

Chapter 704

This was what had been passed down from the underground world.

The one hundred thousand Reapers of Radiant Island, all over the world, only listened to the orders of one person. They were everywhere.

Back then, there were some who asked about what it would look like if all of the Reapers gathered.

No one had ever been able to answer this question, because no one had ever seen a group of Reapers. No underground force had ever been able to make Radiant Island pay so much attention to it, even The King Region.

The scene of Reapers gathering did not happen before, but it did not mean that it would never happen in the future.

The moment Henry and Lila stepped out of the airport, countless figures followed Henry closely.

Some were male, some were female. Some were old and some were young. Some were well-dressed, and others were ragged. All of them were engaged in completely different professions, and at the same time, they walked the same.

Henry walked in the forefront, followed by a group of people. They looked like a fierce beast's huge mouth. Under Henry's command, they were ready to attack!

On Du Hai's streets, in hotels and shopping malls, people were gathering at this time.

Wearing a pure white Han costume, Future sat in front of the French window of the hotel room and wiped the cannon tube extending from her back. Suddenly, her pupils contracted. With a smile on her face, she opened the door and strode out.

When she stepped out of the hotel's front door, figures gathered behind her from all directions.

Future strode forward like a shooting star and walked in one direction.

On the waters of Du Hai, there was a cruise ship leaning against the shore.

A big white man with a bald head jumped off the deck and landed on the dock. Countless ships docked, and dense figures appeared. Together with the big bald man, they walked toward the Zhu family's manor.

With a briefcase in his hand, Felix took out a pocket-shaped silver pistol with a smile on the corner of his mouth.

On the highway around the city, trucks passed by one after another, and the machete in Alex's hand was shining with cold light.

Moon Goddess in a floor-length long dress attracted countless gazes. She was originally noble and holy, but because of the long whip in her hand, she had a wild nature.

An Aston Martin 47 sped up on the street, and the motor roared. Wade was holding a cigar in his mouth, clutching the steering wheel with one hand, and a black knife was lying quietly in the passenger seat next to him.

The dark golden cloak was blown up by the wind and Red Hair's figure slowly appeared.

The sudden appearance of so many strange scenes on the streets of Du Hai naturally caught the attention of the government.

All kinds of phone calls had already blown up the official landline of Du Hai.

At the same time, the phone of Radiant Island continued to ring out.

Peze, the major-domo, picked up the phone leisurely. "The clan is fierce. This is a war of the underworld. Pay attention, I'm talking about war! The fire has reached China. It's time for you to check the original agreement. Take a good look at it."

After saying that, he hung up the phone directly without waiting for the other party's reply.

In the Zhu family's manor in Du Hai.

The gate of the manor was tightly locked. More than a hundred members of the Zhu clan stayed in the manor. Because of the management of the Zhu's business, the manor was completely self-sufficient and they didn't need to go out.

"Ah, you don't say. That old man's mouth is still closed, even though his nails have all been pulled off. He didn't even scream."

"That's right. I'm not happy with that."

Two young members of the Zhu clan were lying leisurely on the lounge chairs.

"Do you think we only want to exterminate the Zhu Family this time? It's no fun at all. Last time, the Patriarch insisted on killing all the people. He didn't even leave one girl behind, so we didn't have any fun at all."

"Next time, we'll have to be more careful. I heard about this mortal power is called Radiant Island. There are many girls there, and there are all sorts of them. One day, when we slaughter our way to Radiant Island, we'll leave all those girls behind and enjoy them every day. That will be a great pleasure in our lives."

"Haha, it's just a mundane force. As long as Patriarch doesn't restrict us, just the two of us would be able to destroy this faction."

"Either way, a bunch of mundane ants. To be honest, I can't wait to see the shock in the eyes of these mundane forces when they see our clan."

"What's the world's number one? They're nothing more than a bunch of garbage."

The two young men from the Zhu clan burst into laughter. They talked freely. In their eyes, anyone who was not a member of a clan was just like a dog or a pig.

Under the loud laughter of the two young men.

There was a wide path outside the Zhu family's vermilion gate.

In the past, in front of this road, there would always be a lot of people gathering to develop a relationship with the Zhu family. Since the last time Henry appeared and Wilbur spoke, no one dared to come here.

"Clatter! Clatter!"

A light footstep stepped on the road in front of the Zhu family's gate.

With the appearance of this footstep, the dense footstep sounded.

If one looked up from the sky, they would see that the densely packed figures were coming from all directions to this path.

Henry, who was walking in the forefront, said with a smile, "I am here."

"Boss, you are here! Although Old Zhu is a little old fashioned, he is actually a good person. You can't just stand by and watch the Zhu family being bullied, can you?" Future's clear voice rang out.

Red Hair in his dark golden cloak walked behind Henry. "This isn't the first clan we encountered."

As he walked over, Felix took off his upper suit and casually threw it away. The pocket pistol kept spinning in his hand.

Moon Goddess walked over with a long whip in her hand and the King's Ring on her finger was filled with a wild and peculiar kind of beauty.

Sea God, the bald man, showed his white teeth and carried the sailor knife that he had salvaged 3,000 meters under the sea.

Behind him, there was Alex with two machetes. At the moment he took off the two machetes, there was a sound of metal collapsing.

"Boss, how are we going to kill them?" Wade carried the black blade on his shoulder as he walked over with large steps.

"How?" Henry chuckled. "Of course, don't leave any of them alive!"

Henry took off a black ghost-face mask from behind and put it on his face.

At the same time, the Kings from Radiant Island put their masks on, including the countless figures following behind them. They pulled out masks and put them on.

With the sound of metal crashing, everyone took out a sharp blade from behind their backs and pointed it to the ground at an angle as soon as they put on the mask.

Wade raised his sword and roared, "Use the blood of the Zhu clan to pay our respects to the souls of our Zhu family!"

Wade's voice rose into the sky.

The members of the Zhu clan, who were still residing in the Zhu family's manor, were all very clear that something was happening. They were shocked by the roar.

Two young men of the Zhu clan, who were lying leisurely on the reclining chairs, had doubts in their eyes. Then, they shouted, "Who is yelling there?!"

"The people who are going to kill you!"

Chapter 705

There was a loud bang.

The Zhu family's vermilion door cracked open due to an external force. Just as the two youngsters of the Zhu clan were about to move, they felt that they could not move. It was not that they were unable to move, but that they did not dare.

A strong sense of fear pressed down on them, making them unable to lift up a little bit.

The pressure brought by the figure in front of them was like a mountain. The mask with the ghost face was vivid and lifelike, and the fangs were exposed, ready to eat people's flesh and drink the blood.

"You..." A young man of the Zhu clan trembled with teeth trembling. It was not because they were too weak, but because the pressure that these people in front of them brought was too strong.

The clan did not come out. Although they were powerful, they did not have a lot of battle experience.

Henry was called the King of Hell. The people who died under him could definitely be piled up into a small hill. Even if he didn't talk, the pressure alone was enough to make ordinary people fear.

Henry didn't waste any more time talking. He punched out with both fists and the two men's heads exploded, splattering the blood everywhere.

"Who dares to come to my Zhu clan and yell?!" A middle-aged man of the Zhu clan rushed out. He was a Qi-controlling Realm master.

"Dove taking over the magpie's nest, and you still dare to shout!" Wade wielded a knife in the air, mixed with an extremely sharp Qi, and went straight to the middle-aged man from the Zhu clan.

After countless Spiritual Stones were transported to the island, the Great Patriarch did not hesitate to gather all the stones into the Energy Emitting Formation. Under the rich spiritual energy, Wade naturally had a breakthrough. He was not a weakling. As a descendant of the Temple Guardians, his bloodline was extremely powerful. He just needed an opportunity to enter the Qi-controlling Realm.

Countless figures surged into the Zhu family manor from every direction. The battle was on the brink of breaking out.

The people of the Zhu clan were not all gathered in the Zhu family's manor. At this moment, there were only about a hundred people in the Zhu family's manor. When countless Reaper came over, there was an overwhelming slaughter.

Except for the top Qi-controlling Realm masters, the Zhu clan had more people than the Radiant Island. The ordinary warriors could only be killed.

There were more than ten Qi-controlling Realm experts on the side of the Zhu clan. Regarding Radiant Island, Wade and others had entered the Qi-controlling Realm due to the rich Spiritual Air on the island. Although their time was shorter, their fighting experience was far from what the Qi-controlling Realm experts of the Zhu clan could compare with.

The middle-aged man of the Zhu clan obviously entered the Qi-controlling realm much earlier than Wade. But at this moment, under the attack of Wade's sword, he could only retreat one step at a time.

A middle-aged man in black stepped on the air and said loudly, "Who are you? How dare you be so presumptuous to my Zhu clan! Die!"

The middle-aged man widened his eyes, and a three-meter long Qi-shaped saber formed in the void and slashed straight toward the ground.

When the Qi-shaped long saber appeared, even the surrounding air was dried up. It showed how powerful it was. If cut by it, countless people from Radiant Island would definitely die.

Two ferocious tigers rose from the ground and rushed straight to the long saber, biting it.

"Heh." The black-armoured middle-aged man chuckled and looked at the place where the two fierce tigers had pounced over. "I didn't expect Radiant Island to be able to stand up for the Zhu family. From the looks of it, the two people sent to Yinzhou are already dead."

These masks represented the identity of Radiant Island.

Henry also took a step forward and stood up in the air.

After such a long time, Henry's control of Qi became more and more proficient, and he could also gather Qi under his feet like the other masters of the Transforming Realm.

The two of them stood in the air. In ordinary people's eyes, their actions were like that of an immortal. However, the masters from the Transforming Realm clearly knew that this was only the simplest tasks. The path of martial arts still had a long way to go.

A dark gold ring was put on Henry's hand. The two of them stood in the air and looked at each other across the air.

The middle-aged man in black looked at the dark gold ring on Henry's hand and said, "You deserve to be Master Lu's successor. You are in the secular world, but you were able to reach the Transforming Realm. It seems that there are many impartations left by Master Lu."

Henry sneered and followed the middle-aged man's words. "What Master Lu left for me is beyond your imagination."

The middle-aged man in black had a dignified look in his eyes. He didn't know whether Henry's words were true or false. But Master Lu's identity made him feel awed. Even if he had died, he wouldn't dare to look down on Henry. After all, Henry, who he thought was just an ordinary warrior, actually had the strength to enter the Transforming realm, and several people he brought along also had reached the Qi-controlling Realm.

The black-robed middle-aged man shook his head. "We, the Zhu clan, have no intention of becoming enemies with Master Lu's heir."

"Ha." Henry gave a chuckle. "Don't you know who Old Man Lu is? Your clan openly attacked the ancient kungfu family. In my opinion, you are challenging Old Man Lu's prestige!"

"You misunderstood." The black-robed middle-aged man explained. "The Zhu clan and the Zhu family are of the same blood. This is just our family's affair."

"Your family's affair is to exterminate the Zhu family?" Another two ferocious tigers appeared behind Henry.

The black-robed middle-aged man frowned. "You, do you really want to be the enemy of our Zhu clan?"

"It's your Zhu clan who wants to be the enemy of the entire ancient martial arts world!" Behind Henry, two fierce tigers came out together.

The middle-aged man in black waved his hands, and two long Qi-shaped sabers gathered in his hands. The long sabers were extremely sharp. With a stroke in the void, the fierce tiger that was pouncing toward him with its bloody mouth disappeared in the air.

Henry's eyes narrowed. He could see that the strength of this middle-aged man in black was stronger than any master he had ever met.

The middle-aged man in black shouted, "Since you insist on fighting, then my Zhu clan will fight with you!"

The middle-aged man wielded his sabers and rushed toward Henry in the air.

This kind of fighting in the air was a kind of way to test the strength of the opponent who had reached the Transforming Realm. Unless a person's internal Qi was not thick enough, he would never dare to fight in the air.

After all, it was not easy for a master from Transforming Realm to walk in the air. Every step he took was equivalent to a burst of Qi.

The middle-aged man would not fall to the ground. He wanted to see how strong the successor of Master Lu was. In terms of the strength

of his internal Qi, the middle-aged man was absolutely confident because he had practised for many years. How could he be inferior to a young man?

In the face of the middle-aged man's attack, Henry was not afraid at all. In his dictionary, there was never fear. When facing an unknown opponent and an opponent stronger than himself, Henry's first thought was to... find a way to kill the opponent!

The cyclone in his abdomen spun rapidly. Henry took a step forward and rushed toward the middle-aged man at the same time.

The two Qi sabers in the middle-aged man's hands were extremely sharp, and they could kill people.

Henry was familiar with all kinds of fist arts. He could make the tiger and crane with his hands. Sometimes he produced a mantis, sometimes a snake, and sometimes an eagle.

In a short period of time, the two men had exchanged dozens of moves.

"Haha! You deserve to be Master Lu's successor. You have such strength at such a young age. You deserve to be the strongest person of the younger generation in our Zhu clan. Unfortunately..." The middle-aged man's eyes were cruel as he stabbed toward Henry's chest.
