

Mighty Sk 3611

Chapter 3611

Wang Fan's body flickered quickly, and from time to time he cut a sword towards the rear, but the effect was very little.

The two ruthless men who fought on the edge of the endless deep sea all the year round were all people who had experienced countless hardships. Their fighting power was not comparable to that of ordinary monks.

In addition, their accomplishments are higher than Wang Fan's. Therefore, even if Wang fan uses the archaic magic sword, this exploratory attack has no effect.

In front of Wang Fan, he had already vaguely seen a dense sea demon.

Those sea monsters, they all roared wildly, and they were so loud.

There are sea monsters flying in the sky, majestic all over the sky, and there are sea monsters collapsing on the sea, setting off rolling waves.

The most terrifying thing is that some sea monsters also grow countless flesh whisker like tentacles, which are like weapons, constantly waving on the sea, raising cracks in space.

From a rough point of view, there are at least 100 sea monsters. Among them, the weakest have the strength of the four level monks of xianzun, and the strongest even reach the later stage of xianzun.

"Damn it." Wang Fan looked at the dense sea demon, but also can not help some scalp numbness.

If he rushes into the sea demon group, let alone him, even the emperor of Chu Dynasty will have some trouble.

As for the two monks behind Wang Fan, their faces didn't change much and they were still attacking crazily.

As if in their eyes, there were no sea monsters at all.

Wang Fan felt this scene, but he had some doubts.

According to the normal situation, these two people see so many sea demon, should not dare to chase.

After all, the sirens are not with them, they will not attack them.

But now, they didn't give up chasing Wang Fan, and they didn't plan to run away.

Obviously, both of them have the assurance to escape from the sea demon group.

"Give me your sword and we'll spare your life." At a certain moment, the man who pursued Wang Fan opened his mouth coldly.

His tone was extremely cold, without any emotion, as if he was giving an order.

After the male nun spoke, the female nun also spoke coldly, "and your space ring, also hand it in."

"As long as you hand over these things, we'll turn around and go immediately, and never pursue. Of course, it depends on your luck whether you can escape the pursuit of the sirens. "

This woman's voice is also very cold, even a little hoarse, not as pleasant as a normal woman's voice.

Obviously, they are threatening Wang Fan. Maybe they are anxious.

After all, if Wang Fan rushes into the sea demon group and is engulfed by the sea demon, they can't get more benefits.

In this case, the only way is to get the benefits first. When the time comes, whether Wang fan is alive or dead, they will not care.

"Want something for me?" Wang fan speed does not reduce, but disdain sneer, "you match?"

His tone is extremely impolite, "you dog men and women, it's better to pray that I can survive, otherwise, I will take your life."

"As for what you want from me, don't dream any more. Even if I give it to the sea demon, I won't give it to you two beasts. "

"You want to die!" Wang Fan's voice fell, and the man and the woman were furious.

It's too late. Wang Fan dares to provoke them, even insult them. He's looking for death.

"I don't know what to do. Since you are determined to die, I will help you." That nun is a blast to drink, on the body suddenly rises a strong momentum.

Then she clapped her hands, churned out huge handprints in mid air, and patted them directly at Wang Fan.

He didn't do it. He just released the immortal field and oppressed Wang Fan.

However, just when those huge handprints were about to fall on Wang Fan, Wang Fan suddenly roared, "the space moved greatly."

The next second, his whole person, has disappeared in place.

The huge handprint passed through the location where Wang Fan disappeared, and fell directly into the sea demon group, which set off a roar.

Although the seal didn't hurt the sirens, it still made them angry.

"Roar

"Ouch

The deafening roar came out madly again. The next second, those sea monsters were as if they were completely in a state of madness. They all killed them madly.

Their faces could not help changing slightly. Obviously, they did not expect that Wang Fan could disappear out of thin air.

At this time, where can they not think that they were teased by Wang Fan?

Wang Fan knew space magic, but he didn't run away at the first time. Instead, he attracted them to the side of the sea demon group. He was just deliberately pitching them.

"Damn it, I must kill you."

The male repair roars angrily, and wants to tear Wang Fan to pieces. However, at this time, he didn't have the heart to look for Wang Fan, but directly turned around and frantically started to flee towards the distance. The nun was faster. When the nun turned and ran away, she had already run away.

Even if they are extremely confident, so many sirens, they are definitely not rivals.

Once in the sea demon group, they will die.

A hundred miles away from here, Wang Fan's body appears, looking at the rear indifferently, and his eyes are also full of killing intention.

He did not continue to run away from here, but suddenly ran towards a direction.

Soon, a sea demon found Wang Fan and began to chase him.

Wang Fan did not entangle with the sea demon, but ran to the direction where the two fled.

It's just two immortals. They dare to count Wang Fan. If they want to take advantage of the fire, they are looking for death.

Since the other party has made the first grade of junior high school, don't blame him. Wang fan is the 15th grade. He is a very vengeful person.

It wasn't long before Wang fan saw a man and a woman running away.

Two people see Wang Fan, also is complexion big change, on the body kill intention more boiling.

"You dare!"

Hugh yelled angrily.

But Wang Fan didn't care about him at all. Instead, he suddenly waved the archaic sword and stabbed the sea demon behind him.

The next second, he once again made a big move in space and disappeared without a trace.

The sea demon was stabbed a blood hole by the archaic sword, and also fell into madness. Only after he didn't find Wang Fan, he killed the two monks.

"Get out of here!"

"Bastard, I must kill you!"

The man and the woman were almost furious when they saw this scene.

Although they are not afraid of the monster Wang Fan attracted, they can kill each other, but they will also delay time and slow down.

In this way, they are likely to be overtaken by the sea monsters behind them.

After all, among the sea monsters behind them, there are the sea monsters in xianzun's later period.

Under the anger of the male Xiu, he directly displayed his strong martial arts skills and madly shot more than ten fists.

After more than ten punches, the sea demon was smashed.

At the same time, the sea demon behind him is getting closer and closer.

Two people feel this scene, once again began to run crazy, but they did not run for long, Wang Fan and a sea demon killed over.

"Motherfucker, motherfucker." Looking at this scene, they were almost spitting blood.

Chapter 3612

Wang fan is simply lazy to pay attention to the anger of the two, his body flash, it has disappeared again.

At the same time, the wounded sea demon was like a raging lion, roaring wildly. After he didn't find Wang Fan, he didn't hesitate to kill them.

At this time, Wang Fan's figure suddenly appeared, sneering, "do not want to die, then hand over your space ring, otherwise, you will die undoubtedly."

Wang Fan's voice was cold, without any emotion.

Before, these two people even dare to calculate him, it is to seek death.

This kind of means, he Wang Fan also can.

When they heard Wang Fan's words, they were so angry that they were about to explode.

However, they couldn't help Wang Fan at all.

On the contrary, under Wang Fan's constant attraction to the sea demon attack, they had many more injuries, and the sea demon behind them was getting closer and closer.

Even the ice arrow blades of the strong sea demons have been able to threaten their lives.

"Bastard, I must kill you, I must kill you."

The male monk roared angrily, and his fists were constantly popping out to kill the sea monsters who came back and forth.

The nun's face was also pale, but without any hesitation, she grabbed a space ring and threw it out.

If it goes on like this, they will really die.

No, strictly speaking, even if Wang fan doesn't continue to attract the sea monsters, it's a question whether they can really escape from the sea monsters behind.

Although the couple were domineering in this sea area and killed many friars, their combat effectiveness was also extremely strong.

But in the face of such a large number of sea monsters, it has no effect.

Now hand over the space ring, they may still have a ray of life, but if they don't, they will die.

So the nun was very determined, without any procrastination.

When the male monk saw the female monk throw out the space ring, the crazy color in his eyes also flashed away.

It's too hard to bend.

They had never thought that they could be in such a dilemma even if they were just a fairy.

However, he soon gritted his teeth, grabbed out a space ring and threw it out: "you'd better keep your word, otherwise even if I die, I'll pull you on the back."

Wang Fan laughed at his words.

He didn't say a word of nonsense. After grabbing two space rings, he moved the space again, and then disappeared without a trace.

He didn't continue to attract the sirens, and he didn't fight the two men. First, it was unnecessary. Second, he didn't want to continue to waste time here.

Even if the edge of the endless deep sea is very large, such a war may still attract the strong.

Once the movement on this side attracted the attention of the emperor of the Chu Dynasty and made the other party come in person, he would be dead.

After Wang Fan disappeared, he quickly rushed out of the endless deep sea, found a no man's area and hid it.

Wang Fan's heart is also very helpless, he even hidden up.

But he did not have the slightest way, because whether it was the emperor of Chu dynasty or endless City, he could not provoke.

In particular, endless City, strictly speaking, is the territory of others.

If endless city sends strong men to find him, if he still dares to hang around outside, it will be really miserable.

In fact, Wang Fan's worries are not superfluous.

The day after he hid, several strong men appeared at the edge of the endless deep sea. Not only that, but also the emperor of Chu Dynasty came here in person.

Of course, Wang Fan didn't know about these things.

It took him a whole day to arrange the array prohibition. After doing everything well, he grabbed out the space ring of the two men.

There are a lot of things in their space ring. There are a lot of fairy grass, and Yun Xiandan has more than two billion.

Not only that, but also some array materials and refining materials.

However, Wang Fan didn't like those things, even Yun Xiandan, he didn't like them very much.

According to the normal situation, yunxiandan can still satisfy the cultivation of xianzun friars, otherwise endless city will not sell tickets with yunxiandan as a unit.

However, Yun Xiandan's help to Wang fan is really very little, and basically has little effect, unless the number is really much to a terrible level.

"Two poor people robbed so many people that they didn't even have an immortal vein. Even a small immortal vein is OK. Ah, it's really poor."

"However, if I can get more than 2 billion yuan of yunxiandan, I can make up for the loss of my ticket."

"Just don't know, these two people have already saved enough yunxiandan to buy tickets. Why haven't they chosen to leave? Do they want to buy medium or high class Wang Fan looked at the things in the two space rings, and his heart was filled with scorn.

But soon, instead of thinking so much, he began to practice.

Wang Fan did not use the immortal pulse to practice, but used the Yun immortal pill to practice.

Because the spirit of immortal vein is too strong, and it is also the immortal vein of Chu Dynasty. He was afraid that he would be discovered by the emperor of Chu Dynasty.

As for Yun Xian Dan, although his cultivation effect is very little, there are still some effects.

Some of his accomplishments are too weak, or some of his enemies are too strong. Naturally, if we can improve our strength, we should improve our strength. Otherwise, if we die, there will be nothing left.

In Wang Fan's practice, the edge of the endless deep sea was a mess.

Numerous late monks of xianzun frequently appeared on the edge of the deep sea, as if they were looking for people, including the emperor of Chu Dynasty.

However, a few days later, these people are no harvest.

Those who are strong in the endless city are better. They are just looking for the edge of the endless deep sea, but the emperor of Chu Dynasty is constantly running between the edge of the endless deep sea and the endless city.

Endless City, Lord's mansion.

The vice-president of the city surnamed Jiang, who had previously received the emperor of the Chu Dynasty, was sitting at the top of the table, looking down at a monk on the ninth floor of xianzun.

"Is the investigation clear?" The old man surnamed Jiang asked coldly.

"The investigation is clear. The immortal veins of the Chu Dynasty have been stolen." The monk of the ninth floor of xianzun answered quickly, and his eyes were even a little surprised.

"What? Has the immortal vein been stolen? Hearing this, the old man surnamed Jiang couldn't help but feel a little stunned. He was immediately relieved. "No wonder I said that the old man of Chu Dynasty was so crazy that he refused to leave all the time."

He couldn't help muttering to himself. In his turbid eyes, the essence kept flashing. "Immortal pulse of Chu Dynasty, that's a good thing. If we can get it --"

later, he didn't go on, but said quickly, "send more people to look for Wang fan, we must find him out."

"In addition, a month later, the spaceship will fly to the holy land of Zhongzhou, and tell the person in charge there to strengthen prevention and never be mixed up by that boy."

Chapter 3613

At the edge of the endless deep sea, all the monks who are working here feel a little abnormal recently.

Because there are many more friars in endless city recently. Those friars frequently patrol the edge of endless deep sea, obviously looking for someone or treasure.

Not only that, there are many more guards in endless city. In particular, inns, restaurants and other places, almost every day there are a large number of endless city guards patrol, obviously looking for people.

In addition, the body shape of the emperor of the Chu Dynasty also frequently appeared in endless cities and endless sea areas, and the strong spiritual power would sweep once in a while, making people panic.

"What's the matter? Is there anyone the emperor of Chu Dynasty and endless city are looking for? But who on earth can arouse their attention? "

Feeling this scene clearly, many friars could not help talking in secret, and they were more careful.

Even these people, most of them are in the late xianzun period, and even the peak of xianzun is not uncommon. But in the face of endless city and the emperor of Chu Dynasty, there is still some tension.

There's no way. Even if xianzun is the best, there is a big gap. No one is not afraid.

At the edge of the endless deep sea, in a hidden cave.

Although Wang Fan didn't go out, he knew the tension outside.

There is no other, because he can clearly feel that there are many more friars active on the edge of the endless deep sea recently.

Not only that, many people's strength, even in the peak of xianzun, very strong.

"It seems that endless city already knows that I have the immortal vein of Chu Dynasty, otherwise I would not fight so much."

"This endless city is really not a good thing. I didn't offend them. I even bought a sky high price ticket. I was their guest. Even so, I'm wanted. "

Wang Fan whispered, his eyes very cold.

Originally, he planned to go out every once in a while to see when the spaceship would set sail, so as not to delay the time.

But in this situation, how dare he go out. If he goes out, he'll probably die.

For this reason, Wang fan is very upset.

Strength, or strength is not enough, otherwise, how can he fall into such a situation.

Wang fan can only endure the unhappiness in his heart and continue to practice.

In the blink of an eye, half a month has passed.

In half a month, although Wang Fan's accomplishments have been improved, they are also very little.

It's really hard for him to rely on Yun Xiandan to improve his cultivation. What's more, it was only half a month of cultivation.

However, he did not dare to take out the immortal pulse cultivation. After all, there was too much movement, which might disturb the strong, so he could only do so.

Outside.

Endless city and the emperor of the Chu Dynasty failed to find Wang Fan for half a month, or even a trace of Wang Fan. They were impatient.

Especially the emperor of Chu Dynasty, he even doubted whether Wang Fan had come to endless city.

After all, Wang Fan's coming to endless city is just his guess and has not been confirmed.

What's more, even if Wang Fan came to endless city and bought a ticket, wouldn't he leave endless city? On the edge of endless city and endless deep sea?

"Where the hell is this little beast?" The emperor of the Chu Dynasty was very oppressive and angry.

I haven't found Wang Fan for half a month. He really doesn't have much patience.

After all, if Wang Fan had been in this area of endless City, it would have been exposed.

Even if it is not exposed, it must have known that he came to the endless City, maybe all of them are gone.

In this case, if he foolishly searches for the edge of endless city and endless deep sea, he may be regarded as an idiot by Wang Fan.

The emperor of Chu Dynasty is not as active as he was some time ago.

Even, he didn't go out much during this time, just stayed in the inn.

He has decided to wait until the spaceship opens. If he hasn't found Wang Fan by then, he will leave.

After all, there is only half a month left before the launch of the spaceship. In half a month, he can still afford to wait.

Similarly, the number of friars sent by endless city to the edge of endless deep sea is obviously less.

We are not fools. We haven't found Wang Fan for half a month. It's almost impossible to find Wang Fan. We can only wait until the time when the spaceship starts.

The edge of the endless ocean.

Wang Fan also felt the situation outside and couldn't help frowning and thinking.

Is he going to take a spaceship or not.

He is not a fool, naturally know, whether it is endless city or the emperor of Chu Dynasty, must be staring at the spaceship there.

At that time, once he dares to appear, I'm afraid he will be exposed.

It's too risky to continue flying. But if he didn't take a spaceship, would he have to cross the endless deep sea alone?

If he hadn't been to the endless deep sea, maybe he would have such an idea.

But now, just at the edge of the endless deep sea, it is already so dangerous. If you cross it, it will be more dangerous. It's a headache.

"I want to cross the endless deep sea alone, which is absolutely impossible. You have to take a spaceship. But I'm afraid the previous ticket can't be used any more. "

Wang Fan whispered, and finally decided to go out and have a look.

Thinking of this, Wang Fan did not hesitate and quickly left the hidden place.

"It's you?"

However, he just left not long ago, accompanied by a gnashing voice, two figures appeared in front of him.

These two people are just the two who wanted to rob him before, but they were calculated by Wang Fan and took their space ring.

"You're not dead yet. You've got a lot of lives." Wang Fan looked at the two, but also can not help but slightly surprised.

He really didn't expect that these two people could escape from the original sea demon group. It seems that they really have some brushes.

"Boy, you calculated my husband and wife, go to die!" Man Xiu said coldly that he didn't give Wang Fan any chance to continue to speak. A long knife appeared in his hand and killed Wang Fan directly.

Wang Fan looked at this scene, eyes are not from the cold down, "just today I am not in a good mood, since you want to die, then I will send you on the road."

At the same time, a long sword appeared in Wang Fan's hand. Without any hesitation, he directly used the eight moves of the magic sword and chopped it at the other side.

As for the archaic sword, he did not dare to use it.

The archaic sword is a magic weapon of the Immortal Emperor level. It's very eye-catching.

If this leads to the emperor of Chu Dynasty, he will be dead indeed.

During this period of time, Wang Fan's mood is really bad, and his heart is filled with anger.

Therefore, he didn't show the slightest mercy. His hand was the eight moves of Shenjian.

For a moment, the whole area was covered by the sword and sword. The sword marks pierced through the void, tearing the earth and roaring.

Wang Fan's moves were all murderous and merciless. When the third sword fell, he directly killed the man Xiu on the spot.

Chapter 3614

The red blood mist shot, and the man was cut to pieces in an instant, and the way of life and death disappeared.

He did not expect that he would die like this.

You know, he is the strong one in the five levels of xianzun. Even in the face of the ordinary seven levels of xianzun, he has the power of the first battle.

But he didn't think that he died in the hands of Wang Fan.

Of course, this also has something to do with his contempt for Wang Fan and his hard shaking.

Otherwise, if he realized the horror of the eight types of Shenjian in advance and chose to avoid, Wang Fan might not be able to kill him.

"My husband!"

When the male monk died, the female monk's eyes also showed a sense of despair, and screamed bitterly.

They have been together for decades. They get along with each other day and night, and their feelings are also very deep.

But now her husband is dead.

"You killed my husband. Let's die together." She is crazy toward Wang Fan roar, then one side of the crazy rush to Wang Fan, while directly began to explode.

It's not that she doesn't want to escape, but that she knows she can't escape at all.

No matter how fast she is, she is no faster than Wang Fan, who is proficient in space rules.

"Die together?" Wang Fan looked at the madness rushed to the nun, disdain cold hum, but for the immortal five levels of self explosion, he is also extremely afraid.

Without the slightest hesitation, Wang Fan directly moved the space and disappeared in the same place.

Almost at the moment when he disappeared, there was a bang, and the nun's body was also split into blood mist.

Hundreds of miles away, Wang Fan's body appeared, but ignored the self exploding nun behind him, and directly disappeared at the edge of the endless deep sea.

To kill the couple, Wang Fan did not have the slightest burden in his heart.

He has never been soft on anyone who wants his life.

Endless city.

As always, the noise, countless monks constantly in and out, it is very lively and prosperous.

Wang Fan was stained with blood, carrying a sea demon, strode towards the endless City, but it didn't seem abrupt.

At the moment, he has changed his breath, the seventh floor of xianzun.

Any monk can change the breath, but it has no effect on the top strong.

As long as the other party's mental power is too much higher than you, you will directly see your depth.

In addition, once they fight, they can't hide it at all.

Now, endless city and the emperor of Chu Dynasty are looking for him, so he doesn't dare to show his true cultivation at all.

You know, there are not many monks in the city.

Once he enters the city with the breath of true cultivation, he will surely attract attention.

After entering the endless City, Wang Fan strode directly towards the endless commercial building.

Sirens can be sold in endless commercial buildings.

The main purpose of his visit was to see if there was any other way to get on board.

As for the tickets, he would never dare to use them, especially the lower class tickets.

Because as long as the endless city and the emperor of Chu Dynasty are not fools, they will know that Wang fan can afford to buy low class tickets.

Let's not say that Wang fan is Tianjiao of Wangyun palace, but he killed so many immortals and got enough Yunxian pills.

Therefore, if Wang Fan's guess is right, on the day the spaceship takes off, whether it's the emperor of Chu dynasty or endless City, he will definitely focus on those who buy low class tickets.

"Ah, billion Yun elixir is gone. We must find a way to make endless City spit out in the future."

Thinking of this, Wang Fan's heart is also a little depressed.

He quickly sold the siren and then walked out.

Wang Fan just left the endless business building, and a friar who looked very obscene quickly came up.

"Master, are you going to Zhongzhou holy land? Have you got the ticket? If I don't buy it, I have a way to let my predecessors pass. "

The monk's voice is very low, and he still uses his spiritual power to transmit sound, but his cultivation is not low, and he has reached the sixth level of immortal.

Wang fan can't help but think it's funny that a sixth floor immortal should be called "seventh floor immortal".

However, his heart is very surprised.

Sure enough, even in places like endless commercial buildings, there are scalpers, especially when the spaceship is about to set sail.

However, Wang Fan was pleasantly surprised, but on the surface he was extremely alert. He looked at the man, a look at the liar's expression, but did not speak.

As soon as the man saw Wang Fan's expression, he immediately knew that he was a newcomer who had just entered the city. He could not help but despise him.

But his appearance is a pile of laughter, again the spirit of the voice way, "senior, I know a big man, also want to go to the holy land of Zhongzhou, but it is lack of a few guards."

"As long as you become her escort, you can board the boat and go to the holy land of Zhongzhou. Of course, there are no cabins. You can only live in the whole shop. "When Wang Fan heard this, the vigilance in his eyes dissipated, and his eyes moved, as if moved. After a long time, he asked with the same mental strength, "what's the price?"

"It's not expensive. It's 500 million yuan." The man said.

When Wang Fan heard this, he turned his eyes and immediately left without hesitation.

Even if he can take out 500 million Yun elixir, he will not give it. He doesn't want to be a big injustice.

What's more, the 500 million Yun elixir is really a little expensive.

Of course, the most important thing is that ordinary monks can't bring out 500 million elixirs. This is not a small amount.

"Master, don't go yet. We can talk about the price." Seeing that Wang Fan was about to leave, the man said quickly.

Wang fan is not nonsense, directly way, "300 million, no matter how much I can't take out, OK, no matter, big deal wait for the next spaceship."

When he heard Wang Fan's words, he was stunned at first, then gritted his teeth and nodded, "OK, 300 million is 300 million."

Then he grabbed a communication bead and threw it to Wang Fan. "This is my communication bead. I will contact you then."

After that, the man left the spot in a hurry.

Wang Fan also no nonsense, quickly put away the communication bead, and then directly left the endless city.

More than ten days later, Wang Fan was practicing and suddenly received a message from the man.

More than two hours later, he came to the endless commercial building.

Male repair also have no nonsense, directly took Wang Fan to a mansion.

There is no plaque in this residence, and I don't know who it is, but there are many monks inside.

Wang Fan felt those friars' breath, his eyes couldn't help coagulating, and he was a little wary in his heart.

Because in this mansion, there are two monks on the ninth floor of xianzun, six monks on the eighth floor of xianzun, and thirteen monks on the seventh floor of xianzun.

As for the early and middle stages of xianzun, there are also some, which add up to less than 20 people.

Wang Fan followed the male monk into the mansion and soon saw the monks.

All the people on the left are late monks of xianzun, but the one in the front is a seven story woman of xianzun.

On the left and right sides of the woman, there was an immortal standing on the ninth floor.

In the camp on the right, there are only three people in xianzun's later stage, while all the others are in xianzun's junior high school.

Wang fan can see at a glance that the people on the left are probably the real guardians of women, while the people on the right are mostly those who are pulled in by cattle to make up for the number.

Chapter 3615

"You go there first."

Sure enough, after taking Wang Fan into the martial arts arena of the mansion, the man immediately pointed to the crowd on the right and said, at the same time, he winked at Wang Fan.

Wang Fan naturally understood this guy's meaning, and he didn't talk nonsense. He directly grabbed a space ring and gave it to the other party, and then went to the right crowd.

Male repair took the space ring, mental power quickly swept, and then immediately nodded and bowed, smiling came to the woman's side.

"Water fairy." He said with a flattering face, and respectfully sent the space ring Wang Fan handed over to the nun.

The nun didn't talk nonsense either. After checking the space ring, she took out a space ring and gave it to the nun. Then she said, "OK, you can go."

"Yes, yes." Male repair also dare not talk nonsense, took space ring, then quickly left the mansion.

Wang Fan looks at the appearance that the male repairs to leave, in the heart not from of a burst of disdain.

This guy turned out to be a pimp.

Ah, it's true that cats have their way, mice have their way, and everyone has his own way of life.

The water fairy waited until the male monk left, then he looked at Wang Fan and said, "tomorrow we will set out for Zhongzhou holy land."

"Your identity is my guard, but it's the lowest guard. After you board the ship, you will all be arranged to the bottom of the ship. "

"I would also like to remind you that I am only responsible for bringing you on board and arranging for the final storage."

"As for the future, I will not care. Whether you can get to the holy land of Zhongzhou alive has nothing to do with me. Do you understand?"

"I understand."

Wang Fan and his party answered quickly.

These people want to board the spaceship with the help of women's escort. As for others, they dare not ask for anything.

What's more, all the guardians of the Narcissus are in the later stage of the immortal statue, and there are even two immortal statues with nine levels, and the cultivation of the Narcissus has reached seven levels.

Only three of them have reached the seventh level of immortality.

In this case, even if they want to be guards, they are not qualified.

After all, you are not as strong as others. How can you protect them?

"Well, now that you know it, go and have a rest. You can live in the palace there at will."

Water fairy to see a group of people nodded, there is no nonsense, pointing to the palace not far away said.

The reason why she took people on board in this way was that she just wanted to earn some resources and everyone had their own needs.

As for the guards, except for Wang Fan and other three immortals, she didn't look up to them at all.

Even if it was Wang Fan, she didn't think much about it.

She is the daughter of the water family in the endless City, and her grandfather is one of the eight elders

who protect the city. How can she take a fancy to Wang Fan?

If it were not for her own resources, I'm afraid she would not have earned it by this means.

The time of the night passed quickly, and the next day soon came.

Early the next morning, the Narcissus gathered all the people and went to the square of endless city.

By the time they got to the square in the city, there were already hundreds of people on it.

In the center of the square, a huge spaceship docked. In front of the spaceship, dozens of city guards have been standing.

The accomplishments of those Chengwei were all in the later period of xianzun, which was extremely powerful.

The two elders, led by him, have reached the peak of immortal cultivation.

Since arriving at the square in the city, Wang Fan seems a little nervous.

He did not know whether the emperor of Chu Dynasty was here or not, and whether he would expose himself.

Once not exposed, OK, but once exposed, waiting for him, almost dead.

However, Wang Fan has no way.

This area, he has been unable to continue to survive, middle and low-level states do not dare to go back, afraid to bring disaster.

Endless deep sea, he is not the strength to cross, almost ten dead without life.

So he had to take his chances like this.

He could only hope that the water fairy had a special identity, and the emperor of Chu dynasty did not dare to be too presumptuous to her people.

"Water girl, take your people up first."

Not long after Wang Fan and his party appeared, one of the two old men guarding the entrance of the spaceship waved to the water fairy and said.

"Yes, Lao Zu." Water fairy smell speech, also have no nonsense, bow a salute, then take Wang Fan and others, toward the spaceship walked past.

Wang Fan looked at this scene, and he couldn't believe it.

One of the two strong men guarding the entrance of the spaceship is actually the ancestor of the water fairy?

What a surprise.

However, even if he was ecstatic, he did not dare to show it. Instead, he followed the water fairy and others and walked towards the spaceship step by step. For the water fairies, no matter the other strong man or the other city guards, they didn't pay much attention to them, and didn't even use their mental energy to investigate them.

Are you kidding? Elder water is one of the eight guardians of endless city. How noble is his position?

What's more, the strong people who are in charge of escorting are even more high-level people in the water family. In this case, how dare they check the people in the water family?

Although endless city has ordered that every friar on board must be carefully investigated, they dare not do so.

After all, once they dare to check these people, whether Wang fan is found or not, they will not have good fruit to eat in the future.

However, those who are strong in endless City dare not investigate the water fairies, but the king of Chu dare.

Almost at the moment when Wang Fan and his party walked towards the spaceship, in an inn, the spirit of the emperor of the Chu Dynasty had swept out, directly towards the water fairy and his party.

His mental strength is so strong that it comes in an instant.

Under the pressure of that huge mental power, the water fairy's delicate body suddenly changed, and the next second, her face became pale.

As for the guards behind her, except for the two immortals who had only slightly changed their faces, all the others were shocked.

The friars at or below the seventh floor of xianzun couldn't help bleeding and bending their bodies.

At this moment, Wang Fan's face is also changed, instant pale.

The emperor of Chu dynasty?

The first time he knew who was the master of this spiritual power.

In a flash, Wang Fan's heart was frightened, and he even had the idea of moving away immediately.

However, this kind of idea just appeared and was forced out by him.

In this case, it would be even more dangerous if he left.

Moreover, the immortal is the ancestor of the water fairy. Wang fan doesn't believe that the other party won't interfere in this matter.

After all, if only he was oppressed, the other side could not intervene.

But now, the other party's younger water fairies have also been affected. If this can be tolerated, where is the authority of the strong?

"Hum, old dog Chu, what do you mean? It's a great prestige."

Sure enough, just as Wang Fan thought of it, the ancestor of the water fairy was angry.

With a cold hum, he took a step in an instant, and his mental power swept out, directly dispersing the mental power of the emperor of Chu Dynasty.

At the same time, the Narcissus did not hesitate, quickly boarded the spacecraft, Wang Fan and others naturally followed.

Chapter 3616

This is a great opportunity for Wang Fan. As long as he enters the spaceship, the emperor of Chu Dynasty will never dare to continue to investigate or go on board for inspection.

After all, this is the endless City, and the spaceship is the spaceship of the endless city. If the emperor of Chu Dynasty was allowed to enter, it would be a big joke.

At that time, where is the majesty of the endless city and the strong water family?

As for the spaceship started, endless City strong will check again, Wang fan is not too concerned.

Under the cover of the water fairy's identity, even the inspection will not affect him.

You know, he was brought up by the water fairy. If he has a problem, doesn't it mean that the water family has a problem?

At that time, most of the people who check them will suffer, unless they are more honorable than the old man of the water family.

In a word, Wang Fan thinks that as long as he gets on the spaceship, he will be safe for the time being.

Sure enough, after Wang Fan boarded the spaceship, a shadow came from the sky and appeared directly in front of the spaceship.

This is no other than the emperor of Chu Dynasty.

At the moment, the face of the emperor of Chu Dynasty was full of anger. He looked at the strong man in the water family coldly and said: "shuiqingshan, what do you mean? I'm just probing. Why do you stop me? "

At the moment, the emperor of Chu Dynasty is really angry.

Before, he just made a general survey, but without further exploration, he had been interrupted.

If Wang Fan was really among the water fairies, he would have missed it.

Of course, that's not critical.

If it was just like this, he would not be so angry, and he would not come directly to fight against shuiqingshan.

But shuiqingshan, an old man, scolded him directly. I can't bear it.

He is the emperor of Chu Dynasty. He is also a person. The existence of xianzun peak is not weaker than shuiqingshan.

Now, in full view of the public, shuiqingshan dare to insult him like this. How can he bear it?

Shuiqingshan looked at the emperor of Chu Dynasty who came from the Imperial Palace, disdainingly to sneer, "those are all my water family, what's the problem?"

"Old dog of Chu, you should make it clear that this is endless City, not your Chu Dynasty. You can be arrogant in your Chu Dynasty, but if you want to be arrogant in my endless city and say something bad, you are not qualified. "

"What's more, the people of my water family, do you want what you want? I can't control how you treat other people, but if you want to do something to my water family, you can't do it. "

Shuiqingshan is also a very strong person, but also very short.

Others are afraid of the emperor of Chu Dynasty, but he is not.

What's more, the emperor of Chu dynasty did not dare to fight him here.

"You --" the emperor of Chu Dynasty was even more angry when he heard this.

Those people just now are just a group of slaves of the water family. As for that?

Even the younger generation with the surname of Shui, it's just shuiqingshan. I don't know how many generations have passed. Is that so?

He's really going mad.

After all, he didn't hurt or kill people, just some people with mental power and prestige spit blood. It's just hematemeses. It's not even injury.

"What are you doing? I heard that you, the Chu Dynasty, colluded with the Dark Alliance, not to mention, but also allied two other forces to attack the Wangyun palace twice? At last, he was beaten down? "

"Chu, you are a cow. If you are such a waste, you can't even provoke Wangyun palace. How dare you provoke me

"Believe it or not, if you dare to talk nonsense, I will take people to destroy your Chu dynasty?"

Shuiqingshan disdains to stare at the emperor of Chu Dynasty, which is also very overbearing.

It's just a piece of rubbish. If you dare to fight against his descendants, you're looking for death.

This time, the emperor of Chu Dynasty was really about to vomit blood.

It's true that good things don't go out and bad things spread far away.

He was defeated twice, and even shuiqingshan dared to challenge him directly.

This time, the king of Chu really couldn't help it.

If he can bear it, he will never see anyone again.

What's more, shuiqingshan is so powerful and overbearing that he obviously doesn't want him to find Wang Fan, but wants to swallow Wang Fan's immortal veins.

How can he not see through this?

In fact, the emperor of Chu Dynasty really wronged shuiqingshan.

Although shuiqingshan also covets Wang Fan's immortal pulse, he really doesn't intend to turn a face with the emperor of Chu Dynasty for this matter.

The reason why he appeared so angry, directly provoked the emperor of Chu Dynasty, and even did not hesitate to expose each other's scars, was because the emperor of Chu Dynasty attacked Wang Fan and his party.

He is a very short guard, but also very overbearing, he really can't tolerate other people's provocation. It's not only him, even the other elders of endless city.

You know, endless city is not a good place. This kind of profiteering business is done here all the year round. It can be said that most monks are living a precarious life. It can be said that there are countless cruel people.

The competition and blood here are far more brutal than in other places.

Once you don't show some strong and domineering, some day, someone will put the idea on your family.

Eight city protection elders, there is competition.

This time, if he allowed the emperor of Chu Dynasty to bully the younger generation, and did not fight back, next time, perhaps other elders would dare to fight against his lineage.

But the emperor of Chu Dynasty didn't know this. In his rage, he directly killed shuiqingshan.

All of a sudden, the brilliant light was shining, and the golden light diffused from the emperor of Chu Dynasty, forming a cage in the air, directly towards shuiqingshan.

In his hands, there is a shining sword, which penetrates the void and cuts directly to shuiqingshan.

"To die."

Seeing this, shuiqingshan was also very angry. With a roar, he rose up and killed the emperor of Chu Dynasty.

With a bang and a blow from shuiqingshan, the cage formed by the emperor of the Chu Dynasty was smashed. The next second, with a halberd in the air, he directly cleaved to the sword of the emperor of the Chu Dynasty.

"Chu, you've gone too far." In addition, the xianzun peak strongman who was with shuiqingshan was also angry.

However, he did not attack the emperor of Chu Dynasty. Instead, he directly dodged and set up a border

around him to protect the friars and the spaceship.

"The emperor of Chu, what do you mean? Why do you do it in my endless city? Are you deceiving me that there is no one in my endless city?"

"Master Chu, how dare you

"Lord Chu, you are looking for death."

At the same time, several angry voices came from the direction of the city Lord's mansion. The next second, the three elders had appeared in the void not far away and killed the emperor of the Chu Dynasty.

In the spaceship, Wang Fan watched this scene and was also shocked.

Is that a fight?

He didn't think of it at all.

Chapter 3617

Wang Fan was careful all the way, and soon followed the water fairy into the cabin.

The spaceship is very big and has five levels. The first level is the warehouse, the second level is the low level cabin, the third level is the medium level cabin, and the fourth level is the high level cabin. As for the fifth level, it is the residence of the strong in endless city.

After all, it's not a simple matter to fly to the holy land of Zhongzhou. There must be top strong people.

"You go to the fourth floor with me first, and then wait for everyone to board the ship."

After entering the cabin, the water fairy said directly to Wang Fan and his party.

Until now, her face is a little white.

Previously, the mental power of the emperor of Chu dynasty did not hurt her, but it still gave her a kind of palpitation.

At that moment, she even felt that her life was out of her control, as if she would be killed at any time.

"Yes."

Wang Fan and his party did not talk nonsense and nodded quickly.

The party soon went up to the fourth floor and entered the high cabin.

Wang Fan looked at the magnificent high-level cabin, and was almost stunned.

It's too extravagant.

In fact, every high-level cabin can be regarded as a small palace, which can be divided into inner palace and outer palace.

Wang Fan and his party were not qualified to enter the inner hall. In fact, they were lucky to enter the outer hall.

The water fairy arranged Wang Fan and his party in the outer hall, and then directly entered the inner hall.

At this time, the outside war is still going on.

However, the emperor of Chu Dynasty was obviously not an opponent. After a few minutes of the war, he left quickly with a roar.

The rest of the endless City strongmen, though angry, did not pursue and kill.

It is not an easy thing to kill the emperor of Chu Dynasty when his cultivation reaches this level.

The most important thing is that once the emperor of Chu Dynasty launched a fierce attack, they were likely to be injured or fall.

In this case, no one dares to pursue and kill.

When the emperor of Chu Dynasty retreated, the water family once again took charge of boarding the ship.

Those friars who bought the tickets, with a face of fear, carefully boarded the ship under the supervision and surveillance of endless city guards.

During this period, there are several strong people in endless city are checking those people, looking for Wang Fan.

After all, there are immortal veins in Wang Fan's body, but no one is indifferent to such things as immortal veins.

It's a pity that they didn't find Wang Fan until the last one got on the boat.

"It seems that Wang Fan didn't come." After everyone got on the spaceship, an old man couldn't help sighing and his eyes were a little disappointed.

The old man's words fell, and a man beside him sighed and said,

"it's just something expected. No matter how evil Wang fan is, he is only immortal. How can he dare to board the ship in such a situation. What's more, it's said that the guy is very smart. How can he do such a stupid thing? "

"Well." The old man nodded and then said, "let the people above check and see all the empty cabins."

"According to our investigation and conjecture, Wang fan should have bought a low class ticket. If it's full, there's a problem. "

With his words, someone soon went on board to investigate.

A few minutes later, the guard returned and said respectfully, "elder, there is a cabin empty."

"I see." The old man nodded, then didn't say anything more, his body flashed and disappeared without a trace.

The rest of the strong people in endless City sighed and quickly disappeared.

Since the cabin is empty, Wang Fan must not have come.

As for whether Wang Fan will get involved, no one has ever thought about it.

After all, almost everyone, except the water fairies, has been checked by them.

As for the water fairies, they were also examined by the emperor of the Chu Dynasty.

At that time, many people were shocked and vomited blood by the mental power of the emperor of Chu Dynasty.

In this case, if Wang Fan was among them, how could the emperor of Chu Dynasty not find out?

It's just a level of immortal, even if it's easy to change its appearance, and then it's easy to restrain the hidden breath. After all, there's no reason not to be exposed.

What's more, it's still the emperor of Chu Dynasty who is familiar with Wang Fan to check the water fairy. In this case, it's easier to find Wang Fan.

Of course, they didn't know that Wang Fan's spiritual strength was strong and that he was a covert means against heaven.

Otherwise, they would not think so.

With a line of strong left, those envious passers-by around also scattered.

Soon, the spaceship made a roar, then soared into the sky.

On the spaceship, Wang Fan felt the vibration of the spaceship, which was a little relieved. Finally, he flew. If he didn't, he would be worried.

With the flight of the spaceship, not long after Kung Fu, a friar in armor came here.

The water fairy came out of the inner cabin.

"Water fairy." The leading ship guard monk was on the eighth floor of xianzun. When he saw the water fairy, he bowed slightly.

The water fairy waved his hand, "don't be so polite. Take them away."

"Yes The eight story guard of xianzun didn't hesitate. He straightened up his waist and gave Wang Fan and his party a cold look. "Follow me."

Then he walked out of the hall door.

Wang Fan and his party did not dare to talk nonsense, and quickly followed.

Under the guidance of the monk, Wang Fan and his party soon left the fourth floor and rushed to the first floor.

Wang Fan all the way, are carefully observing the surrounding environment and route.

No way. The spaceship is too big, and his situation is not absolutely safe, so it's necessary to observe it carefully.

At least, if he has an accident on the first floor, he can go to the fourth floor at the first time, can't he?

However, Wang Fan soon discovered that there were many prohibitions on the spaceship, most of which were hidden trigger prohibitions, and even some hidden monitoring prohibitions.

"This endless city is really insidious. There are so many prohibitions that are useless. Is this a Yin man?"

"If you don't notice it, if you touch it carelessly, you'll be in trouble. No, you don't have to touch it. I'm afraid every move is monitored by others. "

Wang Fan thinks so in the heart, at the same time also more vigilant rise.

He can understand the arrangement of hidden touch prohibition on the spaceship, but he can also arrange this kind of monitoring prohibition. What's the meaning of this? Is this monitoring all the monks?

Fortunately, he swaggered under the guidance of the ship guard, which gave him a chance to explore.

Otherwise, he may not be able to discover these prohibitions.

Monks are very fast, a few minutes later, Wang Fan and his party have been taken to the first floor.

The first floor, also has many rooms, but those rooms are very broken, and there is a smell of corrosion.

Inside the room, some sundries can be seen everywhere, and even in some corners, there are many dark red blood traces.

Chapter 3618

Obviously, there have been more than one deaths in this warehouse. Otherwise, there would be no such bloodstain.

But Wang Fan wondered whether these people were killed by each other or by the strong.

It's better to kill each other, but it's dangerous to be slaughtered by the strong.

"It seems that this endless city is really not a good thing." Wang Fan's heart murmured, but on the surface he was silent. He followed some other people into the warehouse.

The area of the warehouse is very large, with more than 1000 square meters. It's enough for them to live in more than 20 people.

But soon, Wang Fan's face changed again, because another ship guard came in with nearly 100 people.

Wang Fan looked at the nearly 100 people and couldn't help cursing in his heart.

This is the person who brought up by Gui sun. We are all immortal and powerful people, but now we are crowded in this kind of warehouse. It's too oppressive.

Of course, Wang Fan's heart was low, but he didn't dare to show it on the surface.

"Next, you will live here. If you are attacked by monsters, you must take part in the war. "

"What's more, although you spent Yun Xiandan to get on the boat, you also used the identity of escort. If there's a big auction on the ship and so on, you're also responsible for maintaining order. "

"Finally, be honest with me. If you dare to do anything, you can drop the spaceship directly into the

endless deep sea."

After everyone entered the warehouse, a guard on the ninth floor of xianzun boat looked at Wang Fan and his party, gave a cold and angry shout, and then left the bottom warehouse.

Wang Fan and his party listened to these words, their faces were extremely ugly, but they did not dare to say anything more. Who made them inferior to others.

Wang Fan quickly found a corner to sit down, and then closed his eyes.

There were also some monks sitting around him, and there was no communication between them.

As for position grabbing, at least it hasn't happened at the moment.

Inside the bottom storehouse, it's very quiet. Everyone is closing their eyes or practicing simply.

During Wang Fan's simple practice, five monks in brocade robes gathered in a luxurious room on the fifth floor of the spaceship, all with smiles on their faces.

"Elder Wu, did Wang Fan get on the spaceship? According to what we know about that guy, he seems to be very evil. If he changes his appearance and hides his breath, I'm afraid we may not be able to detect something wrong. "

This is a young monk who looks to be in his thirties.

Of course, he seems to be in his thirties. In fact, he is thousands of years old.

This man is named shuiyouxing. He is a strong man in the water family of endless City, and his strength is extremely strong.

Similarly, this person is also one of the five strong escorts.

The old man, Wu Lankui, who was called elder Wu, frowned and said for a long time, "what you said is not impossible, but the possibility is very low."

"No matter how evil Wang fan is, his cultivation is only immortal. It's incredible that we can hide so much that we can't find out. "

Wu Lankui's voice just fell, and a middle-aged man on the opposite side also said, "elder Wu is right. This possibility is too low."

"Besides, we don't have to worry about it, because it won't be long before we know if Wang fan is on the spaceship."

"So it is." When Shuiyouxing heard this, he couldn't help laughing. Then he didn't ask any more questions.

Di Cang, Wang Fan didn't know these things at all. He still closed his eyes, but he didn't speak. He was scolding.

Because he found that there was a hidden monitoring prohibition in the bottom warehouse.

What does this endless city want to do? Why are there hidden monitoring and prohibition everywhere?

Wang Fan's mental power looked around, but he didn't see anything valuable in the bottom warehouse.

What's more, valuable things are basically included in the space ring.

In this case, as for endless City, is there a hidden monitoring prohibition in the bottom warehouse?

On the spaceship, there are surveillance prohibitions everywhere, and they are all hidden, which is just too abnormal.

"Is it true that endless City suspects that I've mixed in with these people, which is the only way to set up a hidden monitoring ban?"

"Or, endless city has a bad intention, so it's setting up this kind of prohibition everywhere?"

"What's more, the rooms in low, medium and high cabins are not equipped with this kind of hidden monitoring prohibition?"

Wang Fan couldn't help murmuring, but he had no idea.

However, he became more cautious and even prepared to escape at any time.

The corridor outside the spaceship and the public area are equipped with hidden monitoring prohibition, which Wang Fan can understand. But it's not normal to place hidden monitoring prohibition in the bottom warehouse.

If there are all the rooms above, there is definitely a problem.

Of course, Wang Fan wanted to return, but he didn't act rashly and didn't go to investigate.

After all, his identity is very sensitive now. I dare not go to find out easily.

Once exposed, it's dangerous.

The next period of time, calm, nothing happened.

In the bottom warehouse, everyone was extremely silent, and no voice came out.

We are all monks of xianzun. It's not a problem even if we don't talk for several months.

In this way, three months have passed quickly.

On this day, Wang Fan was resting with his eyes closed. Suddenly, he felt the ship shaking violently.

In a flash, not only Wang Fan opened his eyes, but also all the others.

"What happened?"

"Have you been attacked by monsters?"

"It's very likely that everyone will cheer up and be careful."

There was a lot of discussion and everyone was in danger.

Not to mention those monks who were in xianzun's junior high school, even those who were in xianzun's later stage, their faces were extremely ugly.

At this time, an eight story ship guard of xianzun also flew in a hurry and said, "our spaceship has been attacked by demons and beasts. Now everyone will follow me and go out to fight."

The voice of the ship's guard fell, and without any hesitation, he rushed straight ahead.

Wang Fan and his party did not hesitate to follow.

When they saw those monsters, they were almost dumbfounded.

In the sky, countless monsters are dense, just like an army of monsters.

The strength of those monsters varies from high to low.

Those with high accomplishments are as strong as those of xianzun, while those with weak accomplishments are as good as those of xianzun.

At least Wang Fan didn't feel the monsters in the early days of xianzun.

At the same time, countless strong people are fighting with those monsters, which is extremely cruel and bloody.

From time to time, the corpses of monsters or friars will fall from the air, and even many times, monsters and friars will disappear out of thin air and be bombarded into powder.

Chapter 3619

Wang Fan looked at this scene, his face could not help but slightly pale.

Even he felt unparalleled pressure and danger at the moment.

It's terrible.

You know, they have only gone for a few months, and now they haven't even reached the deep sea. They have met so many monsters.

If this continues, will they really survive?

"What are you doing? Why don't you go to the war? If the monster takes down the spaceship, all of us will die. "

When Wang Fan's heart was shocked, the ship guard looked coldly at Wang Fan and his party and roared fiercely.

At the same time, a few strong breath also appeared in the direction around, and their accomplishments have reached the eighth level of immortal statue.

Wang Fan felt the scene and scolded in his heart.

These bastards, why don't they kill monsters?

Now the situation is so critical that even the friars who bought the tickets have gone out to fight. On the spaceship, there are four or five immortals watching?

However, although Wang Fan and others are very upset in their hearts, they dare not say anything more and kill them quickly.

"Kill

"Kill

"Kill all these monsters!"

All the people roared wildly, and their breath was extremely violent in an instant, and their eyes were full of murders.

No one wants to die, and no one wants to die in the hands of monsters.

These people spend a lot of money to board the spaceship in order to go to the holy land of Zhongzhou to seek opportunities and make greater breakthroughs.

So, at this time, they have to work hard.

Wang Fan and his party rushed out one after another and soon approached the monsters.

Among the monsters, naturally, some people have noticed Wang Fan and his party.

In a flash, dozens of monsters split up in an instant and killed Wang Fan and his party with a roar.

Of course, Wang Fan didn't plan to fight with these monsters. He didn't wait for the monsters to get close. The lightning flashed at his feet. The next moment, he disappeared in the same place and rushed to the distance.

At this time, he did not dare to make a big move.

Once the space move is performed, it means that he has exposed his identity.

And once the identity is exposed, even if the monster does not kill him, those people in endless city will not let him go.

Whoosh, whoosh.

Seeing that Wang Fan wanted to escape, some monsters were furious and roared to kill Wang Fan.

Some monsters spew thunder and lightning, while others spew sword and roar at Wang Fan.

The scene was a mess.

Wang Fan's body flickered quickly, hiding in the East, and soon escaped many attacks.

At the same time, his mental power is also released, and he wants to find out the situation around him and see if there are strong people around him.

If there is no strong around, then he quickly killed these monsters, and then tried to hide, waiting for the end of the war. If there are strong people around, they have to continue to flee.

Although the battle is very fierce at the moment, the scene is also very chaotic, but Wang fan does not think that these monsters can break the spaceship.

If so, endless city is a joke.

In addition, Wang Fan also felt that something was wrong.

Because he found that most of those fighting friars were friars in civilian clothes.

But there are few ship guards on the spaceship.

In addition, before he was on the spaceship, he also felt the breath of several immortal eight strong men.

Is all this premeditated?

Wang Fan thinks so in the heart, suddenly the facial expression can't help but change for a while, suddenly saw to one of directions.

Because he clearly noticed that at the moment when a monk was killed, a figure flashed to his side and took away his space ring in an instant.

Originally, this kind of thing won't cause Wang Fan to care. After all, it's normal for him to take away his opponent's space ring after killing his opponent, and he often does it.

But now he felt something was wrong.

You know, at the moment, we are fighting with the demons. How tragic is the scene?

In this case, how can anyone want to collect space ring?

Shouldn't we think about killing our opponents or trying to escape?

Wang Fan's heart is puzzled, while flashing quickly to avoid the monster attack behind him, he continues to investigate.

Soon, he was shocked again.

Because with this careful investigation, he found that many people were wandering in the battlefield, constantly collecting the space rings of those dead monks.

The most important thing is that these friars do not fight with monsters, or even attack them.

In addition, Wang Fan even saw several ship guards.

"Is it all a bureau? Is endless city in collusion with monsters? Do you want to use this method to kill us and seize resources?" Wang Fan was stunned. He was really stunned.

It's incredible.

I'm afraid to think about it!

Endless City, even colluding with monsters, secretly set up friars who went to the holy land of Zhongzhou, which makes Wang Fan shudder.

"I can't stay on the ship any longer. I have to leave and get out of here as soon as possible. Otherwise, once the war is over, I'm afraid it will be my death. "

"It's just that there are so many experts around. I'm afraid there are also strong people staring at the battlefield on the spaceship. Should I escape like this?"

"I'm afraid it's even more dangerous to get the other person's attention."

Wang Fan whispered, but he had a headache.

Because he really doesn't want to be on the ship anymore.

Originally, he thought that it would be more dangerous to cross the endless deep sea alone.

But now, he doesn't think so.

It's more dangerous to be with such despicable and insidious people as endless city than to cross the endless deep sea.

"Roar

Just as Wang Fan was thinking about how to escape, suddenly, a terrible threat came.

The next second, accompanied by an earth shaking monster roar came, followed by Wang Fan will see, those monsters like tide retreated.

The dense group of monsters retreated in an instant. Without any hesitation, they disappeared in an instant.

Almost at the moment when the monster retreated, another threat came from the distance, and then a human figure entered the spaceship from far to near.

The speed, even Wang Fan, did not capture each other's face.

Almost after the shadow rushed into the spaceship, a ship guard suddenly soared into the air and yelled, "our elder has defeated the elder and forced him to order the monster to retreat. Please come back and let's continue our journey."

"The elder is mighty!"

Listening to the Deacon's voice, the surviving friars could not help roaring with excitement.

Even some early friars of xianzun were so excited that they were about to cry.

It's not easy. They thought they were going to die.

I didn't expect that I survived.

With the sound of the crowd, the cabin door of the spaceship opened quickly, and all the surviving friars got on board one after another.

Wang Fan sees this, also completely snuffed out the idea of leaving, hurriedly followed to return to the spaceship together.

But on the way back, his mental strength was to check the bodies of the dead monks.

Chapter 3620

This investigation doesn't matter. Wang fan can't help but feel a slight jump.

Sure enough, all the space rings on the monks disappeared.

Wang fan can't help but feel dark. These endless City friars are really cruel.

They earn the resources of these monks, but they kill these people with the help of demons and beasts, and take away the remaining resources. It's insane and inhuman.

Wang Fan's heart is very angry, but even if he is angry again, he can't do anything.

If you don't have enough strength, you can only pretend you don't know.

Soon, a line of friars have boarded the spacecraft, came to an open area.

Here, there are already more than 20 ship guards waiting. The first one, wearing silver armor, has a rebellious look in his eyes. He is a nine story monk of xianzun.

Seeing the return of the crowd, he raised a bitter feeling in the corner of his mouth and said, "it's your destiny that you can come back safely."

"It's a shame that we didn't expect to be attacked by monsters here."

"We are here to thank you. If it were not for you, I'm afraid the spaceship would have been captured. At that time, even if the wood elder frightens the demon king, I'm afraid it doesn't make much sense. "

The friar in silver armour was very sad, and he was very guilty.

After that, he bowed deeply to Wang Fan.

"You are welcome, sir. These are our responsibilities. Only with one heart can we safely reach the holy land of Zhongzhou. "

"That's right. Going to the holy land of Zhongzhou is very dangerous. We are prepared for it."

"Well, I hope the danger will be less in the future, and everyone can arrive at the holy land of Zhongzhou safely."

Wang Fan and his party saw the expression of the monk in the ninth floor of xianzun and the attitude of the other party. Many people showed respectful expression and began to speak one after another.

Wang Fan and a small number of people, superficial perfunctory, but the heart is in the sneer.

In the previous war, perhaps most of the monks didn't pay attention to the surrounding conditions, and didn't pay attention to the ship guards of endless City, but some people did.

These guys, at the critical moment, don't work hard, just instigate or even force them to fight. Their hearts are to blame.

Of course, at this time, no one dares to say more. Even if he is dissatisfied, he can only bear it.

Here, the endless city ship guard is the boss. If you offend them, there will be only one way out.

Wang Fan stood in the crowd and observed the friars around him.

He was surprised to find that the water fairies were not there.

Can we say that the friars in the high class didn't do anything?

But think about it. Most of those friars in the high cabin have extraordinary status, strong background and strong strength. There are even people in endless cities like water fairies.

In this case, how dare they count on each other?

Hateful!

Endless city these dog things, is also the master of bullying.

Wang Fan thought bitterly in his heart, and he was more wary of these endless city ship guards.

"Well, let's go down and have a rest. Today, many friars died in battle, and many cabins are empty. "

"From now on, friars in the bottom cabin can find a room in the lower cabin without any charge. The rest will be rewarded with ten million elixirs. "

The monk of silver armour on the ninth floor of xianzun glanced at the crowd and said again.

When he said this, most monks became excited.

There are already a lot of ten million immortal pills.

Although many of them have bought sky high price tickets, they have accumulated for countless years and risked their lives again and again.

What's more, after the purchase of the tickets, most of the friars had little left.

Of course, Wang Fan didn't have many surprises.

Because he just changed his living environment.

Although he lives at the bottom of the warehouse, he bought a low class ticket, but he didn't dare to live.

What's more, he has already discovered the shameless behavior of endless City, and naturally he is not happy.

Of course, Wang Fan was calm in his heart, but on the surface he still made a surprise expression.

In this case, he can't show any abnormality.

The silver friar on the ninth floor of xianzun disappeared in the same place without any further nonsense.

Wang Fan and others lived in the lower cabin under the arrangement.

As for the others, they went back to their rooms and were rewarded with 10 million yunxiandan.

Lower cabin, in one of the rooms.

Wang Fan entered the room the first time, the spirit of careful sweep up.

Soon, he was in a hidden position, aware of a surveillance ban.

"That's mean." Aware of the monitoring ban, Wang Fan secretly scolded a word in his heart, very unhappy.

However, he did not dare to move the monitoring system immediately, and made the appearance of cultivation and recuperation.

Wang Fan was sure that someone was watching him at this time, so he didn't dare to act rashly.

"Endless City, these people are so dark, now my every move is under the monitoring of the other party, which is a little troublesome."

"If under such circumstances, a ship guard directly kills me and takes my things, what should I do?"

"The cultivation I'm showing now is on the seventh floor of xianzun. If someone comes to attack me, it's at least the eighth floor of xianzun, or even the ninth floor of xianzun. Ah."

On the surface, Wang Fan pretended to be practicing, but in his mind he was thinking about it.

That's a bit of a problem.

"No, we have to find a chance to change the monitoring array in a moment, otherwise, we will die."

Wang fan made up his mind, and then carefully began to set up a ban.

He didn't dare to move the other side's monitoring prohibition, but planned to set up a magic array, so that the other side could see only the environment.

Only in this way can he feel safe.

Otherwise, being monitored and watched all the time will be like a thorn in the throat and make it difficult to sleep and eat.

It took Wang Fan a whole day to set up a fairly good magic array.

The magic array is very simple. There are only some images of Wang Fan practicing and walking back and forth.

After the arrangement of the magic array, he gritted his teeth, instantly stimulated the magic array, and wrapped the whole room directly.

After all this, Wang Fan went directly to the window, and his mental power quickly spread out and became cautious.

He didn't know if anyone had noticed at that moment.

If no one is aware of it, it's better, but if some people are aware of it, it's dangerous.

The other party will definitely come over at the first time and attack him.

Once this happens, he will break the window and escape from the spaceship.

Fifth floor.

In a room.

Several strong men of endless city are sitting in one of the rooms, counting the spoils of the war.

Beside them, there are nearly a hundred space rings.

"I'm poor, I'm really poor. I don't know how these guys got to the immortal realm. How could they be so poor?"

"Ah, it's really disappointing for these friars to have only gained so much after such a long time."

These five guys, while checking those space rings, can't help cursing. They look shameless.
