Chapter 2961

When the fight over there was about to end and someone approached the nine flaming flowers, Wang Fan's figure suddenly moved.

Endless lightning light around the body, just listen to whoosh, his whole person has been like a purple thunder, crazy toward the nine flame flowers rushed past.

In fact, it's better to use the magic of big move at this time.

It's just that the magic of big move involves the law of space, and the law of space is too difficult to understand.

If he uses the magic move, the pharmacists will investigate him afterwards.

Although lightning is difficult to understand, it is not so difficult compared with the law of space.

However, even if the lightning element energy is used, the speed is enough.

Wang Fan came first, and almost reached the front of the nine flame flowers with Wen Lianhao on the fifth floor of the Empire.

At the moment, Wen Lianhao also noticed Wang Fan. He couldn't help but feel a little stunned.

He did not expect that Wang Fan's speed would be so fast, and he could reach the nine flame flowers at the same time.

However, for him, the most urgent task is to collect nine flame flowers first. As for Wang Fan, he has no time to pay attention now.

Thinking of this, Wen Lianhao instantly took back his sight on Wang Fan. With a big hand, he had already grasped three of the nine flaming flowers.

It's not too much to take away three of the nine flaming flowers from the fifth floor of his empire.

The most important thing is that there is only one emperor in the fifth floor besides him. He believes that the emperor in the fifth floor will not fight for three nine flame flowers.

As for the other monks on the fourth floor of the Empire, Wen Lianhao was even more fearless. He dared to come to him and killed him directly.

However, Wen Lianhao did not pay attention to Wang Fan, but Wang Fan did not want to let this guy go.

Almost at the moment when Wen Lianhao's right hand grasped the three nine flame flowers, a fiery red axe appeared in his hand.

All over the sky, the shadow of the axe surged in the air, rolled up the fury of the axe, and went crazy toward Wen Lianhao.

Wang Fan has not used this red axe for a long time.

At least after he came to Tianyu, he didn't use it again, so it's appropriate to take it out at this time.

As for the skill of falling and killing axe, which matched with the red axe, he didn't use it because he couldn't keep up with his accomplishments, but just split it with one axe.

But even so, the power has been quite shocking.

All over the sky, the shadow of the axe suddenly surges to Wen Lianhao. Wen Lianhao's face becomes ugly in an instant.

He never thought that Wang Fan would dare to fight him.

"Little beast, you want to die!" Wen Lianhao let out an angry roar. He couldn't take care of catching the three nine flaming flowers any more. Instead, he stopped his hand crazily, and then shot out in a hurry.

Boom!

The frenzied explosion noise came out madly, and the axe pattern killing power all over the sky slashed on Wen Lianhao's boxing style, even if it completely tore his boxing style.

And the red axe in Wang Fan's hand, is to take up the momentum of indomitable, continue to blow to Wen Lianhao's body.

Wen Lianhao looked at the scene, his face changed wildly.

He did not expect that Wang Fan's Lingyuan would be so rich and powerful, which is definitely a five level monk in the imperial realm.

At this time, he could not take care of collecting nine flame flowers any more, but at the same time of crazy retreat, he decisively burned the essence and blood, and blasted out with another fist.

There was another rumbling sound. The shadow of the axe was directly torn by Wen Lianhao's fist. Similarly, Wen Lianhao was shaken back again, and a mouthful of blood mist came out of his mouth.

However, there was no time for him to relax. A breath of extreme danger came from behind.

At this time, his attention was all focused on Wang Fan. He didn't expect that there were people behind him.

There was another bang. He was hit by a golden hammer. He spewed blood into his mouth and fell to the big lake.

With a plop, when his feet entered the lake, it reflected that he had fallen into something.

He frantically struggled to get away from the lake, but he didn't struggle at all for a few times, and his whole body had turned to scorched black.

Soon, it has completely disappeared in the lake, no longer alive.

Wang Fan did not immediately take those nine flame flowers, but looked at the person who secretly attacked Wen Lianhao behind his back.

It is reasonable to say that this person uses the magic weapon of heavy hammer, which should be five big and three thick. But in fact, on the contrary, he is not only not strong, but also very thin.

His appearance is ordinary, not noticeable at all, but his triangular eyes look very uncomfortable.

The man saw Wang Fan's eyes sweeping towards him, and the killing opportunity in triangle's eyes flashed away, then directly rushed to nine flame flowers.

Wang Fan secretly guard against this guy, also toward nine flame flowers rushed past.

He grabbed three and threw them into the space ring. After all this, he flew up and out of the area.

Although he also wanted to take more, he knew that he could not.

Because once he behaves too greedy, it will certainly cause other people's dissatisfaction. At that time, most of those people will trouble him.

To Wang Fan's relief, until he retreated to the other side of the lake, the triangle eye monk did not give him a hand.

Obviously, this guy also knows that Wang Fan must be on guard against him, so he didn't sneak attack.

The friar also took three of the nine flaming flowers, and then returned to the shore.

After returning to the shore, his triangular eyes coldly scanned the surrounding crowd, then his body flashed and disappeared quickly.

Almost this talent just left, the last three nine flame flowers have been divided by the other three

people.

So far, all the nine flaming flowers have a home.

Wang Fan didn't plan to stay here either. He made a move and planned to leave.

But just before he could leave, the two figures suddenly stopped in front of him.

These two people are all four levels of cultivation in the imperial realm, and they are the strong among the strong.

Wang Fan looked at the two people who stopped him. He could not help frowning and asked indifferently, "what's the matter?"

"Don't you think it's too greedy to take three of the nine flaming flowers? Leave two and then go One of the monks on the fourth floor of the imperial realm stared at Wang Fan and said coldly.

It seems to know that Wang fan is not easy to be provoked, so when he talks, he winks at the other person, and then the momentum of the two people rises wildly, and the breath locks Wang Fan firmly.

Wang Fan heard each other's words, heart sneer unceasingly.

He didn't want to talk any more. He took out the red axe again and split towards them crazily.

Since things have come to Wang Fan's hands, they belong to Wang Fan. How can it be so easy to snatch them from Wang Fan's hands?

"To die!" The two men became angry when they saw that Wang Fan did not say a word.

Angry drink, they also sacrificed their magic weapon, crazy toward Wang Fan killed in the past.

For a moment, the roaring furiously of axe pattern air wave submerged the whole space.

The friars around felt the scene and directly stepped back to watch it in the distance.

The roar of the explosion sound is surging, the frenzied wave is rolling, the two people's attack in an instant has already defeated Wang Fan's axe pattern.

However, when they scattered Wang Fan's axe pattern, his face suddenly changed.

Chapter 2962

In front of their eyes, there were two dark handprints.

The dark handprint exudes a terrible smell, and even has a strong corrosiveness, even the air is

corroded.

"Emperor level martial arts?" The two men were not without knowledge. They knew instantly that Wang Fan had displayed his emperor level martial arts, and it was also a terrible emperor level martial arts.

They tried their best to stir up the aura and try to avoid it, but the dark palmprint appeared too abrupt and too fast.

They just stepped back a few meters, and the two dark palmprints were already on their chest.

Bang Bang two, two people directly by the palm print Bang fly out, mouth ejected a large blood fog.

However, this is far from the end. Before they even have time to catch their breath, the red axe shadow in the sky has been killed again.

There was another hissing sound, followed by a series of spray of blood mist. They were directly torn to pieces by the sky axe pattern.

After Wang Fan killed the two, he didn't leave in a hurry. Instead, he grabbed their space rings, and then burned them into ashes with a fire. Then he went away.

Looking at Wang Fan's back, people around him were shocked.

They just saw that the shadow of the sky axe was torn, and then they saw that the two men flew out upside down and were killed.

As for the seal of Shura on display by Wang Fanshi, they did not see it at all.

"Who is this person? It's really terrible strength. It seems that there is no such person among the people who enter the valley of medicine king?"

"Is this man changed? Or when he was at the pharmacist's before, his appearance was after his appearance changed? Just, isn't there a monitoring array in the bracelet? Does he have a way to shield the monitoring array in the bracelet? "

After a brief silence, the scene erupted into a discussion.

But these comments have nothing to do with Wang Fan. At this time, he has already gone away, far away from this area.

As for those people, who have seen Wang Fan's terrible moves, no one dares to pursue them.

At the moment, the pharmacists, the experts who monitor Tianjiao, are not calm.

Because there were only 121 people in Tianjiao who had entered the valley of medicine king, but the sudden appearance of Wang fan made the number become 122.

Among the 122 people, one has no bracelet and is not under their monitoring. That is Wang Fan after the change of face.

This makes them realize that someone has cracked the ban in the bracelet and achieved the purpose of confusing them. Otherwise, this situation would not have happened at all.

After all, Yaowang Valley is an important place for their pharmacists. They are sure that only 121 people enter it.

Now the reason for this situation is that someone must have cracked the ban in the bracelet, used the illusory array to confuse their eyes, and then changed their appearance.

As for why this person should do so, they can also guess that this person must have the ability to enter dangerous places to collect resources.

Otherwise, if you don't have the ability to take dangerous resources, there is no need to do so.

Thinking of this, those senior pharmacists were even more shocked. Who could this man be and how could he be so powerful?

You know, the forbidden system in the bracelet was refined by the array master. It's just the fourth and fifth floor monks in the imperial realm. How could it be broken?

"Elder Yao Xian, now there's an accident in Yao Wang valley. You'd better report it to the owner right away."

"Otherwise, if those dangerous things are really taken away quietly by others, our pharmacists will lose a lot."

An elder in brown robes, looking at an elder in linen, said.

The elder in linen heard this, nodded solemnly, and then left here quickly.

Wang Fan didn't know that his action had aroused the vigilance of the pharmacists. At the moment, he had returned to the underground cave he had opened before, and then began to make pills madly.

Before his Dan Dao has not been broken through, that is because there is no spirit grass and fairy grass to practice. Now that he has lingcao and xianlingcao to practice, he will not waste his chance.

With a large number of spirit grass and fairy grass being squandered by him, his Dan Dao level began to improve rapidly.

In a short period of one month, he has successfully become a first-class elixir.

But even so, Wang Fan did not stop alchemy.

Because he found that, along with his alchemy, his spiritual strength also had a leap breakthrough.

His spiritual power is not only more concise than before, but also more powerful.

In Wang Fan's Alchemy, the pharmacists were more restless.

Because in this short period of one month, there are more than ten Tianjiao in Yaowang valley beyond their control.

The ten or so Tianjiao, like Wang Fan before, used some means to block the ban in the bracelet and began to change their identity. These friars are either wantonly destroying the fairy herb gardens they have enclosed with prohibition, or they are wantonly killing and plundering.

This makes the senior management of Yao family angry, but also helpless.

Because the opening of Yaowang Valley usually takes one year, that is to say, after one year, the talents inside will be sent out.

Although their pharmacists control the entrance, they can control when others go in, but they can't control when others come out.

That is to say, the valley of medicine king can go in at any time, but if you want to come out, you have to stay for one year and be sent out automatically.

At the same time, the elders of the medicine family went to the owner of the medicine family to tell him about it. But unfortunately, the owner of the drug family was closing down, and they didn't see him at all.

The master of the medicine family didn't say anything. They didn't dare to go into the valley of the medicine King easily, and they didn't dare to know what they were doing to those arrogant people.

After all, there are many extraordinary people who enter the valley of medicine king.

Even if those arrogant, single background is not as good as his pharmacists, but if combined, his pharmacists are also very afraid.

Therefore, they did not dare to make decisions without the orders of their owners.

You know, this incident is so big that people may even take away the dangerous resources.

If they want to investigate, they have to investigate each other's space ring, and they have to investigate one by one.

In this way, how can we not offend those arrogant people?

After all, most people have not crossed the boundary and are under monitoring.

In Yaowang Valley, Wang Fan didn't know the anger and helplessness of the senior members of the Yaowang family, let alone what happened in Yaowang valley.

At this time, he was still madly refining pills. Four months later, he became a genuine third level elixir.

Similarly, in addition to the root of Xianpei, all the other xianlingcao were either destroyed or turned into pills.

Wang Fan opened his eyes, he was very satisfied with his progress.

He removed Yirong, took out the array plate in the bracelet and the array plate refined before, and then left the closed place for half a year.

Chapter 2963

"Haha, I really don't have to find a place to break through the scrap iron. It doesn't take much effort. I finally met you again."

Not long after Wang Fan left the cave, a voice of compassion came into his ears.

Wang Fan turned to look, and immediately saw a monk wrapped in a black robe.

See this person, Wang Fan's eyes suddenly emerged a killing machine.

Because this person is no one else. It was the monk who wanted to rob him when he was just in the valley of the king of medicine.

Wang Fan did not expect that for such a long time, this guy was still doing robbery, and he was met again.

The monk seems to be afraid of Wang Fan's successful escape again, as he did last time. So this time, he didn't say much nonsense. He just said a word with pity, and the magic weapon in his hand had already been blasted at Wang Fan.

The magic weapon in his hand is a huge scissors. The huge scissors churn out the sharp killing Miscanthus in the air and rush towards Wang Fan.

Wang Fan felt this scene, his heart was furious, he did not hesitate to grab the shadow knife, directly followed a knife to split out.

The bright awn of the sword is surging, rolling up all over the sky. In a moment, it has been bombed together with the giant scissors.

The roaring explosion sound came out, and the frenzied energy was rampant. It raised a gully hundreds of feet long on the ground, and it was still extending out.

The monk didn't seem to think that Wang Fan's hand would be so powerful. He was stunned. Then the huge scissors in his hand had been raised again and killed Wang Fan crazily.

He is a monk on the sixth floor of the imperial realm. How powerful he is. It would be a shame if he could not even win the third floor of the imperial realm.

However, this time, the Friar's huge scissors had not been blasted on Wang Fan, and even Wang Fan had not encouraged Lingyuan to fight back. A fierce fist had suddenly surged up and blasted to the huge scissors.

There was a terrible explosion again. The terrible Lingyuan burst, and the light rolled up by the huge scissors was broken. The friar was also shocked out by the violent fist.

People in mid air, he has been shocked to see not far away, but when he saw the person clearly, without saying a word, he turned away.

Just a few breaths, this person has completely gone away, disappeared without a trace.

Wang Fan turned his head and looked at the position behind him. In the void behind him, a monk suddenly appeared.

This is a middle-aged male practitioner, and Wang Fan also knows him. He is the strong pharmacist who took him to the examination at the beginning.

At the same time, on the ground, there are two figures slowly approaching.

One of them was the noble woman named Yao, and the other was Yao Gu who had some friendship with Ziyu.

"Wang Fan has met you." Wang fan saw these people and bowed slightly to show his respect.

He got so many benefits in Yaowang Valley, and he didn't plan to give it to the pharmacist, so respect is necessary.

"Don't be polite. My name is Yao Xuan. You can call me by name. He's my cousin Yao Gu, and that's Yao

Shan, the elder of my family. " Yao Xuan waved her hand and looked at Wang Fan.

With that, she didn't wait for Wang Fan to reply, so she continued, "you have nothing to do. Who was that man just now, do you know?"

Wang Fan shook his head, "I don't know."

He really didn't know. After all, he didn't know any of the Tianjiao who entered the valley.

At the same time, Wang Fan's heart also some doubts, this medicine Xuan three people how can suddenly appear here, especially the middle-aged man. Also, why did the other party save him?

Of course, even if there is doubt, Wang Fan will not ask out, can only guess.

"Wang Fan, we all know what happened to you in Yaowang Valley, for which I apologize on behalf of the pharmacists. Next, you can come with us. It will be safer. "

Yao Xuan heard that Wang Fan didn't know the identity of the person, and a sense of disappointment appeared in her eyes. However, she soon returned to normal and continued.

When Wang Fan heard Yao Xuan's words, he was stunned, and then he understood what Yao Xuan was referring to.

Obviously, Yao Xuan is referring to the fact that he was robbed twice, and then was forced to climb the ladder in danger, and was seriously injured and almost fell.

When Wang Fan heard this, he felt guilty.

Is it really good that the other party is so sincere, but he takes advantage of the family's secret to make a fortune?

But, let him take out the root of Xianpei, he is absolutely dare not.

Because once the root of Xianpei is taken out, the Yao family will know that he has been to dangerous places and has got treasures.

In that case, the Yao family will definitely search his space ring by force.

"Thank you, Yao Xuan fairy." Wang fan can only say so.

Next, Wang Fan and Yao Xuan walked together.

At the same time, along the way, Wang Fan also knows what happened in Yaowang valley.

There are people like him who have untied the ban on the bracelet. What's more, those people are still engaged in burning, killing and looting. Wang Fan was shocked when he heard these things.

It's just crazy, or, in other words, the courage of those people is too great.

All the way through Yaowang Valley, the three met a lot of captured monks. Except for two of them who were directly captured by the middle-aged man named Yaoshan, the rest fled.

At the same time, with more and more people saved by Yao Xuan, their team became bigger and bigger.

A month later, there were 25 people following Yao Xuan to seek shelter.

At the same time, Yao Xuan also took Wang Fan and his party through eight dangerous places, including the two that Wang Fan went in.

When Yao Xuan told that three of the eight dangerous places were opened, Wang Fan was shocked again.

You can't look down on anyone.

He thought that the dangerous place of Yaowang Valley could not be entered by anyone except Wang Fan. Now it seems that he thinks too much.

Just, who went in the other dangerous place? But Wang Fan couldn't think of it at all.

On this day, Wang Fan and his party were shuttling through Yaowang valley. Suddenly, a confused figure ran towards them.

"Help, help." While running to Wang Fan's side, the man yelled, his voice full of trembling.

Yao Xuan looked at the figure and frowned. As she was about to speak, she saw three more people coming.

The three people all over the body sent out a strong and incomparable murderous gas, it is obvious that they are after the figure in front of them.

However, when he saw Wang Fan and his party, especially Yaoshan, his face could not help changing. Then he turned and left without hesitation.

"Where to go." When Yaoshan saw that the two men were going to leave, he was very angry immediately. With a flash of body shape, he had already chased them out.

But soon, he came back again. Obviously, he didn't catch up with the two monks at all.

"Miss Yao Xuan, master Yao Gu, you are here in time. Someone is killing those arrogant people in Yao Wang valley."

Seeing that the two enemies were running away quickly, the young man could not help but feel relieved. Then he looked at Yao Xuan and said with some fear.

Chapter 2964

"What's the matter, please speak slowly." When Yao Xuan heard the young man's words, her face became dignified immediately.

Those Tianjiao's burning, killing and looting in Yaowang valley are enough to make her pharmacist's headache. Now there are still people who are specially killing those Tianjiao. How wonderful is that?

You know, those Tianjiao who enter the valley of medicine king have some characters with strong background.

If these people die in the exploration dangerous place, that is their family, also can't say anything. After all, there was a verbal agreement between the two sides before entering the valley of medicine king.

However, if these conceits are killed by others, the significance will be totally different.

At that time, if the pharmacists don't give each other a satisfactory explanation, I'm afraid those families won't let her go.

Although Yao family is not afraid to erect enemies, they don't want to erect enemies for no reason, let alone too many powerful enemies.

"There are five people with bronze masks. Their accomplishments are very strong. They are killing Tianjiao in the valley of medicine king. They almost kill people when they see them."

"I was lucky enough to get here. As for the two men who pursued me just now, they were afraid of death, so they became the running dogs of the five monks with bronze masks. "

The young man said with fear on his face.

"Five men in bronze masks?" Yao Xuan heard this, Liu Mei frowned slightly, and her face was even more ugly.

In the monitoring of her pharmacist's house, she never saw anyone wearing a bronze mask.

Obviously, these five people must have cracked the ban on bracelets, and they are beyond the control of her pharmacists.

"Where did you come from just now? Take us right away." Yao Xuan soon recovered and said to the

young man.

The young man did not dare to neglect. He nodded and quickly led the way.

Previously, he fled because he couldn't provoke each other. But now, with the support of his family, he is not afraid.

Half an hour later, the group came to an open hillside area.

When they saw the scene in front of them, their faces were very ugly.

Even if it was Wang Fan, he could not help his anger.

Cruel. It's so cruel.

In the eye, all the corpses were in disorder. The red blood had dyed the ground red, and even it had not completely dried up.

But this is not what makes him most angry. What makes him most angry is that none of those bodies is complete. All people's heads have been blasted and bloody.

What kind of deep hatred is it that can make such a cruel hand?

The other side's action is simply a naked provocation and a slap on the pharmacist's face. It's just a confrontation with the pharmacist.

After all, if the family members of these dead monks see their tragedy, and the Yao family can't give an explanation, the consequence will be that Yao Xuan trembles all over and looks pale.

However, she did not find anyone wearing a bronze mask at all.

Obviously, those five people had already gone away and left here.

"Who is it? Who on earth is it? Why did it harm my pharmacist?" Yao Xuan murmured to herself, but there was no answer.

If there is no enemy, it is impossible for the medicine family to develop to the present stage.

But she can't imagine which enemy is aiming at her pharmacist.

"Send out a message immediately, let everyone pay attention to the person wearing bronze mask, once met, immediately flee."

"Also, if someone meets, let them all gather together, don't disperse. Finally, let's see where other

people's bracelets are located. Let's go and look for them."

Yao Xuan soon calmed down and said to Yao Gu beside her.

"Good." Yao Gu naturally understood the seriousness of the incident and did not hesitate to do so.

But even so, they are still worried.

After all, the man with the bronze mask is also Tianjiao who enters the valley of medicine king. If the other party restores his identity, they will not know.

In this case, it is almost impossible to find out the murderer.

Another week later, Yao Xuan's heart became more and more heavy.

Because since this week, they have not found any other Tianjiao at all. Even if they used the bracelet to locate the past, what they saw was a miserable corpse.

After careful calculation, at least more than 30 people have been brutally killed.

How much hatred, how much resentment, can make the other party so inhuman?

In the next month, the 26 people in the group kept looking for other monks according to the positioning of the bracelet, but what they saw was still a miserable corpse.

One month later, the number of people killed has increased to more than 70, plus more than 20 of them here, as well as those who accidentally died in dangerous places.

In other words, except for the more than 20 people gathered together, the rest of Tianjiao have been killed. Wang Fan's heart is also extremely dignified, the other side of this means is simply cruel.

He had a hunch that the other party would cut them in the next step.

Although there are 25 of them, since the other party dares to be so crazy and even kill everyone except them, it is obvious that they are not afraid of exposing their identity.

In this way, the other side absolutely has a strong self-confidence in their own cultivation, otherwise, how dare they be so unscrupulous?

"Yao Xuan fairy, I feel that those five people will definitely fight like us, and even if we have many people, we may not be rivals."

"So I think you'd better ask the pharmacists for help. If there's no strong one, I'm afraid we'll be in danger."

At one moment, Wang Fan could not help but suggested to Yao Xuan.

Because it not only involves the resentment between the other party and the pharmacist, but also involves his life.

No matter how confident he was, he had only three levels of cultivation in the imperial realm. He didn't think he could fight against the other five.

"You mean so many of us can't beat those five guys, and they dare to fight us?" When Yao Xuan heard Wang Fan's words, she was stunned.

Just not waiting for her later words to come out, Yao Gu already disdained to say, "are you joking, or are you attacking our enthusiasm?"

"Just five people, no matter how strong they are, how strong can they be? How can we not deal with more than 20 people?"

"What kind of heart do you have here to bewitch people? Do you know who those five people are, or are you with them?"

Yao Gu said, the spearhead has been directed at Wang Fan, the language is extremely vicious.

Wang Fan heard this, slightly a Leng, followed by a sneer, "medicine ancient, rice can eat, but words can't say."

"If I Wang Fan were with them, could you live to the present? Are you a pig head? "

Then, instead of going to see Yao Gu, he looked at Yao Xuan and said solemnly, "Miss Yao Xuan, the other party dares to kill so recklessly, and almost killed everyone except us. Obviously, they are not afraid of exposing their identity."

"In that case, the strength of the other side is absolutely strong. Of course, what I'm saying is just my opinion. If Miss Yao Xuan doesn't agree with me, I'll take it as if I didn't say it. "

Chapter 2965

Wang Fan closed his mouth and stopped talking.

He just said what he thought and put forward his own opinions. As for whether Yao Xuan would listen or not, it was Yao Xuan's business. He couldn't decide at all.

Yao Xuan heard Wang Fan's words, but her face was more dignified. She said seriously, "younger martial brother Wang Fan, are you too nervous?"

"Tianjiao, who entered the valley of medicine king this time, had only five levels of cultivation. This kind of cultivation, even five people, can't kill so many of us? "

"You know, among the 27 of us, there are seven of the five levels of cultivation in the imperial realm, and uncle Shan's cultivation has reached the sixth level of the imperial realm."

Although Yao Xuan didn't believe Wang Fan's words, she still attached great importance to Wang Fan's words.

Because of Wang Fan's extraordinary performance in the examination, she felt that Wang Fan was not simple.

When Wang Fan heard Yao Xuan's words, he couldn't help frowning slightly. "Miss Yao Xuan, you just said that the highest cultivation of Tianjiao in the valley of Yao Wang is the fifth floor of the imperial realm?"

"Yes, is there any problem?" Yao Xuan asked.

"Of course there is a problem." Wang Fan replied, "because the friar who robbed me was a real sixth floor of the Empire."

"And I'm sure he didn't break through after he entered the valley of the king of medicine, but he had already reached the sixth floor of the imperial realm before he entered the valley of the king of medicine."

Speaking of this, Wang Fan's heart suddenly clattered. Is it difficult that the man who robbed him was also one of the five men wearing bronze masks?

"What, it's impossible!" Yao Xuan looked at Wang Fan in shock and shook her head.

"Why not?" Wang Fan sneered, "I'm sure he's a strong man in the sixth floor of the Empire."

Then he looked at Yaoshan and asked, "Uncle Shan, didn't you feel his accomplishments before?"

Yao Shan shook his head, "no, it's just that the man is really not simple."

"Yao Gu, please contact the elder of my Yao family immediately and let them enter the valley of Yao Wang." Yao Xuan didn't continue to talk nonsense, but said to Yao Gu.

Yao Gu seemed reluctant to hear Yao Xuan's words, but he didn't dare to disobey, so he did.

Similarly, he was even more upset with Wang Fan. Why did Yao Xuan believe this guy so much?

Wang Fan didn't care about Yao Gu's displeasure, and he didn't care about it.

Now he just wants to get through two months, and then leave Yaowang Valley and Yaojia.

Because during this period, he already knew that those who entered the valley could only be sent out automatically if they stayed in it for one year.

Now he has been in Yaowang Valley for ten months. In two months, he can be sent out.

It's just that it's not easy to stay in it for two months.

Two months is enough time for the five monks to find them.

You know, if the other party can hunt the rest Tianjiao one by one, there must be some special way to find someone.

Since the other party can find out those single people, it's easier to find them.

"Hey, all the fish that can be killed have been killed. Now you are the only big fish left. You'd better leave your head behind."

Just as Wang Fan was thinking about these things, a voice of compassion came out suddenly, and then five voices appeared around them silently.

The appearance of these five people, Wang Fan and his party did not notice any one, which shows the means of each other.

What's more, the five people who appear here are not in the same position, but in the five corners, with the potential of encircling them.

Five people surround more than 20 people, which sounds funny, but in fact it is.

"Who are you? Why do you want to hunt Tianjiao who enters the valley of medicine king? What means can you come to my pharmacist? Why should you be so cruel? "

After a short pause, Yao Xuan soon recovered and asked coldly.

Looking at the sudden appearance of five people, her heart is also extremely not calm, but also has a bad premonition.

It is self-evident that the other party can appear quietly and dare to appear so quietly.

"Son of a bitch, are you with them? Why did they come when you said they would fight us?"

To everyone's surprise, Yao Gu pointed at Wang Fan and began to drink angrily.

With his loud drink, Wang Fan immediately found that most of the people around him were subconsciously away from him.

Only Yao Xuan and Yao Shan didn't deliberately stay away from him.

Obviously, even if these people did not doubt Wang Fan, but because of Yao Gu's words, they were on guard against Wang Fan.

"Shut up." Yao Xuan's face couldn't help changing, and she yelled at Yao Gu. But as soon as her words came to an end, the man with the bronze mask, who had opened his mouth before, began to speak again with compassion, "Hey, you're right, he's really with us."

"Not only is he with us, but even among you, we have our undercover."

This person's words fall, Wang Fan this person's facial expression is uglier, between each other had guard and suspicion.

After all, the young man who got away with it said that someone was the running dog of the five.

When Wang Fan heard this, his heart sank slightly. At the same time, he was also very angry at that ancient medicine.

That guy is such an idiot. Is he trying to kill everyone?

These people, originally, may not have been able to beat each other's five people. Now that they are on guard and suspicious of each other, they may not be rivals.

Yao Xuan's face was also a little blue. She took a cold look at Yao Gu, but she didn't continue to scold him. Instead, she looked at the other twenty people,

"everyone, I believe you have nothing to do with the five animals. Now, only with concerted efforts can we kill these five scum. "

"On the contrary, if we are suspicious of each other, we may end up with only one, that is, they will kill all of us."

I have to say that Yao Xuan's words have some effect.

Her words fell, the mutual suspicion of more than 20 people, in the eyes of the guard is a lot less, all momentum, coldly looked at the five people.

It's just five people. If it had been before, they might not have cared about it at all.

But these days, they have seen too many friars killed by these five people, all of them are miserable, and they already have fear in their hearts.

"A group of garbage, even if it's a concerted effort? Go to hell! As for you Yao Xuan, hehe, it's two months before you go out anyway. "

"In these two months, you will be responsible for serving five of us."

"Do it!"

After that, the man's figure flashed and immediately killed Wang Fan and others.

Meanwhile, four others moved.

Their momentum soared to the peak in an instant, and the violent pressure swept over them. They also killed Wang Fan and his party crazily.

Chapter 2966

"Let's do it together." Yao Xuan's reaction was also very fast. Almost at the moment when the five people started, she killed them.

Although Yao Xuan seems to be a little weak, her cultivation has reached the fifth level of the Empire, which shows her natural evil.

More than 20 people around also reacted and sacrificed magic weapons one after another to kill the five people.

For a moment, the roaring sound of magic weapon resounded constantly in the world, and all kinds of Lingyuan explosion sounds like fireworks.

But to Wang Fan's dismay, one of the five seemed to be staring at him and directly killed him, ignoring the rest.

This makes Wang fan depressed at the same time, but also very confused.

He doesn't know this man at all. Why does this man stare at him?

Is it difficult because he has the lowest accomplishments, so he seems to be the best to kill?

"Cunning boy, you can escape from my master twice. I want to see if you can escape this third time."

A voice containing extreme Yin and cold came from the population, and Wang Fan knew the identity of this person in an instant.

It's the monk who robbed him. No wonder he's after him.

The man had already sacrificed a magic weapon of the remnant lamp in his hand while he was talking. The remnant lamp was emitting dazzling light, and the blazing high temperature swept the whole world in an instant.

The buzzing sound surged in the air, and the remnant lamp of that man had cut through the air in an instant, and madly covered Wang Fan.

The terrible and hot heat seemed to incinerate Wang Fan into nothingness.

Wang Fan felt the scene, the surface showed horror at the same time, the heart is in a sneer.

If he had not fused with demon fire, this terrible high temperature would really pose a great threat to him.

Just, he even demon fire can fuse, this kind of high temperature magic weapon, how can it hurt him?

Of course, all this Wang Fan did not dare to show, he showed only a strong fear.

"Ha ha, I'm afraid now, but it's too late. Even if you give up all you have now, I will kill you. "

Seeing the fear in Wang Fan's eyes, the man seemed more excited.

After laughing wildly, he waved his right hand. The light on the residual lamp was even more brilliant, and it was crazy to cover Wang Fan.

Wang Fan sneered, but he did not attack, but in the crazy retreat, and the speed of retreat is still very slow.

Because he is very slow, so just a moment, the hot light has completely wrapped up Wang Fan.

The terrible scorching light even scorched the air.

At this moment, Wang Fan has been completely wrapped by the scorching light, and can't see him at all.

The man saw that Wang Fan was completely covered by the scorching light, and sneered even more in his eyes.

For this scene, he had no accident at all.

It's just the third floor of the emperor's realm. As long as it's wrapped in the light of his magic weapon, it's sure to die, and there's no survival.

"Are you desperate? Fear? Don't worry. I won't let you die so soon. I'll let you have a heartburn. "

The man laughed, and at the same time, he had grasped the magic weapon of the remnant lamp and approached the area where Wang Fan was wrapped.

How proud is he as a strong man in the six levels of the Empire?

However, Wang Fan, who only has three layers of ants in the imperial realm, dares to threaten him and even escape from him twice, which makes him extremely unhappy.

Because, without hesitation, he chose to fight Wang Fan first and kill Wang Fan.

As for the other 20 or so people, they were besieging the other four monks at this time, and no one was in charge of Wang Fan's side at all.

Wang Fan has only three levels of cultivation in the imperial realm. It's really rubbish. Even if this kind of person is saved, it doesn't help them.

What's more, there is a man who is specially dealing with Wang Fan. If he doesn't attack them for the time being, their pressure will be much less.

At this time, they only hope that Wang fan can be tough and stick to it for a while.

As for Wang Fan's life and death, what's the joke? He was trapped in the third floor of the imperial realm and the sixth floor of the imperial realm. He still wanted to get away? What's more, if Wang fan is dead or alive, what does it have to do with them?

Yao Xuan wants to help Wang Fan, but it's a pity that she can't help herself.

At this time, she is also anxious, but her anxiety is not Wang Fan, but the situation of these people.

As soon as these five people started, she knew their accomplishments. All of them were on the sixth floor of the Empire, which surprised her.

Five strong men from the sixth floor of the Empire entered the valley of medicine king, but none of them knew about it. It was terrible.

These five people's concealment means are really against heaven.

When Wang Fan was wrapped by the light of the residual lamp, the aura in his body was already surging wildly, forming a shield on his body surface. But he obviously underestimated the power of those lights.

Because even if he condensed the shield and fused the demon fire, he still felt a touch of extreme heat.

Not only that, he was also surprised to find that his shield was burned and began to illusory.

If the light is allowed to burn down, the shield on his body surface will not last long.

Wang Fan did not dare to hesitate, physical strength began to run, in an instant, it has been running to the peak.

At the same time, he has already grasped the shadow knife in his hand, and his aura is roaring wildly in his body. He begins to promote the three sabres skills in the split field to the maximum extent.

A huge momentum surged out of Wang Fan. When the monk of the sixth floor of the imperial realm approached Wang Fan, the shadow knife in Wang Fan's hand raised a bright rainbow and split it out without hesitation.

Wanqiandao was intended to gather in an instant, and the terrible killing power swept wildly. Just in an instant, it tore the light that enveloped him and blasted at the enemy.

At this time, Wang Fan didn't dare to have any reservation. After all, the other side was a strong man in the six levels of the imperial realm, surpassing his three levels.

In the face of a strong man of this level, if he keeps it without using a killing rifle, he is looking for death.

At the moment, Wang fan does not care about exposing his strong fighting capacity at all.

He just wanted to get rid of the guy in front of him and get out.

The strong man of the sixth floor of the Empire never thought that Wang Fan, who was wrapped by the light of his magic weapon, had the strength to fight back, and the power of fighting back was so strong.

When he felt wrong, the sharp blade had torn the light curtain and appeared directly in front of him.

"No!" Feeling the power of Wang Fan's knife, the strong man's face changed greatly and began to retreat in an instant.

However, even though he is quick, he is still slow.

With a bang, Dao mang blows directly on his chest. Even if he tears out a bloody wound, he is also blasted out.

"Son of a bitch, I hurt your grandfather. You will die today." The man felt the sting of the wound and burst into a rage!

As a strong man on the sixth floor of the Empire, he was seriously injured by the ants on the third floor of the Empire. How ironic is that?

Only, his words just fell, boom, that wrapped Wang Fan's light suddenly burst, followed by another bright sword, crazy toward him.

Chapter 2967

The power of this Dao mang is so powerful that it is more than several times more terrifying than the one above.

The monk on the sixth floor of the imperial realm felt the terrible force of the sword, and his face became more ugly in a moment.

He can't think about how to kill Wang Fan any more. Instead, he excites Lingyuan crazily and starts to retreat crazily again when he punches hard.

Although such a terrible knife can't kill him, he also feels the threat.

If he doesn't step back and resist, he will be hit even more seriously.

With a bang, Wang Fan's sword was bombarded on the man's boxing style, and a terrible explosion broke out.

Even some of the monks who fought not far away were affected and began to stay away madly.

They were all shocked to see this scene. Obviously, they did not expect that Wang Fan, who was only on the third floor of the Empire, could blow such a terrible blow.

The frenzied Lingyuan burst madly, and the man's boxing style finally managed to block Wang Fan's sword.

But even so, he was still blasted out, again spouting a few mouthfuls of blood.

However, Wang Fan still didn't wait for him to catch his breath, and the third knife had already come down.

Wang Fan's three successive swords are more and more terrible, and the force of the sword is extremely fierce.

The terrible knife was like a rolling wave. It was like a ceaseless effort to tear the monk apart.

"How is that possible? How could there be such a rich real yuan on the third floor of the imperial realm, and blow out such three swords one after another? "

Feeling Wang Fan's third sword, the monk on the sixth floor of the emperor's realm finally changed his face.

This third knife made him feel the threat of life.

He had a feeling that if he didn't run away, he would stay here forever and die under Wang Fan's third sword.

Although he was very reluctant to believe that he would feel the threat of life in the hands of Wang Fan, who was just on the third floor of the imperial realm, he believed in his own feelings.

"Boy, I remember you." He looked at Wang Fan, very unwilling to roar out, and then without any hesitation, grabbed out a talisman, instantly has been excited.

At the moment when the talisman was inspired, a flash of light wrapped his body quickly and disappeared without a trace.

However, just at the moment when his body was about to disappear, Wang Fan's third knife had been blasted down, and a blood mist spattered in the air.

But unfortunately, although Wang Fan's third sword once again caused a heavy damage to the sixth floor of the emperor's territory, it obviously did not kill him.

Wang fan is also a pity, but also a little lucky.

If this guy doesn't escape, but blocks his three knives, he wants to kill each other, I'm afraid it's even more difficult.

It can be said that it is very difficult for him to kill the other party without sacrificing a short killing gun.

But he can't sacrifice a shotgun until he has to.

That's his card. There are so many people here. If others know his card and have a guard in the future, he will be very passive.

"You are only three layers in the imperial realm, and you even beat back Gaiji who is six layers in the imperial realm?"

Almost as soon as the monk inspired the talisman to escape, a voice of surprise came.

This person is also one of the five people with bronze mask, but at this time, his body is covered with blood, under him, several bodies have fallen.

"No, you are wrong. I not only beat him back, but also hurt him." Wang Fan looked at the monk, but he shook his head and said in a light voice.

"Good, good." When the man heard Wang Fan's words, he nodded with a sneer. Immediately, his momentum suddenly burst. He turned his hand to shake back the five people in front of him and killed Wang Fan directly.

"You speed up and make a quick decision. By the way, that woman, I want to live." While killing Wang Fan, the man yelled at the other three.

His words seemed very authoritative, and the other three people immediately became more crazy after hearing his words.

In a flash, several friars were injured by the earthquake and flew away, miserable.

When Wang fan saw this scene, he suddenly looked at Yao Xuan with a cold smile and said, "Yao Xuan fairy, I will draw this person away, and the other three will be handed over to you. Good luck to you."

With that, without hesitation, he turned and walked away.

With his three-tier cultivation in the realm of emperor, it's interesting to be able to repel one person and draw another away.

If the remaining three people, Yao Xuan and others, are still unable to solve the problem, they will have to blame their fate.

"Want to go?" When the man saw that Wang Fan was going to leave, he sneered in his heart. His figure flickered, and he had caught up with him like electricity.

If he let Wang Fan escape from under his nose, he would not have to mix.

But soon he was silly, because there were countless thunder lights on Wang Fan's body. Among the flashes of thunder lights, people had quickly disappeared in the distance.

Looking at this scene, he slightly hesitated, or crazy to catch up. Wang Fan's ability to repel Gaiji is a great hidden danger, which must be eliminated.

What's more, he is very confident in his own speed. In terms of speed alone, not many people can match him.

Yao Xuan saw that Wang Fan had led away a monk on the sixth floor of the imperial realm alone. She looked at the direction of Wang Fan's departure gratefully. She was very moved.

She didn't expect that Wang Fan would be so powerful and so kind. After repelling one person, she even took the initiative to lead one person away for them.

It can be said that their pressure is greatly reduced.

But, Wang fan can really escape, her heart has no bottom.

She even thinks that most of Wang fan can't escape, and most of them are already in danger.

After all, it's not easy for Wang Fan to injure an emperor on the sixth floor and scare him away.

If Wang fan can deal with another emperor's six levels of territory after he has damaged one, no one will believe it.

Because looking at the whole unparalleled Empire, there are no such evil three-tier monks in the imperial realm.

"Let's hurry and kill these three guys, and then go to save younger martial brother Wang Fan." Yao Xuan soon recovered and yelled.

...

Wang fan is frantically performing the flash body method and running away from the distance.

He can clearly feel that the monk on the sixth floor of the empire is pursuing him, and even the distance between the two sides is constantly narrowing.

If it goes on like this, he will be caught up in no more than one hour.

Wang Fan was a little shocked. The speed of this man is too fast.

You know, he's a lightning body method bathed in thunder, and he also controls the energy blessing of wind element.

In this case, the speed of the other party is no slower than that of him, even faster. From this, we can imagine the speed of the other party.

Wang Fan, who was absolutely sure to kill this guy, was no longer sure.

Although his killing short gun is powerful, it does not mean that he is invincible.

What's more, the speed of this man has been so adverse, who dares to say that he does not have a strong card?

Wang Fan, who originally wanted to find a place to kill this guy with the help of killing short guns, immediately gave up this idea and began to run away crazily.

Compared with Wang Fan's shock, the monk was even more shocked.

If you were closer to him, you would see a pair of illusory wings on his back.

That pair of wings in slightly flicker, make his speed as fast as meteor, the naked eye difficult to distinguish.

This pair of wings is his chance to get, known as the silver wings.

Chapter 2968

Yinfeng, an ancient monster, has the blood of the ancient Phoenix.

Yinfengyi is the wing of Yinfeng, which contains the element energy of wind. After refining, it can increase the speed by countless levels.

It was by chance that he got a pair of silver wings and refined them.

Since the refining of yinfengyi, his speed is not as fast as that of the three-tier monks in the imperial realm, even the eight tier and nine tier monks in the same realm.

Today, however, he can't catch up with a mole ant on the third floor of the Empire. How can he not be shocked?

Although his speed is much faster than Wang Fan's, he still can't catch up in a short time.

"This man's only three-tier cultivation in the imperial realm can not only seriously injure the people in the sixth tier of the imperial realm, but also be no less than me in speed. He certainly has a great chance."

"Today, I have to kill this man and get his chance."

"Not to mention anything else, only his body method and martial arts are acquired by me. Under the king of men, I'm not afraid of anyone in terms of speed."

His eyes twinkle sharp twinkle, is to speed up the crazy catch up.

Now he looked at Wang Fan, not at a person, but at a treasure.

Wang fan is on the run when he suddenly feels familiar with the surrounding environment.

He only thought for a moment and knew where it was.

This is the area where the eighteen steps are located. He was here at the beginning.

With this discovery, Wang Fan's heart moved, and immediately turned to the dangerous place.

Up to now, Wang Fan has not been chased twice. If he does not use this dangerous place, he will not be Wang Fan.

Just in a flash, Wang Fan ran to the dangerous place with eighteen steps, but he did not go up immediately, but stopped.

After about half incense, the strong man of the sixth floor of the imperial realm also came here.

He first took a look at the dangerous place behind Wang Fan, then looked at Wang Fan and sneered, "why, do you want to kill me with the help of this dangerous place?"

He is not a fool, naturally will not think Wang fan is desperate, so fled to this dangerous place. The reason why Wang Fan came here must be to kill him with the help of this dangerous place.

However, Wang Fan, who only has the third floor of the imperial realm, wants to kill him with the help of danger. Is that a dream?

"You're right. I really want to kill you with this danger."

"Aren't you a cow? If you have seed, you can show it to me again. If you can catch up with me this time, I'll let you kill me. "

Wang Fan responded with the same sneer, and then with a flash of his body, he ran towards the eighteen steps.

"To die!" When the man saw Wang Fan's action, he couldn't help a sneer.

He also came to this dangerous place, naturally knowing how terrible the pressure on the eighteen steps was.

However, he just reached the 16th level and did not move on.

Because the pressure of the 16th level is already his limit. If he goes further, he is likely to be killed. He does not dare to gamble.

Now, however, Wang Fan flew to the eighteen steps. What is it?

In his opinion, Wang Fan's cultivation, up to the tenth level at most, is quite good.

At that time, if Wang fan can't continue to go up, he must return. Otherwise, forced upward, only a dead end.

So, after seeing Wang Fan's action, the young man didn't even move. He just looked at Wang Fan with a

sneer.

It's just that soon he'll be silly.

Because Wang fan is just like climbing an ordinary step. Just a few breaths, he has already climbed the 18th step and disappeared without a trace.

"Well, is there no pressure?" Young people are shocked to see this scene. It seems that there is no other explanation except this one.

After all, Wang Fan was so relaxed that it was like breathing.

"If he can go up, so can I!" Soon, he came back to himself, spit out a voice, and then also flew to the eighteen steps.

When his feet landed on the first step, he already knew that the pressure here was still, not only still, but not weakened at all.

This discovery made him even more astonished.

How did Wang Fan do it?

When he was thinking about these things, his figure had gone up all the way and soon came to the 16th level.

Because he has already ascended the 16th level once, so this second time, naturally, he needs to be more relaxed.

Standing on the 16th step, feeling the pressure of the vast terror, his face was extremely ugly.

He even felt the threat of death again. It seemed that as long as he dared to move forward, he would be killed immediately by the pressure. At this moment, he began to become hesitant, hesitating whether he wanted to go up.

Once forced up, there is a real possibility of death.

"Hey, hey, didn't you just be a cow? Didn't you want to kill me? Now that we're just a little bit away, why don't you come here? "

"Don't tell me that you are not as strong as me in the sixth floor of the imperial realm."

Just as he hesitated, a voice of banter suddenly came out, but he couldn't see anyone. But he knew that the voice was from Wang Fan.

Hearing Wang Fan's sarcasm, his face became more ugly, but he was still thinking.

"You can't even reach my height. Why do you talk about killing me?"

"I can reach the 18th level, but you dare not even try to reach the 17th level. It's just rubbish. I think you'd better go home and marry a wife and hold a baby."

Wang Fan's disdainful voice interrupted his meditation again, making his face even more ugly in an instant.

Waste? Why don't you go home and get a wife? What irony is this?

Of course, although he was angry in his heart, he also knew that Wang Fan was deliberately provoking him to keep on going.

Wang Fan's purpose is to have him killed here.

But even though he knew this, he was still very upset.

You know, he is a strong man on the sixth floor of the imperial realm. Wang fan is only on the third floor of the imperial realm.

Even Wang fan can go up to the 18th level, but he can only go to the 16th level. Doesn't it mean that he is not as good as Wang Fan at all, or even quite different?

At a certain moment, he finally clenched his teeth and burst into a frenzy. At the same time, he suddenly stepped towards the 17th step.

At the same time, a huge golden mask appeared in his hand and directly sacrificed on his head to protect him.

Boom!

The pressure of terror surged on the golden mask, which made the golden mask vacillate.

Even if he was protected by the Dharma shield, he was shocked and spewed out several mouthfuls of blood.

However, in the end, he still stood firm.

He stood steadily on the 17th level and succeeded.

Wang Fan looked at this scene, but also slightly stunned.

This man was so shocked by him that he was able to successfully step on the 17th level. Obviously, he has a special heart.

Chapter 2969

The man stood on the 17th step, his heart was shocked.

Such terrible pressure has been his limit, let alone continue to step on the 18th level. Even standing here, he feels that he can't hold on for long.

This is also in the case of sacrificing the Jin Yuan shield. If he didn't sacrifice the Jin Yuan shield, he would have been killed by the pressure.

However, Wang Fan easily stepped on the 18th stage. How did he do it?

There must be a great secret in this man.

That person thought of here, the heart already more fiery.

He didn't expect that a mere three-tier monk in the imperial realm would have so many secrets, which was just too bad.

No, Wang Fan must be killed, and he must get the secret of Wang Fan.

Strong obsession filled his mind. At this moment, he seemed to feel that the pressure on his body was much smaller.

He raised his head and looked at the fog. His eyes were like the eyes of a wolf, just as if he could penetrate layers of fog and see Wang Fan behind the fog.

He breathed deeply, and his whole body was surging again. As soon as he stepped up, he directly stepped toward the 18th step.

Boom!

At the moment when he stepped on the 18th level, the aura between heaven and earth suddenly became restless, as if turned into pressure, overwhelming toward him.

That terrible pressure, as if to erase everything in front of the general.

"Drink!" Feeling the terrible pressure storm, his face changed, he suddenly gave a big drink, and immediately offered a magic weapon with a long gun, which hit the turbulent and incomparable vortex of terror.

The roaring sound resounded, and the terrible pressure whirlpool tore a hole directly under his long

gun, and he also spewed out several mouthfuls of blood and stood on the 18th step.

At the same time, there was a slight crack in the Golden Shield on his head, which seemed to be about to explode.

However, at this time he did not care about those, in his face, only uncontrollable ecstasy.

He succeeded. He succeeded. As long as he goes further, he can step over the 18 steps and walk behind the fog.

However, he just thought of it, and before he even had time to step forward, a sharp knife had already cleaved towards him.

The sharp edge of the knife, set off a terrible knife to kill, as if to tear everything in general.

Seeing the sharp blade, the man's face suddenly changed wildly, and he drank, "rat, dare you!"

Boom!

Just, he just roared out four words, that fury of knife awn then already overwhelming of split on his body.

With a bang, the gold shield on his head was torn under the awn of the sword. His whole person was directly blasted out, and he was blasted down 18 steps.

The man fell heavily on the ground, and then raised his head, staring at the fog, only evil in his eyes.

At the moment when he was about to succeed, Wang Fan attacked him secretly. He was looking for death. The timing of Wang Fan's knife was too good for him to guard against.

"Little beast, you are so mean. If you have the ability, get out and see if I can light your soul."

His eyes seem to be able to penetrate the fog, see Wang Fan, the mouth issued a vicious hoarse roar.

At the moment, his intention to kill Wang Fan has expanded to an unimaginable level. Wang Fan's action is too despicable. He is destroying his chance.

"Old bastard, do you want to light my soul with your strength? You'd better take me two more. "

Wang Fan disdained a smile, easy from the eighteen steps up and down, immediately in the hands of shadow knife wave, it is two knife split down.

This man has been chasing and killing him for such a long time, and it's also for the sake of killing him to climb the 18th level.

He just plotted against this guy, which is also called despicable? It's ridiculous.

The bright blade is blooming in the air, and the endless blade meaning is madly condensed, forming a terrible wave of blade power, rushing towards the man.

The man saw this scene, his face changed greatly, but he did not retreat, but suddenly got up, madly gathered the spirit yuan in his body, and shot out.

Boom.

The sound of explosion continues to ring, and the terrible energy ripple destroys everything around.

Wang Fan in deal with the gun, can't help but crazy retreat, heart shocked.

He didn't expect that this man was so seriously injured that he had such strength. It was terrible.

Obviously, this man is much more powerful than the sixth floor of the empire he forced away.

Wang Fan was dismissed, the man was not easy, his body was again cut by the knife, countless wounds, at a glance, has completely become a blood man.

Not only that, but also his internal organs were injured, and his whole body was very weak. An extreme dizziness came. He knew that it was impossible for him to kill Wang Fan.

He was seriously injured, and Wang Fan was too crafty. In this case, if he did not leave, he would die in Wang Fan's hands.

Think of here, he once again looked at Wang Fan, immediately without any nonsense, behind the silver Phoenix wings stretch out, immediately suddenly waved, quickly disappeared here.

Wang Fan looked at this scene, although the heart is unwilling, but also helpless.

If ordinary people want to escape under this kind of injury, he may be able to catch up with them, but he can't catch up with them at all.

The speed of the other side is faster than him. How can he chase after him?

In this regard, Wang fan can only cry a pity. He changed the direction and left quickly. In the twinkling of an eye, he disappeared.

He's looking for a place to recover.

Although he was not seriously injured, he was also injured, and his aura was seriously damaged.

If he doesn't get back to his peak strength as soon as possible, he will still be in danger in this valley.

Wang Fan soon found a place, dug a hole in the ground and went in.

When he got into the cave to recover his strength, he didn't know that Yao Xuan's situation was more dangerous.

More than 20 people besieged three people, which should be without any suspense, but in fact, an accident happened.

Just when the two sides were deadlocked, and no one could take the other, Yao Gu of Yao family suddenly turned against the water and started directly at the people around him.

Those people didn't expect that the pharmacists would turn back on their own.

One of the three youths on the fourth floor of the imperial realm caught off guard and was killed by Yao Gu on the spot.

The death of the three strong men on the fourth floor of the imperial realm and the sudden accident made everyone's face change and his heart tremble.

Just when they were trembling, the three strong men in the sixth floor of the Empire had seized the opportunity and started a violent attack.

Hiss, hiss.

Blood fog splashed, just for a moment, then seven or eight people were cut down, died on the spot.

The delicate balance was thus broken, and Yao Xuan and his party fell into absolute disadvantage.

"Yao Gu, why, why do you do this?" Yao Xuan stares at Yao Gu, who runs to the back of the three people. There is only anger and disbelief in her eyes.

Yao Gu, it's a surprise that he should unite with outsiders to entrap her family and kill her Yao Xuan!

Chapter 2970

"Why?" When Yao Gu heard Yao Xuan's question, he suddenly became ferocious and laughed, "why do you say that?"

"As the third generation of the Yao family, Yao Gu is not as high as you. Why do you say that?"

"All the top-level resources and all the good things of the pharmacist are almost used on you. What do I get?"

"Every day, I am called by you as a servant. Even the mole ants on the third floor of the Empire are higher than me in your eyes. Why do you say that?"

Yao Gu seems to have a bellyful of resentment, like crazy spit up bitter water, obviously his resentment is not general big.

When Yao Xuan heard this, she had no idea to ask again.

She looked at Yao Gu, her eyes only disappointed, deeply disappointed.

Yao Gu, as a direct member of the Yao family, was cultivated by the Yao family, and the Yao family was very kind to him.

Is it because of this, he is going to harm the pharmacist? This is really a little bit unreasonable.

Boom!

At the moment when Yao Xuan was disappointed, a big bang came, followed by a series of blood mist shooting and a scream.

She looked up and saw that Yao Shan, the strong man on the sixth floor of the imperial realm, had been hit in the chest by a man and killed on the spot.

Seeing this scene, Yao Xuan's eyes were red, "Uncle Yao Shan."

It's a pity that Yaoshan has no breath, so it's impossible to hear her roar.

"Everyone, it's my pharmacist. I'm sorry for you. Now, let's run for our lives."

She looked at the rest of the remaining friars, red eyes to say a word, it has been free body, and then crazy away.

This situation, even if it continues to fight to the death, is meaningless.

Therefore, she did not hesitate to choose to escape.

"Stop her. Don't let her escape." Yao Gu saw that Yao Xuan was about to run away. His face suddenly changed. While he was drinking, he rushed up crazily.

One of the three strong men in the sixth floor of the imperial realm sneered, "master Yao Gu, don't worry, she can't escape."

This person says, body shape a flash, then equally rushed to medicine Xuan.

Yao Xuan saw that the other party was coming after her, and a fierce color appeared in her eyes.

Her fingers did not hesitate, crazy point in Dantian, in an instant, a terrible momentum broke out.

In this moment of terror, she turned around and killed Yao Gu crazily.

Yao Gu saw that Yao Xuan suddenly killed him, and his face changed instantly.

Although he wanted to kill Yao Xuan, he knew that he couldn't beat Yao Xuan at all.

Yao Xuan's talent is not comparable to his ancient medicine. Otherwise, the pharmacists would not try their best to cultivate Yao Xuan instead of his ancient medicine.

"Stop him and keep her away from me." Yao Gu didn't dare to chase Yao Xuan any more. Instead, he retreated crazily, and even fear appeared in his eyes.

However, although his speed is fast, there is no medicine Xuan who has used the secret method fast.

Just a few breaths, Yao Xuan had already approached Yao Gu. Her slender jade palm was raised and she did not hesitate to shoot it.

The strong man on the sixth floor of the imperial realm who came to rescue Yaogu saw this scene and his face changed in an instant.

Everyone can have something to do, but Yao Gu can't.

Only when Yao Gu is alive, can he help them out after leaving Yaowang Valley in the future.

If Yao Gu is dead, they will die, too.

The reason why they can enter the valley of medicine king with the cultivation of the sixth floor of the imperial realm, and why they dare to be so reckless in the valley of medicine king, is that they are supported by the ancient medicine and some senior pharmacists.

Otherwise, how dare they do so?

Although the Yao family is strong, it is a family after all, full of power struggle, not monolithic. It is precisely because of this that today's event will appear.

"Master Yaogu, be careful." When the sixth floor of the emperor's territory drank a sentence, his momentum was already frantically burst. At the same time, he quickly approached Yao Xuan, and hit Yao Xuan's back.

The terrible and violent style of the fist tore the air and set off a roar. If the fist hit Yao Xuan, she would be badly hurt.

He wanted to force Yao Xuan to stop attacking Yao Gu with this fist.

Soon, however, he was disappointed.

Because Yao Xuan didn't pay attention to his fist at all, but still slapped Yao Gu with one palm, extremely decisive and crazy.

Boom!

Boom!

The two blasts sounded almost at the same time, and Yao Gu and Yao Xuan flew out almost in no particular order.

Yao Gu was shocked by Yao Xuan, and then he spewed out a few mouthfuls of blood mist on the spot, and his face was as pale as paper.

Those who are seriously injured cannot be seriously injured any more.

Yao Xuan also felt bad. The blow hit her back heart, and her back heart burst out a red mist of blood. Her body was blown up, and the corners of her mouth were bleeding, and her face was as white as paper. Body in the air, she looks so weak, desolate, more heartbreaking.

Yao Xuan felt that her internal organs had been badly damaged, especially her heart, and even was about to crack completely.

She didn't know whether she could survive such a terrible injury.

However, she did not forget her situation.

When she was in the middle of the sky, she had already taken out a talisman, and then forced to lift a breath, spewed out a mouthful of blood essence on it, hard to stimulate it.

"Master Yao Gu, are you ok?" But at this time, the emperor's sixth floor was already in front of Yao Gu and began to ask nervously.

Everyone can have something to do, but Yao Gu can't. Now Yao Gu has been badly damaged. Naturally, he will come to investigate for the first time.

"Don't let her escape, kill her first." Yao Gu's mouth was gushing blood, but his eyes were staring at Yao Xuan's direction, and he said hoarsely.

The ultimate goal of this trip is to kill Yao Xuan, in addition to harming Yao Xuan's father.

So Yao Xuan must die.

Hearing Yao Gu's words, the man hesitated slightly, but he didn't disobey them. He flashed away and killed Yao Xuan.

However, his speed is still a little slow.

If at the first time Yao Xuan flies, he rushes to Yao Xuan. Even if Yao Xuan has great ability, he can't go away, let alone have time to inspire the talisman.

However, the first time he ran to Yao Gu, it was a delay, coupled with the slight hesitation just now, so when he ran to Yao Xuan, a ray of light had rolled up Yao Xuan and disappeared in an instant.

Yao Gu saw this scene, his face turned pale in an instant.

If Yao Xuan doesn't die, doesn't it mean that what he did will be exposed? Once this matter is exposed, he will die.

"Kill all these people first, and then go to find Yao Xuan. She must die." Yao Gu roared hard.

Yao Xuan is not dead. He can't sleep and eat well.

Originally, he wanted to use the background of Tianjiao to attack Yao Xuan's father.

Of course, the premise is that all the insiders are killed. But now, Yao Xuan ran away. How could that be?

After hearing Yao Gu's order, the three emperors at the sixth floor of the imperial realm didn't hesitate any more, and madly slaughtered the rest of them.

Obviously, they also know the seriousness of the matter.
