

Chapter 702

The key...

Henry stared at the book in his hand.

"If it's something that can drive the clans mad, it's no wonder that the Zhu clan suddenly destroyed the Zhu family. It must be because of this book."

Henry looked at Lila and said, "Is your grandfather still alive?"

Lila's big eyes were suddenly filled with confusion. She shook her head and said in a weaker voice, "I don't know. When I ran away, I heard them asking him where the thing was."

Henry reached out and knocked on the table. He thought and said, "If that's the case, Old Zhu may not be in trouble. Let's go to Du Hai first. Tell me everything you know about the Zhu clan."

Lila nodded her head hard.

"Then let's go. We can't delay for too long." Henry got up and walked out of the room.

Lila followed Henry, they went out of the hotel, took a taxi, and went straight to the airport.

As soon as the car drove on the highway around the city, Henry looked at the rearview mirror outside and said to the driver, "Sir, please go to the industrial park in the south of the city first."

The driver did not make a sound, directly took a long detour around the highway, and then drove to the industrial park.

The industrial park in the south of the city was abandoned.

Here, Henry killed Viper Rose's members and the people of the Zhao family.

Henry got off with Lila.

"Brother Henry, why are we suddenly here?"

Henry did not answer Lila. He looked around and then said, "Come out. You're a member of the clan anyway. You're sneaky, but there's no point in that."

"Haha, you are indeed worthy of being the successor of Master Lu. Your keenness far exceeds that of an ordinary person." A burst of laughter sounded and a middle-aged man wearing ordinary casual clothes stepped in the air.

"People of Radiant Island are very famous." Another laughter rang out. A middle-aged woman wearing a long black dress was walking in the air.

The two persons, one on the left and one on the right, sandwiched Henry in between.

"Brother Henry, they! They are the people of the Zhu clan!" Lila recognized them the moment she saw them.

Needless to say, Henry could guess the identities of these two people.

In this world, there weren't that many Qi-controlling Realm experts, not to mention the two Transformation Realm masters. Who else could it be but the Zhu clan, ranked ninth among all the clans?

The woman in the black dress looked at Lila and covered her mouth with a chuckle. "Little girl, it was really hard for us to find you. It seems that the treasure can really hide one's aura so that an ordinary warrior can escape our sight."

Henry took out the blue book Lila gave him from his pocket and waved it in his hand. He asked with a smile, "You two, are you talking about this?"

"Henry, right? Master Lu's disciple is known as the Emperor of Hell who has an army of 100,000 Reapers." The middle-aged man stepped in the air as if he were taking steps. He slowly walked to the ground. "The Zhu clan doesn't want to be the enemy of Master Lu's successor. I also hope you don't go against us. After all, you are only Master Lu's successor, not Master Lu."

"Hey." Henry's mouth curved into a smile. "Listening to your words, looks Old Man Lu is still quite prestigious in your clan."

The middle-aged man stared at Henry. "Henry, you have to be clear that last time in the Zhu family, it was not for the sake of Master Lu that you let out people go. It was because our Zhu clan spared you once for the sake of Master Lu, and we also spared the Zhu family. This time, the Zhu family was seeking their own death. It has nothing to do with you. You must not make a mistake. You are only the overlord of the secular world forces. That thing is not something you can possess!"

"Really?" Henry put away the blue leather book in his hand again. "Are you doing this for the sake of Old Man Lu, or are you afraid of him? Or, are you afraid that he left me with a backup plan? Can this backup plan destroy all the clans?"

The middle-aged man smiled. "There's no need to fear. I'll still say this. You're only Master Lu's heir, not Master Lu himself. You're the overlord of the mundane forces, but comparing to the clans, you're nothing. Any Qi-controlling Realm expert can kill you. Of course, you still don't understand what Qi-controlling Realm means."

Henry lowered his head and kept silent for a few seconds. Suddenly, he burst into a low laugh. Henry's laughter grew louder and louder. As his voice increased, his whole body trembled.

"What are you laughing at?" The middle-aged man scolded.

"I am not Master Lu, but how do you know that I can't do anything to your clan? Ah!" Henry suddenly raised his head and roared. His eyes were full of killing intent. "You destroyed the Zhu family. Now you came here to tell me that it was the Zhu family's fault?! You want to take things from me and keep telling me that I shouldn't make any mistakes. What's so great about your clan? Can't the clan be destroyed? Ah!"

"Henry, I advise you..." The middle-aged man was about to speak when he saw Henry rushing toward him.

Henry raised his fist and a Qi-shaped tiger directly rushed out from behind Henry. It opened its bloody mouth and roared at the middle-aged man.

The middle-aged man's look suddenly changed. "How could it be possible?! How could your Qi be so powerful?!"

"Qi-controlling Realm? Is it so amazing?!" Henry threw another punch. A half-human-sized Qi-shaped mantis waved its sharp sickle and chopped towards the middle-aged man's waist.

"It's impossible! How could you possibly be able to transform?" The middle-aged man's eyes were full of horror. He formed a wall of Qi in front of him, but it was torn apart by the mantis's sickle.

The woman in the black dress rushed over at the critical moment and resisted Henry's fierce tiger. The middle-aged man took the opportunity to breathe a sigh of relief and smashed Henry's mantis away with a powerful Qi.

After doing all this, the two people looked at each other and saw the seriousness in each other's eyes. Henry's strength was completely beyond their expectations.

They thought that Henry was just an ordinary warrior, but they didn't expect that he was a Transforming Real master. Furthermore, looking at the power of the tiger and mantis, they found that Henry's strength was much higher than theirs.

"Your clan is arrogant and mighty, and regards ordinary people as nonentities. Your clan thinks that you are superior to others, but you don't realize that you just live in seclusion. You are a clan, so what?! If you are really strong, why did you go into hiding?"

Henry punched both of his fists toward the two persons' faces.

The man and the woman stretched out their hands to resist at the same time, but both of them were beaten away by Henry's fists.

Henry looked up at the two people, and his eyes were red. Henry didn't even notice that the Qi emitted from the tip of his fist was tinged with red colour.

"Incompetent people! How can you be so arrogant?"

As soon as Henry stepped on the ground, the ground cracked. He jumped up like a giant bird and rushed towards the two people.

Chapter 703

In the face of Henry's attack, the two people didn't dare to resist this time and dodged in two directions.

"Go and get that girl!" The middle-aged man roared. Henry's combat ability had exceeded his estimations over and over again.

The middle-aged man and the woman in the black dress had just entered the Transforming Realm. In the eyes of the Zhu clan, it was still easy for them to defeat Lila. Even if the two Transforming Realm master had really fled to Radiant Island, Radiant Island would not be able to protect Lila.

But they didn't expect that Henry alone could defeat the two of them.

A master could tell a lot of things in a single strike.

After hearing the middle-aged man's words, the woman in the black dress reached out on the spot and grabbed directly toward Lila, while the middle-aged man forced his hand to stop Henry's attack.

"Hum, you're so arrogant. That's all you can do!" Henry snorted and casually struck a palm.

A cyclone filled red colour went straight to the woman in the black dress.

It could be seen the hand of the woman in the black dress was about to grab Lila, but now she was forced to retreat by the cyclone.

On the other side, Henry threw another punch at the middle-aged man. Facing Henry's punch, the middle-aged man did not dare to resist. The middle-aged man had just understood the power of Henry's fist.

He had just moved to dodge Henry's punch when he felt

a suction force coming over.

"How is this possible?!"

The middle-aged man couldn't help but exclaim. The place where the suction force came from was exactly where Henry's fist went.

The Qi released by Henry was so powerful that it could affect the transforming abilities of the middle-aged man.

In the blink of an eye, the middle-aged man's movement of dodging was slightly affected by this suction, which slowed down his dodging speed. Although he protected the vital parts, he could not avoid Henry's powerful fist.

The middle-aged man was punched in the chest by Henry. He spurted out a mouthful of blood and flew backwards.

At the same time, Henry also used the strength of his feet and rushed toward the woman in the black dress.

Seeing that the middle-aged man was defeated in an instant, the woman in the black dress did not dare to compete with Henry, and kept stepping back.

But how could her retreating speed be faster than Henry's? Henry directly broke the Qi shield in front of the woman in the black dress with one hand, grabbed the neck of her opponent, and lifted her with one hand.

The woman in the black dress's feet were off the ground, and she couldn't even lift her Qi up. Her legs kept kicking wildly. She reached out to break away from Henry's palm, but she couldn't even break the Qi in Henry's arm.

On the other side, when the middle-aged man saw that his companion was caught, he shouted, jumped up and chopped toward Henry with a battleaxe.

"Trash!"

Henry gently spat out and quickly pointed three times with the other hand like a lightning.

Ordinary people couldn't even see this, but Henry was very confident that he had pointed at the middle-aged man's three death acupoint. Moreover, the Qi entered the middle-aged man's body and sealed all the third death acupoints.

The middle-aged man's entire body seemed to have been electrocuted. His movements were stiff as he fell to the ground.

"Zhang... Henry, are you serious..." The woman in the black dress made a voice with difficulty. "Are you serious? Are you going to be the enemy of... the Zhu clan?"

"Of course." Henry put forth his strength and directly pinched the neck of the woman in the black dress. At the same time, he lifted his foot and heavily stepped on the middle-aged man's head. Under Henry's foot, it burst like a watermelon.

At the same time, the redness in Henry's eyes faded away.

Lila stood by the side. Such a bloody scene not only did not frighten her, but it gave her a feeling of relief.

This time, Henry did not order people to clean up the two corpses. He casually threw the body of the woman in the black dress aside.

"Let's go." Henry said to Lila.

"Oh, okay." Lila was stunned for a moment, and quickly jogged to keep up with Henry.

Henry and Lila gradually walked away, and the two bodies were lying quietly in the industrial park. These two bodies were deliberately left here by Henry to be seen by the authorities.

In Du Hai, the Zhu Family.

The gates of the entire Zhu family manor were tightly locked.

No one went in or out of the door for a few days.

In the hall, a middle-aged man in a black gown sat at the head of the table and looked around.

There were more than a dozen people standing below him. They stood there, causing an obvious fluctuation in the air. These people were all masters of Qi-controlling Realm.

As the Zhu clan ranked ninth, there were many Qi-controlling Realm experts in the clan, far more powerful than those of the Zhao clan.

"Well, is there any news?" The man sitting on the main seat was the one who stabbed through Wilbur's heart a steel knife when he slaughtered the Zhu family that day.

"There's still no news. That b*tch ran away with the treasure, and it's not easy to find her. But now it's confirmed that she's in a small city in the northwest," said a middle-aged woman.

The man on the main seat nodded and asked again, "Is the old guy willing to speak? Where did he find this and where did he get the information?"

"He still won't say anything," a man in his early thirties replied. "The old man is stubborn. He probably knows that if he says something, he will lose his life."

"Ha." The man on the main seat sneered. "If he felt that death was more comfortable than being alive, he would be willing to say it."

"I see."

The person on the main seat stood up and said, "Well, we have gathered together today. It's not just about

these problems. There's something to announce."

After the person in the main seat finished speaking, the people in the hall all looked at him. He pondered for a while and then said, "This time, since the old man forced us to come out ahead of time, although we are a little passive in the situation, it's not without benefits. Let's spread the people out as soon as possible to find the Spiritual Stones. Although in this rotten era, the spiritual energy is exhausted, there are still many unearthed Spiritual Stones left outside. The big day is coming, and we must catch up with most people. This time, we will be able to reproduce the glory of the Zhu clan!"

The faces of all the people in the hall were filled with excitement. They knew very well what the so-called "big day" meant. When that day came, all the clans would no longer be hidden, and when that day came, this era would become the era of clans! Moreover, it would be the best era in history!

A passenger plane took off from Yinzhou and headed straight to Du Hai. Four hours later, it landed at Du Hai Airport.

Henry and Lila walked out of the airport.

"Lila, what is the date today?" Henry asked as he walked.

"September 30th, what's wrong, brother Henry?" Lila was puzzled and did not understand why Henry suddenly asked this question.

"Remember this day." Henry took a deep breath and said, "This is the carnival before the vacation!"

Henry strode out of the airport.

The moment Henry walked out of the airport, countless figures who were sitting at the airport, including men and women, old and young, set off almost at the same

time and headed to the outside of the airport.
