

## Chapter 512

Seeing this scene, many people couldn't help swallowing saliva. The Conqueror deserved to be called The Conqueror. He destroyed a combat aircraft only with his hands, which was something that many people didn't even dare to think about.

Sylvia looked at the man standing in front of the fire with amazement in her eyes. This was her man!

The jet destroyed by Henry just now was just a beginning, and several jets fell on the island one after another.

He looked up and found that there were only a dozen of jets left in the sky.

"Future, don't play anymore. Destroy them." Henry said indifferently.

Future, who was hovering in the sky, nodded. Just as she was about to speak, she saw that the high walls around the island were slowly descending.

"Future, what's going on?" Felix shouted.

Future shook her head anxiously and said, "It's not me."

"It's not you?" Felix frowned.

The jets hovering in the sky all flew to the outside of the wall.

Everyone on the island was looking at the outside of the wall at this moment.

When the walls around Radiant Island slowly went down, the island was surrounded by jets, and all the warships that had been parked beside the island had disappeared.

Such a scene made all the people on the island widen their eyes. There were hundreds of jets circling around the island. If all of them were to start a fire, the whole island would be destroyed.

"Sea God, where's your fleet?" Wade asked.

"I don't know." Sea God shook his head with a serious look. "I didn't give any orders."

Henry walked to the front and said lightly, "There's no need to ask. Who else can break through the defence line of the island easily, lower the wall and move the fleet away?"

As soon as Henry finished speaking, the gate of the castle was opened from the outside. A tall figure appeared in front of everyone's eyes. She stood in front of the entrance of the castle, with her long silver hair hanging down casually. Her beautiful features were like a work of art bestowed by God, exquisite and flawless. She wore a layer of light gauze, tempting like a devil, but still noble like an angel.

Henry looked at the woman who appeared in front of the door of the castle and said, "Cesia."

There was only one person in the world who could break through the defence line on the island easily, control the movement of the wall, and arrange Sea God's Army.

Cesia smiled sweetly and said, "Brother Henry, did you miss me?"

Henry took a deep breath.

Wade strode forward and shouted, "Cesia, do you know what you're doing?"

Cesia tilted her head and giggled. "Of course I know. I'm going to destroy this island."

"This island can't be destroyed that easy!" Alex

stepped out and shouted behind him at the same time, "Old Peze, teach your naughty daughter how to behave!"

No matter whether it was Wade or Felix, their tone was strict, but through their words could be heard they still had feelings for Cesia.

Although Wade reprimanded her, he was teaching her as her big brother.

The word "naughty" meant that he didn't take serious what had happened just now.

Ten kings of Radiant Island had always regarded Chiya as their relative.

"Cesia..." Peze's murky eyes were full of love.

"Listen to your brothers. Don't play anymore."

"Father, we all know what reality is. You don't need to lie to yourself." Cesia ignored their words and said coldly.

Wilbur walked to Sylvia and sighed. "This woman was also one of the ten kings of Radiant Island. She was once the owner of the Colourful ring."

"Is she also one of the 10 Kings?" Sylvia was shocked when she heard the identity of Cesia.

"Then how could she..."

Wilbur shook his head and looked at Sylvia without saying anything.

Cesia's eyes fell on Henry, and her cold tone became gentle again. "Brother Henry, did you miss me?"

"Cesia, that's enough!" Moon Goddess strode out. "Come with me!"

As Moon Goddess spoke, she walked towards Cesia. When she was in front of her, she grabbed hold of her hand.

When Cesia was very young, Moon Goddess treated her like her own child. In Moon Goddess's palace, there were many photos of two of them together.

"Get lost!" Cesia shook off Moon Goddess's hand and stared at her coldly.

At the moment when Cesia looked at Moon Goddess, Moon Goddess felt as if she had fallen into an ice cave. This person was like her own child. This was the child who had once surrounded her and pestered her to buy candy. At this moment, she told her to get lost!

"Cesia, you've gone too far!" Peze yelled angrily.

"Too far?" Cesia smiled. "No matter how far I've gone, it's nothing compared to Brother Henry. Brother Henry, I missed you so much after we've been apart for such a long time. This time, I specially prepared a gift for you. I don't know whether you will like it or not."

Cesia was laughing. Her smile was obviously beautiful, but it gave people chills.

Standing in front of the castle, Cesia covered her mouth with her hand and said, "Ha ha ha, Brother Henry, you must be careful. They... are coming."

At the moment when Cesia's laughter fell, Henry felt that there was a danger coming straight to him, but there was nothing in front of him.

Future's tablet behind her made a noise.

"Boss, watch out, under the ground!" A loud shout came from Future.

At the same time, a steel knife suddenly stretched out from the ground in front of Henry and stabbed straight toward Henry.

It was beyond Henry's expectation that someone would appear under the ground.

Although there was a similar skill in ninjutsu, it was usually practised in a places where the ground was soft and loose. However, the ground of Radiant Island was filled with granite.

Henry didn't have time to think so much. He suddenly stepped back, avoiding the steel knife coming out of the ground. After a second, another steel knife broke through the earth and came towards Henry.

Henry took a few steps back.

When the two steel knives appeared, two figures jumped out of the ground at an extremely fast speed.

Henry's eyes were fixed on the two figures. The two women were thin and small, wearing white masks and Japanese kimono. Their hair was tied up behind their heads, and the knife in their hands was shining with cold light.

Without looking at anything else, Henry was sure that these two people must be masters just because of the speed at which they had just struck out their knives.

"Brother Henry, these two slaves were carefully

selected by me. I give them to you. Enjoy." Cesia said with a smile.

The two women in kimono were three meters away from Henry. They didn't move, but they kept swinging the knives in their hands, one lifting and the other stabbing.

In the eyes of outsiders, these two people seemed to stand there wanting to make a move. However, Henry's face changed and he jumped backwards. Before the outsiders knew what had happened, there were two cracks in the place where Henry had just stood.

## Chapter 513

This scene made many people open their eyes widely. What the h\*ll was going on? How could the ground split just by one chop?

Not only Sylvia, who had just come into contact with ancient kungfu, but also those masters of kungfu families didn't know what had happened.

Only Wilbur stared at the two cracks on the ground and murmured, "Qi..."

Henry frowned and looked at the two kimono women in front of him.

The two women waved the knives in their hands again. This time, Henry did not dodge. He shouted, "Give me the weapon!"

Wade and Alex, who were standing aside, threw out their weapons at the same time. Henry caught the machete and threw it toward the two women. The machete threw by Alex was so agile that the enemy could not figure it out. However, Henry's machete was like a bomb. It was not as flexible as Alex's but more overbearing and direct. It went

straight to the two women with an indomitable momentum.

At the same time when Henry threw out his machete, he happened to catch the black machete thrown at him by Wade. Henry held it horizontally and heard the sound of two metals colliding, and the black machete emitted two sparks.

Henry took a few steps back and took a closer look. There were two scratches on the broadsword.

Seeing this scene, Henry felt confident. The lethality of the Qi also varied from person to person. If he was in the state he was last night, it was very likely that he could break the knife with a few moves.

But now, no matter how many times the two women waved their knives, they couldn't cause any substantial harm to the machete.

The machete Henry threw out went straight to the two women in kimono. Facing the machete thrown by Henry, the two women did not dare to resist directly, so they could only retreat quickly and avoid this attack.

When the machete touched the ground, it made a rumbling sound and raised a cloud of smoke and dust.

When the smoke and dust dispersed, everyone saw that there was a deep hole with a radius of three meters in the place where the machete fell. This hole was at least 50 centimetres deep and full of broken granite inside.

Seeing this scene, many people kept swallowing their saliva. He was so powerful. The strength of The Conqueror was indeed unimaginable.

The two women in kimono were able to crack the ground when they wielded their swords. Although it was a little strange, the power was still far from that of The Conqueror. Henry laughed loudly. He was sure that the two women in kimono were absolutely using Qi, but the power was completely different from what he had imagined.

For a long time, Qi had always been a mysterious and powerful image in Henry's mind.

When he was in the grave of the Zhu family, just a sword-thrusting picture made Henry feel an irresistible sharpness, including the Qi that Henry

was exerting with the help of external forces twice, which was extremely powerful.

But now, when the two women in kimono vented their Qi, they broke the original image of Qi in Henry's heart.

The so-called Qi was neither a kind of special thing nor specific energy. As long as the power was released in the form of external release, it was the Qi which also could be strong or weak!

Although Henry didn't know that the Qi of these two women was weaker than the others, he was sure that the Qi of these two women was far less powerful than his own!

After thinking through this point, Henry felt a sudden sense of enlightenment in his heart. The mysterious Qi was gradually revealed by him, and he was no longer confused by this so-called Qi.

"Cesia, I like your gift very much! Hahaha!" Henry laughed and grabbed the machete. Then he jumped up and slashed at a kimono woman in the air.

The woman in kimono saw Henry coming with the machete, and hurriedly raised the knife to resist.

When the knife in the hand of the woman in kimono touched the edge of the machete in Henry's hand, it got broken, just like the crisp chocolate on the ice-cream when eaten by a child.

The woman in kimono also flew backwards with her knife and fell heavily on the ground.

The corners of Henry's mouth curled into a smile. He had been too sensitive recently, and he had a high opinion of Qi. But in fact, Qi was just a special way to release strength. Although it was more mysterious and impossible to figure out, it didn't mean that people with Qi must be stronger than those without Qi. As long as they were strong enough, they shouldn't care about whether they had Qi or not. It could be broken with one punch!

After understanding this point, Henry no longer felt any pressure in his heart. He looked up at the sky and roared. He waved his knife again and rushed to another woman in kimono.

Standing in front of the castle's door, when Cesia saw the scene in front of her, the corners of her mouth curled into a faint smile.

Except for the weird way of striking, the two

women were no match for Henry at all. Henry wielded his machete and beheaded them in three moves without any mercy.

Two heads with masks rolled down to the ground.

"Clap, clap, clap."

Cesia clapped her hands gently and said, "You deserve to be called Brother Zhang. These two slaves are not enough for Brother Zhang to play. Well, I'm not in the mood to play with you anymore."

After she said that, she stretched out a hand over her head and then suddenly put it down.

With this action, hundreds of fighter jets, which surrounded the island, began to move and began to hover above the island.

The barrels were aimed at the upper part of the island. As long as these barrels fired at the same time, even Radiant Island would be completely crushed in a very short time, and no one on the island would be spared.

"Cesia, what the h\*ll do you want to do?" Red Hair shouted.

"What do I want?" Cesia smiled faintly. "Of course, I'm going to ruin this island. Otherwise, what do you think I want to do?"

As soon as she said that, the facial expressions of the people on the island who came from all over the world changed.

"Miss Cesia, the enmity between you has nothing to do with us. Can you let us leave the island?" A leader of one country said in a hurry.

"Yes, Miss Cesia, please let us leave the island."

"We don't have the intention to participate in your battles."

After one leader spoke, other leaders also spoke. Nobody wanted to die on the island for no reason.

"Cesia, have you really thought about this? Are you going to start a war with Radiant Island?" Future stepped up and flew up in the air. "Have you thought about the consequences?"

Cesia said, Did I ever joke with you, Future? As for the consequences you said, I'm sorry. I never care about the consequences when I do things."

## Chapter 514

She never cared about the consequences!

What Cesia said made many people's hearts beat fast.

If she really insisted on destroying this island, who could survive? In the middle of the sea, under the gunfire of these hundreds of fighter jets, even the island owner would die!

A strong white man from the United States shouted at Cesia, "The owner of the colourful ring, I don't care if there is any conflict inside the island. We are here to participate in the underground world meeting. According to the rules, you can't attack us. And you have to know that if we can't go back, bad things will happen to you!"

"Huh?" Cesia raised her eyebrows.

At the moment when she raised her eyebrows, a jet in the sky suddenly fired. The laser locked on the strong man. The strong man who spoke a second ago was cut into pieces by the laser. His

flesh and blood exploded and scattered on the ground. Some people who were close to him were more or less stained with red and white things.

No one had expected that the owner of the Colorful King's Ring on Radiant Island would make a move so casually.

"Threaten me? What I hate most is being threatened by someone else!"

In the sky, the cannon barrel, which had just fired, was giving out white smoke at this moment, proving to everyone present what Cesia said. She really did what she said she would do!

"Cesia, let's talk about our own business. Now there are so many people on the island, you must let them leave first." Sea God stood up. "The underground world has its own rules. Do you know what the underground world will be like if you really leave everyone here?"

The people came from underground forces from all over the world. Those who came here were either future heirs or leaders of these forces. If all the people were killed, the whole underground world would be in a mess.

There was a smile on the corner of Cesia's mouth. "It's really interesting. What will the underworld become? Does it have anything to do with me? Um?"

Her stubborn look chilled the people on the island. Everyone could not help but look at Henry. He was their only hope.

Henry took a deep breath and looked at Cesia. "Are you sure you want everyone to stay here?"

Without hesitation, Cesia nodded. "Of course, Brother Zhang, this is the fireworks I prepared for you. You must enjoy it."

When she finished speaking, five jets circled in the sky suddenly fired. The flame from the jets could easily penetrate the steel plate. This was not a force that human beings could resist at all. Even the most powerful ancient warriors would only appear insignificant under the fire of the jets.

The fire shot to the back of the castle, where there were hundreds of people gathered. When the fire approached them, they had no way to escape. The raging fire could tear everything apart. The flames spurted for five seconds. In five seconds,

hundreds of people were pierced through by the flames. In front of this kind of war machine, any master seemed to be pale and powerless.

In just five seconds, they had taken hundreds of lives. Those standing on the island were all pale at the moment. If those flames were aimed at their place, what would happen? No one would think that they could survive the artillery attack.

Wade and the others didn't look well at the moment. They had never encountered such a thing on the island. Someone was slaughtering people in front of them!

If that was the case, where was the dignity of the island? How could the island be a place where people could kill freely?

The people on the island were really scared at this moment. The blood of the hundreds of dead people spread, and the air of the entire island was filled with the smell of blood. There were only five jets that fired at the same time. What if there were a hundred jets? Who could survive?

"Brother Zhang, do you like my firework show? It's just the beginning. The firework show will be more

and more amazing." Cesia covered her mouth gently and laughed.

Cesia's laughter sounded pleasant, but to the people on the island, it seemed to come from hell.

"The owner of the colourful ring, do you really want to do such an extreme thing?" A member of the Ji family said.

"But what?" Another person asked hurriedly. He saw a glimmer of hope in Cesia's attitude.

"But what?" Another person asked hurriedly. With her attitude, he saw a glimmer of hope.

Wade, who was standing there, had a bad feeling when he saw her like this.

Cesia looked at Henry again. "However, it depends on whether my Brother Zhang is willing to do something or not. If he is willing to, I'll let you go. If he doesn't want to, none of you can leave."

As soon as she finished her words, Henry immediately attracted a lot of attention.

"Cesia!" Future floated in the air and shouted. She knew her very well. When she said that, it meant conspiracy.

Cesia covered her mouth and smiled. "Brother Zhang, I mean, if you are willing to help me twist the head of that woman Lin, I can let everyone on this island go. What do you think?"

As soon as she said that, Wade and others were shocked. No one expected that her target was Sylvia!

The scene of the five jets shooting just now was just a kind of pressure for everyone, and at this time, they would put everything on Henry.

Should he protect his wife or all the people of the underground world on this island?

If he was to protect Sylvia, Henry would undoubtedly become the target of public criticism. Today, even if Cesia could let everyone go, everyone's opinion about Radiant Island would be changed. Its status would be destroyed.

Standing next to Sylvia, Megan's heart skipped a beat and she turned to look at the woman next to her.

Apparently, Sylvia did not expect that the ultimate target of this beautiful woman was her! To exchange her life for the life of the whole island!

Sylvia looked at Henry.

Henry was still standing there, staring at Cesia and saying nothing.

"Brother Zhang, what do you think? Are you willing to accept my proposal?" Cesia asked with a smile on her face.

The dense battle jets in the sky had a strong oppressive force.

Those people from the underground forces all looked at Henry, waiting for his answer.

Although Sylvia did not have much time to contact the underground world, she was stronger than many people in terms of emotional intelligence. She knew that once Henry agreed to that woman's condition, his prestige in the underground world would definitely increase again.
