

## **Mighty Sk 2441**

### **Chapter 2441**

Wang Fan's insipid voice, just like a heavy bomb, blasted hard here, and everyone became shocked.

Wang Fan?

Is he Wang Fan?

Wang Fan did not leave the lower domain?

How is that possible?

There are countless question marks in everyone's mind.

As for being tired of astronomy, even his body trembled.

He said that he was not afraid of Wang Fan because he thought Wang Fan had left the lower realm. At this time Wang Fan appeared in front of him, how can he not be afraid?

"You, are you wang fan?" Disgusted with astronomy, he murmured with a pale face, then shook his head crazily and said, "it's impossible, it's impossible!"

"Wang Fan has already left the lower realm. How can you be Wang Fan? If you are really Wang Fan, why didn't you help when Yungong was attacked? "

"What did you say?" The words of tiring astronomy just mentioned here, I felt a big cold hand on his neck, and then lifted him up.

Wang fan is just like carrying a chicken carrying tired of astronomy, coldly asked, "you just said someone attacked cloud palace, what's the matter?"

His tone was very cold, because he didn't know about it at all.

And he also has some doubts, since someone attacks cloud palace, why didn't Ji Yun send him a message?

If no one believed in Wang Fan's identity before, now everyone believes it.

To be able to pick up astronomy weariness like a chicken so easily, even the top nine of Zunjing may not be able to do it.

Now Wang fan can do it easily. It's obvious that the person in front of him is Wang Fan.

"Before, master, Rao..." the whole heart of the astronomy weariness is also cold, it is absolutely out of my wits.

He did not dare to have the arrogance before, but became extremely afraid.

In that intense fear, his son's death had already been forgotten by him.

If he had known that his son would bring him such a big trouble, maybe he would have crushed the evil son ahead of time.

"Spare your life? I don't think you should dream any more. As I said, I will level your whole city Lord's mansion. "

Wang Fan sneered, and then waved, tired of astronomy was thrown into the void. Immediately, without waiting for his body to fall to the ground, he had already followed 108 spikes.

Hiss, hiss, hiss!

Several numbing sounds came out. Just in a moment, the astronomical weariness was nailed directly on the city gate by 108 spikes.

The red blood overflowed from all parts of his body. Compared with Liao Wuqing's father and daughter, it was more than a hundred times miserable?

Seeing Wang Fan's fierce hand, Feng Qianshui and other masters of the city master's mansion had already shaken all over with fright.

"Master, we..." at a certain moment, Feng Qianshui couldn't help it. He insisted on asking for mercy.

However, before his words were finished, Wang Fan had slapped him in the past.

Bang!

With a loud noise, Feng Qianshui didn't even have the ability to resist, so he was slapped by Wang Fan into a blood mist.

"Run away!"

"Run away!"

See Wang Fan mercilessly kill Feng Qianshui, where the rest dare to stay here, have scared to flee everywhere.

But they did not escape far, Wang Fan has dozens of slaps in succession.

Bang bang bang!

In a burst of deep explosion and blood mist splashing all over the sky, all the masters of the city master's mansion were blasted by those palms, and directly turned into smashes, all of them survived.

Wang Fan even killed Jiyun road and Yijian sect. He didn't pay much attention to the Mohe city leader's mansion.

In his eyes, these so-called masters of the city master's mansion are worse than ants.

"You wait for me here, and I'll come." After Wang Fan killed these people, he said a word to the utuo three, and then flashed into Mohe city.

That someone killed on the cloud palace, Wang Fan at this time where there is a mind to waste time here? He just wants to level Mohe's main residence as soon as possible, and then rush back to the cloud palace as soon as possible.

In a burst of roaring sound, just a few dozen breaths, the whole city hall has been completely shoveled into ruins.

As for the friars in the city master's mansion, Wang Fan did not move any of them whose accomplishments were below the Zun territory, and as for those servants, he did not move any more.

His king was not so cruel that he even killed the low-level friars and servants.

After flattening the main residence of Mohe City, Wang Fan and wutuo left Mohe city in a hurry and rushed to Yungong.

As for the astronomy weariness nailed at the gate of the city, Wang Fan didn't even look at it.

He believes that by his means, even if he leaves, no one can save the astronomy weariness, who can only wait to die.

Wang Fan didn't know. He just left for a few hours. The day turned black. After all the people at the gate left, a ferocious monster appeared here. This monster is very terrible, only head, neck, and two arms, as for other places, it is completely empty.

After he appeared, he quickly waved his hands dozens of times, and the 108 spikes on his tattoo had been caught. Then with a bang, he fell to the ground.

After catching the 108 spikes, the monster obviously consumed too much, and his ferocious face became very pale.

But he didn't care. Instead, he said with a smile, "it's your luck to meet me. I hope your essence and blood can be useful to me."

Say, the monster two hands once again a grasp, that whole body dye blood coma past of disgust astronomy, have already been grasped by him in the hand. Then he slowly sank into the ground with his tiredness of astronomy, and soon disappeared.

...

the injuries of Liao Wuqing's father and daughter are also very serious. Although they are far from the level of utuo before, they are not much different.

Wang Fan sighed helplessly and took out two drops of vital pulp without hesitation.

He was a little lucky that he got 28 drops of vital pith, otherwise he would have nothing to do with the injury of Liao Wuqing and his daughter.

You know, after Liao Wuqing and his daughter used two drops of 28 drops of vital pulp, he had only 18 drops left.

In other words, he has used up ten drops in less than two years since he came out of Zhenhong space, which is really terrible.

"I'm sorry, I implicated you. I'll take you to the cloud palace and let you practice in the cloud palace. What do you think of other plans when your accomplishments are high in the future? "

After Liao Wuqing and his daughter's injuries stabilized, Wang Fan looked at them and said.

"It's not your fault, it's only our lack of strength. Younger martial brother Wang Fan, whatever you say, we all listen to you. " Liao Wuqing said gratefully.

Wang fan is a strong man. Even if he ignores him, he doesn't dare to have any opinions. Not to mention that Wang Fan was willing to take out two drops of vital pulp for him and his daughter.

As for Liao Yunyan, he looked at Wang Fan with adoration, but he didn't say a word.

Wang Fan and his party rushed to Yuntian city in just a few days.

Yuntiancheng looks very calm, there is no sign of being attacked at all.

But when Wang Fan's mental power swept to the cloud palace, his face was completely gloomy.

**Chapter 2442**

The whole clan gate of the cloud palace has been closed by the big array, which not only has the effect of trapping and killing, but also can isolate all the breath here and the communication beads.

Wang Fan finally understood why the cloud palace was attacked. Ji Yun and Luo Ru didn't give him any information.

It's not that they don't want to give him a message, but the message is blocked by Da Zhen and can't be sent out at all.

The level of the array has reached level 6. Even Wang fan can't penetrate the array in a short time and see the situation inside.

It's just that Wang fan doesn't need to investigate the situation inside at all. Just look at the array and you will know that there is no good thing.

He wanted to see who he was, and he dared to attack the cloud palace.

This time, no matter who the other party is, he must destroy it and never give the other party the chance to escape. Otherwise, it is difficult for him to leave the lower realm.

"Elder martial brother Wang Fan, someone has arranged the big battle array?" Although Wu Tuo could not see the level of the big formation, he could also see that it was a trapped and killing formation.

It's obvious that the other party wants to kill all the people in the cloud palace and not give anyone a chance to escape.

Wang Fan did not speak, just step out, has come to the big front.

He didn't immediately bombard the big array, because he saw at a glance that the big array had an automatic trigger effect.

Once he forcibly attacks, and can't break the big formation at one time, the big formation will start immediately, or even explode.

Once the six level trapped killing array explodes, it will not destroy the monks of the cloud palace, but it can also make the cloud palace hurt.

Wang Fanqiang held back his anger and began to search for a breakthrough.

Inside the array, the cloud palace had already been destroyed, and houses and temples collapsed into ruins.

On the ground, the corpses are everywhere, and the red blood has even dyed most of the land of cloud palace red.

Among these disordered corpses, there are friars of Yungong, shengxia hall and wudaomen. Of course, most of them are friars of Yungong.

At this time, Ji Yun, Luo Ru and other nearly 100 disciples of the cloud palace have been forced to one of the corners, and there is no way back.

In front of them, there are hundreds of monks in shengxia hall and wudaomen.

Among the hundreds of shengxia Dan and wudaomen friars, the first are Duan Wuyong, the main monk of shengxia hall, and he Changhe, the main monk of wudaomen.

They looked excited and angry.

They are excited that after three days of fierce war, they have finally seen the hope of victory.

As long as the last hundred people are killed, the cultivation resources Ji Yun got at the beginning will fall into their hands.

They are angry that although they are about to win the final victory, the loss is just as heavy.

However, thinking of the dozens of top-grade spirit veins and hundreds of millions of top-grade spirit stones, the anger was soon dispelled by them.

Duan Wuyong looked at Ji Yun and his party, who were forced to the corner, and said coldly, "Ji Yun, now, do you still want to resist?"

"If you know the truth, you should hand over the top-grade spirit vein and top-grade spirit stone that blackmailed us at the beginning. Maybe I will give you a good time."

"Otherwise, you will not just die. I will let you beautiful women know that women have many uses besides cultivation."

Duan Wuyong's voice is cold, but his eyes are constantly sweeping back and forth on Ji Yun, Luo Ru and several other nuns with good looks. His eyes are full of greed.

Ji Yun bah, ferocious said, "Duan Wuyong, you are really shameless. At the beginning, it is clear that you took the initiative to come to the door to apologize and also took the initiative to come up with resources. Now you even say that I blackmail? "

"If I had known you would be so shameless, I would have let Wang Fan destroy you."

At this point, Ji Yun pause, the tone is more cold, "to start quickly, not so much nonsense."

"Our cloud palace disciples will never kneel down to be bullied even if they die in battle. I suggest you kill us quickly and get out of the cloud palace or even the low-level domain immediately. "

"Otherwise, once Wang Fan comes back, you will die!"

Ji Yun's voice is hoarse and his eyes are filled with endless regret.

People really can't be soft hearted! She didn't expect that she was so soft hearted that she had spared these two sects. Now these two sects have become a big trouble.

What makes her even more desperate is that she sent countless messages to Wang Fan, but the message could not be sent at all.

If it wasn't for their territory, they would have been killed by the beasts of these two sects.

Even so, now they are still forced to the corner, there is no way out.

"Ha ha." Duan Wuyong heard Ji Yun threat, can't help laughing, "threat me Duan Wuyong, you are still far away." "Let's not say that Wang Fan has left the lower realm, and I don't know when he will come back. Even if he comes back, will Duan Wuyong be afraid of him? "

"Now his strength is really better than me, and I am not his opponent. But who can guarantee that he will always be better than me? "

"His cultivation is only eight levels, but my Duan Wuyong is nine levels. Once I want him to enter the holy land first, he is a dish in my eyes

Duan Wuyong is very disdainful, but what he said does have some truth.

"I Ji Yun is not a threat to you, you will soon know, you two sects, waiting to bear Wang Fan's anger."

Ji Yun sneer, immediately no longer say what, but Qiang to pull out the weapon, and then the momentum on the body up.

"Do it!" Duan Wuyong saw this, and he was too lazy to continue talking nonsense. At the same time, he waved his hand and gave the order directly.

Boom!

Just as he had just given the order, a loud noise came from afar, and then in the harsh clattering, the trapped and isolated array outside had completely started to burst.

As soon as Duan Wuyong's face changed, he suddenly turned around and saw a fierce aura palm, which had been madly photographed towards him.

"Wang Fan?" Looking at the Lingqi palm and the owner, Duan Wuyong is absolutely out of his wits.

Didn't Wang Fan leave the lower realm? Why is he here?

Unfortunately, he has no way to continue to think, boom, that aura big palm has been hard on him.

The power of fury just like a torrent rushed into his body, tearing out several blood fog on his body, at the same time, he completely fell down.

He didn't die, but his accomplishments were exhausted.

"You are so brave. You dare to attack the cloud palace. It seems that I'm really soft handed!"

Wang Fan stepped forward from the void, and the cold words from his mouth made all the monks in shengxia hall and wudaomen face suddenly changed!

### **Chapter 2443**

In the lower domain, the word Wang fan is absolutely synonymous with death.

No matter who dares to provoke Wang Fan, there will be only one end, death!

The reason why the two major sects dare to kill the cloud palace arrogantly and domineering is that they have repeatedly tested and determined that Wang Fan has left the low level domain.

But now, Wang Fan, who had been determined by them to leave the lower realm, appeared in front of them. How could they not be afraid of trembling?

"Younger martial brother Wang Fan."

"Brother Wang Fan."

Ji Yun and Luo Ru see Wang Fan, is more happy, almost even tears fall out.

What is miracle, what is hope, this is ah!

Wang Fan directed Ji Yun and Luo Ru and others nodded, and then looked at he Changhe with icy eyes.

The head of the five sects all came to the cloud Palace at the beginning. Naturally, he knew he Changhe.

When he Changhe saw Wang Fan's eyes sweeping, his face suddenly changed. Without hesitation, he fell on his knees with a plop,

"Master Wang Fan, calm down! All of them are the old thief Duan Wuyong. I was fooled by him

At this time, all dignity and backbone are false. As long as he can survive, he is willing to do whatever he wants.

As for leading people to work hard, he never thought about it at all.

Are you kidding? Even Jiyun Dao Yijian sect has been destroyed by Wang Fan. He is just a little bit of a disabled soldier and general. He can't fill his teeth in front of Wang Fan.

"Well, according to you, it's all Duan Wuyong's fault?" Wang Fan looked at he Changhe with a sneer, only sarcasm in his eyes.

"No, it's not all Duan Wuyong's fault. The greed of the younger generation has also hurt himself." He Changhe is not too stupid, said quickly shaking.

"So you know it's your greed that killed you." Wang Fan nodded, and his tone suddenly became cold. "In that case, you don't have to live."

Said, he did not half hesitated, directly another slap.

Bang!

With a loud noise, he Changhe couldn't say a word any more, and the whole person was photographed as a blood mist.

Next, Wang Fan did not continue to talk nonsense with the two monks, but mercilessly launched the killing.

These people have killed so many monks in the cloud palace. If he hadn't come in time, I'm afraid the whole cloud palace would have been killed.

So for these people, Wang Fan naturally will not have any soft hand.

Just in less than an hour, all the monks of shengxia hall and wudaomen who came here were killed, and none of them was left.

After Wang Fan killed them, he didn't give up. Instead, he went to shengxia hall and wudaomen. After the two sects were leveled, the matter was finally settled.

He is about to leave the low-level domain, and does not want any more accidents.

He believed that through this killing, no one in the whole low level domain would dare to move cloud palace again.

In fact, the reason why Wang Fan let Ji Yun release the news that he left the lower realm was not to guard against Wuzong, but to guard against the mysterious strongman who appeared in yijianmen.

The mysterious strong man is more powerful than the silent willow. He is worried that after he leaves, the other party will kill the cloud palace.

Now that the mysterious strong man didn't kill him, he was completely relieved.

Wang Fan left the cultivation resources obtained by shengxia hall and wudaomen to Ji Yun and luoru, and then left the lower realm.

He really has a long time in the lower domain and has to leave.

The lower level domain is far away from the middle level domain. For example, there is only a simple location map, but no detailed route.

Wang Fan shuttled through the vast forest and sea for nearly a year, but still did not reach the intermediate level.

In this year, he experienced countless dangers, including monsters, road robbers, and man eating demon vines.

Even several times, if not for his quick reaction, he might have fallen into the hands of those road robbers and demon vines.

This is the fifth year that Wang Fan left the low-level domain. After five years, he still hasn't reached the middle level domain, let alone the middle level domain. He even has no direction.

What makes him vomit blood most is that in the past two years, he has never met a road robber.

In the past two years, it seems that he is the only one left in the world. There are no other creatures except himself.

At this time, Wang Fan was leaning against a huge tree, chewing a straw in his mouth, and his eyes were full of loneliness and loneliness.

He was really fed up with the feeling that he was alone in the world.

If he had known that the lower level domain would be so far away from the middle level domain, and he would have lost his way, he would not have rushed to the middle level domain alone.

But now that he wants to go back, it's impossible.

Let's not say how many hundreds of millions of kilometers he has walked in five years. Let's say that he

has lost his way and can't find his way back. Whoosh!

A silver light flew over Wang Fan's head. As soon as Wang Fan's face changed, he immediately stood up.

His eyes were filled with extreme ecstasy, and he was even so excited that he was about to shed tears.

After two years, he finally saw the spaceship.

As long as he can take this spaceship, or ask the friars on the spaceship for directions, he can at least get rid of the dilemma of being lost.

Previously, he was just in a daze, but he didn't notice that there was a spaceship coming in advance. It seems that there is something wrong with his mentality.

Wang Fan didn't think much about it. He flew up and chased the spaceship crazily. He had a hard time meeting a spaceship. He must not miss it.

Only three days later, Wang Fan was silly.

The speed of the spaceship was no slower than his, even a little faster.

Rao is he has been crazy to use lightning, and continue to swallow the elixir to restore aura, are still unable to catch up with the spacecraft.

Three days later, he just managed not to lose the ship.

Wang Fan's heart is very shocked, so far, he has never seen such a fast ship.

I don't know whether it's because the friars who control the spaceship are too powerful and far superior to him, or the spaceship is too high.

You know, he has mastered the lightning skills, and in the past five years, lightning skills have been cultivated to a great extent.

Otherwise, he would have been abandoned by the spaceship.

Seven days later, the spaceship has gradually faded out of the scope of Wang Fan's mental power, and Wang fan is only tracking the spaceship with subtle spatial fluctuations.

Half a month later, he couldn't even feel the space fluctuation, which means that he really lost the spaceship.

Wang fan is really depressed, almost want to hit the wall.

He was not willing to continue to chase in one direction for three days. After he still didn't notice the trace of the spaceship, he was completely desperate.

Just when he was in despair, he was surprised to find that there was a city within the scope of his mental power.

What is the road of heaven and man?

This is it!

Wang Fan couldn't help shouting in surprise, and then flew to the city without hesitation.

#### **Chapter 2444**

Just less than half a stick of incense, Wang Fan has come to the gate of the city.

Looking at the magnificent city in front of him, Wang Fan's heart was even more shocked.

Even if you have such a city in the boundless forest area, it's incredible that the city is still protected by the seven level guard array.

You know, the seven level guard array is already the top guard array.

Although Wang fan is a level 5 mage, he can easily tear a gap in level 6. But in the face of the seven level array, it is more difficult for him to tear out the gap than to ascend to heaven, or even impossible at all.

This is a qualitative change. It is not the difference between a higher level and a lower level.

There is no name for this city, and there is no guard outside. Standing outside the gate, Wang Fan only feels the small and endless breath of time.

Obviously, this city has existed for a long time, even longer than the existence of the eight sects in the lower regions.

At least, he did not feel so simple and vicissitudes of time in the eight sects of the lower realm.

Wang Fan just stood outside the gate for a few breaths, and a white light was already on the self-protection array.

An array light door appeared, and then two men stepped out.

The two men are wearing red armor, which is obviously equivalent to the role of city guard.

Their breath is more powerful. Although their cultivation is only at the beginning of the Ninth level of Zunjing, their strong breath is not bad or even stronger than that of the first person in the lower level.

Wang Fan looked at the two people who appeared and couldn't help but gasp.

What kind of city is this? The guards of just two cities are so powerful. If they are really strong, how wonderful?

The most important thing is that it is far from the intermediate domain. Even if it is the intermediate domain, it is also the corner of the corner.

The strength of the friars in this place is so strong. Isn't the strength of the central friars in the intermediate domain even stronger?

"Only with a superior spiritual vein can you enter miracle city. If not, please leave immediately, otherwise, there will be no amnesty for killing. "

The two middle-aged guards didn't pay attention to Wang Fan's shock at all. They just gave Wang Fan a cold glance, and then one of them said indifferently.

Although the guard who opened his mouth said "please", he didn't look polite.

"How much does a superior spiritual vein cost to enter the city?" Wang Fan opened his mouth wide in shock. This is definitely one of the most expensive entrance fees he has ever seen.

You know, Shangpin Lingmai is a priceless treasure in the low-level domain. Although the five schools each took out ten Shangpin Lingmai to apologize without blinking their eyelids, how many years have they accumulated?

It's no exaggeration to say that even if the man family, the first family before it was destroyed, can take out two superior spiritual veins, even if it is quite good.

As for other families, most of them can't even take out a superior spiritual vein.

But now, the cost of entering the city has to be a high-quality spiritual vein, from which we can imagine how expensive it is.

At the same time, Wang Fan also agrees with the name of miracle city.

He walked in the vast forest area for two years. I don't know how many billions of miles he crossed, but he didn't meet a person or even a monster. Now I see a city here. It's a miracle.

"You're right. It's a high-quality spiritual vein. I don't have so much time to talk with you. If you want to go to the city, you should take out a superior spiritual pulse, or you will leave immediately. "

The two guards didn't care about Wang Fan's exaggerated expression at all. It was not the first time that

they met each other, but they said impatiently.

Wang Fan listened to the words of the two guards, his face couldn't help changing, and he made an indecisive appearance.

It gives people the feeling that he can take out a superior spiritual vein, but he is considering whether to take it out into the city.

Two guards saw Wang Fan this kind of expression, unexpectedly did not continue to urge, but waited indifferently.

The reason why they are impatient is that they are afraid that Wang Fan will not be able to bring out a superior spiritual vein and waste their time.

Since Wang fan can take it out, they don't mind giving Wang Fan some time to think.

After a long time, Wang Fan clenched his teeth and made a decision.

He took out a superior spirit vein and threw it on the ground, as if cutting flesh and said, "this is a superior spirit vein. Let me go in."

At this time, Wang fan is very glad that he left three superior spiritual veins on his body, otherwise, I'm afraid he really can't enter the city.

"Come with me." One of the guards impolitely put away the superior spirit pulse, then took out the jade card, drew a stroke on the array, a gate appeared, and stepped in with another.

Without hesitation, Wang Fan quickly followed him.

He was still worried about whether these two guys would covet his resources after seeing the spirit pulse of Shangpin. Now it seems that there is no need to worry about this. Although with his current strength, he is not afraid of the two guards at all, once he starts, he will not be able to enter the miracle city.

Even if he occupied the reason, the city could agree with him to go in, he did not dare to go in.

Just two guards are so powerful. You can imagine how many masters there are in the city and how powerful the person in charge of the city is.

No matter how conceited Wang fan is, he will not be so conceited that he thinks he can walk horizontally in miracle city.

After entering miracle City, Wang Fan was shocked immediately.

Where is this city? It's a paradise. It's another world.

Flowers and trees, rivers and mountains, everything.

And those flowers and plants are not ordinary flowers and plants, but some spiritual plants. Although the level is very high, it sets off the city even higher.

The rich aura spreads between the heaven and the earth, which makes people feel very comfortable breathing.

A white crane in the mountains and rivers constantly back and forth play, but also set off here like a fairyland.

Compared with that aura is not obvious, and everywhere is gray boundless forest, here is the pure land of bliss.

If he had not seen it with his own eyes, Wang Fan would not have believed or thought that there would be such a beautiful city in the vast forest area.

Although he didn't dare to sweep out with his mental power, he could feel that the city was very big, even if it was not as big as the lower regions, it was much bigger than the border regions.

Strictly speaking, this is not a city at all.

Not long after Wang Fan followed them into the guard, a pretty nun met them.

The nun looked young with a smile on her pretty face. After she stepped forward, she immediately said,

"this elder martial brother just came to our miracle city. I'll take him to apply for the jade identity card."

With that, the nun bowed her fist to Wang Fan and led the way.

The two guards did not speak, but directly retreated and quickly disappeared.

Wang Fan looked at the nun, but he couldn't help choking again.

Although the nun was only at the beginning of the ninth floor of Zunjing, her breath was stronger than those two guards.

The guard is so powerful, and so is the nun who greets the guests, which makes Wang Fan think that the miracle city is not simple, and his heart is more alert.

**Chapter 2445**

"Elder martial sister, are there many monks who come to miracle city every day? Is this the only way to the intermediate domain, or is this already the boundary of the intermediate domain? "

Wang Fan quickly followed the nun and asked politely after a little clasp.

He had to find out all these problems. It was rare that the nun was polite. Naturally, he didn't want to miss the chance.

When the nun heard Wang Fan's words, Yingying laughed and said politely, "elder martial brother's cultivation is not inferior to mine, younger martial sister's match is good."

After that, without waiting for Wang Fan to speak, she continued, "although there are many monks who come to the miracle City, they don't come every day, and even if someone finds the miracle City, they may not be able to come in."

"But you are right in saying that miracle city is indeed the only way to the intermediate level."

"If you don't go through the merchant ships of miracle City, even if you reach the holy land through cultivation, it will be difficult to cross the endless forest area and reach the intermediate area."

"I don't know how many years you have been walking in the vast forest area, but I want to tell you that miracle city is at least hundreds of millions of miles away from the intermediate area. It will take at least a few years to take even the top merchant ships here. "

"So, it's a miracle that you can find miracle city in the vast forest area and come in."

"You know, I don't know how many monks lost their lives because they were lost in the forest."

When Wang Fan heard the nun's words, he couldn't help asking, "even if he lost his way in the vast forest area and didn't find the miracle City, he couldn't reach the intermediate area at most and didn't lose his life?"

"I've been walking in the forest for two years. Although I haven't seen a person or a monster, I haven't met any danger."

When the nun listened to this, a sneer appeared on her face for the first time

"Once you don't find miracle city and cross it again, I'm sure you won't live three days."

"Do you know why you haven't been in any danger in the past two years? It's because miracle city has cleared up all the dangers within billions of miles, so that those friars can find it and enter it. "

When Wang Fan heard this, he couldn't help but gasp. At the same time, he was puzzled,

"miracle city has cleared all the dangers within a billion Li. Why is that?" Is it just for everyone's just a high-quality spiritual vein to enter the city? "

Although Wang Fan was asking, he didn't believe the answer.

Compared with the cost of eliminating the danger within billions of miles, the entrance fee of a superior spiritual vein is nothing at all.

Most importantly, what is this place? This is Yuanmen!

The jungle law of the jungle, how can anyone be so noble to do such a good thing without much return?

In Wang Fan's opinion, this is impossible at all.

When the nun heard Wang Fan's words, she looked at Wang fan like an idiot, and then said with disdain,

"do you think miracle city is worth the energy and cost to do this kind of thing for the sake of a superior spiritual vein

After that, without waiting for Wang Fan to reply, the disdain in her eyes has been replaced by fanaticism and respect. "The reason why miracle city does this is because our great Lord has a heart of love for talent."

"The Lord of the city didn't want those talents to fall into the endless forest and sea areas, which helped to clear up the dangers and obstacles within hundreds of millions of miles."

"Even I heard that if the Lord of the city had not limited strength, I'm afraid he would have directly eliminated all the dangers leading to the intermediate domain, or directly established a transmission array leading to the intermediate domain."

When Wang Fan heard this, he was awed. "The Lord of the city is really noble and worthy of our respect. Don't you know the name of the Lord of the city?"

The nun restored her former appearance, and Yingying said with a smile, "elder martial brother, it's hard for you to help me. In my capacity, I don't know the name of the Lord of the city."

"The Lord of the city is superior and mysterious. I only know what he does. I'm not qualified to know his name."

"Not only me, but even 80% of the monks in miracle city don't know the name of the Lord of the city."

Wang Fan heard this, suddenly strange.

It's strange that such a dignified person should be so mysterious.

However, he did not continue to ask, but changed the topic, "excuse me, where is the merchant ship from miracle city to intermediate domain, and how much is the cost?"

It's the same thing he wants to figure out.

The nun was not surprised by Wang Fan's problem. She took a deep look at Wang Fan and said, "elder martial brother, even if you want to leave miracle City, I suggest you don't leave now."

"At least you have to stay in miracle city for a year or more before you think about leaving." "It's full of aura, and there are all kinds of training venues. Training here for a period of time is good for your cultivation, but not bad."

"Besides, even if our city leader is very noble and considerate of monks, those merchant ships are not controlled by him, and he can't take care of everything."

"From here to the intermediate level, even the lowest class needs a billion elites."

"A billion elites?" Wang fan can't help but take a breath of air conditioning again. The price is absolutely too high.

According to the market exchange, one billion top-quality spirit stones can be exchanged for two top-quality spirit veins. In other words, the cost of taking a merchant ship is twice that of going to the city.

It's just that Shangpin Lingmai is too rare. Even if someone can take out a billion excellent Lingshi, they may not be able to take out Shangpin Lingmai.

The most important thing is that a billion top-quality spirit stones can be exchanged for two top-quality spirit veins, which is just the market price. In fact, no one will be silly to exchange top-quality spirit veins for top-quality spirit stones.

Two superior spiritual veins can definitely be exchanged for one billion superior spiritual stones, but one billion superior spiritual stones may not be exchanged for two superior spiritual veins.

In Wang Fan's opinion, it is estimated that it is precisely for these reasons that merchant ships will position the price unit as the best spirit stone rather than the best spirit vein.

"Thank you, younger martial sister. I don't know what to call her?" Wang Fan looked at the nun gratefully and asked again.

He understood what the nun meant. The nun first reminded him that miracle city was a good place for experience, and the second was to tell him not to show his wealth when he first came here.

He has just come here. If he can take out the entrance fee of a superior spirit vein and the shipping fee

of a billion excellent spirit stones, it's strange that others don't covet him.

Haven't you heard people say that although the Lord of the city is dignified, the merchant ships are not in charge of the city, and the Lord of the city can't be in charge of everything.

That is to say, even if someone really covets his things and kills him, the city master may not come out to uphold justice.

### **Chapter 2446**

"My name is Yue lingshuang. Elder martial brother, just call me Ling Shuang." The nun didn't mind Wang Fan asking her name. She said with a smile.

"Ling Shuang sister, thank you for solving my doubts. These things are a little of my heart. Please accept them. My name is Wang Fan. I need Ling Shuang's attention in miracle city. "

Wang Fan was grateful, then took out a space ring and handed it to Yue lingshuang.

Yue lingshuang didn't put on airs like the two guards and answered so many questions. He was really grateful.

"Elder martial brother Wang fan is very polite." The more Ling frost smiles to take over the space ring, at the same time mental force sweep in, but the next second, she completely stayed.

There is only one thing in the ring, which is the best spirit stone. Originally, it was nothing for her to collect some top-quality spirit stones for consumption, but the number of these top-quality spirit stones was no more than one billion.

"Brother Wang Fan, I can't take this." More Ling frost heart shock, quickly push back the ring. Even if she wants this space ring again, she is embarrassed to accept it.

That's too much.

You know, in a place like miracle City, for a friar like her at the bottom, without a hundred years' time, you can't save a billion top-quality spirit stones.

"Ling Shuang doesn't have to refuse. There are many things I need to take care of in the future." Wang Fan pushed the ring to Yue lingshuang and said with a smile.

"Thank you, brother Wang Fan." More Ling frost see Wang Fan expression does not seem to fake, this will ring.

After she took the ring, she looked around with great vigilance, and then she came to Wang Fan's ear and whispered, "brother Wang Fan, according to the rules, I can only take you to the gate of the identity jade hall. When I get there, even if my task is finished, I have to leave. "

"In the hall of identity jade, there are many forces recruiting people. Remember, don't join the Green Moon Palace and the hundred teahouses. Once you join those two forces, you will never be able to leave miracle city again. "

Wang Fan listens to this words, the eyebrow can't help picking, "this is why, those two forces are very powerful?"? Also, do I have to choose one to join in the face of those recruiting forces? "

At the same time, he also sighed.

Sure enough, it's easy to do things with money. If he didn't send out a billion top-quality spirit stones, the more frost he would have been, or he would not dare to tell him that.

The more Ling frost hears Wang Fan's question, the voice is lower, "yes, you have to choose a force to join.". Otherwise, you'll have nowhere to live at night. "

"In places like miracle City, people are not allowed to stay outside at night, or they will be killed."

"Although there are some Inn buildings in miracle City, the prices are too high. You're new here, and once you live in a place like that, it's also extremely dangerous. "

Wang Fan listened to this, the more strange in the heart.

For the sake of the life safety of those friars who go to the intermediate level, the Lord of miracle city is so dignified that he even does not hesitate to sweep the dangerous obstacles within hundreds of millions of square kilometers.

But in this city, how can there be so much darkness? Why did the mysterious miracle Lord allow this to happen?

Does he have the ability to control the darkness in these cities, or does he deliberately let the monks come to miracle city and exploit their resources?

You know, if a monk falls outside, his things will not fall into miracle city. If the friars are calculated in miracle City, what they have will surely stay in miracle city.

Wang Fan was very confused, but he did not continue to ask.

Because he had already seen the hall of identity jade, and also saw many monks going in and out.

"Brother Wang Fan, I'll send you here. This is my communication pearl. You can ask me if you have something."

Yue lingshuang takes Wang Fan to the gate of the main hall, then leaves a communication bead, and

turns to leave directly.

Wang Fan in the back thanks a, put away the communication bead after entering the hall.

This hall is not big, and there are not many people in it. As for those who handle the identity jade cards, there are none.

When Wang Fan entered the hall, he clearly felt that the eyes of many monks were bright.

He was secretly alert, but did not pay attention to those friars, but directly came to the identity jade plate processing stage.

"Hello, elder martial sister. I want to apply for a jade identity card. How can I do that?" Wang Fan looked at the nun sitting behind the counter and asked politely.

Although this nun's appearance is not much worse than Yue lingshuang's, her attitude is much worse.

She just glanced at Wang Fan lazily and said without expression, "you can tell me your name directly, and then you can hand in 100000 top-quality spirit stones."

Wang Fan sighed in his heart that the gap between people was really big, but the hand movement was not slow. He took out a storage bag and handed it to him. At the same time, he reported his name.

When the nun saw the storage bag in Wang Fan's hand, she was stunned at first, and then looked at Wang Fan with disdain. She grabbed a jade plate, engraved its name and handed it to Wang Fan. Wang Fan looking at this scene, can't help but some stunned, deal with identity jade card is so simple? It's so simple. Do you need a hundred thousand rare stone?

But he had no time to think about it, and the friars who had been sitting around came to him.

"This Taoist friend, I'm the deacon of Sanyun hall, our Sanyun hall ."

"this Taoist friend, I'm the deacon of Hecai palace, our Hecai Palace ."

"this Taoist friend, I'm the deacon of Bai teahouse, our Bai Teahouse ."

after the monks crowded over, they all enthusiastically promoted their own clan.

They all boast and tell how much they can get in a month.

Listening to the noise, Wang Fan thought of the secular talent market.

The only difference is that the talent market needs to go to other people to talk about their jobs and salaries. Here they take the initiative to come.

Through the introduction of these people, Wang Fan soon understood how difficult it is to earn spirit stone in miracle city.

Among these forces who come to sell, the highest reward given in a month is no more than ten thousand elites.

According to this calculation, we have to work for others for nearly a hundred years before we can earn enough billion, which is not an expense.

I'm afraid that even if you spend a hundred years practicing and buying things, you may not be able to save a billion.

At this time, Wang fancai finally understood the difficulty of going to the intermediate level.

If you come to miracle city and you have a billion top-quality spirit stones, it's better. But if you have no money, I'm afraid you will have to sell your life to these forces in miracle city.

When Wang Fan was thinking about this, he paid special attention to the deacon of the hundred teahouse, but he didn't notice anything strange at all.

As for the other force that Yue lingshuang said, qingyuegong, Wang Fan didn't hear anyone saying that he was a member of qingyuegong, so he didn't come.

Just when Wang Fan was about to find a force other than the hundred teahouses to join, suddenly, a very cold voice suddenly came in from outside the hall.

"This man, I want the Green Moon Palace!"

## **Chapter 2447**

"I join the three cloud hall." Almost as soon as the voice fell, Wang Fan said.

This is a woman in a green skirt. She has strong breath, cold temperament and strong oppression.

This is definitely a real saint!

Although Wang Fan had never seen a real strong man in the holy land, he could not doubt his own judgment because of the strong pressure of his opponent.

While he was talking, his face was as usual, but his heart was completely sunk.

He did not expect that there would be a strong man from the holy land of the Green Moon Palace to come here, and he also said this kind of words directly.

Don't say in advance more Ling frost has reminded him, in any case can't join the Green Moon Palace. Even if Yue lingshuang didn't remind him, he didn't dare to join the Green Moon Palace in the face of women's strong strength.

"I've seen the moon closed fairy."

"I've seen the moon closed fairy."

However, at this time, no one cared about what Wang Fan said. They all stepped aside and bowed to the woman.

Even the friar of Sanyun Temple didn't seem to hear Wang Fan's saying that he wanted to join Sanyun temple, so he quickly bowed to one side.

Wang Fan looked at this scene, the whole heart is sinking into the bottom.

Obviously, the three cloud palace can't provoke the Green Moon Palace at all, or the deacon of the three cloud palace doesn't dare to rob the woman at all.

"Why, you don't want to join my qingyuegong?" The woman didn't pay attention to the deacons, but walked slowly to Wang Fan and asked without feeling.

Wang Fan quickly bowed his head and replied, "the moon closing fairy is joking. It's my honor to join the Green Moon Palace. It's just that I've decided to join the three cloud hall. Now it seems that it's not kind to go back. "

His heart is a little uncomfortable. It is true that without strength, there will be no human rights. He Wang fan is in the lower realm, which is the existence of hegemony. No one dares to provoke him.

But here, it's just a city in endless forest region. Even if he didn't reach the intermediate region, he was reduced to such a humble position.

Now he only hopes that the deacon of Sanyun temple can stand up and say something for him. It's better to say that since he has chosen to join Sanyun temple, he is the person of Sanyun temple.

But to his disappointment, although the deacon of the three cloud hall stood up, he didn't speak for him.

"Since the closed Moon Fairy has taken a fancy to this man, the younger generation naturally dare not fight with the fairy. I will give him to the Green Moon Palace."

After hearing Wang Fan's words, the deacon of the three cloud hall didn't hesitate and said directly.

Wang Fan's heart is full of hatred. This son of a bitch is really a coward. Just now, he blew the three

cloud palace so much. I didn't think it was so unbearable at the critical moment.

At the same time, Wang Fan was not happy with this guy's tone. He even said that he wanted to give him to the Green Moon Palace, which made him like the goods or slaves of the three cloud palace.

Cui skirt woman still didn't pay attention to the deacon of Sanyun hall, but looked at Wang Fan and said, "now he doesn't dare to ask for you in Sanyun hall. You don't have to feel unkind."

This woman's voice is still extremely cold, and also not polite, beat the face of three cloud temple Pa Pa ring.

However, the monk in Sanyun hall was just like a tortoise and didn't dare to say a word of nonsense.

Wang Fan sighed in his heart. He knew that the three cloud hall was hopeless.

He glanced at the monks of the other forces rather reluctantly, but they also bowed their heads and obviously did not dare to compete with this woman at all.

"Thank you, fairy. I'd like to join the Green Moon Palace. But I still have some private affairs to do, but the fairy can rest assured that in three days, I will go to the Green Moon Palace to report. "

Wang Fanjian can't count on others, so he just said.

He is also very helpless, if there is no more ice cream reminder, he was forced to this point, do not mind to go to the Green Moon Palace and then think of a way. But now, he did not dare to go to the Green Moon Palace.

If a woman comes out of the palace, her strength has already reached the holy land. God knows how many masters there are in the palace.

You know, this is the place where the major forces recruit people. Since Cui skirt woman has come here, it's obvious that she won't have a high status in Qingyue palace.

Once he enters the Green Moon Palace, it is equal to giving his life to others. It is very difficult for him to come out.

Wang Fan has made a plan. Once the woman doesn't agree to give him three days, he will go out immediately, and then try to find a way.

Although he did not dare to go to Qingyue palace, he was not afraid of this woman. Even if it's not the woman's opponent, it's impossible for the woman to keep him.

The reason why Wang Fan dares to have the idea of killing out is because of the dignified city master.

No matter what the city master is doing to sweep away the dangers and obstacles within a billion Li radius of miracle City, at least he is still very active in face and reputation.

In fact, the good reputation of the Lord of miracle city has indeed spread. Wang fan doesn't believe it. He kills out of the hall and makes things big. The city master will ignore it. If the city Lord doesn't pay attention to such things, he won't have such a good reputation.

But what Wang Fan didn't expect was that after hearing Wang Fan's words, Cui skirt woman didn't refuse, but nodded,

"well, I'll give you three days. Three days later, you can go to Qingyue palace with my token to find Xing closed moon."

Xing closed month said, throw out a token to Wang Fan, immediately no longer stay, turned to leave the hall.

Wang Fan was so angry that the woman made a mental imprint on him when she gave him a token.

Even if the woman's action is very hidden, no one around is aware of it, but Wang fan is still aware of it.

If it's not miracle City, if it's not the hall of identity jade, even if the other party is the strongman of holy land, he will rush up to find the woman to make a good theory.

Wang Fan didn't immediately try to get rid of his mental imprint. Instead, he suddenly turned to the deacon of Sanyun hall and said with a smile,

"younger martial brother, it seems that you are not good at Sanyun hall. I almost believe your lies and joined your Sanyun hall."

"I said that you Sanyun hall is so bad, so don't come here to recruit people in the future, so as not to meet my elder martial sister of Qingyue palace again. It's a shame."

The deacon of Sanyun hall was so angry that he almost couldn't help slapping Wang Fan.

Just think of Wang Fan Gang just choose to join the Green Moon Palace, also got the closed Moon Fairy personally sent out the token, this just forced to endure the inner anger.

He took a cold look at Wang Fan. Without a word of nonsense, he turned and left.

Wang fan saw each other's performance, and he couldn't help sighing.

It seems that Qingyue palace is really strong. At least it is much stronger than Sanyun palace. Otherwise, after Xing closed the moon and left, the other party would not dare to be angry in the face of Wang Fan's provocation.

His original intention is to stir up the hostility and contradiction between Sanyun palace and Qingyue palace. It's better to ferment it into a fight. But now it seems that he has some wishful thinking.

Wang Fan did not continue to stay here, not to provoke the other forces, but also turned away from the hall.

### **Chapter 2448**

After Wang Fan left the hall of identity jade, he still didn't try to remove the mental imprint of Xing closed month, let alone try to find a way to leave miracle city.

Now that he has come to miracle City, he can't come in vain. At least he has to find out something.

After inquiry, Wang Fan soon found a loft selling all kinds of jade slips.

In the attic, he spent 10 million on the best spirit stone, but only bought three jade slips.

One is about the miracle city and the major forces, one is about the intermediate domain, and the other is about the general road map from the miracle city to the intermediate domain.

When Wang Fan came out of the attic with three jade slips, he couldn't help feeling.

Black. It's too black.

It's hard to earn spirit stone in miracle City, but it's easier to spend spirit stone than running water.

However, he just sighed, did not continue to think, but began to look for the inn.

He plans to find an inn to live in first, and then look at these jade slips. As for the Green Moon Palace, it was all three days later. There is no need to worry now.

Wang Fan soon saw an inn.

That inn is not very big, but the room price is not low at all. The lowest room needs ten thousand rare stone.

Fortunately, Wang fan is numb to all kinds of "high consumption" in miracle City, so he doesn't care about it. Instead, he goes straight to the past.

He has spent or given away so many spirit stones that he doesn't care about tens of thousands of them.

"You want to die, dare to get in my way!"

But before Wang Fan entered the hall, an angry roar suddenly came.

With that roar, a shadow suddenly bumps against Wang Fan. Fortunately, Wang Fan's reaction is fast, so he dodges in time.

The shadow was almost close to Wang Fan's body, and soon stopped 100 meters behind him.

This is a stout crazy horizontal middle-aged, two meters tall, full of flesh, the body is full of strong evil spirit.

That evil spirit is obviously caused by killing countless people. If the mind is not strong, even if the cultivation is equal to this person, he will be scared under this evil spirit.

Seeing that Wang Fan had dodged his collision, the middle-aged man was surprised. Then he became angry again. "Son of a bitch, you dare to plot against me. You're going to die!"

He roared angrily. Without waiting for Wang Fan to speak, he stepped out two steps, and then hit Wang Fan hard.

The violent wind tore the air, instantly rolled up the terrible whirlpool of killing power, and made a trembling sound in the air.

This man's strength compared with the original silence without willow, simply do not know how much more powerful.

"Is the bear going to kill again?"

"Being watched by this guy, this kid is going to die!"

"Keep your voice down, be careful, the bear will come back to trouble you!"

When the friars around saw this scene, they couldn't help avoiding one after another, and they didn't dare to get close to half a point.

Wang fan is furious!

He recognized this guy at a glance!

Just now, when he spent 10 million to buy jade slips, this guy was watching from a distance. Obviously, this guy wanted the spirit stone on him.

If it is normal, in the face of such a guy, Wang Fan must be a direct slap dead, absolutely no nonsense.

Although his strength is better than that of Ji Wuliu, Wang fan can deal with Ji Wuliu at the top of Zunjing level 8. Now that his strength has reached the top of Zunjing level 9, how can he care about this

kind of goods?

However, because of the Qing Yue Gong that Xing closed the moon is still on the head, Wang Fan did not dare to expose the strength.

"Damn it, you dare to rob Lao Tzu's things. You are blind!"

Wang fan is also very strong. After an angry roar, he directly grabs the token that Xing closed month gave him, and then blows out with one punch.

Bang!

A loud noise!

Click!

The token that Xing closed month sent him broke into two parts and fell to the ground directly.

Wang Fan, as a whole, could not help but spit out a mouthful of blood and flew out like a broken kite.

Looking at this scene, people around couldn't help looking at each other and shaking their heads secretly.

Wang Fan export so arrogant, did not expect the strength is so unbearable.

However, they are relieved to think of the identity and strength of manxiong.

Manxiong is a ruthless man who has been fighting in the arena all the year round and wandering on the edge of life and death all the year round. This kind of ruthless man is obviously not comparable to Wang Fan, a rookie who has just entered miracle city.

What they didn't expect was that Wang Fan quickly got up again after he fell to the ground, and his tone was still arrogant,

"son of a bitch, those who dare to touch my Qingyue palace, you want to die!"

"There's a kind of newspaper with your name and power. If our qingyuegong doesn't destroy you and your power, you'll raise our qingyuegong!" Wang Fan's tone is indignant, and his appearance is like madness!

Manxiong wanted to do it, but after hearing Wang Fan's words, his face changed slightly. At the same time, he also saw the token that fell on the ground and broke into two parts.

Half of the tokens are written with the word "closed" and half with the word "month". All in all, it's just

"closed month".

The closed Moon Fairy?

Xing closed the moon?

See these two words clearly, the facial expression of the wild bear completely changed, become matchless pale.

Not only he, but also the group of people around him were stunned.

No one thought that Wang Fan had such a background, such a backstage.

You know, Qingyue palace is a very powerful force in miracle City, and Xing closed moon is one of the three saints of Qingyue palace.

No matter what the relationship between Wang Fan and Xing closed month is, manxiong can't afford to break Xing closed month's token alone.

Those around them were still pitying Wang Fan just now, but now they are all pitying manxiong.

Manxiong is arrogant and domineering. Relying on his strength, he often bullies and snatches those new people who have no background. Now he is finally playing hard.

Also, often walking by the river, how can I have shoes that are not wet? If you only wet your shoes once, I'm afraid you'll be waiting for a bear.

Manxiong's face was pale and his heart was very angry.

He didn't expect that Wang Fan joined the Green Moon Palace, and it was the token sent by the closed Moon Fairy himself.

This also calculate, Wang Fan unexpectedly still shamelessly take Xing closed month's token to block his attack, this is simply evil to the extreme.

The most important thing is that Wang fan is favored by Qingyue palace. Shouldn't he be taken away from the main hall when he handles his identity jade card? How can a person appear in the hall of selling jade slips?

You know, it has become an iron law that those new people who choose to join the forces will be taken away in the hall of identity jade card. Those who can leave alone represent that they have not chosen to join any forces.

It is precisely because of this that he dares to attack Wang Fan wantonly.

But now, ·

Wang Fan didn't wait for the bear to think about it, so he stood up, picked up the two half token and walked to the bear step by step.

Manxiong's heart trembled and plopped. He knelt down without hesitation, and his face was even more gray.

He did not dare to continue to fight, even more dare not escape, can only show weakness and beg for mercy.

If he shows weakness and asks for mercy, he may still have a chance of survival, but once he dares to continue to fight or run away, it will definitely be a dead end.

Qing Yuegong's powerful, close the Moon Fairy's powerful, he is very clear, with his this road, choose to escape is to seek death!

#### **Chapter 2449**

When Wang fan saw the arrogant and domineering manxiong, he just saw Xing's token. He was so scared that he was shocked.

How strong is Qingyue palace, or Xing closed moon, to make people like manxiong so afraid?

If Xing is here and manxiong is so afraid, Wang fan can understand. But the problem is that Xing is not here at all.

Nevertheless, Wang Fan still didn't let this guy go.

This guy is so arrogant that he wants to rob his things. If he hadn't had a few skills, he would have been killed by this guy.

How can Wang Fan be soft on such people?

Pa Pa!

Wang Fan grabs the two pieces of broken tokens and slaps them on manxiong's face in an almost humiliating way.

Although the bear's face was ugly, he didn't dare to resist. He even didn't dare to hide.

Wang Fan clapped dozens of times, and then stopped humiliating him. He kicked him to the ground and said coldly, "give me your space ring, and then go away. Don't let me see you again."

The people around him were silent for a while, but no one thought that Wang Fan was wrong or excessive.

Manxiong didn't dare to talk nonsense at all. Without hesitation, he grabbed a space ring and threw it to Wang Fan, then turned around and left.

Wang Fan has no idea of checking the ring of manxiong space at all. After throwing his ring at will, he plans to enter the inn.

Just at this time, a terrible aura wave suddenly emerged, and then a huge aura slap had been taken from the void.

"Smashed this saint's token and wanted to leave. Go to hell!" With a cold voice, bang, the bear, who had not gone far away, had been slapped into a blood mist.

Looking at this scene, the surroundings fell into dead silence again.

All the people bowed their heads in horror, and no one dared to make a sound at all.

Wang Fan also suddenly turned to see the direction of the voice, his face a burst of ugly.

He knew that Xing closed month was warning him not to play with any moths.

Wang Fan's face was ugly. He didn't have the heart to stay here any longer. He entered the inn quickly.

He first took out the power of qingyuecheng, introduced the jade slips, and began to read them.

Half an hour later, he put down the jade slips, and his face became very ugly.

Qingyue palace is the first force of miracle City, even if it is no weaker than the city leader's mansion. It's said that the Qingyue palace in miracle city is a branch of the intermediate level Qingyue palace, which is very powerful.

Xing closed month, is one of the three saints under the master of Qingyue palace in miracle City, whose status is extremely noble.

The Green Moon Palace in miracle City, in addition to the mysterious master and unknown strength, is illustrated in the jade slips of the three saints' strength below.

The first saint's strength lies in the third level of holy land, the second in the second level of holy land, and the third in the first level of holy land.

Wang Fan looks at these introductions, his heart shakes wildly.

He finally understood why the bear was so afraid of the Green Moon Palace.

No matter how arrogant manxiong is, he's only in the middle of the ninth floor of Zunjing. It's strange that he can't be afraid in the face of such a powerful Qingyue palace.

Not to mention the bear, even Wang Fan himself doubted whether he could escape.

Xing closed month a person he is not afraid, but the second saint and the first saint, but it is not now he can provoke.

Let alone the first saint, even the second saint, Wang fan is not absolutely sure that he can escape from the other side, let alone fight.

The second level of holy land is far beyond the limit of Wang Fan.

After all, holy land and venerated land are two completely different concepts. Wang Fan's ability to deal with Xing closed moon on the first floor of the holy land is already quite adverse.

Wang Fan shook his head, forced to put these things aside, and then took out the relevant intermediate domain introduction jade slips.

"The middle-level domain is vast and vast, and there are many sects. If you don't enter the holy land, you are all mole ants."

But what made Wang Fan vomit blood was that there was only one line on the jade slip, and there was no other introduction.

Wang Fan Jian wants to swear, what is a pit father, this is ah.

He spent \$10 million on three jade slips, but one of them turned out to be like this.

Wang Fanqiang put aside the jade slip and took out the map jade slip.

If that map jade slip is the same as the intermediate domain jade slip, then he will really go crazy.

Sure enough, there was only a rough orientation on the jade slips, and there was no clear or rough route at all.

If he really went to the intermediate level according to the jade slips, he would only end up dead.

This is just too pitiful. He said that he bought three jade slips, but only one useful one. Wang Fan angrily scolded a few words, then put away the three jade slips, began to carefully consider how to do.

He should get rid of Xing's mental imprint and try to escape from miracle city as soon as possible.

Or after removing the mental imprint, Yi Rong changed his identity to stay in miracle City, and then tried to take a merchant ship to the intermediate domain.

If he chooses to escape from miracle City, his life will not be in danger in a short time. After all, Xing can't help him just by closing the moon. But once a long time, he will likely fall in endless forest.

As for his going to the intermediate domain alone, he never thought about it, because it was basically impossible.

If you choose to change your identity to stay in miracle City, the chance of his exposure is also great.

Because one is that he will have no identity after changing face, and the other is that he is not sure to hide the eyes of the second saint and the first saint of Qingyue palace.

Wang Fan has thought for a long time, but he still plans to stay in miracle city first.

He spent so much resources to come to miracle city. If he left like this, he would be very unwilling. What's more, if he can't get to the intermediate level, what else can he talk about to avenge Xu daocong's Wu Daozi?

Wang Fan thought of this, extremely decisively played numerous prohibitions, and then began to get rid of his mental imprint.

It has to be said that Xing closed month this person is really not simple, her mental imprint is not only very hidden, but also under the position is very clever.

Her mental power is imprinted on Wang Fan's left little finger, which is not only hard to find, but also hard to remove even if it is found.

But for Wang Fan, this is not a problem at all.

He didn't even have to work hard to get rid of it, but the mental fusion mark rolled on his little finger, and the mental imprint had been stripped off, and then Wang Fan threw it on a piece of clothing.

He didn't dare to destroy the mental imprint, because once he destroyed it, Xing closed month would feel it. Once Xing closed month feel her mental imprint is destroyed, I'm afraid it will be the first time to come.

Wang Fan will be attached to the mental imprint of the clothes left at random in a corner, and hit numerous prohibitions, began a rapid change in appearance.

This time, he changed his face very carefully and seriously, not only changed his appearance, but also his height.

After more than five hours, Wang Fan changed into a pale little youth, and then secretly escaped from the inn.

## **Chapter 2450**

The first thing for Wang Fan to escape from the inn was to sell the tickets to the middle class.

He wants to see what time the spaceship that flies to intermediate domain is and whether he has the chance to buy a ticket.

More than an hour later, Wang Fan had come to the hall where the tickets were sold.

When he entered the hall, the hall was already overcrowded and full of monks.

Just like the ticket office of the railway station in the secular world, these monks also lined up two long lines to buy tickets in an orderly way.

Wang Fan looked at the scene, slightly stunned.

According to his understanding, miraculous city has such high consumption, and it is so difficult to earn miraculous stones. Coupled with the incredibly expensive ticket price, few people can afford it.

But now, what's going on?

However, he quickly reflected that it is relatively difficult to earn the spirit stone in miracle city.

And miracle city is huge, and there are countless friars. Under this huge base, it's normal for so many people to queue up to buy expensive tickets.

After all, who knows how many years these people have accumulated their wealth?

Wang Fan took a look at the huge array display screen in front of him, which clearly said that the latest spaceship to the intermediate domain was three months later, and the ticket price ranged from 1 billion to 3 billion.

Wang Fan did not hesitate, quickly to the back of the line.

If there is no ticket, he will buy one first.

As soon as Wang Fan was at the back of the line, he was acutely aware that several mental forces fell on him and locked him firmly.

Wang Fan was silent on the surface, but sneered in his heart.

These people obviously want to take advantage of the fire just like the bear.

However, he did not care, as if completely unaware of the same, as if nothing had happened began a long queue.

After a full hour, it was Wang Fan's turn to buy the ticket.

He still has more than 2 billion elites on his body, so he didn't buy a low class ticket with only 1 billion elites at all. Instead, he bought a medium class ticket with 2 billion elites.

In his opinion, the medium class guests must be more valued than the low class guests, and the safety factor should be higher.

In this place where strength is respected, value naturally represents a kind of strength.

Wang Fan put away the ticket, and then quickly left the ticket hall.

At the moment when he stepped out of the ticket hall, he clearly felt that the three people followed him.

Wang Fan's eyes showed a touch of coldness. As soon as his body flashed, he had already fled to the distance quickly.

If he didn't experience the bear thing, maybe he would leave without delay, and then find a quiet place to kill these people.

But now, if he leaves slowly, he will be stopped here. He doesn't want to do it in public.

The three men saw that Wang Fan wanted to run away, and they were in a great hurry. They ran after him quickly.

But what annoys them is that although their speed is faster than Wang Fan, it is difficult to stop Wang Fan in a short time.

That's a ticket worth two billion yuan. How can they miss this huge wealth?

They didn't hesitate at all, they started to burn blood essence crazily at the first time, and then accelerated.

Two billion elites are enough to make them pay any price.

Wang Fan felt the burning blood essence of the three people's spirit, first slightly stunned, then sneered even more.

He speeded up a little, and at the same time, his mental strength swept out and began to find the right place to start.

Wang Fan's things are not so easy to rob. No matter who dares to make up his mind, he should be ready to be killed.

It's just the middle of the Ninth level of Zunjing. Even if his strength is countless times stronger than those of the lower level of Zunjing, Wang fan doesn't pay attention to it.

After burning incense, Wang Fan came to a secluded area and stopped directly.

Just a few breaths, the three monks had appeared behind him.

Three people see Wang Fan unexpectedly take the initiative to stop, all can't help but some surprise, obviously, they didn't expect Wang Fan to stop.

"We don't embarrass you either. Give up the space ring and we'll let you go." One of them looked at Wang Fan and said coldly.

Originally, he intended to kill Wang Fan and take things away. Only when he saw that Wang fan stopped on his own initiative, he had some fear in his heart, so he planned to take things as long as they didn't kill.

The reason why he chose not to kill Wang Fan was not because he was afraid that three people would not kill Wang Fan, but because he was afraid that he would not kill Wang Fan in a short time.

Of course, if Wang fan doesn't agree, they have to do it.

"Give up the space ring? Let me go? " Wang Fan sneered, "what are you, dare to say this kind of words in front of me?"Speaking, the momentum of Wang Fan's whole body has been madly condensed. When he stepped on the ground with his right foot, the whole person has been killed like an arrow.

The strong sound of the breaking wind rips through the sky, and Wang Fan's killing intention is swept by the blow, setting off a huge wave, and crashing towards the three people.

"You want to die!" Three people see Wang Fan dare to be so arrogant, also dare to take the lead, immediately angry.

Their whole body momentum also followed the crazy expansion, immediately three people just like three thunder, the same bombing to Wang Fan!

But soon their faces changed.

They feel the terrible killing power contained in Wang Fan's fist!

That kind of killing power is definitely the super strong who fight in the arena all the year round. Otherwise, don't try to condense that kind of killing power.

No, it's iron!

Three people's complexion instantly pale!

"Live... One of them is going to stop, but just at this time, Wang Fan's fist has fallen on his same blow.

Bang!

The deep explosion rolled out, and the violent energy collided with each other crazily. With a click, the man didn't have much resistance at all. When his whole arm broke from the inside out, he flew out in an instant.

People in the air, the kind of crazy fragmentation has spread from his right arm to his whole body, he did not have the chance to land, the whole body has been completely smashed.

The other two looked at the scene and were scared out of their wits.

Almost at the first time, they had forcibly withdrawn the attack, and then seized the rune to escape.

However, Wang Fan did not give them a chance at all. "If you want to rob my things, you still want to leave. You look down on me too much."

Along with the sound, Wang Fan's left hand has instantly played a ban. While briefly extending the time for the two to stimulate the rune, Wang Fan's right fist is clenched again, and two fists are thrown out one after another.

Bang bang!

There were two more blasts, and they turned into blood fog.

At the moment when they turned into blood fog, the rune was also thoroughly stimulated, but only the blood light was swept away.

After killing the three people, Wang Fan rolled up their space ring, but did not leave, but looked at one of the directions, "since you've come, come out."
