

## **Mighty Sk 2191**

### **Chapter 2191**

Sunspot listen to Wang Fan's challenge, simply angry even lungs are about to explode.

Just a mole ant in the ninth floor of Wang Jing insults him. He even dares to challenge him in public. It's a shame!

"Why don't you dare, today I sunspot if you don't this arrogant mole ant frustrated, I don't call sunspot!" Sunspot crazy stare at Wang Fan, sharp cry.

"In that case, don't talk nonsense. Take off your skin bag."

Wang Fan said, and looked at the other guards, "Oh, by the way, later if this waste is not my opponent, you won't help me, will you?"

The guards listened to Wang Fan's words, and they were stunned by the thunder.

Is it a joke to say that if the strong man in the second level of Zunjing is not his opponent?

It seems that this guy is used to arrogance. That's why he is so arrogant. He doesn't even pay attention to those who respect the environment.

However, without waiting for the guards to answer, the sunspot had taken off his armor.

He yelled at Wang Fan, "it's a joke. I'll kill you. Do you need help? You can rest assured that they will not help

With that, the sunspot looked at the guards and said, "those of you who dare to help me have trouble with me!"

"That's the best. I'll be relieved." Wang Fan listened and nodded with a smile.

"Waste, dare to insult me, you give me to die!" At this time, the already angry sunspot has suddenly shot.

With a bang, he stamped his feet on the ground. As the ground cracked, the whole person rushed out with the rebound force.

He is like a wild rhinoceros, full of murderous, crazy toward Wang Fan killed in the past.

"Today, I will let you know, what is a real respect for the strong! In front of those who respect the realm and are strong, all the king's realms are mole ants! "

The sunspot roared crazily, and the right fist was already dancing crazily.

With the fierce shooting of each chain, his right fist set off a powerful power like Taishan, and bombarded Wang Fan madly.

Hiss!

Under his fist, there was a hissing sound in the air, as if it was about to be torn.

"The real one who respects the environment?" Wang Fan sneers! He suddenly stepped on the ground with his right leg, but instead of retreating, he rushed with the explosion!

At the same time, his right fist has been clenched, silver white aura surging out at the same time, the bright golden energy, is also a crazy burst out.

In the face of the sunspot from the crazy attack and the sunspot from the second level of Zunjing, Wang Fan did not choose to retreat, nor would he choose to retreat.

He wants to defeat this guy with a posture of destroying the withered and decaying, so as to be a deterrent!

Only in this way can it play an absolute deterrent role.

If the guards are angry and Wang fan doesn't kill them, they will be afraid and dare not deal with Long'ao or even any country easily.

Those guards looked at Wang Fan, who did not retreat but entered. They were completely stunned, and their minds were blank.

In the face of sunspot's ready attack, Wang Fan actually chose to shake hard. Is he really brainless?

The friar who wanted to enter the border area with Wang Fan was completely stupid! However, in their eyes, only disdain and irony emerged.

Obviously, they are ridiculing Wang Fan's arrogance and his overconfidence!

Only the captain of the guard on the third floor of Zunjing and the woman whose brother died could not help frowning.

The captain of the guard thought that Wang Fan couldn't be as simple as the surface. The woman couldn't bear it in her eyes.

In everyone's nervous and expectant eyes, in the blink of an eye, Wang Fan and sunspot's fists collided fiercely in mid air!

Bang!

A sound like a bomb explosion, a burst of frenzied energy, crazy from the tip of the two fists surge out, into a circle of ripples, rampant around.

Where the violent energy goes, everything is shattered!

Fortunately, the captain of the guard on the third floor of Zunjing made a timely remedy and arranged a powerful border, which prevented the public from being affected.

At the moment when the two fists collided, sunspot only felt a violent force and a terrible high temperature, his face suddenly changed, even when he couldn't help flying upside down.

Under the terrible heat, his fists could not help shaking, and there was a look of horror in his eyes.

Such a terrible high temperature, this is, demon fire?

Sunspot was shocked. He never thought that Wang Fan still had this kind of thing.

Wang Fan was also bombarded with some Qi and blood, and his whole body flew more than ten feet, so he could keep his body steady.

However, in the moment of stabilizing his figure, he gritted his teeth and forced to hold back the rolling of Qi and blood. His right foot suddenly stepped on the ground, and the whole person killed the sunspot again. His action is extremely decisive, sharp, no bit of procrastination.

People can't help looking at this scene. Wang Fan of the ninth floor of Wang Jing and sunspot of the second floor of Zunjing collided head-on, but they didn't get hurt. On the contrary, they caught the first chance. How could this be possible?

This shocking scene overturned their cognition and exceeded their imagination.

"To die!" Sunspot looked at Wang Fan, who killed him again without breathing. He was also more furious!

He can't bear it. He can't even kill the ninth floor of Wang Jing with one blow!

Sunspot's right hand shakes a few times, dissolving the violence and high temperature. At the same time, his aura gushes again, and he will fight back.

"The great wilderness will be destroyed!" But at this time, Wang Fan had approached him like a ghost within 100 meters, and the shadow knife was wielded, manifesting wildness to destroy the sky!

The great wildness of the sky and the surrounding heaven and earth are converging wildly. It is like the pressure of heavenly power. It sets off a terrible energy storm and blows toward the sunspot.

Sunspot eyes can't crack, can't help crazy retreat, and in the body surface layout out of a defense!

He didn't expect that Wang Fan was in control of the respected martial arts, and in such a short time, he showed it.

Just, even if the sunspot again desperately, where also have time?

Boom boom!

Several blasts sounded madly. Under the terrible energy storm, the defense he laid out was like broken copper and iron, which broke one after another and was vulnerable.

At the same time, he couldn't help spraying blood, flew out, and finally fell to the ground like a dead dog.

Looking at this scene, the scene bursts of silence!

Everyone, it's the sound of air-conditioning!

Two strikes, just two strikes. The sunspot of Zunjing Level 2 was defeated by Wang Fan who had only nine levels of Wang Jing?

It's so unreal, it's so funny!

However, the shock of the crowd has not yet fallen, and the crowd is still in the dead silence, and they are not fully awake. All of a sudden,

a whoosh voice comes, and Wang fan is the sunspot who has fallen down like a dog again!

People look at this scene, face changed again!

## **Chapter 2192**

What is Wang Fan going to do? Is he going to kill everything?

Isn't that cruel?

Looking at Wang Fan who rushed to sunspot crazily, everyone's eyelids couldn't help choking violently.

The friars who wanted to enter the border area turned pale and began to shake uncontrollably.

The guards, after a brief shock, became extremely angry.

Wang Fan's move is not only humiliating their vice team sunspot, but also slapping them in the face.

The captain of the guard on the third floor of Zunjing changed his face in an instant.

Just as he was about to open his mouth, Wang Fan had already rushed to sunspot's body.

Bang!

Click!

Only listening to a few low sounds, Wang Fan's right foot stepped on sunspot's face.

That foot down, sunspot's left half of the face, are trampled on the flesh and blood blurred up, the face bone cracked most.

Wang Fan stepped on the sunspot with one foot, one hand already pointed to his nose, "now you tell me, who is the waste?"

"Don't you like to call other people rubbish? Don't you call me rubbish? Now I want to ask, what are you when you are trampled on the ground like a dog in your eyes? "

Sunspot by Wang Fan stepped on the face, anger has expanded to an unimaginable realm.

His eyes were ferocious, his fists clenched, and he was about to go crazy!

However, what made him pucker was that he couldn't say a word because his face was broken.

Sunspot struggling hard, want to struggle out of the shackles of Wang Fan, want to struggle to get up, but can't do.

This is the first humiliation in his life!

This humiliation, enough to make him unforgettable, unforgettable!

"Call me rubbish? It's ridiculous that you are not as good as rubbish now! "

"Didn't you say that in your eyes, monks in Wangjing are mole ants? Don't you want me to see what a real strong man is? "

"Why, that's it?"

Wang Fan word like a knife, hard bombardment in the heart of the sunspot, so that he can no longer help, but also a mouthful of blood spray out!

At this time, he really hated Wang Fan!

If there is a chance, he will be desperate to tear Wang Fan into pieces!

"As the guard here, your duty is just to open the teleportation array. Who gives you the right to bully and insult the friars who go to the border?"

"Arrogant, domineering, domineering, abolishing other people's accomplishments, right? Today, I'll let you feel the feeling that your cultivation has been abandoned! "

Wang Fan said coldly, his right foot suddenly raised, and he wanted to step down toward sunspot's Dantian.

At this moment, the guard captain of the third floor of Zunjing suddenly reacted, "stop!"

Bang!

Unfortunately, his voice in exchange for a heavy sound.

See, Wang Fan's right foot has been mercilessly fell on the red field of sunspot, between the red blood spluttering, sunspot whole person is like a vented ball, powerless fell down.

His right half face turned pale and his eyes were gray!

At this moment, whether it was the group of guards or the friars who went to the border area, the eyes that looked at Wang Fan completely changed.

While they were shocked, they became afraid.

Wang Fan even said that those who were strong in the second level of Zunjing would abolish it if they abandoned it. This is because they are not afraid.

Wang fan can ignore those people's shocked expression, turned to look at the guard captain, "sorry, I'm a little too excited."

When he was talking, his eyes were fixed on the captain of the guard.

He wants to see each other's faces.

If the other side's expression reveals even a little bit of killing intention, Wang Fan will not hesitate to solve the problem.

However, according to his guess, the captain of the guard should not show his intention to kill, let alone

revenge for sunspot.

Because if the captain of the guard wanted to stop him, he would have been able to stop him when he executed the great famine and destroying the sky.

Since he did not stop, it means that he acquiesced in what he did to sunspot. It's very likely that the captain of the guard wants to get rid of the sunspot with his own hand.

Of course, all this is just Wang Fan's own guess.

"You're too hard, aren't you? In front of us, the sunspot who was the vice team was abandoned. Are you going too far and not paying attention to us? "

The captain of the guard didn't show his intention to kill, but said coldly with displeasure on his face.

As soon as Wang Fan looked at the other person's expression, he knew he was right.

Most of the time, the captain of the guard was upset with the sunspot and wanted to find a chance to solve the problem.

Wang Fan couldn't help but feel relieved. On the surface, he was ashamed and said, "I'm sorry, I'm reckless. I was a little too excited just now, so I didn't control it." Wang Fan said, throwing out a space ring, which put five hundred million pieces of the best spirit stone, "small gift does not become respect, when I make amends."

He can see from the guard captain's expression that the other side is a person who doesn't want to be fussy.

In this case, there is no need for Wang Fan to continue to fight and kill.

It saved him a lot.

"Hum!" The captain of the guard snorted coldly, "kill my people, just a few good words, a few pieces of spirit stone, you can forget it, you think too simple?"

He roared angrily on the surface, but he secretly voiced to Wang Fan, "the four guards in the left rear are sunspots. If you don't get rid of them, I can't let you go."

"Now it's time to start the teleportation array. You've solved the four people first, and then you'll go into the teleportation array and leave immediately. When the time comes, the top will track down and I'll tell you."

"In addition, the sunspot was a member of the yihuangmen clan in the border region, and his father was an elder of the five levels of Zunjing. He will certainly know about your killing of sunspots, so you should

be careful when you go to the border area. "

The captain of the guard sent a lot of information at one go, not only telling the people who were sunspots, but also telling the backstage of sunspots.

Wang Fan listened to the news and nodded slowly.

"What do you want? If you want to kill me, then don't blame me for being rude. "

He couldn't help sneering and killed the four guards in the left rear.

Wang Fan's goal is very clear, there is no bit of procrastination.

When the four guards saw Wang Fan coming, their faces changed in an instant!

"To die!" They can't help roaring wildly, and their aura is surging wildly. They are desperate to kill Wang Fan.

The captain of the guard frowned as he watched the scene.

How can he not understand Wang Fan's intention after so many years of cultivation?

Wang Fan's action is to drag him into the water and tell others that he is suspected of informing.

Otherwise, there are so many guards here, why don't Wang Fan kill other guards and just choose the four men under sunspot?

Wang Fan was obviously warning him not to do anything wrong, let alone try to fight against the 18th empire!

While the captain of the guard shocked Wang Fan secretly, he couldn't help nodding.

Wang Fan was so scheming that he was relieved.

Because only in this way can Wang Fan live longer.

Otherwise, once Wang Fan easily falls into the hands of the forces behind the sunspot, he will also suffer.

### **Chapter 2193**

Wang Fan will speed to the extreme, the whole person set off a fierce wind, just like a raging beast.

Just in a moment, he ran to the four guards on the first floor of Zunjing, and the shadow knife in his hand chopped out crazily.

"Seven kill Liuyun sword!" The deep roar came from Wang Fan's throat. At the first time, he used the seven kill Liuyun sword, and five kill together.

Hiss!

At the moment when the seven kill Liuyun sword was wielded, the fierce waves of the sword were torn open, and set off the overwhelming momentum. Wave after wave, they fiercely cleaved towards the four people.

The fierce killing power and the violent power made the faces of the other guards change in an instant.

As for those friars who wanted to enter the border area, they were even more stunned.

Wang Fan shocked them again, shocked them!

"There are only nine levels of Wang's situation, and there are only nine levels of Wang's martial arts. They also want to fight with us. They are just looking for death!"

The four guards, facing Wang Fan's violent attack like waves, changed their faces in an instant!

They want to crack, respect the realm of a layer of the atmosphere of crazy dispersion, the hands of the long gun waving, without hesitation to show a strong martial arts.

With the shaking of the long guns in their hands, the red spears pierced the air, rolled up the power of fury, and bombarded the waves like mountains and rivers.

Boom boom!

After several blasts, the fierce wave of swords was completely defeated.

At the same time, the spears bombarded by the four were also scattered.

Under the aftershock of that power, the four flew out backwards.

On the other hand, Wang Fan also couldn't help gushing out a mouthful of blood, and immediately flew backward.

He retreated dozens of feet to stabilize himself.

Looking at this scene, no matter the rest of the guards or the friars who wanted to enter the border area, they could not help but look stunned.

Obviously, they didn't expect that Wang Fan, who was able to wipe out the two sunspots in Zunjing,

would have no choice but to have four Zunjing first sunspots.

Is it hard to say that Wang Fan was injured or consumed too much in the fight with sunspot, which made him not the opponent of the four Zunjing guards?

They couldn't help thinking so.

That guard captain also can't help staring at Wang Fan, want to see the clue from Wang Fan's expression.

He also wants to know whether Wang fan is deliberately hiding himself or whether he has really consumed too much.

Unfortunately, he didn't see anything from Wang Fan's face.

"Ah, son of a bitch, I'm going to kill you, kill you!" At this time, a scream came suddenly, and the people couldn't help looking around.

It didn't matter. They found that the woman on the sixth floor of Wangjing had rushed to the sunspot regardless of everything and kicked her hard.

"You dare to abolish my brother, you dare to abolish my brother, I will kill you, I will kill you!" The woman screams and kicks bitterly, which is manic.

Sunspot has already been abandoned, and seriously injured, where can live by the woman so fierce kick ah. Before long, the whole body was full of blood, and it was even more miserable.

"Bitch, stop it for us!" The four guards on the first floor of Zunjing were completely bombed when they saw this scene.

Originally also intended to continue to kill to Wang Fan of them, are crazy toward that woman killed in the past.

Sunspots are their masters. Even if they are abandoned, they can't tolerate sunspots being insulted.

What's more, the guy insulting sunspot is just a mole ant on the sixth floor of the kingdom.

"Your opponent is me." Wang fan saw this, face suddenly changed, quickly flashed to the four people, stopped them.

At the same time, he cheered to the woman, "if you don't want to die, hurry to the teleport array and leave here."

The woman hears Wang Fan's words, slightly a Leng, suddenly return to God.

She bowed to Wang Fan deeply, even ran to the transmission array crazily.

The four guardians of Zunjing wanted to block their eyes. Unfortunately, they were stopped by Wang Fan. There was no way to stop the woman.

They suddenly more crazy, "bastard, since you want to die, then we will help you!"

The four roared wildly and killed Wang Fan again.

Wang Fan at this time, has become their biggest enemy, they want to kill Wang Fan to vent their hatred.

What's more, sunspot became like that. If Wang fan is immortal, they can't explain it.

"Hum, you can't kill me Wang Fan sneered and met the four without hesitation.

After a short fight, he seized the opportunity and suddenly kicked two of them. They were seriously injured and flew out. However, at this time, he may be excessive consumption, unable to avoid another person's attack.

The man's fist fell on Wang Fan again. With a thump, a strong attack came. Wang Fan immediately burst out a mouthful of blood and began to fall back.

However, the direction that he falls to fly is transmission array.

Soon, Wang Fan had already run to the transmission array. At this time, the woman just started the transmission array.

A burst of bright light flashed, and both of them disappeared here quickly.

At this moment, everyone is staring at the scene, a face of silence.

It never occurred to anyone that Wang Fan had gone like this and was sent away like this.

The two guards, who still had fighting power, were furious.

Their fists are creaking, and their faces are blue. It's a pity that they have nothing to do.

The guard captain's face is also very gloomy, he now knows that Wang fan is deliberately weak, deliberately left in this way.

Wang Fan seriously injured two people, left two people, obviously is to drag him into the water, let him solve.

"It's such a clever plan. How can you be a man in this barbarian land with such fighting power and ingenuity?"

The captain of the guard could not help muttering to himself.

At this time, one of the two Zunjing guards could not help but turn his head, and his eyes were scarlet, kicking him hard,

"Captain, you are such a good means! I will report this matter to the top truthfully! "

His voice of gnashing teeth was cold and palpitating.

When the captain of the guard listened to this, he could not help frowning, and his eyes suddenly showed his intention to kill.

Originally, he has not yet decided whether to be led by Wang Fan's nose, whether to move the two people. But now, he has made a decision.

"Oh, really, how do you want to report to the top?" The captain of the guard turned to look at the guard and said with a smile. Suddenly, he rushed over like lightning.

...

Wang fan doesn't know what happened to the guard captain. At this time, he has appeared on a huge Gobi desert.

The Gobi desert is boundless. At a glance, you can't see the edge or half figure.

The sky is gray, there is no sun, no moon, Wang Fan did not know, now whether it is day or night.

#### **Chapter 2194**

"Brother, where is this place? Why is it so desolate?" The woman who was sent here with Wang Fan, namely Luo Ru, came over with a confused face.

"It's my first time here, too. I don't know where it is. Let's go ahead and have a look." Wang Fan also shook his head and said helplessly.

Two people said, is toward the front ran up.

The Gobi desert is really too big and desolate, giving people a feeling of extreme depression and loneliness. If a person with a bad disposition stays in such a place for a long time, he may be able to go crazy.

They ran for three or four hours before they finally realized the edge.

Thirty or forty miles to the north of Wang Fan, there is an ancient road, on which many groups of monks are running fast.

"Let's go over there." Wang fan saw those people, in the heart a joy, without the slightest hesitation, immediately took Luo Ru ran in the past.

As a newcomer, Wang Fan has to figure out the layout of this area and where he is.

Only by making clear these will it be convenient for him to act in the future.

Before long, Wang Fan had already appeared not far from the ancient road. He slowed down his running speed and took luoru to the ancient road.

"Why? Two newcomers who have just entered the frontier? " Wang Fan and his wife had just stepped onto the ancient road. Before they had time to ask someone, suddenly, a voice of surprise came out.

Wang Fan was surprised. How did the other party know that they had just entered the frontier? Could it be seen?

He turned his head warily and immediately saw that the one who opened his mouth was a middle-aged monk.

The middle-aged monk's breath is powerful, which gives people a very heavy sense of oppression. He is a monk with two levels of respect.

Wang Fan didn't pay much attention to the second floor of Zunjing, but he wondered how the other party knew they were new.

At the same time, accompanied by the middle-aged monk's voice, Shua Shua, the eyes of those monks around, are also staring at the past in an instant.

They look at the two people's eyes, are the emergence of a fiery.

Wang Fan felt everyone's fiery eyes, and his heart could not help sinking.

He was too familiar with this kind of eyes. It was obvious that the wolf who had been hungry for several days saw the weak sheep.

As for Luo Ru, under those fiery eyes, her face was pale and she could not help retreating to Wang Fan.

It's the first time for her to meet so many powerful people. How can she not be afraid of being watched by others?

"Who told you we were new here? My sister and I were just chased and lost in this area. "

Wang Fan frowned and immediately gave up the idea of asking. Instead, he stared at the middle-aged man and said in a deep voice.

He felt there was something strange about it, and he couldn't admit that he was new.

"Ha ha." When the middle-aged monk heard Wang Fan's words, he immediately couldn't help laughing,

"new monk, don't hide it. Even if you hide it again, you can't change the fact of your new arrival. Because your breath has betrayed you. "

"The breath of the body?" Wang Fan listens to this words, the facial expression immediately is cannot help a change.

His mental power spread out carefully, trying to find out the difference between his breath and those people's, but in the end, nothing was found.

"Ha ha, I didn't expect that Lutong was lucky enough to meet two fat sheep here." There was another laugh. Suddenly, a young man from the second floor of Zunjing jumped out.

Lu Tong's eyes were shining in front of Wang Fan and pointed a little. Wang Fan said, "new comer, give me the space ring on your hand. Don't force me to do it."

Then he took a look at the rest of the monks and said, "everybody, this man's space ring belongs to Lutong."

"As for the space ring of the woman beside him, and the woman, I don't want it!"

Lu Tong's words obviously regarded Wang Fan and Luo Ru as prey.

Luo Ru listens to this words, the facial expression immediately more pale.

These people are too arrogant, and the territory here is too chaotic, right? How do you feel like it's more chaotic than the 18 empires?

She was a woman who could not help crying at the thought of the terrible fate of falling into the hands of these people.

"Well, that woman is mine. As for the space ring on his body, I don't want it." Another monk on the second floor of Zunjing jumped out and said quickly.

Looking at his expression, it seems that he is afraid of being late and being robbed by others.

"The space ring on this woman is mine." Another person quickly jumps out, also stopped in front of Wang Fan two people.

Just a few seconds later, Wang Fan, Luo Ru, and the space ring on Luo Ru's body were divided as goods by these three people.

The rest of the friars looked at the scene, except for a few people who could not help shaking their heads. The rest of them showed their regret. Obviously, they are annoyed that they are slow to respond and they have been preempted by others.

"Brother, what should we do?" Luo Ru is more scared, can't help but look up to Wang Fan, the complexion is pale of ask a way.

Although she has seven levels of cultivation in the Kingdom, she has always been practicing under the protection of her brother and has never experienced much. She had never met anything like this before.

After all, in a place like the 18th Empire, who dares to offend, who dares to provoke?

Wang Fan listened to Luo Ru's words and couldn't help sighing.

She's still too young. It's like a piece of white paper.

But Wang Fan didn't blame Luo Ru. He gave Luo Ru a comforting look, and then looked up at Lu Tong.

"You want my space ring? You want my sister's space ring? You want my sister? "

He pointed to the three people one by one, with no fear in his voice and expression. "You are really arrogant. It's just arrogant lawlessness."

"Why, don't you think you can bully my brother and sister when you are more powerful than our brother and sister?"

Wang Fan's cold voice spread out, and the whole audience was blown up in an instant.

All the people at the scene, including Lu Tong, who was pointed by Wang Fan, were stunned.

Just a new comer to the border area, just a nine level Wang Jing, even dare to talk to those who respect the border area. Is this a death?

They did not expect that Wang Fan had no fear and dared to say so.

Lu Tong's first reaction was not angry, but funny.

They all burst out laughing.

"You are right. I am arrogant and lawless. What can you do to me?"

"Ha ha, we bully your brother and sister just by virtue of our high accomplishments. What can your brother and sister do?"

"Quickly and obediently send up the space ring and your sister, otherwise, this will become your bone burial place!"

With the sound, the three people's face is also gradually cold, eyes in the emergence of a chill.

### **Chapter 2195**

"We really can't do anything about it, but it's not so easy for us to come up with our brother and sister's ideas. If you have the guts, you can keep up."

Wang Fan sneered at the three people, then without hesitation, with Luo Ru turned and left.

Although he can clean up the three guys here, he doesn't want to expose his strength.

What's more, so many friars here are thinking of them. If he cleans up these three people and the rest of them do it again, it will be troublesome.

So Wang Fan plans to lead the three people away, then clean them up, and ask about the situation in a moment.

"Where is it so easy to go?"

"Hum, it's just a king's territory. I dare to challenge you. I want to see what you can do."

"You big mouth, you will cry later."

Three people looked at Wang Fan who turned around and left, his face changed first, and then sneered.

They didn't have half of fear, and they followed without hesitation.

It's just nine layers of Wang Jing. They haven't paid attention to it yet. They want to see what tricks Wang fan can play.

Of course, the most important thing is that they don't want to do it here. After all, there are other monks around.

Seeing that Wang Fan had chosen to leave here, the friars around were all stunned, and then sighed.

In their opinion, Wang Fan's courage is good, courage is also very enough, but still can not change the

outcome.

Wang Fan was relieved to see that the three men followed, and they were not in a hurry.

He got faster and faster, and finally ran in the direction he came.

He planned to leave the spiritual investigation area of the monks, and then start to inquire about the situation by the way, so that he could be safe.

The three were equally fearless and followed with a sneer.

More than an hour later, Wang Fan had left the spiritual power of the monks, and he stopped.

Three people see Wang Fan stop, is not anxious not slow in Wang Fan kilometers away station.

Lu Tong, who was in the middle, sneered, "why don't you go? It doesn't matter. You can go further and live more for a while."

"Ha ha..." listening to Lu Tong's words, the other two couldn't help laughing, but their smile was ferocious.

"Go? Do you think I want to go? If it wasn't for the fear of exposing your strength and other people's interference when dealing with you, I would have dealt with you long ago. How can I wait until now? "

"It's just three people who respect the second floor of the territory. I haven't paid attention to it yet. I can deal with you easily."

Wang Fan looked at Lu Tong and said with disdain.

Lu Tong three people listen to Wang Fan's words, the facial expression can't help a change, immediately can't help anger.

Is this guy too arrogant?

When did he dare to be so arrogant?

"Well, I've seen a lot of arrogant people, but it's the first time I've seen such arrogant people like you."

"I want to see if you can be arrogant when I beat you to the ground later."

Lu Tong was very angry and laughed, but before he finished his words, Wang Fan was already impatient.

"That's a lot of crap." Just listen to Wang Fan impatiently frown, body slightly a flash, is already ghost like toward Lutong rushed in the past.

Wang Fan's speed is incredible. Kilometers away, just less than half a breath, is to cross.

When Lu Tong noticed that something was wrong, Wang Fan's mouth had raised a sneer, and his right hand was shaking. The shadow knife set off a violent killing force and bombarded him.

The bright blade is surging, the blazing light is flashing, and the shadow blade is like a rainbow, attacking Lu Tong at an incredible speed.

At this moment, Lutong was shocked.

How could mole ants of the ninth floor of Wangjing break out at such a terrible speed? Is this guy really the ninth floor of Wangjing?

He was shocked to think, but the action was dissatisfied, the surging aura filled the body surface, the whole person had started to retreat in an instant.

Whoa!

It was only when he suddenly stepped back two steps that the tip of the shadow knife had crossed his chest and made a long cut.

The red blood flowed along the wound. At the same time, it made the other two flash to the two sides of Zun Jing, and their eyelids also jumped fiercely.

"Aren't you very capable? Since you are so capable, why do you want to withdraw?" Wang Fan's cold laughter came out again. Without giving Lu Tong a chance to breathe, he was already approaching the past again.

"Despicable thing, I will kill you!" Lu Tong is furious. Regardless of his injury, his breath is surging wildly. He is facing Wang Fan with all his life.

At the same time, he also cheered to the other two, "what are you still doing? Don't you do it together? This guy is not simple. He's not the ninth floor of Wang Jing. He's hiding his strength! "However, the other two did not move and chose to look on coldly.

The three of them came to share their interests. They didn't have a deep friendship. Naturally, they didn't care about other people's lives.

What's more, if Lu Tong hangs up, Wang Fan's space ring belongs to them.

"You... Lu Tong saw that they were not moved. He was very angry, but he didn't have time to say so much, because Wang Fan's attack had come again.

Wang Fanying waved his knife and drew a long arc in the air, cutting toward Lu Tong.

The knife is sharp and amazing.

Lu Tong evaded and resisted, but Wang Fan's speed was too fast. He was forced to be in a mess.

He wants to open the distance and use his martial arts skills to solve Wang Fan, but Wang fan doesn't give him the opportunity to open the distance at all, which makes him very frustrated.

He couldn't help shouting in his heart, where did this come from? How could it be so abnormal?

The other two watched the scene, but also can not help but full of shock.

Naturally, they could see at a glance that although Wang Fan's attack was not so fierce, the attack speed was too abnormal.

It's Wang Fan's abnormal attack speed that makes Lu Tong so embarrassed that he can't make an effective counterattack for a moment, let alone show his strong martial arts.

Looking at this scene, their mind is more active, and also more fiery.

Wang fan is so abnormal, it means that Wang Fan must have a big secret, but also richer.

Wang Fan didn't pay attention to the two people who stood by. For him, it was better for them to stand by.

He can't help but relax. After all, facing the three people's cooperation is totally different from facing one of them.

However, Wang Fan didn't exert his full strength. He was afraid of arousing the vigilance of the other two. He just attacked Lu Tong and planned to defeat Lu Tong with difficulty.

Under this kind of attack, all kinds of moves will soon pass.

Lu Tong is almost crazy. In these hundred moves, he has never found a chance to escape.

Fortunately, seeing that Wang Fan's face was pale, it seemed that his aura could not keep up, so he was a little comforted.

As long as Wang Fan's strength is exhausted, that's the time for him to fight back!

## **Chapter 2196**

Lu Tong thought so in his heart, and had slightly relaxed his vigilance.

Wang fan is aware of this scene, the surface is silent, but the heart is a sneer.

He continued to make efforts to exhaust the appearance, the attack is becoming more and more slow, even breathing is beginning to faint.

Lu Tong was aware of this scene clearly, and his vigilance became lower. At the same time, he sneered in his heart.

While he dodged Wang Fan's attack, he began to gather strength crazily, and planned to take the opportunity to open the distance, and then use his powerful martial arts skills. But at this time, his face suddenly changed!

Wang Fan's face suddenly turned red, and his momentum suddenly increased.

Feeling this sudden scene, Lutong's face couldn't help changing, and his heart was shocked.

Just at this time, Wang Fan's mouth widened and suddenly roared like a wild animal, and the shadow knife bombarded him crazily again.

Fast, it's too fast. This blow is several times faster than before.

"How can it be like this, no, no..." Lu Tong felt the scene, and his eyelids couldn't help jumping and roaring.

It's just that it's too late!

The bright blade just like lightning across, hiss, the moment has already wiped his Dantian!

Accompanied by a blast of blood column, Lu Tong's whole body was blown out under the violent force.

Bang, when he fell to the ground, his face was pale.

Wheezing, wheezing ·

Wang Fan flew to Lutong, couldn't help gasping heavily, then ran to Lutong quickly and grabbed his space ring.

The other two looked at the scene, and they couldn't help looking silly.

They never thought that the war situation would change so quickly.

They are just a careless, that originally also exhausted Wang Fan, unexpectedly abandoned Lu Tong.

Lu Tong is on the second floor of Zunjing, while Wang fan is on the ninth floor of Wangjing. Isn't that

incredible?

After returning to their senses, their faces suddenly turned cold.

"I didn't expect that you really had two talents. You could even abolish Lutong, but you accepted his space ring in front of us, and you didn't pay attention to us, did you?"

One of them stares at Wang Fan coldly, and a chill emerges in his eyes.

Wang Fan gasped deeply, weakly holding a big tree, "what are you, why should I pay attention to you? I think you two should go together. Don't waste my time. "

Wang Fan panted weakly, but his words were extremely disdainful. He didn't look at them.

He is deliberately weak, and then angered the two people, only in this way, they may not fight together.

In this way, Wang fan can solve them with less cost.

They looked at Wang Fan's weak expression and listened to Wang Fan's words. They were almost angry.

This is too rampant, isn't it?

"What a crazy boy, I'll meet you next!" One of them couldn't help changing his face, and his cold intention of killing spread out on himself. Suddenly, he killed Wang Fan.

Now that Lutong has been abandoned, the space ring on Wang Fan will have no owner. In addition, if Lutong's space ring is in Wang Fan's hands, he will benefit more if he kills Wang Fan.

Another person is not a fool, naturally a glance to see through his idea, "this guy is a little strange, I think we'd better go together, make a quick decision."

He said, is not slighted, just behind the man half a step, crazy rushed to Wang Fan.

Of course, we need to take more resources. He doesn't want to take advantage of that guy.

With the two people together, Wang Fan solved their wishes one by one.

He didn't expect that these two guys would fight together for the benefit. It's really a miscalculation.

Originally saw Wang Fan solved Lu Tong, Luo Ru still had some surprise.

But when she saw Wang Fan's weak appearance, and the two Zunjing two killed Wang Fan at the same time, her face immediately changed.

These are two Zunjing second floor, how can Wang Fan be an opponent?

She can clearly remember that when she was outside, Wang Fan was alone in front of the four Zunjing, but he didn't get the upper part.

It's just that, no matter how worried Luo Ru is, she can only be in a hurry.

In the face of those who are strong at the second level of Zunjing, her cultivation at the seventh level of Wangjing is not helpful at all. Even if she rushed up, it was just a dish.

"Well, it's just two people who respect the second floor of the territory. It's too much to dare to be presumptuous in front of me. Since you are in a hurry to die, I don't mind helping you. "

Wang Fan sees two people go up together, simply also don't continue to pretend. With a cold hum of disdain, his momentum suddenly diffused, and his right leg touched the ground. With a loud bang, he rushed towards them.

People in the air, Wang Fan's shadow knife has been raised, and crazy condensation of the body aura, brewing a knife cut.

He doesn't plan to spend time with these two people. He plans to get rid of one of them as soon as possible, and then get rid of the other.

Shadow knife crazy swing, boundless aura was crazy rolling, at this moment, the world is changing color.

However, whether they were the two or Luo Ru, they just felt the tremendous power and danger.

In their eyes, the shadow knife in Wang Fan's hand did not move at all.

But in fact, the shadow knife in Wang Fan's hand has been waved out. This is because the speed of Wang Fan's sword wielding is too fast, which leads to the illusion.

"No, it's a respected martial art. This guy is a little weird!"

"He was deliberately showing weakness before, and he can't be the Ninth level of Wang's situation, but he has hidden his accomplishments. What a mean and insidious guy!"

The two Zunjing second floor felt the power, their faces could not help changing, and they roared wildly.

As they roar, they force themselves to stay in shape and want to retreat.

But at this time, the man on the left only felt a chill. When he recovered, he felt a pain in Dantian, and the aura in his body began to dissipate.

"Ah, no, no!"

He couldn't help but roar, but the roar just came out. With a hiss, the Dantian was already broken. While the blood was splashing, the whole person fell to the ground.

He also stepped into Lutong's footsteps and became a useless man.

A knife cut, so terrible!

In addition, the man and Luo Ru could not help looking at this scene. They just felt cool all over.

Come on, it's so fast!

Terror, it's terrible!

Luoru is OK. After all, she is on Wang Fan's side.

But the other Zunjing was a little scared. His whole body was sweating.

He stares at Wang Fan in horror, already has the intention to retreat.

But, he just had this kind of idea, has not put into action, Wang Fan's cold voice, make his body in vain stiff up.

"You'd better not think about running away, because you can't beat my knife. If you don't believe it, you can try it."

### **Chapter 2197**

That person hears Wang Fan's words, the footstep suddenly stops, dare not move half step again.

"What do you want?" He stared at Wang Fan warily and asked in a trembling voice.

At this time, he has no courage to fight, the rest is full of fear.

He didn't expect that Wang Fan, who only had the ninth floor of Wang Jing, would be so hidden that he ate the second floor of their three Zunjing.

Even if it is said, no one will believe it.

"I don't want to do anything. I just want to ask a few questions."

Wang Fan said blandly, curving his fingers suddenly, two strong winds shot out, directly hit Lu Tong and another person, let them directly coma in the past.

The man looked at the scene, the pupil could not help but choked, "what do you want to ask?"

"Where is this place, what powerful forces are nearby, and what accomplishments are the most powerful among those forces?"

"Also, I see so many of you are going in that direction. Is something wrong?"

Wang Fan asked, and finally added, "you'd better not think about lying to deceive me, because I'll ask them later. If I find out what you say is different, you know the consequences. "

The man was not surprised to hear Wang Fan's questions, because he had already known that Wang Fan was a new comer to the frontier, and guessed that Wang Fan would ask these questions.

However, he did not immediately answer Wang Fan's question, but said, "it's not a secret. I have nothing to lie about. But if I tell you, can you let me go? "

Wang Fan sneered, "it depends on whether your answer satisfies me. What's more, you are not qualified to talk about the conditions with me."

When the man heard Wang Fan's words, he couldn't help taking a puff and sighed bitterly, "OK, I'll answer your question."

"Here is the corner of the border, which is the edge of the border. It's tens of millions of miles away from the center of the border area. "

"There are ten forces here, big and small, but the strongest are Wuhai sect, skeleton sect and Tianyin sect."

"Among the three forces, the strongest one is said to have reached the sixth level of Zunjing, but this is a rumor. No one knows whether it is true or not."

"But I can be sure that the power of the three forces has reached the five levels of Zunjing."

"As for why we are going in that direction, it's because the Wuhai sect, skeleton sect and Tianyin sect are recruiting Hakkas for some reason, so we want to have a try."

Said the man.

"Border corner? The strongest are Wuhai sect, skeleton sect and Tianyin sect Wang Fan listened to these words, eyes immediately couldn't help squinting.

He did not expect that when he first entered the border region, he even heard the news of these three forces.

What's more, he didn't expect that the leaders of the three forces all reached the fifth level of Zunjing. Even among the three forces, they were suspected to have the sixth level of Zunjing.

Zunjing five layers, that is not what Wang fan can deal with now. Even if he plays all the cards, there is only one dead end to Zunjing five layers. As for the sixth floor of Zunjing, let alone think about it.

"Are the three forces recruiting guests? What are the conditions for them to recruit guests and what are their requirements for strength? And how can you be so sure that I'm new to the frontier? "

Wang Fan asked again.

"The condition for them to recruit guest ministers this time is that their strength should at least reach Zunjing. As for why we know that you are new to the frontier, it is because of your breath. "

"Because long time in the border area cultivation, there will be more or less a trace of Taoist rhyme on your body, but you don't, so we conclude that you are new here."

The man answered honestly without any reservation.

"Daoyun breath?" Wang Fan listened to this, immediately stunned, he really did not hear of the word "Daoyun breath".

"That's right. It's the flavor of Daoyun. It is precisely because the aura of the frontier world contains a trace of Taoist rhyme that the strength of the monks here will be improved so quickly and there will be so many monks who respect the frontier. "

"It's impossible for you to feel the breath when you first enter the frontier. You can only feel it when you practice here for half a year or even a year."

The man continued.

"According to you, if I meet other people now, they will still know that I am new to the frontier? Only when you find a place to practice in seclusion for half a year, can others not see it, can they? "

Wang Fan asked again.

"Yes." The man nodded.

Wang Fan listens to this words, not from of fell into meditation.

Originally, he planned to take advantage of the opportunity of recruiting guest ministers from the three major forces to infiltrate into one of them, and then inquire about the whereabouts of the vice president, Miaoshi and others.

But now it seems that his idea is in vain.

Because no matter his strength or his breath, it is impossible for him to get involved. When Wang Fan pondered, he didn't notice the faint coldness in the man's eyes.

He pondered for a while, then suddenly knocked the man unconscious. Then he woke up Lutong and the other man and asked.

By Wang Fan's means, they also said what Wang Fan wanted to know, which was basically the same as what the man said.

There is only one thing that the man did not tell Wang Fan.

That is to say, all monks who transmit from outside to the border area should appear in the transmission city controlled by the three forces.

At that time, those people will also be controlled by the three forces, or become outstanding disciples, or become slaves, or directly killed.

But I don't know why, but Wang Fan and Wang Fan didn't appear in the transmission city controlled by the three forces.

Moreover, once the three forces know that someone has entered the border area without their teleportation City, they will immediately issue a hunting order and directly send someone to hunt him down.

Because the three forces simply do not allow people to enter the border areas without their influence.

They should have complete control over the monks who are transported into the border area within a hundred thousand li radius.

Wang Fan listens to this words, eyelid is simply can't help a burst of jump.

Fortunately, Lu Tong and his wife told him about it. Otherwise, I'm afraid they don't know how he died.

Fortunately, because the conditions did not allow him, he gave up the idea of joining the three forces. Otherwise, he would have taken the initiative to seek death.

"This bastard, I didn't expect that he didn't even tell me such an important thing. He really wanted to die."

Wang Fan was afraid, so he quickly went to the friar who was the first to be asked. He kicked him in his elixir field, abandoned his accomplishments, and then took away his space ring.

Where does he know, that fellow also held fluke psychology, want Yin Wang Fan one?

In his mind, Wang Fan did not ask him, he naturally can drill a hole, Yin Wang Fan.

After that, even if Lutong and his wife say it, he can explain it, can't he?

But he didn't think that Wang Fan didn't play cards according to common sense. After asking him, he was knocked unconscious.

People who have been questioned will be knocked unconscious, which he never thought of.

Wang Fan abandoned the man, did not continue to stay, with Luo Ru will quickly leave here.

Lu Tong was not the only one who knew that he had just entered the border area and had not passed through the teleportation city. He was afraid that someone had told the three forces about it, and the three forces had also sent strong men.

## **Chapter 2198**

About ten minutes after Wang Fan left, with the sound of several breaking winds, three shadows appeared here.

These three men were also among the previous monks. They came here not only to see the result, but also to see if they could get a share.

However, after they appeared, they were shocked to see Lu Tong, who had fallen to the ground and whose whole body cultivation had been abolished.

"How can this be possible? How can the three of Lutong be abandoned?"

"Did the new monk hide his accomplishments?"

"It's terrible. Fortunately, we didn't come out first. Otherwise, I'm afraid we will be abandoned now."

"It's such a deep plan. No wonder it's so arrogant and dare to lead Lu Tong and others away."

"You'd better inform the three forces immediately about this. It's a big event that some new people enter the border area without passing through the teleportation city.

If we report this matter to the public, maybe one of the three major forces will be happy, and they will not have to recruit us. "

Three people shocked murmur, a few flash, is quickly left here.

As for the three abandoned Lutong, they didn't pay any attention at all, and they didn't want to help

them.

Here, human nature is cold, they did not kill three people, it is very face.

...

wuhaizong, located in the north of Yujiao, covers an area of tens of thousands of square meters and is extremely powerful.

In one of the grand halls, a white faced old man was tasting tea alone. Suddenly, a monk rushed in.

"Mr. Yin, it's not a good thing. Just got the news, two new people entered the border area without transmission. The place where they appear is just within the control of wuhaizong. "

After the monk entered, he knelt down on one knee and said quickly.

"Well?" Listening to this, the old man immediately raised his head, and there were two flashes of light in his turbid eyes.

This man, named Yin Lihai, is the elder in charge of the transmission city of wuhaizong.

"Listen to who say, this matter is serious?" Yin Lihai asked.

You know, the probability of new people entering the border area without passing through the teleport city is very small, almost none in ten thousand.

After all, the transmission array is a fixed-point transmission.

It's just that there are some problems with the transmission array, so there is a very small probability that it will be transmitted to other places.

As for the new people who did not take the teleport array to enter the border area, it is impossible to escape from the control of their three forces. Because they have already put in people on the roads they have to go through.

So, after hearing the news, Yin Lihai still had some doubts.

"It's true that many friars have seen the two new men. They are a man and a woman. They are not very old The man said with certainty.

When Yin Lihai heard this, he immediately began to attach importance to it. "Well, in this case, you should send someone to that area to have a look and catch the two new people for me."

"Within the sphere of influence of wuhaizong, new people are not allowed to enter the frontier without

us, and no new people are allowed to get out of our control."

"Yes, and that's what to do." The man answered quickly, and then backed out.

Before long, twelve monks with strong breath had left wuhaizong and rushed to the area where Wang Fan appeared.

All the twelve monks have reached the second level of Zunjing, and they are full of fierce and bloodthirsty breath. Obviously, they are all figures who come out of the corpses.

...

Wang Fan didn't know that his worry had become true, so wuhaizong actually sent someone to arrest him.

After running with Luo Ru for more than two hours, he found a hidden place to open a cave, drilled in and began to practice in seclusion.

They have to assimilate their own breath. At least they can't be seen as new monks when they go out next time.

"Luo Ru, let's practice here for a period of time before we go out. If you find a suitable place in the future, we will separate

After entering the cave, Wang Fan said to Luo Ru.

He and Luo Ru just know each other and don't have much friendship, so Wang fan doesn't want to tie them around and restrict their freedom.

"Well, I know." Luo Ru nodded, then said with some embarrassment, "elder martial brother Wang Fan, I'm here for the first time, and I don't know anyone."

"I think I'd better follow you first, or I'll be in danger if I go out alone. I hope elder martial brother Wang fan doesn't dislike me and don't treat me as a burden"

LUO Ru said, her eyes turned red and tears were about to fall.

She thought of her brother.

She has lost her parents since she was a child. Her brother has always been protecting her and taking care of her. She has nothing to worry about and doesn't want anything at all.

But now, her brother is dead, which makes her feel like the sky is going to collapse."Don't cry. I don't mean to take you as a burden. I don't mind if you follow me

"But I want to tell you that I may not be able to protect you. As you can see, many people have the strength to kill me. For example, today is very dangerous. "

"And I have many strong enemies here, and I may be in danger at any time. If you follow me, maybe you will be involved."

Wang Fan sighed and said.

"Brother Wang Fan, I'm not afraid of being involved." Luo Ru heard Wang Fan's words and said quickly.

"Well, in that case, follow me first. By the way, do you have any spirit stones on you? If not, I can give you some to practice. " Wang Fan said.

"Yes." Luo Ru said quickly.

Next, Wang Fan did not continue to say anything, in the obscure layout of a border, it is the beginning of the cultivation.

He wanted to know what that rhyme breath was and how fast it would be to practice here.

With cultivation, Wang Fan soon found that there was a unique breath hidden in the air.

There is no such breath in the 17th empire. Moreover, the aura of heaven and earth in the border area is obviously more solid and rich than that of the 17th empire.

With his absorption, the breath entered the body with aura, but it did not enter the Dantian, but penetrated into every cell and every inch of his skin.

Wang Fan felt this scene, but he was a little surprised.

According to the local friars, Daoyun breath is something to speed up the friars' cultivation, which is not harmful to the friars.

But Wang Fansheng is cautious, how can he allow the strange breath to penetrate into every cell and every inch of skin?

He stopped practicing, mobilized his mental power and the strange golden energy in his body, and began to investigate it.

He wants to see if the breath has any side effects on him. If so, he will never let it completely penetrate into his body.

After more than an hour's investigation and research, Wang Fan finally relaxed. He found that the

breath did not have any side effects on the monks, and it did not have offensive power.

When Wang Fan realized this, he could not help but feel relieved, and immediately began to practice wholeheartedly.

### **Chapter 2199**

If anyone knows that Wang Fan only used less than an hour to feel the flavor of Daoyun, and the flavor of Daoyun has successfully penetrated into his body, he will be surprised.

You know, it will take at least a day or even longer for the novice friars, even those who are not talented enough, to be like Wang Fan. As for those with weak talent, it will take longer.

But Wang Fan, just less than an hour, has already noticed the Tao rhyme breath, and the Tao rhyme breath has also successfully penetrated into the body, which is really incredible. Even if you say it, no one will believe it.

Of course, it's Wang Fan's talent to detect the aura of Daoyun. But the aura of Daoyun permeates into the body so quickly, which is the effect of golden energy.

But at the moment, Wang fan doesn't know these. He is practicing crazily.

With the infiltration of Daoyun breath into the body, Wang Fan obviously found that he absorbed aura faster.

With the acceleration of absorbing aura, and the more concentrated aura in the world, Wang Fan's strength also began to soar.

In less than a month, his strength has reached the middle of the Ninth level of Wang Jing from the initial stage.

Not only that, the aura in his elixir field was further compressed and more powerful.

Feeling this scene, Wang Fan heart emerged a surprise.

You know, it's not a short time for Wang Jing to be promoted from the initial stage to the middle stage.

Even the monks with good talent and fast cultivation speed usually take years or even decades. If they have poor talent and slow cultivation speed, they also need a year or even several years.

But Wang Fan only used it for one month, and he has already crossed this step. If this kind of cultivation speed is spread out, it will definitely shock the whole border area.

Of course, the reason why his cultivation speed is so fast is closely related to the strange golden energy in his body.

Wang Fan felt the improvement of cultivation, his heart was more surprised, and his cultivation became more crazy.

If he can reach the peak of the Ninth level of Wang Jing, or even step into the Zun Jing, it will be better.

With this practice, another month passed in the blink of an eye.

This month, although the aura in Wang Fan's body is still increasing, and his strength is also improving rapidly, it has not reached the peak of the Ninth level of Wang Jing.

After all, from the middle of the Ninth level of Wang Jing to the peak of the Ninth level of Wang Jing, the aura needed is more huge, which is not so easy to achieve.

On this day, as usual, he was practicing crazily. Suddenly, he felt some abnormal fluctuations in space.

Aware of this scene, Wang Fan suddenly withdrew from the cultivation state, removed the border and looked at Luoru.

Luo Ru's face was red and her eyes were closed. It seemed that she was at the critical moment of cultivation.

On her body surface, there was a strong aura, which seemed to be shrouded in a layer of holy glory.

"Do you want to break through? This Luoru is really a terrible talent for cultivation. In just two months, he broke through the seventh level of the kingdom to the peak of the seventh level of the Kingdom, and found the opportunity to break through the eighth level of the kingdom."

Wang Fan looks at Luo Ru and is shocked.

Naturally, he could see at a glance that Luoru was at the critical moment of breaking through the eight levels of the kingdom.

If she really can break through, then it's really abnormal.

In two months, from the seventh floor to the eighth floor, what is the concept?

If it is spread out, it will definitely make countless monks feel ashamed and want to die, and there are also countless forces competing for the talent of Luoru.

Wang Fan in the dark sigh fell into the abnormal talent at the same time, but suddenly forget, he is also a abnormal.

Wang Fan looked at the critical moment of Luo Ru, did not take out the spirit stone, the use of spirit

stone in the spirit to help her.

Because he felt that Luo Ru could break through with the aura of heaven and earth without using the spirit stone.

It's better not to use the spirit stone. There is still a gap between not using Lingshi and using Lingshi.

With the circulation of aura, with the crazy impact of luoru, at a certain moment, with the aura of her body surface seeping into her body, her strength finally reached the eighth level of the kingdom.

At the moment of reaching the eighth floor of the Kingdom, luoru opened her eyes with surprise.

But when she saw Wang Fan looking at her strangely, she was a little embarrassed and lowered her head.

"I'm sorry, brother Wang Fan, I have disturbed your cultivation." Luo Ru red face, slightly some uneasy said.

Her strength breakthrough, although it is a happy thing, can affect Wang Fan cultivation, make her a little uneasy.

If Wang fan is not happy, she really wants to cry.

"You think too much, you don't affect me. Congratulations on your breakthrough to the eighth floor of the kingdom. Your strength will be improved and your self-protection ability will be stronger. I'm glad it's too late." Wang Fan looked at Luo Ru's uneasy expression and shook his head with a smile.

He doesn't envy other people's cultivation speed, because it's innate. What's more, he didn't think he was worse than anyone else.

"Thank you, brother Wang." Luo Ru hears Wang Fan's words, lovable vomit tongue, was relieved finally.

"You're welcome. Let's continue to practice here for a while, and then leave." Wang Fan said, then entered the border cultivation again.

Luo Ru looked at Wang Fan's back figure, and could not help murmuring, "brother Wang fan is really working hard. I also have to work hard to be strong and not become a burden to brother Wang Fan."

With that, she calmed down her excited and joyful mood due to the breakthrough and began to continue to practice.

She didn't work so hard before, because she was more playful and didn't like practicing very much.

But since her brother died, her mentality has changed.

In addition, she witnessed the cruelty of frontier law, which led to her hard work.

In the blink of an eye, three months later, Wang Fan's strength finally rose from the middle of the Ninth level of Wang Jing to the top of the Ninth level of Wang Jing.

Wang fan is aware of the breakthrough of his strength and almost wants to laugh.

After many hardships, he is not far away from Zunjing.

He has to work hard to see if he can break through to Zunjing.

At the moment of Wang Fan's crazy cultivation, a hundred miles away from their cave, twelve monks had already touched their direction.

The twelve friars were sent by Yin Lihai, the leader of Wuhai sect, who was in charge of the transmission city.

It's been five months. They've been looking for this area for five months, but they haven't found any trace of Wang Fan. This makes them angry.

You know, in the past five months, within a thousand li of the neighborhood, they have almost gone through it.

If their people had not been under martial law for thousands of miles to ensure that no new people had gone out in five months, they would have given up searching in this area.

"Where are those two guys hiding? Don't let me find them, or I won't let them go!"

One of the twelve monks murmured unhappily that they had already approached Wang Fan's 50 Li position.

Fifty Li is no longer a distance for these monks of Zunjing. They don't need a few breath at all.

## **Chapter 2200**

"Well, we'd better stop talking nonsense and look for it quickly. If those two guys succeed in assimilating the breath during this period, so that we can't distinguish them, we will be in trouble. "

Another frowned and said.

"It's less than five months. They can't assimilate so quickly, can they? You know, even the monks who are gifted with demons need a year or more to assimilate completely. "

The person who opened his mouth before smelled the words, and could not help frowning and saying.

"Well, don't talk about it. The most urgent thing is to find those two guys. It's not a big thing, but it's not a small thing. If something really goes wrong, we can't afford it. "

A middle-aged man who looked like a leader interrupted them and said in a deep voice.

With his opening, the two men immediately closed their mouths and said no more.

A group of 12 people carefully searched again. While they searched for the nearest location, they spread their mental power, covered the area of 50 Li, and began to explore every inch.

At a certain moment, one of them couldn't help being stunned. He suddenly pointed to one of the directions and said, "there seems to be something abnormal there. Someone is practicing."

"What?" The other eleven were shocked by the speech and immediately shrouded their mental strength in the past.

Soon they found that there was someone practicing there, because the aura between heaven and earth seemed to be drawn and absorbed into one of the areas.

"Let's go and have a look."

"Maybe it's those two guys."

Aware of this scene, their faces could not help but change, without any hesitation, they ran decisively towards that direction.

In the cave, Wang Fan was practicing. At a certain moment, his closed eyes suddenly opened.

He clearly noticed that twelve extremely strong breath approached this side.

"Brother Wang Fan, what's the matter? Is there something wrong?" Just out of the cultivation state of Luo Ru see Wang Fan open his eyes, quickly can't help but stand up, asked.

"Yes, there are twelve Zunjing second floor people coming here. If I guess correctly, most of them are from the three major forces. They are here for us."

Wang Fan stood up and said in a deep voice.

"Ah?" Luo Ru hears this words, the facial expression immediately is can't help a change, in the heart sprang up to be perturbed, "that how should we do?"

"Don't worry, let's change our face first, and then go out immediately." Wang Fan said, then quickly changed face up.

In a short period of time, he was not allowed to change his appearance delicately enough. He could change his appearance slightly to confuse twelve people.

It took only a few breaths for Wang Fan to complete the transfiguration between him and Luo Ru.

Then he sacrificed the spaceship, took luoru to board, and rushed out of the cave.

Whoosh, whoosh.

Almost two people just went out, accompanied by a series of sound of the wind, the twelve people had already appeared not far away from them.

Looking at the spaceship rushing out of the cave, the twelve people couldn't help being stunned at first, and then sneered.

"It seems to be them. I didn't expect that they were hiding here."

"They found out our arrival ahead of time and responded. These two people are really not simple."

"Ha ha, they are no longer simple, and they can't leave today."

Several of the twelve looked at the spaceship and said with a sneer.

After they finished speaking, the middle-aged leader's hands suddenly waved, and the energy surged like a snake. Soon, a barrier wall was formed in the direction of the spaceship's forward.

After condensing out the boundary wall, he stares at the spaceship coldly and says, "you two can't get away. You two should stop and follow us. Otherwise, we will not be polite. "

With his voice, the other eleven people's bodies were also flashing rapidly, and soon they had formed a semicircle, which blocked the way of Wang Fan and Wang Fan.

The spaceship stopped in mid air, the cabin door opened, and Wang Fan stepped out.

He looked at the twelve and said, "who are you and what do you want to do? I don't seem to have offended you. Why do you want to stop me? "

Wang Fan's appearance was deliberately made up. Only in this way can the vigilance of the twelve be dispelled. Moreover, the reason why his spaceship was stopped was that he did it on purpose.

Otherwise, with his strength and the speed of the anti sky spacecraft, he will be able to rush out of the encirclement before the other side sets up the border.

What's more, Wang Fan came out of the spaceship on purpose.

He wanted the twelve people to remember his face, so as to confuse each other.

The head middle-aged heard Wang Fan's words, frowned and said, "don't ask so many questions, you'd better follow us." "Don't worry, as long as you are obedient, we won't do it. And we have no malice. We just want to invite you to be guests. "

Wang Fan, listening to this, seemed relieved. He asked, "who are you and where are you going to be a guest?"

"We are from wuhaizong. Naturally, we are going to invite you to wuhaizong. Our Wuhai sect is recruiting talents recently. If you do well, maybe you can join our Wuhai sect. This is a great opportunity for you. "

He said.

When he came, he had heard about Wang Fan's fighting capacity.

One of them fought alone in the second floor of Zunjing, but they were all abandoned. So in this case, he would not do it if he didn't do it. He didn't want to lose anything to his twelve.

Wang fan can't help sneering at his words.

This guy is really good at talking. He wants to take himself away without a single soldier. If Wang Fan was taken to wuhaizong, it would be more difficult for him to come out.

After all, how could it be so simple to be able to easily send out 12 strong men of Zunjing? Wang fan can't cope with the five story Wuhai sect leader alone.

Wang Fan wanted to go to wuhaizong, but not in this way.

Wang Fan's heart sneered, but on the surface he thought. After a moment, he nodded slowly, "OK, I promise to follow you to wuhaizong."

When Wang Fan said this, the twelve people were greatly relieved.

However, at this time, Wang fan is suddenly moved.

See its suddenly flash into the spaceship, crazy urge, immediately the spaceship will turn into a streamer, crazy impact out.

The second level strong man of Zunjing, who was in that position, had not recovered, but the spaceship had been flying close to him and rushed to the distance.

This sudden scene, so that the twelve Zunjing two layers can not help but face big change!

How did they not expect that Wang Fan would be so insidious and cunning, and even overcame them.

"Damn, I've been fooled!"

"Chase

"You can't let this hateful bastard go!"
