

Mighty Sk 2251

Chapter 2251

Wang Fan listened to the enchanting woman's words, got up slightly, and immediately sat back again.

If he didn't wait for the auction of sanshengling, he would not wait for it. But now the three holy orders have come out. It would be a pity if he just left.

Chance, chance. This is chance.

Now that he has met him, this is his chance, and there are many spirit stones on him. He also wants to see if he has the chance to buy this Sansheng Ling.

"Sixty million!"

"80 million!"

"130 million!"

"Three hundred million!"

The struggle for the three holy orders is undoubtedly extremely crazy. In just a few breaths, the price has soared from 50 million to 300 million.

What's more, it's just a bid made by the small family and the scattered repair forces who have some financial resources. As for the three forces who have a solid foundation, they haven't started to offer yet.

The enchanting woman who presided over the auction listened to the offer below, her face did not change at all, and she still had a smile.

She knows that 300 million is just the beginning, far from the end.

It's absolutely possible to sell such an adverse thing as sanshengling at a high price.

At the same time, she could not help sighing.

These three holy decrees were brought by a super strong man from the center of the border area. The super strong man was extremely terrible and difficult to provoke.

Otherwise, she would have been black at the auction for such an adverse thing. How could she be willing to auction it?

The price is still soaring crazily. After dozens of breaths, the price has skyrocketed to 1.53 billion.

1.53 billion, which is a huge sum of money for those small family forces.

When the price soared to 2.10 billion yuan, those small family forces finally gave up the bidding.

Although they knew that they were studying with the prince for a long time, it was impossible for them to photograph the Sansheng order.

When he really withdrew from the bidding, they were still a little disappointed.

"2.1 billion!"

"2.3 billion!"

"2.5 billion!"

"2.8 billion!"

The price is still soaring, and at this time, only the three forces and LUDEN family are bidding.

Moreover, their price increase is no longer 10 million plus, but several hundred million plus, which shows that they are very rich.

When Wang Fan was bidding by those forces, he had secretly sorted out the spirit stone on him.

He has a total of 5.86 billion top-quality spirit stones on his body. There is not much pressure on the current price.

However, as long as the price exceeds 5.86 billion yuan, it is impossible for him to get the Sansheng order.

Anyway, it has been decided to bid for the three holy orders. Naturally, it is impossible for Wang Fan to let the price rise slowly.

When someone offered a price of \$3 billion, he immediately rushed behind and offered a price of \$4 billion.

Four billion three words, Shua Shua, in a flash, everyone's eyes will look over.

At the same time, countless strong mental force just like the tide, crazy into his box, completely covered his whole person.

These monks who swept him with their spiritual strength were all powerful masters, most of them were from the powerful families.

Wang Fan did not seem to be aware of those mental power in general, while looking at the auction table with a smile, while the tea.

But in fact, his mental power has also been frantically diffused out.

As long as someone dares to show his killing, he will feel it at the first time.

With Wang Fan's offer, the scene fell into a brief silence.

No one would have thought that a young man, who is just a nine tier Wang, but not a member of the three major forces, would have such a rich fortune and directly quoted a sky high price of four billion yuan.

That's a four billion elixir. How many four billion elixirs can the three major forces produce?

"Box 36 offers four billion. Box 36 offers four billion. Is there anything higher than four billion?"

"It's Sansheng order, but it's the keepsake of Sansheng gate. It's worth more than four billion yuan. After this village, there won't be this shop. Let's hurry up."

The enchanting woman who presided over the auction saw the scene fall into silence, and the charming voice once again spread throughout the auction hall.

For her, the higher the price, the better. She doesn't want to be cold.

Wang Fan listened to the enchanting woman's bewitching, almost wanted to directly grasp the shadow knife to her.

This woman is too hateful, but thinking that this is the other party's duty, thinking that this is someone else's territory, he can only bear the impulse."I've got 4.1 billion from Wuhai!"

"Hey, hey, it's only a hundred million yuan increase, isn't it too mean? I'll give you 4.3 billion

"Well, I thought how much more would you like to add to the skeleton gate. The emotion is only 200 million. I, the Tianyin sect, bid 4.8 billion! "

With the voice of enchanting women, even if the three forces started bidding again, they did not forget to taunt each other.

As for other powerful families, even the ludens, they have no plans to continue bidding.

The price is too high.

After the Tianyin sect made a bid of 4.8 billion yuan, wuhaizong did not accept the bid. All the three forces of them looked at Wang Fan's box.

They obviously want to know whether Wang Fan will continue to offer.

"5.6 billion!" Wang Fan didn't disappoint them either. He directly smashed all the 5.6 billion yuan he had.

If it wasn't for the offer of 5.68 billion yuan, it would have revealed that he only had so many spirit stones left. I'm afraid he would have added the 80 million yuan.

At the same time, Wang Fan has no idea of continuing to be here.

He has been targeted by many experts. For him, it's a one-off deal. It's better to leave as soon as possible.

5.6 billion. If he succeeds, that's the best. If he fails, he will leave.

Beyond Wang Fan's expectation, after his price came out, the three forces fell into silence and did not follow the offer.

Rao is the enchanting woman again bewitched for a long time, the three forces have chosen to give up bidding.

The three major forces have chosen to give up bidding, not to mention the other families.

It's just that no one knows that the experts of the three forces have communicated secretly.

They want Wang Fan to take away the three holy orders, and then they are snatching them. As for which sect the three holy orders will eventually fall into, it depends on their respective strength.

They are not willing to waste the best spirit stone that can save 5.6 billion.

"Congratulations to the guests in box 36 for successfully taking the Sansheng order. Now we start the transaction."

Enchanting women see three forces did not continue to bid, where do not understand their meaning?

She sighed helplessly and could only announce the result.

Before long, a strong man on the fourth floor of Zunjing came to Wang Fan's box with the three holy orders.

The four layers of Zunjing's face was very dignified, and there was some coldness in his eyes. He was

obviously afraid that Wang Fan could not take out the spirit stone. And once Wang fan can't take out the spirit stone, he will kill directly.

It's no joke to make a random offer at their auction. What's more, the three holy orders are of great importance.

Chapter 2252

Wang Fan didn't procrastinate, so he grabbed a space ring and lost it.

The Zunjing fourth floor took the space ring to check, and his eyes showed a trace of surprise. It seemed that he was surprised that Wang Fan could really take out so many spirit stones.

However, he didn't say much. He gave the three holy orders to Wang Fan.

Although he was reluctant to hand over the three holy orders, he did not dare to make trouble on such occasions.

Not to mention countless eyes staring here, even the person who sent the three holy orders was far from what he could provoke.

After the transaction, Wang Fan no longer had the idea of staying here. He put away the Sansheng order, left the box and walked out of the auction.

When the friars of the auction saw Wang Fan leave the box in a hurry and walk outside, they couldn't help sneering.

They were not surprised that Wang Fan left the auction in such a hurry.

After all, Wang fan not only exposed a large number of spirit stones, but also took away the most precious three holy orders. In this case, it would be strange if he was willing to stay here.

However, if Wang Fan thought that he would be safe, it would be ridiculous.

The people of the three forces will never allow Wang Fan to leave with the order of the three saints.

Sure enough, not long after Wang Fan left, each of the three forces came out of a monk's box, and not only did they keep up.

Looking at this scene, many monks stood up and left the auction.

Although they dare not compete with the three forces for the three holy orders on Wang Fan, it would be very good if they could get some spirit stones.

What's more, even if you can't get the spirit stone, even if it's a good play, it's OK.

"What an ignorant guy. He's just nine levels in Wang's situation. He dares to show off here. He's just looking for death."

"Who said no? I don't know where this guy came from. He didn't know what to do. If his elders knew about it, they would have vomited blood. "

"It's just nine levels of the king's realm. If you dare to flaunt around with so many spirit stones, and dare to compete with the three major forces for the order of the three saints, it's really..."

some monks who didn't leave with them can't help talking about this scene.

Wang Fan didn't care about the monks, and it seemed that he didn't notice that someone was following him. Soon, he had walked out of the auction.

After going out of the auction, Wang Fan did not rush to sacrifice the anti sky spaceship, let alone fly through the air, but walked out of the city.

He knew that even if they did it, they could not do it in the city. After all, they also wanted face and cherished their feathers.

Even if it is to kill him, the three forces will only find a remote corner to kill, rather than in full view of the public.

It's one thing for everyone to know, but it's another thing to do it in front of everyone.

The three holy orders were bought by Wang fan through proper means, but they were not robbed. Moreover, Wang Fan did not offend the three forces.

If the three major forces directly act in public on the street, the negative impact will be too great.

It is impossible for even the three major forces to fight in the city, and those small forces and sanxiu dare not fight in the city.

If they move their hands, but the three holy orders on Wang Fan's body are gone, it will be unclear. No one or force is willing to do such things that offend the three major forces.

So Wang fan is not in a hurry. He just goes out of the city slowly.

However, on the road, his mental power has been frantically diffused out, investigating the enemy who followed.

He wants to see what accomplishments these people are, calculate how to go and how to fight back.

Those friars saw that Wang Fan didn't run away, but walked out of the city without hesitation. They looked even more disdainful.

After a long time, it turns out that Wang fan is a Hun Ren.

Maybe Wang Fan knew he couldn't escape, so he walked slowly?

Or maybe Wang fan is very simple and thinks that the things he photographed will not be robbed at all.

The three men of the three forces who followed Wang Fan's footsteps sneered even more when they saw that Wang Fan was walking slowly.

They are also not anxious, not slow hanging in the Wang Fan behind.

In this way, more than an hour later, Wang Fan walked out of Luoxia city.

However, almost at the moment when he walked out of Luoxia City, a middle-aged friar of the third floor of Zunjing had already jumped out.

"Boy, I heard that you are very rich. I don't want to talk nonsense with you. If you hand over a hundred million elixir spirit stone, I won't stand in your way."

After the monk appeared, he pointed to Wang Fan's nose and said aloud.

His voice was loud enough for everyone around him to hear clearly.

Obviously, he said this to the people of the three forces on purpose. The purpose is to let the other party know that he intercepted Wang Fan only for the sake of Lingshi, and he didn't want to rob the three saints. A hundred million stone is not enough to make the three forces hate him or even fight against him.

"A hundred million best spirit stone?" Wang Fan Leng for a while, and then without hesitation to grab out a space ring.

When the monk saw Wang Fan's performance, he was immediately overjoyed. Just when he thought that Wang Fan was going to give him the space ring, a bright blade crossed over.

The bright blade is like lightning, and it cuts towards him with the power of thunder. The terrible speed and powerful power make him not react at all.

"Sneak attack?" His face changed greatly, but the two words just came into his mind, and the whole person had already been drowned.

Hiss!

The scarlet blood splashed, and when the edge of the sword dissipated, the man had completely fallen to the ground.

"Who are you? It's just a piece of rubbish, and I want my master's spirit stone. I really want to die. " Wang Fan didn't look at the dead monk. He snorted with disdain and went on.

When people around look at this scene, they can't help but feel the stillness.

They obviously did not expect that Wang Fan of the ninth floor of Wang Jing should still be used for such a terrible combat effectiveness.

With one knife, he killed the third floor of Zunjing.

The faces of the three strong men of the three forces also changed a little, and suddenly they had a bad feeling in their hearts.

Just as they gritted their teeth and planned to do it right here, Wang Fan suddenly rose up and began to run towards the distance.

"No, he's running away!"

"Stop him, don't let him escape!"

Three people looked at this scene, their faces changed in an instant.

They are desperate to fly up, will speed to the fastest, toward Wang Fan chase.

Just when they were about to catch up with Wang Fan, the scene that shocked them happened again.

Wang Fan in front of me started a teleportation array. A faint halo appeared, and then the whole person disappeared here.

"Teleport?"

This time, their faces have really changed.

They no longer dare to neglect, while frantically run forward, while frantically spread the spirit out.

The three holy orders, if they were really taken away by Wang Fan, they would not be able to make a delivery when they went back.

Chapter 2253

A hidden cave, Luo Ru is nervous standing at the entrance, constantly looking out.

Wang Fan has been away for a long time, and her heart is very worried. She wanted to go out and look for Wang Fan, but reason told her not to.

She stayed in the cave, there is a prohibition protection, not easy to be found. But if it appears and is found by the friars, it will be dangerous.

Luo Ru nervously looked out of the cave. In fact, she couldn't see anything, but it was a kind of comfort in her heart.

Bang, just when she was worried, suddenly, the cave was opened, and a figure rushed in quickly.

Luo Ru was startled, but before she could see who she was, a quick voice had already started.

"Loru, let's get out of here, quick." This is the voice of Wang Fan.

Luo Ru heard Wang Fan's voice, her heart was calm, but she didn't ask much. Instead, she nodded and left the cave with Wang Fan.

After leaving the cave, Wang Fan sacrificed the anti sky spaceship, and then quickly fled to the distance.

He knew that he had just temporarily thrown away the three Zunjing four layers. If the other side used his mental energy to make a careful investigation, it would not take long to find him.

After all, this place is only 200 li away from Luoxia City, completely covered by the spiritual power of the four powerful people in Zunjing.

Sure enough, the three Zunjing four layers immediately locked Wang Fan's direction after several breaths, and madly caught up with him.

Their spiritual power firmly locked in Wang Fan's spaceship, did not dare to have half of the slack.

However, it is impossible for them to catch up with Wang Fan in a short time.

On the spaceship, after the speed stabilized, luoru could not help asking, "brother Wang Fan, what happened?"

Wang Fan nodded, "I photographed a treasure that all three forces want to fight for. Now they are chasing me."

He has nothing to hide, and there is nothing to hide about this kind of thing.

Luo Ru, well, didn't keep talking.

Wang Fan took out the map, identified the location, and controlled the spaceship to rush on.

He was glad that he had bought a map and arranged a transmission array.

Otherwise, once they are besieged by the three forces, once they don't know the direction, they break into the sphere of influence of Tianyin sect or skeleton sect, it will be miserable.

Seeing that Wang Fan's speed was getting faster and faster, and that he was still far away from the three spheres of influence, the three Zunjing 4th floor of the three forces immediately became more anxious.

They no longer dare to neglect, while quickly inform the sect master to intercept Wang Fan, while more crazy to catch up.

At the same time, the two members of Tianyin sect and skeleton sect reported this to their Lord.

Now Wang fan is still in the three spheres of influence, and their people can still intercept Wang Fan. Once Wang Fan rushes out of their sphere of influence, it will be difficult for them to catch Wang Fan again.

"Wang Fan? Loru

At the moment when Wang Fan sacrificed the anti sky spaceship and left with Luo Ru, the strong man of Wuhai sect couldn't help but utter a voice of shock.

There was a storm in his heart.

Wang Fan, it's Wang Fan. How can it be?

You know, the leader of Wuhai sect went after Wang Fan and never came back. How could Wang Fan be here?

Now that Wang Fan has appeared here, their patriarch, the fourth floor of Zunjing, dare not think about it any more, and set off a storm in his heart.

If Wang Fan really killed their patriarch, then Wang Fan would be too terrible.

"Wang Fan? You said he was Wang Fan? A while ago, he was still in your wuhaizong sphere of influence. How could he come to Luoxia city so soon? "

"By the way, the Lord of Wuhai sect went to hunt down Wang Fan. Why is he still alive?"

The other two were also shocked by the name's words.

This is impossible, but it happened, which makes them incredible.

"I don't know." The fourth floor of Zunjing didn't say much, let alone the fact that the leader of Wuhai sect didn't come back.

Although the three forces are harmonious on the surface, they have been fighting openly and secretly all the time. If he tells us about the disappearance of the leader of Wuhai sect, they will be in danger.

The other two people saw that the strongman of Wuhai sect didn't want to say more. They both frowned, but they didn't ask much.

The most urgent task now is to catch up with Wang Fan quickly, and then take back the Sansheng order. As for other things, we can stay behind.

Wang Fan ran all the way, and an hour had passed in the blink of an eye.

However, this time, he did not get rid of the three people behind him.

Although the distance between him and the three has reached nearly 300 Li, he still can't get rid of it. "What a boring fly! I dare not kill you, or I can't kill you?" Wang Fan's heart is also can't help but have some fire, eyes ice cold said.

But after all, he didn't plan to go back to kill the three people, because it was a waste of time.

While Wang Fan was holding his breath, suddenly, his eyebrows couldn't help picking. A hundred miles in front of him, there were more than a dozen monks.

These ten monks were all dressed in the clothes of the three forces, and their strength ranged from the second level of Zunjing to the fourth level of Zunjing.

All over them, they are sending out a sense of killing, and they are running towards Wang Fan.

Wang Fan looked at the dozen people, his heart was more angry, and his face was even colder.

"You control the ship first, I'll kill the dozen ants." Wang Fan says to Luo Ru, grabs the shadow knife and jumps out of the spaceship. He quickly kills more than ten people.

The three forces are really persevering.

He hasn't gone to the three forces for revenge because of the affairs of the holy court of Wangdu, but these people came to the door first because of the order of the three saints.

Wang fan is really angry.

"Wang Fan, stop! Hand over the three holy orders, and then come back to the sect with us to accept the crime. Maybe you will be spared a dog's life. Otherwise, there will be no amnesty for your death! "

"Wang Fan, you have violated the rules and regulations by killing so much in our corner. If you don't, don't blame us for being rude!"

The dozen people saw that Wang Fan left the spaceship and rushed to them. They started to roar from a long distance.

"A group of mole ants, dare to intercept my way, it's just death!"

"Young master, I'm not a member of your family. What kind of crime will I take with you?"

"If you want to snatch the three holy orders from me, you can tell me clearly why you have to be so fussy. It's shameless!"

Wang Fan laughed angrily, and his figure twinkled, which meant that he had already approached more than a dozen people.

The aura in his body was surging wildly, and the golden energy was even more around his body. The shadow knife in his hand was like a rainbow running through the sun, and he killed them hard.

Wang fan doesn't have any left at all. He wants to kill more than ten people in the shortest time, and then leave here.

He has no time to waste!

Chapter 2254

The bright broadsword shot, rolled up the violent power, and bombarded the dozen people.

The more than ten people looked at the scene, their faces changed in an instant!

However, they did not retreat half a minute, but madly agitated their weapons to bombard Wang Fan.

Wang fan is just a person who respects his territory. There is no need to be afraid of so many of them.

Boom boom!

The overwhelming energy storm rolled on Wang Fan's blade, and set off a crazy explosion. One after another, violent energy ripples spread all around and ravaged wildly.

Under this kind of rampage, those who are three or more levels of strength in Zunjing are OK, but those Zunjing can't resist the rampage of the energy storm.

Hiss, hiss, hiss!

Almost instantaneously, they gushed blood out of their mouths uncontrollably, and then flew backwards like broken kites, completely losing their fighting power.

Their eyes were filled with horror, shock and inconceivability.

Although they have heard of Wang Fan's power for a long time, when they really face it, they will know how terrible Wang fan is.

What is the first level of Zunjing? It's more terrible than the fifth level of Zunjing.

While Wang Fan was flying those two layers of Zunjing, he was also shocked by the raging energy storm, and his blood was also surging.

After all, Rao's fighting capacity is against the sky, but it's a bit hard to face so many strong men at the same time.

But Wang fan is not idle, almost in the moment of retreat, has once again summoned the spirit, is a knife split out.

This Dao is not an ordinary one. It's a Dao of destroying the sky.

At this time, Wang Fan did not dare to have any reservation at all.

After all, within the control of the three forces, the longer the delay, the more enemies there will be. To delay is to seek death.

If it had not been for the huge consumption of killing short guns, he would have directly sacrificed the killing short guns.

The great wasteland was cut out of the sky, and the waves of swords were torn apart, forming a sea of swords in an instant.

The aura of the surrounding world is gathering crazily, and the Dao sea is also becoming more and more huge, in which there is a surge of mighty pressure and killing power.

"What a terrible skill!"

"Kill him quickly, you can't let him show his martial arts completely!"

Those who didn't lose their fighting power felt the pressure contained in the sea of swords, and they could no longer be shocked and roared wildly.

And with their roar, they are also fast brewing up a strong martial arts.

Unfortunately, it's too late.

The speed of Wang Fan's execution was too fast. He didn't waste much time at all.

In addition to the hasty performance of the three Zunjing four layers, the three Zunjing three layers didn't even have time to wave their weapons.

All over the sky, the sea of swords has submerged them. In a burst of hissing voice and red blood, the three layers of Zunjing are immediately strangled by the sea of swords, without breath.

After everything returned to calm, the original dozen of the three powerful forces were still standing, leaving only three Zunjing four layers.

The rest of them all fell, either abandoned or died miserably.

Wang Fan stood on the fourth floor of the three Zunjing with one knife and drove away, looking coldly at the fourth floor of the three Zunjing, his eyes full of murders.

His face was a little pale, and his blood was rolling.

But he is trying to suppress, calm down, adjust his state and the next shot opportunity.

Apart from his hatred with the three major forces, they deceive people too much, so he does not intend to let them go.

Even if he fled, Wang Fan would make the three forces pay some price.

He wants to tell the three forces that Wang fan is not so easy to provoke, let alone pursue.

The three Zunjing four layers also looked at the scene in front of them, and there was a storm in their heart.

It's not that they haven't seen the first level of terror, but it's really the first time for them to see such a terror as Wang Fan.

With just a few breaths, Wang Fan has already killed nearly ten people who respect the environment. It's too hard to imagine.

They have never heard of such a terrible respect, let alone seen it. Now even if they join hands, they have no confidence to eat Wang Fan.

"You old bastards, even if you chase and kill me, you dare to intercept me. Do you really think I'm a clay

kneader?"

"Some time ago, the leader of Wuhai sect didn't chase me and I killed him. Do you think you are better than him? "

Wang Fan looked at the four layers of Zunjing whose faces were constantly changing, and suddenly sneered.

As soon as he said this, it was like a huge stone smashing into the hearts of the three people, which made their hearts set off waves again. The leader of Wuhai sect, the valiant existence of Zunjing five levels, was killed by Wang Fan?

The leader of Wuhai sect went after Wang Fan but suddenly disappeared. They have heard about this.

But they didn't think about it at all, and they didn't dare to think about it. Wang Fan killed the Lord of Wuhai sect.

After all, is it a joke to kill Zunjing on the fifth floor? No one will believe such a thing.

Wang fan saw that the three people were shocked. He gave a cold smile and suddenly moved again.

He is waiting for this moment, he is waiting for this opportunity.

The reason why he deliberately said it was to make these three guys unprepared and absent-minded.

Wang Fan's right foot touched the ground. With a thump, the whole person immediately approached them like a shell.

Almost in the moment of approaching the three, he has appeared in a relatively good angle, directly without hesitation to show a cut.

The bright sword like lightning across the general, the frenzied killing force swept, directly is already three people submerged.

He did not aim at anyone, but directly at the three people.

After they recovered, their faces changed in an instant.

The people on the left and right sides hardly hesitated. While they were agitating their body protecting spirit, they suddenly attacked the man in the middle.

Obviously, when they feel that their lives are threatened, they have no hesitation in choosing to attack their peers.

Where will the middle man go? Will his two companions attack him?

He was also just crazy about stirring up the vigorous Qi and retreating towards the rear.

When he reacted, the two men's attacks had fallen on him.

"You, you... He just had time to say these two words, boom twice, and he was hit by them.

Immediately, in his desperation, his body flew forward.

Almost in the moment of his body flying forward, the bright blade has already fallen on him.

Whoa!

A sound, followed by a spatter of blood mist, the man heavily flew out, and then fell to the ground.

I'm dying!

After strangling the man, Dao mang didn't stop, but continued to row to the other two like lightning.

Chapter 2255

The other two have changed their faces!

They did not expect that Wang Fan's knife would be so powerful. After killing their companions, they still had such a powerful aftereffect.

They excite the body protecting vigorous Qi to retreat madly, and wave out their weapons madly.

The one on the left side of Zunjing's fourth floor waved out a round shield. The shield suddenly soared in front of Wang Fan.

The man on the right blasted out a steel fan. The steel fan was not big at the beginning, but it flew out and suddenly rose to the size of the door panel.

However, although they reacted very quickly, they also sacrificed their defense weapons for the first time.

But the power of their magic weapons has not been fully stimulated, and the bright sword has been blown up.

Click, click.

Under the violent force, the shield and the steel fan were blown to one side, and then fell on them.

With another click, the vigorous Qi of protecting the body stirred up by the two human bodies also broke in an instant.

However, at this time, due to repeated resistance, the power of one chop was greatly reduced, and no fatal damage was caused to them.

Even so, they were still thrown out by the powerful blast, and there was a lot of blood mist in their mouth.

After they fell to the ground, they stared at Wang Fan, pale.

Powerful, really powerful.

Although Wang Fan has the element of sneak attack, and occupy the first opportunity, but still can not deny the power of Wang Fan.

If the transposition, they think they can not do Wang fan so.

Wang Fan looked at the seriously injured but not dead two Zunjing four layers, the heart can not help but sigh.

He knew that he could no longer do it.

Let's not say that the successive attacks before cost him a lot. If we didn't use the killing rifle, it would be impossible to kill these two people in a short time.

He had to leave the three Zunjing fourth floor, which had been rapidly approaching. Otherwise, when the three Zunjing come to the fourth floor, he will be in danger.

Don't look at his strong cut over so many people, but in fact his consumption is also very big, it is not so easy.

Wang Fan did not continue to start, but a flash, quickly swept the ship from behind, frantically rushed out.

The two seriously injured Zunjing four layers saw Wang Fan fleeing, their faces couldn't help changing, but they didn't dare to stop him at all.

They knew that even if they stopped them, they would die.

Even if they can delay until the reinforcements come and finally take Wang Fan, there is absolutely no chance for them to survive.

People are selfish, even if they are all from the three major forces, even if they all know that Wang Fan

has secrets and three holy orders, but for their own small life, they still choose to be a turtle.

On the spaceship, Luo Ru looks at the pale Wang Fan. She can't help but feel shocked. Meanwhile, her eyes are full of worry.

Although she arrived at the scene of the battle later, her mental strength had seen the whole process.

Wang Fan's powerful, once again refreshed his understanding.

Wang Fan left less than half an hour, the three Zunjing four floor is already arrived at the scene.

When they look at the scene, they can't help being shocked and angry.

Wang Fan ran away, Wang Fan ran away smoothly!

And before he escaped, he killed so many of them!

However, no matter how angry they are, they have to bear it.

They did not go after Wang Fan, because they knew that it was meaningless.

Let alone that they can't catch up with Wang Fan at all. Even if they catch up with Wang Fan, the three of them may not be able to keep Wang Fan.

It never occurred to anyone that Wang Fan, who came from the 18th National Congress of the Chinese Empire, had stirred up such a big storm here.

Wang Fan ran so fast that he didn't dare to stop.

Three days later, he was relieved.

Fundamental map, he already knew that he had left the control of the three forces.

Now that he has left the three spheres of control, it means that he is safe.

Wang Fan heavy relief, slightly slowed down some speed, and then grabbed the stone to recuperate.

He has already remembered the three major forces. One day, he will come back and wash away today's shame.

"Brother Wang Fan, have we left the three spheres of influence?" Wang Fan slows down, Luo Ru naturally is the first time to notice, she can't help but ask.

"Yes." Wang Fan nodded, "we are now out of the control of the three forces, and the people of the

three forces should not catch up."

Wang Fan said, his face suddenly became dignified, "but we still have to be careful, although I bought the map, but there is no safe line." "Once we break into the territory of those powerful monsters, we will still be in danger."

"During this time, I'll control the spaceship, so you can be at ease and strive to break through to the peak of the Ninth level of Wang Jing as soon as possible."

"When I get to the border center, I'll find a way to get you a Zunyi Dan, so that you can be promoted to Zunjing."

In this place, no strength is absolutely impossible.

Luoru's strength is very low. He can't see enough places in the border and corner areas. If he goes to the center of the border area, he will be more difficult.

There are so many strong people in the border and corner areas. It's hard for Wang Fan to protect luoru. If he gets to the center of the border, he is not sure that he can protect luoru.

"Well, I will try my best to practice, and I won't ask you to retreat." Luo Ru nodded and said, biting her teeth.

She also knows that her strength is not good, but she has no way.

Even if his talent goes against the sky, he has no cultivation resources and no time to practice. He is still a skillful woman who can't make bricks without rice.

"Well, when we get to the center of the frontier, I'll try my best to find you a relatively reliable clan. With your talent, it's a waste to follow me. If you have a good clan to join, it's good for you. "

Wang Fan thought about it and continued.

Although after this time together, Wang Fan also has some affection for luoru, but he knows that he can't always take luoru with him.

Because he still has a lot of things to do, it is doomed that the road ahead will not be calm. If he takes luoru all the time, it will harm luoru.

Luo Ru listen to Wang Fan's words, eyes suddenly become lonely down, she bit her lip, is going to speak, Wang Fan's face is suddenly changed, the spaceship suddenly stopped.

The sudden stop of the spaceship startled Luo Ru. She was about to ask Wang Fan, and she found that an old man appeared in front of their spaceship.

The old man has a rickety figure and a wrinkled face. He looks very old and can't see his age at all.

In his right hand, he held a very ordinary crutch, as if a gust of wind could blow it down.

If it wasn't for him, he would be regarded as an ordinary old man.

However, on such occasions, Luo Ru knew that the old man was absolutely not ordinary.

At this time, Wang Fan's face has become extremely dignified, and slowly walked off the spacecraft.

He didn't feel any breath of the old man, but he felt a touch of danger in him.

This man must be beyond the five levels of strong existence of Wuhai Zongzhu and Zunjing.

Chapter 2256

"Cough, the little guy is not slow. He escaped here so quickly. It's really not easy."

The old man looked at Wang Fan with a smile and looked very kind.

But his voice was a little weak, and he coughed from time to time, as if he would catch his breath at any time.

Wang Fan listens to this words, the pupil can't help shrinking, but soon returned to normal.

He hugged his fist and said politely, "this old man, I don't know what you mean. I don't know who you are."

In the speech, although Wang Fan was silent on the surface, but in the dark, he had already run the aura in his body crazily, and communicated with the killing shotgun.

In the face of the old man's horrible existence, which is likely to be the sixth level of Zunjing, he dare not be careless.

The old man glanced at Wang Fan, coughed twice and said, "it doesn't matter who I am. I just want to ask, master of Wuhai sect, have you killed me?"

Wang Fan listens to this words, the heart moment is cannot help a sudden.

He already knows who this guy is. This guy is from wuhaizong.

It's said that there was a strong man in Wuhai sect who respected the six levels of the realm. It seems that he is true.

Wang Fan was more dignified when he learned the identity of the old man. He held his fist respectfully and said, "old master"

only when Wang Fan said these three words, he had already moved abruptly.

Almost in an instant, he had seized the killing rifle and rushed towards the old man.

However, Wang Fan's face could not help changing when he was planning to stimulate the prohibition and the violent killing intention in the killing short gun.

He only felt a huge pressure on himself, and he could not touch the prohibition in the killing shotgun.

Wang Fan was shocked when he noticed this scene.

It was the first time that he could not touch the ban of killing short guns under pressure.

Is the sixth floor of Zunjing really so terrible?

"Cough, little fellow, I didn't have you when I came out. Don't take out your little tricks. "

"Well, it seems that you really killed that useless guy. You only respect the realm of a layer, even can kill respect the realm of five layers, really a hero out of youth ah

The old man's body emerged a majestic pressure, in the boom to Wang Fan at the same time, his old voice also spread out again.

There was a touch of sarcasm in his eyes that looked at Wang Fan. In a flash, he had already flashed to Wang Fan.

In the moment of approaching Wang Fan, his dry right hand suddenly protruded and directly grasped Wang Fan.

Without the slightest dispersion of killing power, without the slightest overflow of Qi, it is a common grasp.

But with his grasp, Wang Fan immediately felt as if there were countless invisible threads winding around him, which made it extremely difficult for him to move.

Wang Fan was deeply shocked. Although he had already guessed the strength of Zunjing six levels, he had guessed that he was not the opponent of Zunjing six levels.

But he never thought that he would be so powerless in front of the six strong men of Zunjing.

Seeing that the withered palm is about to grasp on his body, Wang fan can no longer care about others,

crazily biting his teeth, burning blood essence.

At the same time, the golden energy and aura in his body also surged out madly, converged on the killing shotgun in his right hand and blasted out hard.

Boom!

With a loud noise, the old man's dry right palm was patted on the killing shotgun. Wang Fan only felt a strong attack, and could not help spitting out a few mouthfuls of blood and flying backwards.

A violent force, like a rough sea, rushed into his body and began to wreak havoc.

Wang Fan felt an unspeakable pain.

Powerful, it's so powerful!

It was the first time that Wang Fan met such a powerful enemy.

Similarly, for the first time, he felt powerless.

Wang Fan was blown away for tens of meters before he landed heavily on the ground.

With a single blow, or a random slap, he was seriously injured.

Wang Fan's heart was full of fear. What he was afraid of was not the power of the old man's hand, but the old man's means of restraining him.

Under the strong pressure and invisible bondage of the old man, his strength can't play much.

"Cough, little guy, it's useless. In the face of absolute strength, any conspiracy is useless."

"You just respect the environment. Even if you use the means again, you won't be my opponent. You'd better go back with me. I want to do a good research. What's the secret in you

The old man said lightly that he had approached Wang Fan again.

Wang Fan's face became ugly.

His fists were clenched, and his eyes were ferocious and scarlet. Just as he was going to continue burning blood essence regardless of everything to resist, he would explode himself if he couldn't.

Suddenly, the hidden golden energy in his mind moved strangely.

The golden energy just quickly turned around his body, and the invisible bondage imposed on him had

completely disappeared.

However, his injury has only improved, but he has not recovered.

Wang Fan felt this scene, first also Leng, then ecstatic.

Although his injury has not been healed by golden energy, removing the shackles is the biggest help for him.

Wang Fan suppressed his inner ecstasy, and still looked at the old man as ferociously as before, "old bastard, if you want to study the young master, you should not dream."

"The Lord of wuhaizong was indeed killed by my master. He was killed by my master on the fifth floor of Zunjing. He deserved to be killed."

"If you want to take revenge for that rubbish, just do it and see if you will frown."

Wang Fan's ferocious roar has madly triggered the killing intention in the killing short gun, and blasted out.

The valiant old man of the sixth floor of Zunjing never thought that Wang Fan could get rid of his bondage and pressure and launch such a fierce counterattack.

When he reacts, the killing short gun in Wang Fan's hand has set off a series of terrifying gun patterns and killing power, covering him in the past.

Looking at the gun pattern all over the sky and feeling the terrible killing power, the old man's face finally changed slightly. But it's just a change, far from fear.

I see that it is just a random step back, that is, it has exited hundreds of meters away.

In a moment, his dry right hand came out again, but this time it turned into a fist and bombarded the gun pattern and killing power.

Boom, boom, boom!

The old man's fists rolled up a violent energy storm and pounded hard on the gun pattern killing power all over the sky.

All of a sudden, those spear patterns began to collapse.

However, although the gun pattern killing power is collapsing, the old man still underestimates their power.

Even though his fists have blocked many gun patterns, there are still several of them on him.

Chapter 2257

The gun pattern curled on the old man, hanging a series of blood fog, and the old man couldn't help flying backwards.

His heart set off a storm, obviously did not expect that he was injured.

Although he suffered only a few minor injuries and didn't affect his strength at all, he was still injured.

He would not have believed it if he had not experienced it himself.

Wang Fan was shocked to see that the old man was only slightly injured.

He tried his best to stimulate the killing short guns, but they only slightly hurt the old man. It seems that it is impossible for him to kill the old man.

Think of here, Wang Fan where dare to stay, he crazy burning blood essence, directly rushed to the ship not far away, with a rainbow and fled to the distance.

No matter whether he can escape or not, he has to escape. It's not his character to wait for death here.

"Want to go?" When the old man saw that Wang Fan wanted to run away, a touch of sarcasm appeared in the corner of his mouth.

It's just a level of respect. If he really escaped in his hands, he would not have to continue to practice.

He wiped it on his body, and the wound on his body began to heal. Immediately he got up and chased Wang Fan.

But he just chased less than 1000 meters, and his old face couldn't help changing.

The void in front of him suddenly twisted strangely, and a strong black fog emerged, covering half the sky in the blink of an eye.

After the emergence of the black fog, there was a huge tear in it, and then the ghost of a monster that couldn't see clearly jumped out.

The beast's shadow was full of demons. After it appeared, it bit the old man.

Looking at this scene, the old man couldn't help being shocked.

Just from the momentum, he already knew that the strength of this monster virtual shadow was no less

than him.

It's just a mirage of the ghost. It's no less powerful than him. If you come, it's amazing.

The old man knew that it must be his own breath that was detected by the nearby hermits, so he turned into a false shadow warning.

He didn't dare to fight with the ghost at all. Instead, he flashed back and disappeared after only a few flashes.

His heart is full of unwilling, unexpectedly let Wang Fan escape.

But no matter how unwilling he was, he couldn't help it.

He set foot in the territory of the powerful monster, and the other party did not allow him to continue to kill Wang Fan in this area.

.....

although Wang fan is desperately controlling the spaceship to escape, his mental strength has clearly detected this scene.

His face changed wildly, and there were waves in his heart.

The strong man of Zunjing sixth floor, who almost killed him and didn't have much fighting power in front of others, was scared away by a ghost of a monster. Wang Fan felt numb, and he didn't dare to think about it any more. He controlled the spaceship to go away quickly.

It's really terrible that there are such fierce monsters nearby. He doesn't dare to stay in this area.

"Brother Wang Fan, what is the black fog just now, and what is the virtual shadow of the monster? Is it the powerful monster nearby?"

Luo Ru is also pale, after a little calm, can't help asking Wang Fan.

Now Wang Fan where has the mind to answer Luo Ru's words, just casually ah, then again regardless of everything crazy on the way.

However, Wang Fan at most rushed forward a hundred Li or so, and there was a similar black fog in front of him.

Wang Fan looked at the black fog, and his soul was almost out of his wits.

He knew that it was the monster who came to him.

In front of the old man on the sixth floor of Zunjing, Wang Fan didn't have much resistance. In front of the powerful monster who scared away the old man, he didn't have much resistance.

He knew that he could not escape, so he simply stopped running, but directly controlled the spaceship to stop.

It's a blessing, not a disaster. It's a disaster. We can't avoid it. Now we have to leave it to fate.

His heart was a little depressed. He didn't expect that the map he took and bought was really unreliable.

Even if the map has not been verified, it should not put him in such a dangerous situation so soon, right?

After half an arm of the sky, as before, the black fog split a hole in the middle.

What's different is that the one who comes out of this split is not a ghost, but a handsome middle-aged man.

Wang Fan looked at the middle-aged man who stepped out of the crack, and his mouth could not help choking.

He would like to ask whether the middle-aged man is a man or a beast.

If the middle-aged man is a man, it's better, but if he is a beast, he can be transformed into a monster...Wang Fan didn't dare to think about it any more.

"Master, thank you for saving my life." Wang Fan soon came back to his senses. He did not dare to hesitate at all. He quickly clasped his fist and bowed his body to thank him.

People in the eaves, had to bow, his heart is also very helpless.

"Ha ha, little guy, you are quite good. You know that I saved you." The middle-aged man said with a warm smile, and immediately went straight to the theme, "do you know why I saved you?"

Wang fanxin said that I didn't know, but I didn't dare to answer like this. Instead, he shook his head. "I don't know. Please help me."

The middle-aged man's tone was mild. "I feel the breath of my daughter in you. Although the breath is very weak, I want to ask, have you ever seen my daughter?"

Wang Fan listened to this, but could not help but frown.

The middle-aged man's daughter? Are you kidding? How could he have met this guy's daughter?

Wang Fan was stunned there for a moment and didn't know how to answer.

The middle-aged man saw Wang Fan in a daze. His face didn't change much. Instead, he said faintly, "her name is Moyi. Many years ago, we were separated."

Moyi?

Wang Fan's brow can't help wrinkling again. This name seems to be familiar, but he can't remember where he heard it for a while.

Wang Fan didn't speak, but began to think about it seriously. After a moment, his mind flashed, and he raised his head in shock.

"You are, vice president, her father?"

Wang Fan has already remembered that the vice president of Wangdu holy courtyard, who is a beast in itself, seems to be called Moyi.

Thinking of the vice president, he immediately thought that he had seen the virtual shadow of the monster before. Although the virtual shadow could not see clearly, it seemed that it was really similar to the vice president.

But Wang Fan didn't understand that vice president was in the 18th Empire, how could her father be in the border region, and the strength was still so strong.

"Have you really met my daughter? Where is she? "

When the middle-aged man heard Wang Fan's words, he was no longer calm and immediately excited. He stepped forward and grasped Wang Fan's shoulder.

Wang Fan was so caught by the middle-aged man, almost no blood gushed out.

He has already been injured, how can he bear the middle-aged man's grasp, even if the other side is not hostile.

The most important thing is that because of the excitement, the breath of the middle-aged man also fluctuated. Wang Fan felt that his head seemed to press countless mountains, and some of them were out of breath.

Chapter 2258

The middle-aged man noticed the change of Wang Fan's face, which made him realize his gaffe. He quickly converged his momentum, and a trace of apology appeared in his eyes.

After Wang Fan calmed down, he first described the appearance and appearance of the vice president

and confirmed that he was really the daughter of a middle-aged man. Then he said,

"I met her in the 18th National Congress of the Communist Party of China. She was the president of our royal capital holy courtyard, but .."

Wang Fan didn't say the following words. He could see that the middle-aged man cared about the vice president very much.

If he tells the vice president of the other party now, he doesn't know if the other party can accept it.

"But if you have something to say, don't hesitate." Middle aged man see Wang Fan pause, brow can't help a wrinkle, said directly.

At this moment, a touch of dignity appeared on him, which belonged to the power of the strong.

It's not so easy to be able to cultivate to his point, and he's still a monster. Moreover, the nature of the monster is more ferocious and violent, and he is no exception.

The reason why he can always be kind to Wang fan is that he has something to ask and cares too much about his daughter.

If not, with his strength and identity, how could he be so kind to just one person.

Wang Fan sighed, "Wangdu Shengyuan has been destroyed, and vice president has disappeared. Now I don't know where she is."

Wang Fan did not say a word, that is, he is not sure whether the vice president is still alive.

"What do you say? The Royal Palace has been destroyed. My daughter is missing. Who did it?" Hearing this, the middle-aged man's face immediately changed, and his body was even more violent.

Just like the 18th National Congress of the Communist Party of China, some people dare to touch his daughter. He has the impulse to completely wipe out the 18th National Congress of the Communist Party of China.

"The three forces did it." Wang Fan did not hide, simply said it again.

"You mean Wuhai sect, Tianyin sect, skeleton sect?" Hearing this, the middle-aged man's face changed again.

The fury in his heart was beyond imagination.

He can see at a glance that Wang Fan did not lie at all, and there is no need for Wang Fan to lie about such things.

"Yes." Wang Fan nodded. His heart is also sneering, three forces ah, three forces, next, you wait to bear the anger.

This middle-aged man is crazy. Even if he can't destroy the three forces, it's enough for them to have a headache.

Even Wang Fan did not expect to meet the father of the vice president when he left the three spheres of influence.

"Well, thank you very much. I see the direction you are leaving. Are you going to the border center?" The middle-aged man did not continue to say more about it, but suddenly took a fancy to Wang Fan and asked.

Wang Fan nodded, "yes, I plan to go to the border area center to experience myself."

The middle-aged man had a look of appreciation in his eyes, and then said, "young people are really hard-working, good, you are very good."

He said, his expression suddenly became dignified, "however, you must be careful. It's very far away from the center of the border area, and it's also very dangerous."

"I have a circuit diagram here. I dare not say it's absolutely safe, but it can help you avoid some troubles."

"And this space ring, which has some resources, is my thanks to you."

"If you accidentally break into the territory of the monster King within 100000 Li, you can also take out this space ring to show them."

"I have some friendship with many monster kings within 100000 Li. Maybe they will give you convenience in my face."

"Well, I'll leave if I have something else to do. I wish you a good journey and goodbye in the future."

The middle-aged man said, took out a map and a space ring to Wang Fan, and then left here, even he didn't have time to let Wang Fan thank him.

"Thank you, master." Although the middle-aged man has left, Wang Fan still quickly thanks. After a few breaths, he steps on the spaceship and takes Luo Ru on his way.

On the spaceship, while Wang Fan was healing, he also checked the space ring.

In the space ring, there are countless top-quality spirit stones and precious spirit grass. Obviously, the

middle-aged man is very rich.

Wang Fan almost ran out of spirit stones because of the auction of Sansheng order. Now the middle-aged man has never had so many spirit stones, which has solved his urgent need.

However, there is no elixir in the space ring, even one.

It seems that even if the middle-aged man is strong, as a monster, he can't make pills. And obviously, he didn't know any senior alchemists.

Wang Fan simply sorted out the spirit grass, but in the process of sorting out, he found that there were even the spirit grass for refining Zunyi pill, and there was more than one.

Wang fan is ecstatic. With these spiritual herbs, he can try to refine them himself, and then give them to Luo Ru, song Rumei and other relatives. "You control the spaceship first. Let me know if you have anything. I'll make some pills."

Wang Fanqiang held back his inner excitement and said to Luo Ru.

Luo Ru nodded and went to control the spaceship.

Wang fan is to make a border, began to refine the pill.

Only when lingcao was transformed into elixir, could it help the friars to the greatest extent.

There are so many spirit herbs. If they are not refined into pills, it would be too violent.

Wang Fan did not make Zunyi pill at the beginning, but made it from low to high.

Along with the incineration of the spirit grass, accompanied by the emission of a continuous stream of Dan Xiang, the spirit grass in his hands, also gradually turned into Dan medicine.

Three days later, those low-level spirit grass had been all refined by Wang Fan.

At the same time, Wang Fan's method of refining pills is more proficient, and his mental perception is more concise.

Eight days later, Wang Fan's intermediate spirit grass had been polished, and the pills beside him had accumulated a lot.

On this day, Wang Fan took out the spirit grass to refine Zunyi pill. He felt that the time had come to refine Zunyi pill.

Zunyi pill belongs to the sixth level pill, and it is also one of the more difficult pills. Even if it is a sixth

level alchemy master, the success rate will not exceed 40%.

Wang fan is now a master of alchemy at level 6. There is still some distance from level 7, but he has never refined Zunyi pill.

Wang Fan was not too nervous. After adjusting his state, he started refining.

He has eight copies of the Zunyi Danling grass here, so in his opinion, it's enough for him to spend.

Refining Zunyi pill, Wang Fan no longer has the ease of refining low-grade pills.

Along with a plant spirit grass was refined, all his mind has also been put in. He carefully looked at every detail, every change, dare not have the slightest relaxation.

But even so, in the melting of Dan, still due to a small detail did not control well, led to the failure of this furnace of Dan medicine.

Wang Fan shuddered and opened his eyes pale. He did not continue refining for the second time, but carefully recalled it and found the cause of failure.

Chapter 2259

Two more hours later, Wang Fan finally made Zunyi pill, and also made twelve.

Twelve Zunyi pills are enough for him.

He didn't continue refining. He was about to get rid of the border ban. Suddenly he heard a loud bang, and then the spaceship shook violently.

Wang Fan's mental power spread out, and he found out in an instant. I don't know when, the three friars had stopped their spaceship, and one of them also shot a knife directly at the spaceship.

Luoru was pale and stood in the spaceship, some at a loss.

Wang fan saw this scene, where dare to neglect, directly removed the prohibition and went out.

"What's the matter?" He looked at loru and asked.

When Luo Ru saw Wang Fan coming out, a surprise appeared in her eyes. She was finally relieved. She said quickly,

"more than an hour ago, these three people stopped our spaceship and said they wanted to take it. I didn't pay attention to them, and they came up in anger. "

"I've tried my best to push the speed of the spaceship to the fastest speed, but I still didn't expect that I

was chased by them."

As soon as Wang Fan heard this, he immediately understood what was going on.

Their faces became cold, and then they stepped out of the ship.

These three friars all have three levels of cultivation, and their breath is very thick.

It's normal for eloru to be chased up by them, even if he tries to push the spaceship.

The friar who bombarded the spaceship didn't expect that he had not been able to smash the spaceship. He was planning to bombard the spaceship the next time when he saw Wang Fan come out.

Looking at Wang Fan who walked out of the spaceship, a touch of surprise appeared in his eyes.

Because he didn't realize that there was such a monk as Wang Fan in the spaceship.

Not only he, but also his two companions were very surprised. Obviously, they didn't realize the existence of Wang Fan.

However, when they realized that Wang Fan's strength was only one level of respect, they immediately relaxed.

Without waiting for Wang Fan to speak, the friar who bombarded the spaceship began to speak unhappily.

"You are such a big shelf. We don't want to take a ride in your spaceship."

"It's just two mole ants. We haven't robbed your spaceship. It's already a shame for you. Since you are not smart, don't blame us for robbing your ship. "

This person's tone is very arrogant, did not put Wang Fan two people in the eye at all.

Of course, with their accomplishments, there is no need to pay attention to Wang Fan.

Luoru's strength is less than that of Zunjing. Wang Fan only has one level of Zunjing. How can three strong people of Zunjing see this kind of strength.

Wang Fan listened to each other's words, his expression didn't change much, but said faintly,

"our spaceship, why should we give you a ride? The spaceship belongs to us. Even if we don't want to take it for you, what's the matter? "

"To take our spaceship is to give us face? We don't want this kind of face, OK? "

Wang Fan's voice is very flat, but his eyes are full of coldness, "if you don't take the spaceship, you will snatch our spaceship. You are really arrogant."

"I didn't kneel down when you saw me. Should I kill you?"

As soon as Wang Fan's words came out, the three monks' faces immediately changed, and their eyes were cold. At the same time, there was a sense of killing.

"What did you say?"

"Do you have the guts to say it again?"

"It's a shameless thing. I've seen a lot of arrogant people, but it's the first time I've seen such arrogant people like you. I'm looking for death!"

They didn't expect that Wang Fan, who was just on the first floor of Zunjing, would dare to be so arrogant in front of the three of them.

They were all a little angry!

"I said that all three of you are rubbish. You should kneel down to me." Wang Fan disdained to say a word, no longer lazy nonsense, grab out the shadow knife waved out.

Wang Fan hasn't paid much attention to his three-tier status.

These three guys dare to split his spaceship. They are looking for death!

Originally, Wang Fan was chased by the three forces and bullied by the old man of the sixth floor of Zunjing.

Now these three people don't know how to come to the door, he will not be polite.

When the shadow knife was wielded, it suddenly rolled up a fierce killing momentum, and a wave of dozens of Zhang long sword suddenly emerged, and split towards the three people.

Three people feel Wang Fan knife wave in mix of that terror kill potential, the facial expression is in the instant become ugly.

At this time, even if they are pigs, they already understand that the mole ants in front of them are not simple. At least the power of this move has surpassed them.

The three did not dare to neglect, madly offered their own weapons, madly toward the sword wave. Boom boom!

The sound of explosion came out crazily, and the joint attack of the three people turned out to be a blow back of Wang Fan's sword wave.

Wang Fan looked at the scene, sneered, and waved out a knife.

With this knife, Wang Fan directly used the great wilderness to destroy the vault.

More violent than before, the killing momentum surged out, mixed in a huge sword mu, facing the three men.

Three people feel this scene, the complexion is uglier.

They didn't expect that Wang Fan would be so crazy. Before the first knife was taken back completely, they directly shot out the second knife.

The most important thing is that Wang Fan's second Sabre was so powerful.

What is the first level of Zunjing? It's no less than the fourth and fifth level of Zunjing!

Their hearts have begun to regret provoking Wang Fan, but there is no regret medicine at this time.

Three people crazy burning blood Essence Aura, agitate the whole body essence, crazy blow out the weapon in the hand.

Boom boom!

The terrible energy storm diffused and exploded on the huge sword mu. The sword Mu began to tremble in an instant and began to collapse.

But it was a small collapse.

And the energy storm of the three of them burning essence and blood aura completely dissipated in this collision.

Dao Mu's castration didn't reduce at all. He bombed the three people severely. With a series of bloody splashes, they flew out directly.

They splattered a lot of blood mist on their bodies. When their meridians were torn apart inch by inch, they fell to the ground like dogs, and their faces were gray.

They have set off a storm in their hearts. They can't resist Wang Fan's knife?

If it wasn't for personal experience, they wouldn't believe it.

Wang Fan was also slightly surprised. In his opinion, his great desolation was enough to kill the three guys. But now, these three guys aren't dead?

Wang Fan grabs the shadow knife and is about to rush up to make up for it. Suddenly, one of the friars screams wildly.

"Don't kill us. We are the disciples of wudaozong. If you kill us, wudaozong will not let you go."

Wudaozong?

Wang Fan listens to these three words, in the hand movement suddenly stiff, the complexion changed greatly.

He thought of xudaozi of wudaozong. It was this guy who ordered Nie Tianlang to go out and kill his brothers.

Wang Fan didn't expect that when he came to the frontier for such a long time, the wudaozong, who had never been inquired about, had news at this time.

Chapter 2260

"What are you talking about? Are you the disciples of wudaozong Wang Fan stepped in front of the three, and his tone suddenly became cold.

When the three monks saw Wang Fan's appearance, their faces couldn't help changing. A more clever monk quickly said, "yes, we are the disciples of wudaozong."

He is not a fool. As long as he hears Wang Fan's words, he knows that Wang Fan must have heard of wudaozong.

Originally, he planned to remind Wang Fan if he had never heard of wudaozong. But since Wang Fan had heard of it, it would have saved him a lot of things.

The name of wudaozong is outside. He doesn't believe that Wang Fan dares to attack them even after he knows they are wudaozong disciples.

"Where is wudaozong? Oh, by the way, is there one in wudaozong called xudaozi

Wang Fanqiang can't help but ask after the fluctuation of his heart.

At this time, he was really excited.

Having been in bianyu for so long, he finally heard about wudaozong.

At that time, xudaozi of wudaozong sent Nie Tianlang out to kill him, but in the end, he failed to kill him and killed his brothers by mistake.

This matter has always been a thorn in his heart. If he does not pull it out, he must find out the reason.

"I, we don't know." To Wang Fan's surprise, the man shook his head when he heard Wang Fan's question.

He seemed to know that shaking his head would make Wang Fan angry. He said quickly, "although we are disciples of wudaozong, we haven't been to wudaozong yet. This time, we are going to report on wudaozong

Wang Fan listened to these words, his face became cold immediately, but soon he knew what was going on.

These three guys belong to the same family. Their family got three places for the disciples of wudaozong, so they were asked to report to wudaozong.

Their identity information, the family has already reported no daocong, only sent himself to the sect. That's why they say that they are disciples of wudaozong.

As for why they told Wang Fan about it, it was because the name of wudaozong was too big.

Even if they are such disciples, ordinary people dare not touch them easily.

In the intermediate domain, wudaozong is the king. No one dares to disobey wudaozong.

If someone kills a disciple of wudaozong, wudaozong will certainly investigate, and the murderer will certainly be found.

Wang Fan heard the word "intermediate domain" and asked again. Then he knew that there was no center in the border domain.

Because the three major forces are in the corner of the border area, they have never left that area, so they have the name of the center of the border area.

Specifically, the edge domain is divided into four parts: corner domain, low-level domain, intermediate domain and high-level domain.

The angle domain is close to the lower domain, but the distance between the lower domain, the middle domain and the higher domain is unimaginable.

And wudaozong is the master of the intermediate domain, which shows that it is powerful.

Wang Fan listened to these contents, his heart was also shocked.

He once again asked the next three people if they knew the sanshengmen, but they all shook their heads, apparently never heard of it.

"For the sake of your answers to many of my questions, I'll forgive you today. Next time, if it comes to me again, I won't be polite."

After Wang Fan asked what he wanted to ask, he left coldly with Luo Ru.

The reason why he didn't kill these three people was not because he was afraid of wudaozong, but because they answered many questions he didn't know.

On the spaceship, Wang Fan's heart was also shocked, unable to calm down for a long time.

He didn't expect that the border area would be so big and there would be such a detailed division.

After such a long time, he didn't even arrive at the lower level domain. It seems that he still has a long way to go to the middle level domain and wudaozong.

The most important thing is that wudaozong is the master of the intermediate domain, which is like a mountain pressing on his mind.

Now he can't even deal with the three forces in Jiaoyu. It seems even more difficult for him to go to wudaozong to find xudaozi for revenge.

His strength needs to be improved.

Luo Ru see Wang Fan thinking things, is also very clever, did not disturb Wang Fan, just in silent control of the spacecraft forward.

"Loru, let me control the ship. Here are two Zunyi pills. Take them to practice first and break through to Zunyi as soon as possible. "

After Wang Fan recovered, he took out two Zunyi pills and gave them to luoru, saying.

"Zunyi Dan?" Luo Ru listen to Wang Fan's words, can't help but Leng for a while, then quickly shake his head and say, "brother Wang Fan, this is too precious, I can't want it."

Her first thought was not to take it. Zunyi Dan is something, even if she is a rookie, she knows it.

That's the elixir that all the monks in Wangjing dream of, especially the monks in the ninth floor of Wangjing will be crazy for respecting Dan. Looking at all the nine level monks in Wang Jing, how many of them are unable to break through because they have no respect Dan?

Wang Fan took out two pieces of this kind of adverse things to her. How could she not be shocked?

Wang fan can't help but be stunned when he sees Luo Ru's appearance. After returning to his mind, he says, "Luo Ru, do you and I need to be so polite? You call me big brother. I should give you two Zunyi pills."

"What's more, you've been following me all the time. If you don't improve your strength, I can't guarantee to protect you. Only when you are strong, can you have greater ability to protect yourself. "

In Wang Fan's opinion, Luo Ru has been with him for such a long time, and they have been in trouble for so many times. Luo Ru can't refuse his respect at all.

But he didn't expect that, but Luo Ru refused.

Luo Ru hears Wang Fan's words, first is Leng for a while, then said thanks, took over Zunyi Dan.

She took Zunyi Dan not because of Wang Fan, but because she didn't want to be Wang Fan's oil bottle.

Soon, luoru entered the border set by Wang Fan to practice, and Wang fan controlled the spaceship to move forward.

In the blink of an eye, another month passed.

For more than a month, Wang Fan felt the breath of many powerful monsters, but he avoided them in advance.

Just from those breath, he already knew that the other party was absolutely no less than the existence of the six level old man in Zunjing.

Wang Fan did not dare to provoke this kind of monster.

As for those monsters whose strength is not enough to threaten him, he can avoid them, and he can't avoid them. He chose thunder to kill them.

In a word, although Wang Fan met many monsters in the past month, they did not cause any substantial danger to him.

On this day, Wang Fan, as before, was controlling the spaceship to drive on. Suddenly, he felt a strong aura wave.

As soon as Wang Fan's mind was shocked, he could not help but stand up and looked at Luo Ru who was practicing in the border.

His expression is very incredible, this just a month, Luo Ru is about to break through to respect the territory, this is also too evil, right?

It's really worthy of being a demon genius with heaven level talent.
