

Chapter 640

What happened in front of the warehouse was completely beyond the understanding of the Shape Knife's men. As an inner member of the organization, Cody knew a little about the strength of these masked men in white robes. Each of them had undergone rigorous training, but now, these men could not even figure out how Henry defeated them.

A total of 21 men in white, all lying on the ground, appeared in front of Henry. Except for self-introduction, their appearance did not have any effect.

Henry looked at Cody and asked, "What kind of organization is this Nobel Berserkers?"

"You really want to know?" Cody stuck out his tongue and licked his lips.

"Yeah." Henry did not deny it and nodded.

"I won't tell you!" Cody showed a hint of pride.

"It doesn't matter." Henry shrugged. "I don't expect you to tell me."

Henry's body suddenly disappeared from where he was. When he reappeared, he was already in front of Cody. Cody's pupils suddenly contracted. Henry's speed was too fast for him. Just a moment ago, Cody felt that Henry disappeared out of thin air.

Henry stood less than half a meter in front of Cody and reached out to press the steel plate on Cody's chest gently.

The first second when Henry's hand touched Cody's chest, nothing happened. The next second, a wave of Qi appeared from the place where Henry's hand touched Cody's body. Cody was thrown like a cannonball falling more than a dozen meters away. The ground under him cracked.

Henry squinted at the front of Cody. Just now, he observed that the Qi also had a strong impact on this metal equipment, but it could not affect the operation within Cody's body.

That was to say, although the Qi could impact metal, it couldn't penetrate inside.

In general, this kind of metal body had some restraining effects regarding the Qi. However, Henry estimated that this could only restrain those who had just reached the Qi-controlling Realm. But those who had entered the Transformation Realm could easily pierce through this type of metal body.

Lying on the ground, Cody looked down at his chest and saw a shocking hole. Inside the hole, his heart was beating fast. Around the

heart, there were all kinds of electric wires. Inside Cody's body, besides his head and heart, everything else was machinery.

Bryce, lying not far from Cody, looked at Cody, who had no strength to fight back, and smiled.

"What are you laughing at?" Cody's voice sounded in front of Bryce.

"Of course I'll laugh at you shameless villain being caught finally." There was a hint of joy in Bryce's eyes.

Cody showed disdain in his eyes. "Just keep laughing. The Sharp Knife is really a group of idiots. Look at yourself. Who is the villain in front of you? You are in charge of the underground forces of the whole country, but you don't know that there is such a person in your territory. If I am a villain and you feel threatened, then what about him? What about Henry Zhang?"

Cody stretched out his only arm and pointed to Henry, saying, "What is he?!"

"He!" Bryce was stunned. If Cody was a threat, what about Henry? He was a much bigger threat than Cody's. In such a small city like Yinzhou, a horrible master was hiding. What was his purpose?

Cody let out a low laugh and said, "Do you know why I was looking for this man?"

"Why?" Bryce asked subconsciously.

"Because he has a source of power!" Cody gritted his teeth and stared at Henry with hatred and unwillingness in his eyes. "That kind of source can be comparable to a nuclear power plant, but its size is extremely small. We call them Fire Crystals!"

"What!" Bryce cried out.

"Bang!" A clear explosive sound could be heard.

Henry stepped on Cody's head and it completely exploded like a watermelon, with a lot of red and white things splashing around.

"That's a lot of nonsense." Henry kicked away Cody's lifeless steel body and staggered out of the warehouse.

After Henry left for five or six minutes, Bryce struggled to get up. Among the seven people in his team, his injury was the lightest.

Bryce looked at the scene inside of the warehouse. The red and white things were splashing everywhere. The bodies of people in white lying on the ground made the warehouse look like a purgatory. But now, what he cared most was what Cody said before his death.

Fire Crystal! The Lins had Fire Crystals!

Bryce had heard about Fire Crystals.

Bryce took a deep breath and felt the extreme pain in his chest. It was

impossible for him to make any big movements. He took out his cell phone with difficulty and dialed a number. "We need backup, No. 17 Beaver Street."

Henry left the warehouse, looked back, shook his head, and murmured, "This Cody, he learned a lot of things before he died. He wants to deal with me with the help of the Sharp Knife, but unfortunately..."

Henry's face showed that he didn't care. The Sharp Knife could not threaten him at all. If Cody wanted to use the Sharp Knife to deal with him, there was no hope for them.

At this time, it was already past nine o'clock in the evening, and the sky had completely darkened. During autumn, the wind carried a trace of coolness.

Henry took out a folding mask from his trouser pocket and put it on his face. Then he waved to the dark, and a figure appeared in front of Henry and knelt on one knee.

"My lord, do you need me to deal with the people inside?" The black shadow was a little fat, and he raised his head. He was the person in charge of the affairs of in Yinzhou. He was the fat man who made people feel greasy at first glance, but now he didn't have any sense of grease at all. On the contrary, his whole body radiated a kind of chill and he held a sharp knife in his hand. His eyes alone were enough to make people scared.

"There's no need." Henry shook his head. "Get someone to investigate Noble Berserkers. Also, arrange three hundred people to be on standby in Yinzhou."

"Got it!" The man nodded his head and then disappeared in the darkness at an extremely fast speed.

Henry took off his mask and looked at the warehouse behind him. He muttered, "You should be glad that Noble Berserkers saved your lives!"

Today, what Henry had done by using the Sharp Knife as bait, was not as simple as what he said. When Henry did things, it could be said that he considered many aspects and thought a lot. But sometimes, he was cruel and merciless. Even the biggest villains could not be compared with him.

In Henry's original plan, he was not just planning to use the Sharp Knife's men as bait, but he was planning to completely sacrifice them!

Chapter 641

Cody's sudden appearance and his direct request regarding Fire Crystals made Henry realize that there was someone who dared to come after Radiant Island. Henry had expected this kind of thing. No organization could stand on top all the time and constantly make people fear them.

Back in days, The King Region was like the sun at high noon, known as the most invincible ruler in the underground world. But Henry was different from others. He led a group of brothers and started a revolution against The King Region.

In this world, people with courage were never lacking. There were too many people who dared to fight. The so-called peak was just a goal for the later generations to surpass.

At that time, The King Region was replaced by a group of brothers led by Henry. Now, there were naturally some people who wanted to replace Radiant Island.

Henry's intention was to use the members of the Sharp Knife as bait, and during that, he would take the opportunity to find Sylvia. After that, there would be two outcomes.

First, the members of the Sharp Knife would be killed by Cody, because they were no match for him.

Second, after Henry rescued Sylvia, he would kill Cody with his own hands, and then killed the members of the Sharp Knife.

Either one of these two outcomes would make the people from the Sharp Knife take the initiative to investigate the force behind Cody. Henry could benefit from it and inquire about information. It should be known that if a country's mechanism were to be used, it would be amazing.

Although Radiant Island was powerful, Henry did not think that they were the best in everything. Henry might not be able to find out what could be found by officials in China. It was not easy for China to stand on top of the world.

But when those white-robed men appeared and announced that they were members of Noble Berserkers, Henry decided to do nothing to the seven people with from the Sharp Knife. He was sure that they would mention Noble Berserkers to their superiors. Their superiors would react in the first time. After all, it would be a good thing to have some help in dealing with their enemies.

On the way home, Henry saw police cars whistling with sirens heading for the warehouse.

At 9.30 pm, lights on the street were not turned on yet. And the whole street was extremely dark.

In front of the warehouse No. 17 of Beaver Street, police cars stopped here. The police officers handled the corpses in the warehouse. Several ambulances stopped at the side. Bryce and others lay on stretchers and were transported to the ambulance. An unknown man was commanding the scene. Director Richard just followed the man and listened to his command.

When Bryce passed by the man, he suddenly reached out his hand and grabbed man's shirt. "Hurry up, contact the head team!"

"Call the head team?" A look of doubt appeared on the man's face. "You know, if the matter is not important, we can't contact them casually."

"Of course I know, but..." Bryce wanted to say something he didn't. He looked at Director Wei, who was next to the man.

Director Wei nodded immediately. He shouted to the side and then strode away.

After Director Wei left, Bryce rushed to the man and said, "I got a reliable news that the Lin Family in Yinzhou has Fire Crystals!"

"What?!" A surprised look appeared on the man's face. The word "Fire Crystal" represented too many things. After a long time, the man came to his senses. He rushed to Bryce and said, "I'll inform the headquarters now and you go to the hospital to recover first. Later, you need to make a detailed report."

"Alright." Bryce nodded.

In a building on the opposite side of Beaver Street, two figures stood by the window. Each of them held a pair of binoculars in their hands, and they could clearly see what was happening in front of the warehouse.

Both of them were extremely beautiful. One of them had long black hair and embroidered black lace stockings covered her long legs. She was wearing a white mask with an angel's face on it. Cody's broken body was enlarged in her pupils through the binoculars. "Hey, it seems that this kind of strong material still can be damaged by Qi."

"It's not that material isn't good, it's that your people are too weak." The other figure had shoulder-length silver hair. She had a different type of charm from the masked woman. It could be seen that she used to be an owner of one of the ten King's rings. "One's own strength is always the most important thing."

The voices of the two women were different, but they were equally pleasant to listen to.

The black-haired woman laughed out loud. "Haha, Cesia, you are right. I will report this matter to the Lord, including..." The black-haired woman's voice suddenly raised. "You sent someone without authorization!"

Cesia smiled faintly. "I sacrificed twenty-one of my men to save your experimental body. In the end, did I do anything wrong?"

"Cesia, you and I both know what the other is thinking. Do not let me grab hold of your weakness!" The black-haired woman fiercely flung the binoculars in her hands towards the ground, and then turned around and left with large strides.

There was still a smile on Cesia's face. Looking out of the window, she murmured, "Brother Henry, there are more and more things appearing in front of you. What will you do?"

In the Luxury Village, the lights were turned on in a villa.

When Henry got back home, he saw that the lights in the living room were on. Through the half-open window, he could hear the sound of children's program from the TV.

Henry speculated that Sylvia might have already woken up.

Henry opened the door. As soon as he entered the living room, he saw Jenny and Sylvia sitting on the left and right side of Lisa and watching cartoons with her.

When Henry entered the room, the three women in the room turned around at the same time and looked at Henry.

"Dad is back!" The first person to speak was Lisa. She jumped down from the sofa, barefooted, and ran excitedly to Henry. She opened her hands and asked Henry to hug her.

Henry smiled and picked Lisa up.

Sylvia and Jenny also stood up from the sofa at the same time. Sylvia smiled at Henry, and her smile was as beautiful as a blooming flower. "What a pity. The food on the table is cold."

Sylvia's expression was calm like she was not kidnapped a couple of hours ago.

Henry looked at the woman's calm look, and his heart was full of apologies. When he was on Radiant Island, Henry made a promise to Sylvia. He said that he could fight against the whole world just for her. Everyone envied Sylvia for having such a man, but no one thought of the bitterness in Sylvia's heart.

Henry clearly knew that after Sylvia had learned about his identity and had decided to stay with him, she had already made preparations to become a king's wife. In order to get something, she had to pay some sacrifice. Sylvia could have continued to be the head of her company

and live a safe life. But now, she had to face too many dangers. This kind of kidnapping was just a child's play. No one could tell what she would face in the future. But looking at Sylvia's current performance, it was obvious that she had been ready to accept the unknown future and was ready to face any danger.
