Chapter 2621

Boom!

A terrible explosion, white eyebrow man this must kill a knife, unexpectedly but failed.

I saw that Peng Yuan, who had fallen to the ground and was dying, had already jumped to other places like lightning. At the same time, he also caught a yellow gourd.

The mouth of the gourd opens and aims at the man with white eyebrows. In a flash, endless black mosquitoes rush out and surge toward the man with white eyebrows.

"This, this is a bone eater?" Looking at this scene, the white browed man's face suddenly changed.

Bone eating insects, which are extremely poisonous mosquitoes, are not only extremely difficult to kill, but also extremely disgusting.

The most important thing is that once the insect is on the body, it will instantly integrate into your body and devour your bones.

If you can't force it out at the first time, the people who are swallowed will end up in a miserable situation.

The white browed man did not expect that Peng Yuan, a mere three-tier holy land, would have bone eating insects.

He didn't understand how Peng Yuan tamed these bone eating insects.

But now he has no time to think about it. The most urgent task is to eliminate these bone eating insects before we can think of anything else.

Otherwise, even if he is a strong man in the sixth level of holy land, he will not be able to bear it.

The white browed man began to retreat crazily and beat the bone eating insects with his big hands.

However, the number of bone eating insects is too much, even if he killed a lot, there are still countless.

The gourd in Peng Yuan's hand is like a bottomless hole, and there are still endless bone eating insects rushing out.

In the position hundreds of miles away from the two, Wang Fan's mental power clearly looked at the scene, also some scalp numbness.

No wonder Peng Yuan has such a bad reputation. This man is really not simple.

If he met these disgusting insects, he would have to run away.

I can't help it. It's not only a lot of worms, but also disgusting. He doesn't want to get infected with them.

Over there, the man with white eyebrows is still killing the bone eating insects crazily. At the same time, he is constantly retreating.

On the ground, countless insect corpses have piled up in a pile, emitting a disgusting smell. Even some bone eating insects rushed to the corpses and began to devour them.

Peng Yuan saw that the man with white eyebrows was entangled by the ancient insect. He bit his teeth hard, put away the gourd and turned around to run.

Seeing Peng Yuan running away, the white browed man wants to chase him. Unfortunately, he is entangled by the bone eating insect and can't get away for a while.

The anger in his heart!

He chased Peng Yuan twice, but Peng Yuan escaped, which was a shame to him. Now, his intention to kill Peng Yuan has even surpassed Wang Fan's.

Wang fan saw Peng Yuan escape, eyes a bright, immediately flashed to follow up.

He wants to see if he can find a chance to kill this guy.

You know, this guy has thousands of fairy crystals. If he can get them, it's a great fortune.

At this time Peng Yuan is also a little uncomfortable, did not notice to catch up with Wang Fan. Or even if he is aware of it, he doesn't care.

Only he knows that those bone eating insects are attacking, others need to be controlled by the female, and the female is in his gourd.

Now he took the gourd away. Without the control of the mother, the bone eating insects that entangled the white browed friars would soon become a mess. They would even die automatically without being killed by others.

The most important thing is that those bone eating insects will also bite back. Every time he releases the bone eating insects against the enemy, a large number of bone eating insects will fall on him and devour his bone veins.

If he doesn't get rid of those bone eating insects as soon as possible, his own life will be in danger.

Because although he got the gourd, he didn't completely control the female.

It's very good that he can use the female insect to fight the enemy like this.

Wang Fan convergence of the whole body breath, crazy toward Peng Yuan approach.

But because of the distance, he couldn't catch up with Peng Yuan for a while.

Even if he doesn't kill Peng Yuan, once he does, he must kill him with one blow. He can't give this guy a chance to release bone eating insects.

He doesn't want to be infected with that disgusting bug.

Peng Yuan ran all the way. An hour later, he stopped in an open area.

Here, has been far enough away from the white browed man, escaped from each other's mental range.

After stopping, Peng Yuan didn't immediately force out the bone eating insects in his body. Instead, he looked behind him and said coldly, "since it's coming, come out. Don't hide."

Wang Fan listens to this words, can't help but startle for a while, still slowly walked out.

He is very incredible, he thought Peng Yuan was not aware of his tracking, did not expect the other party should have known.

I really can't underestimate anyone. It's not easy for Peng Yuan to make such a big name. When Peng Yuan saw Wang Fan come out, his expression didn't fluctuate at all. He said coldly, "do you think I'm seriously injured, so you can ignore me?"

"I asked you to join hands just now, but you refused. Originally, I was thinking of looking for an opportunity to kill you in the future. Now that you've sent yourself to the door, I'll go to you again."

"You are just a mole ant. You dare to follow me Peng Yuan. You are blind!"

Peng Yuan said, simply do not give Wang Fan the opportunity to speak, the hand has already seized a long gun, directly toward Wang Fan stabbed in the past.

Wang fan is just a mole ant in the holy land. He hasn't paid attention to it.

Even if he is seriously injured, he can be easily killed.

Wang fan saw that Peng Yuan did not move the gourd, but offered a long gun. He was immediately

relieved.

Originally, he planned that if this guy used bone eating insects to deal with him, he would avoid them first. Now that Peng Yuan didn't use bone eating insects, it gave him a chance.

"You're right. I really want to see you seriously injured and take advantage of it. But there is a saying that you are wrong. It is not that I am blind, but that you are blind. "

Wang Fan, who was relieved, said the same coldly, and then took out the shadow knife directly.

He didn't have the slightest reservation.

The fierce killing power surges, but the shadow knife tears out only one.

It's just that the power of this sword is more than several times stronger than that of the sword he used when he was on the second floor of the holy land?

Boom!

Click!

Two sound, sharp knife awn directly cut off Peng Yuan's long gun, and then tear in his chest.

Whoa!

There was another sound. Peng Yuan immediately flew backwards and was cut off under his waist.

He was shocked to stare at Wang Fan, his face changed in an instant.

Where is this holy land? The strong one in the first level is just the strong one in the sixth level or even the stronger one in the holy land.

He did not understand that Wang Fan was so strong that he needed to be afraid of the white browed man. Why did he run away just now?

Peng Yuan soon stopped thinking about it. Instead, he planned to use bone eating insects to contain Wang Fan.

It's a pity that Wang Fan didn't give him a chance at all. Wang Fan was chopped off again. Peng Yuancai had just caught the gourd when he had been beheaded by Wang Fan.

After Wang Fan killed Peng Yuan, he had no time to catch his breath. He grabbed Peng Yuan's space ring and disappeared in the same place.

Boom!

Almost as soon as he left, a blast appeared in the position before him, and a nine ring knife came down.

White browed man!

Chapter 2622

"I say you are really shameless. Do you only learn to sneak attack when you reach the sixth level of holy land? I think you've been training dogs for so many years. "

Wang Fan turned his head and looked at the white browed man. He said unhappily.

There was some fear in his heart. He was careless.

He thought that this guy was still fighting against those hateful bone eating insects, but he never thought that this guy should get away so quickly and catch up with them.

If he had known that, Wang Fan would not have killed Peng Yuan so quickly. He had to let Peng Yuan and the white browed man continue to fight, and then start again.

"Well, you were lucky to escape last time. Today I want to see where you can escape."

In the face of Wang Fan's abuse, the white browed man was not angry at all. Instead, he snorted scornfully and waved the nine ring sword again.

Peng Yuan's bone eating insect reminds him that he can't belittle any friar.

Previously, he asked Peng Yuan to release bone eating insects, which was his carelessness. This time, in the face of Wang Fan, he would not allow Wang Fan any chance to turn the tables.

Wang Fan originally wanted to fight with this guy, but after feeling the power of this guy, he immediately changed his mind.

He did not hesitate to seize the killing shotgun, and then crazy to stimulate its prohibition, a shot out.

The killing power swept across the space in an instant. In an instant, time seemed to be at a standstill.

The white browed man's complexion became extremely ugly in an instant, even a little pale.

He felt as if he had been locked by the killing intention of the powerful emperor in the legend, and he could only die.

He didn't understand that Wang Fan was just a mole ant. How could he have more terrible means than Peng Yuan.

If possible, he would rather endure the humiliation of being beheaded than seek revenge from Wang Fan.

Unfortunately, he has no chance to regret it.

All over the sky, the gun pattern is sweeping the sky, and the killing force is surging up. It is pounding against the wave of nine ring sword.

In a burst of roaring sound, the nine ring sword wave was like paper paste, which had collapsed and dissipated in a flash.

Gun grain is castrated, continue to crazy to the man with white eyebrows.

The white browed man just retreated a kilometer later, and the gun pattern was already rolled on his body.

There was another clattering sound. The vigorous Qi defense condensed from his body surface collapsed in a flash, and his body was torn out of the blood fog.

He had not even had time to beg for mercy, let alone to say a word, he had been killed by the terrible gun pattern all over the sky.

Wang Fan looked at this scene, even he could not believe his eyes.

Is it too powerful?

He was sure that even if the seven strong men of holy land who had not been injured came here, they would not be spared in the face of his shot.

Wang Fan didn't expect that his cultivation, after breaking through to the third level of the holy land, could have such a terrible power by stimulating the killing short gun.

But soon Wang Fan didn't think so much about it. He was very glad that the space ring on the white browed man wasn't destroyed. It was a miracle.

Without hesitation, he put away his space ring and turned to leave.

This is Wuliang Mountain. There are so many experts in it. Such a terrible energy storm must have shocked many strong people. He dare not stay here any longer.

Wuliang Mountain, Geng Tietu library.

The slovenly man was closing his eyes and didn't know what to feel. About ten minutes later, his face

suddenly changed and he suddenly stood up.

Because he just felt the breath mark on Wang Fan, but he couldn't feel it.

His face was a little ugly. He never thought that Wang Fan, just a mole ant, could find his breath mark and remove it.

"It's just the second level of holy land. I can detect and remove my breath mark. It's a little interesting."

A chill appeared in the eyes of the slovenly man, and then his figure flashed, and disappeared without a trace.

The city Lord's mansion, Zhong Wuhua stood up with the same ugly face, because she could not feel the breath mark on Wang Fan.

"I'm going to Wuliang Mountain." Zhong Wuhua also has no nonsense, directly said to the maidservant, body shape a flash has disappeared.

Whether they are slovenly men or Zhong Wuhua, they all go to Wuliang Mountain. Their only purpose is to find Wang Fan.

As for what to do with Wang Fan, only they know.

Wang Fan didn't know that Zhong Wuhua and the slovenly man had rushed to Wuliang Mountain to find him. He had returned to the place where he had been closed before and began to close again.

From the white browed man and Peng Yuan's space ring, he got 10 million medium grade immortal stones and more than 10000 inferior immortal crystals. In addition, he also got countless top-level spirit grass and refining materials.

These resources are enough for him to practice for a period of time. It is precisely because he has so many resources that he plans to close down again.

As for going to the places marked with treasures on the map, it is naturally delayed again.

He came to Wuliang Mountain just to look for resources. Now that he has got the resources, he naturally needs to use them first.

At the moment of Wang Fan's closure, tens of thousands of miles away from him, the slovenly man who ran forward suddenly stopped.

As soon as his figure flashed, he had already fallen beside a man's self-cultivation. He asked coldly, "do you have a black talisman on your body? Take it out for me."

Listening to this, the man was stunned for a moment, and then said, "who are you? Why should I take out my things for you?"

The reason why he dared to say this was that he had more than a dozen companions around him.

The cultivation of these companions is above the eighth level of Zunjing, and even one level of Shengjing.

Although these people can't run rampant in Wuliang Mountain, they can't be provoked by anyone.

"To die!" When the slovenly man saw that the man dared to talk back, his face immediately became cold and he slapped him in the face.

The man saw that the slovenly man started without saying a word, and his face became ugly in an instant.

He subconsciously wanted to avoid, but soon he was shocked to find that he could not escape at all.

With a slap, the man got a slap and was immediately taken away with several blood teeth. The whole man flew out.

His companions, who were planning to help, stopped immediately after seeing this, and looked at the slovenly man with a shocked face.

Isn't this not amazing looking slovenly man too powerful?

Just this slap, they already know that even if they do it together, it is definitely not someone else's hands.

"Forgive me, master. The talisman is here. I didn't use it."

Naturally, the man was not a fool. He dared to continue to be tough. He quickly took out a talisman as he spoke.

The slovenly man took a look at the talisman, and then asked coldly, "where did you get this thing from? If you have half a lie, don't blame me for being rude."

The male repairs in the heart a cold, quickly reply, "I am to pick up on the ground."

"On the ground?" The slovenly man's mouth could not help choking for a while, and his heart was furious.

He could see that the male monk didn't cheat him, that is to say, Wang Fan directly threw his talisman on the ground.

What a cunning boy! How dare you throw away his talisman!

The slovenly man was about to explode. In an instant, he shot wildly and killed all the more than ten people here. Then he went to the depth of Wuliang Mountain.

Two hours later, he came to a place full of poisonous fog swamp. This is a place marked with treasure on the map and the nearest place to Wuliang Mountain.

He just glanced around and knew that Wang Fan had not come here.

"Boy, I'll wait here to see if you'll come!" The slovenly man murmured, and his figure quickly faded, and then hid.

Fortunately, Wang Fan met Peng Yuan and the white browed man when he went out of the pass, and got some resources from them.

Otherwise, he will definitely come to this place. In that case, he will definitely be caught by this slovenly man.

I don't know if Wang Fan will be afraid after knowing this.

Chapter 2623

Wang Fan did not know that the slovenly man had come to Wuliang Mountain, and began to wait for him.

At this time, he was still immersed in cultivation, and there was no sign of stopping.

Under the surging aura of ten thousand lower grade immortal crystals and ten million middle grade immortal stones, Wang Fan's accomplishments also began to soar again.

One month later, his cultivation came to the middle of the third level of the holy land. Three months later, he reached the peak of the third level of the holy land. Eight months later, he directly broke through the third level of the Holy Land and came to the fourth level of the holy land.

At this time, ten thousand immortal crystals and ten million medium grade immortal stones had been consumed by him.

He practiced again for two months, consolidated his cultivation in the early stage of the fourth level of the holy land, and left the seclusion place.

Feeling the surge of his strength, Wang Fan feels happy, but also worried.

His cultivation consumes too much resources. The later he goes, the more cultivation resources he will

need.

He was worried that one day he would never find enough cultivation resources, which would lead to stagnation of cultivation.

In that case, he wanted to kill wudaozong and take revenge on xudaozi, but it was really a joke.

In the nearly one year of Wang Fan's seclusion, the slovenly man waiting for a rabbit is almost crazy.

He has been waiting for Wang Fan for nearly a year, but he still hasn't come here. He has no confidence that Wang Fan will come.

Did Wang Fan fall on Wuliang Mountain, or didn't plan to come here at all?

The slovenly man has no patience to wait here.

After all, Wang fan can be extremely decisive to lose his transmission, it is also possible not to come here.

Moreover, Wuliang Mountain is extremely dangerous. No matter how treacherous Wang fan is, it may fall. If Wang Fan falls, does he have to wait here all the time?

Of course, the most important thing is that he is just a waste of time and has no way to practice.

Although the aura of heaven and earth here is rich, it is not much help compared with his cultivation. If he wants to improve his cultivation, he must find cultivation resources.

Although 80% of the place in front of him might really have treasures, it was too dangerous for him to explore.

If you don't say anything else, it's hard to cross the poisonous fog swamp just in front of you.

He clearly knew that there were many strange and ferocious insects and monsters under the poisonous fog swamp.

Once they are angry, even he may fall here.

"Boy, I hope you're still alive, and don't meet me again." The slovenly man grumbled unhappily, then his figure flashed and disappeared.

The slovenly man didn't know. After he left for about three days, Wang Fan finally came here.

If he knew about it, he didn't know whether he would vomit blood.

He had been waiting for Wang Fan for nearly a year, but when he saw that Wang Fan was coming, he left, which was a great irony.

As the slovenly man had left, he naturally did not see Wang Fan, and Wang Fan did not run into the slovenly man.

At this time, Wang Fan stood in front of the poisonous fog swamp, staring at the area in front of him, which was full of question marks.

In such a place, will there be top-level cultivation resources?

He doubted whether he had been cheated by the slovenly man.

But since he came, Wang Fan was not in a hurry to leave.

He took out the map and compared it carefully again. He found that the place marked with the treasure was still ahead.

In other words, if he wants to find resources, he must cross the swamp area.

Wang fan stops several kilometers away from the poisonous fog swamp, closes his eyes, and his mental power spreads out madly and penetrates into the swamp.

He wants to see if there is any danger in this swamp area before he tries to cross it.

But Wang Fan's mental power just penetrated into the swamp, just like water into the mire, disappeared without a trace, he did not find anything at all.

Wang Fan frowned and his face became dignified.

This poisonous fog swamp is absolutely unusual, very unusual.

At this time, he believes that there are really top-level resources ahead.

After all, it is almost an iron truth that most places with top-level resources are accompanied by great danger.

Wang Fan breathes deeply and grabs the shadow knife. He plans to have a look at it first.

Think of doing, Wang Fan's shadow knife in mid air across a long arc, rolled up the sky of the knife awn, crazy toward the swamp bombardment.

The fierce killing power swept across crazily. The sword wave instantly tore the air and smashed it hard.

Boom!

The harsh roar of explosion spread out that the marsh, which was as calm as a lake, began to roll rapidly, and the deep gullies were cut out, but they were soon filled up again. However, at the moment of filling up the gully, in a buzzing sound, countless insects and demons came out suddenly and madly, all of them rushed to Wang Fan.

Wang Fan looked at this scene, immediately some scalp numb up.

At this moment, he thought of those bone eating insects that Peng Yuan had sacrificed before.

However, these insects are much more disgusting than bone eating. They are not only mosquito like insects, but also fly like insects.

Not only that, but some insects have no wings at all, but they can fly. Those insects are like cockroaches and locusts, flying and squirming in mid air, disgusting.

"Damn it Wang fan can't help but burst a rude, where dare to hesitate, directly crazy flash, quickly disappeared here.

He doesn't think he can deal with these insect demons. Once he is attacked by these insect demons, he will be disgusted even if he is not bitten to death.

Wang Fan in the crazy run at the same time, but also from time to time crazy blow out a few knives.

The fierce wave of the sword cuts a blank in the dense army of insect demons, but it's a pity that it will be filled again soon.

Wang Fan looked at this scene, decisively gave up the attack, but whole-heartedly began to run.

He is no longer thinking about looking for treasure, but how to get out.

At the same time, he is also cursing the slovenly man. If possible, he must lead these insect demon troops to the slovenly man's gengtie library, so that the slovenly man can have a taste.

However, he just thought about it. He had no way to lead these insect demons there.

Wang fan is like an electric light, crazy away, and those insect demon speed is not slow, still in crazy pursuit.

They are just like eating the steelyard weight and iron heart. If they don't kill Wang Fan, they will never give up.

Wang Fan's scalp is numb.

Looking back, I saw that the dense insect demon had almost covered the whole sky, and there was no end to it.

This kind of shocking visual impact, even if the emperor is strong, I guess I have to feel guilty.

"Damn, didn't you just chop it, as for that?" Wang Fan see those insect demon army persistent chase, heart is also a little numb.

He would like to apologize to these insect demon troops, saying that brother I was wrong, let me go this time, but it's a pity that he can't speak, and these insect demons may not be able to understand him.

"What to do? What shall we do? " Wang Fan tried his best to start thinking about countermeasures, but unfortunately he couldn't think of any good way.

He can't completely kill these insect demons. It seems that the speed is not enough to get rid of them.

Real scalp numbness!

Chapter 2624

"Let me out, I'll help you deal with these insect demons." When Wang Fan was at a loss, suddenly, a weak voice came into Wang Fan's ears.

Wang Fan was shocked, and his mental power immediately penetrated into Peng Yuan's space ring. He said, "you, are you the mother of the bone eating insect?"

He is really shocked. Isn't this bone eating insect confined in a gourd, and the gourd has been banned by him.

In this case, the female can even make a sound, isn't it too deep?

"Yes, it's me. Let me out. Only I can deal with those insect demons." The mother speaks again.

Wang Fan hesitated. He didn't know whether he wanted to release bone eating insects.

After all, he doesn't have the means to control bone eating insects, and he doesn't want to control this disgusting insect.

He was afraid that once he released the bone eater, it would bite him back.

"You don't have to worry. I won't bite you back. I can swear by the wormhole that as long as you don't mean evil to me, I won't bite you back, or the thunder will kill you."

The insect way?

Wang Fan listen to some Leng Leng, but he has made a decision, intend to release bone eating insects.

Whether it's human cultivation or demon cultivation, as long as it's cultivation, it's against the heaven.

In this case, their vows are valid.

Wang Fan directly grabbed the gourd from Peng Yuan's space ring. After he aimed the bottle mouth at the dense army of insects and demons, he directly opened the prohibition and bottle stopper.

As soon as the cork of the bottle was opened, the bone eating insects came out with a loud buzz.

They just like to see what beloved prey, very crazy toward the insect demon army rushed in the past.

At this moment, Wang Fan obviously found that the insect demon army began to panic, as if they had met some terrible enemy.

The two sides soon intertwined, Wang Fan obviously saw that just in a short time, countless insect demons had been engulfed by bone eating insects, and began to flee around, defeated.

He was staring at this scene, obviously did not expect that bone eating insects should have this effect.

At this moment, Wang Fan became the audience.

He hid not far away and began to watch the war between the two sides.

Just less than an hour's effort, the insect demon army has been engulfed.

So easy to solve? At the same time, Wang fan is really afraid of bone eating insects.

Fortunately, Peng Yuan didn't use bone eating insects to deal with him, otherwise he would have to peel off his skin even if he didn't die.

"There are so many insect demons here. I think there must be an insect king at the bottom of that swamp."

"Now let's go to the swamp. I'm responsible for dealing with those insect demons and insect kings. When I kill those insect demons and insect queens, you cross the swamp to find your chance."

An adult fist size bug flew to Wang Fan and said.

This big bug is different from those disgusting bone eaters. It's actually golden and looks like a miniature cat with wings.

"Are you a female?" Wang Fan's Leng Leng looks at this vomit human speech mother insect, simply can't believe own eyes.

The female is so beautiful and lovely, but the offspring below are so ferocious and disgusting. Is that a big gap?

The mother did not speak, but looked at Wang Fan.

Wang fan saw this, quickly embarrassed smile, and then nodded, "OK, I listen to you. You can rest assured that after this event, I will return you gourd and freedom. "

It's not a good thing to have this female around. He doesn't want to have such a time bomb around him.

Although this female insect didn't do anything just now, Wang Fan didn't have to think about it and knew its power.

"You don't have to return the gourd to me, you just need to take it with you. Don't worry, I have already made an oath, so as long as you don't mean evil, I will not bite you back. "

Mother insect swept Wang Fan one eye, light say.

It didn't let Wang Fan swear that he would not hurt it. Obviously, it didn't pay attention to Wang Fan at all.

In its view, to hurt it with Wang Fan's cultivation is to seek death.

"Ah?" Wang Fan was stunned again, but he nodded quickly. He couldn't refuse because his strength was inferior to others.

Soon, under the command of the mother insect, the dense bone eating insects had opened the way and ran towards the swamp area.

Wang fan is not slow to follow behind the dense bone eating insects.

Looking at the dense bone eating insects, he had a kind of inexplicable feeling.

If he can command these bone eating insects, it seems very good.

At that time, it is estimated that even if it is ten major doors, I dare not talk nonsense in front of him, right?

However, Wang Fan soon gave up the unrealistic idea that the female insect could not be willing to accept his command. At the command of the female, countless bone eating insects rush into the bottom of the swamp.

Under this severe impact, the whole swamp rolled violently again.

A insect demon just like met the nemesis general, crazy to escape, those bone eating insects are not desperate to chase.

"Why do you fight my people? We are all insect demons. Why bother the same kind? "

A hoarse voice like a molar reminds me that a disgusting insect the size of a baby's fist flies out.

It stares at the half empty bone gnawing mother worm and says angrily.

Another talking bug?

Wang Fan found that he really had a long experience today, but this insect is much uglier and more disgusting than the mother of bone eating insect.

It's also a bug. Maybe that's the gap.

At the same time, Wang Fan could also hear that the insect King seemed to be afraid of the bone biting mother worm, with anger and fear in his voice.

The mother bone eater doesn't speak at all, just keeps on humming strangely.

In this buzz, those bone eating insects also become more crazy, and even some even pounce on the baby fist size ugly insects.

As for the bone biting mother worm, it was constantly spurting out small golden lightsabers, which soon formed a circle to wrap the ugly insect.

The ugly insects hissed and struggled wildly, but it didn't help at all.

Before long, it was engulfed by countless bone eating insects.

After another hour passed, there were no more than half of the insect demons in the swamp. Even some non insect demons were scared to escape from here and did not dare to get close.

"Let's go." After exterminating those insect demons, the bone eating mother insect spoke to Wang Fan.

Although Wang Fan wanted to ask the bone biting mother worm what to do to kill these insect demons, after all, he didn't see the mother worm devouring any insect demons, but he finally held back and didn't ask.

He felt that he had better not be fussy. If it comes to other people's secrets, it would be bad.

In this way, the army of bone eating insects opened the way, and Wang Fan followed.

This dangerous poison fog swamp area, for him at the moment, was like his own back garden, without any danger.

Almost at the moment when Wang Fan followed the bone eating army and flew over the poisonous fog swamp area, Wuliang city and Geng tietuku suddenly stood up.

"Someone went to the swamp and flew safely into the air?" The slovenly man murmured, his figure flashed again, and disappeared without a trace.

Chapter 2625

After passing through the poisonous fog swamp area, Wang fan is presented with a deep canyon. In front of the canyon, there is a cave that looks very old.

It's obvious that the cave has been around for some years. It's full of traces of being washed away by the years, but there is a strong protective array outside.

It was because of being protected by the protective array that the cave failed to collapse.

Wang Fan has already seen at a glance that it is an eight level guard array.

The eight level guard array is definitely the top one. If it's normal, with Wang Fan's five level array master's strength, it may not be able to open it in a short time.

However, because of the existence of this protective array for some years, it has begun to loosen. Even Wang fan can clearly detect the location of the array base, so he is very sure that he will break the protective array in a short time.

Buzzing ·

just when Wang Fan was going to break the guard array, suddenly, the female insect made a buzzing sound again.

With the sound of it, in an instant, countless bone eating insects rushed towards a pile of places like soil.

Almost at the moment when the bone gnawing insects rushed past, the soil began to creep strangely, and soon turned into a ferocious monster with two horns on its head, and fled to the distance crazily.

Wang Fan looked at this scene, his eyelids could not help jumping again, and even his back exuded some cold sweat.

You know, just now, he used his mental energy to carefully investigate the surroundings, and he didn't

find any abnormality, let alone the monster.

If the female did not find the monster, or if the female did not open the way to bring him here, even if he came, it would be very dangerous.

Wang Fan really didn't know how the monster was cultivated. Even though his skin and soil were the same, he could hide himself into a mound of earth. Even his mental power could not detect any abnormality. He was really abnormal.

"Thank you very much." Wang Fan turned his head and was very serious to thank the mother.

Although it seems a little nondescript to thank an insect, the female insect really saved him once.

The mother did not speak at all, and she did not know whether she was too lazy to pay attention to Wang fan or not.

It buzzed again, and then a group of bone eating insects rushed to the protective array.

The sound of clattering came out. After only a few breath, the protection array had been crushed by bone eating insects and disappeared.

Wang fan is a little stunned again. He really doesn't know that bone eating insects still have this kind of means.

"Well, the danger here has been solved by me. You can go in and look for your chance. I'll go back too. Don't disturb me if you have nothing to do."

After ordering the bone gnawing insects to bite and protect the array, the mother insect said something to Wang Fan, and then got into the gourd.

With it into the gourd, other bone eating insects are also followed in, and soon disappeared without a trace.

Wang Fan looked at the bone gnawing insects that all entered the gourd in a flash, and was curious about the gourd.

He did not understand how such a small gourd could hold so many bone eating insects.

If there were no bone eating insects in the gourd, he really wanted to study the gourd carefully and find out how big it was.

After the bone eating insect entered the gourd, Wang Fan didn't stop it, let alone ban it. Instead, he put it in Peng Yuan's space ring again.

He has decided to put the gourd in Peng Yuan's space.

As for his own space ring, he is absolutely afraid to put gourd in.

Wang Fan put away the gourd, and did not waste time, directly step into the cave.

As soon as he entered the cave, he saw a ladder.

The long ladder goes up, and I don't know where to go.

Wang Fan no nonsense, directly step out, carefully climbed the first step.

Almost at the moment when he stepped up the steps, a breath of extreme ice came. That kind of permeating into the bone of the cold, almost frozen him into ice sculpture.

Feeling this scene, Wang Fan couldn't help but take out the cold air and quickly moved the aura in his body.

With the operation of aura, his demon fire hidden in flesh and blood finally had a reaction, sending out layers of heat waves to resist the cold.

Ice cold soon disappeared, Wang fan is also greatly relieved, continue to go up.

One step,

two steps,

three steps,

when Wang Fan stepped on the 18th step, he finally reached the top. What appeared in front of him was a small stone chamber with a dead bone.

I don't know how many years it has existed. There is no sign that it has been dried. On the contrary, the skeleton is still shining.

On the withered finger, there is a space ring, and in front of it is a scroll. Wang Fan carefully walked over, is planning to put away the space ring, a breeze, the space ring turned into dust dissipation.

Wang Fan looked at this scene, the pupil can not help choking at the same time, it is about to die of heartache.

The biggest chance, it's gone like this?

He was sure that the owner of the skeleton must have been a super strong man, even a strong emperor.

In this kind of space ring of the strong, it's strange to have less cultivation resources.

It's just a pity that everything has gone out of his way.

There is no way, Wang fan can only focus on the scroll.

This time, he didn't dare to move again, and he didn't dare to take it directly with his hands. Instead, his mental power spread out carefully and fell on the scroll.

However, what he saw was just a blank, and his mental power could not penetrate the scroll to see the contents.

In desperation, Wang fan can only carefully take it with his hands again. He is even afraid that his hands will take up the breeze and turn the smoke into fly ash.

Fortunately, I don't know what material this scroll is made of, but it hasn't been dried by the wind. Even if his hand was on it, he felt a sense of firmness.

Wang fan is very excited, carefully opened the scroll.

When he saw the five words at the top of the scroll clearly, his mind exploded, and then his whole heart jumped up.

...

in the poisonous fog swamp area, with the squirming of space, the slovenly man of Geng tietuku appears here strangely.

After he appeared, he immediately flew to the poison fog swamp area, but he was a little cautious.

But when he found that he appeared over the swamp, only some beasts and monsters, but no insects and monsters, he was surprised.

Here, he is most afraid of those insects and monsters. As for these beasts and monsters, although they are also troublesome, he thinks he can deal with them.

The slovenly man didn't hesitate at all. He killed those beasts and monsters crazily.

With a monster being killed, he is also gradually close to the location of Wang Fan's cave.

Chapter 2626

Magic, big space move!

Wang Fan looked at the five characters, and his whole heart was excited.

It turned out to be a volume of magic, which was beyond his expectation.

Although he had never heard of fairy art, he could prove that this scroll was not simple just from these two words.

Wang fan is going to open the scroll to have a look, suddenly he realized that someone has entered the cave.

As soon as his face changed, he quickly swept the stone room and found that there was nothing more, then he rushed out from the other end.

The cave has two entrances, one is the entrance and the other is the exit.

Almost as soon as his figure disappeared, the slovenly man appeared in the stone room.

After the slovenly man entered, he did not hesitate at all and chased the exit.

This is just his subconscious action, because as early as entering the stone chamber, he had already found someone here.

In order to avoid being detected by the other party, he not only restrained his breath, but also did not dare to use his mental force to investigate.

After all, the other party was the strong one who could kill countless insect demons in the swamp. He had to be careful with such people.

But he never thought that he was so careful that he was found.

Since he was found, he naturally did not need to continue to hide, but pursued out while his mental power was frantically diffused.

But his face had changed as soon as his figure reached the exit position.

Because he found that the other side did not run away, but hid in the dark exit.

Not only that, he also knew Wang Fan who had bought his map and kept him waiting for a year.

The slovenly man's face changed greatly. He was trying to stabilize himself and fight back, but it was too late.

Because the speed is too fast, his body has rushed out of the exit, and left his back to Wang Fan.

Wang Fan experienced many battles, how could he miss such a wonderful opportunity?

Almost a slovenly man left his back to him, he had already madly agitated Lingyuan, chopped out.

The fierce killing power spread in an instant, and the blade was torn, and directly cut to the heart of the slovenly man with an incredible speed.

Wang fan is extremely calm and crazy, and at the moment of cutting, his mental power has also communicated with the killing shotgun.

As long as he can't kill the slovenly man with this knife, he will immediately sacrifice his killing short gun.

He couldn't see the cultivation of this slovenly man at all, but he could guess that this man was absolutely not simple. He didn't dare to be careless about this kind of person.

In fact, as Wang Fan expected, this slovenly man is really not simple.

Almost at the moment when the knife was about to hit his back, a layer of vigorous Qi shield suddenly appeared on his back, and his body quickly twisted.

Click!

Whoa!

The fierce sword cut on the vigorous Qi shield, crushed the shield, and immediately cut on his waist.

Whoa!

A blood mist splashed out, and the slovenly man had rushed out more than ten meters again, stabilized himself and turned his head.

His waist is bloody and bone can be seen, but Wang fan knows that this injury is nothing to a slovenly man.

"If you dare to attack me, you will die!" The slovenly man was so angry that he planned to kill Wang Fan.

But at this time, a terrible will to kill suddenly spread out, locked him to death.

In this terrible sense of killing, he actually felt a cold feeling all over his body.

It's as if I'm facing an incomparable strong man. No matter how I move, I will be killed by this killing intention.

In Wang Fan's hand, I don't know when there was a rusty shotgun. It was from the shotgun that the

terrible intention of killing spread out.

Wang Fan's face, on the other hand, became extremely pale, as if he had been drained of all his strength, and he was depressed.

"Son of a bitch, I have nothing to do with you, but you want to kill me as well as make a mark on me."

"Now you die for me!"

Wang Fan pale face grimace a, crazy urge killing short gun, directly hard split out.

"Stop, there's something to say!" The slovenly man's face changed greatly. He just had time to shout out, and the overwhelming gun pattern had covered him.

The slovenly man no longer dare to talk nonsense, but madly agitates the aura in his body, and even burns the essence and blood to fight.

Boom, boom, boom!

The deafening sound of explosion continued to come out, and the red blood continued to splash. At this moment, it was like an earthquake. Even the whole stone room began to shake and collapse.

Wang Fan didn't go to see the result at all, and he didn't dare to wait here. Almost at the moment when he sacrificed his killing rifle, he had already forced to take a breath and fled here quickly. No matter whether the slovenly man will die or not, he dare not stay here.

Because he is in a very bad state now, any monk can kill him.

If this slovenly man can get away with it, then he will surely die.

After a long time, the smoke dissipated, and the slovenly man was lying on the ground. He had completely become a bloody man.

His bones are broken in many places, and his whole body is also bloody and fleshy. There is no intact skin at all.

But he didn't die.

Yeah, he's not dead!

If Wang fan saw that the slovenly man was not dead, he would be shocked.

You know, with his current strength, he will try his best to send out killing rifles. Even the strong of the eighth floor of holy land will have to drink hatred. Even the general ninth floor of holy land is not

immune.

But now, the slovenly man didn't die.

It can be seen that this slovenly man is definitely a nine level strongman in holy land, and he is not an ordinary nine level strongman in holy land.

Full ten minutes later, the whole body blood and flesh of the slovenly man just stood up hard.

He stares at the direction of Wang Fan's leaving, and his eyes are full of killing intention.

It is a shame that he was so badly damaged by a mole ant!

At the same time, he was afraid and greedy of Wang Fan.

A magic weapon that can hit him hard will never be simple.

If he can get it, even the strong in the early days of the Empire, he is sure of the first World War.

"Little beast, whether it's Biluo or huangquan, I will kill you He opened his mouth and let out a gnashing but low growl, then left here with difficulty.

Hundreds of miles away from here, Wang Fan couldn't run away, so he found a place to get in.

After going in, he arranged several prohibitions difficultly, and immediately his eyes turned black and he fell into a coma.

Now, he only asked that Geng tie would not notice this place or him.

No way. He can't run any more. He has to hide here first.

I don't know how long it took for Wang Fanyou to wake up and see that he was still safe. He was relieved.

He quickly took out a few pills, swallowed them in one gulp, and then began to recuperate.

At the moment when Wang Fan fell into recuperation and recovery -

Wuliang City, the city Lord's mansion, did not find Wang Fan's Zhong Wuhua in Wuliang Mountain, and she had already sent out the news that Wang Fan entered Wuliang Mountain, and even told about Wang Fan's killing Gu Xiao, the tenth elder of Sansheng sect.

Not only that, she also spread rumors that Wang Fan was able to kill the enemy because he had top secrets and magic weapons. Moreover, in Wuliang Mountain, Wang Fan got countless opportunities.

Chapter 2627

With the spread of the news, suddenly, the wind surged.

Luoshengzong, wudaozong, sanshengzong and other forces sent strong people to Wuliang Mountain one after another.

Their only purpose is to kill Wang Fan while looking for opportunities.

Wang Fan's reputation in the intermediate domain, it can be said that few do not know.

Once in the dark forest, Wang Fan was able to cut off several famous saints and wudaozong Tianjiao. How long did it take for Wang Fan to kill Gu Xiao on the sixth floor of the holy land?

If there is no secret in Wang Fan, the ghost will believe it.

In particular, luoshengzong and wudaozong, who had a grudge against Wang Fan, gave orders to kill Wang Fan at all costs.

In addition to these forces, the white clothes of Moon Castle also rushed to Wuliang Mountain.

On that day, in the Moon Castle, Wang Fan actually took away her countless resources in front of her. If she didn't frustrate Wang Fan, her white clothes would be hard to get rid of.

At the moment when many forces rush to Wuliang Mountain, a woman in black comes to Wuliang city.

If Wang Fan was here, he would recognize that this woman was the night of nantianfu in the capital.

At the moment, the strength of the night has reached the third level of Zunjing, and the cultivation speed is very fast.

It has been a while since she entered Yuanmen in the dark. She also heard that Wuliang Mountain is full of great opportunities, so she planned to come to Wuliang city to see the situation first.

She plans to buy a map here first, and then go to Wuliang Mountain to have a chance.

Many years have not seen, the face of the night less immature, a bit more mature.

However, her cool and gorgeous temperament has not changed.

"Have you heard that Wang Fan has entered Wuliang Mountain now, and many people have gone to Wuliang Mountain to find him."

"Wang Fan? Who is he? "

"Che, you don't even know Wang Fan? At the beginning, in the dark forest, he and his Taoist companions even killed several famous saints, but no Taoist, Tianjiao. Have you never heard of such a big thing? "

"He, of course I know, but I don't know his name is Wang Fan. By the way, what does it have to do with other people when he enters Wuliang Mountain? Why do so many people go with him? "

"Hey, you don't know that, do you? When he was in the dark forest, although he was against the heaven, he was only able to kill the three or four layers of Tianjiao in the holy land.

But in the past few years, he was able to kill the six strong men in holy land. It's said that he has a big secret, and he got a great chance in Wuliang Mountain. "

"Ah?"

Night just want to find a place to buy maps, you hear the voice of the next discussion.

Wang Fan?

She couldn't help being surprised, and immediately looked at the two men.

We are talking about two male practitioners. One is on the fourth floor of Zunjing and the other is on the sixth floor.

Night was not afraid of the two men, but walked a few steps quickly, clasped hands and asked, "two Taoist friends, please. I don't know where Wang fan is now. If you know, please let me know."

The nun they were talking about suddenly saw the night coming and said these words. He couldn't help looking at the night carefully.

If night was a male monk, they would not hesitate to sneer. They just saw that night was a female monk, so they didn't mean to sneer, but said,

"younger martial sister, I advise you not to join in the fun. Do you know how terrible Wang fan is? Do you know how powerful those who went to mount Wuliang to kill him are? "

"Don't say it's you. Even we dare not wade in the muddy water. With our strength, to find Wang fan is to seek death. "

With a wave of hatred on the night's face, he drew an image in the void, "I don't know if Wang Fan you are talking about is this person?"

"This man is cruel and cruel. He has a grudge against me. I will go even if I die. If the two elder martial brothers know the general location of Wang Fan in Wuliang Mountain, please let me know. My younger

sister would be very grateful. "

When the two men heard this, they had no way to persuade them.

One of them nodded at first, and then said apologetically, "that Wang fan is really this person, but we don't know his specific location. I'm really sorry."

"Wang Fan, the kind of ruthless man, his hiding place, how can we such small people know. Don't say it's us. Even those who go to Wuliang Mountain to find him may not be able to find him. "

Night listening to this, eyes in the emergence of a strong sense of disappointment.

She once again toward the two boxing thanks, and then quickly into the city of Wuliang.

She plans to buy a map first and then go to Wuliang Mountain.

Not to mention that she and Wang Fan have some friendship, let alone that they are from the secular world. Now that Wang fan is in trouble, she can't sit back and watch.

Even if her strength is low, maybe she can't really help Wang Fan, but more people will always have more strength. When black clothes buy a good map and enter Wuliang Mountain, Zhong Wuhua sits on a chair with a sneer at the corner of his mouth.

Wang Fan dares to cheat her. She hasn't come to the city Lord's residence for more than a year. It's strange if she can let Wang Fan go.

If she had known that Wang Fan didn't come to the Lord's mansion, she should have asked her father to take Wang Fan.

Wuliang Mountain, Wang fan is practicing crazily. He doesn't know what's going on outside.

What he did not know was that Luosheng sect, Wudao sect, Sansheng sect and even Yuebai sect all entered Wuliang Mountain to find him.

Such a terrible strength and lineup, it is too much to look up to him Wang Fan.

It took Wang Fan a month to complete his cultivation.

After the restoration of cultivation, he did not leave immediately, but opened the space to move the magic.

It's a waste if you don't practice.

If he can learn to move a lot of space and cooperate with his own flash, it will be more difficult for

ordinary people to kill him.

It's just that the big move of space is not so easy to practice. If you want to practice the magic art successfully, you must master some space rules.

At this age, Wang Fan's accomplishments and his ability to control the law of thunder and lightning are extremely adverse.

As for the rules of space, which are infinitely superior to the law of thunder and lightning, it is difficult for him to comprehend them.

Fortunately, there is an introduction to the magic, how can we quickly understand the rules of space, so that Wang Fan will not be unable to start.

But even so, it took him more than two months to realize some space rules.

Three months later, he was able to use the magic of space.

In an open area, Wang Fan, sitting with his knees crossed, suddenly disappeared. When he reappeared, he was thousands of meters away.

This kind of disappearance is a real disappearance, and there is no law to follow.

Unlike lightning flash, even if it can disappear out of thin air, in fact, it is not really disappearing, but the illusion caused by too fast speed.

Wang Fan tried for a while and found that he was the most and could only move space twice at one time.

Not only that, he can move more than 20 kilometers.

This kind of magic is obviously not suitable for running for life, but is more suitable for avoiding the attack of the strong.

Chapter 2628

Wang Fan practiced again for a month, and didn't leave until he was completely proficient in space.

In Wuliang Mountain, a place full of opportunities, if he doesn't look for opportunities, it's a brain problem.

Wang Fan took a look at the map, and soon found the second place marked with treasure on the map.

According to the map, this place seems to be a city, but it is an empty city.

Wang Fan looked at the introduction and was shocked.

It's really weird that Wuliang Mountain has a city.

But he still plans to go and have a look.

Since the location of the first treasure on the map is true, the second one is probably true.

Instead of bumping around like a headless fly, he might as well go there directly, which can save some time.

Whoosh!

Two figures from Wang fan body before the wind, but soon turned back.

"Wang Fan?" There was a touch of excitement in their eyes. Without hesitation, they grabbed the magic weapon and roared at Wang Fan.

Although Wang Fan wore a mask on his face, the mask was given to him by Zhong Wuhua.

And the news that he was in Wuliang Mountain was spread by Zhong Wuhua, so it's normal for others to recognize him.

Wang fan is puzzled. He doesn't understand why these two guys started without saying a word.

However, since the other party has already started, he naturally will not stand here and wait to die.

Almost at the moment when they started, he took out the shadow knife without hesitation, and then split out crazily.

It's just a dream to deal with him now.

Shadow knife in the air across a long arc, set off a huge killing power, surging up.

With two thunders, their attack was broken immediately.

Before they had time to show their second move, Wang Fan moved in a big space, then flashed to them, and the shadow knife cut their legs mercilessly.

Hiss.

There were two loud noises again, and the blood mist splashed. Their legs were directly cut off by Qi gen, and they fell to the ground in a scream.

Wang Fanying knife pointed to two people and asked coldly, "who are you? Why do you want to fight me?"

"If you can't tell the reason, I'll discard your accomplishments and throw them into the demon insect nest."

He saw the horror of the insect demon with his own eyes, so naturally he thought it would be better to threaten others like this.

Two people can cultivate to the five levels of holy land, naturally they are not stupid, and they don't even know what the insect demon is.

Although they doubted Wang Fan's words, Wang Fan's expression didn't seem to be faking. They didn't dare to hesitate at all and said, "we say, we say."

"Some time ago, someone sent out the news that you were in Wuliang Mountain. They also said that you have a big secret and that you have got a lot of resources in Wuliang Mountain."

"After the news spread, a large number of monks rushed to Wuliang Mountain, the purpose, the purpose ·"

the man said for a long time, but did not dare to say that the purpose was to kill Wang Fan. But Wang fan is to help him make up, "the purpose is to kill me, right?"

"Now, what people or forces have come here, and who spread the news? By the way, those whose accomplishments are not as good as yours don't need to talk about it. "

They quickly nodded, "I only know the three forces and a woman. The three forces are luoshengzong, wudaozong and sanshengzong. That woman seems to be called yuebaiyi."

"But as for who spread the news, we don't know. Elder, we really don't know. We are willing to give space ring and please be kind."

"Space ring, Kaien?" Wang Fan sneered, "I don't think much of that thing on you. As for mercy, you're going to kill me. Do you still expect my mercy?"

"Now that you have chosen to do something to me, go to hell. Since you have done something, you always have to pay a price."

Wang Fan said, shadow knife has no hesitation under the wave, directly took away two people's lives.

The two five strong men in holy land were not the enemies of Wang Fan's moves.

This not only has a lot to do with Wang Fanxiu's promotion, but also plays a crucial role in the great

space movement.

At this moment, Wang Fan had some understanding of his cultivation.

He rolled up the space ring on them, but he was already thinking about who was making him secretly.

After thinking about it, Wang Fan finally thinks that Zhong Wuhua is very likely.

After all, the woman knew what he had done in the Moon Castle, and what he was now.

There is also, sanshengzong also involved, obviously know that he killed Gu Xiao, but this matter, Zhong Wuhua also know.

Of course, we can't rule out that other people also know these things, so we broadcast such news, but the probability is too small. Wang Fan's anger is also a sneer. Sooner or later, he will go to Wuliang city again, and then to the Lord's mansion.

He wants to tell Zhong Wuhua that Wang fan is not so easy to deal with. Since he wants to deal with him, he has to pay a price.

Wang Fan thought in his heart, and soon found a place, and then drilled in.

He can't wear the mask any more. He wants to change his face again.

An hour later, Wang Fan has changed his appearance and become a pale but child.

As for cultivation, he didn't hide it. He was still on the fourth floor of the holy land.

In such a place, the higher the accomplishments, the safer it will be.

If he lowers his cultivation level, maybe every dog and cat will bite him.

After all, it's very common for the strong to snatch and kill the weak for no reason.

Wang Fan quickly ran to the second place where he hid the treasure. He didn't intend to hunt those big men Tianjiao here.

The most urgent thing is to improve our strength. As for others, we can stay behind.

After all, if his strength is improved, will he worry that he will not get revenge?

Three days later, Wang Fan has appeared at a huge beach.

Yes, it's a huge beach.

In front of him was a vast sea, and his spiritual power could not reach the end.

In front of the beach, surrounded by countless friars, but at sea, it is listening to a few search for big ships.

Wang Fan looked at the scene and felt strange.

He felt as if he was no longer in Wuliangshan, or even Yuanmen, but returned to the secular world.

Is it ridiculous that there are beaches and ships in Wuliang Mountain?

"Hey hey, this elder martial brother, please take a boat. Our price is not high. We only need one million Chinese immortal stones."

Wang Fan just walked to the beach, a skinny friar was already smiling.

Wang Fan frowned, "why should I take your boat? Can't I fly here? What's more, why do I go to the sea? Is there a chance in the sea

Listening to this, the thin man didn't feel strange, but said patiently,

"there is an inexplicable suction on the sea, which consumes a lot of the monk's aura. It's OK to fly in a short time, but once the time is long, even the strong people on the ninth floor of holy land will not be able to bear it. "

"But you are right to say that there are endless treasures and opportunities on the sea. Our ship is a treasure hunt ship, just to take you to the sea to find opportunities. "

At this point, the skinny man began to cheat, "this younger martial brother, it's just the cost of a million Chinese immortal stones. It's really not expensive."

"You think, if you can get a chance on the sea, even a corner will be worth far more than a million Chinese immortal stones. And we have strong people on board. It's very safe. "

Chapter 2629

Wang Fan listened to the thin man's deception, did not speak, but the people next to him were speechless.

One million medium grade immortal stone is just a small one. This guy is too thick and dark.

If anyone could take out a million medium-sized immortal stones, it would be impossible for so many monks to gather here. They would have gone to sea by boat.

Wang Fan just slightly pondered and nodded, "OK, I can take your boat to sea, but if I want to leave halfway, your people can't stop me."

He didn't go to see if there was suction in the sea, but since so many people gathered here and didn't act alone, it means that the skinny man didn't cheat him.

"Naturally, we can, but we will not retreat from Xianshi." The thin man didn't hesitate at all and said directly.

Wang Fan nodded, then took out a million pieces of stone to each other, and boarded the ship.

It's just a million pieces of Chinese immortal stone. Although it's a little expensive, he can still take it out.

The most important thing is that the place he wants to go seems to be on the sea, which is why he did not hesitate to take Xianshi out to take the ship.

The friars on the beach were a little surprised to see that Wang Fan had paid one million medium grade immortal stones without hesitation.

Obviously, I didn't expect that Wang Fan would be so rich. Without blinking an eye, he paid a million Chinese immortal stones.

You know, it's a million grade immortal stones, not inferior immortal stones or spirit stones.

Wang Fan didn't care about the monks' eyes at all. He had already followed the skinny man on the ship.

After boarding the ship, the lean man took him to a medium cabin room. Although the room was not big, Wang Fan was satisfied.

What he needs is just a quiet place, not so luxurious. After all, he plans to go out to seek treasure, not to enjoy it.

"Dear guest, you will stay here first. Our ship will leave in an hour."

"You can rest assured that if you encounter any islands or places suspected of having treasures, our people will inform you."

Lean man toward Wang Fan said a, immediately has turned away.

After Wang fan saw the thin man leave, he immediately learned the magic of space moving again.

On this ship, he did not dare to practice at all.

After all, the ship is a mixture of human and snake. Who knows if there is a powerful master hidden

behind it? If he practices too much and attracts others' attention, he will be in danger.

Although Wang fan is not afraid of anything, he doesn't want to provoke unnecessary troubles.

While Wang Fan was studying the magic of big move, a woman in black also came to the beach.

But different from Wang Fan's treatment, when the woman in black came here, no one went up to ask if she was on a boat.

Obviously, her three-tier cultivation of Zunjing made other people not think that he could take out a million Chinese immortal stones.

The woman in black is no other than the night.

But the night didn't care if anyone came up to ask herself. She went straight to a friar who was soliciting guests. She hugged her fist and asked, "is this ship going to sea, and how do you charge?"

Coincidentally, the friar she went to was the skinny man who boarded the ship.

The skinny man saw that the night came to inquire, and he didn't mean to look down on it. Instead, he said with a smile, "low cabin, half a million medium grade immortal stones."

Obviously, this guy is also a judge.

When he sold to Wang Fan just now, he didn't say that the lower class only needed 500000 medium grade immortal stones.

If he said that, Wang Fan would never spend a million dollars on medium class.

The night nodded, then said, "half a million is too expensive, three hundred thousand, I'll sit down."

The thin man was stunned, and immediately shook his head. "300000 is absolutely not good, how can it be 350000!"

"Good." The night nodded, without any nonsense, took out 350000 Chinese immortal stone, and immediately followed the skinny man to board the ship.

This time, the friars around were even more shocked.

If Wang fan can take out one million pieces of Chinese immortal stone, and they can barely accept it, it would be too bad for them to even take out three or four hundred thousand pieces of Chinese immortal stone in the dark, just three layers of a respectable environment.

You know, the medium grade immortal stone is not something that the monk Zunjing is entitled to get.

Looking at the back of the night, some monks even had a pity in their eyes.

If only they had known that there were so many Chinese immortal stones on the night, and the night had not boarded the ship.

Unfortunately, the night has boarded the ship, this time is to give them the courage, they dare not start.

An hour passed quickly, Wang Fan only felt a slight vibration, and immediately, the ship began to start. The speed of this ship is not as fast as those ships in the secular world. It's just a few minutes away from the beach and into the vast sea.

Wang Fan did not continue to study the space, but observed the direction of the ship, and compared his destination.

He didn't want to lose his real-time location information and direction in the process of cultivation.

One day later, Wang Fan was meditating in his room. Suddenly, a small loudspeaker in his room suddenly rang.

"Dear guests, as our ship consumes too much materials along the way, please prepare the maintenance fee. Someone will come to collect it later."

"Low class maintenance fee, 1000 medium class maintenance fee, 5000 medium class maintenance fee."

Wang Fan listened to this voice, immediately couldn't help but frown.

He spent a million yuan on the ticket of Zhongpin Xianshi, and now he even wants to ask for the maintenance fee?

He felt as if he had been trapped.

Although it's only five thousand medium grade immortal stones, it's nothing to him at all, but he doesn't want to be slaughtered like this.

What's more, why do low and medium class passengers need to pay maintenance fees, while high class passengers don't?

Obviously, the people who live in the high class are all people with strong background. They dare not accept it at all.

Wang Fan opened the door and walked out of the room. He wanted to see if other people would be willing to pay the maintenance fee.

"Crouching trough, what? We all pay the shipping fee. How can we still pay the maintenance fee?"

"It's killing people. Black. It's too black. I've never been in such a black boat since I was so big."

Countless monks were filled with indignation and complained. Obviously, no one was willing to pay the maintenance fee.

Wang Fan did not speak, just stood in the crowd watching the scene.

He's waiting. He's waiting for the caretaker to come.

They didn't wait long. The skinny man who had been on the boat came over.

Across the way, he said to everyone with a smile, "I'm sorry, please pay the maintenance fee."

However, as soon as he said this, he immediately aroused public indignation.

"We've already paid one million yuan for Zhongpin Xianshi. Why should we pay the maintenance fee?"

"Son of a bitch, when you asked me to take your ship, I didn't say that I needed to pay maintenance fee!"

"Son of a bitch, do you see us bullying and killing us?"

Chapter 2630

In the face of the anger of the practitioners, the skinny man didn't feel embarrassed at all. Instead, he said with full reasons,

"what you pay is only the cost of your room. As for the maintenance fee, it's naturally a separate charge, which is our ship's regulation."

"Of course, if any of you don't want to pay the maintenance fee, it's OK. Just leave the ship at once."

"As for the fare, I'm sorry, it's not refundable."

Thin man said, the momentum on the body suddenly expanded up, just in a flash, it has spread the whole audience.

"The nine strong in holy land?"

"The ninth floor of holy land? How is that possible? "

Feeling the strong breath of the thin man, all the practitioners' faces changed greatly.

Most of them are monks below the fifth floor of the holy land. Facing the strong of the ninth floor of the holy land, there is no room for bargaining.

"Master, are you relying on your accomplishments to bully us like this? Are you going too far?"

Finally, a monk on the fifth floor of the holy land could not help but stood up and said angrily.

"Oppress you too much?" The thin man, with a smile, immediately raised his hand without hesitation.

With a slap, his palms firmly fell on the strong man of the fifth floor of the holy land. The strong man of the fifth floor of the Holy Land didn't even have the chance to struggle, and he was seriously injured with several mouthfuls of blood in his mouth.

Looking at this scene, everyone was shocked. It's really overbearing.

The skinny man's action directly made the friars who wanted to resist suppress the idea of resistance.

In this place where the strong are respected, others are powerful and don't reason with you at all. What can you do?

"This time, I'm just slapping. If anyone refuses to pay the maintenance fee, please leave our ship."

"Otherwise, my next slap will not be as simple as hurting people."

The thin man's eyes swept the room, but no one dared to talk more.

"I'll give you another hour. In this hour, if you don't have medium grade immortal stone, if you don't have medium grade immortal stone, you can find a way to get immortal stone."

"We not only have pawnshops on board, but also sell weapons, magic weapons, martial arts, elixirs and other places."

"Of course, it's absolutely impossible to kill and snatch. If someone dares to do so, once they are found, there will be no amnesty for killing."

The skinny man said and turned to leave.

"Wait a minute." But at this time, an untimely voice suddenly came out.

As soon as the thin man's face changed, he immediately looked at Wang Fan.

For Wang Fan, he naturally knows, but he doesn't pay attention to Wang Fan at all.

"Why, do you have a problem?" Thin man said, the momentum on the body has been crazy pressure to Wang Fan, as if as long as Wang Fan a word is wrong, he will start.

At this time, where did he still have the enthusiasm when he fooled Wang Fan? It's the most appropriate sentence to use in this guy.

Wang Fan felt the momentum of the lean man and sneered in his heart.

It's just a holy land of nine levels. If all of them can hold him down with momentum, he's a bit too much.

He glanced at the skinny man and said, "yes, I do have an opinion."

With that, Wang Fan threw a token directly to the skinny man, "I'm a disciple of Sansheng Zongzhen, and I've told zongmen about my stay on your ship."

"In a word, I only have one word. It's absolutely impossible for me to pay maintenance fee. If you have seed, you should try it today."

"As long as you dare, no matter whether you can kill me or not, I can guarantee that sanshengzong will uproot the forces behind you."

Wang Fan's voice is very cold, the tone is with a strong self-confidence and aura.

As for what he threw to the skinny man, naturally it was Sansheng Ling.

Anyway, this thing was auctioned by him with proper means. It's not for nothing.

Thin men can mix to the ninth floor of holy land, so they are not stupid. Even if he didn't know Sansheng Ling, he knew that the token belonged to Sansheng sect.

He stares at Wang Fan to see if Wang Fan has cheated him.

Unfortunately, he couldn't see it at all.

Although the power behind the lean man has a little energy, it is only after the appearance of Wuliang Mountain that the new rise.

Compared with sanshengzong, their influence is not enough.

This is not only a matter of strength, but also a matter of inside information.

Wang Fan also did not speak, just coldly staring at the thin man.

If he hadn't been unable to beat this guy, and if he didn't know how many top strong men there were on

this ship, I'm afraid he would have done it long ago. How can he wait until now?

However, people in the eaves, had to bow, even if he occupied the reason, but still do not dare to start. Of course, if the skinny man starts first, he will follow. Even if they are not, they have to fight.

Want to bully him Wang Fan, at least with this thin man, or far from enough.

"Ha ha, younger martial brother, please calm down. Since you are the true disciple of Sanshengzong, there is a special case."

"I'll cover the maintenance fee for you, and now I'll change your room to the high class. As for the shipping fee you paid, I will refund it in full, and I have the right to apologize and make a friend. "

"I said, younger martial brother, since you are a true disciple of Sansheng sect, why didn't you say it earlier? If you said it earlier, where would such unpleasant things happen?"

It has to be said that this skinny man is also a talent. In a short time, he has changed his face again. It's just like the one who fought with Wang Fan just now is not him.

Wang Fan listened to these words, also can't help but feel relieved.

Now that the matter has been taken over, it would be better.

However, in the future, he should be careful of the skinny man and the person behind him.

After all, it's someone else's territory. In case someone else tries to plot against him, he doesn't even know how he died.

Next, under the guidance of the lean man, Wang Fan quickly walked towards the high cabin room.

Not only that, on the road, the skinny man really returned one million pieces of Zhongpin Xianshi.

Wang Fan put away a million pieces of Zhongpin immortal stone without half a cent of shirking, but he was more alert in his heart.

This thin man's city hall is a bit deep. He is a character. He must be careful.

Boom boom!

Just as they got to the stairway of the high cabin, suddenly, bursts of roar came, and then Wang fan saw countless friars rushing towards this side crazily.

At this time, Wang Fan's location was not only the stairway from the medium class to the high class, but also the stairway from the low class to the medium class.

Wang Fan clearly saw that the monks who rushed here came from the lower cabin.

Wang fan doesn't have to think about it at all, and he knows that there must be something wrong with the adoption fee of the people on the ship, but he has no way to intervene.

After all, just now he was for himself. The skinny man had nothing to say.

But if he dares to stand out for others, he believes that this skinny man will turn his face again and will not hesitate to deal with him.
