

## **Mighty Sk 3351**

### **Chapter 3351**

With the response of all the powerful forces, in an instant, countless powerful people turned to the northern Shenjian sect.

There are also countless strong people who quickly issued orders to return to zongmen and began to impose martial law on the surrounding areas of intermediate states.

After all, they are not sure whether Wang Fan has returned to Shenjian sect.

If Wang fan doesn't go back, he has to make other preparations. In a word, he can't escape.

In a short time, dozens of powerful people from various forces have come to Shenjian sect.

However, when they saw the scene of Shenjian sect, their faces became gloomy.

I can see that the whole Shenjian sect has been surrounded by sword light and completely submerged in it.

This is not only a sword array, but also a powerful sword array.

Shenjianzong, it's closing the mountain. Use the sword array to close the mountain.

The faces of the strong of the major forces are rather gloomy.

Because they can see that the power of this sword array is so great that they can't break it by force with their strength.

"Shenjianzong, it's really a good way to make a decision. Do you plan not to be born?"

"I've heard that there is a top sword array in shenjianzong for a long time. I've finally seen it today."

Those strong people talk about it, and finally they have no choice but to leave.

Since Shenjian sect is closed, it is impossible for them to deal with it any more.

Not to mention that shenjianzong has closed the mountain, even if shenjianzong has not closed the mountain, with this sword array, they will have to pay a heavy price if they want to destroy shenjianzong.

When the group of people who rushed to Shenjian sect got nothing, on the other side, all the people of the major forces took action.

They have closed their respective territory and began to search for the trace of Wang Fan.

Especially in the periphery of shenjiansong, there are many powerful people.

In such a short time, it is absolutely impossible for Wang Fan to return to Shenjian sect. They must find Wang Fan and prevent him from returning to Shenjian sect.

Wang Fan has the courage to kill so many of their arrogant descendants. This can't be done with.

Wang Fan didn't know the movements of the major forces. After running for tens of thousands of miles, he directly changed his face and swaggered into a small town.

This town is under the jurisdiction of Jiuxiao city. He didn't come here specially, but by chance.

The town is still very prosperous. There are many inns in it. There are many inns and restaurants, including Dan Pavilion.

After entering the small town, Wang Fan directly entered an inn and began to rest.

He knew that the outside must have been blown up, and people from all major forces were looking for him.

He didn't worry about himself, he only worried about shenjiansong.

After all, with his disguise, no one can recognize him even before those big influence figures.

But Shenjian sect is different. It's a sect. Many people know its address.

He was afraid that something would happen.

Once this event leads to the collapse of Shenjian sect, Wang Fan will kill those powerful people regardless of all costs.

Wang Fan lived in the small town for seven days. During these seven days, he went back to the restaurant from time to time to inquire about the news.

Gradually, he was relieved.

Because he knew that shenjiansong had opened the sword array and closed the mountain.

After Wang Fan inquired about the news, he did not intend to stay in the town, but planned to go to the Yang family.

At the beginning, Han Zhen of Han's mansion and Yang Changqing of Yang's family robbed and killed so

many people, and also killed the principal and deputy dean of Fengqian college. This matter can't be ignored.

Wang Fan didn't get revenge before, that's because he didn't have strength.

Now, however, Wang Fan believes that he has the power to kill Yang Changqing and Han Zhen.

Of course, hard steel in the front should not work, and means must be used.

Wang Fan left the town and went to the Yang family.

He avoided numerous people's tracking and inspection, and a month later, he appeared in the city where the Yang family is located.

Compared with those heavily guarded cities, the guard of the city where the Yang family is located is much lax, and there are few guards.

After all, the Yang family is not the only one in this city, but there are several families juxtaposed with it.

Wang Fan inquired in the restaurant that the cloud moon Pavilion is the property of the Yang family. Many people of the Yang family often enter the cloud moon Pavilion for the first time.

So he entered the cloud moon Pavilion and lived in it.

Although the price of living in Yunyuege is very expensive, the price is nothing to Wang Fan, just like drizzle.

On his third day in Yunyue Pavilion, he saw Yang Changqing.

After many years of absence, Yang Changqing has not changed much, and his accomplishments have not made much progress.

After all, it's very difficult for cultivation to reach their level and to break through the realm.

Yang Changqing's accomplishments have reached the peak of the Immortal King, and he is also the best one in the peak of the Immortal King. If he wants to go further, he will be immortal. How easy can he be?

What shocked Wang Fan most was that he not only saw Yang Changqing, but also another acquaintance.

The sword king of Fengqian college.

When he was in Fengqian college, the Dao king tried to kill him several times, but in the end he failed.

Moreover, it is precisely because of this guy's internal and external cooperation that Han Zhen and Yang

Changqing are able to kill the president and vice president.

After the death of the president and vice president, Dao Wang took charge of Fengqian college. His disciples slaughtered those students wantonly. It can be said that they were extremely vicious.

Wang Fan looked at Yang Changqing and Dao Wang. His face was very calm, and even his heart didn't fluctuate at all.

His intention to kill has been completely restrained.

Because he knew that if he showed his intention to kill at this time, once he was detected by two people, he would be killed.

At this time, Wang Fan, let alone facing Yang Changqing and Dao Wang at the same time, even against the last one alone, is very dangerous in the face-to-face battle.

After all, he is only the king of immortals. He is still eight levels away from the peak of the king of immortals.

Yang Changqing and Dao Wang talked and laughed happily, and soon entered a room on the third floor.

Wang Fan took a look at the room. He broke the ban and swept in.

Yang Changqing's face looked dignified. After entering the room, he made several prohibitions again. Then he looked at Dao Wang and said,

"brother Dao came to wish me this time, and Yang remembered it. If I succeed this time, I'm sure Yang Changqing won't treat brother Han badly. "

Dao Wang's face was also rare and dignified. He said, "brother Yang, how sure are you about this time?"

"After all, it's a big deal. If it fails, the consequences will be very serious. If you're not absolutely sure, I advise brother Yang not to do it until the time is ripe. "

Hearing this, Yang Changqing said grimly, "I'm not satisfied with brother Dao Wang. I'm 70% sure. As long as you kill that guy, it's a foregone conclusion. "

"What's more, this is a once-in-a-lifetime chance. If he recovers from his injury, he will never have another chance. What's more, he has been injured now. If we can't kill him in this way, Yang Changqing didn't go on talking, but his eyes were firm.

Wang Fan listened to the conversation, some inexplicable.

He didn't know who they were going to kill.

However, no matter who the two men want to kill, it seems to be an opportunity for him.

Wang Fan's mind also turned.

## **Chapter 3352**

Wang Fan remained silent and continued to listen.

His mental strength is already strong, and with the concealment of mixed lines, Yang Changqing and Dao Wang, naturally it is impossible to detect.

As for the forbidden system in the box, it was even more illusory to Wang Fan. It had no effect at all.

After listening for a long time, Wang Fan finally understood who Yang Changqing and his wife wanted to kill.

He was in a fright.

Yang Changqing conspired to usurp the throne and kill the master of the Yang family.

According to him, the training resources he got in the Yang family were not much at all, and even a drop in the bucket compared with the master.

If it goes on like this, it's impossible for him to cross the Immortal King and reach the immortal realm.

Therefore, in order to benefit and cultivate resources, he would take the risk to kill the owner and take charge of the Yang family.

In that way, the cultivation resources of the Yang family will be allocated by him, and most of them will fall into his hands.

What Wang Fan heard was just a whisper to himself.

This Yang Changqing is really not a good thing. You know, the current owner of the Yang family is his next of kin.

Of course, these are the affairs of the Yang family and have nothing to do with Wang Fan.

Wang Fan even looks forward to fighting in the Yang family now. It's better for the Yang family leader to kill or seriously hurt Yang Changqing and Dao Wang.

Only in that way will his chances be greater.

Yang Changqing once again conspired with Dao Wang and left.

Dao Wang didn't leave, but lived down. He wanted to wait for Yang Changqing's instructions.

Although the two did not say when to start, but Wang fan is to know, should be in the recent.

Besides, as long as he looks at Dao Wang.

On the first day, it was calm and nothing happened, and Dao Wang didn't leave Yunyue Pavilion.

The next day, the sword king still did not leave, and Yang Changqing also did not come.

Wang fan is not in a hurry. He is monitoring Dao Wang and practicing in his own room.

Finally, on the night of the third day, Dao Wang left Yunyue Pavilion.

Wang Fan's eyes couldn't help brightening when he noticed the scene.

He knew that Yang Changqing was going to do it.

Without hesitation, Wang Fan followed him out.

.....

the Yang family.

In an ancient hall, Yang Changshui, the head of the Yang family, sits cross on his knees and is practicing.

His face was a little pale, his breath was a little unsteady, and he was obviously seriously injured.

Outside, there are several Yang family guards guarding.

These Yang family guards are Yang Changshui's personal guards.

Yang Changshui had already told them that no one should disturb them before he closed the door to heal his wounds.

Although the guards attached great importance to it, they were not so vigilant.

After all, this is the Yang family. Who dares to kill the Yang family to disturb Yang Changshui?

After several days, it was safe and there was no one to disturb Yang Changshui, and they were very relaxed.

But, tonight, it's a little restless.

The guards of the Yang family were closing their eyes and breathing. Suddenly, there was a loud bang from the distance.

Then there was a loud noise.

"There's an attack! There is an enemy attack

"Yang Wu, you dare to attack me. What are you going to do?"

"To die."

"Bang bang."

A series of disorderly sounds sounded, and soon the sound of fighting came from the distance.

Those Yang Changshui guards felt this scene, their faces couldn't help changing, and their mental power spread out in an instant.

See, at the moment of the Yang family has made a mess, not only the intruder in black on the Yang family launched an attack.

Even some of the Yang family attacked their own people.

It's a complete mess.

These pro guards noticed this scene, they were all muddled and didn't know what had happened.

When the enemy attacked them, they couldn't understand. The Yang family even started fighting inside. What's the meaning?

Whoosh!

Just when they were confused, several figures had flashed and went straight to the gate of the ancient hall.

"Who are you?"

"Stop!"

The faces of those Pro guards changed greatly, and the breath on them was already surging wildly.

Boom!

Hiss!

However, after two noises, the two guards were killed by a man in black.

The others surrounded the other guards and launched a crazy attack.

The man in black smashed the gate of the ancient hall and went towards the inside with a bang.

"No, someone's going to kill the master!"

Those who had not been killed all changed their faces when they saw this scene. However, they are surrounded by death, and there is no way to stop them.

At the same time, their heart has sunk to the bottom.

Who is going to kill the owner?

Who is it?

What's more, these uninvited guests are so powerful that everyone has the cultivation strength of the Immortal King.

Especially the man in black, his cultivation reached the peak of the Immortal King.

Soon, those Pro guards could no longer think so much, but began a war with the enemy wholeheartedly.

It's just that there are too many people on the other side, plus their strength, they are not rivals at all.

During the war outside, the man in black had already rushed into the ancient hall and came to the front of Yang Chang's water.

Yang Changshui, who had closed his eyes tightly, suddenly opened his eyes when the man in black arrived in front of him.

His eyes in the emergence of two Jingguang, and then sighed a way, "evergreen, you really come."

When the man in black heard this, his face changed and he had a bad premonition.

But he didn't talk nonsense. The powerful flavor of the fairy King's peak bloomed. He grabbed a long gun in his hand and killed Yang Changshui.

Now, he has no way back. If he wants to live, he must kill Yang Changshui.

Otherwise, Yang Changshui will kill him.

"Yang Changqing, we are brothers, and I treat you well. Why should we do this?"

Yang Changshui was still sighing bitterly. He stretched out his old and thin fingers and pointed to the front for convenience.

In a flash, a general trend condenses, a strong wind shoots out, directly surging on the gun pattern all over the sky.

Bang, click, click.

The gun pattern blasted by the man in black is smashed directly.

"You, you're not hurt?" Seeing this scene, the man in black's face changed greatly and his heart became more uneasy.

Is this a bureau set up against him?

Yang Changshui didn't give Yang Changqing any time to respond. He sighed bitterly, stretched out his hands and beat out again.

With the dancing of his palms, a series of palmpoint appeared in an instant, and he went crazy to kill Yang Changqing.

Although Yang Changqing's face was ugly, he had to work hard.

He gritted his teeth, directly and decisively burned Xianyuan. His long gun flew in his hand, rolled up the shadow of the gun, and stabbed Yang Changshui.

Boom boom!

The sound of explosion is constantly spread out, and the immortal spirit wave is wanton.

Under the shock of that horror, Yang Changqing still failed to completely smash those fingerprints. He was directly shot, and his mouth gushed blood.

Yang Changshui is also not easy, his face is more pale, although there is no blood, but the corner of his mouth is overflowing with blood.

"Changqing, you forced me. Originally, I didn't want to be fratricidal, but --"

Yang Changshui sighed bitterly. Suddenly, he released a very strong breath.

Then he stood up slowly.

"Immortal?" Yang Changqing felt the breath, and his face suddenly changed.

### **Chapter 3353**

Yang Changqing never thought that Yang Changshui had broken through the immortal realm.

That's xianzun. A xianzun is definitely the top strong man in the intermediate state.

You know, although there are countless immortal kings in the intermediate states, there are not many who respect the strong.

Even in the peak of one hundred immortal kings, there is not one who can break through to the immortal.

At the same time, Yang Changqing also knows that Yang Changshui's injury is real, and it's not a bureau set up for him at all.

However, for all that, a wounded immortal is not something he can fight against at all.

However, up to now, Yang Changqing has no way back.

He roared, directly and decisively burned Shouyuan, and then continued to kill Yang Changshui.

"Kill

Yang Changqing roared, and his breath was also in a crazy explosion.

His breath soon surpassed the level of Immortal King and reached the level of banxianzun.

See its whole body Avenue streamer swept, the terrible airflow hiss surging, as if to destroy this side of the space.

He was holding a long gun, which stabbed him straight forward.

Boom!

The piercing roar and explosion rang out, and the long gun penetrated the void in an instant, directly toward Yang Changshui's eyebrow.

His fairy realm is also crazy burst open, directly shrouded in this side of the space.

Under the violent momentum, the sound of "click" came out constantly, and the whole ancient hall burst into pieces in an instant.

Yang Changshui felt the powerful pressure and looked at the long gun pointing at his eyebrow. His eyes also fluctuated slightly.

"Broken!" He roared out, and the immortal yuan on his body suddenly ran away, and the power of the powerful immortal came out, directly rolling towards Yang Changqing's immortal realm.

At the same time, his palm was raised again, and his index finger was pointed towards the point of the spear.

If there is no injury, just Yang Changqing, even if it is burning blood essence Shouyuan, he will certainly not be afraid.

But now it's different. He's hurt, and he's hurt a lot.

In this way, it is very difficult for him to kill Yang Changqing.

In particular, he can clearly feel the situation outside.

Not only many people in the Yang family rebelled, but also Yang Changqing invited many strong people. The situation was extremely bad for him.

If Yang Changqing can't be killed in a short time, he will die once he is rushed to help.

The crackling sound was constantly heard. Under the crush of Yang Changshui's immortal realm, Yang Changqing's immortal realm began to crack and collapse.

At the same time, Yang Changshui's finger was on the point of the spear. With a bang, a terrible storm ripple exploded in a circle. Then the spear had burst, and Yang Changqing was shot upside down.

Hiss, he spurts out a mouthful of blood, his face turns pale in an instant.

"You, you broke through to xianzun. I hate you, I'm not willing to do it!"

Yang Changqing roared angrily, with reluctance and despair in his eyes.

It's too terrible for the immortal to be strong.

Even if it wasn't long before Yang Changshui broke through xianzun, even if Yang Changshui was seriously injured, he still couldn't compete.

Yang Changshui did not speak, just coldly looked at Yang Changqing.

After a blow, his breath increased instead of decreasing, and he looked coldly at Yang Changqing.

His right hand slowly raised again, and he intended to attack.

However, at this moment -

chi!

A blood spurted out, Yang Changshui's body shape could not help shaking for a while.

Obviously, in the previous blow, although he seemed to have the absolute upper hand, he was not very comfortable, and his injury was more serious.

However, Yang Changshui soon had forced down the injury and planned to attack again.

However, before he had time to do it, a light suddenly came on, and the next second, a blade would tear the sky and cut directly at him.

The sword king, who has been hiding in the dark, has made a move.

Yang Changshui felt the scene and his face turned ugly.

He looked coldly in the direction of the king of swords, "can't you help it? Now that you've done it, go to hell. "

With a roar, he forced Xianyuan in his body to go out.

Bang!

The awn of the sword burst and smashed, and the king of the sword was suppressed by the palm force. Then he flew backward and spewed out a mouthful of blood.

Yang Changshui could not help but step back a few steps again, spewing out a mouthful of blood.

He was so hurt.

Dao Wang looked at Yang Changshui, his face was a little ugly.

This Yang Changshui is really too powerful. He shouldn't have done it if he knew that.

However, if he wants to go further, he has to rely on the resources of the Yang family. What's more, he has already lurked here, so he has no choice. "Together, kill him!"

"This is our only chance. If we fail, there will be no future."

Yang Changqing is also forced to bear the injury to get up, his face has emerged a ferocious.

If you don't succeed, you will become benevolent. If you can't kill Yang Changshui today, Yang Changqing will surely die.

Once Yang Changshui's accomplishments are restored, he will be the first to be killed.

Dao Wang nodded with a dignified face, then stood up with a long knife in his hand.

He naturally understood what Yang Changqing meant.

Two people once again toward Yang Changshui to kill, the roaring sound continues to resound, Yang Changshui constantly shake them fly, but the injury has become more and more serious.

As for Yang Changqing and Dao Wang, they are more miserable and almost dying.

Especially the Dao king, although his cultivation is at the peak of the Immortal King, there is still a big gap compared with Yang Changqing.

Yang Changqing may be able to fight against Yang Changshui who stepped into xianzun by burning blood essence and Shouyuan, but he can't.

After several attacks, they were all knocked to the ground and had no strength for the first World War.

Looking at this scene, Yang Changshui's face became colder and colder.

"Die, die for me. It's just a mole ant. I dare to kill my husband and usurp power. I really don't know what to do. "

Yang Changshui roars and rushes to kill Yang Changqing and Dao Wang.

But at this time, not far away, a few figures flash to directly surround Yang Changshui.

These people are worshipped by the elder of the Yang family and invited by Yang Changqing.

When Yang Changshui saw this scene, his face became gloomy. He looked around and said, "how much benefit has Yang Changqing given you? Why do you want to target me like this?"

"I promise that if you go back quickly, I can treat you as if nothing happened, and I can give you twice the price."

He said, and then looked at the elders of the Yang family, "I have already broken through to xianzun. Do you think that following him, Yang Changqing, will have a better future than following me?"

"Once I recover from my injury, I will surely lead the Yang family to a high position. Is Yang Changqing

OK?"

"Cough --"

a dry cough came out, and Yang Changqing got up.

"Don't talk nonsense any more, just do it now, so as not to change."

"How many resources have you got since this old man took charge of the Yang family? Would you believe his story? All the resources of the Yang family have been used by himself. "

"What's more, do you really think he will let you go? Do it now, and don't delay any longer. "

The elders of the Yang family heard Yang Changqing's words, and their faces were cruel. Then they killed Yang Changshui.

The rest of the people invited by Yang Changqing to see this scene also clenched their teeth and then killed them.

#### **Chapter 3354**

When Yang Changshui saw those people rushing over, his face became more ugly.

But at this time, he had no choice but to fight.

Even he couldn't escape, because the fairies had surrounded him in a circle and didn't give him a chance to escape.

Several strong men besieged Yang Changshui. We can imagine the fierce battle.

The terrible immortal spirit wave wantonly swept out of the road, and in a click sound, the surrounding palaces were smashed.

Just for a moment, everything around was blown into ruins.

Under the attack of the crowd, Yang Changshui kept retreating and coughing up blood, and his injury became more and more serious.

His heart can not help the emergence of despair, know today is afraid to die.

Of course, for all that, the fairies who besieged him did not feel well.

Under Yang Changshui's crazy counterattack, a fairy king was directly shocked by vomiting blood and retreated, seriously injured. Another fairy king was killed directly and died on the spot.

After all, xianzun's fighting back is terrible. Even if Yang Changshui has been seriously injured, it can't be underestimated.

In the end, after paying the lives of two of them and the serious injury of three of them, Yang Changshui was finally killed.

He hates it!

He just broke through to xianzun and died miserably. It's really a pity.

Unfortunately, people are dead, unable to return to heaven.

Yang Changqing and other elders of the Yang family looked at this scene, but they were deeply relieved.

Yang Changshui finally died.

It's not easy.

It's not just Yang Changqing who decides to kill Yang Changshui.

The main reason is that Yang Changshui is domineering and powerful.

Most of the cultivation resources of the Yang family fall into the hands of Yang Changshui, but they, the elders of the Yang family, get very little.

It is because of this that they are willing to help Yang Changshui and take risks.

"Thank you for your help. Don't worry. I, Yang Changqing, promise you my revenge in three days. Now Mr. Yang is going to heal first. Please forgive me. "

Yang Changqing stood up and said to those who helped him.

His injury is really serious and needs to be treated. If it's delayed, if there are sequelae, it's not good.

"You're welcome, brother Yang. Congratulations on becoming the head of the Yang family. I believe that under the leadership of brother Yang, the Yang family will surely go to another peak. "

"It's necessary for brother yang to heal. In that case, I'll leave first."

Those who assisted in the war also bowed their hands and said.

They didn't have any idea about Yang Changqing. After all, although many people died in the Yang family, there were still many experts. Without the cooperation of the Yang family, they did not dare to touch Yang Changqing.

Soon, those who helped in the war had retreated.

Yang Changqing went to a main hall to recuperate. As for Dao Wang, he was taken to another hall.

The surviving elders of the Yang family did not want to move Yang Changqing.

Now that Yang Changshui is dead, the peak combat power of the Yang family will be reduced by one. If Yang Changqing is also dead, I'm afraid the Yang family will really be finished.

The other big families will be ready to move.

With Yang Changqing's peak fighting power, those families will weigh up even if they want to do it.

After Yang Changqing and Dao Wang went down to recuperate, the Yang family soon opened a big family battle.

After all, they need to be wary of other families.

In a remote location of the Yang family, Wang Fan has been hiding in the dark. The viewer did not make any action.

He has been lurking here for a long time, waiting for the opportunity, but he didn't find the right one.

Looking at what happened to the Yang family, he couldn't help feeling in his heart.

It seems that there are infighting everywhere.

Yang Changqing conspired to usurp the throne. Who can think of that?

He didn't think much about it. He continued to lurk for a period of time. When the Yang family's guard formation was completely closed, and everyone was stable, he slowly went to the courtyard where the sword king was.

Dao Wang and Yang Changqing, the first one he wants to kill is Dao Wang.

After all, there are few guards on Dao Wang's side, so it's easier to kill him. He's very sure that he can do it without being aware of it.

And Yang Changqing, it's not that easy.

Now the Yang family is seriously injured, and Yang Changqing is seriously injured, so there are many Yang family guards outside the courtyard where he is healing.

Once there is any disturbance, I'm afraid it will come out at the first time.

Wang Fan shuttles through Yang's residence. It's like a ghost.

Because he didn't go to Yang Changqing's side, and the main energy of the Yang family was put on the rest of the family outside, there were few guards inside except Yang Changqing's, so there was no exposure. Wang Fan soon got close to the courtyard where Dao Wang was.

Outside the courtyard, it was quiet and there were no Yang guards here.

Inside, Dao Wang is healing.

But this guy is also very cautious, he arranged some secret prohibitions outside the courtyard.

Once someone touches those prohibitions, he will notice them at the first time.

Wang Fan's accomplishments may not be as good as the king of Dao, and his strength may not be as good as the king of Dao, but in terms of array attainments, he is much more powerful than the king of Dao.

Wang Fan spent more than an hour searching for and breaking the prohibitions outside the courtyard in order not to be noticed by Wang Dao and the people of the Yang family.

An hour later, he flashed into the courtyard.

In fact, it only took Wang Fan more than ten minutes to break all the prohibitions, and he could enter at will.

Just to be on the safe side, he wasted more than an hour.

Wang Fan just like a ghost, flashed into the courtyard, silent.

Not only that, after entering, he also arranged an isolation prohibition.

In the courtyard, in a room, Dao Wang was sitting on the ground with his knees folded. Around him, there were countless purple gold pills, and even a Yunxian pill.

And his whole person is absorbing the immortal spirit of those dannei crazily, recovering cultivation and healing the wound at the same time.

His eyes closed, and he didn't notice the arrival of Wang Fan.

In the dark, Wang Fan looked at the scene and sneered.

If he wants to, he can sneak attack now, and then kill Dao Wang unconsciously.

However, Wang Fan did not.

The king of the sword is so evil that he wants to let him know who killed him.

After all, it's too cheap to kill the king of swords without knowing it.

Wang Fan sneered and waved his right hand. In an instant, the countless cultivation resources in the room had disappeared, and all of them were put into the space by Wang Fan.

As soon as the cultivation resources disappeared, Dao Wang naturally realized that it was wrong.

His whole heart is a click, eyes suddenly opened at the same time, people also stand up.

He grabs the long knife with the fastest speed, his eyes sweep around, and asks in a cold voice, "who is it?"

However, just as his words were spoken, he saw Wang Fan.

His pupil suddenly shrinks, in the eye eye eye emerges inconceivable, "is it you?"

### **Chapter 3355**

Dao Wang didn't expect that Wang Fan would appear here. It's incredible.

You know, this is the Yang family. Wang fan is just a mole ant who just entered the fairy king. How did he get in?

What's more, who doesn't know that many outside forces are looking for Wang Fan and want to kill him quickly.

In this case, how can Wang Fan appear in the Yang family?

In a word, this is too incredible, it is too unexpected.

Wang Fan looked at Dao Wang coldly and said, "yes, it's me. That day you framed the principal and vice president. Today, I came to avenge them."

The king of Dao had gradually recovered his composure. Hearing Wang Fan's words, he sneered, "revenge? Hum, you are just a fairy king. Do you want to kill me? "

"Do you think you can compete with me if you step into the fairy king? Or is it seeing me hurt that gives you this kind of courage? "

"If you don't go to heaven, go to hell. Soon you will know that even the injured fairy King peak is not something you can deal with. "

With a sneer, the king of Dao stood up directly. He was surrounded by endless knives. The smell of terror spread all over his body. All the swords from heaven and earth gathered towards him.

Wang Fan felt the breath of Dao king, and his face became solemn.

It has to be said that although Dao Wang was seriously injured, his strength can not be underestimated.

At the moment, the king of Dao gives Wang Fan a very dangerous feeling. Wang fan doesn't dare to be careless at all.

Instead of saying anything, he grabbed a long sword of fairy King level, which he held in his hand. In an instant, with the long sword as the center, the terrible immortal aura converged, and the fury of sword was born between heaven and earth.

Soon, the layers of knife will crackle together in his body, forming a knife storm.

It seems that Wang Fan and the king of Dao are fighting for the Dao's flavor between heaven and earth.

Dao Wang felt this scene, and a strange color appeared in his eyes, but he soon became ferocious.

"Go to hell!" With a roar, he stepped out directly. The long knife in his hand had already rolled up a storm and cut directly at Wang Fan.

In his this cut, his whole body sword meaning instant rage, with his knife and move, crazy bombing to Wang Fan.

With his body as the center, a whirlpool of fury emerged and burst in all directions.

Boom boom.

Under the storm, all the houses here were smashed.

If it had not been for Wang Fan's arrangement of a layer of boundary prohibition outside, I'm afraid that storm would have spread out and directly reduced everything around to ruins.

"Well done!" Wang Fan felt Dao Wang's knife, his eyes suddenly brightened, his body shape directly ahead of the fight, the long knife in his hand cut out.

The light of the sword is surging like a rainbow running through the sun. The terrible meaning of the sword is erupting forward. The bombing has set off thunderous blasts on the storm of the sword King's attack.

The violent storm ripples are like rings of light, surging around, as if to tear everything in the world.

Wang Fan only felt an air of hegemony, and his whole body began to retreat involuntarily.

Step on, step on, step on!

He stepped back eight steps before he could see that he was steady. His clothes were hunting and moving with the wind. He looked natural and uninhibited.

The sword king was also not very comfortable. Under Wang Fan's violent sword, he stepped back five steps to stabilize his figure.

Although he had the upper hand, his face was dignified, which was quite incredible.

Wang Fan didn't fall directly under his knife, which was beyond his expectation.

You know, he is the peak of the Immortal King. He is eight levels higher than Wang Fan.

Even if he is seriously injured, is not Wang fan able to deal with it?

Wang fan is just a fairy king. If Wang Fan's strength breaks through to the middle of the fairy king, doesn't it mean that he will never be Wang Fan's opponent again?

No, this son is too demon. It must be killed. It will never happen again.

Dao Wang thought in his heart, and forced himself to resist the injury. He killed Wang Fan again.

He had already seen that there was a layer of boundary prohibition outside the courtyard, which was obviously done by Wang Fan and had been prepared for a long time.

One of the reasons why he didn't break the barrier was that he had absolute confidence in his own strength and thought that he would definitely be able to kill Wang Fan.

Second, because he does not have so much time, once he goes to break those border prohibitions, it is bound to give Wang Fan a chance.

Wang Fan's strength has attracted his attention, but the battle of Dao Xiu is extremely dangerous, and its danger is no less than that of Jian Xiu.

Once he gives Wang Fan a chance, he is likely to die.

Wang Fan looked at the sword king who came from killing and felling, and a fine awn appeared in his eyes.

He made a movement and met him without hesitation. Wang fan uses the body method speed to the extreme, and launches a crazy war with the sword king.

This time, he did not choose to fight with Dao Wang, but chose to attack from the side.

He kept dodging the attack of the sword king, but also constantly attacking the sword king from the side.

Only when he can't avoid the attack, he will shake it.

The roar of the sound continues to ring out, accompanied by the two crazy war, soon, this side of the space can no longer see the two figure.

They have been completely transformed into shadows, and their bodies are approaching the extreme.

Whether it's a move or something else, it's extremely fast, just like a ghost.

A knife awn like lightning general, airtight shrouded in this space, constantly emerging, constantly cracking, constantly collapsing.

This space, as if completely formed a knife storm space, is very terrible, once involved, will die.

Bang!

Do not know how many moves, a moment, accompanied by a sound, the two figures suddenly separated.

There was a hole in Wang Fan's chest, deep visible bone, red blood flowing out, dyed red clothes, shocking.

Dao Wang was also extremely embarrassed. He was disheveled and had countless scars on his body. The most terrible wound was the one on his waist, which was deeper than Wang Fan's wound. He was almost cut in half.

The sword King stares at Wang Fan, with ferocious and venomous eyes.

He was hurt by a fairy mole ant, which is a great shame.

What made him most unbearable was that Wang Fan even pressed him on the Dao and hurt him, which made him even more unbearable.

He is the king of swords. All his skills are on the sword. What is Wang Fan? How can he hurt him in the path of swords?

Wang Fan looked at the opposite Dao Wang, but his face didn't change much.

Although the previous battle was extremely dangerous, he had used everything he had learned.

This is a pure Dao battle. He just wants to kill Dao Wang on Dao.

Only in this way, is the biggest humiliation to the sword king.

Otherwise, if Wang fan used all kinds of means, he would have killed Dao Wang long ago.

However, the king of Dao gave Wang Fan a big accident.

This guy deserves to be the king of Dao. He really understands the meaning of Dao deeply.

It's not easy for Wang Fan to kill him in a short time.

### **Chapter 3356**

Wang Fan slowly closed his eyes. In the battle just now, he had some new insights.

He believed that after the war, his attainments in Dao Dao would go up again.

"Well?" The sword king saw Wang Fan's appearance, his eyes narrowed slightly, and his face suddenly became more gloomy.

Wang Fan really deserves to be a demon like genius. He can even understand in the fight with him.

"I can't wait any longer. I've already been seriously injured. If I continue to delay, it will be very bad for me. I must make a quick decision."

He murmured, his whole body broke out a bright fairy yuan again, his body stepped forward, the long knife in his hand danced, and killed Wang Fan.

Wang Fan in the face of the sword King's attack, but did not move, but still tightly closed his eyes.

He didn't even release his power.

Through the subtle fluctuation of space and the direction of the sword's intention, Wang Fan clearly felt the attack trick of the sword king.

When the sword King's attack was about to get close to him, he just crossed a step slightly, and then narrowly avoided the sword King's attack.

The tip of the knife flew close to his body, blowing up his clothes. It was both dangerous and dangerous.

If he moves a little slower, I'm afraid he will be killed by a knife.

As for the violent blade, even if it was torn on him, it did not affect him at all. How can he be hurt by his physical strength and just a knife?

"Well, how is that possible?" Dao Wang looked at this scene, his face was even more ugly.

His expression in the instant change of ferocious crazy, as if it is incredible all this.

He madly urged the immortal yuan in his body to step out again, and at the same time, he bombarded him again and again.

It's just that soon he was desperate.

Because, every time, Wang Fan was able to deftly avoid his inevitable attack at the moment when the long sword was about to approach him. It seems dangerous, but it can't hurt it at all.

In this way, the two fought in this strange way.

Wang Fan's divine action is like a spirit snake, flashing from left to right, constantly dodging the sword King's attack.

The king of Dao was more and more frightened. At the same time, his heart was also disturbed.

He has already been seriously injured. If he continues to spend such a long time, it will be extremely detrimental to him.

However, he wanted to kill Wang Fan, but it was not an easy thing.

Wang Fan seems to be able to accurately detect his attack trajectory every time, but also can skillfully avoid. It's the same even when he does his best.

What can we do?

The king of swords was a little alarmed.

He even felt danger and panic on a mere fairy king, which was absolutely incredible for him. However, it just happened.

"It's time to end." When the king of Dao was at a loss and even thought about burning the blood essence, Wang Fan's closed eyes suddenly opened.

Two flashes of lightning flashed from his eyes. The next second, his right hand moved forward, and the long sword in his hand had already chopped toward the king of the sword.

This Dao didn't set off any storm, didn't roll up any awn, didn't even have the intention of Dao.

This Dao is slow, even Dao Wang can clearly feel the attack track of long Dao.

However, what shocked him was that he could not avoid such a blatant and slow cut.

With a hissing sound, the long knife cut the king's chest and raised a blood mist.

Then, with a bang, a violent force burst from his body, and his body immediately split into two and fell down completely.

"You should be... Dao... The meaning of Dao is great"

Dao Wang man was shocked and whispered a word, then he closed his eyes and died.

At this point, a generation of experts, Xianwang peak strong, meteorite!

Wang Fan looked at the dead king of Dao and breathed out his breath.

It's not easy to kill the sword king.

It's a very difficult battle.

With a wave of his hand, he put away the space ring on Dao Wang, and then sat down with his knees crossed.

Before the first World War, he also consumed a lot and needed to be recuperated.

Otherwise, it would be very dangerous to kill Yang Changqing in this state.

Through the battle with Dao Wang, Wang Fan has realized that the peak of these immortal Kings is not as simple as he imagined. Even if he is seriously injured, it is definitely not so easy to deal with.

Although he was fighting with the king of Dao and didn't use any other means, Yang Changqing was stronger than the king of Dao.

Wang fan doesn't dare to be careless at all. He plans to raise his state to the peak.

Two hours later, Wang Fan stood up slowly.

After two hours of recuperation, his condition has returned to the peak. Now to kill Yang Changqing, there should be no problem, but still have to be careful.

During these two hours, no one came to Dao Wang's side.

After all, the previous battle wave has been blocked by the formation boundary, and it has not been transmitted at all.

In addition, the Yang family all know that Dao Wang is the peak of the Immortal King. Now they are seriously injured and taking care of themselves, so naturally no one bothers Dao Wang.

Wang Fan's body flashed and left Dao Wang's courtyard and went directly to Yang Changqing's healing place.

His eyes were extremely firm, and the sharp killing intention appeared in his eyes.

Let's not talk about Yang Changqing and Han Zhen framing the principal and vice president. In those years, he almost died in their hands several times. Therefore, these two people must die.

Now Yang Changqing is just the first one.

Wang Fan soon came to the hall where Yang Changqing was healing.

Yang Changqing's healing place is naturally more magnificent than Dao Wang's.

Moreover, Yang Changqing is the most powerful member of the Yang family. He doesn't have any protection here like the Dao king.

Wang Fan clearly aware that in addition to the hall, in addition to the eight Yang Jiaqiang on the surface, there are also two people hidden in the dark.

Obviously, these eight people are better to deal with. After all, their cultivation is only the peak of immortals. In Wang Fan's eyes, this kind of monk is no different from mole ants, and can achieve instant.

However, those two people in the dark are not easy to deal with.

It's not that their accomplishments are relatively high. In fact, their accomplishments are not high either. One is on the first floor of the Immortal King and the other is on the second floor of the Immortal King.

However, the two men are far away from each other and can see each other.

In this way, he has some difficulties.

After all, if he killed one of them, he would be seen by another.

Once the other person issued a warning to attract the rest of the strong members of the Yang family, it would be extremely bad for him.

As for these two instant seconds, Wang Fan feels very difficult to do.

Because they are all immortal kings, and they all have the realm of immortal kings, and they are so far away from each other.

Even if Wang fan can kill them, it is absolutely impossible to kill them without making any noise.

Wang Fan hidden in the dark, the mind began to turn up, thinking about the countermeasures.

He has already come here, and is absolutely not willing to leave like this.

Yang Changqing, we must kill!

### **Chapter 3357**

Wang Fan was very patient. He waited outside for more than an hour, but he didn't find the right opportunity.

As the sky was about to brighten, Wang Fan decided not to wait any longer.

He adjusted his state to the peak, then took a deep breath and killed one of the fairies like lightning.

He's very fast, as fast as a ghost.

Just in a moment, he had come to the fairy king.

The fairy king didn't notice at all in advance. When he noticed Wang Fan, Wang Fan had already arrived in front of him.

There was panic in his eyes and he was about to open his mouth.

At this time, Wang Fan's Fairy king field crazy spread out, and then pointed to his eyebrow point in the past.

Under the fetter of the terrible fairy King's realm, the fairy King's reaction was slow for a few seconds, and then his eyebrows had been touched by Wang Fan.

With a hissing sound, a blood mist bloomed, and he fell straight down.

Wang Fan killed the Immortal King, but his face was very calm.

It's just the beginning of the fairy king. He's not his opponent at all. It's no surprise that he can kill each other in seconds.

After Wang Fan killed the Immortal King, he didn't hesitate. He moved a space directly and disappeared in the same place.

When he appeared again, he was already in front of the other fairy king.

Because Wang Fan's speed was too fast, he almost killed the previous Immortal King, but at the same time, he had already moved his space and disappeared in the same place.

So the other fairy king didn't see Wang Fan at all. He just saw his companion fall down and the blood splashed from his eyebrows.

There was a short dull look on his face. He didn't know what was going on and why his companion suddenly fell down, because he didn't notice any enemy coming in.

Just when he was dull, Wang Fan's figure had quietly appeared behind him, and then without hesitation, he pointed out again.

Whoa!

There was another sound, and the fairy King fell down.

He didn't know how he died or who killed him.

Wang Fan was relieved to kill the two immortals.

As soon as the two immortals died, the rest of the immortals and friars were not threatened at all.

With his strength, even if the other side sees him, he can kill the other side before the other side makes a sound.

Wang Fan's figure flashed, like a ghost, to kill those immortal friars.

Just a few breaths, he killed the immortal guards, then arranged a psychedelic prohibition and entered the hall.

The purpose of his psychedelic prohibition is to psychedelic other Yang family members.

As long as the array attainments are not very high and they are not close to this side, they will never find those guards killed.

Inside the hall, Yang Changqing is sitting on a futon with his knees crossed, and meditating with his eyes closed.

Around his body, he accumulated countless cultivation resources.

There are all kinds of purple elixirs and Yun Xian elixirs.

The training resources he used to heal his wounds were many times richer than the king of swords.

Wang Fan looked at the healing Yang Changqing, but he didn't put away his cultivation resources. Instead, he directly grabbed the killing short gun, and then triggered the internal prohibition, so he shot out.

When killing the king of Dao, Wang Fan wakes him up first because he wants to defeat the king of Dao on the Dao path.

But Wang fan doesn't pay so much attention to Yang Changqing. He just wants to kill him and leave here.

Although Wang Fan's action is very fast, the hand is also very decisive and sharp, but at the moment when he grabs the killing shotgun, Yang Changqing is still acutely aware of it.

"Who is it?" With an angry rebuke, he almost opened his eyes for the first time. Then he was agitated by Xianyuan, and then he backed away.

However, Rao is that Yang Changqing retreats fast enough, but Wang Fan's speed is faster.

The Immortal King's field burst out in an instant, and the killing short guns burst out, and the red gun patterns were like red lightning. They directly and crazily killed Yang Changqing.

Feeling the horror of killing, Yang Changqing's face changed greatly.

His body was more surging, just like the storm, the whole person was crazy to dodge towards the side.

Boom!

A blast, all over the sky dense red gun pattern on the wall, directly smash a wall directly.

With a sneer, Yang Changqing also failed to completely avoid the killing moves of those gun patterns. His right arm was directly rolled by the gun patterns and turned into a piece of fog. Together with half of the body, they were all bombarded with flesh and blood.

Yang Changqing steady body shape, staring at Wang Fan, is almost canthus to crack, "Wang Fan? You want to die! "

His voice contains a sense of terror, and the hatred in his eyes has been overwhelming.

Wang Fan frowned slightly. He did not expect that he could not kill Yang Changqing with a shot he was

ready to shoot. This shows that Yang Changqing's strength is really much stronger than Dao Wang's.

He didn't talk nonsense with Yang Changqing at all, and he didn't have time to talk nonsense. He raised his killing short gun again and shot out again.

Yang Changqing looked at Wang Fan's shot, and a grim color appeared in his eyes.

He had a golden glow on his right arm. His left hand made a fist, and he went straight out.

Boom!

A blast, gun pattern burst, Yang Changqing was blasted back out.

His heart is more subdued, more angry.

If his right arm has not been destroyed, if he uses his right arm to blow out this punch, it can absolutely smash those gun lines without injury.

Unfortunately, it's useless to say anything.

Yang Changqing is also a very decisive person. He didn't continue to talk nonsense, and he didn't fight with Wang Fan. Instead, he flashed and rushed out to the roof.

He has to run. He has to get out of here.

Because he has seen that he can't beat Wang Fan in his present state.

Although this fact made him feel very humiliating, it was true.

He can only escape, can only escape to find Yang family rescue.

"Want to go?" Wang fan saw that Yang Changqing was going, and his face changed slightly.

He is here to kill Yang Changqing. How can Yang Changqing leave?

At the same time, he was also very depressed, because he did not expect that he could not kill Yang Changqing after two shots.

It was just beyond his expectation.

Boom!

A blast, Yang Changqing has frantically broken through the roof, directly flew out.

Wang Fan looked at this scene, body shape also soared, step out, to chase Yang Changqing.

At the same time, his whole body bathed in a bright golden light, the whole person like a real dragon, instant kill to Yang Changqing.

Wang Fan's speed is at least ten times faster than before.

Just for a moment, he had caught up with Yang Changqing again, and a dragon wagged its tail to attack.

"No, no!" Yang Changqing looked at this scene, his face changed greatly.

He never thought that Wang Fan's speed was so fast.

Looking at Wang Fan's violent attack, his face turned pale. He wanted to avoid it, but there was no way to avoid it.

Boom!

A blast, Wang Fan's right leg just like a steel whip, hard to throw on Yang Changqing's body.

Come on!

Whoa!

Two sound, Yang Changqing directly inverted fly out, mouth ejected countless blood fog.

Wang Fan knew that Yang Changqing was not dead, and his figure flashed. He was about to pursue Yang Changqing and mend his sword.

However, at this time, a noisy voice, it is suddenly came.

"Enemy attack

"Quick, protect the master of Changqing family!"

"The rat wants to die!"

Wang Fan listened to those noisy voices, and then looked at those crazy rushing Yang Jiaqiang, his face suddenly changed ugly.

## **Chapter 3358**

There are many monks in the Yang family, and there are dozens of strong men at the level of Immortal King, and there are also several strong men at the later stage of Immortal King.

This kind of lineup is not what he can deal with now.

If he chooses to escape immediately, he may still have a chance to escape, but if he continues to kill Yang Changqing, he is bound to be besieged.

When the time comes, life and death are hard to predict.

"Yang Changqing almost trapped me to death in those years, and framed the principal and deputy dean of Fengqian college. I can't be at ease if I don't kill him. Today is the best chance. This man must be killed. "

Wang Fan's mind changed a lot and made a decision soon.

He directly moved the space, and the whole person instantly disappeared in the same place. When he reappeared, he was already in front of Yang Changqing.

"Yang Changqing, the so-called injustice has its head and debt has its owner. When you killed the principal and vice president of Fengqian college, I killed you. That's natural. So, you go to die."

A cold voice came from his mouth. He pinched out the sword formula directly with his hands. The sword light flowed through the void and chopped at Yang Changqing.

Originally, when Yang Changqing saw those Yang Jiaqiang rushing over, his eyes were full of hope.

Can hear Wang Fan's words, and then feel Wang Fan's killing and attack, the hope in his eyes immediately disappeared, became desperate.

At this time, he was seriously injured, and he had already escaped the attack of Wang Fan.

Despair sprang up in his heart. He never thought that Wang Fan would dare to kill him regardless of everything in this case.

Is this crazy?

"No, no!" He screamed in despair.

Hiss, hiss.

However, he just roared out two "no" words, and the countless sword meanings had already penetrated his body and raised countless blood fog.

With a bang, Yang Changqing fell from mid air and fell directly to the ground without any sound.

It never occurred to him that he would die.

He did not expect that he would die in the hands of Wang Fan.

He has just killed his brother Yang Changshui and won the title of the head of the Yang family. He hasn't had time to enjoy the resources and step into xianzun.

However, when people are dead, everything is meaningless.

"Beast, you dare!"

"To die!"

"You, you killed elder martial brother Changqing?"

"I'll kill you!"

Those Yang Jiaqiang who rushed to see this scene were all stunned.

Boom!

Boom boom!

The short-term dullness, a very violent killing intention emanated from them, they all became crazy.

Yang Changqing killed Yang Changshui, which had greatly damaged the vitality of the Yang family. Now Yang Changqing has been killed as well. Does the Yang family mean that they have no peak combat power? How to compete with other families?

They hate it!

I wish I could tear Wang Fan to pieces!

A monk of the fifth floor of the Immortal King, with boundless anger, came to Wang Fan in an instant.

His immortal realm spread wildly and locked Wang Fan to death. Then he made a fist with his right hand and killed Wang Fan with one punch.

The endless power of Da Dao Quan is surging, and there is a roaring explosion in the air. Under that blow, the space becomes illusory and begins to be completely distorted.

Wang Fan felt the attack of the other side, his face also changed in an instant.

He didn't have time to use the space to move and dodge, so he could only fight madly.

Just in an instant, Wang Fan was extremely determined to burn the blood essence. The Immortal King's field was crazy to kill him. He grabbed the killing short gun with his right hand and stabbed him forward.

Boom!

Whoa!

With two sounds, the immortal realm of the five story monk was crushed by Wang Fan's immortal realm. The next second, Wang Fan's killing short gun was nailed to him.

A blood mist spatter out, his body directly burst, the whole person fell in an instant.

With Wang Fan's strength, it's not difficult to kill the five layers of the Immortal King. It's even more difficult when the blood essence is burned.

Moreover, the reason why he burned blood essence decisively was that he wanted to quickly solve the five layers of the Immortal King, and then deal with the other enemies.

After all, there are not many Yang family members who have been killed, but with the passage of time, there will be more and more.

Wang Fan's procrastination is definitely not a good thing for him.

"Beast, dare to be wild in my Yang family, you will die today!"

"You are just a fairy king. You dare to commit murder in our Yang family. If you don't kill you, it's hard to get rid of your hatred."

Almost as soon as Wang Fan had just killed the fifth floor of the Immortal King, two more immortal kings surrounded him on the sixth floor.

The two fairy kings, one on the left and one on the right, directly attacked Wang Fan. The man on the left holds the halberd painted by Fang Tian, which is as inconceivable as the God of war. The halberd painted by Fang Tian raises huge waves, tears the void, and goes to kill Wang Fan.

The man on the right is holding a dark gold whip, in a crackling sound, the whip pierced the void, crazy toward Wang Fan.

Wang Fan's face became more and more dignified, and the immortal yuan in his body ran wild, and the Immortal King's field spread wildly.

At the same time, he madly triggered the killing short gun, and stabbed the two men.

The horror of killing spread, red gun pattern surging, forming a terrible gun pattern whirlpool, rolled to

the two fairy king six layers.

Boom!

Two sound, the two immortal king six layer attack is directly blasted to smash, he two people are subjected to the impact, is blasted out.

Wang Fan's face was a little pale when he killed three strong immortal kings in a row, and some of them were not strong enough.

At this time, another fairy king came to kill Wang Fan from the seventh floor, and his killing was extremely strong.

He looked at Wang Fan's eyes, extremely cold, as if looking at a dead man.

Today, Wang fan not only killed Yang Changqing, but also one of the five immortal kings and two of the six immortal kings of the Yang family.

This is a huge loss for the Yang family.

When Wang fan saw the seven layers of killing, his heart became more and more heavy.

He didn't dare to fight any more. Instead, he burned Qi Shou yuan crazily, and a big space moved and disappeared in the same place.

Almost his figure had just disappeared, and there was a loud explosion. The attack of the seven strong men of the Immortal King fell on him, which made him tremble and burst out countless blood mist.

Wang Fan appeared thousands of meters away, his whole body was stained with blood, and his face was very pale.

He could have moved the space directly to the gate of the Yang family, but the blow just made him move thousands of meters.

He felt that his whole body was going to fall apart, and his whole body was stinging.

However, he did not dare to stop at all.

In the air, a series of wood colored vines appeared and rolled to the Yang family behind them.

At the same time, the endless golden blade also appeared, penetrating the power of the road and stabbing those Yang Jiaqiang.

As for Wang Fan himself, endless lightning appeared all over his body. In a crackling sound, he rushed

towards the door of the Yang family like lightning.

He must escape from the Yang family as fast as he can, or he will die!

### **Chapter 3359**

The sound of hissing came out constantly, and many Yang family friars were caught off guard by Wang Fan.

Some people were stabbed by vines and died directly, while others were cut by the golden blade and fell from the sky.

For a time, countless noisy voices came out, and the scene became chaotic.

"Rat, you want to die!"

"Where to go!"

Looking at this tragic situation, those Yang Jiaqiang's face is more ugly, and the heart of killing Wang fan is also more intense.

It's just cruel.

How dare Wang Fan kill their friar Yang in this way? They can't stand it at all.

Wang Fan didn't have time to pay attention to those who were strong in the Yang family. As soon as he moved a lot, he had already appeared at the exit of the Yang family.

It's just that the Yang family's clan protection array has been opened, and it's not easy for him to go out.

Without any hesitation, Wang Fan's mental power directly and crazily diffused out, looking for the base.

He has to find the base quickly before he can break out.

"You die for me!"

"Kill

Just when Wang Fan was looking for the base, two Yang Jiaqiang came from afar and directly attacked Wang Fan.

As soon as Wang Fan's face sank, he did not hesitate. He directly grabbed two Immortal King level magic weapons from the space ring and threw them into Xianyuan.

Boom!

Two crazy explosions, two Xianyuan magic weapons directly exploded, severely bombed on the two people's bodies, directly smashed them.

At the same time, Wang Fan has also found the base.

However, he didn't have time to crack the array at all. Instead, he grabbed a magic weapon of fairy King level and threw it towards the array base.

It's a common method for those who don't understand the array to break through the array with violence.

Originally, with Wang Fan's current array attainments, he disdained to break the array with violence.

It's just that today's situation is a little different. He doesn't have time to break through at all.

Boom!

The magic weapon of the Immortal King exploded at the base of the array. Under the fierce bombing force, the array lit up a dazzling aperture, as if there were signs of being exploded at any time.

Wang Fan didn't have time to wait at all. Without hesitation, he grabbed a magic weapon of fairy King level and lost it.

He is very glad that he has got a lot of fairy King level magic weapons in Haotian secret land. Otherwise, he is really afraid that he will not be able to leave today.

Those who came after Yang Jiaqiang were stunned when they saw this scene.

They subconsciously stopped and did not dare to keep close to Wang Fan.

It's crazy to explode the magic weapon of Immortal King.

They don't understand. Wang fan is just an immortal. Where did he come from? So many magic weapons of the fairy King level burst out. Doesn't he feel sad?

You know, the power of the self explosion of the magic weapon of the fairy King level is very terrible. Even if those fairy King peaks are not careful, they are likely to be injured.

Because of this, they did not dare to continue to kill.

With the explosion of the second magic weapon of the fairy King level, the clan protection array with dazzling aperture finally broke a crack.

Wang Fan looked at the gap, did not hesitate, the body shape directly into a lightning, rushed out.

He is now injured heavily and expends a lot, so he has to leave and go as far as possible.

In order to prevent the strong Yang family from catching up, Wang Fan even exploded two magic weapons at the moment of running out.

An hour later, Wang Fan was far away from the Yang family and stopped at a place.

He was weak, with a flimsy gait and an ugly face.

Deep breath, Wang fan is looking for a place to heal, but at this time, his face suddenly changed, suddenly looked to one of the directions.

"Who is it?"

Dada dada.

With Wang Fan's voice coming out, a sound of footsteps followed, and then Wang fan saw a woman come out.

The woman looked in her twenties, red lipped and white toothed, extremely beautiful.

Her skin is like cream, her eyes are like stars, and her whole body is full of a noble breath.

A purple dress draped in the body, looks gorgeous.

Wang Fan looked at the sudden appearance of the woman, but his pupils couldn't help shrinking.

He was shocked to find that this woman's cultivation had reached the level of immortal.

Xianzun, you know, Yang Qiushui, the strongest member of the Yang family, has just broken through to xianzun.

Wang Fan's heart sank to the bottom of the valley.

Xianzun's strong man is not what he can deal with now.

Not to mention that he was seriously injured, consumed too much and in poor condition.

Even if he is in top form, he will never be her opponent."Are you wang fan?" That woman lightly swept Wang Fan one eye, calm mouth.

Her voice is very cold, cold, when speaking, eyes also emerged a deep disdain.

Wang Fan nodded, "who are you?"

"You don't have the right to know who I am. If you don't want to die, come with me." The woman said faintly.

Wang Fan frowned, his heart emerged a touch of discomfort, his tone became cold, said, "sorry, I don't know you, so I don't want to go with you."

"Well?" When the woman heard this, her eyebrows suddenly wrinkled. In a flash, a very strong breath surged out of him and rolled directly towards Wang Fan.

At the same time. Her immortal field has also spread, directly shrouded in Wang Fan.

Wang Fan felt the pressure and was even more upset.

With a sneer, he was about to throw out a few fairy King level magic weapons and explode.

But at this moment, all the breath of the woman suddenly disappeared.

"If you don't come with me, I hope you can live three days." That woman stares at Wang Fan, inexplicably say a word, then body shape a flash, instantly disappear.

Wang Fan looked at the back of the woman's leaving, and his brows had condensed into Sichuan characters.

He couldn't find out the identity of the woman at all, let alone the purpose of her appearance.

Who on earth is she?

Wang Fan thought hard and failed, so he didn't want to think more. He just flashed and disappeared quickly.

Almost as soon as he disappeared, a few more people appeared here.

If Wang fan is here, he will find that these people are all big figures with big influence. They all appeared when the secret world of Haotian was opened.

They looked at the woman's departure position and whispered, "who is this woman? When did such a person appear in my middle state? Is she from above?"

"Also, the other breath should be Wang Fan. Is this girl anxious with Wang Fan?"

Wang Fan didn't know what happened to the strong. He ran as fast as he could for half an hour. He

could not help digging out a cave and went in.

I can't help it. It's too weak. If it goes on like this, I'm afraid that even if the enemy doesn't find him, he will die of fatigue.

After Wang fan arranged the prohibition, he began to take out the cultivation resources and began the cultivation recovery.

He robbed the king of Dao and Yang Changqing. Now he has a lot of cultivation resources. Naturally, there will be no problem in recovering his cultivation.

### **Chapter 3360**

During Wang Fan's seclusion, the Yang family incident quickly spread out, which made a stir in the whole city.

Of course, the reason why the Yang family incident is so sensational is not because Yang Changqing usurped the throne, but because Wang Fan appeared.

No one thought that Wang Fan, wanted by the major forces, even dared to appear in the Yang family in such a situation.

After Yang Changqing conspired to usurp the throne and killed his elder brother Yang Changshui, he went to the Yang family and directly killed Yang Changqing, the second person of the Yang family, who was worshipped by the sword king of the Yang family from the lower state.

Not only that, Wang Fan was surrounded by many strong members of the Yang family, and escaped smoothly.

It was such a sensation that many people couldn't believe it.

Everyone knows who Wang fan is.

Five years ago, Wang Fan had only five levels of cultivation of immortals. Even if he got a chance to go against heaven in the secret world of Haotian, now his cultivation is only one level of Immortal King.

How on earth did he kill Dao Wang and Yang Changqing at the peak of the Immortal King, and successfully kill the Yang family?

At the same time, within a few days of the spread of the incident, many families had already taken action against the Yang family and carved up the cake of the Yang family.

Yang Changshui, the No.1 figure of the Yang family, has died, and Yang Changqing, the No.2 figure of the Yang family, has also been killed. It can be said that at this moment, the Yang family has no strength to compete with those families.

Just in less than three days, the Yang family was completely destroyed, the Yang family's legitimate family fled, died, completely reduced to the past.

In the same way, those big forces also sent countless people to search Wang Fan, and strengthened the search for Wang Fan.

In particular, Han Wangfu and Jiuxiao City spared no effort to find Wang Fan, and even moved some killers.

Wang Fan's growth is too terrible, they all feel the crisis, feel the unprecedented crisis.

This kind of people, once they grow up, will be their disaster.

When the major forces were searching for Wang Fan, Haotianmen secretly sent out countless strong men and began to search for Wang Fan.

However, the purpose of Haotianmen is not to kill Wang Fan, but to save Wang Fan.

Wang Fan showed the talent against heaven, and through Gu Yaoyao's mouth, they also learned the truth, so they plan to help Wang Fan.

It's a pity that this kind of genius will die in this way.

Of course, although Haotianmen is the first large amount of intermediate state, in the current situation, it is also afraid to help Wang Fan aboveboard.

They plan to secretly find Wang Fan, and then rush to the senior state through channels.

Only in this way can Wang Fan's life be saved without being targeted by various forces.

It's just that after more than a month, all the major forces are a little silly.

Rao is that they have been crazy enough to find Wang Fan, and even have almost dug three feet, but they have not found any trace of Wang Fan.

Wang Fan seems to have disappeared out of thin air, as if he had completely disappeared in the middle state.

There are even many forces who doubt whether Wang Fan has been secretly taken away by Haotianmen and sent to senior state.

After all, it's quite possible.

But only haotianmen knew that they didn't send Wang Fan away at all, because they didn't find Wang Fan either.

.....

Wang fan doesn't know what's going on outside. At the moment, he is practicing madly.

As early as in the third day of closure, his injuries have all recovered, and his strength has also recovered to the peak.

However, he found that his cultivation had become loose again, so he didn't pass the test, but continued to practice.

More than a month later, under the accumulation of countless cultivation resources, his cultivation finally broke through to the first level of the Immortal King and came to the second level of the Immortal King.

Wang Fan was shocked by this, because this time, his cultivation breakthrough was really smooth. And he didn't stay in the first floor of Xianwang for long, so he broke through to the second floor of Xianwang.

Although there are still many cultivation resources in Wang Fan, he has no intention to continue to cultivate. It's not a good thing for him to improve his accomplishments too fast.

He was afraid that it would cause instability in the future and it would be difficult for him to enter.

"I don't know what's going on outside." Wang Fan whispered, stood up and left the closed cave.

However, his face had changed before he left the cave.

Because he was shocked to find that someone had set up a large array outside his cave.

This is a hidden array, which is extremely mysterious.

Wang Fan's face was a little ugly, but also strange.

The most important thing is that he didn't notice who actually set up a big array outside his cave.

It's just shocking.

If you want to kill him by such means, isn't it easy? Wang Fan's back is permeated with layer after layer of cold sweat, which is really frightening.

Fortunately, from the other side's big battle, he can see that this person has no malice to him, just to

protect him.

As a matter of fact, it is precisely because of this big formation that those powerful people failed to find Wang Fan.

Otherwise, Wang Fan would have been found long ago.

After all, although he has good array attainments, he is facing the major forces of the whole intermediate state.

Let's not say that there are many top powers in those forces, but there are only many array masters.

No matter how rebellious Wang fan is, it is impossible for him to go against the sky to the point where the array he arranged is not noticed by everyone.

After all, it's so terrible that the major forces are looking for Wang Fan. It can be said that even if a needle is lost in the sea, they are very sure that they can find it.

"Who on earth is helping me? "The gate of heaven?" Looking at the big array, Wang Fan whispered that the first thing he thought of was haotianmen.

After all, apart from haotianmen, he couldn't think of anyone else who would help him.

Wang Fan sat down with his knees crossed, and his mental strength began to penetrate, and he began to crack the great battle.

After all, the array is arranged by outsiders. The other side protects him and at the same time, it is equivalent to trapping him here.

If he can't crack the formation, he can't get out.

Fortunately, Wang Fan's array attainments are not bad, and he has a deep foundation.

Although he can't set up such a big array, he can do it if he just wants to crack it.

It took Wang Fan more than a month to tear a gap from the array and then flash out.

He didn't destroy the formation, because with the existence of the formation, if he encounters difficulties in the intermediate state, he can still escape.

After Wang Fan went out, without any hesitation, he rushed to the main city under jiuxiao city.

The reason why he went to the main city below jiuxiao city was that the news there was relatively better, and that it was a big city, no matter where he went, it was very convenient.

Another point is that the most dangerous place is the safest place. It is absolutely impossible for people in Jiuxiao city to think that Wang Fan will go to the main city under Jiuxiao city.
