

Chapter 656

Sylvia's words were like a bomb thrown into the crowd.

Ernest and the other people all opened their eyes wide at this moment.

Honey? This man was the husband of the president of Lins Group?! Wasn't this too unbelievable?

Ernest couldn't imagine that Henry had such an identity. But now the facts were in front of him and he had to believe it!

Did he just publicly mock the husband of the president of the Lins Group?

Although Ernest just showed that he was very powerful in Yinzhou, he was quite self-aware when facing the Lins. Forestics Company that he often talked about was nothing compared to the Lins.

Leland, who was sitting in his company, looked pale as he saw what had happened in front of him. Chows', Hengyuan, and the Lins, all of them were existences that could crush him like a nonentity!

Henry looked at the scene in front of him. Needless to say, it must be Sylvia who spread the news that he was going to open a company. Henry saw that there were many small companies' representatives behind the Lins' motorcade. They were all here to congratulate.

Henry said with a wry smile, "Honey, you don't need to do these things. You also know that my security company..."

"There should always be some ceremonies. My husband is opening a company. How could I, as a wife, stay quiet and not give any gifts?" Sylvia smiled sweetly at Henry, and then took out a box of roses. There were nine roses in total with no branches, which were put in a transparent gift box, and the box was marked with the price of 999 yuan.

When Henry saw the box of roses taken out by Sylvia, he couldn't help smiling slightly. "My dear, do you also like the things that other little girls like?"

The box of roses that Sylvia took out was the Immortality Flower which was very popular online.

Sylvia rolled her eyes at Henry. "What do you mean? Am I not a little girl?"

"No, no, that's not what I meant." Henry waved his hand repeatedly.

"Hum!" Sylvia snorted and handed the box to Henry.

"Thank you, honey." Henry smiled. He looked around and wondered, "Where's Lisa? You two came here, but she didn't come out with you?"

"She went to the Spring residential home to play with Dean Cui," Sylvia explained.

Henry nodded.

Danny came over from the side, walked up to Ernest, and said, "I just heard you say that whoever cooperates with Mr. Zhang is making trouble with your Forestics Company, didn't you? Now I'm going to make trouble with your Forestics Company. What are you going to do? And Angel Technologies. And Lioness Enterprises. Since you are so arrogant, do you intend to do anything to the Chows'?"

Danny was very clear when he pointed out all the people who were shouting at the entrance of Henry's company.

Hearing Danny's words, these people keep breaking out in cold sweat.

"Master Danny, it's a misunderstanding, a misunderstanding!" Ernest apologized repeatedly, and he hated Leland very much in his heart. If it weren't for him, he might have not been involved in this matter!

"Misunderstanding?" Sylvia's face was cold. She said to Cathy, the secretary, "Secretary Lee, remember all these people present. From now on, all those who cooperate with them are not welcomed to our Lins Group!"

Secretary Lee nodded.

"Hengyuan as well," added Jenny.

"Chows' as well." Danny did not forget himself.

Now, these were the largest three enterprises in Yinzhou. If they all wanted to shut down an enterprise, there would be no other way out for the enterprise to survive!

The scene in front of them made Ernest's face look as if he had eaten a fly, which was extremely ugly.

These people almost subconsciously turned their heads and looked at Leland. All of this was caused by him!

At this time, Leland's face was pale and he was trembling all over. He didn't dare to sit at the door of his company any longer. He hurriedly sneaked into the company and closed the door.

However, the closed door could not stop Ernest's anger. Their brotherhood was built on wine and meat. Now that such a thing had happened, who would care about whether they were close or not.

"Leland, get the f*ck out!" Ernest rushed to the door of Leland's company and kicked on the glass door of Leland's company. The glass door, which was not very secure, was kicked open by Ernest.

Under his leadership, everyone rushed into Leland's company and shouted at him. They wanted to get even with him.

On the other side.

The older man said to the young man beside him, "It seems that you have really kicked the iron plate this time. You should pray that he won't take it against you, otherwise..."

The man didn't finish his words and shook his head, but his meaning was obvious.

The youth's legs were turning soft.

For Leland, what happened here might be a well-planned conspiracy. For Ernest and his people, it was a scene that had changed their lives, but for Henry, it was just a small episode.

Many small company's principals came to congratulate Henry. Henry's company was probably the most powerful store in Yinzhou. The flower baskets and pots sent to him created a small garden at the entrance of Henry's company.

It was an opening ceremony, which Henry did not intend to hold. It was not until noon that Sylvia and the others left one by one.

Compared with the grand opening of Henry's company, Leland's company had long been smashed by Ernest and his angry men.

The 300 people arranged by Henry also reported and filled in the materials in the company. Henry didn't need to worry about these things at all. The people he called were all elites and disciplined.

After everything was settled, it was already two o'clock in the afternoon. Henry simply prepared to close the company's door. When he was just about to close the door, Henry received a call from Anna.

"Mr. Zhang, I just heard that you are opening today, and I'm calling a bit late. Please forgive me." Anna's laughter sounded on the phone.

Henry deliberately blamed her and said, "No, I can't forgive you. You are my boss anyway. You didn't call me immediately to congratulate. That's wrong. You should invite me to dinner next time."

"Haha, Mr. Zhang, I can't accept that honour. But I will treat you to dinner. By the way, I forgot to tell you something last time."

"What's that?"

Anna said, "A five-star security company has to take part in grading once a year, but there are tasks that should be completed every year, especially for the branch company. As for you, you must complete thirty-six grading security tasks in a year so that the grading can be preserved."

"Is there such a thing?" Henry was puzzled. He had never heard of it.

Chapter 657

Anna explained, "Mr. Zhang, it's not written in official reports. It's normal that you don't know it. It's a hidden rule in the industry. But there are only thirty-six grading tasks every year. It's not difficult to complete. Three per month. After all, there are only one or two five-star security tasks in each province. I will send you the specific tasks later."

"Okay." Henry nodded.

After the call with Anna, Henry could not help but sigh. This is really a constant principle of the world. If you wanted something, you had to do something in return. The tasks should be completed. Otherwise, the official would have an excuse to bother you.

Originally, Henry wanted to recruit a receptionist a few days later, but now it seemed that it had to be done as soon as possible. It was impossible for him to stay in the company all the time.

Henry closed the door of the company. He remembered that there would be a large recruitment fair in two days. Maybe he could recruit someone at that time.

After checking the time, Henry planned to buy something for the children of the Spring residential home first, and then he would pick Lisa up.

Henry walked to the mall. When he was about to enter the door of the mall, Henry suddenly stopped and walked toward the underground garage.

The underground garage looked dark, and there were a lot of cars parked in it. Henry stepped on the ground with echo.

"Alright, just come out."

When Henry walked to a position which he did not check before, he suddenly stopped.

"Ha-ha, you are quite vigilant." A sneer sounded behind Henry. It was a middle-aged man in his forties, wearing black combat boots. He was looking at Henry with a relaxed look. He was the vice-captain of the Sharp Knife, Keaton Chan.

Henry shrugged his shoulders and said, "There's nothing we can do if we're not alert. You've had an intention to kill me at least three times along the way. What can I do? Should I just stretch my neck out for you to kill me?"

Keaton snorted, "Henry Zhang, don't talk to me like that. I know you have some strength, but I'm not afraid of you. The so-called strength of yours is nothing in front of the Sharp Knife!"

"The Sharp Knife?" Henry smiled in his heart. When Cody had told Bryce about Fire Crystals before his death, Henry had known that the Sharp Knife would look for him. Henry expected to see the person from the Sharp Knife three days ago. Henry didn't expect that he would come here today.

Henry deliberately asked, "The Sharp Knife, why are you looking for me? I didn't do anything wrong, did I?"

Keaton sneered and said, "You should know that an ordinary man can get into trouble because of his wealth. The Lins are just an ordinary company, but you've taken what doesn't belong to you. I don't need to tell you what exactly it is. Give it to me!"

"Why?" Henry was puzzled. "Should we give the things that belong to us to the Sharp Knife?"

"Yes!" Keaton nodded. "From today on, it belongs to us. It doesn't belong to the Lins. Hand it over!"

Henry looked at Keaton and fell into silence. He was thinking about something.

Keaton threatened, "Henry, I advise you to think about it carefully. Don't think that you can go against us. You, a small Family Lin, can't deal with the consequences! Your strength is nothing in front of the Sharp Knife!"

"All right!" Henry let out a long sigh of relief. "I can give you the thing, but I need to arrange for someone to bring it to me. I can give it to you tomorrow morning."

"Tomorrow?" Keaton narrowed his eyes and looked Henry up and down. At the same time, he was considering the authenticity of Henry's words.

Henry said, "Since you know about Fire Crystals, you should know how valuable it is. I can't take it with me all the time. I'll give it to you tomorrow morning. What do you think?"

Seeing Keaton still didn't believe him, Henry said again, "Don't worry. Since I've promised you, I won't go back on my word."

"I don't think you will dare!" Keaton snorted coldly, "Tomorrow, I will look for you. As long as you dare to play tricks, there will be some consequences!"

After saying that, Keaton strode away.

Looking at Keaton's back, Henry took out his mobile phone and said, "Future, bring a small piece of the Fire Crystal to Yinzhou. Yes, and spread the word that Radiant Island gave the Fire Crystal to the Sharp Knife to keep it safe."

The fact that Henry was willing to give the Fire Crystal to the Sharp

Knife showed that he had ulterior motives. Now, with the sudden appearance of the force called Noble Berserkers, Henry was wondering if their goal was to obtain Fire Crystal or Radiant Island.

After all, in the battle on the island, the people who came were so powerful that they could take away the Fire Crystals and leave. Henry was confused. Was the other party being self-conceited or for some other purpose?

This time, the Sharp Knife just happened to get involved. It was not bad to use them to test the attitude of Nobel Berserkers.

Henry left the garage and went to the mall to buy some things according to the original plan. He went to the Spring residential home to see the children. When Sylvia was about to get off work, he took Lisa back and bought some vegetables. When he got home, he went into the kitchen.

When Sylvia and Jenny returned home, they saw Lisa sitting on the sofa and watching cartoons, as well as Henry in the kitchen.

The fragrance from the kitchen made Sylvia's heart filled with the warmth of home. But she didn't know how long such days would last. Because she knew that Henry could leave at any time and do dangerous things that she didn't know. So, every minute when she was with Henry, Sylvia would cherish it.

The next morning.

A private plane landed in Yinzhou and Future. wearing a white Han suit, went out of the airport.

"Boss, I'm here. Where are you?" she asked, holding her headset.

"I'll send you the address."

At this time, Henry, who was in his company, sent the location to Future.

"Boss, what's wrong with you? Are you a receptionist?" Future saw Henry, who was sitting at the entrance of the company like a door-boy.

"Receptionist? This is clearly the company that I opened recently, okay?" Henry rolled his eyes. "You can tell Wade and others later that if there is any security task that is slightly more difficult, I will look for them. I have to take thirty-six tasks this year."

"Okay." She nodded and took out a Fire Crystal the size of a fingernail from her pocket. This one probably accounted for one percent of the amount that Radiant Island had.

When she took out the Fire Crystals, Future deliberately took a look at Henry. In Henry's eyes, there was a trace of greed. The greed flashed away, and even Henry himself did not notice it, but it was clearly captured by Future.

"Boss, why do you suddenly want this Fire Crystal?" Future did not hand the Fire Crystal to Henry immediately.

Now she had entered the Qi-controlling Realm, and her perception of Qi was very sensitive. After she entered the Qi-controlling Realm, Future had studied the Fire Crystals once again. She came to an extremely shocking conclusion regarding the red airflow.
