

Chapter 726

It was drizzling. No one held an umbrella, and there was a hint of chill in the air.

"The master from Xiao Manor, Steve Xiao!"

Another loud shout came from the entrance of the forest.

Steve Xiao walked over from the entrance alone, looked around, bowed slightly to the members of the three big families, and then sat in the outermost seats.

Shouts came from the entrance of the jungle one after another. Figures came in one after another and chose the most suitable seats for themselves and sat down.

On the surface of Sosasmo desert.

Henry stood under the scorching sun, controlling the Qi in his body and integrating it into his meridians.

With a "bang", Henry finally integrated a wisp of Qi into the meridians of his right arm. But it took him three hours.

The moment this wisp of Qi merged into the meridians, the sand under Henry's body suddenly burst out.

"Use the Qi to change the environment!" Henry's face lit up with joy. "This cultivation method is really powerful."

Henry could clearly feel the powerful force in his arm.

"The first success is the slowest. Next, it will be much easier." Henry held his breath again, looking for the feeling that he had just had when he integrated the Qi into the meridians and continued to do so.

The first step of the World Devastating Technique was to integrate every meridian in his body with the Qi.

Capital City, forest, at four o'clock in the afternoon.

The seats in the back of the forest were almost filled. All the underground forces had come one after another.

The Nangong family from Yanjing was sitting in the second row, and the Yue family from Hangshi was also sitting in the second row. In the front row, almost all the seats were empty except for the three noble families from the capital city. Everyone was clear that there would definitely be people sitting in the seats here.

At six o'clock in the afternoon.

The light rain above the capital didn't stop. On the contrary, it became more and more intense. The rain wetted their clothes, but no one made a sound. They all sat there in silence.

This Ancient Kungfu Family Meeting was supposed to be a feast, but because of the fall of Radiant Island, the clan's strong rise had turned into what it was now.

A burst of sudden laughter broke the strange silence here.

"Ha ha ha, have you people of Xiao Clan not made any progress after so many years? You are still so weak!" A loud laugh sounded from the entrance of the dense forest.

Two figures were rapidly approached. Both of them were walking on air. This scene alone made all the underground forces here widen their eyes.

Flying in the air! In their eyes, this was the skill of an immortal!

Both of them were middle-aged. "You laugh at our Xiao clan, but you didn't make any progress. Your Su clan is the same. Let me see how strong you are!"

The two men fought in the air with bare hands. The speed was so fast that most of the people present couldn't see it clearly. One of them raised a palm and directly broke a big tree from the distance. This power made the people from the underground forces take a deep breath.

The leaders of the three well-known families from the capital city squinted at the two men in the sky. The appearance of these two men in this way showed that they wanted to show their strength.

"This palm of yours is not good enough, look at me!" Another person shouted loudly, and also raised a palm. This palm was aimed at the people of the underground forces next to the garden.

With a cold snort, Soul grabbed a wooden bench and threw it into the air.

The wooden bench had just flown halfway when it suddenly broke apart. It was affected by the palm of the man just now, and the man's strength was also offset by the wooden bench that Soul threw out.

"If you want to fight, you can go somewhere else to fight." Soul said.

The two men in the air looked at each other and stopped. One of them shouted at Soul, "Are you the one who can tell us where and when we can fight?"

The other man looked around and shouted, "All of you, leave here now!"

All the underground forces felt ashamed to be scolded like this, but they didn't dare to refute it. The strength shown by the two people in front of them was too strong. Not to mention the magic of walking in the air or the strength that could break a big tree from a distance, just their speed was so fast that people were dazzled by it and it made

these people from underground forces unable to resist.

All the people sitting in the forest looked at each other, and finally, they focused their eyes on the three big families from Capital.

Soul looked at the two of them with his hands clasped behind his back. "This is the place where the ancient kungfu family's gathering will be held!"

"Ancient kungfu family's gathering? How dare they hold a meeting like this? It's so funny!" The man of the Xiao clan directly stretched out one hand and took a step forward. Suddenly, he rushed toward Soul at a faster speed than before.

Before the crowd could react to what had happened, the member of the Xiao clan had already arrived in front of Soul.

"Since when can the clans go against the rules?" A shout came from behind Soul. A silver spear, which raised a fine rain, came from behind Soul. The spearhead with a cold light flashing went straight to the Xiao clan's member.

The face of the member suddenly changed, and he stepped back two meters before he escaped the sudden attack of the silver spear.

A middle-aged man in a silver robe appeared slowly from behind Soul. He looked very ordinary, but his body exuded a cold momentum.

The member of the Xiao clan looked at the man in silver and frowned. They said, "Silver Guest! Since when did official members attend the ancient kungfu family's gathering?"

The man, who was called the Silver Guest, stood with his long spear next to him and said with a poker face, "You have been making too much trouble recently. Let me announce a few rules."

"Rules?" The person from the Xiao clan harrumphed coldly and did not speak again.

At the exit of the forest, three large teams came in from the entrance. The ones at the forefront were Freud Su from the Su clan, Joshua Zhu from the Zhu clan, and the current patriarch of Xiao clan, Dylan Xiao.

These three people came over, and they naturally gave off an imposing manner even though they were not angry.

Joshua looked at everything in front of him with a smile. "Since Silver Guest has shown up, our Zhu clan must show him some respect. You'd better listen to the rules."

Freud nodded and replied, "That's right. After all, there are many more clans out there, not just our three clans. Now that the clans are bound to be re-born, we should set the rules ahead of time."

Freud's words were mixed with many meanings. First of all, it was to remind Silver Guest that the three clans were not the most important

ones among the clans, and there were stronger ones. Secondly, it was to tell him that the clans would inevitably come into the world and there was no need to target these three clans.

Dylan looked like a very kind person. "If there's no rule, nothing could be arranged. As for rules, it's good to set them early. Hahaha."

After the three of them finished talking, they looked at each other and then walked to the centre of the forest. The clan disciples they brought were scattered around the forest.
