

Chapter 527

"Bang!" A muffled sound came from the door of the hall.

With that sound, Victor stood up from the main seat, glanced around the hall and said, "Ladies and gentlemen, today I, Victor, will retire as the Master of the Su Family and appointed my niece Sylvia as the new master. Thank you all for coming here. I feel honoured. In the past, our Su Family has always abided by the principle of making friends with everyone. After today, our Su Family will be the same. My niece is young, and I hope that you can support her in the future. I am very grateful to all of you!"

After Victor finished speaking, he cupped his fists at the crowd.

The people sitting in the hall also cupped their fists at Victor.

"Boom!"

Another dull sound came from the leather drum at the door. With the muffled sound, a burst of passionate zither sound rang in everyone's ears.

At the back of the Su Family's main seat, Sylvia, who was wearing a blue fairy-looking dress, walked out slowly.

Her black hair fell down, and her delicate facial features were flawless. Her appearance seemed to freeze the air. Almost everyone's eyes were fixed on her, and they were reluctant to move away.

Before coming here, many people had heard that the heir of Su Family was a peerless beauty. At that time, some people were still wondering how beautiful this woman could be.

Today, they had to admit that these words were not exaggerated at all.

The moment Saul saw Sylvia, his eyes were full of strong desire to conquer her. He clenched his fists on his legs. Thinking of what happened the capital that day, he couldn't wait to press this woman under his body and humiliate her.

Seeing his son's appearance, Saul's father patted his shoulder and gave him a look, which meant to tell him that he could do whatever he wanted. They didn't need to care about the Su Family.

Saul took a deep breath. Today, he must make the Su Family pay the price. He must make Sylvia and her husband humiliated!

Sylvia walked over with lotus steps. The golden beast incense burner on her waist kept making a soft sound like a silver bell, perfectly consistent with the Chinese zither sound outside the door.

While Sylvia was walking, Victor took the initiative to walk away from the main seat, leaving the main seat for Sylvia.

Victor looked at Sylvia, and the more he looked at her, the more satisfied he was.

When the old master left a will before he passed away, he said that he would hand over the Su Family to an outsider. At that time, many people disagreed and did not know what the old master did. But no one expected that the old master's idea of compensation brought the Su Family to another higher level. If the old master did not order anyone to find the whereabouts of Sylvia and her mother at that time, then the Su Family would not be able to have any relationship with Radiant Island.

Sylvia came to the main seat of the Su Family, looked around the main hall of the Su Family with her beautiful eyes, and said slowly. Her voice was very clear, unlike the gentle words of most women in the south. She grew up in the northwest, and her voice was tough.

"Thank you for coming here today. From today on, I, Sylvia Lin, will take over as the Master of the Su Family. For a long time, the Su Family has always followed the principle of making friends with everyone, and I will be no exception. I hope that the relationship between you and me will be closer and closer. If I have done anything wrong, please forgive me, uncles."

Sylvia didn't have too many words to say. When she finished her words, everyone was about to congratulate her, but a discordant voice

sounded.

Saul, who sat closest to the main seat, stood up from his chair. He stared at Sylvia aggressively, and said, "Miss Lin, there's something I don't understand. You mentioned relationships getting closer and closer. What do you mean? Do you mean the relationship in bed? Hmm?"

As soon as Saul's voice fell, a few people around him burst into laughter.

These people were all with Saul, and they were representatives of several small families. They were ordered by Saul to humiliate the Su Family.

Sitting in the main hall of the Su Family, no matter if it was Victor or those who came to congratulate, they all changed their faces after hearing Saul's words. Everyone could understand that the Jiang family came here to cause trouble.

Sylvia frowned slightly. When she saw the father and son of the Jiang family, she guessed that they had no good intentions. Last time, Henry broke a few bones of Saul. How could he come to congratulate her? Now it seemed that it was true.

Victor frowned tightly. He stood next to the main seat looked at his father, and said, "Brother Jiang, what do you mean?"

Saul's father laughed and said, "Brother Victor, it's just a joke among the juniors. Don't take it seriously. We came here this time and prepared a good gift. Son, why don't you ask someone to bring us the gifts?"

After Saul's father finished speaking, he glanced at Saul with a "blaming" look.

Saul nodded quickly. "Yes, Uncle Su. I'm just kidding with Sylvia. I'll give this gift to her. I hope she likes it."

After Saul finished speaking, he waved his hand to the outside of Su Family hall.

Then, a person ran in with a one-meter-high box in his arms. The

package was covered with black silk cloth so that no one could see what was inside.

When Victor saw this, his knitted brows slightly relaxed.

"How dare you!" Saul scolded the man. "You're here to send gifts, but you still covered it, take that thing off, let's see what's in inside."

After saying that, Saul strode forward, stretched out his hand, and removed the silk cloth above the box.

At the moment when the cloth was removed, all the people in the hall narrowed their eyes and looked at the things in the box.

There was a copper clock in the box!

The so-called gift from the Jiang family was a copper clock!

In China, if people send the clock or the watch as the gift, it means they wish that person to pass away sooner or later.

Victor's face changed and shouted, "Jiang, you've gone too far!"

Yetta sat here with some doubts. She had seen Sylvia before and had some impression of this woman. She was a person who would not take the initiative to cause trouble. How could she be targeted by the Jiang family?

"Too far?" Saul's father retorted with a question, and then snorted, "So what if we go too far? Your girl's husband broke my son's bones. Our Jiang family is going to settle accounts with your Su Family today!"

Saul's father stood up and looked at Victor with disdain.

A strange look suddenly appeared on Victor's face. "Sylvia's husband? Isn't that Henry? He has beaten Saul. Why did the Jiang family come to settle accounts with him? Why did they come to settle accounts with The Conqueror?"

Many people present heard that Sylvia was married, and their eyes were suddenly filled with disappointment. Just when Sylvia appeared, they were still thinking about whether they could get married.
