Chapter 3621

While counting the spoils of war, the five strong men talk and laugh, and sometimes curse, which makes them feel very comfortable.

"Why?" At one moment, one of the strong faces could not help changing slightly. The next second, his mental power had spread out.

Just now, he felt a very weak fluctuation, like a spatial fluctuation.

However, when his mental power covered the whole spaceship, he did not find any abnormality.

"Elder Wu, who are you? What happened?" On one side, shuiyouxing feels the fluctuation of Wu Lankui's spiritual power, and he can't help but have some doubts.

The other three, eyes also all fell on Wu Lankui, revealing the attitude of inquiry.

"It's OK." Wu Lan Kui shook his head, but he couldn't help muttering. Did he feel wrong?

His mental power once again covered the spaceship and began to explore carefully, but he got nothing.

Lower cabin.

Wang Fan didn't know that he had set up a magic array, which was almost discovered by Wu Lankui, the peak of xianzun. At the moment, he was still on the alert.

However, when half an hour passed and he didn't notice the abnormality, he couldn't help breathing a sigh of relief.

There has been no movement for such a long time. It seems that there is no danger.

Wang Fan vomited a breath and began to grasp Yun Xian Dan to cultivate.

In fact, he didn't want to practice with Yun Xiandan, because the effect was too small.

But idle is also idle, and he does not dare to practice with immortal pulse, so he can only do so.

In the twinkling of an eye, another month passed.

In the past month, Wang Fan's accomplishments did not increase significantly at all, so he did not practice and went out of the room.

Outside the room, there is a small open area similar to the hall, where you can see the situation outside

the spacecraft.

When Wang Fan went there, several monks had gathered there.

These friars chatted in twos and threes, and there was a trace of sadness between the brows of many friars.

"Well, I heard that another monk disappeared last night, do you know?"

"Ah? Another monk missing? I don't know. "

"What's the matter? Why are people always missing? Is someone hunting US monks? "

"Who knows? If I hadn't known the monk who disappeared last night, I'm afraid I wouldn't have known about it."

"It is said that not only those of us, even those in medium class, high class, and even the endless city ship guard, are missing. This is really terrible."

Just as Wang Fan sat down, he heard a burst of comments.

Hearing these sounds, his heart suddenly couldn't help clapping.

What? A monk is missing?

How is that possible?

Is endless city ship guard so blatant? I used to hunt them with the help of monsters, but now I have started to do it myself?

Wang Fan thought in his heart, and quickly approached a friar carefully, and asked, "brother, please tell me someone is missing. What's the matter?"

"You don't know?" The friar heard Wang Fan's words, as if he had gone to hell. He looked at Wang Fan inconceivably, as if he were looking at aliens.

Such a big thing happened in the lower cabin, and nobody even knew it?

Wang fanwei was a little embarrassed, "I've been practicing all this time, but I haven't come out, so -"

the monk suddenly said, "who knows what's going on? Since half a month ago, people have been missing."

"In just half a month, I don't know about the middle and high class. On our side of the low class, five

people have disappeared, including two xianzun ship guards."

"It is said that the adults above have launched an investigation, but so far, no results have been found."

"Ah, so terrible?" Wang Fan looks shocked on the surface, but he is alert in his heart.

This guy of endless city is getting more and more crazy. It seems that he has to find a way to leave the spaceship.

Wang Fan thought so in his heart. Instead of continuing the conversation, he sat down on the other side and thought about the Countermeasures in his mind.

More than an hour later, he did not stay, but quickly returned to the room.

After returning to the room, Wang Fan began to decorate the trapped array and killing array crazily for the first time.

His current strength is not high, once there is a ship guard on him, then he is in danger.

After all, there's nothing wrong with being careful.

However, it wasn't long before Wang fan arranged the array. He felt that his door had been knocked.

"Someone's coming?" When Wang Fan heard the knock on the door, he couldn't help clapping.

The next second, his mental power has been subconsciously swept out.

Outside his room stood a monk on the seventh floor of xianzun. The friar Wang Fan didn't know each other, but he saw that the other was changed.

To tell you the truth, the other side's method of changing looks is quite clever. Most monks are afraid that they can't detect it at all.

But Wang fan is an expert in face changing, so the first time he noticed it.

"Yirong? The seventh floor of xianzun? What does he want to do?" Wang fan saw this scene and immediately became alert.

There must be something wrong with this man coming here for no reason.

A series of thoughts flashed in my mind, but Wang Fan didn't hesitate. He answered and opened the door quickly.

"Elder martial brother, I have something to discuss with you." At the first time when Wang Fan opened

the door, the other side opened his mouth and said it, then flashed in instantly. At the same time, he took the door with him and did not say it, and also played countless shielding array disks.

This series of actions can be described as fast to the extreme, obviously afraid of the situation in the room being noticed by the guests around.

Wang Fan looked at this scene, inner sneer, the surface is some doubts, even panic, "this elder martial brother, are you?"

He asked, but the immortal yuan in his body suddenly walked up, and his mental power even communicated with the archaic sword.

He didn't stop the other party from arranging the prohibitions, because he was also afraid of fighting later, and the fluctuation in the room would disturb others.

Almost as soon as Wang Fan's words came to an end, the man had already arranged the shielding and prohibition system. Then he looked at Wang Fan with a smile on his face, "younger martial brother, I have --"

however, before his words were finished, Wang Fan threw his left hand, and in an instant, countless array plates had already been thrown to the opposite side.

The next second, Wang Fan's immortal realm swept out, completely shrouding the other side. At the same time, his right hand had already grasped the archaic sword, which bloomed brilliantly and chopped directly at the other side.

Wang Fan's series of actions were also extremely fast. Almost as soon as the other side finished arranging the shielding prohibition and opened his mouth, it began.

"You --" the immortal seven layers didn't expect that Wang Fan would say that he would do it as soon as he could, and it was so fast.

The most important thing is that he didn't want to understand why Wang Fan didn't do it when he put the shield array disk, but at this time.

However, no matter how confused he was, he didn't have time to think about it.

"To die!" A roar, he also bloomed a bright light, a direct blow toward Wang Fan in the past.

Chapter 3622

With a roar, Taigu's sword was cut on the opponent's fist, and a hissing sound was immediately made.

At the next moment, the fist of the seven layers of immortal Zun had been broken, and the whole person fell to the rear.

At the same time, under the raging energy, the prohibition in the room began to vibrate wildly.

Wang Fan looked at the scene, his face slightly ugly.

However, he didn't hesitate at all. Xianyuan surged out of his body and cut it out with a sword.

"Immortal Emperor level magic weapon? The first floor of xianzun? Are you wang fan

That immortal Zun seven layers also returned to God, his eyes bloomed a blazing, roaring, body shape instantly disappeared in situ.

At the same time, in his hand, there appeared a long sword of Zun level, which was directly aimed at Wang Fan.

Boom!

Two more blasts came out, and their attacks fell on those prohibitions, which started to shake wildly again.

At the same time, Wang Fan's face was slightly ugly.

This guy is so strong!

Not only that, the other party even knows his identity, it seems to be really dangerous.

At the same time, he finally understood why his breath cultivation was the seventh level of immortal, but endless city was just a seventh level of immortal.

At present, the seven levels of xianzun is definitely not the ordinary seven levels of xianzun, but the extremely strong one. The other side is confident and can kill the friars of the same level.

"Wang Fan, I didn't expect you to hide here. Ha ha, it seems that I deserve to be rich. "

That immortal Zun seven layer one hit not, but is more excited, at the same time roar, at the same time again toward Wang Fan crazy kill.

This is Wang Fan. This is immortal pulse.

Let's not mention the immortal pulse, even if it's just the archaic sword in Wang Fan's hand, it's already priceless and hard to buy.

If he can kill Wang Fan and take things from Wang Fan, he will be rich.

Of course, the premise is that Wang Fan's identity should not be known by other strong people in endless City, otherwise, he will not be involved.

Think of here, that immortal Zun seven attack is crazy.

Wang fan is also Ning Mei, and the other side launched a crazy war.

The seventh floor of xianzun wants to kill Wang Fan and take things from Wang Fan. Wang Fan also wants to kill each other to prevent his identity from leaking out.

For a moment, there was a constant roar in the room, and the sword, light, knife and awn ran across the whole room, and those who bombarded trembled more severely.

And with the war, Wang Fan's heart is more and more heavy, and even had some wounds on his body.

"No, if it goes on, I'm afraid I'm not his opponent. And once there are endless City strongmen who dare to come, it's really dangerous. "

Wang Fan thought so in his heart, but he didn't want to continue the crazy fight any more. Instead, he evaded the attack of the other side and chopped around with one sword after another.

This seven story immortal is too powerful for him to deal with.

If it were not for the archaic sword in his hand, he would have been defeated or even killed seriously.

"Wang Fan, what are you doing? Stop! Now it's just you and me. I promise that as long as you give me the sword in your hand, I will withdraw immediately, and I won't expose your identity. Otherwise, you will die. "

Seeing that Wang Fan was not in the fierce fight, the seventh floor immortal began to bombard those prohibitions crazily. His heart also began to be very anxious, and even his voice became hysterical.

If he can kill Wang Fan in the room, Wang Fan's things will be his.

But once Wang Fan breaks the ban, he can only divide a small part of Wang Fan's body.

The most important thing is that he can't get the archaic sword and immortal pulse.

"You mean it? I'll give you the sword. Don't you expose my identity? " Wang Fan heard the immortal seven layer words, heart sneer, but the surface is made a moving expression.

Hand over the archaic sword? Are you kidding? Do you want to die?

It was with the archaic sword that he was able to stand off with his opponent until now.

If you hand over the archaic sword, you will surely die.

At the same time, Wang Fan was also shocked. The other side's array was really terrible. He attacked for so long, but he didn't open it.

"Yes, if you give me the archaic sword, I swear, I will never expose your identity."

That immortal Zun seven layers roar a way.

"Then stop now, and I'll believe you." Wang Fan said.

After hearing this, the immortal suddenly retreated and stopped.

However, he stopped, but Wang Fan did not stop.

Previously, he needed to avoid the attack of the other side while bombarding the forbidden system.

But now the other side stops, he has no scruples.

Boom boom!

In the blink of an eye, Wang Fan's three swords split on the prohibition. In an instant, the prohibition was torn. Then, with another bang, the whole floor began to shake.

"The strong of endless City killed, the strong of endless City killed."

Wang Fan roared and began to bombard the low cabins around him.

Those lower cabins have no defensive array at all, so they burst in a roaring sound.

At the same time, in the front hall, some monks were also surprised and rushed to this side.

"What do you mean?"

"What's the matter?"

"The friars of endless city are killing people?"

"Damn it, it's those dogs."

"I've long guessed it was them."

For a moment, the whole lower cabin began to be in chaos, shouting and swearing.

The immortal looking at this scene was almost furious.

Hateful thing, dare to play such a hand?

However, at this time, he could not care to pursue Wang Fan.

Because several people have killed him.

Although most of the friars in the lower class are casual practitioners, their accomplishments are not very high.

But there were also some monks in xianzun's later period.

For a time, several immortal Zun killed the man in the later period, and the man was losing.

At the moment, he is really about to explode.

He was given Yin by Wang Fan.

"To die!"

With a roar, he waved the long sword again, and the endless awn of the sword ran across the sky, cutting directly at the friars who surrounded him.

Whoa, whoa, whoa!

Under that terrible killing, in an instant, several xianzun junior high school friars fell here.

In front, Wang fan is aware of this scene, and is going to turn around and fight back to kill the immortal seven layers.

But soon his face changed again.

"Stop it

A strong and incomparable spirit came from the distance, and the next second, an angry and low voice sounded.

"Death

Wang Fan noticed this scene, did not even think about it, his Taigu sword in his hand swept across the sky again, directly toward the direction of spiritual power.

Then, he quickly put away several corpses, and directly moved the space, and disappeared in the same place in the blink of an eye.

Xianzun comes to the ninth floor, which is not what Wang fan can deal with.

Let alone deal with it. Once the other party really arrives, he will not even have the strength to resist.

Chapter 3623

Wang Fan disappeared only in a flash, and a shadow of a man appeared here.

His body was filled with terror and awe, his eyes were cold, and his face was gloomy and terrible.

At the same time, the fighting not far away stopped.

Whether it was the seventh floor of xianzun who broke into Wang Fan's room or the low class friars who attacked each other, they all stopped, and no one dared to move again.

No way, this person's strength is too strong.

Xianzun ninth floor, that's not what they can deal with.

"What's going on here? Who gave you the courage to do it here? " Wu Lankui's eyes scan the crowd, and his murders are rampant.

Fortunately, he got here in time, otherwise something might go wrong.

At the same time, he was extremely dissatisfied with the seventh floor of xianzun who went to Wang Fan's room.

It's a waste to make such a big stir when dealing with just a peer.

"Master, this man broke into our lower cabin to kill people. If it wasn't for that elder martial brother's strength, I'm afraid he would have killed him. "

"Yes, sir, this man is very strange. We haven't met him. He doesn't look like a person in our lower cabin. He is so unscrupulous and indiscriminately kills innocent people. I think most of them are related to the mysterious killer recently. "

Several friars in the lower cabin soon recovered. They looked at the seventh floor of xianzun with an angry face and said to Wu Lankui.

It's so unscrupulous that someone dares to kill these friars in the lower cabin.

If this kind of thing is not solved, how can their safety be guaranteed?

Of course, if it had not been for the recent disappearance of monks, they might not have been so angry.

But now, of course, people are in danger.

"Master, I am." The immortal's face was also a little ugly, because he did not expect this kind of thing to happen.

In his opinion, it is more than enough for him to kill Wang Fan, who is on the same stage. There will be no problem at all.

What's more, the defensive and shielding array disks he threw out were all made by great power, not to mention the seventh floor of xianzun, even the ninth floor of xianzun, which was not so easy to smash.

However, in this case, something went wrong, and he was helpless.

"You are only seven stories of immortal. You dare to make trouble on my spaceship. You are looking for death."

Wu Lankui didn't give the other party a chance to speak at all. He yelled angrily and slapped directly the next second.

This kind of thing is absolutely not related to his endless City, otherwise, once all monks riot, it will be a big trouble.

Therefore, he did not dare to let the other party talk more, and directly chose to kill people.

"My Lord, you --" the immortal felt this scene, and his face became more ugly.

In his body, Xianyuan is rampant, and the field of xianzun is spreading out. He wants to open his mouth, but he can't say it at all.

There is still a big gap between the seventh floor and the ninth floor.

Boom, a deep explosion, Wu Lan Kui's fist has been on him in an instant, his body suddenly burst, the spirit all died.

Those people around looking at this scene, are a dull face, heart crazy tremor.

Strong. It's really strong.

They had seen with their own eyes how strong the immortal was.

But even so, in front of Wu Lankui, it was so vulnerable, this ...

"well, there's nothing left, you're all busy. If anyone dares to make trouble on the spaceship again, he will be severely punished. "

Wu Lan Kui cold scan a circle, drop a word, disappear directly.

After he disappeared, a ship guard immediately came forward and cleaned up the body of the seven story monk.

Five floors.

Wu Lankui soon returned to the room, his face was very ugly.

When shuiyouxing saw Wu Lankui coming back, he couldn't help frowning and asked, "where's the friar in the lower cabin? Why didn't I feel his breath?"

Not only him, but also the other three immortals.

Although they didn't have the past, their mental strength was always there, even covering the whole spaceship, but they didn't find Wang Fan at all.

Among the five, Wu Lankui was the most powerful, so the four could only ask him.

Hearing this, Wu Lankui's face was even more ugly. "I don't know where he went. This man is very good at hiding and has strong fighting power."

"If what I expected is right, it should be that he took advantage of the moment when I went, he became a guest in another room and hid in the crowd."

Wu Lankui said here, is really going crazy, "not only that, this person is also very cunning, and good at the way of space."

"At the moment when I was about to arrive, I smashed the space directly and moved the space, which made me lose my sense of space and him.""Well?" When shuiyouxing and others heard this, their faces couldn't help changing, "are you good at the way of space? Yirong? Is he Wang Fan? "

Their faces have really changed.

Because this feature is too similar to Wang Fan.

The only thing that is hard to explain is how Wang Fan, who has only one floor of xianzun, escaped from the hands of Xingyue, who is on the seventh floor of xianzun, and how he smashed the top array set up by Xingyue.

Even if Wang Fan holds the Immortal Emperor level magic weapon, he may not be able to do this, right?

Wu Lan Kui nodded, "yes, it should be Wang Fan. Unexpectedly, he really mixed up."

Wu Lankui's eyes twinkled, "Wang fan should know something about us. Next, we must find him out as soon as possible and then kill him. Otherwise, there will be endless trouble. "

When they heard the words, they all nodded.

Wang Fan mixed up, this is not a big deal, but Wang Fan even know their affairs, this is a big deal.

The most important thing is that their people have killed Wang Fan and failed, which is even bigger.

If Wang fan doesn't get rid of it, there will really be big trouble.

Didn't you see that even the emperor of Chu Dynasty resented Wang Fan?

As they spoke, they released their mental strength again and began to search crazily.

Their mental power began to search inch by inch. Looking at the situation, even if it was three feet of the Jedi, they had to find out Wang Fan.

Lower cabin.

Wang Fan has entered a room.

At the moment, Yi Rong became a monk with five layers of beard. He was "healing" with a frightened face.

This man was not killed by him, but by the seventh floor of xianzun who attacked him.

Wang Fan just put away the body of the other party, and after the first time to move the space, he quickly put on the other party's clothes and changed his appearance.

"Endless city is really insidious. The ninth floor of xianzun is also a cruel man. He even said to kill the seventh floor of xianzun. "

"But it's also a good thing for me. As soon as the immortal is dead, my identity will not be exposed."

Wang Fan whispered in a low voice, but soon shook his head with a dignified face,

"no, no, I even exposed my breath after I rushed out of the room. If the other person was careful, he should be able to feel my true cultivation. Is my identity exposed? "

Chapter 3624

Wang Fan instantly realized a very serious problem, his identity, mostly exposed.

In this way, next, those strong people on the spaceship will be desperate to find him and kill him.

After all, let's not say that he knows the insidious of those strong men in endless city. Let's say that his Immortal Emperor level magic weapons and immortal pulse are enough to make these people envious.

"It seems that we can't stay here any longer. We must leave the spaceship as soon as possible."

Wang Fan murmured in a low voice. He was planning to release his mental strength and find out if there was any way to go out.

But at this time, his face suddenly changed, and five powerful mental powers had fallen on him.

These five mental forces are constantly scanning and wandering on him, as if they want to find out everything about him.

Wang Fan was aware of the scene, and his whole body was cold.

Five strong men explored him inch by inch. He didn't know whether he could hide it.

However, at this time, he did not dare to act rashly, and even more did not dare to show abnormality.

Once he shows his abnormality, the five strong men can definitely rush in front of him at the first time. In that case, he will surely die.

"It's insidious and despicable to have these hairs in endless city." Wang Fan secretly scolded, but he did not dare to move.

He's really going to collapse, he's going to despair.

The great crisis enveloped him, which was comparable to being chased and killed by the emperor of Chu Dynasty last time.

"Boom!"

Just when Wang Fan was worried, there was a sudden explosion outside. The next moment, the spaceship started a violent riot.

Wang Fan obviously felt that the five mental powers vibrated violently. The next moment, he took them all back.

"Boom boom!"

At the same time, a series of blasts came, and the spacecraft began to shake violently again.

Wang Fan's mental power swept out, and immediately saw that there were more than ten monsters standing in the void in front of the spaceship.

More than ten monsters, with huge body size, were full of terror and awe.

Their breath is also extremely powerful, all of which are comparable to the top of the ninth floor of xianzun.

"There are monsters attacking the ship. Everyone is ready to fight."

When Wang fan saw the ten big demons, a cold sound came from the spaceship.

The next moment, Wang fan saw more than 20 people flying out.

Among the five leaders, one was Wu Lankui, who had appeared at the bottom of the warehouse before.

These more than 20 people all burst out a strong breath and looked at the ten odd monsters with vigilance, but they didn't start at the first time.

"Ladies and gentlemen, we are just passing by. We don't mean to offend you. This is a small gift. Please accept it. Don't hurt your friendship."

Shuiyouxing looks at the ten odd big demons, with a smile on his face. He throws out a space ring as he speaks.

One of them looks like a crocodile like monster coldly glances at shuiyouxing, and the huge claw grabs it, and the space ring is caught by it.

However, its spiritual power just swept on the ring, and then roared angrily, "humble human, are you sending beggars? How dare you play with me? You are looking for death. "

With the roar of this crocodile like monster, the rest of the monsters were also roaring, and their killing intentions were constantly pouring out, and powerful attacks were also spouted out of their mouths.

Seeing this scene, shuiyouxing's face changed greatly. Then he became cold and said angrily, "everyone, we are just passing by. Don't deceive people too much."

His heart is also very bad, you know, he has given a lot of things.

But who knows, these monsters are so greedy that they are not satisfied at all.

They didn't expect that they would meet more than ten big demons here, which are comparable to the

peak of xianzun.

You know, it's far from deep into the endless deep sea. It's impossible to meet such a big demon.

"Deceiving others too much, ha ha ha, it seems that you are really playing with yourself. In that case, you will die!"

Crocodile monster also laughs, saying that the huge body shape has pulled out the space crack in the void, and directly killed shuiyouxing and others.

"Greedy beast, kill!"

Shuiyouxing and his party were also angry. They drank loudly and killed more than ten big demons one after another.

At the same time, hundreds of friars rushed out of the spaceship, high class and medium class areas, and directly killed these big demons.

The friars in the medium and high cabins are no better than those in the low cabins. Their strength is very strong.

Especially in the high class, there are many monks at the peak of xianzun.

However, in the previous battle, these people did not appear.

The friars in the lower cabin didn't go out.

They dare not go out.

This kind of level of war, with their strength, go out is to die. Wang Fan wanted to go out, but the hatch was blocked by the ship guard, so he couldn't get out at all.

"No, we have to find a way out, or at least get out of the lower cabin. Otherwise, once the war is over, I'm afraid I'll be in danger. "

Wang Fan, looking at the battle outside, was also anxious, but soon, he gritted his teeth and went straight to the xianzun seven story ship guard.

"What are you going to do?" The seven story guard of xianzun saw Wang Fan coming, and his face was cold. He pointed to Wang Fan and said angrily.

Wang fan is a face of smile, respectful way, "adult, I also want to participate in the war."

His eyes were blazing. "Even in the face of a strong enemy, how can we be afraid to fight? Although my

accomplishments are not high, I only have five levels of immortals, but I am not afraid of strong enemies. "

"Only by fighting can we make progress, and only by fighting can we improve cultivation. For our safety, you elders do not hesitate to fight with the big demon. I'm really sorry. "

"So, I'm going to fight."

Wang Fan's face is serious and resolute, and his eyes are full of surging fighting spirit.

However, his voice fell, but all the friars around were silly.

Is this guy a fool?

What's wrong with your brain?

It's just the fifth floor of xianzun. Do you want to go to war and kill the big demons in the ninth floor of xianzun?

Are you looking for death?

How did such a fool get to the fifth level of immortality?

At this moment, everyone thought that there was something wrong with Wang Fan's brain.

They are even thinking about how a Hun like Wang Fan, or a fool, lived to the present.

And the seven story ship guard of xianzun was also muddled and looked like a ghost.

However, at the moment when he was stunned, Wang Fan's mental power suddenly developed. In his right hand, there was the Taigu sword. The immortal yuan in his body suddenly went away, and his blood essence burned. The next moment, the Taigu sword was cut out.

The hot red light was shining on the cabin, and a startling sword came out and cut directly at the seven layers of xianzun's body.

The immortal seven layers didn't react at all. With a sneer, the powerful sword had already torn his body and chopped his head.

"Ladies and gentlemen, these ship guards are despicable and insidious, secretly killing us and seizing our resources. Do you still want to stay on board?"

"If we stay on the ship, we will die. Only when we go out, can we have a chance of life. Let's take the next step."

After killing the ship guard, Wang Fan suddenly roared at the friars around him. The next second, he had already rushed out of the spaceship.

These friars may not be powerful, but they are not fools. He doesn't believe it. No one can see the despicable and insidious activities of endless city.

Chapter 3625

Sure enough, Wang Fan's voice fell, and many low cabin friars' faces became ugly, and their eyes began to flicker.

In particular, the only few late monks of xianzun were struggling.

Is it really a fool to reach this stage of cultivation?

They had already felt something wrong, but they just kept it in their heart.

There's no way. The strength of those strong people in endless city is really too strong. They can't be provoked at all.

Wang Fan didn't care about the changes in the monks' mind. He had already used the lightning skill and rushed out quickly.

"Bold!"

Wu Lankui and other friars who were fighting with monsters also noticed the changes on the other side of the spaceship, and they were furious one by one.

"Brute, how dare you

"How dare you kill my ship guard? You are looking for death!"

Although they are fighting with monsters, they are staring at the angry roar of Wang Fan.

No one thought that under such circumstances, someone would dare to kill the ship guard and rush out of the cabin.

This is the face of chiguoguo.

"How dare you? court death? Ha ha, old man, I think you are looking for death. "

"After receiving our sky high price tickets, I secretly calculated on us to seize our resources. You animals without a bottom line should die in the mouth of monsters."

Wang Fan originally intended to run away directly, but after hearing Wu Lankui and others' scolding, he was also angry.

He resolutely gave up the first time to escape, but suddenly soared up, directly toward Wu Lan Kui killed in the past.

At the same time, he was released from the immortal realm, and the immortal yuan in his body suddenly ran away. The Taigu sword in his hand cut out a sword that shook the sky in mid air, and cut directly at Wu Lankui.

Even if he can't kill the dog, he has to create obstacles for the other party.

He did not believe that the monster who was fighting with Wu Lankui would not seize this opportunity.

You know, when the monster reaches the peak of immortal, his wisdom is no worse than that of human beings.

"Wang Fan? Are you wang fan

Wu Lankui felt the meaning of the sword, and his face suddenly became gloomy. At the same time, he knew the identity of Wang Fan.

Is it a magic weapon at the level of Immortal Emperor or a magic weapon at the level of Immortal Emperor like sword?

"Since you want to die, I will help you."

Wu Lan Kui roared angrily and beat back the monster crazily. The next second, his body flashed directly and killed Wang Fan.

Wang Fan looked at this scene, his face couldn't help changing slightly. He didn't hesitate at all. He showed his space in a moment and left.

At the same time, Wang Fan's heart is also in the crazy curse, that monster is a fool? This kind of opportunity has not grasped, but also is defeated by Wu Lankui, is simply too waste.

If he had known that the monster was such a waste, he would not have acted rashly.

"Death

Wu Lankui rushed to Wang Fan, and the monster also came back. Its shadow, which blocked the sky and the sun, broke through the air in an instant, and killed Wu Lankui directly, and began to work hard.

It didn't want to save Wang Fan, but wanted to take the opportunity to kill Wu Lankui.

This old man is so insidious that he even hid his strength before.

If Wang Fan didn't do it, it would be killed by this old thing.

"Little beast, you can't escape. Today, you will surely die."

Wu Lankui felt that the monster had killed him, and he was furious.

He first roared at the direction of Wang Fan's escape. The next second, he turned back and continued to fight with the monster.

Seeing that Wu Lankui turned to fight with him, the monster was also worthy of it, and launched a collision with it crazily.

This monster may not be as powerful as Wu Lankui, but the difference is not very big. Coupled with the natural strong defense, it is not easy for Wu Lankui to kill him in a short time.

This one person a demon hit hot, roaring sound is endless, a drop of blood is like rain, blood in the sky.

A hundred miles away, Wang Fan's figure appeared, surprised to see a person and a demon fighting in the rear.

The next moment, he had once again made a big move and appeared directly above their heads.

"I'll give you a hand." Wang Fan roared, and the archaic sword fell across the sky again. In a flash, the sword awns tore through the void, and with a sense of terror, he chopped at Wu Lankui.

After Wang Fan cut out a sword, he didn't continue to take charge of things here, but flashed away and disappeared in the same place.

He's going. This time he's going.

If you don't leave, it's over.

On the other side, Wu Lan Kui trembled with anger. He wanted to go back and kill Wang Fan.

Unfortunately, when Wang Fan cut out the sword, the monster was even more crazy. Wu Lankui was pressed to retreat, but he couldn't get away for a while.

The endless sword fell on him, and immediately tore out countless wounds.

Although not fatal, or even seriously injured, but also suffered some injuries.

"Wang Fan, I will kill you."

Wu Lankui is really going crazy.

At this moment, he can finally understand the feelings of the emperor of Chu Dynasty at that time.

They are the top leaders of xianzun, but they are teased and provoked by just a layer of ants. This is really unbearable.

Wang fan doesn't care about Wu Lankui's affairs. He just wants to get even with the old man and endless city.

Wang Fan's figure flickered, and soon he was gone.

However, he just flew less than a thousand miles, his face was ugly.

The next moment, Wang Fan instant convergence breath, body disappeared in place.

Hundreds of miles in front of him, a group of daffodils were fighting with monsters.

There are already layers of border over there, shielding the combat wave and mental detection.

If it wasn't for Wang Fan's powerful spirit, he would have broken into hundreds of Li area, I'm afraid it would have been imperceptible.

"What are these people doing? Is the cave in front of them a monster's nest? Good guy, I'm not afraid to take advantage of the war to dig out the monster's nest. "

Wang Fan was shocked.

He already knew what the daffodils were doing. They were digging out the monster's nest.

However, Wang Fan's only doubt is that the monster's treasure will not be put in the space ring? What do you do in the nest?

Wang Fan thinks so in the heart, investigated again a water fairy a group of people.

I saw that in addition to the original water fairy, there were three more ship guards.

Moreover, the accomplishments of the three ship guards were also very interesting. There were nine immortal statues, eight immortal statues and seven immortal statues.

Wang Fan looked at those people and his brain turned quickly.

"The water fairy is the lineage of the water family in the endless city. It has a high status. Should I go and have a look and try to disguise as her guard?"

"The endless deep sea is too dangerous. If I cross it alone, I will die."

"But if you can disguise as a water fairy guard, it will be different. You can also use them to deal with the danger."

Chapter 3626

"Wealth in danger, fight!" Wang Fan quickly gritted his teeth and made up his mind. Then he rushed cautiously towards the water fairy and his party.

When he was nearly a hundred miles away from the water fairies, dozens of monsters came out of the cave and roared, fighting with the water fairies.

However, due to the arrangement of the border, the roar of those monsters did not come out. Wang Fan could only see them with their mouths open, but could not hear any sound.

At the same time, Wang Fan also from the water fairy that pedestrian and monster fighting, probably identified those monster strength.

Among the dozens of monsters, one of them should be equivalent to the Ninth level monk of xianzun. At the moment, he is fighting with the only ninth level monk of xianzun.

And the rest of the monster, the strength is also high and low, is fighting with other people.

Many monsters are killed in an instant. Obviously, their strength is very low and they haven't grown up yet.

Wang Fan looked at this scene, it is some soul stirring.

He once again carefully forward a step, carefully watching the war inside.

In this case, he must seize the opportunity to disguise as those guards and enter.

If the time is not grasped, or is detected, it can be delivered to the door.

Beyond the demon cave, the war is still breaking out.

In a short time, more than ten monsters were beheaded. Of course, five or six of the daffodils' guards died.

As for the Narcissus himself, he was slowly approaching the cave entrance by two eight level guardians.

As for the two immortals around her, they didn't follow. Instead, they were fighting with the top ten monsters of immortals together with the strong of endless city.

Outside the demon cave.

The water fairy's face was also very dignified. She took a look at the scene of the battle. At a certain moment, she yelled at a guard on the eighth floor of the immortal statue, "Xuanzhao, go and help elder Xu."

"Miss, here it is." Xuanzhao heard the water fairy's order, but he couldn't help hesitating slightly.

Elder Xu, who is the only immortal ninth floor, is fighting with that immortal ninth floor.

But if he left, what about the water fairy?

You know, the water fairy is the best descendant of the water family, and has a high status in the water family.

If he died, he would be killed by shuiyouxing even if he returned to the spaceship.

"Don't talk nonsense. Go and make a quick decision. Otherwise, once the ten big demons come back, we will all be in danger. "

The water fairy saw Xuanzhao hesitated, and his face immediately froze and said quickly.

There are more than ten big demons outside. Wu Lankui and his party may not be rivals.

Once the big demons return in time, they will be in real danger.

"Well, be careful, miss." Xuanzhao saw that the water fairy was so determined that he didn't dare to say anything more. With a flash of his body, he rushed to elder Xu's battlefield.

That big demon sees Xuan Zhao to rush to, is also more furious.

"Damn human beings, you are looking for death."

At the same time, it is also using the giant to catch the crazy attacker.

It knows that only by breaking the barrier and letting the big demons outside know what's going on here can they survive.

Otherwise, once the stalemate continues, they will all die.

The roaring sound is constantly spread out, forbidden under the bombardment of the big demon, crazy

tremor, but always unable to break.

Soon, Xuan Zhao and elder Xu have also come around to kill, and the attack is even more crazy.

Seeing this, the big demon didn't care to continue to bombard the prohibition, so he could only turn around and fight with them, and could only find an opportunity to bombard the prohibition.

At this time, the rest of the battlefield, dozens of monsters have been killed only less than ten.

Moreover, the situation of the ten monsters is also very miserable. They are being pressed and beaten. Obviously, they won't last long.

Wang Fan looked at this scene, not from some speechless, but also anxious.

"It can't work. If it goes on like this, once all the monsters are killed, how can I get in. Ah, the big monster is really suck, but can't break the prohibition. Forget it. Let me help you

Wang Fan helplessly shakes his head and grabs the archaic sword directly. At the same time, he keeps leaning towards the other side.

If he wants to get in and disguise as a water fairy guard, the prohibition must be smashed.

Otherwise, the prohibition will not be broken. How can he get in and pretend to be?

Once the war is over, all the casualties will be counted out. At that time, if he disguises a dead man, isn't it equivalent to hiding his ears and stealing his bell?

Wang Fan's body flickered, and he soon approached the forbidden area.

The next second, his mental power surged out of the sky, stirring the barrier, and at the same time, the archaic sword in his hand had been blown out.

Boom boom!

At the moment when the archaic sword burst out, the explosion began to ring out madly, and the void was torn out of cracks, shaking the world and the earth. Countless swords were surging wildly, carrying a fiery red sword and cutting directly to the forbidden area.

With a deep explosion, the prohibition began to vibrate madly, and a crack appeared.

"Who?"

"Son of a bitch, you dare."

At the same time, the narcissus and his party all changed their faces and yelled at Wang Fan angrily.

At such a time, even if someone dares to do something bad to them, they are looking for death.

Wang fan is regardless of them, the heart is very helpless.

One sword failed to smash the prohibition system. The prohibition level is very high.

While Wang Fan was thinking about this, the big demon who was being killed by two people flashed his huge eyes like Tongling.

"Broken!"

It looked up to the sky and yelled angrily. Instead of taking care of the two people's attacks, it directly and innocently rushed to the tear on the prohibition.

"Beast, you dare!"

"To die!"

Elder Xu and Xuanzhao look at this scene, and their expressions become crazy.

Their offensive increased wildly, and they swept towards the big demon.

But the big demons didn't care at all. They let their attacks fall on them and only attacked them.

Boom boom!

There were three deep blasts, which broke with a click.

At the same time, Xu Changlao and Xuanzhao's attack also fell on the big demon.

The big demon was immediately lifted out, and countless blood holes were torn out of his body.

Serious injury.

"Run away!"

"Wang, someone's attacking the hinterland."

"Wang, help

The forbidden border was torn, and all kinds of animal roars, even human voices, came out crazily.

At the same time, the remaining big demons, all of them rose up in the air and fled to the distance.

They dare not continue to fight. If they continue, they will fall.

At the same time, not far away from the bloody battle of more than ten big demons, also aware of the movement here, have fury.

"You're looking for death!"

"Kill

More than ten monsters all became crazy in an instant, and their attack became more violent.

"Go, two people kill him, the rest follow me."

The water fairy was so angry that he pointed to Wang fan not far away and roared out. The next moment, he quickly flashed into the demon cave.

As for the others, they killed Wang Fan directly, and a few others killed the fleeing demons.

Only more than ten people followed the water fairy into the demon cave.

Chapter 3627

It's a mess.

In a flash, the area of ten thousand li was in complete chaos.

The roar resounded, more than ten big demons madly fought with those powerful people in the endless city. Where they passed, they were in a mess, just like the end.

At the same time, Wang fan can't help being a little stunned.

Two monks on the sixth floor of xianzun killed him. This was something he never thought about.

In his opinion, since ShuiXianzi and others have already known his identity, they will at least send a few xianzun seven or even one xianzun eight, but now... Wang fan is really confused.

Is it the daffodils or the two immortals?

Or do they have no idea what they're doing on board?

"Hum, just you two trash, you want to kill me, to die?"

However, Wang fan is not entangled in these, but disdain a cold hum, the next second, then directly

Yukong, crazy left the place.

"It's just a level of immortality. I dare to be so rampant and seek death."

The two immortals on the sixth floor were so provoked by Wang Fan, but they were also furious. They killed Wang Fan regardless of everything.

Wang fan is not willing to talk with them, just running all the way.

When he ran a thousand miles or so, he made a big move in space, and then disappeared in the same place.

He didn't want to kill them. It's only the sixth floor of xianzun. It's useless to kill them.

He didn't mean to pretend to be these two people, because if he pretended to be these two people, even if he returned to the spaceship, it would cause suspicion.

He has to find a way to impersonate those around the water fairy.

Wang Fan's speed is extremely fast, the space moves greatly, displays continuously, only several times then completely threw away two people, returned to the demon hole.

At this moment, the location of the demon cave entrance, the Narcissus has disappeared, only a fairy eight, is fighting with a big demon.

Two people fight is crazy, has been hundreds of miles around the entrance area, damage is a mess.

Wang Fan originally wanted to rush into the demon cave to chase the water fairy and others, and then he was waiting for an opportunity to try to impersonate them.

But when he saw this behind the scenes, he immediately changed his mind.

It's too dangerous to enter the demon cave, and it's very difficult to disguise.

He had to disguise as a monk who didn't die. He had to kill each other without the water fairy and his party noticing, and then disguise each other.

It's easy to say, but it's very difficult to do. It's just as difficult as heaven.

Therefore, it's better to pretend to be the eighth floor of xianzun who is fighting with monsters.

Wang Fan soon converged, began to be careful toward that one person and one demon, and began to gather strength.

If he alone against the immortal eight layers, it is almost impossible to kill each other, but with the help of monsters, it will be much easier.

At the moment, that immortal Zun eight layers is also very oppressive, simply angry to madness.

Because he was not the opponent of the monster at all. Although he used all his means, he was defeated and seriously injured.

"Beast, you die."

At a certain moment, he roared angrily, and the long sword in his hand crossed a bright rainbow in the air, and went straight to the monster.

The monster glared at Tongling, but it didn't dodge at all. While roaring wildly, it stretched out its big claw and bombarded each other wildly.

Whoosh!

Two deep blasts, the scales on the monster's body were instantly cut off, and there was a bloody mouth on his body.

The eighth floor of the immortal was even more miserable. His legs were pierced directly by the giant claws of the monster, and his lower body disappeared in an instant.

"Ah

Tearing roar resounded through the void, the immortal eight layer face pale, is also more furious.

"Beast, die, die."

He roared madly and threw the long knife in his hand. He stretched out his arms and hugged the monster.

At the same time, his breath began to expand, and a force of destruction swept across the sky.

"This guy's going to blow himself up?" Wang Fan also slightly frowned. He didn't expect that the situation had come to this point before he could make a move.

The powerful man of the eighth floor, who is forced by a monster, wants to explode.

However, at this time, Wang fan knows that he must not let the other party blow himself up.

That monster must not die.

Once the monster died, he would be in trouble.

Wang Fan's thoughts flashed in his mind, and then without hesitation, he stepped out in an instant. The Taigu sword in his hand had already set off a towering sword and cut it toward the immortal eight layers.

If that immortal Zun didn't get hurt, Wang Fan's sword might not be able to hurt him, but now——
"Who?" The immortal's face changed. This sudden scene made him stunned. At the same time, the self explosion had a short pause.

Whoa!

However, it was this short stagnant Kungfu that killed him completely.

Wang Fan's body twinkled and crossed the void in an instant. Then he grabbed the body of the opponent and threw out countless fireballs to cover the area of a hundred Li, and then quickly went away.

He wanted to clean up the atmosphere here and cover up the fact that the immortal was dead.

Not far away, the monster looked at this scene, also a little confused, completely did not want to understand what happened.

Aren't all the people here their enemies? How could anyone help themselves?

However, its doubts have not gone away, suddenly feel empty in front of a move, and then a figure appeared in front of it.

The monster looked at the appearance of the figure, is really some silly eyes.

It wants to rub its eyes.

Isn't this man dead?

Didn't his legs get knocked out by himself?

How did it come back?

This monster is very confused.

You know, people's appearance may be camouflaged, but the breath is very difficult to camouflage.

Especially for it, which is the later stage of immortal.

, however, as like as two peas, the former person is alive and breathing.

Wang Fan disguised the eight layers of immortal statues which were resurrected from the dead.

At the same time, Wang fan is no longer holding the archaic sword, but holding the immortal eight layer sword.

The monster was confused, but he didn't. instead, he roared and scolded each other. The next moment, he ran towards the demon cave.

Seeing Wang Fan's provocation, the monster didn't think about it so much. He roared angrily and went after him directly.

It has been too lazy to think about why the other party will die and come back to life, now it has only one idea, that is to kill all these damned human beings.

Wang Fan soon rushed into the demon cave and soon felt the smell of the water fairy.

At the moment, he looked extremely miserable, stained with blood, seriously injured and dying.

Wang Fan didn't say a word, so he ran towards the water fairy.

Behind him, the big demon was also roaring and angry.

"Xuanzhao?"

In front, the Narcissus also saw Wang Fan. She couldn't help but wonder. The next moment, her expression became chilly, "kill that beast."

Chapter 3628

At the moment, the water fairy and others have come to the side of a huge and magnificent palace.

The palace is similar to the human palace, but it is larger and more powerful.

It's said that it's the monster cave, but in fact it's no smaller than the general clan.

It covers an area of at least tens of thousands of square kilometers.

There are many temples of different sizes. Not far away, there are a group of monsters staring at the water fairies.

However, most of those monsters are not strong. They just stand far away and stare at them angrily, but they dare not go forward at all.

As for the foot of daffodils and others, at least 20 monsters died, apparently just killed.

"Monster clan?" Wang fan saw this scene, but also can't help some silly eyes.

It was the first time that he saw such a monster sect.

However, he didn't dare to speak at all. He just quickly fell behind the water fairy and others. Then he took out the healing pill and began to pack the healing pill.

Now he pretends to be someone else, and he doesn't know much about other people's personalities. Naturally, he doesn't dare to talk much.

Otherwise, once the clues are revealed and cause suspicion, it will be miserable.

In Wang Fan fall back to the crowd, pretending to heal, two people have also rushed to the chasing monster.

The monster had already been seriously injured in the previous war. At this time, he was attacked by two people at the same time, and naturally fell into the defeat.

It just supported for a short time, it has been completely killed, fell on the spot.

The water fairy didn't look over there, but pointed to the two people in front of him and said quickly, "let's go in together. Hurry up. The rest of us are here to intercept the returning monsters."

With that, the three of them flashed into the magnificent hall in front of them.

Wang Fan looks at this scene, his eyes are slightly strange, because he does not know what the three Narcissus want to do when they enter the hall.

If you want to collect resources, now whether people or demons have space rings, who will put resources in the hall.

If it's not for resources, what is it for? It's worth taking such a big risk?

Wang Fan thinks so in the heart, the mental strength quietly releases, wants to have a look inside the situation.

However, he found that his mental power was just close to the main hall and was blocked.

There is a boundary around the hall.

Will monsters also set up a border to shield their mental power?

Wang Fan has gained insight again.

But since I can't see it, I won't.

On the other side, the three water fairies have rushed into the hall.

Inside the main hall, three monsters, who didn't look very powerful, were staring at them angrily and roaring.

Water fairy three people see these three monsters, but eyes a bright, "hands."

With the sound, in an instant, the three people acted at the same time, and soon they easily subdued the three monsters.

The three monsters were furious, but their strength was low and they could not resist.

Their strength has not even reached the immortal realm. It is impossible to compete with the three water fairies.

"Withdraw!"

The three monsters were subdued, and a touch of joy appeared in the eyes of the narcissus. The next second, she drank a withdraw word, and the three quickly withdrew from the hall.

Outside.

Wang Fan and his party did not encounter any monster attacks, so they were very relaxed.

After all, more than ten big demons outside have been stopped, and many other guard demons have been killed.

As for the remaining monsters, they are all weak chickens. They have no strength at all, and there is no threat at all.

"Come on, get out of here."

After leaving the main hall, the three water fairies gave a loud drink, and then took the lead in running out.

Wang Fan looked at the scene with strange eyes.

What do water fairies, or endless City, do to kidnap three monster cubs at such a great risk?

Do you want to cultivate monsters and break into some monsters?

Wang Fan thought so in his heart, but he didn't dare to ask more. He ran out behind him.

"Roar!"

"Damned human, you seek death, you seek death."

However, the group of monsters who did not dare to come forward were completely angry when they saw that the three water fairies had kidnapped the three monsters.

Some of them roared angrily, some spewed, and even some monsters rushed to the water fairy three.

However, the strength of those monsters was too low. They were killed before the water fairy three.

Wang Fan followed the water fairy and soon rushed out of the demon cave.

After they rushed out of the demon cave, they all rushed back to the direction of the spaceship without any hesitation. Along the way, Wang Fan also used his mental power to feel the war around him.

I saw that more than ten demon kings had been killed three, and only seven were still fighting.

As for endless City, two monks have fallen.

The water fairy and his party didn't take care of the war there at all, but ran all the way towards the spaceship.

Until boarding the spaceship, the Narcissus pointed to the two immortals and said, "go and help."

Without hesitation, the two immortals were killed on the other side of the battlefield.

The water fairy took Wang Fan and his party on board and entered the high cabin.

"Xuanzhao, don't you mind?"

Until entering the high cabin, one of the eight monks of xianzun came to Wang Fan and asked in a low voice.

Wang Fan's face pale, shook his head, "nothing."

He knew the immortal eight layers, or the name of the other side, muyuan.

This is what he knew when he boarded the ship with these people.

However, he did not know the relationship between muyuan and Xuanzhao, so he did not dare to say

more.

At the same time, Wang fan is also aware of a very serious problem.

Where is your room?

Where do you live?

High class, divided into two layers.

At the moment, Wang Fan had followed the crowd to the inner layer. As for the outer layer, it was the place where the monks chatted.

However, there are many rooms in the inner floor.

Wang Fan didn't know which one he should go to.

Wang Fan has a big head. If he goes to the wrong room, it's over.

"Xuanzhao, Yuanxin, you go down first to recover."

At this time, the Narcissus looked at Wang Fan and other injured guards and said.

"Yes." Several people should be a, quickly toward each room walked past.

On the way, Wang Fan's face suddenly changed. With a hissing voice, he spat out a mouthful of blood. At the same time, his inner organs burst open.

Muyuan, who was behind Wang Fan, saw this scene, quickly stepped forward, held Wang Fan and said, "don't worry, I'd better send you back."

Then he supported Wang Fan and walked towards a room.

Wang Fan also didn't refuse, his face pale, followed.

The water fairies didn't care.

After all, they can see Wang Fan's injury.

Previously, due to the pressure, Wang Fan was able to fly back in one breath, but now he relaxed, which directly led to the collapse of the injury, and there was no big problem.

Chapter 3629

Wang Fan soon entered one of the rooms.

It's a big room, with all kinds of sofas and beds, and it's all made of monster fur. I don't know how much higher it is than the lower cabin.

Of course, Wang Fan didn't care about this. He quickly went to the bed and sat down.

Muyuan did not disturb Wang Fan, but said a word, and then retreated.

Wang Fan was greatly relieved that he was safe for the time being.

I hope that with the help of this identity, I can successfully arrive at the holy land of Zhongzhou.

Of course, Wang Fan also knows that this kind of opportunity is very slim.

He didn't think much, but quickly opened Xuanzhao's space ring and began to use Yunxian pill to practice.

It has to be said that Xuanzhao, the eighth floor immortal, is really a bit shabby. There are not many things in the space ring. Even if it is healing pills, there are few, and they are not high-grade.

At the time of Wang Fan's cultivation, the battle outside was over, and several xianzun came back one after another.

The original ten immortal Zun nine layers, together with the two people sent out by the Narcissus later, a total of 12 people. But now only eight people came back, and the other four fell into the hands of monsters.

Among the eight people who came back alive, Wu Lankui was the most miserable. His two arms had completely disappeared and his whole body was covered with blood. He was a bloody man.

At the same time, his face is not good-looking.

"What about Wang Fan? What about Wang Fan? Has he come back?" The first thing Wu Lan Kui said when he returned to the spaceship was to ask Wang Fan.

He really hated Wang Fan. Because of Wang Fan's sneak attack, he almost died in the hands of monsters. If he didn't have some means, I'm afraid he would have fallen.

Even so, now he is also extremely miserable, seriously injured.

"Elder Wu, Wang Fan has escaped. I don't know where he has gone." When the water fairy heard Wu Lan Kui's words, he frowned slightly and then said.

Wang Fan, she did not have a good impression, would like to be broken into pieces.

Wang Fan's appearance before led to the breaking of the boundary prohibition they set up, which attracted the attention of more than ten big demons outside.

If not, I'm afraid they would not have lost so much. There were only eight of the twelve immortals left in the ninth floor, and four of them fell.

"Run away?" Wu Lankui is very angry, "I can't see it, Lao Shui, you are not seriously injured. Go to search the spaceship and continue to explore."

"That guy, you must find out, or you will be in trouble."

Wu Lankui gritted his teeth and said that if he had not been seriously injured, he would have gone to find it himself.

"Good." When shuiyouxing heard Wu Lankui's words, he first slightly raised his eyebrows, but finally nodded.

He felt that there was no need to continue to look for Wang Fan, because they could not find Wang Fan no matter he escaped or hid in the spaceship.

After all, they didn't find Wang fan when they were sure that Wang Fan was on the ship, let alone they are not sure whether Wang fan is on the ship now.

After Wang Fan's story, shuiyouxing looked at the water fairy and asked, "Yao'er, what's the matter? Is there any harvest?"

"Yes." Shui Yao nodded and a smile appeared on her pretty face. "This time we have three big demon cubs."

"If these three monster cubs are trained, and they grow up, they will be a great help to our endless city."

"Good, good." When shuiyouxing heard this, he also nodded, looking very excited.

You know, three big demon cubs, which can be met but not sought, are difficult to capture under normal circumstances.

What's more, in addition to the three monster cubs, they also got the space rings of six monster cubs, which is a big profit.

Although Shuiyao's main purpose is to go to the holy land of Zhongzhou, she is a legitimate member of the Shuijia family, and the guards are all cultivated by the Shuijia family. Naturally, she should help as well.

There was no unnecessary nonsense, healing and cultivation. The spaceship was soon empty again and headed for the deep sea.

Wang Fan stayed in the room, practicing all the time, but he didn't come out.

At the same time, he also found that in his room, there was no monitoring prohibition.

This surprised Wang Fan.

There is no monitoring prohibition in the room, is it because he lives in the high cabin, or is it because he is a narcissus?

It's hard to judge.

Medium class room, is there a surveillance ban?

Wang Fan didn't know, and he was too lazy to think about it.

The spaceship galloped all the way, but not much happened next.

At least Wang Fan didn't feel the fluctuation of the spaceship, maybe he didn't meet the monster ambush, or maybe he met the monster, but they were all eradicated by the strong.

On this day, Wang Fan was practicing. Suddenly his door was knocked.

Wang Fan's mental power swept for a while, and immediately saw Mu Yuan standing outside the door. Wang Fan looks at Mu Yuan and can't help frowning slightly.

He doesn't want to deal with others now, but this guy has to come to him.

See, he's afraid he'll show his feet.

You can't see it, and you're afraid it's going to be suspicious.

"Xuanzhao, it's been such a long time. Haven't you recovered yet? We are about to arrive at Pumi city. Don't you go down for a walk? "

Wang Fan is headache this guy, this guy's voice has come in.

Wang Fan had no choice but to open the door.

At the same time, there was a slight movement in his heart.

Pumi city?

What city is this?

Have you reached the holy land of Zhongzhou?

Although Wang Fan's heart is very confused, but also dare not ask, just nodded with a smile.

"You are so cold. If I hadn't helped you in, I'm afraid you would have died."

Wood yuan see Wang fan so a facial expression, can't help but mumble a, but also didn't study deeply.

Wang Fan was relieved. It seems that Xuanzhao is also a cold guy.

"Come on, the spaceship is about to land. Let's go down and have a look. I heard that Pumi is very prosperous. "

"Although it's just a small city or a border city, it's tens of millions of kilometers away from the central city of Zhongzhou holy land, but its prosperity is much stronger than that of our big city."

Muyuan said as he walked, obviously a chatterbox.

Wang fan can also guess why this guy is not looking for others, but for himself.

Because he had seen the water fairies and others come out, and also saw the other guards.

The guards, two of them, are on the ninth floor of xianzun, while the others are all lower than the eighth floor of xianzun.

In this case, muyuan naturally had to come to him.

Because the role he plays is also on the eighth floor of xianzun, that is to say, there is only him and muyuan on the same level.

When muyuan was talking, the spaceship had begun to land, and Wang Fan also saw a city in the distance.

The city is really big and prosperous.

Wang Fan looked at the city, his heart is also a click, Zhongzhou holy land, finally arrived?

It seems that he doesn't have to continue to disguise, and he doesn't have to continue to work with the endless city.

Chapter 3630

Wang Fan really doesn't want to be with those scum of endless city. It's too dangerous.

If it's exposed, it's really over.

He's not strong enough now. He's no match at all.

As for what muyuan said, this place is tens of millions of kilometers away from the center of Zhongzhou holy land, he ignored it all.

Tens of millions of kilometers is nothing. As long as you get to the border city of Zhongzhou holy land, no matter how dangerous it is, it doesn't matter.

In fact, Wang Fan didn't know that the most dangerous area was from Pumi city to the central area.

Because Pumi city is a city close to the endless deep sea. If you want to reach the center, you have to continue to cross the sea.

Pumi city to endless city direction, although the monster endless, but the real monster power, but it is not much.

But there are too many demons and beasts in the direction of Pumi city to the central area.

Anyway, it's close to the holy land of Zhongzhou, so the risk factor is greatly increased.

Wang Fan didn't know this, so he didn't plan to be with the Narcissus any more.

"Ladies and gentlemen, we will rest for two days in Pumi city. Remember to keep a low profile in Pumi City, and don't provoke right and wrong."

"Although it's a frontier place, the city's strong is not comparable to ours."

"If someone provokes a strong enemy, don't blame us for not coming out."

Shuiyouxing stepped forward, said to the friars in the middle and high class, and then took the lead to get off the spaceship.

Wang Fan looked at the friars in the middle and high class, and found that the high class was ok, and there were at least hundreds of them, and all of them were not weak.

But the friars in the middle class were a little miserable. There were less than 100 people left.

You know, there were thousands of friars in medium class, but now there are less than 100.

Wang fan doesn't have to think about it at all. He also knows that they were killed secretly by endless

city.

As for the friars on this side of endless City, there are obviously many fewer. There are at least eight immortals on the ninth floor, and there are only six left, including the two guardians of water fairy.

As for the other friars of endless City, they lost dozens of people.

Of course, Wang Fan didn't care about these. He had followed the water fairy and got off the spaceship.

Pumi City, the gate is very dilapidated, full of vicissitudes of life.

At the gate of the city, people come and go, which is very busy.

Wang Fan glanced at the monks and found that their accomplishments were all in the later period of xianzun.

Not only that, even the monks who were walking around the city, their accomplishments were all in the later period of xianzun. As for xianzun's junior high school, he didn't see any of them anyway.

"It's really like a dog in xianzun's later period. It's just a border city. If you come to the central area, aren't they all the strong men of Xiandi level? "

Wang Fan looked at the monks and was shocked.

He not only shocked each other's accomplishments, but also shocked each other's strength.

Because those friars were all filled with fierce breath, and each of them looked cold and murderous. It was obvious that they were all masters who killed countless people.

The monks who went in and out of the city were full of blood and rich water. Some were excited and some were lost. It was obvious that they had just returned from the killing in the deep sea.

But the water fairy didn't go to see those people. After entering the city, he rushed directly to one of the directions.

About half an hour later, she came to a shop.

Wang Fan's mental power swept and found that many friars were selling the corpses or materials of monsters here.

You know, the demons and beasts in xianzunjing are full of treasures.

Bones, animal nuclei, demon tendons, scales and so on are all expensive treasures.

It can be said that the higher the level of monster, the more valuable it is.

Wang Fan didn't need to ask at all. He also knew that the daffodils came here to sell the corpses and materials of monsters.

After all, along the way, they also killed many monsters.

Wang Fan didn't have any monster materials, so he didn't dare to be interested in these things.

What he is thinking about now is how to get rid of the water fairies.

He is not going to be with these people any more. He is going to slip away first.

"Hey, hey, younger martial sister, are you new to Pumi city? Do you want to form a team and be a companion

When ShuiXianzi finished selling the monster materials, he planned to take Wang Fan and his party to leave and find a place to rest for two days, suddenly, a frivolous voice came.

A handsome young friar in white came to the water fairy with bright eyes.

The youth's cultivation is not high. He has only seven levels of immortal. But the four guards behind him are not simple. They have reached the Ninth level of immortal.

Wang Fan looked at the scene, the corners of his mouth could not help twitching a few times. This is, met the second ancestor?

What a novelty. It seems that he hasn't seen such a second ancestor for a long time.

However, this guy's cultivation is not high, but he has four immortal nine layer guards. Obviously, his status is unusual.

Of course, Narcissus is not easy to be provoked. There are also two immortal guardians and four immortal guardians in endless city.

In this way, around the Narcissus, there are six immortal statues.

Wang Fan would like to see if the young man could be a water fairy.

"Sorry, I'm not interested."

When the water fairy heard the young man's words, she could not help frowning, but she didn't get angry. Instead, she said politely.

If it wasn't for Pumi City, she would have slapped it in the face. How could she talk nonsense with such a second ancestor?

But the young man was not angry at all, but still said with a smile, "introduce yourself, I'm Yang Ji of Yang family."

"Don't worry, younger martial sister. I know how to be compassionate. As long as you are willing to form a team with me, I can not only guarantee your safety, but also guarantee that no one dares to bully you."

I have to say, this guy is really a wonderful flower. He's coming for the water fairy. He hardly covers up.

The water fairy hears Yang Ji's frivolous words, and finally his face is a little chilly.

As for the guards around her, those who are strong in the endless City, there is anger in her eyes.

If they had not known that this was Pumi city and could not easily cause trouble, they would have been unable to help themselves.

Yangji just didn't seem to notice the expression of Wu Lankui and others at all. He was still smiling. "How, I really don't think about forming a team with me. I really know how to be compassionate."

At the same time, his big eyes were still scanning the water fairy.

The water fairy's face is colder.

Her guardians and endless City strongmen are also more angry.

Wang Fan felt this scene, his heart could not help a little move, the next second, he jumped out.

"You are nothing. You dare to covet my lady. You are a toad trying to eat swan meat."

Wang Fan pointed to Yangji and roared, looking at Wu Lankui, "elder Wu, he's humiliating miss. Don't you kill him?"

Wang Fan's words fell down. In an instant, the scene was strange and quiet.
