

## Chapter 666

Katie glanced at the group of people from the Lins Group and said coldly, "I tell you, if anyone dares to say a word, don't blame me for being rude!"

"Oh?" Henry smiled softly. "How rude can you be?"

Katie's expression changed. She really didn't know what she could do to the Lins. She just said it casually because she was used to being arrogant.

"Secretary Lee, go!" Henry ordered again.

Seeing Secretary Lee walking out, Jessica immediately became anxious and shouted, "Let me tell you, there are some things that everyone knows well. It's not good for anyone to make me angry. Don't forget, I'm the spokesperson for the latest product of your company. If I'm not perceived in a positive light, you're also at a disadvantage. On the contrary, the better my reputation is, the more benefits I will bring to you. Now we're on the same page!"

At the same time, Katie took the opportunity to step down from the stage and said to Sylvia, "President Lin, we are now cooperating with each other. To do business, the most important thing is to be in good spirits and make money. We are all here to make a living. There is no need to be so rigid. I think, instead of competing, it's better to think about how to solve this problem."

Sylvia looked at Henry with some embarrassment. The Lins Group could afford the endorsement fee this time, and they were not afraid of losing money. But if the Lins Group wanted to find someone else to speak for them after this incident, there would be a risk that no one in the industry would dare to cooperate with the Lins Group for a while. This was not good news for the future development of the Lins.

Henry sighed and no longer said anything.

Sylvia smiled apologetically at Henry. She turned around and asked the PR manager, "How are the things on the Internet? Is the following high?"

The PR Manager nodded with a serious face, "The following is extremely high. I feel that someone is deliberately adding fuel to the fire."

Sylvia took a deep breath and thought about it. No popular star had ever talked so much in front of so many media reporters. This time, she was noticed by others and attracted a lot of attention. There were many people who wanted to make Jessica lose her reputation.

Jessica said, "I tell you, no matter whether the following of this matter

is high or low, even if only one person is watching, I can't just let it go. I must find a way to solve it. You go to the hospital and find some cases. You can tell me that I cured them. You can bribe the medical hospital easily. That is what you should do."

Sylvia walked to Henry's side, pulled Henry's sleeve and whispered, "Honey, do you want to help her?"

Henry gave a wry smile and said, "Dear, it's not that I don't want to help her, but I can't help you with this matter. I can find a master of disguise to pretend to be her, but now I don't have enough time. It will take at least half a day for me to find that person."

"That's not necessary." Sylvia waved her hand. "Listen to the reporters' questions and just tell her what to do through the headset."

"Is that all?"

"Just try your best." Sylvia sighed. "No one would expect her to suddenly say such words in front of the reporters. Her social media fans have increased a lot, and her followers will soon reach the top of the search page."

"Fine, my dear." Henry agreed.

"Honey, thank you." Sylvia grabbed Henry's hand and smiled sweetly.

After talking to Henry, Sylvia walked to the side and told Jessica the plan.

When Jessica heard that she was going to cooperate with Henry, her face looked very bad. She crossed her arms in front of her chest and said, "Tell him not to talk nonsense. His voice makes me sick!"

Sylvia took a deep breath and suppressed the anger in her heart. If it wasn't for her grandfather's efforts, she would definitely have told Jessica loudly to get out of here.

Henry curled his lips and took the headset handed over by Secretary Lee. Without saying a word to Jessica, he went to the side and waited.

Jessica also put on the headset, tidied up her makeup, and opened the door of the dressing room with a smile on her face. She walked out of the hall on the third floor and appeared in front of the cameras and reporters. At this moment, Jessica didn't look as arrogant as she was just now.

"Everyone, I'm really sorry. Jessica was a little uncomfortable just now, but she is okay now. If you have any questions, please ask. But there are only ten minutes left. Reporters and friends, please don't mention any complicated questions." Katie also appeared in front of the camera with a kind appearance.

"Jessica, you said that you used to study surgery and medicine, but your resume doesn't have any records about this aspect." A reporter

asked.

Jessica smiled slightly and said, "I studied medicine by myself in my spare time, because my long-cherished wish since childhood is to be a doctor."

"Wow, self-taught, Jessica is so great!"

"So great!"

In this press conference, not only were the reporters present, but also Jessica's fans. When they heard the answer from Jessica, they immediately burst into exclamations.

Jessica listened to the screams and exclamations of her fans, and her smile grew brighter.

"Jessica, may I ask, what kind of method is the right for this case?" another reporter asked. "A patient is in total anaesthesia. During lung surgery, there is a sudden shudder in his body. What should you do?"

This question could be said to be very professional. If one had not studied medicine before, they would not be able to answer it.

Jessica smiled and said, "You can use electric defibrillation."

This answer, of course, was from Henry.

After Jessica answered, she said to the reporter, "My friends, if you question my medical skills, you don't need to ask me these simple questions. Just ask me some difficult questions."

"A simple question? Jessica, as far as I know, the question just now was a question from the test six years ago. It is very professional. If you say that this question is simple, what question is difficult in your opinion?"

"Difficult?" Jessica tilted her head and thought for a moment. Then she smiled and said, "I'm sorry. I don't think it's difficult for me to solve medical problems."

Jessica's confident answer caused cheers from fans outside the hall.

Some reporters asked questions again, but they were easily answered by Jessica.

"Jessica, if one day you suddenly see a patient on the street, would you save him?"

"Of course. A doctor's benevolence is to save lives. Being a doctor is my dream. If one day, people don't want to see me on the big screen, I will definitely become a doctor," Jessica replied without hesitation.
