

Chapter 738

This stone cave was extremely large, and the enormous entrance revealed itself in front of everyone's eyes.

When they came to the entrance of the cave, the underground forces, who followed Aaron, were all a little scared. They felt that this was like a fierce beast creeping between the mountains, opening its bloody mouth, waiting for them to fall into the trap.

At this time, Wade had already woken up, and the injuries on the surface of his body had almost recovered because of the medicine that Future had given him. These people had been practising a lot, so their muscle strength was much higher than that of ordinary people, and their metabolism was much faster. The healing speed of their wounds was several times faster than that of ordinary people.

Although the wound had healed, Wade's spirit was still very weak. His face was also a little pale. He followed behind Aaron, but he was not as full of energy as he was before. He just felt like a mouse trapped in front of a cat.

Aaron didn't stop at the entrance of the cave for a second. He strode in, and the others followed him.

"Haha, Brother Su, it seems that the girl from your family has had a good chat with my son." Joshua laughed and pointed behind him.

In the Zhu clan's team, Sylvia and Pan, the son of Joshua, walked together, with Joe by their side.

The Zhu clan's troops were much smaller than before. Fighting with Future and others had made the Zhu clan suffer heavy losses.

Freud chuckled, but there was a hint of doubt in his

eyes.

Sylvia walked in the Zhu clan's team. She knew very well that Joshua was placing her under house arrest.

Barry, Punishment Messenger of the Recluse Association, and the other three were very capable and bold. They strode not far behind Aaron. As Qi-concentrating masters, they had a certain confidence in themselves, and they were sure that no one would dare to kill the four of them except Aaron. However, Aaron, under the restrictions of the rules, did not want to do anything at will.

When they entered the cave, it was very dark. The sound of footsteps clearly echoed in the cave. They could not see the end at a glance, but that there was a huge arc in front of them, which made people unable to see what was inside. The cave was four-five meters tall and ten meters wide. There was no problem to walk side by side with seven or eight people.

As soon as they stepped into the cave, they could sense that the temperature in the cave was much lower than that outside. They breathed in and out, and they could see their breath.

It was not an exaggeration to call this place a refrigerator.

"Phew." As soon as Aaron entered the cave, he let out a long sigh of relief and said, "It's interesting that my junior fellow apprentice to bury my master here. Let me think, according to the rules of the sect..."

After more than 30 meters into the cave, Aaron stopped and looked like he was thinking. A few seconds later, they saw Aaron clap three times, and the sound of his clap echoed in the cave.

Then, Aaron took two steps to the left, took another step

forward, and took three steps back.

When all this was done by Aaron, a flame suddenly lit up next to Aaron. It was a torch stuck on the wall beside Aaron, and suddenly the torch lit up.

At the same time, a series of "puff puff puff" sounds were heard one after another. The torches, about five meters away from each one, were distributed on both sides of the cave. All of them lit up and illuminated the whole cave.

These torches were not high-tech, but they lit up all of a sudden, which startled everyone in the cave.

"It seems that it's not bad for me to be the first disciple." Aaron smiled with satisfaction.

Barry and the other three Punishment Messengers walked aside and looked at the torches next to them carefully. Then they sneered, "You controlled the fire stones with a small mechanism, lit one of the torches, and lit the other torches through the fuse. I thought it was some kind of advanced method. In the end, you were just playing tricks."

"Haha, is it like a retired magician exposing a junior?" Aaron laughed.

Listening to Aaron's words, Barry and the other three people's faces were a bit ugly. Aaron's words were clearly full of sarcasm because the Recluse Association was the best at playing tricks.

"I agree with that. Haha." Joshua laughed out loud.

After Aaron lit up the whole passage, he didn't waste any time and strode into the depths of the cave.

In addition to Aaron and the people from Radiant Island, the rest of the people walked carefully. Future and other kings were very clear that Aaron would not harm them, but the rest of the people did not think so. They were

afraid that there were some traps in the cave and they would die here if they were not careful.

After all, this cave was Justus' tomb.

Justus' name was too well-known.

Although everyone was careful, they didn't slow down and they were not far behind Aaron.

After walking for more than ten minutes, the accident that everyone imagined did not happen. This cave seemed to be the most ordinary bomb shelter. Apart from being a little colder and empty, there was nothing special about it.

The cave was very deep. After walking for another ten minutes, they finally came to the end half an hour after entering the cave.

Even though they thought it was the end, it wasn't. There was an enormous bronze door that blocked everyone's path.

The bronze door was four- five meters high and ten meters wide. It completely sealed the path. There were various kinds of strange beasts carved on the door. The beasts stretched out their sharp claws and opened their bloody mouth. Their lifelike eyes stared at the person in front of the door, sending out a chill.

There was a lot of dust falling from the door, which was from the cave. It was obvious that no one had come here for a long time.

The bronze door was closed, and there were two huge copper rings at the junction.

Aaron walked forward, shook the copper ring with his hand and knocked on the bronze door. A muffled sound came. Judging from the sound, one could tell how thick this door was.

"Everyone, before opening this door, I have something to

say. You must listen carefully." Aaron turned around and said loudly.

Aaron's voice kept echoing in the cave. At this time, no one said anything but listened to his words quietly.

For ordinary underground forces, this trip was likely to be an opportunity to change their life. They were very curious about the Recluse Association and the clans. What was in Justus' tomb? Why was there a legend that his tomb was the best ancient martial treasure in the world?

Aaron said loudly, "Everyone, I hope you can be mentally prepared. What's behind this door? I can tell you clearly now that there are countless ancient martial arts methods, a huge number of Spiritual Stone, and all kinds of Qi-refining methods."

At this point, Aaron deliberately paused for a while.

The sound of a cold breath could be heard in the cave.

The ancient martial arts techniques, the large number of Spiritual Stone and all kinds of Qi-refining techniques. The eyes of the three clans including, including Barry, were filled with intense greed, not to mention the ordinary underground forces.

Chapter 739

On the way here, ordinary underground forces had already asked the three families from the capital how those people could hurt people with the Qi and walked on air.

The response of the three families also let the underground forces understand the matter of Qi.

But it was too difficult for the underground forces to control the Qi. The Spiritual Stones and Qi-refining cultivation methods mentioned by the three big families were just like the legendary treasures. Even if they knew, they didn't know where to get them.

But now, Aaron clearly told everyone that what they wanted was behind this door! Those from the underground forces were breathing heavily.

"Everybody." Aaron shouted again, "I tell you, the people that have not mastered the Qi, this in order to let you know that once you enter this door, your world will change dramatically. Your world is no longer the original world. There is no obvious dividing line between you and the clans. The protective umbrella in front of you will be removed. Therefore, before opening this door, I give you three minutes to think about whether to stay here or to turn around and leave!"

After finishing his words, Aaron stood there with his hands clasped behind his back, no longer making a sound.

There were doubts in the eyes of the four Punishment Messengers and the members of the three clans. They didn't understand why Aaron suddenly did this. What was he doing?

That person had separated Qi and soldiers with the help of the Temple Guardians, preventing ordinary people from getting in touch with Qi and preventing people who had Qi from entering the secular world. But what Aaron had done now, didn't it mean that he would return everything to the beginning?

When the people of the underground forces heard Aaron's words, some of them looked determined. They stood there and did not move. They saw the strength of the clans and how powerful they were. They felt that they were insignificant. This time, they came to find a chance!

There were people who stayed here, but there were also those who left. The appearance of the clans and the Recluse Association would let those who left feel how powerful they were. Even if they found an opportunity to cultivate their Qi, they would not have the chance. If they were really using the Qi, then the clans could attack them at will. At that time, even if they were stronger than they were now, their life would not be as good as it was now.

Everyone had a weighing scale in their mind to measure the pros and cons, and they had their own choices.

Three minutes passed.

Compared to the few who had left, the vast majority of them were still here.

After all, the people who had arrived were the leaders of every underground force. There was a wild ambition in their hearts and they were unwilling to succumb to others forever. Many people believed that the appearance of this Qi was an opportunity. One was to change the current situation and the other was an opportunity to surpass those huge factions!

Aaron looked at his watch on his left wrist. When the

third minute had passed, he did not speak but faced the bronze gate. He grabbed one of the copper rings with both hands and pulled it hard.

While Aaron was exerting his strength, a three-meter-long white hand formed behind him and grabbed the copper ring. This white hand was the form of Aaron Qi.

Under the power of the white hand, the bronze gate creaked and slowly opened, revealing a small gap.

At the same time, the top of the mountain shook slightly, and gravel fell from above.

The energy emitted from Aaron's hand made those who had not reached the Qi-controlling realm lose their balance. In this way, they could barely open the bronze door, which showed the weight of the door.

The bronze door was slowly opened. Everyone, including those from Radiant Island, held their breath at this moment.

This was the tomb of Justus Lu! The master of the legendary Emperor of Hell, the guardian of the ancient martial arts circle of China!

The door gradually opened and the scene inside appeared in front of everyone's eyes.

Above Shen scenic area, the wind and clouds were blowing.

The black shadow and the dark golden sword shadow kept clashing in the air.

Henry and the man in black stepped in the air. In front of them, one part of the trees was broken and the cliff was flattened.

The man gasped and said, "Impossible! When you were caught by Barry, you didn't have such strength!"

"Oh, I'm wondering why this guard of the hell would keep

an eye on me. It seems that the four Punishment Messengers are not the only ones who are involved in this matter. You are also involved." Henry held a dark golden long sword, and his state looked much better than that of the man in black.

There were all kinds of wounds on the man's body at the moment. Although he looked fine on the surface, Henry had suppressed him in every aspect.

The prison guard of the Recluse Association who was in charge of Hell was suppressed by the head of an underground force. If this news were to spread out, it would probably shock the strongest clan.

After all, those who could become prison guards were carefully selected. They were called prison guards, but in terms of strength and status inside the Recluse Association, they were much higher than the Punishment Messengers who travelled the world. In the Recluse Association, the status of prison guards was quite high.

Now, a prison guard was actually suppressed by the leader of ordinary underground forces!

It didn't mean that the prison guards were too weak. It meant that Henry was too strong!

Silas arranged training for Henry. It could be said that he completely squeezed out the potential Henry had at the current stage. In the Hell Prison, more than 20 experts who had been locked up there were all famous figures in the world at that time. Each of them had the courage to block ten thousand enemies, and Henry was able to hold on for dozens of seconds under the joint attacks of all the people. It could be seen how terrible Henry's strength was now.

As long as he could catch up with the realm of Spiritual Qi, Henry was absolutely invincible.

It didn't matter that the dark golden sword in Henry's hand was still illusory. It didn't matter that he had just entered the Qi-concentrating realm, and was only at the early stage. It would still be enough to suppress the man in black.

Henry raised his sword and pointed it at the man in black.

The man's eyes were solemn. He had a premonition that if he continued to fight, he would very likely die. This premonition was particularly strong.

Henry stepped forward and appeared in front of the man in a blink of an eye. He now used the man in black as a standard to measure his strength. What made Henry feel a little pity was that the man was too weak to exert all his strength.

At this moment, the man in black had already wanted to retreat. Facing Henry's attack, he no longer chose to fight head-on. Instead, he adopted a way of defence.

Chapter 740

There was no one in the mountains of Shen scenic area. Henry and the man in black fought without any scruples and played their own tricks.

The two men advanced and retreated. After the man in black was frightened, he stopped fighting with Henry. He fought and retreated, looking for a chance to leave.

However, Henry already had a killing intent in his heart. How could he let the man leave so easily? As long as the man relaxed a bit, as long as the man dared to expose his back, the dark golden long sword in Henry's hand would definitely take his life.

In the underground cave.

The huge bronze door was completely opened by Aaron. All the major forces and clans, including the Recluse Association, thought that there must be a special fairyland behind the bronze door, and maybe it would be like the legendary cave paradise. However, the truth surprised them greatly.

Behind the huge bronze door was a round stone hall of about 400 square meters with a height of ten meters. There were two floors in the stone hall. The second floor was connected by the curved stone ladder on both sides of the bronze door.

On the first floor opposite to the bronze door, there were two two-meter-tall bronze doors. They locked down a stone room. Around this stone room, there were also some stone rooms. The stone rooms were embedded in the mountain wall, and there was no door.

Aaron said loudly, "Here, there are no machines or hidden weapons. The first floor contains ancient martial

arts methods and the Spiritual Stones. The second floor contains methods of cultivating Qi and refined weapons. How much you can take depends on yourselves!"

After finishing his words, Aaron stood next to the bronze door and didn't move anymore.

Aaron's performance stunned all the people present. "What's going on? Take anything we want? Is there such a good thing in the world?"

Everyone present had a puzzled look on their faces.

Future and others did not hesitate at all as they strode towards the stone chambers that had no doors.

"Come on, let's go too!" Joshua looked Aaron up and down doubtfully and led his men to a stone room. If there were really Spiritual Stones, they would be a great help to the Zhu clan. Now the Zhu clan had four Spiritual Stones, which added up to the size of an adult's fist. It could be said that each piece of Spiritual Stone was very important for a clan, especially for their clan which was ranked relatively low.

Since the Zhu clan had made a move, the Su clan and the Xiao clan naturally would not stay still. They also took their own people to choose a stone room and walked in.

The people of the Recluse Association stood still. There was greed in the eyes of Barry and the other three, but they were also a little scared.

The people of the underground forces stood in the hall and did not act rashly.

"Spiritual Stone, it's indeed a Spiritual Stone!" A pleasantly surprised voice came from the stone chamber selected by the Sus, but it quickly lowered.

This pleasantly surprised voice made these underground forces who were still standing in the hall unable to stand

still. A man from the outermost circle walked cautiously into a stone room. The moment he stepped into the stone room, it was like a wave that caused those who were still standing in the hall to crazily rush into the surrounding stone rooms.

Everyone hesitated in the hall, but they just couldn't believe that Aaron would give the treasure to everyone so easily and let everyone pick what they wanted. But when this matter was confirmed, no one would be polite and they all began to fight crazily.

Soul of the Ji family, with a long sword at his waist, walked to Aaron and said, "I don't understand, why did you do this?"

Soul did not rush to grab those things. The heads of the remaining two families, Ernest Jiang and Gavin Bai, also stood in front of Aaron and looked at him puzzledly.

Aaron smiled slightly. "What don't you understand? Everybody should practice Qi together."

"In the beginning, it was you people who separated Qi and soldiers. Now, you want to let the people recultivate, you..." As soon as Soul opened his mouth, he was interrupted by Aaron.

"Soul Ji, I tell you, you are a big man. You should use more rigorous words. What do you mean by us? I was not born at that time. It was done by our ancestors. What does it have to do with me?" Aaron crossed his arms in front of his chest and rolled his eyes.

"Can you deny what your ancestors have done?" Soul stared at Aaron.

Aaron shrugged his shoulders and said, "I think you are really interesting. Your Ji family ancestors used to squat in the toilet, does that mean that you don't want to use toilet seat? Really interesting."

"I don't want to talk nonsense with you!" Soul shouted in a low voice, "You have brought so many people here today to show ancient martial arts methods, Spiritual Stones, and Qi-refining methods in front of everyone. You know very well what will happen next. You can't control them!"

Aaron said with a careless face, "In this world, since ancient times, the law of the jungle has been that the strong will survive and the weak would die. What's the difference between today's competition and tomorrow's fight?"

At the moment when Aaron's voice fell, a scream suddenly came from a stone room.

"Put down the Spiritual Stones!" At the same time, a fierce shout is heard.

Soul looked at the stone room where the sound came from with an ugly look. Soul and the others had expected such a situation. If there were benefits, naturally there would be a fight.

A bloody figure with a transparent crystal in his hand ran out of the stone room. But as soon as he appeared, a long knife pierced through the heart of his back, and blood sprayed. He lay at the door of the stone room. Another person quickly picked up the stone in his hand and was ready to escape.

Facing all this, Aaron leisurely leaned against the bronze gate as if he had seen nothing.

"Aaron, are you trying to exterminate ordinary underground forces?" Soul shouted angrily.

Aaron shook his head slightly and said with a smile, "It's not extermination, but assimilation. From now on, there will be no so-called underground force or clans. Those who left before have been eliminated by the dark world.

They have to live slowly and become ordinary people. From now on, the world that people can't see will be even crueller."

"What are you doing?" Soul clenched his fists.

One after another, screams of agony kept coming from every stone chamber. Due to benefits, the underground forces, who had been temporarily suppressed by the clans, began to fight.

"What?" Aaron raised his eyebrows. "Of course, this is evolution. The clans have appeared. Do you want to change this world into a clan's world or everyone's world?"

Evolution!

The words said by Aaron shocked Soul and the other two. The meaning behind these words was too much.

If there was an evolution, then naturally, there would be elimination.

They would either be eliminated by the underground world, or they would eliminate the underground world.

Soul and the other two looked at each other. An idea popped up in their minds at the same time. The world was going to change!
