Chapter 468

Samuel still remembered that Wade White once said that what he hated most were the men who used drugs to manipulate women.

Although Wade was not here, Samuel still didn't dare to think about it.

Samuell stepped forward, kicked Wendy, and scolded, "Fu*k, use drugs to get her. Am I the person who would use drugs? Let's go, where is your cousin now? Take me to have a look."

"Upstairs." Wendy pointed at it.

Samuel didn't say anything and strode upstairs.

Wendy followed him and was half a meter behind him giving him directions.

Chapter 468

"Master Wu, my cousin, her boyfriend seems to be very capable. He said that he has a company with a market value of 10 billion yuan." Wendy saw that they were almost in the room, so she deliberately said.

"Ten billion? Is it a lot?" Samuel laughed disdainfully.

"It's nothing compared to Master Wu, but..." Wendy showed a look of embarrassment.

"What is it? Tell me!" Samuel frowned.

"But her boyfriend is quite arrogant. I'm afraid that he won't show you any respect," Wendy said.

Hearing this, Samuel looked disdainful and said, "Arrogant? In Shan City, no one dares to be arrogant to me!"

Wendy's face lit up when she heard that. It seemed that this time, Amity's boyfriend 2/10Chapter 468

would suffer a lot.

"Okay." Samuel waved his hand. "If your cousin is really as beautiful as on the picture you showed me, you can go to HR tomorrow and ask to promote you to be a manager."

"Thank you very much, Master Wu. Thank you very much!" Wendy thanked him repeatedly. This was her goal. As for what

would happen to Amity if she ended with Master Wu, she couldn't care less. Besides, it should be an honour for Amity to spend a night with a man like Samuel.

Soon, Wendy came to the door of the room followed by Samuel and a group of people.

At the door of the private room, Samuel directly pushed the door of the private room without any hesitation.

Garnett and the others in the room frowned at the sight of Samuel who

pushed the door.

Wendy was afraid that her father would say something wrong, so she quickly stood out from behind Samuel and said loudly, "Dad, let me introduce him to you. This is Master Wu, the young owner of the World Hotel."

Hearing Wendy's words, all the people in the room gasped.

Young Master, the owner of the World Hotel! He was the only child of the richest man in Shan City, wasn't he?

Garnett and others, who were still sitting there, quickly got up.

"Hello, Master Wu. I'm Garnett Guo. This little girl, Wendy Guo, is my daughter. Thank you for having us." Garnett walked to Samuel and stretched out his hands.

Samuel didn't even bother to look at Garnett. "What does your daughter have to

Chapter 468

do with me? I have too many dogs. Do I have to care about every one of them?"

Samuel's words were very impolite, with a kind of ridicule.

But when Garnett heard this, he was not angry at all. Instead, he said, " We were able to have a meal here because of Master Wu. Thank you."

Garnett knew that it would be enough for

him to eat for the rest of his life if he could make any business connection with Master Wu.

The rest of the people also took this opportunity to introduce themselves, regardless of whether Samuel would listen to them or not.

"All right, all right!" Samuel said impatiently, "I don't care who you are! Wendy, where is your cousin?"

"That's her." Wendy stretched out her

Chapter 468

hand and pointed at the innermost part of the room.

Samuel looked in the direction Wendy pointed at and saw Henry and the other two people standing there at a glance.

The moment Samuel saw Henry, he was stunned. Isn't this Boss White's big brother? Oh my god, Boss White's big brother came to have dinner in his hotel?

It's a great honour for him!

Wendy saw Samuel's surprised look, and she was happy in her heart. It seemed that Master Wu liked Amity.

Wendy said to Samuel, "Master Wu, that's my cousin. The one next to her is her boyfriend. He's very arrogant and says that he has tens of billions of assets!"

Samuel ignored Wendy and strode to the front of Henry. He bent down and stretched out his hands. "Brother Zhang,

why are you here? Why didn't you inform me? I would ask someone to welcome you!"

In front of Henry, Samuel didn't dare to act like a young master.

Samuel had seen Wade's methods before. How powerful was the man who could be called elder brother by Wade White? He was like an ant in front of Henry. Henry

could crush him.

Henry looked at Samuel and asked curiously, "Inform you?"

"This hotel is opened by my family, big brother." After Samuel and Henry finished speaking, he looked at Amity, "Beauty, do you still remember me? I was in front of the housekeeping company today."

"I remember, you're the one called Samuel, aren't you?" Amity recalled.

"Yes, yes, yes." Samuel nodded

repeatedly. "I didn't expect that you still remember me. It's a great honour."

Samuel greeted Amity and looked at her mother. "Hello, hello, you are..."

"This is my mother," said Amity.

"Auntie, hello, hello! You can call me Samuel." Samuel held Amity's mother's hand and greeted her again and again. He

didn't respect his father that much.

Looking at the scene in front of her, Amity's mother felt as if she was in a mist.

She heard clearly what Samuel and Henry said just now. This hotel was opened by this young man in front of her. But this young man was so respectful and polite to her?

It made Amity's mother, feel exceptionally unreal.

The friends of Amity's uncle stood aside,

Chapter 468

with their eyes wide open and full of disbelief. What was going on? Did they know Master Wu?

No! Not only did they know each other! Looking at Master Wu's appearance, it could be seen that he was so respectful to them!

Wendy stretched out her hand and pinched her thigh. She felt a burst of pain,

telling her that it was not a dream, it was true!

"How is this possible? It's impossible!"

Wendy shook her head vigorously, unwilling to believe what she had seen. How could Amity know Master Wu? What right did she have? She was so poor!

Henry looked at Samuel doubtfully and asked, "How did you know I was here?"

"I..." Samuel opened his mouth and didn't dare to say the following words. Chapter 468 9/10

"Speak." Henry frowned and shouted. He felt something was wrong with Samuel.

Samuel lowered his head. "Brother Zhang, I dare not lie to you. It's this Wendy something. She said that she had a cousin to introduce to me. I saw her photo before, so she brought me here. Brother Zhang, I really don't know that her cousin is your woman. Otherwise, even if I had tons of courage, I would not dare to have any improper thoughts!"

"Oh?" Henry raised his eyebrows. "What did you promise her?"

"Make... make her a manager." Samuel said, afraid that Henry would blame him.

Henry smiled and said, "Wendy Guo, did you sell your sister for a manager's position?"

Chapter 469

Wendy's face was extremely ugly. She stood there and didn't know what to say. How could she expect that these people knew Master Wu?

With a pair of beautiful eyes full of anger, Amity glared at Wendy and shouted, "Wendy Guo, you are not a human at all!"

Amity could imagine what would happen to her if she didn't meet Henry today, and if she didn't know Samuel, she would definitely be sold by this Wendy. She would exchange her just to become a manager!

Wendy stood there, not daring to breathe too much.

Now, Samuel had obviously vented his anger on Wendy. He was glad that he met Brother Zhang at noon today. If he didn't

know Brother Zhang, he would definitely do something now. He didn't dare to think about the consequences. Thinking about it, Samuel was scared.

Samuel shouted at the lobby manager who was waiting at the door of the private room. "Fire this Wendy something. I don't want to see her again. Ask her to get out of here. Don't let her appear in my family's business in the future!"

As soon as Samuel's words came out, Wendy's legs went limp and she almost fell to the ground.

"I... I was fired just like that?"

Her job was easy. Eight thousand yuan a month with paid insurance. Was it gone just like that? This was the job that she took a lot of effort to find at the beginning.

At the same time, Samuel looked at Garnett again and snorted. "That's your

Chapter 469

daughter, isn't it? What's your company's name? Wait and see, it will be closed!"

Garnett's face suddenly darkened. Compared with Shan City's richest man, his company was just a small boat in the sea.

Those who used to be good friends with Garnett took a few steps back subconsciously to the opposite direction when they heard Master Wu's words, trying to keep a distance from him.

Wendy didn't expect that what she wanted to do initially would turn into such a situation. Not only did she lose her job, but her family's company was also targeted. As an employee of the World Hotel, she had heard of Master Wu's deeds many times. If Master Wu really said that he would make somebody suffer, that person would definitely not be able to run away!

Wendy's eyes were full of panic. "Are my

good days coming to an end from today?"

After Samuel scolded them, he turned to Henry and apologized repeatedly, "Brother Zhang, I'm sorry, I'm really sorry."

"It's none of your business. Stand aside." Henry waved his hand.

"Okay." Samuel was like a hatchet man. He stood aside obediently and said nothing.

The lobby manager and others at the door of the private room saw their young master like this for the first time. They were shocked and they firmly remembered Henry's face.

Henry looked at Amity's aunt and said, "Did you just say that I can not walk out of this hotel?"

Amity's aunt looked at Henry and then looked at Samuel who was standing next to Henry obediently. Her legs kept shivering. "No... no... no..."

Chapter 469

Henry took two steps forward and said, "Let me ask you, are you still not going to pay back 900,000 yuan?"

"I... I..." Amity's aunt's face was full of tears. "I really... really don't know anything."

"You don't want to say it, do you?" Henry smiled slightly, turned back and said to Samuel, "Go get me a pair of pliers."

When Samuel heard it, he quickly ordered the lobby manager, "Hurry up, go get the pliers, quick!"

The lobby manager did not hesitate and quickly ran over. The people standing in the room could hear the urgent voice of the lobby manager from outside.

"Come! Get me a pair of pliers!"

In just thirty seconds, the lobby manager ran to the door of the room, panting. In his hand, he held two pair of pliers, big and

small.

The lobby manager came to Henry with these pliers in his hands, and said with a quiet voice, "Sir, the pliers you want."

Henry smiled slightly, picked up a pair of pliers with a length of forty centimetres, and weighed it in his hand. He looked at Amity's aunt and said, "What I ask you now, answer honestly. If you don't, I'll pull out one of your teeth. I'll pull out your ears and nose after pulling out all of your teeth if you don't tell the truth. Do you understand?"

When Henry spoke, his face was smiling. However, the feeling that it gave off was as piercing as the cold wind in winter. The pressure that Henry was emitting made Amity's aunt shiver involuntarily.

Henry opened his mouth and said, "Now I ask you, is the money taken by you and the others?"

Chapter 469

Amity's aunt shook her head with her whole body shaking. Just as she was about to speak, Henry pinched her jaw.

Amity's aunt opened her mouth unconsciously.

Henry took the pair of pliers and directly kicked Amity's aunt's mouth. He did not show any mercy at all.

Seeing this scene, Samuel unconsciously closed his eyes and trembled in his heart. These people were really ruthless and merciless.

Henry knocked on the aunt's front teeth, smashing all her front teeth, including her lips. Aunt's eyes rolled and her whole body twitched because of the pain.

"Answer my question. Did you steal the money with someone else?" Henry asked again.

Amity's aunt shook her head again and

Chapter 469

muttered.

Henry smashed the pliers on aunt's cheeks, and this time, he directly knocked her to the ground, and blood kept spurting out of her mouth.

The lobby manager, Samuel, and others looked at him with their eyelids twitching. Since he started, the expression on his face did not change at all. Even his eyes

were so calm from beginning to end, and the movements of his hands did not have a trace of hesitation. He did this as he was doing something regular like eating or drinking water. What kind of person was he?

Wendy looked at her aunt's appearance and shivered, afraid that she and others would be beaten like this.

Henry held a pair of pliers and didn't ask at all this time. Instead, he directly smashed it on aunt's head.

"I'll tell you! I'll tell you!"

Seeing that the pair of pliers were about to land on her head, Amity's aunt could no longer hold it back and kept making noises.

Henry smiled with satisfaction. He threw the pair of pliers aside and said, "Go ahead."

Aunt's body was twitching all over, and her

face was full of tears all the time. Her mouth was also smashed by Henry.

Looking at the young man in front of her, Amity's aunt only felt a burst of fear. Even if this matter would put her into prison, she would not like to face this person again.

"Go ahead." Henry frowned impatiently.

"It's... it's that doctor... I asked someone to dress up." When aunt spoke, she didn't dare to look at Amity and her mother.

Chapter 469

"Well, it's really you! I trusted you so much, but you dared to lie to me like this! You are not a human being!" Amity's mother said loudly. Although she had long thought that it was her elder sister who made things difficult for her, it was still hard for her to accept when it was admitted by the other party.

Wendy stood aside and widened his eyes.

"Where is the money?" Henry asked again.

"I... I took seven hundred thousand yuan, and the fake doctor took two hundred thousand yuan. Now I have spent four hundred thousand yuan, and there are three hundred thousand yuan left. They are all... on the card."

Chapter 469

Chapter 470

Amity's aunt trembled and took out a bank card from her pocket.

"Money... money is all in it. The password is 685142."

Henry took the bank card and handed it to Amity.

"Bring that fake doctor here too," Henry said indifferently.

At this moment, Amity's aunt did not dare to say anything more. She quickly got up, took out her mobile phone from her bag, and dialled a number.

When she spoke, Henry was listening by her side. After confirming that there was nothing fishy, he nodded.

Henry walked to Amity and her mother and

said, "Auntie, she spent the money to buy a car just make her give the car to you. Don't sell this car. It's already a secondhand. You can't get too much by selling it. Amity can drive, so just keep it. Didn't you say that she rented a house? The rent can't be returned. You and Amity can move in. The 300,000 yuan on this card and the 200,000 yuan that fake doctor will bring are enough for uncle's treatment at the

moment."

"Okay." Amity's mother nodded. Looking at the card in her hand, she was very satisfied. If it weren't for Henry, she wouldn't have gotten the money back.

"Brother Zhang, I can return the money to my sister-in-law and her mother first and make this aunt work for me." Samuel came up from the side and said kindly.

Henry looked at Samuel and understood what he meant.

Chapter 470

07:53

Henry patted Samuel on the shoulder and said, "Not bad. If you need anything, just call Wade and he will help you."

"Thank you, thank you, Brother Zhang!" Samuel nodded repeatedly. Hearing Henry's words, he thought that he might have some kind of insurance in his future life!

Although Samuel didn't know Henry's

identity, he knew that the rich second generation whose status was similar to his had been disabled, and after that, he didn't dare to do anything. It could be seen how powerful these people were.

Henry was just about to settle something else for Amity when the phone rang.

Looking at the caller's name on the screen, Henry felt a little strange. Why did the secretary suddenly call him?

"Hello, Secretary Lee?"

"Where are you, Mr. Zhang? Something's wrong with the Family Lin. Can you come back?" On the phone, Cathy's tone was full of anxiety.

"Okay, I'll go back now, and I'll be there tonight," Henry said and hung up the phone. The fastest flight was booked on the scene.

If something happened to Lins Group, what

about Sylvia?

Henry called Sylvia, but he couldn't get through.

Amity walked to Henry's side and whispered, "Brother Henry, if you have something to do, go back quickly. I can handle this matter."

"Okay." Henry nodded.

Henry waved at Samuel and called him to the side.

Chapter 470

07:53

"Brother Zhang." Samuel smiled.

Henry whispered to Samuel, "You can help me deal with this matter here. Both mother and daughter are living in Shan City. Please take care of them for me. Don't make it too obvious and don't let them be bullied."

"Don't worry, Brother Zhang. I promise that my sister-in-law will be fine in Shan City!" Samuel patted his chest.

"Okay, thank you." Henry thanked him.

"No need, no need." Henry thanking him made Samuel feel flattered. He waved his hand repeatedly and said, "It's my honour."

Henry patted Samuel on the shoulder and said, "You're good."

Samuel's face was full of joy. "Thank you for your praise, Brother Zhang."

Henry went to Amity's mother again and said, "Auntie, I have something to do in

Chapter 470

07:53

Yinzhou, so I have to go back first. I will visit you another day."

"Okay, okay!" Amity's mother nodded. "Young man, career is important. If you have something to do, go back first. This time, I really want to thank you, Henry."

"Auntie, you don't need to thank me. You and Amity should live a good life here. I just heard from Samuel that in his hotel

they are recruiting waiters and someone to wash the dishes. Although the salary is not high, working hours are flexible and it won't distract you from taking care of the uncle. You and Amity should come to his hotel to work." Henry said. He did not arrange a better job for the mother and daughter, because he knew that even if he did, the mother and daughter would certainly not accept it.

When Amity 's mother heard about the dishwashing, her eyes lit up. "Can...can I?"

Chapter 470

Amity's mother had heard before that people who washed dishes in the hotel were treated very well, and they would also have meals arranged every day.

"Auntie, of course." As a rich second generation, Samuel had been in various circles, and he was also smart. He came up and said, "Although our washing worker's salary is not good, they have a lot of free time. Two days ago, one aunty resigned. If you don't mind, you can start working. You can come to work tomorrow."

"I don't mind, I don't." Amity's mother waved her hands with joy on her face. "Thank you very much, young man."

Wendy's father and she stood aside and looked at Samuel's attitude toward Amity's mother. Their faces were full of bitterness. How could they not see that this job was just an excuse and the mother and daughter had made great achievements!

After he settled this matter, Henry was relieved to have Samuel's help. After all, Samuel was the only son of the richest man in the city, and his connections were still very strong.

As for Wendy and her father, Henry did not take them seriously. But thinking about them, the father and the daughter should not have any good days, and Amity's aunt should also be retaliated.

Henry was too lazy to think about this. In his eyes, they were just a bunch of contemptible clowns.

After dealing with the matter here, Henry left the hotel in a hurry and went to the airport. He was very anxious now. Cathy Lee said that Lin's family had some problems and he couldn't reach Sylvia. Was there an accident?

Samuel specially arranged a car that waited at the door of the hotel for Henry to

Chapter 470

drive him to the airport.

At 10 o'clock in the evening, a plane that took off from Shan City landed at Yinzhou Airport.

As soon as he got off the plane, Henry immediately called Sylvia, but still failed to get through.

Henry called Secretary Lee again. As soon as the phone rang, it was connected. This proved that the other party had been holding the phone in her hand and waiting for him at any time.

"Mr. Zhang, are you back?"

"Yeah. Where are you?" Henry asked in a hurry.

"It's still in the company. Mr. Zhang, you can come to the company directly."

At 10:40 p.m., Henry took a taxi and arrived at Yinzhou CBD centre.

At this time, the CBD centre was already dark, except for the tallest building. The top floor of the Lins Group was still lit up.

The entrance of Lin's building was closed. Henry found that there were a lot of security guards in front of the building. Usually, there were only more than a dozen people in a team on a night shift, but today, there were more than fifty people, and there were some new faces. They had probably been recruited within the past two days.

Chapter 470

Chapter 471

When Henry was about to enter the Lins Group, he was stopped by the security guard. It was a new face, who looked to be in his early twenties.

"Stop, what are you doing?" The security guard shouted.

"What are you shouting for? This is the boss!" The captain of the security team recognized Henry and quickly scolded him. He walked over and said, "Mr. Zhang, I'm sorry. He is new here that he didn't recognize you."

The new security guard was stunned and quickly came up to apologize.

Henry waved his hand and said, "It's okay. It's his duty. This young man is not bad. Is he a regular worker now?"

1/11

1

"No." The security captain shook his head. "Mr. Henry, according to the rules of President Lin, it generally takes three months to become a regular worker."

"Then turn him into a regular worker. You have my permission." Henry said. This management staff sometimes had to give some small favours. These small favours didn't have to be distributed to everyone. As long as people saw the possibility of

promotion, it would be very effective.

As expected, after hearing Henry's words, those new security guards and old employees who had been on duty for a long time couldn't help but stand up straight. They knew that their boss would see their performance sooner or later.

Henry looked at the lights on the top floor and asked the captain, "What's wrong? There are so many people on duty at night."

Chapter 471

The security captain shook his head. "Mr. Henry, we don't know about anything this. It's just that in the past few days, some people often come to the company to make trouble. Several employees have been injured."

Hearing this, Henry frowned. Someone was making trouble and fighting with people?

"Didn't you call the police?" Henry asked

again.

"Yes." The security guard answered and then sighed. "It's useless. No one cares about it at all."

"Useless?" Henry was confused. Lins Group was the leading enterprise in Yinzhou. The annual rental and tax output were one of the best in the whole city. Lins Group called the police, but the police didn't care?

Henry could tell that something was

Chapter 471

07:54

wrong. He had to ask Cathy about this.

Henry patted the shoulder of the security captain and said, "Tell to the staff. You've worked hard. After this matter is over, I'll treat you to a meal."

After Henry finished speaking, he went upstairs.

He took the elevator to the top floor.

With a "ding", the elevator door opened.

Cathy's office was next to Sylvia's. It was a small room with glass walls and was completely transparent.

As soon as Henry stepped out of the elevator, he saw Cathy sitting at her own table, wearing a pair of black-framed glasses and constantly looking at the things on the table.

Henry stepped forward and knocked on the door.

07:54

Cathy raised her head. When she saw Henry, her face lit up with joy. At the same time, there was a feeling of relief on her face. She quickly got up.

Henry opened the door and walked in.

"Secretary Lee."

"Mr. Zhang, you are back, do you want to drink something?" Cathy was about to pour

some water.

"No need." Henry waved his hand. He saw the exhaustion on Cathy's face. "Secretary Lee, you worked so hard in the company. What happened? I heard from the security guard that someone was making trouble. Is an employee of our company injured? Where is Sylvia?"

Cathy's face darkened and she sighed. "President Lin went out a few days ago. She didn't tell me where she was going but only told me that she had something

07:54

urgent to attend to during this period of time. Her phone might not be able to get through."

Henry nodded. Along the way, he was worried whether Sylvia was in danger or if someone else wanted to hurt her. Now, after hearing Cathy's explanation, he was relieved a lot. Sylvia was the future master of the Su Family, and she was under Megan's protection. Henry could feel that the Su Family had also sent someone to protect Sylvia in secret. There should be no problem with her safety.

"Tell me about the company." Henry pulled a chair and sat down, indicating for Cathy to sit down.

Cathy nodded, took a sip of water, and said, "Some time ago, the company had been competing with the Zhao family for a piece of land. Somehow, the Zhao family gave up all of a sudden. We bought the

land and prepared to build an indoor theme waterpark. When we were doing business, someone found President Lin and said that they lived in a village nearby and that their ancestral temple where buried underground, they hoped we will not be building anything on it."

"Is there an ancestral temple buried underground?" Henry had a suspicious look on his face. "Is it possessed by ancient clans?"

Cathy replied, "Yes, at that time we were negotiating with them. They were willing to accept a corresponding price for the land, and President Lin agreed. However, the day after President Lin agreed, someone on the construction site said that they had received President Lin's order to start the digging. Under the ground, there was indeed an old ancestral temple ruin, and then the people from the village came to make trouble. Recently they came to Lins

07:54

Group every day, and sometimes they even smashed things. There is no other way, the security forces of Lins Group have been increased these days."

Henry frowned. "Was it really my wife's order?"

Cathy shook her head. "No, President Lin didn't tell me about it at all. Just when those people came to me, President Lin asked me to come up with a land sale contract. It was all private work done by some workers."

"Where's the construction worker?" Henry asked.

"I don't know," Cathy said with a sigh. "When we sent someone to look for him, the foreman had already run away. There're only a few workers who don't know anything."

Hearing Cathy's words, Henry frowned

Chapter 471

more and more tightly. It was an ancestral temple and a private project. It must have been set up by someone else.

That piece of land was fought for by the Lin and Zhao families. There must be a reason for the Zhao family to suddenly stop.

Henry glanced at the reports that Cathy had read just now. They were some papers

about industrial injuries. They must be about the injured employees of the Lins Group.

Henry reached out his hand and tapped on the table a few times. After thinking for a while, he said, "Well, during this period, inform everyone to stop working. Let them take a rest and stay home for a few days. The injured employees will all be compensated properly. The medical expenses and mental damage costs will all be paid by the company. You don't need to

take care of this during this period of time. Leave it all to me."

"But Mr. Zhang..."

"Listen to me, secretary Lee. You've gotten too tired during this period of time. Take a break," Henry said, patting her shoulder. Then, he got up. "Let's go. It's time to finish the work. Do you want me to see you off?"

Cathy sighed. "No need. I'm driving."

"Okay, you might need to go to visit injured staffs these days."

"Okay, got it," Cathy said with a nod.

Henry didn't allow Cathy to manage this matter. Even the police didn't care about these people making trouble and hitting people, and they bought this piece of land directly. Naturally, Cathy couldn't afford to offend the people behind all of this. If she was hated by others, it would not be a

small thing for her.
