

Chapter 638

Henry's face showed a funny look. "It's really interesting. I helped you find the fugitive, and you asked me what I mean."

"Henry, did you put the communication device in the underground garage?" Bryce, who immediately came to his senses, asked.

"Yes." Henry shrugged his shoulders. "Otherwise, how do you think Cody, such a fool, would know that the Sharp Knife people have come? It seems that I was the only one who could see your ID, right?"

"It's impossible! I've clearly checked the surveillance camera. That communication device was clearly placed by the fugitive!" The member holding the tablet questioned.

Henry curled his lip and said, "Look at you, you're good at technology, aren't you? Don't you even know how easy it is to edit a video?"

Two hours ago, when Henry clashed with these people from the Sharp Knife, a simple and practical plan formed in Henry's mind. He deliberately said something to irritate the seven people, and then drove on the road that had surveillance cameras on so people from the Sharp Knife could follow him easily. He drove around Yinzhou followed by the Sharp Knife.

During this drive, Henry had already arranged for people to go to the underground garage, which was indeed where Cody had stayed before. However, when Henry's people found out the location according to the telephone network, Cody had left, leaving only a locating communication device.

Henry's men arrived in advance, and according to Henry's arrangement, they parked a dusty Volkswagen, took away the communication device left by Cody, and then replaced it with a new communication device.

When everything was done, Henry came to the underground garage followed by the Sharp Knife, and the previous scene happened.

Bryce frowned. "I don't understand what you're trying to do by deceiving us. Are you trying to get back at us for your previous conflict with us?"

Henry grinned and said, "This kind of thing is too boring. I don't want to deal with it. I just feel that you can accomplish your mission now. You could catch Cody and you will not be killed by him in a single encounter. While you are fighting with him, I would have a chance to save my wife. It's so simple."

Listening to Henry's words, a feeling of being used came to Bryce's mind. This feeling made him feel particularly wronged. "What if we

didn't show up this time?"

"I can always find somebody. How superb do you think a man like Cody is?" Henry shrugged his shoulders and said, "It's just that you happened to show up, so I let you do this."

"You used us as bait!" Noelle stared at Henry and clenched her fists tightly. Previously in the parking lot, when she saw Henry's unwilling look, she was secretly happy. But now, when she learned that Henry pretended to be unhappy, she was angry.

"You want to complete the task, and I gave you the opportunity. How can it be called using as bait?" Henry had a strange look on his face.

"You!" Noelle glared at Henry.

"Let's talk about him later. Now, let's solve the current problem!" Bryce said. Although he was also very unhappy with Henry, compared with Henry, catching Cody was the more important thing!

The seven people from the Sharp Knife looked at Cody at the same time.

Cody clenched his fists and said, "It seems that you, the Sharp Knives, really want to get involved!"

"Let's do it!" Bryce didn't waste any more time talking to Cody. He rushed directly to Cody.

The seven people from the Sharp Knife were no match for Cody in terms of personal strength, but they worked together all the year round and they had the combat experience.

Henry stood in front of the warehouse door and snapped his fingers.

A female figure appeared behind Henry.

"Take her home." Henry handed over Sylvia to the woman.

The female figure nodded respectfully. "Yes, your Excellency."

After Sylvia was taken away, Henry leaned against the door and watched the battle in the warehouse. He was very curious about what made the rich second generation Cody become like this. His physical strength and speed were far better than ordinary people's.

The combined attack of the seven people forced Cody to retreat one step after another.

Cody looked at the seven people in front of him, and then looked at Henry, who was leaning against the door of the warehouse, with anger in his eyes. "The Sharp Knife, you forced me!"

Cody roared, clenched his fists with both hands, and swung them out.

The two people who were close to Cody were both hit by Cody.

Bryce came from behind Cody and hit him. The only thing he felt was a sharp pain in his palm. Facing Bryce's attack, Cody shook his head as

if he was not affected at all.

"This! How is this possible!" Bryce's eyes widened. Just now, he had used a hundred percent of his strength, but it hadn't affected the person in front of him in the slightest. When he hit the person's body, it was as if he had hacked at a steel plate.

"Whole team! Something is wrong!" A member grabbed Cody's arm, trying to tear off a piece of Cody's flesh, but he was only able to tear off a layer of skin. Below the skin was a metal arm!

Cody's mouth curved into a smile. "You forced me to do this!"

On Cody's back, two metal spikes directly pierced his shirt. Cody tore off his shirt with his hand, and his whole upper body was exposed in the air.

When Cody's upper body was exposed, the seven people opened their eyes widely and could not believe what they had just seen.

Except for the neck and the two arms covered with human skin, all other parts of Cody's body were robotically made!

Henry stared at Cody's mechanical body. The man who had demonstrated his strength in Lin's manor also had a mechanical body. Now he saw it again. Which organization were they from?

The two metal spikes behind Cody turned into two cannon barrels.

With Cody's roar, the barrel burst into flames.

"Ah! Go to hell!"

Cody was roaring loudly.

Under Cody's cannon, the seven members of the Sharp Knife could only escape.

"Hide? Where do you want to hide?" Cody kicked his feet and rushed to the front of Bryce at a speed far beyond the human body's limit.

Bryce, who was dodging, suddenly shrank his pupils. Before he could speak, Cody punched him in the chest. The punch directly made Bryce's chest bones break, spraying a large mouthful of blood out and making him fall to the ground.

Bryce, who was the most powerful one, was defeated by Cody with one move. The remaining six members were no match for Cody at all.

Using firepower and extremely fast speed, Cody defeated all the members of the Sharp Knife in less than 30 seconds.

"He doesn't have the speed of a human at all!" A member, with a pale face, gritted his teeth and stared at Cody with fear in his eyes.

Chapter 639

At this time, the seven people from the Sharp Knife were all lying in the empty warehouse. Each of them was seriously injured. Cody did not show mercy to them. If these people were not physically strong enough, they might have lost consciousness under Cody's attack.

Henry watched all this with great interest. Cody showed strength and speed, and it could be seen that he was stronger than the previous person. It seemed that the research of this organization had made some breakthrough.

"Henry, hurry up, call the police, and find someone to help us!" Lying on the ground, Noelle screamed with pain, both her legs were broken.

"Call the police? For what?" Henry had a strange look on his face.

"If you don't call the police, everyone will die here!" another team member shouted. They were no match for Cody. Cody's upper body gave them tremendous pressure and made them unable to breathe.

Henry curled his lips and said, "I only care about my wife's safety. It's none of my business whether you live or die."

Henry didn't like these members of the Sharp Knife at all. What they did was for their own mission. They didn't care about the safety of the hostage at all, which made Henry doubt the reason for the death of the previous three hostages.

"Henry Zhang, do you think you can survive after we die?" Noelle gritted her teeth. "If you call the police now, you will still have a chance!"

"Chance?" Cody sneered and said, "None of you can leave today!"

Cody waved his hand and ignored those severely injured members of the Sharp Knife. He stared at Henry with his eyes full of killing intent.

"Henry, I'll give you one last chance. Hand over the things and maybe I can leave your body in one piece."

"Oh? Really?" Henry still leaned against the door of the warehouse. "You can try."

"You're looking for death. They can't blame me for not completing the task on purpose!" As soon as he saw Henry, Cody could remember the humiliation he had suffered, which made him so angry that he couldn't wait to tear Henry into pieces. Even if that meant that the task would be uncompleted.

"I've suffered and endured so much just to meet you again!" Cody walked toward Henry. "Don't worry, I won't let you die so easily. I'll peel off your skin piece by piece and suck your blood out sip by sip. I'll make you feel like you are the most desperate thing in the world. I'll

cut off the heads of all the people related to you and put them in front of you so that you can see them all!"

A smile crept over the corners of Henry's mouth.

Cody's body was trembling, and he was excited. He had been looking forward to this day for such a long time. Cody clenched his fists and roared, "Henry, I will make you wish you were dead!"

Cody kicked the ground with his feet and rushed toward Henry at an incredible speed.

At this moment, Cody's speed shocked Bryce and others again. This was much faster than the speed Cody used during fighting with them.

Lying on the ground, Noelle looked at Henry indifferently. In her eyes, Henry was already a dead man.

Cody had been hating Henry in his heart. At this moment, he did not hold back at all. He used all of his strength.

Henry stood in front of the warehouse door. In the eyes of Bryce and others, Cody was as fast as a phantom. In Henry's opinion, it was nothing extraordinary. He said to himself, "The speed is nearly 1.5 times faster than the last one. According to the degree of force on the ground, he's twice as strong."

While Henry was talking to himself, Cody had rushed to Henry and roared.

"Henry, I've been waiting for this day. I've been waiting for too long..."

Before Cody finished his words, he suddenly stopped. Looking only through the remaining eye, he saw something that had made him speechless.

Everyone, including the injured members of the Sharp Knife who were lying on the ground, looked as if they had seen a ghost.

"I... Am I seeing things?" A member of the Sharp Knife Team opened his mouth and looked at the scene in front of him in surprise.

Cody's feet were suspended in the air. His powerful arm was less than five centimetres away from Henry's face, but it was still not close enough to hit Henry.

Henry reached out one hand, grabbed Cody's throat, and easily lifted him in the air.

"It seems that you can't do what you said," Henry said with a playful smile on his face, "you are not as strong as you thought."

"How... how is this possible?" Cody was stunned. After the experiment ended, he felt an unprecedented power. The feeling of being surrounded by power made him feel that he could trample the whole world. But what happened now was unreal.

In Cody's heart, Henry was like an ant. He wanted to cut Henry into pieces, but he defeated him with only one hand. In front of this person, the innumerable strength that he had paid for was like a joke.

Henry grabbed Cody's throat with one hand, lifted him up, and put the other hand on Cody's arm. "In this world, there are many things that can make you surprised!"

As Henry's voice fell, Henry pulled Cody's arm with force.

With a "squeaky" sound, a burst of lightning appeared on Cody's shoulder, and his arm was completely torn off.

Cody let out a painful roar. All these things were linked to his nerves.

Henry threw Cody to the ground like throwing garbage. He took the steel arm torn from Cody's shoulder and looked at it curiously.

All of a sudden, an arrow was shot from the back of Henry.

Henry dodged sideways, and the arrow feather was inserted directly on the ground in front of Henry.

Henry turned his head, and several figures appeared in front of the warehouse. All of them were wearing white robes. Each of them wore a white mask without any facial features.

"You?" Henry could not be more familiar with the figure wearing a white mask.

"We, Noble Berserkers. are not like the Sharp Knife. When we want to kill somebody, we will do it!" A figure wearing a white mask let out a low roar. They took out a scimitar from behind their backs, flashing a cold light in the dark sky.

"Noble Berserkers?" Henry thought. This was the first time he heard the name of this organization.

"Kill!" The leader shouted in a low voice. The rest of the people, without losing any time, pulled out all their weapons and rushed to the warehouse.

Henry narrowed his eyes and also rushed toward the white figures. Before the members of the Sharp Knife who were lying on the ground could see what had happened, Henry passed by these white figures, and all the approaching white figures were lying on the ground.
