

Chapter 711

Therefore, when Henry crushed his mobile phone in his pocket, Wade and others were already preparing to relocate the island.

Radiant Island's speed on the surface of the sea gradually increased. With the Sea God's fleet leading the way, the entire island's resistance was greatly reduced. Gradually, the entire island disappeared from the surface of the sea, as if it had never appeared before.

The night gradually grew darker.

A jet-type glider landed on the former location of Radiant Island.

When the cabin door opened, four figures in red robes came out, floating above the sea with doubts in their eyes.

"What's going on? Where's the island?"

"It's displayed on the screen. It should be right here!"

"Search around!"

The four men looked back and forth and rushed in four different directions. After half an hour, they gathered again.

"I didn't find it."

"They're hiding!"

"What a group of sly mice!"

Barry snorted coldly and clenched his fists. "Let them run first. Let's see how long they can run. The ancient kungfu family meeting will be held in less than a month. Until then, we will catch them all!"

The four of them took the plane and left with anger.

That night, a thousand-man squad passed next to the previous location of Radiant Island. This squad was formed from countless numbers of ships, and there was the word 'Zhu' written on each ship!

"Patriarch, what should we do?" On the leading ship, a young man walked to the deck and asked a middle-aged man.

This middle-aged man was the head of the Zhu clan, Joshua Zhu!

Joshua's face was livid. He looked straight ahead and said, "Tell everyone to get into the water now. Kill everyone you see!"

There had never been an underground force that could affect the dignity of a clan, let alone the Zhu clan, which was ranked ninth among all the clans.

The young man next to Joshua nodded and passed on his words.

More than ten minutes later, the young man ran to Joshua anxiously and said, "Master, we can't find it."

"What can't be found?"

"We can't find the island! We can't find it anywhere!"

"What?" Joshua's expression changed. He soared into the sky and looked down at everything under his feet, but he did not see the island as he had imagined.

Joshua landed on the ship and said unhappily, "What's going on? Is there anything wrong with the location?"

"No." The young man shook his head. "Master, I just got the news that someone from the Recluse Association came here today."

"Recluse Association!" Joshua's expression changed. "Could it be that the Recluse Association has made a move on Radiant Island?"

"Very likely!" The youth nodded. "Ever since, the Recluse Association has placed itself in an extremely high position. They have been self-proclaimed Guardians of Order of this world. Radiant Island had secretly attacked the people we sent out, and they've already broken the rules of the Recluse Association. Given their strength, destroying an ordinary power like this would be an easy feat. I am even beginning to wonder if the people we sent out had died under the hands of Radiant Island. An ordinary power wouldn't have that sort of power."

Joshua thought for a while and said, "It's possible. After all, it's too unrealistic that Radiant Island could kill more than ten Qi-controlling Realm experts of our Zhu clan. It is possible that the Recluse Association took an action. All the time, the Recluse Association has been arrogant. This time, it's their typical behaviour to specially take Radiant Island as a scapegoat!"

These clan members did not know that Henry had become a member of the Recluse Association. When they heard that the Recluse Association was around, they naturally thought that the Recluse Association had dealt with this matter.

"Since the Recluse Association has already taken action, I can only say that this Radiant Island is lucky!" Joshua looked at the dark sky above the sea. "Let's go. In a few days, the Recluse Association's people will come looking for us!"

The Zhu clan's army turned the ship's bow.

The clans had existed for hundreds of years. No one knew how profound their foundation was. For instance, the Zhu clan, which ranked ninth, had easily collected so many ships in the sea area outside China. This was one of the kinds of foundational skills.

Because of the strong power of Radiant Island, the news of the Zhu family's demise was like a storm in the underworld, sweeping through the whole of China in an instant. At the same time, the word "clan" gradually appeared in the eyes of these warriors of the underground

world.

How high was the Zhu family's position among Chinese ancient kungfu families?

Apart from the three big families in the capital, the Zhu family was the strongest. Wilbur, the old master of the Zhu family, was also very prestigious. His strength was ranked in the top ten in the entire ancient martial arts world in China.

However, such a powerful ancient kungfu had been destroyed within a day. If it wasn't for Radiant Island raising its banner and declaring war, everyone would have been unaware.

After the battle of the Zhu family, the Zhu clan decided not to conceal anything and went out to battle with Radiant Island. Many people were concerned about this battle. They wanted to know what kind of battle would happen on Radiant Island, which was called the underground holy land.

Was it because the Radiant Island continued to pride itself in this underground world, or because it had gained fame in the battle with the mysterious clans?

No one followed them in this battle. After dawn, countless ships headed toward Radiant Island. However, the holy land from their memories had completely disappeared.

"The island has sunk!"

It was impossible to say who it came from, but it was as if a hurricane had swept by. It was passed down from the various forces to the rest of the world. In less than half a day, virtually all of the underground forces had been discussing... the island had sunk!

Radiant Island which looked down upon the world. Radiant Island, which had once overturned the King Region and stirred up the revolution. Radiant Island and a person, which was known as the world's most powerful man, had sunk to the surface of the sea in a single night!

No one could imagine how terrifying this battle was. Everyone could only feel how terrifying the clans were.

The words "Zhu Clan" were deeply rooted in everyone's mind.

The first generation Sacred Land, Radiant Island, had completely fallen in a single night!

On the same day, the word "clan" came into everyone's sight completely.

It turned out that there was such a mysterious force that no one knew about!

In an ancient mansion in the capital, an old man sat cross-legged in

front of an ancient well and closed his eyes.

On the gate of this ancient house, there was a plaque with the word "Jiang" written on it.

The Jiang family was one of the three famous families from the capital.

"Old Master, you're looking for me." A 60-year-old man walked to the old man's back with his back hunched.

The old man did not open his eyes and asked directly, "Butler, do you have any news about miss Jiang?"

"Not yet." The housekeeper shook his head. He didn't have a surname. Since he was born, he had been in the Jiang family. The Jiang family gave him a surname of Jiang, but he didn't dare to accept it. "Old Patriarch, the island has sunk. Will we still hold the meeting?"

"Do you really think the island has sunk?" The old man slowly opened his eyes. His eyes were deep and boundless, as the cosmic starry sky. He gradually got up and bowed to the ancient well. Then he turned around and said, "That island is not that easy to defeat."
