Chapter 2561

"Because the mission is urgent, we need to start now and go to moon lake."

"Our spaceship is a hundred miles away from shuohai city. Please come with me and board there."

Said the middle-aged man Xiu, he soon left shuohai city with Wang Fan and his party.

Although the monks were puzzled about the task content, they didn't ask much. They just quietly followed the middle-aged man after self-cultivation.

Dare to release the mission in the mission Hall of shuohai City, even if it is only oral release, it is absolutely effective.

If you dare to go back and not pay after the event, you will be killed by the ten major departments, and no one can afford the consequences. Therefore, people are not worried.

Although Wang Fan was strange, he didn't ask many questions. Instead, he mingled with the monks and followed them.

Su Luoyan also quietly followed Wang Fan, and her peerless face had already been covered by the silk scarf.

At least the monks on the first floor of the holy land were present, so it took only a few minutes to get to the location of the spaceship.

It was a huge shark head spaceship. It looked like a shark from a distance. It was very ferocious.

When Wang Fan and his party approached the spaceship, the cabin door of the spaceship had been opened, and a middle-aged man in a brocade shirt came down with a smile.

The middle-aged man in a tight shirt is also a monk on the seventh floor of the holy land. His strength is terrible.

After he got off the spaceship, he first nodded to the middle-aged man with Wang Fan and his party, which was regarded as a greeting. Then he looked at Wang Fan and other hundred people.

"Welcome to join our mission team. Our mission this time is to destroy the Moon Lake millions of miles away."

"If you can be selected to join our team, it means that you are all elites. I hope you can come out alive and get the high reward of million immortal stones."

"Well, we have less time and heavy tasks, so I won't continue to talk nonsense here. Now please get on board."

"After boarding, we will give you 10% of the reward first, and then we will give you another 90% when the mission is over."

The brocade shirt man said, had already made way of the road, arranged Wang Fan and others to board the boat.

Wang Fan listens to this words, in the heart simply despises unceasingly.

They are not the elites who are selected. It's just that they react a little faster and get the team jade medal faster than others.

In the same way, he also felt that the task was not simple, and he was more sure that his 100 people were used as cannon fodder.

After all, if there is no problem, it would be a strange thing to go to a place where you don't choose to be a high elective.

Under the arrangement of the man in the brocade shirt, they were soon arranged in a huge room.

A room is actually a huge conference room. Even if the meeting room can accommodate 100 people, such as Wang Fan, it doesn't feel crowded at all.

"Master, where is the moon lake? Is it very powerful? Why have I never heard of it?"

After Wang Fan and his party sat down, someone finally couldn't help asking such a question.

Many of them have lived around shuohai city for many years.

Naturally, they are more familiar with the forces around shuohai city than Wang Fan.

Wang fan doesn't know about the forces around shuohai city. Maybe it's normal, but these people don't know, so it's obviously abnormal.

"Moon Lake is the habitat of a reclusive strongman. Since he has rarely come out to walk, and there is no mountain and dew, it's normal that you haven't heard of it."

"Don't worry. Although the hermit is very strong, it's not your turn to deal with him. We have hired a special expert to deal with him."

"As for you, just go to solve those ordinary guards."

Brocade shirt man face with a smile, said slowly.

When they heard this, they all gasped.

They have realized that this matter is not simple, aware of the danger of this mission.

It's a place where the hermit strongmen live, and it's also a place where they haven't heard of. It's a little too scary.

The most important thing is that, according to the reward of one million yuan per person, they will get 100 million yuan.

It's just them. What about the other experts who are hired to deal with the powerful in the hidden world? Needless to ask, the other party will definitely get more rewards.

After all, how much money does the gold master behind the scenes have to pay for this mission?

With so much reward to destroy a Moon Lake, we can see that this moon lake is not simple.

After all, no matter how rich they are, no one is a fool. They will not throw the inferior immortal stone to others for no reason.

"According to the information we have investigated, there are five groups of guards in the Moon Lake, each group has 20 people, and their strength is from the first level to the third level of the holy land." "So I will also divide you into five groups to fight against each other's five groups of guards. Now I'll divide you into groups first, and then I'll arrange the group leader for you. "

The friar of brocade shirt said, his eyes swept around one hundred friars, such as Wang Fan, and immediately began to group up.

Because he did not ask the names of the people, so the group is not in accordance with the way of reading names, but in accordance with the way of reading jade plate number.

Under his assignment, one hundred people were quickly divided into five groups. Perhaps because Wang Fan was with Su Luoyan and was holding hands, they were also assigned to a group.

"Well, now that the five groups have been divided, I'll arrange a group leader for you."

"Your group leader is also hired by us. His accomplishments have reached the third or fourth level of the holy land, so please don't have any objection."

Brocade shirt man says, already had five people to walk in from the outside.

There are five people, four men and one woman.

They don't look very old, but their accomplishments are not weak at all.

In addition to a young man's strength is still in the third level of holy land, the strength of the other four people have reached the fourth level of holy land.

And even if it is the youth of the third level of the holy land, his whole body is also very solid and rich, and he is not a weak person.

Wang Fan looked at the five people who came in, but he couldn't help frowning and scolding the bad luck.

He saw a man he didn't want to see, the stinking dog shit of luoshengzong.

That's right. The only three-tier youth in the holy land is Qiuen water.

See autumn alkene water, Wang Fan quickly lowered his head, and also secretly pulled the wild goose.

Although he is not afraid of this stinky shit, if he is targeted by this guy, it will be very troublesome.

The most important thing is that it's in other people's territory. If this guy is here, he and Su Luoyan will be attacked, and things will become more troublesome.

After all, the friar in the brocade shirt was the existence of the seventh layer of the holy land, and he was no match for the plain goose.

Unfortunately, there are only 100 monks in the hall, and they are divided into five groups.

Even if Wang Fan deliberately bowed his head, it was meaningless for the three layers of Qiuen water in the holy land.

Qiuen water didn't even use mental power, but with a glance, immediately saw Wang Fan and Su Luoyan sitting in the crowd.

Chapter 2562

Wang Fan's heart thumped for a moment, and he immediately cried that it was not good, but he soon calmed down again.

It's a blessing, not a misfortune, but it's a misfortune to avoid. Since it's been discovered, let it be. It's a big deal to jump out of the boat and run away.

Qixian water looks at Wang Fan, just like a hunter who sees the prey. There is a bright light in his eyes.

The corner of his mouth is also unnatural cocked up, staring at two people, hey hey sneer.

For more than three months, he wasted his energy and went crazy to look for Wang Fan.

He never thought that when he was looking for them wholeheartedly, there was no news.

Now he gave up to continue to look for two people, intend to do a single task, but unexpectedly saw Wang Fan two people.

This can really be a response to that sentence, there is no place to look for iron shoes, no effort.

However, Qiu Shao did not attack immediately, but went to Wang Fan and other 20 people and said loudly, "I will be the leader of this group."

Wang Fan and other 20 people, except for Wang Fan and Su Luoyan, had no opinion at all.

Although Qiu Shao has only three levels of cultivation in the holy land, which is the weakest among the five leaders, the background of others is not weak.

This is the pride of Luoshengzong. Even if the person who issued the mission wants to use them as cannon fodder again, with Qiu Shao team, you need to take care of it, right?

"Welcome Qiu Shao to be our team leader."

"With Qiu Shao leading our team, our team will be able to complete the task safely."

"It's an honor for Qiu Shao to be the leader of our team. Welcome to join us."

People all welcome Qiu Shao one after another, but they don't forget to flatter.

At this time, even if Wang Fan and Wang Fan had any more opinions, they could not express them, otherwise they would cause public anger.

Qiu Shao smiled, but suddenly looked at that silent Wang Fan two people, "how, you don't speak, don't welcome this little to become your group leader?"

With his voice, Qiu Shao, the other 18 people immediately turned their eyes on Wang Fan and Wang Fan.

Wang Fan is secretly scolded bad luck, no matter where this surname Qiu Shao goes, it seems to have a bad smell.

He glanced at Qiu Shao and said, "if you want to be the leader of our group, then do it. Naturally, we won't have any opinions."

Although he didn't say that he didn't welcome the water, his attitude showed that he didn't like the water.

Everyone could not help but frown, but they didn't say anything.

After all, we are a group, and the arduous and dangerous task is still behind us. At this time, there is no need to have conflicts with Wang Fan.

"Well, it's better to have no opinions." Although qiuxianshui was not happy with Wang Fan's attitude, he didn't say much. He just hummed coldly and ignored Wang Fan.

Even if he wants to kill Wang Fan, he can't do it at this time.

The gold master behind the release of this task will never allow him to do it.

Now that he has become the leader of Wang Fan's group, he will have plenty of time to clean up Wang Fan and Wang Fan, and he is not in a hurry.

In this room are not stupid, nature has seen, Wang Fan two people must have some contradiction with qiune water, but it is no one to stand up to speak.

The man in the brocade shirt also didn't say much. After assigning the team leader, he paid 10% in advance according to the agreement, and then arranged Wang Fan and his party to their respective rooms to have a rest.

From here to the Moon Lake, there are millions of miles. Even if you take a spaceship, it will take some time. Naturally, it is impossible for you to spend time in this hall.

Wang Fan and Su Luoyan were also assigned to different rooms, but they did not separate, but lived together.

"Elder martial sister Luoyan, first use these days to practice. I'll refine some array plates and pills." After entering the room, Wang Fan said to Su Luoyan.

Now that he has realized the danger of this mission, he naturally has to make early preparations. Whether it's pills or array dishes, of course, the more the better.

He is a level five array master and a level six alchemy master. If he doesn't use this talent, he will be very sorry for himself.

After Wang fan made the forbidden border, he began the crazy refining of pills and array plates.

The array disks he refined are all level 5 disposable self exploding array disks. Although this kind of array disk can't kill the strong in holy land, once the number is large, it will still pose a certain threat to the

strong in holy land.

As for the elixir, he refined two kinds, one is a variety of healing elixir and restoring aura elixir, the other is self explosion elixir.

The level 6 self explosive pill refined by Wang fan is much more powerful than the level 5 self explosive array.

However, the refining of the six level self explosive pills is also a great waste of time and energy. More than ten days later, when the spaceship stopped thousands of miles away from the Moon Lake, he only made three level 6 self explosive pills.

What he refined is the spirit pill, which is one of the six level pills that is more difficult to refine. If it is unexpected, it is enough to kill anyone below the third level of the holy land.

If these three magic pills are thrown out together, even the ordinary four level strongmen in holy land will have to drink bitterness.

As for the water from the third floor of the holy land, it's nothing before the sixth level spirit pill.

Of course, Wang Fan didn't use this magic pill to deal with Qiu water. He didn't need to waste it to deal with such rubbish.

"Now that we are about to reach our destination, please get off the spaceship first, and then start the operation according to the requirements of the group leader."

A loud voice woke all the friars up, and then they left the room and left the spaceship.

When Wang Fan and Wang Fan plundered the spaceship, there were more than 200 people below.

Among these 200 people, except for Wang Fan and other 100 who are relatively weak in cultivation, the other nearly 100 monks have reached the fifth level of the holy land.

Even, Wang fan saw at least three strong characters who were no less powerful than Bimeng, the king of wild veins.

You know, the beast king bimong of Huangmai has the blood of the ancient king beast, and his strength has reached the top of the holy land.

There are three such people here, which shows how dangerous the Moon Lake is.

Just as Wang Fan was shocked, Qiu Xianshui, the leader of their group, had already come to them.

I saw Qiu Xian water staring at Wang Fan with a sneer, "all of you stand in two lines, and then follow me.

You two, go to the front."

He had a strong voice and could not refuse.

The eyes are staring at Wang Fan two people, obviously, as long as Wang Fan two people dare to have an opinion, he will not hesitate to start.

"It's time to come." Wang Fan sighed, but there was no nonsense. He took the wild goose to the front.

He knew that he could not attack now, otherwise, even if he was killed, he would die in vain.

When I was on the spaceship, I didn't do it. There was no reason. But now, if he refuses, he is giving her a reason.

The water can kill them directly.

After all, qiushui is the leader of their team, which is also the first order issued by qiushui.

If they refuse, I'm afraid that even those strong people above the fifth level of the holy land will have opinions.

Chapter 2563

Autumn alkene water see Wang Fan no half nonsense, directly pull the vegetable wild goose to the front of the team, but can't help but Leng for a moment.

In his impression, Wang Fan didn't seem to be such a good talker. How could he be so obedient this time?

However, he didn't think much about it. Since these two guys are so obedient, he should bear it again.

Anyway, these two guys are right in front of him. He has plenty of opportunities to deal with them.

At this time, other people have formed an orderly team, and the party has begun to take action.

However, Wang Fan and other 100 monks on the first and second floors of the holy land are at the front of the team, obviously being used as cannon fodder to explore the way.

As for Wang Fan and Su Luoyan, who are still at the front of the group, they are the cannon fodder in the cannon fodder.

Wang Fan and Su Luoyan's face are very dignified. Their mental power is completely released, and they are alert to the wind and grass around them.

After all, this mission is to destroy the Moon Lake, which is no small matter.

Once the moon lake people find that there is an unknown enemy sneaking in, their cannon fodder will naturally become the first group of people to die.

The distance of thousands of miles is nothing to Wang Fan and his party. Although they have deliberately slowed down, they still arrived at Moon Lake an hour later.

In the eye, is a very huge lake, the shape of the lake is like a moon, very beautiful.

The lake is calm, the waves are overflowing, and it looks like a fairyland from a distance.

On the Moon Lake, there is an ancient castle made of crystal jade.

The castle is also in the shape of the moon, occupying almost half of the lake. Under the water mist, it looks like a mirage from a distance.

"What a beautiful moon lake, what a beautiful moon castle."

Looking at the huge lake and castle in front of them, some monks couldn't help exclaiming. However, thinking of the mission of this trip, they quickly shut up.

"We all see the Moon Castle in front of us. Our goal is there. Next, we should be vigilant and sneak in carefully. "

The friar stood up again and whispered to everyone.

At this time, his face has no previous smile, some just dignified.

Obviously, the Moon Castle is not a simple place, even if their strength is very strong, it still gives him a lot of pressure.

"You five groups, spread out and dive in those five directions. You can rest assured that we will protect you in the back. In case of danger, we will all take action at the first time. "

After the man finished, another strong man came out and said to the friars of five groups, including Wang Fan.

This is a strong man of the eighth floor of holy land. His strength is very strong.

Although Wang Fan and his party are not willing to act as pawn cannon fodder, at this time, no one dares to stand up and say anything.

They all know that there is no free lunch in the world, and the other party's generous reward of one million inferior immortal stones is to let them explore the way as cannon fodder. If you dare to have an

opinion at this time, it is to seek death.

Wang Fan and his party walked cautiously and soon approached the Moon Castle in five directions.

Wang Fan looked back and found that Qiuen water was following the last side of their group. A pair of eyes were staring at him and Su Luoyan, which was full of smirk.

Wang fan is very puzzled, this autumn alkene water is not the pride of luoshengzong, he doesn't know that the people who rush in the front are cannon fodder?

In that case, why did he come to the end of the group?

As a matter of fact, Wang Fan was a little strange when he saw that qiueneshui had also taken over the task. Now he was even more surprised when he saw that qiueneshui was also close to the Moon Castle with the first group.

But now is not the time to think, because they are close to the Moon Castle.

Close contact with the Moon Castle, Wang Fan clearly felt a breath of extreme danger.

Around the Moon Castle, there is a big hiding array and a big killing array.

Whether it is the hidden array or the trapped and killed array, it has reached the level of level 7 at least.

If it wasn't near the Moon Castle, even Wang Fan would not have seen it.

Wang Fan noticed the two formations and stopped immediately.

Because as long as he moves forward a few more steps, he will enter the trapped killing array, and then he will become the fish to be slaughtered.

Wang Fan two people walk in the front of the team, they stop, the people behind naturally also stopped.

Qixianshui was still thinking about how to kill Wang Fan, but Wang Fan's sudden stop made him almost hit the friar in front of him.

After stabilizing his figure, qixianshui burst into a rage. He pointed to Wang Fan's nose and said in a low voice, "what are you two doing when you stop? Who told you to stop? Don't you lead me quickly?" "Damn, if you dare to waste your time here, do you believe that I will kill you directly?"

Autumn alkene water just like an angry Beast, ferocious stare at Wang Fan two people, burst out a strong intention to kill.

At this time, he naturally has no need to hide his intention to kill Wang Fan.

"Ah ."

"no, there's a killing array ahead!"

"Whoosh, whoosh, whoosh!"

Wang Fan heard the roar like mad dog in Qiuxian water, and before he could speak, a series of disorderly voices sounded from a distance.

Then they found that several friars who were walking in the front had stepped into the killing array, and they were immediately crushed into flesh and blood by the killing array.

At the same time, those who stepped into the killing array seemed to have touched some mechanism. Countless black crossbows and arrows were shot out from inside, and the strong wind roared.

Wang Fan's face suddenly changed. Without any hesitation, he picked up the wild goose and fell to the ground crazily.

Countless arrows flew by his clothes and directly shot into the monks who couldn't respond. In an instant, several monks fell down.

Not only their group, but also the other four members were miserable. Countless friars died under the crossbow.

Those friars who were shot by crossbows and arrows were black all over. With only a few breaths, they had no vitality at all. Obviously, there was poison in the crossbow.

Just a wave of crossbows and arrows, a hundred cannon fodder friars, at least half of them died, seriously injured.

"Everybody back up!" A low drink came from behind, and then the top of the Holy Land flew out.

They soared up in the air, turned into aura, threw Wang Fan and other monks who survived behind them, and then launched a crazy bombardment on the array.

Bang bang bang bang!

The sound of several terrible explosions sounded, and there were visible ripples in the air.

The array around the Moon Castle also began to shake violently under the fierce bombardment.

Several powerful men bombarded dozens of breaths, and finally destroyed the killing array completely in the sound of clattering.

At the moment when the big killing array was destroyed, a strange fog suddenly emerged, and it rushed into the whole space.

"Ah, what is it? Why can't I use my mental power?"

"I can't release my mental power. What's the matter?"

"I'm not only mentally disabled, I can't see anything with my eyes."

There was another series of screams, and the scene fell into chaos again.

Chapter 2564

"Don't mess, don't mess, kill in order."

Looking at the chaotic scene, a strong man on the ninth floor of the holy land quickly stood up and roared loudly as his strong breath diffused out.

Hearing the voice of the strong man on the ninth floor of holy land, the chaotic scene was a little quieter, and the monks also recovered some calm.

Now that they have just broken the ban of Moon Castle, they are in chaos. How can they fight next?

It can be imagined that if the chaos continues, there will be no need to fight at all, and they will have lost half.

It's just that they're not to blame.

Mental power is absolutely one of the most important means for any monk. Now that mental power can't be used suddenly, it means that they are blindfolded. How can they not panic?

Under the suppression and leadership of the nine level strongman in holy land, the crowd soon formed an orderly team again and slowly entered the Moon Castle.

As for the enemies in the Moon Castle, maybe they know that it's meaningless to issue the hidden arrow again at this time, so they didn't continue to shoot the poisonous arrow.

Qixianshui also got up from the crowd. The first time he got up, he looked at the position of Wang Fan and Su Luoyan.

But soon his heart was sinking, because he found that Wang Fan and Su Luoyan had disappeared, and he didn't know where to hide for a long time.

If you can use mental power here, maybe he can also use mental power to find two people.

But the problem is that the mental power has lost its effectiveness here. In this case, he has no way at all.

In the moment of chaos at the scene, Wang Fan had already caught Su Luoyan and rushed into the moon castle one step ahead of time.

This is not the first time that he has been unable to use his mental power, so he is not flustered at all.

Almost at the moment when he stepped into the Moon Castle, strange breath diffused from his body, which made his mental power recover again.

Where mental power can not be used, either great power changes the rules of heaven and earth by means of communicating with heaven, or there is a lack of certain rules between heaven and earth.

Therefore, as long as Wang Fan improves this rule, his mental power can be restored.

After being able to use his mental strength, Wang Fan was able to clearly investigate the situation in the Moon Castle.

The interior of the Moon Castle is a fan-shaped structure. At first, the space is very small, but with the deepening, there will be more channels.

In each passage, there were dozens of black friars with strong breath.

These friars in black were lying in ambush in different positions, with a jade plate hanging on their chest. They were motionless, their eyes locked on the entrance direction of their passage.

Wang fan saw this scene, his heart was very shocked.

Is it the owner of the Moon Castle who has received the news that someone is attacking the Moon Castle long ago, or is it just the reaction made after he noticed the movement just now?

If it is the former, it is almost impossible for them to complete the task smoothly.

After all, since the master of Moon Castle has received the news, he still dares to stay here. Obviously, he has no fear.

If it is the latter, then the quality of the moon Fort guard is too high.

After all, to be able to make such a response in such a short period of time is enough to show that the quality of its security is not general.

Wang Fan felt the strength of those black guards, did not dare to move forward, but pulled the wild

goose to a corner.

In this case, if he takes Su Luoyan to choose a way to break in, it is really dead, and they are bound to become cannon fodder on that road.

He's waiting here, waiting for the big army in the back.

Wang Fan two people did not wait long, behind the big troops rushed to come.

Wang Fan was very careful. He didn't dare to move. Even his breath was completely restrained.

Among these troops, there are nine layers of holy land. He dare not be careless.

Otherwise, once they are killed by the nine strong men in holy land, they will be dead in vain.

Now Wang fan can only pray, pray that the spiritual power of the nine strong in the holy land can not be used, only in this way, he and Su Luoyan can safely join the team.

The sound of daddada's footsteps was getting closer and closer, and soon Wang Fan was relieved.

He clearly found that the spiritual power of the nine strong in the holy land could not be used here. But their whole body is condensed out a aperture like shield, eyes are more vigilant staring around.

Obviously, they also dare not have the slightest carelessness, in the effort to do a good job in prevention, should face all the coming danger.

In this way, the group soon came to the fan-shaped channel.

Looking at the expansion of the eighteen channels, those friars walking in front of them are a little silly.

They didn't know how to go, they didn't know which side to go, and their scalp became numb again. However, the faces of those who are above the sixth floor of the holy land have not changed much. Obviously, they have long been informed of the general structure of the Moon Castle.

"Don't panic, now I'll arrange for you to enter the corresponding channel." A strong man from the ninth floor of holy land quickly stood up and made a sound again. Then, he began to arrange.

Soon, everyone was divided into 18 groups and arranged to enter their own channel.

Wang Fan clearly found that those who were arranged to enter the middle passage had better accomplishments.

The more marginal the friars are, the worse their accomplishments will become.

Obviously, in the eyes of the nine level strongman of holy land, the more the middle passage is, the more dangerous it will be. On the contrary, the safer it will be.

Wang Fan didn't care about the arrangement of the nine level strongman in the holy land. His spiritual power just locked the water in the crowd. He wanted to see which channel the bastard entered.

This son of a bitch wants to Yin him and the plain wild goose several times. Naturally, he wants to find a way to find this field.

With their own people into the corresponding channel, Wang Fan found that the water also with a group of people into the left most edge of the channel.

But this guy is very afraid of death, not only did not dare to walk in the front, also did not dare to walk in the back, but hiding in the middle of the monks.

Even if he hid in the middle of the friars, he still roared in a low voice after entering the passage, "open your eyes to see clearly, don't touch the enemy's way."

"Also, you should be on my guard against the pair of dogs and men who ran away just now. It must not be a good thing. Maybe they are the spies sent by Moon Castle."

"As soon as anyone finds out about the two bastards, let me know and kill them immediately."

Wang Fan listen to autumn alkene water words, almost hate some gum pain.

This son of a bitch is so hateful. If you don't find a way to kill him, it's hard to get rid of your hatred.

He sneered at the tail in autumn alkene water and others behind, not slow forward, did not make a sound.

He didn't immediately kill the water, because he knew that the team was very close to the black guards in the tunnel.

One step,

two steps,

three steps,

at a certain moment, when the friar who was walking in the front stepped out three steps again, suddenly, the hidden men in black moved!

"Kill Drink it in one word -

whoosh, whoosh!

In an instant, countless arrows were shot out again!

Chapter 2565

In a burst of "ah ah ah" scream, those friars who walked in the front, caught off guard, were immediately shot again by arrows and fell to the ground.

"Alert, alert, enemy attack!"

The monks who survived the disaster in the back, after reacting, yelled one after another.

At the same time, they have also emerged a very surging aura wave.

People's breath intertwined, and soon formed a spiritual wall in the front.

The arrows shot at the Reiki wall and made a series of jingling noises, but they didn't work again.

Seeing this scene, the monks who survived were relieved.

These enemies of Moon Castle are so hateful that they only use such mean means.

"Kill

"Not one!"

At this time, those people in black have also made a rapid response. They put away their arrows, and at the same time, they jumped up and killed Wang Fan and other people.

Although the number of these black guards is small, only 20 or 30 people, their strength is not weak.

Every guard in black has at least three levels of powerful cultivation in holy land, and even several of them have reached the fourth level.

In the same way, they are also full of blood like atmosphere. Obviously, they are all fierce figures who have experienced countless murders.

"Kill

"Kill

"Don't keep your hands, kill them!"

When they saw the black guards coming, their faces changed first, and then they became crazy.

The spirit in their bodies surged wildly. They sacrificed their weapons and killed the guards in black madly.

At this time, the Reiki wall they gathered was not effective at all. Dozens of black guards just went all out, and the Reiki wall was broken.

They all red eyes, crazy to kill the black guards.

Even if their strength is not as good as that of the black guards, there are so many of them. In addition, they are here to destroy the Moon Castle, so naturally they won't stay at this time.

Whoosh, whoosh!

The hissing sound of tearing the air is constantly ringing, and all kinds of lights in the channel are interwoven, gorgeous and amazing.

Rumbling sound one after another, the scene is crazy and dazzling.

However, the violent energy hit on the surrounding wall, but it was like hitting in the debris flow, disappeared without a trace, did not cause any damage to the wall, let alone destroyed.

The battle was fierce and exciting.

Countless monks who rushed to the front of the holy land on the first and second floors were cut off by the black guards. Similarly, the black guards began to suffer damage under the crazy attack of the monks.

One of the guards in black was stained with blood and kept falling back. Some were seriously injured, while others were killed instantly.

Soon, the ground of this passage has been completely stained red by blood, and the pungent smell of blood comes to my face, disgusting.

Wang Fan looks at this scene, the facial expression is extremely calm.

He didn't move, didn't kill the guards in black, just staring at the water in the crowd.

In fact, after knowing that the mission this time is to kill the Moon Castle, Wang Fan had the mind to give up the mission.

Although a million inferior immortal stones are extremely attractive, they are not enough to break the bottom line. Why did he want to destroy the whole family?

However, he has accepted the mission, and among them there are nine strong people in holy land. That's why he has to come in.

Because he did not dare to go, he was afraid that there would be a strong guard on the eighth or ninth floor of the holy land outside.

In that case, once he escaped, he would be in the net.

The water in the crowd is also attacking the guards in black.

But he was very clever, hiding among several monks all the time.

In this way, even if there is a strong attack on his side, there will be other monks will block for him.

Wang Fan took a look at the fierce battle scene, and soon knew that these black guards could not stop the charge of the practitioners.

Although they are powerful and elite, there is a saying that tigers can't stand wolves.

There are too many monks on the side of Qixian water. There are nearly a hundred of them, and among them there are several strong men from the fourth floor of the holy land.

"Kill! Kill me

"Just a group of guards, dare to be arrogant in front of us, and repeatedly stab people in the back, kill them all for me!"

Qiuene water hiding in the crowd, while tearing the roar, while wildly waving weapons in hand, it is very angry.

"Wait for me here. Don't move." Wang Fan Light swept autumn alkene water one eye, and toward the plain wild goose said a, then quietly toward autumn alkene water approached in the past. He's really fed up with this shameless guy. Anyway, he has to kill this guy first.

Because all the friars' attention was focused on the guards in black in front of them, and their mental power could not be used, the scene was chaotic, so no one noticed Wang Fan who came up from behind.

Wang Fan very easily mixed into them, quietly approached the autumn water.

"Son of a bitch, you are so barbarian that you dare to hurt us secretly. You are looking for death!"

"You mean and shameless people like you who can only put cold arrows behind their backs deserve to live in this world?"

Qiuen water is unaware that Wang Fan, who came from behind, is still attacking madly and scolding shamelessly, as if he is the embodiment of justice.

A guard in black on the fourth floor of the holy land can't stand the chatter of qiuxianshui. He is desperate to kill qiuxianshui, and points to qiuxianshui's nose angrily and says,

"noisy mole ants, you want to die! You just dare to hide in the crowd and make use of your companions to make meat shields for you. "

"If you really have seed, get out of here. I don't want you to fight fair, as long as you dare to go to the front! "

The guard in black roared and killed several people on the second floor of the holy land, approaching the water step by step.

Qiuxian water to see this scene, simply scared even the soul to fly.

Although he is a genius of luoshengzong, he is also a strong man in the three levels of holy land, and even can kill the general four levels of holy land.

But in front of him, he can see clearly the battle effectiveness of the holy land. He is not an opponent at all.

How can he not be afraid to kill such a cruel man now?

"Barbarians are just relying on cultivation. Ben Shao won't be fooled by you. Stop him for me and kill him for me!"

Qiuenshui retreats step by step and roars harder.

After hearing the words of qiuxianshui, the friars all around were stunned for a moment. Then they attacked the black guards crazily, while they were away from qiuxianshui quickly.

At this time, no one cares which sect's disciple qiuxianshui is. They just want to live.

Powerful four layers of ruthless people in holy land are killing qiue water. If they dare to stay around qiue water again, they are bound to become the souls of the other party.

Qiue water gas gnash teeth, but also helpless, can only continue to retreat, even he did not dare to continue to speak provocative.

Boom!

There were several low blasts again. Several friars who were standing in front of the black guards were killed, and then the black guards stepped in front of qiushui.

Chapter 2566

"I am a disciple of Luoshengzong. Dare you touch me?" Qixianshui looked at the black guard who stepped in front of him. He was scared out of his wits, and almost subconsciously roared out.

But the guard in black didn't care about his roar at all, but said with disdain, "waste is really waste. Besides hiding in the crowd and moving out of the background, I don't know what else to do."

"What's more, you're all coming to destroy my moon castle. Why don't we offer you as guests?"

The guard in Black said, without any hesitation, and directly hit Qiu water.

At this moment, not to mention the water has been scared completely ignorant force.

Even the friars around him despised the water.

I'm going to destroy them. Now I'm moving out of the clan to suppress them. It's just a lack of brains.

Whoosh!

However, at the moment when the black guard's fist was about to blow on the qiushui brain bag, suddenly, a figure came from a distance and directly met the black guard's fist.

"I'm a strong man in the fourth floor of holy land. Why should I have the same opinion with the third floor of holy land? I'll meet you later."

With this sound, followed by a bang.

The furious Lingyuan burst open, and the black guard was immediately shaken back by dozens of steps.

It was nothing for him to be shaken back, but it happened that he was affected by the attack of those monks around him. He was seriously injured and vomited blood in an instant.

Although the monks were not willing to block the gun for qiushui, they did not stop attacking the black guards.

After all, the positions of the two sides are different, and the black guards are the enemy.

If they don't think of a way to kill the black guards, they will kill them after the black guards kill the water.

There were several fierce attacks coming, and the black guards were struggling to swing away from

those attacks, so they had time to look at the monk who helped qiuxianshui.

He was a middle-aged man with white face. His cultivation had reached the fifth level of the Holy Land and was extremely powerful.

However, before, he just mixed in the attack among the monks, and did not expose his strength.

Now the water is in danger, and he jumps out.

Qiushui saw the middle-aged man Xiu, first in a daze, then in great joy.

He roared like a madman, "brother Mo, it's you. Help me kill him, kill him!"

At this time, he was in a crazy state. For the first time in so many years, he felt the crisis of life and death.

At this time, his hatred for the guard in black had already surpassed Wang Fan's by many times. He just wanted to kill the guard in black.

"Kill

"Kill!"

Just at the moment when Qiuxian water roared like crazy, the other guards in black also seemed to be stimulated, and they fought back madly.

In an instant, countless friars were killed, and the scene was even more chaotic.

Although these black guards were not enough to resist the friars such as qiuxianshui, they fought so hard that no one could underestimate them.

All the friars madly resisted and fought back.

The friar with white face could not help frowning slightly. He immediately told Qiuxian water that he would kill the four layers of black guards in the holy land.

Wang Fan in the back looking at this scene, can't help but sigh at the same time, also can't help but after a burst of fear.

He did not expect that among the monks, there were five strong men in the holy land, and they seemed to be protecting the water.

Fortunately, he didn't act rashly just now, otherwise I'm afraid even if he didn't die, he would have to take off a layer of skin.

At the same time, he is also secretly praising the fate of the water. He didn't die in this way.

Wang Fan did not immediately start, but vigilantly swept around many friars. He wanted to see if there were strong men hidden among these friars.

More than ten minutes later, Wang Fan didn't notice any abnormality, which relieved him.

He did not continue to delay, but quickly ran to the surface of the water.

As a strong man in the three layers of the holy land, Qixian water is not entirely a waste.

Almost at the moment when Wang Fan approached him, he felt something was wrong and turned his head.

"It's you?" See Wang Fan, autumn alkene water face big change, but soon restored calm.

It's just a mole ant in a holy land. He doesn't need to care about it at all.

Wang Fan said with a smile, "yes, it's me!"

With that, his right hand trembled, and the shadow knife appeared in his hand, and then it split out like a flash of lightning.

He didn't choose to sneak attack on the water because he felt that it was too cheap for him to sneak attack on the water.

He's just going to beat this guy head on, hit him, and then kill him.

The bright blade pierces the air like lightning to the water. Qixian water's head is like being struck by thunder, suddenly thinking of the evil young man who chopped his lonely heart after he abandoned Jiang Yi in the dark forest.

They use the same knife, but the skill is the same.

In addition, Wang Fan was also accompanied by such a woman as Su Luoyan. At the moment, he was almost sure that the man in front of him was the young man who killed the lonely heart.

Think of here, autumn alkene water again cold sweat straight, he crazy burning blood essence, tried to resist Wang Fan this knife.

Yes, it's resistance, not counterattack.

Because qiushishui knows that in the face of Wang Fan's powerful existence, even if he is attacking, it

has no significance at all.

Boom!

Wang Fan's shadow knife fell on the weapon of Qiuxian water, making a huge sound of Jinge jiaoming.

Then, Qiuen water was surprised to find that Wang Fan's knife was far less terrible than he imagined. He didn't even need to burn blood essence to completely block it.

Just when he was surprised why Wang Fan's attack was so unbearable, Wang Fan had opened his mouth, and then a thunder and lightning was spit out.

That's right. It's just a flash of lightning.

"It's thunder and lightning, isn't it?" Qiue water is almost crazy, this means, it subverts his cognition.

With a bang, Wang Fan's thunder and lightning burst on his chest. Even if he had burst his chest, he was bleeding.

"In luoshengzong, there are three levels of holy land, but that's all. Just now, the black guard was really right. You are really a waste. "

Wang Fan cold voice heartless spread out, shadow knife again wave, directly cut to autumn alkene water head.

This time, the water can only watch Wang Fan's shadow knife, but it can't respond in time.

With a thump, a head soars to the sky. The whole person falls to the ground in an instant and dies miserably in an instant!

The genius of luoshengzong, the water in the third layer of holy land, death!

"It's you? How dare you kill me! I want to die

At this time, the white faced monk on the fifth floor of the holy land, who was called elder martial brother Mo by qiuxianshui, just saw this scene.

His eyes were red as he was about to crack.

The next second, he directly abandoned the seriously injured four layers of black guards in holy land and killed Wang Fan regardless of everything!

Chapter 2567

"Ha ha, good job! You son of a bitch, you even want to kill others in front of me. Go to hell

However, at the moment when the elder martial brother Mo killed Wang Fan, the guard in black on the fourth floor of the holy land came back to his senses and began to fight back with a wild smile.

No matter who Wang fan is, no matter why Wang Fan wants to kill qiuxianshui, it makes him see the hope and the hope of turning defeat into victory.

He absolutely does not allow the other party to kill Wang Fan in front of him.

The black guard is a strong man in the holy land. Even if he is seriously injured, it is extremely terrible to fight back.

Elder martial brother Mo had no time to kill Wang Fan, but he was already entangled, and the two sides fought together again.

"Kill

"Those who violate my homeland will be killed without mercy!"

The rest of the guards in black, as if the body is also burst out of infinite power, once again launched the fight against death.

The friars on the side of Qixian water were a little silly when they saw this scene.

They didn't expect that Wang Fan would appear behind them and kill the water.

In addition, the former qiuxianshui said that Wang Fan was a spy of Moon Lake, which made them even more vigilant. It was just like being attacked by enemies.

Because while they are dealing with the black guards, they should always be on guard against Wang Fan, for fear that Wang Fan will suddenly attack.

"Ladies and gentlemen, I have no intention to be enemies with you. I just want to kill the beast luoshengzong. Please don't stop me."

Wang Fan looked at the elder martial brother Mo, who was fighting with the black guards. He said to everyone with a fist, and then he killed him.

When people heard Wang Fan's words, they were all stunned.

They are not clear about Wang Fan's position.

However, in order to reduce the unnecessary trouble, no matter whether it is the side of the black

This kind of perfect cooperation is like practicing thousands of times.

"Son of a bitch, you are really the spy of Moon Castle! Kill your teammates in the mission. After today, you will become a street mouse. Everyone shouts to kill. There is no place for you in the intermediate level domain! "

Mo Qing angry roar, eyes congestion, but also in a crazy attack.

In the madness, just two strikes, the seriously injured guard in black was thrown out again and was fatally injured.

This time, the guard in black fell to the ground, coughing up blood. He really couldn't get up.

"Death Mo Qing is in after seriously injuring that black dress guard, it is to suddenly roar a, then regardless of everything killed to Wang Fan.

His hatred for Wang Fan has almost filled the three rivers and five seas, burning up the five veins of the sky!

Wang Fan looked at the scene, eyelids straight jump.

He didn't hesitate to take out the killing shotgun, which was a shot!

At the moment when the killing shotgun went out, it seemed that even time was forbidden.

Everyone felt as if they were bound by an invisible force, and each movement became difficult and slow.

As for Mo Qing, he couldn't help shrinking his pupils, and his body suddenly became stiff.

He felt the deep breath of death!

This, how is this possible?

Just a layer of ants in holy land, how can he feel the breath of death?

Mo Qing is incredible!

At this time, the gun pattern was surging all over the sky, which had been torn on his body and rolled up countless blood fog.

The center of his brow was pierced by several gun lines, and his whole head burst with a bang.

When the gun pattern dissipates, the whole person of Mo Qing has completely turned into blood.

Not only Mo Qing, but also some monks and black guards were affected and died at the scene.

Those who survived by chance saw this scene and became dead in an instant.

"We can't finish this task any more. Although a million inferior immortal stones are attractive, we should have life to enjoy them."

"If we continue to rush forward, we will die. Let's get out of here!"

In the short silence, one of the monks could not help roaring, and then went back to the original road without hesitation.

The rest of the monks saw this scene, and they did not want to continue to rush forward to destroy the Moon Castle, and began to return crazily.

In a flash, the scene was a mess.

Chapter 2568

Wang Fan swallowed several healing pills and the pills to restore his aura, and was also taken back by the wild goose.

At this time, if he doesn't follow back, he will be a pig.

In any case, he didn't want to continue to go deep into the Moon Castle, and he didn't want to do something to break his bottom line.

Su Luoyan has five layers of powerful cultivation in holy land, and Wang Fan's magic power of changing rules, so his spiritual power is naturally unimpeded.

She followed the scattered friars, and no one noticed.

It was only very soon that the monks realized something was wrong.

When they entered the Moon Castle, it didn't take them long to get here. But when they decided to quit, they got lost.

They walked for nearly two hours, but they didn't walk out of this passage. Instead, they went deeper and deeper.

Wang Fan could not help but frown, but he soon understood that he and his party had fallen into a very deep dilemma.

Perhaps the 18 channels are not real channels at all, but a kind of illusory array that puzzles the eyes.

Thinking of this, Wang Fan couldn't help but gasp.

Before, he could see the hidden array and killing array that protected the Moon Castle outside, but now, he can't see the trapped array at all.

It can be seen that this trapped array is much higher than the hidden array and killing array outside.

As for breaking the array, it's an international joke. He can't even see the array. How can he break it?

Wang Fan's heart is sinking. If it goes on like this, they will all become fish to be slaughtered, trapped here all the time.

"Elder martial sister Luoyan, don't follow them any more. Let's go back and find the guards in black." Wang fan made a quick decision and said to Su Luoyan.

In this case, it doesn't make sense to move on. After all, they are trapped in the middle of the battle. Maybe they walk for several hours and they are standing still.

Only by finding the guards in black can they step out of the trap.

When Wang Fan wants to come, he and one of the black guards join hands to kill Mo Qing, which can be regarded as some friendship. Let the other party let them leave safely. There should be no problem.

However, soon Wang Fan's head became big again.

They couldn't even find the place to kill Moqing and Qiuwen water, let alone the black guards.

They walked for more than three hours without finding the guards in black.

In the eye, whether in front or behind, there are long and unfathomable channels, let alone the naked eye, even the mental power can not reach the end.

As for the two sides, all of them are gray, and the gray walls are very hard. Even if it's su Luoyan's all-out attack, there's no way to smash it.

"I'm afraid we are trapped. What should we do now? Do we have to go on?" Plain wild goose also can't help but anxious, toward Wang Fan asked.

Wang Fan shook his head, "we don't want to go on any more. You help me to protect the Dharma. I'll study this trapped array here."

Plain wild goose nodded, and then did not half a nonsense, but all in place to stop.

Wang Fan's mental power diffuses out crazily and penetrates into the surrounding space wholeheartedly, trying to find out a breath of array.

Only half an hour later, he was helpless.

He didn't notice the breath of the array at all, that is to say, in his perception, there was no trapped array around him.

Obviously, with his array attainments, he can't even touch the skin of this trapped array. He is far from the great power of arranging this trapped array.

Wang fan is not reconciled, continues the crazy condensation mental strength, starts inch by inch the investigation, even has used the mixed grain road mark.

In this high intensity of mental force, just three days, his face was pale and looked more weak.

The vegetable falls wild goose looking at Wang Fan this appearance, in the heart is also can't help a burst of colic.

She was a little distressed, but there was no way.

"Found it!" Just when the plain wild goose couldn't bear Wang Fan to go on like this, Wang Fan suddenly opened his eyes and cried out excitedly.

Then, his hands are dancing fast, constantly beating in one of the positions.

The roaring sound is surging and rippling in this space, but the trapped array has not been torn. On the contrary, Wang fan can't help but spit out a mouthful of blood.

"How are you?" Su Luoyan can't help it any more. She rushes to Wang Fan and asks.

Wang Fan shook his head with a wry smile, "I'm ok, but I underestimated the difficulty array, or overestimated my strength, and I can't break the real difficulty array."

Even if you feel trapped, what if you find the base? With his strength, he can't tear the exit to escape from this dilemma.

"Don't worry, you should recover your strength first, and we'll think about it later." The plain wild goose comforts of say. Wang Fan nodded, but he was just about to speak. Suddenly, with a bang, a terrible explosion came out from not far away from him. Then, with a few clicks, the wall not far away immediately collapsed.

Looking at this scene, Wang Fan suddenly changed. The next second, the scene around them began to change. Soon they found that they were on the edge of a huge square.

The square is very big, and it is the size of more than ten football fields.

At the edge of the square, in addition to the two of them, there are many black guards and countless friars' bodies.

The monks died miserably. Some of them were killed by one blow, while others were killed by several blows, just like being dismembered.

On the other hand, many of the guards in black died. Even if they survived, they were injured with strong blood.

Looking at this scene, Wang Fan's eyelids couldn't help jumping wildly.

He had seen many of the dead monks, but he didn't expect that they were dead in a flash.

Look at the number, at least 70% or 80% of them died.

In the middle of the square, five terror strongmen on the ninth floor of the holy land are confronting a cold and gorgeous woman in her early thirties.

The cold and gorgeous woman was wearing a long black dress, which made her cold and gorgeous temperament have a sense of killing.

She is picturesque and beautiful, as if she came out of the painting, perfect to impeccable.

But Wang fan is not concerned about her beauty, he is concerned about another thing.

Among the monks who come here to do the mission, there are only three strong men in the ninth floor of the holy land. How can they become five now?

The most terrifying thing is that five strong men on the ninth floor of the Holy Land besieged the woman, and the woman didn't look hurt. On the contrary, the five strong men were very embarrassed. How terrifying should the woman be?

Did her strength reach the legendary Empire?

Wang fan is absolutely shocked!

All this is too shocking, far beyond his understanding.

As for the wall was blown, he and plain wild goose appear here, Wang fan is no surprise.

It must have been these six strong men who accidentally broke the trapped array in the course of the war, which led to the disappearance of the trapped array.

Chapter 2569

The faces of the five strong men on the ninth floor of the holy land were very ugly. Obviously, they did not expect that the master of the Moon Castle was so powerful.

Nearly a thousand of them came to destroy the Moon Castle, but they didn't expect to destroy the Moon Castle in the end. On the contrary, they almost destroyed the whole army.

It can be said that except for five of them, the rest of the monks are almost dead now.

"Kill

A ninth floor monk in holy land roared, and the scythe in his hand came out madly. In an instant, he rolled up layers of scythe shadow and blasted at the cool woman.

Frenzied energy crazy tearing, surging in the whole space, this moment, as if the void will collapse in general.

The other four did not hesitate when they saw their partner's hand. They madly sacrificed their weapons and killed Lengyan woman.

If it wasn't for the reward of this mission, they would not have worked so hard.

What if all the people who came with them died? As long as the five of them are still alive, as long as they can kill this cool woman, then their task is completed.

"Well, it's just a bunch of brainless idiots. It's just too much for you to want to kill me."

Facing the encirclement and killing of the strong in the five holy places and nine floors, Leng Yan women didn't even have any fear.

She disdained the cold hum a, stretch out the slender jade hand repeatedly urgent wave.

One by one, the powerful array was transformed from his hands in an instant, and in the blink of an eye, it went to the five people who attacked.

Just in a flash, she had already set up no less than ten arrays.

The ten arrays at least reached level 6, and even two of them reached level 7.

Wang Fan at the edge of the square was stunned.

It was the first time that he saw such an attack on a cold and gorgeous woman.

When you wave, you can arrange a level 6 or even level 7 array. This woman is really terrible.

Ten arrays surged out to the top of the five holy places.

Before their attack fell on Leng Yan, they were already trapped in the battle array. Then the killing array surged up. In a burst of self explosion, the attack of the five strong men instantly became nothingness.

Almost at the moment when their attack was resisted and counteracted by the array, a jade flute appeared in the hand with a move of Leng Yan's right hand.

Instead of blowing the Jade Flute, she grabbed the Jade Emperor and swept forward.

The ripples were torn out and swept on the five strong men in an instant. In a roaring sound, the five strong men were blasted out again, with blood spilling from the corners of their mouths.

After holding their figure, their faces were even more gloomy and ugly. At the same time, they were extremely angry.

If this woman suppresses them with great strength, they may be able to accept it.

But now, the other side just uses the array to suppress them, which makes them feel very constrained, not happy at all.

"Woman, do you only know how to use arrays? Do you have the ability to rely on the first battle of cultivation?"

One of the nine strong men in holy land couldn't bear this kind of humiliation. After wiping the blood from the corners of his mouth, he couldn't help yelling at the cool woman.

"By virtue of the first battle of cultivation? How funny Leng Yan woman seems to have heard some big joke, "why don't you tell me, you and I have a battle with array?"

"Five of the nine levels of the Holy Land besieged me and one of the weak women had the face to say that. I was finally taught."

Leng Yan said that she didn't give the Holy Land ninth floor a chance to speak again. She had already used more than ten arrays again.

Looking at this scene, the faces of the five saints changed suddenly.

"Fight!"

"Kill

The other two couldn't help but roar. In an instant, they burned their blood essence madly and killed Lengyan woman madly. But the other three people, actually in the moment of crazy back up.

Due to the retreat of the three nine level strongmen in holy land, all the dozens of arrays fell on the other two nine level strongmen in holy land.

Even though the two strong men in the ninth floor of the holy land were frantically burning their blood to resist, they were still blasted out and were seriously injured in an instant.

"You three old men!" After they fell to the ground, they immediately looked at the three men who fled to the outside. They wanted to split.

But their voices did not finish at all, and the ripples of jade flute had already come, which took their lives in an instant.

Wang Fan looked at the scene, but also eyelids straight jump.

He couldn't see the strength of this woman, but he was sure that she didn't reach the imperial realm.

But this woman's array attainments are really powerful.

A strong man who does not reach the realm of the emperor can achieve the highest accomplishments in the holy realm.

However, it is appalling to hear that people can suppress the nine levels of the five holy places with the array.

Wang Fan's eyelids jumped when he saw that two of the nine strong men in holy land died and three of them ran away. He quickly pulled the wild goose and moved out quietly. Although he didn't kill anyone in Moon Castle, he was a monk after all.

Once that cold gorgeous woman frees her hand to deal with him, even if he has ten heads, it's not enough.

You know, people can kill the strong in the ninth floor of holy land. Even if they fight for their lives, they will not be able to sacrifice the killing short guns.

"Now that you're here, don't go. Why don't you take my moon castle as a place to come and go whenever you want? "

The cold gorgeous woman didn't care about the three monks who escaped from the holy land. With a sneer of disdain, she grabbed a jade card and threw it to the void.

In a flash, a terrible array had spread out from the front. Three monks of the ninth floor of the Holy Land hit on the array, made a roar, and directly bounced back.

At this moment, let alone Wang Fan, even the three strong men of the ninth floor of the holy land were numb.

If they had known that this task would be so difficult, they would never have taken on this hot task.

After all, no matter how attractive the reward is, there must be life to enjoy it. This frigid woman's terror is far beyond their estimate.

"We surrender, we admit defeat, as long as you let us go, we can make compensation."

After returning to God, even if one of them spoke quickly.

Lengyan woman heard this, again can't help but sneer, disdain said, "compensation? What kind of compensation can you take out with your three little wastes? "

"For the sake of a million medium grade immortal stones, you dare to invade the Moon Castle. Can you afford to pay for it?"

A word from the cool and gorgeous woman immediately made the three holy places fall like ice caves.

Wang Fan's heart is also jumping wildly.

The reward of these nine level strongmen in holy land turned out to be a million grade immortal stones. It's terrible. Who is the gold master behind the scenes?

What he didn't expect was that this cold and gorgeous woman was so dismissive. How rich was this cold and gorgeous woman?

"What do you want?" The three strong men in the ninth floor of holy land could not help asking again, even their teeth were trembling.

"Be my servant for a hundred years, or die now!" Cold Yan woman light says.

Hearing this, the three strong men of the ninth floor of the holy land turned red immediately.

They are the top nine in holy land. They are the top nine in holy land!

In the intermediate domain, they are just like heaven. Even if they are ten major branches, they dare not easily provoke? But now, I'm forced to be a slave

Chapter 2570

"You can resist, but I only give you one chance." The three strong men on the ninth floor of the holy land were about to refuse, and the cold voice of the cold woman came out again.

This cold voice directly swallowed the words that they poured into their throat again, and their momentum was completely destroyed.

"I, I, promise."

"I promise, too."

"I agree."

Three people bitterly in succession voice, completely surrender.

"Since you agree, then open your mind, don't resist, let me make a mental imprint, otherwise, you will die as well."

The voice of the cold gorgeous woman is very natural, as if she had expected that the three people would agree.

The three opened their mouths, but they didn't dare to say much. They opened their minds one after another.

It's just a hundred year old slave. I'll die anyway.

Between living and dying, they chose to live without hesitation.

When Leng Yan saw that they were open-minded, she didn't continue to talk nonsense. Instead, she danced her hands and quickly made several decisions.

The ripples of aperture spread out and printed on the eyebrows of the three people, which soon left a mental imprint on them.

At the moment when the mental imprint was planted, all three of them felt that their lives were controlled. It seemed that only one thought of a cold and gorgeous woman was enough to deprive them of their lives.

"I'm a slave. See you master." A nine level holy land is the most opportune, found that things can not be violated, quickly kneel on one knee, salute respectfully.

"Slave Chen Yuankun, see you master."

"Slave Mo Daoliu, see you master."

The other two people see, even if the heart is no longer taste, also can only follow, have knelt down.

So far, they have had to bow down.

Originally, the ninth floor of the five holy places was still besieging Leng Yan women, but in a flash, two of them were killed and three of them became slaves.

There's nothing like that.

Wang fan is also surprised to see, but it is also some scalp numbness.

Even five of the ninth floor of holy land can't handle this woman. How can he handle it?

Is he going to be the slave of each other just like the three ninth floor of the holy land?

No, he would never!

"Get up! You can rest assured that as long as you are here for me to drive you for a hundred years, I will give you freedom. " Leng Yan waved her hand to the three, then turned her head and looked at Wang Fan and Su Luoyan.

Wang Fan's heart clapped for a while, but still stood up with a stiff head, "that, elder, we were forced by them."

"We didn't kill a monk in Moon Castle. We are not enemies. Please forgive me and let us go."

Wang fan is really a big head. In the face of this kind of existence, he has no strength to resist at all. Whether it's Dao or cultivation, the other side is enough to throw him a hundred blocks.

"Oh, really?" The corner of the cold gorgeous woman's mouth crossed with a sneer, "you come to destroy my moon castle in a fierce manner. Do you want me to let you go like this?"

Said, Leng Yan woman has emerged a strong momentum.

Wang Fan's scalp was even more numb, but he insisted, "what do you want? I don't want Xianshi. I can't be your servant! "

"Since you don't want to let me go, just let me go. I know I'm not your opponent, but even if I die, I'll fight for it. "

"I would rather die standing than live kneeling!"

Although Wang Fan spoke very impassioned, he didn't have much momentum.

Lengyan woman heard Wang Fan's words, she couldn't help laughing, "Xianshi, do you think I lack that thing?"

"As for the slave, you are worthy to be my slave with your cultivation in the holy land? Do you think anyone is qualified to be my servant? "

"You don't deserve it!"

Wang Fan was furious when he heard this. The woman obviously looked down on him!

"In that case, please come and see if I'm afraid of you!"

Wang fanxin a horizontal, simply lazy to continue nonsense, but crazy release of mental power, dead locked the woman.

As long as the cold gorgeous woman dare to kill, or close to him for a distance, he will be crazy to sacrifice the killing shotgun.

There was no way. The distance between them was too far. At this time, he sacrificed his killing short gun, for fear that it would not have any effect on the woman.

Boom!

However, as soon as Wang Fan's words came down, there was a loud bang not far away.

Then, in a clattering sound, the big array that was opened by the cool woman outside immediately broke open.

Then, a woman in red came in with thousands of friars.

"Ha ha, you cunt, Yuebai Yi, are really hiding here. I'm afraid I can't break your big array and find you here if it's not for those rubbish exploring the way."The woman in red said with a wild smile, and immediately waved her hand, "kill me, kill all the people here, no one left!"

With the sound, the woman in red flashed to kill Lengyan madly. At the same time, the thousands of monks behind him also killed the guards in black madly.

Looking at this scene, Leng Yan's face became ugly in an instant.

She didn't expect that those who attacked before were cannon fodder, but now those who broke in are the real main force.

Especially looking at the woman in red, her eyes almost split, "night red, it's you!"

Said, as if to see the enemy in general, Lengyan woman also did not hesitate to kill the woman in red.

Wang Fan looked at the scene, it was dumbfounded.

He did not expect that this situation would happen.

Yuebai Yi and yehongyi are so similar in name that it is obvious that there must be some connection between them.

At the same time, Wang Fan also thought of the woman he met in the lower realm, yuehongyi.

I just don't know if yuehongyi has any connection with these two women.

Wang Fan soon shook his head, now is not the time to think about these things, but to find a way to leave here.

"Let's not fight. Let's get out of here. These two women are not good things. We'd better leave as soon as possible. "

Looking at this scene, Wang Fan quickly said to Su Luoyan, and then suddenly yelled at the monks who came to kill them,

"brothers, we are together, not the enemy. Kill those guards in black."

With Wang Fan's roar, he was the first to rush to the black guards with the wild geese.

I can't help it. There are too many monks coming here. No matter how strong he is, he can't stop it.

If it was a hard war, the shock of this terrible army of monks would be enough to tear them into pieces.

The guards in black were completely angry when they saw this scene. They killed the friars one after another. At the same time, some of them killed Wang Fan and others.

However, Wang Fan did not fight with the black guards at all. They just flashed a few times and jumped past them.

They had no time to pursue and kill Wang Fan, so they were surrounded by other monks.

War, set off again!
