

Chapter 733

As an underground force, the strength of Radiant Island was beyond the expectations of the three clans. At the same time, the three clans present felt a sense of crisis.

It was not that the clans were afraid of Wade's strength. The patriarchs of the three clans could see that Wade, including the people from Radiant Island, had all increased their strength by force. This kind of strength could not affect the clans at all. However, the current situation was very tricky. Only three clans appeared in total. If one clan was affected by the strength of Radiant Island, then the remaining two clans would definitely do something.

Freud, Joshua, and Dylan were all well aware of this point.

Wade was already in a state of madness. He wouldn't listen to Joshua's words. The blood-red saber-light was frantically waved by him. The more strength he used now, the more impact it would have on himself. The burden on his body was far beyond what he could bear. Not only his blood vessels were red, but his skin was red as if it had been burnt by boiling water.

Facing the streaks of Wade's saber, Joshua and the other two did not choose to face him head-on. Now, the intensity of Wade's attack had reached the point where it could hurt them.

While Joshua dodged Wade's attack, he made a decision. It was no longer time for him to pretend to be strong. If the fight went on, he would definitely be hurt, and the other two clans would take advantage of them. Besides, Joshua was not willing, to bear the consequences for what the Recluse Association did.

Joshua avoided a streak of saber-light and said, "My friend, listen to my explanation. There is a great misunderstanding between our Zhu Clan and your Radiant Island. The one who sank your island was not a member of our Zhu Clan, but..."

Before Joshua could finish his words, he heard a voice coming from the sky. It pierced through the rainy night and rang in everyone's ears.

"The remnants of the island, who are privately violating the rules, and using forbidden arts, are meant to be killed!"

The shout was like a golden bell. When it rang out, everyone looked up into the sky.

Four men in red stood in the sky, covering their faces and standing in four different directions.

An extremely oppressive aura emanated from the four of them. Even the Qi-controlling realm experts had difficulties with breathing.

"Punishment Messengers...." Freud frowned as he looked at the four people who were flying toward him.

At this moment, Dylan's face, which was full of smiles a couple of moments ago, changed a little.

The four people who arrived were Barry and the other three, who had taken Henry to the prison.

The four people looked down from the sky. When they looked at Wade, there was deep greed in their eyes. They were very clear that the improvement of these people's strength was not due to some forbidden art, but with the support of the huge energy from the Spiritual Stone.

An ordinary Qi-controlling realm expert, with a small piece of Spiritual Stone, could enjoy it for a lifetime. Under the influence of a large and abundant amount of Spiritual Stones, they could experience such a situation in their bodies where the Spiritual Qi was overflowing.

Barry and the others licked their lips greedily. According to the information they had gathered, Radiant Island had at least a few dozen Spiritual Stones. With such a huge amount of Spiritual Stones, it was enough for the four of them to enter the late-stage of the Qi-concentrating realm. No, it would be impossible to even reach an early-stage of the Divine realm!

"Peasant from the island, go to hell!" Barry and the other three shouted in unison. Almost at the same time, they held the Qi-condensed weapons in their hands and rushed toward Wade from four different directions.

Barry and the other three did not have Joshua's concerns. As long as they could catch the people of Radiant Island today, it was worth it. No matter how much it would cost.

The power of their reckless attacks was far beyond that of Joshua and the other two.

Four Qi-shaped swords, which were four meters long, were waved by Barry and the other three people. They rushed toward Wade with the fierce wind-breaking sound and the cutting power that made people feel scared at the first sight.

Facing the four people's powerful attacks, Wade did not dodge. In his eyes, there was only one way to deal with anyone, and that was to slash at them with his blade.

"Watch out!" Seeing Wade turn a blind eye to such an attack, Future let out a desperate cry and fired two waves of flames at one of the Qi-shaped swords, which were powerful enough to destroy an armored vehicle. However, when the flame collided with the Qi-shaped sword, it did not have any effect. Before it had any effect, it was cut into two

pieces by the sharp sword.

Red Hair quickly struck out a wall of Qi in front of Wade, trying to help him resist the attack, but before the wall of Qi was completely formed, it was cut by the Qi-shaped sword.

In the final analysis, whether it was Future or Red Hair, their real strength was only in the Qi-controlling Realm. Even if they temporarily enhanced their strength through the help of Spiritual Stones, they still had a long way to go before they could fight with such a master as Barry who was in the Qi-concentrating realm.

Back then, Henry's ability to transform Qi was completely outclassed by Barry.

The battle style that Barry and the other three possessed was completely different from that of the people from Radiant Island.

If people from Radiant Island were to with against Barry and others with their bare hands, they would be to win. However, in terms of fighting with Qi, these people on Radiant Island, including Henry, were all beginners. They were far less experienced than Barry and the others in terms of Qi usage.

Four swords hacked in front of Wade, and cracks appeared on the ground where Wade was standing.

The people of the underground forces looked in horror at the four streaks of swords hitting Wade. They were all very worried.

In any case, Radiant Island belonged to the underground forces. Therefore, these people here were more inclined to believe that Radiant Island would win.

A cloud of dust was raised in front of Wade and completely covered him. The Qi-shaped swords from Barry and the other three men were too powerful.

At this moment, everyone's eyes were focused on the place where Wade was standing. They did not know whether one of the ten Kings from Radiant Island would be able to resist the joint attacks of such powerful people.

The rain in the sky was getting heavier and heavier, and it seemed as if the sky would fall at any moment.

The dust around Wade was quickly covered by the rain.

Wade's figure once again appeared in front of everyone's eyes from the dust.

"Wonderful! The King of Slaughter hasn't been defeated!" One of them cried out in pleasant surprise.

"He wasn't defeated, but..." One of them said with a worried look on his face.

"Hoo! Hoo!" Wade breathed heavily. He gripped a long black saber in his hand and thrust it into the ground so that he could still stand.

Although he had endured the attacks of the four men, it was still his limit. His black robes were covered with cracks, and his skin was densely covered with tiny wounds.
