

## Chapter 660

Henry listened to Sylvia's question and said, "Honey, I always pick up people alone."

Sylvia gently covered her forehead with her jade-like hands. "I specially arranged people from the Public Relations Department to go with you. As a result, you went there alone. This Jessica is famous. Did you have any conflicts with her?"

"There was no conflict. I feel that the leaders of other countries that I have met before don't have this many bodyguards."

Sylvia covered her mouth. Just as she was about to speak, she heard a scream from the side.

"I don't care! It's up to you to decide how to handle that driver. I don't want to see him again!"

The owner of the scream was Jessica.

Sylvia looked at Henry with some unnaturalness in her eyes. "Didn't you say there was no conflict?"

"Um..." Henry shrugged. "Perhaps our definition of the conflict is different."

"Well, well, leave it to me. President Qin and I will not go back for dinner tonight. We have to accompany Jessica. It's better for you not to see her today." Sylvia waved to Henry and strode to the side.

"Where is Lisa?" Henry asked from the car.

"She will be with us," Sylvia replied without looking back.

"All right."

After putting the car in place, Henry simply returned home wanting to enjoy the rest of the day.

As soon as he entered the house, Henry received a message. Looking at the content of the message, Henry lay on the bed and sighed. "Alas, I don't have much leisure time."

The news Henry received was sent by Future. Future told Henry that many underground forces now already knew that Radiant Island had given a small piece of Fire Crystal to the Sharp Knife for free. In just a few hours, many forces had found the headquarters of the Sharp Knife, but they had not seen the traces of Noble Berserkers.

On the other side, after Keaton got the Fire Crystal, the first thing he did was returning to the capital. Without hesitation, he took the earliest flight.

The members of the Sharp Knife, including Bryce, went back to the

capital with Keaton, even though their wounds had not yet healed.

At 3:30 p.m., Keaton and the others appeared at the Capital Airport. Keaton had already prepared to give a report about the task. The small piece of Fire Crystal in his pocket was his capital for promotion.

As for Bryce and the others, on their way here, they had also thought about what kind of benefits they would get this time.

"Henry, you are really a treasure house!" Noelle sneered. Although she had been played by Henry this time, Henry had lost the most important thing- the Fire Crystal. In the end, she was still the one who had taken advantage of him!

Keaton showed a smile at the corner of his mouth. Just as he was about to walk out of the airport, several figures appeared in front of him and surrounded Keaton and others.

"Keaton!" A loud shout rang out.

Keaton and others looked at the person who shouted.

"Captain Wang!" Bryce and others were all shocked and looked at the person who spoke.

"Bradley Wang?" Keaton frowned. "What are you doing here? From the looks of it, you're here to block my way?"

Bradley Wang, whom Keaton mentioned, was the captain of the Sharp Knife. He held the Sharp Knife in his hand.

There were five elite team members following Bradley. At this moment, they formed a semi-encircled formation and blocked the way of Keaton and the others.

"Keaton Chan, come back to the HQ with me!" Bradley scolded.

"Why?" A hint of disdain appeared in Keaton's eyes. At this moment, in Keaton's heart, the captain of the Sharp Knife was not surnamed Wang anymore. It was him. Naturally, there was no need for him to listen to Bradley anymore.

"Why?" Bradley stared at Keaton and said, "Because this is an order, come back to the team with me!"

"If not?" Keaton clenched his fists.

Bradley's eyes suddenly became sharp. "Leave the Sharp Knife then!"

Keaton clenched his fists even harder. He stared at Bradley. He guessed that Bradley must have gotten some information and knew that he was a threat to his position, so he deliberately set this up to trick him.

Keaton's chest kept rising and falling. He stared at Bradley for more than ten seconds and then loosened his fist. "Okay, I will go back with you!"

The headquarters of the Sharp Knife was not in the capital city but in the rainforest of Yun Province.

A special helicopter took off from the capital's airport. Keaton, Bryce and others took off again before leaving the capital's airport.

Inside the helicopter, Bradley paced back and forth in the cabin. He glanced at the members of the team led by Bryce and said in a low voice, "What else have you done except for completing the task this time? Bryce, give me a report. Don't leave anything out. Everything is important!"

Bradley stared at Bryce.

Bryce subconsciously looked at Keaton. When he saw Keaton's hand gesture for silence, he took a deep breath and said, "Captain Wang, we chased the fugitive around four cities this time, and finally killed him in Yinzhou. During this time, three times..."

"Get to the point!" Bradley suddenly roared, "I said, in addition to completing the task, what else have you done?"

Bryce replied, "Captain Wang, after the mission was completed, we were all recovering at Yinzhou City Hospital."

"Really?" Bradley looked at the rest of the members of the team, "Except for completing the task and healing the wounds, you didn't do anything?"

Noelle and the others looked back and forth and shook their heads.

"Okay." Bradley clapped his hands. "Keaton, why did you go to Yinzhou this time?"

Keaton crossed his legs and sat on his seat. "The team members were injured. Is it wrong to go and pick them up?"

Bradley sneered. "You should have returned to the headquarters after picking them up. Why did you take them to the capital?"

"Bradley, what do you mean?!" Keaton suddenly stood up and looked straight into Bradley's eyes. "Are you deliberately making things difficult for me? Why do you have to interfere with my actions? If you have any dissatisfaction, pull it out and I, Keaton Chan, will take it!"

Bradley looked at Keaton and shook his head. "I am not dissatisfied with you at all, but..."

"But what?" Keaton took a step forward and stared at Bradley from a close distance.

Bradley smiled and said, "You'll know soon."

They were flying at an extremely fast speed. The Sharp Knife's headquarter was extremely hidden in Yun Province. Even the locals of Yun Province didn't know there was the Sharp Knife around. Although the Sharp Knife had an official background, it was an underground

force after all. Naturally, it would not easily show up in front of ordinary people.

In the rain forest of Yun Province, there was a sinkhole, which was surrounded by natural barriers. The official ban prevented people from entering.

Waterfalls were falling around the pit. Amidst the silvery- white surroundings, there was the headquarter of the Sharp Knife.

The Sharp Knife headquarter was divided into two parts, above the ground and underground. When the helicopter reached the top of the sinkhole, it could be seen that the whole sinkhole had collapsed halfway, and thick smoke rose from the Sharp Knife headquarters

## Chapter 661

The thick black smoke rushed into the sky, and the buildings on the ground of the Sharp Knife base were all turned into ruins.

On the plane, Bryce and the others were staring blankly at what was happening in the base.

"What the h\*ll is going on?"

Even Keaton, at this time, was staring at the base below the plane.

Looking at Bradley's expression again, it seemed that he already knew about it.

The helicopter slowly landed. Originally, there was beautiful scenery around. At this time, the pit collapsed and the waterfall was blocked. The original green mountains and beautiful rivers turned into ruins and mud. In the air, there was a strong smell of gunpowder.

Everyone got off the plane.

"What the h\*ll is going on?" Looking around, Bryce found that this was the headquarters of the Sharp Knife. How did it become like this?

Bradley walked in the forefront and looked back at Keaton and the other eight people. "I will ask you one last time. What did you do this time in Yinzhou?"

"Captain Wang, we really don't understand what you mean." A member of Bryce's team said anxiously.

"You don't understand?" Bradley rubbed his fingers. "Then let me give you a hint. Who took something that does not belong to him?"

The seven members of Bryce's team were shocked by Bradley's words, and Keaton's face also became somewhat unnatural. He had guessed that Bradley might stop him because of the Fire Crystal. Now he realized that it was true.

Bradley glanced at them and said, "I hope you can tell me the truth."

Keaton shook his head. "I don't understand what you're talking about."

There was a trace of disappointment in Bradley's eyes. "Since you don't want to say it, then don't blame me."

Keaton's body suddenly tensed up. "Wang, do you want to fight with me?"

"To fight with you?" Bradley shook his head and said, "Don't worry. It's not me who will do that. It's them!"

As soon as the words left Bradley's mouth, three figures suddenly shot toward Keaton.

The three figures moved extremely fast and brought a lot of power,

which made Keaton's face change dramatically.

Keaton did not have time to think too much. He threw himself forward and rolled on the ground to avoid the sudden attack of the three figures.

Only then did Keaton have the time to look at the three figures. He gritted his teeth and said the identities of the three figures, "Japanese Secret Killers, American Hidden Assassins, and Italian Devil Warriors!"

The identities of the three figures who had just rushed toward Keaton were clear.

After seeing the three people clearly, Keaton shouted to Bradley, "Bradley, are you just going to let other countries' forces attack the Sharp Knife?"

"It's not whether he agrees or not, it's that he can't do anything about it!" Another voice rang out, and then several figures descended in succession in front of Keaton, surrounding him.

Keaton's eyes swept over these people one by one, and he called out their identities, "French Guardians, British Protectors, European Knight Association..."

The identities of these people who appeared in front of Keaton were equal to Chinese the Sharp Knife. Now there were so many people gathered in the Sharp Knife. Looking around the pit, it had become a base on the ruins. Anyone with a little bit of wisdom could think that it had something to do with these people.

A dozen figures surrounded Keaton. Looking at these figures, Keaton did not even have the will to resist.

Keaton stood up and shouted, "You unilaterally broke the rules. You broke into our Sharp Knife's headquarter, and violated the underground world regulations!"

"Hehe." A man from American Hidden Assassins said, "You Sharp Knife is probably no longer within the protection range of the underground world."

"It's an organization that is about to be destroyed. What agreement are you talking about?"

"It's so funny!"

One person after another spoke. Keaton was confused as to what they were trying to say. The Sharp Knife would be destroyed?

Keaton looked at Bradley and found that he was looking at him coldly.

"Bradley, as the captain of the Sharp Knife, are you going to let these people in and out of the Sharp Knife headquarter at will?"

"Keaton, you broke the balance of the underground world without authorization, attracting the enemy to the Sharp Knife. Do you know

that I could kill you at the capital's airport?" Bradley walked up with a cold face. "I'll give you a chance to hand it over now!"

"Heh! Heh heh!" Keaton sneered and said, "Bradley, I am really ashamed of you, the captain of the Sharp Knife. I just took a piece of Fire Crystal. How can you tell that I am luring the enemy to the Sharp Knife?"

Keaton put his hand into his pocket. Then, he took out the Fire Crystal the size of a fingernail. As soon as the Fire Crystal appeared, the eyes of the people around Keaton showed a trace of greed. However, deep in the greed, there was a deep fear. Because everyone was very clear that this Fire Crystal did not belong to any force present.

Keaton held the Fire Crystal in his hand and said, "What's wrong, Bradley? Did I disturb you because I got this Fire Crystal? Do you think that you can keep your captain's position?"

Bradley listened to Keaton's words and shook his head silently. "It seems that you still don't know how wrong you are!"

"Wrong?" Keaton smiled. "Did I do the wrong thing by getting the Fire Crystal?"

"Yes!" Bradley shouted, "You've done something wrong. You've made a big mistake!"

"Ridiculous!" Keaton shouted loudly. "You should have given me some contribution for bringing here the Fire Crystal, but in your eyes, it's a big mistake?"

"It's good for you to take the Fire Crystal, but you shouldn't have taken the Fire Crystal from Radiant Island. Is that something you can get your hands on?" Bradley asked loudly.

"Radiant Island?" Hearing these three words, Keaton's eyes couldn't help but reveal a hint of respect. "What about Radiant Island?"

"Keaton, don't pretend anymore." The man from American Hidden Assassins took out a cell phone and played a video. In the video, it was a scene where Keaton snatched away the Fire Crystal from Future's hands.

"The Fire Crystal of Radiant Island are given to the world, not to the Sharp Knife alone. I hope you can give them to me!" the man from Hidden Assassins said.

"Hand it over!" The person from Secret Killers also said.

"You've already taken the Fire Crystal for a few hours. It's time to give it to us!"

All the forces started to speak. Although they said so, none of them really wanted this Fire Crystal. Because everyone was very clear that if this Fire Crystal fell into the hands of any of them, they would be

attacked by all of them. In this world, only Radiant Island was in charge of the Fire Crystal. This was a tacit agreement, but now the Sharp Knife had broken this tacit agreement!

"Keaton, did you really expect that you would be able to take the Fire Crystal from the hands of a person who holds King's Ring, the Lord of Radiant Island?" Bradley stared at Keaton.

Keaton panicked. "I don't understand what you're talking about. I obviously got it from the Lins Group."

Bradley lowered his voice and said, "Sylvia Lin, the head of Lins Group, is the wife of the Lord of Radiant Island, the wife of the King of Hell!"
