

Chapter 497

On Radiant Island, there had been some people who had broken into the forbidden areas before, but until now, no one could tell them what it felt like to break into the forbidden area, because none of those people had the chance to speak again.

The moment he saw the man in linen, Steve's legs were shaking. He looked at Sylvia beside him and took a deep breath. He was about to mention his uncle from Radiant Island. He hoped that it would help him a little.

The man in linen clothes was going to scold Sylvia and the others, but when he saw Sylvia turn around, his face suddenly changed.

Just now, the whole island had received the news from the major-domo, Peze, that the King's wife was on the island at this moment! And the photos of the King's wife were sent to everyone.

What did the King's wife mean to the people on the island? She was the goddess of this island and her rights were unlimited!

Moreover, it was the first time for the residents of Radiant Island to hear the words "King's wife" since the island had been established for so many years. Every one of them was extremely respectful.

Just now, the major-domo Peze, had also ordered that everyone could not make King's wife unhappy. Therefore, every resident on the island had made the best preparations.

Now this person had recognized her the moment when she turned her head. She was the King's wife!

This time, the man in linen clothes was startled. At the critical moment, he suddenly had an idea. He moved his eyes away from Sylvia and looked at another place where no one was around. He continued to shout, "What are you doing? Ah? What the h*ll!"

As he spoke, he passed by Sylvia and the other three as if he didn't see them.

The man's behaviour made Steve somewhat unable to recover. What was going on?

Megan's face lit up and she quickly said, "Master Xiao, you really have a wide network of friends. The people on this island don't care about us at all."

Steve was stunned, and then he laughed, "It's good that we know. Don't say it out loud."

After saying that, Steve wiped the sweat on his forehead without any expression. Even he himself was wondering if his uncle really had such a big network?

"Master Xiao, your friend really has some power on the island. Can you take us to another forbidden area?" Megan tentatively asked.

"Ah? This..." There was a bit of embarrassment on his face, but when he saw Sylvia's beautiful face, he felt an impulse in his heart. "Of course!"

"Master Xiao, you're amazing!" Megan praised him generously and said.

"Forget it, I'd better not go." Sylvia shook her hand. It gave her a strange feeling to break into another forbidden area.

"Miss, this is a great improvement for the Su Family," Megan whispered in Sylvia's ear. "If this matter is spread out, it will definitely make many people think of the relationship between the Su Family and the island. In this way, the Su Family will develop extremely fast, and you could achieve

your goal faster, Miss."

Megan's persuasion touched the softest point in Sylvia's heart and that point was Henry.

In this way, the four of them went to another forbidden area. On the way, Megan seemed generous because she thought that Steve had such strong connections. As for Steve, he had been frightened, because he was still not sure whether it was because of his uncle.

When he saw once again that an island resident paid no attention to the four of them breaking into the forbidden area, he was completely relieved. His uncle's words were really powerful! At the same time, a sense of pride rose in his heart. Since his uncle had such a high status on the island, wouldn't it mean that he would be able to bully the well-known families in China in the future?

The four of them wandered on the island for a long time. When the sky was completely dark, they finally returned to their residence.

When Sylvia returned to her own place, she found that the house she used to live in was locked! Through the window, Sylvia also saw two figures in the house!

"Who's inside? Come out!" Megan also saw a figure in the house. She slammed the door and shouted.

"Who is it? So noisy." A very impatient female voice rang out in the room.

"You ask who we are?! Who are you?" Megan scolded. These people occupied their rooms, how could they be so arrogant?

When the door opened, she saw two ordinary-looking women standing in front of the door and looking at Sylvia with disdain.

"Oh, I was wondering who it was. It turns out to be the

outsider of the Su's." The woman looked disdainful. "What? it's so late. What do you want to do by knocking on my door?"

"What do I want?" Megan was so angry that her face turned red. She put her hands on her hips. "This is our room. How dare you say it is your room?"

"Your room?" The young woman curled her lips. "What's the name on this door? Su or Lin?"

"Don't make a noise. It's getting dark. Get out of the way!" Another door opened in the courtyard. A strong man stood at the door, naked, and impatiently said, "What's wrong with you? Let me see who dares to shout again. Don't blame me for being merciless!"

When the man spoke, he pulled out a steel knife from the door. On Radiant Island, there was no law or rule, only that the winner was the king.

"Brother, these two insisted that I occupied their room. Brother, you can judge." The young woman said to the man in a coquetry tone.

"Yeah?" The man looked at them with anger. "You two said that my sister occupied your room? Is your name written on the door?" The man deliberately shook the steel knife in his hand. The moonlight shone on the steel knife and reflected on Sylvia's face.

Megan's face changed. This man was obviously threatening them.

This time, only Megan and Sylvia came from the Su Family. Even Megan did not know why the Master arranged things like this.

Of course, Megan didn't expect that Victor had known Henry's identity. Did Sylvia need to bring more people to the island? The whole island was under Sylvia's control, so he

wouldn't arrange too many people to come.

Now, there was no way for Megan and Sylvia to be targeted like this. In this place, whoever was stronger would have the final say!

"What's wrong?" Hearing the noise here, Steve came over with Mary.

Chapter 498

"What's wrong? Young Master Xiao, is this your mistress?"
The man looked at Steve very rudely.

When Steve saw the man, he frowned. The man was from the Xiong family. Although the Xiong family was not big, everyone was a boor. It was not a good thing to offend them.

As for the reason why the other party wanted to take this room, he knew it clearly in his heart.

There were many well-known families who came this time, and some of them had hoped that their juniors could see more of the world. However, the island was not big and there were only a few rooms for well-known families. If many members of one family came, they would try to take over other people's rooms. This was not the first time. Last year, there was an unremarkable person who ranked 100th on the world's master list. He was very arrogant and went to snatch Bai Family's position, but was killed by Sean Bai.

Therefore, some people wanted to make trouble, but they had to be strong. Otherwise, they would be dead.

Although the status of the Xiong family was lower than the Su Family, the people of the Su Family were the weakest among all the ancient kungfu families.

Moreover, everyone in the Xiong family was reckless. If something really happened, they would never consider the consequences and would take action as soon as possible.

"Mr. Xiong, this room is originally arranged for Miss Lin. I'm afraid it's not reasonable for you to do this." Steve said.

If it was someone else, Steve would definitely not care about this matter. However, he had done so much today. At

this time, it would be embarrassing for him to admit his defeat.

The most important thing was that after going to a few forbidden areas in the evening, Steve's confidence was very boosted at this moment. With such a strong connection to a strong person from this island, was there any need to be afraid of a man from the Xiong family?

The man with the falchion smiled disdainfully. "Why, Master Xiao? She is really your mistress. If that is true, take your mistress to your room. It won't be that bad, hahaha!"

Steve originally wanted to compete with the man with a knife for this room, but when the man said this, he was very tempted.

Steve looked at Sylvia's graceful figure and swallowed saliva unconsciously. If he could really kiss her tonight, it would be amazing.

A glimmer of light flashed in Megan's eyes. She pulled Sylvia's sleeve and whispered, "Miss, it's not suitable for us to have a conflict with them now. Why don't you go to Young Master Xiao's place to rest? One room can accommodate two people. Mary and I can take care of ourselves." After that, Megan looked at Steve and asked, "Young Master Xiao, what do you think?"

"This..." Although he was very tempted now, he still looked embarrassed on the surface. He looked at Sylvia and said, "Miss Lin, what do you think? If you don't mind, you can go to my place to rest for a night."

"Miss, I think it's okay. Anyway, we're going to attend the meeting tomorrow morning. Young Master Xiao just wants to help." Megan persuaded.

"No." Sylvia didn't even think about it and shook her head. Before she met Henry, she never thought that she would be

in the same room with other men. After meeting Henry, she never thought that she would be in the same room with other men except for Henry. Even if they were separated now, Sylvia still couldn't accept anyone other than Henry.

Seeing Sylvia's decisive refusal, there was a sense of loss in Steve's eyes, but this aroused his desire to conquer.

The man from Xiong's laughed loudly, "Young Master Xiao, it seems that your mistress is not well-behaved, haha!"

Mary's face was a little gloomy. She looked at Sylvia and snorted. "Pretentious!"

The man with a knife walked out of the door and said to Sylvia, " So, beauty, you don't want to stay in Young Master Xiao's place. Why don't you come to me? My bed is very big!"

The man laughed evilly as he spoke.

Sylvia gave him a cold look, then turned around and walked out of the courtyard.

The two young women who occupied Sylvia's room looked at her with a sneer.

"Tsk, tsk, tsk, tsk, tsk. It's said that the temperature on the island in the evening is not very pleasant, hahaha!"

The young woman's mocking voice came into Sylvia's ears. Sylvia subconsciously clenched her fists. Now, she couldn't even deal with this small kind of thing. How could she even think of protecting Henry?

This was the first time. It was the first time that Sylvia couldn't wait to become stronger. She wanted to become stronger herself. She was eager to learn the ancient kungfu!

"Young Master Xiao, your mistress has run away. Why don't you go after her?" The man swung the weapon in his hand

and turned his head to walk into the house.

The two young women also slammed the door, causing it to make a loud noise.

Steve looked at Sylvia, who had already walked out of the courtyard and quickly chased after her.

"Miss Lin!"

As soon as Steve chased out of the courtyard gate, he saw two black carriages parked in front of the entrance. A middle-aged man in a black gown was standing in front of the carriage.

"Hello, beautiful lady, we have prepared a new residence for you."

Steve looked at the scene in front of him and was stunned.

"What's going on? Isn't this carriage from the castle? Why is it here?"

Sylvia was also a little confused. What was going on? Why did they prepare new accommodation for her?

This middle-aged man in a black gown was arranged by the major-domo of Radiant Island, Peze. Originally, Sylvia had been wandering around the island, so Peze did not let anyone disturb Sylvia. When he learned that Sylvia was back, Peze immediately arranged someone to pick her up and at that moment she was thrown out of her room.

"Arranged accommodation for me?" Sylvia listened to his words with a sense of unreality.

"Madam, please." The middle-aged man walked to the front of the carriage and opened the carriage curtain made of expensive silk.

Each of the two carriages had a driver.

The driver of the other carriage said to Steve, "Sir, please get on."

The man didn't know the relationship between Sylvia and Steve. But seeing that the four people went out together, he naturally regarded Steve as Sylvia's good friend. He would not neglect the good friend of the King's wife.

Steve looked at the carriage in front of him. Listening to drivers words, he felt confused. After thinking for a long time, he could only attribute it to his uncle. "Does his uncle already have such a high status on the island? It's incredible!"

Unknowingly, there was an excited look on Steve's face. He said to Sylvia, "Miss Lin, let's go."

Megan's face was full of excitement. She said to Sylvia, "Miss, I didn't expect that the Young Master Xiao had already prepared all of this. He's so sweet!"

Chapter 499

After finishing her words, Megan pushed Sylvia, who hadn't reacted yet, into the carriage.

Megan and Sylvia took one, and Steve and Mary took the other one.

The middle-aged man in the gown put down the curtain and two carriages drove toward the castle in the center of the island.

As soon as he got on the carriage, Steve couldn't wait to send a message to his uncle, hoping to verify whether it had something to do with his uncle.

Steve's words were not as straightforward. His message very obscure, and he said he would like to thank his uncle for taking care of him today.

Steve's uncle's replied that there was no need to thank him.

As soon as he saw this reply, he was sure that it must be his uncle who took care of him this time, which made him wild with joy. If his uncle had such a high position on the island, wouldn't it mean that he could do whatever he wanted on the island?

The carriage slowly drove toward the castle.

In the carriage, Megan was still excited. "Miss, Master Xiao is so powerful, and he's really low-key. If his identity on the island was exposed, he would definitely be one of the most important persons among the ancient kungfu families. But he didn't tell anyone!"

Sylvia sat there without saying a word. In the past, she only thought that Xiao Manor was an ordinary ancient kungfu

family. It was a good choice to make friends with Xiao Manor. But now, if Xiao Manor had such a high status, it would be a different story for her to make friends with the Xiao Family and Steve Xiao.

The castle was located in the middle of the island. On the edge of the castle, there was a ghost face with fangs, identical to the mask worn by Reapers.

At this moment, Henry was standing in the wide-opened mouth of the ghost face. The two sharp fangs beside him were shining with cold light.

"Boss, Peze has arranged for someone to take sister-in-law to the castle." Future wearing a white Han suit, tied up the hair on her back and walked behind Henry.

"Okay." Henry nodded and looked at the direction.

A full moon was shining above Radiant Island and it looked like it could be reached.

The dim light from the full moon sprinkled on a dark island. It was quiet.

"Boss, there was a new result regarding that crystal. Would you like to have a look?"

"Okay." Henry nodded.

Radiant Island had the top lab in the world and the most tightly guarded lab. Future could do any research she wanted here.

The lab was not on the surface of the island, but it was located 15 meters below the island. The top of the lab was covered with granite. If one day the island was destroyed, then the lab would definitely be the last to get destroyed. The most important thing on the island, which was also the most coveted thing in the world, Fire Crystal, was stored here!

Henry came to the entrance of the lab with Future.

"Boss, just wait for me on the top. There are some experiments that have to be done in normal conditions." Future took out a tablet, reached out her hand to draw a few strokes on the computer, and the ground in front of her gradually separated into two sides. A square entrance with length and width of two meters appeared in front of her.

Future walked along the entrance. A few minutes later, she reappeared with three test tubes in her hand.

"Boss, this is the liquid extracted from that crystal. The energy in the crystal is very powerful, and it is very troublesome to refine. This is already the fastest result." Future handed the three test tubes to Henry.

Henry looked around and found that the liquid in the bottle was light blue. Henry looked at it and said, "Is there any reinforced liquid in it?"

"Yes." Future nodded. "I took out a drop of it and tested it on the white mouse. The result was almost the same as inhaling the gas. The only difference was that the increase in strength. It was more violent and it had some damage to the body, so I added some reinforced liquid into it."

"What kind of experiment do you want me to do?" Henry was a little curious. If it was to improve his own strength, it should be safer to finish it in the lab.

Looking at Henry, Future was silent for a few seconds, and then she slowly said, "Boss, I want you to try to affect the larger environment..."

In the beginning, a white mouse just inhaled the gas from the crystal, and under the violent impact could affect the test room that was dozens of times larger than itself. Now, she wanted to make Henry affect the surrounding environment. Once succeeded, it would definitely make a breakthrough!

Henry couldn't help but open his mouth wide. He had never thought about the things Future just talked about. But when a person became stronger, he would find that he was much smaller than the world. Using his own strength to affect the larger surrounding wasn't that easy.

"Boss, this time, it's not just my assumption!" Future was a little excited. "After the calculation, it's totally possible, but..."

"Is it possible that this liquid may cause any damage to me?" Henry continued to say.

"Yes." She did not deny it and nodded directly. "There are some risks."

"It's okay." Henry shook his head. "For so many years, we did so many experiments, some of them were also very dangerous. What do you want me to do?"

During this period, a lot of problems were lingering in Henry's mind, which brought a lot of pressure to Henry. Although Henry did not show it on the surface, in his heart, he longed for himself to be stronger. If at that time in Yinzhou, near the royal cemetery, the old man was not holding a grass, but that rusty sword, he would be seriously injured!

"Let's go to the sea." Future reached out her hand and point at the wall.

Two of them walked out of the wall in the dark and stood on the edge of the island.

Henry took out a tube with liquid and slowly opened it.

She said, "Boss, don't take too much. Ten millilitres is the max!"

There were fifty millilitres of liquid in each tube.

Henry nodded, took a deep breath, and drank the liquid. The

taste of the liquid was similar to soda water and there was no odor. When he swallowed it, Henry had no special feeling.

"How long do we have to wait?" Henry stretched his limbs.

"About three minutes." Future held a tablet. "Boss, if you have any physical reaction, tell me all about it."

A minute later, Henry didn't feel anything strange.

Two minutes passed, but there was still nothing weird.

In the third minute, the kind of chest tightness that Henry felt when he inhaled the crystal gas for the first time suddenly attacked him.

"Chest tightness," Henry said.

Future quickly recorded, "What else?"

Henry closed his eyes. Future could see that Henry's body was shaking slightly at this time.

Chapter 500

"My skin is aching and the veins are pulsing uncontrollably. My head is aching..." Henry's voice slowly sounded next to Future.

Future quickly recorded something on the tablet.

Henry took a deep breath. "Also, my skin is blushing, and it feels like it is on fire. There is an indescribable strong feeling that is gathering in my body, such as..."

After saying "such as", Henry suddenly stretched out his fist and slammed it on the ground.

At this moment, Future stood there and couldn't help but panic. She widened her eyes and stared at the ground under her feet. A crack was spreading toward her feet from the place where Henry's fist hit!

The crack did not spread very fast, but the ground under this island was made of an extremely hard substance. The hardness of the ground was not less than that of steel!

"I feel that there is a force in my body that wants to break out, and the only thing I can do is to release it!"

Henry let out a low growl. He half-squatted and kept hitting the ground with his fists. As Henry punched, more and more cracks appeared on the ground, extending along the island.

Future felt that the ground under her feet was shaking. She carefully looked at the position where Henry was. When Henry punched, she clearly saw that there was a circle of airwave, which was sent out by Henry's fist. The ground had already sunken even before Henry's fists touched it!

With a light sound of a crack, a piece of gravel on the edge

of the island collapsed from the island and fell into the calm sea.

The sea was silent. After three seconds, with a bang, the sea suddenly exploded erupting four-meter-high water as if the bomb had been thrown into it.

The seawater rose up in the air, and then scattered, splashing the water on the ground.

At the same time, Henry slowly breathed out a sigh of relief.

Future looked at this scene in a daze. A person, one person alone, could make the ground tremble and crack. His strength could even affect the water!

It was no exaggeration to say that such a person would be as powerful as a time bomb wherever he went. The power he exerted was too frightening!

A red inverted triangle mark appeared on Future's tablet. She looked at the screen, it was an urgent reminder.

Every corner of the island was equipped with live monitoring facilities. These monitoring facilities not only showed their surroundings but also included the ingredients in the air, which could enable people to know something wrong immediately.

At this moment, the computer's data showed that the place where Henry was located, the place where his fists first hit the ground, was without air. Because of Henry's hit, a vacuum state was formed!

This was a powerful force that squeezed all the air out! Even the air couldn't withstand the impact of this force. If Henry's opponent was standing there, what would happen to him?

"Would that person be punched by Henry's fist? Or simply turn into a pile of meat?"

No!

Future shook her head. Her achievements in science told her that if a person faced Henry's attack, unless he was stronger than Henry just now, there was only one ending for that person, he would... decompose!

He would completely decompose and would be erased from the world, there would be no trace of him!

"What's this? This is an ability that only The Creator could possess!"

Henry took a deep breath, slowly got up, wiped the sweat on his forehead, and stretched out his hands to have a look. After such a strong blow just now, his hands were not damaged at all.

"Boss, how do you feel? Have you felt like the same last time?" Asked Future.

"Sleepy." When Henry spoke, there was a trace of exhaustion on his face. Last time, he only inhaled the gas and threw a punch. As soon as he came out of the lab, he fell into a deep sleep. This time, he took the liquid. In terms of strength and density, it was much higher than the last time, and he even threw a dozen punches.

Future nodded and said, "This crystal contains too much energy, feeling tired is the body's self-protective mechanism. But it is certain that as long as the human body can bear it, this thing has no big side effects."

Henry carefully packed the remaining two tubes and the rest from the first tube. This was a trump card that could improve his physical strength in a very short period of time.

Most importantly, Henry had an intuition that every punch he made after taking this liquid contained Qi!

That was Qi. It had a destructive effect, which was in line with the record in Wilbur Zhu's great-grandfather's books.

Qi entered into the body and could not be expelled for a long time!

It was completely different from the Qi the woman in red in the Zhu family's manor showed last time.

A wave of sea breeze blew over, cooling the atmosphere. Henry shook his head and tried to cheer himself up, walking toward the castle in the centre of the island with Future.

At this time, the island was very quiet.

Henry, who was walking on the road, suddenly stopped and shouted softly, "Come out."

"Boss, in the back." Future turned directly.

After Henry said "Come out", the tablet in Future's hand told her exactly where the man was.

"Haha, The Conqueror, you're still as alert as ever." A hoarse voice sounded from the darkness.

Just then, a figure was hidden under the black robe appeared in the darkness.

"King Olle?" The moment she saw this figure, Future's eyes became calm.

"Haha, it's interesting that you Miss Future still remember me, such an unimportant character." King Olle laughed in a hoarse voice, which was particularly harsh.

She shook her head and said, "I don't think there are small characters on the list of top ten masters in the world."

King Olle ranked 7th on the world's underground masters list!

"King Olle, it's late, you are not asleep yet, and you appear behind me. You want to have a midnight snack with me, don't you?" Henry tried to hide his tiredness. At this moment, tiredness swept over him like the tide, even opening his eyes was a difficult task.

"It would be a great honour for me to have a midnight snack with The Conqueror." King Olle took a step forward. "I just want to challenge the strongest person in the world."

"Challenging my Boss?" A sneer appeared on Future's face.

"King Olle, you think too highly of yourself, don't you?"

"If it were in the past, of course, I wouldn't dare to do this."

King Olle said, "But now... I heard that The Conqueror was seriously injured in the battle with The King Region. It was a fluke for him to survive, which made me itching. The Conqueror, in order to show respect for you, I'll be generous and make the first move!"

When King Olle finished his words, he turned into a phantom and rushed toward Henry.

Chapter 501

"How dare you!" Future swiped her finger on the tablet. The next second, a small silver cannon platform appeared under her feet, and it aimed at King Olle immediately.

At this time, like the scene in the movie, Future was armed with high technology all the time.

Henry stretched out his hand, indicating she shouldn't take rash actions. Seeing that King Olle was getting closer and closer to him, he stretched out his foot and kicked hard on the ground. His whole body quickly retreated.

This action raised a strange feeling in Henry's mind. If he used only one word to describe this feeling, it would be floating!

Henry had made this move many times, but he had never felt as light as he did today. His speed was much faster than before, which made him confused. "What's going on?"

King Olle didn't think too much. He rushed to Henry, but failed to hit him. He tried to attack

again. When he reached out his hand out of the cloak, Henry saw that his arm was thin and weak, which was particularly horrible.

Henry took a deep breath and punched out. At the moment when he punched out, another strange feeling came. Henry found that there seemed to be an invisible Qi gathering around his fist. This feeling was exactly the same as when he drank the liquid and punched, but the strength was much weaker.

This discovery made Henry delighted. "Could it be that I have grasped the Qi by accident?"

Originally, Henry wanted to defeat King Olle with one punch and go back to rest. But with this discovery, Henry slowed down, King Olle was neither strong nor weak, which made him a perfect sparring partner.

After getting hit by Henry, King Olle didn't feel any pain or itchiness and he could withstand it easily. This result made him sneer in his heart. Sure enough, this so-called The Conqueror would finally be defeated.

King Olle kept attacking Henry mercilessly. His

thin hands carried a strong power.

Facing the attack, Henry kept dodging. He found that he was not hallucinating. He could easily make movements that he couldn't make in the past even when he tried his best. He had not practised them during this period of time. What on earth was going on?

Henry was defending from the attack, but he found that the Qi covering the first punch was not there by chance. Every punch and kick of his now had this kind of Qi. Although it was not lethal, in some aspects, it was a substantial breakthrough!

After dozens of moves, Henry withdrew his fist and raised a pair of fingers, copying the old man with the sword that he had met some time ago.

That old man practised only one move with a sword for decades. This move was equivalent to all his strength. It was his strongest point, but also the weakest. When he thrust out that sword, Henry felt scared. What now Henry needed to do was to learn how to exert his strength. For the past months, since he had met the old man with a sword, Henry has been practising in his free time. Until now, he had mastered part of it.

After hundreds of moves in a row, the more he fought, the more excited King Olle became, because he found that The Conqueror was indeed much weaker than before. Sure enough, the rumours were true! If he could cut off The Conqueror's head tonight, it would definitely be a great contribution! Thinking of the reward that the organization might give him, King Olle couldn't help but scream.

"The Conqueror, go to h*ll!" King Olle shouted and stretched out his claws to grab Henry's shoulders.

Facing King Olle's move, Henry was not in a hurry. He stepped back. Even before Henry's body became light, he could easily avoid this move, let alone now.

Just when Henry was about to dodge, the heavy tiredness, like the waves of the sea, swept toward Henry. At this moment, Henry only felt dizzy, and even his movements were a little slower.

When masters fought, their strength could be compared in an instant. Although there was a huge gap between the strength of King Olle and Henry, no matter what, they were the top ten

masters in the world. Henry's slow action was enough for King Olle to do a lot of things.

"Sure enough, just now, you were pretending to be strong!" King Olle sneered. The hand that originally wanted to grab Henry's shoulders changed its direction and grabbed toward Henry's chest. If it was done, Henry would definitely be seriously injured. Although he was powerful, he was a mortal human being, not a god.

At this critical moment, a string of flames appeared, and the silver cannon platform in front of Future sputtered out flames, forcing King Olle back.

King Olle snorted. He knew that he was in a hurry. In this place, there was not only The Conqueror but also the ten kings of the island. It was obviously impossible for him to take The Conqueror's life. However, at tomorrow's meeting, he could challenge The Conqueror in front of everyone. In the arena, all battles were life-and-death battles.

After shaking his cloak, King Olle jumped a few times and disappeared in the darkness.

Henry's footsteps were not as steady as usual. He staggered forward and fell forward.

With her quick reflexes, Future hurried forward to hold Henry, so he did not fall to the ground. Henry had fainted and his eyes were closed.

Future held him in her arms and quickly turned on the tablet. "Idiot, come over here. Boss is unconscious!"

A few minutes after the message was sent out, she saw Wade rushing over in a hurry.

"What's wrong with the boss?" Wade looked anxious when he saw Henry lying unconscious in Future arms.

"Let's go to the lab first."

Wade carried Henry on his back and went to the lab with Future.

In the lab, all kinds of precise instruments were dazzling.

Henry laid on the wide experimental table in a pair of underwear. Future stood in front of a screen, analyzing all the data in Henry's body.

"How is he?" Wade stood with a worried look on

his face next to Future.

"Phew..." Future breathed a sigh of relief and shook her head. "He's okay, Boss is too tired, so he fainted. That crystal definitely has the effect of strengthening the muscles in the body. The last time Boss inhaled the gas extracted from the crystal, his body had some subtle changes. He drank the liquid this time and look."

Future pull up a data table. The contents on the chart were so clear that Wade could understand it at a glance.

"Power, speed, and bone strength have all increased by 50%?" Looking at the data on the screen, Wade opened his eyes widely. He could not believe it.

At this time, the data in front of Wade was not the explosive force that Henry felt immediately after drinking the liquid, but the result after the whole body had calmed down! If an ordinary person's data was increased by 50%, Wade would not be this surprised.

However, Henry was not an ordinary person!

Chapter 502

Henry's physical quality, from the muscle strength, skeleton strength, power and speed, had already reached the limit for a human being. If one could go a bit over that limit, it would be great. But now, he directly went 50% over the limit.

Future pointed to Henry, who was lying on the experimental table and said, "Look, a lot of toxins have been eliminated from Boss's body. As for the details, we have to wait for him to wake up and do a new test."

Wade nodded. "I just don't know when he will wake up."

Future shrugged her shoulders and said, "According to the current situation, it would be the best if he could wake up around noon tomorrow. Let's ask Uncle Peze to change the flow of the meeting and let those people rank first."

"Okay, I'll tell the old man." Wade nodded and left the lab.

One night passed quietly.

The next morning, when the sun rose, it shone on the castle in the center of the island.

Sylvia lay on the big bed and rubbed her sleepy eyes. The room was fragrant and calming, which made her sleep very comfortable last night.

The whole room was at least 80 square meters. In addition to the big bed, there was also a cloakroom, full of brand new clothes, all of which were made by famous designers from various countries.

The exquisite makeup table was placed in front of Sylvia's bed.

The wide balcony was full of blooming flowers, making people feel as if they were in a dream.

Sylvia subconsciously came to the balcony. When the sun bathed her whole body, she looked like a flower fairy. She spun around on the spot. Last night, she changed her nightdress. If anyone saw such a scene, they would be stunned. Even the most beautiful flowers were not as beautiful as her at that moment.

Sylvia realized that she had lost her composure. She looked around and found that luckily no one

noticed her. She stuck out her tongue playfully, walked to the bed, and picked up her mobile phone. When she looked at it, Sylvia was shocked. It was already nine o'clock in the morning!

Yesterday, the person in charge of Ji family informed everyone that they would gather at eight o'clock in the morning. Obviously, she was late.

Sylvia didn't care about makeup. She got ready quickly and opened the door.

As soon as the door was opened, Sylvia saw Megan sitting in the corridor outside the door, holding a tasty snack and eating slowly.

"Miss, you're awake." Megan smiled at Sylvia.

"We're running late." Sylvia's face was a little ugly. She was late for the first time to participate in the underground world meeting, which would definitely have a great impact on the Su Family.

"Miss, you don't have to worry too much. Master Xiao has arranged everything." Megan waved her hand indifferently.

Aside, two young girls slowly came over and bowed respectfully to Sylvia. "Madam, you're awake. We are here to serve you."

"Serve me?" Hearing what they said, Sylvia was a little overwhelmed. Although she was born in a wealthy family, she couldn't enjoy being served by someone.

"Miss, we're not in a hurry. You can take a bath and have breakfast before going to the meeting." Megan waved her hand.

Sylvia nodded in astonishment. This was completely different from what the man in charge of the Ji family said.

"Madam, please!" Two young girls walked to the door.

"Well... I'll take a bath alone." Sylvia refused the two girls' requests to serve her and went back to the room.

"Then I'll go to adjust the water temperature for you." One girl walked into the room and carefully adjusted the water temperature in the bathtub for Sylvia.

The other girl was choosing clothes for Sylvia. She told Sylvia everything about today's temperature and recommended Sylvia more than six pieces of clothes.

Sylvia only felt that her head was buzzing. She had never experienced such an emperor-like treatment.

Sylvia finished bathing, put on new clothes, and put on light makeup. All the time she felt as if she was in a daze.

"Madam, you are so beautiful." When the two young girls saw Sylvia after bathing and changing her clothes, they couldn't help praising her and their eyes were full of envy. She was indeed a king's wife.

Sylvia's long snow-white skirt, bright, heart-warming smile, her delicate and gorgeous features and her big bright eyes seem to drive away all the darkness.

Her eyes were as bright as stars. Standing there alone, she gave people a sense of nobility and holiness.

Outside the door, Megan, Steve, and Mary were waiting.

"Does she need such a long time to dress up? Does she think that she is going to the beauty contest?" Mary curled her lip and said very

unhappily. Although they were not in a hurry at all, Mary just didn't like waiting for Sylvia here.

"Crack!"

There was a slight sound of the door lock, and the door was opened.

When Sylvia walked out of the room, Megan was stunned. Even Mary, who was in a bad mood, couldn't find any fault with Sylvia.

Steve widened his eyes and couldn't move at all.

"Miss, you're too beautiful. Anyone will be lucky to marry you!" Megan put her palms together in front of her chest.

Sylvia smiled. Other people's praise was no match for Henry's. She said calmly, "Let's go. It's getting late."

"It's okay, Miss." Megan said indifferently, "Master Xiao has already made some arrangements. We changed the seats."

As soon as Megan finished her words, Steve took out four badges.

The four badges were originally sent to Sylvia by Peze, but while Sylvia was taking shower, the man

handed the badges to Steve instead. At the same time, he said, "Sir, the Lord has arranged the best seats. You can enter with this badge."

Steve naturally regarded this matter as a special arrangement made by his uncle.

"Miss Lin, I have arranged it on my own. I hope you will like it." Steve showed a smile that he thought was very gentlemanly and walked forward.

Sylvia shook her head and didn't say anything. She walked behind Steve.

Walking next to Sylvia, Megan kept grabbing Sylvia's skirt and said anxiously, "Miss, Master Xiao is really powerful. Fortunately, he is very low-key. Others don't know his relationship with Radiant Island. Otherwise, many young ladies from large families would stick to him. You have to hurry up. I can see that Young Master Xiao is very interested in you."

Sylvia shook her head. "Forget it. I'll make it clear to him later."

Looking at Sylvia's indifferent look, Megan stamped her feet anxiously.

Chapter 503

The place where the underground world meeting was held was inside the castle.

When the four people came there, the whole venue was already full of people.

This venue was like an indoor football field, surrounded by the spectator stands. In the centre, there was a platform. At this moment, there was no one on it. It was so dark that people couldn't see what exactly was on it.

Sylvia saw that there were several lifelike demon statues standing around the venue. The demon had horns on its head, revealing its fangs, and wings on its back. One of the demons even pressed an angel with six wings under its claws. People could feel a sense of cruelty just by looking at it.

"Hey, who is surnamed Lin is coming, but it seems that she has no place to sit." As soon as Sylvia entered the venue, she heard a teasing voice. The person who made this sound was just the one

who kicked Sylvia out of her room last night. Sylvia glanced at her but didn't say anything.

Megan held her head high and walked in front of her. The place where they were sitting was in the middle of the venue which belonged to the Su Family. The Xiong family had sent so many people here and they occupied the seats intended for the Su Family.

Megan looked at them and snorted. "You can sit here. We have another place to sit!"

Just now, Steve told Megan that the four badges in his hand were for the seats in the front row, closest to the central platform.

"Do you have a place to sit? The corridor?" The woman smiled disdainfully.

"You!" Megan was about to say something, but Sylvia interrupted her.

Sylvia shook her head and said, "Forget it. Let's sit down first."

Seeing that Sylvia had spoken, Megan did not say anything else. She glared at the woman fiercely. Then, under the woman's gaze, they went to the front row and sat down.

"How is it possible? Why are they qualified to sit there?" The woman of the Xiong family couldn't help asking. Those who could sit in the front row were all prominent figures in the underground world.

In the ancient martial arts world of China, only the Ji family, the Jiang family, the Bai family, and the Zhu family were qualified to sit there. Only the current Master of the Zhu family could sit there.

When Sylvia and the other three people sat in the first row, they immediately attracted a lot of attention. Some people who had known Steve and Sylvia before were all guessing why they could sit here.

Wilbur Zhu sat in the first row. When he saw Sylvia, he smiled at her. Wilbur knew about the Su Family's successor. At the same time, Wilbur also knew that she was Henry's wife.

The people from the three big families from the capital were not very clear about Sylvia's identity. When they saw Sylvia sitting here, they were very surprised.

At this moment, in the laboratory of Radiant

Island, Henry was still lying on the experimental table and sleeping.

Wade and Future were standing next to the table.

"Girl, when will Boss wake up? This time, he must show up. Now there are a lot of rumours outside. During the period when Boss disappeared, many people speculated that Boss was dead. Today, he must show up to end this rumour." Wade said anxiously.

Future shook her head and said, "I'm not sure yet. According to the test results, Boss has woken up from a deep sleep and may open his eyes at any time."

"Why don't... we wake the boss up?" Wade asked tentatively.

"Absolutely not!" Future immediately stopped Wade's idea. "This is different from ordinary sleep. His body function has changed over the night. If we rashly wake Boss up, it may cause some harm to him. You can let Uncle Peze organize the ranking first. Once Boss wakes up, I will take him there immediately."

There was a bit of embarrassment on Wade's

face. "That's the only way. I hope Boss can wake up today. If Boss doesn't attend meeting this time, more people will believe the rumours outside."

In the underground world meeting venue, a beam of white light suddenly shot down from the ceiling and shined on the dark platform.

When the white light appeared, the noisy venue became quiet in an instant. Everyone couldn't help but look at the place where the light gathered.

A grey-haired figure stood in the light. It was an old man. He had a slim body and could not stand straight. However, none of the people presents dared to look down on him. Only some newcomers who didn't know anything about him looked at the old man on the platform in confusion.

"The major-domo, Mr. Peze." Steve, who was sitting next to Megan, whispered to Sylvia. "It's said that he was one of the earliest creators of Radiant Island. Even The Conqueror regarded him as an elder. Don't ever think he is old. There are so many masters present, but there are less than five people who can fight against him. He is also the

most powerful person on Radiant Island after The Conqueror!"

Although Megan came to the underground world meeting once, she didn't even have a chance to enter the venue, let alone meet the major-domo of Radiant Island.

Looking at Peze, Megan said, "This old gentleman looks quite amiable. I didn't expect him to be one of the ten kings of Radiant Island, one of the leaders of Reapers."

"Amiable?" Steve smiled, "Don't be fooled by the appearance of Mr. Peze. Twenty years ago, in the time when the underground world was still ruled by The King Region, there was a conflict between them. Mr. Peze alone killed 1746 people of The King Region in one night, which made the street full of corpses. Mr. Peze is everything but amiable."

"1746!" Megan widened her eyes. "He killed so many people?"

"That's just one of his many battle records in his life." Steve shook his head. "After all, he is one of the 10 kings of Radiant Island!"

Sylvia also heard what he said, which made her sigh. When she first saw the old man on the stage, her first impression was that he was kind, but she didn't expect that he had such a terrible record.

Sylvia was different from Megan. She had not been in contact with ancient kungfu for a long time. According to her previous knowledge, killing a person was crime worth a death sentence, let alone a thousand of people.

Peze stood on the stage, looked around, and then began to speak. He didn't carry any microphone or headset, but his voice could clearly be heard by everyone present.

"Everyone, I'm sure you all know me. I won't introduce myself. It's my honour to welcome you here. I won't talk too much nonsense. So... Welcome to Radiant Island!"

DISCORD

Chapter 504

When Peze said the words "Radiant Island", all the people present felt a pain in their eardrums. It was as if someone was shouting in their ears.

The voice echoed in their ears without stopping.

Just from his voice, people could see his strength. Those young people who had looked down on him at first did not even dare to make a sound at this moment.

As for Peze, he not only proved his strength to everyone present, but also proved the strength of Radiant Island.

He was just one of the 10 kings of Radiant Island.

As soon as the voice fell, there was a full minute of silence. During this minute, thousands of people in the whole venue did not make any noise. Everyone held their breath and did not dare to talk in a low voice.

A minute later, Peze spoke again, "Everyone, now, I'll organize the rankings of this year. All the people who are going to participate in the

challenge can prepare now."

"Now?" Someone couldn't help but ask in confusion.

Normally, this kind of ranking challenge needed the 10 kings of Radiant Island to be present. Although some of them were stronger than the 10 kings of Radiant Island, but the kings were not a deterrent to personal strength, but a symbol of identity.

For example, Peze, he was the major-domo and one of the 10 kings of Radiant Island. But at the same time, he was also a cardinal in Vatican.

Vatican had a very high status in the Western world. Not only did it have a high status among ordinary people, but it was also very important in the underground world. Someone once said that the Pope could use magic. Of course, such a statement was just a rumour. No one believed it, but it was enough to see how powerful Vatican was.

Peze had another name. He was called Lucifer in Vatican!

Lucifer in the western myth was once the most

powerful angel of Heaven, but he eventually fell to hell.

The other kings on the island had a very high status. Without these people to witness, the rankings were incomplete.

Most importantly, this year, everyone believed that The Conqueror would show up during the underground world meeting.

In recent months, there had been countless rumors in the underground world. When the owner of Radiant Island fought against The King Region, no one knew what the result of that battle was. Some people said that the owner of Radiant Island had won, but the price he paid was very high, and he had been disabled. Otherwise, he would not have been silent for such a long time.

Some people also said that they saw The King Region in some isolated island. In that battle, the King Region must have won and the owner of Radiant Island had died.

At first, no one believed such a rumour, but as The Conqueror disappeared, more and more people believed it.

If he did not show up today, the rumour would be confirmed.

Peze did not pay attention to the uproar around him, because he knew that The Conqueror was fine! He looked around and said, "Guys, if you want to participate in the challenge, come on the stage!"

The people sitting on the spectators stand looked at each other, but no one spoke. The so-called ranking was only for a few people, who stood at the top of the world.

Only those who were in the top 100 would show up and participate in the challenge. And those who could make it to the top 100 of the world were very familiar with each other. They were very clear whether they could defeat each other. Most of the time, this kind of ranking challenge was just a formality.

"Since nobody wants to come on the stage, I'll do it first!"

A middle-aged man in a green shirt, who was from one of the ancient kungfu families, stood up with a sword in his hand. It was Sean, who showed up

at the port yesterday. He was ranked 97th on the list.

With an iron sword on his back, Sean slowly walked down from the stand and came to the stage. Then, he hid in the darkness on the stage.

"Mr. Bai, who are you going to challenge?" Peze said.

"Tiger Fist, Jarry!" Sean's voice rang out.

Upon hearing his voice, the people on the spectators stand couldn't help but exclaim.

Steve looked at the stage and said, " Tiger Fist Jarry is ranked 80th in the world. It seems that Sean is very confident this time!"

Peze nodded, turned around, and said to one side of the stands, " Tiger Fist Jarry, accept the challenge!"

With a whizzing sound, a nimble Asian man jumped onto the platform from the corner of the spectator's stand.

Tiger Fist Jarry was only 1.68 meters tall and was considered short among the men, but his strength could not be underestimated. His fists were said

to be able to easily break through the steel plate, and he ranked 80th on the list, so he was definitely not a man who was famous for nothing.

Peze stood between Sean and Jarry and said, "The challenge will end only when one side admits defeat or dies. Do you understand?"

Sean nodded.

Jarry shook his head and waved his fist to the air.

There was no law, but only the underground rules on Radiant Island. The underground rules were established on blood.

Which meant they could use any way they prefer, poisoning, fighting or other ways, as long as they could defeat their opponents!

Peze stretched out one hand and then put it down heavily.

When Peze's arm fell, the two people standing on the platform moved.

Two light beams fell from the ceiling and hit two people.

Both of them moved very quickly. Sean pulled out his iron sword from his back and let out a sword

sound, rippling in the air like waves.

Jarry was unarmed. He didn't take any weapon, because his fists were the best weapon!

The spectators carefully watched the movements of the two people on the stage. Even the world's top 100 experts, who ranked higher than the two people, were also concentrated. They did not become masters by luck. Their success was connected to all the efforts they had put in. They would try their best to strengthen themselves at any time.

In just a few breaths, the two people on the stage were fighting.

This was Sylvia's first time to watch the battle between two masters, so she watched it carefully.

The fight between the two people on the stage was more exciting and thrilling than the fighting scenes in the TV series and movies.

Sean's sword went straight to Jarry's throat.

With a twist of his body, Jarry dodged the sword and punched out.

Sean resisted with his sword. It was obvious that he was going to be hit by Jarry's fist, but there was

a sound of steel colliding.

They moved so fast that ordinary people like Sylvia couldn't see them clearly. She couldn't help comparing them with Henry. What would happen to Henry if he came across people like this?

DISCORD

Chapter 505

The two people on the stage became fiercer and fiercer as they fought.

Jarry was ranked 80th, so his strength could not be underestimated. Facing Sean's sword, he dodged it easily and punched at Sean with his fists. Resisting made Sean a bit tired.

"It seems that Sean is in danger this time," someone from the Ji family said.

The man sitting in the main seat of the Bai family seemed to be unconcerned. "Sean wanted to go on stage, which means that he is pretty confident."

Hearing the words of the Bai family member, the Ji family was a little speechless. It seemed that Sean still had a trump card.

Outside the venue, in the underground lab.

Wade knocked on the glass door of the lab and said, "Little girl, let's go. We have to go out to stabilize the situation, or those people will make troubles unexpectedly."

"Okay." Future nodded and reluctantly walked away from the lab. Comparing with the underground world meeting, she was more interested in the research.

Her hands kept sliding on the screen in front of her. When she got to the last page, she was stunned.

"What's wrong? Why are you so surprised?" Wade pushed open the glass door and walked in.

"No, nothing." Future quickly closed the last page and answered in a panic tone.

Wade looked at Future with a strange look and said, "Let's go."

"Okay." Future nodded and walked out of the lab with Wade. At the moment when the door of the lab closed, Future couldn't help but turn around and look at Henry, who was lying on the experimental table.

On the last page on the screen, Future clearly saw that there was a kind of Qi in Henry's abdomen, which formed a whirlpool and remained there. The energy composition of the Qi was exactly the same as the energy in the white crystal!

When Wade and Future came to the outside of the venue, there were already five figures waiting here.

"Let's go, it's time for us to go in." Moon Goddess was wearing a purple trailing dress and a lavender crown on her jade forehead, giving people a sense of nobility.

"Haha, you've all met our sister-in-law. I'll go to greet her first." Alex had a scimitar on her waist, laughed and strode into the venue.

Looking at this scene, the bald-headed Sea God shook his head helplessly. He knew what Alex character was like. On the surface, he was the most fierce one among the 10 kings of Radiant Island, but in fact, he liked to play around with people.

"Let's go. Don't worry about him." Red Hair lifted his robe.

In the venue, Sean and Jarry had already reached the most critical moment of the battle. The speed of their moves was so fast that most of the people present couldn't see them clearly.

At this time, Sylvia was stunned. No wonder Megan said that the horror of the underground

world was beyond her imagination. These two people on the stage were so powerful that would be invincible in the outside world. But here, they could only be ranked around 100th place.

Sylvia didn't even dare to imagine what Henry would be able to do if he really wanted to quarrel with these two people.

At that time, Sylvia let out a sigh of relief. It seemed that it was right for her to choose to leave Henry. If he was implicated because of her and was targeted by these people, Sylvia would live in self-blame for the rest of her life.

"Jarry, you're very strong. If you can withstand my last strike, I'll admit defeat!" Sean held the sword in one hand and pointed it at the ground. One could see that Sean's arm was trembling slightly.

Jarry didn't say anything. He stared at Sean like an eagle.

Sean took a deep breath and said nothing more. He suddenly stabbed out with his sword.

When the sword came out, everyone present heard a sword sound. It was as if the sound was going to cut the people's eardrums.

Standing not far in front of Sean, Jarry's pupils suddenly contracted and then completely spread out.

At the same time when his pupils spread out, a stream of blood sprayed from his throat.

Jarry fell to the ground, and his blood flowed down slowly along with the platform.

Sean panted heavily. It was as if he had exhausted all his strength.

Looking at this scene, Sylvia subconsciously closed her eyes. She had never seen such a scene before. A murder just happened in front of her! Although she had heard of the cruelty of the underground world from Megan a long time ago, when she saw this scene, she was still shocked. There were some things that could not be understood just by listening to, and she had to feel it and see it by herself!

Sean's victory caused a cheer in the place where the Bai family sat.

As for the loser, Jarry, nobody even looked at him.

Peze stepped onto the stage again and announced Sean's victory.

"Is there another challenger?" Peze looked around and made a sound.

At this moment, Sylvia only felt that her heart was pounding.

"Beautiful lady, please have some tea." A strong black man walked up to Sylvia, holding a delicate teacup in his hand, and the mouth of the cup was still steaming.

Just as he entered the venue, Alex thought a lot and searched the Internet. Finally, he decided to make a toast to his sister-in-law with a cup of tea.

Sylvia's heart, which was originally beating wildly, was shocked by the sudden appearance of Alex. What was going on here? Someone came to offer her tea.

Wilbur sat not far away from Sylvia. Seeing this scene, he nodded secretly. It seemed that Henry had already introduced this woman to people. Otherwise, why would Alex, one of the 10 kings of the island, come here to offer her tea?

The Bai family, the Jiang family, and the Ji family all saw this scene with horror on their faces. They were just guessing who Sylvia and the other three

people were and why they sat here. Now they saw with their own eyes that Alex came with tea. How many people could make one of the 10 Kings of Radiant Island offer them tea in person? When did they become big shots in China?

Steve, who was sitting on the side, saw that someone was toasting Sylvia, but that person didn't give him a cup of tea. He was unhappy and shouted, "Don't you know the rules? Why don't you bring tea for the four of us?"

It was obvious that Steve thought that Alex was a servant on this island.

Alex looked the Steve with a strange look and said, "Why should I bring you tea?"

"What a joke!" Steve sneered. If he wanted to show his status in front of Sylvia, how could he let go of this opportunity? "Your master hasn't taught you how to treat a distinguished guest? Hurry up and pour another three cups of tea. I want the best Maojian Tea. Do you understand?"

"No." Alex shook his head. Only his sister-in-law could get a cup of tea from him. No one else.

"You don't?" An angry look suddenly appeared on

08:39 

Steve's face. He stared at Alex and said, "Believe it or not, I'll let Bradley Wang chop you into pieces!"
