

Chapter 507

Several people walked down from the spectators stand one by one and wanted to challenge the underground king.

It could be seen that Peze's face was very ugly. He had never been provoked like this on Radiant Island!

The man from the Bai family sighed and said, "I'm afraid that these people have received the news last night and know the situation of the king. Now all of them have jumped out."

"There is no other way." A member of the Ji family sitting next to the Bai family said, "The Radiant Island is too powerful. They have risen in just a few years and crushed all the underground forces. The leaders of all countries wanted to get revenge. There are too many people who want to see the Devil bow down to them."

"This is a once-in-a-lifetime opportunity for them. If The Conqueror is really like what the rumours say, today may be really dangerous."

"In fact, the most important things are those Fire Crystals, which make all the forces in the world go crazy!"

While the well-known families in China were chatting, one person after another walked down from the spectators stand to the platform and wanted to challenge The Conqueror.

Peze turned and looked at Alex.

Alex shook his head slightly, indicating that boss hadn't woken up yet.

Hearing the shouts from the stands, the face of Peze was very ugly. This kind of challenge could not be refused. If Hendy did not accept the challenge, it meant that he had admitted defeat.

How could The Conqueror, the owner of Radiant Island, admit defeat?

But now it was impossible for Henry to accept the challenge. He was still unconscious.

People on the stage kept shouting.

"Why? Does The Conqueror dare not to accept the challenge?"

"Since that's the case, then make him step down

from the throne!"

On the spectators stand, some people secretly cursed these shameless people on the stage. Many people heard about the current situation of The Conqueror. Obviously, these people were grabbing the opportunity.

"Miss, The Conqueror has been challenged. Maybe we will see The Conqueror today?" Megan said excitedly.

The Conqueror was well-known in the underground world. Meeting him would be a highlight for everybody.

Sylvia shook her head. She was not interested in The Conqueror. In her heart, she just hoped that she had the ability to protect Henry. It was enough. The most powerful person on Radiant Island was too far away from her.

"I'll ask one more time. The Conqueror, do you dare to accept the challenge?" King Olle shouted again. His voice was full of strong confidence. He had fought with Henry last night, so he had no worries at all.

Peze looked at Alex again and winked at him.

With a nod, Alex bent down and reached out his hand to lift up the machete in front of the throne.

"If you want to challenge Boss, you need to defeat me first!"

"You?" King Olle sneered. "You're not qualified enough. I want to challenge The Conqueror."

As soon as King Olle finished speaking, they heard a disdainful voice from the top of the venue.

"Do you think that you piece of sh*t can challenge my boss?"

As the voice sounded, at the top of the venue, there was a sound of flapping wings. Countless bats suddenly flew from the darkness in the sky and rushed to King Olle.

A bloody-red figure gradually descended from the sky.

At the same time when the bloody-red figure appeared, a person sitting behind Sylvia murmured, "God has been alive for 3000 years and this man is eternal like a God. With one of his hands, he can make the whole world tremble! He is the owner of the Calamity Ring..."

As soon as the man's voice fell, a voice rang out from the whole spectators stand.

"Calamity, Red Hair!"

The bloody-red figure fell from the sky and landed on the ground. At the moment when he fell, everyone felt a shock under their feet.

Red Hair swing the bloody-red robe on his body. At this moment, the bats all gathered around him and hid under his robe.

Sitting in the front row, Sylvia's eyes became dull the moment she saw Red Hair. "Isn't he Henry's brother? He is one of the 10 kings of Radiant Island!"

"Well, I'd like to just kill them directly!" A strong white man gradually walked out from a dark place. When the strong white man appeared, the people sitting in the venue felt that the air around them was much more moist.

"The sea is the most mysterious place, full of countless possibilities. This person is the master of this mysterious place. He is guarding the sea all the way to the horizons! The owner of the Sea Ring, Sea God..."

"Thel..."

The first words were spoken by the person sitting behind Sylvia, while the word 'Thel' was said by Sylvia.

"Miss, do you know Sea God?" Megan glanced at Sylvia in surprise.

Sylvia nodded. She didn't know how to describe her feeling at this moment. She knew that he was also Henry's brother.

Sea God held a dark blue sailor's knife in his hand. It was said that this knife was rescued from a depth of 8,000 meters. After hundreds of years of being soaked in the sea, it was not deformed at all. It was made of one of the sharpest materials in the world!

"It's so easy to just kill them directly. Let me take a sample and study them carefully. I've been interested in the skeleton monster for a long time." A light voice sounded.

The crowd in the venue heard a roar, and then they looked at Future in white floating in the air above the platform. The shoes under her feet were constantly spewing flames, so that she could not

fall down.

"People's exploration of technology has never ended. There is one person who understands technology better than anybody. She can see through 50 years in the future, that is why she is called Future. She comes from the future. Nobody can live forever, but technology can live in people's hearts forever. She is the owner of the Eternal Ring, Future, Anna!"

Future was floating in the air, with a pair of beautiful eyes, glancing at those who were standing on the platform and threatened to challenge Henry. Behind her, two gun barrels stretched out from her back. They were dark and chilling.

"Not only will they die, but the people behind them will also die!"

On the platform in the center, a lift slowly rose. A middle-aged man, wearing a suit, stood on the lift.

"Because of people's depravity, money is the most valuable thing in the world. He is the heir of the biggest financial group in the world. His financial group covers the whole world. Even the richest

country has to rely on him to survive. He doesn't need too much strenght, because he can overturn the financial situation of a country with just a few words and make countless people rise up. The owner of the Desire Ring, Inner Devil, Felix!"
