

Chapter 529

The people in the hall were utterly shocked.

The father and son of the Jiang family stood there, not knowing what to do.

The three well-known families from the capital city took the initiative to show their goodwill to the Su Family? What was going on?

Now, anyone with a little insight could see that something extraordinary had happened in the Su Family.

In front of the hall, three people walked in at the same time.

Soul Ji of the Ji family, known as the top master in the ancient kungfu world of China, was also the most prestigious person in the Ji family. He came in person.

Great Master Jiang of the Jiang family! Every generation of the Master of the Jiang family was named Great Master. It was said that in ancient times, the position of China was conferred by the Jiang family.

Bai family's Gavin, the current Master of the Bai family, was very prestigious in all fields across China.

Those who came to congratulate the Sus were all the most important figures of the three families!

The guests looked at the three of them and didn't know what to say.

Victor stood by the side, his face full of excitement. He had never thought that there would be so many big shots coming to the inauguration ceremony of the Master of his family. All of this was because of the existence of The Conqueror! Radiant Island deserved to be the holy place of the underground world! And since the last battle, The Conqueror had become more famous. He had been compared to God.

After the three families arrived, they didn't show any arrogance. Instead, they cupped their fists at Sylvia in front of the hall.

Sylvia also saluted back and forth.

"Xiao Manor congratulates Miss Lin for taking over as the new Master of Su Family. From now on, the Xiao Manor is willing to follow the lead of the Su Family and become a subordinate of the Su Family!"

Another voice sounded outside the door!

The Xiao Manor, now a well-known family of ancient kungfu in China,

produced eighty percent of the weapons used. The Xiao Manor was the largest military weapon producer in the ancient kungfu world of China, and its status was extremely high.

Even the Xiao Manor is willing to be a subsidiary of the Su Family? What's going on? Even the three well-known families from the capital don't have such treatment!"

The Young Master Steve Xiao strode in from the door. He looked at Sylvia and Henry with a friendly face.

Last time on Radiant Island, Steve was so scared that his legs went limp. He was afraid that he would be left there forever. This time, he came here to admit his mistake. Back then, he had a crush on Sylvia, which was similar to looking for death!

Steve gave a fist-and-palm salute to Sylvia. "Xiao Manor is willing to grant hundreds top weapons and accept the Su Family as its master!"

"Thank you so much, Master Xiao," Sylvia replied softly.

Hearing Sylvia's words, Steve was delighted. It seemed that the King's wife did not intend to settle accounts with him. If he could really become a subsidiary of the Su Family this time, he would be a subsidiary of Radiant Island. How many forces in the world could become a subsidiary of Radiant Island?

One force was Felix's group, the strongest financial group in the world. Sea God's fleet had dominated the sea. Red Hair was from the European top royal family. Wade was the leader of guardians of the temple who had existed for thousands of years. Future was the leader of the world's leading intelligence organization. Moon Goddess was praised like a goddess among a large group of people, and her power was unlimited. Anyone of them could shake the whole world. Now, his Xiao Manor also had such an honour and could be counted as one of them.

Becoming an affiliate of Radiant Island was a kind of glory for Steve.

"Congratulations, Miss Lin, the new Master of the Su Family. the Xiong family is willing to follow Miss Lin for generations!" Another voice rang out.

More than a dozen figures walked into the hall of the Su Family. They were from the Xiong family, who had a conflict with Sylvia on the island.

After the arrival of the Xiong family, they didn't salute her with cupped fists but directly knelt on one knee to salute respectfully.

Sylvia nodded and said, "Get up."

"Thank you, Miss Lin." The leader of the Xiong family hurriedly expressed his thanks and then winked at the people behind him.

Those who had conflicts with Sylvia before quickly cast an apologetic look at Sylvia. They wanted to apologize before, but something happened on the island, so they had no chance. This time, when Sylvia took over as the new Master of the Su Family, they immediately came.

What happened in front of them was entirely beyond the knowledge of the father and son of the Jiang family. The Su Family, who was looked down on by them, actually made so many big shots come together and made the Xiao Manor and the Xiong Family willing to follow them. What on earth was going on?

Before the father and son of the Jiang family could think, the voice came from outside again.

"I'm from the European Knight Association. Congratulations to Miss Lin for taking over as the Master of the Su Family!"

A tall man with blond hair in silver armour came in. The European Knight Association was the first organization in Europe.

"Secret Killers Association from Japan. Congratulations, Miss Lin!"

A petite short-haired woman appeared in the hall of the Su Family. Many people did not notice her appearance. Secret Killers Association was the best killer organization in Japan and ranked in the top ten in the world.³⁷.

"Godwill Association from the US congratulates Miss Lin."

"Saint Association from Great Britain congratulates Miss Lin."

"Holy Association from Italy congratulates Miss Lin."

"Sunlight Association from France congratulates Miss Lin. "

Voices rang out from outside the hall one after another. People walked into the hall one after another. Every one of them was well-known in the underworld. The organization they represented was the most vital in their country!

The head of the Jiang family's father and son was entirely out of their minds. So many powerful forces came to congratulate the Su Family. Why? Why did the Su Family have such prestige?

Before the father and son of the Jiang family could react, another shout was heard.

"Radiant Island will grant hundreds of billions of assets, 13 islands, 180 warships, 400 fighter jets, 3,000 mercenaries, and a military factory. Here to congratulate you!"

If the big shots in front of them were surprising and somewhat unacceptable, then the sound of this voice was unbelievable.

Radiant Island!

Everyone in the underground world knew about Radiant Island. It was the Holy Land of the entire underground world. Even the kings of some countries would invite Radiant Island when they changed their rules. However, no one had ever seen Radiant Island respect anyone.

But this time, people from Radiant Island not only came but also presented a big gift!

It was shocking to just listen to the gifts from Radiant Island.

A group of ten people walked in the main hall of the Su Family. At the moment when they appeared, everyone's eyes were on them. Each of them held a ghost-faced mask to prove their identities.

People in the main hall of the Su Family looked at the ten people with respect in their eyes.

The ten people came to the hall and stood in front of the main seat. Then, they all knelt on one knee and put their left hands on their right shoulders. They shouted in unison, "Congratulations to the King's wife on taking over as the next Master of the Su Family!"

The King's wife!

These words were like a thunderclap and rang in the ears of the father and son of the Jiang family!

People from Radiant Island said that Sylvia was King's wife?
