Chapter 3081

"Son of a bitch, how dare you hurt us?"

"It's just a rookie. You dare to sneak attack. You want to die!"

In full view of the public, the five were turned over by Wang Fan, and their faces were ugly.

Usually only they bully others. When did anyone dare to bully them like this?

Just in an instant, they had already got up, and then madly encouraged Xianyuan to kill Wang Fan.

This time, all five people offered their weapons.

The frenzied killing force swept through the sky, drowning the positive space.

"Sneak attack?" Wang Fan smile, that is disdain smile, "deal with you these mole ants, I need to sneak attack?"

He said, the shadow knife in his hand had been cut out again.

Three sabres in Chayu.

The intention of the sword in the heaven and the earth converges wildly, forming a terrible sword force, whistling and chopping toward the five people.

A burst of roaring sound, five people's attacks were all frantically destroyed, directly overturned out.

They were splashed with endless blood mist. This time, they were more seriously injured.

"Get out of here, don't be taken for granted. You don't know anything. If you dare to rush up again, don't blame me for being merciless. "

Wang Fan disdained to look at five people, turned to look at the supervisor who flashed over.

"You are so bold! You dare to hurt people here. Do you know the consequences? "

"If you are wise, kneel down and go back with me to get the punishment. Otherwise, there will be no amnesty."

The supervisor stares at Wang Fan, word by word.

Seeing this scene, all the servants around called out that Wang Fan was going to die.

No matter how strong Wang fan is, he is just a servant. His accomplishments are no better than immortals. If he dares to be reckless here, he will die.

But Wang Fan didn't care. He looked at the supervisor with disdain, "are you out of your mind or blind? Don't you see that they came to provoke me first? "

"What's more, even Yu Cheng's housekeeper didn't dare to touch me. How dare you? I advise you to go back and think clearly, otherwise you don't know how to die. "

Wang Fan's words are not polite at all. The look in the supervisor's eyes is like looking at an idiot.

When the supervisor heard Wang Fan's words, he couldn't help choking.

Those servants around are numb again.

God, what did they hear?

Wang Fan even threatened the supervisor, but also scolded Yu Cheng is a dog housekeeper?

It's really ...

too bold!

The supervisor's face was also a little ugly. He didn't know whether to continue to work.

He subconsciously took a look at Yu Cheng. He saw that Yu Cheng's face was black and terrible, but he didn't come over.

He felt a thump in his heart and immediately knew that what Wang Fan said was right. Yu Cheng didn't dare to provoke Wang Fan.

Although he didn't know why Yu Cheng didn't dare to provoke such a servant as Wang Fan.

But he also knew that he was trapped.

If you move Wang Fan again, you'll probably have bad luck.

After all, he knows Yu Cheng's character.

Wang Fan dares to scold Yu Cheng for being the housekeeper of the dog. According to Yu Cheng's temperament, he should have come to tear up Wang Fan.

Not far away, when Yu Cheng saw the shrinking supervisor, he immediately understood that it was

impossible to move Wang Fan today.

He secretly scolded Wang Fan for being arrogant and Yu Cheng for being shameless, so he could only leave at last.

He was very angry, very angry.

Because he found that Wang Fan's accomplishments were not only promoted to the level of human immortals, but also his combat effectiveness was stronger than before. I don't know how many levels.

In this way, even if he wanted to kill Wang Fan, he was not sure, let alone the supervisor.

The mining area soon returned to calm, but everyone subconsciously stayed away from Wang Fan.

Even the supervisor was far away from Wang Fan, and even his mental strength did not dare to sweep over.

In their view, Wang fan is a lunatic, not only has the strength, but also arrogant very much, it is better not to offend.

In case of approaching Wang Fan and being misunderstood by Wang Fan as trying to snatch the black stone he dug up, the gain will not be worth the loss.

Wang Fan was very happy to see that everyone was far away from him, and the supervisor was even far away from him. He even did not dare to sweep away his power.

This is an opportunity for him.

As long as he blocks other people's sight and tries to block the monitoring array, he can freely collect the black stone.

He began to dig up the black stone seriously, and explored deeper places with his mental strength. As long as there is a large number of black stone, he will mark it.

It has to be said that this vein is much stronger than the last one.

Just a few hours later, Wang Fan just dug eleven black stone. As for the places he marked with piles of black stone, there are more than a dozen.

If it goes on like this, he only needs to stay in this mining area for a month, and then secretly collect the discovered black stone. Then he will be rich and will not worry about cultivating resources.

Wang Fan thought in his heart and soon began to take action.

He began to carefully collect the black stone he found and send it into his own space ring.

However, he did not dare to charge too much at one time. After all, once this kind of thing is discovered, it will be over.

The most important thing is that Mojiabao is too cautious. It not only arranges the supervisors and the monitoring array, but also has the spirit dog nearby.

In this case, he secretly collected black stone, the risk is great, a careless, will be found. So he had to be careful.

It took a whole day for Wang Fan to collect those piles of black stone, with more than 100000. However, he is not satisfied, is still constantly looking for, constantly receiving.

He knows his own affairs, which is too much consumption of cultivation resources.

More than 100000 black yuan stones are more than 10000 black yuan pills, which is not enough for him to improve his accomplishments.

A month's time passes quickly, this month, Wang Fan has been secretly collecting the black stone.

For such a long time, there are millions of black stone in his space ring, which is quite a lot.

Wang Fan wants to continue to collect, but there is a sense of danger.

This dangerous feeling is very abrupt, he does not know why.

Is it that he secretly collected the black stone and was found?

Mohist castle.

A room, at the moment surrounded by a lot of people, Zixia fairy, Yu Cheng and others are here.

In front of them, there is a huge monitor array.

Wang Fan's situation is displayed on the monitor screen.

Wang Fan's guess is right. They have found out that Wang Fan secretly collected heiyuanshi.

This kind of thing is too bad. It's just ignoring the rules of his Mohist castle and the dignity of his Mohist castle.

What makes them most angry is that Wang Fan secretly collected heiyuanshi, which was not discovered by the supervisor, nor by the monitoring of Dazhen, but by Linggou.

What does that mean?

This means that Wang fan is skillful and may collude with the supervisor.

It's so bold!

Chapter 3082

"Who is this man who dares to fill his own pocket and collect heiyuanshi secretly? Has he eaten the gall of a bear heart leopard?"

"What's more, does the supervisor eat dry food? Someone secretly collects heiyuanshi, but he doesn't even know it?"

At a certain moment, a middle-aged man slapped the table and asked angrily.

Yu Cheng and others are all silent and dare not say a word.

Zixia fairy stares at Wang Fan in the monitoring, his brow is frivolous, and only after a long time says, "I know him. He is a newcomer who was introduced to my Mohist Castle not long ago, from the low position."

She was also shocked, shocked Wang Fan's audacity.

It's just a new mole ant who just came from the low position. He dares to do things that many old people dare not do. It's too bold to say.

"New people?" The middle-aged man snorted coldly and looked at Yu Cheng, "Yu Cheng, is that how you discipline new people?"

"As soon as he came to our Mohist castle, he dared to enrich himself. If he stayed for a long time, wouldn't he even occupy the veins of our Mohist castle?"

Yu Cheng shivered and said, "my Lord, villain is guilty."

He directly knelt down on the ground, voice tears, "this guy relies on a bit of strength, don't pay attention to me, I discipline him, he won't listen."

"When I sent him to the mining area, I warned him not to mess around and asked some people to destroy his prestige. It's just that this man is arrogant and domineering and has injured all those people."
"

"He didn't give me any face, and he didn't dump the supervisors."

Yu Cheng can't care so much. Even if this kind of thing is very embarrassing, he has to say it and get rid of the relationship with himself.

His voice fell and the whole room fell into silence.

"What do you say, you can't provoke him?"

"How can this be possible? He is just a new man. If I expect it well, it should be emperor Xiuwei, right? You are already the strong one of the immortals. Do you think you can't provoke him? "

When the middle-aged man heard those voices, he slapped the table again and was furious, "Yu Cheng, do you think we are all idiots?"

Yu Cheng quickly kowtowed and banded, "I dare not, what I have said is true, and there is no empty word."

He said, and explained, "and he is not the cultivation of the emperor, but the cultivation of the immortal."

"As for whether he concealed his accomplishments when he came from the low position or broke through during this period, I don't know."

The old fox dug a hole for Wang Fan.

Zixia fairy was shocked, "what do you say, he is already a human immortal?"

She's incredible. She's incredible.

At the beginning, she personally led Wang Fan and his party to Mojiabao, so she was very clear about the strength of Wang Fan and his party.

The middle-aged man is concerned about another aspect: "just a little bit of cultivation, you can beat Yu Cheng, you didn't cheat me?"

Yu Cheng quickly replied, "absolutely not!"

The middle-aged man immediately ordered, "Zixia, go to the mining area immediately and bring this man to me. If you dare to resist, just abandon it. Remember not to kill him. "

"Good." Zixia fairy nodded and left quickly.

...

in the mining area, Wang Fan always feels that something is wrong, and there is a trace of danger.

He stretched out his mental energy carefully, trying to see where the danger came from and why he felt it.

Soon his face changed.

He found not far away a hidden location, there is a spirit dog.

At the moment, the spirit dog was watching him carefully, as if it were monitoring him.

Wang Fan, aware of this scene, was stunned and finally understood why he felt dangerous.

It's obviously stealing the black stone. It's found.

Aware of his exposure, Wang Fan dares to hesitate. He directly rises and steps to the spirit dog's side with a knife.

Whoa!

Blood splashed, the spirit dog did not even have time to respond, has died.

It is just a spirit dog, sensitive to the black stone spirit dog, although the IQ is not low, but the strength is not enough to see.

"Wang Fan, what are you doing?"

"You dare to kill the spirit dog at home. You are too presumptuous!"

Wang Fan's sudden action not only changed the faces of those who were mining.

Even the supervisor was furious.

You know, this kind of spirit dog is very expensive. It must be cultivated from a young age, and it is not easy to cultivate.

Now that Wang Fan has killed one head, how can he explain to the master of Mojiabao?

"Go away, if you dare to talk, I will kill you." Wang fan made a rude threat to the supervisor. He soared into the air and was about to leave far away.

"You are so presumptuous!"

"Everybody come with me and kill him!" When the supervisor heard Wang Fan's provocation, he was immediately furious. He was the first to kill Wang Fan.

At the same time, with his voice, there are eight servants flying up to kill Wang Fan.

These eight people are all his most loyal doglegs, and he is the leader.

Wang Fan's theft of heiyuanshi is revealed. He knows that the strong men of Mohist castle will come soon.

In this case, where does he have the mind to talk nonsense, what's more, where does he have the mind to keep his hand?

Seeing that the supervisor led eight strong men to kill him, he didn't hesitate. He madly urged Xianyuan in his body to chop out with a knife.

The fierce Xianyuan agitated, as if the killing power between heaven and earth had been rolled up, tearing out and blowing out in the bright sword.

The supervisor didn't expect that Wang Fan would be so crazy and directly fell into a riot.

He was directly forced to retreat, not dare to touch the edge.

But the eight servants were not so lucky. Three of them were killed on the spot, their blood splashed in the air and their bodies fell in half.

Although the other five were not dead, they were also seriously injured. They were badly injured and fell in a mess.

"Get away from me. If I want to leave here, anyone who dares to stop me will bear the consequences." Wang Fan coldly looked at the supervisor, left a threat, went away and disappeared in an instant.

The supervisor's face was so blue that he couldn't recover for a long time.

The rest of the servants looked at the scene with the same shock on their faces.

With one knife, six people were forced back and three were killed. They had never heard of such a fierce man.

This is really terrible!

Wang Fanke ignored the shock of those people.

He has already madly urged the immortal yuan in Mingshen's body to move and flash his skills in a big way and go away madly.

It's said that there are strong men in Mohist castle. It's said that there are also strong men in heaven. That's not what he can deal with.

Once those people come here, even if he put on his wings, I'm afraid he can't escape to heaven.

Let alone those people who have come here, even if they haven't come yet, they have left the mine now.

But whether he can really escape from danger is still unknown.

Less than an hour after Wang Fan's escape, a spaceship had stopped in the middle of the mine.

The cabin door opened, and the purple fairy led a group of strong men down.

Chapter 3083

As soon as Zixia fairy got off the spaceship, she saw the scene of the mess, and saw the killed spirit dog.

She felt a thump in her heart and immediately had a bad feeling.

"What about Wang Fan and others?" She looked at the supervisor and asked coldly.

The supervisor looked indignant, "he, he has run away!"

"What?" Zixia fairy's face changed, "why did he run away? Why didn't you stop? What's more, the spirit dog was also killed by him? "

"Yes The supervisor nodded angrily, "he killed the spirit dog for no reason. I asked him why, then he hurt us and ran away."

"That Wang fan is too arrogant. He not only killed people, but also killed three people with one knife."

Zixia fairy listen to this, bang, immediately completely angry.

Her face is icy cold, "is really very big courage, simply is how unreasonable! In which direction did he escape? How long have you been away? "

The supervisor did not dare to neglect and pointed directly to a direction, "he went in that direction, and escaped less than an hour."

"Chase Zixia fairy did not have half a word of nonsense, directly cold drink out a word, then flashed to chase out.

The rest, those who followed her, followed.

Even if Wang Fan steals the black stone of Mohist castle, he dares to kill the spirit dog. It's really bad.

If she doesn't punish Wang Fan, I'm afraid someone will follow suit.

She is not to be offended by the majesty of Mohist castle!

There must be no precedent.

...

Wang Fan galloped all the way and didn't dare to stop.

He escaped for two hours, then stopped at one place, and hid quickly.

Simple escape, he must not escape those Mohist strongmen.

Now he only hopes that the people coming out of Mohist castle will not be too strong. Only in this way can he have a chance of life.

Wang Fan hid half an hour later, Zixia fairy had already brought people to this location.

But she did not stay, but quickly swept past.

She had already explored the area with her mental strength and found no abnormality.

Conceited, she doesn't think that Wang Fan has the ability to hide under her nose.

However, another hour later, Zixia fairy stopped.

She felt something was wrong.

Because according to the normal situation, she is so full speed to catch up, Wang fan should have been caught up.

But now, she did not see Wang Fan.

Obviously, Wang Fan either fled to this direction or found a place to hide.

"What a sly boy!" Zixia fairy snorted coldly, turned back, and sent out several messages at the same time.

Half an hour later, she stopped again.

But this time, she didn't take the initiative to stop, but was stopped.

She was stopped by a young man with a strong smell of blood.

The young man's eyes were like wolves, releasing the light of scarlet bloodthirsty.

He looked at Zixia fairy defiantly and licked his lips with a strange smile, "Zixia fairy, good, good."

"I have long heard that there is a woman named Zixia in Mohist castle. She is matchless in beauty. When I see her today, she really deserves her reputation."

"Wise, please go back with me and be my favorite concubine. If you don't follow me, I don't mind destroying flowers."

Zixia fairy looked at the young man who stopped her, and her pupils couldn't help sobbing violently, "wolf king mountain, little wolf king?"

She never thought that the little wolf king of wolf king mountain would appear here.

You know, this area is the territory of her Mohist castle. What does little wolf king want to do when he appears here?

Is Wang Fan from Langwang mountain, or is he bought by xiaolangwang?

"Why, are you thinking about being my concubine?" The wolf king saw Zixia fairy's face and laughed again.

At the same time, he slowly approached Zixia fairy.

Zixia fairy's pupil shrank, and he came back to his mind. "Little wolf king, this is the site of our Mohist castle. What do you want to do when you break into our Mohist castle

"You dare to come here in my Mohist castle and threaten Zixia. Are you looking for death?"

She was very angry. The beast even wanted to take her as a concubine. It was just too much deceiving.

In particular, looking at the wolf king's Scarlet eyes, she felt uncomfortable all over.

"Hey, hey, it seems that you're going to be punished for not drinking. In that case, the king can only do it. "

Xiao Lang Wang, with a smile, no longer talks nonsense, directly kills Zixia.

...

Wang Fan always has a bad feeling after hiding, just like he has a pair of eyes staring at himself in the dark. He repeatedly inquired and carefully observed, but in the end he got nothing.

Wang Fanqiang exercises himself to calm down and plans to take out the black stone to practice.

It's just that feeling of being watched by others is always in my heart, which can't be dispersed for a long time, and can't let him practice at ease.

He had no choice but to give up the idea of cultivation.

However, he did not dare to go out, because he had a feeling that the Mohist strongman was about to catch up.

Compared with the unknown danger, the Mohist strongman gave him a greater crisis.

After all, he secretly collected the black stone of Mohist castle, which is a violation of taboo. Once found, he will never be spared.

Wang Fan stayed more than two hours, then went out carefully.

He carefully went forward, and half an hour later, his pupils suddenly contracted.

He saw the fight, and he saw two people.

At the moment, the two men were all bloodstained and fell to the ground, unable to move, obviously seriously injured.

Moreover, one of them, Wang Fan, even knew each other.

It's the Zixia fairy of Mohist castle.

Wang Fan didn't need to ask at all. He also knew that Zixia fairy was coming for him, but he didn't know why he met the man, so he lost both sides.

When Wang Fan approached them carefully, they also saw Wang Fan.

Little wolf king looked at Wang Fan and said, "boy, I know you just escaped from Mohist castle."

"This woman is from Mojiabao. She's here to kill you. She's our common enemy."

"If you give me a hand, and then help to restrain her, I promise that I will give you endless cultivation resources. And if you like, I can give her to you after I taste it. "

When Zixia fairy heard this, she was immediately surprised. She also looked at Wang Fan, "Wang Fan, if

you can save me and help me kill this scum, I promise that everything you do will not be investigated by Mohist castle."

"And after you go back, I will give you the status of collateral of Mohist castle, and officially enjoy the cultivation resources of Mohist castle."

"I've come after you, but that's because of my duty. Anyway, you are all led to Mohism by me. You are all from my Mohist castle. "

Wang Fan looked at these two people disdainfully and sat down directly.

"Make an offer. I'll help whoever makes a higher offer."

Chapter 3084

These two guys don't have a good thing. Wang Fan won't believe their lies.

As soon as he came, he knew where the uneasy feeling came from when he was hiding in the cave.

It's from the injured man.

It can be seen that he was discovered by this guy at that time.

There was a cold sweat on his back.

It's really dangerous. If this guy didn't meet Zixia fairy and fight, I'm afraid he would be in danger.

As for Zixia fairy, Wang Fan also has no good feelings.

Although this woman's words are pleasant to hear, he is still keen to catch the murderer in this woman's eyes.

Obviously, this woman is determined to kill him. The reason why we are soft now is just a matter of balance.

"What's the offer?"

After hearing Wang Fan's words and seeing Wang Fan sitting down carelessly, Xiao Langwang and Zixia fairy were stunned.

This guy is so bold that he dare to talk to them like this.

"Son of a bitch, are you threatening me? Do you know who I am? Believe it or not, I'll let you die in this world right away? "

The little wolf king was the first to scold.

What's his identity?

That's the little wolf king of wolf king mountain. When was he threatened by a mole ant?

Zixia fairy also frowned and yelled, "dog slave, you are so brave! Now I order you to kill wolf king quickly, and then come and help me up. "

She is also superior and invincible.

Just now, they all had a face of begging for mercy. When they saw Wang Fan's attitude, their nature was immediately exposed.

Wang Fan disdained to sweep some of these two people. He cracked his mouth and laughed. The next second, he raised his hand and hit two wind blades.

"Hiss

Two sounds, wolf king and Zixia fairy each have an arm cut down, blood immediately out.

"Beast, you dare!"

"Dog slave, you are so brave!"

They felt the pain in their arms and looked at their fallen arms. They only felt anger rush to their heads.

When, just a person fairy mole ant, also dare to be so presumptuous to them?

"It seems that you still haven't figured out the situation. In that case, I'll help you wake up again."

Wang Fan said with a sneer, it is two wind blades, toward two people cut in the past.

But this time, they were on guard.

Almost when Wang Fan's wind blade hit out, they had already forced Zhenyuan to move sideways for a distance.

Obviously, they are not as weak as they seem. They are all trying to confuse each other and have their own plans.

"Hey." Wang Fan looked at this scene, but couldn't help laughing, "aren't you all seriously injured and unable to move? It's all acting

"That's right. I escaped the wind. I want to see if you can escape next time. "

Wang Fan seems to have discovered the new world. He laughs and keeps playing the wind blade.

The sound of "whoosh, whoosh" came out. Just in an instant, dozens of wind blades came out and attacked them.

Little wolf king and Zixia fairy were so angry at this scene.

If they were at their peak, they would not care about Wang Fan.

Even if they stand there and don't hide, the wind blade can't help Wang Fan.

But now it's not the same. They've all been seriously injured. Although they can still move, their strength has disappeared.

In this way, Wang Fan's wind blade is a great threat to them.

The two men's anger expanded, and they began to escape in confusion.

Just seriously injured, no matter the reaction or speed, are far from the peak.

Before long, their bodies had been torn, and they couldn't see any more.

Little wolf king is better. After all, he is a male monk.

Zixia fairy is very embarrassed.

In a flash, she was torn apart and covered with bloodstains.

Both of them stare at Wang Fan with ferocious eyes, and the murders in their eyes are undisguised. They want to cut Wang Fan to pieces.

But Wang Fan didn't pay attention to them. When they dodged, they grabbed the space ring on their broken fingers.

He is in danger now. How can he waste time with these two guys?

If it wasn't for the space ring on them, he would not have left here.

As for killing them, Wang Fan never thought about it.

The first is that they dare not kill him. The second is that they only show their intention to kill him, but they haven't put it into action.

Of course, the most important thing is that once he comes up, he will kill two people and cause them to rebound. He may not be able to bear it."Beast, you are so insidious!"

"Dare to rob our space ring, you want to die!"

Xiao Langwang and Zixia fairy became angry when they saw that Wang Fan had taken their space ring.

Wang Fan, with a smile, soared into the air and said with disdain in mid air, "I'm insidious. I want to die?"

"Do I have you insidious? You have to be glad to meet me. If you meet someone else, I'm afraid your life will be lost. "

"Zixia fairy, I'll give you a message for your taking me to Mojiabao and giving me a space ring."

"Wolf king mountain has united with other forces to deal with your Mohist castle. Yu Cheng, the dog housekeeper of your Mohist castle, has even colluded with the little wolf king in front of you."

"If you don't want to be destroyed, I advise you to send the news back quickly and think about what to do."

"Of course, if you think that the strength of Mojiabao is strong enough, and you are not afraid of their cooperation and cooperation, you can take it as if I didn't say it."

Wang Fan's voice fell, people have gone away quickly, disappeared without a trace.

Now the master of Mojiabao is looking for him, and the little wolf king of Langwang mountain is here.

He's afraid to stay more.

Once there is a strong one from the two major forces, he is cannon fodder, and he is completely free of the existence of mermaid flesh.

When Zixia fairy heard Wang Fan's words, she couldn't help being stunned.

She no longer cares about Wang Fan, but looks at the little wolf king.

The little wolf king's expression was also extremely shocked. It was obviously unexpected that Wang Fan, such a mole ant, should have known such a secret thing, and even told him about his collusion with Yu Cheng.

"Little wolf king, how dare you show up in the sphere of influence of my Mohist castle? It turns out that there was a premeditation."

Zixia fairy knew instantly, and her face was even more gloomy.

Little wolf king is a smile, "really did not expect, a mole ant even know this secret.". I should have killed him before I knew that. "

He said, and turned to Zixia fairy, "you are right, we really have a premeditation, what can you do?"

"If I'm right, now I've killed the army of wolf king mountain to Mojiabao. If you are wise, you'd better follow me

"You dream!" Chide Zixia fairy!

Little wolf king did not care, "do not dream, you will soon know. By the way, I forgot to tell you that the strongman of wolf king mountain should come soon. At that time, you, hehe. "

Chapter 3085

Wang Fan didn't pay attention to the things of Zixia fairy and little wolf king. At this time, he had already made full use of his speed and went to the distance crazily.

Now he's hiding his cultivation resources. He just wants to find a place to shut up and improve his cultivation first.

Wang Fan fled for more than an hour. At a certain moment, he suddenly stopped.

He sensed the wave of battle ahead.

Wang Fan conceals the good breath, carefully lurks in the past.

It didn't matter. He saw his acquaintances immediately.

Yu Cheng, the dog housekeeper of the Mohist castle, was besieged by three monks.

Look at the breath of the three monks, they are all bandits.

"Snake vine, I've already said that I'm not from Mojiabao, but from wolf king. Why do you want to kill me? We are together

Yu Cheng is scarred all over. He yells angrily as he deals with the three people.

"Together? That was before! Hum, the little wolf king said that a traitor like you can sell Mohist Castle today and wolf king mountain tomorrow. "

"He told us that traitors like you will not stay and must be killed."

A fierce bandit Pooh a mouthful, disdain of say, at the same time hand is also more sharp fury.

"I don't believe it. I want to see wolf king." Yu Cheng's face was unbelievable and screamed wildly.

He didn't expect that his front foot took refuge with little wolf king and secretly brought the friars of wolf king mountain into the Mohist castle. The wolf king sent people to kill him.

"What are you, little wolf king? You are such rubbish. You can see it when you see it? You'd better go to hell. "

The Friar's face was even more disdainful. He laughed wildly and attacked with more anger.

When Yu Cheng saw that he was determined to kill him, he became crazy and his eyes were splitting!

"Son of a bitch, if you want Laozi's life, Laozi will make you pay the price!" He roared wildly, burning Shouyuan and blood essence without hesitation.

"Hiss

Two sounds, accompanied by two blood light shot.

Yu Cheng was hit by the bandit and spattered a bunch of blood on his chest.

But he was not injured in vain, but in the moment of injury, crazy attack to the other two people.

The two people did not expect that Yu Cheng would be so crazy, but also decisively burned Shouyuan and blood essence.

One of them couldn't dodge and was directly struck by a palm. The violent force poured into his body, and the whole person turned into a blood fog.

Although the other one is better, he is seriously injured by Cheng's crazy counterattack.

"Son of a bitch, how dare you kill my brother?" When the friar saw that his two brothers were injured and killed, he was furious in an instant.

He also regardless of everything crazy burning blood essence Shouyuan, toward in Cheng killed in the past.

The two soon fought together and it was hard to separate them.

However, although the monk was stronger than Yu Cheng, he was too cunning and had many means.

Without the means of pressing the bottom of the box to kill him, he fell into an absolute defeat in the war with Yu Cheng.

The reason is that he is not cunning enough to work hard. Yu Cheng, however, is totally indifferent, that is, he takes his life to fight again.

Boom!

A blast, Yu Cheng crazy bombardment on the friar, the friar body splashed out a mass of blood fog, the whole person was blown out.

However, the moment he was blasted out, he hit Yu Cheng with the same palm, which made Yu Cheng hurt more and more and spewed out a few mouthfuls of blood.

"If you want to kill me, pay the price. What's more, it's not sure whether you can kill me today! "

Yu Cheng roared fiercely, and his mouth was full of heat. He was very violent and crazy.

The monk's face was extremely ugly.

The three of them joined hands to encircle Yu Cheng. It is reasonable to say that they should be sure.

But they never thought that things would develop to this point.

This Yu Cheng is too cunning and mean.

"Death Yu Cheng didn't give the friar time to breathe. He drank again and killed him.

He knows his own things. He can't stay in this state for long. Once the blood essence and Shouyuan are seriously consumed, I'm afraid he will die here without the other party's hands.

So he had to kill the monk as soon as possible and get out of here.

The friar saw that Yu Chengsha came, and his face suddenly became ferocious.

He is more crazy burning blood essence, harden the scalp and fight with Yu Cheng.

But he was still a little slower. Yu Cheng, who was the first to strike, hit him with a fist and directly blew him out.

The sound of bone fracture came out, and the blood mist was splashing. "You are too young to kill me, Yu Cheng! If I had been so easy to kill, I would have been killed countless times in Mojiabao, and I would not have been the housekeeper of Mojiabao. "

"Don't worry. I'll kill you. You know, I'll go to wolf king. I'll let him go down to be your companion."

Yu Cheng roars madly and rushes to the past madly again.

Before long, the friar had been completely killed and had no life.

Yu Cheng fell to the ground and gasped heavily.

After more than ten breaths, he stood up and quickly put away the three person space ring.

But he is going to leave, but Wang Fan appears.

"Housekeeper Yu, long time no see. It seems that you are not doing well." Wang Fan looks at Yu Cheng with a smile. Human and animal are harmless.

This guy tried to kill him repeatedly, but he was not polite.

If you don't meet Yu Cheng, it's OK. Now that you meet Yu Cheng, it's impossible for Wang Fan to let him go.

"Wang Fan?" When Yu Cheng sees Wang Fan, his face suddenly turns ugly.

He never thought that he had just solved the three strong enemies, and that Wang Fan was such a tough opponent.

It can be said that he would rather meet those three people than Wang Fan.

Wang fan is so evil that he has already broken through to the immortal before he came to the land of swallowing clouds.

That's all right. When Wang Fan was the emperor, he could be seriously injured with a short killing gun. Now Wang Fan has broken through to the immortal. How many grades are he more than strong?

"It seems that you, the dog housekeeper, have a low opinion of people. You even know me." Wang Fan looked at Yu Cheng with disdain, "I don't want to say more nonsense. I just asked," how do you want to die? "

Yu Cheng looks ugly. He grabs out four space rings. "One of the four space rings is mine, and the other three are theirs. I'll give it all to you. Please spare my life

He wanted to fight back and kill Wang Fan.

Can think of Wang Fan's killing short gun, he did not have the slightest confidence, can only endure.

Wang Fan grabbed the space ring, but disdained to sneer, "I killed you, these four space rings are still mine, useless."

Yu Cheng's heart clapped, his fists could not help clenching, and he was ready to fight back.

At this time, Wang Fan seems to think of something, the front suddenly changed, "but look at you so pitiful, sparing your life is not bad."

Chapter 3086

Yu Cheng is very glad to hear that he can't fight against Wang Fan. Naturally, he doesn't want to fight against Wang Fan.

Wang fan is too evil. He really doesn't want to fight with Wang Fan until he has to.

"What do you want me to do and what are the conditions?" Yu Cheng is not a fool either. Naturally he knows that Wang Fan will not let him go for no reason. He asks.

Wang Fan waved his hand, "don't be a villain. I don't have any requirements or conditions."

He is very kind smile, "but I can give you a message, over there thousands of miles away, I just met the wolf king and Zixia fairy."

"Both of them were seriously injured in the war. They couldn't even get up."

Wang Fan said, but also took out two people space ring, let Yu Cheng believe, this just said, "I just heard you say, you want to find wolf king revenge, so I think this is a good opportunity."

"Of course, it's up to you whether you can get revenge or not."

Wang Fan finished, no longer half a minute to stay, then left here.

He just points to the end. As for whether Yu Cheng wants to kill wolf king or not, it's not his concern.

As for Rao Yucheng's life, he thinks that Yucheng has little value, and even if Yucheng can survive from him, he will never survive from the strongmen of Mohist castle and Langwang mountain.

He betrayed Mojiabao, and wolf king wanted to kill him again. With his serious injury, it was really hard for him to survive.

Looking at the background of Wang Fan's departure, Yu Cheng can't help narrowing his eyes.

He just slightly hesitated for a moment, then ran towards the direction of wolf king and Zixia fairy.

Wang fan knows his situation, and he himself knows it.

For him, only by taking the wolf king and Zixia fairy can he have a chance of life.

As for avoidance?

He doesn't have the ability of Wang Fan.

What's more, Yu Cheng is very famous in this area and has offended many people. Where can he escape?

Unlike Wang Fan, when he first came here, he didn't know many people except the servants of Mohist castle.

After running thousands of miles, Wang Fan hid himself and began to shut up.

He didn't care whether the wolf king and Zixia fairy were alive or dead, or whether the Mohist castle was really destroyed.

Now he just wants to improve his cultivation.

Only when he is strong, can he have the capital to deal with everything. Otherwise, he will always be a mole ant and be slaughtered by others.

Wang fan not only got a lot of black stone in the Mojiapu mining area, but also robbed the space rings of Xiao Langwang, Zixia fairy, Yu Cheng and the three bandits who chased Yu Cheng.

It can be said that he has a lot of cultivation resources now, and what he lacks is cultivation time.

It took him three days to set up the boundary prohibition and open all the rings in the space.

On the fourth day, he captured all the cultivation resources and arranged the spirit gathering array.

Wang Fan closed his eyes and began his crazy practice of absorbing immortal aura.

In just one month, his cultivation had already broken through the first level of human immortality and reached the second level of human immortality.

Three months later, his cultivation broke through the second level of human immortals and came to the third level of human immortals.

Eight months later, his cultivation broke through the third level of human immortals and came to the fourth level of human immortals.

Wang Fan opened his eyes.

It's not that he doesn't want to practice, it's that his cultivation resources have been squandered, and he really doesn't have half of them to continue to practice.

If someone else, with so many resources and eight months' cultivation to the fourth level of human immortality, would be very dissatisfied. But Wang fan is quite satisfied.

He has long been used to the terrible things that he consumes cultivation resources, and has enough endurance.

Moreover, when his cultivation broke through to the fourth level of human immortals, his combat effectiveness had a qualitative change again.

The first level of human immortality is just the beginning of human immortality, and the fourth level of human immortality is the middle of human immortality.

Now he is absolutely sure that he can easily kill Yu Cheng, the dog housekeeper of Mojiabao, without using the killing shotgun.

Not to mention Yu Cheng, even Zixia fairy and xiaolangwang, who were strong in the middle of the earth immortal period, had the power of the first World War.

At least, it is impossible for wolf king and Zixia to chase him again.

"More than eight months later, I don't know if the Mohist castle has been destroyed, and whether the Zixia fairy and the wolf king are still alive."

Wang Fan whispered, his eyes twinkled with a touch of pure light, and then left the closed place.

He has to continue to look for cultivation resources, and he doesn't want to take them in this area. He wants to go to a more central place.

Swallow cloud mainland, divided into nine states, each state is vast.

He lived in one of the three worst low-grade states in Kyushu, and the area where Mojiabao was located was the corner of the poor state. How can such a place satisfy Wang Fan?

If he wants to become stronger and improve his cultivation as soon as possible, he must leave this area. Even leave the poor state, go to the intermediate state and even the high state.

When Wang Fan left the seclusion, he didn't know that the Mohist castle had been blown up.

In the past eight months, Langwang mountain, together with Wujiabao and a group of bandits, launched a crazy attack on Mojiabao.

The three forces joined hands. No matter how strong the Mohist fort was, it was defeated and retreated. Some of them could not resist.

If this area had not been the site of Mohist castle, which had been operated for many years and laid out many traps, I am afraid it would have been completely destroyed and reduced to the pastry of those forces.

Despite this, it is still difficult to make a firm move, and even the mining area has lost many, retreating to the base camp.

They can only rely on the support of the fortress protection formation to fight for the time of survival.

As for the Zixia fairy of Mohist castle, the little wolf king of Langwang mountain, and the rebellious housekeeper Yu Cheng of Mohist castle, they are all mysteriously missing.

No one knows where they have gone, and no one knows whether they are alive or dead.

In a word, all three of them have disappeared completely.

...

Wang Fan didn't know about Mojiabao. After leaving the closed area, he ran cautiously towards the Mojiabao mining area.

He wanted to see if he could make some more black stone. By the way, the supervisor there asked for a map of the nearest city.

After all, without a map, he could not get out of this area and reach the friar city.

Once you go in the wrong direction and enter a place where some top monsters or great powers live, it's over.

Wang Fan was very careful when he rushed to the mining area.

He was also afraid that he would be found by the strong men of Mohist castle. Once he was found, it would be a dead end.

Half a day later, Wang Fan finally approached the vein.

To his surprise, the vein had turned into a ruin.

There are only a few friars who are digging in the vein, obviously by chance, to see if they can find the black stone.

Wang Fan opened his mouth wide. In only eight months, this mining area has become like this?

He was almost certain that something had happened at Fort Mohamed.

Chapter 3087

"Who are you? Why haven't I met you?"

"Where are you from?"

Those friars who are mining, after seeing Wang Fan, immediately two people flew over and asked coldly.

Wang Fan glanced at the two monks. One man had six levels of cultivation and the other had seven levels of cultivation. Others who have not come here are all between the fifth and sixth levels of human immortals.

He breathed a sigh of relief and said, "I'm from Wujiabao, but I'm separated from them. I'm planning to go to Mojiabao."

Although these friars don't seem to have high accomplishments, their cold breath indicates that they are all bandits.

In fact, these people are all bandits, but they are low ranking bandits.

After this vein was robbed, the big head was taken away by the Wujiabao of Langwang mountain and the influential people in the bandits.

And they can only pick up some leftovers after others.

"Are you from Wujiabao?" That celebrity fairy seven layer full face doubts, looking at Wang Fan, seem to be very suspicious.

"Yes." Wang Fan nodded, very serious.

He knew that something had happened in the Mohist castle, so naturally he could not say that he was a servant of the Mohist castle.

While talking, his mental power has been crazy covering this mining area, and he wants to see if there are any black stone that has not been dug away.

"Old four, you go over there and ask Wu San to come and see if he knows this man." That celebrity immortal seven layers still didn't believe Wang Fan, but pointed to a monk not far away to say a word.

"Good." The friar nodded and left immediately.

Wang Fan couldn't help frowning.

Nima, are there people from Wujiabao here?

He didn't want to fight with these people. He was just about to leave. But at this moment, he suddenly came to a place 20 meters below the ground, where a large piece of black stone had not been excavated.

Wang Fan was excited. Instead of paying attention to the two monks in front of him, he ran in that direction with a flash of his body.

"What do you want to do?"

"Damn, dare to fight for resources with Laozi, and seek death!"

The two friars were at first in a row, then in a rage.

They roared and rushed to Wang Fan.

One man grabs a seal in his hand, and the seal is worshipped. It is full of terror and attacks Wang Fan directly.

In one hand, he took out a huge hammer, which rolled up the light yellow light, and also went crazy to Wang Fan.

Just a newcomer, even a person who has not confirmed his identity, dares to snatch resources from them. He is looking for death.

What's more, they can all realize that Wang Fan's strength is only four levels of human immortals, which is not enough to worry about.

Wang Fan feels the attack of the two, frowns, grabs his right hand, and the shadow knife instantly appears in his hand.

Then he didn't turn his head back, so he split out towards the two people behind him.

The fierce Xianyuan burst, and the bright swords burst out, illuminating the sky, just like a rainbow, rolling up the fierce killing power and splitting towards them.

Boom boom!

A series of terrible explosions, the Dharma seal and the huge storm, fell apart in an instant.

However, the remaining power of Dao mang continued to chop at them.

Whoa, whoa, whoa!

Several sounds, a series of blood splashed out, and the two monks had been thrown out and stained with blood.

Looking at this scene, not only the two people were stunned, but also the friars around them.

The scene was dead.

It's just four stories of a celebrity immortal. In the case of passive counterattack, a knife seriously injured six stories of a celebrity immortal and seven stories of a celebrity immortal. What strength is this?

"I'm going to collect something there. You'd better be honest. Otherwise, the next knife won't be as simple as seriously injuring you."

Wang Fan said coldly. Without looking at the two, he ran to the place where there was a black stone and cut it off with a knife.

Boom!

The ground cracked and the soil flew.

Inside, the black stone suddenly appeared in front of everyone.

It was so dark that it was no less than 100000.

Everyone's breathing became short, and even their eyes were red.

Ten thousand black stone, maybe it's nothing to those big people, but for them, it's a huge sum of money.

Wang Fan didn't pay attention to those hot and greedy eyes at all. In his right hand, the nearly 100000 black stone had been taken up by him and put into the space ring.

Wang Fan continued to search and investigate.

However, no black stone has been found.

As for the scattered pieces, he saw some, but he didn't bother to dig them.

"Master, are you looking for me?" At this time, a small friar has been brought to the injured man in front of the seventh floor. The celebrity fairy seven layers nodded and looked at Wang Fan with ferocious

eyes, "Wu San, do you know him? He said, "you are the friar of Mojiabao."

Wu San looked at Wang Fan, a little at a loss, "I haven't seen him!"

The celebrity fairy seven layer heard this, immediately became angry, "brothers, together, kill this guy."

With that, he had already killed Wang Fan.

At the same time, the rest of the monks also rose up one after another to surround Wang Fan.

"To die!" Wang Fan gave a cold smile. He didn't want to talk nonsense at all. He danced his shadow knife with his right hand, and it was three knives directly.

A knife awn tearing air, and those around the blast from the storm hit together, issued a roaring sound.

Countless monks retreated by the terrible storm. As for the injured man, the seventh floor of immortal was the first to be killed and fell on the spot.

Wang Fan's body soared into the air, and once again he chopped forward.

The intention of the sword in the heaven and the earth is madly condensed. Just a few sucks, it has condensed into a terrible sword, rolling up the terrible power to kill the monks.

The three monks were killed and fell from the sky.

The other four friars were split out, stained with blood and seriously injured in an instant.

Wang Fan didn't continue to kill wantonly, but rushed out from the torn gap and went away quickly.

He had seen that someone had seized the communication bead and sent out a message, so he did not dare to stay here more.

After running for thousands of miles, Wang Fan quickly changed his appearance, changed his direction, and directly turned to the Mohist castle.

If he wants to get the map of this area, if he wants to go to the nearest city from this area, he must go to Mojiabao.

Only Mojiabao has such a map. As for those mole ants he met before, he believes that those people are not likely to have maps.

Not long after Wang Fan left the mine, several figures came.

These people are Wujiabao, wolf king mountain, and the strong among the bandits.

Looking at the situation in front of them, they couldn't help asking, "what's the matter? Who dares to do it here?"

Someone replied, "we don't know. Just now, a monk from the fourth floor of the immortal came here. He robbed the mine and killed people recklessly."

"By the way, he said he was from Wujiabao, but Wu San of Wujiabao said he had never seen him."

Listening to this, the strong men of Mohist Castle couldn't help narrowing their eyes, "the remaining evils of Mohist castle?"

Chapter 3088

"The remaining evils of Mohist castle?" The rest of the monks were shocked, and then they became relieved.

It is also true that the great cause of the Mohist family is great. Some monks did not go back, but hid outside, which is not impossible.

Since Wang Fan dares to rob heiyuanshi here and kill their people, it is most likely the remaining evil of Mohist castle.

However, these strong people didn't care too much. They didn't pay much attention to just one immortal monk.

Of course, this tone is inevitable.

"Where did the man go and where did he escape?" A strong man asked coldly.

"He's going that way." Someone pointed to the direction Wang Fan left.

Those strong people did not hesitate, they soared up one after another and directly caught up with them.

Mohist castle.

At the moment, countless monks gathered at the entrance, looking very sad and indignant.

"Despicable, you are so despicable that you should unite to destroy our Mohist castle? I don't understand. What on earth did my Mohist Castle offend you? "

A strong man looked sad and indignant, shouting to the monks of the three forces outside.

"Offend? Don't you think it's funny? If we swallow up the mainland, the law of the jungle will prevail.

What's so strange about your Mohist Castle being destroyed? "

A strong man in Wujiabao replied with disdain, "I advise you to open the fort protection array and let us go in. In this case, maybe we will be soft hearted and spare you a dog's life. "

"Otherwise, if we break your shitty fortress protection array, you will be killed."

While he was talking, he waved his hand, "boom for me, break the battle for me!"

Boom boom!

In a flash, a series of loud noises came out, and the attack of countless monks fell on the fort protection array again.

The big array was shaken by the bombardment, as if it was about to crack at any time, but it didn't crack all the time. It always seemed that there was a little bit of fire.

"Too much deceiving, too much deceiving! Even if our Mohist castle is destroyed, we will not open the fortress protection array to let you in. "

"Son of a bitch, if you didn't bribe Yu Cheng, how could we be so passive, asshole!"

The Mohist strongman yelled.

If it wasn't for Yu Cheng, the dog housekeeper colluded with the three forces and secretly sent people in to assassinate many of their masters. Now he is not so passive.

But now it's too late to say anything. Although the three strong men who have been infiltrated have been killed by the Mohist castle, the Mohist castle's vitality is also greatly damaged.

Now, if the Da'an is blown away, they will not be enough to wreak havoc on each other.

"Ha ha, that's because you didn't use the right people in Mohist castle. You're blind. It's none of our business?" The strong of Wujiabao disdain to sneer.

"Give me a bang, give me a hard bang, I'd like to see how long his bullshit array can last."

The man was very angry at the same time.

They have been bombarding this big array for several months, but they haven't broken it, which makes him a little uncomfortable.

It's not easy for them to fight until now, and they have the advantage. If they are just stopped by a big battle and retreat, it's too humiliating.

With his orders, countless magic weapon attacks fell madly on the array.

The roaring sound came out, and the big array trembled wildly again.

The eyes of the strong men in the Mohist Castle jumped, and the leader roared, "all are ready to fight. As soon as the battle is broken, we will kill them."

"Even if we die, even if the Mohist castle is destroyed, we will kill more of them."

"Killing one is enough, killing two is earning. If you want to destroy my Mohist castle, you have to pay a heavy price. "

Only he knows that this battle will not last long.

After all, no matter how big the array is, it can't stand the continuous bombardment of so many strong men for several months.

What's more, the big battle of his Mohist castle is not so powerful.

"Yes The friars of Mohist Castle agreed one after another, but the servants' faces were very ugly.

They all know that once the big formation is destroyed, they will die, and they are cannon fodder.

There are also some people with hope in their eyes. They are fed up with this kind of servant and enslaved life. They are thinking about whether they can take this opportunity to escape.

Of course, the chances are slim and almost impossible.

With the crazy bombardment of countless friars, in a burst of boom, the big array also shook more violently.

At a certain moment, with a "click", the array was finally completely broken.

"Ha ha, it's broken at last!"

"This big bullshit array has been smashed at last!"

"Kill, everyone, join me in!"

"The Mohist castle will be destroyed today!"As soon as the battle broke, Wujiabao, langwangshan, and the bandits, the three powerful forces all screamed excitedly.

They roared and rushed in madly.

"Kill, kill these dogs!"

"If you want to destroy me, let them pay the price."

Mohist strongmen are also crazy roar, all over the Xianyuan rampage, killed those who attack the strongmen.

Only those servants are constantly retreating.

They are not able to compete in such a level of war.

The strongest of the two sides in battle have the lowest accomplishments.

Some of them are immortals. They are not as good as ants. They rush up to seek death.

Sword light, sword shadow, magic weapons crisscross, the air is torn out of a chain of fury.

Just in an instant, the war between the two sides has become white hot.

This area is completely submerged in the violent killing.

From time to time, people would fall from the air and die on the spot.

The residual value of the broken arm soon covered the ground, and the scene seemed to be a hell.

It's a terrible fight.

On weekdays, those powerful people who are superior to the earth immortals are no different from ordinary people at this moment.

Their lives are just like weeds. In a short time, they have fallen a lot.

When Wang Fan arrived at Mojiabao, the two sides were in a crazy war, and the battle was still fierce.

Wang Fan was a little speechless. He never thought that when he came to Mojiabao, he met such a thing.

He stopped in the distance and quickly began to hide.

Even he can't participate in a war of this level.

If he dares to step in, he will be killed in an instant.

When Wang Fan was hiding, he was also thinking about his escape strategy. He didn't want to stay here any more.

But he didn't dare to go.

Once someone finds out that he is far away from here, he will surely be treated as a remnant of Mohist castle.

"Bang!"

"Hiss!"

Two loud noises, a monk fell not far from Wang Fan's side.

He complained to himself that no matter how good his hiding ability was, people would fall in front of him and he would never find out.

Wang Fan didn't wait for the friar to speak, so he rushed up.

Chapter 3089

"Master, are you ok? Come here. I have healing pills here." Wang Fan picked up the Friar and went to the side, while he lost several healing pills.

At the beginning, the friar was startled by Wang Fan, who jumped out of the room suddenly. After hearing Wang Fan's voice and seeing the healing pill Wang Fan sent, his eyes softened a little.

As a strong man in the eight levels of the earth immortal, he can naturally distinguish that Wang Fan really gave him a healing pill.

Although the grade of pills is a little lower, the quality is good.

"Keke, why are you hiding here and not going to fight? And why is your cultivation so low?" The friar asked as he coughed after swallowing the medicine.

Wang Fan quickly replied, "master, I just dug the black stone in the mining area over there. I just don't worry about this, so I'll come and have a look."

He also showed a embarrassed expression, "I see that you are all fighting, and I can't get involved in this kind of war, so I can only hide here to see if I have a chance to help."

Wang Fan became excited, "I really didn't think of it. I really helped."

He knew that this friar, who had been fighting just now, was at the forefront of the battle. He was obviously a more influential figure among the three forces.

The reason why he said that was that he didn't want to be treated as a Mohist.

He doesn't want to be slapped to death.

When the friar heard what Wang Fan said, he didn't understand what Wang Fan meant.

This guy obviously wants to pick up a bargain, but also afraid of death, dare not rush up.

He raised his face, pretending to be unhappy, "you can't do it. How can you become a great weapon and a real strong man if you are greedy for life and afraid of death?"

"But you really can't take part in the battle over there. Well, take me out of here and take care of me for the time being."

This battlefield is too fierce. He is seriously injured now. If he stays here all the time, he is worried that the strong men of Mohist fort will attack him.

In that case, he would still be in danger.

Wang Fan heard this, heart a joy, quickly excited nod, "good, good."

Then he left with the friar.

Wang fan is worried that he can't get away from the battlefield. If he has this opportunity, how can he miss it.

As for the map, he believed that this guy must have it. Even if he didn't have it, he didn't dare to stay here.

When the three powerful forces saw Wang Fan leaving with the monk and heard Wang Fan's words, they ignored them.

In fact, Wang Fan had been discovered for a long time, but Wang Fan's cultivation was too low to pose a threat to them. In addition, they were fighting against the strong men of Mohist castle, so they ignored him.

Now it seems that Wang Fan's explanation can be said in the past, so naturally they will not pay attention to Wang Fan.

The most urgent thing is to destroy the Mohist castle.

The injured monk who was taken away by Wang Fan did not regard Wang Fan as a threat.

It's just four levels of immortality for a person. Even if there are any means, it's not enough to see in front of him.

Although he is seriously injured, there is no pressure to kill a man.

"Master, where are we going? Do you want to leave this area?" After leaving the battlefield, Wang Fan asked the monk.

In fact, he was thinking about how to kill each other.

Although this guy's face is relaxed, in fact, he is on guard.

If he shows any chance of killing, he will be noticed by the other party.

"Five thousand miles or so to the other side, we'll go to Wujiabao if there's my Wujiabao station." Said the friar.

Then he looked at Wang Fan and asked, "by the way, who are you from?"

"I'm from Langwang mountain." Wang Fan did not change his face. "Originally, I followed the wolf king, but he left me behind when he went after the Zixia fairy. I had to dig the black stone."

The friar nodded, naturally without doubt.

After all, there are so many friars in the three forces, and there are so many friars in the bottom. As a strong man in the later period of the earth immortal, it is impossible for him to know everyone.

What's more, Wang Fan really gave him healing pills, so free and easy to save him.

If Wang Fan was from Mohist castle, he would have been eager to kill him?

Wang Fan and the monk rushed to a place five thousand miles away. He also scolded himself in his heart.

Although this guy has no doubt about himself, his vigilance is still very high.

If he had known this, he would have given poison instead of healing pill.

But Wang Fan also knew that if he dared to take out the poison at that time, he would be torn by other strong men at the first time.

"Well, if you like, don't go back to Langwang mountain. Follow me. We Wujiabao need smart people like you. "

Seeing Wang Fan's cleverness, the friar couldn't help saying something.

Wang fan is shaking his head, awe inspiring, "how can I do that? I'm from wolf king mountain. The little wolf king is very kind to me. I can't betray wolf king mountain."The friar was slightly surprised, then nodded.

It's rare for a monk to be so affectionate.

He was about to speak when he suddenly --

"pounce!"

There was a noise and a knife went into his abdomen.

His violent power burst out, and his face turned pale.

"You The strong man of the earth immortal responded very quickly. He gave a shout and clapped his hand immediately.

Rao Shi Wang Fan quickly cut out a knife, but he was still hit by his palm.

With a bang, Wang Fan spewed out a mouthful of blood and flew backwards.

The strong man of the earth immortal fell to the ground and his eyes were splitting. "Why did you attack me? You're not from Langwang mountain. Are you a remnant of Mohist castle? "

He was very angry. He just trusted Wang Fan and relaxed his vigilance. Who knew that Wang Fan gave him a knife when he changed his hand?

If he hadn't reacted so quickly, he would have been killed by now.

Just a celebrity fairy mole ant, even dare to attack him, which makes him very angry!

Wang Fan took a deep breath, put away the shadow knife, took out the killing short gun, and said with a smile, "no, you're wrong."

"The wolf king asked me to do this. He said that the people in Wujiabao are too greedy. If you have a chance to kill you, don't keep your hands."

Wang Fan's tone was firm, and what he said seemed to be true.

He doesn't care whether the man believes it or not, but just splash dirty water.

Whether it is the three forces or the Mohist castle, it has little to do with Wang Fan.

He doesn't care who dies or who lives.

"You The strong man of the earth immortal almost burst out with a mouthful of old blood.

He looked at Wang Fan ferociously, "mole ants, dare to attack me, you go to die."

"You are the one who died!" Wang Fan, with a smile, before the powerful move of the earth immortal broke out, the killing short guns in his hands had already torn out dazzling red spears and blasted out madly.

The killing power between heaven and earth swept wildly. Under the tearing of the spear, it shrouded the strong man.

At this moment, the whole sky is covered with red spears.

"Immortal King level magic weapon?" The strong man felt the scene and his face suddenly changed!

Chapter 3090

He didn't expect that Wang Fan, a mere immortal, could even possess the Immortal King level magic weapon.

You know, the magic weapon of the Immortal King level, not to mention the strong one of the earthly immortals, even the whole Wujiabao doesn't have it.

In this Dixian strong thinking, the sky of red spear has bombarded him.

His body was torn out of a bloodstain, even the body armor, were blasted full of holes.

To Wang Fan's surprise, this guy didn't die. At best, his injury was more serious.

"Hey, not dead?" Wang Fan looked at the strong man in surprise and couldn't help laughing, "are you Xiaoqiang, cockroach? If you don't die with one shot, you can take another shot. "

At the same time as Wang Fan spoke, the killing rifle had been lifted up again.

"Son of a bitch, I'm from Wujiabao. Have you ever thought about the consequences of killing me? Wujiabao is bound to destroy you. "

The corner of the mouth of the strong man of the earth immortal drew, and he couldn't help roaring angrily.

Wang Fan disdains, "Wu family castle what thing, very formidable?"

With that, the killing rifle in his hand had been split out again.

Whoa!

Another blood light flashed by, and the whole arm of the strong man was cut off, which was extremely miserable.

"You He's mad, he's roaring.

This man is too presumptuous!

He's a strong Dixian!

"What are you doing? Not convinced? " Wang Fan grinned again and shot again.

"Hiss!"

Another arm of the earth immortal was cut off.

He's holding back, he's sad and angry!

When was he so teased by a man?

If he had known that, he might as well have stayed in the battle of Mojiabao. In that case, he would not have been so embarrassed.

The most important thing is that there is no space around him, and there is no one to smoke. It's just that the sky is not right and the earth is not working.

Seeing that Wang Fan raised his killing short gun again, he could not help shivering and quickly said, "don't start any more. I beg for mercy. Can't I be soft? Let's talk about your conditions. How can you let me go? "

Wang Fan disdains to sneer, "let you go? Are you dreaming? "

He said abruptly, "I'm going to the nearest Xiuzhen city. Do you have a map?"

"Yes, it's in my ring." The friar nodded and said he was going to take his broken arm.

I can't help it. The ring is on the broken finger.

"Whoosh!"

However, Wang Fan didn't wait for him to get the broken arm at all, and he had already grabbed the

ring.

"It's mine. You can't move it! Just now I gave you more than ten healing pills. This ring can be used as a reward. "

"Hiss!"

The strong man of the earth immortal couldn't help it any more and spewed out a mouthful of blood.

Nima, is there such a shameless person? What's more, who is rare in that kind of rubbish pill?

Wang Fan didn't pay attention to the grievance of the strong man. After putting away the space ring, he said, "now you can give me the map."

"By the way, I'm short of Cultivation Resources recently. Give me some of the high-level spirit grass of heiyuan stone and heiyuan pill."

"I don't mind sparing you a dog's life as long as you give me something that satisfies me."

"Don't go too far!" Dixian strongman is really crazy, how did he meet this bastard?

But as soon as his words fell, he saw a red spear rolled over.

Then, with a hiss, he lost one leg.

Does that make sense?

If it wasn't for the heavy injury, he really wanted to fight with Wang Fan and kill the son of a bitch at all costs.

"Too much? I just went too far. What can you do? Don't you know what it means to be a king and defeat the enemy? "

"Now I'm the winner, and I'm the grandfather."

Wang fan is very arrogant, is not beat, "you also don't talk nonsense, immediately take out let me satisfied with things, otherwise the next shot will kill your dog."

"All my things are in that ring. You've taken all my rings." That earth immortal strong person hold back to bend of say.

Wang Fan looked at the ring in his hand, "this ring is mine. What does it have to do with you?"

His eyes couldn't help squinting. "So you can't take out anything?"

"I --" the strong man of the earth immortal was about to say that Wang Fan had already shot him and wanted to kill him.

He can see that this guy has no value.

After killing the strong one, Wang Fan burned it into fly ash with a fire, and then left here quickly.

An hour later, he became excited. The earth immortal is really rich. There are at least tens of millions of heiyuan stones on his body, and even heiyuan Dan has more than two million.

To be honest, he has never seen so many resources.

In addition, there are mountains of fairy grass in this guy's ring, as well as some magic weapons.

The fairy grass is gone. Wang Fan plans to stay and use it by himself.

These fairy grasses just meet his needs at this stage, and he can use them to improve his level of Dan Dao.

As for those people, he can't use them, but he can sell them.

Should also be able to sell a lot of black yuan Dan.

Wang Fan probably ordered his booty, and then seized a jade slip.

This jade slip is the map of this area. Wang Fan has a look. The nearest friar city is called Diyang city.

Although it is not the center of this area, it is also a prosperous place.

At least a few big forces in this area, such as Mojiabao, Wujiabao, langwangshan and so on, will go to Dixian city to trade and become heiyuandan after they have enough heiyuanshi.

In addition, some monsters, magic materials, weapons and so on, they also went to Diyang city to trade.

But Diyang city is a little too far away from here. According to Wang Fan's estimation, even if he keeps on going, it will take at least three months to get there.

It's still a smooth road. If we take the dangers along the way into consideration, he will not be able to pass without seven or eight months or even a year.

Wang Fan was a little depressed. Should he rush to Diyang city immediately or find a place to practice in seclusion first.

Go to Diyang city first. It seems that his cultivation is dangerous.

But if he finds a place to practice in seclusion, to be honest, he really doesn't want to practice in seclusion any more.

The most important thing is that he betrayed the Mojiabao and killed the Wujiabao strongmen. Even if he hid and practiced in this area, it would not be safe.

Weigh again and again, Wang Fan plans to leave this area first.

After leaving this area, he can find a place to shut up, wait for his cultivation to improve, and then rush to Diyang city.

Thought of here, Wang Fan did not half hesitate, flash quickly disappeared here.

He didn't know that Wujiang, the owner of Wujia castle, had already known about it the first time that the strong man was killed.

"Who killed my brother!" Wujiang came out of the seclusion, and his killing intention was enormous.
