

Chapter 1421

When Henry rushed to Derby's place, Derby had been waiting outside for a long time.

"What news?!"

As soon as Henry saw him, he said excitedly.

"My lord, please have a look at a document first. It was encrypted and sent to you by someone. It's classified information."

Derbey handed a document to Henry.

In this era of data, network data had long become unsafe, and important documents were sent in paper form.

Henry took the document from Derby and opened the file. At first glance, he saw two big words written in a dark red pen.

Sylvia Lin! Behind the file was the basic introduction of Sylvia.

Sylvia was the War Goddess of the Wanshan District and under the tutelage of the Sword Valley. She was twenty-five years old and had already reached the level of a Supremacy Master. Within a month, Sylvia had led the soldiers from Wanshan District who made the Seven Protectors of Mountain Heng retreat several times. She had once fought three Supremacy Master alone. Now, she had been regarded as the War Goddess of the Wanshan District and had an extremely high status.

Next, they talked about some of Sylvia's achievements. According to the literature, Sylvia's achievements were indeed very impressive. At the end of the file, there was a photo of Sylvia.

Henry saw clearly that Sylvia in the photo was wearing a battle uniform. She looked more determined and her eyes were more focused. Although she seemed to have experienced a lot, she was the person he was looking for! "The War Goddess... how could she have such a status?!"

Henry murmured.

Henry was very clear that Sylvia just came here earlier than him. Her current identity was definitely deliberately arranged by someone. Henry had experienced too many intrigues, and he knew that many things were not as simple as they seemed.

Henry looked at Derby and said, "Find a way to contact her."

Derbey shook his head. "My lord, Madam is now of extremely high status. Most people aren't able to get in touch with her. I've asked some friends, but I couldn't get close to her. However, I heard that the adjutant of Madam has come to Ensver City in the past two days. It's said that he's here because of the bandits. However, I suspect that it has something to do with your Radiant Island. You will be able to think of ways to get in touch with that adjutant in order to learn more about Madam."

Henry nodded. Just as he was about to speak, he saw Derby's face change colour.

"My Lord, something has happened."

Derbey said in a low voice, "You asked men to recruit the bandits around the town, and then a group of them went to Thunder Town. Just now, all of them lost contact with us!"

Henry frowned and said, "Lost contact?"

"That's right."

Derbey nodded. "Two days ago, they sent a message

saying that there's something strange about Thunder Town and that there aren't many citizens in the town. In the mountains outside the town, the bandits rarely show themselves either. However, we haven't received any news since this morning. Before setting off, I've told them that if they don't contact us for more than four hours, it means they're out of contact. Something's wrong over there."

Derbey said, looking down at his communicator, "Based on the latest news, not only the people we sent failed to contact, but also the whole Thunder Town is in trouble. From the picture taken just now, we can see that the town seemed to become an empty city, and there is no one in the whole town. All the prey in the academy's hunting area had died mysteriously. I don't know what happened. The most important thing is that someone secretly stirred up trouble and said that the people from our Radiant Island have sent people to Thunder Town. What's going on in the town now is likely to be related to the Radiant Island. Someone wants to take this opportunity to suppress us. If we don't deal with it, it will be a fatal blow to us. Maybe the people from the Radiant Island are going to make a great impact on them."

"Thunder Town."

Henry murmured. He still remembered the town's name clearly. After thinking for a while, Henry said, "You don't have to worry about the things in Thunder Town. I'll go there myself to see what happened. You should try to control your comments now. I'll give you an answer in two days."

Derbey nodded. "I understand."

It would take two days to drive from Ensver City to Thunder Town, but it was because people had turned several times on the road. If they travelled at full speed,

they could reach there in one day. After Henry and Absalon drove the sports car, the distance would be shortened to more than half a day.

When Henry went to Thunder Town, he asked Absalon to join him. After all, Henry needed a guide.

An exaggerated model of sports car was driving fast on the road.

Henry was driving and Absalon was sitting next to him.

Henry looked at Absalon, who was next to him, and asked, "Have you heard about the situation in Thunder Town?"

Absalon nodded. "Everyone's talking about it now. It's said that there's some kind of extreme disease in the town. Some people even pointed out in the dark that it's brought there by our Radiant Island. This kind of person is really detestable."

"Ha."

Henry smiled slightly and said, "You don't have to worry about this. If you really have the ability, you don't have to sneak. As long as we get to the bottom of the matter in Thunder Town, the truth about our Radiant Island will naturally come to light."

More than half a day passed quickly. Henry and Absalon also approached the territory of Thunder Town. When they were still 60 or 70 kilometres away from the Town, Henry and Absalon felt that something was wrong.

On the road leading to Thunder Town, there was no car. Similarly, in the direction of Thunder Town, there was no car driving out either.

As the two got closer and closer, Henry saw that there were many cars parked on the road in disorder, but there were no human beings in the car. These cars were not damaged at all. It seemed that something had happened

and the people in the car had suddenly abandoned their cars and left. When they saw this scene, they had completely stepped into the territory of Thunder Town.

Looking at the scene in front of him, Absalon opened his mouth wide. "What the hell is going on?"

"What happened in Thunder Town?"

Although there was no blood flowing and no bones in front of them, such a strange scene was more frightening than a pile of bones.

Henry's eyes were fixed on the front. Just now, the Heretic God told him that there was some kind of weird existence in the surroundings, but the Heretic God could not tell what exactly it was.

As Henry and Absalon gradually went deep into the territory of Thunder Town, the road in front of them was completely blocked. The rampant cars had blocked the road, so Henry and Absalon had to get out of the car and walk.

When he opened the door and got out of the car, Absalon couldn't help but shudder.

"It seems that the pictures posted on the Internet were too simple. No one dared to send what the place really looks like."

Henry looked around.

The cars were parked everywhere, and not a single person could be seen. If this scene was to spread to the Internet, it would probably immediately cause a disturbance.

Chapter 1422

Henry and Absalon walked into Thunder Town. Along the way, they didn't see a single person. They knocked on some shops by the road, but no one answered. The shops, company buildings, and even the houses were empty. They had even found the academy. There was no one in the entire Thunder Academy! A place like Thunder Town suddenly became an empty city! This was simply, very strange! "This is not a cause of illness at all."

Absalon said in a deep voice, "In the past, there was a disaster of illness in the Wanshan District, but it wasn't like this. Even the most basic facilities are closed! These things, if no one looks at them for a day, will go wrong!"

Henry's eyes were always scanning the whole city.

"Who's there?!"

Henry roared.

Hearing Henry's roar, a figure immediately ran to the distance.

"Let's go after him!"

Without thinking, Henry and Absalon rushed to the place where the figure was fleeing. In places like Thunder Town, not to mention Henry, even Absalon could be called a top master. The two of them easily caught up with the fleeing figure.

This was a young man who was only 20 years old. He was wearing the uniform of the Thunder Academy. He was kicked over by Absalon and stepped on.

"Don't kill me! Don't kill me!"

The young man begged for mercy loudly.

"Tell me, what's going on!"

Absalon thundered.

"You are humans?"

The young man suddenly stopped begging and looked at Henry and Absalon.

Henry and Absalon caught the key in the young man's words at the same time. They looked at each other in doubt.

Absalon stepped on the young man and shouted, "You're a student of the Thunder Academy. What's your name?"

"My... My name is Nazario Lin."

The young man shivered and said, "Brothers, where did you come from? Can you take me out of here?"

Just as Absalon was about to speak, Henry suddenly covered his mouth. He winked at Absalon and quickly flew toward the building next to him.

Absalon instantly understood what Henry meant. He grabbed Nazario by the collar, pulled him up, and dragged him to the building.

After Henry rushed into the building, he strode toward the top of the building without any hesitation. The elevator was working, but Henry chose to use stairs instead of taking the elevator. Absalon didn't ask much. He grabbed Nazario, and then rushed to the top of the building using the stairs.

When Henry came to the top floor of the building, looking out of the window into the distance, he took a deep breath.

Just now, Henry felt that something was wrong. Over the years, Henry was very vigilant when facing danger. When he just left, he felt that something was wrong. Now, he looked at it and found that it was true.

The top floor of the building provided Henry with a broad

view.

Henry clearly saw that at the bottom of the building next door, there was a giant python hovering around. Under the abdomen of the python, there were dense centipede-like feet, which made people feel numb when looking at it.

The python was spitting black Qi out of its mouth. The black Qi slowly floated up and then integrated into the air.

Absalon, who came from behind Henry, also saw such a scene.

"What... what kind of monster is this?" Absalon stood in the same place, staring at the giant python that had a hundred feet.

Henry did not speak, but just glanced at Nazario. As a local of Thunder Town, Nazario should know a lot. Moreover, Nazario was a student of the Thunder Academy, so he got much more information than others.

When Nazario saw the big snake, his body trembled and he said, "The Evil Spirit... The Evil Spirit, this is evil..." Absalon's face changed. As a member of the Core civilization, he knew too well what the Evil Spirit represented.

Henry's brows furrowed tighter and tighter. When he was still on the surface of the earth, Henry had heard Silas mention the word "Evil Spirits". However, Henry was not clear about what the Evil Spirits were.

Absalon suddenly said, "It's because of that black mine!"

In the past, Absalon had once appeared in the black mine.

"That's right."

Nazario nodded. "The Evil Spirits came out of the mine. A few days ago, Senior Baron of the Academy found that

someone in the city had opened a black mine and he had taken people to seal it up. But I don't know what happened that day. The black mine collapsed. Although the factory was sealed up, from that day on, there was something wrong with the people who went to seal up the mine."

When Nazario mentioned Senior Baron, Henry had some impression. When he first came to the Core, he had seen that person.

Henry looked at Nazario and said, "Go on."

Nazario nodded. "On that day, after Senior Baron and the others returned from the black mine, they became silent. And their expressions were not right. The next day, when they saw Senior Baron and the others again, everyone's faces were filled with black Qi. Their eyes became dull and they didn't pay attention to them. When the Academy found that there was something wrong with Senior Baron and the others, they isolated them all. They wanted to investigate slowly, but to their surprise, there were more and more people in the academy with symptoms like that of Senior Baron. In just a morning, more than half of the people in the academy became weird. At the same time, there were many residents in the town who had become like this."

At this moment, Nazario swallowed a mouthful of saliva and continued, "At that time, the director defined this symptom as a fast-acting infectious disease. However, before the director could make any response, the situation began to be out of control. On the third day, nearly 70 per cent of the people in Thunder Town suffered from this symptom and became extremely aggressive. They would attack the normal people around them. After being injured by them, these normal people would also become weird in 20 minutes. They would be

dull and lose their ability to think. On the third day, I hid in a basement and I knew nothing about what would happen after that."

Absalon asked curiously, "Then how did you know about the presence of the Evil Spirits?"

"My classmate told me."

Nazario replied, "They released stories about the Evil Spirits in the group two days ago. They said that these things happened because the Evil Spirits ran out of the black mine. But during these two days, there was no one talking in the group. I'm afraid that they all met with misfortune. Now it's too dangerous. If I were not really hungry, I wouldn't have run out. I heard that those who were infected would appear in the night, look for normal people, and then assimilate them. In the daytime, they would lurk in the mine hole and wouldn't show up."

When Nazario finished his words, Absalon fixed his eyes on Henry.

Henry stood by the window and looked into the distance. No one knew what he was thinking about.

"Two big brothers, I beg you. Please take me away."

Nazario stood behind Henry and Absalon, and he said in a tearful voice, "Thunder Town has been destroyed, and the Evil Spirits have appeared. It is impossible for anyone to live here for decades. The people of Radiant Island are not human at all. They harmed all of us for selfish interests!"

Chapter 1423

Hearing this, Absalon grabbed Nazario by the collar and said, "What did you say? Radiant Island! Who told you that it had something to do with Radiant Island?"

"Everyone knows." Nazario looked at Absalon with some fear, "When the black mine was seized, the director reported to the superior that the Wanshan District had sent news that the mines in the whole mountain area were mined by an organization called Radiant Island. If the island hadn't privately mined the black mine, such a thing wouldn't have happened!"

"What a bunch of nonsense!" Absalon said hatefully, "Those in the Wanshan District are all a bunch of brainless people! Who said these words?"

Nazario said, "That's what the War Goddess of Wanshan District said."

"The War Goddess!" Henry rushed to Nazario with one step. "Are you sure?"

"Yes." Nazario nodded. "When the black mine was seized, these words spread in the school. The War Goddess said that Radiant Island was supported by the Seven Protectors of Mountain Heng."

Henry stared at Nazario. "What's the name of the War Goddess you mentioned?"

"I don't know." Nazario shook his head. "The War Goddess has a high status. People like me can't get in touch with her at all. We haven't heard of her name."

Henry asked, "What's wrong? Does the War Goddess have a great reputation in your academy?"

"Of course!" Nazario's eyes were full of admiration. "The War Goddess is the disciple of the chief of Sword Valley."

She became the Supremacy Master at the age of 25. She once fought with three Supremacy Masters alone and was the main force to compete against the Seven Protectors of Mountain Heng. All of us take the War Goddess as an idol. She is at the height that we can't reach even if we spend our entire lives to reach."

Henry's look became more serious. When he first heard from Derby, Henry didn't feel anything, but now through Nazario's words, Henry completely found that Sylvia was really highly praised. Even students in small towns like Thunder Town regarded her as an idol. It was difficult to imagine what kind of status Sylvia had in those large towns and schools.

Henry looked into the distance.

"Sylvia, with your ability, it's not difficult to see what's going on here. What on earth has happened since you left home? Why did you carry Radiant Island with you? What the hell is going on..."

Henry was full of sorrow. He decided that after this matter was over, he would go to the mountain region and see Sylvia in person!

Not far away, the Evil Spirit of a hundred-footed python was still moving around.

Henry alone stayed in a room in the building, pinched the jade pendant on his neck and said, "What kind of existence is this Evil Spirit?"

"I don't know." The Heretic God replied. His answer was beyond Henry's expectations.

"You don't know?"

"Yes." The Heretic God spoke. "I've told you before that I am the first True Spirit in the world. Why did I become intelligent and have the ability to think? I don't even know myself. I don't even know whether my memory and my

thinking are true or not. The Evil Spirits have existed before I appeared. They have various forms and abilities. In this world, it's impossible for you to find two identical Evil Spirits. Each Evil Spirit is an entity. Each Evil Spirit is unique. Their various abilities are hard to imagine. This Evil Spirit has the ability to affect one's mind. Evil Spirits are difficult to deal with for the experts in the Spirit-controlling Realm. Although you have two Battle Spirits now, this Evil Spirit is still dangerous. I suggest that we don't confront him head-on. Someone will deal with this matter."

Henry nodded secretly. He did not intend to fight the Evil Spirit head-on. He had felt the degree of the strangeness, so there was no need to fight with it. Henry was not a geomancer, so he had no sense of belonging to this place at all. He came here to find Sylvia. Even if this place was completely destroyed, Henry would not care about it.

Absalon took some photos of the Evil Spirit and uploaded them to the Internet. As a result, the post failed to upload. Someone was stopping the people from bringing the truth to the Internet.

"My lord, there are more and more negative comments about our Radiant Island on the Internet." Absalon said with worry, "Some people have said that we are running black mines everywhere. If it continues like this, in less than two days, there will be an outbreak of Evil Spirits in Thunder Town. And I'm afraid that the cause of the evil will be related to us."

"There's no rush." Henry shook his head slightly. Now that he had already made it clear that there was a figure of Sylvia behind the leader of Radiant Island, Henry was prepared to attack the main point. He would first find Sylvia and then talk about it.

Looking at the time, it was getting dark. According to Nazario's words, it was not safe to stay overnight in Thunder Town. But Henry decided to rest for a night before leaving.

Night fell slowly. When the sun completely disappeared, Henry clearly saw that many shadows emerged on the quiet streets. These people suddenly condensed on the streets of the city. They wandered in various places, but they had no targets. Their eyes were empty, and their faces were emitting black Qi. This scene was like the funeral from the movies.

Nazario trembled as he hid in a corner. He could not stop trembling and Absalon was standing a little further away from the window with a grave expression in his eyes. Although the black mass of people had lost their intelligence, they still possessed a certain amount of strength. If this group of people were to rush over, even an expert at the early stage of the Divine Realm would have to flip over, much less someone as powerful as Absalon.

Facing these people, the experts at the early stage of the Divine Realm were not facing puppets, but Evil Spirits that even Supremacy Masters were afraid of.

Henry stood by the window and looked down at everything. "Their existence is reasonable. What kind of purpose does this Evil Spirit want to achieve by doing such a thing?"

Suddenly, the puppets wandering all over the ground stopped at the same time, and such a strange scene immediately attracted Henry's attention.

Then, in the next second, all the puppets wandering on the open space raised their heads, changed their direction, and looked at Henry's building.

Absalon's body instantly tensed up as he stared outside

the window.

"It's over." Nazario's face was as gray as ash. "They found us!"

"Let's go and change the place." Henry immediately made a decision.

Just as the three of them were about to leave the room on the top floor, they heard the sound of hurried footsteps. The door of their room was violently knocked open by someone.

"Not good, not good. I already said that we shouldn't take such a risk and run as far as possible. Now that we've been discovered, we're definitely going to die!" Outside the door, an anxious female voice sounded.
