

## Chapter 528

All the people present also knew that the Jiang family came here this time to make a scene.

According to the power of the ancient kungfu families, the Jiang family far surpassed the Su Family.

The status of the Jiang family was higher than the Su Family, and the old man of the Su Family had passed away early, so the Su Family had been in a situation where there was no connection between them. Now that the Su Family had just gotten the new master and had yet to stabilize, the Jiang family could quickly destroy the Su Family!

Many people looked at Victor worriedly.

On the other hand, Victor did not show much worry on his face, because he was very clear that, let alone the Jiang family, even the top three ancient kungfu families in China could not pose any threat to the Su Family from now on!

Victor sized up the father and son of the Jiang family and asked, "Do you really want to make a hard time for the Su Family?"

"No!" Saul shook his head and looked at the masters of several small families beside him.

The heads of the well-known small families stood up immediately. They were the people who laughed after Saul finished speaking.

The Masters of these small aristocratic families looked at Victor and said, "Not only the Jiang family, but we also want to start a war with the Su Family!"

"Ha." Victor chuckled. When she was about to speak, Sylvia waved her hand to stop him.

Victor kept silence immediately when he saw Sylvia's gesture.

Many people saw such a small detail. Some dexterous people could see the difference on the spot. A woman who was not Su took over as the Master of the Su Family. As a junior, she could make the elders shut up willingly with just a gesture. This woman was definitely not as simple as she looked!

Sylvia glanced at Saul and the few people standing next to Saul with her beautiful eyes. She said softly, "Are you sure you want to make trouble for our Su Family?"

"Haha, I don't want to trouble you." Saul slowly shook his head. "Because your Su Family is not qualified to make my Jiang family cause trouble. Miss Lin, if you are smart, just let your husband come out and kneel down. Maybe I can let you go!"

As soon as Saul's voice fell...

Outside the hall of the Sus, there was a loud shout.

"Who are you! Who let you break in?"

"People are here!"

"Don't let them in!"

The shout outside the door fell down quickly. When it was done, nearly a hundred unfamiliar faces were swarming in front of the main gate of the Su Family. They were all from the Jiang family.

The Jiang family was well prepared this time!

There was a smile on the corner of Saul's mouth. He looked at Sylvia on the stage and said, "Have you thought about it? I'm not joking!"

At this time, Saul was full of confidence.

Sylvia looked at the hundreds of figures outside the door. If it were before, she would still have a headache about this matter, but now, it was not the case.

Sylvia slightly turned around and shouted at someone behind her, "Honey, come out quickly. Someone wanted you to kneel down and admit your mistakes."

"Honey, do you think I'd better disable him or kill him directly?" Henry put his hands in his pockets and slowly walked out of the guest room behind the main seat. His action was very light.

Yetta, who was sitting in the main hall of the Su Family, narrowed her eyes the moment when she saw Henry. She finally understood why Henry would appear in the Su Family. Usually, Henry wouldn't participate in the inauguration ceremony of the Su Family. Now Yetta understood that Sylvia was Henry's wife. She was the one who made Henry rather take the risk of being the enemy of the world than give up on her!

Saul looked at Henry with hatred in his eyes. He clenched his fists, but he didn't move, because he knew that his strength was no match for this person. However, no matter how strong he was, it was useless. Could he beat hundreds of people today?

"You want to disable me?" Saul stared at Henry. "I'd like to see who will be disabled today! Kill him!"

Jiang's left hand waved, and now the relationship between the Jiang family and the Su family had been torn apart. There was nothing more to say. He couldn't wait to see the scene of the man kneeling in front of him, begging for mercy.

His father did not move. He was staring at Victor. In his opinion, the biggest variable in this situation was Victor. After all, as the former Master of Su Family, Victor's strength could not be underestimated.

However, to his surprise, Victor did not intend to make a move at all. Moreover, judging from his expression, it seemed that he did not intend to meddle in this matter at all. This unusual scene made his father feel a little uneasy.

A hundred people brought by Saul were about to rush into the hall when they heard a voice outside the hall.

"Yue Family from Hangshi is here to present congratulatory gifts!" A figure with a powerful aura pushed away from the men at the door and walked in from the front door. It was Ryan Yue.

Seeing Ryan's appearance, Saul father's face darkened. He had never expected that the Master of the Yue Family, who ranked fifth in China would come to congratulate Victor in person.

Saul's father quickly winked at the door and stopped the Jiang family from entering. Even if Ryan was here, he had no right to meddle in this matter. However, his men would accidentally offend Ryan while entering, which would give Ryan a chance to deal with this matter!

Ryan strode into the hall and cupped his fists at Sylvia, who was standing in front of the main seat. "Congratulations, Miss Lin. Yue's family gifts a piece of land in Hangshi to the Su Family. We're willing to form an alliance with the Su Family."

Ryan's words caused an uproar in the hall.

Not only did the Yue family come to congratulate, but they also

gave a piece of land and offered to form an alliance with the Su Family? What was going on? The Yue family's status in the ancient kungfu family was much higher than Su Family!

Ryan had just finished his words when another voice came from the outside before the crowd could exclaim.

"The Zhu family from Du Hai is here to congratulate Miss Lin on taking over the position of Master of Su Family. They wish to bestow a building in the Du Hai and are willing to form an alliance with Su Family!"

This was an old voice. Wilbur, who was wearing a Tang suit, strode in from the door.

Wilbur's appearance made all the people present to open their mouths wide.

The Yue Family from Hangshi, and the Zhu Family from Du Hai! Except for the three well-known families in the capital city, the Zhu Family had the highest status in the ancient kungfu family. What's more, the current master of the Zhu Family, Old Master Zhu, he had a high reputation among the entire circle of ancient kungfu families. Even only the older generation from the three well-known families in the capital city could be on par with Old Master Zhu. The younger generation had to call him Old Master Zhu respectfully!

"The Jiang family from Capital City is here to congratulate!"

"The Bai family from Capital City is here to congratulate!"

"The Ji family from Capital City is here to congratulate!"

Another three voices sounded outside the Su Family's door.
