this story is spread, the Hu RI empire will become a joke. Where is his face and dignity?

At this time, three messengers had already flashed into the battle field. Two of them carried the comatose messengers away, and one stayed in it.

The cold light of bloodthirsty appeared in the man's eyes and yelled at chuyang, "do you want to give up the fight with me, roll down, or fight with me?"

Originally wanted to go down chuyang, listen to this words, anger instantly gushed out. He stood up and cried, "what are you..."

"noisy!" However, before his words were finished, the messenger drank impatiently, and his body was like a whirlwind.

It was like a storm like attack. At first, chuyang was barely able to resist it, but soon it was completely passive.

He was blasted back and forth, bleeding all over.

At this moment, the leader of Yunxi sect had already killed the elder Brown poison, and countless powerful people of huri empire could not help but stand up, and his face was full of anger.

However, in this case, they can't rush up at all, otherwise they will become a laughing stock.

"Waste a, no ability, also dare to rampant?" That emissary crazy bombards, grins grimly, some moment, a fist fiercely bombards in chuyang Dantian above.

With a bang, the blood gushed out madly. Chuyang's face became pale with the speed visible to the naked eye, and his eyes became gloomy.

This heavenly pride has been abandoned, and since then, it can only be reduced to waste.

At this moment, the whole audience was silent, quiet, without any sound.

"Do you kneel down and kowtow to admit defeat, or roll up to die?" At this time, the messenger's finger had already pointed to Wang Fan, the only one, and the rampant voice came out.

Wang Fan grinned coldly and strode toward the platform. "Why do you have to admit defeat when dealing with you

## **Chapter 2047**

"Don't you think shame is enough?"

"Get out of here, and don't make a fool of yourself again!"

"Even elder martial brother chuyang and others are not their opponents. Do you think you can turn the world around?"

As soon as Wang Fan's voice fell, the emissary's face became gloomy, and his anger surged wildly.

However, before he had time to speak, the defeated disciples of Tianjiao sect pointed to Wang Fan angrily and scolded him.

Wang Fan listened to the abuse and frowned. He suddenly looked at them. "I really don't understand whether you are from the huri empire or the Empire around him."

"On this occasion, I choose to fight. You not only don't cheer for me, but also humiliate me."

"If you have the ability, why don't you fight? Do you have the courage to fight on stage? "

Wang Fan's voice was like thunder, which made all the scolding disciples' chest blocked and their faces turned red.

They clenched their fists one by one, and their eyes were bloodshot. They wanted to rush up and bite Wang Fan to death immediately. But no one dares to say anything.

"Since you dare not fight, then shut up and don't talk nonsense, so as not to make people laugh."

Wang Fan looked at their tortoise like expression, once again disdained to shout, and then looked at the monarch of the huri Empire, "Your Majesty, do you think I'm humiliating?"

"If even you think that I'm only insulting myself, I'll give up the next fight immediately."

The monarch of the huri Empire, listening to Wang Fan's words, could not help choking.

Although he didn't think Wang Fan could turn the tide in this situation, he couldn't stop Wang Fan from fighting at all.

After all, if Wang fan is defeated, it can be said that his strength is poor. But if Wang Fan didn't dare to fight, the huri Empire, even his monarch, would be even more shameful.

"You go to war, my man of the huri empire. There's no reason to be afraid of fighting. If you let go of the war, I will not blame you for success or failure. "

The monarch of the huri Empire showed his due dignity and waved to Wang Fan.

Wang Fan nodded and stepped directly into the battle field.

If the monarch of the huri Empire also thinks that it is humiliating for him to go to war, then he will no longer go to war on behalf of the huri empire.

But now, the attitude of the monarch of the huri empire is quite satisfactory to him.

"Boy, you've come up at last. Grandpa, I'm really upset waiting for you. Now, you are the only one of the five most arrogant people in the Hu RI empire. I'd like to see how you can turn things around. "

The impatient emissary, who had been waiting for a long time, saw Wang Fan enter the battle field and raised a ferocious smile at the corner of his mouth.

He was holding a broadsword and pointed at Wang Fan with a fierce killing intention in his eyes.

Previously, Wang Fan even dared to say that he was just a piece of rubbish. He had already gone through a lot of Qi, and he wanted to break Wang Fan to pieces.

"There's a lot of rubbish. Let's do it now." But Wang Fan didn't mean to talk nonsense at all. At the same time, his body shape was already like lightning.

"To die!" When the messenger saw Wang Fan coming, his eyes were even more murderous. He suddenly stepped on the ground with his right foot and set off a strong wind to meet Wang Fan.

When he was about ten meters away from Wang Fan, the broadsword in his hand had already been raised high, and he set off a fierce killing force and chopped down at Wang Fan.

The strong wind of tearing came forth, and the fierce knives appeared in the air, just like the raging sea.

The strong spirit stirred up on Wang Fan, making Wang fan like a boat swaying in the wind and rain.

Looking at this scene, the audience could not help but gasp, and their eyes choked.

Those who ridiculed Wang Fan's main disciples could not help but roar in a low voice, "die, die, he can't take this attack!"

In the eyes of the cold green clothes, there was a worried look, even the delicate body could not help trembling.

She stared at Wang Fan without blinking, deeply afraid of any accident.

I haven't seen him for several years. Han Qingyi doesn't know Wang Fan's strength or how strong he is. But she saw the strength of the messenger with her own eyes, so she was very worried.

"It's just a waste trying to kill me. It's just too much for me!" Wang Fan raised a sneer at the corner of his mouth, and suddenly stepped on the ground with his toes. With a loud bang, he rushed to the messenger with a faster speed.

He clenched his right fist, and the Milky aura and golden energy curled around the tip of the fist, emitting a strange and dazzling light.

"Death A burst of drink, Wang Fan a heavy blow out, the fury of the gas at this moment, directly toward the broad knife set off the huge wave of bombing in the past.

The bright golden light is more intense at this moment, reddening the whole battle field. The dazzling light made people's eyes narrowed slightly. Boom boom!

The sound of crazy explosion is constantly spread out. Under the fierce fist strength, the huge wave raised by broadsword is like a fragile tissue, starting to collapse.

Just a few breaths, the huge wave raised by broadsword has completely collapsed and dissipated.

Looking at this scene, not to mention that the emissary's face changed greatly, even the faces of the people under the stage also became extremely shocked.

They didn't expect that Wang Fan, whom they don't think highly of, would be so strong and powerful. He was so terrible.

"No, back up!" The messenger also returned to God, without any hesitation, and immediately began to retreat.

Just, where does he have the speed of Wang Fan?

"Do you want to return it?" Wang Fan's abusive voice came out slowly, and the whole person rushed to the messenger like a ghost, and once again punched out.

Bang!

With a deep explosion, Wang Fan's fist hit the messenger's chest.

Click, click, click.

Then, in a series of bone fracture of the click, the messenger is directly inverted out.

People in the mid air, his body has burst out of countless blood fog, when he fell to the ground, there was no breath.

If you can see inside, you will find that the emissary's internal organs and the whole body's skeleton and meridians have been completely crushed into mud by the violent force.

At this moment, the three envoys who were still fighting outside, as well as many powerful officials of the huri Empire, Tianjiao, could not help but stand up.

Their eyes in the emergence of a strong color of disbelief, the audience, instant silence!

With a click, the monarch of the huri Empire, even more carelessly, broke the wine cup in his hand, and didn't even notice that his palm was punctured.

No one thought that Wang fan should be so strong, two fists, killed an emissary.

The eyes of all the people in the huri Empire were all bright. They seemed to see hope.

At this time, Wang Fan has looked at the other three messengers, "next, who will die?"

The familiar scene seems to have been repeated again, but the two sides exchanged places.

### **Chapter 2048**

"Boy, grandpa is coming to fight you!" A messenger who hasn't been out roared and flashed into the battle platform in an instant.

The nine layers of Wang Jing's breath on his body spread wildly, and his whole body burst out with the intention of killing.

Looking at the younger martial brother who was blasted by Wang Fan's two fists, he was really very angry.

It's a shame!

It's an unbearable shame!

The five of them, originally full of confidence, deliberately frustrated the prestige of the Hu Japanese Empire.

But now, one person was killed by Wang Fan directly, which made him unbearable!

The people of the huri Empire, especially the friars, felt the terror of this man, and their faces changed greatly.

The strength of this emissary has been infinitely close to Zunjing. It can be said that he is one step away from Zunjing, which is very powerful.

The monarch of Hu RI empire could not help but clench his fist and secretly clench a cold sweat for Wang Fan.

Although Wang Fan won back some face for Hu RI Empire, he just won one game.

In addition to this powerful emissary, there are two other emissaries with combat effectiveness, and the situation is still not optimistic.

At this time, the emissary who rushed into the battle field had once again opened his mouth to Wang Fan, "boy, if you dare to kill my younger martial brother, I will tear you up!"

"I will break the bones of your whole body, and then tear your flesh and blood into pieces, so that you can slowly die in pain."

His gnashing voice reverberated throughout the scene, making everyone feel the chill.

No one doubts that this emissary will do so.

"Well, your younger martial brother's life is life, but the life of Tianjiao in our Hu RI empire is not life? You can kill our people, but we can't kill you? How ridiculous

"I don't think you need to talk nonsense. Let's just come here. Some things don't come out by mouth, but by action."

Wang Fan didn't care about the threat of the emissary at all. At the same time, he grabbed the shadow knife in his hand.

The messenger heard Wang Fan's words, more angry, but did not continue to threaten, but roared, crazy rushed at Wang Fan.

Wang Fan looked at the messenger, his eyes were ancient, and his aura was surging wildly, which filled his whole body. At the same time, the shadow knife had already chopped it out.

Wang Fan didn't use any martial arts. He only attacked with his own strength. The purpose was to find out the real and false of this man.

The messenger looked at Wang Fan's chopping shadow knife. He didn't want to avoid it at all. Instead, he grabbed his right fist and blew it out directly.

The fury of Qi collided in mid air and made a deep explosion. The ripples were like angry dragons, and they were raging in all directions.

The emissary's fist kept on going forward. In the blink of an eye, he had already hit the shadow blade.

There was a local noise, the fist and knife collided, and it turned out that there was a huge sound of Jingge. Immediately, Wang Fan and the messenger began to retreat at the same time.

Wang Fan was a little surprised. What he was surprised at was not the strength of the messenger, but the physical strength of the messenger.

Meat fist, can resist his shadow knife, this kind of thing he is the first time to see.

"Good!"

"Elder martial brother, kill him! How dare he kill our younger martial brother! He must not stay! "

At this time, the two envoys who were still fighting outside could not help roaring.

Look at their cruel expression, as if they want to fight with Wang Fan.

Compared with the two Messengers' fierce excitement, the people of the huri Empire couldn't help feeling cold.

Wang Fan, armed with a weapon, even fought with the unarmed emissary in the face-to-face collision. This is not optimistic.

Most of the people in the huri empire could not help worrying. Only a small part of the clan Tianjiao began to gloat, hoping that Wang Fan would die immediately.

After the messenger stabilized his figure, without the slightest gasp, he directly slaughtered Wang Fan again.

He clenched his right fist, burst his sleeve in a crackling sound, and burst out again with the blue tendons inside.

This time, he hit three in a row.

One punch is fiercer than the other, one punch is fiercer than the other.

Wang Fan's pupil shrinks and uses the shadow knife quickly to resist. There are three sounds. He is pressed to retreat. Soon he has retreated to the edge of the border.

Looking at this scene, those powerful people in the Hu RI Empire, who were originally stained with hope, died down again.

According to this situation, I'm afraid Wang fan is hard to defeat this messenger.

After three blows, the messenger finally stopped and began to breathe for a short time.

His heart is quite surprised, it seems that how did not expect that Wang Fan could resist his three punches without injury. You know, he majored in body, even a very ordinary fist, can be comparable to the general King level martial arts.

His three fists were enough to kill the general ninth floor of Wang Jing.

When Wang fan saw the messenger gasping, he suddenly moved.

This guy's strength is beyond his expectation. Even if he wins in a simple physical battle, he will have to spend a lot of time, and even he may not be able to win.

So he doesn't plan to continue like this, but plans to use his martial arts skills directly.

Wang Fan, holding the shadow knife, starts to wave it in a strange posture. With his wave, the aura of the world around him seems to be drawn, and comes in a frenzied surge.

In the blink of an eye, the rich aura of heaven and earth has formed three huge vortices in mid air.

In that whirlpool, there is a faint surging light of the knife, which blooms out a breath like heavenly power.

"Seven kill Liuyun Dao, first kill, second kill, third kill!" Wang Fan a explosion, the hand shadow knife suddenly split out, even wave three times.

In an instant, the three whirlpools were already in a crazy rotation, bombarding the messenger.

In the process of bombardment, three waves of aura swords, which are like substance, have penetrated the whirlpool, set off the power of terror, and directly cut at the messenger.

The emissary felt the scene, and finally a dignified color appeared in his eyes.

"Break it! Broken! "Broken!" With a loud drink, his fists danced wildly in an instant, rolling up waves of air and bombarding them.

Boom boom!

Several blasts spread out, and the whole battle field began to bomb like a big bang.

The dust is flying and the smoke is full.

In this kind of fury, they have been completely covered up and can't see the situation clearly.

However, this situation only lasted for more than ten breaths. A sound suddenly flew out of the rolling smoke, and then fell to the ground like a dog.

The crowd resisted their inner horror and turned to look. But when they saw the man who fell to the ground clearly, in a flash, his face became dead again.

## **Chapter 2049**

The man who fell to the ground was the messenger.

Looking at this scene, almost everyone can't believe their eyes.

They seemed to have no way to believe that Wang Fan, who had been beaten by the emissary before, had defeated the emissary directly at the moment.

After a short silence, there was a burst of cheering.

"Good!"

"Good fight!"

"Kill him and pay him back in his own way!"

Most of the powerful people in the Hu RI empire could not help shouting excitedly.

Before they were really too depressed, and even some of them were pressed out of breath.

Now see Wang Fan unexpectedly defeated an emissary, they finally find the opportunity, completely vent that tone out.

Compared with the excitement of the powerful people in the huri Empire, the only two messengers were a little ugly.

They never thought that their elder martial brothers would be defeated.

You know, their elder martial brother is the strong among the strong. He once killed the ruthless people in Zunjing. But now, it is defeated, defeated so miserable.

On the battlefield, the smoke and dust slowly dissipated, revealing Wang Fan's thin figure.

At this time, Wang Fan's face was pale, his mouth was bloodstained, his clothes were torn, and he looked very embarrassed.

However, Wang fan is still standing in the field, which is much better than the messengers who don't know what to do.

Wang Fan looked at the messenger who fell on the ground, grinned, and suddenly rushed to him.

Others in the air, the shadow knife in the hand is already waving out, mercilessly toward its cut.

"What are you doing?"

"Stop it

Only the other two messengers were furious. They rushed to the battle field in a crazy roar.

It's just that it's too late.

Whoa!

A blood sword of several Zhang long shot out. The sharp blade raised by the shadow sword had already cut the emissary's neck and lifted his head up.

Miserable death!

Looking at this scene, the two messengers were almost splitting their eyes!

"You want to die!"

"I'm going to tear you up!"

Two people crazy roar, body breath crazy burst, regardless of everything toward Wang Fan rushed in the past.

They have almost lost their senses, and have long forgotten the one-on-one battle they agreed to fight. Now, they just want to kill Wang Fan.

"What are you doing?"

"Isn't it a good one-on-one fight?"

"Mean!"

"Shameless!"

The powerful people of the Huri Empire looked at this scene, and they were so angry that they could not help but scold and were filled with righteous indignation.

The monarch of Hu Ri Empire couldn't help but stand up, and there was an undisguised killing intention in his eyes.

Previously, for the sake of face and dignity, he had to endure the arrogance and provocation of these messengers.

But now, these messengers broke the rules themselves, and they went to deal with Wang Fan, which gave him an excuse to make trouble.

However, before he ordered the experts to kill them, another shocking scene happened.

Wang Fan grinned and suddenly turned his head. When his toes moved on the ground, he was like a strong wind and rushed towards the two men.

People in mid air, his right fist has been suddenly grasped, set off a frenzied incomparable power, toward one of them mercilessly.

"Violent fist!"

With a low roar, Wang Fan's iron fist collided with the man's hasty fist.

Click.

The whole arm of the messenger was broken in an instant.

Then, Wang Fan gave a grim smile, his hands had suddenly protruded, and directly grasped the man's head.

He twisted his arms hard.

Click bar ·

accompanied by a numbing sound of bone fracture, the messenger's head has been pulled down abruptly.

The chill rose in the battle field, and everyone was shocked.

Cruel! It's so cruel!

Some scholars, even unable to accept the cruel scene, turned their eyes directly and were scared into a coma.

Wang Fan kicked the corpse of the messenger, looked at the last one and said with a sneer, "kneel down and admit defeat, or die!"

His voice was cold and heartless, full of great dignity, which made the emissary feel numb.

Kneel down, he will be dignity, and even insult the reputation of the Empire around. If you don't kneel, you'll die.

He did not know whether he should live without dignity or die with dignity.

"No kneeling? Good, then you'll die! " Wang fan saw that the emissary did not move for a long time. With a cold smile, he was ready to move. But at this time, the messenger's face suddenly changed, "I

kneel, I kneel!"

He cried and fell to his knees with a plop.

He's scared. He's really scared.

In his eyes, Wang fan is a devil, a devil, even if it is not human at all.

After struggling hard, he finally chose to live without dignity.

"Ha ha, good!"

"Our empire is proud and powerful!"

"The envoys of the Empire around us are bullshit!"

"The people of the first class Empire dare to come to our huri Empire and shout. They are looking for death!"

At that moment, there were heartbreaking cheers on the scene. The cheers, like rolling thunder, resounded through the world.

Wang Fan, no doubt, became the hero of the huri empire. He turned the world around with one man's strength and preserved the dignity of the huri empire.

The monarch of the huri empire could not help laughing and was very happy.

Today's event is too much to worry about. He is secretly glad that he has made a selection contest, which has attracted such figures as Wang Fan. Otherwise, he will undoubtedly lose his empire and become a laughing stock.

"What's your name? From today on, I will make you king of the war of the huri empire. Would you like to?" After laughing wildly for a while, the monarch of huri Empire asked Wang Fan.

"I'm wang fan. I'd like to, but I'm a student of Wangdu holy college. I'll go back to study in a few days."

Wang Fan knew that he could not refuse. After he agreed, he directly stated his student identity, which tactfully indicated that he could not stay in the Hu RI empire for a long time.

"No matter, I will never disturb your practice." The monarch of the huri Empire did not show any dissatisfaction.

"today, you have made great contributions to the huri empire. In addition to making you king of war, our emperor will reward you with 500 million of the best spirit stones!"

"In addition, if you have any conditions, you can put forward them. If the emperor can do it, he will never refuse."

The monarch of Hu RI Empire has realized Wang Fan's strength and potential. Has begun to leave no effort to pull.

"Thank you, your majesty." Wang Fan bowed his body and said, "I really have an invitation."

"Say it

"I like the cold green clothes of Yunxi sect. Please help me."

Listening to this, the laughing face of the monarch of the huri Empire suddenly solidified, and the leader of yunxizong and elder Brown poison could not help but stand up.

Wang Fan looked at this scene, in the heart can't help clapping, is this condition a little too much?

#### **Chapter 2050**

Cold green dress also can't help but tightly clench fist, even in the eyes all loomed out tears.

Although she had thought that Wang Fan came here mostly for her, when she heard that Wang Fan put forward such conditions, she still had some uncontrollable excitement.

At the same time, the whole scene was silent.

No one thought that the young man who had just saved the face of the Hu RI Empire would put forward such conditions.

You know, hanqingyi is in the huri Empire, but there are countless pursuers. There are even rumors that the prince has taken a fancy to hanqingyi and will come to the door to propose marriage in the near future.

If this is true, then Wang Fan's proposal of this condition would be a bit of a dilemma for the monarch of the Hu RI empire. Even, it is impossible for the other party to agree.

After all, no matter how powerful Wang Fan was, he was only a younger generation. He only helped the Hu RI Empire save face.

But prince, that's the son of the monarch of the huri empire. It's no comparison.

"If it's something else, I can promise you, but it's not. Don't mention it any more. "

Sure enough, after a moment of silence, the monarch of the huri Empire refused.

"Yes Wang Fan heard this, a heart sink to the bottom, he did not continue to speak, but back down.

In the dark, he could not help clenching his fist, and even made a decision.

If it's really not possible, then kill the huri Empire directly.

In a word, he must take hanqingyi away, unless hanqingyi doesn't want to.

After the banquet, the crowd had dispersed and Wang Fan returned to his original residence.

But not long after he stayed in his residence, someone took him out of the palace to a separate house.

"See king of war." In the other courtyard, there were dozens of guards. After seeing Wang Fan, these guards made a respectful voice.

Wang Fan looked at the scene, slightly surprised, and then nodded.

He didn't stay here long before he left the room.

He planned to go to huangtianxilou to see hanqingyi. Although the monarch of the huri Empire didn't agree to his terms, he didn't have many problems when he went to see hanqingyi, did he?

"Lord Zhan Wang, where are you going?" However, Wang Fan just walked out of the house, and before he left the courtyard, one of the guards came up.

Wang Fan frowned slightly, "I'm going out for a walk."

"Lord Zhan, let your subordinates take you. They are very familiar with the imperial city and can save you a lot of trouble." Said the guard.

Wang Fan slightly a Leng, can't help but look at the guard carefully.

At this time, he realized that he was controlled in disguise.

His heart sneer, but the surface is silent, "well, then you go out with me."

"Yes." The guard nodded and followed respectfully.

Soon, they had left the courtyard.

After they left, more than ten guards came out of the courtyard, far behind them.

Wang Fan's heart sneers, but on the surface he doesn't know.

It wasn't long before he came to the gate of huangtianxi building.

Seeing that Wang Fan had come here, the guard couldn't help being surprised and asked, "Lord Zhan Wang, what are you doing here?"

Wang Fan pretended to be a lost expression, "I want to meet the fairy in cold green clothes and make friends with him."

"Ah, I admire the fairy in cold and green very much. It's a pity that your majesty didn't agree with us."

Obviously, the guard had heard about it, and his face didn't show any strangeness. He hesitated a little, and then whispered to Wang Fan,

"cough, the fairy in cold and green is a very famous fairy in our whole huri empire. She is so beautiful that many young talents admire her."

"But there is a rumor that a highly valued Prince has taken a fancy to the fairy in cold green and will come to the door to propose marriage one day, so I advise you not to have a wrong idea about her, or you will lose more than you gain."

The voice of the guard is very low, only Wang fan can hear it.

Wang Fan listens to this words, the heart can't help but clatter for a while, but the surface does not show a bit, he asks, "your this news is true?"

"Nine is ten." Said the guard.

"Ah, it seems that I have no chance with Han Qingyi fairy. But even if we can't achieve good things, it doesn't matter if we get to know each other. Let's go. Let's go in. "

Wang Fan pretended to be lost, but in his heart, he raised a strong anger.

How can a prince take a fancy to hanqingyi and ask for a marriage one day?

Wang Fan only felt that a stream of anger was gushing out of control, almost breaking out.

He was sure that even if hanqingyi really lived a good life in Yunxi, he would never agree to this kind of thing.

Wang Fan and Han Qingyi have been together for so many years, and he knows the character of Han Qingyi very well. "No, I must try my best to take him away." Wang fan made a decision in his heart.

"Who are you? Don't you know no admittance here?" Wang Fan just walked to the gate of huangtianxi

building, and a middle-aged man who looked like a guard stopped him.

He looked up and down at Wang Fan and the guard, and his eyes flashed with contempt.

Huangtianxi building is not for young people, but for high-ranking officials. Without a certain identity, you can't enter it at all. Therefore, there is some pride in these gatekeepers.

Although he was wearing formal clothes with Wang Fan's bodyguard, he saw too many such bodyguards and didn't pay attention to them at all.

When Wang fan saw that the young man stopped him, he didn't speak. He didn't even look at him.

This kind of small matter, of course, should be handed over to the following guard.

The guard didn't disappoint Wang Fan either. Seeing that he was stopped, without saying a word, he just came forward and slapped him in the face.

After he slapped the young man in the face, he kicked him to the ground and roared, "even Lord Zhan Wang doesn't know you. You are blind. Get out of my sight!"

The young man's eyes were full of stars, and his mouth was full of blood. Finally, he fell to the ground and couldn't get up.

He hummed bitterly, and it was hard for him to say a complete word.

At this time, several guards who were guarding outside came running.

They obviously received the above news, so they did not dare to stop, but respectfully said, "welcome Lord Zhanwang, please come inside."

Wang Fan smiles and walks into the huangtianxi building.

In huangtianxi building, the construction is very unique, the air is fresh, the environment is elegant, and many green flowers and plants are planted around, which is very pleasant.

Here is like a paradise, giving people a sense of peace.

Wang Fan casually asked a servant, then he already knew where Han Qingyi lived, and then he took the guard to walk quickly.

Huangtianxilou, a unique garden, has a man and a woman.

The men are handsome and elegant, while the women are just like fairies.

They stand several meters apart. The man is smiling and talking.

It's a pity that the woman didn't care at all. She didn't know where she was going.
