

## Chapter 600

The Zhao clan's polite way of speaking was completely beyond the expectations of Lam's stepmother. She looked at Henry. Originally, she was prepared to say a few harsh words to the Zhao clan on the way, but now she couldn't say it.

She had received 1.5 million yuan from the Zhao clan. Now the Zhao clan only made Lam marry their dead son and did not force her to do anything. It seemed that it was not too much. She could earn 1.5 million yuan through this process. How many people would dream about the opportunity to earn that much money in such an easy way?

"Lady, come on. Please come in." Dempsey's father made a gesture of invitation and led the way for Henry and Lam's family.

They had thought that they would be ready to fight when they came to the Zhao clan, but no one expected it to be like this.

Henry was confused, but he didn't say it out loud. He saw Dempsey in the morning. From Dempsey, he could see how arrogant the Zhao clan was. Now that they had put on such good behaviour, nothing could surprise Henry.

Dempsey's father had already prepared a guest room and arranged for Henry and the other three to stay.

After arranging Henry and the other three, Dempsey's father came to the back of the house. At this moment, many people from the Zhao clan had come to the house.

In the yard, there was an Eight Immortal's table, where all the people gathered.

As soon as Dempsey's father arrived, he was stopped by someone.

"Come with me. I have something to tell you." The man who called Dempsey's father was the old man who had

just talked with him in front of the house, Dempsey's grandfather.

Dempsey's father was called into a study. Dempsey's grandfather closed the door and whispered to Dempsey's father, "How's it going? Did you do anything outrageous?"

"No." Dempsey's father shook his head. "I did as you said. I was very polite to them."

"Good." Dempsey's grandfather nodded with satisfaction. "I just got the news that some force has quietly entered the city. Before we find that force, don't offend that person surnamed Zhang. We have to do this in a proper way!"

Dempsey's father nodded to show his understanding, and then he said, "Dad, I still don't understand. Since the family wants to kill Henry this time, why are we so polite to him? In my opinion, since everyone else has come, just kill him."

"You are shortsighted!" Dempsey's grandfather scolded, "Do you think the reason why the family wants to kill Henry is because of the rumours? Lam is not our daughter-in-law. Even if she were, the clan would not ask him about it. This time, we are using the man surnamed Zhang as a springboard!"

"A springboard?" Zhao's father's eyes were full of confusion and he didn't understand.

Dempsey's grandfather subconsciously looked out of the door and lowered his voice. He said, "Well, after this matter is over, you will also enter the main family. You have to know some things sooner or later. It's okay to tell you now, but keep your mouth shut. If it gets out, I won't be able to save your life!"

When Dempsey's father heard this, he immediately put on a serious look and said, "Dad, tell me."

"Do you know why the Li family of Longxi has always been on the throne and in front of all Chinese clans?" Asked Dempsey's grandfather.

Dempsey's father answered without hesitation, "Because

they have the Martial Emperor. It's natural for them to sit on the throne for a long time."

"Ha ha." Dempsey's grandfather chuckled. "The Martial Emperor is a bit powerful, but you have to be clear that only the Li family can raise a Martial Emperor. If there is a Martial Emperor in our Zhao clan, I'm afraid it will be difficult for us to keep him."

"Why?" Dempsey's father was puzzled.

"Resources!" Dempsey's grandfather spat out these the word heavily. "One Martial Emperor uses about one cubic meter per year. Do you understand what this means?"

"One cubic meter!" Dempsey's father opened his mouth wide. He knew that there was a Spiritual Stone in the Zhao clan which was about five cubic meters and had been used for six years. That Spiritual Stone was now the most precious treasure of the Zhao family. Every year, one Martial Emperor would use one cubic meter of Spiritual Stone. This was enough for the Zhao clan to use for dozens of years!

"Don't be surprised. This is just what the Martial Emperor would spend. The Li family has many masters. The number of Spiritual Stone they need every year is huge. The resources are the most important thing for a clan. Whichever clan has more Spiritual Stone, that clan will be the strongest!" Dempsey's father said. He glanced at his son and continued, "The clans and the officials have reached an agreement that the officials will give the clan convenience so that the clan can continue to live, while the clan can't enter the secular world casually. The officials are very clear that the clan is far more powerful than ordinary people. Once it enters the secular world, it will cause chaos and even change the situation."

Dempsey's father suddenly widened his eyes, and he had a guess in his heart, "Dad, do you mean that our Zhao's clan wants..."

"Yes, we need to prepare for it and enter the human realm!" Dempsey's grandfather showed a firm look. "This

man surnamed Zhang is a springboard for us to enter the human realm, but we can't do it abruptly. Through him, we can let the public know our existence and gradually integrate into the world of ordinary people and get more resources. You have to be clear that Spiritual Stones are money. A cubic meter of Spiritual Stone can be worth hundreds of millions of yuan!"

Hearing this, Dempsey's father was a little worried. "Dad, if this is the case, will the government be dissatisfied?"

"However dissatisfied they are, they can't stop us." Dempsey's grandfather said indifferently, "This time, not only the Zhao family wants to enter the secular world, but all the clans will find their own springboard and slowly integrate into it. After such a long time, the resources of every clan are beginning to be scarce, even for the Li Family of Longxi Li. Although they have a large number of people and huge branches, they also consume a huge amount of resources!"

Dempsey's father nodded with relief. "If that's the case, with the Li family of the Longxi taking the lead, there's really nothing to worry about. But what should we do?"

"It's very simple." Dempsey's grandfather said, "We'll first get rid of that man surnamed Zhang, and then deal with the invaders. We'll kill him under the excuse that Lins Group from Yinzhou was bullying us and insulting our women. Even the government won't say anything. When Family Lin is wiped out, do you think those who like to see interesting things happen and care about all kinds of things will let go of this mysterious force that suddenly destroyed the Lin family? We can take this opportunity to appear in front of the public, and it will be too late for the government to stop us."

Dempsey's grandfather sneered. "This time, it's a big event for our Zhao clan, and it's the most important thing for our family. We need to handle these two things extremely well. You are old and have no room for development, but if we handle these two things well, my grandson will definitely be able to enter the main hall. From now on, you'll have to depend on your son for your wealth and honour!"

"Dad, I will listen to you!" Dempsey's father's face lit up with joy.
