

Mighty Sk 2951

Chapter 2951

Boom boom!

After a crazy explosion, Wang Fan seemed to have a devastating storm in front of him.

However, at the moment, the devastating storm was abruptly split by Wang Fanying's knife.

Dong!

Wang Fan's step is heavily fell on the 18th step, body shape as loose, steady as Mount Tai.

Looking at this scene, the hearts of the people trembled and died.

Wang Fan, who had only three levels of cultivation in the imperial realm, actually did it.

He actually took the last step and fell steadily on the 18th step.

At this moment, not to mention those who failed in the examination, even those who succeeded in the examination, and even those who were strong in the medicine family, their eyes were shocked and looked at Wang Fan with a dull face.

Wang Fan's three-tier cultivation in the realm of the emperor has achieved what the same realm can't do. He is unprecedented!

As for the two young people who offended Wang Fan, they couldn't help but falter. They just felt like thunderbolts. It was unbelievable.

In particular, the young man with five levels of cultivation in the imperial realm was trembling all over and almost crazy.

He, the five strong man in Tangtang Empire, did not dare to take the last step, but Wang Fan did.

What a slap?

In contrast, how can he be called Tianjiao?

It's just rubbish.

Wang Fan stood on the 18th step, turned his head slowly, looked at the young man, and said sarcastically, "do you think I will die when I step on the 18th step? Look, am I dead now? "

"Don't use your narrow vision to measure others. Just like you, you deserve to be the pride of heaven?"

Ridiculous

With the sound, Wang Fan once again forward, it is very easy to reach the other side, through the assessment.

The figure of the young man who was ridiculed by Wang Fan on the fifth floor of the imperial realm faltered once more, and his mouth gushed a mouthful of blood.

Wang Fan's words, like a heavy hammer in his heart, so that his heart was seriously damaged.

His eyes were scarlet, his fists were clenched, and his eyes were fixed on Wang Fan, as if he wanted to tear Wang Fan to pieces.

However, he doesn't even have the qualification to make a move. Because Wang Fan was standing on the other side, he couldn't go up at all.

But he has already vowed in his heart that as long as Wang Fan dares to step out of the medicine house, he will kill Wang Fan.

He can't kill Wang Fan at the pharmacy, but what if he leaves the pharmacy? Unless it is said that Wang Fan will stay at the pharmacy all his life, it is obviously impossible.

"Ladies and gentlemen, congratulations on your successful passing the examination and being qualified to enter the Yaowang valley of our pharmacy family. This is the jade medal. Please keep it away."

After the examination, Wang Fan and his party walked down from the opposite bank, and the woman of the Yao family came forward and said.

As she spoke, she took out 21 jade medals and handed them to Wang Fan.

Those who fail to pass the examination are all a little excited to see this scene.

It's a pity that their assessment has failed and they are doomed to miss Yaowang valley.

"In the next few days, you can either stay at my pharmacy or leave. You can choose by yourself."

The woman spoke again, with a soft voice, and with her pitiful temperament, she could not help but melt her heart.

But when the woman said this, her beautiful eyes were looking at Wang Fan. Obviously, she was thinking about Wang Fan.

After all, everyone could see the killing of Wang Fan by that young man from the fifth floor of the imperial realm, and she couldn't have been unaware of it.

When the young man of the fifth floor of the imperial realm heard the woman's words, a look of anger appeared in his eyes, but he didn't dare to say anything more.

This is the pharmacist, the imperial pharmacist. If he dares to challenge the pharmacist, he will die soon.

"Thank you very much. I'd like to live in the medicine house."

"I'd like to."

Many people who have passed the examination have expressed their willingness to live in the pharmacy first.

However, Wang Fan was hugging his fist and apologizing, "thank you for your kindness. I have something else to do, so I won't live in the pharmacy first."

He lives in Ziyu. Can't he leave without saying goodbye?

After all, he has always lived in Ziyu, and he owes a small favor to the other party.

When Ziyu didn't show his misdeeds to him, he naturally wanted to be honest and couldn't tear down the bridge.

Hearing Wang Fan's words, it was not only the woman of the medicine family who was a little surprised, but also the others.

They don't understand why Wang fan doesn't choose to live in Yaojia.

Can't Wang Fan see that the young man of the fifth floor of the imperial realm killed him? Or is Wang fan not afraid of the young man of the fifth floor of the imperial realm?

Of course, they did not think that Wang Fan could defeat the young man of the fifth floor of the Empire.

After all, the gap of cultivation is like a natural moat. How can it be easily crossed?

It's true that Wang fan is strong enough to cross the border and conquer the four levels of the imperial realm, but no one will believe that he can cross the border and conquer the five levels of the imperial realm."Since you have something to do, naturally you can't delay me. I'll see you in seven days."

The woman just surprised for a while, then returned to normal, soft voice said.

Wang Fan nodded, then left.

Wang Fan had just left, and the young man of the fifth floor of the Empire could not wait to follow him.

Obviously, his heart of killing Wang Fan was so strong that he didn't want to wait for a moment.

Seeing this scene, everyone was not surprised, and even some people could not help sarcasm.

"Hum, I really don't know that heaven is high and earth is rich. Does he think that he can compete with the five levels of the imperial realm after passing the examination? It's ridiculous."

"Arrogant guy, like this guy, I really don't know how to live to the present."

"Medicine fairy, although he is gifted, he doesn't know how to praise him. It doesn't matter if he is such a person."

The voice of sarcasm and disdain rises and falls one after another. Most of these people who speak are those who have passed the examination.

Wang Fan passed the examination with his three-tier accomplishments in the imperial realm, and his performance was more dazzling than that of them, so they were not happy.

As for those who have not passed the examination, they are not qualified or have no face to speak.

Have not passed the assessment, what face here to pass the assessment of the people who tell?

"Since everyone wants to live in my pharmacy, please come with me." The woman of Yao family didn't pick up stubble, just said softly, then left in a direction.

As for those who failed in the examination, it was the middle-aged pharmacist who brought them out.

Wang fan doesn't know the irony of those people. Even if he does, he won't care.

As far as he is concerned, as long as he is good at himself, why should he care about other people's opinions?

No matter how upset those people are with him, he is still him and there will be no change.

Wang Fan naturally felt that the five layers of the emperor's realm had come out, but he didn't care at all, and even a touch of sarcastic radian appeared in the corner of his mouth.

After he left the medicine house, he didn't go to the purple house, but ran directly to the outside of the imperial city.

Since this guy wants to kill him, he naturally wants to give each other a chance, doesn't he?

The young man of the fifth floor of the imperial realm originally wanted to do it somewhere, but he saw

that Wang Fan ran to the outside of the city.

Looking at this scene, he couldn't help being slightly stunned, and then a sneer appeared at the corner of his mouth.

Want to escape? Did you escape?

Chapter 2952

If Wang Fan knew what the young man thought, he would surely scoff.

Do you need to escape to deal with a five storey emperor?

Wang Fan soon left the imperial city and fled to the distance.

The young man saw that Wang Fan's speed was speeding up, and the killing in his eyes was even worse. He was more sure that Wang Fan wanted to escape.

After all, Wang fan is just a three-tier empire. He doesn't think Wang Fan has the strength to fight against him.

There was a grimace in his eyes, and he speeded up and chased out.

If Wang fan does not die, his heart will not be at ease.

At this moment, his heart of Tao has been split. If he doesn't kill Wang Fan, his life will probably stop at the fifth level of emperor's realm.

Therefore, Wang Fan must die.

Wang Fan ran all the way to the imperial city.

He found a wide place to stop, and then quickly set up the array.

Even if he didn't arrange the array, he could kill the fifth floor of the Empire, but if he arranged the array, it would be safer.

As soon as Wang Fangang set up two killing and hiding formations, the young man came here.

He didn't start in a hurry, but stared at Wang Fan coldly, "boy, aren't you very able to escape? Why don't you escape?"

"You dare to hit me in the face even if you are just in the third floor of the Empire. You are really brave. I don't know whether to say that you are fearless and ignorant, or that you are mentally disabled. "

"Do you think you have the right to challenge me if you pass the 18th level and I don't?"

"Next, I'll let you know the gap between the three levels of the Empire and the five levels of the Empire."

The young man said coldly, with a grasp of his right hand, he had already grasped an eight pole sledgehammer.

Eight pole sledgehammer bloomed bright golden light, in his right hand wave, directly through the air, crazy toward Wang Fan bombed in the past.

The young man was extremely decisive and showed no mercy.

Obviously, even if he did not pay attention to Wang Fan, he would not be careless.

After all, Wang Fan's strong defeat of the fourth floor of the imperial realm has sounded an alarm for him.

Wang Fan felt the surging killing power of the young man. With a cold smile, the shadow knife suddenly pulled out and directly cleaved to the eight pole sledgehammer.

The shadow knife cleaved on the eight pole sledgehammer and made a loud noise.

Then, Wang Fan felt a strong attack, and then the whole person was blasted out.

He spat out several mouthfuls of blood, and his face turned pale in an instant.

When the young man saw this scene, he was stunned for a moment, and then his disdain in his eyes was even worse,

"I thought you had much strength, but I didn't expect that you were just embroidered pillows. In that case, you can die. "

Youth disdain of say, the right hand a throw, in the hand of eight pole sledgehammer then again roared to Wang Fan.

This time, the eight pole sledgehammer made a huge roar in the air, which was even more powerful.

Wang Fan looked at this scene, but his eyes were very calm.

He had a little emptiness in his right hand and drank, "Ning!"

In a flash, the endless wood vines and gold spears and swords had been madly shaped in the air, and then towards the eight pole sledgehammer and youth shrouded in the past.

Previously, he was blown away and vomited blood because he condensed the elemental energy secretly, which affected the exertion of his strength.

Rumbling sound of tremor constantly spread out, the eight pole hammer hit on the endless golden spear sword, the golden spear sword was smashed in an instant.

Similarly, when the golden spear and sword were smashed by the bombardment, the attack of the eight pole sledgehammer slowed down, and was entangled by the endless vines of wood elements, unable to move forward.

At the same time, the endless wood element vines also spread out to the youth's body.

The young man noticed the scene and his face suddenly changed.

Without hesitation, he quickly began to retreat.

At this time, he just blasted out the eight pole sledgehammer, and he couldn't cut those overgrown vines.

However, although the youth's speed is fast, the speed of the vine is also fast. Just in a moment, the endless vine wrapped the youth's body and made him a zongzi.

Almost at the moment when the youth was wrapped into zongzi, Wang Fan had already soared up, raised the shadow knife in his hand and cut it without hesitation.

Take advantage of his illness and kill him.

This young man wants to kill him. He won't show any mercy.

The most important thing is that Wang fan knows that these vines can only entangle the youth for two hours at most.

Once the young man breathes, he can easily crush the vines around him.

When the young man saw Wang Fan's knife coming, his eyes were splitting.

He felt the danger, and it was extremely dangerous.

He burned blood essence crazily and began to struggle crazily.

With the roaring sound, the wood element vines wrapped around him began to crack and shatter madly. However, Wang Fan's shadow knife had also been cut down when the wood elements vines burst and smashed.

With a hiss, the young man's right arm was cut off directly, dripping with blood.

Wang Fan looks at this scene, in the heart secret way is pitiful.

The young man's reaction was really quick. Compared with him, Liao Chengyuan, the so-called eighth level demon in Jiandi palace, was far worse.

However, Wang Fan still didn't give the youth the chance to breathe. The shadow knife in his hand had been raised again and split out crazily.

The three sabres of Chayu cut out madly, one after another, and were extremely violent and overbearing.

The young man felt the terrible blade, and fear finally emerged in his heart.

This time, he really felt the threat of death.

Boom boom!

One after another, the sound of explosion came out again. Under the three knives, the young man finally had no way to resist. He was killed by the knife and torn to pieces.

He hated it. He didn't like it.

He never thought that he would die in the hands of a mere three-tier mole ant in the Empire.

He did not think that this trip to the imperial city would be his death.

Wang Fan looked at the young man who had been torn into pieces. He didn't stay here any longer. His figure disappeared in a flash.

This is outside the imperial city. Even if it is thousands of miles away from the Imperial City, the strong can still feel this kind of fighting storm.

Once there is a strong man who has a lot of spare time coming, he will be in danger.

He almost just left, and the three arrays he set up had already exploded madly, and even destroyed the scene into a mess.

Not long after Wang Fan just left, several figures came here.

However, these people saw nothing except the terrible fighting scene.

They did not see the body of the young man, let alone the trace of Wang Fan.

Two hours later, Wang Fan returned to zijiapianyuan.

He just went back, Ziyu said with a smile, "I don't know where brother Wang went. I thought brother Wang left alone."

Wang Fan laughed and said, "how can I leave before I go to Yaowang Valley?"

"So it is." Ziyu nodded and said, "there will be a Tianjiao exchange meeting in the imperial city tomorrow. I don't know if brother Wang has time. Let's go and have a look together."

Wang Fan simply shook his head and declined, "brother Zi is too polite, but I won't go."

He was not interested in the so-called Tianjiao exchange meeting.

Chapter 2953

Ziyu saw that Wang Fan didn't want to go, so she didn't continue to invite him.

In fact, he just said it casually.

Because those who attend the banquet are at least on the fourth floor of the imperial realm, and those who practice on the third floor of the imperial realm are not qualified to enter unless someone brings them.

With Wang Fan's three-tier cultivation in the imperial realm, it is meaningless to just increase the number of people.

Wang Fan went back to the room where he lived and began to practice, feeling the elemental energy.

Up to now, he has deeply understood a truth, that is, if you want to become a strong person, you must pay several times the efforts of ordinary people.

After all, talent is something everyone has. What's more, even if you have an adverse talent, if you don't work hard, you still can't step into a stronger realm.

In a hurry, in the twinkling of an eye, Yao Wang valley of Yao family is about to open.

On this day, Ziyu came to Wang Fan's room and said with a smile, "brother Wang, Yaowang Valley is about to open. Today is the day to go to Yaojia. Let's go."

"Good." Wang Fan nodded, and then followed Ziyu to leave.

He clearly captured that the two emperors around Ziyu were on the third floor of the imperial realm.

There was disdain and disdain in his eyes, but he didn't care.

More than an hour later, a group of four came to the medicine house.

When they arrived, there were countless beautiful maids at the gate of Yao's residence.

Ziyu didn't show his qualification. He just said his identity and was brought in respectfully by the maid. Even, the maid didn't ask Wang Fan for a jade medal.

Wang Fan looked at this scene, the heart suddenly clear.

Ziyu must be the kind of Tianjiao who is directly invited by the pharmacists without examination.

"Boy, do you see that Yaowang Valley can't go to anyone who wants to. If you don't have zishao, even if you come, you are not qualified to go in. "

"So, be respectful to zishao in the future. You are not qualified to make friends with zishao's peers."

"As for the resources you get after entering Yaowang Valley, as long as zishao likes them, you must also give them to zishao."

"Because all this is brought to you by zishao. Without zishao, you are not qualified to enter Yaowang valley."

A group of people with the maid into the medicine home, a purple Yu attendant close to Wang Fan, whispered.

Obviously, he was reminding Wang fan that Wang Fan was able to enter the medicine house only after he was exposed to the light of Ziyu. Therefore, after entering the valley of medicine king, Wang Fan's income should be handed over to Ziyu.

Wang Fan hears this attendant's words, eyebrow slightly a pick, just want to speak, front already someone welcomed up.

"Brother Ziyu, you are here at last. Please come inside." It was a young man who came forward.

This young man is handsome, temperament extraordinary, in his body, there is also a faint breath of spirit grass.

Obviously, the young man was also a member of the Yao family, and he was familiar with Ziyu.

As for the three Wang Fan behind Ziyu, the young man didn't even look at them one more time. He took them as the air.

Ziyu saw the young man, his face also showed a smile, and said, "it's brother Yaogu. It's really Ziyu's honor to let brother Yaogu come to meet him."

Ziyu said, and they came together, and then they talked and laughed into it.

As for the maid who led the way, she said hello to Yao Gu respectfully and left quickly.

Wang fan saw this scene, his heart sneered.

It seems that Ziyu is really planning to use Wang Fan, otherwise, why don't he introduce himself to Yaogu? Those two men are Ziyu's followers, but Wang fan is not.

Wang Fan immediately realized that Ziyu was beating himself.

This purple Yu is really hypocritical, this just stepped into the medicine house, then exposed the fox tail.

However, Wang Fan did not say much, but quietly followed Ziyu and Ziyu, as if they were really a valet.

Soon, the party came to a wide hall.

When they entered the main hall, nearly 100 Tianjiao had already gathered in the hall.

Among the nearly 100 Tianjiao, Wang Fan only knew 21 people who passed the examination with him.

In addition to the nearly 100 Tianjiao, there are still some people standing behind them. Needless to say, those people are also Tianjiao's followers.

In the first place of the main hall, Wang Fan also saw the woman of the medicine family that day.

However, the woman of the medicine family was talking to a person behind him, and didn't see his coming.

Ziyu talks and laughs with Yaogu and goes to one of the positions.

After arranging Ziyu to sit down, Yaogu respectfully comes to the woman.

From his attitude, we can see that his position in the pharmacy family is obviously not as good as that woman's. As for the two followers of Ziyu, they naturally stood respectfully behind Ziyu.

They are very clear about their own position, but they are only in the role of a valet and are not qualified to sit down. However, Wang Fan did not stand behind Ziyu like them. Instead, he sat down beside Ziyu and looked indifferent.

"Well?" Seeing this scene, Ziyu's eyes were slightly picked, obviously a little unhappy.

He thought that after the beating of the valet, Wang Fan had clearly realized his position, but now ·

"what are you, you are qualified to sit, don't you stand up?" Ziyu's followers didn't wait for Ziyu to speak, they already roared at Wang Fan.

This sudden sound made the whole hall suddenly quiet. Then, Shua Shua, everyone's eyes turned to this position.

The valet saw that everyone's eyes were looking this way, and immediately realized that his voice was a little loud.

However, since things have happened, he naturally has no way to change.

He glared at Wang Fan and said, "you're just a servant of zishao. If it wasn't for zishao, you wouldn't even be qualified to enter the pharmacy."

"You're the only one who's qualified to sit? Don't you see us all standing? You have to figure out your position. Don't be disrespectful

With the fall of his words, suddenly, everyone is clear in the heart.

It turns out that Wang Fan came in as a valet, but he was just a valet. He even dared to sit down. He was so bold.

Wang Fan didn't pay attention to the attendant at all, but looked at Ziyu and said, "brother Ziyu, do you think so?"

Brother purple?

When Ziyu heard this, his eyes flashed a touch of displeasure, and he said coldly, "what are you, and what qualifications do you have to call me brother Ziyu?"

"If you want to enter Yaowang Valley, please stand up and listen to my arrangement. If you don't want to enter, get out of here."

"You have to find out your identity. Now, you are just my Valet and running dog. You are not qualified to sit here."

Pop!

Almost as soon as Ziyu's words came to an end, a clear voice rang through the hall.

All they saw was that Wang Fan grabbed a jade card directly and drew it firmly on Ziyu's face. His voice

was clear and loud.

"You are so hypocritical, you are so shameless. I thought you wanted to cooperate with me, so you went with me. "

"Now it seems that I think highly of you. Why, you've just become a pharmacist, and your fox's tail shows up? "

"You say I'm not qualified to sit. I'm your Valet? Then you open your dog's eyes and see clearly what this is. Am I qualified to sit? "

"Without you Ziyu, Wang fan is still qualified to sit here. Without you Ziyu, Wang fan can still enter the valley of medicine king."

"You, Ziyu, don't deserve to drive me."

Wang Fan said, slapping a sudden lift, and directly on the face of the angry scold his valet, disdainful way, "remember, you are the running dog of Ziyu, and I am not."

It's a dead silence!

Chapter 2954

Ziyu looked at the jade card which was patted on his face by Wang Fan, and his eyes were full of disbelief.

First of all, he can't believe that Wang Fan has the qualification jade card. It's obvious that Wang Fan has passed the examination.

But the three-tier monks in the imperial realm can't pass the examination. How did Wang Fan pass the examination? Was he robbed?

Second, he couldn't believe that Wang Fan, who was only on the third floor of the imperial realm, dared to slap him in the face, and he was still in full view of the public.

Feeling the burning pain on his face, and then feeling the taunting sight around him, Ziyu suddenly burst into a rage.

He suddenly stood up, fingers trembling pointed to Wang Fan, "you, you dare to hit me?"

His voice is extremely cold, in the meantime of speaking, the whole body's killing intention has already turned into the essence, without concealing.

Seeing this scene, everyone's eyes are fixed on this side.

In the eyes of most people, Wang fan is going to die.

It's no different from looking for death to slap the friars on the fourth floor of the Empire.

What's more, some people noticed that when Ziyu came in just now, he was accompanied by the younger generation of the pharmacy family, and his identity was obviously extraordinary.

Only those who have seen Wang Fan's ferocity with their own eyes know that as long as Ziyu dares to do it, and the pharmacists don't help, then Ziyu will be finished.

With Wang Fan's repaying character and cruel means, Ziyu is absolutely in Wang Fan's hands.

At the same time, those friars who had seen Wang Fan's ferocity were also shocked.

On that day, they saw with their own eyes that the friar on the fifth floor of the imperial realm chased Wang Fan to leave the medicine house.

But now, Wang Fan appears here safe and sound. Is it the monk of the fifth floor of the imperial realm who didn't catch up with Wang Fan, or has he been killed by Wang Fan?

If the former, then they can accept, but if the latter, Wang fan is simply too terrible.

"Hit you?" Wang Fan slowly put away the jade card, turned to look at Ziyu, disdainful to say, "I have played, what dare you?"

He pointed to Ziyu, "surnamed Zi, I advise you not to do it, otherwise, I promise you will go out horizontally."

"What's the matter?" Almost as soon as Wang Fan's words came down, someone from the Yao family came over.

This is a middle-aged man who just stood behind the woman in the pharmacy.

"Master, this guy and his running dog humiliated me in public. I was angry for a moment, so I moved my hand. Please forgive me."

Wang fan saw that the middle-aged came, immediately hugged the fist, snatched before the purple Yu politely said. But what he said is true. After all, many people have seen the things here.

Ziyu's face became more ugly when he heard this. Just as he wanted to speak, the woman of the medicine family suddenly opened her mouth,

"everyone, you are all invited by our medicine family. You are all guests. The purpose is to enter the medicine King Valley together."

"If you have any grudges, please settle them after the completion of Yaowang valley. Of course, if you have to do it, please leave my pharmacy first

After that, she looked at Wang Fan again, "this time, it's not the next time."

Although the woman's voice was soft, her voice was irresistible.

Although she seems to blame Wang Fan, Wang fan knows that she is helping herself.

Ziyu is a member of the Zijia family. Even if his strength is not as good as Wang Fan, Wang fan can't kill Ziyu here. If Ziyu had a chance to kill Wang Fan, he would never stay.

In this way, even if it continues to make trouble, it will do Wang Fan no good but harm.

"The fairy taught me that I know." Wang Fan quickly clasped his fist, and then sat down.

Ziyu saw that the woman opened her mouth. Even if she was angry, she had to bear it.

He also hugged fist, and then sat down reluctantly.

As soon as he became a pharmacist, he was slapped in the face by Wang Fan in public, which is a shame. But this matter is endless, he Ziyu will certainly get back this field.

"Well, now that all the people are here, I'll tell you the purpose of the invitation."

Seeing Ziyu and Wang Fan sitting down, the woman said again, "I think we all know that our pharmacists invited you to come here for the dangerous treasures of Yaowang valley."

"Over the years, my pharmacists have sent countless strong men and Tianjiao to those dangerous places to try to take things from them, but they all failed."

"Therefore, in those dangerous places, countless top fairy grass and treasures were born."

"My pharmacist promises that most of what you get in Yaowang valley will belong to you."

"Of course, if there is something that my pharmacist likes, you must exchange it with me. My pharmacist will certainly offer the same price, and you will not suffer losses. "

"If you agree, you can enter Yaowang valley with us. If you don't agree, you can leave now."The woman's voice was soft, not only to say the purpose, but also to say the requirements.

The reason why the pharmacists have been able to stand up in the imperial city so far is that Yaowang Valley has contributed a lot.

Yaowang Valley is such an important resource for pharmacists. It's a helpless move for pharmacists to invite outsiders to come in.

In this case, it is impossible for these outsiders to have all the money they got in Yaowang valley. Otherwise, isn't the pharmacist serving others?

Therefore, the woman of the pharmacist said that as long as it is something that the pharmacist likes, it must be exchanged. If she doesn't agree, she will quit.

Hearing the words of the woman in the Yao family, everyone was silent, but none of them left.

Although the dangerous places in Yaowang valley are in great crisis, they also have great opportunities.

If they can develop one, their income will be amazing.

This kind of opportunity is hard to meet in a thousand years, and naturally no one will miss it.

Wang Fan also did not leave, but his heart is a faint worry.

What if he gets the root of Xianpei and the pharmacist has to ask for an exchange? It's a headache for him.

"Since there is no objection, let's go now. This is the jade ring entering the valley of medicine king. Please wear it on your wrists. "

"Because on this jade ring, there is a monitoring prohibition system, which can let my pharmacists know clearly what you got in Yaowang valley."

"I'll tell you the truth. If after coming out, my pharmacists find that someone's jade ring is blank, then my pharmacists will check your space ring. At that time, don't say that my pharmacists are deceiving people."

That medicine woman said, jade hand a throw, those jade rings then fly in the air in front of everyone.

These days proud hear her words, the corner of the mouth is more can't help a convulsion, but soon also relieved.

After all, if there is no such monitoring of Yuhuan, and they are dispersed, it is impossible for pharmacists to know what they have got.

Wang fan is also a little speechless. The pharmacist really calculated everything and put it on the surface.

In this way, even if we are dissatisfied, we can only keep it in our heart.

After all, they said you can leave if you don't want to.

"Since everyone has no objection, let's go now."

"Finally, I would like to remind you that Yaowang Valley is very dangerous, especially those dangerous places, which are full of all kinds of crises and may fall at any time."

"If you are afraid of death, you can quit."

After that, the woman stopped talking and went directly to the outside of the hall.

They were stunned. Then they quickly took Yuhuan and followed.

Chapter 2955

The entrance of Yaowang Valley is in the backyard of Yaojia, so people just walk for a long time, and then they have reached the entrance of Yaowang valley.

The entrance is a dense fog filled area. At the entrance, there are a variety of powerful array prohibitions.

There are trigger array, trapped kill array and hidden array.

Obviously, the pharmacists were also afraid that someone would sneak into the valley of the king of medicine, so they arranged all kinds of arrays for defense.

"This entrance is a random transmission array, so after you enter, you will be transmitted to different places."

"The bracelet I gave you just now not only has a surveillance array, but also depicts the routes to those dangerous places."

"Well, now I'll turn on the teleportation array. Good luck to you all."

The woman of the medicine family said, grabbing a Golden Jade card with her right hand.

She holds a jade card in her hand, and the dense fog disappears immediately. At the same time, there is a gap in various arrays.

When people saw this scene, they rushed into the gap without hesitation.

Wang Fan didn't rush in front of him. Since the place he wanted to explore was a dangerous place, it didn't make much difference at all.

After all, it's not so easy to get into the dangerous place, otherwise the pharmacists would not invite outsiders to enter.

Besides, Wang Fan also knew that the top fairy grass in other places had been protected or taken away by the pharmacists.

As the top aristocratic family in the Imperial City, Yao family is not stupid enough to serve others and make wedding clothes for others.

Ziyu didn't rush in first, but just went in behind.

But before he went in, he patted Wang Fan's body in a vague way, and suddenly a mental imprint fell on Wang Fan.

Wang Fan felt the scene and sneered.

It's just the fourth floor of the imperial realm. If you dare to imprint your mental strength on him, you're looking for death.

But he didn't care, and he didn't get rid of the mental imprint. As if he didn't feel it, he still didn't move.

Until everyone entered the valley of medicine king, Wang Fan hugged the woman in the medicine family and then went in.

He almost just rushed into the entrance, and a dizzy feeling came. When he regained his pure brightness, he had already appeared on a slope.

Whoosh!

Wang Fan stood on the slope, just wanted to take a look at the surrounding environment, and then to see which dangerous place he was closest to, a shadow had suddenly rushed towards him.

Wang Fan reacted quickly. Almost at the moment when the dark shadow rushed to him, he had suddenly pulled out the shadow knife and chopped it out.

A local voice rang out, and his shadow knife seemed to split on the hard steel. The shadow retreated quickly and gave out a creaking sound. Then it disappeared in an instant.

Wang Fan looked at the direction that the shadow left, his pupils couldn't help tightening suddenly, and his eyes were full of horror.

What kind of monster is this? How could he have cut it without realizing it?

You know, a non fierce body refining monk, even a strong man in the sixth floor of the imperial realm, will be injured after he cuts him?

Wang Fan just thought of it. With a bang, the ground not far away from him suddenly burst open. Immediately, a monster like a mouse broke out of the ground and tore at him.

This time, Wang Fan did not have the slightest surprise, in the body aura crazy agitation, the shadow knife is already once again blow out.

Hiss a, his shadow knife fiercely splits on that monster body, directly split each other's body, divided it into two parts.

Looking at the dead monster, Wang Fan was relieved.

This is normal. If every monster in Yaowang Valley is so strong that his shadow knife can't kill it, then he really dare not go to that dangerous place.

After all, non dangerous, monster is so terrible, that to dangerous, is not even more deadly?

After retreating and killing two monsters one after another, Wang Fan waited for dozens of breaths. Finally, no monsters continued to rush. He began to look around carefully.

Looking up, it is desolate all around. There is nothing but loess.

Let alone fairy grass, even a wild grass, he did not see.

As for the monsters and the monks who were sent out, he also did not see them.

Wang Fan's mental power penetrated into the jade ring on his wrist. Sure enough, several lines clearly emerged, leading to all around.

Wang Fan knew in his heart that the direction of these lines was where the dangerous places were.

Without hesitation, he chose a relatively close dangerous place, then sacrificed a spaceship and sped past.

In the spaceship, while controlling the spaceship, he carefully checked the monitoring prohibition in the Yuhuan.

He wants to see if he has the ability to break this prohibition, or if there is any way to hide people's eyes and ears. After all, he doesn't want all his actions to be monitored by others.

The monitoring prohibition in Yuhuan is very mysterious and complicated.

Soon, Wang Fan thoroughly immersed in the abstruse prohibition, his mind also began to deduce layer upon layer.

The vast array knowledge poured into his mind, as if opened a new door for him, let him immersed in it, unable to extricate himself.

I don't know how long after that, Wang Fan finally realized the monitoring array. He opened his eyes, and a fine light appeared in his eyes.

The road of cultivation is really endless, even the way of array.

After a short period of time, he made a substantial breakthrough in his attainments. He reached the Ninth level of master of array at one stroke, only one step away from the immortal master of emperor level.

Although Wang Fan has the ability to break the surveillance array, he does not dare to break it.

He directly portrayed some scenes of himself on the road, and then arranged some array disks to integrate into it.

In this way, as long as he finds the top good things, he can combine this array with the Dharma array in Yuhuan, which can play the role of confusing those who are monitored by pharmacists.

Wang Fan was very satisfied with the rapid improvement of his array attainments, but he was just in a happy mood. Not long after that, he heard a roaring sound, and then his spaceship began to vibrate sharply.

Wang Fan's face sank. He directly opened the cabin door and stepped out of the spaceship. He coldly looked at the friar standing in front of him and said, "what do you mean, sir? Why do you want to bombard my spaceship for no reason?"

He was very angry. He was very angry.

Everyone came to the valley of the king of medicine for chance. Instead of looking for chance, this man bombarded his spaceship. What do you mean?

The most important thing is that this man even covered his face, and even couldn't penetrate into it.

Obviously, this guy is deliberately hiding his identity.

"It's you?" When the monk saw Wang Fan, he was stunned. It was obvious that he knew Wang Fan, but he seemed very disappointed.

"it seems that my luck is really bad. You are the first monk to rob. Ah, you are only on the third floor of

the imperial realm. What good things can you have? "

After talking to himself, he looked at Wang Fan coldly, "but since we met, we can't miss it. After all, no matter how small a mosquito is, it's meat."

"Boy, I have to say that it's very good that you can enter the valley of medicine king if you only have three floors in the imperial realm."

"In order to show my respect for you, give up your space ring. I won't kill you."

Chapter 2956

Wang Fan heard this guy's words, but he couldn't help but be stunned.

Others come to Yaowang Valley for the resources of those dangerous places. This guy is very good. He's actually here to rob.

This is really the world's largest. There are all kinds of strange things. Wang Fan has a long experience.

Wang Fan didn't talk nonsense at all. He pulled out his shadow knife and pointed it at the friar directly. He sneered, "if you want my space ring, you need to see if you have that skill. Come and get it yourself."

While speaking, Wang Fan's momentum suddenly soared, and instantly soared to the peak.

The aura of his whole body is to start a crazy rampage, ready for a war.

There is no doubt that this guy dares to rob so freely.

You know, there are many five layer monks who enter the valley of the medicine king. This man even doesn't know who the people in the spaceship are, so he dares to blow directly. This shows his confidence.

Therefore, Wang Fan did not dare to be careless.

This time, the monk was in a daze.

He looked at Wang Fan in a daze. It took him quite a long time to recover. It seemed that he never thought that a mere three-level minor monk in the imperial realm would dare to draw his sword at him.

"Ha ha, it's true that a minor monk on the third floor of the imperial realm dared to draw his sword at me, which is really ."

the monk couldn't help laughing after he came back to himself, but before his words came down, Wang Fan's shadow knife had been frantically chopped down.

The frenzied killing force swept across the country, and thousands of swords were madly condensed. In an instant, it had become a little bit, as if it was going to destroy the heaven and the earth.

The first of the three sabres in the crack area, destroy the heaven and earth!

The friar felt the terrible knife, and a touch of disdain appeared in his eyes.

As soon as he grasped it with his right hand, he had already grasped a golden spear in his hand. Then the spear danced and stabbed directly at the violent knife.

The roaring sound of explosion came out, and his gun directly smashed Wang Fan's sword, and then he rushed to Wang Fan.

Wang Fan felt this scene and was shocked.

The sixth floor of the imperial realm. This man is actually a strong man in the sixth floor of the imperial realm. No wonder he dares to be so rampant.

He agitated Qi Ling Yuan crazily, retreated crazily, and blasted out the second knife of the third knife of the split field.

The more violent sword wave stirred and stirred on the spear, which smashed the killing power of the spear.

Wang Fan's heart trembled. He didn't fight with the monk. Instead, his body flashed, and he went away crazily.

"Son of a bitch, I'll remember what happened today, and I'll pay you back one day." Cold voice, Wang Fan's people have gone.

Even if he was able to fight, he had to pay a big price. He had to play the bottom card.

But in this crisis ridden valley of Yaowang, Wang fan does not dare to play the bottom card.

After all, someone is monitoring their every move. How dare he expose his cards?

"Well?" When the friar saw that Wang Fan had chosen to escape, he was stunned and then grinned.

"It's just three levels of imperial territory. I want to go too. It's ridiculous." With a cold voice of disdain, his figure flashed, and then he chased Wang Fan away. In a moment, he disappeared without a trace.

Wang Fan felt that the monk was coming, and his heart was filled with hatred.

This son of a bitch is really a dog skin plaster. Is he really afraid of Wang Fan?

If it wasn't for Yaowang Valley, his every move would have been monitored. I'm afraid he could not help but take out the killing short gun and shoot it.

At the same time, he was also very depressed. He had just entered the valley of medicine king, and he even didn't see a weed, so he was chased. This is really ·

compared with Wang Fan's anger and depression, the monk was even more depressed.

He has been chasing Wang Fan for three hours, but there is no sign of catching up.

You know, he is a strong man in the six levels of the imperial realm, and his speed is good even in the same realm.

He couldn't figure out how this guy with only the third floor of the Empire could be so slippery that he couldn't even catch up with him.

Just as he thought about this, Wang Fan's figure had flickered again, and then completely disappeared in the scope of his mental investigation.

"Well, you're lucky. Don't let me meet you again." The friar was not reconciled, so he could only give up with a cold hum.

Wang Fan ran for several hours before he stopped.

He looked over the line, then in one direction, and galloped away.

When he was about to reach the dangerous place, he integrated the array disk he depicted into the bracelet on his wrist.

Half an hour later, Wang Fan appeared in a gorge full of sword Qi.

This canyon is filled with the horror of sword spirit everywhere. It is extremely cold. Even across the distance, Wang fan can feel the suffocating horror of sword spirit.He stopped and gazed at the canyon in horror.

At the same time, he finally understood why the pharmacists wanted to invite outsiders into Yaowang valley.

It's not easy for the common friars to enter this kind of horrible canyon with sword power.

Even if Wang Fan's body had reached the holy body, he felt a very strong crisis, as if once he stepped in, it would be torn into pieces, let alone someone else.

You know, Wang fan is a man who practices his body and makes his body holy. Even if he is a strong man in the imperial realm, his pure body is not as strong as him.

Wang Fan gathered his mental strength and madly integrated into the valley. He wanted to see if there were any good things in it.

However, just as he entered the canyon, his mental strength had been torn to pieces by the crisscross sharp sword Qi.

Aware of this scene, Wang Fan was even more furious.

He didn't know whether he would venture into it or not.

This kind of place, if he goes in, must be very dangerous. If you can get good things, that's fine. But if you get nothing, it's not worth the loss?

"I've come all the time. I'd better try, otherwise I'm not reconciled." Wang Fan murmured, and then his flesh was wriggling wildly, his muscles were tightening, and he ran to the peak, and then approached the past carefully.

Hiss.

Just as he was close to the outside of the canyon, the sharp sword Qi had been tearing wildly, and there were many wounds on his body.

Just for a moment, he had been torn into a blood man by those sword Qi.

It's just outside. He has been torn into a bloody man by the sword Qi. If he enters the center of the canyon, what's the point?

Of course, at the moment, Wang Fan has no heart to think about other things. He starts to run the body training method crazily and starts the crazy body training.

Although it was a dangerous place, it was also a treasure place for physical training. Naturally, he could not miss it.

With the crazy condensing, his body began to condense and break through again.

Gradually, he even forgot his purpose and immersed himself in the exercise.

His physical body was cut again and again, healed again and again, and became more solid and hard.

I don't know how long after that, when those torn sword Qi could no longer cause any damage to his body, his feet finally slowly lifted up and stepped into the center of the canyon.

Chapter 2957

Wang Fan opened his eyes a little more, and he was disappointed.

Originally, he wanted to take advantage of the special environment here to further his physical body, but obviously, he thought too much.

Although his physical body has been improved, it is far from the emperor's body.

But soon he was shocked again.

Because not far in front of him, there is a medicine garden.

In that medicine garden, there are various levels of spirit grass and fairy grass.

Wang Fan's heart can't help but start to thump.

Because of the spirit grass here, the lowest level is level 7, followed by level 8 spirit grass, level 9 spirit grass, level 1 spirit grass, level 2 Spirit grass, level 3 spirit grass ·

Wang Fan almost cried out with excitement when he looked at the dazzling array of spirit grass and spirit grass.

He is now the seventh level elixir. If he has so many spirit grass and spirit grass, he is absolutely sure that he can be promoted to the third level elixir.

The reason why he didn't make a breakthrough in alchemy is not that he didn't have enough cultivation, but that he didn't have so much spirit grass to practice.

But now, the spirit grass in the medicine garden seems to be specially prepared for him. It's too timely.

Fortunately, although Wang fan is excited, he has not forgotten his purpose.

His eyes quickly swept from the spirit grass and the spirit grass, but he did not see the root of Xianpei. Obviously, there is no root of Xianpei.

Although Wang Fan was a little disappointed, he soon put the disappointment aside. He rushed into the medicine garden and started a crazy sweep.

When sweeping those spirit grass, he was still sighing in his heart. If he didn't pay, he would have no harvest.

If he had felt the terrible sword Qi before, he would have retreated directly. I'm afraid these spirit grass and fairy grass would have no chance with him.

Wang Fan quickly swept the spirit grass, then exited the canyon and ran to the next dangerous place.

Since he has not found the root of Xianpei, it means that his purpose of this trip has not been achieved, so he will continue to look for it.

Wang Fan didn't know. Not long after he left, two young people came to this dangerous place.

However, the two young people just missed Wang Fan, and they did not meet.

...

after a few hours, Wang Fan came to a dangerous place again.

This dangerous place is much more peaceful compared with the previous gorge.

Because here, there are only 18 stairs. On the other side of the stairs, there is a fog shrouded area, and spiritual power can't penetrate into it at all.

At the moment, more than ten people have stood in front of the stairs.

More than ten people were staring at the eighteen steps in front of them, with dignified expression.

Wang Fan just glanced at more than ten people and walked over.

However, before he got close to the first level of stairs, the overwhelming pressure had already poured in, making him feel a sense of suffocation.

Wang Fan felt this scene, his heart was dark.

At the same time, he also understood why the pharmacists had to make the 18 level examination, which was obviously made by imitating this dangerous place.

More than ten people also saw the arrival of Wang Fan, but they just glanced at Wang Fan, then took back their sight and ignored him.

The lowest practitioners on the scene were all monks on the fourth floor of the imperial realm, and even two of them were on the fifth floor of the imperial realm.

They didn't pay attention to Wang Fan, who had only three levels of the imperial realm.

Even if Wang Fan hit Ziyu in the face before, they would not look up at Wang Fan. They would only think that it was Ziyu garbage.

Wang Fan didn't care about the attitude of those people. His mental power moved, and the small array

disk in Yuhuan was put away.

Then he went to one of them, a youth on the fourth floor of the imperial realm, and asked, "this elder martial brother, why don't you go up? Is it very dangerous here?"

The person he asked was the one who had participated in the assessment with him before, and he only knew that person here.

The man heard Wang Fan's words, although he didn't want to pay attention to them, he still replied, "of course, it's very dangerous. Don't you see that even the elder martial brother on the fifth floor of the imperial realm hasn't gone up? Why don't you go and have a try?"

His last sentence was obviously ironic.

Wang Fan didn't care. He stepped up and was about to walk towards the first step.

He came here to explore dangerous places and seek opportunities. It's not a waste of time.

No matter whether he can pass this dangerous place or not, he will try. If he can, he will pass without hesitation. If he can't, he will leave immediately.

As for taking out the small array plate in Yuhuan to confuse the medicine family, Wang Fan also has no way.

After all, he entered Yaowang Valley to explore dangerous places. If he was on the road all the time, but didn't go to any dangerous places, it would be too fake. "Wait a minute." However, before Wang Fan stepped on the first step, a cold voice rang.

Wang Fan turned his head and saw immediately that he was talking about one of the five levels of the two emperors.

The young man with sharp mouth and long eyes in the fifth floor of the imperial realm, whose eyes flickered from time to time, was obviously a cunning person.

Wang Fan looked at the man and asked politely, "elder martial brother, do you have any advice?"

His tone was extremely polite, without any arrogance in the face of Ziyu.

This scene also made people disdain him, especially the fifth floor of the Empire named Wang Fan and so on. There was even a touch of ridicule in his eyes.

They are all thinking, isn't this guy very arrogant? It seems that his arrogance is also divided. At least here, he doesn't dare to be arrogant.

"I don't dare to give advice, but before we try, you are not qualified to try." The young man on the fifth floor of the imperial realm stared at Wang Fan and said indifferently.

He stood here, and before he tried, Wang Fan, a mole ant on the third floor of the Empire, wanted to take the lead. It was ridiculous.

Although he doesn't think Wang fan can pass the 18 steps, if Wang Fan really does, doesn't it mean that all the resources in it belong to Wang Fan? Naturally, he was not happy.

When Wang Fan heard this, he frowned and was about to open his mouth. The fifth floor of the other emperor's realm had already opened his mouth first.

"why is brother Wen so domineering? Since people are here and want to try, why don't you give them a chance?"

The fifth floor of the open imperial realm was dressed in white, handsome, elegant and distinguished.

But I don't know why, but Wang Fan feels that this person has bad intentions.

The fifth floor of the Empire, known as brother Wen, heard the young man in White's words. He frowned and was about to speak when he heard the young man in White's voice.

"Brother Wen, we don't dare to go up there. We're wasting it here. It's OK to let him have a try."

"Let's not say whether he can pass the 18th level, even if he can, but with us here, he can take the resources inside?"

"What's more, with him exploring the way, we can know more about this dangerous place, can't we?"

When brother Wen heard the voice of the young man in white, he suddenly began to laugh and scold himself for being stupid.

Yes, Wang fan is only on the third floor of the imperial realm. If he can pass through this dangerous place, how can they pass through the fourth and fifth floor of the imperial realm?

Even if Wang fan is the first to get the resources inside through the dangerous place, can he take it with him?

Is any one of them better than Wang Fan in cultivation?

Chapter 2958

Although Wang Fan's accomplishments are not as good as those of the young man in white, his spiritual strength is much stronger than that of the young man in white.

The voice of the young man in white was heard by him word for word, which made him sneer in his heart.

These guys really don't have a good thing. They even want Wang Fan to be a mouse.

Sure enough, the voice of the young man in white has just fallen. The young man surnamed Wen has looked at Wang Fan and said again, "since you want to have a try, go. I won't stop you."

However, after he said this, Wang fan not only did not move forward, but also retreated.

He looked at the young man surnamed Wen and said politely, "I think what elder martial brother said is very reasonable. I'm not qualified to try it first, so I'd better give the chance to elder martial brother."

When Wang Fan finished, he had retreated to one side and stopped moving.

Hearing Wang Fan's words, the young man surnamed Wen couldn't help squinting in his eyes. He said coldly, "Oh, so you're amusing me? I asked you to try, didn't you hear that? "

His tone is extremely overbearing, and when he speaks, he even has the intention of killing.

"Amuse you?" But Wang Fan frowned, "how can elder martial brother talk like this? It's all voluntary to explore dangerous places. Can elder martial brother force me?"

"You are right. I just want to force you. What can you do? Now, I order you to try at once, or you will die

The young man of Wen family name opened his mouth dominantly, and in the middle of speaking, his violent killing intention had already poured out from the sky and rushed directly to Wang Fan.

It's just like a three-tier emperor who dares to disobey his orders. He's looking for death.

Wang Fan listened to the overbearing voice of the young man surnamed Wen, and then felt the overwhelming murderous spirit on the other side. His anger also came out of his heart.

With a sneer, he was about to pull out the shadow knife and start directly. But at this moment, his mind suddenly flashed, and then he forced himself to resist the impulse.

"Since my elder martial brother asked me, I dare not refuse." He seemed to be very bowed to spit out a word, and then step up, toward the first step walked past.

"Well, you are wise." The young man of Wen's family heard Wang Fan's words, and his intention to kill was restrained.

It's just the third floor of the Empire. I dare to challenge him. I'm looking for death. Now it seems that Wang fan is not stupid enough to seek death directly.

The disdain and disdain in other Tianjiao's eyes are even worse when they see Wang Fan's performance.

It seems that Wang fan is also looking at people's food. He was so arrogant and arrogant when he faced Ziyu at the pharmacy, but now he has no temper in front of the young man named Wen.

Wang Fan didn't care what those people thought. At this time, he was slowly approaching the first step.

When his feet fall on the first step, the pressure of terror has been crazy attack, it seems to crush his whole person.

Such a terrible pressure, compared with the previous assessment in the pharmacist, it is more than several times stronger.

Wang Fan felt this scene, and his heart was dark. He madly encouraged Zhenyuan to resist the pressure.

At the same time, the mixed lines in the body began to flow towards the pressure.

Before, he was afraid of the great power of the pharmacists and didn't dare to use the mixed grain trace. Now, in the valley of the king of medicine, he doesn't have any scruples.

Even if the pharmacist is able to monitor them, it is only through the array monitoring. It is impossible to feel them as carefully as the scene.

Mixed grain track flow out, almost in the rush to the pressure, the pressure seems to be swallowed in general, completely dissipated.

Wang Fan felt the scene and was relieved.

Since the mixed grain track is useful for the pressure here, it means that this dangerous place has no threat to him.

He raised his feet and went straight to the second step.

More powerful pressure came, but this time, Wang Fan didn't use the mixed grain trace, but madly encouraged Lingyuan to resist the pressure.

At the same time, his physical and mental power also crazy operation again, completely run to the limit.

Just in a flash, he completely resisted and adapted to the pressure of the second layer, and became extremely relaxed.

However, on the surface, he made a difficult struggle, as if it would be extremely difficult to take another step forward.

"Don't stop, continue to step on the third level, or you will die." Seeing that Wang Fan seemed to shrink back, the young man surnamed Wen cheered coldly.

Obviously, he wants to see where Wang Fan's limit is, and at the same time to measure his own level.

As for whether he would force Wang Fan to death by doing so, he would not care at all.

The practice is cruel. People die every moment. As long as the person who died is not Wen Lianhao, why should he care?

When Wang Fan heard Wen Lianhao's words, he seemed very angry and depressed. But in the end, he did not dare to quit, but moved to the third level, followed by the fourth level and the fifth level.

When Wang Fan stepped to the sixth level, he could not bear the pressure directly, and was blown out directly. When he was in mid air, he had already spurted out several mouthfuls of blood, which was obviously seriously injured.

Seeing this, everyone was shocked.

Especially those Tianjiao who passed the test and entered the valley of medicine King were even more shocked.

Judging from Wang Fan's ability to pass the examination, it is obvious that his bearing capacity will not be poor, which is superior to others.

But even so, Wang Fan just ascended the fifth level and failed in the sixth level. Doesn't that mean that almost no one can pass this dangerous place?

You know, there are eighteen steps here.

If the last seven levels are the same as the seven levels of death, it will be even more terrible.

Wen Lianhao also stares at Wang Fan, and his killing intention has poured out again.

"Waste one, what do you need to live? Die for me." With a roar, his body had already been flying, and a bronze pestle stick was in his hand.

Pestle crazy dance, in the air rolled up the sky of gold, tear everything, crazy toward the spitting blood fell to the ground of Wang Fan bombardment.

Looking at this scene, everyone can't help but take a breath of air-conditioning. Wen is really cruel.

But in this case, no one dares to stand up, let alone sympathize with Wang Fan.

Of course, they are already on guard. After all, what should they do if the Wen family member persecutes them after Wang Fan's death?

Wang Fan looked at Wen Lianhao, who was killing himself crazily. His anger expanded and his killing intention suddenly rose. But when he thought of his plan, he kept it down.

"Son of a bitch, I remember what happened today. I will behead you in the future." He roared, the thunder on his body surface flickered, and all of a sudden, he rushed to the distance crazily.

However, even if his speed was like thunder and lightning, he was still bombarded by the pestle. With a bang, the red blood burst out of the air.

Wen Lianhao can't help but be stunned for a moment. Obviously, he didn't expect that Wang Fan, who was seriously injured, could escape from him.

When he heard Wang Fan's threat, he was even more furious. Just as he was trying to chase him, he found out that Wang Fan had already disappeared.

Chapter 2959

"You're lucky." Wen Lianhao snorted with a gloomy face, which forced him to give up the pursuit of Wang Fan.

At this time, Wang Fan had already escaped to a hundred miles away, and directly dug out a cave on the spot and sank into the ground to practice.

His heart is also very angry, that Wen Lianhao, has become the person he will kill.

Although he was hit by Wen Lianhao on purpose, he was still very upset.

Had it not been for his own plan, Wen Lianhao would have shot at him with a killing short gun.

Wang fan sinks into the ground, pretends to be seriously injured, grabs several healing pills and swallows them into his mouth, and then begins to recuperate.

But in the dark, he has quickly continued to portray the healing array at the moment.

In the following days, he will pretend to be here all the time to treat his wounds, to confuse those who are being monitored by the pharmacists.

And he himself is ready to explore other relics after the change of appearance.

Let's not say that there are many dangerous places and resources in Yaowang valley. Let's say that he has not found the root of Xianpei, so he has to go out to look for it.

When Wang fan sinks into the ground and makes a healing appearance, outside, the strong people who are monitored by the pharmacists can't help frowning.

They invited Tianjiao to explore the dangerous area of Yaowang Valley and take out the top-level resources for his pharmacists.

But they didn't expect that these people started fighting inside, and all the robbers and persecutors appeared.

They can understand the behavior of forcing others to explore dangerous places as mice. But the robbers made them very angry.

These bastards, there is no bottom line.

When these strong pharmacists saw that Wang Fan was robbed first, then forced to be a mouse, and finally seriously injured, they managed to get away with his life, they were even more sympathetic and speechless.

This little guy's luck is too bad, it seems that the next time, Wang fan can only spend in the healing.

Also, even if he passed the examination of his pharmacist, his accomplishments were still poor.

Compared with the top-level Tianjiao in the four levels of the imperial realm and the five levels of Tianjiao in the imperial realm, there is a big gap.

The world of practice is cruel, and there is no way for Wang Fan to be bullied.

Wang Fan didn't know what the strong pharmacists thought. If he knew, he would be overjoyed, because it was really what he wanted.

Wang Fan stayed under the ground for three days before he left after changing his face.

After he left the ground, he immediately ran towards the dangerous place with eighteen stairs.

There was no threat to him at all. Of course, he was the first to pass.

As for Wen Lianhao and others, Wang Fan did not think that they could step over the 18 steps.

After all, he had personally experienced the power of the eighteen steps. If there is no absolute means and magic weapon against heaven, the five level practitioners of the empire can never step on the past.

As for why he waited three days before turning back to that dangerous place, it was because he thought that three days was enough time for all those people to retreat.

Sure enough, when Wang Fan returned to the dangerous place again, there was no one there, but only three bloody bodies.

Not only that, the scene is a mess.

It is obvious that we have experienced a great war.

Wang Fan glanced at the three corpses and recognized them as the people who had been with Wen Lianhao before.

As for why they died and why there was a war here, Wang Fan didn't have to think about it at all. He could guess some.

It must have been after he left that the young man in white and Wen Lianhao forced other people to be dissatisfied, which led to the war.

As for these three people, they must be the unfortunate ones who were forced to die.

Of course, Wang Fan didn't care about these at all. His eyes just swept over the three corpses, and then directly stepped up the first step.

Terrible pressure crazy attack, but these pressures on Wang fan is no pressure.

He was very relaxed and had already stepped over the front ten steps to the eleventh floor. Even so, the eleventh layer of pressure is not a big threat to him.

The reason why he was blown down on the sixth floor was intentional. Otherwise, how could he have been blown down on the sixth floor?

Wang Fan encouraged Lingyuan, refined his body, and continued to move forward. Soon, he had already stepped on the 12th and 13th levels.

On the 13th floor, Wang Fan finally felt great pressure.

He didn't move on, but madly withstood and resisted the pressure here, trying to use the pressure to continue to refine the body.

Half an hour later, he took a step to the fourteenth floor. At the moment when he stepped on the fourteenth floor, the violent pressure was like a storm of destruction.

Without hesitation, Wang Fan raised his fist, and it was a blow.

Bang, the raging storm, the frenzied shock, the rolling fury of the pressure, although it was opened a

hole, but there is still endless pressure on Wang Fan.

The spatter of blood came out, Wang Fan's body was suddenly torn out of countless channels, and even breathing became difficult.

At this moment, he felt as if his soul, body, blood vessels, meridians and spirit were going to be squeezed out, which was extremely uncomfortable.

As for his face, it was already pale.

This is really terrible pressure. Just the 14th level is countless times stronger than the 18th level in the pharmacist's assessment. If we go further, what's better?

You know, Wang fan is a holy body. Even he can't bear it. Where can most people bear it?

Wang Fan tightly clenched his fist, frantically resisted the pressure, and frantically tempered his physical and mental strength.

Under his madness, I don't know how long it took to adapt to that kind of frenzied pressure, and then step up to the 15th floor.

When Wang fan is a knife to split out again, will that violent pressure blow open a son, intend to let oneself forcibly stand on the 15th layer of stairs, he suddenly realizes, two breath crazily swept toward this side.

Feeling this scene, Wang Fan's face changed. He no longer cared about refining his body, but the crazy rolling of the mixed grain road mark, and then his body directly swept up to a higher place.

When the two figures appeared here, Wang Fanzao had already stepped over the 18th floor and disappeared without a trace.

The two people looked at Wang Fan's back, their eyes were shocked.

"Oh, my God, I can't be wrong. Before I was far away, I noticed that this person was a little hard. How could it be that in a twinkling of an eye, it had passed?"

A young man rubbed his eyes and could not help murmuring.

When the other youth heard this, he also murmured, "I haven't seen this person before. Is it Yi Le Rong?"

"I don't care. Since he can pass easily, we can do it. Let's have a try."

First of all, the young man said again, and then he quickly rushed to the eighteen steps.

Chapter 2960

However, as soon as he reached the first level, the overwhelming pressure of terror had already hit him.

Boom, he was caught off guard, and he was blown out by the pressure. In mid air, he had already spit out several mouthfuls of blood mist.

In addition, the young man who was planning to rush up, staring at the scene, forced to stop the step.

It seems that he can't understand that the pressure on the first step is already so terrible, and how the former Wang Fan passed the 18th floor easily.

Wang Fan didn't know the tragedy of the young man. At this time, he had passed the 18 steps and entered the dense fog area.

However, when entering the dense fog area, Wang Fan was stunned.

Because there is nothing in this area.

He looked at the bare scene in front of him and felt extremely disappointed.

After going through the danger to enter this area, there is no harvest?

Wang Fan deep breath, is going to retreat, suddenly, it is aware of a very light fairy aura fluctuations.

That immortal aura fluctuated very lightly, and it was still fleeting. If it wasn't for Wang Fan's keen perception, he might not have been able to detect it.

Wang Fan's eyes suddenly looked to a place, and his mental strength surged out.

He was sure that the previous spatial fluctuation came from that place.

Wang Fan felt for a long time, and finally found that there was a natural hidden prohibition in that location.

He would not have noticed the mystery of the concealment and prohibition if it had not been for the overflow of the spirit.

But now that I know, it's not a problem for Wang Fan.

His mental power permeated out, and rushed to the hidden prohibition crazily, and began to research.

After a full hour, Wang Fan finally found the base and tore a gap in the forbidden system.

This is because Wang Fan's array level has been improved in Yaowang valley. Otherwise, he may not be

able to find the array base in an hour.

After entering the hiding array, Wang Fan couldn't help being stunned again, and then he was ecstatic.

he was as like as two peas in the forbidden system, and only two of the two fairies.

The reason why he was so ecstatic was that these two immortal grasses were the roots of immortal cultivation.

Wang Fan did not hesitate to put away the root of Xianpei, and then left here.

Although it was very difficult to climb the eighteen steps, it was very easy to go down.

When Wang Fan went down, he felt the outside for a while. He didn't find anyone else, so he left.

Running on the road, Wang fan is very satisfied with the harvest of his trip.

He not only got the spirit grass and immortal grass, but also got the root of immortal cultivation. It can be said that his trip was worthwhile.

With so many things, Wang fan doesn't plan to continue to explore other relics.

He was planning to find a place to practice the way of Dan, so that his way of Dan was further developed. But at this time, there was a loud bang not far away.

After the loud noise, there was a very strong sense of Fairy Spirit.

Wang Fan felt the full-bodied fairy breath, first slightly stunned, then immediately ran away without hesitation.

Although he didn't want to explore the relics, it didn't mean that there were good things nearby, so he didn't go to see them.

Ten minutes later, Wang Fan came to a big lake with blue water.

The lake is extremely hot, emitting a terrible high temperature.

At the moment, more than a dozen monks have gathered in front of the lake, and their eyes are staring at the other side of the lake

on the other side of the lake, there is a small piece of earth bag, and on the earth bag, there are nine flowers emitting red light.

At the moment, the nine flowers are in full bloom, emitting a strong spirit atmosphere, attracting

people's attention.

"Nine flaming flowers?" Wang fan saw the enchanting flower and immediately knew what it was.

Five level fairy grass, nine flame flowers.

This kind of fairy grass has a great overflow for monks who major in fire energy.

Even if not a monk majoring in fire element, after taking nine flame flowers, his perception of fire element will be deepened.

"It's really a good thing. Unexpectedly, Yaowang valley still has such a good thing. It's not in danger, and it hasn't been taken away by the pharmacists."

Wang Fan could not help muttering to himself, but he soon understood what was going on.

Because there are obvious signs that the prohibition has been broken.

Obviously, because there was a guard before, the pharmacists didn't take it away. In other words, the prohibition was arranged by the experts of pharmacists.

But at the moment, I don't know who broke the ban, which directly led to the exposure of the nine spirit grasses. When the dozen saw Wang Fan coming, they just glanced at him and ignored him.

There are only nine of the nine flame flowers here, but they have more than ten people, which is obviously not enough.

In this way, even if it is more than one person, it is no big deal.

Because there will be no change in who gets the nine flame flowers or who gets them.

Wang Fan's eyes also swept to the dozen people, but just a sweep, his eyes could not help but cold down.

Because he saw an acquaintance, who was Wen Lianhao who threatened to force him on the 18th floor.

Just because Wang Fan changed his face at the moment, Wen Lianhao didn't recognize Wang Fan at all.

Wang Fan looks at Wen Lianhao with a sneer in his heart.

It's really hard to find a place to break the iron shoes. It's not hard.

Yaowang Valley is so big that he thought that even if he wanted to kill this guy, he must have left Yaowang valley.

But he never thought that they met again in just a few days.

Whoosh!

Just when Wang Fan thought about these, a figure suddenly soared up and ran towards the nine flame flowers.

Obviously, this guy can't wait to grab the nine flowers.

But, this person's body just moved, as if set off a chain reaction, suddenly everyone moved.

Those people are crazy to encourage the spirit yuan, some even offered a defense magic weapon, regardless of all rushed to the other side of the nine flame flower.

In this case, the speed is fast, and the speed is slow. If you don't meet it, it's OK. Now that you meet it, no one is willing to give up.

The roaring sound came out, and those people were on the lake, and they started a crazy war with each other.

Almost everyone, crazy attack to those who run in front of themselves, or from the nearest person.

They are extremely resolute and ruthless, and there is no mercy at all.

When the sound of blood mist burst out, some monks who were relatively slow in reaction immediately suffered heavy damage, splashed blood mist directly and fell to the great lake.

The water splashed, and the monks who fell into the lake wanted to struggle out, but they were soon scorched by the terrible high temperature.

Wang Fan looked at the scene, the pupil is unable to help shrinking, some shock in the heart.

People can be baked into coke in water. How high is the temperature?

He didn't move, but kept watching.

For this cruel and bloody scene in front of him, he had no accident, which had already been expected.
