

## Chapter 731

The voices of the six people from Radiant Island made everyone's hearts skip a beat.

Could it be that the Emperor, the Lord of Radiant Island...had truly died?

The legend of the underground world who once led a revolution. The person who had overthrown the King Region. Was he really dead?

The words spoken by the people from Radiant Island had already given everyone an answer.

White Rose could see the rain falling in front of her eyes. At that time, that man only needed to look at a person and the person would be so scared that their legs would go weak. Did he really lose? Did he really die?

Sylvia stood there, her pretty face had long since been drenched. It was hard to tell if it was rain or tears.

"You want my Zhu clan to pay with our lives? How arrogant!" Joshua roared. Although he had not yet understood what the people in front of him were doing, he, as a clan patriarch, had to crush the ancient kungfu families. Naturally, he could not reason with them. He had to fight first.

Joshua could tell that these were merely six Transformation realm practitioners. Transformation Realm was simply too weak for him.

Joshua grasped the air. The rain in the air, in an abnormal state, condensed into a water blade that was one meter long and Joshua held it in his hand. This scene once again refreshed the perceptions of all underground forces.

"Younger generation, you're too arrogant. I'll teach you a lesson on behalf of your elders!" Joshua shouted. He used the water blade to cleave open Wade's Qi, and then used it to stab toward Wade's heart.

Wade's eyes were red. Facing Joshua's attack, he did not dodge, but he let the sword stab at him. He still waved the knife toward Joshua's head.

Frowning, Joshua quickly changed his move, no longer stabbing at Wade. Even if the sword had stabbed Wade, he would have also been injured more or less. This time, the Zhu clan was going to step on everyone's head.

Wade's desperate fighting style made Joshua feel that it was a little tricky.

"B\*stard, I want you to pay for my brother's life!" Wade's attack failed,

but once again, he swung it at Joshua.

"You don't deserve to be an opponent for our patriarch!" Joe rushed over and drew out a thin sword from his waist, and then he stabbed it at Wade's broadsword.

"Get lost!" A crisp cry sounded, and the long whip of Moon Goddess broke through the air with a gust of sound and went straight to Joe.

Joe hurriedly wielded his sword to resist, which collided with the long whip, causing a lot of sparks.

Wade brandished his blade again towards Joshua without any hindrance. The red light on the blade became even brighter.

"I'm going to kill you! I'm going to kill you!" Wade roared, with a kind of irrational madness.

The Temple Guardians would accompany their emperor for life. The place where the emperor's eyes were pointed must be the place where their swords were headed to.

In the war against the Zhu clan, Henry hunted down the middle-aged man in black. After that, he crushed his mobile phone signalling to start the island's relocation plan. Since that day, Henry had never contacted Radiant Island again. Wade and others, even let Felix and Red Hair, spread out countless people to find Henry, but unfortunately, they couldn't get any information about him.

They had not heard anything, which made Wade and others keep a fire in their hearts. They were waiting for today!

The red light began to spread from the edge of the blade to Wade's body. The red light on his body became brighter and brighter.

In front of the distant wooden house, the old man in yellow and the old man in purple widened their eyes. "How is that possible?! The Qi of this child has risen from the Transformation Realm to the Qi-concentrating Realm!"

The elder in white looked at Wade and said, "The Temple Guardians are naturally gifted. He is full of rage and is affected by external things. Now his strength is rising rapidly, but the backlash could also be very serious."

"Old Bai, aren't you going to take care of it? Although the Temple Guardians are a clan, they are different from the other clans. You've always been in contact with each other, haven't you?" the elder Jiang asked.

"Hehe." The old man laughed and stroked his beard. "There's no need for me to worry about the descendants of the Temple Guardians."

"Wade, control your emotions!" Future shouted loudly after seeing Wade covered in red light. The complicated look in her eyes became

more and more intense.

Back then, after the plan for relocating the island had been activated, everyone on the island wanted to cultivate as soon as possible. Wade and Future wanted to use the power of science and technology to help themselves quickly improve their strength.

At that time, Future also understood Wade's state and knew that Wade had fallen into a demon's trap because of Henry's matter. If she didn't help him, Wade would be trapped in a thought dilemma and couldn't get out.

At that time, after careful consideration, she finally handed a small piece of Fire Crystal to Wade. She told Wade that the energy contained in the Fire Crystal was extremely mysterious and aggressive. She told him about the scene that the cyclone in Henry's abdomen was occupied by the Fire Crystal and told Wade to use it carefully.

But from the looks of things, Wade obviously didn't listen to her words. He had been affected by the Fire Crystal.

When the red light covered Wade's whole body, Joshua could not help being more cautious. He could clearly feel that the young man's Qi was pressing against him, and there was also a strange feeling of palpitation on his body.

Wade chopped down with his blade. Even the ground was cracked by Wade, extending four or five meters before stopping. The raging red light swept more than ten meters away. All the trees in front of them were cut off. The cuts were neat. It could be seen how sharp the light was.

Joshua waved his hand, and countless raindrops condensed into water sword under his command.

"Go!" As soon as Joshua pointed his finger, the water sword directly hit the red sabre radiance, offsetting the red sabre radiance in the air.

Joshua's eyes showed some seriousness. "Junior, you are young, but you have a lot of strange means. You forcefully increased your own strength. I'm afraid that only heresy has this kind of secret discipline. How dare you, an underground force, collude with heresy?!"

At this moment, Wade completely ignored what Joshua was saying. His eyes were full of murderous intent. He just wanted to kill the man in front of him.

"Kill!"

Wade wielded his broadsword and hacked out three streaks of Qi. The instant the Qi appeared, the expressions of the people around them changed.

"Hurry up and retreat!"

Wade's three rays were not solely aimed at Joshua alone. Even the scattered disciples of the Zhu clan were Wade's targets.

However, Joshua was able to ward off Wade's attack. The rest of the people did not have such strength, especially those from underground forces. This level of battle was a little too much to bear. If they were to participate, they would not even be qualified to be cannon fodder.

The two young disciples of the Zhu clan from the Qi-controlling realm were swept by the sabre ray. Before they could scream, they were cut in half on their waist, and blood flowed all over the ground.

The rain was getting heavier and heavier. The ladle poured down and washed the ground with blood.

All the underground forces were far away from this place. They didn't even have the qualification to watch at close range this type of battles.
