

Chapter 674

These faces were often seen on TV, and at this time, they entered the set one by one. Countless fans would scream when they saw one of them anywhere. For their concerts, fans would fly from one continent to another. At this moment, more than twenty people appeared. Each one had a very high status. In the entertainment circle, each one had achieved some kind of a milestone. An actor, a singer, a musician... No matter reputation or a number of fans, they were all superior to Jessica.

Just now, people in the crew heard Sylvia say that some artists would come to re-shoot the endorsement advertisement. They originally thought that they were the second or third-class stars hired by the Lins Group in a short period of time, but no one thought that they were the world's top superstars, and more than 20 of them came at such a short notice!

Even the directors, who were used to seeing celebrities, trembled a little when they saw such a lineup.

Jessica swallowed hard. Just now, she was shouting that whoever wanted to cooperate with the Lins and accepted to be the Lins' spokesperson was trying to make things difficult for her. Now that so many people had come, even if one of them would say something to Jessica, Jessica's future would come to an end.

"It seems that there are a lot of people have something against you. Do you want me to inform them one by one?" Henry smiled at Jessica.

In Henry's smile, Jessica felt endless ridicule. She dared not to mess with these world-class superstars.

"Katie, quick, delete the post, delete the post!" Jessica's lips trembled as she hastily opened her mouth.

"No, I can't." Katie clicked hard on her mobile phone, and she was so anxious that she sweated profusely. "The company has limited the account authority. Only Tiffany can solve this."

"How is it going?" Jessica hurriedly asked.

Katie shook her head, with a bitter expression on her face. "Sister Tiffany has already sent a letter, read it yourself."

Jessica looked at the phone. When she saw what was displayed on the screen, her vision went dark and she stepped forward. If it weren't for Katie, she would have fallen to the ground.

"It's over, it's all over." Jessica murmured.

After Jessica's agency got control over her social account, it immediately sent a letter saying that the company would do its best to maintain the rights of the artists under its wings. It would also take measures to ask Lins Group for an explanation.

The way the agency dealt with it was the same as what Jessica had just thought, and they definitely supported her. But now the support was undoubtedly self-destruction. So many superstars were cooperating with Lin's company. Not to mention that the Lins invited these people, just the agencies behind these people would not ignore the letter sent by her agency. The agency behind her would face a devastating blow. Once the company had an accident, as the party involved, she would be the first to bear the consequences.

"It's over, it's really over." Jessica's eyes lost their colors.

Katie slowly let go of Jessica's hand. She knew very well that Jessica had completely failed this time, and there was no possibility for her to turn over. No company would dare to take advantage of this incident to hype

themselves. Affected by Jessica, the agency behind her would definitely get into trouble. There was no need to follow her anymore, it would only get her involved.

At this time, no one in the entire crew paid attention to Jessica. After all, compared with these superstars present, Jessica was just like an ordinary actor.

The director stood there and was stunned for a long time. He didn't know how to greet them. After all, there were too many superstars here. He couldn't take care of everything, but he didn't dare to neglect anyone.

Just as the director was still considering what to do next, Henry walked over with large strides.

"Come on, come on, don't just stand there. Take a look at the script and do makeup. Try your best to finish the work within an hour. Everyone is tired standing here all day, waiting to go home to hold their wives after work. Come on, come on, start working!"

Henry shouted loudly and kept clapping his hands, just like a kindergarten teacher educating children.

The director stood next to Henry and his heart tightened. How could he talk to these superstars like that? Just when the director thought these superstars would get angry, he saw that, according to Henry's words, they really took the initiative to pick up the script and put on makeup. They didn't resist at all. They even had tension on their faces, as if they had just entered for an interview.

Such a scene made the director have a sense of unreality. "Are these really superstars?"

Although they didn't know Henry's identity, they were very clear why they came here this time. In front of that force, what was the superstar status? It was something that could be taken away by anyone at any time.

The following shooting process was so smooth that the director couldn't believe it. All the superstars were obedient and positive, so it took them less than 40 minutes to finish the shooting.

A lot of reporters had seen many superstars take photos for the Lins. However, before the Lins' press conference, many people would focus on the Lins because of the appearance of these superstars. It was equivalent to winning the Lins' attention invisibly.

After Bianca finished filming, she contacted her agency.

Bianca's agency was the top one in the entertainment circle. When Bianca mentioned Jessica, the agency immediately promised Bianca that they would fully suppress Jessica and the agency behind her.

After what had happened, Jessica's future was doomed to be ruined. It was destroyed by her arrogance and she would not exist in the eyes of other people.

For what would happen to Jessica, Sylvia and Henry did not care at all. Even if Bianca did not deliberately suppress Jessica, based on the fact that Jessica tried to save the person at the entrance of the film city today, she would definitely be ridiculed by other companies. This lie was destined to be torn down. At that time, Jessica's reputation would be completely destroyed. Now, it just happened sooner.

By eight o'clock in the evening, when the advertisement filming was completed, everyone finished their work. Henry and Sylvia also drove home together.

On the way, the two of them were still discussing what to eat tonight. Just as they were about to say it, Wade called.

"Boss, something happened. You should come back to the island now. There are some extraordinary

discoveries regarding Yun Province." Wade's tone was very anxious. At the same time, his voice was very loud. Sylvia, who was sitting beside Henry, heard it clearly.

Henry turned his head and smiled bitterly at Sylvia.

Sylvia sighed. She had always been thinking that Henry could leave at any time.

"Stay safe."

Chapter 675

The two of them, who were going to go home, went straight to the airport.

A special plane took off from the Yinzhou Airport, and with a roar, rose into the sky.

Outside the airport, Sylvia leaned against the front of the car and looked up at the sky. The plane slowly disappeared from her sight. Sylvia sighed, took out the phone and dialled Victor's number. "Uncle, do you need me to go back now?"

The wind blew Sylvia's windbreaker.

Sitting on the plane and looking at the information sent by Wade, Henry frowned.

In Yun Province, there was a stone mountain that was about to be exploited, which was bought by Stone King from Yun Province. On the first day of mining, Stone King found that there was something wrong. All the stones in this mountain formed a weird position, like stars surrounding the moon, and they had a very strong magnetic power. There was no signal there, so Stone King immediately ordered the workers to stop mining and contacted Wade.

After so many years of stone gambling, Stone King firmly believed in many things. He knew that this stone mountain was not something that he could touch. In his heart, there was only one person who could touch it!

After Stone King contacted Wade, Wade immediately rushed to Yun Province. Wade didn't have so many worries like Stone King, and he opened a few stones on the spot. This caused Wade to lose his cool. This time, he opened less than ten stones, but he actually opened

up a Spiritual Stone!

Wade told Stone King on the spot that he should not tell anyone about this matter and contacted Henry at the same time.

There were more than ten hours of the time difference between Radiant Island and Yinzhou. After nearly ten hours of flight, Henry arrived at Radiant Island when the sky was about to get dark.

Wade and others had received the news that Henry was going to arrive, and they were all waiting.

When the plane landed and the cabin door opened, Henry strode out.

The people waiting by there were Future, Wade, Peze, and Stone King

Stone King was a nearly 50-year-old man. His hair was deliberately dyed black and he was dressed in a white shirt.

As Stone King had said, he lived according to God's will. His hair was dyed black, because he wanted to slow down the ageing and extend God's Will. Most people regarded this kind of superstition as a joke, but Stone King was confident in it.

"I didn't expect that such a big island is yours." When Stone King saw Henry, he said aloud. Wade did not tell him the true identity of Henry, and Stone King did not ask too many questions. He was a very smart person, and people like him had already seen through a lot of things. It was unnecessary to know too much about some people. Just like this time on the stone mountain, Stone King was curious, but he would not destroy it himself.

Henry smiled and said hello to Stone King, "I didn't expect you to have time to visit me."

"Haha." Stone King laughed out loud. "Back then, you destroyed a few of my stone mountains. I have to eat and drink more this time. How could I earn some money back?"

Henry was very clear that Stone King must have been asked by Wade to come here. If the stone mountain could really produce Spiritual Stones, it would be of great significance. Therefore, Wade's actions could be understood.

Although Stone King himself didn't know what the stone mountain was, from the attitude of these people, he could understand a little. He didn't care about it in his heart, so he simply took it as a fate.

This was the tacit understanding between adults. Everyone knew it in their hearts, but they wouldn't reveal it.

Henry chatted with Stone King and then looked at Future. "Has the result come out?"

"Mmm." Future, with a tablet computer in hand, nodded to Henry and said, "Half an hour before you arrived, we analyzed all the components of the stone mountain."

Future drew a data map on the screen and handed it to Henry.

Henry took a look at the stone mountain. It covered an area of three square kilometres and was 21 metres high. It was not a big mountain. On Future's data display, the whole mountain was interfered with by a strange energy. It was like a piece of clothing, wrapping the whole mountain from bottom to the top.

"Boss, this energy is exactly the same as the one in the Spiritual Stones. Its strength is unknown for the time being. Everything needs to be exploited more," Future whispered in Henry's ear.

Henry thought for a while and asked, "Did you send anyone there?"

"Yes." Future nodded. "We've already arranged for people to go there. Right now, we have sealed off that mountain completely."

"Okay." Henry waved to Future and others, "You go to work first, and I want to talk about the old days with my old friend."

Henry walked aside and held Stone King's shoulder. "Does anyone else know about the matter of this stone mountain?"

Stone King shook his head. "I didn't tell anyone about it, but one of my partners knew that I had bought a stone mountain. He doesn't know about the rest."

Wade, who was not far away, clearly heard his words. He took a look at Henry and saw that Henry was waving his hands behind his back.

"For the time being, there's no need to do anything." Wade lowered his voice and said.

A day passed on Radiant Island.

On a new day, the sun rose and shone on Radiant Island. Henry and Future came out of the laboratory together. The two of them studied the information about the stone mountain for the whole night. They analyzed it in many ways and finally refused the possibility that the stone mountain was fully made of Spiritual Stones.

Although the Spiritual Stone was wrapped in the stone, it could still produce a weak magnetic field. If the entire mountain was full with Spiritual Stones, the resonance of the magnetic field would undoubtedly be huge. Not only there would be no signal, but all the electronic facilities would encounter malfunction.

However, according to Stone King, they still used large

machinery on the first day of mining.

However, although the mountain was not full of Spiritual Stones, there would definitely be a large number of them.

When he learned that the whole mountain was not filled with Spiritual Stones, Henry didn't feel disappointed. On the contrary, he breathed a sigh of relief.

Now on Radiant Island, there were only three Spiritual Stones in total. One of them was found by Henry, and the other was taken from the Zhao Clan when he destroyed them. The last one was opened by Wade.

If the clans knew about these three Spiritual Stones, they would definitely be jealous, not to mention the whole mountain filled with Spiritual Stones. If that was true, Henry could imagine how many kinds of battles would be fought if the news was leaked out. Blood would flow like a river, which might just be the beginning. After all, for the clans, Spiritual Stones were too important.

On the surface of the sea not too far away from Radiant Island, a speedboat was currently heading towards Radiant Island. The speedboat was filled with countless oil buckets, and next to them stood a man in red.

The man in red had his hands behind his back and his gaze was focused in the direction of Radiant Island. He snorted coldly and said, "Just a mere mortal power, Henry Zhang? I'd like to see what right you have to be so arrogant in front of me. Just a mere Qi-controlling Realm master like you? I can handle you with just one hand!"

The speed of the speedboat was very fast, and the eyes of the man in red were full of hatred.

Chapter 676

When the citizens of Radiant Island woke up in the morning, the first thing they did was gather in front of the castle's gate to absorb some Qi.

Wade and the Great Patriarch had already arrived at the centre of the square. In front of them, there were three Spiritual Stones of different sizes.

At this moment, the three Spiritual Stones were placed on the top of the Energy Emitting Formation.

The Great Patriarch quickly flipped through an ancient book.

"Great Patriarch, how is it? Can it be done?" Wade's face revealed a nervous expression as he looked at the Great Patriarch.

The patriarch didn't say anything. He continued to read the ancient book, one page after another, very quickly. Wade couldn't read a single word from those ancient books.

A few minutes later, the patriarch's pupils suddenly shrank. He stared at the page of the ancient book, and his face was full of surprise. "Found it!"

"Found?" Wade's expression also changed. He immediately rushed over. Although he was unable to understand the words from the ancient book, he still stared intently at it.

The Great Patriarch pointed at a line of words. Due to time, the handwriting was already very blurry, and it was also very difficult for the patriarch to read it.

The patriarch murmured quickly. Wade listened for a long time but couldn't hear what he was talking about.

"Grand Patriarch, what are you talking about?"

"The four corners of the Eight Diagrams..."

"What?" Wade's face was full of doubt.

"The four corners of the Eight Diagrams." The Great Patriarch repeated again as his hands quickly tapped on the Energy Emitting Formation.

Following the patriarch's movements, the Energy Emitting Formation gradually underwent some changes. A section suddenly popped up from the edges, as if it was a VCD that was used to store a card.

The place that popped out was full of holes of different sizes.

Seeing this, the Great Patriarch, with trembling hands, picked up the Spiritual Stone taken from the Zhao Clan, and slowly put it into one of the holes. Then he picked up the newly found Spiritual Stone from Wade and put it in too.

At the moment when the two Spiritual Stones were put into the board, a gust of wind appeared for no reason.

"It's working! It's working!" Feeling the sudden gust of wind, the patriarch's face was full of joy. "According to the ancient books, if several spiritual stones are placed simultaneously in the Energy Emitting Formation, the overlapping effect could be achieved. The two Spiritual Stones I put just now are placed above the Energy Emitting Formation. If we put the Spiritual Stones there, the thickness of the Spiritual Qi will be increased. The other three directions also have different effects!"

Upon hearing the patriarch's words, Wade took a deep breath. Up until now, he hadn't been able to produce any Qi in his body. In the past, he had only been sitting there for a very short time, but this time, he had a very clear feeling.

The patriarch's voice sounded again, "According to the

rumours, in ancient times, the Spiritual Qi of heaven and earth was abundant. From the moment everyone was born, the Qi they breathed was the Spiritual Qi. In that era, experts were everywhere. If, I mean, if we could get enough Spiritual Stones, we could definitely turn this island into an ancient place with abundant Spiritual Qi. Our descendants, children, and grandchildren would all enjoy good fortune. At that time, this place would be a holy land!"

Wild winds curled up beneath the patriarch's feet, becoming more and more ferocious. This type of violent scene seemed to be pressing down on patriarch's desires.

Back then, the Tang clan was going to be extinguished, and they couldn't even find a single Spiritual Stone. Henry's sudden appearance brought hope to the Tang clan, and also provided a place for them to live on Radiant Island.

Everyone in the current Tang Clan could be bathed in Spiritual Qi daily. They came from the lack of Spiritual Stones to the fact that they had three Spiritual Stones of different sizes. This gave the patriarch some confidence. He felt that it was really possible for him to see the Spiritual Qi filling the air... on this island!

Just as his heart was surging with desire, a wild laugh sounded. "Hahaha, this is really a surprise. Three Spiritual Stones? How dare a mere ordinary force have three Spiritual Stones? This is a great gift prepared for me!"

The crazy laughter surprised both the Great Patriarch and Wade. When they looked in the direction of the laughter, they saw a figure in red standing in the air with his hands clasped behind his back.

Seeing this scene, Wade's body suddenly trembled. His

eyes widened. "This... Floating..."

"No." The patriarch shook his head, and his eyes were fixed on the figure in red. "Higher than Qi-controlling Realm! He has reached the Transforming Realm. If he steps on his own Qi, as long as his Qi is strong enough, he would be able to walk in the sky."

"Transforming..." Wade muttered the words of the patriarch. This was a realm that he had yet to come into contact with.

The patriarch looked at the figure in red and said, "Who are you, sir? Why have you come to our Radiant Island?"

"Your Radiant Island?" The figure in red smiled. "So the people of the Tang clan have already become part of the ordinary world."

The patriarch frowned. The news of the Tang clan's arrival at Radiant Island had not been leaked. Where did this person come from?

The man in red took out a dark red, diamond-shaped talisman and tossed it in front of the patriarch.

The patriarch's eyes were locked on the word "Recluse" carved on the token.

"The Recluse Association!" The patriarch murmured with deep fear in his eyes.

The reason why the clan was hidden was that it had an agreement with the authorities on the one hand, and on the other hand, it was under the supervision of the Recluse Association.

The man in red smiled and said, "Hand over the Spiritual Stones. It's not something you should have. By the way, call Henry to come out and worship me!"

"Worship you?" Wade glanced disdainfully at the man in red. "What do you think you are?"

Although Wade knew that his strength was not as good as Henry's, he had never seen someone call Henry's name like that and asked Henry to worship him.

"How dare you!" The man in red shouted at Wade, but he didn't make any move. He looked at the patriarch and said, "Will you hand the Spiritual Stones to me voluntarily, or do I need to get them myself?"

"Sir, even though you are someone from the Recluse Association, what you are doing right now is still against the rules!" The patriarch took two steps forward and blocked the Energy Emitting Formation.

"Rules?" The man in red chuckled. "Are you referring to the rules of Recluse Association or the clan? If you're referring to the rules of a clan, I suspect that your clan would use three Spirit Stones to awaken your bloodline, so you should hand over the extra Spiritual Stone to me! If it's the rule of the Recluse Association, then this island belongs to us. I can take what I want. Who can say anything against that?"

In front of the Great Patriarch, a swirl of Qi slowly formed. "Sir, are you going to steal the stones?"

"Steal? How can it be called robbery? Since you don't want to give them to me, I'll take them myself!"

As soon as the man in red finished speaking, he rushed up toward the Great Patriarch.

"So fast!" The patriarch let out a cry of surprise. He couldn't even see the actions of the man in red. The gap between the Qi-controlling and the Transformation Realm was too big!

 [Watch Ads to Get 15 Vouchers](#)

Chapter 677

Almost in the twinkling of an eye, the man in red arrived in front of the Great Patriarch. He raised his fist and hit toward the patriarch directly.

The Great Patriarch saw that the punch was getting closer and closer to him. He, who was in the Qi Harnessing Realm, didn't even have the ability to resist. He subconsciously put his hands in front of his head to protect his vital parts.

The man in red threw out this punch confidently, but he was stopped by someone when he was about to hit the patriarch.

A tiger's roar sounded in the patriarch's ear. The impact that the patriarch imagined did not come. He opened his eyes and found that Henry had already stood in front of him.

A fierce tiger opened its bloody mouth and tried to bite the man in red. Under the fierce tiger's attack, the man in red stepped back repeatedly.

"Transforming Realm!" The Great Patriarch let out a cry of surprise. "Henry, have you also reached the Transforming Realm?"

Henry nodded and smiled slightly. "Great Patriarch, are you okay?"

"I'm fine." The patriarch shook his head and at the same time, he breathed a sigh of relief. Originally, he was full of worry about the arrival of the man in red, but now he was relieved when he saw that Henry had also reached the Transforming Realm.

At the same time, the patriarch was also shocked in his heart. Henry's potential was too shocking. He was so

young, yet he was still able to the Transforming Realm despite the lack of cultivation resources. His future was limitless!

The man in red stepped back a few steps and escaped Henry's fierce tiger. He frowned and said, "I didn't expect that you have also reached the Transforming Real!"

"Why, is it very difficult?" Henry shrugged his shoulders.

"Ha." The man in red sneered. "It's just a small transformation. Is this what you can rely on to be arrogant? Henry, what you have done to the Zhao clan should be punished by the Recluse Association!"

Henry raised his eyebrows and said, "Oh? The Zhao Clan sh*tted on me. Is there any problem for me to kill them?"

The man in red shouted loudly, "Recluse Association has its rules. The people in Qi-controlling Realm are not allowed to attack ordinary people. You have broken the rules. I come here today to punish you on behalf of the Recluse Association!"

Although the man in red only said that it was a small transformation, he knew very well in his heart that the fierce tiger Henry had just transformed had begun to have some spirituality, which made him clearly know that Henry's realm was higher than his own. That was why he now used the Recluse Association as an excuse to suppress Henry. Otherwise, with his character, he would definitely make a move directly.

Listening to the rules that the man in red said, Henry touched his chin and said thoughtfully, "This rule is really interesting. Wade."

"Boss." Wade looked at Henry.

"Go, hit him." Henry looked at the man in red.

The pupils of the man in red shrank and he shouted, "Henry Zhang, how dare you?!"

"You are in the Qi-controlling Realm, so can't attack ordinary people. This rule is really interesting." Henry's mouth curved into a smile. "I like doing interesting things the most."

Wade walked towards the man in red.

Henry's voice continued to ring. "Remember, people in the Qi-controlling Realm can't fight with ordinary people. My brother hasn't reached the Qi-controlling Realm yet. If you fight back, you will break the rule."

While Henry was talking, Wade had walked to the man in red and raised his arm.

The man in red stared fixedly at Wade. "Kid, do you want to die?"

Wade curled his lips and ignored what the man in red said. He raised his hand and hit the man in red hard in the face.

The man in red stamped his feet and was about to retreat, but he found that he could not move at all. A great force on his ankles had firmly restricted him.

The man in red looked down, only to find that the ankle of his feet was wrapped by a circle of Qi, tightly grasping them. This discovery made the man in red suddenly shocked. He did not even notice when the Qi started entangling him.

Just as the man in red was shocked, Wade's palm slapped the man in red hard in the face.

"Bang!" A crisp sound was heard, which made the man in red feel that the time was frozen.

He looked at Wade unbelievably. He had been slapped by an ordinary person!

"Go on." Henry's voice sounded again.

Wade raised his arm again and slapped the man in red

in the face.

"Again." Henry continued to say.

The man in red looked at Wade in front of him, and his body could not help but tremble. How many years! No one dared to provoke him in this way in so many years! Who dared not to be respectful and present the highest manners when he or she saw him? Today, he was slapped by an ordinary person!

Wade raised his hand.

"Enough!" The man in red shouted. The Spiritual Qi around his body shattered the Qi ring that was holding his ankles.

Wade ignored him and continued to slap him.

The man in red raised his arm and a massive amount of Qi condensed in his hand.

"You ant, go to hell!"

The man in red shouted and suddenly punched toward Wade's face. Wade couldn't resist the punch of the man in red at all. With the crazy strength of the Transforming Realm, this punch was enough to smash Wade's head.

Henry, who was standing not far away, stepped hard on the ground and rushed toward the man in red like an arrow. "As a member of the Recluse Association, you have broken the rules, so you should be punished!"

Henry was so fast that no one could see him clearly, including the man in red.

Wade only felt a gust of wind sweep past him. At the same time, the dagger hanging from his waist disappeared, along with the man in red standing in front of him.

The man in red was hit by a huge force. After flying for more than 10 meters, he hit the ground and cracked it

open. It could be seen that he was seriously injured.

"Henry Zhang, how dare you attack me?!" The man in red shouted before he got up.

With a cold hum, Henry appeared in front of the man in red and slapped his hand on the chest of the man in red.

Behind Henry, a fierce tiger as tall as a human opened its bloody mouth, letting out a roar. It stretched out its sharp claws and pressed towards the man in red.

The man in red transformed a cheetah that was only half the size of a man. In an instant, it was ripped apart by a ferocious tiger.

"You..." Just as the man in red was about to speak, his expression froze. He looked at his chest and said in disbelief, "You...how dare you...I...I'm the protector of the 3rd district...Recluse..."

There was a dagger inserted in the heart of the man in red. It was Henry who had just taken it from Wade's waist.

Blood spilt from the corner of the man's mouth. He looked at his chest and said, "I am... I am from the Recluse Association... the third... protector, how dare you..."

"Sorry." Henry smiled and grabbed the handle of the dagger with his hand. He pressed it hard and stirred it in the chest of the man in red. "This is our way of doing things."

 [Watch Ads to Get 15 Vouchers](#)

Chapter 678

As Henry stirred the dagger, the blood at the corner of the man in red's mouth became denser and denser. He opened his mouth but couldn't make a sound. At this moment, he couldn't believe that Henry really dared to attack him. This time, he came on behalf of the Recluse Association!

Blood flowed down from the corner of the man's mouth, and the man in red slowly loosened his clenched fists.

Henry slowly got up and pulled out the dagger.

"Go and dispose of him," Henry said.

Immediately, a few people walked over and dragged the corpse of the man in red.

The Great Patriarch stood at the back, watching Henry decisively take the man's life. He felt a little cold in his heart, but at the same time, he was glad.

He had lived for so many years and had seen too many things. He knew very well that kindness was the biggest defect for a strong person. Henry was not a merciful person. Such a person would have infinite possibilities in the future! It was absolutely the right choice for the Tang clan to come to Radiant Island. In the future, maybe the Tang clan could really return to the peak and stand at the top of the clans!

"Boss, what should we do next?" Wade asked with some worry.

"Everything is okay. You should improve your strength as soon as possible. I will deal with everything." Henry shook his head and looked at the Great Patriarch. "Great Patriarch, how about the thing you told me about yesterday?"

"Success!" Patriarch's face revealed an excited expression.

"Was it successful?" Henry's face also revealed a look of delight.

"Henry, look." The Great Patriarch pointed at the Energy Emitting Formation behind him. "The formation can completely change the environment using Spiritual Qi. Only if we have enough Spiritual Stones, the whole island could be covered by Spiritual Qi. Everyone on the island could breathe in rich Spiritual Qi. At that time, the whole island would become a real holy place like what was recorded in our ancestor's ancient manuscripts!"

"Good!" Henry nodded excitedly. "Grand Patriarch, I'll have to trouble you to study ancient books. Regarding this aspect, I don't know a single thing about it. As for Spiritual Stones, I'll find a way."

The Grand Patriarch nodded his head and tightly grasped the ancient book in his hand. The things recorded in it were extremely important for the future.

"Boss, I've found it." Future's voice came from the side. She took a tablet computer and strode over. "Our defence system couldn't sense the intruder because of the Qi. It can block the human body's own heat and all the thermal detectors would not detect it."

When the man in red invaded, Henry had asked Future to investigate how the other party had silently entered the island. After all, Radiant Island had a complete defensive system. Other than the last time when the security system had been switched off with Cesia's help, no one else could have entered the island without being noticed.

"Block?" Henry asked, "Is there any way to solve this problem?"

Future shook her head and then nodded. "I don't have any way to solve this problem for the time being, but... I found new material. Boss, come to the lab and have a look."

Henry nodded and followed Future to the laboratory.

Wade was with the people on the island. When they practised in the square, the density of the Qi would allow everyone to have a deeper sense of Qi. At the same time, the effects of their practice would be even better.

Henry followed Future to the lab. There was a sealed cabin with a steel plate.

"Boss, look at this." Future waved her hand in the void and summoned a panel in front of her. The panel was projected by holographic image and changed with the movement of Future's hand.

A video appeared and zoomed in in front of Henry.

In the video, the steel plate was placed in a transparent sealed compartment. There were many tubes all around it, and each of them was releasing some type of gas into the sealed compartment.

Future explained, "Boss, the gas in these tubes is all the manifestation of the different forms of Qi. In the beginning, the metal in the compartment can block the Qi, and the Qi can't leave any trace on this kind of metal. It can be said that this kind of metal is the natural enemy of Qi."

Future waved her hand and a mechanical arm stretched out from the wall of the lab holding a steel plate.

"Boss, give this steel plate a shot."

Henry nodded and took a step back. He took a deep breath and punched out.

A fierce tiger pounced from Henry's back and rushed straight to the steel plate. The two-centimetre thick steel

plate was pierced by the fierce tiger's claws, leaving a claw mark.

Future waved her hand again and another mechanical arm stretched out, grabbed the steel plate placed in the sealed compartment and placed it in front of Henry.

Henry didn't wait for Future to speak, and punched again. The same as before, a fierce tiger rushed over, but this time, the fierce tiger didn't directly tear through the steel plate, after its claw smashed on the steel plate, it completely dissipated.

However, this steel plate, in addition to vibrating a little, had no damage. Instead, the mechanical arm that was holding the steel plate broke due to the inertia of Henry's attack.

Previously, Cody's whole body had been made of machinery, but that kind of machinery could only prevent the subtle influence of Qi. For example, the Qi could enter the body and could have an impact on the body. It would not be convenient for him to move in a few days, but it would not invade the mechanical circuit. However, Cody's steel plate body could not completely resist the damage of Qi. It could still be penetrated.

But this piece of metal could completely resist the damage of Qi and had a little bounce effect. If Cody's body was made of this metal, Henry would have no way but to completely resolve it with absolute speed and strength.

Once the robot's speed and strength were stronger than that of the Qi-controlling master, then it would be completely possible for them to defeat the Qi-controlling master.

If a robot wanted to increase its speed and strength, it would be much easier than a real person. It was nothing more than a problem that data could fix.

Henry was also a little afraid of this piece of metal. He was wondering how he would deal with such a robot if he met one day. If his speed and strength were not as good as the robot's, would he be killed?

Henry thought of many ways, and the results were all the same. It was absolutely impossible to defeat such a robot by himself. After all, the robot was not like the human, which had so many weak points.

Henry asked Future, "Where did you get the metal?"

She looked at Henry and said, "This was left behind when Sister Cesia brought people to attack us last time. I found it in a pile of wreckages. This metal piece is different from all the known metals. I haven't been able to analyze it completely yet."

"Cesia..." The woman with silver hair and shoulder-length appeared in Henry's mind.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 679

Future arranged another mechanical arm to take the metal and put it away. "Boss, as long as I can analyze the composition of this metal, I can integrate it into our defense system. At that time, the Qi will not block our thermal sensor system, which can also be regarded as a solution to today's problem."

Henry nodded and said, "You should put this matter on top of your list. The island's defense system is the top priority. From today on, you should change your way of thinking. Radian Island is no longer the king of the underground world. There are too many unknown things in this world, and the enemies we face are getting stronger and stronger."

Future nodded to show that she understood. She looked at Henry and opened her mouth. It seemed that she wanted to say something but stopped on a second thought.

Henry said, "What do you want to say, just say it."

"Boss, I'm wondering if I want to start that thing again." When she said "that thing", there was a hint of fear in her eyes, but at the same time, she was a little excited.

Henry did not answer the question immediately, but asked the question "Have you been checked it recently?"

"Yes," Future replied.

"What's the result?"

"The result..." A bit of embarrassment appeared on her face.

Henry smiled, held Future's shoulder, and walked out of the lab, "We already have a lot of things. You have contributed so much to this island. That thing, you can

forget it. I have been silent for such a long time, just like what Cesia said. I should have taken some leader's action and do something. You can guard this island and leave the rest to me."

Future's body shook. Although Henry's tone was dull, in Henry's words, she felt a kind of determination, an unusually powerful determination.

"Boss, you want to..."

Henry stopped and looked at the blue sky outside the laboratory. He said, "Send Wade to hold the Ancient Kungfu Family Meeting as the Guardian of the mausoleum. This time, I will host it personally!"

"Ancient Kungfu Family Meeting!" Future's pupils constricted, "Boss, have you made up your mind?"

"There is nothing to think about and not think about." Henry smiled slightly. "When Old Master Lu entrusted this burden to me, sooner or later, I have to carry it. I can't let the old man die with grievances. It is imperative to hold Ancient Kungfu Family Meeting."

There was a look of excitement on Future's face. "Then I will go back immediately and inform my grandfather to get ready. He has been waiting for this day for too long! The ancient Chinese martial arts should have stood at the top of the world, but because there was no leader, it became a pile of loose sand. If you are willing to take over that position, I think that my grandfather and the others will be very happy."

"Haha, you little girl." Henry rubbed Future's. "Before you go home, take me to Yun Province first. I'll go to see the mountain."

"Okay." Future nodded her head vigorously.

An hour later, a plane took off from Radiant Island.

Henry, Future, and Wade were sitting in the plane,

heading for China.

In the Su Family, Yanjing.

Sylvia stood in the main hall of the Su Family. All of the higher-ups of the Su Family were in the main hall. Victor stood next to Sylvia. The two of them were not in the main seat. There was someone else in the main seat.

A middle-aged man wearing a white gown sized up Sylvia and Victor with a scrutinizing look. After a long while, he snorted coldly, "The Su Family has become like this in your hands. If I were you, I would be ashamed and would not dare to face my ancestors!"

The middle-aged man had long hair down to his shoulders.

The middle-aged man stood up from the main seat and walked up to Sylvia. He looked at Sylvia and said, "I heard that you have something to do with Radiant Island?"

Sylvia nodded her head.

The middle-aged man snorted coldly. "The current Master of the Su Family is actually related to an ordinary force. It's really shameful! From today on, you will lose all the power that the Master of the Su Family has. From today on, the Su Family will act according to my words! Of course, to the outside, you are still the Master. No one can expose my existence. Do you understand?"

Victor lowered her head and didn't say a word. It was not that he didn't want to speak for Sylvia, but that he didn't dare.

Disregarding the fact that the man in front of him had dominated the entire Su Family the first day he arrived, his status alone was not something that he could refute. In terms of seniority, this man was two generations older than him. Even if his father was present, he would

still address Freud as uncle.

The middle-aged man said loudly, "From today on, the Su Family will be in my hands. You will become Su Clan's vassals. When it is the time for the Su Clan to pay, you will get corresponding benefits. Of course, before that, you have to contribute to the Su Clan. When the Su Clan enters the secular world, it will need rich funds to support them. I want you to give everything to the clan! Do you understand?"

"Understood," Victor answered, lowering his head.

Freud's gaze swept across the entire main hall before finally landing on Sylvia once more. "What? You don't want to talk, do you have any objections?"

Sylvia looked at Freud and didn't say anything.

"Haha." Freud laughed coldly. "Little girl, you can't be thinking that your so-called King of Hell will come and help you, right? In front of our Su Clan, King of Hell, Radiant Island that kind of bullsh*t doesn't count!"

Freud stretched out his hand and pinched it out of thin air. "That so-called supreme force is nothing in front of the Qi-controlling Realm. The strength they have is nothing compared to this."

Frank squeezed the thin air, and the main seat carved from solid wood in the hall was instantly turned into powder. This scene caused the Sus widen their eyes. This was beyond their understanding.

"This is power! Do you understand?"

Freud Su looked around. Wherever his gaze went, no one dared to look at him. They all lowered their heads.

"Little girl, I heard that you're quite powerful in the northwest, in Yinzhou. Coincidentally, there's a piece of land that we like over there. You can take it and do as we request." Freud took out a piece of paper and threw it in

front of Sylvia. "You can ignore my words, but I don't think you can handle the consequences. I'm giving you one month, and if I don't see the results, I'll destroy the Su Family first. Then, I'll destroy the so-called Radiant Island. Don't doubt my words. Remember, in front of my Su clan, Radiant Island is nothing!"

At the same time, in the Zhu family in Du Hai.

The Zhu Clan's manor was far away from the urban district. At this moment, the Zhu Clan's manor was emitting thick black smoke. The fire was burning inside the Zhu Clan's manor. Screams could be heard from the manor.

"Run! Run! Go to Radiant Island!" A fierce roar came from the Zhu Family.

 [Watch Ads to Get 15 Vouchers](#)

Chapter 680

There was a blazing inferno in the Zhu family.

The gate of the manor was completely locked, and a long sword was standing on top of the high wall.

"Old guy, tell me where the thing is!" A man, holding a sword, stood in front of Wilbur and shouted.

Wilbur was covered in blood, but there was no sign of weakness in his eyes. "Want it? Dream on!"

"You're courting death!" The man's blade stabbed at Wilbur's spine.

Wilbur spewed out a mouthful of blood.

"Say it!" The man pressed the tip of his blade against Wilbur's chest.

"Ah." Wilbur chuckled and said, "Ancient families and the clans have had differences many years ago. Your clan seems to be strong, but in fact, it has no possibility to enter the human world. You think yourself are superior, but in fact, you have been out of tune from the world. What awaits you is only destruction."

The man snorted. "The man surnamed Lu is already dead. Who can control our clan?"

"Really?" Wilbur wiped the blood from the corner of his mouth. "If you are really not afraid, why did you deliberately hide your strength in front of Mr. Lu's disciple? You are afraid, afraid that he will discover it. If it weren't for that mysterious force, why would you choose to show up in public? As far as I know, it's not the right time yet."

The other side squinted his eyes. "Old thing, I really underestimated you. During this period of time, you sent all the forces of the Zhu family to the outside world, not

only for the sake of taking that thing, but also for investigating this matter?"

Wilbur grinned and said, "Yes, I know everything about you. It's a plan of a hundred years. If it is destroyed, what will it look like? I really want to see the disappointed faces of you guys."

"What a pity." The man raised the long saber in his hand and waved it down at Wilbur. "You won't see it!"

Smoke and dust rose in all directions within the Zhu family estate.

"Have you found the thing?" A question came from the Zhu family's manor.

"There are some difficulties. It was taken away by a junior. Her name is Lila Zhu!"

"Go and catch her!"

A plane landed in Yun Province.

Henry walked out of the airport. Henry had a deep impression of Yun province. It was not stone gambling that made Henry remember this place, but the mountain.

There were thousands of mountains in Yun province, and there was a mysterious aura around them. The landform here was strange, and there were many unknowns. Henry had previously thought that if he had the chance, he would have to go through the mountains himself to understand the secrets within.

However, Henry's target this time was not these mountains, but Spring City, which was also the city where Stone King lived.

Spring City was surrounded by mountains on three sides. Stone King purchased a batch of mountain rocks from these mountains.

Stone Kings's company in Spring City was called Stone

Temple.

Stone Temple was located in the suburb of Spring City. In the past few years, Stone King had gradually come out of the gambling world. It was time for somebody else to take over. After Stone King came out of the gambling world, naturally, someone had to replace him.

However, even though Stone King was rather quiet, his reputation was still quite high. Even though Stone Temple's scope was ordinary, there were quite a lot of people coming to visit, and they were all famous figures in Spring City.

Henry's first goal this time was to go to Stone Temple.

The problem of Spiritual Stones was the most important, and the level of confidentiality of this news was also the highest.

Stone King had arranged for people to pick him up at the airport, and a person with a sign with Henry's name stood in front of the exit.

Henry saw the sign at a glance. Among many pick-ups, the one was particularly obvious. Because it was too casual, it was not much different from the A4 paper used by Henry when he welcomed Jessica.

When Henry received Jessica, he used an A4 paper. Now in front of Henry, there was a paper that was torn casually. Standing behind the paper was a short-haired beauty. The short-haired beauty was obviously strong. She was also wearing the clothes commonly used for fitness. She was 1.7 metres tall, and her exquisite figure was prominent. At the pick-up point, she attracted many people's attention, especially her long legs, which made people stop and look at her.

The woman's facial features were exquisite, and there was a hint of fierceness between her eyebrows.

Obviously, she was not a good-tempered woman.

Henry walked to the woman and asked, "Are you Sarita Ke?"

Sarita was Stone King's biological daughter.

"Henry Zhang?" Sarita looked Henry up and down with her eyes.

"It seems so." Henry nodded and said, "Stone King have probably told you that I'm here to complete the formalities regarding the stone mountain."

"Let's go then." Sarita didn't waste any more time talking. She tossed her head and walked out of the airport.

Henry followed behind Sarita and smiled. It was no wonder that every time Stone King mentioned his daughter, there was a helpless expression on his face. Judging from Sarita's style, she was definitely not an easy person.

A fiery Ferrari was parked outside the exit. The scene of Sarita opening the door attracted everyone's attention again. The beauty with the car was undoubtedly very attractive.

Henry sat in the car. Before he fastened his seat belt, he felt a strong push. Judging from the sound of the engine, Sarita stepped on the gas paddle all the way down.

Along the way, Sarita kept surpassing others as soon as she saw the car, with a bit of vexation in her eyes.

Henry asked in confusion, "Beauty, I don't disturb you, do I?"

Sarita glanced at Henry and said, "Tell me, what method did you use to get this stone mountain?"

"What method?" Henry was confused.

"Ha." Sarita sneered. "I was the one who chose this stone mountain. My father bought it, but he didn't intend

to sell it. Why did he sell it to you at the original price?"

"What? Do you think it was me who threatened your father?" Henry leaned back.

"You're still not strong enough." Sarita looked at Henry with disdain. "I just want to know how you can make my father sell this stone mountain to you at original price."

Henry shrugged. "Your dad didn't want this mountain, so he sold it to me."

"Really?" Sarita hit the steering wheel hard. On the lane opposite Sarita, there was a big truck coming fast with a whistle.

At this moment, Sarita came to in front of the truck. She stepped on the gas and drove straight toward the big truck.

Sarita clutched the steering wheel and asked Henry loudly, "Say it! What did you do? And where is my father now? Why can't I contact him?"

In such a situation, normal people would be scared out of their wits. If the Ferrari hit a truck, it would be smashed to pieces. Normal people would not be able to hide anything in this situation.

Sarita wanted to take advantage of Henry's fear. Unfortunately, this time Sarita was wrong.

Henry sat on the co-pilot seat with a relaxed look. "I just want to protect Stone King. It's good for both of us."

Henry's relaxed appearance made Sarita stunned. The ear-piercing siren of the truck sounded in Sarita's ear. Sarita just reacted and drove the car back to her lane at a critical moment.

Chapter 681

The big truck roared past the Ferrari, less than 10 centimeters away from the driver seat. It could be said that if Sarita had just turned the steering wheel one second later, she would have been turned into a pile of muddy meat.

The feeling of walking on the edge of death made Sarita's back wet with cold sweat.

Sarita subconsciously looked at Henry and found that Henry sat there as if nothing had happened. He was still sitting there with a relaxed face.

Sarita took a deep breath and calmed down. Her driving speed also slowed down a lot.

"Henry Zhang, I'm warning you. If something happens to my father, you won't be able to survive!"

Henry curled his lips and did not speak.

Sarita took Henry to a hotel and said to Henry with a disgusted face, "Today is the weekend, we can't get through the formalities. I will pick you up tomorrow. Now, get out."

Henry opened the door and got out of the car. He had just closed the door and before he had time to ask Sarita how to contact her tomorrow, the car was gone.

Henry shook his head, went into the hotel, took a room, and moved in.

Sarita drove the car away but didn't drive too far away from the hotel. She stopped the car at a corner of the hotel and made a phone call. "Did he go in?"

"He's already in there. It doesn't look like there's anything wrong with him."

"Keep an eye on him. Let me know everything about his whereabouts immediately." After Sarita finished talking, she hung up the phone.

Henry, who stayed in the hotel, opened the curtains and took a look. His eyes were fixed on the red Ferrari that was driving out of the corner. He took out the phone and said, "Arrange someone to come here."

A few minutes later, Henry left the hotel, and another person came to his room. The people arranged by Sarita would naturally not find out that Henry had left, and they still thought that Henry was staying in the hotel.

After leaving the hotel, Henry went straight to the hotel's underground parking lot. A local taxi had already been parked here, and the key was in the car.

Henry opened the door smoothly, found the key, started the car, and drove out of the parking lot. At the same time, he received a message on his mobile phone. It was the movement of Sarita's Ferrari. Sarita's car had been tracked for a long time, and every movement was accurately sent to Henry's mobile phone.

Henry saw that the Ferrari finally stopped in a tea house. The teahouse Sarita went to was not big. There were only two floors and it was decorated with antique paintings. When entering the door, Sarita showed a membership card, and then she went in. If she was not a member, she would not be qualified to enter the teahouse.

In the teahouse, a young man in his twenties was sitting there. He was handsome and wore expensive clothes.

"Sarita, you're here." The young man stood up as soon as he saw Sarita.

Sarita's face was dark all the way. When she saw the young man, she smiled and said, "Markos, you're looking

for me."

The young man nodded and walked up to Sarita. He took Sarita's hand and sat aside. "Sarita, I've been thinking about what you told me yesterday. You can't give that stone mountain to anyone casually."

Sarita shook her head. "It's not that I want to give it to others, but that my dad asked me to give the stone mountain to others. Besides, my dad's whereabouts are unknown and his life is uncertain. He..."

"I found him." The young man stared into Sarita's eyes.

"Where's my dad?" Sarita stood up nervously. In the car, Sarita looked down on Henry, but in her heart, she was very worried about the safety of her father. Otherwise, she wouldn't have taken such a big risk to force Henry to speak.

"Sarita, don't worry." The young man held Sarita's arm again and made her sit down. "According to my investigation, uncle is now in the hands of Cao."

Sarita frowned. "Are you referring to Carlos Cao? Could it be that Henry is a subordinate of Carlos?"

"Who is Henry?" The young man asked curiously.

Sarita explained to the young man, "My dad called me and asked me to transfer the stone mountain to a man named Henry. He just arrived to Spring City."

The young man's eyes moved and he said, "That should be it. You know Carlos. He has cooperated with uncle for so many years. This time, he knew that uncle had bought such a mountain, so he immediately became hostile to uncle and found buyers from outside. I heard that Carlos had received a deposit of 100 million from the buyer. After this transaction is successful, Carlos will make at least 400 million yuan."

"He's such a wolf!" A thick hatred could be seen in

Sarita's eyes. "Back then, if it wasn't for my father, he would've been chopped up and fed to the dogs. He would not be here today!"

The young man shook his head and said, "Sarita, it's not the right time to say that. You can't give over the mountain to that Henry. Otherwise, according to Carlos's behavior, he won't let uncle go. The first thing we have to do is to ensure his safety. We have to find a way to get uncle back."

"Get him back?" Sarita smiled bitterly. "If he would let my father go, he wouldn't have locked my father up. Other than a message from him yesterday, I can't get in touch with him anymore."

The young man pondered for a while and then said, "Sarita, you should think about it from another angle. Now Carlos has set a trap for us. Why can't we threaten him?"

"Threaten him?" Sarita was confused.

"Yes, threaten him!" The young man nodded heavily. "Now Carlos has received a deposit of 100 million. No matter what, he has to sell this stone mountain to others. The other party has a strong background. If he can't sell it, Carlos will also suffer. Therefore, we can also threaten Carlos!"

Sarita's eyes lit up. "How can we threaten him?"

"It's very simple. You put this mountain under my name, and then ask Carlos to let your father. You can announce to the public that you have given the mountain to me. When the mountain is not in your hands, Carlos will not hold on to your father any longer."

"But..." There was a hint of worry in Sarita's eyes. "What if Carlos gets angry and hurts my father?"

"No." The young man shook his head confidently. "The

most important thing for Carlos now is not to do hurt the uncle, but to make money by taking the mountain. At this time, he will definitely not do anything irrelevant. This is the best way."

"But..." Sarita was still hesitant.

The young man grabbed Sarita's hands. "Sarita, don't tell me you don't believe me?"

Sarita shook her head when she heard this. "Markos, don't get me wrong. I'm just thinking about how this will affect you. Carlos and his men are cruel and merciless. If they know that the stone mountain is under your name, they'll definitely make a move on you."
