Chapter 2991

Like the unparalleled Empire, Fengyun Empire belongs to the frontier of the universe, far from being the core.

In this area, there are three empires, namely, unparalleled Empire, Fengyun Empire and Tuoba empire.

The three empires are in a tripartite position. They are all ambitious and want to annex the other two empires to achieve unity.

In the same way, no one is willing to accept each other, and there are constant wars between them, which are extremely fierce.

What Wang Fan intends to go to is the Fengyun empire. For nothing else, it's just that the matchless Empire has no place for him.

Wang Fan's eyes were cold, his expression was solemn, and he walked towards Shiyuan city step by step.

When he stepped into Shiyuan City, several mental powers had already fallen on him.

However, those mental powers only stayed on him for a few breath, then they had been withdrawn and disappeared in a flash.

Wang Fan felt this scene, can't help but be relieved, he didn't hesitate, directly toward the opposite gate.

In this case, it is impossible for him to delay, because every minute of delay is extremely detrimental to him.

All the emperors of the unparalleled Empire have issued red arrest warrants, and there will only be more and more strong people like Shiyuan city.

Every time he delays for a minute, the danger may increase several times or even dozens of times.

He had no other choice. No matter how many strong people were stationed in Shiyuan City, he had to break through.

As long as he can break out of Shiyuan city and reach the territory of Fengyun Empire, he will be absolutely safe.

Only half an hour later, Wang Fan had come to the opposite gate.

At the gate of the city, it was completely under martial law. Tens of thousands of monks were guarding here, and the battle was extremely terrible.

Of course, these tens of thousands of monks are not all monks in the imperial realm, most of them are in the holy land.

After all, the friars in the imperial realm are already strong. Naturally, few people are willing to be ordinary friars.

At the exit of the city gate, many monks were lining up to get out of the city, but most of them were merchant monks.

They shuttled among the three empires, doing all kinds of business.

Wang Fan also mingled with the merchants and friars, and went to the exit step by step.

The breath in his body has been surging wildly, and the physical strength is running to the limit, ready to move at any time.

"Ladies and gentlemen, in the near future, there has been a murderous monk in my unparalleled Empire, and that murdering monk is very likely to escape from the Empire."

"Therefore, in order to prevent them from escaping from the crowd, we need to carry out strict separate investigation on those who leave the city to ensure that they are safe. I hope you will cooperate."

A sergeant in pale gold armor suddenly fell on the tower and said to the monks who left the city.

At the same time, the breath of this person has spread wildly. He is a strong man of eight levels in the imperial realm.

At the same time, the tens of thousands of friars also suddenly emerged the monstrous evil spirit, which diffused in the vast space, suffocating.

Those friars who queued out of the city were not happy to hear this, but no one dared to have an opinion.

They all nodded their heads to show their willingness to cooperate.

The friar on the eighth floor of the imperial realm was not surprised to see this scene. As soon as his figure flashed, he had already stood at the exit of the city gate.

At the same time, dozens of powerful imperial soldiers stood on both sides, ready.

Seeing this scene, most businessmen's faces are not very good-looking.

After all, this kind of formation, this kind of breath, is really too shocking.

Even if they are not cowards, they are still a little scared.

Wang Fan also made a look of fear, step by step toward the city gate.

His expression is also learned from other people's expressions. Otherwise, if other people are frightened, but he is not surprised, wouldn't it be easier to attract attention?

Accompanied by a merchant friar passing by, Wang fan saw that the eighth floor sergeant of the imperial realm took out a mirror.

Almost everyone who goes out of the city will be looked at by him in the mirror.

And with such a photo of him, soon, some merchants and friars who changed their looks were pulled out and taken to the other side.

The friar in pale gold armor kept his face unchanged and continued to check one by one.

Wang fan saw this scene, but his heart could not help sinking.

He didn't expect that this guy should have this kind of mirror that can see through the change of appearance.

He wanted to make a big move out of Shiyuan city.

It's a pity that the guard array of Shiyuan city hasn't been opened yet. It won't be opened until after the inspection, and then it will be arranged out of the city.

Although Wang Fan's current array way has reached level 9 and is only one step away from the immortal array master, it takes time for him to break the guard array. If the guard doesn't open, it will be convenient enough to take him down during his time.

Wang Fan's heart became intersected.

It is impossible to withdraw, because as soon as he withdraws, he will immediately attract attention and expose his identity.

But if he doesn't retreat, he seems to have only one way to expose himself. Once the mirror can see through him, he is also extremely dangerous.

What should we do? What should we do?

Wang Fan's heart is very anxious, constantly thinking about ways.

However, in this situation, if we can't retreat or advance, what good way can he have?

"Next." At this time, the dignified voice of the friar on the eighth floor of the imperial realm came out, and his eyes had fallen on Wang Fan.

When Wang Fan heard this voice, he could not help sighing, knowing that everything was irreparable.

He raised his feet and walked to the friar on the eighth floor of the Empire.

At the same time, the breath in his body is surging up crazily, and the mental power directly communicates with the killing short gun in the space ring.

He has made a decision that as long as his identity is revealed, he will sacrifice his killing short gun at the first time and directly shoot at the guard.

He did not believe that the power of his killing short gun would not tear a gap.

If he can tear a gap, even if it's just a tiny gap, he can also move out in an instant.

Of course, injuries are inevitable. But compared with the small life, the injury is nothing.

If even his killing short gun can't tear a gap in the protective array, it's his bad life.

Wang Fan soon went to the sergeant, and his mental power spread out.

At first, he did not dare to release his mental power because he was afraid of arousing suspicion, but now, he can not care so much.

The eighth floor sergeant of the imperial realm probably didn't feel Wang Fan's spiritual power, or maybe felt it, but he didn't care at all.

In short, he did not say a word more, just took out the mirror, and then reflected on Wang Fan's face.

Almost at the moment when the mirror looks at Wang Fan, Wang Fan's mental power has captured everything in the mirror.

In the mirror, the easy appearance on his face was like layers of paper, which began to peel layer by layer.

Although this speed is not fast, if it continues, it will soon be stripped away and show its original appearance.

Is there such a magic weapon in the world?

Wang Fan was shocked!

Chapter 2992

At this time, the spirit of the middle-aged Sergeant had completely covered Wang Fan, and even the breath had locked him in.

He did this not because he saw through Wang Fan's identity, but because Wang Fan changed his face, which was suspicious, so he had to be cautious.

Wang Fan's heart was shocked, but on the surface he was extremely calm. Especially when the other party's breath locks him in, he will be more calm.

However, behind his calm, there was a huge opportunity to kill.

"Do it!"

A low roar came from the bottom of my heart. Wang Fan, who was originally very calm, sacrificed his killing short gun the next second.

At the same time, his whole person has already soared up, a gun toward that not far from the protective array crazy bombardment in the past.

"Not good." The middle-aged sergeant's face suddenly changed when he saw this scene.

His reaction is also very fast, in an instant he has grown up, and a punch to Wang Fan's back.

The violent wave of Lingyuan burst in the void, and the boxing style set off a mighty power, directly and crazily rolled to Wang Fan.

If this fist falls on Wang Fan, even if Wang fan does not die, it will take away a layer of skin.

However, Wang Fan didn't pay any attention to the blow of the middle-aged sergeant, just staring at the nearby guard.

As long as the guard array is torn out of the gap, he will immediately use space to move away.

Of course, if he couldn't tear it, he would have to avoid the punch behind his back first, and then try to escape from Shiyuan city.

With a loud bang, the gun pattern in the sky was mixed with the intention of killing, and fell on the protective array furiously.

With a click, the array began to vibrate violently. At the same time, cracks emerged from it, and soon a slender gap appeared.

Wang fan saw this scene, eyes bright, almost in that gap was torn out of the moment, he has been crazy to show the space of big move fairy.

At the same time, there was another loud noise. It was the middle-aged monk's fist hitting Wang Fan.

The clattering sound of bone fracture continued to ring, and even when the place where Wang Fan was, there were clusters of blood mist.

However, after the blood mist splashed out, Wang Fan's figure had disappeared and disappeared.

"You guard here. I'll go after him." The middle-aged sergeant's face was ugly, but he didn't hesitate. As soon as his body flashed, he rushed out.

Wang Fan has been hit by his fist. Even if he uses his space technique, he can't escape far. He doesn't believe that Wang fan can escape from his Wuzhishan.

Seeing this scene, the friars around were all in a daze. Most of them had not recovered.

Because it happened so suddenly and so fast.

It only took less than two breaths from Wang Fan's killing short gun to the middle-aged soldier's blow to Wang Fan's escape.

In less than two breaths, Wang Fan and the middle-aged Sergeant all disappeared and rushed out of the city.

When those people recovered, their faces were extremely complicated and shocked.

No one thought that Wang Fan actually appeared in Shiyuan city and escaped.

Wang Fan just escaped less than 50 Li, and then showed his figure.

It's not that he doesn't want to escape further, it's because he is too injured to escape further.

At this time, his whole body has been dyed red by blood, and his back bones are cracked countless, bloodstained, and the injury is too serious.

It's because he's strong. Otherwise, the opponent's blow will be enough to kill him.

I can't help it. It's a monk on the eighth floor of the Empire. How terrible is the power of one blow?

He was so lucky that he didn't die.

Wang Fan felt the closer and closer breath behind him, and his face was even more ugly.

He resisted the stabbing pain of the injury, heaved a breath, and then frantically began to escape.

Lightning element ability and wind element energy converge all over the body. With the blessing of these two elements, his speed has been incredible.

The middle-aged Sergeant felt this scene, his heart was shocked, and his face was even more livid.

Even if Wang Fan escaped from Shiyuan city under his eyes, there is still a real trend of escape, which he can't bear.

However, even if he can't bear it any more, he can't help but watch Wang Fan get farther and farther away from him.

What about the eighth floor of the Empire? If you don't have strong flying skills, if you don't understand the elemental energy of lightning and wind, if you don't have the ancient monster wings like Liang Yu, how can you compare with Wang Fan's speed?

Wang Fan fled all the way, but he didn't know how long he had escaped. Finally, he couldn't help but feel weak and fell directly into a coma.

I can't help it. His consumption is too much. He not only suffered heavy losses, but also escaped with a high load. It is a miracle that he can persist until now.

He had no control over his mind and body.

Of course, the most important reason why he was reduced to such a situation was that he shot at the guard.

That shot took away a lot of spirit from his body.

Shajiao stall.

This is the border area between Fengyun Empire and unparalleled empire.

Because of the special location of this area, neither the unparalleled Empire nor the Fengyun empire was able to take charge of it completely.

After all, if this area is controlled by either side, it will be a great disaster for the other side.

It is precisely because this area is not under the control of any country, so this area has become the best living place for many fugitive monks.

Countless monks, who were in debt and were not allowed by their own country, fled here and survived in this area.

Li Yun is a nun who lives in this area. She was originally the daughter of Li family in Yong'an, a small city of Fengyun empire.

But because the Li family offended the enemy and was destroyed overnight, she had to flee here.

She was able to escape because of luck.

When the night Li's family was destroyed, she happened to be outside, which escaped a disaster.

Looking at many monks living in shajiaotan, Li Yun is too ordinary.

She is not only not outstanding in appearance, even in cultivation, she has only eight layers of poor holy land, which is not worth mentioning.

If she hadn't been careful and never offended anyone, even Shajiao City, the only city in Shajiao beach, would not have lived until now.

In shajiaotan, although resources are scarce, if you are lucky, you can also find some low-grade fairy grass.

And Li Yun, it is to rely on those poor low-level fairy grass to survive.

On this day, Li Yun was looking for xianlingcao when he saw a blood man lying nearby.

The man was bloodstained and his breath was weak. He was obviously badly hurt.

Li Yun's eyes swept slowly from the man, and then fell on the man's fingers.

In this person's finger, stunned wearing a space ring, ring golden, extremely dazzling.

Chapter 2993

Li Yun's heart fluttered, and his eyes were fixed on the space ring.

After two years of struggling, she deeply realized the hardships of living alone in shajiaotan.

She would like to go and get the space ring and get out of here.

But she is kind-hearted, but she can't do it.

It has to be said that in the cruel world of practice, there are very few kind people like her.

Li Yun stares at Wang Fan for a long time. Finally, he can't help sighing. Then he turns around and plans to leave.

"Help me." But at this time, a weak voice suddenly came out from the population, which made Li Yun's steps unbearable.

She looked back and saw that the man was miraculously struggling to move. It seemed that she wanted to stand up, but she couldn't do it all the time.

Li Yun see this scene, face again appeared embarrassed, seems to be some hesitation.

From the bottom of her heart, she really wanted to save this man.

But she also knew that the world of practice was cruel, and revenge was common and numerous. If this person should take revenge afterwards, she would be in danger.

What's more, it's very difficult for her to survive alone. If she takes care of another oil bottle, it's just when Li Yun hesitates, she suddenly feels the breath in the distance, and it's obvious that someone is close to this area.

She didn't dare to hesitate any more. She flew forward, took the man and left here quickly.

...

unparalleled Empire, imperial city.

In the vast palace, a brave man with thick eyebrows and big eyes was sitting in the first place, wearing a high crown.

Below him is a monk on his knees.

At this time, the friar was reporting the situation, even his voice was trembling.

When the man with a high crown heard that Wang Fan had escaped from Shiyuan city to Shajiao beach, he immediately slapped the table and burst into a rage,

"waste, a group of waste, millions of soldiers, plus the eight level commander of the realm of God, he couldn't even take down the three levels of the realm of the emperor. What's the use of you?"

When the high crowned man was in a rage, a strong and unimaginable pressure diffused from him. The kneeling friar on the eighth floor of the imperial realm only felt his heart suffocated.

That kind of feeling, just like the other party as long as an idea, will be enough to crush him in general, humble as a mole ant.

The man with the high crown was no other than the king of the unparalleled Empire, the emperor of Chu.

He was the only one in the unparalleled Empire who was strong in human kingdom and absolute master.

"Send orders to go down, sneak into shajiaotan and kill Wang Fan at all costs. I want him to die!" At the command of the Chu emperor, it was majestic.

"Yes." The friar on the eighth floor of the imperial realm didn't dare to neglect him at all, so he quickly took orders and stepped back.

At the moment of leaving the palace, his whole body was soaked with sweat.

After this person left, the Chu emperor sat down slowly, and behind him, a shadow appeared silently.

Yes, it's a shadow, because you can only see shadows, but you can't see people at all.

When the Chu emperor saw the shadow appear, he quickly stood up and bowed to salute, "elder."

If there are unparalleled Empire people to see this scene, they will be surprised.

The king of their unparalleled Empire, the supreme existence, even called a shadow a senior, and his attitude was so devout?

"Hum." However, in the face of the salute of the Chu emperor, there was an unpleasant cold hum in the shadow, "Chu River, I really don't know whether it's right or wrong to cultivate you."

"You didn't know that Wang Fan appeared in your unparalleled empire in advance, and even let him escape from your empire."

"You'd better pray that he can die in shajiaotan. Otherwise, once he enters the central area, no, no, he doesn't have to go to the central area. As long as he leaves the border area, I'm afraid it will be your death time."

Chu River is a taboo name of Chu emperor, but no one dares to call it by its name.

Now, the shadow in the shadow dares.

Not only that, after hearing each other's words, the emperor of Chu was involuntarily sweating, and his face was extremely heavy.

He bowed, "master, don't worry, I will never give him such an opportunity."

"Better." The voice came out again, and then the shadow disappeared.

The face of the Chu emperor was extremely ugly.

...

in Shiyuan City, countless strong people have flocked, all of them are strong people above the seventh floor of the Empire.

These people were ordered to go to shajiaotan to kill Wang Fan.

Of course, due to the sensitive location of shajiaotan, they dare not go in openly, only dare to sneak in carefully.

After all, once Fengyun Empire realizes that there are countless experts in the unparalleled Empire entering shajiaotan, the consequences will be very serious. If one of them fails, it will cause more crazy wars. With these monks sneaking into Shajiao beach one by one, Shajiao beach suddenly became lively and turbulent.

...

Wang Fan didn't know anything about the outside world. When he woke up, he found himself lying in a dark and narrow hole.

In his body, is covered with thick straw, looks very shabby.

However, Wang Fan did not have many accidents about all this.

He remembered that after he passed out of coma, it seemed that someone had approached him, and he didn't feel malicious.

Because of this, he sent out a distress signal, and then went into a coma again.

"You, you wake up."

A slightly surprised voice came out, and then a village girl came over.

In this woman's hand, there is also a porcelain bowl with some medicine juice inside. The medicine juice not only emits high temperature, but also emits a weak fairy breath.

Wang Fan just glanced and knew that the juice was made of spirit grass, and the level of spirit grass was

very low.

Wang Fan struggled to sit up and hugged his fist. "Thank you for saving my life. I'll never forget it."

To this woman, he is really grateful. If there was no help from the other side, he might be dead or alive now.

The most important thing is that at that time, he was in such a state that the woman could kill him and then take his things away.

However, the other side did not.

It can be seen that the woman's heart is still very kind.

"No, it doesn't matter." Li Yun quickly waved his hand, and his heart was also relieved.

She was afraid that Wang Fan would be ungrateful and take revenge. Now it seems that she was worried too much. Wang fan is not like a monk with cruel means.

"My name is Wang Fan. Do you know the fairy's name?" Wang Fan asked.

"My name is Li Yun." Li Yun replied.

"Li Yun fairy, I don't know how long I've been in a coma, and where is this place?" Wang Fan asked again.

That's what he's most concerned about.

"You've been in a coma for three days. This is shajiaotan. Don't you know?" Li Yun is a little confused.

Isn't Wang Fan chased into shajiaotan? Otherwise, why don't you even know about shajiaotan?

"Sha Jiao tan?" Wang Fan frowned. He really didn't know about shajiaotan.

Li Yun see Wang Fan really don't know, quickly explained some, but she just explained, found Wang Fan Huo stood up.

Chapter 2994

Wang Fan's face was very ugly. He did not expect that he was at the junction of the unparalleled Empire and the Fengyun empire.

He's not safe in a place like this.

He was sure that the unparalleled Empire would send people into shajiaotan, even if they did not dare

to enter openly, they would sneak in quietly.

Once the master of unparalleled Empire sets up an ambush on the way to Fengyun Empire, he will be finished.

But Wang Fan soon calmed down, it has been three days, even if he is now rushing to Fengyun Empire, I'm afraid it's too late.

Three days is enough time for the unrivalled Empire to sneak into shajiaotan and set up an ambush on the way to Fengyun empire.

"What's the matter with you?" Li Yun saw Wang fan stand up, some puzzled asked.

"It's OK." Wang Fan waved his hand, a little decadent. At this moment, he really felt his weakness.

The monarch of the unparalleled empire is just a talented person's cultivation of the king's realm, but just a famous person's realm has forced him to such an extent.

"Then you should drink this medicine quickly. You are so badly injured now that you must recover as soon as possible." Li Yun handed the juice to Wang Fan and said.

When Wang Fan heard this, he could not help sighing again.

Yes, with his current injury, even if there is no master in the peerless Empire sneaking into shajiaotan, does he dare to go out?

According to Li Yun, shajiaotan is a very chaotic area, where there are some fugitive monks from the Three Kingdoms.

Li Yun is kind-hearted and can not covet the things on him, but what about the monks?

If he goes out, I'm afraid he won't have to fight with the powerful empire, and there will be no bones left.

"Thank you." Wang Fan thanks Li Yun again, and then takes the medicine juice and drinks it down. Then he says, "Li Yun fairy."

"Elder martial brother Wang Fan, don't call me fairy, just call me Liyun." Li Yun heard Wang Fan's address, and quickly waved his hand to interrupt.

She Li cloud just just holy land cultivation, where has the face to be called the fairy? She is so big, but no one has ever called her that.

Wang Fan didn't care, and said again, "younger martial Sister Li Yun, you don't want to go out during this

period of time, and you don't want to continue boiling pharmaceutical liquid for me. I still have some cultivation resources here, which are enough for us to shut up for a period of time. "

Wang Fan said, suddenly thinking of something, asked, "by the way, which country are you from? How did you come to shajiaotan? Are you also forbidden by your own country and hunted here? "

Wang fan is really curious.

At a glance, he could see that Li Yun's cultivation was only eight stories in the holy land, and he didn't even reach the imperial realm.

Can this kind of cultivation also be tolerated by our own country?

When Li Yun heard Wang Fan's words, he could not help but gasp, and then his eyes became dim.

"I'm from the Fengyun empire. As for being rejected by the Fengyun Empire, our Li family doesn't have that great ability."

"Because our Li family has offended others and been exterminated, I escaped to shajiaotan by fluke."

With that, Li Yun's eyes turned red, a look of the past.

Hearing Li Yun's words, Wang Fan couldn't help but feel relieved.

If the Liyun family was not allowed by the Fengyun Empire, they were chased to shajiaotan, then he had to think about whether to go to the Fengyun empire.

Looking at Li Yun's sad look, he sighed and asked, "is the person you Li family offend very strong? What level of cultivation is it?"

Li Yun Leng for a moment, and then shook his head, "I don't know, at the beginning I was just not in the family, just escaped a disaster, and then fled into shajiaotan."

"But my grandfather's strength is in the third floor of the Empire. Since the other party can destroy my Li family, it must be better than my grandfather."

Wang Fan nodded, "well, don't think so much, practice first. Only when we live and make ourselves strong can we get revenge. "

"If I can survive this time, I will try my best to help the Li family get back this place."

Wang Fan said, with a wave of his hand, he had already seized a large number of top grade immortal stones and elixirs.

Although there are not many of his top grade immortal stones, they have been practicing for a period of time. As for the elixir, they can't use it up in a short time.

At the beginning, in Yaowang Valley, he searched a lot of lingcao and xianlingcao, and those lingcao and xianlingcao were also refined into pills by him.

So what he needs most is pills.

Li Yun looked at the top grade immortal stone and elixir thrown out by Wang Fan. He couldn't believe his eyes.

It's too rich, isn't it?

Li Yun, let alone shajiaotan, had never seen so many top-grade immortal stones and pills even at Li's home.

"Master, elder martial brother, these are all your things. How can I use them?" Li Yun is stupefied for a moment, the mouth suppresses such a sentence. As a low-level casual practitioner, she is used to being humble. How dare she enjoy Wang Fan's rich resources? She's upset.

Wang Fan laughed, "younger martial Sister Li Yun, compared with your saving grace, this thing is nothing at all. You don't have to bear the burden in your heart."

"I'll give you ten million for the top grade immortal stone. As for the pills, you can see what you need. Just use them."

Wang Fan said, has begun to decorate the prohibition.

At first, he arranged a layer of defensive and hidden prohibitions in the cave to avoid the exposure of the breath here. Then he arranged a separate prohibition to drill in.

Li Yun looked at the scene stupidly. After a long time, he carefully took away some pills and immortal stones and went to another place to practice.

Until she sat down with her knees crossed, her heart was still beating like a deer.

This scene, it is too shocking, shock of her almost like a dream in general.

Although Wang Fan's injury is serious, it is far from threatening his foundation, let alone his life.

In just two days, with the help of countless top-grade immortal stones and various healing elixirs, his injury had been healed, and his cultivation had also recovered to the peak.

Not only that, he even felt that his cultivation was loose. It seemed that there were signs of

breakthrough at any time.

Feeling this scene, Wang Fan naturally could not stop practicing, but became more crazy.

He planned to promote his cultivation to the fourth level of the imperial realm.

Once his accomplishments break through to the fourth level of the imperial realm, he will not be so passive even in the face of the eighth level of the imperial realm.

Under the impact of time and again, three days later, Wang Fan's cultivation successfully broke through the shackles and came to the fourth floor of the imperial realm.

His eyes opened, and there was a gleam in them.

When Wang Fan got out of the forbidden system, Li Yun was still practicing. She was not only practicing, but also practicing in a terrible situation.

In just five days, Li Yun's cultivation had already stepped from the eighth level of the Bible to the Ninth level of the holy land, which surprised Wang Fan.

It seems that Li Yun's talent is also very rebellious. If he had not been chased to shajiaotan, he would have been a strong man in the main gate.

Chapter 2995

"Elder martial brother Wang Fan, you are out of the pass." Li Yun noticed that Wang Fan came out and immediately opened his eyes in surprise.

Wang Fan nodded, "younger martial sister Liyun, it seems that your qualifications are good. In this shajiaotan, you are really delayed."

"No, I'm also in the light of my elder martial brother. If there were no elder martial brother's immortal stones and pills, I couldn't be promoted so quickly."

Li Yun is grateful to say, but nevertheless, her expression is still very surprised.

She did not expect that in just seven days, she broke through the eighth floor of Holy Land and came to the ninth floor of holy land.

You know, it took her several years to go from the seventh floor to the eighth floor.

"It's all your own talent, even if you don't have my resources, if you can join the big gate, you can be promoted quickly."

"Well, we won't say that much. Now we'll get out of here."

Wang Fan did not continue with Li Yun on this topic, but changed the topic.

He doesn't intend to shut down here any more. Some things have to be faced sooner or later.

What's more, he has just been promoted. Even if he is closed again, with the current resources, he can't continue to be promoted.

"What, we're going to get out of here?" Li Yun hears Wang Fan's words, can't help exclaiming.

In her opinion, it's too dangerous to go out.

Although her cultivation has reached the Ninth level of the holy land, she is still a mole ant among the mole ants in shajiaotan.

"Yes, we want to leave here, not only to leave here, but also to go to Fengyun empire."

Wang Fan expression becomes dignified, "Li Yun, before going out, I have to say something to you."

"I offended the royal family of the unparalleled Empire, and the royal family gave me a killing order."

"If my guess is right, now the unparalleled Empire has sent experts to sneak into shajiaotan."

"So if you stay with me, it will be extremely dangerous, even a near death."

These things, Wang Fan and Li Yun must be clear. Otherwise, once Li Yun follows him, he will be in danger again, but it's not good.

"Elder martial brother Wang Fan, it doesn't matter. It's better to do it once than to live. I'm going with you. I've had enough of this life in shajiaotan. "

Li Yun said decisively without hesitation.

She is really fed up with the life of shajiaotan, hiding every day, kowtowing, as humble as a mole ant.

If she goes on like this, I'm afraid she will never be able to return to Fengyun Empire and get revenge.

Wang fan saw Li Yun's expression and nodded, "in that case, I won't say much. Let's go."

"Well." Li Yun nodded, and then they left the cave which had been closed for several days.

Shajiaotan, it's already turned upside down.

Because during this period, there were many strange friars in shajiaotan, whose origins were mysterious

but extremely powerful.

They are just like wolves and tigers, searching for something in shajiaotan crazily.

All the friars who didn't offend them were killed on the spot, without exception.

This event caused a strong sensation in Shajiao beach. All the monks who were active and outside flocked to Shajiao city and did not dare to go out any more.

As the only city in shajiaotan, shajiaocheng is not prosperous, but it has rules.

In Shajiao City, no one can kill without reason, or they will be killed.

This is the rule set by the Lord of Shajiao. No one dares to disobey it.

Therefore, shajiaocheng is also the only pure land in shajiaotan.

Of course, if you want to enter Shajiao City, it is not so simple, but you need to charge.

Only by paying Xianshi can you be qualified to enter the city, and every day you stay in Shajiao City, the price will not be low.

It is said that the leader of Shajiao city is a very powerful and mysterious existence. The unparalleled Empire and Fengyun Empire have encircled and suppressed him several times, but failed.

Over time, the two countries can only let it exist. Because they are all afraid that if they push the Shajiao city leader, they will push him to the enemy camp.

On this day, more than ten uninvited guests came to Shajiao city.

As soon as they entered Shajiao City, they were identified.

They are the mysterious friars who suddenly appear in shajiaotan and kill madly.

Seeing these ten people, many of the monks in shajiaotan are terrified. They are deeply afraid that these people will kill in shajiaotan regardless of the rules.

Fortunately, these people also seem to be afraid of the city master of Shajiao. They just find an inn to stay, and then they start to wander in the major restaurants.

These ten people are not others. They are the strong men sent by the unparalleled empire.

For example, Yang Shan, the commander stationed in Liuzhou City, and Yao Gu's father, Yao Zhan, were all in it....

Wang Fan didn't know what happened in shajiaotan. After he left the cave with Li Yun, he rushed to Fengyun empire for the first time.

As for Sha Kok City, he didn't plan to go at all.

For him, the most urgent task is to leave shajiaotan and enter Fengyun empire.

Only in this way can he be really safe.

After all, no matter how powerful the unparalleled empire is, no matter how powerful it is, it will not dare to enter the Fengyun empire. Otherwise, once exposed, it will definitely die.

I'm kidding. A large number of powerful people of the unparalleled Empire sneak into Fengyun empire. It's strange that the emperor of Fengyun Empire doesn't kill these people.

But Wang Fan didn't go long before he saw that two monks were chasing and running, and they were crazy in his direction.

But to Wang Fan's surprise, the monk who was chased had only three levels of cultivation in the imperial realm, while the monk who chased him had seven levels of cultivation in the imperial realm.

It's a bit strange to see that the friars on the seventh floor of the Empire pursue and kill the friars on the third floor of the Empire.

You know, under normal circumstances, the seventh floor of the empire can kill the third floor of the Empire, and the other party can't escape at all?

"Daoyou, help." Although the monk who was chased was scarred, his toughness was very strong. He yelled and ran towards Wang Fan crazily.

But soon his face changed.

Because he saw Wang Fan's accomplishments clearly, one was an emperor with four levels and the other was a biblical with nine levels.

This kind of cultivation is impossible to save his life.

Wang Fan didn't pay attention to this person at all, but directly pulled Li Yun to one side and made a pair of irrelevant appearance.

He has a lot of things to do now. How can he have time to meddle in other people's affairs?

What's more, the man who chased him was still a strong man of seven levels in the imperial realm. Even

if Wang Fan was not afraid, he didn't want to cause trouble.

"Help, I see who can save you." The strong man of the seventh floor of the imperial realm soon came after him, pointing to the third floor of the imperial realm and disdaining to laugh.

His heart is also very angry, just three levels of Empire, even let him chase for so long, it is a shame.

"Son of a bitch, I have nothing against you. Why do you want to kill me? Is it because I overheard your conversation? "

"As the people of the great power of the unparalleled Empire, and even the powerful Royal family of the unparalleled Empire, you have swarmed into shajiaotan. What do you want to do?"

"If you are so presumptuous, Shajiao city master and Fengyun empire will not let you go. Just wait to die."

The monk of the third floor of the imperial realm seemed to know that he had no way to live and began to roar ferociously.

Chapter 2996

"You want to die!" Hearing this, the powerful man of the seventh floor of the Empire could not help but change his face. He raised his hand and hit him.

Wang Fan calmly looked at this scene, not only did not come forward to help the emperor, but also took Li Yun back a few steps.

To tell the truth, if he wants to help, there is no problem at all.

It's a pity that the third floor of emperor Jing is too insidious. He doesn't like it very much.

Before he died, this man even said that. Obviously, he wanted to kill him and Li Yun.

Wang Fan didn't believe it. When he knew these things, the seventh floor of the emperor would let him and Li Yun go.

With a bang, the blood fog exploded, and the third floor of the Empire was directly killed by one blow, and he could not die any more.

After killing the third floor of the emperor's realm, the seventh floor of the emperor's realm looked at Wang Fan. Although they hadn't started yet, they were already covered by the murders.

Wang Fan felt this scene and frowned, "Sir, we have no injustice or hatred. This matter has nothing to do with us. There's no need to kill people, right?"

At the same time, Wang Fan's aura has been surging up, ready to move.

In the face of the seven strong men in the Empire, he did not dare to be careless without using the killing rifle.

The most important thing is that since Wang Fan knew the identity of this guy, he didn't want to let him go.

After all, these people come to shajiaotan just to kill Wang Fan. Since they are enemies, what else can we say?

When Wang Fan heard this, the seventh floor of the imperial realm, who was going to fight, couldn't help but be stunned for a while, and then laughed, "you're right. I'm going to kill people. What can you do?"

However, as soon as his words fell, Wang Fan had already moved.

Just like a dragon, he suddenly rises up. The power of the sword between heaven and earth converges wildly. In an instant, he has gathered together, just like a tsunami.

Wang Fan holds a shadow knife and cuts it across the sky.

In a flash, all the intention of the sword in the vast space went wild with Wang Fan's sword, which covered the seven layers of the emperor's territory.

The seven layers of emperor territory did not expect that a mole ant on the fourth layer of emperor territory would dare to take the lead. Even if you take the lead, you can still show such a terrible sword.

When he was in a rage, he grabbed a huge square seal with his right hand. The square seal was like a mountain in the air. He bombarded Wang Fan with fury.

The roaring sound came out. The seventh floor of the emperor's territory was shocked to find that his seal failed to block Wang Fan's terrible sword.

The two sides were only in a stalemate for a moment, and the fury of the sword had torn his seal and continued to shoot at him.

"You, are you wang fan?" The face of the powerful man of the seventh floor of the Empire changed, and finally he thought of Wang Fan's identity.

Wang Fan has become the target of everyone's fight in the unparalleled Empire, and what he can be stripped of is naturally stripped out.

Wang Fan has used the three sabres of Chayu many times, and most people are familiar with them.

"You're not too stupid. Now that you know my identity, you'll take two more knives from me."

Wang Fan sneered and opened his mouth. As he spoke, the shadow Sabre had split again, displaying the last two sabres of the three sabres in the split field.

The emperor felt Wang Fan's continuous fury on the seventh floor, and his face turned pale in an instant.

Before he met Wang Fan, he didn't pay attention to Wang Fan at all.

Even if he knew that Wang Fan had killed Tianjiao, qiongbai Jian and Zhuo Tianjian on the sixth floor of the imperial realm in Jiandi palace of Liuzhou University, he only thought they were poor Zhuo.

But now, really feeling the terrible power of Wang Fan's three swords, he found that he was wrong.

Wang Fan's strength has far exceeded his expectations, and even he is not Wang Fan's opponent at all.

Seeing that the three sabres were like waves, wave after wave of crazy swing, he recklessly burned the blood essence, condensed into defense on the body surface and began to resist.

Unfortunately, it doesn't work at all.

The roaring sound came out, and the incessant and violent waves of swords fell on him, tearing up his defense and throwing his whole body away.

There was a lot of blood mist in the air, and he fell to the ground like a dead dog. He didn't die, but he had only one breath left.

Wang Fan looked at the seven layers of the imperial realm, which was seriously injured, calmed the restless aura in his lower body, and walked towards each other step by step.

If he didn't, he would have asked some questions.

"I didn't expect that I would fall into the hands of you. It's bad luck for me to fall into your hands. Do it."

The seven story monk in the imperial realm was very brave. Even though he was in a mess, his tone was still calm.

Hearing this, Wang Fan couldn't help laughing, "do you think it's so easy to die?" "What do you mean, what do you want?" As soon as his face changed, he was about to stand up, as if he wanted to gather the last strength to fight back.

Bang!

Only, he just moved, was kicked down by Wang Fan.

The emperor fell to the ground on the seventh floor, staring at Wang fan like a wolf with scarlet eyes and undulating chest.

What a shame it is that Wang Fan, a powerful man of seven levels in the imperial realm, was trampled down by him like a common hooligan?

"You don't have to look at me like that. You asked for everything. Tell me, how many of you are here, what are your accomplishments and strength. "

Wang Fan disdained of swept the other side one eye, is a foot kick down, this just leisurely ask a way.

"You think I'll tell you?" That emperor territory seven layer strong person sneers, but his voice still does not fall, Wang Fan did not hesitate to kick a few feet again.

Not far away Li Yun looked at this scene, mouth open big, are unable to help some speechless.

Is this really a strong emperor? How does it feel like the common bastards are fighting each other?

Ten minutes later, Wang Fan finally got a satisfactory answer, and then ended the life of the seven story strong man in the imperial realm.

The unparalleled Empire actually sent 17 people, among them, there were seven emperors with eight levels and ten emperors with seven levels.

It seems that the king of this unparalleled Empire really wants Wang Fan to die at once. In order to kill him, it's a cost.

Wang Fan's eyes were cold, and he was more sure that the king of the unparalleled Empire didn't kill him because of the valley of the medicine king.

Shajiao City, a restaurant, three men wearing hats are drinking, suddenly, one of them can not help but stand up.

"Brother Yao, what happened?" When the other two saw this, one immediately asked.

"Yao Yun was killed." The man called brother Yao said with a black face.

"You investigate in Sha Jiao city first, I'll go out and have a look." With that, brother Yao added, and then his figure flashed away.

Yao Yun is a member of his medicine family, and he is also a part of his medicine war. Now he is being

killed in shajiaotan. How can he sit back and watch his medicine war?

You know, after the internal strife of the pharmacists, the seventh floor of the imperial realm has been regarded as a rare and strong one.

The other two looked at each other, but neither spoke nor followed.

For them, the top priority is to kill Wang Fan, and the rest is trivial.

What's more, shajiaotan is a place where fish and Dragons mingle. It's normal for the seven strong people in the imperial territory to be killed.

Chapter 2997

After leaving, Yao Zhan didn't hesitate, even when he ran to the place where Yao Yun was killed.

As a strong man on the eighth floor of the Empire, he had no fear even in places like shajiaotan.

He is confident that even in this area, he is the only one who can kill others. No one can kill him at all.

Even if he meets someone who can't fight, he can walk away easily.

At this time, his heart is only raging and murderous. If he doesn't take out and kill the man who killed Yao Yun, it's really hard to get rid of his hatred.

...

after killing Yao Yun, Wang Fan didn't leave immediately, but quickly arranged his array.

He believes that Yao Yun's death will certainly arouse the vigilance of the powerful of the unparalleled Empire, and someone will come to investigate.

At that time, he can give each other a surprise.

Of course, even if no one came, what he lost was only time. It was no big deal.

Wang Fan didn't think that the strong of the unparalleled Empire didn't care about Yao Yun's life or death. If it wasn't for Yao Zhan who was also a member of Yao family, no one would come.

Just half an hour later, Wang fan arranged several trapped, killing and hiding formations at Yao Yun's corpse.

Although the array he arranged was not enough to kill the eight strong men in the imperial realm directly, it was more than enough to hurt the eight strong men in the imperial realm by surprise.

If you add in his sneak attack, let alone the eighth floor of the imperial realm, even if the ninth floor of the imperial realm is strong, you will have to drink bitterness.

Li Yun has been looking at this scene, but it is clever did not speak.

During this period of contact, she has already known that Wang fan is a very independent person, and is also very decisive.

In addition, Wang Fan just killed a powerful person of seven levels in the imperial realm, which made her have more confidence in Wang Fan, so she would not interfere in what Wang Fan did.

"Sister Li Yun, let's get out of here first." Wang Fan finished the array, said to Li Yun, and then took him away.

They didn't go far, they just hid in a place not far away.

At the same time, Wang Fan has closed his eyes and carefully perceived everything around him.

Because he wants to sneak attack in the dark, so his mental power is not dare to release, otherwise it will be bad to be noticed by others.

As for why he should be so cautious and aware of the wind and grass around him, it is because he is also afraid that there will be many people coming.

Once there are more than two strong men from the eighth floor of the Empire, he must take Li Yun to escape, or he will die.

"Elder martial brother Wang Fan, are we going to wait for them to take the bait here, and you are sure that someone will come?" Li Yun hesitated for a long time, but he couldn't help asking.

Wang Fan shook his head, "I'm not sure. We'll only wait here for one hour. If no one comes, we'll leave."

"Oh." Li Yun nodded, was going to continue to say something, but Wang Fan suddenly covered her mouth, "someone is coming, you don't make a sound."

Wang Fan's expression is very dignified. While speaking, he also helps Li Yun hide his breath.

His voice just dropped not long after the drug war appeared here.

Seeing the drug battle, Wang Fan's eyes immediately narrowed.

He has seen the medicine war, and he has seen it at the pharmacy.

At the beginning, although he just glanced at yaozhan from a distance, it was enough for him to

remember the appearance of Yao Zhan.

Seeing the drug war, Wang Fan's heart suddenly burst into a nameless fire.

Yao Zhan can appear here. It's obvious that the thing he was framed has something to do with this person. At least, this person is an insider.

He really wanted to go out and ask what was going on, why he wanted to slander him, and what happened to Yao Xuan.

Fortunately, Wang Fan's reason is still there, and finally he is forced to come down.

The first time the medicine war appeared in this area, we could see the corpse of Yao Yun not far away.

Seeing Yao Yun's miserable appearance with blood all over his body and footprints all over his body, he was almost ready to crack and kill.

Who on earth is so domineering, even if you kill Yao Yun, and even so humiliating?

Yao Zhan is angry. He has already stepped out and directly comes to Yao Yun. He is angry. He doesn't notice the trapped array around Yao Yun.

"Who on earth, who on earth, dare to kill my drug family." Yao Zhan looks at Yao Yun's body at a close distance and can't help roaring angrily.

Just, his voice just fell, a plain voice then spread over, "it's me."

The medicine war hears speech, the mind trembles, the facial expression crazy changes!

Is there someone else hiding here?

However, he had no time to do anything, and a breath of extreme danger came to his mind.

At the same time, he noticed that there were several trapped killing formations around him, and these trapped killing formations began to explode. "No!" Yao Zhan's heart trembled wildly, and his aura suddenly surged wildly. His whole body flew up, and his fist went to a nearby direction.

The fury of the boxing was surging up, together with the big storm bombing, which set off a huge bang.

For a moment, this area seemed to be submerged in the explosion storm, and began to be destroyed madly.

Feeling the violent storm of destruction, Yao Zhan's face became extremely ugly.

He was torn out of countless wounds, and there are endless violent energy crazy bombardment of his body.

"The nine level array, this is the nine level trapped and killed array." In the medicine war, I never thought that there was such a powerful array in such a place as shajiaotan.

Not far away, Wang Fan's eyes stare at the medicine battle in the center of the storm, and he has already grasped the shadow knife in his hand.

He's waiting for a chance, a chance to kill.

The explosion lasted more than ten breaths before it stopped. At this time, the battle of medicine was already scarred and miserable.

On his body surface, he could see a golden aperture, but it was very dim.

Drug war is the canthus to crack, he Tangtang emperor territory eight strong, when was so insidious plot?

Even if he was struggling to retreat, he would burn the blood essence and Shou yuan, and let the person who plotted against him pay the price.

Whoosh!

However, as soon as Yao Zhan thought of it, three bright swords had already split across the sky.

The awn of the sword is dazzling, illuminating the whole void. The killing force rolled up is like a storm, continuous.

At this time, the medicine war just resisted the array storm of self explosion, and there was no spare force to resist the violent three sabres.

He could only watch the three knives cleave to his body, but he could not escape.

Boom boom!

Three successive sounds, three knives all fell on the medicine war, and the medicine war was immediately torn to pieces.

Wang Fan looked at this scene, he did not expect that the drug war would be so unbearable, directly by his three knives.

This made him feel a little depressed when he wanted to ask about the medicine war. If he had known that, he would not have cut three times, but just one.

Wang Fan lightly swept the medicine war to fall of orientation one eye, take Li cloud to flash body then left here.

Chapter 2998

If the death of Yao Yun has not yet attracted the attention of the powerful empire, the death of Yao Zhan has already attracted their attention.

For a moment, except for the two monks who were stationed on the way to Fengyun Empire, the rest of them, whether they were the unique imperial friars in Shajiao city or in Shajiao beach, rushed to the position where the medicine war fell.

You know, the medicine war is the eighth strong in the imperial realm, and it is also the current head of the medicine family. It is also one of the main forces to deal with Wang Fan this time.

He and Yao Yun all fell on Sha Jiao tan. How can these people not pay attention to them?

In just one hour, all the strong men in the 14th National Congress of the Communist Party of China had arrived at the location where the medicine war fell. Unfortunately, they did not even see the corpses of the medicine war.

...

after killing the medicine war, Wang Fan and Li Yun ran to the territory of Fengyun empire.

The reason why he fought against drugs was that he not only wanted to take a bad breath, but also meant to divert the tiger from the mountain.

As for Sha Kok City, he never planned to go there.

On a desolate ancient road, there are many monks coming and going.

Most of these friars were merchant friars, only a few were adventurers and friars.

Since this area is close to the territory of Fengyun Empire, it is forbidden to fly.

In a crowd of monks, a couple of casual monks are also walking. They are very humble in the crowd.

These two people are not others. They are Wang Fan and Li Yun who are planning to go to Fengyun empire.

Because Wang fan is not sure that his drug war can attract several unparalleled Empire strongmen, so he appears to be very vigilant.

After all, Yao Yun has said that this time, there are seven strong men in the imperial realm and ten strong men in the imperial realm.

Even if he killed the drug war, the other side still had six eight strong men in the imperial realm, which was not what he could deal with at all.

Compared with Wang Fan's vigilance, Li Yun is a little nervous and excited.

However, the reason why she was so nervous and excited was not because of those powerful empire, but because she was about to step into the stormy Empire again and return to her own country.

"Stop." Just as they were walking, a low voice suddenly came into their ears, and immediately they stopped in front of them.

After the two men appeared, they directly released an amazing atmosphere. At the same time, one of them grabbed a jade card and rowed in the air.

With his stroke, in an instant, there appeared several forbidden borders in the void. As soon as you look at them, you will know that they are powerful trapped killing array.

"Who are you and what do you want to do here?" Walking in front of a merchant friar to see this scene, immediately can not help but step forward, low cheers.

As a merchant friar, he did not know how many times he came and went on this road, but it was the first time that he was intercepted.

You know, because of the importance and particularity of these merchant friars, even those fierce monks in shajiaotan would not attack them without special circumstances.

"What do you want to do?" The strong man on the left side of the Empire cracked his mouth and laughed. Then a long knife appeared in his hand, and he chopped at the merchant friar.

The merchant friar did not expect that the other side would say that he would do it at all. Moreover, his cultivation was not as good as that of the other side, and there was almost no room for reaction. With a spray of blood, he was killed on the spot.

"You." This sudden scene made the rest of the people's faces changed greatly. While the breath in their bodies was surging wildly, they could not help retreating.

As merchants and friars, most of their accomplishments were only on the fourth and fifth floors of the imperial realm, and they were not the opponents of the two eighth floors of the imperial realm at all.

"What's the matter with us? Originally, I just wanted to collect some road money, but since you don't know what to do, don't blame us for being cruel. "

"Kill, not one."

The friar on the eighth floor of the imperial realm who started his work gave a cold smile. As he spoke, he had already killed all the people.

These two men, of course, were the strong men of the unparalleled Empire who came to shajiaotan to look for Wang Fan, but because their identities could not be exposed, they pretended to be road bandits.

As for why we want to kill these merchant friars, the purpose is to kill them by mistake.

Wang fan is very familiar with the way of changing appearance. They are afraid that Wang Fan will act as a merchant friar, but they can't recognize it, so they just don't do it twice.

"Who on earth are you?"

"How can you do that?"

"You are so cruel and cruel that you are bound to die."

All the friars scolded one after another, but the voice soon turned into a scream.

In a short period of time, seven or eight monks have been killed and killed.

When Wang fan saw this scene, he was also extremely angry.

He did not expect that these two guys would have no bottom line and would harm the innocent.

"Stop it." He didn't even think about it. He just flew up and got rid of Yi Rong. He looked at the two emperors on the eighth floor and said coldly, "I know you are coming for me. Now I can give you a chance to kill me, but you should let these people go."

"If you dare to go on, I'll turn and run away at once. I believe that by my means, once I escape back to shajiaotan, no one will be able to find me. "

Wang Fan's voice fell, and the scene fell into a dead silence.

Even the two emperors on the eighth floor looked at Wang Fan in amazement, and there was something incredible in their eyes.

Nowadays, is there such a mentally disabled monk as Wang Fan? For the sake of others, not even your own life?

However, they soon recovered and got up, which is good. Since Wang Fan appeared, it would save them more energy.

"Good, good." One of them nodded at the eighth floor of the emperor's realm, and immediately his figure flashed. He planned to fight Wang Fan.

Just, his body just moved, Wang Fan already spoke again, "don't do as I say, I'll leave immediately."

That person's body shape forcibly stops, stares at Wang Fan to sneer, "joke, if I open the ban, you cast the space fairy art to escape?"

"You can let these people go without opening the ban. I'll go now." Wang Fan responded with a sneer. But in his heart, there was a surge of anger.

The practice is cruel, and the law of the jungle. Wang Fan has been used to it for a long time, but he can't have no bottom line, can he?

Those merchants and friars are innocent. Why kill them?

Wang Fan really can't accept this scene. Of course, the most difficult thing for him is that these people are implicated by him and die because of him.

The two strong men in the eighth floor of the imperial realm became extremely ugly when they heard Wang Fan's words.

They want to take Wang Fan directly, but they are afraid that Wang Fan will go away.

You know, Wang Fan's ability to break out of the unparalleled Empire has proved his ability.

But if it's really like what Wang Fan said, open the ban, and Wang fan uses the space technique to escape?

At this moment, they are really in a bit of a dilemma.

The most important thing is that they don't believe that Wang Fan will ignore his own life and death for the sake of those merchants and friars.

Chapter 2999

"Well, we'll trust you once. If you dare to escape while we open the ban, we will kill all these ants. "

Feeling Wang Fan's attitude, the two eighth floor emperors gave the merchants and friars a cold glance. Then, while opening the ban, they quickly sent out several messages.

Obviously, they are calling 14 others.

They are not afraid of Wang Fan's strength, but they are afraid of Wang Fan's space.

Therefore, even if they have two emperors, they are still not sure to leave Wang Fan.

"I'm so sorry, everyone. You can go over." Wang Fan didn't pay any attention to the two emperors, but said to the merchants and friars.

"Thank you, thank you."

The merchant friars quickly thanks, and then fish out.

Li Yun's face was struggling. She wanted to stay, only to see Wang Fan's stern eyes. In addition, she knew that it was useless to stay, so she had to bite her teeth and leave together.

Since the merchants and friars passed through the forbidden system one by one, the eyes of the two strong men in the eighth floor of the Empire had been staring at Wang Fan, as if they were afraid that Wang Fan would use his space to move away.

What only relieved them was that Wang Fan did not even move, let alone run away.

When everyone passed the ban, they put it on again, which was a great relief.

"Wang Fan, you are killing all Tianjiao in the valley pit of medicine king. You have done many evil things. I think you'd better come with us."

"For your sake, we will plead for you. If we plead for you, maybe the emperor of Chu will look at our face and spare your life. "

After the ban, one of them looked at Wang Fan and said coldly.

"It's not impossible to go back with you, but before I go back, I want to ask a question." Wang Fan Light swept two people one eye, way.

"What's the problem?" One of them asked.

"Why did the imperial family want me, and even issued a red warrant?"

"Don't tell me it's about Yaowang valley. No one is a three-year-old. I don't believe that. "

Wang Fan said.

When they heard this, their faces could not help changing, showing a blank expression.

Although they think there is something strange about it, they really don't know why.

As soon as Wang fan saw their expressions, he knew that they didn't know either.

He didn't say a word of nonsense at all. He took out the killing pistol and shot it out.

Procrastination?

Come back with them?

Do you want Wang Fan to wait here to die?

That's out of the question.

Wang Fan was sure that if he was taken back, there would be no way out.

The killing short gun blows out, the endless gun pattern disperses in the space, rolls up the terrible killing power, and blows directly at them.

The frenzied killing force rolls up the waves one after another, just like a tsunami, extremely terrifying.

"Brute, how dare you attack?"

"You're looking for death!"

Seeing this scene, the two emperors' faces suddenly changed.

At the same time, they roared wildly, and the aura in their body had already gone wild, and madly welcomed Wang Fan's killing short gun.

The roar of the sound sounded, all over the sky set off a terrible storm.

Under the terrible storm, Wang Fan only felt an unparalleled powerful bombardment on himself, and then he flew out on the spot.

The two eight strong men in the imperial realm are not what he can deal with now, even if he takes the opportunity by surprise.

The two men are not where they are, they are also blasted back, spouting a few mouthfuls of blood.

Not only that, but also the border prohibition behind them was torn open in the destructive energy storm.

"You go back and tell the emperor that Wang Fan will come back. When I come back one day, it will be

the day when other people's heads fall. "

Wang Fan didn't fight with the two men. Almost at the moment when the prohibition was torn apart, he had left a cruel word, and the space to use the magic disappeared.

He is not a fool, of course, it is impossible to fight with two people here.

Let's not say whether he killed these two people or not. Even if he could kill them, he would lose both.

When the other fourteen return, he will surely die.

"What a sly beast!"

"I'm going to skin you."

They watched Wang Fan disappear out of thin air, his face was very ugly, but they didn't chase him.

Let's not say whether they can catch up. Even if they can, it's extremely dangerous.

This is no place like the unparalleled empire. In the future, it will be close to the border of Fengyun empire. Once the strong of Fengyun Empire recognize their breath, they will surely die. Wang Fan ran all the way along the road ahead.

His injury is not serious, just a little weak.

Originally, he was worried that the two emperors would catch up with each other, but he didn't expect that they didn't catch up at all.

Wang Fan breathed a sigh of relief and continued to move forward. When he was near the border city of Fengyun Empire, Mogang City, he finally saw Li Yun.

Li Yun didn't enter the city, but waited for him outside the city. He didn't know whether he was afraid to enter or worried about his safety.

"Brother Wang Fan, are you ok?" Li Yun saw Wang Fan and welcomed him with surprise, even with tears in his eyes. Obviously, she is really worried about Wang Fan.

"I'm fine." Wang Fan shook his head. "Let's go in."

With that, they entered the city together.

Although Mogang city was the border city of Fengyun Empire, the censorship of the people entering the city was not strict.

After all, the rest of the two countries did not dare to enter the Fengyun empire before settling the emperor. Otherwise, Fengyun empire can follow suit, and the gain is not worth the loss.

Wang Fan and Wang Fan soon entered the city of mogang, but they didn't stay much. Instead, they took the teleport directly to Li city.

Li Cheng is the city where Li Yun's family lives. If you want to avenge Li Yun, you have to go to Li Cheng.

Wang Fan has learned from Li Yun that Li Cheng is just a small city, so he doesn't think Li Yun's enemies will be strong.

Of course, even so, but for the sake of caution, two people before entering the chestnut City, or changed face for a while.

Half a month later, Wang Fan and his wife arrived at Licheng after many transmissions.

There are many monks guarding the transmission Hall of Licheng, but their accomplishments are not high, and the most powerful one is only the third floor of the imperial realm.

This kind of cultivation, naturally, is impossible to see through Wang Fan's change of appearance.

At the moment of walking out of the transmission hall, Li Yun's eyes were red.

She looked at the city where she had lived for countless years. Her heart was complex and her mood was almost out of control.

"Come on, let's find a place to live, and then we'll find out." After Li Yun's mood stabilized, Wang Fan patted her on the shoulder and said.

Li Yun nodded, then took Wang Fan into an inn, and then went to Li Cheng restaurant.

"Hey, hey, it's a grand event of the Three Kingdoms. It is said that there are countless resources in Luoxia gorge. Anyone who can enter it, as long as he does not die, will surely become a king. "

"It's really lively to open the canyon this time. It's said that countless Tianjiao have rushed to the imperial city. It's a pity that our strength is low and the number of places is too small for us. "

Chapter 3000

Wang Fan's heart couldn't help but move when the surrounding voices came into his ears.

Down the Canyon? Not to die, but to be a king?

He's in the mood. He's in the mood.

Now what he lacks most is resources, which are so adverse that he can't miss.

"Please, elder martial brothers. I want to ask, what's the matter with the opening of the valley?"

Wang Fan went to the three monks who were discussing and asked politely.

While talking, he also threw out ten thousand top grade immortal stones.

In a small place like Li Cheng, ten thousand high-quality immortal stones are enough to impress any monk.

"You don't know about the opening of the valley. Aren't you from our empire?" One of the monks was very surprised, but soon realized that it was wrong.

The opening of the valley is not only a grand event of the Fengyun Empire, but also a grand event of the Three Kingdoms. The three empires attached great importance to it.

After all, how many places the three empires can win is a matter of future development.

Even if Wang Fan was not from Fengyun Empire, but from the other two empires, shouldn't he not know about it?

Wang Fan was a little embarrassed and said, "I've just closed my door. I really don't know about it. Please give me some advice."

Hearing this, the friar put away the immortal stone sent by Wang Fan and said, "do you know the land of Luozhou?"

"I know." Wang Fan nodded quickly. No matter how ignorant he is, the land of Luozhou still knows.

The three empires were located in the border area, and Luozhou was close to the core area.

It is said that in the land of Luozhou, there are many clans, many experts, and many powerful people.

Of course, it's not so easy to go to Luozhou.

First, it is a long way to go; second, it is too dangerous and not strong enough to go to Luozhou.

"Just know." The monk was finally relieved. He was afraid that Wang Fan didn't even know the land of Luozhou, so he couldn't explain.

"This valley is said to be the secret place of Luozhou. It only opens once every 100 years."

"And every time the canyon opens, there will be an influx of innumerable Tianjiao, and the competition

is extremely fierce."

"Originally, the people of our three empires were not qualified to enter the valley."

"I only heard that someone had made great contributions in Luozhou and asked for five places for the three empires. That's what happened to my three empires."

"It is precisely because of this that Tianjiao of our three empires will be qualified to participate in the opening of the valley."

Maybe these things are not a big secret, or maybe the monk knows a lot about them, so what he said was very detailed.

"The three empires of China naturally attached great importance to this matter, so they held the Tianjiao debate."

"It is said that the Tianjiao debate is going up layer by layer, that is, it is selected from each force and then sent to a higher force."

"In the end, five people were selected from each Empire, and under the supervision of the people from Luozhou, the top five came out."

Wang Fan nodded, "in this way, if the top five were all from Fengyun Empire, wouldn't there be nothing wrong with the other two empires?"

"Of course." The friar nodded and then grinned bitterly. "It's just that it's impossible."

"No matter how strong our empire is, we can't win all the places. No matter it's the unparalleled empire or the Tuoba Empire, it's not vegetarian. "

Knowing this, Wang Fan didn't continue to ask, but changed the topic,

"this elder martial brother, what is the most powerful realm of cultivation in our Licheng? I don't know if I can get a place in the canyon

The friar heard this, immediately looked at Wang fan like an idiot, "we Li Cheng won a quota, are you dreaming?"

"Let's not say that Shi Tiantai, the strongest man in Li City, has only five levels of cultivation in the imperial realm. Let's say that he is not old enough to participate."

"There is an age limit to enter the valley. It must be within 200 years old. Do you know what this concept is?"

The friar just said this -

a sound suddenly rang out, and immediately they saw that not far away, a young man suddenly patted the table and stood up.

After standing up, the young man pointed his finger at the monk and said coldly,

"what are you, and dare to talk about my ancestors of the stone family?"

"Kneel down and apologize immediately, and then abandon your cultivation. Otherwise, don't blame me for being impolite!"

His voice was cold, his posture was arrogant, and he was extremely domineering.

Seeing this, the restaurant people kept silent.

They all recognized that the young man was a member of the stone family.

The Shi family is the first real family in Licheng.

Since the collapse of Li family a few years ago, Shi family has become the absolute overlord of Li city. When the monk saw the young man, his face suddenly changed and turned pale as paper.

With a plop, he could no longer help his fear and fell to the ground.

He secretly hated the excitement he said and forgot where it was. He was heard by the Shi family.

Not only he, but also his two companions stood up in fright with a cold sweat on their face.

One of them just spit out two words, but he has been interrupted by the young man of Shi family.

"Is that what you call Mr. Shi? What are you that dare to talk about my Shijia ancestor here? "

"All kneel down to apologize and abandon your cultivation. Otherwise, I will let you know what life is not like death!"

"Hum, I dare to talk about my Shijia ancestor with a blow. I don't know how to live or die."

The young man surnamed Shi was very domineering. He stood up and walked towards the four of Wang Fan step by step.

He was followed by a man and a woman, with a look of incomparable pride.

They looked down on the four of Wang Fan as if they were looking down on the ants.

"We talk about your Shijia ancestors behind our backs. It's wrong for us. Can't we apologize? Why should we be so aggressive?"

Wang fan can't help but say something.

He felt that the young man surnamed Shi was arrogant.

"What are you? Didn't you hear what I said? "

"I'm aggressive. What can you do?"

"Kneel down, or die!"

The young man surnamed Shi was furious when he heard Wang Fan's words. He pointed at Wang Fan, and there was a violent killing intention on his body.

When the monks around saw this scene, they were even more silent and didn't dare to say a word.

Even the shopkeeper of the restaurant hid himself like a tortoise and didn't dare to get close to him.

Are you kidding me? Master Shi, the overlord of Li City, is trying to show off his power here. How dare they get involved?

"Do you really want to be aggressive, ask us to kneel down and apologize, and abolish our self-cultivation Wang Fan's eyes also had three cold meanings, but the tone was still calm.

"Damn it, you go to hell." However, the young man surnamed Shi was a little impatient. With an angry rebuke, the sword in his hand had already danced and cut Wang Fan's head.
