

Chapter 563

If anyone saw Henry's current state, they would definitely laugh out loud.

Henry put his hands on his head carefully, as if he was holding a transparent vase. When he walked, his pace was very slow. He lifted his foot slowly and stepped carefully. It was no exaggeration to say that it took him three or four seconds to take a step, just like acting in a TV drama.

It was not Henry's fault. He had to be cautious. He could clearly feel that the lotus flower above his head was too fragile. If there were a little bit of wind, the flower would wither.

Henry sat by the bed and didn't even dare to lie down. He was afraid that the lotus would fall if he lay down.

Master Lu said that the flower should not fall. He must have had a good reason for saying that. But now, no matter how doubtful Henry was, he couldn't ask. Master Lu was buried by him personally.

Henry sat on the edge of the bed. When he stood still, the lotus flower above his head stayed there firmly.

The appearance of the lotus made Henry's plan to study for the whole night completely shattered, and he had to sit there. Henry did not know that the Tang family's method was nothing compared to the lotus above his head. Even if he finished practising their method, it was not as important as a petal on the lotus.

In the citadel, birds were chirping, and people, who were dancing under the moonlight, also returned to their rooms.

When the first ray of sunlight rose, all the people in the Tang family Citadel came out of their houses. They fed the livestock, did farming, and the younger generation was practising kungfu. Each person had their own things to do.

"Today, regarding the competition, anyone who meets the requirements, come gather on the kungfu practice platform!"

A loud shout resounded through the valley.

Haley walked out of a wooden house with a proud face. He looked in the direction of the Tang family Citadel with his eyes full of aggressiveness.

Uriah also came out of the place where he lived. He clenched his fists

and said, "This time, I must get good results!"

Teresa also had enough rest to prepare for today's competition.

Among the younger generation of the Tang family, both men and women nursed their strength. In the clan, the competition was significant. The ranking determined everyone's status in the clan for the future, including the training resources. One must know that the ultimate growth of a person was closely related to the resources in the early stage.

The clan competition was well-known!

Henry knew nothing about this. Now he was leaning against the bed with his eyes closed, and one hand was still on top of his head.

"Ah!"

There was a loud shout, which lingered in the canyon.

The shout spread all over the valley. Henry, who was sleeping, suddenly trembled and opened his eyes.

The moment he opened his eyes, Henry subconsciously touched his head. When he felt the lotus, he breathed a sigh of relief. Fortunately, the lotus was still there!

Henry didn't even know how he fell asleep last night. Anyway, he just leaned against the bed and didn't dare to move.

Henry slowly got up and shook his head gently. He found that the lotus seemed to be much more solid than last night. Last night, with even slightest move, the lotus would tend to fall down. Now he was walking normally and shaking, but it would not affect the lotus.

This discovery made Henry relax. God knew what was going on with the lotus flower. If it kept growing on his head and made Henry be extremely careful every day, Henry would be really tired. Now it was not bad. If the lotus became stronger and more stable over time, it would not affect his daily life in the future.

Henry went to the door and pushed it open. At the moment when the door was opened, fresh air blew on his face. Henry took a deep breath. The air in the mountain was not polluted at all. After taking a breath, he felt that his mind was much clearer.

Another loud shout spread along the valley. Henry looked in the direction of the voice, just to see the huge kungfu platform in front of the gate of Tang family Citadel. At this moment, there were many people around the platform. On the platform, two young men were fighting, and the voices came from the platform.

Henry looked over there curiously and walked over. He held his head with one hand. Although walking normally could not affect the lotus flower above his head, Henry was doing that out of precautions.

Henry went over and found that the patriarch and the second patriarch of the Tang family were all here. They were sitting on the main seat. The leader of the Tang clan, Ferdinand, and those middle-aged men and women from yesterday were also sitting here.

"Brother Zhang, you are here." Uriah came from the side.

"What are you..." Henry looked at Uriah. Uriah's face was bruised, and he looked very embarrassed.

Uriah gave a wry smile. "I lost the competition. I thought I could at least enter the top ten, but I didn't expect that I overestimated myself."

Henry looked at the stage. At this moment, the battle on the platform was coming to an end.

Haley threw a punch at his opponent's abdomen and directly threw him out of the ring.

"He's so powerful!"

"Too strong!"

"Haley deserves to be called the first master of the younger generation. I'm afraid only the older generation can deal with him!"

The young people who were watching the battle under the stage all looked at the podium and spoke.

Haley put his hands behind his back and looked down at the audience proudly.

The man in red sat on the main seat and looked at his son on the stage. His expression did not change at all. He knew that no one would be a match for his son in this big competition.

Henry also nodded secretly. He had just seen Haley's movements and strength, which were not much worse than that of Sea God and others. If he were in the outside world, he would definitely be able to take charge of one area by himself.

Ferdinand, the head of the Tang clan, stood up and shouted, "Is there anyone else who wants to participate in this challenge?"

After asking, Ferdinand glanced around. When he saw that no one said anything, he continued, "If there is no one, the first place goes to Haley. The second place is..."

Before Ferdinand could finish his words, he was interrupted by a voice.

Haley, who was standing on the ring, said loudly, "Leader, if it were in the past, I would be happy to get the first place, but today, I don't dare to take it."

"Oh? Why?" Ferdinand was confused.

Haley turned around and fixed his eyes directly on Henry under the platform. "Today, there is another person who I haven't challenged. Yesterday, my father told me that there will always be someone better than me in this world. I really want to know, where do I stand compared with the people outside the clan. So, I want to challenge this person, Brother Zhang!"

As soon as Haley's words came out, the younger generation under the stage all exclaimed in unison.

"This..." Ferdinand looked at Henry with embarrassment, then shook his head and said, "Haley, Henry is a guest of honour here."

"So, he doesn't dare to do fight, does he?" Haley looked at Henry provocatively.

Chapter 564

Haley's provocation made all the people of the Tang family turn their eyes to Henry.

In other places, Henry would naturally ignore Haley's provocation. But now it was different. He was alone in Tang Clan. If he were indifferent to the provocation of a young descendant, there would be more trouble for him.

However, it was not the right time to take on Haley's challenge. The lotus flower on Henry's head could not withstand the normal fighting. Haley was not weak. He was close to the strength of the 10 Kings of Radiant Island. If Henry wanted to defeat him, although it was also a matter of one move, this move was not simple. He had to use at least 50% of his strength.

Henry was not sure whether he could keep the lotus on his head when he exerted 50% of his strength.

He was in a dilemma now.

"Henry Zhang, I'm asking you, do you accept this challenge or not?" Haley on the stage saw Henry did not say anything and asked again.

Last night, when Haley learned from his father that the Tang clan didn't intend to do anything to this outsider, he was dissatisfied.

As the strongest person among the younger generation of Tang's family, Haley was undoubtedly proud in his heart. Now Henry, an outsider, suddenly appeared, but the whole family did not dare to move. This made him very dissatisfied. Last night, he thought that he must teach Henry a good lesson today and make Tang's people understand that this outsider was not worth mentioning in front of him.

Naturally, the younger generation of the Tang family was on Haley's side. Seeing that Henry did not dare to accept the challenge, they all spoke one after another.

"Accept it. Do you dare to accept it?"

"You jumped from that high platform yesterday, Why are you so timid now?"

As the first of the younger generation in the Tang family, Haley was very prestigious among the younger generation. Some people had already stood in Haley's faction and followed him.

"All right, don't be rude!" The patriarch of Tang's shouted.

After hearing the patriarch's words, the loud noise suddenly disappeared, but the disdain in their eyes and the unpleasant atmosphere didn't.

"I accept."

Henry said and sighed in his heart. It seemed that he couldn't refuse this time. If he didn't accept it now, there would be some trouble waiting for him. He absolutely couldn't slow himself down and wait for the lotus to disappear. Now he hoped that the lotus could stay still until he threw a punch.

There was a hint of joy on Haley's face when he heard Henry's answer.

Seeing Henry's words, the patriarch did not say anything. He also wanted to see how powerful Henry was.

The platform was two meters high, and there weren't any stairs. Here, anyone who was qualified to go to the platform could easily jump onto it. Even some children who had just started practising kungfu just needed to do it with a little effort.

Henry walked to the kungfu platform and was just about to jump up when he felt the lotus above his head shake. He stretched out his hand to support the lotus and didn't continue. Looking at the two-meter-high stage, Henry stretched out his arms, placed them on the edge of the stage, and then slowly climbed up.

Henry's clumsy action made many young people of Tang's family despise him, and Haley's eyes were even more disdainful.

The patriarch and others were puzzled. According to the observation of the patriarch yesterday, it was absolutely a piece of cake for Henry to jump to the kungfu platform.

Henry climbed onto the platform with his hands and feet, covered with dust. He slowly got up and patted the dust on his body. He felt that the lotus flower on his head was not significantly affected, so he breathed a sigh of relief.

Haley looked at Henry, who was not far away from him, with a contemptuous smile on his face.

Ferdinand, the leader of the Tang clan, stood up and said, "In this competition, hidden weapons are not allowed. When either party admits defeat or falls out of the platform, or loses the ability to fight, it is the end. The winner must not attack the loser again. Is there any problem?"

"No." Haley replied.

"No problem." Henry also shook his head and answered.

"Okay." Ferdinand nodded. "Since there is no problem, let's start the competition!"

As soon as Ferdinand finished his sentence, Haley, who was still standing there, rushed to the place where Henry was standing at an extremely fast speed.

"So fast!"

"It's too fast. No wonder Haley is unbeatable! It's so hard for me even to see anything!"

Haley's action caused a burst of exclamation under the stage.

Henry looked at Haley who was rushing toward him. The speed that was so fast that others could not see clearly was as slow as a turtle for him. Moreover, Henry saw no less than ten flaws in Haley's attack. Because of these flaws, even Henry from before, who was not in control of Qi, could defeat Haley in one move.

Although the Tang clan was a clan with a long history, in the end, the Tang clan's descendants had only learned some fighting skills.

However, Henry was different. From the time he came across the ancient kungfu, what he practised was the killing skill!

Even if the two of them had the same strength, Henry from the past could entirely crush Haley, not to mention the present Henry. If there were no lotus restrictions, the battle would have already ended. However, the lotus above Henry's head made him unable to make a move easily. He could only wait for Haley to approach and then make his move.

Haley rushed to the front of Henry at an extremely fast speed and then gave a high kick to Henry's head.

Henry waited and suddenly threw a punch. As long as this punch was launched, Haley would be defeated easily. Unfortunately, Henry couldn't make a move.

Haley's high kick brought a strong wind-breaking sound as well as a stream of air, which seriously affected the lotus above Henry's head. As soon as he waved his fist, Henry felt that the lotus flower above his head tilted to the side. If he punched out, the lotus would fall down, which made Henry quickly withdraw his hand and hold his head.

Haley's kick did not land on Henry's head but stopped five centimetres away from it. Haley's face was full of banter.

Such a scene, in other people's eyes, meant that Henry wanted to fight

back, but he found that his speed was not as fast as Haley's, so he quickly reached out his hand to protect his head.

Haley slowly put down his raised foot and snorted at Henry disdainfully. "Too weak!"

Under the stage, Uriah and Teresa looked at the stage in confusion. Based on their understanding of Henry, although Henry might not be a match for Haley, he should not be so weak.

Chapter 565

Henry held the lotus above his head firmly and sighed. This lotus was not as strong as he thought. Not to mention his own moves, just other people's movements could make the lotus tremble.

Haley sneered and shouted, "You're just so-so!"

As soon as he finished his words, Haley kicked toward Henry's head again. Haley was very fast, and his kick was extremely fierce. His leg, in the eyes of some weaker people, was like a shadow.

Haley's every kick could kick the side of Henry's face, but it never did. Whenever there was only a few centimetres distance between his leg and Henry's, he would withdraw and kick again.

Haley's attack caused gusts of strong wind. Each of them affected the lotus on Henry's head, so Henry could not make a move at all.

What Haley wanted to do was to humiliate Henry hard so that the patriarchs of the Tang clan would know that the person they feared was just a good-for-nothing.

"Oh my god, he's too fast. Senior Brother Haley's leg skill is so strong that Henry couldn't react at all."

"Henry can only protect himself with his head in his arms. He is simply too weak."

"How dare he accept the challenge from Senior Brother Haley? Where does his confidence come from?"

A burst of sarcasm rang out.

In the main seat of the audience, the middle-aged woman who spoke at the dining table yesterday said to the patriarchs, "Patriarchs, I think you worry too much. This kid is not worth our attention at all. Teaching him the practising method is an insult to our Tang clan. I think we should kill him directly. And we will solve all our problems!"

"That's right." A middle-aged man also said, "He's just a small character. It's not a big deal to kill him. Spiritual Stone is not big enough. Why should we give it to him?"

"Our Tang Clan is not a clan which breaks the promise." Ferdinand shook his head. "We will fulfil my promise to Henry."

"Hmph, so stubborn!" The middle-aged woman snorted.

"Well, don't mention it again." The patriarch couldn't wait to say, "Our

Tang Clan is not a kind of clan that plays dirty."

As soon as the patriarch spoke, no one else dared to speak. In the Tang clan, the patriarch's prestige was still very high.

The patriarch looked at the platform and saw that Henry could only hold his head in his hands under Haley's attack. He shook his head. It seemed that he had overestimated this young man before.

Haley kept kicking on the stage and snorted, "Do weak people deserve to have Spiritual Stones? It's ridiculous!"

This time, Haley no longer held back his strength and violently kicked at Henry's head.

Henry's face changed. Haley's kick was not aimed at him, but at the lotus flower. God knew what the result would be if the invisible lotus were kicked. Henry hurriedly dodged.

Among the spectators, someone said, "It seems that Henry has some strength. He can even avoid the kicks of Senior Brother Haley."

"If he keeps dodging all the time, there may be a chance."

"You're wrong." One of them shook his head. "Don't forget that Brother Haley's most powerful move is not with his legs, but his fist. Now, Brother Haley is just enjoying the moment. Henry is no match for Brother Haley."

"That's right. Once Senior Brother Haley takes it seriously, Henry will be defeated in an instant!"

Among the people present, no one thought that Henry still had a chance to compete with Haley. In their eyes, Henry didn't even have the opportunity to fight back. He could only run away with his head in his hands.

Henry felt bitter in his heart. Why this competition wasn't yesterday or even the next day? He would not have been in such a mess if he had been able to make lotus stable for another day and get stronger.

Under Haley's attack, Henry could only protect the lotus from any harm as much as possible. Because of the weakness of the lotus, he did not dare to move too fast. Henry could only barely dodge the attacks now.

"Do you only know how to run away?" Haley shouted and suddenly stopped his attack. He stood on the platform with a sarcastic smile on his face.

Haley's voice was so loud that everyone could hear it clearly.

Only the words "run away" made the audience burst into laughter immediately.

Haley staggered to the front of Henry. He tilted his head and looked at Henry, saying, "Hit me."

"Ah?" Henry was stunned. He suspected that he had heard wrong. "Did Haley ask him to hit him?"

"I said, hit me." Haley sneered and pointed to his temple with his hand. "Do it with force. Let me see your ability."

"This..." Henry felt a little awkward. He was still thinking about how to end this challenge, but Haley made such a request, which made Henry a little embarrassed.

"What, you don't dare?" Seeing Henry's hesitant look, Haley felt prouder in his heart.

"Come on, hit me!" Haley roared. What he planned was to humiliate Henry as much as possible. When Henry exerted his strength on him, he would directly hit him down with a thunderbolt.

Henry raised his fist. If he really wanted to hit Haley, he thought that 30% of his strength would be enough to beat him up. After observing Haley's strength, Henry felt that he had overestimated him before.

Although Haley had the strength to compete with the ten kings of Radiant Island, his combat experience was far worse than that of Sea God and the others. Anyone of them could defeat Haley.

The people of the Tang clan under the stage burst into laughter when they saw Henry raising his fist, as if he wanted to fight but did not dare to.

What Henry was thinking now was how to defeat Haley with one strike, without hurting him, and how to make him admit the loss.

"I fu*king asked you to hit me. Do you hear me?" Haley roared again and widened his eyes.

"Well... Okay." Henry threw a punch.

In other people's eyes, Henry's punch had no power at all. It was soft and weak, and even Haley thought so. The corners of his mouth curled up into a sneer. At the same time, he threw a punch at Henry's fist.

What he wanted to crush Henry completely. He wanted to see whose fists were stronger!

At the moment when the two fists were about to meet, Haley seemed to have seen the scene of Henry's arm was broken by his arm.

As their fists met, the corner of Haley's mouth curled into a sneer. But before he could laugh out loud, an irresistible great force came from the fist and went all the way up along his arm. Haley only felt an

invisible force pushing him back suddenly.

In the eyes of outsiders, Haley and Henry had used a common fist technique, but one person was sent flying backwards. Everyone was shocked by this scene. What was going on? It should be Henry who had flown backwards. How could it be Senior Brother Haley?

Chapter 566

"It's Qi!"

The patriarch of the Tang family, who was sitting in the main seat of the auditorium, contracted his pupils. He had just clearly seen that Henry's fist had not even touched Haley. But Haley was sent flying by an invisible force. This was definitely a sign of Qi.

Such a scene also made the patriarch understand that Henry had been easy on Haley. They were not at the same level at all. The difference between the Qi-controlling Realm and the ordinary ancient Kungfu people was as big as heaven and earth.

The middle-aged men and women sitting together with the Patriarch all heard what he said.

"Patriarch, has he really mastered the Qi?" The middle-aged woman asked in disbelief.

"Yes." The patriarch nodded. "He was deliberately letting Haley win. What Haley did is a little too much."

While speaking, the patriarch's face was full of regret. Compared with Henry, the younger generation of the Tang clan was much worse. Henry didn't mean to fight, but Haley wanted to take advantage of him.

Haley was hit by Henry's fist and fell down on the platform. He only felt numb all over his body and couldn't exert his strength. He looked at Henry, who was still standing there and then subconsciously looked down at the crowd. When he noticed the eyes of the younger generation of the Tang clan under the stage, Haley felt a burning sensation on his face.

Haley recalled what he had done on the stage just now. And now he was suffering for his own actions.

What Haley wanted to do now was to get up quickly and make that guy surnamed Zhang humiliated, but he was numb all over his body and could not get up at all.

"Okay, I announce..." Ferdinand stood up and said loudly. Now the situation was very obvious. Henry had reached the Qi-controlling Realm, so Haley could not be Henry's opponent at all. If they continued to fight, Haley would just be asking for trouble. Moreover, it seemed that Haley could not stand up, so Ferdinand announced the result, "I declare that this competition..."

"Brother Zhang, watch out!" Uriah suddenly shouted under the stage. Countless beams of cold light shot out from where Haley was and rushed towards Henry who was standing there. The corner of Haley's mouth curled into a sinister smile. These countless silver needles were all poisonous. This guy surnamed Zhang was over!

At first glance, there were at least 30 of them. The silver needles were so fast that even Henry had no time to dodge them. After all, Tang Clan was a master of hidden weapons. Since ancient times, no one dared to say that there are better than Tang clan regarding hidden weapons. Even if many of the methods of hidden weapons had been lost, the Tang clan could not be underestimated.

Henry looked at these silver needles coming at him. At the moment when these silver needles were about to touch him, all the muscles in his body suddenly exerted force. In an instant, the powerful Qi spread to Henry's limbs and bones and jumped out of his body.

An invisible Qi shield formed and covered his whole body. Most of these silver needles fell to the ground when touched the Qi as if they had hit a hard wall. The small amount of them was affected by the recoil force and flew back to the place where they came from. They went straight to Haley, who was lying on the ground.

Haley could not move at the moment. He could only watch helplessly as the silver needles flew backwards, growing larger and larger in his pupils.

"Puff, puff, puff."

After a few loud noises, the silver needles were stuck in Haley's body.

"Son!" The man in red, who was sitting in the auditorium, exclaimed and quickly jumped up and ran towards Haley.

The audience did not expect such a scene to happen. The silver needles that Haley shot out came back at him.

Henry was also a little confused about this situation. He had only practised this method of covering the whole body with Qi last night. It was the first time he had tried it, but he didn't expect it to have such a reaction. He just didn't know how strong the Qi shield was. If one day he could avoid bullets, how terrific would it be?

The faces of the patriarch and others on the stage suddenly changed. At this moment, they had no time to announce the winner. As members of the Tang family, they knew very well how powerful their hidden weapons were, so they rushed to Haley together.

When they came to Haley, he was already unconscious, and his face

was as pale as a piece of paper.

"The poison has already spread over his body. Hurry up. We need to stop it first." The Second patriarch only glanced at him and found out how serious the problem was. She quickly took out a few silver needles and stabbed them into Haley's body.

After a few needles, Haley looked a little better, and the Second patriarch breathed a sigh of relief.

"He is alright now. Although the poison is strong, I managed to stop it in time. He will be all right in a few days," the Second patriarch said.

Upon hearing the words of the Second patriarch, the man in red felt much relieved. He suddenly turned his head and looked at Henry, who was still standing in the platform. He shouted, "Young man, you are so cruel!"

"Enough, it's not the young man's fault!" The patriarch waved his arm, shook his robe, and snorted. "If Haley hadn't violated the rules and used hidden weapons, how could such a thing happen? This time, even if Haley gets cured, he will go to the cliff to think about his actions carefully!"

"Patriarch, why?!" The man's pupils shrank. "It's clear that this outsider has hurt my son!"

The patriarch frowned. "If it weren't for Haley's violation of the rules, this would not happen."

The man in red shouted, "Our Tang clan is a master of hidden weapons. In order to win, it was not wrong for my son, Haley, to choose to use hidden weapons. This is the fault of this outsider. He must pay for it!"

"Yes, Patriarch, Haley can't be hurt like this." The middle-aged woman helped the man to speak together.

"Well, I have made my own judgment about this matter!" The patriarch waved his sleeve again. "Take Haley to heal. Everything will be done after he recovers!"

The man in red still wanted to say something but was stopped by the middle-aged woman. The middle-aged woman shook her head slightly at him. The man glared at Henry, picked up Haley, and walked down the platform.

"Young man, you are not injured, are you?" The patriarch walked up to Henry and asked.

"No." Henry shook his head.

"Haha." The patriarch chuckled. "I didn't expect you to reach the Qi-controlling Realm at such a young age. You really have unlimited potential. I'm sorry about what happened today."

"Everyone has the intention to win. I can understand." Henry smiled. If this matter happened in other places, Henry would deal with Haley properly. He was never a generous person. But now he was in the Tang clan. Henry still had to think about what he wanted to get from being here. After all, if he was going to mess things up because of Haley and if he turned against the Tang clan, he would lose more than he would gain.

"Haha, thank you, young man. Now, can we talk about the stone again?"

Chapter 567

The patriarch led Henry into the centre of Tang family Citadel.

"Young man, I can see that you have reached the Qi-controlling Realm. How did you absorb the energy from that Spiritual Stone?" The patriarch could not help but ask a question that bothered him.

Since Henry's family had vanished, how could he achieve the Qi-controlling Realm?

"I don't know." Henry shook his head. He didn't know how to explain to the patriarch, so he made up a lie. "Usually take that stone everywhere with me. After a while, I realized I was able to control the airflow around me."

When Henry made up this excuse, he felt very guilty.

"Oh, I see!" Unexpectedly, the patriarch showed a serious look. "Young man, it seems that your family has an Energy Emitting Formation."

"Energy Emitting Formation? What's that?" Henry asked curiously.

The patriarch shook his head with a smile. "Young man, every clan has this Energy Emitting Formation. It can be said to be the foundation of a clan."

Speaking of this, the patriarch took out the stone from his pocket and continued, "As long as this spiritual stone is put into the Energy Emitting Formation, the Qi in the spiritual stone will spread out and circle around the Energy Emitting Formation. As long as you stay by the Energy Emitting Formation for a long time, you will naturally feel the Qi and reach the Qi-controlling Realm."

The Patriarch's words shocked Henry. He really did not expect that this Spiritual Stone could actually be used in such a way. Moreover, the Energy Emitting Formation sounded extremely magical to him.

"Patriarch, as long as the people stay in the Energy Emitting Formation, can everyone enter the Qi-controlling Realm?" Henry's heart was beating fast. If so, didn't it mean that as long as there were enough Spiritual Stones, many people could enter the Qi-controlling Realm?

"Of course not." The patriarch shook his head. "Young man, have you heard that kungfu is all about talent?"

"I've heard of it." Henry said with disapproval, "However, I think that talent is just an excuse to make up for weakness. If you want to be strong, you have to rely on yourself. It doesn't matter whether you have

the talent or not."

"Wrong, wrong." The patriarch sighed. "In modern kungfu, many people don't pay attention to talent. They only think that talent is just an excuse. In fact, talent would determine a person's final achievements at the beginning of training kungfu."

"Could it be that talent is real?" Henry was confused.

"Yes." The patriarch nodded. "The perception of Qi is related to talent. Those who are talented only need to stay by the Energy Emitting Formation and don't do anything else. They can enter the Qi-controlling Realm easily. As for those normal people, they can't sense Qi during their entire lifetime."

"Really?" Henry widened his eyes. He thought that it was worth coming here. A lot of things that he didn't know were slowly revealed.

"Young man, you didn't practice the Qi, but you stayed in your family's Energy Emitting Formation, and you entered the Qi-controlling Realm. You are really a talented person." The patriarch looked at Henry with satisfaction in his eyes. If the Tang clan could have such a young man, he would be very pleased.

Henry digested what the patriarch said and asked, "Patriarch, what is the Energy Emitting Formation you mentioned? Is there really a thing like that?"

Henry had read some books about Formations before, but the things written in them were too exaggerated. There was once a saying that if a formation were arranged, the person inside the formation would not be able to distinguish the direction. Henry himself did not believe it. But today, he heard the patriarch mention the formation, and that formation could release the energy from the stone. Did the formation really exist?

Facing Henry's question, the patriarch shook his head and nodded again. "I don't know. Every clan has its own Energy Emitting Formation. How to form this formation and whether there are other formations, I don't know."

Hearing the patriarch's words, Henry felt a little regretful. If the "formation" really existed, then the world would be really fantastic!

"Patriarch, can I take a look at the Energy Emitting Formation?" Henry asked.

"Of course, Young man, this way please."

The patriarch led the way.

Henry initially thought that this Energy Emitting Formation would be

like the Tang family's Book, in some hidden place. But he didn't expect that this formation was in the valley, and he had passed next to it several times!

The place where the patriarch brought Henry was exactly in the valley in the Tang family's Citadel.

The patriarch stood in front of a mountain wall and looked up. "Look, Young man, the Energy Emitting Formation is 12 meters above."

Following the patriarch's gaze, Henry looked up and saw a small stone tray, which was about the size of a washbasin engraved with patterns.

"This is the Energy Emitting Formation?" Henry thought that it would be some large place where many people could stand together, but he didn't expect it to be such a small stone tray.

"Yes, this is it." The patriarch took a deep breath, took out the Spiritual Stone, and jumped up with all his strength.

When Henry jumped up, he looked like a bomb shot out of a cannonball.

But when the patriarch jumped up, he looked like a flying bird. He looked so light. He slightly swung his robe and got in front of the tray. He pointed the spiritual stone to the stone tray above and gently pressed it down.

At the moment when the stone touched the stone tray, Henry felt a breeze blowing past him. This breeze was not from outside the valley, but it formed in front of him. The direction of the breeze was toward the stone tray on the mountain wall!

The patriarch fell from above. Although he looked calm on the surface, his body trembled with excitement. "Young man, this movement made the entire valley filled with Qi."

Henry felt the breeze around him. Sure enough, it was a little different from the usual breeze. There was something unclear about this breeze.

Normally, if a person were facing the wind, his breathing would be affected, regardless of the strength of the wind. But now, facing the breeze, Henry's breathing was not affected at all. On the contrary, his breathing was smoother. He took a deep breath, and he felt as if all the pores in his body were open.

"This is... Qi!"

As soon as Henry sighed with emotion, his face suddenly changed. He quickly reached out his hand to support his head because he felt that

the lotus on his head was changing at the moment.

The breeze blowing by Henry was gathering around Henry's head. It seemed that the lotus on his head was greedily absorbing the Qi from the air. With the convergence of Qi, Henry could clearly find that the lotus was becoming solid.

"What the h*ll is going on?" Henry was shocked. The appearance of lotus and what happened now were both beyond his knowledge.

Chapter 568

Henry subconsciously looked at the patriarch next to him, only to find that the patriarch did not notice the change on his side at all. He stared at the place above their heads with tears.

Henry could roughly understand the state of mind of the patriarch at the moment. The clan that had been passed down for a long time was facing a turning point just as it was about to decline. This feeling was like winning a lottery.

The wind in the valley was like a breeze, but it caused huge waves in his heart.

As time went by, the breeze gradually spread throughout the whole valley. The people in the valley began to gather here. Everyone had already guessed what was happening. It could be seen that everyone who came to this place slowed down, and their faces were full of excitement.

Some people even sat cross-legged on the ground and began to breathe greedily.

More and more people gathered in the valley. This was definitely the most crucial thing in the Tang family Citadel!

No one had anything else to say. Everyone had a silent tacit understanding. They came over and sat down.

Henry also sat down and crossed his legs. Except for comfortable breathing, he felt no other changes. The main thing was the lotus above his head.

For Henry now the lotus represented a big question mark. If he could not solve this problem, he would not be able to relax.

Henry sat quietly here. He was the closest to the Energy Emitting Formation, so he got the most benefits.

He could clearly feel that the lotus above his head was getting more and more solid. He specifically shook his head. Such a move had little effect on the lotus.

Time passed by. The Qi from the stone had a calming effect.

Henry's eyes gradually closed, and his breathing became gentle.

The breeze blew a bit of coolness. Henry shivered and opened his eyes, only to find that it was already dark in front of him. Unexpectedly, it was already nighttime!

A bright moon was high in the sky. Through the valley, one could only see a trail of moonlight. Most of the people who were sitting in the valley had already left, leaving only a few people still sitting here, trying to cultivate.

A lot of people felt even more uncomfortable sitting with their legs crossed than doing their training under the scorching sun.

Henry felt that the lotus on his head was much stronger than before.

Henry was sitting with his legs crossed for a long time, which made his legs a little numb. He shook his legs and was about to leave when he heard a wind-breaking sound coming from the side.

Henry didn't even think about it. The muscles of his body reflexively contracted. When he turned around, he looked at the place where he had just stood, and three arrows were inserted there. The arrows were sharp and pierced the ground directly.

He frowned and looked at the place where the sharp arrow flew from, only to see that the man in red was standing not far away from him. Besides the man in red, there was a middle-aged woman and a middle-aged man. Henry had seen the two people who followed the man in red at the dinner yesterday. They were all high-level officials of the Tang clan.

At this moment, each of them was holding a hand crossbow, and the three arrows were shot by them.

"You're lucky. If you woke up a second later, your head would be nailed to the ground." The man in red stared at Henry and sneered.

Henry got up from the ground, frowned and looked at the three people, and said in a low voice, "Is this the decision made by the three of you or by the Tang clan?"

"Is there any difference?" The man in red smiled indifferently. "I stand for the Tang clan."

Hearing the man in red's words, Henry was relieved a lot. If it were the Tang clan's order, it would be more challenging to deal with. He was not afraid of conflicts with the Tang Clan, but he was worried that this cooperation would be ruined. After all, he had to strengthen Radiant Island.

Henry chuckled at the man in red. "As far as I know, you are not the patriarch, are you?"

"Don't worry. I will be soon!" The man in red sneered and shot another sharp arrow at Henry.

Facing this sharp arrow, Henry didn't make any more moves. He just dodged it with a slight flash.

"Do you three pieces of trash think that you are worthy of being my opponents?" Henry clenched his fist. He deliberately spoke to delay time, so that he could take this opportunity to understand how stable the lotus flower above his head was.

"You are just a junior who has just entered the Qi-controlling Realm. Don't be too arrogant!" The middle-aged woman shouted. She pulled out two machetes from the back of her waist and suddenly rushed toward Henry.

The machetes brought a cold light in the dark night.

Seeing his opponent rushing towards him, Henry raised his fists. He was sure that the lotus above his head could bear at least 50% of his current strength. In that case, it should be easy to deal with these people.

He did not even need 50% of his strength. Only 40% of his strength was enough to deal with the three in front of him.

Although these three people were much older than Henry, in terms of combat experience, Henry had come out of the sea of blood and corpses. Therefore, the three people together could not match Henry!

Henry punched the middle-aged. The woman stepped back, only to feel her hands numb. She shouted to the side, "Don't just stand there. Let's take him down together!"

"Of course." Another middle-aged man pulled out a thin sword from his waist and rushed from another direction.

The man in red held a big sabre in his hand. The three of them formed a triangular joint attack and rushed toward Henry at the same time.

Facing the trio's attacks, Henry was not afraid at all. He used both fists to counter them.

In the blink of an eye, more than ten moves had been exchanged. Henry had gained the upper hand.

This made the three people feel a chill in their hearts. They knew that Henry had already been able to control his Qi, but they still looked down upon him.

The man in red waved his hand and sprayed a handful of powder.

Henry's reaction was very fast. He held his breath and stepped back at the moment when the man in red sprayed the powder.

"Do you think you can hide?" The man in red sneered and did not care

about Henry's movements at all.

Henry got out of the powder range. He felt that something was wrong. He found that there was no poison in the powder that the man in red sprinkled, and it did not affect him at all.

At this time, the three rushed to Henry again. Henry defended himself.

After a few more moves, Henry's face changed. He finally understood what this powder was. It was not poison at all, but a kind of thing that could restrict the use of Qi!

When he threw a punch, the Qi in his body gushed out, as if he had encountered some kind of obstacle. 

The Qi was restricted, which made Henry incredibly uncomfortable. When he attacked, the power was reduced by more than half. This was not the most important thing. The most important thing was that because the Qi was limited, the lotus above his head began to shake.

Chapter 569

The lotus flower above Henry's head was definitely the biggest obstacle to him at this moment, and it suddenly became unstable, which made Henry unable to control his strength in the battle.

The three people in front of him were not weak.

"This powder can last for three minutes. Boy, do you think you can hold on for more than three minutes?" The man in red sneered at Henry. The three of them waved their weapons again and slashed at Henry.

The Qi was blocked, which made the lotus on Henry's head more and more unstable. Facing the attacks of the three people, Henry sighed. "I think we can talk."

When Henry said this, he deliberately observed the man in red's face. When he found that there was a hint of interest in the man's eyes, he came up with a plan.

"Talk? Boy, what made you think you could talk to us?" The man in red showed a disdainful look on his face, but his hand movements became slower, and the original killing intention faded away.

"I don't know." Henry shrugged his shoulders. "Let's see what you want."

"Kid, hand over the practising method book if you know what's good for you, and we will let you go!" The middle-aged woman shouted.

Henry smiled in his heart. These people were not just looking for revenge. Now that they were here, they must have searched the place where he stayed already.

Henry had a habit since he was young. Wherever he went, he would find a place to hide important things, and the practising book that the patriarch lent him was no exception.

Henry shook his head. "I'm sorry. I don't remember where the practising book is."

"Kid, are you f**king playing with me?!" The man in red kicked Henry.

In order to protect the lotus, Henry could only bear this kick.

The man kicked on Henry's abdomen, forcing him to take a few steps back.

"I'll kill you!" Another middle-aged man took out his thin sword and stabbed toward Henry.

Henry looked at the thin sword in the other party's hand getting closer and closer to him, but he had no intention of avoiding it at all.

In the end, the tip of the sword stopped less than three centimetres away from Henry's face.

The man holding the sword glared at Henry. He looked furious, and his arms were trembling, but the sword in his hand had no intention of stabbing forward.

When he stabbed his sword toward Henry, Henry was 100% sure that he would not do anything to him right now.

"Boy, you are very brave. I hope you can still be so brave tomorrow!" The man in red let out a long breath. Seeing that Henry did not want to say anything, he did not entangle with Henry anymore. He took out a hemp rope from his pocket and went straight up to tie Henry up.

Henry took care of the lotus and did not resist at all. He allowed them to tie him up and take him to a cliff.

There was a small cave in the cliff. There were four chains as thick as arms on the stone wall. After Henry was taken here, the man in red tied his four limbs with the chains.

"Boy, just wait for tomorrow, there will be a good show!" The man in red said ruthlessly. He walked out of the cave and then pushed a huge stone to seal the cave.

Henry was tied up by the iron chain. He tried to remove it, but the iron chain was particularly hard to break. He couldn't break free. He could only wait until the lotus was completely stable.

Three minutes had passed, and the lotus began to absorb the Qi from the valley again. It gradually became solid. Henry was extremely anxious.

Outside the cave, the middle-aged woman and the middle-aged man with a thin sword looked at the man in red together.

"Second Brother, what are we going to do next?" The man with the thin sword asked.

"Wait." The man in red looked up at the sky.

"Wait? What are we waiting for?" The middle-aged woman asked in confusion.

"You'll know soon." The man in red stood on the edge of the cliff with his hands behind his back and looked at the sky.

The night was very quiet. Birds and insects chirped, and a dark cloud floated over, covering the moonlight. The Tang family Citadel became

pitch-black.

Suddenly, a ray of light shone down from above the valley. The light came so suddenly that the middle-aged woman and the man with the thin sword couldn't help narrowing their eyes.

"They are coming!" The man in red's eyes narrowed.

A loud sound was heard by the three people. At the end of the light, there was a helicopter.

No! Hundreds of helicopters are hovering above them!

The helicopters slowly landed from the top of the canyon. It could be seen that each helicopter was equipped with a barrel, giving off a chilling atmosphere.

The middle-aged woman and the man with the thin sword widened their eyes and looked at the scene in front of them.

As the helicopters landed, many figures slipped down from the helicopter through ropes and fell into the valley.

A man in a green shirt, whose face was burned, walked in the forefront. Those who fell from the helicopter all wore white masks with no facial features, giving people an extremely strange feeling.

The man in red jumped from the cliff and landed on the ground. He came to the front of the man in green and said, "You are finally here."

"Where is the Spiritual Stone?" The man in green asked directly without looking at the man in red.

"There it is." The man in red reached out his hand along the mountain wall in the valley. "But you have to take the rest of the things you want by yourself. Don't forget what you promised me."

The man in green grinned and said, "Of course, this is our deal, isn't it? We share the Spiritual Stone. You will be the head of the Tang Clan. I want your hidden weapon and poison manual."

The night was very dark, and most of the Tang clan members were still sleeping soundly. No one knew that there was a deal that would overturn the entire Tang clan.

In Tang family Citadel, the patriarch woke up from his sleep. He had a feeling of restlessness. He got off the bed and pushed open the door. He saw that the night sky not far away was lit up with countless lights.

The patriarch's face changed. Just as he was about to take action, he felt a blast of air sweeping over. A bomb exploded in front of the gate of Tang family Citadel.

"Boom!"

With a loud noise, the flames soared to the sky and broke the tranquillity of the night sky in the Tang family Citadel.

The people of the Tang clan, who were still sleeping, suddenly woke up. They wondered what had happened.

The man in green, who was standing in the valley, glanced around and said indifferently, "Kill!"

As soon as the man in green gave the order, those people wearing white masks all rushed to the houses on the surrounding mountain walls.

"Who are you? What are you doing... ah!" Before one of them could finish his words, he let out a scream.

"We are under attack! The enemy is here!"

"Help!"

All of a sudden, the Tang family Citadel was filled with all kinds of shouts.

As the people of the Tang clan shouted, those people wearing white masks waved the butcher knives in their hands and took their lives one after another.

"Who is it?" Uriah wore a long robe. The bomb that fell just now destroyed the wall of the Tang family Citadel, and smoke and dust filled the air.
