

Chapter 1389

Henry felt happy in his heart. "I was really fooled into coming to the black coal mines."

No one could guess what the reaction would be if people knew that the great King of Hell on the surface, a super master who killed the whole clan, was sold to the black coal mines.

However, Henry didn't care about where he came. Now he just wanted to find a way to get a registered residence. Although the voice of the factory men was low, Henry was good at reading lips. From their conversation, Henry knew that this man did not do something serious.

"I didn't expect that there would still be people who dare to do this."

The Heretic God, who had not spoken for a few days, had suddenly made a sound. The fact that he was able to make a sound meant that there were no experts from the Divine Realm here. The Heretic God had once said that the experts from the Divine Realm were able to hear his voice.

"It has been a long time since the Core civilization has forbidden the use of coal. The exploitation of coal is also very dangerous. The Core understands a little about this world. There will always be some strange things when mining coal. However, because coal burns for a long time, it is cheap and is very popular. These people cannot be exposed to the academy. Once exposed, the academy will not tolerate it in the slightest. Anyone who takes part in this matter will have to die."

Henry listened to the words of the Heretic God.

The man in the factory didn't know that there was a spiritual body talking in front of him. He said to Henry, "I will prepare food and accommodation for you, but under one condition

that you need to pull up the coal from below every day, do you understand?"

As the man in the factory spoke, he pointed to a pile of stone walls on the other side of the factory.

One layer of strength meant that a person was able to control the Qi. Five layers meant that he had reached the middle stage of the Transformation realm. As for the higher level, this boss of the coal mine didn't have the ability to control such an expert.

Henry shook his head and said, "No, I don't want to work."

"You don't want to work?" The factory man raised his eyebrows, and his face was full of displeasure. It seemed that he was going to do something.

"Yes, I'm not going to work." Henry nodded and said with a simple and honest face, "The man said that you have to help me get my registered permanent residence, and I can't get money if I don't have a registered permanent residence. So help me register first and I will work for you."

Upon hearing this, the factory man's knitted brows relaxed a lot. He thought Henry was a thorn in his side. As a result, it was because of his household registration. Almost everyone who came here would mention this kind of thing. He said, "This is easy. You go to work first. I will help you with the household registration in a few days, and you will get the money."

"No." Henry shook his head stubbornly. "I have to have a household registration first. You can't lie to me."

"Boy, you're looking for trouble, aren't you?" The factory man rolled up his cuffs and acted as if he was about to beat him.

Henry backed up a few steps with fear all over his face, but he still took the courage to say, "If you don't help me get my

residence, I won't work even if I die."

Henry's green face showed that the factory man was not angry at all. Beating Henry? It was not that he couldn't beat Henry, but the problem was, if this person was injured, who would dig the coal?

Henry was so fearless, so he naturally had a reason. He just learned from their conversation that it was difficult for them to recruit people. Moreover, he had observed the traces of the mine. They hadn't gone down for at least dozens of days, and the black coal was covered with a layer of ash.

Moreover, Henry believed that it should not be a problem for him to make household registration without the permission of the academy. But now, it seemed that the profits brought by him going down there were far more than that of getting a household registration.

"Okay, you are brave." The factory man stretched out his hand and pointed to Henry. "Let me tell you, I can get the household registration for you, but if you don't work, you won't have anything to eat. You just live here, and you are not allowed to go anywhere!"

After saying that, the factory man turned around and left.

Henry was not anxious. For him, he could live anywhere. Compared with the bad environment he lived in before, this coal mine entrance could be called a mansion.

Originally, Henry thought that the factory man would leave him alone for at least a few days and let him starve for a few days. He couldn't help but work. Unexpectedly, a few hours later, the man brought an ordinary-looking young woman with him. The woman was wearing a professional suit and black-framed glasses.

"Just him, give him a household registration." After the factory man arrived, he pointed to Henry impatiently.

The young woman just inquired about Henry's name, and then she scanned his pupils. Subsequently, she handed over a communication device to Henry, tied it directly to his wrist, and the registration was successful.

Henry looked at the communication device on his wrist, which looked like a wrist belt. He stretched out his hand and clicked on it several times curiously, and a projection immediately appeared in front of Henry. The information on the colourful projection was very clear.

First, there was a photo of Henry, followed by the name Henry just gave, Syl Zhang.

Below was a cord, and Henry guessed that it should be something like an ID card. Then, there was an address, a place that Henry had never heard of, named Dongyu Town, and it was also a third-line town.

At the bottom of this information, there was a balance. After Henry's balance, there were several zeros, which proved that he didn't have any money at all.

Henry looked at the page with curiosity and the man assumed that he was checking whether it was a real device or not.

"All right, you don't have to check. Get down to work!" The factory man waved his hand impatiently. "It's real."

"Are you sure it's real?" Henry raised his eyebrows and changed his previous dull look.

"Of course it's true. Can this be faked? You can log in and investigate now!" The factory man was afraid that Henry would not believe him, so he opened his communication equipment and taught Henry how to inquire about identities step by step. It seemed that he was very anxious to make people work. It was tiring working in the coal mine. Otherwise, he would go down himself.

Henry followed the factory man to check step by step. When Henry confirmed that his registered residence was real, he smiled and said, "Very good. Thank you very much."

Henry's expression made the factory man realize something was wrong. He narrowed his eyes and stared at Henry. "Boy, what do you mean?"

"I don't mean anything." Henry shrugged his shoulders and said. Then he rushed to the road where he came from.

"Where are you going?" The factory man reached out and stopped him.

"Going out." Henry smiled. "Where else could I go?"

"Are you messing with me?" The factory man's eyes suddenly became fierce.

Chapter 1390

Facing the factory man who gradually became fierce, Henry's expression did not change at all.

"You go first." The factory man looked at the woman who was handling the household registration.

In this world, the martial force system had already been made public. This woman naturally knew what would happen. She left without thinking.

"Boy, have you been playing dumb with me all the time?" The factory man stepped forward. Behind him, a snake-shaped phantom emerged. It was not a normal snake, but a kind of creature that only existed in the Core. "I will give you two choices now. One is to go down and dig the coal, and the other is to kill you! With your strength, you are nothing in my eyes!"

Henry shook his head slightly and said, "I choose the third one. I'll go out and you will give me all your money. If we make a deal, I won't kill you."

"You are courting death!" The factory man shouted and rushed toward Henry.

Henry narrowed his eyes. The man had the strength of the late stage of the Transformation Realm, and he had laid out a way to attack him. He was even sharper than the people on the surface. The two different worldviews of human civilization made people at the same level of the Transformation realm have a huge gap in strength.

The complete cultivation system of the Core, as well as the complete cultivation course, were all much more powerful than those on the surface.

However, even though the Core civilization had surpassed the surface, the factory man's appearance was still the same. He

rushed to the front of Henry. Henry only stretched out a finger and gently flicked it, and then the factory man flew backwards like a cannonball and hit the wall.

"You!" The factory man widened his eyes, which were full of shock. He stared at Henry and said, "You... you are in the Qi-concentrating realm... You are a leader!"

The strength of a Qi-concentrating Realm Cultivator was enough to become the leader of an entire region on a mountain. Even in the academy, he would be able to become a teacher!

"I'm still saying the same thing. I want the third option, understand?" Henry took a step forward and stared at the factory man.

"Do you know?" The man reached out his hand and wiped the blood from the corner of his mouth. "Do you know who is standing behind me?"

"Does it have anything to do with me?" Henry's face was full of curiosity. "Even if the person behind you is in the Spirit-controlling realm, can he save your life now? My time is limited. It's up to you."

"Good, very good!" The factory man nodded vigorously. "I've long heard that the mountain bandits around the capital are a group of outlaws. Now with the support of the Seven Protectors of Mountain Heng, you are more unscrupulous when you do things. It seems that you are really arrogant to a certain extent."

Henry took another step forward and slapped the man in the face. "I don't want to listen to your nonsense."

"Good! Turn on your device!" The factory man gritted his teeth, turned on the communication device, and transferred all the money to Henry. When Henry saw that the balance of the other side had turned to zero and his own balance had turned to

sixteen thousand, he was satisfied and he turned off the communication device.

"Thank you." Henry smiled at the factory man and then strode away.

The factory man looked at Henry's back, his eyes full of killing intent. He turned on the communicator and was about to contact somebody, but a sharp Qi-sword silently swept across his neck.

How could Henry leave a hidden danger to survive?

Henry left the factory building. With his strength, no one could find that he had left. The woman in her fifties was still carefully dressed up. She wanted to meet the young man who had just arrived tonight.

When Henry walked out of the factory and was about to leave, dozens of figures suddenly fell from the sky.

"Kill!"

Among these figures, a middle-aged man in his forties took the lead. He wore an eyepatch that covered his right eye. A scar stretched from his right eye to his neck, which looked particularly ferocious.

With the roar of the scarred man, dozens of figures fell from the sky and immediately began to massacre the people in the factory. As the Spiritual Qi prevailed, the dilapidated factory collapsed in an instant. The bald men, who were fierce to Henry before, were almost killed almost in an instant.

Halfway through her make-up, the middle-aged woman felt a strong sense of shock. When she saw the scarred man appearing with dozens of men, her face suddenly changed and she shouted, "Run!"

Then, Henry saw more than a hundred people in the uniform of the Thunder Academy rushing in. Among them, there was

Senior Baron, whom Henry had just met a few days ago.

"Alright, brothers, retreat!" The scarred man let out a loud roar and immediately left this place. The reason they had come here was not to do anything to the factory but simply to attract the attention of the people from the Thunder Academy.

A large number of people from the Thunder Academy surrounded the place. Henry lowered his head. He was not afraid of the people from the Thunder Academy. Among these people, there was no one in the Divine Realm and it was easy for him to kill them with a wave of his hand. However, he was afraid of trouble. The academy here was only official on the surface. Once too many people died, it would attract the attention of the bigger academy. It would not benefit Henry. What he wanted to do was just to find Sylvia.

Seeing the retreat of the scarred man and his men, Henry did not think twice. He followed them.

"Chase them!"

Senior Baron shouted.

"Stop chasing!" Another voice stopped Senior Baron and others. "It's an illegal mine! Let's deal with things here first. As for them, since the top of the mountain is gone, why should we bother about them?"

"Illegal mine!" Senior Baron and others, who were chasing after people, were suddenly shocked and stopped. They knew very well what the illegal mine represented. The most unforgivable thing of the Core civilization was the illegal business of the black mine!

The coal resource was limited and people would only go to mine it when there was no way out for the whole civilization. Moreover, according to the past, there might be some strange things when mining the coal mine. Originally, a second-tier city was completely destroyed because someone opened it on his

own. It was rumoured that there was something strange in the coal mine, and it was finally the Aleksandar who stopped the disaster. Otherwise, they were afraid that the strange thing at that time would spread to the entire area!

The people of the Thunder Academy no longer chased and the speed of the scarred man and others also slowed down a lot.

Henry followed these people out of Thunder Town and came back to the rolling mountains. When he confirmed that no one was following them, Henry was ready to leave.

"Bro, where did you come from?" The scarred man suddenly turned around and looked at Henry, who was among the crowd.

Except for the scarred man, the others were all shocked. They didn't realize that someone had entered the team.

Henry smiled. He did not deliberately hide his figure. It was normal for the other party to find him. When he was about to say something, he saw the face of the scarred man change.

"It's you!"

"Do you know me?" Henry looked at him curiously.

The scarred man took a deep breath and said, "I'll give you a name... Sylvia Lin."

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1391

Sylvia Lin!

Hearing these words, Henry's eyes narrowed. Almost in a flash, he rushed to the scarred man.

"Speak! Where did you hear this name?"

Violent Qi was emanating from Henry's body and it kept spreading.

Under the violent Qi, the scarred man and his dozens of his men couldn't even standstill, and it was hard for them to breathe.

The scarred man opened his mouth and wanted to answer, but he could not make any sound.

Only then did Henry notice that he was a little excited. He adjusted his mood, and the violent Qi in the air completely disappeared.

The scarred man's group, as if they had just had intense exercise, were soaked in sweat. The pressure that Henry had just exerted on them was too great!

The scarred man gasped for breath. After a few seconds, he looked up and said, "Before that, can you tell me what a person from Radiant Island is doing in Thunder Town? With your strength, you should be able to easily destroy Thunder Town, right?"

Henry was silent, and the scarred man mentioned Radiant Island. What the hell was going on?

When the scarred man saw that Henry didn't say anything, he only thought that Henry didn't want to say anything more. After taking a deep breath, he continued, "I can guess that you have something to do with Sylvia because both of you have been

wanted by Thunder Town. Now, the wanted posters of you and her are still hanging on the gate of Thunder Academy. Sylvia claimed to come from Radiant Island. She broke into the hunting ground of Thunder Academy and finally left. You did the same."

Henry grabbed the collar of the scarred man and asked, "When did it happen? When did Sylvia appear?"

"It has been a long time." The scarred man's face showed a look of contemplation. "It should have been a month. As for where she went exactly, I don't know. I only know that she went south. Moreover, the people of the Seven Protectors of Mountain Heng have been looking for her all the time."

"South." Henry looked to the south, loosened the collar of the scarred man, and was about to leave.

"Bro, if you go there like this, I'm afraid you won't be able to find the person you're looking for." The scarred man looked at Henry and said, "You broke into the hunting ground of the Thunder Academy. Now they want to arrest you. Wherever you go now, you will be found. At that time, it will not be easy for you to find someone again, but I can help you."

Henry slightly frowned. The words of the scarred man were reasonable. All the information now existed in a communicator. Anything he did would completely reveal his information. It was convenient, but at the same time, he had no privacy. Once he was found by the academy, there would be a lot of trouble.

Moreover, Henry did not believe that he had the power to dominate the entire Core civilization. Although Henry was not afraid of the Spirit-controlling realm experts, it would be extremely difficult for him to defeat them. After all, no one at this level was an idiot and every single one of them had been painstakingly refined.

Henry looked at the scarred man and said, "What do you need me to do for you?"

Henry would not naively think that this man would help him for nothing.

"Our mountain top has been destroyed by the Thunder Academy. We're a bunch of brothers with nowhere to go. We want to find a place to go. Now, we have a good choice," the scarred man said.

Henry nodded. He understood that the man was asking him to be a hatchet man.

"Let's go." Henry didn't waste any extra time.

The scarred man's face lit up and he immediately led the way.

Henry followed the scarred man and began to get information from him. "I heard that the Seven Protectors of Mountain Heng have been making a big fuss recently. Where did they come from?"

"We don't know either." The scarred man shook his head. "Their goal wasn't just a small Thunder Town but the entire Wanshan District. I heard that the organisation was led by seven supreme experts. Many bandits leaders had submitted to them, and they are very strong. Even Wanshan District couldn't deal with them for a while. Furthermore, I heard that they have the support of the Noble Berserkers behind them, and they have a very strong background."

"The Noble Berserkers." Henry's brows furrowed once again.

"What about the Recluse Association and the Alvin League?"

"The Recluse Association and the Alvin League?" The scarred man was stunned. "I've never heard of these two factions. Are they very powerful?"

Henry nodded slightly. "The same as the Noble Berserkers."

"Oh my God!" The scarred man opened his mouth wide. "The

same as the Noble Berserkers. How many top-tier forces do we not know of?"

Henry had a strange look on his face. "What, do you think that the Noble Berserkers is very strong?"

"Of course!" The scarred man nodded. "Although the Noble Berserkers has only been around for less than twenty years, it has rapidly grown to a superpower that is comparable to a region."

Henry was speechless. He never thought that the hands of the Noble Berserkers could reach such a long distance.

No, that was not right!

Ranulfo said that the reason that Sylvia came to the Core was related to the Sacred Lord of Noble Berserkers. Right now, the Seven Protectors of Mountain Heng were looking for Sylvia, and behind the Seven Protectors of Mountain Heng was the Noble Berserkers. What kind of connection was there between these two?

Henry always felt that things were not as simple as he thought.

The scarred man took Henry to another hilltop.

The Core civilization seemed advanced, but in fact, it had a lot of drawbacks. Food was a large part of its contradictory points. In this place, most of the land had lost its farming ability because of excessive development of energy, and there was a shortage of food. Therefore, there was a number of people who could not fill their stomachs.

In fact, such a situation also existed on the surface, but the worldview of the two civilizations was completely different. In the Core, Qi-refining was the most important thing in one's life. After having strong strength, people's way of fighting for food changed.

Thus, bandits were born.

Thunder Town was located in the area called Wanshan District. There were tens of thousands of mountains here, and there were countless bandits. These bandits had no household registration, and it was difficult for them to move even an inch in the city.

The scarred man took Henry to another hill with dozens of people.

The other party seemed to have expected the arrival of the scarred man. He was waiting at the entrance of the mountain with his men.

"Haha, Absalon, your mountain has been seized by the Thunder Academy. You've come to my place. Do you think that I, Edelfieri, will be easy to bully?"

The man who called himself Edelfieri was a middle-aged man who looked about the same age as the scarred man. He was holding a golden machete and blocked the entrance of the mountain gate.

"Edelfieri, I advise you to give up the place. I just want to find a place for my brothers to stay, so I don't want to hurt you." Absalon spoke.

"I'm afraid that's the biggest joke I've ever heard." Edelfieri looked at the group of people behind Absalon. "You're just a bunch of losers. Do you mean you can hurt me?"

"All right, cut the crap." Henry stepped forward and interrupted their dialogue. Then, a purple divine sword was condensed in Henry's hand.

When the violet-coloured sword appeared, Edelfieri's face instantly turned ugly to behold. He could sense the mighty aura emanating from the sword.

"May I know who you are?!"

"Syl Zhang from Radiant Island." Henry smiled and then waved his hand.

The mountain behind Edelfieri was neatly sliced apart.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1392

The sword swept over a mountain.

Syl Zhang from Radiant Island.

These words kept circling in Edelfieri's mind.

How strong was this sword stroke?

Edelfieri, who originally intended to fight, was completely stunned at this moment. His hand, which was holding the sword, was trembling slightly.

The people led by Edelfieri stood on both sides almost spontaneously, leaving a passage for the people brought by Absalon.

Although Absalon was also shocked by the power of Henry's sword, he tried hard to restrain the expression on his face. He cupped his hands and said, "Edelfieri, thank you."

The corners of Edelfieri's mouth twitched slightly. He didn't say a single word.

Absalon's men soon occupied the top of the mountain. Edelfieri's men didn't leave either. They only left one of the hills. Absalon left with Henry after giving some instructions. He didn't worry that Edelfieri would play tricks. He was very clear that Edelfieri wouldn't dare. It was just because of the sword.

Absalon took Henry all the way south.

In the south of Thunder Town, there was Ensver City. It was a second-tier city.

Ensver City was in charge of the third-tier towns in the surrounding area, and its strength was also stronger.

Henry and Absalon had been running all year round. For them, this journey was a piece of cake. Under the driving of Absalon, a black car burst with a speed of 230 yards.

This was also a car from the Core civilization. Compared to the surface civilization, this car was even more luxurious. Although it was used as a driving vehicle, a person only needed to issue some necessary orders and the car spent most of the time driving by itself.

Even though the civilization on the surface had automatic artificial intelligence, the Core civilization, which had existed for more than a thousand years, had already had cars that could drive themselves for a long time.

After two days of traveling, Henry and Absalon arrived at Ensver City.

Absalon told Henry that he had inquired about Sylvia. Sylvia had once appeared in Ensver City and had gone to meet a person. After seeing that person, Sylvia disappeared. Now that he wanted to find Sylvia, Henry could only get the answer from that person.

The person Sylvia saw last time was called Derbey.

Derbey had a very high position in Ensver City.

Although all the major towns were under the control of the academy, Derbey was an exception. He walked between the academy and the bandits, it could be said that he had good relationships with both sides.

It was not easy to meet Derbey. Derbey usually lived a secluded life. His residence was full of spies of all parties. If they directly rushed in, they would inevitably be noticed by all parties.

But tonight, Absalon got the news that Derbey would attend a meeting regarding the recent riot of the Seven Protectors of Mountain Heng. He would come out to make a simple adjustment. Absalon asked his friends to get him two identities so that they could sneak into the party.

When they arrived in Ensver City, it was noon. Although Henry had some money now, he did not dare to find a shelter at random. Absalon found a place to stay for a while. It was a house where no one had lived for a long time. A two-bedroom house was full of technology.

When Henry entered, the mechanical equipment automatically cleaned up the whole room, making it extremely convenient.

"Brother Zhang, you can stay here for the time being. I'll go out to inquire about the news."

Absalon was very attentive. Although he was obviously older than Henry, he still called him brother. After all, Henry's strength was obvious.

Absalon made a guess about the sword attack of Henry two days ago. The power of that sword was probably close to the supremacy master!

Such speculations left Absalon in a state of shock.

With just a casual stroke of his sword, he had the power of the Supremacy Master. How strong was he really? 5

And what kind of place was Radiant Island? Until now, Sylvia was wanted widely by the Seven Protectors of Mountain Heng. Her whereabouts were mysterious, and there was some force behind her. Wherever she went, there was no obstruction. Now, this person had the strength of similar to Supremacy Master! Radiant Island was really horrible!

Absalon went out and didn't come back until sunset.

"Brother Zhang, the meeting has already been arranged. We can wear masks and go in as white bandits."

The so-called white bandits were mostly bandits with an identity. Most of these people were ordinary people. They didn't develop much in the city, so they went out of the city and became bandits. However, they didn't dare to show up.

Generally speaking, people like this would have other identities in the city. Some of them were even students of the academy.

Under normal circumstances, these white bandits wouldn't dare to show themselves. However, due to the presence of Derby at tonight's banquet, some of the white bandits would also participate. This was one of the unique aspects of Ensver City.

At the banquet, white bandits were masked, and no one could recognize who they were. No one would remove the white bandits' mask and break this rule.

In the past two days, Henry had learned a lot about the bandits from Absalon.

When Absalon came back, he also brought two masks, one of which was a black mask with tusks.

Henry took the mask and could not help but smile. Fate was such a wonderful thing. "Well, I'll be the first Reaper from Radiant Island."

Stardance Hotel was the largest hotel in Ensver City. The three major academies in Ensver City jointly invested in this hotel. Whenever there was a major event in Ensver City, they would choose this hotel. This time, it was the same.

Recently, the Seven Protectors of Mountain Heng got extremely powerful. They attacked all towns in the whole mountain area. The bandits were rampant, which made the public security of the town extremely chaotic. The three academies were under a lot of pressure. Although they jointly managed the city, they didn't have the answer. There were still people above them. If the chaos continued, the leaders of the three academies would be removed from the academy.

The three great academies had no choice but to invite Derby to mediate this matter. If it was in the past, the three great

academies wouldn't have done such a thing. In their view, if they were to interact with the bandits, it would be a matter of lowering their own status.

Tonight, Stardance Hotel wasn't open to the public, so the people who came here were either the leaders of the bandits or the influential figures in the academy. Of course, some white bandits would be there as well.

The people of these three forces unified and sat in the banquet hall respectively. The leaders of the three major academies, as well as the key figure of this party, Derbey, had not yet arrived.

"White bandits? A bunch of cowards. I'm very curious. Are you here to find a sense of presence?"

"That's right. If you want to live in the city, you'd better make contributions to the city's security. If you don't want to live in the city, get out of here as soon as possible. There are too many people who want to settle down in Ensver City."

As the group of white bandits with the most complicated identities, they were very looked down upon by others. They were regarded as fence-sitters regardless of whether they were from the academy or the bandits.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1393

Now, the three sides had gathered at the banquet hall. Before the main characters arrived, the rest of the two sides had already jeered at them.

White bandits' representatives all lowered their heads and didn't dare to make a sound. They were the ones with the weakest strength. Otherwise, if they really had the strength, they would either be able to get a good position in the city or become the head of the bandits. Why would they have to blend in between the law and the environment and become the fence-sitters?

However, it was just a verbal spar between the academy and the bandits, and they didn't really intend to do anything.

Although bandits' existence was despicable, there was a reason for their existence. The existence of these people also helped to solve a lot of problems. Otherwise, if they really forced those who lived in the city to out, the result would be unacceptable for the academy.

Henry and Absalon came to the banquet hall. They wore masks, and it was obvious that they were white bandits. They were recognized at first sight.

The mocking voices from both the academy and the bandits also rang out as expected.

"Now any random cat or dog can come to this kind of party. I don't understand why you white bandits showed up."

"Is there anything for you here?"

One of the bandits spoke out. This was an expert at the late stage of the Transformation realm.

Henry was about to sit down. He pointed at himself and asked in confusion, "Are you talking about me?"

"Of course."

The bandit nodded without the slightest hesitation, "Who else?"

"Would I talk about myself?"

"Oh, I see."

Henry responded. He stood up again and then walked toward the bandit from the Transformation Realm.

The expert from the Transformation Realm found it a little funny when he saw a white bandit coming towards him. In everyone's understanding, the strongest white bandit was merely at the early stage of the Transformation realm. After all, once one bandit had the strength of the middle stage of the Transformation realm, there was no need for him to be a bandit. The benefits given by the city were enough for him to support one family, provided that he had a household registration. White bandits had to have a household registration.

"Well, according to your voice, you seem to have something to say to me, don't you agree with me?"

The master from the Transformation Realm was sitting on a chair, looking at Henry with disdain.

Henry walked to him, and the mouth hidden under the mask raised a smile. Then, Henry's hands reached out like lightning, grabbed the arms of the expert, and twisted them hard.

"Crack!"

A crisp sound was suddenly heard, and then the scream of this Transformation Realm expert was heard throughout the whole banquet hall.

"What are you doing?! Stop it!"

The rest of the bandits all rose to their feet and began to chastise Henry loudly.

Facing the scolding of these bandits, Henry didn't want to stop at all. He broke the expert's arms and stepped on his knees.

There were two more "crack" sounds, and the legs of this master were also destroyed. His arrogant expression just now was certainly gone at this time. His face had begun to twist and he rolled on the ground because of the pain, and his screams kept coming out of his mouth.

"Shut up!"

Henry lifted his foot and then heavily stepped on the man's mouth. The ear-piercing scream stopped abruptly.

All the people in the banquet hall looked at Henry with different eyes. Their eyes were full of fear. This person had no scruples at all. Moreover, an expert at the late stage of the Transformation realm was destroyed by him without any resistance. His strength was at least at the Qi-concentrating realm! A person at the Qi-concentrating realm was powerful enough to be a teacher in the academy, but he was still willing to be a white bandit. It was very difficult to figure out his identity.

Absalon, on the other hand, kept taking deep breaths. Along the way, he still felt that this brother was powerful and easy to talk to. However, it now seemed that he felt that he was the only one who thought so. This person was not easy to talk to at all.

Henry stepped on the head of the Transformation Realm expert and looked around. Then he said, "What? Do you still think I'm not qualified now?"

No one dared to speak again.

This situation lasted for three minutes. For three whole minutes, the whole banquet hall was silent.

Three minutes later, Henry lifted his foot and walked to the

side, but the person he trampled on had already stopped breathing.

"Who are you exactly?"

"I think that white bandits also have their forces. I wonder which force are you from, Sir?"

A person who seemed to be of a high status in the academy spoke, and he wanted to guess Henry's identity.

"That's easy to say."

Henry sat on the seat, adjusted in an extremely comfortable position, and said, "Radiant Island."

Radiant Island?

All the people present listened carefully to Henry's words. When they heard the words "Radiant Island", they were all thinking that they had never heard of such a force.

Just as someone was about to speak, a few figures entered the banquet hall together. Those who were about to speak all shut their mouths.

This was because the main characters had arrived.

The people who came here were the highest leaders of the three schools, together with Derby and two representatives of bandits. It was said that the representatives of these two bandits were sent by the Seven Protectors of Mountain Heng.

When these people entered, everyone present sat upright in the face of danger. Only Henry was still sitting comfortably.

"What's going on?"

One bandit noticed that there was a body on the floor.

All the people present subconsciously laid their eyes on Henry.

"A white bandit did this?"

The bandits' representative frowned, a look of displeasure appearing in his eyes.

If bandits were official workers, then white bandits were temporary workers. In terms of status, white bandits were completely inferior to the bandits. No one had ever heard that a white bandit would dare to lay a finger on the regular bandit.

"Settle this first."

"If I don't solve this problem, I won't be able to deal with this," Derby thought to himself. He had seen a lot of conflicts before. He didn't care about how to solve this problem, nor how to kill people.

The bandit nodded and asked Henry again, "Which force do you belong to?"

Henry stretched out the little finger of his right hand, picked out his ear, and spat out the words, "Radiant Island."

These words also made the bandit leader and the school leaders feel confused. Only Derby was shocked when he heard these words. He subconsciously glanced at Henry and then quickly looked away.

Henry had been paying attention to Derby all the time. He naturally noticed the other side's little trick, which made him smile. It seemed that Derby did know a lot of things.

Henry wanted to test Derby, so he said the words "Radiant Island". He was not afraid of what was caused by these words. Since Sylvia mentioned these words on purpose, he must do the same.

Chapter 1394

"Radiant Island?" The bandit representative had a look of disdain on his face. "It is a mess. With the lead of our Seven Protectors of Mountain Heng, do you, white bandits, feel that your situation is rising?"

As the bandit spoke, he walked toward Henry. Judging from his posture, it was obvious that he was ready to fight.

"That's enough. We'll deal with this later. Let's get down to business first." Derby suddenly stopped the bandit representative.

The bandit representative looked at Derby strangely.

Derby didn't say a word and sat down on the main seat.

"Let's go. Let's get down to business first." Another bandit leader pulled his companion to his side before he decided to let the matter drop.

The Transformation realm expert who was already dead was carried out by someone.

Even though there were four parties present including Derby, white bandits wouldn't interfere with the negotiations between bandits and students of the Academy. As for Derby, he didn't say a word. He was only a middleman, and his eyes were fixed on Henry all the time.

Listening to them made Henry bored and sleepy.

After two hours, the academies and the bandits finally reached an agreement. Henry didn't listen to the specific results, which had nothing to do with him.

After the agreement was reached, everyone left. Before leaving, the bandit made a gesture of cutting his own throat to Henry and said, "Radiant Island, right? I'm waiting for you

outside. I hope you don't run away secretly and show me your imposing manner."

After saying that, the bandit left. If it had been before the agreement was reached, he would have done it here. But now, he could not do it. The first point of the agreement was that the bandits could not do anything in the city at will.

They all left, one after another. Absalon looked at Henry and said in a low voice, "Brother Zhang, if there's a chance now, let's go ask Derby. We won't have such an opportunity anymore."

"No hurry." Henry shook his head slightly and still leaned comfortably there.

After everyone had left, Derby stood up. He was an old man who seemed to be over 65 years old.

Absalon, who was sitting next to Henry, also got up in a hurry. Although he was wearing a mask, just looking at his posture, one could feel how respectful he was.

Derbey walked toward Henry.

Absalon immediately stepped forward to greet him and said respectfully, "Mr. Derby, you..."

"Derbey! Greetings, milord!"

In the shocked eyes of Absalon, Derby knelt down on one knee in front of Henry.

"This!" Absalon's mouth was wide open under the mask, and he didn't know how to describe his current mood.

The man in front of him was Derby!

Who was Derby? He was someone to whom the principals of the three great academies had to show respect to. He had a high status as he roamed between both sides of the entire Ensver City. At this moment, Derby was actually kneeling here. This was likely the first time ever that he did that!

Henry was also surprised by Derby's attitude. He only knew that Derby had heard of Radiant Island previously, but he did not know how Derby had heard of it. He did not expect that the other party would have such a reaction.

"You know me?" Henry was slightly curious.

"I've heard about it from Madam once," Derby said respectfully. "Madam once said that her lord will soon appear in Ensver City. I'm here to wait for her lord to appear."

Henry sat upright, looked at Derby up and down, and said, "Which madam are you talking about?"

Derby took a deep breath and slowly spat out the words, "Sylvia Lin."

Henry's body trembled slightly and he continued to ask, "Where did she go?"

"I don't know." Derby shook his head. "My lady is Supremacy Master. I don't dare to inquire about her. My lady just wanted me to wait here for you to show up and assist you."

Supremacy Master...

Henry noticed Derby's words and continued, "Help me? How?"

A fire lit up in Derby's eyes. He said, "Unify the bandits and rebuild Radiant Island!"

Henry abruptly got up and dashed in front of Derby. He grabbed Derby by the collar and shouted, "Did she really say that to you? Do you know what she looks like?"

Derby raised his wrist and turned on the communicator. The next second, a photo of Sylvia appeared in front of Henry. However, in Henry's eyes, Sylvia in the photo was a little strange, unlike the businesswoman he knew. She wore a robe, a sword in her hand, and a black bamboo hat on her head. There was a kind of fierceness in her eyes, and she looked more like a heroine in the photo.

Henry let go of Derby's collar. Although he felt that this photo was a bit strange, he was sure that this was Sylvia. He couldn't be wrong.

"My lord, I have finished everything, and was just waiting for you." Derby was kneeling on one knee again.

Henry took a deep breath and said, "Did she say the reason?"

Derbey shook his head.

"I'll give you a chance to live." Henry stared at Derby. "Sylvia should only see you once. Are you really going to listen to her?"

"No." Derby shook his head. "Everything I have was given by Madame. From twenty years ago until now."

"What a joke!" Henry stretched out his arm and grabbed hold of Derby's neck. "Do you know how old Sylvia is this year? Twenty years ago?"

"I don't dare to talk nonsense." Even if Henry pinched his throat, Derby's eyes were still full of respect.

Henry held Derby's neck and stared at him for more than a minute. Derby was obviously unable to breathe and his face was red from suffocation. However, the respect in his eyes was not reduced at all. Apart from respect, there were no other expressions.

Henry snorted coldly and suddenly swung his hand. Then, Derby knelt there again. The body language of Derby told him that in the current situation, breathing was the most comfortable, but he did not dare to do so. He was still breathing in quietly, little by little, and adjusting his breath.

"Take me to a place where we can talk." Henry took off his mask and showed his face.

"Yes, Your Highness." Derby bowed his head, got up, and led the way.

"You come as well." Henry glanced at Absalon.

Absalon nodded repeatedly. At that moment, he had the feeling that his fate was about to change.

Henry looked at Derby, who was walking in front of him. His heart was full of doubts. He couldn't understand what Derby was saying. Twenty years ago? And his attitude and respect for Sylvia came from the bottom of his heart. He was not lying.

All in all, Henry couldn't believe what Derby said. What he wanted now was to see what Derby was doing and whether he could find any clues related to Sylvia.

Chapter 1395

Derbey brought two people to a private meeting room.

"My lord, this way, please."

Derbey bowed and made a gesture of "please" to let Henry sit on the main seat.

Henry looked around the conference room and then sat down.

He looked at Derbey and said, "Tell me, what are you going to do?"

Derbey replied respectfully, "For the past twenty years, I've been preparing. I can't tell you about other places, but if you want to do something in Ensver City, my lord, I can gather the forces that are stronger than the three major academies. I can demonstrate my might for you. Radiant Island can be black or white."

"Can it be black or white?"

Henry smiled faintly. Radiant Island on the surface was also in this state, wasn't it?

Henry looked at Derbey without saying anything.

Henry didn't speak, so Derbey didn't dare to speak either.

Absalon stood aside and didn't dare to say anything. He was glad that this man didn't kill him on the first day they met.

It was a full half an hour. During this half an hour, the whole private conference room was silent.

Henry's mouth corners suddenly cracked into a smile and he said, "Okay, let's do it."

Henry didn't know whether the words of Derbey were true or false. After all, Sylvia's recent news did confuse him, but he could not believe this man fully.

However, Henry could do whatever he wanted. He figured out that it would be like looking for a needle in a haystack if he continued to search for someone in the entire Core civilization. Since that was the case, why didn't he just make a Radiant Island? He wanted everyone to know the name of Radiant Island. When everyone heard about Radiant Island, Sylvia would naturally be able to hear about him.

During this period, Henry didn't care about whether Derby would play tricks on him or not. After all, he was alone now, so he didn't care whether he would lose anything.

Derbey's eyes were burning hot. "My lord, what do you think we should do?"

"What to do?" Henry picked up the mask he had taken before and put it back on his face. "Isn't there someone waiting for me outside? Then let's start with him and make a name for our Radiant Island! Arrange a few people to take his body downstairs."

Derbey was stunned and said, "My lord, according to the rule we made just now, we can't take any action in the city."

"This is a rule made between bandits and the academies. What does it have to do with me?" Henry stood up and said, "Besides, the existence of Radiant Island itself is a break of the rule."

Henry said and opened the door of the conference room.

Derbey's body shook.

Breaking the rule.

Three simple words seemed to have some magic power, which made his heart beat violently.

"My lord, how should I address you in the public?" Derby asked again cautiously.

Henry strode out, and at the same time, his voice was heard.

"Reaper from Radiant Island."

"Reaper..." Derbey murmured.

In front of the hotel, the two bandit representatives stood at the entrance.

"Abidjah, let's go. He won't come out. Even if his strength is beyond our expectations, he'll only be at the early stage of the Qi-concentrating realm. If he has the courage to do so, why would he be willing to be a white bandit?"

The person called Abidjah was the bandit representative who wanted to fight with Henry before.

Abidjah shook his head slightly and said, "Aleksandar, I have a feeling that he will come. There is a sense of arrogance on this person, and I can feel it."

"Then what are we going to do?" Aleksandar asked. "Don't forget that we only use the name of the Seven Protectors of Mountain Heng. They don't even know that we are with them. If this gets out of hand, no one's going to protect us."

"How can we make a big fuss?" Abidjah asked back. "He's only at the early Qi-concentrating realm. As long as he appears, he won't be able to escape. It'll be good if we can take him out of the city and kill him. If we don't kill him, the academy will soon suspect whether we really have something to do with the Seven Protectors of Mountain Heng. This identity won't stand up to scrutiny. Therefore, he must die. Both of us are in the late Qi-concentrating realm. We just have to kill him."

While they were talking, Henry, wearing a black mask, appeared at the door of the hotel.

Abidjah's eyes were fixed on Henry in an instant.

However, Aleksandar did not speak at this time. He stared at Henry. He did not expect that this person really dared to come down. They had been waiting for almost an hour. Aleksandar

thought that this person would not appear.

"He's coming!"

In the darkness, there were people from the academy watching.

"I heard that this person was cruel and merciless to begin with. After following the Seven Protectors of Mountain Heng, his methods became even crueller and he became even more fearless when doing things."

"It seems that they are going to take action. They just set the rules and they want to break them. It's true that they are supported by someone behind them, so they are not afraid."

"No!" Someone shook his head. "If they were the trusted followers of Seven Protectors of Mountain Heng, they would ignore the rules. But I heard that they're just followers. They wouldn't dare break the rules, but they'd probably create some trouble. After all, with their strength, there's no need to act if they want to deal with this white bandit. The pressure of the Spiritual Qi alone is enough to force him to retreat."

"See? I've heard that Abidjah and Aleksandar want to establish a reputation as well, so they want to make some sort of attitude for us to see."

The people from the academy were hiding in the shadows. It was as though they had heard what Abidjah had said. There were many things hidden within this small conflict. Many people were paying attention to it.

"Very brave." Abidjah stared at Henry, who was walking toward him, and said.

"Brave?" Henry gave out a curious voice and said, "I don't understand what you mean. Is it that not fearing a loser's threat makes me brave? If that counts as courage, then all the people on the street are brave."

After being called a loser directly by Henry, Abidjah couldn't help laughing out of anger. "Good, very good, it's a good talk. I'm not so good, how about going out with us for a walk?"

Upon hearing this, he took a step forward. At this moment, spiritual energy erupted out of his body. He was at the late stage of the Qi-concentrating realm, and it was clear that he had been able to unleash all of his power.

"Oh my god! There's something weird about Abidjah's Spiritual Qi!"

"It's becoming more and more solid! I'm afraid that he is one foot in the Divine Realm!"

"No wonder. It seems that not only does he have the protection of Seven Protectors of Mountain Heng, but his strength also gives him the confidence to run amuck in this place!"

"Once you enter the Divine Realm, you'll enter the ranks of the top experts. The divine will is different, and each Divine Realm expert's strength is different as well. It's not necessarily true that an old Divine Realm expert is as strong as someone who has just entered the Divine Realm!"

"I've heard that he's cruel and merciless. He's experienced battles all year round, so his divine will is definitely not weak!"

"It seems that there will be one more king among the bandits around us!"

Chapter 1396

Because of Abidjah's Qi, the members of the Academy, who were hiding in the dark, uttered a sound of horror.

An expert at the early stage of the Divine Realm could be considered a supreme expert in a third-tier town like Thunder Town. Even the academy couldn't do anything to him. However, in Ensver City, the Divine Realm was still the pinnacle. Even though they weren't invincible, no one beneath the might of the supremacy masters dared to say that they could definitely kill another Divine Realm expert, unless they were completely outclassed. There wasn't a problem running away if they couldn't beat them.

The Supremacy Master! That was a title for the Spirit-controlling experts! There weren't any supremacy masters in Ensver City yet! There were only a handful of supremacy masters in the entire mountain region.

The reason why the Seven Protectors of Mountain Heng were so powerful was that all seven of them were supremacy masters! Seven supremacy masters! They ruled over the entire mountain region! Supremacy masters were existences that stood at the very top of this world, and there weren't many who dared to look down on those under the Spirit-controlling Realm.

Although Abidjah only had one foot in the Divine Realm, it was only a matter of time before he became an expert. His current strength had surpassed that of an ordinary expert at the peak of the Qi-concentrating Realm. Wasn't it a piece of cake for him to deal with a white bandit?

Those who hide in the dark could already predict the tragedy of the white bandit.

Aleksandar, on the other hand, looked at Abidjah in surprise. He had no idea how long it took for Abidjah to reach such a level of power.

He had already stepped into the Divine Realm. The powerful pressure emitted by his feet surged towards Henry.

Faced with such pressure, Henry did not do anything but still stood there.

"What's wrong? You can't move?"

Abidjah sneered. "Show me your arrogance and your confidence. Let me know who's the good-for-nothing in the end!"

Henry still stood there silently.

"Come, speak. Tell me!"

He was about to take a step forward to put greater pressure on Henry.

The violent Qi energy hovered at the door of the hotel. Everyone who passed by felt the horror of the energy and retreated to the distance one after another.

"What a horrible Qi! What's the level of the Qi?"

"Qi-concentrating Realm, at least Qi-concentrating Realm!"

"No, my school's teacher is at the late Qi-concentrating Realm. He doesn't possess such terrifying pressure. He's about to enter the Divine Realm!"

All sorts of discussions could be heard. Upon hearing such a sound, it was very pleasing to the ear.

"Speak. Tell me who is a good-for-nothing!"

Abidjah roared loudly.

Henry, who had not moved all the time, suddenly raised his arm and scratched the back of his head. He said in a puzzled tone, "It's so strange. What are you roaring about?"

"I was waiting for you to make a move!"

"In the end, you didn't move at all. Do you only know how to be incompetent and furious?"

"Waiting for my move?"

Henry's words stunned Abidjah. How could he not feel the powerful aura?

"Waiting for my move?"

Henry sighed.

He said, "Since you don't do it, then I'll do it."

The moment the words fell, a purple light burst out from Henry's back.

The Spiritual Qi, which was lingering in the air just now, immediately disappeared without a trace because of the appearance of this purple light.

As for Abidjah, who was standing in front of Henry, at the moment when the purple light appeared, he flew backwards five or six metres and fell on the ground. Well, it was the great pressure produced by the purple light.

Since the decision was made to use the name of Radiant Island, at this moment, Henry no longer needed to hide his power. Either the name of Radiant Island would not make a sound or once it did, it had to be astonishing! The instant the violet light appeared, the hearts of the students hiding in the dark began to pound.

"This! This is!"

"Peak of the Divine Realm!"

"My god! This powerful pressure! This white bandit... is actually a top expert!"

"Crazy! I must be crazy! A white bandit in the Divine Realm!"

Abidjah, who flew backwards and fell to the ground, widened

his eyes and looked at the person in front of him. The Qi behind the person made him feel scared.

Aleksandar, however, looked at him blankly, unable to say anything.

They had thought that they had already overestimated this person's strength, but never could they have imagined that such a white bandit would possess such strength.

At the same time, several figures from the three major academies in Ensver City shot up into the sky and headed straight for Stardance Hotel. A person at the peak of the Divine Realm could be considered invincible in a place like Ensver City, and they could not help but pay attention to it.

Behind Henry, the purple Qi swirled. He looked at Abidjah in front of him and said, "I will give you the answer. You are a good-for-nothing. Is there any problem?"

Hearing this, Abidjah clenched his teeth. His back was already wet with cold sweat. Looking at the person in front of him, he could not say any harsh words. This was the peak of the Divine Realm! "If there is no problem, then I will take action."

A purple holy sword appeared in Henry's hand.

Henry stepped forward in a simple step, making Abidjah spit out a mouthful of blood. This pressure was unbearable for him.

"Stop!"

A loud shout rang out in the air. It was a Divine Realm expert from the academy who had rushed over at the first instance. The rules in the Core allowed these top-level experts to unleash their true strength without any hesitation.

This is the second time today that Henry has heard someone tell him to stop. However, it might work for someone else, but not with Henry.

In the night sky, the purple divine sword in Henry's hand drew a beautiful arc towards Abidjah.

A head flew into the air, and blood sprayed everywhere, causing a series of screams from the crowd.

Henry wanted Abidjah to die. No one could save him.

Aleksandar's face was pale, and he did not say a word from beginning to end.

"How dare you?!"

In the sky, the expert from the Divine Realm shouted loudly. Double-edged axes appeared in his hand and went straight to Henry.

"Get lost."

Henry didn't even look at him. He waved his sword, and a purple aura surged out, directly cutting the two axes in the opponent's hand into two halves.

Henry had once fought alone against the strongest of the clans and killed many of them. The title of "the first person under Spirit- controlling Realm" had long since been established. Who among the ordinary Divine Realm could be Henry's match?

Even if the top genius was placed in front of Henry, it was still not enough.

After all, Henry was also a genius. Now that he had been in touch with Qi-refining for a year, how many people in the world dared to say that they could surpass him?

Just as Henry was about to make his move, another few elite Divine Realm experts arrived. All of them were from the academy.

"Bold bandit! You are not allowed to make a move within Ensver City!"

"Surrender!"

Shouts were heard one after another.

Henry looked up at the sky and laughed. "Interesting. Have you ever seen bandits surrender to the law?"

"Today, I killed someone who provoked my Radiant Island. If you dare to speak ill of me, you should die! If you also want to provoke my Radiant Island, then I'll act on it!"

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1397

Henry stood on the ground and looked up. His voice was as loud as a bell. The purple Qi was surging and raging behind him.

In the sky, there were seven Divine Realm masters. They looked down at Henry and felt the surging purple Qi behind him. Their faces didn't look so good. Belonging to the same stage, they could feel that Henry's purple Qi was much stronger than theirs.

When did Ensver City have such a master?

A white invader! Radiant Island?

What was that place?

The seven Divine Realm masters from the academy had a series of questions. In fact, they didn't want to fight Henry. Once a fight broke out, they would either hurt or even lose their lives. Those masters didn't want to lose their lives for a job. Judging by Henry's behaviors, they could tell that Henry wasn't someone play by the book.

In the civilization of the earth's crust, under Henry's provocation, a fight would be unavoidable. However, it was a totally different situation in the civilization of the earth's core.

It was the difference between working for someone and working for oneself.

Moreover, the person Henry killed was a thief. The seven masters from the academy had reasons not to fight Henry.

"Friend, Ensver City has its laws. Because the person you just killed has done many evil deeds, we won't give you the trouble for breaking the laws. But from now on, if you want to stay in Ensver City, you'll have to obey the laws!"

A Divine Realm master shouted loudly.

It was easy to understand this Divine Realm master's meaning. The people of the academy had compromised. So as long as Henry didn't do anything too against the rules, no one would bother him. The academy's decision was unexpected. To compromise with a white invader was probably the first time since the existence of Ensver City.

In fact, people from the academy didn't have too many of a choice. Even with all seven of them, they didn't think it was possible to defeat Henry. And if they couldn't kill Henry during the fight, the academy would be in huge trouble.

At this moment, because of the Seven Guards of Mount Heng, many bandits were active around Ensver City. If Henry became the enemy of the city, it would be even harder for the academy to keep the city at peace. So they decided not to treat Henry as the enemy.

No one expected that the academy could take the step back.

Absalon and Derbey, who just arrived at the hotel, saw the scene.

Absalon was excited. He had been a bandit for so many years. In all those years, he never saw the academy compromised. In the end, power could change everything.

The Divine Realm master from the academy said again, "Sir, if you do it again, we won't be so generous anymore!"

Henry looked at the sky and burst out laughing, "Do it again? I want the laws of Ensver City to be changed. From now on, I want Radiant Island to be in charge of things between the academy and the bandits. Do I make myself clear?"

Henry's words shocked everyone.

Henry's response to the academy's compromise surprised everyone. What Henry really wanted was to control the

academy. The faces of the seven Divine Realm masters turned gloomy. They didn't expect that Henry could ask for more.

"My attitude remains the same,"

Henry held the purple Qi sword in his hand and said, "If you don't agree with my terms, let's fight!"

Still, none of the seven Divine Realm masters engaged in the fight. They looked at each other, and none of them could decide what to do.

It would be embarrassing not to fight Henry after Henry's rude attitude toward their compromise.

To start the fight?

Not to mention whether they had the confidence to defeat Henry, what they cared more about was Radiant Island. They never heard of such a place. What was Radiant Island, and how many Qi masters did it have?

The academy wouldn't be scared if Henry was the only one master Radiant Island had got. But how about Radiant Island had more?

A little more than a decade ago, there was a mysterious organization started to make noise. They called themselves Noble Berserkers, and many masters came from this organization. Within a short decade, Noble Berserkers had become one of the most powerful organizations of the civilization of the earth's core.

Even people from the region didn't dare to offend Noble Berserkers! The seven people of the academy took a deep breath. They realized that they couldn't solve the matter peacefully. With so many bystanders, keep compromising would only disgrace the academy. At this moment, they had to fight.

Just as they were about to strike, Henry spoke.

"I say this not just to the academy people. Bandits around Ensver City, I order all of you to surrender to Radiant Island. In three days, I'll knock on the door of all of you, and I'll kill anyone who refuses to join Radiant Island!"

Henry's voice resounded in every corner of the city, and anyone could hear him clearly.

The seven people of the academy stopped their attacks. With Henry suddenly changed his target to the bandits, the people of the academy had a good reason not to fight Henry.

A Divine Realm master of the academy snorted coldly, "If you Radiant Island has the ability to deal with the bandit outside of Ensver City, why should it be a problem for us to change the rules for you."

"That's right!"

"I hope Radiant Island won't let us down!"

After finishing their words, the Divine Realm masters disappeared. They were worried that Henry would demand more, so they left as quickly as possible. The seven people wanted to get themselves some time to figure out a strategy.

After the seven masters from the academy left, no one dared to stand against Henry. Even the bandits lurking in the dark gave up the idea of revealing themselves.

Abidjah's severed head stated Henry's position loud and clear.

Behind the mask, Absalon's face was distorted out of excitement. Henry just made the seven Divine Realm masters go away. Absalon looked at Henry in awe. He felt so lucky that he could follow such a powerful person. Absalon's heart was beating very fast because of the excitement.

Looking at fearless Henry, Derbey's hands were also shaking because of the excitement. He murmured, "That's it! That's it! This was how things were done before! The feeling is back.

The whole Wanshan District will be shaken! No, not just the Wanshan District. It will go far beyond the Wanshan District. I didn't wait in vain. Everything is worth it!"

From that night on, people in Ensver City would remember the name Radiant Island.

The three major academies held an emergency meeting to discuss how to deal with Radiant Island.

Meanwhile, the bandits also left the city to spread the word.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1398

It was already late at night. People would go to bed at this hour of the day.

But that night was different. Because of Radiant Island, people from the academies and the bandits would have a sleepless night.

The leaders of the three major academies gathered in a meeting room, which was filled with smoke.

"I say, we don't pay attention to Radiant Island. He is just a Divine Realm master. If we let him command us, what the academies will become then?"

He isn't an Aleksandar. Report him and let an Aleksandar kill him!"

"It could have been easier, but the Seven Guards of Mount Heng have been causing big trouble. I heard that they were getting busier, and Wanshan District was under their attack all the time. The fights between Aleksandars happen many times a day. I don't think there will be an extra hand to deal him."

"What should we do?"

We can't allow the so-called Radiant Island to walk all over us!"

"Of course not. We can figure something out. A Divine Realm master shouldn't be a big problem."

"Yes, to deal with the person isn't the point. I'm more worried about Radiant Island he mentioned. We don't know how many masters Radiant Island has."

"There shouldn't be too many. If Radiant Island is full of high-level fighters, why haven't we heard anything about it?"

"Don't forget about the precedent. Back then, Noble Berserkers

was..." "It was only an anomaly. How many Noble Berserkers are there in this world?"

The reputation of an organization accumulates in time."

In the conference room, the people of the academies all expressed their opinions.

Outside of Ensver City, many bandits gathered on the biggest mountain top. Among them were women and men. The oldest ones were over fifty years old, and the youngest ones were only in their early twenties. They all looked ruthless and ferocious. They too gathered together to discuss how to deal with Radiant Island.

"The person from Radiant Island is too arrogant!"

"That's right. How dare he ask us to surrender? Who does he think he is?"

"He's only at the top level of the Divine Realm, and yet the guts of that guy!"

"We want to ask Elder Yu to fight for us!"

"Please, Elder Yu, vanquishing his ego."

"That's right, vanquishing his ego!"

As the discussion went, everyone looked at the elder sitting at the head of the table. He was Elder Yu, the most powerful fighter among the bandits of Ensver City. He had reached the top level of the Divine Realm years ago, and no one doubted his status.

"Haha, you people."

Elder Yu said in disappointment, "How come you allow a little kid to give you such a panic? Whatever, I'll go to see him. I'm curious about what Radiant Island can do. I don't believe that an unknown organization can make any fuss."

Knowing that Elder Yu agreed to fight Henry, all the bandits

were relieved.

Elder Yu had been the leader of the bandits for years. He had been killing all the way to the top. He reached Divine Realm through real battles, and he reached the top level of Divine Realm the same way. So he was a much fearful fighter than other masters of Divine Realm. When he first reached the Divine Realm, Elder Yu was already capable of fighting with the experienced Divine Realm masters. At this moment, none of the Divine Realm masters of the academies was brave enough to challenge Elder Yu. People around Ensver City believed that he was invincible. So all the bandits thought Elder Yu would definitely win the battle with Henry!" "Tomorrow, I'll go and meet that Radiant Island guy."

There was a confident smile on the Elder Yu's face.

"We don't have to wait until tomorrow."

Bandits in the meeting heard a voice.

Then they saw a person in black walked into their meeting room. The person wore a black mask with fangs.

"People from Radiant Island!"

Someone yelled after recognizing the mask. The person was Jerry Li, who was just scared to death by Henry.

No one could forget about the mask that day.

"Is it the same person?"

Someone asked Jerry.

Jerry checked the man in black and shook his head, "He has a similar body build to that person. But he sounds different."

"Radiant Island!"

Elder Yang got up. He waved his hand, and a Qi machete appeared in it, "I haven't seen a young man so arrogant for a long time. I don't know if your ability matches with your

arrogance."

The man in black was indeed Henry. He stood there motionless. He said in a coarse voice, "Surrender to Radiant Island, and I won't kill you."

"What a joke!"

Elder Yu stepped forward, "Kid, I'm here to end your life. Show me what clowns Radiant Island has."

Elder Yu didn't underestimate his opponent. He knew that someone from Radiant Island was a Divine Realm master. Although Jerry said the person standing in the room wasn't Henry, Elder Yu still brought in his full energy to the fight. Throughout his years of battles, Elder Yu had seen so many people lost their lives because of their arrogance.

Elder Yu struck. Qi was raging, and blades were flying.

The Qi from Elder Yu had given the other bandit leaders a hard time to sit through.

He had shown all of his power at the top level of the Divine Realm.

"Looks like you have a death wish."

Henry did not move. The Qi emitted from Elder Yu rustled Henry's clothes.

"Little boy, go to hell!"

Elder Yu roared. Qi blades slashed down toward Henry.

Just as the Qi blades were about to reach Henry, they suddenly stopped. At the same time, the murderous intention in Elder Yu's eyes turned into fear immediately.

Elder Yu's hand, which was holding the machete, started to shake. Soon enough, his whole body shook.

Behind Henry, a seven-meter-tall person in white emerged. Neither Henry nor the person in white moved, but there were

countless blades slashed in the entire meeting room.

"The spirit... you... you are... Aleksandar..." Elder Yu's machete was frozen in the air.

"Aleksandar! The world's most fearful fighter. Only Aleksandar can have its spirit!" Elder Yu said with a trembling voice.

Although there was only one step between Divine Realm and Aleksandar, this step was as huge as the distance between the master of the top level of the Divine Realm and a normal person.

As the master of the top level of the Divine Realm, Elder Yu knew the distance between him and an Aleksandar. He knew it very well that he couldn't be an Aleksandar even with another decade of practice. To be an Aleksandar was the ultimate goal for every Qi practitioner. 

The faces of the other bandit leaders went pale. They couldn't make a sound.

An Aleksandar was standing in front of them! Henry said, "Surrender, or die?"

Surrender, or die?

At this moment, no one thought Henry was joking anymore. As an Aleksandar, Henry could easily take anyone's life.

Who would have thought that the master of the top level of the Divine Realm that appeared earlier that day was only a lesser fighter of Radiant Island? It had an Aleksandar!

Chapter 1399

Everyone in the room was trembling. In the presence of Aleksandar, their pride was gone.

"Surrender, or die. Choose." Henry said in a hoarse voice.

The machete in the hand of Elder Yu dissipated. His knees were bending. Elder Yu knelt for Henry.

"I choose to surrender..."

Elder Yu knelt in front of Henry. Facing the Aleksandar, he had no other choice if he wanted to keep his life.

Following the lead of Elder Yu, the other bandit leaders all knelt. After all, there was no shame of surrendering to an Aleksandar. In fact, they felt honored to be able to follow an Aleksandar. For most people who wanted to follow an Aleksandar, the Aleksandar wouldn't even want to take a look at them.

Henry nodded subtly. He pointed at his mask and said, "From this day, you are members of Radiant Island. You must wear the mask, and all your movement has to follow the command of Radiant Island. Anyone who committed unauthorized action..."

Henry paused. He waved his hand.

At the same time, the white shadow behind Henry slashed out a Qi sword. The Qi flew toward the mountain top. Then the top of the mountain was cut off.

The power of an Aleksandar got a full display.

Elder Yu and the rest of the bandit leads' body shook.

"From now on, you are listening to my command," The white shadow behind Henry disappeared, and Henry was walking out of the room, "You are no longer bandits. All of you will be

called the Reapers."

As soon as Henry finished his words, he disappeared from the eyesight of the bandits.

A few minutes after Henry's leaving, Elder Yu was finally able to stand up. He was still trembling. To all the bandits, the experience of witnessing an Aleksandar was thrilling.

Staring at the mountain, whose top was cut off by the Aleksandar, Elder Yu and the other bandit leaders gasped. They knew that it was very easy for the Aleksandar to kill them. Even Elder Yu couldn't have a fight chance.

Henry left for Ensver City in the middle of the night. The reason that he didn't kill the bandits is that he needed people. Making them scared of Radiant Island could make them follow Henry's lead obediently.

At this moment, except for Henry, no one knew what Radiant Island was. Henry tried to make people believe that Radiant Island was mysterious and powerful. But Henry knew that he was the lead of no one. Although Derby said he had fully prepared, Henry still had no idea of what Derby had.

Derby had arranged for Henry a place to stay. It wasn't an ostentatious villa, but it was still within a rich neighborhood. Henry would stay in Ensver Community, which was the most important community of Ensver City.

People who lived in the Ensver community were either rich or noble. To own a villa there meant the person held elite status in Ensver City.

Although Henry did not know what car people from the civilization of the earth's core were driving, judging by the shape and the passengers of the cars, Henry could tell which one was a luxury car.

Derby found Henry a two-bedroom apartment in a high-rise

building. The facility of the apartment used highly advanced technology. The technology that appeared in the sci-fi films was all the most basic technology used here. There were devices to monitor the human conditions, and the temperature and humidity of the apartment were altering automatically throughout the day.

Derbey had been waiting for Henry in the apartment.

Henry walked into the apartment. He had taken off his mask before entering the community.

"How are things?" Henry tossed his mask aside.

Derbey replied respectfully, "Your Highness, everything is set in motion. I've informed everyone. All the representatives will come tomorrow."

The representatives were people Derby had trained during those years. They would be the first generation of the members of Radiant Island.

Henry nodded and said, "I've enlisted all the bandits. You go there to make some arrangements tomorrow. And please hurry up on the masks and uniforms. Send them out once they are ready."

"Yes, sir," Derby nodded, but then he asked in confusion, "Your Highness, the bandits are famous for their disobedience, especially their leader Yu. Do they really agree with surrendering to us?"

Henry frowned and said, "Just do as told."

In a state of panic, Derby quickly apologized, "My Highness, it's my fault. I shouldn't have asked too much."

"That's it, then. I'm going to have a rest," Henry waved his hand.

Derbey left sensibly.

After Derby left, Henry let out a long sigh. He didn't enjoy acting like a ruthless ruler. He had put a lot of effort into

restraining his temper ever since he had met Sylvia. But to rule those people, Henry had to create fear in them.

It was late at night. Henry yawned and fell asleep on the bed.

At eight o'clock the next morning, Henry got up on time. He went to check the refrigerator and found out a lot of new food and ingredients. Those things made Henry want to cook. He started to study all the materials attentively.

In Ensver City, after an all-night discussion, the leaders of the three major academies finally decided to put the priority on dealing with the matters of Radiant Island. They wanted to shift the attention from the matter of Seven Protectors of Mountain Heng instead. The academies wanted to protect their reputation. They didn't want any random outsider to walk all over them.

They believed that only one master from the top level of the Divine Realm was making all the noise for Radiant Island. This Divine Realm master of Radiant Realm had to be killed in order to vanquish the ego of Radiant Island.

"If, I'm saying if, he really unites all the bandits. If he could make all the bandits surrender to Radiant Island, would it be better for us to talk about collaboration with Radiant Island? For the whole Wanshan District, if only Ensver City could make all the bandits go away, wouldn't it also make us look good?"

Someone in the meeting said. Once the words were out, the whole room went silent. Then there was the sound of heavy breathing.

No bandits near Ensver City! It was such a tempting goal! If such a goal was achieved, the leaders of all three major academies would be promoted very quickly.

They could even imagine the scene of being congratulated by the leaders. How exciting it would be when the goal was really achieved!

Chapter 1400

"That's impossible! Their leader Yu is a top-level Divine Realm master, and he is one of the strongest fighters in his rank. The Radiant Island person was just bluffing. He doesn't have the capability to do it!"

Someone said loudly, breaking everyone's dream.

Everyone knew how great a fighter Yu was. How could the person from Radiant Island make a top-level Divine Realm master surrender? In the minds of the leaders of the three major academies, only Seven Protectors of Mountain Heng could defeat Yu. But they didn't know that Henry had become a Supremacy Master. The existence of Supremacy Masters was rare. Although masters of Divine Realm were just one step away from Supremacy Masters, it could be an impossible step. People could reach the top level of Divine Realm through hard work, but hard work wouldn't suffice for people to become Supremacy Masters.

So the leaders of three majors academies didn't believe there could be one in Radiant Island.

"Well, let's not overthink it. The decision is already made, and we need to start the action right now. Inform everyone to hunt down every single white bandit in town. Arrest all the suspicious people, no matter what they are. I want to force Radiant Island people out. I want to see if they have the guts to match with the bluff they said yesterday. Let's also report our decision to the upper level. Ask them for extra manpower. If a battle breaks out, I want a siege."

After a night of discussion, the three major academies decided to take action immediately.

"Okay, that's settled then. Everyone, get ready for our actions."

Meeting adjourned!"

Right then, someone pushed the door open. A middle-aged man rushed in. He dressed like a professor.

"Mr. Wu, what's going on? Where are your manners?" One of the leaders scolded.

Mr. Wu answered while panting, "I just received the news. All the bandits, including Yu, have surrendered to Radiant island!"

"What?"

The news Mr. Wu brought in caused a commotion in the meeting room.

"Surrendered to Radiant Island?"

"Are you sure?"

"How is that possible? Even Yu?"

"Yu is a top-level Divine Realm master, and he is very arrogant. How could someone make him surrender? We tried once, but he only wants to be a king in his mountains."

"Yes, I remember that."

"Mr. Wu, do the news come from a reliable source?"

"Yes," Mr. Wu nodded, "One of our spies told me. Last night, Yu had a meeting with all the other bandit leaders. They wanted to discuss how to deal with Radiant Island. But before they took any action, people from Radiant Island paid them a visit."

"They fought, and Radiant Island won? How many people did Radiant Island send over? How many of them were Divine Realm masters?" One of the leaders immediately asked.

Mr. Wu shook his head, "Yu was about to fight, but the battle eventually didn't break out. Radiant Island only sent one man."

At this time, Mr. Wu took a deep breath. He looked worried, "They sent a Supremacy Master!"

The whole room went to silence the moment Mr. Wu said the

words.

Supremacy Master!

Radiant Island actually had a Supremacy Master! They even sent the person to deal with some bandit!

The plan of the three major academies completely shattered when the news about the Supremacy Master broke out.

"Supremacy Masters... They actually exist? The news could be fake. Maybe the bandit and Radiant Island conspired together."

"No," Mr. Wu shook his head, "I'm certain that was a real Supremacy Master. My source sent me the video. The Supremacy Master cut off the top of a mountain."

Someone guessed, "Could it be the man from yesterday?"

"No!" Mr. Wu said with certainty, "The Qi of the man from yesterday is different from which of the Supremacy Master. Radiant Island indeed has some very formidable people!"

"Annul the original plan. We are making a new one, right now!" The initiator of the meeting shouted.

Radiant Island had sent out their Supremacy Master. The three major academies together wouldn't be able to defeat that person. The most important issue was that three major academies had no information about Radiant Island, and they didn't even know how many formidable fighters Radiant Island had.

The emergency meeting started right away.

Meanwhile, after getting the order from Henry, Derby went out of the city to talk to Elder Yu.

Elder Yu and Derby were old friends. Derby had prepared a speech to convince Elder Yu to cooperate with Radiant Island. But when he met Elder Yu, Derby was surprised by Elder Yu's attitude. Elder Yu was very respectful to Derby as if he was

inferior to Derby. The reason behind Elder Yu's transformation was that Derby came down in the name of Radiant Island.

Just as the moment Derby wondered about the change of Elder Yu's attitude, he received the news. The night before, a Supremacy Master visited the meeting of the bandit leaders, but the Supremacy Master wasn't the man who appeared in town.

Supremacy Master!

Derbey took a deep breath! He had met a lady of Radiant Island, and she is a Supremacy Master! He only saw Henry showed top-level Divine Realm power, but he didn't know Henry's true capacity.

Besides these two, it was reported there was another Supremacy Master!

Up till then, Derby had known three members of Radiant Island, and two of them were Supremacy Master. Derby couldn't even say for sure the true power of Henry. Although Derby's admiration for Radiant Island was immeasurable, he was still shocked by the power Radiant Island presented.

Absalon was also stunned after he heard about the news. He never thought that Radiant Island could be so formidable.

All the organizations put their spies all around the world. With the help of modern communication technology, the news that a Supremacy Master of Radiant Island visited the bandits swept across every corner of Ensver City. In an instant, Radiant Island had become one of the hottest topics.

Henry, who caused the commotion, did not do anything to help spread the words after he finished his part of the job. At this moment, he just needed to watch which direction the public opinions went. One thing Henry knew that he needed people to tell stories about how formidable Radiant Island was, and once the words were out, his job was done.

Nine o'clock in the morning, one hour after Henry got up, he had tried all the new food and ingredients in his refrigerator, and he had some ideas about how to cook them. Henry started to cook and made an exquisite breakfast.

In the hands of chef Zhang, the great smell of food quickly filled the air.

Henry had spent the last couple of days eating compressed food. He finally could put some real food into his stomach.

After putting on his street clothes, Henry walked out of his hotel room. He wanted to take a look around Ensver City. If everything went according to his plan, Ensver City would become the base for Radiant Island, and Henry would only leave after Radiant Island growing into shape.

Chapter 1401

Henry was walking leisurely in Ensver City. At this time, cars were running on the road, and the workers were in a hurry. From this point of view, it was not much different from the surface. It was only occasionally that a few Qi-refining practitioners who were going to be late flew over, but they were stopped by those who maintained the security. They were punished by paying a sum of money because no one was allowed to fly up in the city.

Compared with occupations on the surface, the Core was more diverse. There were cooks, salesmen, technicians, etc. Similarly, the big screens on the street broadcasted advertisements, movie stars and singers did a variety of products endorsement, etc. People here were also busy.

The only difference was that on the surface, adults talked about their children's academic performance.

Here, the adults were talking about what kind of strength their children had reached.

When Henry saw this, he let out a long sigh. Sometimes, the scariest thing was the unknown. In fact, every civilization was more or less the same. Of course, he only thought that if two civilizations collided with each other, the sparks between them could not be solved easily.

Henry strolled around the shopping mall. He had money, but he didn't dare to waste it. After all, Absalon had reminded him that he was wanted everywhere. Once he used anything related to identity information, the academy would be alarmed. This was also a very bad era. Nobody had any privacy in this era of data.

At around 11 o'clock in the afternoon, Henry's communication

device rang. It was a message from Derby.

Derbey told Henry that the bandit army had completely taken over and the situation was very smooth. And his people had also arranged a representative to meet Henry. At the same time, some people from the academies also contacted Derby, hoping that Derby could establish a relationship with Henry.

"On my way." Henry's mouth curved into a smile. "Tell them to go to Stardance Hotel."

It was lunchtime.

The Stardance Hotel was once again closed to the public.

The senior members of the academy walked into the hotel in twos or threes. They didn't ask for anything to eat, and they just waited there.

Similarly, on the other side, some people walked to a private conference room. Some were men, some were women, some were old and some were young. The clothes on their bodies varied from one another. There were doctors, nurses, volunteers on the street, salesmen and businessmen. Some were decently dressed, and some were wearing the clothes of academy mentors. People of different identities had one thing in common, that was, they were loyal to Derby.

When Henry appeared on the street of Ensver City with a mask, those who were still in a hurry immediately looked frightened and retreated one after another, away from Henry. Moreover, from the mouths of these people, Henry could faintly hear the name of Radiant Island.

"It seems that the speed of news spread is much faster than I imagined," Henry murmured.

In this era when everyone was practising Qi, if something happened, it would spread everywhere in a very short period of time, because everyone was gossiping in their daily lives.

Just like yesterday in the city, Henry declared war on the academies and bandits. Even the news that a Supremacy Master came to find several bandit leaders was spread in the city at an irrepressible speed. Now, people knew the name of Radiant Island, and the name even appeared on the city news.

Henry walked across the street and then came to Stardance Hotel.

The people from the academy also received the news and waited in the hotel.

After Henry came to the hotel, the first group of people he saw were not the people from the academy, but the people invited by Derby. When he saw these people coming from different professions, Henry suddenly laughed. Weren't they similar to Reapers? Reapers lurked in different places in the world. In daily life, they could be anyone. At the critical moment, anyone could become a Reaper and become an assassin from Radiant Island.

Henry appeared wearing a mask. These people did not think much of the so-called Radiant Island when they received the orders from Derby last night. After all, many of them were prominent beings and it would not be a problem for them to be loyal to Derby, but it was hard to accept that they were loyal to an unknown small force. However, after a night of fermentation, almost everyone in Ensver City knew of the island and had also heard about the appearance of the Supremacy Master last night. This result caused them to lose all their pride.

"From now on, keep your identity and put on the mask when you make a move," Henry said loudly. "The moment you put on the mask, all of you will be addressed as Reapers. You can also think that this is another form of white bandits."

Henry said briefly. He knew very well that what he needed to

maintain at this moment was a mysterious image of a powerful and confident force. Giving orders would make people subconsciously choose to obey. After all, they appeared today, which proved that they had the idea of changing their masters.

"My Lord, can we see what you look like?" Within the crowd, the properly dressed boss spoke. He also had the strength of the late stage of Qi-concentrating Realm.

Henry did not make any statement, but just said, "When you see the face under my mask, you will die. Do you want to see it?"

The boss, who was at the late stage of Qi-concentrating Realm, suddenly shivered, and then shook his head like a rattle drum.

Someone asked, "My lord, you're wearing a mask. Each of us has the same mask. Whose order should we follow?"

A smile appeared on Henry's face, which was hidden under the mask. He slightly hooked his finger in his pocket, and a ring fell into Henry's hand. It was the wedding ring that Henry had given to Sylvia.

"This is the Holy Ring." Henry's voice rang out. "The owner of the Holy Ring can give orders!"

The Holy Ring!

All the people present tried their best to memorize the appearance of the ring.

After Henry finished these two things, he did not talk any more nonsense. He turned around and walked out of this private conference room. He said enough. Now there were people all over Ensver City helping to build the power of Radiant Island, and Henry needed to do it personally. There was no need to do too much. Sometimes, a simple statement was just right.

In the conference room on the other side of Stardance Hotel, the senior members of the three major academies were waiting. They had received news half an hour ago that people from Radiant Island had entered the hotel, but after waiting for half an hour, they still hadn't appeared. However, even so, they still waited patiently and didn't show too much impatience.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1402

Henry deliberately took a detour around Stardance Hotel, and then he showed up in front of all the representatives of the academies.

When they saw Henry, who was wearing a black mask, all the representatives got up. They showed such an attitude not only because of the existence of the Supremacy Master behind Radiant Island but also because they had seen great benefits on the island.

It was just like what the many representatives had mentioned during the meeting this morning. If the Radiant Island could really make all of the bandits submit to them, and if the island could stop the bandits from wreaking havoc around Ensver City, it would be a great outcome for them, and the higher-ups would also pay attention to them.

Cooperation! This was what the academies wanted to do the most with Radiant Island.

After Henry entered the room, he looked around and then went to the largest seat in the conference room and sat down.

"Radiant..."

A representative of the academy was about to speak, but was interrupted by Henry.

"Cut the crap. My Radiant Island's ideas are very simple. The bandits around will slowly surrender to Radiant Island and we will restrict their actions. At the very least, the bandits won't run amuck as they did before. I think that this is the thing that you need the most right now, right? My requests are within your capabilities as well. From now on, the bandits and white bandits around Ensver City will all be under my jurisdiction. Your academies will have to hand over a considerable amount

of administrative fees. At the same time, I will need a special identity to ensure that some of them can occasionally enter the city."

Henry sat on the main seat and spoke out his requests in one breath. This kind of existence, which was half-legal was exactly what Radiant Island had done before. Therefore, Henry was very clear about what he needed, and also very clear about what the authorities needed.

Many representatives were lost in thought. After a long time, a man who looked the oldest said, "Let me introduce myself. My name is Juda Meng. I'm in charge of the business here for the time being. We can get the identity for you. As for the fees, how much do you need?"

"It's very simple." Henry shrugged his shoulders and said, "Half of one of your academies' hunting grounds, a hundred acres of fertile farmland, and a million yuan per month."

As soon as Henry finished his words, he was rejected immediately.

"Impossible!" Juda said, "A million per month. It's too much. The upper limit we can pay is half a million yuan at most. We can give half of the hunting ground, but 100 acres of fertile farmland is very difficult to get. You should know that each farmland is owned by individuals. We have no right to take back it, and it is impossible for us to give it to you as a gift."

Henry smiled slightly and said, "Well, the land is in the hands of individuals, but you know better than I who is holding it. Besides, I don't want less than a million. If you don't want to, I can't do anything about that. If we can negotiate, we can achieve some cooperation, but if we can't, there is no need to continue. It's very simple."

After saying that, Henry got up directly and walked toward the

door of the conference room.

Seeing that Henry was going to leave, all the representatives present were suddenly stunned. They did not expect that this person would not talk about the cooperation. There was no room for negotiation.

Seeing that Henry was about to walk out of the conference room, many people kept winking at Juda.

Juda took in a deep breath and said, "Your Excellency."

"What's wrong?" Henry stopped and turned around. "Do you agree?"

Juda looked at his surroundings, and then he said, "Can you truly guarantee that you'll restrict those bandits?"

"Since I've accepted the money, I can do it," Henry replied.

"Alright!" Juda nodded heavily. "If you are able to do this, then we will agree to your conditions."

"Very good." Henry looked at Juda. "Before that, I have a small request."

Morvyn frowned. "Speak."

"Get rid of my arrest warrant." Henry pointed at Juda and said, "Only you know my identity. Do you understand?"

Half an hour later, Henry walked out of Stardance Hotel and strode toward Ensver Community.

Just now, Juda had removed all wanted posters of Henry and Absalon, promising that he would give 100 acres of fertile farmland, one million, and a special identity to Henry tomorrow.

Henry left all these things to Derbey, and from now on, Derbey would be the spokesperson of Radiant Island in this Ensver City.

When they were approaching the residence, Henry took off his

mask and looked around. He was still curious about everything here. After all, Henry was also a normal person.

The environment of the district was very good, and there were flowers and grass. The Core was a world full of science and technology, but its level of green coverage was completely inferior to that on the surface. The green coverage of an ordinary district on the ground could be comparable to the top district in the Core. Overdevelopment had made the farming here shrink sharply, let alone the planting of flowers and grass.

Henry walked leisurely to his residence. A graceful figure was walking in front of him. The woman wore a sunglasses mask and a black hat. She walked and looked back from time to time, then quickened her pace.

Henry walked behind and felt that there was something wrong with the woman in front of him. Her behaviour was like she had been attacked with paranoia. As far as Henry was concerned, based on his own experience, if he wanted to harm that woman with her look, she would never find out that someone was following her.

Henry came to the front of the building where he lived and found that the woman was also living in this building. When Henry entered the corridor to press the elevator button, he saw that a finger of the woman clicked crazily on the elevator button. There were a total of eight elevators in this building, but unfortunately, all of them were taken by someone.

When Henry came to the front of the elevator, the elevator door was opened by the woman's crazy pressing on the button with a "ding".

The woman quickly walked into the elevator. When entering the elevator, she also looked back at Henry, who was following her.

Henry also walked into the elevator.

He looked at the floor that the woman pressed and realized she lived on the same floor as him. Then Henry stood aside and the elevator door was slowly closed. There were only two of them in the elevator.

When the woman in the elevator saw that Henry did not press any floor button, she let the elevator door close, and her body unconsciously shrank back to the corner again.

When the elevator reached the floor, the elevator door opened. The woman could not wait to rush out.

Henry looked at the woman's strange behaviour and felt a little strange. He followed her out.

Just as Henry walked out of the elevator door, a sharp knife with cold light rushed straight at Henry. The person who made the move had the strength of the Transformation Realm.

"Ha." Henry chuckled and raised his hand to make a finger flicking movement. The sharp edge that came straight to him was instantly broken into two pieces. The person who made the move was exactly the strange woman!

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1403

Henry broke the knife in the opponent's hand with one finger, reached out his arm and stuck it in the opponent's throat. He asked, "Tell me, who sent you here?"

The woman's throat was grabbed by Henry. Under the impact of Spiritual Qi, the mask and sunglasses on the woman's face were blown away, revealing delicate facial features. Henry felt that this face was familiar, but he couldn't remember where he had seen it.

The woman's face turned red. She grabbed Henry's wrist with both hands, trying to pull away the fingers that were entangling her throat, but the big hand was like a pair of iron pliers. No matter how hard she tried, it did not move at all. The woman's feet were off the ground and shoved wildly.

"Say it!"

Henry's arm increased strength again.

The woman opened her mouth wide. Obviously, she had difficulty breathing. She wanted to make a sound, but could only make an "ah" sound.

Henry casually threw the woman aside. The woman fell against the wall, coughed a few times, gasped and collapsed to the ground.

After the woman slowed down her breathing for a few seconds, she suddenly roared at Henry crazily, "Are you done or not? You can kill me if you want, but I will never agree with your request!"

The woman's roar made Henry stunned. "What are you talking about?"

"Stop pretending."

The woman sneered. "I will never film it. Don't you want to kill me? Come on, I am here. You just need one more, and my life will be yours!"

Henry looked at the woman who looked like a crazy woman and said doubtfully, "I want to kill you?"

"Do I know you?"

"You don't know me?"

The woman's face was full of disdain. "Is it interesting to keep acting like this?"

"You don't know me and have followed me all the way to the door of my house?"

"You don't know me, but you've been following me all the time?"

"I know what you are thinking in your mind. It's impossible for me to film that kind of thing!"

Henry slightly frowned and pointed to the next room where he lived. He asked, "Do you live here?"

"Why ask when you know the answer?"

"All right."

Henry shrugged his shoulders. He also figured it out. This was a misunderstanding.

Henry went to another door. After the pupils scanned, the door opened.

When the woman saw Henry walking next door, she immediately understood everything. He was not following her. He was clearly a neighbour living next door.

Thinking of this, the woman's face suddenly turned red. She realized she was wrong.

The woman got up from the ground and picked up the mask and sunglasses that had been left aside. Looking at the door

that had been closed by Henry, a touch of grievance gradually appeared on her pretty face. She stamped her feet and said, 'What a man, no gentleman at all!

After the woman said that, she opened the door and strode in. As soon as she entered the house, the woman saw the purple marks on her neck. She suddenly panicked. From the marks on her neck, the woman could be sure that the man must have had the intention to kill her.

Henry returned to his place and turned on the TV. A female star appeared on the screen. The second he saw the TV screen, Henry instantly reacted. No wonder the woman just now looked familiar. In the shopping mall of Ensvr City, there were many advertisements that she endorsed. Her name seemed to be Zylvia Yi. Her name was strange.

Henry scanned all the TV channels and found that the program here did not differ much from that of the surface civilization, and there was still a variety of TV series, a variety of movies and documentaries. However, almost every leading actor and actress would fly in the sky. The science fiction movies were not about exploring outer space like they were on the surface, but about exploring the centre of the earth, in order to find the monsters in the earth, as well as some older civilizations. Henry had never even heard of these civilizations.

Henry looked at these with great interest, which could also be regarded as a form of understanding of the Core civilization.

He watched the TV for the whole afternoon. It was not until Henry was hungry that he realized that the afternoon had passed so quickly. Henry suddenly felt a little funny because he had not experienced this type of feeling for a long time.

He got up and went to the kitchen. Henry began to prepare dinner for himself. These fresh ingredients and seasonings were also very interesting to him. Some of the tastes that

could not be made in the past had opportunities to be discovered now.

While cooking, Henry could still think of the appearance of Sylvia, the little foodie. He couldn't help but smile.

In an hour, four dishes and one soup were emitting a strong fragrance in Henry's place.

The science and technology of the Core civilization developed rapidly. Most of its food came from synthesis, and its main purpose was to make up for the missing elements in the human body. When it came to the pursuit of taste, it was not so perfect. Even the delicious food in those big restaurants was ordinary compared to the surface.

Henry leisurely sat in front of the dining table, opened the communicator, and read some news about Ensver City. Every time he looked at a few articles, he could see that it was related to Radiant Island, and it was also very popular. This showed that the reputation of Radiant Island had completely spread around Ensver City, and no one could stop it.

The result made Henry smile with satisfaction. He picked up his chopsticks and was about to eat when he saw a figure entering from the window of his own house.

Henry was stunned. He lived on the 26th floor. Although everyone was practising Qi in the Core, the thief was too brave.

"My lights are all on!" Henry looked at the light again and recognized the figure turning from the window into his home. It was the woman he met in the corridor at noon, Zylvia.

Henry frowned and said, "What do you..." "Shh!"

Zylvia quickly made a gesture to keep quiet, and then pointed to the direction of the door to Henry and whispered, "Someone is coming. I need to hide for a moment."

Henry went to the door. There was a camera on the door, so he

could clearly see the scene outside the door. There were three people standing in front of Zylvia's door, constantly punching the door and cursing. Because of the excellent sound insulation, Henry could not hear their voices, but according to the mouth shape, they were not saying anything polite.

Henry looked at Zylvia with doubts. "You are a celebrity, aren't you?"

"What's the matter?"

"Do you know me?"

Zylvia was a little surprised.

Henry pointed to the TV, and the TV screen just played Zylvia's advertisements.

Just as Zylvia was about to say something, she was interrupted by a fierce and rapid knock on the door. The people outside the door were beating heavily on Henry's door.

"It must be them!"

Zylvia's face suddenly changed. "Don't open the door!"

While Zylvia was talking, Henry opened the door. Zylvia was so scared that she rushed to the bedroom and didn't let anyone outside see her.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1404

Henry opened the door and looked at the three figures who appeared in front of his house. He asked in confusion, "What's the matter?"

The three people outside the door were quite special. One was tall, one was fat, and the other was short and thin.

With just a glance, Henry could see through the strength of these three people. All of them were at the peak of the Qi-concentrating Realm.

When the tall man saw the door open, he didn't even look at Henry and went straight into Henry's house.

"Get out of the way."

The short and stout man reached out his hand to push Henry.

"Get lost."

Henry waved his hand impatiently and blocked the road at the same time.

The tall man barged in by force, but Henry didn't move at all.

The pudgy man glared at Henry and shouted, "Boy, I advise you not to make trouble and let the woman come out. I know she is here."

Henry didn't cover it up. He looked back and then curiously asked, "Why should I listen to you?"

The short and thin man sneered, "Brother, I know that you live here. You should have a certain confidence in your status. But you have to know that you can't keep the person inside, do you understand?"

"Give her to me if you know what's good for you. Don't think about saving a damsel in distress, or you'll end up losing your life."

The short and thin man's words were full of threat.

"Get the hell out of here."

Henry looked impatient and was about to close the door.

As soon as Henry closed the door halfway, he was stopped by a tall man's hand. "Boy, I think you are making trouble to yourself."

"Let's do it!"

The tall man shouted. The pudgy man and the short man attacked Henry at almost the same time.

Facing the two men's attacks, Henry did not even look at them. He punched out two times and hit both men's chests.

Under Henry's fist, the pudgy man and the short and thin man flew backwards like a kite with a broken string, spitting blood out of their mouths.

Such a scene caused the tall man, who had been preparing to fight, to suddenly stop. He knew exactly how powerful his two companions were. They were on par with him. They were at the peak of Qi-concentrating Realm, but were sent flying by the man's fist.

"No wonder you have the courage to save her. It turns out that you're in the Divine Realm."

The eyes of the tall man became cautious. "But brother, even if you are in the Divine Realm, you can't keep the person inside. This is the person that Master Niu wants, understand?"

When the tall man said the words "Master Niu", he straightened his back a lot. Obviously, he had great confidence in the title of "Master Niu". However, Henry did not change his attitude toward them because of Master Niu.

"I said get out of here, got it?"

Henry stared at the tall man in front of him, and a cyclone

condensed in Henry's hands.

The tall man subconsciously took a step back and stared at Henry's hands. A few seconds later, the tall man took a deep breath and said, "Well, since you don't respect Master Niu, don't blame me for not warning you. I want to see how long you can protect this woman!"

After the tall man finished speaking, he turned around and left. He knew very well that with this man standing here, he couldn't get in no matter how hard he tried.

The threat of the tall man did not affect Henry at all. After closing the door, Henry went to the dining room. He saw Zylvia sitting at the dining table, holding a bowl of rice and eating the dishes on the table. The four dishes were almost totally eaten.

"What's wrong with you?"

Henry walked over and looked at Zylvia. "You haven't eaten for a few days?"

"Are you very hungry?"

"No, I'm not!"

Zylvia puffed up her cheeks. Apparently, she stuffed her mouth with a mouthful of food. She was very excited. "Isn't this too delicious?"

"Did you make these?"

If people from the surface civilization were to eat the delicacies made by Henry, they would be full of praise and would want to swallow them, let alone the people in the Core that did not even care about the taste of the food.

It was the biggest praise to a chef for diners to show such a look. Henry was happy and said, "At least you should leave some food for me. It's my dinner."

Zylvia's pretty face turned red. Looking at the four dishes that she had almost finished, she said with some humility, "I kept

some for you. I haven't finished them yet."

Henry shook his head, went to the kitchen and filled a bowl of rice for himself. Then he sat opposite to Zylvia and ate.

With Henry sitting opposite, Zylvia's manner of eating was much more restrained. However, compared with her usual appearance, she could be considered to be devouring like a wolf. After a while, after a bowl of rice, Zylvia couldn't help but fill another bowl for herself.

"Big brother, they just talked about Master Niu. Aren't you afraid of Master Niu?"

Zylvia secretly took a look at Henry. After eating the food made by Henry, she used Henry's help to get out of trouble and started to call him brother.

"What's there to be afraid of?"

Henry had a strange look on his face. "Is he very powerful?"

Zylvia covered her forehead and asked, "Brother, are you from Ensver City? You don't even know Master Niu."

Henry shook his head and said, "No, I've just arrived."

"No wonder."

Zylvia seemed to realize something. "So, you know that man called Derbey, don't you?"

"Yeah."

Henry nodded and said, "I know this guy. What's wrong?"

"Master Niu is Derbey's sworn brother. It can be said that he has connections with both sides. No one dares to provoke him in Ensver City."

When she said this, Zylvia made a grimace, revealing a look of fear.

Henry suddenly laughed and said, "You've told me so much now. When you just entered through the window of my house,

you looked very skilled. Looks like you have brought some troubles to me."

"No, it's not like that."

Zylvia shook her head. "If you hadn't opened the door just now, those people wouldn't have done anything to you. I just wanted to avoid some troubles and hide in your place, and I didn't think of getting you into trouble."

"It doesn't matter."

Henry shrugged. "What are these people looking for you for?"

"Shoot a movie?"

It was because of Henry's speculation that Zylvia was a movie star.

"That's right."

Hearing that, Zylvia's face suddenly turned red. "But it's not a regular movie. They want me to shoot those things, you know."

How could Henry not understand what she was talking about? He nodded and did not say anything.

After dinner, Zylvia thanked him and left.

Henry threw the tableware into the automatic washing machine. He was lying on the sofa and continued watching the drama show.

The darkness gradually descended, and the surroundings became quiet. A light breeze blew past.

Henry, who was watching TV, smiled and said, "You're already here. What are you doing hanging outside? Come in."

As soon as Henry's voice fell, several figures rushed into Henry's residence from the window and surrounded him. These people were all dressed in black and wore masks.

Henry reclined on the sofa, glanced briefly, and then said, "Including the seven people hiding outside the window and the

four outside the door, there are a total of 26 people, four people in the Divine Realm and 22 people at the peak of Qi-concentrating Realm. It seems that Master Niu is very powerful."

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1405

All the people who rushed into the room were all facing Henry. One of them snorted and said, "Since you know Master Niu, you should know that you have provoked someone you shouldn't provoke. However, Master Niu thinks you are a talent, so I will give you a chance. If you choose to surrender to Master Niu, I will spare your life today."

"Surrender?" Henry was still lying there. "Let's talk about the other thing. What if I choose not?"

"Then you will die!" The voice of the leader was cold. At the moment the man spoke, all the killers moved in unison, including the four people Henry sensed outside the door. They also opened the door with a special method and rushed in.

A total of 26 people poured into the room, which made the whole room crowded in an instant. Henry stood among the crowd, becoming the main target.

Qi practitioners had long-ranged means of attack, which could achieve the effect of twenty-six people attacking at the same time.

The Qi surged out and went straight to Henry.

When the Spiritual Qi was about to touch Henry, it completely stopped. It looked like time stopped, and it was difficult for Qi to advance any further.

Henry stretched out his right thumb and picked out his ears. He said leisurely, "Since Master Niu really wants to kill me, he should send some masters here. You guys, you're still not enough."

The leader's eyes became extraordinarily dignified. It was not that he didn't want to control the Qi and attack Henry, but he couldn't control it at all. He could clearly feel that the Spiritual

Qi he had shot out was completely out of his control. All this was because of the person sitting on the sofa!

"Everybody, thanks for coming." Henry said in a joking tone, "However, the result may not be what you expect. It will disappoint you. Of course, this mood won't last long. After all, you will die soon. Don't be afraid. I will try my best to shorten the process and reduce your pain."

The leader felt that something was wrong on the spot. His first reaction was to escape, but he soon found that he could no longer control his own body. He could not move his feet at all, as if he had grown to the ground.

Henry put his right hand in front of him, put his thumb to his middle finger, and murmured, "I hope the walls won't get dirty."

When Henry's mumble came to an end, his thumb crossed with his middle finger, making a snap. The instant the snap appeared, the 26 men exploded into a ball of blood fog. In just a moment, these men, together with their flesh, bones, muscles, and clothes, were turned into dust. However, they didn't disperse, and instead, they were completely covered by the purple light.

The floor and the walls of the house were still clean, and they were not affected at all.

Henry gently flicked his fingers again, and then these purple lights, including dust, rushed out of the window, rose to the sky, and disappeared.

Henry, who was sitting on the sofa, picked up the remote control beside him and chose a TV show again. What happened just now seemed to have nothing to do with him and did not affect his mood at all.

Henry was sitting there watching the show.

There was a casino in Ensver City, which covered an area of

tens of thousands of square metres and was magnificent. The people in this casino were all in the high positions in Ensva City.

The boss of the casino was called Master Niu. He had connections on both sides of the law and he was very powerful.

In the largest office of the casino, gold was embedded everywhere, fully showing its nobility.

Accompanied by two hot young girls, the 60-year-old Master Niu sat on a spacious chair in the office and played with the teacup in his hand.

"Knock knock knock."

Someone knocked on the office door.

Without raising his head, Master Niu said, "Come in."

The door of the office opened and a middle-aged man in his thirties came in. Two hot young girls were still standing behind Master Niu, massaging him.

The middle-aged man who walked into the office didn't even dare to look at Master Niu and the two girls behind him. He lowered his head and said respectfully, "Master, there's something going on over there."

"Oh?" There was a look of interest on Master Niu's face, but his eyes were still fixed on the teacup in his hand. "The action was taken, but no one came. It seems that the man did not choose to join us. Did they burn his body?"

"Sir, all of our people are unreachable!"

Master Niu suddenly stopped playing with the teacup. Two seconds later, the teacup in Master Niu's hand exploded with a bang, and the fragments flew everywhere.

Master Niu, who had been looking down all the time, raised his head and looked at the middle-aged man in front of him. "You

said that all of our people are out of contact?"

"Yes," replied the middle-aged man.

"Interesting." The corners of Master Niu's mouth curled into a strange smile. "I have sent them not long ago. He was able to deal with those people in such a short time. When did such a figure come to Ensver City? Interesting, interesting. I want information about him. Tomorrow, I'll meet him personally!"

"Understood." The middle-aged man nodded his head forcefully, and then he withdrew from the office, closing the office door carefully.

At the same time, a photo belonging to Henry set up a holographic projection on the desk of Master Niu.

Master Niu looked at Henry's photo and smiled slightly. "You came to Ensver City, but you don't want to show respect to the top of the mountain. The young people these days are too unruly."

As soon as Master Niu finished speaking, he waved his hand and the holographic image disappeared.

A night of silence passed.

At eight o'clock the next morning, Henry was busy with today's breakfast in the kitchen. In these two days, watching dramas and cooking became Henry's greatest hobby. He learned about this new world and unlocked new ingredients, which made him very interested.

Henry had just finished his breakfast when someone knocked on the door.

Henry casually tapped on the kitchen wall, and the picture from outside the door appeared on the screen. Fashionably dressed, Zylvia stood at the door and kept reaching out to press the doorbell.

Henry controlled the door switch in the kitchen. When the door

was opened, Zylvia came in. As soon as she entered the room, Zylvia's smart little nose had smelled something delicious. She kept sniffing and showed an expression of enjoyment.

"What delicious food is there today?" Zylvia walked towards the dining room and swallowed her saliva subconsciously.

When Zylvia saw the exquisite Chinese breakfast on the dining table, her eyes were shining and her saliva was about to flow out.

"You came to eat?" Henry came out of the kitchen with a pot of spicy soup and put it on the table.

Zylvia blushed and nodded slightly. As a movie star, Zylvia had a perfect figure and appearance. Usually, the people who wanted to invite her to dinner would line up from Ensvr City to Thunder Town. But no one had ever heard of any gossip regarding Zylvia and anyone else. But now, she took the initiative to come to a man's house.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1406

Although Zylvia didn't want to admit that she was there for food, she was afraid that if she shook her head, this person would give her no food.

Since the man in front of her intended to kill her yesterday, Zylvia had no doubt that this man would reject her mercilessly.

Henry sat down at the table, and then pouted his lips in the direction of the kitchen. "The bowl and chopsticks are over there. Go get them yourself."

"Okay!" Hearing this, Zylvia rushed into the kitchen with an excited look and took the bowl and chopsticks.

When Zylvia picked up a bowl of soup and drank it, she breathed a sigh of relief and looked relaxed.

Last night, after Henry had finished dinner, Zylvia had a feeling that she still hadn't had enough. She hadn't had any appetite for a long time. This feeling had been tormenting her for a night. She had brought out all the delicious food in her house, but it was not even one-tenth of that of the dinner. The taste, just thinking of it, made her mouth watering.

Zylvia didn't sleep much all night. She stared at the clock all the time. When the sun rose, she couldn't wait to knock on the door. When she ate the delicious food, she felt that her whole body was comfortable.

Henry looked at Zylvia's happy expression and could not help but laugh. "Is it so delicious?"

"Of course!" Zylvia nodded hard. "I've never tasted such delicious food in my life. It's so delicious! God, how did you make it taste like this?"

"If you want to eat, I can..."

Henry opened his mouth, but before he could finish his words, Zylvia interrupted him.

"Can I come for a meal every day? Really? Thank you so much! But I won't eat your food for free. I'll pay you! Give me your communication code and I'll add you as a friend. I'll transfer the money to you."

Henry rolled his eyes. He wanted to say, "If you want to eat it, I can teach you how to do it." As long as the seasoning was well used and the heat was well controlled, the taste would not be bad. He didn't expect that this person would not give him a chance to speak at all.

Henry shook his head and opened his communication device.

"Syl Zhang, good name, what does it mean?" Zylvia tilted her head and added Henry's friend.

Henry said with a smile, "My surname is Zhang, and Syl is part of my wife's name."

"Wow!" Zylvia opened her mouth wide. "Nice, you changed your name especially for your wife, didn't you? I'm so envious, your wife is too lucky, wow, wow."

As she spoke, her mouth was once again filled with delicious food. After a big meal, Zylvia patted her flat belly with satisfaction. "Okay, I'm full. I have to hurry and do some work. I'll come back in the evening, hahaha."

With a burst of laughter, Zylvia walked out of Henry's home like a crazy woman.

A few minutes after Zylvia went out, Henry received a transfer from Zylvia. Three hundred thousand!

In the Core civilization, a teacher's monthly salary was one thousand three hundred and it was enough for one family. Three hundred thousand would be enough to pay a teacher thirty years of salary!

Henry couldn't help but sigh. No matter where, the celebrities were rich!

After throwing the bowls and chopsticks into the washing machine, Henry contacted Derby, and then leisurely walked out of the house and met him at Stardance Hotel.

It was still in the private meeting room. When Henry arrived, Derby had been waiting there respectfully.

"How's everything going?" Henry sat on the main seat and asked.

"My lord, things are moving faster than we expected. Just now, the three major academies simultaneously announced that they will cooperate with Radiant Island. From this day on, Radiant Island will be responsible for all the security outside the city, and the bandits will never appear again. Moreover, good farmland and money have all been transferred to us, and a special pass has already been delivered to us. According to the information I received, there are at least 15 media members and more than that are tracking down and reporting about this news. If everything goes well, tonight. Out of 10 people, there will be seven people discussing Radiant Island. These bandits are very honest and all have laid low. The mask has been designed as well, and there is an entire factory working for us."

"That's good." Henry nodded slightly and said, "This is what we are going to do. We will share fertile farmland, we will give out special passes and give some bandits a chance to enter the city. You find a few more people to rob some cars, it doesn't matter how, but they have to do it in the name of Radiant Island."

"Understood." Derby bowed and prepared to leave the meeting room.

"By the way." Henry suddenly stopped him.

"My lord, please tell me what I need to do," Derby said respectfully.

Henry asked, "Did you find out the news I asked you to inquire about?"

"Not yet." Derby shook his head. "But I've sent people to a region and I think we'll hear from Madam very soon."

"All right, tell me the news about her the moment you get it."

Henry was a little embarrassed. "You can go and do your own business."

After Derby left, Henry took out the ring in his hand and focused all his eyes on the ring, which contained all his thoughts.

"Sylvia, where the hell are you? What did you do? You guided me here, but didn't leave any clues..."

"Kid." Heretic God had been silent for a few days, but he suddenly spoke up. "Are you planning to expand your influence here? Have you thought about it? This matter isn't as simple as it looks. According to the information I recently heard together with you, those bandits are all supported by the so-called Seven Protectors of Mountain Heng. Since these seven people have such a great reputation, they must be in the Spirit-controlling realm, and their strength isn't weak. If you want to do this kind of business, the first thing you need to do is to take care of them. But once you take care of them, will the academy continue to pay you? Your Radiant Island will become another type of bandit!"

Henry shook his head slightly. "I have my own ideas."

Heretic God chuckled and said, "I don't know what you are going to do, but let me remind you. These academies are only a force in Wanshan District. In addition to the whole Core world, there are three other forces. Even if you can live in peace with the academies, your sudden appearance will

definitely be noticed by the other three districts. The strength of Wanshan District and the other three districts has always been balanced. Your appearance will destroy this balance. At that time, how to develop the situation will be out of your control."

Henry smiled slightly. "Which force do you belong to?"

Heretic God said haughtily, "I don't belong to any force. They don't even have the right to make a totem for me..."

Heretic God suddenly came to his senses when he said this. "Kid, you're trying to get me to tell you something!"

Henry shrugged his shoulders, then got up, left the office, and went straight to Ensver City's library.

Totem? Henry was going to check it out. What the hell was the totem mentioned by Heretic God?

 [Watch Ads to Get 15 Vouchers](#)

Chapter 1407

On the way to the library, Henry tried to make the Heretic God speak more than once. However, the Heretic God had never said anything and had completely learned how to control himself.

The library of Ensver City was jointly managed by the three major academies. There were many books stored in it. Whoever entered the library had to pay ten thousand as a deposit. That was an eight-month salary for an academy teacher.

In this advanced civilization, there were still reading materials made of paper. It could be said that these were antiques, which led to the library being very deserted. But the three academies did not care. It was normal for the library to be empty, but every city must have a building like this.

After identity authentication, Henry finally entered the library after he paid a deposit and a series of other things. He was told that all his behaviour would be monitored. Even if the book got slightly damaged, the deposit paid would not be returned.

Henry swept the inside of the library. There was no one in the large library. Rows of bookshelves were filled with neatly arranged books.

Henry looked at the catalogues and searched for nearly half an hour before he found a book about the totems. It didn't tell a lot of things. It only mentioned some very simple things, which made Henry generally understand what he needed. Then, Henry searched the whole library but couldn't find a second book related to the totem.

According to the information Henry had acquired, totems were the existence of faith. Some people had even mentioned that

the spiritual energy of Heaven and Earth had something to do with totems. Totems could be made for True spirits, and during ancient times, totems controlled everything in the world. In this world, there were three types of totems. However, each of the three types of totems was completely different from the other. In fact, in every era, the totems would change, and there were many different types of totems. It was impossible to determine.

Although the information Henry got was very little, he could sort it out. If the totem was really the legendary existence of the Core civilization and the Heretic God had a totem himself, he needed to figure out its origin. Of course, Henry did not fully believe in the words of the Heretic God. Who knew whether the word totem was deliberately said by the Heretic God or not.

By the time Henry finished with the library, it was already noon. Henry received several messages from his communication device, many of which were related to Radiant Island. Many media outlets had already begun to seize this mysterious organization, and Derby worked very fast. The media had already revealed that bandits had committed crimes outside the city, and the people of Radiant Island had come forward to stop them.

These masked men of Radiant Island claimed to be the Reapers, but what they did was for Justice.

During this period of time, they wanted to discuss whether the island's existence was a good or bad thing. It was immediately pushed to the front page of Ensver City's official website, and everyone who had a residence in Ensver City could make their point. However, there were not many who supported the island's existence. After all, the sudden appearance of a large-scale force would make people uneasy.

Henry walked out of the library leisurely and went to the

community where he lived.

At the gate of the community, Henry suddenly saw a well-dressed grey-haired old man sitting at the gate. In front of the old man, there was a set of Chinese chess!

Henry walked over with curiosity and looked at the chessboard in front of the old man. When he got closer, he found that there was still some difference between this game and chess on the surface, but not much. At least the chessboard was the same.

"Well, do you also know something about Chinese chess?" Seeing that Henry had been staring at the chessboard in front of him, the grey-haired old man asked excitedly.

Henry shook his head and said, "I don't quite understand rules, but I'm a little interested."

"It doesn't matter if you don't understand." Hearing this, the old man became more excited. He quickly took out a thumb and sat down for Henry. "Come, young man, I'll teach you. I'll teach you a lesson. Let's play two rounds."

After the old man finished speaking, he started to tell Henry the story without waiting for Henry's reply. Henry listened with great interest.

In the end, Henry found that this was just the same as what he played on the surface, but there were some names, such as the rook in the chess game, which was called "Tiger" here, but it still played a similar role.

"Well, young man, do you understand now? Do you understand enough to play a few games? This is very simple. I'll let you get addicted to it." The old man narrowed his eyes and looked at Henry, looking like an old liar.

Henry could tell at a glance that the old man was obviously obsessed with chess. Anyway, he had nothing to do, and Henry was also happy to play two games. This point in culture is the

same in both worlds.

"Sure." Henry nodded.

"Then come on!" The old man shook off his arm. "I'll let you have a tiger and a deer first. What do you think?"

The tiger was the rook in the chess, and the deer was the horse in the chess. The old man already made a considerable concession.

"Okay." Henry said with a smile.

Three minutes later, the old man widened his eyes and looked at the chessboard in front of him.

"Checkmate!" Henry pushed a tiger to the end of the old man's chessboard. Henry's move made the old man have no chance to take action.

"This!" The old man looked at the chessboard and stared at Henry.

"Old man, you can't defeat me." Henry laughed, stood up, and was ready to leave.

When the old man saw that Henry was going to leave, he quickly reached out his hand. "Don't go, let's have another round! I just let you win. This time I won't let you, let's have another round!"

Henry saw that the old man didn't want to let go and said helplessly, "Okay."

After another five minutes, the old man widened his eyes again and looked at the chessboard in front of him. He lost again!

"How is this possible?" The old man was a bit stunned. This game only took less than five minutes in total, and the opponent completely won him with overwhelming superiority.

"No, let's do it again. Let's do it again." The old man was not reconciled.

"Forget it. I don't have time today. Let's talk about it when I have the time." Henry turned his head and looked behind him. Not far behind Henry, a group of people came aggressively. The leader was a man in his sixties. He was wearing a black suit. The people behind him were all very respectful to him. Henry's intuition told him that these people came for him.

"All right." The old man in front of Henry sighed. "I'm here every day. If you have time, come and play with me."

"Okay, I'll come when I'm free." Henry got up with a smile and then walked to the opposite side of the neighbourhood gate.

The group of people was led by Master Niu. Master Niu saw Henry from afar. As soon as he came up, he found that Henry hurriedly got up and went elsewhere.

Master Niu chuckled and said, "Oh, you're still a little alert. I'm afraid that he is at the late stage of Divine Realm, so we should be careful."

"Understood." The people behind Master Niu all replied.

"Let's go." Master Niu followed the direction that Henry left.

The old man sitting at the gate of the community saw Master Niu and the others passing by. He looked in the direction in which Henry left and said with a smile, "It's really not safe anywhere, but it's much better than those places."

Chapter 1408

Henry walked around Ensver City a few times and found that those people were still following him.

Henry walked to a remote place, and there were not many people. He then stood and waited for a few seconds. After a few seconds, the people led by Master Niu appeared again in Henry's sight.

Seeing that Henry did not move, Master Niu came over.

"Syl Zhang?" Master Niu walked to Henry generously and kept looking him up and down.

Henry smiled slightly. "Master Niu?"

"That's right." Master Niu nodded his head. "You are braver or more arrogant than I imagined. I thought that you would take us to the academy and find shelter."

While Master Niu was talking, the people he brought surrounded Henry.

Master Niu brought a total of fifteen people, but each of them was an elite soldier. After all, in Master Niu's guess, Henry had the strength of the late-stage of the Divine Realm. How could he dare to deal with a late-stage of Divine Realm without those people he brought?

"It's strange." Henry looked at Master Niu with a puzzled face.

"What? Is there any problem with my words?" Master Niu stood in front of Henry. Without any defensive action, he seemed very confident.

Henry nodded seriously and said, "There is a problem. Why should I seek shelter?"

Master Niu smiled. "Aren't you afraid that I'll kill you?"

Henry shook his head and replied, "I'm not afraid."

"Why?" This time, it was Master Niu's turn to reveal a confused expression.

"Because you can't kill me." Henry glanced around. "Fifteen people, two of them are at the late stage of the Divine Realm, and the rest are at the early and middle stages of the Divine Realm. These people should be the strongest among your subordinates. They won't be able to kill me."

When Henry spoke, there was no emotional fluctuation at all, as if he was talking about something that could not be any more normal.

When the masters who surrounded Henry heard this, they all showed an angry look.

Master Niu secretly gestured to the others not to move. The higher one stood, the more one could see. Master Niu stood at the top of Ensver City, so he was naturally very clear that there were too many people who were stronger than him in this world. These people were not easy to deal with. For example, he could see the strength of the person in front of him. Besides, the confidence on his face showed that he was not pretending to be strong. Master Niu did not want to provoke him.

In the past, Master Niu would have tried to kill anyone who didn't respect him, but in the past two days, he felt a little threatened by the sudden appearance of Radiant Island. He didn't want to find trouble. If it were something else, Master Niu might even do him a favour. But now it was related to Zylvia. This woman was something that Master Niu had to deal with.

Master Niu was silent for a few minutes.

During the process of Master Niu's silence, Henry had been staring at Master Niu and did not speak.

"Ha, ha, ha!" Master Niu suddenly burst into laughter and said,

"Well, I like confident young people, just like when I was young. It's interesting. Why don't we find a place and sit down and talk?"

Henry smiled and said, "Forget about it. The age gap between us is too big. We can't get to know each other. Let's get down to business. Do you want me to leave that actress alone?"

Master Niu was rejected by Henry in front of so many people without expectation. His face was a little ugly and angry, and then his face changed immediately. "Okay, cut off the crap. I like that! Then I will make it clear. That woman knows something that she shouldn't know. I want her to die."

"Oh." Henry tilted his head and looked at Master Niu curiously. "So?"

Master Niu took a deep breath. He suppressed his anger and continued to say, "So, I hope you won't intervene in this matter."

Henry shrugged his shoulders and said, "Master Niu, is that right? Are you out of your mind, or are you blind, hm?"

Henry's words made Master Niu's anger that he had been holding back suddenly burst out. His old face suddenly darkened. "What do you mean?"

"My meaning is very simple. Intervene in this matter? What do you mean by intervening? Your people broke into my house and were driven away by me. Then, you sent another 26 men to take my life. From beginning to end, I haven't even been out of my house. Do you think I intervened in it? Let me ask you, isn't there something wrong with your brain?"

"You!" Master Niu clenched his fist, and a layer of aura blasted away from Master Niu's body. The people that Master Niu brought over were going to take action.

Master Niu, who was already on the verge of anger, took a deep breath and stopped his subordinates. He said in a deep

voice, "Alright, since you don't interfere, then this matter will be much easier to settle. This time around, I'll take responsibility for this matter. Let's go!"

Master Niu turned around and waved his hand to leave with the others. If it weren't for the pressure of the new power of Radiant Island, Master Niu swore that he would fight with the person in front of him. However, the pressure on him was too great. It was said that there was a Supremacy Master in that organization, and he didn't know whether it was true or not. If it was true, his position under the person in Ensver City would be hard to protect.

"Wait a minute." Henry suddenly shouted and stopped Master Niu, who was about to leave.

"What?" Master Niu turned his head, and there was more and more patience in his tone.

Henry smiled slightly and said, "You sent someone to break into my house, and this matter is over? You should at least leave something behind."

Master Niu clenched his fists and said, "Leave something behind? What do you want?"

"Simple." Henry's figure suddenly flashed. In the next second, the two men next to Master Niu fell to the ground, and their bodies were cut in half. The two men were closest to Master Niu.

Then, Henry's figure reappeared in place. "I'll just take two lives."

Master Niu looked at the two people who fell down beside him. He knew very well that this person was showing his strength to him. The reason why he killed the two nearest to him was to tell himself that if he wanted, he could kill anyone, including him.

Master Niu took a deep breath. The degree of the arrogance of this person in front of him exceeded his expectations. He didn't want to stir up trouble, but that didn't mean that person didn't.

If they were still able to bear with it, then Master Niu would not be able to do it.

Henry put his hands in his pockets and stood there. What he had to do was to be arrogant! Extremely arrogant! Otherwise, it would be very difficult to make the name of 'Radiant Island' scary!

"Boy, do you really want to go against me?" Master Niu's face was so gloomy that it seemed like it could drip water.

Henry shrugged. "Well, could it be that only you, Master Niu, can kill anyone you want in Ensver City? Your people have broken into my house twice. Do you think that just because you say it, I would let it go?"

"Tell me what do you want!" Master Niu's body had already begun to tremble out of anger.

"I've already done what I want to do." Henry turned around and strode away. His voice came, "I killed two people because you people have invaded my house twice. Next, it's up to you how you want to play it."

Master Niu's face was fierce, and he gritted his teeth and said, "You're courting death!"
