

Chapter 560

As the saying goes: "The master is always fearless". If Henry dared to come here alone, he was confident enough. This was also the confidence of the Conqueror!

Because of the patriarch, only the man in red showed Henry some disrespect. The rest of the people did not say anything. They had an excellent harmonious meal.

Halfway through the banquet, Henry suddenly stood up and said to Uriah, "Brother Tang, where is the bathroom?"

"I'll take you there." Uriah got up and walked out of the dining hall with Henry.

As soon as Henry left, the man in red couldn't help saying, "Great Patriarch, do you really want to share the stone with this guy? We can..."

He made a gesture of raising his hand and cutting down.

A middle-aged woman also said, "Great Patriarch, every clan has different ways of using Spiritual Stones. If we share the way to use Spiritual Stones with this kid, it will expose the core of our Tang family. This matter needs to be considered."

"That's right, Great Patriarch. Now that he dared to come here alone, we can keep the stone for ourselves!" Another man said.

The patriarch looked at the three people who were talking but did not answer. In the end, he fixed his eyes on Master Ferdinand. "What about you? What do you think?"

Ferdinand was 40 years old. Apart from Teresa, he was the youngest person on this table.

Ferdinand opened his mouth and said, "Great Patriarch, although the Tang clan has not been a decent sect since ancient times, we are not the people who would betray others."

Although Ferdinand didn't say it clearly, he also clearly showed his attitude.

The patriarch nodded. "Yes, I have made up my mind about this matter, so you don't have to talk about it. Besides.."

At this point, the patriarch looked around and said, "Do you think that Henry dares to come here alone? Teresa, tell me your

opinion."

Teresa stood up, bowed to the people first, and then said, "According to the knowledge of Senior Brother and I, this person's strength is absolutely the top among the younger generation. When he first got the stone, Senior Brother and I fought with him. Even if we did it together, we couldn't defeat him. The next time we saw him, he should have already reached the Qi-controlling Realm."

"Qi-controlling Realm? Impossible!" The man in red was the first to speak in disbelief. "I didn't feel any Qi on him. It's impossible for him to have Qi!"

"That's right." The middle-aged woman who had just spoken looked at Teresa in confusion. "How do you know that he has achieved the Qi-controlling Realm?"

"He showed it." Teresa described the scene of Henry pushing the cup through thin air.

After hearing this, the man in red sneered. "Humph, pretending to be mysterious. I can see through his act. He doesn't have the Qi at all!"

When he said this, the patriarch also showed a puzzled look in his eyes. He heard from Uriah's report that Henry had mastered the Qi, but just now, he did not feel the flow of Henry's Qi. This also made him suspect whether Henry really mastered the Qi.

Henry himself was not clear about this. When a person reached the Qi-controlling Realm, each of his actions would have a certain effect on the air around him. This effect was very weak. Even if ordinary people observed carefully, they would not notice it. However, in the clan, too many people knew about the Qi. Even if they had not reached the Qi-Controlling Realm, they could still see whether a person affected the air around them. The man in red did not see any sign of disturbance from Henry.

"Well, no matter whether Henry has reached the Qi-controlling Realm or not, this time, don't make any trouble, understand?" The patriarch gave the man in red a special look.

The man did not speak. He lowered his head, and no one knew what he was thinking about.

The patriarch asked Ferdinand, "What do you think of this young

man?"

"He has guts." Ferdinand said without thinking, "I wouldn't walk into the clan alone and carry Spirit Stone with me."

"What do you think?" The patriarch looked at the Second patriarch again.

The Second patriarch laughed in a hoarse voice. "I don't know what kind of person he is, but I know that his understanding of herbs is no worse than mine. I especially used an exquisite order method for these dishes. The order of eating Chinese herbs can decide the effect on a person's body. His order of eating is extremely accurate. This is not a coincidence."

The patriarch nodded. "Yes, his meticulousness is completely beyond my expectation. From the moment he entered the valley, I saw that every step he takes is completely in line. What's more, he was stepping on previous footprints. It seems easy for him, but in fact, every moment he is keeping a high degree of vigilance. His experience is absolutely incomparable with that of any disciple of mine. This person is not simple."

As soon as the patriarch finished his words, Henry came in accompanied by Uriah. Everyone on the table looked at each other and stopped talking.

Before Henry took his seat, he looked at everyone's expression. Henry went to the toilet just now in order to leave an opportunity for Tang's people to talk.

Henry saw everyone's expression and knew that they had finished talking. He said, "Great Patriarch, I think now we can talk about cooperation?"

"Of course." The patriarch quickly showed a serious look, got up and stood up. "Young man, please."

After the patriarch finished speaking, he left the dining table first.

Henry nodded and strode up to the patriarch. Everyone knew that the ultimate goal of this meal was to get both parties agreed on the future of Spiritual Stone.

Except for the patriarch, there was no one else who accompanied Henry this time.

Under the guidance of the patriarch, Henry came to a study

room. In the room, sandalwood was burning. People would feel comfortable here after smelling the sandalwood.

"In the hundreds of years of Tang Sect's history, these are the only things left." The patriarch pointed to some ancient books on the bookshelf in the study and smiled.

Henry glanced at them and found that there were only a few dozens of ancient books. Some of the covers had been torn, and there were not many contents left.

After the patriarch came to the study, he gently patted three times.

As his movement, the bookshelf in front of Henry suddenly separated into two sides. Behind the bookshelf, there was a hidden passage to the underground.

The patriarch did not speak. He walked into the underground tunnel first, followed by Henry.

When Henry walked into the tunnel, he found that the space inside was very broad. The artificial stone stairs spread down. With every few steps, a light would turn on in front of him.

The stone stairs were wide enough for four people to move forward side by side. The stone walls on both sides were engraved with murals.
