Chapter 2641

Half an hour later, the king of bone eating insects had already brought Wang Fan to a huge manor.

The manor also looks a little old, and even the walls have collapsed most of it, which is no different from other abandoned manors.

Wang Fan stood outside the manor, his mental power swept out, but soon he found that his mental power was blocked by a layer of prohibition.

Wang Fan looked at the bone eating insect king and was about to ask him if he wanted to go in. But the bone eating insect King opened his mouth first. "I said, boy, what are you still doing in a daze? Don't you rush in?"

Wang Fan listened to this, it is a burst of speechless, after a long time, he said weakly, "your breaking level is not higher than me? Why don't you come? "

He clearly remembered that the bone eating insects were extremely rude and savage when they broke through the battle. Go up and take a few bites, and a big battle will be broken.

The king of bone eating insects rolled his eyes and said, "this little thing also needs our king. It's your luck that we brought you here. Do you still want us to be your little brother and do things for you?"

Little brother?

Wang Fan was speechless again.

He knew that it was impossible for him to get rid of the bone eating insect king again. He didn't want to continue talking nonsense and started to break the battle quickly.

With the break, Wang Fan soon found that the protection of this manor was extremely advanced, even after countless years of decay, it still seemed very solid.

He soon fell into the mysterious array and began to understand and study.

A full hour later, Wang Fan suddenly stood up, his eyes emerged excited.

He has reached the level of level six array master.

However, not long after Wang Fan's excitement, the beating voice of the bone eating insect king came out, "ah, if you want to break an array, you should have all such ink marks. It's a waste of time to know that I have already done it."

Wang Fan didn't bother to pay attention to this guy. He waved his hands rapidly, accompanied by a surge of aura and light, which surged on the guard array. It wasn't long before he broke a gap.

The king of bone eating insects saw the gap and didn't hesitate. He was the first to rush in.

Wang Fan looked at the king of bone eating insects, who was faster than him. He really wanted to slap him.

He did not hesitate, followed by flash into.

With one person and one insect entering the manor, the gap of the guard array closed slowly and restored to its original shape again.

Entering the manor, Wang Fan immediately felt a very strong aura.

When Wang fan saw the hall in the manor, he was even more shocked.

All the halls in this manor are made of immortal stones.

Moreover, it seems that the level of the immortal stone is higher than that of the medium grade immortal stone.

"How rich is the hall house made entirely of top grade immortal stone." Wang Fan murmured to himself, shocked.

In the shock at the same time, he also has some heartache and pity.

Because of the age-old reason, the immortal spirit contained in those immortal stones has been extremely weak, and even many of them have been turned into fly ash.

If it wasn't for this, he could not help but tear down all the main hall houses here and put them into the space ring.

"Hum, I just don't know the world. It's really unpromising." The king of bone eating insects flies to one of the directions, disdaining Wang Fan.

Wang fan is also used to the disdain of the king of bone eating insects and doesn't care at all.

More than ten minutes later, they came to the backyard of the manor. In the backyard, there was a small door, which was still forbidden.

This time, without waiting for Wang Fan to start, the king of bone eating insects had already rushed through.

When he rushed to the front of the guard array, he just opened his mouth and bit hard. Then he bit out a gap, and the whole guard array collapsed completely.

Even if Wang Fan had already seen the valiant of bone eating insects, he could still be shocked to see it again.

You know, this protective array is not much weaker than the one he broke before.

The king of bone eating insects didn't bother to pay attention to Wang Fan, who was in shock. The little figure had already rushed into the backyard.

Wang Fan naturally did not dare to stay, quickly followed in.

After entering the backyard, Wang Fan was shocked again. The aura in it was much stronger than that in the outer yard.

If possible, he really wants to stay here to practice.

More than ten minutes later, one person and one insect had come to a huge fairy medicine garden.

The garden is full of countless herbs, and they are all top class.

The most important thing is that there is no sign of withering of these fairy grasses, and they are growing very well. More rich aura diffuses out. Obviously, this is the source of aura in the backyard.

"Po Sheng Ye, di Jin Hua, Wu Chen Guo, San Teng Cao, Jiu se Xue Lian Zhi, tulip" Wang Fan looked at those flourishing fairy grass, his mind is a blank.

Oh, my God. Isn't that amazing?

Countless things can't even be seen outside, even the immortal grass, which is hard to find, is just like rubbish here.

Who is the owner of this manor and how strong is his cultivation?

This is not the most important thing. The most important thing is that there are still some fairy grass that even looks more advanced than emperor Jinhua, but Wang fan doesn't know it at all.

"Rich, rich." Wang Fan laughed, but he resisted the impulse to move the medicine garden away immediately.

He looked at the king of bone eating insects and asked, "I said King of insects, how can we divide these things into half for one person?"

Wang Jian, Wang Fan, a bone eating insect, was not dazzled by desire. He nodded his head contentedly. "Half of a person is enough. I don't want to share the garbage with you."

Wang Fan listened to this, almost no old blood gushed out.

Can this also be called garbage?

The king of bone eating insects didn't seem to notice Wang Fan's expression at all. "Take these fairy grass first. When we need it, you can give it to us properly."

Wang Fan despised it very much. He thought that the king of bone eating insects didn't look up to these "rubbish". He didn't expect that it meant that.

He knew that the king of bone eaters had no place to hold these things.

"Look, fairy medicine garden."

"What is that? Broken leaves? Emperor golden flower? tulips? Ha ha, we are rich, we are rich

Two excited screams suddenly came from the outside, and then several figures rushed towards this side crazily.

Wang Fan was surprised that he didn't notice someone coming in advance.

He no longer hesitated, hands crazy dance, directly quickly put away these fairy grass.

Naturally, the first thing he collected was the broken leaves and the golden flowers, and then he collected others.

Large tracts of fairy grass with the soil was Wang Fan income space ring, when those people rushed over, Wang Fan has at least put away a small half.

He did not continue to collect the fairy grass here, but had planned to leave.

The so-called SEER has a share. Since these people can find here, and also see these fairy grass, he will not eat alone.

Even if he discovered these fairy grass first, and the reason why these people can come in so quickly is also the light of the king of bone eating insects.

After all, if the king of bone eating insects hadn't bitten the array, it would have been a long time for these people to break it.

However, Wang Fan intended to give up other xianlingcao to these people, but these people did not

mean to give up xianlingcao to Wang Fan.

After they rushed over, the first time they did not put away the rest of the fairy grass, but directly surrounded Wang Fan.

As for the king of bone eating insects, they have ignored them at all.

"Boy, I dare to collect the fairy grass here when I see us coming. I'm very brave."

"Leave your space ring, and then go away, or don't blame us for being rude!"

Chapter 2642

Wang Fan almost laughed when he heard the words.

He planned to mercifully give the rest of the fairy grass to these people, but these people are so good that they even want his space ring. It seems that this good man really can't do it.

Wang Fan didn't bother to say a word at all, so he took out the shadow knife and split it out.

Since these people are so shameless, don't blame him for being impolite.

Where did those people think that Wang Fan would dare to do it? The fierce sword wave swept over in an instant. One of the first and the second layers of the holy land had no time to react, and they had already been cut in half.

The red blood mist splashed on the ground in an instant, which made the rest of the people feel stunned.

"To die!"

"Kill

However, they soon returned to God and roared, offering their own magic weapons to Wang Fan.

There are still eight people left: one holy land has six levels, two holy lands have five levels, three holy lands have four levels, and two holy lands have three levels.

In addition to the two men who were just hacked by Wang Fan, it can be said that their lineup is already very strong.

Countless magic light towards Wang Fan bombardment and down, even Wang Fan, do not dare to have the slightest carelessness.

He didn't shake with these people at all. As soon as his body flashed, he had already fled to the distance.

Boom boom!

Countless magic weapons flashed on the ground, and a large area of fairy grass was destroyed in an instant.

Looking at the destroyed large xianlingcao, not only Wang Fan was a little impatient, but also those people were heartbroken, but they all vented their anger on Wang Fan.

"Kill

"Kill

They roared wildly and continued to chase Wang Fan.

Of course, the two saints stopped on the second floor.

They plan to clean up the king of bone eating insects, and then collect the rest of the fairy grass.

It's a pity that just two of the three layers of holy land want to deal with the king of bone eating insects, which is no different from seeking death.

The king of bone eating insects only got close to the two people at a very fast speed. After two bites, they had fallen to the ground in an instant and had no life at all.

On the other hand, after running out of the scope of the medicine garden, Wang Fan's body suddenly whirled around, and the shadow knife had frantically cleaved to the sixth floor of the holy land.

Catch the thief first. He plans to kill the one with the highest accomplishments first.

"To die!" The holy land of the six, see Wang Fan just a holy land of four, even dare to return to attack him, immediately angry.

He grabbed it with his right hand and took out a black iron bar. Without hesitation, he rushed to Wang Fan's shadow knife.

However, just at the moment when his iron bar was about to hit Wang Fan's shadow knife, Wang Fan's shadow knife suddenly turned and stabbed him in the waist.

Whoa!

A blood light splashed, and the waist of the sixth floor of the holy land had been pierced, and the red blood came out.

Feeling the burning pain, the name of the holy land six layer is more angry, but before he makes an attack, another light flash, Wang Fan's shadow knife has swept his throat.

Whoa!

The blood mist splashed and the head flew up. The monk on the sixth floor of the Holy Land died on the spot!

At this moment, the rest of the people were a little stunned.

If we say that Wang Fan killed one holy land level 1 and one holy land level 2 in an instant, they can barely accept it.

Now Wang Fan just used two knives to kill a holy land sixth floor, which they can't accept.

That's the six strong men in holy land. Wang fan can be easily killed. How strong is Wang Fan?

Wang fan can ignore the shock of these people, he sneered, waving shadow knife to continue to kill the past.

To deal with these people, he doesn't need any mercy, let alone any psychological pressure.

"Forgive me, master."

"Stop it, we're willing to go back!"

The rest of the seven people became cold when they saw that Wang Fan even wanted to kill them. Two of them could not help asking for mercy.

Wang Fan disdains to sneer, "when you think you can kill me, why don't you think about sparing my life?"

"Why, seeing that it's not my opponent now, I start to beg for mercy? Where in the world is there such a cheap thing? "

Wang Fan said sarcastically and continued to kill the past crazily.

It's just seven holy places. The highest cultivation is only five levels of holy land, which is not enough for Wang Fan.

Half an hour later, they were all chopped here, and there was no one alive.

"Originally, I planned to give you the rest of xianlingcao, but since you are so greedy and want my space ring, you can't blame me for being merciless."

Wang Fan looked at the bodies of these people, hummed coldly, rolled up their space rings, and then continued to collect the fairy grass.

"Yes, yes. It's decisive and ruthless. It's a little bit like that." The king of bone eating insects saw that Wang Fan had killed all those people, and said in an old age. Wang Fan didn't care about this guy at all, and soon put away all the fairy grass.

However, he did not leave immediately, but suddenly took out the shadow knife and cleaved to the ground.

Boom, the ground was blasted out of a huge gap, and then, a more strong immortal spirit diffused out, Wang fan saw a spirit pulse.

"This, this is the superior immortal pulse? Unfortunately, it's a little short. " Wang Fan looked at the dragon vein and was stunned.

Although he had expected that the immortal grass here would grow so well that there must be immortal veins buried in the ground, when he saw it, he was still excited.

That's the top grade immortal pulse. Even in the intermediate level, there is absolutely no good thing.

However, the immortal pulse is a little too short, at most less than his two meters long.

This time, the bone eating insect king didn't speak, but suddenly jumped on the superior immortal vein, and then began to absorb and practice crazily.

Just a few breath between, Wang Fan clearly see, that top grade fairy pulse and short a small section.

Wang Fan scolded me secretly, but he didn't dare to hesitate. He rushed up and began to absorb cultivation.

This person's cultivation is very terrible. The almost atomized immortal spirit completely envelops them. The superior immortal pulse also shrinks rapidly with the speed visible to the naked eye.

Just less than an hour's effort, the two meter long superior immortal pulse had been swallowed by them, and they had no residue left, completely turned into nothingness.

Wang Fan felt more relaxed than ever before. Just in less than an hour, his cultivation had smoothly come to the middle of the fifth level of the holy land.

He would never have believed it if he had not experienced it.

"Boy, why are you so shameless? I've already given you all those immortal herbs. You even want to

compete with me for the spirit of immortal veins. You can't be so shameless. "

The king of bone eating insects stares at the big eyes of the bean and says unhappily.

When he spoke, his heart was also shocked.

Wang fan is just a holy land with four layers. His speed of absorbing aura is not slower than him at all, even a little faster. It's almost against the heaven.

Wang Fan listened to the words of the bone eating insect king, and said, "I said the insect king, Xianling grass. If you want, I can share some with you."

"What's more, you are a great insect king. You shouldn't be so stingy. Being a man, oh no, you have to have a big stomach to be an insect!"

Insect King listens to this words, almost all gas of some gum ache, it almost can't help but want to rush up to bite Wang Fan.

Boom boom!

At this time, all of a sudden, there were countless explosions -

and then there was a click. Wang Fan knew immediately that the guard array of the manor had been smashed, and there were people coming here again.

Chapter 2643

Wang Fan didn't want to meet these people, and he didn't want to fight with them. At this time, he might as well look for opportunities.

"Let's go." He said hello to the king of bone eating insects, and the whole person had already gone to the distance.

Anyway, all the good things here have been taken away by him, and it's meaningless to stay here.

"How can I feel the aura here dissipating?"

"There is a fairy medicine garden in front of us, which seems to have the smell of the broken holy leaf and the golden fruit. No, the fairy medicine garden has been taken away by others first. "

"Chase

Those who came behind felt the disappearance of aura in a flash, and then they saw that the fairy medicine garden had been hollowed out.

With a low roar, they ran directly to the direction of Wang Fan's escape.

Although they didn't see Wang Fan's appearance, their mental power still swept Wang Fan's shadow.

As for the king of bone eating insects, with their strength, even their spiritual strength, they can't get rid of them at all.

"Worm king, are there any other resources in this manor?" Wang Fan ran wildly and asked to the bone eating insect king on his shoulder.

This insect is more and more shameless, and now even lazy to fly, but directly stood on his shoulder.

"There's also a fart resource. You've got so much. Where else can I give you resources? I'm greedy."

Maybe it's because Wang Fan and it snatched the superior immortal vein. The insect king was very unhappy.

Wang fan is also too lazy to worry about a bug. After hearing that there are no resources here, he speeds up and runs wildly.

As for the pursuers behind him, he didn't care at all.

With his current accomplishments, he also has the skills of lightning and space moving, not to mention the mole ants behind him. Even the nine level strongmen in holy land may not be able to catch up.

Sure enough, just less than half an hour later, those people behind had already been abandoned by Wang Fan, and they could no longer be detected.

"Worm king, where are we going next?" When Wang fan saw that he had thrown off his pursuers, he could not help but stop and asked the king of insects.

He knows that in this place, if you want to find resources, you have to rely on the insect king. This guy seems to have a very keen sense of aura.

"Where to? I'm going to your girlfriend, of course. Hehe, it's just that she seems to have a little trouble. " The insect king suddenly grinned and said happily.

With that, he added, "by the way, I have noticed a place with rich aura."

"The aura there is stronger than the manor just now. It's obvious that there are better things."

At this point, the insect King's face suddenly became ugly, "Gee, it seems that someone has found that place, and it's gone. Shall we go to save your little girlfriend first, or shall we go first? "

Wang Fan said without hesitation, "of course, I went to save people first. If you are afraid that good things will be taken away by others, you can go there first. You just need to leave a place for me. "

Wang Fan was already a little anxious, and his face was very gloomy.

In the night, there are only three levels of cultivation in Zunjing, which is really the bottom in this place.

She's in trouble now. It's obvious that she's worried about her life.

While Wang Fan was burning with anxiety, he was also angry.

No matter who dares to hurt or kill the night, don't blame him for killing.

"Well, let's go and save your girlfriend first." The insect king did not continue to joke, did not continue to gloat, and did not leave alone.

It just said a word, directly left Wang Fan shoulder, and then quickly rushed to one of the directions.

Of course, Wang Fan did not dare to neglect and followed closely.

There are dozens of friars around an old castle.

At this time, the dozens of monks are madly bombarding the forbidden area outside the castle.

However, on the outside, there are two people who are confronting each other instead of bombarding each other.

It is not appropriate to say that it is a confrontation.

Because looking at their accomplishments and situation, it is obvious that one side is bullying the other.

The bully is a handsome young man, and the bully is a beautiful woman.

At this time, the handsome young man looked at the beautiful woman coldly with a smile on his face, and his voice was cold,

"I'll give you another chance to be my darling. If you don't agree, I won't be merciful again."

When he spoke, there was some impatience in his eyes, even murder.

The beautiful woman, on the other hand, had a disordered breath and even a trace of blood around her mouth. Obviously, she had a fight with the handsome man, but she was defeated.

She stares at the handsome man in front of her coldly, even if she is in a bit of a mess, but her face is

extremely calm,

"Wu Yifan, if you want to kill me, just do it directly, don't humiliate me in this way. Even if I die, I won't compromise your garbage. ""Thank you for being a true disciple of sanshengzong. Bah, rubbish like you is just smearing sanshengzong!"

Obviously, this woman is no one else, it is night, and the handsome man is Wuyi fan who wanted to rob Wang Fan of the three holy orders, but failed in the end.

Night knows clearly that the reason why Wu Yifan hasn't killed her up to now is to humiliate her.

After all, with Wu Yifan's strength, no matter how strong she is in the dark, it is hard to compete.

There are three levels of Zunjing and six levels of Shengjing, which is not a big gap.

The friars who were bombarding the old Fort all around, when they heard the words of the night, they all took out air conditioning.

This woman is so strong that she would rather die than follow Wu Yifan.

I'd rather die than follow. I dare to call Wu Yifan rubbish. There's no one else.

Some nuns can't even help cursing the dark night. They scold the dark night for being ungrateful.

They really don't understand what the night has to refuse Wuyi fan.

After all, Wu Yifan is not only a true disciple of sanshengzong, but also very handsome.

This kind of person, let alone be a Taoist partner, even if it's just a love affair, it's not bad.

They even wish that Wu Yifan didn't care for the night, but for them.

Unfortunately, from the beginning to the end, Wu Yifan didn't see them even once.

Of course, people want to think, but no one dares to say more.

When Wu Yifan heard Wang Fan's words, he was very angry and laughed.

He was just about to speak when suddenly a crisp applause of "Pa Pa Pa" came.

"Yes, that's right. Wu is really rubbish. Oh, no, to say he's rubbish is insulting rubbish. He's worse than rubbish. "

With this sudden voice, a young man has appeared here out of thin air.

Wu Yifan was furious when he heard that someone dared to insult him like the night.

But when he saw the young man, his anger was forced down and he became excited.

"It's you?" The voice of gnashing teeth came from Wuyi fan's mouth. The next moment, he had given up humiliating the night and stepped forward to the youth.

Night is also greatly relieved, she knew that since Wang Fan came, then she was saved.

She never doubted Wang Fan's strength. At least there was no problem in dealing with Wu Yifan's rubbish.

"Yes, it's me." Wang Fan nodded, and then seriously asked, "I said rubbish, I really want to know, how did you become a true disciple of sanshengzong?"

"Is it true that the disciples of sanshengzong are just as rubbish as you, or is it true that sanshengzong was blind and recruited such rubbish as you?"

Chapter 2644

"You want to die!" Wu Yifan listened to Wang Fan's words, his face was blue with anger.

As a true disciple of sanshengzong, how superior is he? Even if the ten elders met him, they would give him some face.

But now, Wang Fan dares to call him rubbish in front of so many people, even worse than rubbish. How can he not be angry?

Wu Yifan was so angry that he didn't want to talk nonsense any more. He sacrificed a black spade and killed Wang Fan.

He wants to kill Wang Fan first.

The black spade cut through the air, and in an instant, it had turned into countless fierce spade shadows. The spade shadows were dense, dark, and looked extremely terrible.

"Hey, hey, it's not sure who is looking for death." But Wang Fan didn't like it at all. With a sneer of disdain, the shadow knife directly sacrificed and chopped at the shovel shadow all over the sky.

With his current cultivation, even the strong in the seventh or eighth level of the holy land are not afraid, let alone Wuyi fan in the sixth level of the holy land.

The shadow knife cuts through the air and vibrates on the sky like shovel shadow. In a sound like water, the sky like shovel shadow has disappeared.

With another sound, Wang Fan's shadow knife was cut on Wuyi fan's black shovel. Wuyi fan felt a pain in the mouth of the tiger, and could not help but sniff out blood. The black shovel was immediately picked out.

He didn't have time to shock why Wang Fan was so powerful. Wang Fan's shadow knife had once again cut through the void and cut directly at his chest.

Whoa!

There was another sound. With the spatter of blood mist, Wuyi fan, which was still in mid air, was directly split into two and completely killed.

Looking at this scene, all the people around were numb, only felt the scalp numbness.

Wang Fan killed Wu Yifan, a true disciple of sanshengzong, on the sixth floor of the holy land with just a few breaths. Isn't that terrible?

The scene was silent for a moment, and there was no more sound.

Even the friars who were bombarding the guard also stopped bombarding, but looked at Wang Fan with alert face.

After all, Wang Fan cut Wu Yifan in front of them, which is no small matter.

Once sanshengzong knows this, it will definitely bring endless troubles.

They were afraid that Wang Fan would kill them all.

Wang Fan didn't care about the tension of these people at all. He just glanced at these people coldly, and then stepped forward to the night, grabbed the night and disappeared.

He didn't even move Wuyi fan's space ring.

"Wang Fan, there must be something good there just now. Why don't you go in and have a look?" Away from the area, the night asked.

She didn't ask Wang fan why he didn't take Wu Yifan's space ring, because she knew that Wang Fan was worried about the existence of the strong mark in it.

Wang Fan has not answered, one side of the bone eating insect king has disdained the mouth, "that there is a good thing fart ah, where we are going next, there is a good thing."

With that, the king of bone eating insects sighed again, "ah, more and more people are going there now.

We're afraid we can't even drink the soup."

The night was startled by the sudden sound, when he noticed the king of bone eating insects.

To tell the truth, although she saw the king of bone eating insects just now, she didn't take it seriously.

"He is a friend of mine. Just call him king." Wang Fan see night doubt, quickly introduced.

Originally, he wanted to call Xiaogu, but he was afraid that the insect king would get angry, so he had to change to a king.

"King?" Night Leng Leng, but it is not much to say.

The king of bone eating insects glared at Wang Fan, obviously dissatisfied with the title.

However, it did not express dissatisfaction, but full speed rushed to the location of the treasure.

Wang Fan and night followed closely.

About half an hour later, two people and a worm have come to a canyon.

By the time they arrived, sixty or seventy people had gathered here.

All of them were strong in the holy land, and none of them respected the holy land.

In the corner of the ground, there are several bloody bodies, it is obvious that just been killed not long.

Wang Fan's combination of two people and one insect has just appeared, and the eyes of the sixty or seventy people are all on them.

One of the monks on the first floor of the Holy Land stood up and said, "there are no more resources here for you. You'd better leave."

Wang Fan was a little stunned, but he soon recovered and asked, "is this your home?"

When the first floor of the Holy Land heard Wang Fan's words, he was stunned at first, and then understood Wang Fan's meaning.

He was trembling with anger. He pointed to Wang Fan and said, "go away!"

Pop!

But, with the fall of his rolling words, in exchange for a slap. Without hesitation, Wang Fan slapped the monk on the face of the Holy Land and drove him more than ten meters away.

He knew that in such a place, it was absolutely impossible to show weakness.

The more you show weakness, the more polite you are to others, the more people will feel that you are bullying and trample on your head.

Only show strong, can make others fear, dare not look down on you.

Of course, all this is based on the strength of the conditions, if there is no strength, but also to show a strong, it is in death.

"My friend, it's unreasonable for you to touch me when you don't agree with me? What's more, what he said is right. There is really no extra resource allocation here. "

"If you don't believe it, you can ask everyone."

Wang Fan just took out the first floor of the holy land, and a fifth floor of the Holy Land stood up and said coldly.

This guy is also very smart. In a word, he has already pushed Wang Fan to the opposite of everyone.

After all, once Wang Fan wants to share the resources, everyone present will share less.

Wang Fan sneered, "I still said that, here is your home?"

"No, but." The fifth floor of the holy land was also a little angry.

But before he finished his speech, he was interrupted by Wang Fan, "since it's not, you don't have any words. If you want to fight, just come up. Don't be a turtle there."

Wang Fan says, Qiang ground a, already grasped shadow knife.

He glanced at all the people and said, "everyone comes here to look for opportunities. Since there are opportunities here, I'm here too. Why don't I have my share?"

"If anyone thinks that the resources here are not my share, just stand up and I will be the next one."

If it is a general situation, Wang fan is absolutely lazy to compete with these 60 or 70 people for resources.

But now it's different.

The king of bone eating insects has already voiced to him. There are absolutely top-level good things here. You must not miss them.

What's more, the things here are ownerless. Whoever grabs them will have them. Why should he let them?

"You are so arrogant! As a latecomer, and his cultivation is only four levels of holy land, how dare he be so strong? "

"I just don't want to assign it to you. I just stand up. What can you do?"

A black faced man may not like Wang Fan's arrogance, but he has already stepped out of the room when he roars. At the same time, he flies up and blows directly at Wang Fan.

Chapter 2645

Wang Fan did not expect that as soon as his voice fell, someone came out.

Just a glance, he could see the cultivation of the black faced man and the four peaks of the holy land.

Moreover, the black faced man's breath is strong and long, and his momentum is fierce. Even among the monks on the fourth floor of the holy land, it is estimated that he is extremely powerful.

Unfortunately, he should not stand up at this time, let alone challenge Wang Fan.

Wang Fan needs Liwei, and now he sees the black faced man's blow coming. How can he be a little polite.

Without hesitation, he rose to the sky, followed by a blow.

With a bang, the black faced man immediately spewed out a mouthful of blood essence, and the whole person instantly flew out like a shooting star.

After he fell to the ground, he just choked a few times, and there was no breath any more.

Looking at this scene, the scene was silent.

No one thought that Wang Fan was so powerful that he killed a top four man in holy land with one blow.

Wang fan is able to kill a four-tier top power in holy land with one blow, which is at least six or even seven levels in holy land.

Otherwise, it is absolutely impossible for Wang Fan to kill the black faced man without using his martial arts.

Even the monk on the fifth floor of the holy land who opened his mouth turned ugly.

Even if it was him, he didn't know how to kill the black faced man, but now, Wang fan can do it.

Does this not mean that Wang Fan's cultivation is stronger than his?

His eyes swept over the other monks, but none of them dared to stand up.

Even the six layers of holy land did not continue to stand up.

Obviously, no one wants to offend Wang Fan at this juncture.

The friar on the fifth floor of the holy land had regretted that he had come forward to be the first bird, but it was impossible for him to shrink back.

He looked at Wang Fan and asked coldly, "how do you want to distribute, or how much do you want?"

Wang Fan flat answer, "everybody depends on ability."

He won't say how much he has.

After all, if they talk too much, they will be dissatisfied. If they talk too little, they will be dissatisfied. In that case, it's better to rely on each other's abilities, and whoever grabs it is the best.

"What do you think?" The fifth floor of the Holy Land looked at the others again.

No one said anything, because this way of distribution is the fairest.

"Since everyone has no opinion, let's rely on our own abilities." The five layers of the Holy Land sighed helplessly.

But just as his voice had just fallen, several strong men on the sixth floor of holy land had already taken the lead to fly into the canyon.

Seeing this, the rest of them did not hesitate and rushed in one after another.

There is no prohibition outside the canyon. Anyone can go in.

The reason why they didn't go in before was that they were just discussing the distribution plan.

Wang Fan's appearance broke their discussion, or the plan they just discussed. So at this time, naturally, no one wants to fall behind.

"Boy, I left a sense of breath on you. With this, you can find my place. Now I'll go first, and you'll follow

The king of bone eating insects said quickly, and then his body flashed and disappeared without a trace.

Wang Fan looked at the disappearing figure of the bone eating insect king, and he was stunned.

The speed of this insect is so fast that it's almost incredible.

Even if the insect's speed is not as fast as his magic move, the problem is that his space move can't be used for a long time.

Wang Fan did not dare to neglect, a grasp of the night, followed into the canyon.

As soon as he rushed into the canyon, he felt the strong immortal spirit.

The spirit of the immortal is no worse than that of the first-class immortal.

Wang Fan was so excited that it was a treasure land.

It's a pity that he is not the only one who enters here, otherwise he will really get angry.

Wang Fan rushed forward all the way to the place with rich aura.

In fact, not only he, but the rest of the people are also moving towards the spiritual place.

But the speed of those people is not as fast as Wang Fan. Wang Fan has just dumped them in an instant.

Whoosh!

A ray of light from not far away, Wang Fan eyes a cold, immediately already know, this is someone is attacking him.

However, just as he turned his head to see who the man who attacked him was, and then cut him again, suddenly, the scene in front of him suddenly changed.

The original open and bright Canyon suddenly turned into a vast expanse of white.

Not only that, the light that cut to him has disappeared in an instant, as if it had never appeared. Wang Fan was shocked.

He subconsciously looked at the night, and found that he could not even see the night.

Fortunately, he still holds the hand of the night, so that the two will not separate.

A cold breath fell on them, making them feel chilly all over.

Especially in the dark night, he could not help shaking all over, and grasped Wang Fan's hand more

tightly.

"Wang Fan, what's the matter? How suddenly everything has changed." There was a slight tremor in her voice.

If only the environment changed, she might not be so afraid, but the cold smell was so uncomfortable, it was almost creepy.

"I don't know. Maybe I'm in a fantasy." Wang Fan said solemnly.

With that, he is going to release his mental energy to check the surrounding environment and find out if he can feel the array.

Suddenly -

dada -

a slow but very rhythmic step came.

The sudden sound of footsteps, coupled with the gloomy environment, even Wang Fan could not help shivering.

As for the night, I can't help getting hairy.

But her hair was not because of the footsteps, but because a group of people appeared in front of her.

They were pale, dark and stiff.

They walked forward in a row, looking numb. There were just seven of them.

Moreover, their footsteps are rhythmic and uniform, as if they had experienced a lot of tempering.

If you only see such a group of people, it's OK, but the problem is that they all have an impression.

It was seven of the sixty or seventy people outside the valley.

How long have you been in the Canyon? How did these seven people become like this?

"He, they." The night trembles to point to those people, just want to speak, suddenly pupil is can't help but violent sob.

Because she clearly saw that when those people passed one of the positions, there was another person behind them.

This man is still one of the sixty or seventy.

Wang Fan's face also changed, he suddenly pulled the night, turned and left.

Because these people came in the same direction as he and the night, he was afraid that they would become the same as the eight.

Only, just ran dozens of breaths, Wang Fan's face was ugly again.

Because he found that no matter how fast he was, the eight people behind him still followed them.

The eight seemed to have locked in the two of them.

Chapter 2646

"What to do?" Night is scared, the face is all white, can't help looking at Wang Fan asked.

Wang Fan didn't speak, just made a movement to her, and then pulled her to the edge, and completely held her breath.

Night to see Wang Fan hold his breath, but also do not dare to neglect, quickly followed by hold your breath, do not dare to move.

However, her heart beat a little fast. She could even hear her own heart beat.

Daddada's footsteps are still going on, and the eight stiff and expressionless people soon come to them.

A more chilly breath swept over them, and they both felt that their whole body became stiff in an instant.

Not only that, a strange breath even intruded into their minds, as if trying to take away their souls.

The pain of tearing came, whether it was Wang fan or night, they all felt an indescribable pain of tearing.

During this period, the eight people did not stop at all and had passed by them. As for Wang Fan, they didn't seem to notice at all.

Hum!

Just as Wang Fan felt the pain in his mind, the mixed lines in his body suddenly rolled, directly and crazily involved in his mind.

In the mixed grain road trace involved in the mind, that tear like pain Chu Li even if has disappeared, Wang Fan once again restored Qingming.

At the same time, his whole body is no longer so rigid, began to restore the original.

At the same time, the night came back, but his face was very pale.

She looked at the insect king in front of her and said gratefully, "thank you so much just now, otherwise I will not be spared."

Wang Fan found out that the king of bone eating insects didn't know when they had appeared in front of them, and it seemed that it was the night that the king of bone eating insects saved them.

"What's the matter? What's the matter with those people just now?" Wang Fan looked at the king of bone eating insects, but he couldn't help asking.

The king's face was also rare and dignified. He whispered, "we've been cheated. This is a trick. Everything is fake."

"A son of a bitch is deliberately sending out aura to attract monks to come here. The purpose is to devour the spirit for cultivation."

"This place can't stay any longer, even this sea land city can't stay any longer. We have to get out of here."

Wang Fan listens to this words, but in the heart is can't help but be surprised, even if is can't help but frown, "but how should we go out, I can't find the way out at all."

"Follow me." The king of bone eating insects did not talk nonsense. As he spoke, he led the way in front of him.

Wang Fan and Wang Fan naturally followed, even the king of bone eating insects were afraid of the existence, he Wang fan is obviously not enough to see.

In this case, don't say it's a hoax. Even if it's not a hoax, he doesn't dare to stay.

The only depressing thing is that it's a trip in vain.

The king of bone eating insects obviously had some means. He just took Wang Fan and ran for a few minutes in the white fog. There was a light in front of them, and then they appeared outside the canyon.

"Go The king of bone eating insects is no nonsense, a word to drink, has rushed to the air.

Another hour later, two people and one insect had arrived at the gate of the city.

Just when they wanted to go out, the dark wind came, and the sky, which was still clear, was immediately covered with black clouds.

Thunder and lightning interweaved in the black cloud, and then a huge arm more than 10 meters flew out of the gap.

That arm seems to have life. After it appeared, it set off an unparalleled power and rolled directly to Wang Fan and others.

Wang Fan felt this scene, and his scalp was numb.

He was really shocked. Whose arm was it and how could it be so powerful?

Just one arm gave him an incomparable feeling. If I came, wouldn't he have to wait to die?

"Come on, take out the gourd quickly, I'll use my offspring to deal with it!" Bone eating insect king is no longer relaxed before, almost the moment of the arm appeared, crazy toward Wang Fan.

Wang Fan, who dares to talk nonsense, grabs the gourd.

Almost as soon as he caught the gourd, the dense bone eating insects rushed out and wrapped the arm in three layers.

But it didn't help at all.

It can be called a bone eating insect that can devour bones. In front of that huge arm, it seems to have lost the function of phagocytosis.

That arm is only a violent shake, a large area of bone gnawing insects have been turned into fly ash in a burst of hiss.

Wang Fan looked at the scene and was shocked.

However, he knew that now was not the time to be stunned at all, but to leave Hailu city as soon as possible."Go The king of bone eating insects also murmured, and his small figure had turned into a light in an instant and rushed out of the city.

Wang fan is the same, he frantically played a big space move, with the night rushed out.

However, as soon as the two men rushed to the gate of the city, their huge arms had completely broken through the dense bone gnawing insects. They rolled up their fury again and photographed them.

Boom!

The voice of the earth trembled, and both of them turned pale and spat out several mouthfuls of blood.

Wang Fan felt that his bones began to crack, and even his internal organs began to break.

These were not the aftershocks of the arm, but the violent blast.

But Wang Fan didn't dare to stop at all. With the support of strong will, he burned his blood essence crazily and moved out of the city crazily.

Bang!

There was another terrible explosion. Almost as soon as he rushed out of the door, the palm of his arm had already fallen to the position where he was before, and a deep pit thousands of feet long was photographed.

Fortunately, that arm stopped attacking after shooting a deep hole.

It seemed unable to break through the door, shaking up and down, seemed extremely unwilling.

After a long time, it took off and disappeared in the thundering clouds.

Wang Fan grabs a few pills and swallows them to himself and the night. Then he sits on the ground and gasps for breath. He is very palpitating.

"Whose arm is that? How can it be so powerful?" After a long time, Wang Fan looked at the bone eating insect not far away, and asked in shock.

The king replied solemnly, "immortal arm."

"Immortal arm?" Wang Fan was shocked, "what is the immortal God? Isn't the highest realm the emperor realm?"

The king replied disdainfully, "the imperial realm is just the highest realm of the plane of stars. The universe is vast, the strong are like clouds, and the imperial realm is far from the strongest. "

At this point, the king of bone eating insects pauses a little, and then says again, "for example, Wuliang Mountain is not the thing in the starry sky, but from the higher plane of the starry sky."

Wang Fan was shocked and speechless for a long time.

"Well, don't think so much about it. This time we've picked up a small life."

"Next, let's leave Wuliang Mountain. If I guess correctly, Wuliang Mountain itself is a fraud."

"Most of the monks who come in have fallen in and can't get out. Even if it's us, it's hard to say if we can get out. "

Again, said the king.

Chapter 2647

Wang Fan did not speak, but his face became dignified.

He also realized the danger of Wuliang Mountain.

If Wuliangshan itself is a fraud, it is really hard to say whether they can leave safely.

After they left Hailu City, they quickly went away and soon returned to the previous location.

As for Zhang Chu and others who formed a team together, Wang fan can't care so much.

He can only pray for the good of those people.

After all, he can't protect himself now. How can he have the strength to protect others.

That square city is still very lively, there are people who buy all kinds of materials, and people who help people to refine utensils and alchemy.

The most exaggerated thing is that there is even a stall that says that it can help people refine the broken Saint pill and the imperial immortal pill.

Wang Fan looked at the booth and was speechless.

Even if someone really gets the broken holy leaf and the emperor's golden flower, I'm afraid they won't be stupid enough to come here for alchemy, will they?

Except for those friars who are extremely powerful and are not afraid of others' evil thoughts.

Of course, in such a place, Wang fan does not think who has such strength.

"Please, elder martial brother. We are here to buy all kinds of fairy grass and refining materials. Don't worry, we guarantee fairness and justice, and we won't cheat."

When Wang Fanzheng was speechless, a friar had already met him with a smile on his face. Moreover, this guy's words were also very interesting. He even cheated and abducted him.

Wang Fan listened to this, first can not help but Leng for a while, then pretended to be helpless and said, "ah, I want to sell some things, but unfortunately nothing."

Naturally, he would not be silly to tell others that he had got a fairy medicine garden, unless he wanted to die.

"Oh, no, I heard that the sea land city appeared, and many monks went in. Do you think you didn't come out of the sea land city?"

When the friar heard Wang Fan's words, he couldn't help but be surprised, and then asked.

At this time, not to mention the monk, even some of the monks around swept their dim eyes.

Wang Fan even more dispirited spread out his hand, and then pointed to the night, "you see our combination, can we find the sea and land city, or can we go to the sea and land city?"

"I've heard about the appearance of Hailu City, but it's a pity that I didn't find the location of Hailu city at all."

While speaking, Wang Fan's heart was already on the alert.

As soon as he came to Fangshi, someone came to inquire about Hailu City, which is really a little too strange.

Is there anyone in this city who is from Hailu City, or is someone controlled by the terrible existence of Hailu city and intentionally guarding here to fish?

The friar laughed awkwardly and immediately went away.

Wang Fan also did not continue to talk, more did not continue to stay here, but left the square city with a dispirited face.

He doesn't dare to stay here any longer. He has to go quickly.

Two people a insect far away from the square city area, immediately accelerated the speed, toward the strange sea.

They want to return according to the original road, and then leave Wuliang Mountain. Wang fan doesn't even want to go to the place marked with treasure in his map.

"Boy, we're being followed." However, before they reached the strange sea area, the solemn voice of the king of bone eating insects had already come out.

Wang Fan was surprised that he didn't find anyone following him. It can be seen that the strength of the other side is absolutely not simple.

"Eight people, all of them are the nine peaks of the holy land. They are one step away from entering the imperial realm." Bite bone insect King tone is dignified to say.

Wang Fan listened to these words, could not help but frown.

Eight Holy Land nine peak, this kind of terrible lineup, I'm afraid, can kill those big forces in the intermediate domain.

He didn't have to think about it at all and knew that they were not rivals at all.

"Let's speed up and run to the sea." Wang Fan said decisively.

The king of bone eating insects shook his head. "It's useless. Their speed is very fast. They can catch up in two hours at most. In two hours, we can't get to the sea at all

Wang Fan didn't continue to speak, just accelerated the speed, and began to rush.

More than an hour later, within the scope of Wang Fan's spiritual power, eight monks appeared.

These eight monks are all nine layers of holy land, and they are extremely powerful.

At the moment, they like lightning general, crazy pursuit of Wang Fan and his party.

Wang Fan's heart was heavy. He didn't understand where these people came from.

You know, there are not many monks at the top of the Ninth level of holy land, even in the intermediate level.

The king of bone eating insects seemed to know Wang Fan's doubts and said, "these people have been controlled. They are puppets."

"When you look at them, they are dull and have no sense." When the king of bone eating insects spoke, Wang Fan had already noticed this.

However, even so, they are still impossible to be rivals.

That's eight of the top nine in the holy land. It's one step away from entering the imperial realm. Even if there is no intelligence, it's extremely terrifying.

Wang fan stopped and looked at the bone eating insect king with a dignified face. "You take the night with you first, and I'll stay to distract them."

He knew that this was not the way.

The most important thing is that he and the night drag the worm King behind.

Otherwise, with the speed of the insect king, you can absolutely get rid of the eight people who are

coming after you.

The king of bone eating insects said with a smile, "do you want to die? If we deal with them together, there may be a ray of life, but if we separate, you will die. "

The words of the king of bone eating insects are very direct and calm.

It did not say that it would die, but that Wang Fan would die. It was obvious that it had the means to save his life or escape.

"If you take the night with you, are you sure to leave?" Wang Fan's face did not change much, but asked.

The king hesitated slightly, then nodded, "70% sure."

"Well, please." Wang Fan said, has already caught the gourd. This gourd belongs to the insect king, but he helps to hold it.

"Wang Fan, if you want to go and die together, I will not go." At last, the night could not help speaking.

If she really left and Wang Fan died, she would blame herself for life.

Wang Fan has no time to talk nonsense with the night at all. He slaps her on the back of her head directly, even if he knocks her out.

"Let's go." Wang Fan looked at the bone eating insect king and said.

"Take care." The king of bone eating insects took a deep look at Wang Fan, then spit out two words, and immediately a light appeared on his body, wrapped up in the night and disappeared without a trace.

Wang fan is a deep breath, and then changed a direction, crazy away.

It wasn't long after they separated that the top of the ninth floor of the eight holy places had already arrived here.

It's just that they stop. Obviously, they don't know who to chase.

"Six of you, this way, two of us, that way." After a long time, a friar said in a stiff tone.

After eight people got the instructions, they immediately divided into two groups. Two of them chased Wang Fan, while the other six chased the king of bone eating insects and the night.

Chapter 2648

Wang fan is naturally clearly aware of this scene, immediately can not help a surprise.

His original intention is to attract away the enemy, to the bone eating insect king and the night to create a chance to leave.

But now, six people are chasing the king of bone eating insects and the night. Although Wang fan is worried about the king of bone eating insects and the night, he can't go back now.

He could only pray that they could escape smoothly while speeding up the speed of running.

Before Wang Fan has been running with the night, so the speed is very slow.

Now he put down the night, and his speed immediately increased several times.

Even if the speed of the two monks on the ninth floor of holy land was faster than that of him, the speed was limited, and they could not catch up with him in a short time.

Wang Fan in the crazy flight for a few hours, feel that this is a little hard, so he sacrificed the spaceship.

He plans to control the spaceship to escape and practice at the same time.

If he can break through to the sixth level of holy land before the two holy land ninth level catch up, then he will no longer be afraid of each other.

Wang Fan while controlling the spaceship crazy run, while grabbing a lot of Zhongpin immortal stone began to practice.

He got these medium grade immortal stones from the white shadow's space ring on the strange ship, but he didn't have time to take them out to practice.

With Wang Fan's crazy cultivation, the whole spaceship was soon enveloped by strong immortal spirit.

Wang Fan's whole person is just like a huge phagocytic machine, starting a crazy phagocytosis.

The immortal spirit of Zhongpin immortal stone is very rich. Now Wang Fan has no scruples about extravagance and cultivation. Naturally, the rich degree of immortal spirit can be imagined.

With a large number of Chinese immortals fossilized into fly ash, Wang fandantian's immortal aura is also more filled with depression.

At the same time, his cultivation also began to improve rapidly again.

In the middle of the fifth level of the holy land,

the top of the fifth level of the holy land,

just less than ten days, Wang Fan's cultivation has broken through to the top of the fifth level of the holy land, which is only one step away from the sixth level of the holy land.

More than half of the nearly 100 million Chinese immortal stones were consumed, leaving less than 20 million.

If anyone knows that it took Wang Fan nearly 80 million Chinese immortal stones to upgrade his cultivation from the initial stage of the fifth level of the holy land to the peak of the fifth level of the holy land, he will surely slap Wang Fan to death.

After all, the consumption of such resources is too terrible.

The most important thing is that the consumption of resources is not directly proportional to the improvement of cultivation. There is no sect that can afford such a friar.

But Wang Fan did not have this kind of consciousness, he is still in the crazy cultivation, crazy impact on the holy land six.

At this time, he almost left a trace of mind to control the spacecraft, and even had already deviated from the direction.

As for the nine levels of the two holy places who pursued him, they were less than 500 li away.

The distance of 500 Li will not last long for the top nine in holy land.

Even if Wang fan is also controlling the spaceship, he will be chased in three days at most.

Three days later, his face became gloomy.

Because he has tried countless times, but he has never been able to break through to the sixth level of the holy land.

At the moment, the two saints were on the ninth floor, less than a hundred miles away.

The distance of a hundred Li is almost no distance for the top monks on the ninth floor of the holy land.

At this time, Wang Fan did not even dare to continue to use only a trace of mind to control the spacecraft.

Because in this way, he will only be caught up faster.

Wang Fan clenched his teeth and stopped practicing. Then he took off the ship and ran at full speed.

However, even so, he still can't get rid of the two saints, and it's only a matter of time before he is

caught up.

"Damn it Wang Fan's eyes showed a touch of madness. He simply stopped and grabbed the shadow knife directly.

A few minutes later, the two monks on the ninth floor of the holy land had already fallen not far away from him.

There was no nonsense on both sides. When the two monks saw Wang Fan, they even launched a crazy attack without hesitation.

No magic weapon, no martial arts, two people just a left and a right, crazy attack to Wang Fan.

The monk of the ninth floor of the holy land on the left blows at Wang Fan's spirit, while the monk on the right sweeps Wang Fan's waist.

Their attacks were simple and direct.

But even so, the power is not to be underestimated.

The terrible energy storm, whether it's boxing or leg strength, has set off a towering power, rolling out a series of illusory waves in the space.

Wang Fan's face was dignified in the face of the two men's attack. His body suddenly flashed, and he quickly dodged the monk on the right side. At the same time, his right hand had already grasped the shadow knife and frantically cleaved to the monk on the left side.

Boom!

When!

Two deep blasts, Wang Fan's shadow knife split on the ninth floor of the holy land, just like it split on the diamond, and even splashed sparks.

Wang Fan's heart sank. This was the first time he met such a strong monk.

What's more, the friar did not hesitate to hit him with a backhand and hit him on the head.

Wang Fan's face changed wildly, his head twisted, and his body retreated wildly. It's a pity that he was still a step late.

Bang, the terrible explosion came out, the man's fist fell directly on Wang Fan's shoulder, even when the sound of bone fragmentation came out.

At this time, the other nine layers of holy land had also come.

Wang Fan no longer dare to have a fluke, a big space move flashed several kilometers, even if the crazy escape again.

Just a confrontation, Wang Fan already knew that he was not the opponent of the two at all.

Even the use of killing rifles is not enough.

He stayed to fight to death, that is to really seek death.

The two holy land nine layer see Wang Fan unexpectedly want to escape, where there is still hesitation, continue crazy began to chase.

Looking at their situation, it seemed that they would not stop until they killed Wang Fan.

"I have nothing to do with you. Why do you want to pursue me? Is that unreasonable?"

Even if Wang Fan knew that these two people had no intelligence, he could not help asking while he was escaping.

The two did not speak at all, but one of them had a touch of sarcasm in his eyes.

Wang Fan noticed the irony in the other person's eyes, and he was surprised again.

Isn't this guy under control?

He thought so in his heart that he had already grasped the shadow knife again while running wildly, and killed the man directly.

The fierce sword wave swept over the man like a waterfall, but it didn't leave any injury on him.

It's like Wang Fan didn't hit him at all, but someone else.

Looking at this scene, Wang Fan's face is more ugly.

His shadow knife cuts on the other side, leaving no wound. There is no way to fight this battle.

This special where is the person, simply is the monster!

Wang Fan no longer attack the mind, but full speed began to escape.

Chapter 2649

Half an hour later, Wang Fan's face was already gloomy.

Even if he tried his best to run, he still couldn't get rid of the two top monks in the holy land.

Those two people are just like the maggots of tarsal bone, biting him dead, only keeping less than ten miles away, and still approaching.

Wang Fan's face is hard to see.

It's not the first time he's been chased, but it's still the first time, so desperate.

I can't fight, I can't kill, I can't escape.

Half an hour later, Wang fan stopped again.

He directly threw out all the Zhongpin immortal stones, then closed his eyes, devoted himself to cultivation, and began to attack the sixth level of the holy land.

Up to now, he has no other way, he has to fight once.

Moreover, he had thought that the reason why he could not break through to the sixth level of holy land before was not because of insufficient resources or aura, but because he did not devote himself to cultivation.

Now he has put all his mind into practice. He has at least 70% confidence that he can enter the six levels of the holy land.

The terrifying aura was absorbed by Wang Fan. Soon, the large pieces of Zhongpin immortal stone began to turn into pieces of fly ash.

The furious aura formed huge waves in Wang Fan's body and rushed towards the shackles of the sixth layer of the holy land.

The roaring sound came out, and Wang Fan also felt the piercing pain.

Every bombardment was like a sharp sword stirring his flesh and bones. It was extremely painful.

Whoosh.

Two holy land nine layers have fallen in front of him not far, but there is no pause, crazy toward him.

The terrible killing power swept over Wang Fan. Maybe he felt great pressure. With a click, the barrier on the sixth floor of the holy land was broken.

A more powerful feeling came. Before Wang Fan had time to be surprised, there were two more roars, and the attacks of the two holy land strongmen had already fallen on him.

Kaka ·

the bones of Wang Fan's whole body were broken in many places, and he couldn't help gushing out several mouthfuls of blood, and the whole person was blown out directly.

But there was no despair in his eyes, only surprise.

Yes, he did.

As long as his cultivation breaks through to the sixth level of holy land, then he has a chance to win.

Wang Fan has no time to repair the injury, and is still absorbing the aura.

At the same time, his right hand has seized the killing shotgun, which has madly stimulated the internal prohibition.

The horror of the suction suicide shotgun inside, the moment has been Wang Fan's body aura swallowed up.

Not only that, but also the residual stone aura was swallowed up in an instant.

A terrible to incredible killing spread, Wang Fan's right hand hard forward wave, mercilessly stabbed out.

All over the sky, the gun pattern surged, rolled up the violent killing power, and swept away towards the two nine level strongmen in the holy land.

The two strong men of the ninth floor of holy land did not flinch at all, but met them crazily.

Boom, boom, boom!

The deafening explosion is just like the thunder of nine days.

Surrounding pieces of earth and rock collapse, mountain collapse, soon, this area has been completely shrouded by dust.

Wang Fan was even more swept away by the huge waves. He didn't know how far it was. After he fell to the ground, he gasped heavily and couldn't stand up any more.

He wanted to go, but he didn't have the strength to stand up.

At the moment, he had been seriously injured again to an unimaginable extent. His bones were broken, and even his internal organs were damaged.

At this time, he can only pray that the two guys will be shot.

I don't know how long later, the smoke receded and the killing power dissipated. The whole scene was destroyed in a terrible mess, but there was no shadow of the two monks on the ninth floor of the holy land.

"It's been killed at last." Wang Fan murmured, and finally could not help a long sigh of relief.

He tried hard to get up, but he still couldn't.

Helpless, he can only close his eyes, began to absorb aura crazy recovery.

Even if the Chinese immortal stone has been used up, the aura of heaven and earth here is still rich, and he will not have no aura to absorb.

With the heaven and earth aura continuously inhaled into Wang Fan's body, the injury in his body also gradually began to heal, and the deficit of Dantian also began to supplement.

I don't know how long after that, he finally recovered some strength and was able to barely stand up.

Wang Fan stood up and began to go on his way as he separated part of his mind and continued to practice.

But soon, he found that he was lost.

This time, he was really lost. He has no direction at all, let alone the strange sea area. Even the Fangshi, he can't find it.

One day,

two days,

one month,

one year,

Wang Fan's injury has been fully recovered, and his cultivation has been completely consolidated in the early stage of the sixth level of holy land.

However, in the past year, he still did not find the sea area, let alone the city.

Not only that, he didn't even see a friar or a living creature.

For a moment, it seemed that the whole world was quiet, leaving him alone.

Wang Fan's face is full of vicissitudes, full of haggard, full of loneliness.

He wanted to ask someone where I was, but he couldn't find it at all.

He even began to regret that he had killed the two monks on the ninth floor of holy land. Unfortunately, they had already been killed by him.

In desperation, Wang fan can only find a right direction to run, trying to leave this place.

I don't know how long later, Wang fan saw a blue wall.

Yes, it's the blue wall.

The blue wall is more than ten feet high, but I don't know how long it is. At least Wang Fan's mental power can't reach the end.

Some red apricot trees spread out from the blue wall, revealing the branches and leaves.

Wang Fan looked at this scene, immediately involuntarily thought of four words: red apricot out of the wall.

At the same time, he had a kind of familiar feeling, but he couldn't remember where he was familiar.

Without hesitation, Wang Fan flew up to the top of the blue wall.

He wants to go inside and have a look at what's inside and see if there's a way out.

However, with Wang Fan's flying high, the blue wall began to rise strangely. Wang Fan couldn't fly past.

His heart became frightened!

Is it hard to fall into the illusion again?

By the way, magic array?

Thinking of this, Wang Fan's mind flashed again. He finally knew why he felt familiar here.

Isn't this one of the places marked with treasures on the map?

However, this is the location of the third treasure on the map. Wang Fan didn't plan to find it at all.

But he didn't expect that he came here by mistake.

Wang Fanfei quickly took out the map and began to look at it carefully.

This time, he was not looking for a way in, but for a way out.

Chapter 2650

After a long time, Wang Fan's face became gloomy.

He looked for a long time and found that the direction he left was just behind the blue wall.

In other words, if he can't cross the wall, even if he knows the way to leave, he can't leave.

"Since there's no way to fly over, I'll blow down the wall." Wang Fan murmured, finally can only choose such a stupid way.

Even though he knew that he might not be able to collapse the strange blue wall at all, he had to do so now.

Because he had no other way.

Wang Fan's right fist was grasped, and the aura in his body poured into his right arm like a torrent, and then he punched out.

Bang, what shocked Wang Fan was that there was a gap on the wall.

Wang Fan looked at this scene, first stunned for a while, then without hesitation, directly flew to the gap.

Almost as soon as he flew past, the gap had been filled again and disappeared.

Wang Fan stood in a blue space, where his sight was less than three meters. Fortunately, his mental strength was not affected at all, so he was relieved.

Wang Fan's mental power spread out crazily, and soon found a direction and began to run.

No matter where it is, no matter whether there is treasure or not, he doesn't want to stay here.

He wants to leave the blue area as soon as possible, and leave Wuliang Mountain.

"Big brother, where is this place? Why is it so weird? There will be treasures in this place. Won't we be cheated?"

A weak voice suddenly came into Wang Fan's ears. Wang Fan's mental power swept subconsciously and immediately saw two monks.

The two monks were on the third floor of the holy land. The one on the left was a little honest, while the one on the right was more shrewd.

And look at their appearance, it seems that they are still brothers.

This mouth is the simple and honest man, he is five big three thick, stuffy voice, but the eyes are full of doubt and vigilance.

"I don't think we've been cheated. After all, we've been to two places marked on the map, but we've got good things."

The smart man could not help frowning and then said.

Listening to this, the honest man couldn't help saying, "but we've been looking here for three days, and we haven't found anything."

Speaking of this, his voice suddenly stopped, suddenly looked at one of the directions, his voice became trembling, "big brother, look, what is that?"

Smart man looked up, just a glance, subconsciously startled, "meteorite, meteorite gold!"

At this moment, his whole heart began to jump up.

Meteorite gold, which is the material that can refine the top magic weapon, is said to have reached the category of immortal material.

However, they see meteorite gold here. How can it be?

Wang Fan naturally saw the meteorite gold in their mouth, but he didn't know it at all.

This thing looks the size of a millstone. It's blue all over the body. It's not noticeable in this blue space.

If the two brothers had not discovered it first, Wang Fan would not even have been able to find it.

Wang Fan originally intended to ask how far it is from Wuliang Mountain exit.

Can see that the two brothers actually found the meteorite gold, and it seems that the meteorite gold is not simple, immediately gave up the idea of asking questions in the past.

If he goes to ask questions now, it will undoubtedly arouse the vigilance of these two people. At that time, if he is misunderstood as trying to kill people and grab treasure, it will not be good.

Wang Fan sighed and deliberately bypassed the two brothers, intending to leave.

But at this time, the simple and honest man's startled voice once again made Wang Fan stop, "big brother, this thing is so heavy, I can't move it!"

I saw that the honest friar had gone to the meteorite gold, and tried to put it away.

Unfortunately, no matter how hard he tried, the meteorite gold, which was the size of the millstone, was still, and there was no sign that half of it was taken away.

Wang Fan looked at this scene, is shocked.

He finally realized that the meteorite gold is not simple.

Even the monks in holy land can't pick it up. Isn't that ridiculous?

"We'll be together." Smart man also walked in the past, and honest man began to force together.

It's just that the meteorite gold still doesn't move.

"What to do?" Honest man some depressed, "we look for so many days, found such a thing, but still can't get away, this is too unwilling?"

Smart man's face is also a little ugly, he suddenly said, "let's dig some earth first, and bury the meteorite gold.". When we have strength, we'll come back and get it. "

Simple and honest man nodded, and then quickly planed the earth on the ground.Wang Fan looked at the scene, but stopped.

All the things here are ownerless. If the two brothers can take the meteorite gold, he will never say a word more, let alone rob it.

But since the two brothers can't be taken away, it's not his fault.

He plans to wait for the two brothers to leave, and try to see what's strange about meteorite gold.

It has to be said that the two brothers had a lot of perseverance. It took them half an hour to bury the meteorite gold.

Not only that, they also specially filled the excavated area again.

In this way, even if some friars find it here, they may not be able to detect the hidden meteorite gold without careful mental investigation.

After the two brothers buried the meteorite gold, they changed the direction and left quickly.

After they left for half an hour, Wang Fan came out.

He went to the place where the meteorite gold was buried and waved it. To his surprise, he just waved away a small part of the soil.

It's strange. The soil is absolutely strange. No wonder it takes so long for the two brothers to dig the soil.

Wang Fan murmured to himself, then sped up and started digging.

More than ten minutes later, he finally saw the meteorite gold about the size of a millstone.

He tried to collect the meteorite gold, but found that it was too heavy for him to move.

Wang Fan's mental power is shrouded in the meteorite gold. He wants to find out what's special about the meteorite gold.

But when his mental strength came into contact with the meteorite gold, the meteorite gold flew up by itself and seemed to escape.

Wang Fan was so shocked that he quickly danced his hands wildly and grasped the meteorite gold. At the same time, his mental strength was also crazy.

However, Wang Fan's hands are unable to shake the meteorite gold, mental power is very easy to wrap up, effortless.

Wang Fan once again a Leng, spin even if trying to put meteorite gold income space ring.

Just a few breaths, meteorite gold has suddenly disappeared and appeared in his space ring.

Wang Fan looked at this scene, can't believe his eyes, this is too simple, right?

The two brothers had not been able to collect the meteorite gold before. Did they forget to try with mental power, or could they not use mental power at all in this place?

Wang Fan thought, but did not continue to stay here, but quickly find a direction, quickly escape from here.
